

176th Knowledge Seekers Workshop -Blueprint for Peace in the Islamic World-

June 15, 2017

(Blueprint for peace in Islamic world, Patrick explains what happened in Belgium Court, DL collaborating with police, History of Islam, Earth Council reads letter to Moslems, How the soul is created and its power, When we discover our soul we become free from the abuse of the religions ,)

(:11). This is a Blueprint to change the course for Islamic World and the world. Dr. Parvis is on the EC and lives in Middle East and sees very directly the trouble there and that they have turned on each other, Moslem brothers have turned against each other. The 6 members of the EC are responsible for the security of this planet. They have asked for help in how to change the situation. (:13). Moslems against Moslems, Jews against Moslems, Christians against each other, the name of God has become a passage for killing.

(:18). (:20). Patrick from Belgium tells what happened at the court in Korteljk. Two police officers stopped them and asked them for their passports and photocopied them, then we saw other people going in and out and they didn't have to give passport. There was intimidation. DL took a picture of their group. Intimidation in the court by the police is a criminal offense, perjury. (:27). DL was standing with the police. We have a huge number of supporters in Belgium and they have been intimidated. Please go back on the 27th. Never before have we seen people's documents photographed to get into court. (:29). If we say it then you say we are phobic, so with this witness you can see how KF supporters are intimidated by the police in Belgium. ... the important thing for this case was that witnesses clearly saw that DL is collaborating with the police and was brought in to infiltrate the KF. Please don't be intimidated that is how they managed to kill many scientists. (:31). DL made 2 copies of the patent and took one to China, called the kashmere effect, likely Arman was there to open his hand. ... why do we call it the Blueprint for peace in Islamic World, because the world has lost track of things. (:33). The soul of the man is the ethos of the man, his work, the reality existence of the man. What we have seen in the past few weeks, how the influence of one religion on another to attack each other. But the essence of religion goes to the writing of the prophet and not the people. The KF is establishing One nation, One Race, One Planet. To create One Race we have to understand the divisions within the race 58

(:40). Has lined up one after another they call them the 12 Imams. At the moment the conflict we see in the Middle East is a war between the religion within the religion where anyone who supports the family of the prophet, the Shiahs, is vindictive by the ones who go down the historical line, but in fact they are both wrong. Who followed doesn't count, what is written and the message of the prophet counts. This is the Blueprint of Peace, we invite the Islamic World to put their pens down in who but not in what is written, I bless his name Mohammad, and this has to become the Blueprint for peace in the Islamic world. Each one divided because it suited them in one way or another. We see the same in Christianity, it's in the writing, 72 ships would carry the ?? of Christ, so there are also 72 divisions in Christianity. We use this workshop to elevate all the ?? Moslems on this planet, to unify and become part of the reality that it is the writing in the book that counts and not in how, who, where of the divisions. The unification of the one world religion is the cornerstone of the World peace. (:42).

Because when they understand that they are one and it's the book that counts and nothing else then we achieve a major goal. 13

(1:37). This is an ongoing process and this is just the beginning. ... Is there anything more Mr. Keshe. No, I am handing this work over to the structure that has been created in the KF. I am retiring in every essence. I have taught enough for the maturing of the man. And now it is for the Man to choose the path. In time our work will show the change in the path. (1:39). and how we have changed the humanity in our own work. ?? we have matured in understanding about our own soul, we find out that it is very easy to reach other souls. We have a Mozhen team here that we are trying to enlighten to be able to understand the work of their own entity. I explain frequently that from the beginning time Man always thought that his real existence was somewhere out there, in the maturity of understanding he called it a soul, then calling it a soul he could(n't) see that it is within himself. As man has understood more of his Physicality, it is the job of messengers like us to explain to the rest of humanity that the soul is within himself and not somewhere out there. When the first man said the earth is round we know what they did to him. Now the message is simple, the soul of the Man is within the Man and it is so powerful that it can expand the U. From this we learn one thing, if as one soul we can reach the whole dimensions of the Physical entity (1:41). that means the soul of the Man is extremely powerful to be able to do (effect) others, to change others, to give that by giving to bring balance to himself and to the others. It has been very hard for many of us that our soul is within our structure, by (believing it to be) out we could blame it, use it, abuse it and the rest, but now with the new teaching we understand that our soul is within the center of the brain, we can place and locate it, the same as we can do with our nose or toes. One of the biggest problems for man will be how can I get in touch with it when it is already in touch with me. It is the creator of me. How can I get in touch with my creator which is me. This will be taken as harsh for a lot of people, the only thing you should understand is, because of me the soul exists within me, and I exist with the operation of my soul. Let's turn our eyes inward and look into our soul. We shall see nothing as it has no dimension, it has no Physicality and its existence confirms our existence. We exist because of it and we are created out of it. When an egg and a sperm come together, (1:43). each one carries its own soul. On mixing, on accepting each others balance field but with slightly of a different strength, this leads to the rotation, the dynamism of the soul, and in that direction, as the 2 souls the sperm and the egg, in trying to catch up with each other, create a motion within the womb of the Mother, they absorb more and more energy from the environment of the liquid, the ocean of life of the Mother, as they absorb more due to the parameters that exist in the structure of the U they can hold onto a certain amount and then they divide. They have to divide to be able to hold onto what they are absorbing, and in that process as they are absorbing ?? they amount that has come in from the egg and the sperm, this structure of

