

198th Knowledge Seekers Workshop - Nov 16, 2017

(New video summarizing all the teachings to date, The new Constitution is read in Chinese, War between Iran and Saudi Arabia has been planned for 100 years KF supporters need to prevent with their souls, (:53) Teachings start, How the soul, soul of physicality and soul of planet interact to confirm existence through creation of physicality, When we travel into deep space how the soul will manifest its physicality not based on earths environment, At the time of dinosaurs the MG fields allowed for larger entities on earth, It is us who decides about the strength of the fields released from soul and we can keep the shape of humans, Mohammad destroyed the statues but now the worship the black stone, The time for meditation is over now we understand the soul, There is no reincarnation we are all creations of new conditions,)

(:12). New summary video of all KF has done ... (:23). Mr. Keshe says, this is the new way of teaching and we show the purpose of the science and not just the Nano coating and the other things, but it is the backbone to create peaceful conditions. As we heard last week the EC and UC will submit the Constitution, which is set up by humanity. We have received approval and support from a number of high level politicians and governments that they support such a move. Today and in ofllowing weeks we try to have each language of the Council read the Constitution in their own language, as it is translated by them. Today in Chinese. (:26). New Constitution read in Chinese ...

(:42). What is the reaction of the Chinese community since last week to this Constitution? I haven't shared this version yet. We'll wait and see. I really love this and now we have a common Constitution for all the beings living in this world. And it has so many good intentions for all of us to act together to have a truly peaceful environment for everyone. I think it is great.

(:44). Any amendments to the Constitution will be added online, to be discussed by the EC. Last Tuesday it came up that we need a very specific eoffrt to direct out attention as us as KF. We see on the horizon a massage war that is getting planned and it will effect every one of us. This plan of war or aggression can be resolved. It is part of a plan that has been prepared 150 years ago, and it has been a sequential process. ?? We see very harsh part of work set up by certain organizations and groups to create conflict for (political) control and financial control. We have been and are reaching the soul of the leaders (:46). of all sides of this planned conflict, of which they (the participants) have no say in. It has been set up and they have to ofllow the pattern. There is a huge conflict setup between Iran as a Shia country and its allies, and the Sunni countries, Saudi Arabia and their allies. We call through the soul and hope that we have the support of you K Seekers, with the understanding of the work of the soul, and the leaders of the Iranian government and ?? and the Saudi leadership and the rest of the Islamic world. The line of descendants of Mohammad doesn't change the book of Mohammad. Do not allow the change of a line of leadership to become the end of a faith. There is a lot to be achieved in Iran and a lot in Saudi Arabia and the allies on both sides. We raise the soul of both parties that they come to an understanding that they are born to play the game of ?? My call goes to the Saudi leadership and the Islamic world on the Sunni side.

Brothers do not fight. We all come from the same lineage, one father, one understanding. (:48). My request to the Iranian government, attend the peace conference that has been arranged and will be announced. The same goes to the Saudi king and leaders of other Islamic countries. Step down from talk of war, let us unite. KF has taken leadership and we have received support for negotiation and the start of talks between both sides. It is not me any more but the soul of the KF supporters to raise the

soul of the leadership of both parties, that we walk away from this mayhem which has been planned. We need peace and through it we'll achieve more. We are active in the background for negotiation. I know the leadership of both Iranian and Saudi's listen to these teachings. We don't talk about what can be done to each other but what we can do together. There is a lot we can do through peace and there is more we can do to bring the beauty of the Middle East out. Unity in faith and soul is the ultimate goal of the KF. (:50). By killing and destroying each others assets, the only beneficiaries are those who have already made plans to sell oil through the secondary oil refineries, and not the nations that are on the battlefield. We invite both parties to the peace conference that is getting organized and we have the backing of the world leadership. KF will stand firm in these peace negotiations. He speaks in Farsi .. We need the hand of peace rather than the losing war, ?? of the other parties. This time the scientific and intellectual right of man should prevail for peace. We take leadership of the peace negotiations in a very direct manner and we have entered into it. The EC, UC and Core team, and the rest of KF, we know we have changed the ways (:52). ?? where the talk is the confirmation of acceptance. We need to reach the soul of the leaders. In the process of the teachings as we saw last week we tried to explain more to understand the connection between different aspects of the work of the soul and its connections with the physicality. The work of the soul, its creation which manifests itself in a physical and tangible condition can only happen if the condition and the environment is available for it to happen. What I said last week in the teaching was that the universe can't expand if the room for expansion was not (?already) there for it. The expansion contains M and G field forces that allows creation of the balanced fields on both sides. This means a plasma has to give and take from its environment to find a balance between itself and its environment. **The creation of the confirmation of the existence (:54). comes when the 2 entities confirm their existence through the interaction of their fields. We can't see the existence can't feel the presence of the sun if the MG fields of the earth do not interact with the fields of it.** In that process each one manifests its own existence and ?? its damage ?? The interaction of the fields of 2 entities confirms not only the existence of the 2 but also the boundary and presence of physical manifestation of it. In English we say, it takes 2 to tango. There has to be a partner to show the beauty of the dance. It's the same now that our knowledge has come to flourish and understand more about the structure of the soul, to expand and understand more and to realize the reality of the creation in any point in the U. What we achieve on this planet to confirm our existence in the physical dimension of the physical body, needs the presence of the soul of the earth, which are the field interactions of the earth with the soul of the man that with it confirms the physicality of the man. (:56). **Our physical body is created on the limitations of the dimensions of the strength of the soul which is seeded in the womb of the mother, in respect to the earth's MG fields and plus the soul for the physical entity which has created the soul of the man. you have to realize that every piece, atom, cell in the sperm, seed of the male and female has a soul, so the collective soul of these entities, AA and proteins, leads to the creation of the soul of the being and then that soul in its interaction in totality with the soul of the earth dictates the physical balance between all the entities which leads to the creation of the physicality of the man.** Collectively the soul in radiating in the fields in the womb of the mother in the presence of the fields MG fields of the fields of the matters within the womb of the mother, which creates an environment for the soul of the child to take shape, now in interaction with the soul of the planet leads to the creation of the physicality of the child. This is the same with every entity being it a plant, bird or fish. But in this process the emotion and (:58). the confirmation of the guarantee to exist,

