

199th Knowledge Seekers Workshop - Nov 23, 2017

(If they start a war between Iran and Saudi Arabia we will release the upgraded Power Units, We have to understand and train the operation of the soul and how it interacts with physicality and emotion, To travel in the depth of space we need to reverse positions of the soul of physicality and put it in the center of the soul of the man for protection during travel and then re-manifest ourselves in the environment of the destination, In the new cycle there'll be no punishment a lover can never harm, We always sought death and separation as the ultimate position, but if we start learning that amalgamation is the new way rather than destruction, joining rather than splitting, Transmutation of the fields as I have said in the other teachings is the key to understanding the work of creation, not the transmutation of elements, How the fields come together and the agreement of the others souls for the birth of a child, He doesn't believe in Astrologers of today they don't understand and are taking power over people, Christ understood transmutation of fields of soul to physicality, but you call it resurrection, He manifested a totally new physicality and had to convince Mary Madeleine who he was they had and family and one day you'll meet the bloodline, 2 big families (Rothschild's) came from another part of universe they have abused man's weakness but their time is over, Caroline asks why those from other parts of universe can practice abuse on Earth, the answer was complex but basically it's the physicality that has the problem and the others manifest according to the conditions of this planet, The Earth and Universal Councils are set up to deal with mans physicality, We allow the others to oofl us, The problems with the education system and the teachers has psychological problems and wrong ethos for teaching, The way history is taught has to change it promotes war, etc., Every Constitution has to be accepted by the religious people so the abuse is built into the structure and has to change, The soul of man is a collective soul, Time doesn't exist it's an invention of man ,)

The release of the PI generator is dependent on world events. **If we see oil used for start of a war (Saudi) we will release the upgrade Power Unit and we have taken the steps that if we see any movement in that area, we will release immediately as part of stopping the war between Iran and Saudi Arabia.** If anything happens we have put them in 4 or 5 locations and the instruction is that they release the blueprints instantaneously across the world. We will demolish any forces that the oil was going to be used as a source of energy war by those who are behind it. We have had a meeting with Vatican with KF call for peace and we have received responses from them and 2 other leading nations in the world. ... (:30).

(1:02). it takes so much time to train a person to go into space to change 1 panel, it takes years of training, now you can imagine how long it will take us to train the man to use, **understand and to train his soul, for him to understand his soul. the training will not come over some days, we have to understand the operation of the soul and how our physicality and emotion interacts with the source of our existence. That is what a soul is, the essence, the mother, the seed of the creation of us. We have never understood.** If it takes us 10 years to be selected and trained to change 1 panel by 1

man how long will it take us to train ourselves how to handle our soul. It's not all an easy job because **up to now we left it (behind), blamed it (on) the men of religion, who were trying to confine it and use it for controlling us, for us to have alert points for punishment. Now there is no punishment, we have to be fully alert in what we allow our physicality to show in respect to our soul, to the essence of our creation.** This brings us to some very fundamental things, because now a lot of things we know, and things we thought we knew have to come into operation, (1:04). and a lot of understanding which was there now needs the connection lines. When you say we know, we have the power and understand it. We are used to physical transportation of our body through cars, a donkey, a bike, now we have to learn transportation of our body through the soul. This is a huge change for those who are not going to training schools. When you want to drive they send you to driving school, to be an astronaut they send to the pools and everything else. But now we have to train our soul ourselves in how we can use our essence of creation to create motion and manifestation for ourselves. **Many of you will walk away from the KF because you'll not be able to understand the work of your soul, because it needs a lot of sincerity, direct openness of oneself with oneself.** If I take a ?? it's me who decides what color I am going to put on this nail, and what part what color I am going to paint it. Now we have to understand that our emotion is that brush and the soul is the nail, and it's us who decides how we are going to brush and how beautiful this nail varnish will show the beauty of the nail, the finger and the beauty of the woman. (1:06). This is what we have to understand. We are responsible now to learn about the new way of transportation with the ?? fuel which is already the creator of us. This is what it means when we started the teaching of the soul. This is why we brought you so close that now you have a MaGrav system, which is the body of the man so full of energies that for the first time we called it for the state of Gans that we can manipulate. It can't do no wrong if we understand the totality of the work of the essence of the creation of the man. There is one point we have to understand, **as you saw in the introduction video when you have the N layers out of the mass of the body of the Cu, each N is connected, all those dtos you see is you , your soul, with the soul next to you, you are connected to the soul further up from you. When you see those N dto layers in the introduction video, replace those dtos with the soul of the man, you see how you gap, how you interact, this is what our soul is, a collection of fields which stands on its own, it dictates its position in relation to its atmosphere and condition and with it environment.** Now we have to go a step further. We always looked as a means for transportation to cars, etc. jetliners and spaceships, but we have to learn how (1:08). we used to go the shop and buy a pair of jeans and jacket to cover this body, but now we understand that it is us who decides the process of new travel in the space in the dimensions of the Creator and how we dress it, manifest it. In the papers that I have written it calls ILS a death wish that comes true, so if we wish to die, separate the soul of physicality from the soul of the totality of the existence, the creation of the life of the man, we have that power. It has been embedded and it is so strong for those who find it that they can do it. **Now the process of the use of the essence of the creation, which is the soul of the man for transportation is not to terminate a life, but to reunite the essence of the soul of physicality with the essence of the soul of the creation of the physicality, which is what we call the soul of man.** Last week in the presentation when we saw the magnets and we put the smaller one inside the larger one **this was the manifestation of the physical soul of the man that he could enter and be within the soul of the man, and then choosing the space and dimension (1:10). this doesn't mean death or the end of the life of a soul, but the collaboration and understanding**

