(:02) **Keshe comes in.** At the moment I stay in Rome and the rest of the KS will stay in the Foundation, they are still waiting a response from Vatican, hopefully they will receive the response in the next days. This is the second time that the package for Peace has been handed to Vatican. (:05) We have to see how the response will be and how they will handle the countries. The whole concept behind this invitation is not to force the religious to come together, but is to encourage the base structure of the indication of Religions in a way that they can change the course of humanity. A lot of people have a misconception about religious ceremonies and religious belief of people, it has become more and more apparent how become influential the religious organization are in respect to all aspects of life, even politicians in parliament can not pass the law if its not accept by the religious people in that country. When the politicians passes the laws at the end goes to the Ethics part, they look at the law in respect to the religion. So, the religious beliefs in all the world have the final say in the Nations. 99% of the world, rules, regulations, laws are final say signing by the religious. We have gone to the root of the problem and the root of the solution. The root of the problem is: by dividing man in different faiths, a lot of people have made a lot of money, by unifying it they still make a lot of money but for the humanity. (:08) Without the religious leaders in this world in this moment there is no solution for humanity and they now it and use it for their own benefit. Now we have to bring light that their interests don't count but the interest of the whole humanity counts. We don't expect nobody in the 13th, that is obvious. This is the first round of the invitation, and with science technology we will bring the world leaders together, the explanation is very simple. The day before we went to Rome I said to the Ivan (KS) that the reactor E which is the with the metal core has achieved 12 Goss (??), and that was the first time that this reactor achieved this measurement in this dimension without interfering in other reactors, this means that for the first time we have achieved Plasmas without putting anything in, but creating condition. We created the condition on Friday before we leave. The Foundation I believe soon will achieve the full lift in the Star Formation. Now you have to realize why we made this step to go to Rome. (:12) We are achieving great advances in Science and as the KS understand how it work, more will be explains. Its not about release information, but when and how you release the information. We have become good at this, we have Diplomats advisers which support and advises us. By achieving lift and taking man to Space man will be forced to accept

the one Religion, One Path of God. Because in the Space we will see the process of the creation and we will understand the Truth about The Creation. So very soon this division of worship by man will become dilapidated due to the knowledge which the technology brings about. In coming contact with Universals creations, we will find how much, how long we have wasted lives, time and energy in worries in the facade on the structures of the buildings not in the heart of the Soul of the man, our Souls knows what is correct, is just that the Physicality has kept us apart. In a very short time the religious leaders will follow the new Science not for them to be left out to keep their face. We have given a way out of it with this invitation, they can bring things together to bring a new cycle of life in a peaceful way. In the meeting the world leaders will not be there as leaders, but as subordinates because they will have to fit into the structure of what the new cycle has brought in. This is for them, we understand how its gonna happen, but when you put things out for the first time they say, this is nothing, but even parts of the things will force a lot of new ways in humanity. (:16) If we do not get any response from the world leaders, we tried to give these people a graceful way out, but now with the development of the technology there is no choice, but to follow the unification of the man in all structures. In bringing fairness handling the people behavior in respect to the Creator, and in the same way correct and equal for the whole humanity. We create the conditions for the change. We see Greenpeace all the activities that they have done for years, they were supported by the East and they are supported by the West now, we see how things have changed. The old structure is finished, we don't fight, we inform to them join in. (:19) **Before you had to go to the church to get the Holy Book, now the Book with the ethics of the man, because we gave the man any physicality that he needs through these patents, all his needs are fulfilled, and the only thing he lives with is servitude, how he can serve!** He can do whatever he likes. We know what we is happening, but at the same time we cannot lose sight that we don't become like the past, hypocrisy cannot take over, it has to be logical, correct and fair for everyone, this is the change! This things takes time and understandings by the world leaders and mainly by public. Public has to understand what is to come and how to adjust. We cannot say everything is equal and fair so everybody can have a car or any food and drink tomorrow, we have to put a structure into it, to bring balance into it takes time, months or years. If we give the change now 99% of the people don't understand it and then they want they will get it and the mayhem will be more. It's needed time to educate them, and the education system for it is getting set up, its matter of time for people to understand this. The whole structure must be correct. I don't rush just to please people, I do things in the structure that we see and the man can understand. (:23) You must understand what this invitation in the Vatican means. The change is huge even for Vatican. This is the end or the Religious Leaders. When a man, or a Pope accept that all the Religions are one and have to work in one direction, it means that the time of their guidance has passed out. They are needed for the transition, to educate people about what this transition time means. We use the Path that is already is there to do the job smoothly, the Path is that we are all correct, but we have to find a way, the way is got to be done. The way its suits the humanity, not names! (:26) **The Spirituality comes from equals of the fairness, btw the Physicality and the Soul. There is no difference, when you understand the level that your Soul exist, and you live that life in the Physicality, then understand the process of the Creation.** Now is time to give to these World leaders to understand this process. The knowledge which is