which becomes the physical dimension in the soul of the entity in respect to the soul of the totality and the soul of the planet brings into play the color, shape, size and every thing else. So our E from the establishment of the interaction of the 2 fields dictates, has a communication line between understanding the soul of the planet and the soul of the physicality. The reality is that **when we travel into deep space we have to understand this, that the interaction between the strength of the soul of the man and the dimension of his physicality as a soul, with the environment which (he) enters, dictates the same, the shape of the man or the shape of the soul in the physical dimension in the U. We will not see the physicality of the man, but we shall see the confirmation of physicality once we reach the dimension where we decide to interact with (our destination)**. Rick shows a board where he will adjust magnets to demonstrate what he wants to say. This is important for us to understand. If we take the biggest magnet as the soul of the planet, the second biggest as the soul of man, push them together and they create a confirmation of position in respect to each other, and at that point we come to one thing, the interaction of the 2 has to have a physicality which can be shown as having the shape of a very small entity, which is the physicality of the man. The third smallest ring magnet (which represents the physicality of the man) is pushed between the bigger 2 magnets, where it finds its balance in respect to its position between the other 2, that is where we manifest ourselves in the dimension of physicality. If we change the largest ring which is the soul of the planet (1:01). or the environment we enter, which in fact is the G field balance between itself and internal, its shape, position and the distance from the soul of the man and his physicality, which is the small ring in-between changes, because now it has a different size. If you replace the largest ring with another one you'll see the balance point changes, this is how our soul will stay the same when we change the environmental M field, the position the distance between the physical dimension and the soul of the man will take a new shape, a new distance. This goes back to all the teachings we did before. **The soul of the man will not change, the environmental MG field in which we appear will dictate how we will look, the shape and the distance. On earth we need 2 arms and 2 legs** because the boundary of the physicality dictated by the soul of the environment, which is where we are, the earth. If we move the other (magnet) the position changes, if the M moves out or the G in different dimension, as when you move the little magnet, the physicality of the man moves with it. If you push the small magnet forwards and backwards (1:03). this is what it dictates, how we change shape in size and time. **When the field was further, the MG field of the earth in balance with the sun allowed for bigger animals, dinosaurs and other entities on earth. Now, because we are getting closer and closer to the sun, the MG fields are changing the size (of the life forms on earth), we can't support (larger sizes)**, because now the bigger MG fields which is the sun has a say in the same structure. Now if we reduce the fields, the soul is stronger it needs a bigger distance to confirm its existence, so you get a different shape and size (on earth). Now that we understand the knowledge fully we can show it in the physical dimension that it can be understood. But in fact, **the soul of the man doesn't change**. If we understand this point we'll come to a very interesting position, **that it is us who decides how and what field is to be released from our soul that even in the new position we still carry the shape of the man, even though in respect to the other environment to stay in balance we can see a new entity**. This is important because if I put another soul that is created on earth, then when you see another soul from earth you see a figure of a man (1:05). and not the new figure of the environment. This is how you recognize each other in the space even though you take shape of the new environment. This is the beauty of understanding the total knowledge.

It means that when we meet, a soul that is created in the dimension of the fields of the AA of the planet, even though it doesn't carry any of its physicality, but because we carry the same we see the feature of the man from Earth. We see the soul in the manifestation of physicality. But somebody who stands outside will see the formation of both of us in what we decided to be. This changes the game for those who have the potential to see (?? souls). On the street if you walk past a white, black or any other color man or shape, and if you are from Earth then you'll know he is also from Earth, but the other one is not from this planet, because you see the soul in the way you have manifested yourself in, and the same with him. This is how in the space how we recognize each other and for those of you educated in the knowledge of the U, you can see. Many of these entities when you go into space carry no skeleton because the dimension of the fields doesn't support it, but to you and me we look human, now you have seen the reason and the position. (1:07). Man has to become intelligent to understand the process of creation. We understand the process and now we have to comprehend it. Now with this (knowledge) it puts away the fear of death in the space. We never die, we transform according the existence confirmation of the position of our physicality in respect to the MG field of the environment, then we understand that where we see the small magnet (for the planet), it doesn't need to be a planet, it can be a field that has not transferred or transformed to become an entity at the strength of our line of observation. In the space we do not need a planet to manifest ourselves. The whole process of creation is position, field, M and G strength dependent. When you go in a very crowded ballroom you can't dance a waltz so openly and you conform to the number of people on the dance floor. If they clear the dance floor then you can dance different. (1:09). It's the same with the existence and the manifestation of physicality in the U. This is how in the teachings we bring the ?? true (2) dimension of the soul and the physicality and the matter state which you used up to now to confirm to bring the knowledge together. The souls in the entities of the U and they all shine the same but they have different internal field strength and when you subject them to another field we can see their manifestation. This is the same when we enter space, we can't be of the aggression and warmongering because to every entity that has a level of understanding, color and strength positioning, then we are read long before we reach for the gun. This is what will be used in the case of what we explained a few minutes ago in respect to Iran, Saudi Arabia, and the Islamic world. The soul of Mohammad counts and not the crown or the seat of kingship or leadership. We will show the soul of Mohammad that he rules and not them. It is us who can dictate the environment and this is what the KF supporters are understanding gradually (1:11). We are changing the soul of the planet through our wish, through giving from the field of eternal life that we have created ourselves out of to manifest ourselves. Then we see that if you push that physical body. Rick moves the small magnet towards the big one and it moves. The soul has to move. The wish of our physical soul which dictates the environment. Our physical soul doesn't want to go through the pain of loss, because we feel it. Our physical body doesn't want to see another war, and through the strength we collectively produce we can move the soul, be it the king, president or any title. If you look between the physical entity and the soul of the entity, there is no seat of kingship, there is no seat for the man to sit on, we have to understand this. This is what I said before that to help those in disaster areas we do not need to be there to give them the feeling and the emotion of comfort. It will be the same in the time of peace. We don't need to move a quarter million soldiers (1:13). to push for peace, we move the energy of the souls instead and that will move the kings and the leaders. The time of change is a peaceful operation and not marching on the streets. I can wish and I will achieve, my wish is my command. The end of a

