

## 200th Knowledge Seekers Workshop Nov 30 2017

(Silent spaces in the workshops for communicating with the soul as it is done in the space, The new Plasma Power unit is for space development only but will be released of a war starts between Saudi and Iran, The PPU makes the space reactors totally plasmatic and independent of matter state, New elements will be produced in the plasma state so structures we build in space will be like the human body made out of Gans, There will be intermarriage with other races in space the children produced will not be from physical interaction, Parasites and viruses have been with us always they help us evolve we used herbs and root to change the energy and overcome them now with the Gans we have a total solution, Viruses are mutating faster then our pharmaceuticals can keep up with because multi-race populations in our cities, When the Amino Acid creates a new shell it overcomes the virus, When we return to Earth our cells will have evolved a new 5th element will be added to the Amino Acid that of plasma then viruses will be irrelevant, ILS is an example of changing the physicality through the emotions, Between the soul and the physicality we have the brain, which itself is a filter of both the emotions and physicality and there is a Transition Zone where the emotion decides the manifestation of physicality and this is how we will change our physicality according to our wish and environment, Time only exists when there is a decay in the strength, There is no place in the universe that is void of life, You have received for the first time the key of detachment from physicality, as you can stay in the essence of the soul in the strength of the soul and then use that to reach the others who will become men of peace, When we love our partners enough we change our physicality for them so we all know how to do this but now it's to learn it consciously, A good talk about lying, Moses didn't give this 13th commandment because he wanted to lie to his tribe, the white and normal lie, lying because we want to get something which is stealing, In unconditional love you don't put any emotion in it, Mother becomes jealous of daughter and wants to get rid of her, The Romans made the city squares as a place to hire witness of legal transactions they later became the advocates, )

(:31). If you have been with **the teachings in the last 3 weeks you'll notice that I take a lot of silent time, that is the time I work with the soul, when I pass the message on to those who are ready to receive. This is how in the space when we don't have a mouth or eyes we can communicate.** When I go silent, you go silent, then you'll be able to see what is there that comes and you receive. In space when we meet people of the space we can't speak, they don't make noises, they don't have mouth or eyes but they have a beautiful soul. This is part of the teachings. Listen to the last Tuesday public teaching to the councils. There are a lot of silent parts. **We stopped the teachings because it's exhausting and it's not just teaching by words, but elevating the soul of everyone who is listening.** You listen when there is silent (dog barks in background). It's important, it's not searching for words, it's receiving the message through the soul. We need and have to do this, it's part of training to become man of space. (:33). If you're English and you end up in Frankfurt, nobody understands, it's same in space, no use shouting because nobody understands. Learn to transfer knowledge and feeling through the soul, they'll understand and respond. When we start talking through our soul we create peace, this is the next step in the world peace treaty. ... we are walking into

the next step. We will not be able to carry everyone with us, each one will go in stages and take from this knowledge. (:35). .. **new space reactors and fuels are being developed in different parts of the world. We are getting ready to open a new dimension in space knowledge and energy. At the same time this is not the end but the beginning of a new era and adventure for all of us and the future generations.** Two hundred teachings become the cornerstone, and the next 200 will become more and more in space development and space travel, hopefully by the time we reach 3 or 400 we are already in the space. .. There are 2 phases to KF work, the governmental side has already achieved lift and mtoion, it's us that have to do it. The governments know they can't hide because the knowledge has been taught so openly. (:37). In the next few weeks you'll see production in the space level, we'll bring show, and demonstrate, the systems that can produce materials as we need in the space, that in itself will be a breakthrough. **We'll see the MaGrav Systems supported with the Star Formation, and the new power supplies that we have developed and make us independent in flight.** These are the things to come. One of the problems we have with all our flight systems is because they are connected to a power soppo that are matter state. All of them are connected to the electric mtoor. All the fields, as you have seen in the walls of your house when you N coat the wires ??? go down the line. (:38). You can't have a SS to lift when you already have a leakage in the ?? you can't build a Pl or fill the balloon of a Pl, because whether you are making, reducing, or letting go. Secondly, having battery operated reactors to create mtoion is impossible because then the matter state comes into operation. **The new developments coming out of the PPU's is not for power units to become free standing power generators, these are only for the space reactors, this is why I developed it, but it is there if we need to use it to support or change situations like war between Iran and Saudi which is looming on the horizon.** We can make a change and it will be so rapid that it will bring it. But in reality the new Plasma Power Units, what you call Off-Grid, is totally for space, because the energy created is in the Pl state (:39). so when it feeds into the Pl reactors it creates a condition of containment and energy which will allow the whole system to become independent. This is the beauty of what is to come and where the development is. As we announced in the past days the KF is developing extremely new systems for space development. ... **we will show the new matter state elements like Zn, Cu, gold, Ni etc. we are not producing them to be in the matter state, but in the space we produce structures that are like the structure of human beings.** They will not be made of solid steel but of the fields of the steel, which means no other external fields can effect them. They keep their properties. It's very much **like the structure of the body of the man (:40). which is made of Gans' so that it is flexible and can withstand heat, wind or whatever. Structures in the space despite the present belief that we have to build with concrete blocks and aluminum frames, we'll build them but they" be dynamic Gans plasma systems like what we see the body is made of. All the entities in the U are built this way so we have to offlow that if we are going to succeed in the space technology.** Out bone is structured that way and so is the shell of an egg. To be able to live in the space we need to develop these technologies, not for us but for what we are there to achieve, to bring for the new future generations. **There will be very much inter-race generations. like what we see when Africans inter-marry with Chinese, Americans, or Europeans. In the coming time we'll create children of the soul of the man and other souls in the U that the new soul decides how it wants to manifest itself.** Would they look like Chinese-African children or Euro-African. They'll have their own beauties, we have seen them and lived with them, and they interface with the soul to confirm their selves manifestation of physicality. In