more between the soul of the physicality and the man's soul. It's a new technique we have to learn. You all know what to do but it's just that you could never connect it to do it. Many of you made the Gans', you have seen that when you put them together they start to create motion and spacing in how they want to rotate. Now understand that the physical body of man is the Gans' which they rotate in the center, which is the soul. **Now you can gather the essence of the physicality, which are the Gans' rotating, and take as a field within the center, then you can release it, which means when you are used to now as we have taught that the emotion effects the fields from they come from the soul that it shows itself manifest as the physicality presentation of the soul of the physicality which are tears, crying, laughter, joy, pain.** When take the soul of the physicality and you take inside the soul of the man, nothing changes. **The Physical soul in interaction within the soul of the man (1:12). will still feel all the feelings which you carried externally, there is no need for termination, but now it becomes working within inside each other, but instead of physicality out(side), the soul stays as the protector of the physicality, the physical soul of the body, until the soul of the man finds the position where the physical essence of the soul of the physicality wants to find, and does find a new environment which the soul confirms to him, that it is peaceful (here) you can try it (to manifest).** We are used to always having the soul within us and manifesting ourselves in the essence of the physicality. Now to travel the depth of the space you need to protect the soul of physicality. And now with the knowledge we have and the understanding of the correctness of the soul, we can take the soul of the physicality to be within the soul of the man, that it is protected during the time of travel, then traveling the dimensions of the U becomes timeless and effortless. In the present scientific world we call it zero time transportation. The question is, how do we do this. How come when we wished to die, we managed to give a command in an instant to interfere with the soul that it gave the instruction to the physical communication line, which you call the brain, (1:14). to start the process of the separation of the 2, we want to divorce the 2 souls. Now **we have to learn, be educated, and to practice that we don't destroy or separate, but we join, unify, rebalance the soul of physicality in a way that it can enter within the soul of the man, which means it becomes the center itself. It's literally like a 2 sided jacket and you reverse it inside out, where now the soul becomes the protector of the physicality.** Whereas in the present life of the man the physicality is the protector of the soul, which we have put a brain and skull around it and feed it with the physicality of the man to exist. If we could go in the path of intention to end a life as through ILS through a wish to separate the soul, then we know a path that we can use to enter the soul and reside in it until the time comes when we want to manifest ourselves. Many of you made many dynamic reactors and different cores, you always observed the physicality when I told you to observe the fields. (1:16). **To become a passenger of the space without a SS, to travel with the strength of the soul, now you have to do the same, but the difference this time is that you have to be able to transform, to have control over all the souls of totality of the physicality that you can summon, that they go to a higher order and the soul comes to a lower order than the soul of the physicality, so that the soul of physicality can take the center in the center of the soul** of the man. For many of you this is very hard to understand, but many of you who are not highly educated, and you have worked through the ethos of Yin & Yang, balance between the physicality and the soul, will achieve this very rapidly. And those of you who were connected to the punishment of the physicality will have a harsh time with this. Those of you with Chinese background and believe and understand the operation of the soul and the physicality in the language transferred to Yin & Yang will

walk through this, because you only need to understand how, what you already knew to put into practice. This is the hardest part because now the physicality the way you interacted with the soul through the emotion, now becomes the soul, the physical part of the manifestation (1:18). in the new dimensions, bandwidth energies of the U, then the space travel, the change of the color of eyes, the height, the hair, the change of the presentation manifestation becomes child's play. You need (to be able to do) this to enter into space unless you always want to wear a spacesuit and not to be free, then you need to learn. You need to practice, as I said, when you become an astronaut you have to practice for 7 years, **but this you can practice for 7 days and understand the true essence of your creation of your physical life and become a man of space to travel through the strength of the soul.** Then as we say, the U is your oyster. There will be no limitation in how and where you manifest yourself. Remember 1 point, **we teach for the spectrum of creations across the U**, some of the men will achieve this today in a short time, and some will struggle for a long time because they never understood the truth about their own creation, and at the same time those with us who are from the deep space who have been looking for the understanding of the knowledge, they have (now) been enlightened to take the next step. Many times in the recent past (1:20). as man's technical knowledge and expertise has become more and more profound to be able to look at the deeper and wider spectrum of life, we call it different ways of detection by cameras or whatever, or field detectors, we have observed lives that would change and out of nowhere change back (meaning beings appear and disappear), **we have seen the manifestation of physicality out of nowhere, these are the creatures who have managed to do what I have just taught.** It means that **these creatures of the creator have managed to understand how to enter into the dimension of the soul and to use it as protection and then re-manifest themselves in the dimension of physicality of the space in the dimension that they want to manifest themselves.** It is much faster than a flick of a finger. You can teach yourself. How do we do this. **It comes through the purity of the understanding of giving because now you have give so much from the soul of physicality that the soul of the man becomes the lover of his soul, which he created.** The soul is the "Adam" and the soul of the physicality is the "Eve", by giving so much the Eve becomes part of the Adam but still remains as Eve herself, that he can give so much love, (1:22). by giving, that ?? he is taken in, confirming the weakness and higher strength of the Eve within the Adam, that Adam protects, in English we call it sacrifice, but there is no sacrifice, you do what you like, I am there to give, I have fed you and in the time you want, I protect you. **The soul of the man always stays as the protector of the man in physicality and in the dimension of the soul, the soul of the physicality within itself.** We have to learn how to summons the soul of the physicality's and this needs practice. All of you can do it. Every man who becomes sincere to himself and nobody else, you don't need to prove anything to anybody except yourself, then as long as you don't harm anybody by manifesting yourself in any dimension you can change yourself, even on this planet. **We have done this by changing the color of our skin, eyes, or hair as we have moved across this planet, as I have explained in previous teachings. Now we have to go through what you call, evolution,** and change the understanding of the word evolution to understanding of the condition of the position. It has taken us a million years to evolve according to what we wanted and our physicality through the operation of our soul has changed it to (1:24). allow us to survive, now if you understand it **we can do this evolution instantaneously**, we can evolve. We have a sanctuary called the soul that when we feel the condition is okay and it's what we want to be, then we can manifest ourselves (to become that instantaneously). **Our soul continuously uses us as the lover**

