

188th Knowledge Seekers Workshop, Thursday, September 7, 2017

(About the Council members and their growth represents humanities growth, Fear of punishment goes out of the system, it's how can I more serve, Things such as hunger and shelter become meaningless, The Charter has to be written with the soul and when man writes the book of the soul Mr. Keshe can leave, He will teach us how to find the power of our soul because physicality is confirmation that the soul exists, Do not be afraid to elevate your soul and by not giving you have stolen from your soul, We do not promote Scientology they never had the solution, The Keshe Foundation and how it started is the example for unconditional love and giving, we share knowledge freely so no one has to steal,

, Use 2 Patches one with twice the amount of Gans water, Moslem man talks about his background of being afraid of God and not loving and Mr. Keshe explains the background, His background in Zoroastrian beliefs and Fire of Truth)

(:12). The members of the councils have to learn how to deliver and govern.

(:27). The conditions of punishment, it doesn't exist. It is me who doesn't receive but allows myself to be positioned in a place to serve more. This fear of punishment goes out of the structure. It's me who decides how I want to elevate the others and not I want to be elevated. the game changes, then in this process we don't need for people to tell us what to do. Doing correct becomes part of our habit and life, which means we have matured. We become the teachers, because up to now we needed teachers we called prophets, because now I don't care what I loose as long as I can elevate another soul to reach its goal. This changes things, there is no punishment because it's you who decides what you want to give. This new way of thinking needs new guidelines, a new way of understanding for those who just come into it. For those who set it up it has to include everything in this U as a whole. When we write a charter it's not writing of hunger, shelter, health, and of every other thing that is of concern for today, With the new knowledge we know that there shall be no hunger, where now we know that 20% of

(:29). our needs are through physical materials and for it we kill a lot. Do we get a permission from the cow to use his body, no. Do we get permission from the tree to use its fruit, no. From wheat, so we have become dictators of our own killing machine and now we understand that there is another way. A whole other way that the universe works on that doesn't need to kill anymore. We can absorb energies that we need in the depth of the space without waters or food to compensate for that 20% of physicality that is connected to the structure of this planet. So things such as hunger, shelter becomes meaningless, as you create your own shelter as you need in any space you need. Energy has no meaning because you soul is the center, it's the sun. How can the sun be cold, it's us who have to learn the conversion in the real term universal condition. When you write the charter it will be very much unimaginable that we can write about these things anymore, but we can write about the elevation of the soul. the new guidelines should stand for millions of years and not hundreds or thousands of years and then it has to be correct and on the conduct of the soul of the man. (:31). Through unification it doesn't matter what language or color in the barrier of man's brain, now we bring singularity, oneness and with this we bring peace. The whole process before man enters the UC is peace. The KF work is in that direction, we don't consider what's going to be with the hunger or disasters. What we call disasters are natural processes and for us to understand that we can move away from or go back into. We choose to fly out or to hide from whatever is coming, but if you understand that we can work with the soul of the

man, not only us we can even move the trees, the soul of the tree, the plants and animals that are in the way. this is the new knowledge and the strength that man has gained.

Now in the beginning when we write the Charter, it looks a bit funny and how can I do this. When the man saw collectively in the councils ??? In the Tuesday workshops for writing the charter, you'll find that what you write will become the conduct of the soul. The soul can't steal, stealing is the habit of physicality. There is (:33). no use writing in the Charter, Thy Shall Not Steal, because the soul can never steal. Take 5 ring magnets and put them on the table, add a new one inside and they all take new positions, the ones who want to come close do and the ones that want distance move away. You can't steal, souls can't steal, this was the habit of the man to justify to have the physicality. This is how we become correct. It's the job of the EC and UC with the Core Team to support to write a new Charter a new book of prophecy of man. Peace and unification for this planet and beyond. (:35). We are still wild and use others. ..