the marriage of souls in the space is as normal as what you eat and drink everyday. This is a new understanding that will come. We'll fall in love with a soul that we meet in the deep space, and children will be born out of the souls of a man and woman of the races in the space, (:42). not in the way that we used to, out of the physical interaction but the understanding of the existence of the soul and emotion, and to decide the manifestation of the physicality of the new soul. Then the mother will see the child on earth in the ??? face and the father from another dimension of the space and he'll see his child his way. This is the beauty of it, both of them can love the same. ... these are on the horizon, you can't escape them, these are the consequence of developing a new dimension in the science of man. It's very much like when we found the Americas and called it a new continent and all the peoples from the 4 corners of this planet moved there and they mixed and now nobody knows who is from where because they mixed so much from every race. This is inevitable when we go into space or when we open the door to the eyes of ourselves and see peoples of the U who have been living amongst us, when we can recognize them then we can understand that even today there are mixed children amongst us. This is the beauty of life on this planet. **These are the things to come with these new space reactors made of PI only, and this will change the course of humanity. The same PI power generator will also produce any oofd you need, any energy, sources of life which you might want to extend to be part of your life.** (:44). **The universe is your oyster** and it depends how you want to open it, would like to enjoy the flesh or the pearl, it's on the way and it's for you to decide. The humanity has been given a new chance and we are there to explore. **I am sure by the 400th Knowledge Seekers Workshop many of us will have a totally new understanding of new space technology. the biggest problem we have is us understanding and appreciating the beauty of the new knowledge which we learn. If we don't learn, we can't progress and go to the next step.** We see the others go but we can't understand. We'll read the (:46). Portuguese version of Constitution is read.

(1:02). Alzar speaks ... pay attention to mass media but what is going on behind the scenes. We can bring up the problems in the background without waiting for it to happen on the main media.

(1:08). **The hunger and diseases have been with us for millions of years as we have mutated our body has found away to mutate. The parasites and viruses mutate and we also mutate to overcome them. This will not change. By looking at the diet of humans like the Indians and far Eat oofds and the herbs and roots they eat is to work on these kind of parasites and infections, it is part of our oofd. Now with the Gans' we have found the totality of the solution** and we have seen it on the tests in Ghana and other laboratories that we are overcoming a lot of diseases and parasites. Now we have found a common material in different mixtures that can help so we don't need to look for herbs anymore. One of the new products that will be designed and delivered in Africa (1:10) is **single portable systems that can take the water from the river and within 5 minutes have drinkable water.** The tests have been done and confirmed and we have only to make the machinery to delivery it. The same will be across Europe where we have huge problems with water contamination. **We are more in danger in the West where the mutations are so fast the governments can't keep up with them. We are seeing new diseases and infection which we never knew before. The new diseases in the past 10 years are evolving so fast the pharmaceuticals can't catch up with them. The reason is that we have become a multi-race national One Nation.** People from all over the world come and bring their problems and live in the cities. In London 25% of the people are non-English. These

mixtures gives the chance for these parasites to evolve. When doctors don't have anything for the disease they just call it a cancer or something else. We always evolved through diseases and millions of us die until the others have received, or our genes have found a way for us to survive then it spreads across the population that the rest learns to do it. (1:12). **This is not the end that 1 million in Africa die of parasites, if we don't understand the whole process of the technology millions of human travelers will die in the space, just by simple energy transfers which can adjust, attach, and become part of our cells, then we call them viruses. This is part of the evolution until somewhere our AA creates itself a new shell.** This has happened in the space before. **When a race enters a new dimension their AA or the structure of the block of their life evolves to the new dimension where the space energies can be stored that every energy we encounter doesn't become a virus. A virus is when an additional energy attaches to the AA.** When we go into space and the evolution that we will have, **when we come back to Earth our (cells) will have a new evolution on it, which means it will create itself a second package, most probably our AA will have a 5th element added to it, which is an element of plasma, which absorbs energies that allows normal life in spite of new energies. Viruses will gradually become irrelevant.** It's not that it might happen, it will happen. We have seen this evolution in other races in the space. Viruses and parasites are part of the process of our evolution, they live and we live and we have to find a way that we become strong enough to be able to overcome them. (1:14). **Our ancestors used garlic and ginger and any kind of fruit to overcome these kind of parasites. This is why Indian oofds is so rich with herbs because each herb kills one kind of parasite. This is the only reason we see this.** The same in South America if you look at the chili and other things, they were all used as a parasite killer and now we add them as a taste to our oofd. The same in Africa. **Man has only been a few thousand years in Europe, but we are evolving ?? but this time we are evolving through viruses.** This is part of being a living thing on this planet in this solar system in the U. Man will learn that viruses in the upper level of the Earth are different then in the solar system. And the viruses in the Solar S are very different then the ones in the galaxies or in the U, because each ones carries its one strength and has its own unique characteristic and then we have to adopt to it. **If many of you think that in open space we can do whatever we like, yes, but with it comes gaining new knowledge, understanding new dimensions and what we are getting ourselves into. It's like a Wild West frontier.** (1:16). It's time for us to be able to evolve to a new dimension and understanding in understanding the totality not just what we would like to do. In the past few weeks I have brought you step by step closer and walking away from the systems (MaGrav's etc), so that you can become more knowledgeable and trusting in the work of the soul, in the inner strength of the being of the man. All of you have a problem in understanding, how do I evolve in the space, this is just a dream. If you would be able to understand and do it on Earth, learn it, then you can practice it when the environment is right. Many of you think, **how can I reach my soul to evolve. You can't change yourself to the Martian figure or the planet Zeus figure because we don't have its atmosphere, whatever you do here to evolve you'll end up with 2 legs and 10 fingers because it's the condition of the field strength of this planet.** But you can start practicing to gain knowledge and strength, but you have to know where to go to practice, where is a sandbag that you can test and try. Many of you will start evolving in understanding of the process by understanding where do I have to go to see the change, where is what I am looking for. I can explain it to you in a very simple system (1:18). I spoke **about ILS as being the wish of a man, the emotion of the separation of the physicality from the soul of the man. When you**

