

167th Knowledge Seekers Workshop April 13, 2017

(,)

(:09). ... others have been using the T??? Last week I was in Arab Emirates, we'll see the outcome of the meeting. This week this broadcast is coming from KF Austria. We are expected to be in Tokyo shortly as developments are building up and then return to Accra, the home of Space Ship Center. (:11).

... talks about cancer research in Tokyo University ..

(:17).

Cancer Blueprint Day, April 18, 2017.

(:19).

(:20). We'll deliver the whole technology to the Pharmaceuticals directly without waiting for them to come and look.

It costs less than 1 Euro to save a life from cancer.

(:25).

(:36). We go into the other part of the teachings. The Masters will teach, we are the masters of the space and not the earth.

(:49).

(:55). No need for a SS because the soul is the SS. Any Questions?

(:59).

(1:09).

(1:14). The end of kingship.

(1:20).

(1:30). how the E and soul work, through the brain....

(1:38).

(1:40).

(1:46).

(1:50).

(1:56).

(2:08). (2:10). man shows his pendulum and magnet.

(2:15).

(2:19). Dynamic cores,

(2:24). Caroline teaches. Shows picture of lady who entered a transparent state. (2:26).

(2:35). (2:40). .. I wished for the women to be apart of the teachings also, not to take over.

(2:51). Mr. Keshe comes back on. What Caroline said about the Mother and the sick child. If you want gold you can have it in the palm of your hand through your intention. In deep space there are no Pharmaceuticals, it is the intention of the E. If one understands this it will change a lot of things for mankind. ... you don't need to kill to eat ... and in the time of need you eat (get) what you need. These things will become more clear as we learn more, as I said we are here to enlighten and not to teach. When you understand your own capabilities, you become the magnets to the illness of the child, you are stronger you can take and reduce the others, that is all it is. Before you give the water to the child you touch it and put your intentions in it, because of the line of the birth of the child you have already taken it (? the illness). If man matures to the point of measuring you'll find that the mother carries some of the intentions of the pain to herself. This is what we call double magnetic field. It is not the water, but the

intentions that has brought it (working through it). But we have to see what the conditions are and appropriate for it. Another point is, that a lot of you are saying, why is he giving advanced technology and cancer (cure) away to people and not making money out of it. (2:53). I always say, but you are deaf to it, the KF is paying for the research. The funds for it came from selling of the books and equipments and everything else which you have bought, so in fact you have already paid for it. The people who take and run away with it, are people by nature, what I call a thief, they put nothing in to the Foundation which is the soul of the humanity, and they want to take and run. If you think we are giving the Cancer Blueprint, it is because we have paid with our souls. We don't carry hidden bank accounts, we take what we need and so when it comes we put it there when it is needed. In the coming time I am sure we will receive more, because many children will hold on to their fathers and mothers, when they are told they have Leukemia or a cancer, many, many people will walk away from cancer like a headache. We are here to set and to change the course of humanity. Many times Caroline and I said the only way the KF will touch the humanity is through the health. With the energy unit people came they stole and they ran. We are not releasing one energy unit, if they understand what is to be released next Tuesday and they apply it, you can produce any medicine in the Universe. Medicine being a position of comfort to guarantee the survival. (2:55). The blueprint on Tuesday is the beginning of how man will survive in the depth of the U. If you look only at making the Gans' you have already lost, because you never understood that the Gans of the U is you. We just showed you the process of how to do it. Those of you who go and just make the tablets and Gans' then you'll understand that you haven't learned anything yet. I taught many times about the dynamic cores, you are the dynamic core itself. 41 (3:05). end

Cancer Solution In Exchange For Peace April 18, 2017

(,)

(:11). Cancer Blueprint Day. When the doctors can't understand it they call it a cancer. Now we have the knowledge of cancer. Cancers are created 3 ways, Emotional. When the man creates a given energy ...

(:15). This knowledge has disappeared from the knowledge and brain of the man.

(:20).

(:27).

(:33). Dr. Rodrigo introduces himself and presents a breast cancer case.

(:44).

(1:13). CO2 Gans Ampules. Breast cancer plasma protocol, step by step. (1:18).

Emotions come through the breast, you can test it by watching movies turned away from screen. Step 2 is blood test to find the seed metal of the cancer. (1:21). How to make Ca Gans. To make the patches and placement and ratios of plasma. (1:25).

