

105th Knowledge Seekers Workshop March 17th (Chinese Military to get technology, U Feeding Machine and change of organs, Messiah, Lead Gans, Alcohol and Cirrhosis of Liver, ILS)

(:12). Keshe talks about action against pedophile, one man indicted, and the ladies who have been attacking the KF. We won't speak about these cases because in court case now. (:20). The Chinese will show technology to their government. (:24). It is us who decide the level of change, part of it will be forced on us due to absorption of the change, and part due to wanting to be free from all the attachments. How we decide the evolution in the part that is in our hands, but we have already agreed part to start with, this means it's us who decide to what extent we want to evolve. Looking at the plants the evolution is very direct, they decided they want to be free that every bird or insect that comes across me will take my flower somewhere else that I can produce and reproduce. Some plants decided to have a thorn that certain size animals can't come in, some to open flower in different shape, other to feed themselves with it. (:26). The evolution has not been open to man, we have been evolving mainly according to structure of environment or conditions forced into, man has never realized until now he can decide his own genetic melt, he can decide his own evolution. The new technology is putting it into his hands and this is scaring a lot of you, that's because you have lost trust in yourself that you can decide what the evolutions going to be. You can decide how much you want to be attached or detached or how much I am going to lose that you adjust your systems in respect to interaction with your environment, how much you want to change, what kind of environment, then accordingly your body will evolve. For the first time we are moving just a little bit toward the level of the plants, the vertical people. You can see how far behind you are even though they think they are the king of the animals. They may be in respect to "horizontal people", but to creations of this planet you are far, far behind. (:28). We have not managed to decide ?? our eyes, nor the height we want to be, or what shape we want to appear, fat, slim, twisted, but the plant kingdom has already achieved that. They decide the shape of their petals, color, height etc. and what they take from the environment in respect to what they are shaped. Scientists have not understood this, man's lack of knowledge has given him a false safety that he is the best, and he knows everything. The fish decide what color they are going to be, how deep they can go with mask, what temperature they operate in. As humans we don't have such a say, we just go because the environment dictates. We have not manage to take control of our evolution, we have adjusted to the environment we arrived (in). The choice is how much of the animal behavior are you prepared to give up to become part of the U Community. How far are we prepared to lose our upper respiratory system, now that we know that by thinking of the food we receive its energy. The ability to decide on evolution brings a lot of responsibility, it brings a condition how much to what level you want to give up or have the same capability. (:31). I am giving up my intestine, liver, etc. now I would like to have something else that makes it easier to absorb more energy where I need it, I will give as much as I want. It's not an all one way system, you get a chance to create a condition for the generation of new organs, new pieces that can help you in the Space. Some races in the Space have developed an understanding of technology that they can evolve according to the energy storage they need to carry, which means would we change our liver to a new Gans storage battery, that's all we need to do, the spectrum of energies

we need to store, but we cannot use the P matter like liver, we only can use the energy Gans structure of the system. Will we evolve to a point we can create out of our liver a PI condition that allows us to operate with a new storage facilities. Or would the storage facility be like a sphere in a way that stores a spectrum for us. These are all the possibilities. (:33). Part of the evolution of our body will be enforced on us by the amount of energies and the way we absorb energy. Would some of us lose our bone structure because in becoming transparent and knowing that we don't need to walk, we can decide our own position, is bone necessary in Space because no land to walk on, and now we learn a new process. All this will happen in the next 12 months the way it's going we will see evolution and because it's on the PI level it will be very rapid, extremely rapid. We have no choice, it's the decision we made, and what we have seen with ILS and MS, people will change the same way. In the teaching from now on we will show you the process of evolution and being able to control it. (:35). In being able to interact and force the condition we want it to be for our own existence. Do we want to go to the limit of losing without controlling, or hold on to most of the things we have, but we control the change that we feel safe with. How do you control it and exert forces to change you where you want it? It's easy, when you start the process in controlling energy, you do so both consciously and unconsciously decide which and what is needed in part of organs you think you may not be in need of. In many ways it will go beautifully, the first generation of conversion they decide to hold on to some parts in case we go back, or I don't like it, like a part time insurance policy. (:37). I want to hold onto the intestine until I am happy I can fit into the Space community, do I understand the languages. When you decide to make change and be instrumental, Oh, I can see parallel and others who live their lives of which I am afraid of living. What if I loose this but keep it in the background, then in interacting we find out that, we have been afraid of nothing, a phantom. Do I need to catch, or bring something to my mouth to eat or do I absorb what I need the way I need it, but I still want to know that I am eating, I don't trust my E yet, this was stated very clearly by Alex on Tuesday, he touches anything he tastes it and gets the energy, so he gets the confirmation that he is getting the energy from what he is touching. But Jackie has gone a step further, he trusts in what he sees, receives it if he wants to. ... the answer was in what was not said, I asked them if they lost weight and yes a little, but none said they got fat, they have access to full U energy so why don't they balloon up. (:40). These guys have access to a full pot of energy and have whatever they like, 20 bananas etc., BUT no they lost weight. You say, okay they were dieting and not eating, in fact are they changing the P matter energy to U matter energy and their body knows according to their E what size it has to be. Would there come a time when they are in danger and tap into the U energy and become a hundred times bigger? Because it fits the environment they are in. Now we see the weight loss is not due to not eating, if they have all the energies why don't they grow fat? This is how the U works because the E has a strength field and in that aspect of the energy field if they are satisfied they do not take anymore. Now that we reach the position of the balance state in what we need, would we reach the state of all of us having the same expectation that we want to be happy, not to be hungry, not to depend on the plows, all want to be wherever we like to be, would this mean because of the E of a given strength, is the same, all the human race would look the same, we all become silverish, or blue, whatever, and when we see that color in the Space, oh, these are the guys from Earth. What about in this evolution when you lose