.. we are the tools for other souls to progress, a father sacrifices his life for his child a mother does the same. We don't sacrifice we give freely that the others elevate and can serve humanity better. (:37). The Charter or book of the souls have to be written. Many people write and ask where they can find their soul. Your conduct is the advancement to your soul. Try to learn new ways to reach the other souls, by reaching the other souls you find the potential of your own soul. It's not looking for what I did or what I get, but giving unconditionally and seeing them elevating in the way of their own soul in their conduct, it means you have found your soul. A man should not look for the physicality of the soul, but he should look for the strength of what he can do with his soul that elevates the others, in the position of elevation of theirs to reach that they can elevate the others. Then in that process there might be some fields that you'll receive in the process of progressing, what I call development that elevates you. Not to give to be elevated. The secret of the Creator and creation is to give unconditionally and this is what we have to learn. Participate in the writing of the book of the conduct of man in his soul. I always said that when I write the book of the soul it's the last book and the time when I leave. (:39). It's for you to write the book of the soul of the man and then the physicality will follow, this is what their function will be. We allow every week for council members to meet and discuss and with everybody because each one of us is responsible. In the writing it says when the man reaches the level of the transmutation of the elements the level of the man reaches that of the prophets of the past, which means it goes beyond the physicality, how many times you have to pray, wash your hands etc. When you reach the level of the prophets of the past it means you gain access to your soul, ?? conduct, then it's up to you how you decide to go, carry on with the physical life and all the suffering that goes with it, or elevate your soul to the point where you live through your soul, where there is no punishment but the beauty of giving. Every week give time to the councils and add to the space technology, but the priority for us is achieving world peace through understanding new technology which allows the Charter to take shape. (:41).

... do not think of all the negative things these are of the past for the human race, thing the way you reach it and how it will change the life of the others, then you reach it. **I'll teach you more and more how to find your soul's power, not your soul because your physical existence is the confirmation of your soul.** What do you want to look for a heart to open up to touch and play with, or understand what I feel through my soul and manifest myself in physicality and in others physicality and behavior of their souls. We have to mature and man has matured, KF Knowledge Seekers millions of you have gradually built up to this point, we are on the verge of tipping the balance. In time I'll explain. The world peace process, the unification of the nations, support to reach it is a

very heavy discussions going on in the background. (:43). Governments are not bothered by who said what, but by how can we change the course of our nationals, now it's past the nationals, how can we change the course for the humanity. Languages has been found to be a unifying force for humanity as long as it doesn't become another borderline for access to the soul, but all the souls are the same it depends on what filter you put on it and you call it a language. Take away the filter and all the suns shine the same, so souls can't do wrong, but there are different ways of accessing the information and converting that into physicality. The more we learn the more we understand that we are all the same. We are all the fingers on each hand and the cells on each finger. We need each other to be able to function as one, the correct way. We need to understand that it's not important for me to be but to make sure that the others who are continue with a positive comfortable existence. Then you'll find out that my life becomes comfortable also, but not by giving it with the intention that I make sure I receive it. (:45). But giving it unconditionally that my soul finds its own position. Many of you have this problem, how do I know my soul works, and what I can achieve. I'll give you a tip, then do it with sincerity that you receive the elevation of the soul of the others and not for the sake of seeing a result. You have a lover, husband, wife, children, friends think about what is bothering them or their suffering, try to give so much from your soul that what has been bothering them finds a solution, you don't need to talk nor to wait for the result to see that it works, just do it, then you'll see the result, you'll see that you elevate them out of their pain. Because they receive, they don't have that strength to add, they receive it from you, then some time in the future, you'll ??? accidentally saw that it happened, but no I managed to elevate the soul. Elevating the pain was my thinking but I gave enough unconditionally that if it was needed it was received and it brought the change. Do not think I thought (made) it happen, no, I wished it, I gave and it's beautiful to see it happen. It's a different school of thought, it's a different ?? , (:47). it's the way the prophets of the past lived. Christ didn't go on the cross to see if I can have 2 billion followers, he went for a different purpose and that has brought us to this point of 2 million people believing in his principle. But some are not following his principle but what suits themselves. Because when you commit to a prophet you commit your soul to it and not your physicality. And now if you commit your soul to peace, mankind will reach peace. We hear that governments have started talking because millions of us have started thinking ??? we put our soul in it and this is the proof. ... I have spent every second of my life to bring peace and through my strength I'll achieve it. The way this race has set the peace for itself looks very difficult, but actually to achieve peace for this race is so easy, once the man touches his own soul not the others. Do not work with the fear. (:49). but with the strength that I can give unconditionally that my existence is irrelevant if it can feed the ?? for peace on this planet. In the scripture it says that the lion will lie down with the lamb, the lamb is the soul and the lion is the physicality. It's for us to understand both that they may live in peace with each other. When the physicality doesn't do wrong the lamb and the lion are at peace. When you kill, which is the lion, the lamb or soul has to compensate for the wrong doing of the physicality and this keeps it away from reaching a higher level of evolution. We evolve, the soul's evolution comes through the conduct of the physicality. How we conduct ourselves in physical life gives rise to our soul and this is what the man has to understand, this is why when you go into space no one can fool you that I am a king, or a new priest or prophet. We are all Messiahs, but the Messiah of our own soul and this is the reality that we have to understand. (:51). because in having correct conduct we don't need to teach anybody, because we have become the teachers of one. In many of my talks I always say, "I am the Messiah", but I am the Messiah of my own