kingdom is a push from the soul of the man. Rick moves the largest black ring with the small one between and moves them to find balance which confirms the physicality. he puts the small one inside the largest ring. (1:15). Now move that couple towards the other 2. It causes the small one to go off. Now when we add our souls to the soul of the planet you see the physicality moves (small one moves out). He moves the big couple forward and the small one flies completely off. That is how easy it is to get rid of the physicality of the kingship, even though the soul of the king will stay. The same with any world leader. This is where the strength of the new understanding comes in, we create a new environment that leads to creation of new fields. We change the environment of the soul of this planet because we have changed the wishes of the man in respect to physicality and the soul of the man. This is the change of position and understanding, this is how we do not need to do anything but, (1:17). to add to the soul of this planet in what is missing, which brings it peace that the soul of the man runs the physicality of the man, irrespective of what physicality it manifests itself into. the soul will exist, then comes the conformity to peace, to balance, and this what in my teachings of the past **when I said something is missing in the mixture of the soul of this planet. Now we can see that it is not Zn, but it's the intention of the soul of the man to replace (?? what), so that the physicality becomes irrelevant, every man stands equal in his soul in respect to this planet, then you can have any shape or form.** Then we all understand that the manifestation of physicality becomes irrelevant, because our souls moves within the soul of the structure, not outside effecting the physicality of the structure, which is much easier. **We released the Constitution so that we would be able to explain this (new understanding of fields), that we can move (that we ourselves can move the fields and change the conditions on earth), but if we do it (without explaining it) then he (Mr. Keshe) said it and did it. But if we (all of us) move (the fields), then we say we did it, and it is done (by us humans for ourselves).** The fear of those who (1:19). call themselves world leaders, is the loss of their physicality through the loss of their soul, for themselves to create a new dimension in manifestation, and not out of the fear of loosing their leadership. This is what I meant that their shall be no king, because I know I can touch, reach the physical dimension through the soul that the soul sees itself as ashamed to be a leader, to have the physicality in that image. the process of ?? of physicality in the space has to come to a point of satisfaction between the soul and the dimension of manifestation itself in respect to the totality of the environment. At the time of death the soul of physicality moves within the soul of the man. In a very secret and hidden way I have already explained this in one of the papers. When you read the paper again with a new understanding, you'll see that **I have already unraveled this secret in that paper. It's called "inter-atomic fusion."** (1:21). where I say **it's easier to bring an electron into a prooton then trying to fuse 2 neutrons. Or 2 plasmas, because the 2 are made of the same.** At the time of death, (moves the single black magnet away), this is our position (a small solid magnet inside a larger ring magnet). Our physical dimension sits, because of its strength in the center of our soul. For the space travel this is the condition of our existence, we decide when that soul moves out to create the physical manifestation. We as a soul in respect to the presence of another field decide if we allow this entity, which is the dimension of our physicality to move and manifest our existence in the physical dimension. In part of my teachings in the past 198, I have explained this, where I say that **the soul of the physicality of the man moves in, it gets absorbed back into the soul of the man that it becomes one.** (1:23). And in that time it will manifest itself in a dimension and position of the strength where the soul decides. When we had the small black ring and other ring, that was the manifestation,

confirmation of the existence in the presence of another field, but at the time of the travel when the man becomes wise to the ?? the energy of the physicality will move within the center of the soul of the man, and then like the birth of the mother (?? like you see here) you see the replication of the womb of the mother and the soul of the child. There is no difference in different level of existence in the U, it is the man who has not understood up to now. This is important for us because the teaching of today opens the door for the man on how to live and manifest itself in the deep space. **You can travel from one point on this planet to another faster with your soul than your physicality, even though, or because you are in the same environment as the earth you manifest yourself, you'll still be yourself.** ?? all travels without dimension, where the physicality needs that transformation. This goes back to the teaching I gave last week, properties in New York and Washington or (1:25). Tokyo, Theran or anywhere else will be worth nothing, once the man learns the technology and understands how to do it. **This is part of the instant transportation, this is part of being in the soul of another entity without that entity knowing what the physicality is doing. This is part of the totality of controlling one soul in respect to its one physicality, but you can't touch another. Those who came up with the machines to control the mind, now they know the revenge comes from the soul.** Those who rape the brain through the physicality will pay back in the same way. We will make sure of that. There will be no blood of them left to repeat the same mistakes, because the soul will not allow it. This is the balance of ??peace in respect to understanding the totality of the creation, even though this knowledge is just the tip of the iceberg of the total knowledge. **This teaching was taught to Christ but he never shared (it).** (1:27). But he used for the manifestation of himself on the cross. There is no resurrection if you understand the process of creation. The whole understanding of the T is to understand that every field can be ??? if you physical dimension fields can live within the dimension of your soul, then you understand, is there a need to move that outside the soul and then where it moves (to) what is the dimension of its understanding of its environment to manifest itself. **The soul, once created stays in balance and if you understand the dimension of the control between the physicality which is dictated by the soul of the planet or the environment, that you receive as much as you decide to manifest yourself, then the life of the man goes into thousands of years.** Is the force of the existence of the soul on this planet to manifest itself in physicality, which gives the man this short term of physical life on this planet, and the sooner the man understands this (1:29). the sooner he'll operate through his soul rather than his physicality. Then kingship, leadership, being somewhere physically is irrelevant. I explained that you ?? track the physicality into the soul, not the physical body but the soul of the physicality into the soul of the man, then you can manifest yourself anywhere in the U. This is the structure of what we call the neutron, it has the electron present inside it, it opens up and manifests itself as an atom of Hydrogen. Now with this maybe we can understand what is written in the books as nuclear decay. The energy we see when a neutron opens up to split into a proton and an electron is the opening of the gap for this electron, which is the physical confirmation of the manifestation of it to be released. It doesn't come from chopping another pieces ? itself, because the manifestation of the physicality is already internal within itself. And those of you who are working on the fuel in the space technology, then you understand why you have different H, because your neutron comes from different strength and different sizes. This is good for those who work in the space technology launch to understand, the totality of the unified field, read the paper, "Unified Field Theory." (1:31). Now that you understand this then you'll know what needs to be done. The human race has been given the full knowledge of travel into