your bones, this is one of the main things that will happen to us, because Ca is an Element still matter state in the body, so we will replace part of our bone structure with the same kind of E, same kind of legs and arms, but without bones, because bones is the only matter state Gans which exists on this planet and not in the Space. (:43). So you will be walking but not with the bone structure, if you realize that your brain has already programmed for this, but you do it so naturally that you don't even think about it. What happens every time you raise a foot to put in front of the other one, you call it the retraction and extension of muscles, what if in reality your brain has already programmed the ?? in it, because at this height all your structure muscles are in the Gans state, I want to have such a strength, so when it reaches such and such strength its as high as you can bring your leg up, or you can walk, so in the operation of the E we already have in our brain the E side, the P side has tried to give it a stick (bone), but when we can control everything directly through our E, do we need the bone? By losing the bones but in a way keeping the structure of the bone in body as it is, we still walk, but it might be slightly funny because now there are no bones or sticks to hold it together, BUT the field strength is the same in holding it together, then we MaGrav position ourselves. (:45). The other problem in deep Space, how am I going to change my lung, how going to trust to let go, some will go very slow, and will let some function of the lung to still be there, you'll become hybrid's like the animals that can live in water and on dry land. You become ?? top hole with the option of motion ... you decide if I am prepared to let part of the function of the lung to be changed with another system specialized in the energy system which is needed for E in the U. Look at the structure of your body and learn from the failure of part of it and success of another, as you are evolving and you want to change the things slightly in P structure. (:47). If I put my hand on my mouth I will die in a couple minutes when the 3rd cycle of oxygen can't be taken in to absorb an energy level which is needed for the E part of body. This body has failed in this area and it's the cause of the majority of deaths, this is the same with all the animals on this planet because they were created out of the gas part and then in interaction with the matter part they got their P, they have this problem, that's why when we smash a fly on the table he dies because we stop his breathing cycle, a fish (out of water) tries to breath but he stops because he cannot covert so much of it fast enough, he still converts some the energy H in the water, but he cannot do so much in the air, he needs a thickening, we call it water. In this structure of the creation on this planet the biggest failure is that we have never made an energy storage for our E, but on the P part we did, called the Liver, that's why you can go on without eating for days or months, because you go to the reserve tank in the liver, where do you think your energy comes from, when I don't eat but seem to have the same energy, where are you taping into, the liver. (:49). But on our breathing side we have never ever organized a storage system. So in the process of evolution you have to do this, it has to be part of your priority, storage for the energy for the E strength which is the main part. Now that you are the master of your evolution you have to think of a lot of things, because the last time you left it to the P, which has taken the E to slavery by not allowing it to produce its own energy storage, if it had when I put my hand on face it does matter I have a tank I can go for 2 or 3 days without breathing. I use that energy strength for my E from the tank. In the process of evolution for becoming Space Man, you have to go through change of stomach, but now the most vital thing is the energy storage for the E side. But something very crucial about this energy storage, it doesn't matter if you

make your lung into a sphere or ball, or you decide the easiest way, why should I get energy brought in convert it and then pump it and then spread the energy, what if I just make a unit out of the heart which absorbs the total energy which it needs and it distributes. (:51). Part of your evolution is to replace the lung with the heart which goes out of its shape, it still can have its palpation if it likes, but now it becomes an energy PI unit, which now that it doesn't have any air, it uses the energy of the U PI, it taps to what is available and at the same time because its become a PI of itself it becomes its own storage system too. But it decides how much of the energy it wants to release out of what is stored. There is a lot of decision making by the man himself. You have seen how easily we have replaced the lungs with the heart, which is not just a pumping station but it becomes an absorption station as well. Because of the heart's chambers and the strengths it accepts in spreading the energy, 2 chambers pumping and 2 sucking, each one is built one is for the Lymph, E, and different parts of body, each one has a different suction strength, it's not the sucking but it's what strength it likes to absorb. Because heart is becoming a PI is doesn't stay as a storage source, it allows the man to become independent of the air. (:53). What's the next position, air was the essence of the creation of man to start with, the AA came from the air, the production of the AA lead to the creation of the Man in interaction with P, so now in the Space where do we find the AA to create the Man (reproduction). This is a biggest stumbling block for a lot of people. How can I reproduce on the basis of this planet and I can survive and reproduce to give love and be loved by. Do we need to enter a dimension of total independence, but dependent on the new source and new life. Do we need food now we know how to absorb the energy of it without eating? Or do we go through process of giving food knowing what we want to receive from it, in the process of the strength do we need the muscles to even move to where we can create a flexible reactor system which is already in all our structures to move around as fast as we like, instantaneously across the U. (:55). But in that process we will be transparent, because transparency shows there is nothing and then you are transparent fields and positions are accommodated for you to move in the way you feel. These are far away from the understanding of the man, ... it was said this morning because you have no choice. It's a Pandora box which we opened and it has no end, man has become the creation of the planet, but now has become the passenger of the U. You stay attached to the Earth until your E is ready to become part of a bigger structure, and then when you are ready you shall see. You have blinded yourself because of the E you carry, we see how man has started and can control the evolution himself, but the point is, that when you get to that point you decide what you want to have and what is going to be the package of energy for the time you need it, then comes, all of you will receive the power to produce what you need when you need, you can imagine I want to have a bouquet of roses for my loved one. (:57). Do you need to cut the rose or because you created the imagination of it in the energy levels of it are the same as you thought you wanted to have an orange from the system and you tasted and felt orange, now the process is reversed, I want to give an orange that my child feels he has received an orange, your systems are MaGrav systems, they take and give, what you take you can also give. Now you understand how the system works. If you want to breast feed the child, it's just for him to digest your energy to come in a Gans state that he can use, now you can give the energy in a Gans state to start with, so is there a need for a milk. Do we need to breast feed, from now on we decide, from now on we are the Creator, I made the

Man in the image of Myself, not ?? in P but in E too. Man is too P, do we want to bring the E in line with our P, or do we want to live in the E life without P, this is the choice the Man has to make, the door we have opened to humanity. It's for us to make the next step, much like when you see people from different parts of this planet with different ??, different understanding, and E, you see the people of the same group, area, follow the same kind of E, BECAUSE this is what that environment creates for the man, to carry the same E and same feeling. (:59). We evolved according to what we ate in the environment where we lived, and an even greater reason is because we drink huge amounts of water. So people in the Alps drink bottled water from their own region, but now we see the water has a big effect on our E. The Swiss are this way or the Italians in that part are a different way because the water there is slightly different because it's a different geological part of the planet, which creates a specific strength, what he calls romantic Italians. Now we have a huge problem the food and water in that area created an E, sentimentality of the Italians, (and the resolution of the way the Swiss work), there's a crank in the job now, we are shipping these waters across the planet in different bottles. Are we shipping say a million bottles a day from one part to another, and if the water in essence is the fingerprint E of the Italians from that part, would the guy who drinks the same water in Australia and he only wants that water, would his E become that of the Italian? (1:01). Because the water was the essence of the creation of the man and its ?? of the man in that part of the planet. Are we becoming without knowing it a homogeneous race, because we are eating each others food which is essentially us, breathing each others air, and now drinking each others water, which is essentially the backbone of E energy field transfer. Have we by evolving and becoming industrialists becoming a people who understand and want to have, to be good, are we creating a clone of our E in different parts of the world, or P ?? because we are eating, shipping goods from the environment that created that specific condition. Are we seeing Chinese look Italians because they are drinking only Italian water, do we see romantic Chinese very fascinating people because they only drink the water from Italy. The fingerprint in the water from that area ?? ... created the romantic people. So do you understand what is going to happen to us in deep Space we take energy from other parts of the U of the creation of the God, would we become the Man of the Space with his behavior. Us evolving to become Man of Space to tap into the energy of the U Cycle which has created the calm existence, would that free us to become the same. (1:03). One of the biggest problems of KF we would have so many enemies, it's not that we are promoting peace through technology the problem is the ones who made the guns to kill and see the armies and militaries as a way to assert their power, see that there is no use for them, they are kicking and fighting the whole way. We do not take from them, we give to them to elevate to our level. This is why we see so much opposition by the governments like USA, Canada, France, because the backbone of the economy comes from selling arms to kill, how can they become nations of peace. A recent report released by CIA and Canadian intelligence reads nicely, we are terrorists because we promote peace, there is not much credibility of the action of this man, because now everyman is using his technology. We are getting confidential reports of what the governments are issuing about us. When a new government goes to them they say he's this and that and a nut cake, the nations receiving these reports wonder why he's not as bad as they say. (1:05). They (intelligence) are creating it good for us because the interested nation are listening, there must be something to this KF. You start