that can love unconditionally, be it to manifest in a physical matter or being within the soul itself. How can we expand and understand and go to the next step of change. It has taken us millions of years and it takes an astronaut 7 years to learn to change a spanner, but unfortunately the body has billions of spanners that we would have to learn how to operate, or we understand the common denominator between all the cells of the man so that we can summon and arrange, the same way the man with ILS arranges his separation, we arrange a path to the soul of the man. And then we evolve, expand, and understand how **we can transmute, and travel the depth of the space from this planet and still be the same, of the same feeling and understanding.** This is going to be very hard for many of you. (1:26). We have seen a lot of people having problems with the resurrection as we talked about it last week because this was not in their book. This is not what they thought it would be, they were waiting for the magic and now the magic is them(selves). They themselves are the creator of the magic and this is what we have to learn, but how do you do it. How do you manage to be able to transfer the physicality in one part, or in totality to do it in(side) the soul and then manifest itself at a point of desire. Remember that **we created the physicality of ourselves. So what are we afraid of, to do it again. Last time it was left to the affairs of the environment of the planet, this time we do it with the full control of ourselves.** This time we decide on how the environment of the womb of the mother, or the condition of the atmosphere, or the position of the planet to decide. This time we are in charge. But don't forget what I said earlier on (1:28). We use the emotion to separate the soul from the soul of physicality, now we should do the same. **The desire to live, to be part of the soul has to be so strong, and we'll learn how to do it, that we can jump in or out, or join in or out. We can create and become the creator or to be created out of the wish out of the balance between the souls of the physicality and the soul of the man. Try it. If the desire is so deep to be with your lover, to give to the lover that you become the lover, rather than being loved, you will achieve it. This is the key to the transition.** This is why from the beginning I always explained giving as loving. Not one loving thyself, but one loving the lover, that truly we give unconditionally from our soul that allows us to have a higher strength. (1:30). that they become the center of the soul. This is very much like loving. For example, you are living a normal life, you walk on the street and you see a man or woman and you fall in love and then the life of that man or woman becomes the center of your life. You'll do anything for him or her. Now this is the same operation for the conversion of the physicality, the soul of the physical part of the body, to become the center of the soul. **We have to become very good lovers, but not lovers just to gain something to prove, but to be true lovers that we are there to give unconditionally that the soul decides in respect to the emotion of the soul of the physicality where and how to manifest itself.** It's like a taxi and a man on the street, when you are in the taxi it becomes the carrier of you, while you were outside in respect to the taxi. When he carries you inside the taxi, you and your emotion are still there (intact) and your wish for him to take you to a destination. (1:32). To a destination which you want. Do you get out of a taxi when he takes you to a wrong address? Or do you get out of a taxi when you know your lover is waiting for you inside. Now you understand why I have been teaching this way. **This is why there is no more punishment in the new cycle, as a lover never harms, we become a lover of our soul and with it the soul is always balanced in respect to the others, that in that respect it doesn't take what doesn't belong to it.** Then there is no need for writing new books and new orders because the lover always respects the beloved, and he gives unconditionally to become ?? part of it. I keep on saying how do we do it? It's the story of a banana and peeling it, the more peel it the more it manifests itself of the higher