soul that I make sure that my soul in conversion to my physicality doesn't do anything wrong, then this becomes the path because it's the energy I elevate and emit that it is received by those who are of the same school of thoughts. We see our progress of development as a race on the planet from now on, in the hands of those who understand this point onwards. We don't preach, we enlighten for the man to find his soul.

Participate in the development and the writing and in the scripture through the work of peace of the EC and UC and writing the Charter, which is not for the others, what you read in it is the development of your own soul. I can write it in one sentence and it will apply to any dimension in the universe. As a man you like to write what you see as pains in one line of the Charter, write it and then look at it in a few months time, you'll see that it has become irrelevant. My wish to achieve world peace it will be done because it's the dream of every soul. (:53). but now we have united the soul and this is what the progress will be. Not having fear if you're going to have a piece but having the knowledge that we have achieved peace is the beginning of the process. The T will give every need of the man, then what is going to be left, except peace and that you can travel the depth of the U and be of the same. You become the prophets of those in the space who do wrong, if you find any, because you teach it to your soul and you touch their soul, so they adapt to you. It's like having a weaker and stronger plasmas, the stronger which is your soul which has learned to be correct, to those who do misconduct and elevates them to become like you. This is the beauty of understanding the strength of your soul. The sun never dies, it shines until it amalgamates with another, or it shines more to give more. The soul of the man is the sun. It's for us choose for it to behave like a Venus or like Jupiter or like Earth, it's the same sun's ray but different manifestation in different positions of the strength. Participate in writing the Charter because that is the Charter of the soul of the man and not the physicality. **Never be afraid to evolve and elevate, but be afraid that if I don't give what happens, you can't steal, (:55). but by not giving you have already stolen from yourself, because you have not given what has got to be, and you receive what you weren't supposed to receive. In way we steal from our own soul and no one likes to be robbed. Then our conduct becomes correct.**

Dr. Gatua presents "Ethos of Peace".

(1:12).

(1:21). A man starts to promote scientology and Mr. Keshe stops him. We do not promote scientology we are bringing something new. No, no we are talking about different things. You have to stop this line of talk. If scientology has been part of your life we respect that, but do not bring these things into the work of the KF. Yes, but we have to talk about solutions Mr. Keshe. That is not a solution. They never had a solution and we don't want to pursue this line. Is there any other contribution please. (1:23).

(1:31). Dr. Rodrigo of EC gives a talk for peace. (1:39). Lisa of Australia of the EC.

(1:43). Definition of peace, Rick reads from the world peace treaty.

(1:52). story about climbing mountain and giving away everything that weighs you down.

(1:58).

(2:06). Mr. Keshe comments on peace. A good example of this is how the KF was set up to share knowledge unconditionally. Sharing knowledge is sharing peace, love and I think the ethos of the KF has set the example for this. You have to look at the background of the behavior, and the outset of the whole thing, when from the beginning we shared the knowledge unconditionally we did not give the others the opportunity to steal to get it, so we already prevented a crime and misconduct to happen, because you

stole you could do whatever with it or hide from it. The ethos of the KF is of peace by its behavior and action. we lived by this ethos from the start. (2:08).