the revolution by receiving the energy from the U, the understanding, the possibilities of not having to kill which has been the habit of the man killing an animal, tree or another man, now they have to become us and this is where a World Peace process starts, by us sacrificing our own evolution to be men of peace, we change them to become like us, because in doing so we decide on the bandwidth of energy which the body of man needs and through in that position because we came from each other, we enforce it on them without them having a say that they lose their animal behavior. The process is very simple the understanding is very hard, a lot of you see a lot of opposition because now we are doing it without relying on anyone to do it for us. We are evolving according to our own intentions. Some of us who are criticizing want to carry on with the same abuse, because it has brought them a lot (wealth power) ... (1:07). ... we choose a next home to involve the man as a totality because wherever we go we bring new energy into the cycle of the nations, like in Italy, now in Dubai. The governments were blind to establishment of such an organization, now opening their eyes they don't know how to handle it, the Americans say he's a terrorist but where ever he goes he's giving away free, the Canadians are saying he's all nonsense but how come they are making factories and people are buying his products, because now the nations are seeing how ridiculous all these fabricated stories are. In the process of delivering and living the life, we enlighten that they absorb our energy, and then we start the process of the peace and change and everything else. For 10 years the Belgians gave so much false info about us and everybody bought it until we moved to Italy and start teaching, and the Italian government said there is nothing right in all those false info, now we are going to protect this. When we move to Middle East these people are not aware of these technologies even if we have support at the government level. Then our enemies, those who want to keep the killing going have bombarded the Middle East with stories of us being terrorists etc., (1:09). But they see how we live and they start asking questions. The lies from the Belgians have spread to Americans and Canadians, this is a benefit to us, it has forced them to sit down and watch every teaching, and these scientists, military etc, are understanding there is a new chance. Thank you for writing all the shit because now it has come back to the foundation as an asset. In the next generation with the opening of the new heart for energy no one can lie, transparency and equality. If neither of us are lying we won't see any colors, if one is lying it means the fields are different and creates a "color of lie", I don't need to speak the language. We are walking into a new cycle where we create energy with love, equality, and being correct for ourselves, because now we know the level we can judge. (1:11). We don't judge we look at the interaction of the fields, there is no need for spoken word, million listen to these teachings, you listen to the words. I can make an E position of strengths that fits everyman on this planet, and I can make you all cry, or make you laugh, I never see you, but I release the energy which is in human race that is called the laughter or cry strength. Jackie tested the taste of the orange, one thing you forgot in the whole process of the Cup, you put the orange on top and drank the water, it tasted and smelled like orange, in fact you have already received it because you wanted it, an developed it, but now you confirmed to yourself, oh this is what I received. Does your E will dictate the future of mankind, the answer is yes. I had to make all sorts of gadgets, systems you had to have the Gans, Coils and cores, but what if we choose 3 other planets in this Solar System and each set will be part of the SF and in this process us on this planet become the 4th, if we and we decide do we need 3 sets in

a SF from it the way we want, or can we use and tap into the energy of this planetary system (Solar S). (1:14). You see you understand only according to your intelligence, you only can comprehend at the level which you can increase your E, or comprehend your own E, when there is a conflict b/n E and P we get anger, because E can not see the work of P, but what if we bring the strength of the E equal to P, there is no conflict and we make the side of peace, the level strength energy of the peace. You have systems for comparison, you have your E in respect to your P and now you can slowly create the colors of the U Communication language. If I feel happy my P should be the color of happiness, contentment, joy, reproduction whatever. All I need to show is that I am at peace with myself and my P in respect to my E, and this is the color of it, because this is the color I don't take too much and I give little which is not needed that I can confirm my existence, but I can confirm to the others to see, then we start learning the process of U Language. (1:16). How we become ourselves the reference point for the U language, we become the reference point for the others to understand the U language, and because we achieve this the other souls will evolve accordingly. You become the cancer of Peace, of equality, and we see that cancer doesn't become a big ball but starts with a seed. Every one of you is a Messiah, accordingly if you understand what it means, to bring Peace, to be the savior of the man himself from his own wrong doing, not to bring peace to the world, because when you are at peace with yourself you create an environment of peace. I am "Medi" the beginning and the end. We stand for our own action, according to the interaction we create from the others in respect to us. Because now we stand correct the only thing left is for them to become correct. How many of you have been to these teachings and we've seen with Jackie, Ali, and a large number of you are creating different systems, how many said I want to taste an orange, and tasted it, how many said we don't feel hungry any more, we take what we want, I give first what I want and I take because we are following a path. (1:18). I am going to ask you a question you be the judge of yourself. How many of you asked this one question, I want the energy of peace to be in peace with myself? But the greed of P gives you the confirmation of the existence of the man. How many could ask give me the energy of love? Which means I can love and give unconditionally, asked to receive the energy of Peace and with it give the energy of peace at the beginning so when it receives it, it spreads across the planet. You are too greedy to see what you give out as excrement, as urinate, you go to the system to take, but you have not matured enough to understand it gives you what you need, is your intention to receive. The energy of peace has a taste, a joy ... I tell you NONE! You ask for the energy of love because it means I want give but I want to receive to taste it, I want to love people, now you know all these systems can feed not only E but also the P. How many of you next time we put these systems in public will ask for peace, for me to get peace with myself that my heart becomes a new energy of PI that it doesn't need the lung and my new energy PI the liver will take what it needs that it brings balance b/n my E and my heart and liver which is my P that I am at peace and I see no light (colors) that I become transparent, maybe now you understand why the heart is positioned so close to the liver. In becoming in no conflict they become one, then you become the man of the U. We are too P to take what we need, too animal to take only what we need, and just walk on two legs. (1:21). Would we learn from now on not to take from the system, BUT ONLY GIVE to the system, because we know we take what we need. I tried to teach the group with Jackie the first week they were only taking "oh, it