strength. (1:34). **We have to come to know how much we love our soul and our own existence. We have to come to understand the power of our existence in the physical dimension because we have always ignored it,** so that others in the name of religion have taken advantage of our ignorance. **A couple of weeks ago I saw a picture of a president and I knew it was a cause of problems for a lot of souls, and I said, I wish your soul elevates that the other souls find their freedom. And strange enough he resigned in the past 24 hours.** I didn't put it as coincidental but as a correct wish to elevate his soul. Now we have to understand that we have a lot of powers. **In my capacity we can change many things through my wish as we have started doing.** (1:36). But all of you can have that wish. Now the wish is the strength of the soul of your physicality, now play the game. If you have managed to reach another soul to elevate it, through your wish through the energy of the soul of yourself, now start learning how to bring all these fields together that you can enter the realm of the soul of the man, which is yourself. Then you'll find out that you can travel the spans of the U. in no time. **We always sought death and separation as the ultimate position, but if we start learning that amalgamation is the new way rather than destruction, to join in to become one is more important and powerful than the splitting, not to have anything, then there will be no wars not even in the physical dimension of the nations and not in the physicality of the man.** And I keep on saying, how do we do it. It's as easy as thinking about it. You summons to the strength of the soul, (1:38). for the soul of the physicality's to find a new balance that with it you can be part of internal existence of yourself. **It means you go through your emotion and through it and you create, what we said in many teachings, a stronger PI gives to the weaker that it elevates it to the level of itself, and if the totality of what is given, and internal fields are higher it absorbs it to itself, but as the soul has no barriers it will bring it to be embedded inside itself. Understand the past 5 sentences and you have found the path to the Truth** in how to enter and be able to travel into the space through the strength of your own soul. **Many souls (Aliens) travel within the SS or crafts and then at a given point they decide to use their soul and the manifestation of the entity within them(selves), which you call the soul of physicality.** At that point to manifest themselves an entity at that location. (1:40). It needs a lot of learning, confidence that I can do it, and any one of you can achieve it because in the space it's not selective but it's the one who knows how to do it. It's not this man can do it but the other can't. We all can but we have to have a trust that we are of a higher elevation, value, strength, that being higher the soul allows the transmutation to become inside out, to allow itself to become weaker, to transmute to a lower level, that allows the higher level which is the physicality, the soul, to become the center. You made the cores and the Gans' now find the connections to the path to the soul of your physicality that it can transform it to become a higher level lover that the soul becomes the clothes of the physicality, the soul of the physicality. And you all understand the soul gives to bring the other soul to the level of itself, but if the other soul is a higher giver, now moves in the center that it comes to give from inside. (1:42). **Transmutation of the fields as I have said in the other teachings is the key to understanding the work of creation, not the transmutation of elements.** This and all the teachings we have done in the past (few weeks) is (about) the transmutation of the fields, where you can then transmute the field strength of the manifestation, as you never change into the matter state. This goes back to the medical and health teachings where we always say, **the interaction of the 3 fields of the PI is the manifestation of the physicality of the man, be it the skin with 3 layers, the stomach lining has 3 layers, the eyes also, everything has 3 layers because it needs dynamic fields of the M in the PI condition, you call it to create the**

manifestation. One field comes from the soul, one field comes from the soul of the destination, and one field comes from the soul of the physicality, then it manifests itself in the physicality of the man. **Physicality in the U is nothing but the illusion of detection** ... even a stone ... even a stone. (1:44). Then you have to understand and teach yourself the way you did with the MaGrav cores, the way you made the coils, now do we have to do a blueprint on how to transform yourself to become part of your souls to be able to travel the depths of the U. I wonder how many of you would turn up for the blueprint? I promise you very few. The rest of you will be scared or you might turn up for a magic show that you'll find out that you become part of the magic yourself because then you get to become yourself in the dimension of the fields and not in the dimension of the physicality, observation at a given strength. Now you understand where the teachings are going, the true space technology in the true essence of it will come into operation. Slowly, slowly you are given a choice to walk it, donkey, bicycle, jumbo jet, astronaut it, UOF it, or soul it. The **options are increasing and unfortunately for this there are no instructions.** There is nobody to teach you how to get on the horse or where is the clutch and brake (1:46). you have to test and this is of the soul and nothing else. Nobody can tell you are going too far and to stop. My wish is my command, which means my wish is the connection between my soul and my physical soul. How do you do it. **Try to test your own transportation of the strength of the soul of physicality. Don't forget that it has to be done collectively.** I brought this up a few months ago in a very subtle way, the moment they strap you to a cable and you go for a space walk, how confident are you that you will survive, with the new understanding if you yourself cut that cable. The connection between the space station and your own physicality is cut, would you have enough confidence that, "I will survive anywhere in the universe". Before my physical life changes to the condition of its environment, as you say until it freezes. (1:48). I transform in that time that will live outside the (space)suit. **It's you who has to decide if you have enough confidence in the operation of my soul that I can cut the umbilical cord of physicality.** Unfortunately KF in its factories has no machinery for this and there is no system we can give you. It's you who has to test it and understand **how sincere of a lover are you. You have to decide if I am the lover who gives or do I give in expectation of receiving something, at this point you'll not achieve anything.** You made the cores and you tested it, now test the cores of the creation of the essence of your soul. (1:50). Any questions? Q: Why the need to understand when we are in the physical body, if you have this kind of capacity when you leave the physical body. **It's a choice which our soul has made at the point of inception.** It's the choice of our soul how to manifest itself and if it wants to go through this transition of physicality and how we want to change it ourselves. Now we have the choice, we can decide everything if we understand the process. Years ago I was in Kinshasa, ... some children came out and one of them was white with blue eyes. I asked her if a white man lives here. No it's her child. I asked how come he's white. She said we have many of these in Africa. When the white man came and took a black woman they had half white child, but then after a generation they went back to black. And somewhere down the line suddenly a white child gets born. This was very surprising for me at that time, but now I understand in a very clear way **why a child is born white out of a black mother and father, you call it genetics, but what is the purpose of a soul to do this to itself. And it explained a lot of things, how other soul decided that there is a time or position for a soul at a given strength to appear or be developed** (1:54). that becomes what we see. The soul has decided the combination and position of the manifestation. If you understand this, if a soul appeared itself as a white and desires enough to be like the others he can change into black. We have seen this with many