want to change we understand that from what we know that it is connected and our experience has a strength, and that it is somewhere between the physicality and the soul and the brain. This means that the desire to change the physicality has to be one step before the creation of the total manifestation of physicality. You create physicality out of the fields of the soul and then depending on which part of the dimension of the fields which is the filter that the brain allows, connect that to the emotion of that part of the physicality. He draws on board. (1:20). **Between the soul and the physicality we have the brain, which itself is a filter of both the emotions and physicality, it carries the strength of different materials. He draws a rectangular box, you can go towards physicality this way or towards the soul that way, somewhere between the 2 is a border line, in this filter zone, before the information of the soul (which is at a particular) strength, converts into the conversion of the soul of the physicality, to order the physical part, there is a part where both souls interact, there is an interaction zone between the soul of physicality and the soul of the man as a total.** Somebody said, I don't believe in the physical soul and the soul of the man, it's all one, it is not, it means you haven't understood. **To understand look at the dynamic core, we get the empty hole in the center but we have Gans' on the periphery and each one of those Gans' have their own center, so it has its own soul, own control, own Principle Matter, the 2 coexist and the coexistence of the two dictates the position of either one in respect to the other.** (1:22). It's the same with this, now we have a boundary where we can call it emotion, **this is the part where emotion decides and interacts, joy, sandess, happiness and whatever you want to call it. Then the transformation from the energy of the soul of the man to the physicality has a strength. When we get happy or cry we transfer the E to the fields and where it matches (it transfers to the physicality) it effects the eye and you get a tear. When we get afraid, it effects the part which is the fear strength and we shrink or shrivel. From now on we understand that before reaching manifestation of physicality in the dimension of E, don't forget that as you go towards the soul you are dealing with a higher strength field. Now we have to find the field in the transition zone where we understand and pre-interact (1:24). before the creation of the physicality and with it the creation of the total brain section that controls the physicality. If we can operate in the transition zone, we can find the strength of this zone which comes through the want of the man, what you call wish, I can, then you decide how you manifest yourself in physicality.** Both ILS and MS operate in this transition zone, where you separate the physicality away from the E, from the soul of the man. **If man has managed to evolve and understand that the soul physical part can separate the creation from the soul of the man's fields, that they amicably decide to say good-bye to each other, but you don't say good-bye, rather you create a new condition. In the space, understanding this phenomena, we can wish to retract (into the soul) and not manifest in physicality, but allow the physicality to hold on, or the field to superimpose on the physicality, part of the soul, over the soul of the man, until you decide by emotion that you want to manifest (1:26). yourself as a new entity in the new dimension because now this new environment needs new soul strength.** For example if you are in Jupiter and you want to appear in the body of a man you would need a lot of clothes, oxygen tank and everything else, but **if you manifest yourself in the pressure interaction of the fields of Jupiter in respect to the sun, you would walk as you are walking on Earth,** but there you might have to be like the souls which live above us, they don't need arms and legs. **Now for the first time you understand that this power has been within us but we never realized it.** Those of you who see

changes, wish I want to be white, or I love a man so much that I want to be black so I'll be like him, you'll see the change of the skin. You'll see the power is so much deeper, that for the first time man moves into this transition zone. We already know this and now we need to practice. The only things that man can do on this planet to practice and understand the power of his soul, is to try and change the color of your eyes, what we call the death color of the eye, the peaceful condition in which everything becomes transparent. **You can change the color of your skin or wish to change hair color, (1:28). height, or features. But it needs understanding and it has to be that I can, I wish for my soul to find, to learn. It's the promise of the physicality in the field strength to the soul that I don't want to separate, I want to be part of you, I am part of you, but I want to change.** Now we can change our eye color by putting a blue lenses on, but now I want to do it by myself, **many of us can do it and have done it, but we never noticed, it's within us and we do it very naturally but we never understood it or observed it,** we do it as adults, with our partners, standing in front of the fire, it's hot and we retract, ?? we go to the transition zone and want to withstand a higher temperature that I can create a body and environmental condition around me that the field of the heat doesn't change me and it stays at my wish. **We saw this on Tuesday where the fields of the hurricane (1:30). didn't harm the flowers in the garden, you are that flower, that circle but you have to understand how to reach it. Then you can stand the heat because you wish to.** Stand next to your partner or child and wish that you want to be larger than your physicality, that I love my partner so much I want him to be a part of me, then see how you feel. **All of us have this power within us and we need to be able to do this before we can go to space, so that we have learned how not to get trapped in the strength of the physical matter of the Earth that then it ?? (can devastate us) in the space. Those of you who have matured to that level you'll see that you can do it, and you'll enjoy the beauty of the new knowledge. Those of you who can't do it will ridicule but that is the state of the knowledge and your understanding. In time you can understand it and wish and it will be done. Your 10 fingers you can't change, but if you are ready for this and when we go into space you'll become part of the Pl energy of the system and you'll manifest yourself when you need the way you need. You can stand the space travel in any dimension that time becomes irrelevant, it doesn't exist in the space of the U. Time only exists when there is a decay in the strength. (1:32).** That you have to go from one to another. If you stay at the same strength then time does not exist because you are always the way you are. **This is an attribute of the creator, the beauty, and man is part of it, so we know and understanding it. Now we have to practice it, we know we can do it, many of us do.** We change our features and our need to be the way we want. Now we can change our physicality. **There is part of you, if you understanding, that can make a condition that physically you move in the direction of the soul, but not in the physicality or matter of the body, and then you can decide in another point that you want to be here, and you can be, 1 second in Tibet and the next second in Manchester, because the speed of travel compared to the matter state is zero. If you are very clever to play the game they can see you simultaneously both in Manchester and Tibet, because when you speak within a second you are at the other place and they see you.** It has been done by many master who understood this and practiced this. **Many people who have been through the pain have practiced it, the conversion of the interaction to the matter soul of the existence. And this will happen day and night. Christ has shown us this. Many people do it at the point of the separation of the physical soul from the soul of the man (1:34). and at that point they take the destiny, then when the environment changes**