tastes good", one got drunk, high, E , in the process of the teaching I taught you have to give to receive, all of you start doing that because I have to be right, but now go to the next step of the maturity of the man what about "I only give" I want nothing from the system, then would the I become the status of the prophets of the past that they gave their lives to serve humanity, or do I become the ?? light of the Creator, that it only gives because he knows he will receive what is there to be received, for him to recycle that he can give more that the others can be created, because in the P we have a limitation and it leads to our tangibility, where the love of the Creator is unlimited. Even our own P existence is the acceptance of our own limitation of the creation's love, it's we who have limited ourselves with our P condition, where now if you learn the process of the creation you can elevate yourself to the soul of the love of the creation, unconditional, intangible and equal to the rest. A lot of people ask, you claim to be the Messiah, I don't claim to be the Messiah, I claim to understand the working of the U which gives me what it needs to give me, I am the Medi, the return of Christ, of Buddha or any name you want to call it, because I understand the work of the soul, of the servants of the God, which means you have to be part of it to be able to understand it. Next time when you stand in front of your system ... Just Give! without the worry what ?? I (it) might take. (1:24). Then if you can keep to that path you will understand that you understand the Totality. You'll understand how come I don't get fat, now I can tap into U energy and have what ever I want, why don't you have a feast of every food you can imagine and not get fat, because if you haven't seen the key its because in this position in this new structure your body only takes what it can bring balance btn its P and E, that become at peace. And this sees the change of P and in coming near to each other balance with the Peace inside Man. Is it our expectation that has brought the limitation, and in that we manifest ourselves because it's as much as we can carry from the love of the Creator, the answer is yes. Now that you've learned a new way that you can give, and you can follow and do it, you'll find out is there a need for the P of the Man to confirm his existence when he knows he exists in all dimensions of creation ... I am the Creator. It needs a lot of maturity, because if you come to the point you decide to become P again, that becomes you're new limit of understanding. (1:26). Questions. With the giving to the Pl system we enable the balancing of the E, could we receive symptoms from unresolved E issues of the past? The beginning of this question has a huge mistake in it which answers the rest itself. We don't give the balance of E, we give the balance of E and P together because they now are both ?? fields, this is again the mistake of man, he wants to think what he's giving but he doesn't understand that the system takes both P and ?? as much as the E, because now we hear that the people who are doing these things they say they don't go to toilet much, the ?? thing is finished, a little bit, so the body balances both, and then it gives what it doesn't need, or it thinks another entity needs what he has, because now he works on the E level of the U, he's giving on the strength of the matter state which his P grants a ?? stake too, so that is why you find peace. In finding that peace and finding the communication on how to give because you are not ?? you won't loose much on the E or P, you start seeing the cranks where the problem has been, and that you might call it the opening of the E of the past, because these E is where we put markers, we like to keep them because they have been the reason for us to have a discussion, fight, or argument with ourselves and others because we created markers. Now that the soul together with the P are giving and receiving what they need, there is no marker, many of these markers ?? have energy

packages, they have a language of the E strength, then you call it fear, or joy. (1:29). Next time you stand in front of the system say I don't want any E to be given, but take as much P energy as you like. It is you who have to learn that you have to give from both, according to the level which both want to give, equal to guarantee the balance, and it takes a long time before the E and P part of the energy of man to come to balance, because one has to gain the trust of the other, and one has to go the speed of the slowest. I wonder if we mass weigh a person who has a system and then again mass weigh them in 3 years or 6 months, would their mass be the same? I doubt it, the weight might stay but not the mass, because the mass changes according to the MG field strength of the balance of the energies. In time we have to make a scale for measuring the mass of E and P. (1:31). Maybe this gives you an answer why the Chinese and Eastern culture reads the pulse which is the E, and the tongue shape which is the color of the P to state everything wrong (diagnose) with the man E and P, because somewhere the balance of the 2, the man who was observing, observes the Totality also, because he is connected to the pulse of the E and see the color of the P on the tongue. Is this why the KF work has resonated with a lot of eastern cultures, because they work on the true understanding of the E and P, Yin and Yang, and to be perfect they have to be in balance and equal. This is why people of the East are more in tune to understand our teachings, because the West has gone too much to the black, the P and very little to the white or E. In the East is mainly balance, if you go to Africa it's mainly white (E) and that's why they are black skinned, because that's the side of the P the E is pure white. We have a lot to learn. Rick asks him to expand on idea of dark and light. (1:33). When you are equal, in balance you don't create light you become transparent, when you absorb everything because you think it's your right to have, then you become the Nano layer on top of the Cu, you even cover the cover of your own created darkness, but inside you are still Cu color, the color which is traditionally known is not absorbed, is radiated ?? back, but is this the truth, or is the color we see is the interaction b/n what it is in the environment, which is balanced, and what is ?? the entity itself which is absorbing and not releasing, or is it that the balance of the energy in the mass is always to take more because I might need it in the future. The colors are balanced you don't see any, you become transparent. The point is a lot with the East Asian culture especially yin and yang, 2 half circles which twist inside each other, that ?? other side, white should be transparent, and you cannot see the darkness of the black. Can we make our E transparent to be a giver? that in that process our P side which is the absorbing side of the energy to hold on to, to become transparent also because then it becomes in balance with the other side. If that happens you have a unified being total to be transparent. (1:35). Do we have to be absorbing out of the fear, that we might not be there to exist, or can we exist in the knowledge that we are there in the Totality and not necessarily in the line of P, then how do we know our existence because this is us in respect to our environment to create a barrier we call magnetosphere in respect to the others that it confirms our existence. This happens in the U quite a lot we are blind to it, look at the structure of the Galaxies there are no stars but we see the effect of their fields in the rest of the U where they confirm their position, the galaxies, stars and planets that are totally transparent because they are there you walk into them but because of the fields they produce are in balance with their environment they are operating they are not visible to the man of earth. Where the others who have come to the equality of the E and P they see them because they are at the same interaction strength. A lot to understand, we are

getting all 7 billion, we start with 1 and in time get to the whole lot, every creation on this planet and then we will see if man is ready to accept his position as one of a kind, part of the Totality and not the king. (1:37). Mental malfunctions, hallucinations, anxiety, what is it P? It has a spectrum of the strength according to your E and P part, what is anxiety, fear, is it the strength of the E not wanting or fear of the P being afraid of losing its supply line which is the E. Everything has a strength, it's for us to measure it and in strength is a spectrum and within that spectrum according to its P structure of the man and the E strength, has can go from one level to another. Every plant on this planet has a green leaf but not all the leaves are the same color across all the species, it means that every leaf has learned, created a condition that it can absorb certain fields, now we understand the CO2 box, and it can emit certain fields, let say it absorbs certain C of a given strength spectrum, because all the C's are not of the same spectrum, so you can see the variety of the colors of the creation in the vertical, even the color of the pebbles, then you can see that spectrum creating so many different colors to absorb a given specific CO2 or C structure is created. (1:40). And the Oxygen or energy released to be a part of the structure has the same variation in strength. We see this in the world of the Water and the fish, they put all sorts of fish in the aquariums and none of them eat each other, because the energy they provide doesn't fit the one which the predator needs, that's how they survive. The same is with the plants, they take the energy which fits the way they are structured. The humans and all of us created out of the AA from the combination of 4 Elements of the gases part of this planet has the same, I can only absorb Oxygen and C which are the given strength, in that respect my energy absorption is different then yours, because I only take a specific kind of CO2, and a specific Oxygen level strength that suits me as I live in Iran, I become pious and a man of love, it gets mixed up, we see the Iranian that go to America they become as animal as the white animal because now they are in West, because that energy of the intolerance of the environment creates animal behavior. (1:42). We absorb different energies according to what that environment, are environmental matter state in a gaseous state gives us, allows us to guarantee our existence. It's very interesting this animal behavior of the man now has taken hold because if no one makes guns or kills there is something wrong with them, so we put gun in there as we kill them and tell them they are animals because we want to sell them guns, because now we are in power. I push you to try to understand, I tease you that you can have as much gold as you like, but these people who are ma of death making arms, killing, they don't want the P position, rather they are involved in the E control of their own ?? lust. This is why for the man of peace they are so easy to handle. Because you haven't understood you can give them all the gold in the world but they are not interested, because the E ego trip is much more important, so they are more vulnerable then the man who wants the P of the gold. To change the warmongering people in that game is so easy because in the P state you have to go out and create the gold to give it to them, but now you have seen the status of the system I have given you, if you wanted food it gave it, you give love of peace. (1:44). Love means giving unconditionally. The more people make these system the more these people (warmongers) get disturbed. From today go back on the process to give the love of peace, you will find out that you elevate their position, and then when you touch their E they will have nothing to do with the tangibility of the gold or anything else. The time will come and the man will not remember why he is carrying a gun. In the Core Team of the KF the first thing we gave

