

120th Knowledge Seekers Workshop June 30, 2016

( , How to make the Cancer formula from Togo, Keshe tells about his life, )

(:05). We are moving into the next phase of the KF. The teaching will be moved into a lab that has all the reactors and developments of the Technology. (:08). (:12). Alan Sterling was sentenced to life. Yesterday in Holland one of the biggest pedophile gangs was opened up 75,000 members, some of these members were part of Sterling's group. We open the books when we find out. We open the story about Red Circle and killing scientists and stealing the patients. (:15). Our file was so complete it took only FBI a few days to start investigation. Child trafficking , money laundering, character assassination on Internet. We set up a trap by the advise of the security services and now they were caught. (:22). A new website to show where all the workshops are at. (:25). Teachers will be paid to teach the new T. (:30). We have finished the theoretical and now teach how to apply the T. (:43). In Germany they start a do-it-yourself workshop to build Margrave. (:46). Financing and sharing so everybody can make one and have one. (:57). In Italy we have been asked to teach in the schools. (1:00). In Germany we charge 250 Euros for workshop and MaGrav. (1:06). Keshe asks the German man if Sousan asked him for picture of his daughter, he said it's right but not him. She asked him to go together with her to go against the KF. (1:11). Benjamin from Ghana. Some testimonials with the Gans cream. (1:15). Body Structure, 70% water, 20% proteins, 10% Fat, Ash minerals 5%. O 65%, C 18%, H 12%, N 2%, others. (1:26). Dr. Schussler homeopathic doctor discovered 12 salts in body. (1:36). (1:45). He goes over all the minerals for body. (1:50). The river Birim sediment analysis. The elements discussed is everything we need for human life. (1:53). We don't want to eliminate all the trace metals, but to a safe condition. (2:04). Dr Nash goes over analysis. (2:11). (2:28). Paul from Togo, offer you a way to make Gans with the mind. (2:30). His education about body, Creator, different creatures, and energies from family, (tribe). They taught them Energy is equal to matter. How to convert energy to matter and matter to energy. He learned herbs. (2:34). How to transfer energy from earth, water, air, and fire to anything else. How to move matter with the mind, and to block negative forces against you. (2:40). How to move energy from the sun and the center of the earth. Tells the process to move energy, first harmonize with earth and sun. Find a stable environment, sit comfortable, unify body, soul, spirit, to connect one with U and act like Creator, use your mind to go inside earth and move the energy. (2:45). Then you put water in bottle and wires don't need Nano coat, bring the energy that you have captured to the bottle, make a mental connection of the plates, disconnect yourself from the energy of the U otherwise you can end up somewhere in the U it is too powerful. In 21 days you'll get the Gans, sometimes he gets Gans in 7 days depends how much energy you capture and put in the bottle. (2:52). Cancer Medicine with the animal fat, chicken, beef, sheep. Gives formula. Go back to previous workshops were he discussed it in detail. (2:59). In Omega3 if short in EPA you get Attention Deficient, and DHA you get Hyperactive. Over time we always got these components from animal fats, however, farm raised animals are stressed so they don't give the Omega 3 but rather omega 6, that's why we are short these days. This is why we have a lot of Hyperactivity in our children, Africans don't do as much Industrial livestock so they tend to be calmer. (3:02). (3:04). They found Soursop in Italy, a similar component is Garlic, and they found something in South America. (3:09). Chemical components of Lemon, Citronella (has CH<sub>3</sub>) lemon

grass, mixing the Citronella with a Gans gives lots of energy from the CH<sub>3</sub>, Lady Fingers (okra) it helps to balance formula. (3:15). Mixing all components and cook it, boil it 10 minutes, after 3 hours sitting it becomes white hard. (3:19). Number 2 formula is made with Chicken fat. (3:26). The Chicken formula takes 72 hours to solidify. Porcine fat (pork), he used a wild one so it has Omega 3. (3:34). Did the same for Beef Fat. (3:39). How to apply it? Rub it on the cancer area. He'll make another one that add to Gans Water to drink. Some testimonials of product worked on cancer, very powerful. (3:42). Keshe tells how we use it, you can also add CO<sub>2</sub> Gans water at the end of cooking process, Cooking doesn't change CO<sub>2</sub>. If you add Co<sub>2</sub> after cooking now the matter inside the liquid becomes Gans, all components. In South America they coat the N coated coils with it, they don't apply it to the body. It can be put on the P Pens. It will be added to the Blueprints. This way you only use the MG fields of it. (3:45). Keshe asks him if he put himself on the KF victims list. (3:48). They are making up fake lists by Red Circle, financed by G1, in Israel. We will put a list of all the scientists he has killed. (3:51). Photos from Armand, the production of AA on top of CO<sub>2</sub> Box, each one has different properties. The ones near the Cu turns slightly reddish tint it's for the red muscle tissue, on the Zn side they are more white and for your neural S. Each plate makes different kind of fats because they absorb different elements, N or C or O. The CO<sub>2</sub> Box creates a very soft fat because ? Each Gans of AA possesses, different energies. They absorb specific fields, even though it is COHN they are not all the same. Each time we breath in and out we create different AA. (3:55). If the fields you made have a matching field it is absorbed. (3:57). One AA could be for lung and the other tip of toe, just because you collect AA doesn't mean its the same. These AA are all different, even in the the location of the box. To make pure Gans you need a box that drains from the bottom so you don't get mixing. The syringe will have a fat coating on it. (4:00). In MG field environment everything counts. (4:02) Pictures from Workshops in France. (4:06). (4:09). Obama signed the KF peace treaty but not for his nation, we salute you. (4:12). We don't accuse and deliver solid info. Facts about MT Keshe, born in Iran, his father worked with X-Rays, so he was always around radiation. He watched them go to the Moon, and thought there must be another way to get there. He had a conservative life, at 16 he went to England and at 22 got admitted to Queen Mary College, only 13 people were trained to be Nuclear controller. He knew the education he received did not answer his questions, they knew he was beyond what they teach and told him he has to do it on his own after he finishes his degree. (4:16). He worked in one of the most secret sites in British Nuclear Industry, in a cowshed. He refused to sign a secrecy agreement and was asked to leave, because there should be no secrets in the knowledge. He stood for his ethos. The British Intelligence told him he would never work in nuclear unless he worked for British government. He went into business setting up offices in Africa, Asia and Europe without help from anybody, built a very wealthy business so he had time to do research. He receive a receipt from NASA saying they would consider his proposal for not using fuel. He questioned how come we don't understand the G. He built his own reactors, and in early 2000 he could see the G fields, it was so simple, why were we looking so far away from it. He went back to Nuclear Fuel and asked for a centrifuge and nuclear material as a N Physicist it was my right. In 2004 we met 4 or 5 people in a military museum, they said welcome home, we have been waiting for you for 20 years. It was so high level the Minister of Defense signed a secrecy agreement with him, that it could not be leaked to