(2:13).

(2:17). I don't look for world peace, KF is the peace.

.. One of the ways for elevating the soul is to remove the filters on it, because the soul is the sun it always shines the same. By removing the filters we see the totality of the light of the energy from the source and this is what we call peace. (2:19). Finding and being a part of the peace is the problem for humanity because he has seen nothing but war and killing. In the space there is no such world that exists because we solved this problem a long time ago. Those who became unconditional to the conditions of peace, we found a solution for it. The same is for the humanity, the knowledge of the man has reached the level that sooner or later he breaks into space, but it is better to bring the man into space as a peaceful being then becoming a food for man, it would become like the wild west or when (white) man went to Africa hunting for new animals (to kill). There is no hunting in the space because you can have whatever you like and the sooner the man learns this the easier it becomes for the transition to a peaceful structure of society, planet, and then the UC. The basis of the Charter should be peace and it should be explained as loving, as giving unconditionally, because when you receive unconditionally you don't need to fight for it because it's there as you need it. The more people who get touched by the technology the more we see the diversion (conversion), from wars and all sorts of things (2:21).

(2:27). The soul of the man has access to all the souls of the universe, it's up to man how he wants to channel it in the direction he wants to go. We all know how, where and the way our soul works. I heard last week someone ask Armen what is the position of the soul, where can I find my soul, my wish is my command. If you wish and have achieved your wish it means you have found your soul. Your wish is the command for your soul to deliver, you have found your soul. because of the lack of trust in our soul. (2:29).

The way of thinking has to change, .. that it happens in a good way, the way it's supposed to. 22

(2:33). I made the soul in the image of Myself. The image of the soul is the image of the Creator. How can such a perfect being do wrong. Your image, your soul, in what has manifested you as physicality applies the same in the dimension of the Creator, where the soul of the Creator in dimension, in transformation leads to creation of the physicality of the souls, so the soul of man is the image of the soul of the creator and in the dimension of physicality in the strength of the soul. Then when it dimensionalizes to matter or visual state and becomes the body of the man. So there is no fault with the physicality of the Creator even though the filters may cause to appear so. Every one of us is part of the Creator, a perfect ?? of the Creator. It's us that have decided to put something in-between the soul and manifestation of physicality. If the soul of the Creator is so perfect that he has created the man's soul it's for him to follow that, that he doesn't fail. Then you can understand how peacefulness exists across the universe.

(2:35). Because of the beauty of the ?? strength and understanding the work of the creation. Why do we need defense technology for space for the people we have never seen. Rather we should create systems the greet whoever we come across and give unconditionally. The man who gives is strong and the one who fights is weak because then he can have ??/ slightly further out then himself, because the man who is correct embraces. And this has not been understood by the humanity for the past thousands of years. 55

(1:38).