blacks who have different tone colors on their skin, white patches on black skin or visa versa. Go back into the desire and ask what was your desire. Why do we have so many blacks especially in Europe with this complex of 2 skin tone colors. Ask the soul and the pain it has gone through when somebody called them a nigger or a black man or whatever, that they saw themselves because of the color of their skin inferior. It's the same as the man who wished to die in ILS, the pain and the desire not to go through it that the field strength has started the creation of the evolution of the skin color in the man. A lot of biologists try to explain what happens, but if you understand that every cell has a soul, then you'll understand the truth for the first time. If the desire of a man has shown that he can change the color of his body, so the desire of man?? (1:56). these souls have understood the step towards the evolution of the working of the soul in the dimension of physicality and the soul of the man. It's easy and we have already known this as I said many times before, that **we all have been making N materials since we discovered the fire. The fire N technology has been with us since the first time man put meat on the barbeque, in the fire, but he never understood what it does, he just transformed the energy of the meat into a N layer and it opened a space gap in itself**, through the meat and you called it the meat tenderized, which means we have started understanding conversion of energy that creates a space gap, what we call MG field gap, and if you can add the whole lot and control it through the emotion, then you can convert. We have the videos of this girl who wanted to be a harpist and in 1 generation she has changed the whole feature of herself through the desire. Now we have to learn and become master of it, how to do it instantaneously. This is why we said that there shall be no punishment, because once the man learns this, I wonder whose fingerprint are we going to find that we can convict somebody by his fingerprint. (1:58). This is why you teach the soul through the new understanding that there is no punishment, by elevation you don't need to know if it is the real fingerprint. The guy has learned to work between the soul of the physicality and the soul of man and has changed his manifestation and his fingerprint. This is how fundamental this technology is and the understanding of the new knowledge will be and **this why we said that there shall be no punishment, because there has to be the elevation of the soul**. You'll understand more and more the structure of the EC and UC ?? If you go to that step how do we say, excuse do you have a passport for your soul so that you can come to the US or China. Or as One Nation we don't need a passport and this is the solution that we put forward, what we are teaching, One Nation, One Planet has no borders. It has already become One planet ... man is so kind to himself that he allows the transformation of one soul to physicality and from physicality back to the soul. (2:00). Try to understand what is to come and it's you who comes to it. **From now on the confidence you gain from making Gans', N materials, and cores, those who went through that process will come through the process of conversion much faster then those who sat around and could not do it**, because they have learned that this and that changes this or that. We expect things to change for us through others and we haven't gained confidence that it is us who are going to change things for us and that will make life better for the others. And this is the problem for many of you, this transition time. **What I taught today is the beginning of the change. Now start working on how you can transform your physicality through the soul of your physical existence to become the central lover of your soul and then try to manifest yourself**. I'll give you a challenge, I wonder how soon the Whitehouse, Buckingham Palace, the Court of French Presidents, will announce that they have found intruders within their premises. (2:02). You wish to manifest yourself in front of the President to show your power, you'll become god and tell him to sign the peace treaty. This is what your capability has to be,

this is where these teachings are heading for, or shall we see the president who listens and understands, who manifests himself in the soul of himself and announces that there will be a ?? peace. Any other questions. Q: About the **extinction of the dinosaurs, if they would have realized could they have kept the balance of their state? Yes, but they wouldn't be that size, (2:04). because the environment of the atmospheres position in the solar system doesn't allow these kind of size animals**, but if we were still in the same position as when the dinosaurs were here, then we could still create dinosaurs of the same size and height. If you look at the size of the gaseous planet and of its atmosphere, and if you look at planets like Earth and Venus you'll understand that as you come closer to the center, **as you're pulled into the center which is the soul of the Sun, the size of the atmosphere changes**. The giant planets we see don't have such a large core inside, it's because of the atmosphere which gives them the size. **For example, on Jupiter or Saturn if you create the condition for life you'll find animals much bigger then the dinosaurs. And the same when you go to Venus, there is still lie on Venus but it's underground (surface) and over it because of the non-physicality of life, which man has not even understood so they become smaller to be able to survive the change of the environmental pressures.** (2:06). You could still have dinosaurs on this planet if you pushed the Earth back a few million kilometers towards where it came from. Q: The sperm and egg have their own M fields from the father, when they come together and form a zygote in the womb of the mother, who has her own relation to the field of the Earth, then we have the MG field of the zygote in respect to the MG field of the Earth which is related to the mothers womb and then we have this soul that comes in. **At what day does it come to the child? It doesn't have a day and time until it establishes itself, it depends on the number of materials you put in and how strong that material keeps its center.** Alzar as a doctor when you start working with **these dynamic cores try to understand how the center of these cores look when you fill them up with Gans', then you'll understand the work of the soul much easier.** Q: The Buddhists say at 40 days the soul comes in. So the strength of the physicality has to do with the strength of the soul (2:08). which comes from the Creator itself? **No the strength of the soul of the man comes from the interaction of the total souls, or what I call field strength of the entities within the sperm and egg, because you carry many prootns which still have the cycle of life of their own, it's not just one there are millions of them.** Q: When I was 6 months pregnant in prison and every time they took me to shower, which was once a week, the water was always cold, my daughter would always go completely to one side. Is he soul feeling the cold or is it just the soul of the physicality, how much did she have the understanding of the presence of the water? It depends, is it the coldness of the water or the noise and it goes to one side hiding, you relate it to the water, but is it your emotion of, can I prtoect this child being on my own in prison, ... or does your soul tell it to go somewhere safe because here I don't know what is going to happen. It's the combination of it. (2:10). **The soul of the child exists and interacts with the soul of the mother in so many ways. When my children were in the womb of the mother and getting born, I used to talk with them, I used to put my head near them and tell them a joke and I'd get a kick, and I said, oh you didn't like the joke. I'd touch them, feel their ooft, tickle them and they'd move it. And in the process I used to pray for them that the soul becomes a beautiful soul and it serves, and not that they become healthy, because physicality is irrelevant.** I used to go crazy with the birth of my children, it was such a beautiful time, to feel them and know that they are going to be with you. I never imagined that they'd become a ooftball player or this or that, **but rather I'd imagine how peaceful they'd become. When I look all my children are**