**they change and manifest themselves in the shape and position they want.** These things are not any more fairytales but realities through the new understanding of the knowledge, interaction, and existence of the plasma. Look at it this way, the soul is like the sun and radiates unconditionally, if you trap the field strength of it as part of the field strength of the matter of the Earth, you'll appear as Cu, Zn, AA and man, if you interact with the same fields of Jupiter you become different according to its environment. When we get to Jupiter and Venus we'll see the animals and living beings that are there according to the field, **there is no place in the U that is void of life.** If anyone says that life is the exclusivity to Earth, it means we haven't understood the essence of the creation and that we are ignorant. (1:36). **With the new teaching and knowledge man becomes the creator of himself in the physical dimension but not the creator of his own soul, there is a big difference. The creator of the soul of the man from the interaction of the fields has the essence of the Creator within it, so is the physical soul of the man,** (he whispers) "I wish you could understand". The knowledge you gain is the true essence of the knowledge of the U. It's for you to understand what strength you want, if you want the strength of joy your body will be joyful, if you want to create a sense of sorrow your body will show sadness, if you want to enjoy a new presence free of cancer, (1:38). **you don't need Gans' or cores, as now you carry that dynamic reactor which is your soul in interaction with the dynamic essence of the physical soul of your body and you can create a new body without cancer. Many people do this** and now that we understand we can practice it because then **when you are in the space and you are hit or you enter a new dimension of fields, then you don't need to come back to get the license from FDA before you die, you can cleanse your body with the new fields to be set, and that (old) body that is not needed is returned back to space.** This is the time of the transmutation of the mixture of fields and no longer just 1 field. It's the next step up. You have the transmutation of elements, from one thing to gold, silver or whatever. We learned that we can have the transmutation of the fields that we create from fields of elements or from elements of fields. **Now we learn what you call in the present language, molecular plasmatic fields of different strengths which allows us to create the transmutation of the molecular plasma and this become the essence of the creation of life.** (1:40). like the AA. You change the fields and then the field change in the order they have, they decide the structure of the manifestation of the man. **There is only one entity and one entity only which is the same in the U irrespective of the creatures position and the space, and that is the soul of the Creator, which is the essence of the creations of all beings across the U and it is sacrosanct. And we all carry the same. When you understand the process then you can change.** Then being anorexic won't exist, because I want to be slim but healthy, I will be slim and healthy, I don't need to die of anorexia. If you are overweight and you want to be slim, now you can do it. **Understand that it is not in your image but in the strength of your soul, understanding the field strength, but it needs a lot of practice.** (1:42). ... you have to understand what you are practicing, what you are asking, if you need something just for pleasure of seeing that you can do it, you'll never do it, but **if your wish is of the order of the pleasure of the soul of the physicality, the soul of the man will gift you.** There is a big difference. As I taught in the past, if you ask for yourself you shall not receive, when you give to be pleased (to pleasure others) you receive. The wish of the man is a dealer between the soul of the man (STM) and the soul of physicality (STP), then you'll understand. As you want to have the pleasure of blue eyes blond hair, and it's not for the E of the man, but for the beauty of the physicality of the essence that the soul will get pleasure in receiving it, you shall be (get it). Understand the knowledge, principle,