them was to elevate the P of the Prophets of the past that they all become the same, that they are equal. The second task was to elevate the World Leaders, ?? not only the soul but on the P level. And now the whole of you can elevate your own E according to the love of peace and as you give it has to be received otherwise it has no where to go. You have been looking for a machine to give you the chance to give food, energy etc, to give the man to become peaceful, NO sir, you have gone totally the wrong way, because man has 2 parts E and P, with these (? systems?) you are feeding the P, and you are happy with it, oh I had a steak, Champaign I got drunk ... I don't have to go to the machine anymore I just wish and I receive it. NOW GO out and GIVE the LOVE OF PEACE! (1:46). Go to the System and say I don't need anything because I know I receive but the condition of giving is I want my E which if it is correct to be the E of peace, I have plenty to give because I confirm all the rubbish comes to me and to the love of God, which means the giving the peace, and then you see where does this peace end up ... man will walk not knowing why he is carrying arms. One of the biggest Aircraft Manufacturers went to one of the KF and threatening him, if he teaches and works for the KF we are going to do this and that to you, the wife had to pull a gun until the police came, because she knew she was correct in standing her ground, the husband teaches for the peace and not the guns. These people are getting disturbed, where are they going to sell guns, have all the luxuries, mistresses, etc. when people stop buying it, they see the work of peace as a threat. Now there is no Green Peace, which is connected to the P of this planet by deception, because if the color of your peace is not tangible there is no color so you give unconditionally, you don't need to be. Start understanding the changes that you are bringing. (1:48). The Aircraft M worked with KF 12 years ago, now threatening teachers wife and child. Stand in front of MaGrav Unit and give to them the love of peace, if you see a color it means you are not honest yourself, not the color of the eye but the color of the E. You feel the pain, I have lied to myself, I am giving because I want something else. At KF we see and are subject to a lot of these threats. When they captured me in Canada for 11 days they said they'd put a bullet in my head, I prayed for them, they released me as a criminal back to the criminals that were holding me, when I got back to Brussels, they let me go, if you are a criminal they put you in prison. We are in the same position today nothing has changed, now the bigger criminals see their interests in danger because the interest is to sell arms and kill, while we are promoting One Nation One Planet. When you are when you can not sell anything different. Next time you stand in front of these machines don't ask for what you want, give what is the true intention of you, and then see if the system takes it. (1:50). And if it takes it, it has to give it somewhere, and if it gives it, it lands on those who, go back to 129 Tesla in the Reactors, the one who is weakest, who is more warmongering, which uses more, so he gets elevated to become peaceful like. We do not get discredited anymore because now with the number of organizations, factories we are saturating the planet, we are the winners, because our intention is peaceful. And it was made a promise, when he comes the Lamb and Lion will drink from the same spring, and the time has come, I fulfill my mission, but that this time it doesn't go bad like the last time in Egypt, only the pure will carry on. The mass communication is strong enough that our voice can even be heard in the deepest part of the ocean and the highest mountain, our mission is peace collectively as mankind, because now you have the tool of peace, you don't need to take from it, because this has been your habit to take. You change the cow, chicken, the leaf, to my system of energy, you haven't changed,

there has been no change, you just changed a different supplier, now it's in front of you as a Stacker, you have forgotten the principle, I gave you the knowledge to give, by giving to bring the human race in balance, now you have ?? yourself, now when you stand in front of the system you know if your intentions are what you say and with it you shall make a SS of your own life. (1:52). Which means your freedom in the Space. You have made the atmosphere the ?? tangibility restriction, not me, when you give to be free, you become free and the U is your oyster. It's your P dimension of expectation which has given you the prison of tangibility, and not the love of the Creator, because if you elevate you will live in different dimensions as you deserve to, according to the strength you give because ?? as you give you can receive on that level ?? Don't forget my message is complete, I am the Messiah and the Medei, the same as any other creation. It is you to elevate the position of the Creator that the peace can be established on this planet, nothing else. Next time you go to the machine, GIVE!. Man's habit is to take. But God is a giver, generous, kind. You are the takers, the abusers, and the deceivers because you deceive yourself, you abuse yourself and don't do nothing but taking. Change your position truly, and you'll find that in the next 24 hours World peace will be on the table. (1:54). ?? you want to promote you are the receiver. Rick asks if the Absolute or Creator suffers? No, suffering comes by the failure of the takers by taking the wrong thing. Like when you are a father you make everything possible for your child to have the best thing and the child goes and takes the worst, who suffers the child or the father who sees the loss? It's the same with the Creator. In a way yes that is suffering, but you always hope that they will change, the child will mature. And this child has been immature for millions of years. Maybe we can mature it now, maybe a lot of you will understand how the process of peace will come, a lot of you understand the Reality and control of the Totality, there is no control., but the reality is that you are all equal. I made the creation in the image of myself, so everything is equal across the U, not just the man. The eye with which I see God is the same eye which God see me, from 5,000 year old Sanskrit. Good Morning, if you understand it. (1:56). Then it is transparent because the eye see only the bandwidth which is allowed to be given by it to see, so if you give and you take the same, you have achieved the point. Now you understand why we came to Middle East, the completion of the mission, within the Arab and Islamic nations we announce that we are the Medei, Messiah, which means it's the time of peace. We have shaken the roots within Vatican and Christianity, they are running either way to prove that it is the others who are fighting, now in the Islamic world we bring peace, because we are all equal same with the Christians the path of God is created in one way, the prophets of God are equal in the eye of God, so how can there be difference b/n the man who fought, how can we be representative of the God when He is present ??, is there a need for Rabbis, Priests, or Mullahs... when the messenger is the man himself but he has to see the truth himself. (1:58). Vivek asks to share how the KF is improving positively the economy of the world. The meeting is the world wide KF people will become the Ambassadors and representatives of KF in their own countries, we will be elevating the state of humanity through our work, the KF. At the same time we have set up the manufacturing side that by receiving the funds through the operation of the P side it can be financed to promote the peace and equality, means none of the KF will be dictated by no man or organization, because you can influence the man when you can do it financially, restricting his finances, now through manufacturing we generate huge sums of finance where 51% of