deep space. It's you who has to decide if you want to walk, cycle, car, jumbo jet, or do you travel with the new space knowledge through the soul. None of them are wrong but it depends what gives you the pleasure, or how fast you want to reach the destination, or do you want to enjoy the scenery. This is an addition to the present knowledge, it's not from outside, it's something we already know but now we have to understand it that we can use it the correct way. The whole process of the knowledge is the comprehension of it and not copycatting it. A lot of people around the KF say it doesn't work because they can't copycat it because they don't want to understand it. And those who want to understand will suffer because they see the copycats but they can't teach them that you don't need to copy nor be a cat, you have to be yourself. You have to understand the strength of your soul that it can transform or re-position the soul of physicality. (1:33). This is where the new understanding of the work of the soul comes in. It's important that all of us be able to comprehend the totality of the knowledge be it on the physical dimension or on the soul of the man. This is important because in the next teachings, once we start understanding this in full then we'll understand the transmutation of the elements, which comes from the transfer of the energy of the soul, if you can transmute Cu to Zn, or water to gold, then you can do it with your own soul. On Earth you manifest yourself as a man and in the space as another. Transmutation of the energy of the fields of the soul is the key to the future understanding of the work of the U. We have to understand the totality but first we must comprehend the strength of it, before we understand it. What do we expect. If I wish to end the kingship today, it would be no problem, but what does it bring, another king that is more worse than the present. Unless we change it and educate the lot so that nobody wants to be the king, because now they understand that the other souls have a say in it (1:35). when they start moving in the wrong way, ?? re-position. There is no need for arms, armies or anything else. The understanding of the use of physical knowledge will force the soul of the man to suffer and this can't be (allowed). The soul and the physical soul have to be at peace. With a slight movement and you'll see the change. A neutron carries a center, it's us who don't have the tools to see, and when it opens up it manifests itself as a physicality. ... the soul has a say. We have to understand the work of the U on the field strength and not the matter strength then life becomes very easy, then we understand the totality in partial reality. The process of creation has to be understood and not imagined and once you understand then you'll find out that **those of us who feel peace in our soul (1:38). will move the physicality of those who prefer war in physical life then peace in the soul.** As I said many times, with the stroke of the pen **I can change kingship, it is within my power**, but in a few weeks time you'll find another king. In one of the private teachings I explained a very fundamental point, which I think is for today a point to discuss. Mohammad destroyed all the statues so that there would only be the God to worship, what he learned from the Jews and Christians during the time he was a merchant and traveled to Palestine. He saw that they don't worship God as a stone, but believe in the totality, but the Moslems forgot the rule of God. **Mohammad destroyed the statues so the people wouldn't worship stones, now the Moslems worship a black stone, the same as they did with the statues.** And this can't be, this is the end of Islam, because the followers don't follow the belief of the Prophet. They have changed all those statues for the black stone (Mecca). (1:40). Therefore there has been no progress, but the separation of the physical remains of the manifestation of the Prophet, be it the uncle or the son-in-law. **So they have changed their will for the Will of God.** They are still worshipping stones and statues, so there has been no progress. We see **the same with Christianity** worshipping a cross and a man and not the soul of the man. We are still ?? which means we still follow stones, but we think we are more intelligent, one

black and one as a cross. Now you understand why I said that there has to be peace between the 2 because they all have forgotten the path. In reality the worshiping of a stone or a cross has not changed. The reason the (black) stone was brought to Mecca was so they could make the most evil statue that people would be frightened by it so they'll worship and pay more, and now we see that they pay more to circumambulate and nothing has changed. The message of Mohammad has been forgotten, he didn't want his face to be copied because he didn't want them to worship it, but now they have found a stone to worship and to kill in the name of it. If I talk I would demolish the religions because the truth is too hard to accept. (1:42). **Mohammad didn't want these people to create kingship, but they went ahead and created it anyway.** In a black stone. In fact, the temple of the stones (statues) has been taken over by a black soul. ?? in ?? stone and not the beautiful soul of Mohammad. Man being educated at this level will worship no stones or any other souls, except to understand the work of the others which they can respect in the beauty of what they create, and not to worship and make another prophet. We have to understand the truth and the work of the soul of the man. If it will take a meteorite to get rid of the black stone and take everybody to a new understanding, we shall do, and the same with the Wall and the Vatican. There is no religion but the peace of the soul of the man. Understand the teaching of this morning and you'll find the peace of space (1:44). and the path of peace for the soul. Any questions. Libby asks if meditating for the Iranian and Saudi leaders is what we should do, is there any other thing we can do? **The time for meditation is over, it was for when the man did not understand the strength of his soul. the wish of the man is the meditation of the man.** (1:46). This ?? is not what we say my wish is my command. **I wish to give and nobody can tell me how much I can give, so my command is control of my own fields and it is my wish to give to elevate the others. A lot of people never understood what we meant when we said, my wish is my command, they thought, I am going to change somebody else,** no I command my soul to release what is needed for them to receive to achieve balance. It's not that I wish to change somebody else. This is a misunderstanding, but in a way it's a good one because then we don't replace our soul with others and we don't allow others to give us what we don't need. Now you understand what it means, "my wish is my command", I can command what I own to give what I like and nothing else. It's for those who are in need of to receive it and to be able to be in position to receive, and if we give enough as we showed then we create a new environment that they have to find a new physical position to keep the same soul. So we create a point of balance because our wish is a balance of the field, this part we have to understand clearly and comprehend what it means. As we saw with the magnets when you put the souls together the physicality moves. (1:48). If the physicality wants to stay in the same position then the soul has to move, and by moving the soul the physicality moves with it. There shall be no seat of kingship, this is my wish because I give enough that everybody is equal, then there is no change in anyone's soul, but the physicality moves to new dimension. In the coming time we'll see the ex-world leaders will come and confess to the crimes that they have done, by the change of the time and the position and the fields that we release as commanded by our soul. We are captains of our soul through the wish of our physicality, through the soul of the physicality. We are in command, our wish is our command, not to change the others but to release from us as much as from us that they can receive what they need because we need the total spectrum, then we wish. When you give, put 10 different foods on the table, 1 Chinese, English, India etc. they will take from what is familiar to them but they might taste the others so we all share from each other. When you give the command from your soul is that I give unconditionally, it