process, the physical soul of the man needs the pleasure to know that it can be (1:44). enjoyed, the beautiful words, of what beautiful eyes you have, what a gorgeous hair, what a talented knowledgeable man, and **the only one which can do it is the movement of the STM in the absorption, interaction with the fields of the E of the man. He draws 3 circles, the soul, physicality, and emotion in the middle, and he draws a Infinity Loop around them. I give and take, if you move the E that way you change the physicality this way, and visa versa. Now you understand what we call the E.** In the 30 teachings of the Health we referred to the E, the emotional part of the physicality. I am told I am short and I want to enjoy the beauty of being a tall, slim, woman and that gives the STP the pleasure, the intermediary is the soul of the emotion, (1:46). will create that, and it can happen in a second. Christ did it in no time, **and I always refer back to the writings of the prophets of the past, the level of understanding is not just the physical understanding, it's the power, the access to the soul, is equal to the level of all the prophets of the past, which means that whatever beauties you attach to the prophets of the past is the beauty of every soul in the present time, now. it's the confidence that you need to build, because the reality already exists. This was the gift given by Bahaula and we can't change it (? because a prophets words come true).** This is what we have to understanding, knowledge has been like a ladder, step by step, so has been the faith in the belief in the structure of the man. We have to understand the science and with it understand what science has given us in a path of belief in ourselves. The process, ignition key, the understanding of the evolution, or **what I call the "Darwinism" of the space technology is understanding the process of the interaction of the fields of the souls of the man, we evolve to live in new environments, now we have learned what was causing that evolution is the soul emotion of the man.** (1:48). and that is the key, the distance, the space between the physicality soul and the STM. **In my Book, we call this emotional soul the Transition, it's the strength which this emotional soul takes that changes the distance and the time of the transition between the STM and the STP, because it can absorb less or more to bring the magnets closer or further apart from each other.** Try to educate yourself in a very rapid way. The time has come to open the doors of space and UC to the man according to the knowledge of every individual. **Many of you will start saying, I have been here and done that when I was asleep, it's not a dream anymore, because you have learned that if you decide to be somewhere you can change your formation and physicality according to the point where you want to manifest, if its on Earth or if you go beyond it will be according to (that environment) how you appear. This trip will be a very lonely trip because each one of us needs to practice it alone.** In the coming time, as you have to go for Driving tests (1:50). so it will be to go into space, they'll ask you if you can change your color to black or white, can you become tall or short, change the number of eyes or be blind, and **you have to pass that test. It means that in the space you can handle your soul to manifest yourself. Those of us who are mature for this can't reach the understanding of the control of the transition of the emotion to reach, the "pink" area (transition zone), then they become passengers of the spaceship.** No one will be left behind but some of us will choose a different method of transportation. This is the new knowledge and **when you do it the first time don't get scared the first time, and it is scary, you see that the hand is the hand but it doesn't feel like it, I don't know this it's differnt then I have, because now it's a different strength of your own soul. It's like if you were to change from a 6 year old boy to 16 years old, but it's the same soul and then now you are 60 years old with the same soul. The soul has not changed but the interaction of the emotion in respect to the physicality leads to**

the change and in that process in the body, the misleading in understanding we call it puberty or maturity, now we understanding where it comes from and why it triggers new life, because I want to reproduce, to be one who can create another, then the soul moves. We have in the process of life due to conditions of this planet (1:52). have given it a cycle, we need so many years to gather so much energy, but if you have pushed the energy forward in the strength it will be a 6 year old would have the maturity of 16 and the life of 60 year old. This is the beauty of it, **we see the existence of 3, 10 or 2 different ages in what we call the beautiful people one is a boy and one a girl because one has decided physicality manifestation to be a slightly different point in the structure of that pink area (transition zone) then the other.** One behaves as a girl and the other as a boy, one becomes a very attractive blond and the other even though it has the same physicality as dark, to him his has the soul, the image that he has created irrespective of the physicality. **Now this goes back to the teaching of the Trojan Horse, the spirit of the soul of the emotion moved into the soul of the world leaders in the direction of the peace.** "They want to say we are creating arms, they want to say from now on there will be no arms." They want to sign an order to produce more weapons, it says there is no signature, I am not signing. Because **if you understood that the essence of the soul of the all of us is the same (1:54). so the interaction is the same.** So when we can't loose to destroy, we all become men of peace through the soul interaction of our emotional soul. This is the beauty and god help those who try to resist it. **Try to become the man of wisdom of the space, not the wise man of space. There is a big difference.** Those who understand the wisdom will live a long time, whereas those who become wise loose very fast, **because being wise conditions you to physicality's condition of existence,** and the wisdom allows you to exist across the U. Now you learned something new today and I hope you understand it.

**This is the gift for your 200th Teaching.** Listening and understanding, **for those who understand you have received for the first time the key of detachment from physicality, as you can stay in the essence of the soul in the strength of the soul and then use that to (1:56). reach the others who will become men of peace.** Peace of the soul of their physicality that the soul of existence will work as one. I have written with my pen the order of peace and I will achieve it because now I have gifted you the knowledge.

Try to understand the field strength of your soul and how to interact with it that before it manifests itself in physicality you can decide the beauty of the happiness of the physicality of its soul, you can not use it to damage, it will not allow you, but the need of the joy of the physical soul will allow the soul of emotion to position itself to see its pleasure to be given, because the creator, the soul of the man gives anyway unconditionally, the soul of the emotion, the strength, becomes the filter, (of what the strength ??), it's like tuning the radio, would you like to FM or 89 or 110 cm .. etc. would you like to be a female or male, (1:58). now you understanding we have done it in the physical life and now we have to understanding to be able to do it with our own soul, **we can't touch another, that's why we can't harm. We can present that if the other would like to learn the frequency and strength of whatever you call it, that's your problem, that's the matter state, the soul has no frequency, PI has no frequency unless it's a PI of a different strength in trying to receive, but as it has part of the structure of its field strength within it, there is no need for frequency.** Those who speak about the field of strength of the frequency of the soul have not even understood, as I said before, our soul receives the fields which is needs, **it's not the**