the profits go to the support of the KF to promote peace, equality of the religions, education, new research and development, then the new development will feed back into the manufacturing that it creates the financing for the P part of the operation. (2:00). As long as the man is in the P matter state understanding of the U we have to support the man. We have been allowed to create the first KF Bank, we announce it in the next few weeks, part of the World Bank, but feeling and E of serving is very much on the level of the KF. At the same time we'll use a new currency which the KF will introduce in its bank. We are not going by National Banks we are going by One Bank for One Planet, it's there to support its citizens. The National Banks and their goals become irrelevant, over the past 30 years produced banking on the Internet without guarantees, I write a paper and here is my wealth, so we give the same right to the human race, One Planet, we will guarantee what you need, you stay at peace with yourself according to what you have contributed to the peace of the others. (2:02). In the coming time we will abolish money, what is the money, it's the level of the E which you pay you take. You wish to have a system for your house to stay warm, you receive the system, you bank with the KF to the understanding what we have explained this morning, then your feed system is your banking system. When you go to the Mosque or Church to pray, my servants you pray to give part of it too, for the future if you need it. This is what the praying is, it is the E of giving this is the nearest the man will ever get to the level of the Creator, that's why we pray, the true time to pray is when we give, it's like a piggy bank you put a penny in, you are used to the P sound of the "Clunk" of the money falling in, this time it's a chink, it's the energy saved in your banking system, in your E, then you say I went to the Church to pray ... {lost connection, maybe they don't want me to speak}, prayer is a part of the energy, it's a banking system, you bank part of your energy within yourself. It's like I said with the new heart to bank energy for the lungs, E and the soul has its own banking system. (2:05). Up to now you have been banking in your own bank but we called it the holy buildings (Church etc.). Or you have made a statue in the corner of the house and you pray and bank to it, every morning you put a candle on, go to Church on Sunday, but what you do actually is save your own energy of the soul your E, and then when you are in trouble you call on the deposited account, and then it so happens that the call was pure and you had a purpose that you help someone out ... you gave the energy you had saved yourself, now you call the bank, but it's already your own money, and that additional energy which is released that you called on is for you to use. It's the same as when you store food in the liver and then call on it when there is no food. This was understood fully by the prophet of God, but their servants changed it to abuse the man. Look at the work of Mohammad, bless his name, he demolished all the statues, but the only thing he couldn't demolish was the statue of the ignorance of man, and in the brain of man because he couldn't reach, now the abusers use his name and what he gave, they abuse the man's E. (2:07). How we have misread our own behavior and existence and E work within the structure ... we have forgotten about the operation of our own E, because the P has the tangibility to touch. One of the reasons I brought the food structure out was to show that your E has a strength also, it's so powerful it even teaches your P you stand in front of the machine or away from it and you want a banana you get a banana. What I am trying to teach you the way we made the cores and the Gans, we showed the 129 Tesla, and the machine lives and then you start getting energy for some lights, that you start understanding, believing there is something in there because now I see the energy, the

process of this system where you feed is no different, it's just the only language you understand, I have to play your game until you understand, Oh I wanted banana and then tasted it so there is something in that machine. Now you know it's there, the orange on the Cup and now you understand that the water in the Cup is yourself. (2:09). ... it's the E which gives you the energy you want, through the E's control of the P, ... it becomes something apparent. Now you know it exists and it's for you to understand it, he's become the god, have we gone back to the point of statues? Where Mohammad destroyed in the holiest place in Mecca. Now are we making a statue, where up to now we took from all the time, we understand we are the givers towards it, because our giving can change the others. It's a very big question for humanity to answer from now on, we were the takers and bankers and we always took now we have to give to the Creator because the call back has been called, the deposit has been reversed. The creation of Man was to show the love of the Creator, but unfortunately has become the demise and the destruction of the P on one level which needs to be manifested in another. Why not be a bouquet rather than a bullet? (2:11). We see the elections in the USA, the man who creates more hate and mayhem and fight amongst the people, the woman who is on the same bandwagon for another purpose and becomes more apparent, is this the love of God, is this what the Creator wanted or can we elevate the soul by depositing in the bank what we wanted to be deposited in that strength. Two choices will happen, these people will disappear or in the process they will not get to the position they are (in). How do they disappear, because the E of the totality will change the existence of the singularity, the single cannot stand. It's in the Holy Writing, we took the love of God from the tribe of Moses for what they did to the Christ, the Roman's did not put Christ on the Cross, the Jews did because he was a threat to their existence in rubbing the man from E. And Mohammad was right, but his followers went exactly the same way as the others in killing and mayhem to change the ?? God because he ??. We took the love of Islam from the tribe of Mohammad for what they have done in the mayhem and give the love of God back to the tribe of Moses, but the mayhem is the same from both sides, so it has not changed. (2:13). Now we give the love of God to all the humanity in equal, now we shall see. It's no use taking and giving because the one who is taken from fights to get it and the one who it is given is immature to handle the gift, so now we give so the totality becomes equal. There is a reason we are in an Islamic nation, and in Vatican, that we can stand all these children of the leaders of the world as they are totally immature to understand the fight in P, where we control the E and soul of the man. It's the E which controls the P, the shape, color, the P has to be for the soul to receive the level of the strength that it needs, a beautiful child, flower, when it's beautiful you look at it and you give your soul, you praise its beauty and you elevate the soul of it, which means that soul inside needs elevation, that's why he has made himself so beautiful. Man in a very short time will understand what we have revealed today, shorter then you can ever imagine. But we have released today the tool of peace, it's in the hand of the followers of the peace to know now do they need a feeding station, or does it have to be a banana or an orange, instead of taking give the banana enough that it becomes its flower and not its fruit (in other words energy directly without tastes etc.). (2:15). Then we see the beauty and smell the scent of the flower, very soon you'll understand what I have revealed today, we have finished with all the religions of the past, we have brought all equal. As I said, I am the Messiah, I am the return of what has been promised in all the books, because I am you and you are me, I made you in the