Graphic photos of breast cancer. In the process of the body rejecting the cancer tissues, first it turns black then it falls off. (1:29). Results of tests as cancer disappears.

Finishes presentation. (1:31). Keshe backs on. (1:43).

(1:46).

(1:50). (1:53). Silent for 1 minute for sacrificed mice in medical experiments. (They heard the Church bells ringing from their room, even the Creator is with us.) (1:55).

Keshe introduces the Japanese scientist who introduced KF to TEPCO and was sacked, and he did the research at Tokyo University. (1:59). cancerprocessing.org .. (2:09). The Japanese scientist presents research at Tokyo University. (2:16). (2:25). (2:31). (2:34). Gans water protected the DNA against H₂O₂. (2:36). He injected CO₂ Gans water into a tumor induced in a mouse, after 1 month it disappeared. (2:43). The Gans is rapidly discarded from the blood and not stored in the body. No damage in the tissues in the sacrificed mice. (2:48). The conclusion is that the Gans is non-toxic. (2:55). 5 minute break. (3:02). (3:05). Tests on Human Cancer Cells. (3:07). The "Amino water" (CH₃), energized all the cells including the cancer cells and they didn't die. So don't use CH₃ in cancer treatment. (3:10). He believes the Gans destroys the lizozoms (?), which are the trash cans inside the cancer cells, when these get burst they release all the collected toxic materials and that is what kills the cancer cells. You kill the cancer cell from inside with its own toxic waste. It doesn't go after the DNA which can easily replicate itself. (3:12). (3:17). Cancer markers etc. (3:19). Results. (3:23). (3:27). Test on the DNA, ZnO and CO₂ effective. ROS and MDA are markers in the blood when the cancer cells are dying, are the main indicators of the treatment for cancer. (3:30). Conclusion is that CO₂ and ZnO are not toxic to normal cells but kill the cancer cells. This is the end of phase 2. The next is phase 3 and you need to sacrifice a lot of animals. (3:32). he tried it on just one mouse that they infected with cancer and after 20 days no tumor was left. To go from this to the next phase in Pharmaceutical certification would take about 20 years. (3:34). But because of the efficacy of these the time can be reduced. This is the exact same way that he has used to test Chemotherapy chemicals. It normally takes 3 to 4 years to test the toxicity and efficacy levels and to adjust them (for safe human use). It's a thin line that you have to catch where you kill the cancer cells but not the human. After this the human trials start, which take a long time. For the Gans it took only 3 to 4 months because of its efficacy. This is especially for government people listening in the background, this can be done in any government structure even in the third world, rapidly and low cost. This is the beauty of it. (3:36). They have to test for interaction with other chemicals, which takes a long time, even the herbs are toxic after a certain level, but not the Gans. So we shouldn't see any side effects. His wife without knowing it used the Gans water in the soup and his child ate it without any side effect. Interestingly, his child got a big interest in the planetary systems since then. (3:38). Keshe says, the important thing is that you cannot over dose on it, your body takes what it needs. (3:40). We see with some governments doing research that with the use of Gans CO₂ water you reduce side effects of certain chemicals. It will revolutionize the world of Pharmaceuticals. These 2 papers will become historical papers, it will change Pharmaceuticals. (3:42). The beauty of what you have seen in the last hour is that no one has ever shared knowledge so freely. 29 (3:47). He presents Paper #3, the animal testing. The time to get rid of a tumor is 20 days, but you have to find the right dosage. ... the new problem is that millions of people die every year of cancer, with this development there will be a population explosion in a hundred years, there is a need for man to go into space, with this T man can survive a hundred years in space. (3:51). Wednesday morning an agricultural group of scientists will start. ... the KF will support scientists who are imprisoned and their technology stolen from humanity. ... (3:56). He continues about the third experiment. Normally they sacrifice 250 mice, but Keshe was not comfortable so we reduced to 50 mice. We used a mixture of ZnO and CO₂ because the cancer is emotional dependent so you have to use ZnO. The ZnO stops the future recurrence. ... we use CO₂ and the water of ZnO then you have the security of

no heavy metal particles in the body. (4:03). Treatment method, 3:1 ratio of CO₂ to ZnO. They learned this from experiments with TEPCO.

