

178th Knowledge Seekers Wrkshop - Blueprint for Peace f Humanity June 29, 2017

(,)

(:11). We did the Blueprint for Peace for Islamic world and now the final push for peace for humanity. Some things have to finalized first before that can take place. A number of you turned up in the court on Monday in Belgium and it has gone in the favor of KF the way we wanted it, I will explain this in one section of today's teaching. Another section is what the UC has decided with the publication of the book " The soul of the Man", I said that when the final book, about the soul was written then man has reached the maturity, we have reached that point. (:13). The third part will be the blueprint for world peace. 18

(:19). (:21).

(:30). 40

(:40).

(:46). break in audio (:48). back up.

... For our Chinese friends we need to get convicted for 30 months in order to bring the case to a higher court, they were worried because they don't understand. (:52). ... DL wrote that Keshe didn't even attend his mother's funeral. I was in surgery in Seoul how could I. ... A man's wish is to be at his mother's funeral, not on the operating table with a bunch of criminals sent with to Korea. You are so low you have no mother and you deserve it. The funeral of my mother had to be reported to me by mobile in hospital in Seoul. Read it and you'll understand how low this animal is, I hope you burn in hell. Nothing hurt more then the shit you wrote about my dead mother and I hope you burn in hell and your children in front of you watching. (:54). This is from a man who loves and cares for his mother, now you know how much he writes is the truth. We'll come back to this case when we appeal to the highest court. This case is not going to finish. Please language translators explain to your people that this is the only way you can get criminals into court in Europe. This is organized crime and is very common. In China they execute them. It's the only way when the prosecutor stole the technology and demised the case and the police assisted. This is the mafia system in Europe and it works in Belgium. They have killed many scientists. We wait for the appeal, we expect a lot of attacks on us, stay solid and correct. This is part of the evolution that the man becomes clean. (:56). This is part of the peace, when there are no more people like this to do harm. 45 years ago when I went to England there was a dispute when they found British police to be criminal, the people said that it was impossible that British police can't be criminal. Now half of the police are dismissed or in prison for criminal activities. And now we see it in Belgium. The judge has to open the police case in Italy. ... don't forget that DL was an orphan in Congo, they came understand the King who is a child molester and brought into his organization to kill the scientists. (:58).

(1:00). We come to the second part of today's teaching. I always said that when the man is ready I will write the final book, which is the soul of the man. The UC requested the book about the soul be written, and as of last night with the meeting of the UC support it has started. This means the man has reached the pivotal point to mature. A couple of people in the background have been going through every teaching where the soul has been taught since the beginning and putting everything together to make the book ready, the difference is I have taught and as agreed by the members of the UC, (1:02). and the support councils and the title shall be chosen by man. It will be the first time when all the languages collectively write the truth about their own creation that the life of the

man starts with the soul. The reality is very simple, I have trained 4 souls known as Mozhens to carry the teaching with themselves to carry the teachings across this planet. Most probably you'll never know all of them or you might know some of them. In the past 6 weeks they have been taught enough to know what the steps are and how they become the next generation of showing the man how to allow his soul to elevate and how to allow the soul to become the environment of the man in the space. The teaching of the soul as the creator of the Physicality of Man has come to its end. What ?? it's going to be called will be decided by the totality of the people by writing it, how it will be taught from which age, it depends on how it will be narrated by the people. I have said that my mission is complete when the man understands the work of his soul and we are getting to the final point. the mystery of understanding the soul (1:04). not knowing that it is in the center of the brain, it has been hidden and is the wisdom of his hidden talent. Now he knows where it is and how to use it, and knows how he can travel the spans of U without killing another man, animal or being, and where he can tap into the Universal Soul of the universe. Animal eats animal, but souls share fields that they stay comfortable and ?? lasting, and now we understand it. As I said my mission is more or less complete. I have trained 4 people who in time they will teach all of you. It is for you to understand that they have no higher position than you, but they have the knowledge to share with you. The soul is created out of the fields of the U it is of a higher order than the Physicality and that is where the wisdom has come from and from now on this is what we expect for humanity to take action and to stay correct in the course to use the soul to elevate the humanity and with it to elevate the planet, to travel the depth of the U. We have called the Mozhens our brothers because that is what transfers the knowledge in the space. We are all brothers across this U and not just on this planet and in that process we stay firm in teaching as long as the facilities for teaching are available and as long as the man is there to learn more. (1:06).