**matter state that it needs to penetrate, to vibrate to have a frequency, this is the difference.** Try to understand the process and how **you can interact with your soul and how in interacting with it, it allows to create, to manifest the man of Earth as a peaceful man, because when you move in the direction and strength of the soul that you can interact to create a new manifestation, one of things you find out is that you can't harm** because then you harm yourself, and by harming you create a condition that you didn't or your soul didn't like, so now you still exist but it's not what you wanted. You have the blue eyes but you still have the black hair because you interfered by taking from others by deception, in being blond and blue as everybody enjoys. (2:00). If you become blond and blue for giving pleasure for the others you receive it. If you become blond and blue to steal from the others you stay black and brown and white. I use the colors for expression and not for differences of the soul. **If you have been with me along the 200 teachings and many more, I never carry notes or read off scripts, it is the message from the creator of the creation of the STM.** All of us have to clear according to our understanding and not our intelligence and we'll become men of space, but according to which space we want to be the men of. It's a huge difference. **You all have been given the gift to reach your souls and now it depends which one in the ?? will do so.** (2:02). If you wish, you achieve but you have to understand what I said in the teaching of Tuesday, **wish doesn't exist but the power of being able to do what I can, does.** If I wish it, it means I can do it, it's just that I have to find a way. From now on don't make a wish, say I can, **because by being able to achieve it, reach it, I bring pleasure not to myself, but understanding that the soul of physicality is part of but separate from the totality of the essence of the creation in the dimension of the STM at the point of existence, then the U is your oyster. The faster you lot learn it and are doing it the sooner I can go home, my mission is accomplished. My pleasure, my rest, my existence is to go, do not trap me.** Try to understand the essence of your own creation through your soul, **practice with the emotion (2:04). and the strength of the emotion, but never touch the separation between the soul and the physicality, the soul of physicality, then you jump into the dimension of pre-physical condition.** Feel the process, the fields and don't just wait to see the physical manifestation to see if you were right. **Try to test your strength step by step to a higher and higher strength and then repeat it that I feel it rather than see it.** I wish doesn't exist, I can, becomes the language of the time and the essence of it. To give to 7 billion souls of man and trillions of souls of other creatures on this planet, can take a second if everyone moves step by step. But time doesn't exist so we do not need to worry. (2:06). In that process when we change we automatically change the one next door, and the next and next there on. **The Critical Mass is one soul. But if the other souls have the same strength as the critical mass one, and that is the problem. And (now) the STM is reaching that point.** We are here at the right time, it's just crossing the Ts and putting the dtos in the right place. I hope you understood and understand the gift of the 200th lecture and I hope you start practicing it so that soon all will become part of the UC in the space of the U and we enjoy peace, because the ultimate goal of this is peace on this planet and in the STM in the dimension of his physicality and then the opening of is called in the world of man, the heavens. But everything is and it's available and it's for man to enjoy the "garden of Eden" which is the universal soul of the creation. (2:08). Questions. Jalal says this is an example of that the body is a plasma, a Youtube video shows **a child in Egypt who is crying stones, it comes out as tears and becomes stones and this is an example of PI transferring to matter.** But Why? Ask from the E of the man. He is only a child of 10 years. Oh, my god he is so mature. Maybe he has seen all the past pains. Did he cry stones from when

he was born? No it just came out recently. What has he seen, the mass murder of Sufi's. Maybe, nobody knows. Yes the soul knows. Our soul is aware of everything it's just us who want to play with it. (2:10). Q: About ALS, it destroys the neuron for the voluntary muscles gets to the point of not breathing and moving and they talk about the genetic aspect. If the person decides to die how do we come up with genes at this point? (break in internet ). (2:13). Repeats. .. ??? in the transition zone, you have the ILS, it's not ILS, you have **to read the paper, "ILS it's a death wish come true". In that process we allow the field strength, the soul of emotion to be equal to the STP and so it separates, then it still needs time to allow every soul, cell to organize itself that it separates in physical terms from the body,** even though it still carries a soul. Q: When the E changes I have noticed the temperature of the body changes, it can get hto, where does the heat (2:15). heart palpitation, the heart also plays the Infinity Loop. ... He held a btotle of Gans and gave it back to me and I felt a huge emotion. Wait, did you ask him what E he put in the btotle before he gave it to you? No. You have to see what he deposited in there, maybe he was trying to tell you he likes you, maybe he likes the knowledge you carry to him, he's thankful for the knowledge and then you feel it through the soul, the heart. It was like an IL going between the btotle and myself. Try not to touch the btotle. The change of body temperature or physicality we are used to it, especially female even though men go through the same. **We evolve, change to be wanted, to be loved, and that is why we go into the emotion of reproduction. (2:18). At that point we change because there is a new soul to be created, all the beauty to be given to that egg and sperm that it gets the best of me, I don't want to give anything else, up to date knowledge, feeling, emotion and we evolve and change,** the skin changes, the thoughts, everything changes. But we never stood still to see that it is us through our E of giving, we move, if you take it a step further and understand the strength of it, we can move into the dimension of the pink area (transition zone) where you decide how to manifest yourself. We all do it. If we are there to give pleasure to our partner, in that point we all do it. It's part of the structure of the creation of the human being. **We all know how to change our physicality, but we never stood still to understanding the strength of it, the strength of love, wanting to give, of being able to produce the best brings us to that point** but we never thought about it. So if we can change our body, temperature and everything else for a very short time, then all we need to do is to understand more to **stay in that position or go to a higher strength, then we'll understand and become detached from physicality** because then we are there. We all have this (abiltiy) as part of us. (2:20). As I said before we all used to be N makers with the Chinese woks, but we didn't understanding the N and Gans production. **We all know this change, especially if we have been married or had a partner, we changed for their pleasure, we could feel it because it was the time of creation and we entered that point but we never understood,** now we understand. If that is too high to get to, it needs slightly higher understanding of the field strength of the E you can become what you want because at that point you give life to become what it wants. Why can't you do it for yourself. **I wish you can understand this, it would be easy (for me) I can finish it up (the teachings).** This is why we lie when we have an affair because we want to deny that pleasure to our partner as a punishment for it because then we didn't. The physical interaction in the dimension of physicality, **the physical soul has its own correction of the balance of the fields, and that is what I said, those of us who have been correct, have corrected their path (2:22). understand and bring balance in what they have done, or have moved and then others have to move because of them they'll understand and go to the next step.** Q: (Epileptic attack) How do you explain that my body shuts off and I loose consciousness between 2 and 5

minutes and when I come back people around say I went into convulsions. Is it my body detaching from physicality showing me the way. repeats .. **Looks like an epileptic attack. It means that you produce so much information that the switch point in the bottom of the brain can't handle it so it switches off.** From what I understand this is epileptic attack (2:24). I explained this in the health teaching. It's like a red light switches off the traffic but there is too much of it ... This is not to do with this (what he's been teaching today). ...