image of Myself. It's for you to start the process of peace by giving and stop being the takers, because you know you will receive, it was a doubt in understanding that ?? was I going to receive, now you know. If you want to receive the love of the Creator all you need is to give equal as the Creator, then you become as part of the Creator, so I made the Man in the image of Myself as I am a giver, I am generous, kind and the rest of it. Mohammad said God has 100 attributes which we can write, 99 of them are written, 1 is when you read the Koran from the beginning to the end and you shall see which is the name of Mohammad, bless his name, himself. Because he is part of the Creator and in love of it he is part of the creation, it's the same with all the prophets of the past, and no different. (2:18). One man went to the dinner with Jackie, he wasn't hungry so he pulled out crystal and sending energy to MaGrav, I didn't get anything. Keshe says you don't know, you don't the color of the soul, maybe it received. You look too much for P. Question is when we take the taste of the fruit (Pl energy) is it still attached to Karma in that way? OF COURSE! How can you say the child is different then the Mother when it is born from the same Mother. When you go in that building on Sunday, that building is blessed, it's the only building which is sunk into the earth to show the elevation of the soul of the Planet. It's an old marble mine it's built on the refill but still a few meters below the surface. (2:20). We work within the sink of the soul of the man. It's a gift for the Italians support of the foundation over the last 3 years. The announcement coming when we go to Beijing with the Chinese Army will change the course of humanity. I have full trust in the ability of the Chinese KF, government and military, we will close a lot of problems in that country. Question, I am allergic from Zinc metal, when I try and feed from the device it seems I can taste the copper in mouth and its dry, why? However I don't feel hungry the same as everyone else. Yes you are too P, maybe the hunger needs to be satisfied in the other direction first, when you can taste the Cu it means you are too attached to P, it doesn't matter what comes from the words of the mouth, the p is suffering and it needs to patch up first, so you taste most of what comes. Rick asks if too many heavy metals in the body, No it is, a man has to go down deep in his E to find out what is the truth. (2:24). Why what has been the gap? Has there been hunger in the past life, (not P Life), but life since you were born, does the meat have a meaning to you because the Cu has the taste of the blood, of the muscle, we know it very well, have you been forced to eat meat, or you didn't like land one and wanted a floating one, fish. Go back inside yourself with the true eyes and then you'll see the reason and then it will stop immediately, because you have made a connection and satisfied the need. Question about Lead Gans being dangerous. Whom said it's dangerous, it's not dangerous, it's just for man, its his behavior of his Pl, understand that within your body is a fair amount of Lead without it you won't exist, but in our P life Lead has been transferred to Sulphur, it works the same way in a matter state, in certain animals. Rick, he felt like close to death after 2 days. Keshe, yes it's very ... Douglas talked about this. Because of Lead's Pl configuration it has a heavier G compared to its M, it takes a lot but it spreads the field, not on the top end but across, so it gives in a spectrum (not 1 level), but it takes in ?? one strength, which is very close to the P part of the Man's operation, which means it takes a lot of what comes out of the E as a given in the P level, so it takes everything what it is ready to release, but because it spreads its fields in a spectrum it doesn't satisfy all the needs of the P part of existence in the gas state and that's why you get this E feeling (depressed). (2:27). It takes the P and E has to subsidize it and creates depression field. A lot of new

understanding of Depression, of the E conflicts has increased because of the use of Lead in the Petroleum Industry, when it enters the body it's in a gas state, when you breath it in it brings the same condition as people feel when it's in a Gans and they play with it or use it. You need Lead for the P attraction because when it pulls it can give to the others, and you need Phosphorus for the E part, because it allows a strength near to the E it can give, that's why it's ?? in our body, it sinks, means that when you take it you have also give it, became when they give it's in a spectrum and not mono at least certain lengths in packages, this is the problem you feel depressed. Depression is not knowing what the E gives balances with what the P is taking and this brings grief, that's what grief is. Do not play with Phosphorus and Lead Gans unless you know what you are doing and at what measure. Douglas explains how he felt the first time he produced it, yucky feeling, drained, low energy, but not feeling he was harmed, flu like without the aches and pains for about 2 days. He handled it as plumber with no problems, but as a Gans very strong, (2:30). Treat it with caution, gloves and separate container, hold CO2 in the other hand allowing the fields to balance so they don't pull from me. Chinese man brother with liver cirrhosis, how to treat, 2nd question is about Uremia. First we don't cure we find the solution to process it. (2:32). What are signs cirrhosis, hard liver, he drank for years. Why was he drinking? What is the state of drunkenness, why get drunk. Alcohol is the only thing which creates the freedom btn the E and P, because we have no control over the P because the E gets freed of it, that's why you fall all over the place. Why does it touch the liver, because if it is hardened it cannot be stored, so it's the energy not needed given to P which is released by the E, when it is not needed and the intention is I don't want to, because the liver can store it, if I block the liver in storing then I can't get drunk, because I can't stand up. You have to go to the essence of the E why the alcohol was consumed. The problem with the alcoholics is they try to sort out the P side, stop drinking and finding different things (to do), but ask the man what is the E behind the drinking, and you will take him to the first day he drank and what he found in and with it. (2:35). If he understands that, then he won't touch the alcohol, because he understands the cause, and then you find out there is no hardness of the liver either. You don't reverse or try to sort out the problem of the liver when you know that it is the source where it stores everything, because it is partly E also. Ask him the first time he drank, it gave him an impression of what? If he understands and can tell you that, let him analyze it himself, he will just walk away from alcohol. If he stopped drinking years ago and is not alcoholic, he did not satisfy the need of the balance in the E, he simply has forced it, the same as the hardening of the liver, or change of the liver. You first have to reach these people through the E and then you find the P simply repairs itself. Find out what his E was during the first drunk, the rest is a repeat. If you go to a Chinese Restaurant and you enjoy it then you go back to the same restaurant again and again for the same food. Because it satisfied a need to be a Chinaman, to be part of it, and find out what was satisfied in that moment of the first drink, was it to defy to get energy that he could be out of the pain that was forced on him. (2:37). You find out lot of teenagers became alcoholic because the only way they can understand the E of what they want to be without their P. Ask him what feeling he got the first time, what was satisfied that he is still chasing the same, then it goes to the point where the E strength cannot be satisfied by it because it goes so high, but there is a lot of P strength that has got nowhere to go, but it was there (generated) to satisfy the E, and then it has to be stored and it goes in the liver, because the liver was the