... We come to the third part the blueprint for peace. (1:10).

(1:23). The 2nd of August is my birthday. Get all the world leaders to sign the world peace treaty at Mt. Carmel in Haifa at the Bahai center.
no more Gans' or N materials until we get them signed to peace.

(1:26).

(1:37). (audio restored) .. I have successfully organized 3 peace (conferences), now is the time to go head hunting and get the heads of nations to commit their nations, not with free energy promises nor anything else, but purely the promise of a better future for humanity and opening of the space to man. I accept to give the invitation to his Excellency Ayatollah Khomeini, even if it means imprisonment in Iran. It is worth it.

(1:39). If you talk to the way I talk to some of powerful leaders they say themselves they are fed up with buying arms when their nation is hungry. But they have to do it to keep the European and American happy that can receive a donation for their budget. I said to them, you are the most stupid people to think this way, because the money you give for the arms, you don't need any donation from Europeans and Americans for your nation. If they are spending 2 billion for arms that they are never going to use, that would feed a lot of people. They don't need to go and borrow more money. We open the KF channel on a daily basis from today. Somebody comes or doesn't, how we ask for support from other teams we report it. ... members of EC ask for a meeting and write immediately the Bahai's about the Temple. (1:41). We don't have time, it doesn't mean the end of the world but the end of the suffering for this world. When we get the

world peace signed then go back to your Gans' and through it feed the hungry, make everything possible and make it a joy to be a human. We start from tomorrow on the KF website this channel will be opened everyday. I remember I was in Russia and called the Iranian ambassador I said I found the answer for ?? do I have the permission to treat the Israeli ?? , I knew the answer but I wanted to be called correctly, I didn't want to be called a traitor. Very quickly I received an answer, (1:43). ?? this is a human being ?? and you are allowed to go ahead. I offered the knowledge to Sharon's family and Israeli government through Mused. They moved him from the hospital to his home but somewhere it get ?? stopped. So there is no hatred from Moslems against Jews, but loving, caring and understanding. He was sick and in Coma and he needed help to come back. Now humanity is in Coma and stuck in the darkness of war and it is for us to awaken the man. Time for peace. That we should not even spend a cent on something that can harm another person. Please I ask you to stop making Gans', coils, and everything else I have taught you for 35 days. until we achieve world peace, get the first world leader to sign, by going to Haifa, where all humanity goes to rest his frustration and anger and exchange the beauty which is set for peace in the ?? (1:45).

(1:53). 7 billion to 190 world leaders we want to sign you to peace. ... Today's teaching has 4 sections, now starts the forth section. (1:56). In many discussions we ask ourselves why are we here, why me, why do I exist, what is the purpose of me being here as a man. Now as a voice of the Creator I explain. I have explained this to only 2 people up to now. Now it is time for humanity to understand. Many times you have asked yourself this question, why me, what am I doing here, what is my purpose, where am I going to, what is my future. The whole of creation for man has been very simple. It has taken the Universal Community to create nursing homes where we can nourish and nurse you souls so that we can use these souls for the establishment of just and correct structures across the U. You will understand more if you are educated well in the knowledge of Pl. We have a video that every time I see it, it brings so much knowledge and I think, why doesn't the human see. In the video 2 or 3 rays come together and then they become a circle and a Pl and this has so much meaning in so many different ways. (1:58).

what has been missing

(2:03).

(2:08). I have taught enough. .. Are there any questions. Alsar got married in France, she didn't change her name. You Iranian women are to handle. ??? this Delanois and how you wished he goes to hell. (2:10). When you talk about the leaders of the past and they created so much killing and suffering for humanity, why do we want to elevate their souls instead of take them to the court of justice. ... we have no choice we have to ??? these 140 people we call the world leaders ... we got 2 choices lock them up and man stops to make arms, or come up with another suggestion. Because we have a habit we follow the leaders, this is the way the man works. What are we going to do with them, we need a structure to organize things for us, you call them presidents or whatever. It's the way that man has not learned to organize himself correctly that has lead to the creation of these people. When I was in Dubai somebody asked me if I want to see Sheik Mohammad, he wanted \$500,000 for half an hour with him. I said he has to pay a million to meet me. They have put values on them. We have the same situation in Accra now, if you want to meet the president or so and so you have to pay. You have to pay us we bring you the message of peace. (2:12). At this moment we are playing a very funny game, we are elevating the souls and pushing them to sign the peace treaty and