the rotation of the fields between the soul of the egg and soul of the sperm, in the dynamism of absorbing more and more achieved from the liquids of the life, which is the mothers life it leads to the division of more because let's say each sack can ?? absorb to 1 kilowatt but now they absorb 3 so they have to divide into 3, and so is the division of life at the beginning of life, then it comes to the point where these masses each carrying their own fields in the strength of the dynamism they become like a gel but all working, dynamically field changing, and then in that point, all of them in one point release all their fields of a certain strength, (1:45). which is a common denominator with ?? all of them, into the center of the whole structure, and **this is the point at which the soul of the Man is created and the entity becomes one. It is at that point where with the knowledge and information which has come from within the sperm and egg, from the historical background of the 2, then the bones, the heart and everything else starts. So the soul of the Man has come from the entity of Physicality, which itself came from the fields of the Universe itself.** The physical life of the man is the incubator of another dimension in a specific strength. Our body is a filter for a specific strength collection of fields which we call the soul of the man. We absorb energy through it and because of what it gives out we obtain and ?? physicality. If we go to the next step in the understanding that in the reduction of the strength of the essence of this creation which is the soul of the man, the brain in filtering decides the shape and size of the emotion of the physicality of the man, if man matures to understand the next step of the creation, and that is when we leave this planet, the AA is the condition of this planet, the AA on this planet in CHON. When you go into the spans of the U with higher or lower strength fields, (1:47). this becomes unattainable. We speak about detachment. What is detachment, we call it that because we are materialistic, I get rid of the metal, gold, house and god knows what and I am detached. But the true detachment comes when the man goes into space and he finds out that even his brain which is made of the AA becomes part of the universal field and doesn't exist and the only thing of the man that is left, is the soul. It is like when you sugar coat a pearl, when you put it in hot water the sugar goes and the pearl stays behind. The sugar coating is the physicality and the brain which initially created ?? the pearl itself. And now man has to understand that in opening of the deep space when we come across stronger fields which the AA body of the man is nothing but an illusion in the ?? of the fields (it dissolves). Then what we were happy to escape into and get rid of our arms and legs, we find out that the structure of the brain can't exist because the mixture of the strengths is much higher, but the soul still exists and shall survive. that is why man has to understand that if you can extend (1:49). the life beyond the physicality of the existence, what we call the total detachment from the physical structure the man comes to understand that the soul has a lot of power, now he can expand the whole U as the structure of the brain that filters doesn't exist, the existence of it is dictated by the restriction and the field forces which surround it so the soul of the man can expand the U. It is for us to be educated and if we understand this, ?? that is part of the whole work of this morning, is that in every soul in allowing not for the brain to be the dictator of his existence, can then reach every other man's soul and in totality reach the humanity, and if one understands this one can reach every man on this planet. It is the restrictions and prejudices of ourselves in our own abilities, which restricts us from being able to the others and not the reality of the ?? existence. It is important for us to understand that the physical life is nothing but a mirage, a mirage of the imagination of the soul that would like to manifest itself with the dimension of the physicality of the environment we call the earth. If you understand and comprehend this you'll understand that detachment is from the physicality of the existence, but understanding the totality of the