been given will force the change, not the swords or guns. The nuns and the priests lost their own ways, so how can they guide the others. When they go to the restaurant with expect to be treated differently, so the cause of the problem starts with their own behavior and this is what we see with all the religious leaders. (:29) When we are in the Space the space in the craft is limited, you can't have a palace, we are all equal in this ship. The world leaders are the body and the religious leaders are the Path to the Soul, and if we don't bring them together we don't succeed, because one influence the other. We will take man to Space in a correct way, and we will take man to Space as one, not different colors and shapes and beliefs. I was watching the World Cup, we start we so many teams, and we support those teams, as disappear in the second part of the league we choose a new ones, and the we go to the third round, now we have less and support others, the whole supporters watch everything, and then we watch the final to see who becomes, and we see they are the champions, this is the way that our world will come, more and more we see the development of the past the more the booze of the past will go away, and then they become one, this takes time. (:33) As we see in the word cup teams disappearing and becoming one, we disappear and become Totality. We are in the last section with the world leaders. This invitation with the religious leaders is to finalize, this is the last move, because after this move there is nothing but unification through science. (:36) Accepting this means underlying with work of 3 or 6 thousand years of injustice and they don't want to be responsible for. A lot of people asks why I don't release my book number 9, The Structure of the Soul, if I release this a lot of religious leaders today will commit suicide, will disappear, because every man will understand where he stands in respect to its Creator and the rest of the Universe, and the beauty of this is that every man can teach himself, but in this transition point we need the support and the help of these religious people. The new guide line is not the Bible or any Holy Book, the new guide line is within the Soul of the man and is connected with the Physicality of the man. There is no punishment, this was made to bring control, and this bring inequality. (:40) The process is very simple, but it has to be understood, if not understood become hypocrisy. (:42) The funniest thing is, the Nobel Peace prize, this money comes from killing people, how can people accept the Nobel Prize?! Story of Nobel Prize: Nobel family that manufactures dynamites and by coincidence the gentleman did the obituary of his brother but the reporter made a mistake, he wrote that his brother was alive in the name of the one who is dead and it said how horrible man he was, caused so much deaths, and he said, Oh is this how people will gonna think about me? I must do something to people think I am a good guy, so he made the Nobel Prize. So people who receive the Nobel prize become blood money, we are praising murders. Nobel Prize is the most shameful prize to be given to a man and to be accepted. (:45) The Soul of this Science has been already been passed to millions of people. (:47) The question is how these religious leader will be correct enough in their Soul to cross against that door, and once one done the rest will follow. (:48) **In Space the point of worship is not in the Mecca or temples, it is in the connection with your own Physicality and your Soul and your correctness with it. The biggest battle is to constantly be aware about the weakness of the man!** The battle comes in when I look to a beautiful woman that belongs to another man, is it my right, my intention? If I see a child which is hungry in the table would I put my food in front of him? Is awareness of being correct! Being correctness in respect of who you are, and this take a lot of training and a lot of understanding. Then the rest will be done. (:52)

Question about bring down the Religions. Keshe: A shock does not help. It will be done as a complete cycle. The humanity is not ready for huge change in such short time. (:57) We have to bring the change in a very slow pace that people will understand how they have been abused, but people will have the means to understand and the tools to not be abused. (1:00) The expectation of achievement of the KS in the lab were to high but with no fundamental knowledge at the foundation, the KS came in with the materialistic point of view not understanding the Plasma, but trying to enforce one knowledge that was wrong to another, as a guide I had to tolerate, I have to accept, but I have to push for the further knowledge for them to understand in the long run. Criticism has to be there, but with knowledge, not with the ignorance of the knowledge. You will see flow of KS coming and going. (1:03) Keshe talk about how people even in the Foundation try to get power in a subtle way. People misread your openness. The same problem would come to the Foundation if we are not fully aware of it. We should be amongst people for people to see how to be and that there is no difference btw man. (1:05) Question about go to the principal field without the physicality and people who stay in quarantine. Keshe: When you go through specific fields and you have a mixture of fields you have to re-align all the fields. Its like putting you to a process and your eyes and your legs has left behind because they have a different field structure. You have to bring everything to same same level so that you can cross, otherwise pieces will be left behind. Every single cell of your body is made of Plasma and each Plasma has a full principle transition and matter strength, and more. Needs time to adjust, quarantine is hold things till everything gets to the same point. The ones who have more matter like the bones are more difficult to be transfer. (1:07) Keshe said that he saw a specific moisture in a place in the lab, and the KS did not noticed. Keshe talks that the knowledge Seekers are doing the Gans but did not fully understood what is going on. (1:09) The Gans of CuO₂ for example: that Gans you can take it through the principle because it is a Plasma, but the solid Cu which is in that water which is produced in the Gans still in the matter state, you can not transfer it so easily through, because it have a physical bounding btw other electrons and protons. Even if you look in your Gans cups, you have a process at the bottom where you collect these bubbles of Gans of CuO₂ for example, that bubble is a Plasma. You need a a time for all the Cu transfer to Gans, and then latter you can convert Gans into matter you need to. You don't need to carry the body of man across the Space, if you carry one structure of the atom of the man you can replicate the man physically anywhere in the Universe. Is the Soul which carries the Body, not the body which carries the Soul! And this is a misconception in the world of the Creation. I have explained and try to explain to the medical people on why we change in the womb of the mother as a fetus to bones and Brain. (1:12) A fetus is in the DNA. In the teaching room we started to show the structure of the formation of the fetus in the womb, how the vibration of the heart of the mother, how the motion of the fetus itself gives rise and position to the structure of the one core which is holds the Brain and one core which holds the Intestines. That beat of the heart of the mother if it wasn't there the fetus doesn't move in the right move that the Brain structure set. A lot of people look into the DNA form with the child which is born with defects you got to look at the physical structure and the heart beat of the mother. Because that heart beat, that motion of the beat of the heart is the way the Brain get its structure, the way that the first cells of the bone comes to become sitting in where they are to become a bone. If you leave the fetus and just give it food you find you have the Brain