needs a second, it doesn't need weeks of meditation. It takes a man 1 millisecond to wish to die and to get ILS, to end his physicality, and he waits 10 years (1:50). for it to happen. So you can see how powerful your wishes are. If you wish for a physical demise, it's the power to separate ?? from your soul to end the physicality, so now you can understand how much more power you have to give to, to change the conditions of the others, what they want to receive at a point which is theirs ?? . Every world leader and man knows the pain of suffering, we all have what you call, field strength of loss and pain. You want to give, would you like to feel the same or should I elevate you that you don't feel (the pain), and none of them refuses. Any Questions. Alzar. One hand isn't enough to clap, so it isn't enough if only one of us wishes for it everybody has to? It means you haven't understood, Alzar, the soul's of those kings have the other hand already, you just need another one for them to hear the noise. (1:52). And that comes from you. We all possess the full spectrum. It's like if you stood in a field and a jet plane passes, nothing you just hear a jet plane, but if the jet plane goes the speed of sound then you hear the noise. Everything was there, it's just that you changed the speed and strength of one against the other. Everything is always there, it's for us and what we want to make out of it and how loud you want to make that noise according to what you release, then the change will come. Q: When you say I wish or command my soul, can you speak of the identity of this "I" that is doing the wishing or the commanding? The "I" is the collective soul of physicality. (1:54). I explained it before. Have you every thought of the Lottery and why millions buy a ticket and one wins. It has to be only that number that he has out of millions, then you'll understand the desire to have on that single number has been much stronger then the totality of the other desires. How many of you have ever stood still and thought, they sell 100 million tickets and only 1 guy wins. What happened to the other numbers that everybody else chose and why didn't the others choose this number. In reality when you have a lottery and everybody wishes to win, that is the reason they bought the ticket. It should be each one getting their money back, that they all choose the same number. In the British Lotto there are 49 numbers and you choose 7. There are 14 + million combinations. (1:56). They sell 200 million tickets and 1 number wins the jackpto. Did the souls decide that this guy needs the money to change and we don't know what changes them in the future, because we just look at a snapshto of a check for say 30 million dollars. Some organizations offlow the life of these people (winners), how they change and what they see. ?? How it changes them elevates their soul, or how the money makes them more miserable. It ends up being a punishment and not a gift. 90% of those who won the lottery before 2010 live worse life then before, after 5 years. When you carry a knowledge it is with you for a life time, when you win the lottery, when you spend it, it's finished and you don't have the knowledge how to make it, it was one off. It's the same with the soul of the man, when you understand it you carry it with you. If it comes all at once and you have to do something with it for that time you loose the physicality of it. This is the process, why, it's the wish of physicality which wants to get that change and the soul of the others say, if you need you take but understand how many of the winners still have a good life, very few. That is why there is a governmental organization controlling what the winners will receive (1:58). at a time so the wealth will last at least 1 generation. Our soul is aware of totality and just look at the operation of the lottery and compare it with the soul ?? of the men, everybody bought to win, at least 10 should win but only 1 does. Is it by accident or that the soul of physicality that has decided that the wish is so much that it transfers to the soul of the man, that it comes to an agreement with the rest of the souls that this one will find the position. Who is in command, the man who wished to have it or the other souls which carries the command, because it was so much that it

found a common denominator with the other souls. It's so much that it controls even how the balls in the machine line up. It's illusion and man has not understood. It goes back to the teaching of Bahuaala, even a stone has a soul. It's so much that even the construction of the ball feels the same what the souls have created. (2:00). If i go into the depth of it you'll be shocked. I learned this by playing Backgammon, for nearly 30 years and my wish in rolling the dice is 99%, but I play a oofl otherwise nobody wants to play with you. But you can command it, because you want it, you can do it. My mother used to say you get what you want I am just here throwing dice for you to have fun. My grandfather taught me the game. Every time I played it was confirmation, understanding that I have control over the dice ... you'll see the psychology of the man in winning. We control and have command over our souls, it's not a physical desire, we become expert in it. **We don't need meditation. When you sit in meditation for 10 hours it means you haven't gathered enough strength. If you wish for 1 millisecond you achieve it. Always remember the case of ILS and MS they wish for 1 instance of desire for pain and they get it.** (2:02). Separation for the soul of physicality from the soul of the man, then the soul of the man organizes to satisfy the wish of the soul of physicality. Any other questions. Q: Why at the time of incarnation on this planet most of us have lost the memory of our soul, and the reason, or our mission for which we have manifested in this material space-time environment, can we ourselves take any action to remedy this or does it all depend only on our (higher self) ... Please, no. **I am going to stop you. There is no reincarnation. We are all creations of new conditions.** Those who speak about reincarnation have not understood the technology. Reincarnation was a tool of fear, that you come back and you have to pay to balance the book of the past, what you did wrong. You come back as a dog or horse, but reincarnation is not (doesn't happen). What we carry in our genes or RNA is the same as we carry the color of the blue from the eye of the grandmother, we carry in RNA the memory of the grandmother also, and strange enough for those who understand (2:04). more and can go a step further, **is because you carry the gene of the blue eye of the grandmother, you also carry the time of her life, the connection of the fields, so whatever she saw she put also on your genes, even though you have never seen her in your life, across the planet.** So we continuously bank (these fields) in our soul and physicality, through the connection of the fields of the ?? before, through the connections we have made through the central genes we call RNA and the same as a common denominator of the soul of the planet, it has just given us that ?? gift. Those who speak about reincarnation have not understood the totality of the knowledge. Rick asks, so Mr. Keshe when people say they remember their past lives and that kind of thing, so if someone says they remember being Cleopatra in a past life would that be a cell memory or DNA structure? (internet connection broke) ... (2:07). ... so this is what we understand as part of the totality. As we said in another teaching, the scientists tell us our genes carry back 500 years, in fact, we carry the totality of the knowledge past .. anything which has been in our past we keep the same recording that's why so many people say they have been with Cleopatra because many people have seen her or she has (been) embedded through the connection of the physical soul into the totality of the rest. **When so many people say they have been the soul of so and so, it means that somewhere down the line they are connected to that line, because even though she has died, she had so many children and they still carry the memory of her and it spreads (out) more and more. This is very much like if you understand the Islamic religion,** you have the Saudi's which are Sunni which offlow the historical path, (2:09). and then you have the Shia's which are less then 5% of the Islamic world, which are the Iranians or that side of the belief. They offlowed the line of the family of