the Ministry that the G has been discovered. But he would not move his T into Military. (4:20). So MI5 had been watching him and saw his communications with NASA. ?? he turned illegal waste into usable wealth for the British Government. He refused to work with Military unless they could guarantee use of this T for peace. he was invited to Farmburrow to Military show in England. He tells how the British and Americans shared the info between themselves and trying to convince him to work with them. He threatened to go back to Iran. Then Caroline went to the Belgium's and they agreed to peaceful application of the T. They moved back to Belgium. For 7 months he was drilled by the University in Belgium about his discovery of Gravity. (4:31). The Belgium space Technology set up a company to develop the new Technology. (4:33). The Prince of Belgium was coming to the Company to see the technology, reactors, they were trying to prove to the Monarchy that they found the G system. They reactors cost 30,000 and Keshe saw a contract for 1.3 million he refused, he was sent to a lawyer (Mr. B) about the contract. It was a deception he refused the man wrote 4 names on a paper and gave to Caroline, he said if Keshe doesn't sign he will be killed by these companies. You tank in their petrol stations everyday. Mr. B was a key man in a lot of things, not a lawyer he was disbarred by Belgium Courts. He played a heavy game with KF. Keshe had some friends and started Keshe Technologies. They tested the Coke Bottle and said it was impossible, give us the T or we'll call you a terrorist. Keshe refused. The N coating is Grapheme and Graphite which we produce as a N coating. So they created a program to label Keshe into a terrorist producing radioactive material. (4:40). Next was they hired a patient company to write a patient, but it was too complicated for them, they kept the money. They suggested another man to write the patient, he came to their house and saw all the work on the table, this man turned out to be with Red Circle (RC). Keshe introduced RC to his 2 friends, but every time meting it went flat, couldn't understand. In 2008, he went to Iran. ... RC brought in people to help Keshe, but they turned out to be pedophiles and murders and stealers of intellectual rights. Their pattern to steal is every time a scientist comes up with something they offer to write the patient. Everything fell apart and they put him under so much pressure, but he knew he would not give it to them. When the time came he knew he would share with the world. Iran invited him to Iran. They stopped his money to Caroine from Iran, so he had to come back to Belgim (4:46). His friend Derek (who worked for RC) came to meet him. Derek suggested he write his Books on the T, Caroline refused to let him in the house because she saw a lot of indecent actions with their son, pissing in garden in front of boy and showing private parts. Keshe went to Antwerp to sit in Cafe across from his house to write the Book. At that time Keshe had suspected Liver and pancreas Cancer, which started when he came back from Iran and was spending time with him, same pattern, he was poisoning him slowly with small doses and then a big dose to finish him off. He bought a single burger for Keshe, but because Keshe had the cancer he couldn't eat it, so Derek had to eat the poisoned hamburger. The next day Derek's hand went paralyzed he had a stroke from poison). (4:50). (John did the same pattern with poison in Italy). They blew his car up with his sister in it, a high speed chase with gun organized with the Police, and coming to kill him with 8 Police and beating up Caroline, and coming to confiscate the materials but then they left it in the lab. Then they got into car and drove to Italy, their friends welcomed them and 3 years in Italy they have gotten the T to the world. (4:52). (Derek) brought Allen Sterling to give an interview with Keshe for publicity. They followed him to Italy, a Belgium born in

Congo poisoned him, wife and children, and one of the students touched the poison. Mr. RC came and tried to do the patent in China. Through the investigation on Sterling they found out more connections to RC, and the black guy who came to kill him. At the time the assassin came to Italy to kill Keshe they were in China to make a patent. (5:02). Red Circle works for Belgium government they get payment in cash and children. (5:05). (5:07). They take pictures of children and then kill the children. (5:09). A Dutch man developed a video compression program in 1990, July 1999, they poisoned the man the day before he signs a hundred million contract. They never allowed autopsy. His patent ended up in Belgium 2002. (5:12). the son of Belgium King introduced us to Red Circle, so they are all in it. (5:20) (5:32). The office of Prime Minister of Belgium. (5:39).