.. the progress of the peace of man comes through the elevation of the soul. The lamb and the lion. Adam is the soul and Eve is the physicality and the transformations with the energies of the soul and the manifestations of the physicality of the planet as ?? the structure of the physicality of the man which is trying to ?? steals and kills from the other to be able to keep and sustain the connection between the 2. The sooner we understand this the sooner we'll bring peace on this planet, because we'll bring the physicality of the weaker strength in transformation from receiving from the higher which is the soul doesn't create a conflict between stealing and peace. We have to mature to see the totality and then we'll see the same. Why does an animal kill? The soul is strong the planet is weak in conversion from one to another the entity of something in between becomes the target for the 2 to hold on to the 2 sides, both sides the soul and the planet. Once we understand this and eliminate the habit to kill to keep the energy between the 2 we can do it from the environment of the universe then there shall be no killing, then there will be peace. (2:41). Remember I am the Messiah, of my soul and no one else's, because if I understand that there is no deviation from my soul to my physicality then I don't need anyone to tell me what to do. I have salvaged my own soul so I am the Messiah, every single one of us is the Messiah of our own soul in connection with our physicality. When we find this we find peace and then we us having no interference in-between will create the same condition as the others because then they interact with us on every level according to. We have to understand the operation of the work of our own life then we can teach it and elevate the others. Last week Armen was trying to explain something and not many understood. I do not need to carry anything with me when I understand how to make the filters. That my soul through the emotion of filter gives to my physicality what it needs that it can't do anything wrong, water, food, shelter and anything else. If I can raise my hand out and give and create the energy I need to have the (2:43). joy of an apple I will receive an apple in my hand. When you speak of Adam taking the apple from Eve, the apple is the emotion of man. The faster we understand that apple is the filter of crime from the soul of the man then we'll commit no crime, then it will be a perfect soul, then the apple becomes the apple of love which means from the beginning to the end. The sooner we understand to control the fields of our soul to create and manifest and condition which is perfect not for us but for those who receive the fields from us then we have achieved the essence of the creation which is peaceful, and when you have what you need you don't have to do anything wrong. The soul of the man is the reflection of the soul of the Creator, ??? so has to be the physicality of the man and at this point you don't find division and find peace but friendship and ??. Now write the Charter for man, ... (2:45). You're a giver not a stealer. Thy shall not commit adultery, it's not by physicality but by understanding of the emotion, when you are satisfied it doesn't exist. These are all the attributes of physicality which has caused so much problems for man, and now we understand and can progress to the next step. Now there are so many of us that it (the soul) is getting elevated. The KF member who has elevated his soul in South America and the one in Australia, now the ones in-between are getting elevated because of the field you are generating between you. ... my soul has reached your soul and anything in-between. You are the post to receive and in-between the other receive too, this is the secret why we taught this way. I reach you without your knowing but your soul wanted to be reached, as we have seen with the magnets (2:47). it doesn't jump, it has a path to follow and everything in-between it touches. many of you listen and the knowledge touches your soul from that point, from my soul to your soul you have touched the others and it elevates it. This is how the condition has changed, how we achieve peace,

slowly everyone in the path is touched. It's not anymore sharing knowledge but sharing ethos of the soul which is peaceful and you in accepting to be of the same you have created the line, birds with birds and wolves with wolves. I have no wolf in me but plenty of bird of love and you receive it. And when that bird flies from one point to another there are many people watching it fly, they get touched by its beauty and in it they elevate their soul, because it enlightens them. There is no need for reactors and SF, the star of love is within the soul it's him who has to ?? find its power, not to wait to see ?? (2:49). .. in the last 2 months I have traveled all over this planet meeting with people who want to create the condition of peace. I heard in communications that Mr. Keshe is tired and not there, Mr. Keshe wakes up at 2AM or 5 PM to be in the teachings. I wake up to be present and not tired, I work relentlessly to achieve peace by sharing knowledge, enlightening, and by teaching my way to myself and what i teach myself ?? reaches you through the enlightenment. I work day and night but to me there is not much time, the life of a man in too short. This is the process and how it should be and when you know the work is correct and if you work hard for it you can achieve it. You give from your soul, this is how I do it and many of KF followers do the same. (2:51). ... the minute you start to count is the time we fail ... listen to the ethos of this morning I taught you a lot if you understand.