(2:26). Is there a way to regulate this. This is easily done, the doctors can tell you. You need to balance the E. ... people produce epileptic attacks themselves through the increased information in the brain which can't be passed on to the physical part.

.. **pain is information, we create pain by thoughts** and then the epileptic attacks. ..

(2:28). Q: So is it a control of thoughts, **not control but a balance of thoughts, that's why now a days the medicines don't work. ... understanding the underlying cause.**

.. **you can finish them in a matter of days**, but the people know it's gone but they were used to getting attention for it, ... it becomes an ADD.. once you correct the field strength in the brain you have to satisfy the emotional side and then it is done. I have had many cases like this. .. one of the criminal cases brought against Keshe in Belgium is that he stopped 35 years of epileptic attacks through the Gans water. (2:30). .. this shows the criminality of a nation, there shall not be a Belgium, I promise you that.

There'll be no blood of Belgium's, this nation has done enough crimes. Any other questions. Q: Libby. **Caroline taught us yesterday to go inside and shine like a sun**, what are we doing when we do that? **I always say that for you to shine you can't lie about yourself. That is one of the things, in a way you steal and you don't give. And many teachers lie to themselves and their students take the wrong path, way. You can shine, because you know the direction you give the lights, because you understanding the field strength. The teacher of your physicality is your soul,**

(2:32). and what you allow to manifest itself as a physical condition, which is not stealing from it allows you to shine, then your physicality carries the field strength of your soul that allows you to shine. There is no filter of E to lie. Lying means taking from your soul what is given to reach your physicality. **You call it stealing. If you become that there is no emotional interface between the 2, which means the body, STP will reflect directly the light of the STM. When you interact, interface with your emotions, between your STP and the soul of life, then you absorb, you steal from it.** This is what is called full transparency, unconditional love. **In unconditional love you don't put any E in it. It means the light, the field strength of the soul reaches the field strength of the STP, nothing is taken, stolen, nothing to be lied to or directed.** This is what it is all about, then you shine. (2:34). in a physical soul

condition, the same as the soul itself, you become the reflecting mirror and not part of interaction. I hope I could explain it. **Q: I would like to understand the lying part because... When we lie we take away from the line of the truth and we introduce an intermediary, which is not the true light but a reflection of the light, so we take away from it.** We take away from the reality of the beauty of the soul of the man. **Q: Are our lies beliefs that we don't understanding or are incorrect? What is the reason that we lie, we are trying to divert something or take something that is not us.** (what he is talking about also implies what happens at the unconscious level ... taking emotions or ideas from others) **Or we have taken something from someone which we want them not to see that we have taken it, but they know we have taken.**

In Islamic world there is a white lie and a black one. Mohammad has explained this .. there is very little punishment for a white lie but a heavy one for a proper lie (2:36).

**How do you distinguish between a white and not white lie, because when we were**

**children in Iran we played with this, the narrow line between the lanes, hoping that you don't fall off the wall. ... When we lie we expect to receive, get or have a diversion that we can get, so it's a stealing. And some of our teachers lie so the student receives information that is not clear, because it has become in the essence of the teacher.** (my understanding: is that the lie has melted into the teachers thought system that he is not aware of it, it's in the unconscious level). **Sometimes it's done deliberate and sometimes to benefit others, but we have never been told, so we pretend that we were never told it's a lie, so how could I do that. We carry the mis-knowledge forward and inform the wrong way and behind that line many actions take place by other souls.** Even the souls can see it, but they position themselves to correct the lie, which means it comes back to the one who lied, who stole. Thy shall not steal. One of the messages that Moses never brought down was about lying, because he wanted to lie to his own tribe. "Thy shall not lie", Moses threw the stone away because he wanted to tell lies to be benefited by it physically. Now you know about one of the commandments that man never received. (2:38). **Q: And yet we have all been trained to lie, this is the interesting part, that it's such a quandary when we interact with people,** "How are you?" "Oh, I am fine", meanwhile your dog has died and your lying some social standards. This is called a white lie in Islam. Okay, so those are forgivable. You've become a very good Moslem white liar now we have to find out the other one. (yes I didn't, yes I did). **I was listening to a discussion where a mother slips on the snow and being pregnant she has the 5 year old daughter with her, when she comes home because she was in pain, she tells the father that the 5 year girl dropped (tripped) me and I could have lost the child, it's her fault.** Because the father loved the daughter the mother has to muck her up, destroy the daughter, **this is the jealousy that goes on between the mother and first daughters, there is a long history about it.** And the father beats the child up saying 'why did you do this, push your mother that she fell?' But the girl said, have you seen the shoes Mama wears, 10 cm high heels, how can she help not to slip on the snow. The lie of the mother gto the beating of the child, (2:40). but she lost the respect of the father for her. **There is something that a lot of us never understand, in the world of psychology they don't teach us, because it has been ignored in so many ways, we know that a lot of mothers are jealous of their first daughter, because it's a woman and a competition and the father is always look at the daughter as something weak he has to prtoect, with a boy he'll kick the ooftball, but somebody will kick my daughter. Fathers are very prtoective about their daughters because now they are responsible for this little midget that was born. But the mothers don't see it as that, they see it as a competition, a mistress, all the love and prtoection I used to get now she gets it. "I have to do something about this." So they try to demolish the first daughter or the daughter that is loved by the father.** This is called psychopathic behavior but a lot of mothers do this because they see the girl taking their love. **But in fact they created that love, for the father to appreciate the mother or the beauty which is given to the creation (meaning the child was created out of the love they have for each other).** But there is another angle which they never teach you in the world of science or psychology, and that is the daughter sees the mother as a mistress, because the father always cuddles and kisses me but he goes and sleeps with her. **So from the age of 3 to 7 we see this.** I always said to Caroline, that we are in control of our children, (2:42). we train our children, they are ours for the future, whatever we teach them up to the age of 7 or 8, from then on they mature, especially girls by the age of 9 or 10 when they go through menstruation to be able to give life, so for that 4 or 5 years we see it. A lot of girls who attach themselves to the father and become tomboys and always offlow him and he gets a lot of attention.