then we tell them you have to handle a lot of unemployment and to them, it won't work so they push with whatever they can to do it, but it has to happen somewhere. Who is going to be the first one and stop these things (weapons). My anger with what I call criminals like Delanois and DL is that these are organized gangs of criminals. Are all our kings and presidents organized criminals, partially they are because that is how they came to power, but also it has to be partially disarmed. I carry a lot of anger with me regarding the situation in Belgium regarding us because we could have done so much and moved so far ahead, except that these people created so much mayhem for them. Do you know what DL gets for doing what he does to me? He gets 2 children to rape. That is all, he is a pedophile the other one gets the same. Do you think a man goes to harm science and technology if he wasn't gaining something. These people are motivated by the abuse of children. We are not talking rubbish we have seen it, the people who support these activities. The guy is in prison indefinitely. We see today the top priest in Australia has been summoned for child abuse, the closest advisor to the Pope, it is in the paper today. Then we see a priest raping a few children has got a few weeks in prison. (2:14). The abuse and what these people think they are is what they get from it. The guy who helped put me in prison for 11 days got a \$500,000 apartment. These are the things that go on and we have to stop the cycle somewhere. My anger is that how much we could have achieved if there hadn't been so much interruption and damage. And why do these people damage, a few seconds with a playing with a child, their own daughter, own children and then accusing everybody else to cover it up, a few houses and keys to a few apartments. why? At least by going to the world leaders we start the process to stop the chain of creating so many orphans, and stop the chain of so much hate and resentment. If you don't have the weapons to shoot, kill and bomb would you become Israelis, Palestinian s or Christians? Because now you don't have anything to harm with. The maximum we can do is to stand in the square and shout, what else can you do. We need the world leaders to set an example and we have seen it that when you have a correct leader the rest follow. (2:16).

(2:20).

(2:23).

(2:25). ... Okay let me explain. We started making the gas cores and then when we switched how many people left because of it and came back later. Do you remember when we introduced a new knowledge, the Gans', because it was something that they couldn't imagine. Does anybody talk about the gas reactors today? No, because the gas was there to create the Gans and now we have the Gans. Now in 3 years we have matured the knowledge of the man to understand that the purpose of the Gans was to create a Free Plasma (FP) and how it is and we have seen the effects in different ways, and now we know what it is and from the knowledge and effect of it, and understanding that the egg and sperm are Gans' and it has energy in it and we rotate it, we create the soul. (2:27). Now we have entered the third phase, which has nothing to do with the Gans, we talk about the soul, but the soul came from the creation of the Gans' of the sperm and egg. So this is where the confusion is. Now man has to attach to himself goes in ?? problem, this is our problem, we haven't changed course, we have educated according to the understanding. So now we are talking about the FP which has no gas reactors, or Gans' and cores, and about a FP which is the soul of the Man. If you want us to stick it in something, then call it the brain or the body. When the reactor leaks and it disintegrates what will happen to the PI inside it? It joins the rest of the ?? of the U, it doesn't disappear or get destroyed. The problem is that we have changed the reactor and this is what has caused all the confusion. Now the reactor is the brain and the content, the Gans of it, the fields which you call the soul. So where is the problem. Do you want