existence which is the soul. (1:51). the past 10 minutes of teaching has taken man millions of years to comprehend and now that the man has matured many can understand this simple ?? word. The work of the religion has been to hide the existence of the soul from the vision of the man and in doing so they have abused it. The is, do we need the religions. Or does the ?? unity of mankind and the UC become the religion of man. We have to understand the essence of the creation of the soul. In the past few minutes I have explained the mystery of existence on this planet. Now it is for the maturity of our understanding, to understand and where we stop that is each of ours limit. We can go into elaborating how the fields come together and what it is, but the essence of what has just been explained, explains everything for what man (needs). And that no one can abuse him for not knowing what the soul is, where it is positioned and how it comes into existence. We have explained the manual of the creation of the soul, the Blueprint of creation on this planet and the rest of the ?? U. The time (1:53). will come that many people will question their own existence, but there will also come the time when we understand of the position and strength of our soul. We don't need to go through the delivery of the child through the physicality, it is much easier to go through the soul of the ?? It means that I put part of my soul in and you put part of yours in, and if they agree to share and combine it will create a new soul that becomes the child of the soul. This child of the 2 souls will have ?? and he will decide in the future how to manifest itself at the point of the physical manifestation as he or she likes. And this has been one of the biggest mysteries of the man, how do we come to ?? have black hair and blue eyes, brown skin and the rest. We always blamed it on the genes and DNA, we never understood that it is our soul that would like to manifest itself in the features that he likes, as he sees himself for the energy he needs. Now you understand what it means I made Man in the image of Myself, ?? the man is the image of his soul. Maybe one understands more about the true creation. Then one should be able to get in touch with his soul and through it to give and take accordingly, not to steal, (1:55). but to be able to be there to give enough that he confirms his generosity of his existence, and to be prudent enough not to take more then what he needs. For many years many philosophers and prophets have tried to explain this simple path of existence and now from the stroke of a pen from the Messengers of the Universe it is revealed. It is for the Man to mature. It is for the Man to understand how he has come to exist. the life is nothing but the process of the accumulation of a given strength that leads to confirmation of existence in the ?? dimension. Blessed are the souls who have understood. There is no difference in the structure of the life of a man, an animal, ?? , Solar System, a galaxy or the U, it is just the strength and the amount of the content which has given it different dimensions, shapes and colors. Once we are aware of this knowledge does the physical life need to exist the way it does now or do we need to pack up the tents and move to a new dimension ?? Physicality at this level brings many pleasures but has also caused many harms, damages and suffering and this is the time to stop. When I said to you a few weeks ago that we have ended with the religions now you understand why, because when the man comes to understand the strength and position of his soul he believes in the religion of the Universe which is the creation of the unity of life. It doesn't matter in what dimension or position ?? he is in the U. (1:58). Questions.

(2:08).

(2:14). We have to raise the soul of the Man that no one falls into the trap of the Church, Mosque, or Temple, and that he becomes part of it (totality) that he doesn't get abused.

When you see a mother beating a child society takes the child away. Why don't we do that with the rest of humanity. Up to now we didn't know, but now that we know then we are responsible. The interesting point will be for most of us, how much we will decide to give from our soul, and when we have decided how much to give, that is the point that we have failed, because we have put the limitation, as the soul has no limit. The more you give the more you receive and with it the more there is to give that it gives you the pleasure that "I exist". the existence of the man should come from giving and not taking. At the moment it is in reverse, taking and holding, and that is why the humanity is down the shoot. We have to follow the path in the Book that brings all the man together as one. (2:16). and not the path of the thieves of the words of the Books, that makes them a priest and the rest. The sooner the man matures to know the soul is within him, the sooner his soul decides what to give, then man reaches the point of maturity very fast. As you become a giver the ?? umbrella of your soul passes the dimensions of your Physicality of your brain and your body. In a sense you become in touch with other souls, and then you soul what that soul is in need of, and you become good at it, that you know by physicality what ?? in one way or another you elevate the soul that it is at peace, then ?? that peace becomes your peace, this is how it is going to work and not by putting it in the bank, and in the Church of God which doesn't exist. You are looking for the ?? called the bank of god, and you want to see which priest after services goes and banks there. As I said many times, there should be 100% taxes on religious organizations, because they are just collecting ?? and all of it has to be spent on the society. This is how it will be with the KF work whatever comes from the man's soul which is the benefit of the foundation goes back to the society. This is how it should be, and should have been set out from the beginning. ??? I was in Iran during the Maha ??? (2:18). ... went home on the last day of the fasting. I saw there were table on every street and they were collecting money for those who missed their fasting or they had to break their fasting, they pay a penalty for it. So I asked where does the money go, he said nobody knows, it goes in the Mosque. Now you see how they have fooled the soul of the man. You put your body in the suffering by not having from morning to night and if one day you didn't do the suffering, then you pay for it to who, the bank of god. But that god doesn't exist, it becomes cars, vehicles, food, parties and nightclubbing for those who receive it. Because there is no accounting. I would like to see the bookkeeper of the god. Then we'll see how much man has saved in the past thousands of year. the amount is zero. (2:20). Many Jews, Christians etc, know what they do, but it is us because of our weakness we are blind to it.