Mohammad, his daughter Fatima and her grandchildren and great GC and the rest. In the Islamic world they are identified, it's not that they say I remember Cleopatra, but in the Islamic world they are given a name, (last name of) Sahid. If you have the name Sahid then you're descended of the prophet because you come down the lineage of the daughter and the cousin who married her and all the way down. But in fact, if you look Mohammad had his uncle as the man who stood next to him from the beginning and not the daughter and cousin who were born later on. Those who come through the line of Sahid in Shia belief they can feel the word of the prophet Mohammad, because they carry the lineage or line of communication through the AA. It's the same with those who come from the path of belief of Cohen in Jewish religion, because Moses line come through Cohen, through the (his) mother. Whereas in the Islamic world it had to be different so he brought it through the line of the father, which they become Sahid. It's a very strange way. In the path of Mohammad a man passes it on and in Moses a woman passes it on. (2:11). In Christianity according to what we have Christ had no children, but in fact, he had, we know he had. Those who come from the both paths, let's say Rick Crammond has a child in 500 years all your great, great .. GC should hear what you said and felt through your soul and not in the physical dimension. This is the beauty of the creation. he went to teach children and he had a pile of magnet he gave one to each child, now you are all connected because each of you has a magnet that were next to each other and I have the masters in my hand, more of them. You feel the connection. ... it's the same with the soul. What we call reincarnation doesn't exist, but because we were in the path of the soul of our own generations of fathers and mothers (2:13). we have the knowledge, the recording, it's like you make a recording of a talk, I come and add to it, then somebody else comes and adds to it. It sits in the RNA which goes with the DNA. So people who say, "I was here ..", you were not here darling. You are talking about what the soul of your ancestors have put on the recording, it's not your voice.

This is a misleading (idea) and a fabrication. Reincarnation doesn't exist, but collection of the data from the others who put it on the recording exists. The better we understand this the more this hypocrisy will die. Rick says that makes sense and says that Deepak Chopra says that each of us have a hundred thousand atoms that have passed through Christ and all the prophets and every other being that has been on this planet, because of the recycling of the atoms on this planet... could it be possible that people could read those atoms, or that they are sacred or special? Put it this way, Rick we have more knowledge, let's speak scientifically (2:15). because now we understand. We mix a Gans of CO₂ with Zn and CH₃ and we drink the water of it, the CH₃, CO₂ and Zn goes where it needs to go. In fact we use the water as the carrier of the information and we can load on it as much as we like, as many elements as you like. In the future when the scientists of the KF do more work, they'll understand that they can load 1 drop of water with all the information for the reversal of all diseases, but your knowledge has not gathered that much yet. Then if you go further you can do with that drop the fields which create to reverse all diseases. This is the promise of the new technology which we will understand the totality of it. The cycle in the life of man comes through liquid, you don't create out of nowhere and the liquid which you carry, carries all the information, we call it the sperm or the egg, it's a liquid and it still contains water, this is how the information is transferred. If you go still deeper, this is what I said in many teachings but people didn't understand ?? I will bring the soul of the Christ that you'll see, because it is within us through the soul of his walk, talk, and his daughter (2:17). it is amongst us. We understand it. The life of Christ as a prophet changed when he manifested himself again as a man, he lived a life of a man, having a wife and children, the same as all of us. This is what the liquid is, it carries what you

call all the vibrations, it's not a vibration, it carries the essence of the fields of the totality. An atom of water is so vast that you can put all the knowledge of a man in 1 drop. It's a more efficient system than the brain of a man, and it vibrates equal to the others. It's us by our behavior, we change it slightly, ?? by our need that we show physicality. the sooner we understand this then the less prophets we'll create and the less rubbish about reincarnation. We don't reincarnate, we just bring the memory that is embedded in the liquid of the sperm and the egg of the mother which is passed on knowledge as a collective knowledge, but that knowledge creates the strength of the soul of the man and with it the strength of the soul of the physicality of the man which transfers inside, you saw the magnet inside the bigger magnet. They have to have a balanced field that they can stay in position. Any other question. Let all of us wish to raise the soul of the king of Saudi, in 1 second. (2:19). And let us wish that they walk to the table of peace, and the same with the Iranian leadership, to become men of peace, and for all those who stand behind them. I explained yesterday, go look at the news in the past 7 days, we saw the French president out of nowhere traveling to Saudi Arabia, and we saw immediately the following day the Saudi's calling for a meeting of the Islamic world, his supporters to decide what they are going to do with Iran. Now you don't need to think much to figure this out, who are instigators of war. Our silence is our wisdom, but we know how to handle it. You start the war and we give you more, but you destroy yourselves and we sell you more, that is how we are going to give you more. The oil price has reduced too much and it needs to be higher, at 40 to \$50 a barrel aren't good enough because the investment has been made for 50 to \$70, now we start a war creating an oil crisis and the price goes to \$250 a barrel and we'll get back what we want and we get control. Now you understand the gun policy. (2:21). Raise the soul of the French president and those who call themselves world leaders (warmongers) because the other world leaders (not warmongers) are working on peace, which is us. Just go check about French president to Saudi, you'll understand. And immediately they call for war. It needs a wise man to see and a stupid one to play the game. Any other question. Q; Are you saying that when we speak of the elevation of our individual soul that when we pass from this life that there is no continuity of the individual soul, between what one might call death and birth? No, no, no, when we say elevation of the soul it means having more of a higher strength that the lower strength becomes a part of it, that's what it means. (2:23). It's to have more of the higher strength that you can reach more. When you can reach more by elevating your soul it means you can feed more, your wishes become stronger. I said before that at the death of the Pope John Paul and Diana, I said the soul of Diana reached higher elevation than the Pope because many people gave (to her) and her soul received it, it doesn't matter what crimes she did in her life time, whatever, it wasn't as big as the Pope who ?? hide so many pedophiles that so many children suffered with. ???Whose soul we elevate by elevating our souls will reach both souls, Diana and the Pope that we can raise both to a new level. The elevation of the soul of the man is not for the man, this is a misunderstanding, (we think) that everything belongs to us. When we ask for the elevation of the soul it is to be able to give to more souls and not for us to go higher.