peaceful inside, but the events outside allows them to react and manifest themselves in different ways. They don't carry what we see in many, many people, many behaviors, but they have their own behaviors, you see we give from our souls. I pray for my children everyday, **every night, every day I remember them and give to them from my soul that they stay correct in the path** (2:12). through their soul and not what I think is correct but what is correct for their soul and physicality. We give an input to it because we have a connection to it. I hear many mothers say my child wants me to eat this or do that, but in fact, it's the connection between the souls of the child and mother, and the soul of the father that creates that condition. You're a medical person, ask yourself **why do some children look like their father, mother, or uncle, etc.. why do they manifest themselves in the image of that person. Is it that the father or mother has given so much pure love that it has elevated them to the same as the father and they look like him.** Then you'll find the conversion of the physicality in the soul of the man. Q: I met an astrologer, when you look at the creation of the soul all the planets exist ... can I tell you something, **I don't believe in astrologists. So don't bring it up. What are these people talking about because it's the fields also? Yes, but most (2:14). of the astrologists, I am sorry to say, many of them, understand but they abuse their understanding, and the path they give you, then it changes your life because, "he said so."** But we don't look at it that way, rather that your destiny is set by your own soul in respect to what it wants to do. I have said this many times, look at the Chinese calendar, you go back to the same animal, why don't all the people born in the dog year look like a dog, or horse or whatever, and millions of people born in that time of space, do they suddenly change, and become another animal, or is this what we have accepted, we put the totality on what somebody says and that is it. I don't believe in astrology, the fields effect our emotions, manifestation, and presence, but I look at it a totally different way than astrologers try to tell you. **At this moment in time these astrologers and Tarto card readers, very few of them understand what is there, the rest is just money making and they tell you what you like to hear.** Any other question. Sorry Alzar can we allow other people to ask questions. (2:16). ... Q: Is our illness an alert to reunite with all, otherwise we ?? and separate slowly, then that means death and then we need to find a new expression, instead of expanding and including. In my understanding is expanding the answer to any illness? **Maybe that is one way to explain it. Maybe we use illnesses as a way of getting attention to ourselves and internally to our souls. Many people get an illness and then suddenly it's not there, because something happened at their energy level, what we call from the conversion of the physicality, from the soul to a Gans of the physicality. (2:18). You have to look at how you define illness and how it connects to our emotion. Once we find the path or reason for the illness then it ceases to exist it disappears.** Q: That would help a lot of people with the challenges and what is going on in their life? 99%, we have to understand what is the reason. **We allow others to intrude into the space of our life and our fields, and then we try to respond in a way that is not appropriate for the soul of the physicality and then it refuses and you call it an illness, be it oofd, infection or anything.** How come you and I can go into a room with the same infected person and I walk out with a flu and you don't. Why was I receptive to it. Q: that gives a lot of power to ourselves? Of course, I always said that when **we go to space we don't carry any medicine or oofd and everybody thought that we are going to carry a system that makes medicine for us. I keep saying in the space we have viruses but we don't have germs. (2:20). but now that the man understands the power of his soul and the soul of the physicality, do you think that you need any Gans' or any medicine** as you understand the balance between the 2 fields. ?? It's

not that we'll take medicine in the space but in fact, it's for man to become aware of the strength of the operation of his own soul level, ??? the soul of his physical part, and one will compensate for the other one to elevate that it passes the field strength which at that time can cause a mutation or something new. We open the doors to a totally new understanding. We are responsible for everything of our creation, the color of eyes, hair, behavior, and acceptance of. These things a lot of people don't like (to hear). If it's written in your passport that you have blue eyes and you appear in customs with dark green eyes, what do you think the guy will say, can you take the lenses off, no, but it says blue here. It's going to be a very messy job for customs officers in the coming time. For those who understand the power of the strength of their physical soul and their life soul. That's why we said there is no need for borders, because now we manifest ourselves in the soul of ourselves, in what we decide. (2:22). A lot of people do not offlow the line of what I call knowledge. **The best man who understood how to transform his physicality to his soul and then manifest himself in a totally different shape and manifestation of physicality, was Christ. But you call it a resurrection.** Everyone of us, and don't forget the writings of Bahuala says, the knowledge of the man when he achieves understanding of the mutation of elements, will be equal to the prophets of the past. If Christ understood and could do the conversion to bring his physical soul to the soul of his existence and then manifest himself in a different dimension, when he goes through the soul and comes up different, then you understand if we are equal then we all have the capability. For those who will understand one day what I explained about this point, if you go through the life of **Mary (Magdalene) after the resurrection of Christ, as you call it, when he understood the transformation of the mutation of the fields into the matter state and back to what he wanted, it took him a long time to convince Mary who he was, because he was totally a different shape and man.** He had to explain many secrets that they knew about (2:24). that allowed them to rejoin as husband and wife. **One day those who come from that blood (line) being present will explain.** It's very hard to tell your lover or child, this is me, and then you tell them I know you like this and that, do you remember when we did this. How do you know if you were not there. It was a very harsh time for the two. This will repeat many times for a lot of us. Q: Next time there will be 200 workshops, was there an oversight in the numbers? We decide what the souls decide. The 200th has already passed because Rick and did 4 or 5 before we started to number them. Actually we had 10 called public Teaching. (2:26). I used to give lectures in Holland on a regular basis. ... Q: You have just explained that we can travel through our souls, by making our soul of physicality so loving that it enters our soul of totality, I am **wondering if we go with our clothes and whether there is enough room for luggage?** (laughter) What would you like to carry? The thing is, I am going to answer in a very different way. **Amongst us on this planet there are many of those who have been through this transmutation, they didn't come with any suitcase or any clothing, but on the desire to look as a human as us, they create according to their desire and what needs to be. Sometimes they reside, and sometimes in residing they abuse their position in the knowledge that they carried, and we have seen 2 of those around, as 2 big families which originally were not from here (2:29). but they abused their knowledge and the weakness of the man and they are still creating mayhem, they still try to play games, but their time is over.** You don't need to carry any suitcase. It means you haven't understood the knowledge fully. When you manifest yourself on Earth you don't appear naked you come with the totality of the dress, where you are born because that is (your) wish to be. The souls ?? observe everything. Caroline asks, we gto a lot of requests, **can you explain why would a soul behave different here on**