to test it, expand or reduce it, get the apple moved, taste the apple by looking at it, get yourself flown into the space, now you have that capability. So what is the problem? Oh you think because we didn't much about it in the past 2 years, I prefer not to touch it because then it shows my stupidity or lack of understanding. Nobody is stupid or lacks understanding. Now we have to understand that each one of us has a reactor inside called our soul, it is us, our creation. This is the problem. (2:29). Rick says it becomes a problem of too much freedom. What is the problem? It's like when someone asked how many types of reactors are there, and you said there are as many as there are stars in the U. That was mind blowing that there could be that many, but the more I learned about the T then I realized that there can be that many. Then you can leap frog past all the physicality reactors and find the reactor in oneself. It's a higher game or view point or perspective and that is what you seem to be pursuing now, is that correct? That is all it is, and now you are educated do you want to stay always in class 1 or the nursery? it's a whole different ballgame. Mr. Keshe what is the effect of alcohol on the soul? (audio lost...) It was allowed in Christianity and Judaism but banned in Islam? Alcohol has to do with the Physicality and doesn't touch the soul. It is extra sugar. (2:33). We have taught the Mozhens how to create and effect the operation of their soul. How to use the structure of their bodies to expand the dimension of their souls, and the interaction of their souls with their environment. These kind of teachings will gradually come into the public. They have been taught how to allow their souls to expand beyond the dimension of their Physicality but understanding that in collaboration with the others they can create a structure, or by accounting with their own action they can create a structure. The past 6 weeks of teaching in Accra has always been that way. We said that there will be no reactors or gases and Gans', because if you look at them at the end they are only fields and the brain of the man is such a strong field, such a center of the energy more then the sun, that he doesn't need these things. If you need Gans' to make this and that, and you sun which is the soul has the power, why do you look for a lower order when you can play with the master. From now on we try to teach, ... the ray of the sun in traveling, in interacting with the fields of the earth leads to creation of the water and whatever which we see on this planet, (2:35). If you can manage and not that you know that your soul is in the center of your brain and you can create more energy in the hand of yourself, and not a earth ?? field, interaction, you can create water in the palm of your hand, because you create energy in the palm which is ?? opposite one which is coming from the soul which is stronger, the sun is your soul and the earth is the fields in the palm of your hands. You can drink water until the cows come home. Because you don't know , it creates a problem, but its ?? This time the earth is free moving but you hold the earth in your hand in the position that you want it to be. And that is what you have to understand. You are shown the sun of life which is the sun of man, now it is us to decide where and what we want it to be and the way we want it to be. There are no nuts and bolts in the U. We have created it. We have tied ourselves to the shackles of Physicality and we have to find any excuse to be connected to it. A lot of frightened souls uncertain of the future. The future is safe and very clear. (2:37). Questions. Something has to change and fast instead of a promise for a better future which never comes. 35 years ?? is fast enough. If the crooks, charlatans and bandits like DL and rest where not there to put out all the rubbish about us this T would have been in the newspapers and everybody else would have been benefited by it and ?? There is a chance that what they wanted to do was to make more harms to harm more. Maybe this was the best way by creating all this mayhem in the past 10, 12 years, allows the men of peace to take charge, we could teach and with it carry on further what man needs. We should not be afraid, the biggest fear we should have is what are we going to do when

this succeeds, not if but when it succeeds, because that is the only way to go. With peace on earth man will work 1 day a week maybe 2 if he is lucky, (2:39). he has 5 days a week on his hands and enough energy to supply himself and enough food to eat and he is so bored that he goes out to help everybody else out so that he is not bored. There will be nothing but the land of plenty and milk and honey, which comes out of man not having anything to do. Those who are adventurers will take to space and they'll come back, and those who are not they'll find another way. We are happy with what we have and get the biggest problem is what are we going to do with the future when we come to it. Many of you will fail, many of you will never come back, because of one thing, what I have seen up to now in the past 10 to 12 years of teaching, man has a habit of coming, stealing, and going and then feeling good with it, and then nobody knows, just an excuse to do what you like. Make the KF workshops of peace, not making Gans', do workshops on how we can create peace, how we see the presidents and the rest. The biggest fear of the presidents is to meet with the man, because that way he has to become a man and part of you. I wonder how many of you have the audacity to hold the hand of your president and say come on let's go sign the world peace treaty. I am sure that Rohani won't shake hands with me (2:41). I will be on the teachings everyday from now until the Second of August. We'll change the teaching. The students will have to come up with a way to bring peace. You have made enough Gans', spin the cores with Zn. Now we use the soul to bring peace. Q: Are we to stop giving Gans Water to people to cure themselves? What are you curing? Give to the souls to elevate. We see a lot of excuses not to do. Put all this energy in bringing peace, find a way that we can get our world leaders to sign for it. I have seen the beauty of it and what it does when you put a country away from arms. (2:43). Q; When people get sick, why doesn't anybody want to die they all want to live? Because it has been put to us as the end. They should be happy to die because they'll begin the life. Yeah but the thing is it has to be a complete life. 43 (2:50). (2:52). ... for those who are afraid of the future, what you had in this life lead to the growth of the man, this time the same process will come but with out any burden or loss or pain, because the dimension of physicality doesn't exist and the totality is much more powerful then singularity and it brings many changes, good and positive changes and your life what you stored here becomes a dimension and a size of the light that ?? create. When you look at the sky not all the stars have the same brightness. The ones who have gathered more at the time of departure, they gather much more stronger fields and become brighter stars to shine, but the point is, is it worth it, this is a cycle of life, of existence in this dimension of this U. My wish is peace and in time I will achieve it. (2:54). But this time you have to do it that it changes the grain of the man when you leave this nursery of the soul of the creation. The 179th KS Workshop will be tomorrow at 10 AM, I will not be there but you will those who are going to be teachers start to teach, you have to figure out how to bring the 190 world leaders to one place, it's smaller then a wedding. Don't go the usual way bombarding the presidents, they just block you, but rather find a way to serve the hearts of the presidents and they'll follow you. Rick shows the document. (2:56). Caroline reads document from Mr. Keshe (a summary from the last workshop describing life and how it came to be and what is prupse). We are created out of the rays of the U