The time of "me" is finished. The time of elevating the others is the beginning of the new cycle. Because ?? we have already become part of the totality so I put my effort into it. We used to go to the army to support the nation, now we go to the souls to elevate them so that there is no need for an army. It is totality a different ball game and a new game in town. (2:25). peace through the elevation of the soul of the man himself allows the man to feed more. When you have 2 jobs you have more money to be able to better look after your family. In Arab countries when people get more money they go

and get another wife and support 2 families, did they elevate their pocket or did they elevate to be able to support more souls? This is what it means to elevate our souls, it doesn't mean that we elevate ourselves. (Because we think this way) it means we haven't understood the totality. Elevating our souls means that we have a higher order that we can more to allow the others to reach our level because don't forget that with the work of the soul which is a plasma itself, the stronger always gives to the weaker to elevate them to his own level. And this is the point of the reverse from M to G. When you raise the fields you reach the others so when you become equal you gravitate together, you become of the same thought. This is the one point that even our space scientists have not yet grasped, the conversion from M to G, going forward or coming back. It's the same concept, understanding, and principle. If you understand I would start teaching it at every level of space technology, matter, soul and everything else. Now after so much teaching you all understand that immediately you connect to each other, to become one language. This is the beauty of it and why I asked them to show the video today, (2:27). that shows the n material in depth, that you see the true matter state, that you come to understand the work of the EC and UC, which is the ultimate teaching of the N material and the Gans was to reach world peace through the establishment of the balance of the soul of the man through the EC and UC. I don't think anybody could have put the video together so beautifully as we see now, it explains the work, ethos, and why we are here. The entire length of the KF from A to Z is on that video. It was made to be shown in a peace conference in China last week, but now it has been shown for the whole of humanity to elevate and not just a conference. 126 nations attended a conference for peace, we can reach them through our souls. Any other questions. Q: There is a passage in your book. I don't remember anything that was in those books. Tell me if my interpretation is correct. I don't know. (2:29). You see you'll interpret it according to your intelligence but it doesn't mean that it is the only answer. "In the matters M field, the strength of the M fields goes back to the origin of the creation of the M field. When the strength of the M fields is in ?? term of reference ?? of the M fields. M fields in essence are created out of the potential difference in position from the souls and the rate of the flow of M fields from the souls becomes the current of M fields, thus as the position is closer and the rate of the flow is higher, the stronger the strength of the fields". So what I interpreted is that what matters is my physicality and my field which comes from my soul, it goes back to the creation of the field, it means I go back to the creation when I was created, where my soul came from, and my strength of the fields I radiate actually is my power as a soul. It's your emotion. So the M fields came from how close I was to the creation itself, because depending on where you came from the Creator, also how close and how fast I came from that point, it creates my current, it means how I will maneuver in this lifetime. You see your physical soul and your soul, what we call of humanity or as a human, (2:31). which is placed in your, what we call the position of your brain, has a separation by matter content. In some of my teachings I have taught people what the difference is. The soul of the physicality carries the elements of the physicality of this planet, Cu, Zn so it has a different strength. The soul of the life of a man which is in the brain of the man., carries those as common denominators, but of the space of the creation of the non-dimensional physicality, which is the atmosphere of this planet, there is a big difference, that is why we have the soul of physicality. In the soul of physical life in the body of the man we have confirmation of the existence in respect to the soul of the planet. The planet has a say in the condition of physicality which is, I have a strength of Cu, Zn and all these elements in me and I have to balance these in respect to the soul of the man which carries the AA, which carries very few of these in totality in physical state but in the strength of the soul and his

internal structure strength, the balance between the 2, the soul of man and soul of the earth, is the creation of both, we have something in it, physicality, which is Ca, Mg, and the rest that are from the physical part of the planet, and then the soul which has identified itself not to be connected to the matter state of this planet, embeds its soul in it. (2:33). I have always said that the physical life is a leech on the soul, which means without it, it (?) can't exist, it needs it to confirm its existence, but it shares it to confirm its physicality. When the soul is created in the womb of the mother, even though it comes from the interact of the same entity, now it carries the interaction between the soul and the soul of the planet, which dictates on the strength, shape, color, everything ?? of the man and its creation, ?? created by the condition of the balance. I asked genealogists if they see in the genes the characteristics of Cu, Zn and the rest, or do we see a protein chain. They can't answer. But it's very simple, the protein chain of the AA genome is set to carry the fields of the Cu and Zn, but not its matter state and that is why we don't see it in them. If you look at this genome they calculated which is a protein chain of events, or balancing, the reason we have deformation, what they say is defects, is because the MG fields of say Cu which is replicated in that position but is not in balance with the atmosphere. In the coming time when the scientists understand the total PI technology (2:35). we can move these genomes. Because they haven't yet understood that these genome structures is a protein imitating or gimmicking the property of Zn in 1 chain or Cu in the other, and because it's not balanced they don't see it as a Cu and Zn balanced, they only look at the matter state of it, which is a mistake. In the future genealogists will understand this. If they start working on it then very soon we'll have no gene defects because these defects are, according to the MG field which they are trying to imitate Zn, Cu and the other matter states of the physical life. And when you put it right, when it should be Cu but it plays like a Zn, then you'll see that there is no gene defect. Those who move into the high level of the medical aspects of the KF, like the hundreds of doctors in the medical teachings, where they are practicing outside but they are following the KF work, if they understand this they can create fields in their dynamic cores which mimics the condition that the genome comes back and you'll see a lot of gene defects can be corrected, especially in the new cycle of the dynamic reactors which are coming. Some of the doctors who have made these dynamic reactors and are testing it have not understood but they are doing it. They are testing to see by observation, if they understand it they don't need observation and can move directly to it. You don't need brushless motors, they interfere with the condition level minimum Cu, (2:37). This means that a lot of cancers that are Cu based you can't touch because they are already excluded by the Cu windings in the motors. Because they have not understood the totality, you have to go into the condition of non-rotating reactors and then you'll find out gene defects will be changed in no time, because with that filter of the Cu winding you have put a filter so anything that has to do with Cu based you have to work much harder for it to change. Those of you who saw Dr. Rodrigo's cancer presentation where the breast opens up, now we have other cases confirming, one after another and other doctors are testing it and it shows to be correct. The breast opens up because the soul wants to get rid of what is not mine, it doesn't exist in my matter existence. We can show you other videos from other doctors who are practicing it and have seen it. We understand that the rejection of the fields, it's like the neutron having the proton inside opens up to let go and then it closes. ... other doctors are seeing it, the breast opens up the solid cancer coming out and breast closes again. It's the same as the release of an electron from a neutron. We have to understand more not by just looking at the physicality of it, but by understanding the knowledge of it, the strength of the fields is totally different. (2:39). Q: Klaus number 2, I have worked the last 2 months