Earth then in the U if it has once understood how to conduct here on this planet. That is your assumption, excuse me. Then should not the conduct not be the same in the U. Yes, but the soul of the man is pure, it doesn't matter where you take it. It's the physicality which enters into these games. The soul of physicality has to satisfy the soul of the planet and the soul of other physicality's, where as the soul of the man doesn't need to satisfy any. Nothing. **The soul of the man on this Earth and the soul of the man in the universe is exactly the same. You are conditioned. (2:31). In the U you don't eat or kill others. On this planet because of the field strength of the soul of the man and that of the soul of the planet, package eating or killing has become part of it (lifestyle), and now we are changing it.** Man doesn't (need) to commit any crime, adultery, he doesn't have to go around and hide and cheat. I was listening to a psychological teaching and it was very interesting, that the husband found out that the wife has a soul relationship with another man and he asked what he can do. The psychologist answered, find yourself and you don't need to do anything. **This is what we don't understand that the soul of the man is pure and clean, and so is the soul of any entity in the U, that it's the interaction with the soul of the environment that ?? the behavior but the soul knows. You'll find out that those amongst us who come from other parts of the U, they never commit any crimes because it's not in their nature (2:33). and the manifestation of physicality of this planet doesn't effect them because they are here according to the conversion of the fields but not the conversion of their soul,** because if they do and you put them in prison and if they know how to convert there will be no one in the prison, how many people in prison are missing. By nature they don't commit anything wrong because they always leave balanced fields that it brings the totality in order. Our souls are pure. Q: **But still then that is where the confusion sits, then who are you writing the Charter (Constitution) for? We write for the "I" of the man to touch through it and understand the soul of the man. So you write the charter for the physical man?** Yes, the connection through his souls. But it's the soul of the physicality that you are writing the Charter for so it's still on the soul level. Yes, but it is writing it to find its way to the soul of the man. **The physical life of the man we have put through the Earth Council. The path to the order of the soul of the man goes through the UC, that's why many of them will resign, many will step down, because they see through their soul that they have come but could not understand or they couldn't serve the soul in the appropriate way,** and those who come with tinted with physicality, they already walk away. You have seen 2 of them up to now. (2:35). it's not so much that we don't trust our soul, **we received so many wrong teachings over thousands of years that we don't know our souls and now we start to get to know it. it's a friend that is so deep within us that it frigthens us in the dimension of physicality.** We shouldn't be afraid, rather we should rejoice finding our creator. Q: **But isn't it through our innocence that this manipulation has been able to take place for such a long time** and isn't it to stand still and ask what is real and what is not, and where can touch so many more to start asking the questions, what are they being given everyday, shown (TV and computer), what they are being taught in the schools, and how to place it in the correct order of understanding what is reality and what is not, and what they are getting walked into and they don't understand that they have the power to step out of it, or to define the difference to what is being created to believe for them to offlow and what is the reality and that they can function between the 2. They can function in the materialistic world and they can learn and develop the path to their soul and where can we start supporting for people to open those doors, and where they are walking into a framework that has been placed for them to be oofled (2:37). ... Let me