(2:55). Jalal asks what can be done in Iraq to decontamination. We are fully aware of what's going on there. It's for the American government to negotiate with the KF. These depleted uranium and plutonium weapons purposely are left behind to continue to damage. It should be very easily to cleanup I should be in the Middle East in next 3 months. It's not only Iraq, 50% of the waters in Rome are nuclear contaminated by Italian governmental statistics through misconduct or misuse. The overall contamination will come through a government. (2:58). There is a solution for it, it's just finding a way to organize not to destroy or bury. The worse effects are happening to American soldiers, many are coming back with mental problems. Many who have fired these things have received the first dosage themselves. If you see the light of a nuclear explosion, my advice is to walk towards it and not run away from it, because it the wave or the light has touched you already have received it. It's a long life of misery, or you can walk into it and salvage it in a different way which brings a faster end to the physical pain. (3:00). ?? the cleanup has to do with the Gans. In Fukushima go back to the measurements that Yukoko did, it's in the amounts of different Gans, you won't destroy it and the chemicals will still show up on the tests but (it'll be neutralized). It's like the Gans waters the opposition said there is nothing there, we said did you test the alkalinity of the water, then the opposition died. With the new T you reach a new dimension which is the fields and not matter. With chemical nuclear contamination you don't destroy it, you contain it with the fields of the Gans. You link up all the energies to a new source which means the matter is there and you'll see it in the tests, but the effects are not there. (3:02). In AZ they have done new tests. They ran 3 reactors with SF on the top, the tester buzzes all around but when it comes in the center it doesn't. In explaining it the fields in the center are neutralized but are still radiated. So it is when you have plutonium or uranium in the vicinity, you still have the matter but the fields contain them. (3:05). This is how you cleanup the messes. We don't destroy it or convert it to something else, we contain it that its fields are not a threat. You can contain all the chemical and nuclear contamination. .. I have committed the KF to change one of the deserts in the near future. (3:08).

.. when you sell a Patch you have to sell 2 patches. **One of the patches should have twice as much Gans water as the other one.** (3:10). If you use a single, okay it has some fields and certain amount of penetration because of the tests we did for certification. When you put one patch on the front and back the fields link up with each other, pain is energy and now you see the effectiveness. If you drink LP and use a Patch by make a differential in amount of LP you'll see effectiveness. One weaker (less amount) trying to feed the other link up because they are of the same, everything in-between, the pain is MG fields, as the fields depletes the pain goes, because you transferred the energy. You use the CO2 because the link of MG field connections allows the depletion of the energy you call pain. (3:12). (3:15) Klaus ...

(3:18). Q: further asks about contamination in Iraq. ... (3:21). The radioactive material still exists within the body, sometime depending on behavior we see different ?? of disposal, or behavior of no radiation. It's the linkage of the energy and not destruction of the materials. you have to find the fields of the ?? link up, in a way you neutralize.

(3:23). ... in some cases because of the time passed it has become part of the genetics, RNA and DNA. We are doing a lot of work on this in the background, especially decontamination and cleanup, as you are aware we don't disclose in any way what we are doing, that we can carry on with our work without interruption. We go to the places where our work is needed and the information transfer is very direct. This is unfortunate we used to go public with everything, but even so our research has increased many fold. As we develop these technologies we'll stay within the governments that we work with.

(3:25). .. we share work on decontamination with governments heavily.

(3:28). Hussein talks about being raised Moslem and taught to fear God and not much about love ... are there any tips to reach people who are not ready?

(3:34). Rodrigo says that first we need understand how polluted our bodies are ...

(3:36). Mr. Keshe responds,

(3:43).

.. elevating the soul means understanding the operation of it and fining tuning to make it better and no more. This is the challenge for the new human race in the space, you find the fields that elevate the others faster, that work much better, not hiding it so the others can't do, because everyone reaches at the time it's needed and at the strength needed. The biggest problem for mankind is that each should become the police for his own soul. Now instead of bending and praying, the policing is in the hands of the physicality of the man. (3:45). I come from the Zoroaster background, think good, do good , act good. To understand it is the touch, to act on it is the maturity. In my last visit to Iran I went to a Zoroastrian temple because it's where I was educated. I asked the priest to allow me sit in the temple of fire, with the greatest of pleasure I was taken there, to the room of fire, that Fire has never stopped burning for thousands of years. It wasn't the essence of the Fire but that of the soul that touched, I could see that I was connected to those who over thousands of years have kept this fire of Truth going. We have to understand the truth through our soul and then our physicality will follow. (3:47). then there are no intermediaries. We have to understand the Space work, then there is no need for Gans' or whatever you want to put on it to feed yourself or clothe yourself, because in the Space there are no Gans'. The source is your soul and the limitation is the environmental fields which gives you the dimension of the manifestation. The sooner the man finds this the sooner he'll find peace. I made man in the image of Myself, if the Creator is perfect how can man not be.

(3:50). music to end