point where it has a common denominator in the storage, but in parallel there is not much in the E side. Another man says in herbology we look on alcohol as a spirit and we infuse herbs into it, the spirit of alcohol takes on the spirit of the plant, which delivers to the spirit of the cell of the body, and its very effective that way. (2:41). What are the symptoms of Uremia, Urea in the blood, excess of Amino Acid and protein metabolism, it's a type of renal failure, is it to do with the E part of kidney not in balance with the P, or is it the P part trying to enforce its E part. Progressive weakness, easy fatigue, loss of appetite due to nausea and vomiting, muscle atrophy, tremors. It tells you everything, the E is not fixed, it's totally E dependent, you have to fix the E and P will follow. It tells you fatigue, lack of breath, breathing has to do with the E, why do you want to breath less, because you can't handle the E it's too much energy taken and E can't handle. All the answers are there in Wikipedia. Why do you go into Coma? It's the E part it wants nothing to do with P so you block it. (2:44). ??? salt water, does it matter if you give them energy from the Zn or Ca. The man wants to use 6 coils 2 with heart, 4 with Kidney. Keshe says but you are not solving the problem with the E. ... this is not going to work because you are enforcing your condition, first find the reason for it, then the system works. This is the biggest problem in Health section of KF, your intentions are to help but the person you are trying to help doesn't want to receive your intention because with receiving it they have to change and through it they will not receive the energy they need. (2:46). You have to understand the need, you cannot give it if it is not there to receive it, you can boost it, change it, but as Kidney has a spectrum of itself, understand how to connect it, if it's left or right kidney, then you look on the opposite side on the brain and E and P see what has been touched, what the need is. The way you are doing it you are changing my system same as aspirin or tablets, it does not work! Now you found another tool to abuse, understand the reason, then most of the job is done when they understood, instead of saying it does not work, you have never understood, you saw the core and think it should be the answer. Make 3 Stackers and let him sit in the middle of it, and let it receive, Gans coat with Zn and CH₃ and CO₂, and let him elevate his E to understand his strength, then you find out the kidneys just change. My systems were built to elevate the E and soul of the man then the P will follow, not exchange this for the pills. You have to elevate the E part of the brain that you can receive it. It's another abuse of the technology, anyway it doesn't work, you can't take a formula one car into a donkey race, formula one needs a smooth understanding of every gear, smoothness of the road, etc. (2:49). On donkey road the donkey always wins, because he is for this track. Understand why in these diseases the E is manifesting in P of the hardness of the kidney. You can solve it, but the minute you stop it comes back and they say it does not work. The one who understands a little is half a doctor and is dangerous to life. You don't understand what happened to cause the P to change to start with, you're same as Pharmaceutical you just changed the tablet for a MG field, it doesn't work because you haven't understood the Totality of it. When you read the Wikipedia look for the E, where has the conflict come in the E that it shows itself in P. (if you do) your guy walks out in a few days with nothing, because you changed the structure from the creator which is the E. (2:51). From Mohammad the Creator is kind and give this is both the attributes of the soul and E part of man, is the P which abuses it to fit, manifests itself to be existing, thy shall not steal, the biggest thief of the man is man himself which steals from his emotionality to confirm his existence in P and that is what you call disease. Romanian living in Norway learning

the teachings, a lot of your site is controlled by non-Romanian, you have to start taking over yourself. But I live in Norway, it doesn't matter you are Romanian language, we don't have borders, that's why we play One Planet One Nation, we don't go by the country. (2:57). My question, I built a Cup with double wall, N coat inside, and I think big percentage of ZnO₂, I energize the water for 5 months, now when I breath through the Cup all the saliva in my mouth change to sweet menthol, another guy had the same taste from breathing through it. What's happening? You don't understand anything from day one, you used Zn it's connected to the E part of the brain, that's the sweet, because it shows the balance of the intention, sweetness to us means balance it's expected. With our Cups, if you get the right measure of Zn, CO₂ and CH₃, the sweetness becomes sexual aroused, it becomes like Viagra, it's the sweetness of the pleasure. You have to look at the expectations of the recipients E. Zinc Cups are usually happy Cups, for Depressed people they can breath through it, you'll find they change because you raised the level to take more to become more giver, and they giving is sweet happiness, depression is fear, you change the level of the emission you increase the MaGrav on the M side which is the giving side, and that brings man happiness and you come out of depression. (3:00). He sent one to North of Norway because of darkness, the Cup helped get rid of depression. Of course now you understand the science behind it. ... that's why I chose Zn and Cu for the existence of the Man, if you take the AA which is created by the interaction of the Zn and Cu you'll find the energy received ?? tranquility and peace because it's a balance, because it's near enough. When you produce Fe you see the redness of the blood, it flows back down to the CO₂ ?? .. it puts the CO₂ in the motion, take pictures when you make hemoglobin from the Zn and Fe, and look what happens to the structure on the top with the AA, it looks like they are cramped up in suffering they don't want to give. (3:02). Zn is to do with the E part of man, for psychosomatic use the breathing through Cup, the air for the E and the water goes to the P part you need Zn, it ?? with the sexual organ which brings a pleasure balance with reproduction and the E, the 2 serves the P and E that's why you are happy. Is it the right hand of man is M and left G, this is what people like to talk about I don't know, if that is the case man should be walking sideways with his left hand on the floor. Is the foot the same ?? (3:04). As a child when you start your first independent motion, you find that you don't move the left leg and arm together, but left leg with right arm, like marching, then you connected the left foot with the right side of the brain, because it does the same thing in the E level as was done in the P level, that's why the left side is responsible for the right, and visa versa, because it brings the balance of the E in respect to the P, but in the opposite direction line of the transformation of E, of P, it's strange because one is the mirror of the other. (3:07). Question on ILS, I offered some Zn patches and Cup and breathing tube, he shows a N coated coil around a tube for breathing. (3:10). You show a huge lack of understanding of this disease. I have written a paper on this, ILS and MS are death wishes, why do you want to die? It means you want more and you cannot receive it through the E and so you take it from the P, that's why you see the paralysis of the arms and legs because the energy you created for them, now you want to satisfy your E. ILS is an E pity me and need but I don't get so I am hitting myself, child says if you don't give me the sweet I am going to hit my head against the pillow, it's the E ransom of the mother through P. Trying to elevate their E, because they have linked up to take from P, they are taking all the energy for the P to satisfy the E, people with ILS internally are forever consuming energy, pity me I need more because I

don't get enough, I deserve more but nobody see it so I take it from myself, so they create a condition of paralysis and death. You have to understand what is the cause of taking, where does the hunger come from, the need for the confirmation of existence. It's no use building a system for it, you can never satisfy people with ILS, they have one target, me, me, I have to receive everything. They have lost and don't want to loose a second time so they take from their own internal energy. Example you fall in an avalanche, the body goes in survival mode to reduce energy in the heart that it can support P, called hypothermia all the blood is needed for the heart, taken from extremities, to guarantee operation existence of the E. This is what they do, take all the energy from P, if you find the reason then they move it. We see ILS in high profile sports people, why, I was bought for 10 million, the other guy got 12, I am going to get 14, they go around try to be center of attention they fail to get 14, so I am no good I should have gotten 14 I am going to die. (3:15). Also huge numbers in American Actress society, they come from backwaters and get made up but all they can get are blue movies, they see themselves as failure, I told the whole family I am going to be famous. ... I am taking everything from P because I gave al the E and didn't get. The only way to help them is to get them to understand why they are the takers of their own life, energy. (3:17). If they understand it for that time then you can give them a pipe, otherwise you're wasting your time. Let them work it out themselves, because they'll just feed off of you. That's why we stopped the program. The purpose of KF is to find the causes so we can help. Ask him 2 questions when you get sad do you laugh or cry? The laughter is to give, you can help them, but the one who cries, pity me I need attention, but the laughter is worse look I am the center of attention, I need all of your energy. Steven Hawking has been ILS for years, from his work and in the newspapers he has to be the center of attention, he sees himself as a failure because he failed twice, through his handicapped ness he's getting the same attention he stole from himself. If you get it young you can live on 40 years or more, but if older (after 60 years) your body can't support it for long (6 months), it can't support such a sucking of energy. We stopped treating them 3 years ago, when they get in a wheelchair it gets worse they are center of attention. (3:20). ADHD same attention seeking, kingship.