... this is what we said many times, this is a cycle of life of existence. (3:02). that in a certain strength we call it the life of a man. If we change anything in this structure we will end up with something that is very bizarre, which is, what are we going to do with all the fields that we have brought together, what would be their function and effect, and what would their creation be, would it be to serve another being. We have prepared man

with these teachings on how to enter the space. Man has tried during the last 50 years in every shape and form to get himself off this planet. In the past 200 years every way to get a few meters up, but he has to come back down because he has a material attachment to this planet, it needs conversion of one matter to another for him to gain height. With this teaching we have shown man that he has become independent of position, time and place anywhere in the U. We have given the key to the freedom of the soul and with it the freedom for man to choose his physicality at the point of the observation. This is the biggest gift we could give humanity and one day man will understand. (3:04). Freedom of the choice of the space, time, where and way and who he wants to manifest himself and **if in time he becomes the creator and decider of his own position, he will become the center of a star.** 20

free to choose were he wants to be

(3:07).

(3:13). Q:

(3:15).

(3:18). (3:20).

(3:23). You can get in touch with the UC through the Facebook. They are called Universal Council. (3:26). When I see injustices to humanity it brings me stress. From tomorrow we bring the world peace, the target or 2nd or 3rd of August this year. See if you can bring 1 world leader in to sing the peace. I hope that this time we bring the peace. We don't need arms and guns to build the roads, plant the trees, etc. I have told you that many times I have been man of peace. What Caroline has said, (3:28). we converted the tools of war, when the Eastern Block opened up, we decided to change things in Easter Europe. I used to work commerce in Communist nations and during the time of Communism they didn't have businessmen so we worked with the military. Head of Militaries did deals with us, so when the change came suddenly there were no more militaries. They had our factories which the militaries needed to feed their soldiers. I had many meetings with heads of militaries, some who are now heads of state in post communist time. I sat with people like ?? Yeltsin these were all military people who were in power but they wanted to feed their soldiers. We went into factories they said nobody wants Russian tanks anymore, what can we do. (3:30). We put together a think tank, those containers for shell we converted to carry milk (instead of explosives), we converted the wooden boxes to pianos, and the tank engine case for the piano, 30,000 buckets per truck, we created a lot of jobs. We converted tools of war to boxes of music. Cheap plastics we converted to clocks. Everything military we converted, so I know it can be done. Even the uniforms and shoes we changed. (3:32). ... they should not be afraid, we can convert and there will be plenty of jobs. And the soldiers can be sent out to train the people in whatever is needed. So we can show the world leaders that we made the change when the time comes, and we still have one of those pianos. At that time pianos were expensive things to have, now you can buy one for 299 euros. Those pianos ended up in Belgium, Germany, Holland, England, France. We shipped in truck loads and they were happy people the soldiers had jobs. So when we talk about peace we know what it means, it can and should be done. (3:34). and it can be done. We are people who have been involved in it and done it and I have seen it bring so much pleasure to so many families that they can feed their people. Now you understand we are not talking just to talk but we have been the man who has done the walk and it is so easy. Let's get the world leaders to Haifa and first of all let the land's owner know we are coming. Thank you very much for today. Tomorrow will not be teaching but how to

get the peace, and don't go for all 190 but get them one at a time to come and sign and the easy ones are the Africans. The leaders of the West are too much spoiled, bribed, and too many pleasures for a free ride. Again do not worry about me going to prison, I am more worried what our children will have in their hands in the next 10 to 20 years if we fail to bring peace. Those of you who write that I might go to prison they know exactly that the prison is for them. End.

(tomorrows broadcast will be on separate document...)