explain something, **first of all it's you who allows others to oofl you and put you in the frame, nobody else.** Q: How can you say this when the children are already getting oofled from within the education framework. **Yes, but stop there are 2 - 3 different points here and not one. First of all we set up the EC, UC and Core Team.** The CT are the soul of the ?? created, the 14 members. In time it will be revealed and people will understand. Their souls are sacrosanct, they are the dimension for opening up the universe, in the Universal Community. **The EC is the connection between the soul of physicality trying to understand their position, in so many ways, of what you used to call the prophets of the past.** (2:39). The EC is responsible for the physicality of the man to create the condition that the man has to find a peaceful soul to be able exist in both dimensions of the physical soul or the soul of the man. It comes down to the EC members to create a condition that no such condition from now on exists. **What is the problem we have today in the education society? We get a bunch of people who have been abused and they choose the path of education to abuse the others. Look at the psychology of many teachers in the schools, they become teachers to do what was done to them to take revenge or to confirm they have the strength. The educators have entered the education system totally the wrong way to start with and we have many teachers with the wrong ethos to teach.** Another problem we have in the teaching society of the One Nation is the teaching of the history. Why do we need history lessons to show who is better then the other and how we did and how we are always the better. **History lessons the way it is taught today has to be taken out of the education alotgether. The history has to show how man evolved and how things happened, and not how man killed and who was better.** Every nation in their own history they always show that they are the best. And then we go to the position of those who set up the education system, (2:41). because they themselves have a very direct connection to those who set up the abuse to start with. **If you look at the total structure of any constitution in the world, anything you pass in any parliament has to be ratified by the religious member by, whatever it could be called, parliament. Otherwise it doesn't become law. We have accepted the abuse from the beginning from the operation, because they sat there to abuse the soul to begin with.** Look at any constitution, British, French whatever, at the end there is a member of the religion in the Parliament that has to vtoe and accept that it fits the structure of the abuse that they have set up. **This is why we have done away with the religions, because we have been institutionalized to be abused from the beginning for the benefit of those who want to abuse us, to make us murderers to become ??** Look at the speech of the world presidents in the past few weeks, we spend 700 billion for defense to kill more. Because it makes a lot of money for those who sit in the religious offices. I have said many times **that wars benefit most the clergymen. Most of the wars are ratified or incited by the religious people (2:43). to show that they have a power to abuse, torture or whatever. This is what we have to say about the past, whatever we have done in the past is over and we have to start everything fresh** and we are gradually doing it. You will see the changes in the next couple of years that way the KF will bring it out. We don't fight but we just carry on with our way and in that process we bring so many people to understand that there is no abuse and no control and nobody needs to do wrong because it's not a matter of cleaning the floor that the child might not pick up a pen, or might not fall of the chair or down the stairs, it is elevating the soul of a child that physicality to touch has become irrelevant, that the pen is not there and if it is there it has nothing to do with me. We have to start the education of man in the womb of the mother with love and care and giving, and not waiting until it comes out and then start educating it. **It's in the Torah, go and read it, how they frigthen the man from the**

establishment, from the beginning, the creation of the devil and the wrong doing because that way you create the weakness in the man. And compare that with the teaching that is being given here and now, no one is being punished because we are all strong enough not to do these things. We become the judge of our own wrong doing and we don't need anybody to tell us what is right or wrong, and what we have to do when we do something wrong. (2:45). Why do we have to amputate the arm of the man who steals in one part of the world, where in another for adultery we put the money in the box and it's forgiven. And if we go to another part or dimension murder, adultery, or stealing or it could be anything (any crime) as long as nobody knows, because I cover it up. The damage of killing, stealing or adultery is all the same, we take from somebody. If we teach a man that he doesn't take what doesn't belong to him, that he can find his balance, you don't need any of these (punishment). It's the weakness (in us) that allows others to dictate and abuse, and they allow people to walk into positions that they can abuse themselves. Raping a woman while she is unconscious, or hypnotized, feeling ?? but keep it quiet is a crime ?? punishment, for both sides. Stealing from a man by picking his pocket or robbing his house to create a pain to that man is punishable. Look at what happens to the people who steal. It's the same with the religious people, look what happens now that the new teaching has started the priests will start to walk out, or what I call priests of any religion and confess to their own wrong doing. We see that it has started and will continue more and more, because now we elevate their souls, we don't punish them. Every day we see new revelations. (2:47). huge move as we have seen in European countries that people are moving away from religions because nothing comes out of religion except abuse of children or people and the rest. Man's religion has to be the conduct of his soul and nothing else. Q: I didn't get the answer about manifesting not naked. Try to manifest in the tribe you are from and you'll appear the same as the tribe you appear in because the soul will not allow you to be lower or higher, you'll be equal. This is something man will learn very quickly. You don't take the position of just the soul of the planet, but of those who live within the planet and where you manifest yourself. (2:49). Q: About the Constitution questions will be evaluated once a year in December. **When you talk about the soul of man and soul of physicality, is the soul of man a collective soul or it's your higher being? It's a collective soul.** Q: **If the emotion is connecting between the physicality and soul, where is the place of thought and with what is it connected.** When you separate the soul of physicality, it stays within the physicality of the planet, in any space ??? , then the soul which is left on its own will create it's own physical dimension. (2:51). Q: **What happens to the time? It doesn't exist it's an illusion of man.** Q: So time goes away? Time doesn't exist, we all live within the same time. The physicality creates time for man. Q: **Why are you saying a lot of us don't want to do this, why is that? Not mature enough and fear of loss of physicality, knowing that the balance to create the condition of the transmutation of the strength of the fields will mean a lot of corrections. We are the judge of our own souls,** we know what we have done wrong and right and what we have created and we understand fully what this means, so we fully know. **Those of us who will embrace it because we are aware of what we have achieved but we have done, those of us will fear it because we know it will not be the size and shape you'd like it to be when it becomes part of your soul, there has to be balances, and then you find out that you have created a limitation in the manifestation of the physicality and then your soul will balance things out.** There should be no fear as the soul of the man is so strong that it can correct anything. (2:53). it's just the man who has to have trust in the strength of his own soul. Q: For space travel through the soul, are you talking about the same thing the ancient tests called

"Mercabba"? (and then the cellular restructuring) I don't know I haven't read the ancient tests. .. We take from the parts according to our intelligence and what we can interpret, ?? what suits us. (2:54). ...We give from our soul to world leaders especially those who have started to make the change. **I have always supported President Putin of Russia and I always stand firm on that point.** The same has been with a peaceful man, the Chinese President Zhi. I give from my soul to those leaders who are inciting war to show the strength of their nation, that they become wise like the other leaders. Thank you very much. the council members say I am Present.