and the fetus, but you don't have the correct assembly (??), that rhythm, that motion is needed. And then when you have that first Brain that you start having the Soul, and when the connection comes with the beat of the Soul in the fetus affects the fetus itself. It's a lot to teach, and a lot to understand. **(1:14)** Question: That is why the fetus can be born out of the womb? Keshe: Yes, you are correct. If they can replicate the heart beat of the mother the motion of the heart beat, because that heart beat creates the vibration, and that vibration is needed for the structure of the Brain to be settled and come. In the lab structure has risen out of the Gans powder. **(1:16)** The Soul of the KS has changed and with this comes physical change, and now you see a mountain rise. The fetus needs the MagGrav fields which is the heart beat of the mother, but it needs the physical motion which that heart beat creates, that little motion is needed for the structure the Brain to be created. The doctors have to look for totality, not just what happens to the fetus. If you try to create fetus or life you have to create the total environment of life not just the physicality. When the heart of the child is developed, his heart beat complete it full cycle of the Brains structure. Why is Homeopathic so close to the cycle of the man's life? Because it carries the same vibrations cycle as the heart beat of the mother to start with, that little vibration which you do you reset the structure, and then the structure go itself to where it should be, that is why Homeopathic works. This is where the setting comes, not from the MaGrav field of the beating, the heart beat of the mother and the man, even when you are independent you become adults and older then you get the Alzheimer, you get the connection btw the Alzheimer and the heart beat of the man. When you get older the heart beat slows down, the vibration does not create the same kind of bumping from the Brain movement and the motion, so the cells move in different ways and all sort of diseases come. If you can keep the heart beat in the right configuration you can live for millions of years with the correct Brain, because the body will recycle itself. These are the things we will teach in time. **(1:19)** Question: At what stage the Soul becomes into the fetus? Keshe: When the main Brain is created, when the fetus is in control of itself, not the physical part, the P part has nothing to do with the Soul, the E part is, when the E part which is the central part of the Brain is developed then the Soul is completed. This does not mean that if you are born with two legs not being there you will have different Soul; you still have the same Soul! The minute the E part of the Brain, which is a connection btw the Soul of the man is created, then the Soul is completed, then you are responsible, then you are responsible for the Soul you have created. The KS keep rotating these stupid cores in the reactors, but they don't understand that they have given life to a structure inside which have its own Brain and control the things he have seen it. The Soul is inside that P structure which is rotating, and when they understand they can interact with that Soul that is created, then they succeed. Till they don't unify nothing will happen in that lab, because this is not a P matter. Why the reactors works in so many ways? You have to look at the Soul of the man who controls it. Why other reactors are not performing, or draining? I don't look at which reactors works, I look at the behavior of the Plasma inside it, that will tell when it will be the time to fly and to move. Unconditional connection creates unconditional reaction, and when the KS learn this then they will go to the fly position, when they learn to be United and unify and wish of be part of the whole humanity then the systems will fly. **(1:23) The same that happens with the KS in the reactors happens with the World Leaders, we need to unify!** Keshe says that he need to leave in 10 minutes. **(1:25)** We have the full 100% solution to

any cancer. But you have to realize, the questioner said that Mr. Keshe said to him that he did not understand, and this is one of Mr. Keshe's habits and he is trying to changing. Something which people have to realize that if you release such a knowledge of how to overcome all cancers we will be wiped out. In the Space we will get cancer and we have to find a solution for this, and we have the full solution for every cancer in this planet, but we can not disclosure it. The time will come soon, you will do it. **(1:31)** Mr. Keshe leaves. **(1:33)** KS answer questions about the production of Gans.