All the mice completely recovered from the cancer, 100%. (4:10). After 3 to 4 days we see reduction in cancer, by 8th day the blood markers are very low, you see the tumor on the mouse but the blood markers are very low. This is for intestinal cancer.

We need other governments to come in and test for other cancers. (4:15).

... for 100 kg body weight 800 mg of Gans (water or powder ?) .

We have seen a small amount of residual Gans in the blood stream, which is a very good thing because we inject Gans into the blood circle, if it has found its way in then it can deliver Gans to other organs if there is a secondary cancer. It's for the scientists to do. (4:20).

end

168th Knowledge Seekers Workshop April 20, 2017

(,)

(:09). Shows photo of Ghana draft of Space Center. (:20). (:27).

(:30). Talks about MOZHEN to come to Ghana for space training.

(:36).

(:44). ... we are not taking medicines, we are controlling the environment. It is a much more powerful, faster, safer system and it has to be seen to work in all directions. Any questions. (:46).

(:54). If the Sun is the soul of this Solar S and its planets are its P manifestation then what would be its emotions? The E is the material btm the span of the Sun to the entity, what we call a point of transition from the start to the end, the points where there is a transition point, the emotion, it's like our brain from what we know, where the soul is to our emotional part of the brain where at the end the strength of the E converts into the level of the E of the P where we call the point of the brain where the position of the hands and fingers, where in that point the whole thing converts into the arms and legs manifestation of the physicality. Shares a screen. (:57).

... the soul of a man starts as a Pl. (1:03). When we look at the photos of AA. Shows AA in salt environment. Look at the shape of the material. This is vitally important, we have AA of Zn but all in the condition of the salt, (? not yet in the earths fields ?).

(1:06). All 4 AA are next to each other. If you are born and the life starts with the gaseous part of it, this is the shape we will have. This is the shape of the body of the man, of our brain structure, as long as the AA has not interacted in the MG field levels with the P part but in a salt solution, that is no minerals or any other things added to it. Show CuO₂ and CO₂, if you look you'll understand something very interesting. (1:10).

turn them 90 degrees upward. and ZnO₂. (1:12). These all are in a condition of salt, when Man came to the point of life as an AA started, when it comes in touch with the AA, the P part of the planet has dictated the change in the structure of the AA. All our muscles are made of Cu (the middle picture). 113 18

(1:21).

(1:25).

(1:31).

(1:33). about vegetarians ...

(1:41).

(1:44).

(1:50).

(1:53). Rick said, when we came to earth we may not have a conscious memory of that decision. Keshe said, who brought you to earth, you didn't come to earth you got made of the earth's materials, unless you're an alien. Where did the earth material come from? From the reduction of the fields. We come from stars. Where did the AA come from. The AA of this planet comes out of the interaction of this planet atmospheric fields with part of the PI of the Solar S. What about other AA traveling through the U? If they come to a given area and interact you'd most probably have 6 arms and 20 legs. 54

(1:59). about the soul and elevating

.. (2:02). I have been through this twice.. a lot of you ask me where does the knowledge come from, it comes from the soul that we receive, physicality is the same, it's (only) a container, it's like you had a water and now you have a juice.

(2:05).

(2:11). 14

(2:21).

(2:36).

(2:39). Caroline teaches. The mothers want to learn the Gans' so they can relieve the pain of their children. Wants to bring back the confidence of their own power.

(2:46).

(2:51).

(3:03). Keshe teaches again. (3:05).

(3:12).

(3:17).

(3:27). why he takes all the trouble to enlighten man ... pyramids and they abused the power. look at all the pyramids across the world ...

(3:32).

(3:40). End.

169th Knowledge Seekers Workshop April 27, 2017 PM

(,)

(:05). This is part 2, the first part this week was the Cancer teaching on Tuesday. Asks for volunteers to spread the knowledge. (:10). The pictures from last week.

(:20). Last week was AA in Mg salt, now we have AA in Na, which looks like skin of man.

(:25). If we used Ca salt would we see the structure of the bone?

(:34).

... repairing muscle tissue with CO₂ and CuO₂. (:42).

(:50).

(:52).

(:59). Did Moses part the waters of Plasma? He did nothing ...

(1:03). Goes over history of Christianity. Persian religion ..

(1:08).

(1:14). In the old Torah's they explain exactly who Christ was and why he was crucified. It has been cleaned up.

(1:21).

(1:24). Will visit Poland and Turkey soon. end.