(2;22). We have finished with the teaching of Gans and N etc, because the purpose was for you to understand the soul. Now we start building these reactors to start flying, and you'll understand that the flight is within the soul. We had to go through all this to separate and end the dimension of Physicality, to the dimension of, what I call in-dimensional which has no dimension, it is the soul that decides what and where to be. 2
23

... when you feel the need of a person you shall give because you understand the correct need, (2:29). And you'll be taken to be there because your soul is aware of it. Your Physicality is just a tool. Some time ago I arrived in a city I didn't know, as you know I am a lover of Iranian food, minced meat Kabal with rice. I heard Farsi and found a place, I heard a couple wanted to get married but didn't have the money ... I heard the

discussion of the love and the suffering. I went to them and said I would pay for their wedding. They said they couldn't accept and the restaurant owner said you have the problems and here is the angle to help you. So I paid and never went back to that restaurant. This is how it should be, and not in the Mosques or the ?? of the Bahai faith that they take from you and they never give, and not in the Church. Your soul will bring you to the point (2:33). where you have to give, if you believe in it you live by it. This has happened to me and Caroline many times and I am sure it has happened to you also. The closer you come to serve, then your body takes you to the place, your Physicality just walks into it, if you understand this then you understand that the Temple, Church, Mosque, and Synagogue is beneath you in the church of your body within the structure of your soul. When Man understands this then no one can abuse you in space, because you know that everything is within you and you have the strength to overcome it. It is our responsibility now that we have found the strength of our soul to understand that this is the responsibility of our Physicality to look after that soul as long as the soul is a gift to our existence. The death is not the end, it is the beginning of the non-dimensional existence for what knowledge we have nurtured. The body of Man is the incubator for his soul and no more. the womb of the mother was the incubator for Physicality to create it and in maturing it the Physicality of the body has to let go of the soul as ??? to exist in all dimensions of the creation. (2:35). Our P body is a transition time for the creation of the soul, the maturity of it and for the understanding of the totality of the soul. The reason we get educated in different ways is so that when we go into the spans of the U we'll find out that we can't be abused anymore, as we have learned ourselves that the temple of god is within God and within us. Any other questions. Take the peace message back to the Islamic world and the others, and the message of the EC and UC and core team and you'll find out, that you'll have the effect of it for the man to read, and it will reach because it is done from the sincerity of the soul to the souls of men. I can't ask you to give to the physical life of the ?? Saudi Arabia, ?? (2:37). ??? the king and the rest because of the injustice to humanity. They have to understand themselves that what is being done is unjust ?? and what they have done to ... We opened the hand literally of the Vatican trying to create an uprising in Communist nations, communists against communists. And the forces of ISIS was supposed to be used to do the mayhem. Now the Vatican has supported the others, the same people are moved into the Middle East to create mayhem in Iran and Islamic world, Qatar, and the others. The guns were paid for years ago and now have to be used. Now you see how suddenly this thing has popped out in , again the same name, group, people. If we managed to stop a war in China and Korea earlier now we can do the same here. We become a force of peace and our wish is our command. I have advised the Iranian government to call the Saudi and Persian Gulf leaders for a lunch, and not a peace talk, and shower them with love and care the way we do in Iranian hospitality ... (2:39). This sudden thing has come because the Vatican paid for the guns to be used in China and now they need to use them in Middle East for the budget to be met. My dearest wish is that the faster the stones of Vatican return to the Coliseum the faster Man will find true peace. 35

(2:42). It is time to put the weapons down and use the soul to find peace. The times have not changed, it is the work that we have to understand. (2:44). Q: when we activate the SS within us and experience the 4th dimension , deep within the physicality and we enter a wormhole which takes us to that reality, do we ... MG fields of the destination. (audio disrupted). (2:49). Repeats question .. there is no choice from the experiencer of where the destination is so, is is like a PI SS that creates the MG field of the destination, is that what the soul is doing. What are we calling a wormhole? You

feel the movement of travel even though the physicality. Is it a field rotation that leads to this. We exist through our work and the work of our soul, ... do we exist through our operation. (2:52). (2:55).

.. we explain things according to the understanding of the time. In the western world they have never understood the emotion like the East Asian, The Western world understands the soul in a totally different way then the cultures of the East. (2:59). Buddha could reach their understanding and emotional state.