intensively on this issue and I have built up a new field, like a new dress on my body, all these fields from my soul, but I can't identify where my soul is, but when I go in this room, I am in this, so much opening in the heart, I feel all the fields, when you spoke yesterday in the medical teaching, I work in the background, I can identify all these fields, pressures, happiness and peace from different people, it's so wonderful right now to be in this state and when we become this state, level we radiate this out and as you mentioned before, I don't command that they have peace, it is only my love and peace that radiates out. I see this as a new conscious field with the colors of blue, greenish, and white, like when you see the earth from a very far distance. It's all in these fields. It is so wonderful what we are creating and I can only give thanks to all of you, ... (2:41). Every time I go in this field it's so peaceful and safe, I can't describe with words, it is very far out from the mind. Thank you. There is something I think the KF supporters have to understand and that is what is peace. We speak about it but don't understand it. We are at peace when we have everything we want. It could be if I have heat in the house I am at peace, or cold in the house I am at peace. If you interpret it in a physical dimension it means when I have every thing I am at peace, that I have no worries. When you have no worries then you are strong, because if the neighbor doesn't have cold then you can give him some, because it gives you peace that he is not hungry also. When the soul is at peace it is much stronger and from the teachings the stronger always gives to the weaker. When we understand that level where our soul is at peace, then when we give we elevate the others to become peaceful, this is what peace means when we say, be at peace, we possess the power to be able to give. Not that it is that we have it all (for ourselves). When you are in that position you are much stronger and when you are at peace in your soul (2:43). it means you are in a giving condition, you're a lover, because you want to bring the other souls to your level that they are at peace also. This is what the interpretation of peace should be, being strong and having all that you give to the others to become at your level, not to hold on. Holding on is the kingship, aggression to find a way to hold on. how many kings we have seen who try to hold on, they all will go. There shall be no kings left, not in the physicality and not in the soul of the man. It's in the writing of Bahuaala, I interpret for the first time. They asked him which form of governing does he prefer. He said, I prefer the kingship, and they thought we prefer having kings, but they never understood the essence of his words, which means with people following kings when we understand that there are no kings, then many become the king of their own souls, then there is no kingship in physicality. ... when we are at peace with our souls and have confidence and strength then we give that peace and confidence to the others so they reach our level. This is how we create peace (2:45). and not by marching and this is what I keep on telling you. Understand the work of the fields, you do not need to look at the physicality. If you understood the past hour of teaching, I have finished with Islam with a simple ?? line of Islam, not with Mohammad. How wrong they are, they are all worshipping a black stone. ?? An observation of Mohammad was don't ever make statues to worship that you go on a path of the past. He demolished them and now these people are using it to demolish each other. And the beauty of it is that the Christians and Jews are supporting both sides, let them destroy each other, now we ?? stand. But they don't understand that by destroying them they destroy themselves because when the path of belief drops in one then the people see that the others are fake also. This is what I said to the Vatican guys, I talk and you are finished. Now I talked, you are finished. The Christians and the Jews ?? take sides to see if they can make more than the Rothschild's in this war, they'll find out that once the people ?? (stop) belief in Islam, it will run across all the religions. You are yourselves ending all the paths of belief. Let's talk peace before you get totally

demolished. The loser is the human race but the winner is the soul of the planet. (2:47).
Q: Shouldn't we give a criteria when we give because there are some who are only takers and are even lazy to grow up to themselves, so should we use a criteria for how we give, right? Not really, then you become a king, you dictate. You give and those who you call lazy in the physical world, you never know they may be very active in their soul level. Never become a judge, you can only judge yourself. Thank you very much I understood completely. Shall we call it a day. Try to teach the understanding of the soul in the workshops that are going on around the world and use the physicality of the systems you produce for man to understand his physical life and the fields (that are the soul of the man. (2:49). Then you'll find out that the K Seekers who become your students will understand and appreciate your understanding and teaching, and not for you to become a teacher to satisfy an ego, that I can teach. Show the path and don't teach the knowledge. Be an inspiration in your teaching, but it is for the person who listens to grasp from it whatever he needs. Nobody is the enemy, everybody is a friend, but they contribute in different ways to elevate you. You saw the number of flags in the video. Our enemies thought they would silence us in Accra (Ghana), but they didn't realize that world leaders would start looking and asking what is Accra getting that we are not getting, and then the souls awoke. Now 10, 20, 30 factories will open in the next weeks and months around the world. We are keeping silent now, nobody knows where they are popping up. Nobody knows where they are getting built and producing and its expanding. Their attack on us was a gift for us and it showed that we have to work on a different soul level and it works. They showed us our weakness and not it has become our strength. Now you try to attack and bombard 35 nations. You are welcome. We are going to 500 factories in the next months and years. There are only 135 nations and they get the tax benefit from it and the investment. (2:51). You made a oofl of yourself. But your soul supported us to achieve what is to become part of the soul of the man to satisfy his physical need. The beauty of the new teaching is that we allow the souls to position themselves and to elevate themselves to the level they want, but what we say is what we do and what we can do from our souls, my wish is my command, I am the commander of my soul which is a giver, nothing else, and by giving I have matured enough to understand that physicality doesn't matter, I raise my soul to that much and I do the same to the others. ... The knowledge is getting shared regardless of race or religion and it's for the man to allow the benefit of it to elevate the soul of another soul, and not for the benefit of the physicality of the man. Please make your wish to elevate the souls of the Islamic world on either side of the path of the lineage, and raise the soul of the Christians and Jews and those in the financial world who thought they might end (get) something out of it by the destruction of the others, they don't see that by trying to destroy the others they destroy themselves.

(2:54). End with music.