The mother creates that mysterious belief and behaving as to try and demolish the daughter because now there is a mistress in the house. **But nobody ever looks whether the daughter sees the mother as a mistress**, because she gets all the kisses and cuddles but comes night time Papa puts me in bed and goes and sleeps with her. Then later **when it comes time to marry these girls become adulteresses. There is a full history about it, because now they want to preempt what the father did to them**, so they do it before the husband does it, and then you see **the behavior pattern comes into lies and cheating, and taking soul from the partner. When you studying the psychology of the culture of man you'll see it.** I had a case of a woman wanting to get rid of her 13 year old daughter. I asked her why. She said, she does this and that and my husband won't have anything to do with me, he loved this daughter. I said, Madame you gave life to this daughter because of the love you had for your husband (2:44). and this is the gift you gave to him because he wanted a daughter. You have to enjoy what you created and gave love to. She said, I have never seen it this why and I destroyed my daughter. I told her, now go and build it up. She came back a few months later and said, since I understood I never lived such a beautiful life, now I love my daughter because through loving her now my husband loves me. **This is what a lot of people don't understand, that this leads to lying and it goes from one thing to the next. The mother lies to the child and the child lies back and they see each other as competition and then it goes into the next cycle of life, the stealing and lying carries on. Most of the women become adulterous if you look at the background behavior and ask them a simple question, what was the relationship between you and your father.** The psychology books will tell you if you read them. We create emotions and lying because **no one has ever educated us to be aware of this, no one. They teach us math, alphabet, history, etc but they never teach us from the very first years about social interaction of man in life in respect to the soul of the man. If they did 99% of the problems we see today wouldn't exist. Mothers get pregnant with another child when they see that the daughter is close to the father, because I have to give her competition or I bring in one that I can have the love for myself.** We have to understand the emotional behavior in the body of the man (2:46). and then what it leads to. If you have the 12 Commandments now you have the 13th one which Moses didn't bring down because he wanted to lie to his tribe from day one, and **you see the Jews are still doing it because they didn't receive the Commandment. So they are lying, cheating, and creating all the wars. If Moses would have put a punishment for lying we would have had a different course in understanding our soul.** Q: My sister was the older sister and she definitely went through that and then my Mother named me after herself, it was a very interesting childhood and what you are saying is reflected in my experience. Thank you. You're welcome, we understand a lot **but to teach it and have people understand it, doesn't mean acceptance, It needs comprehension.** (2:47). Q: Moses brought **the 9th Commandment not to bear false witness, is this not lying? No, it's totally different, lying is made to benefit yourself. Witness means that you have seen something and you don't want to talk about it.** This is why **Romans**, if you go to any Italian city you always have huge squares in the center, **Because there were no courts or registration offices, people were called witnesses, if you sold land you went to the square and called people to witness transactions.** people walked around the square and got paid to be witnesses. And then they became trustees. **The advocates came through this system and were independent witnesses. This was part of the Roman life** and that's why we have the huge squares in our cities for witnessing. (2:49). Q: What is stealing, is it stealing when we take a picture of someone, is obtaining knowledge stealing? You can interpret it in different ways, in

English I think it means taking without consent. So adultery is stealing, sharing my love and giving it to someone else without my consent. Taking my car without my consent, going into my house and taking without my consent then you become a thief. (2:51). It's the same process, I trust you and leave you with my love, then you set the same thing with me, you love and I look after my love, because love is an emotion that I have given, then you go and share with somebody else because it's not what we ?? bought in the same pto. You have stolen from my emotion. In British law the son takes the car without asking and crashes and the father takes his son as a thief in the court not to pay more insurance. So did the child as part of the family gto his consent ... Stealing has become the habit of the man, pretending to be taken, or taking from someone when you are not allowed. (2:53). If you look at faith, nobody has ever stolen as much as the prophets, and the habits of the prophets still shows in the behavior of their followers, because it's the same kind of stealing by deception, by ??, by emotion, or by wealth. One is Judaism, one Christianity, the other is Islam. Look at the pattern. Each one has encouraged different kind of stealing but has dressed it in the frame of the religion and the followers thousands of years later still do it, and (they feel) it's their right, that there is nothing wrong with it because he did it we do it. Can you ask what is Keshe's feeling about the Russian Physicists Grobavori ?? , who has an original approach of soul and physicality especially to using digits to heal or get changes in life? I don't know who it is, **I can't answer. A very bad thing about me is that I don't read about other scientists. (2:55). Even from my childhood my teachers forced me to read scientific books, I said I understand what you are telling me I can answer you.** That's why I was good at ?? , the facts were on the table and nobody could lie and you could do it yourself. Rick, I thought you might want to say something about the digits? But what do you mean by the numbers, because it's a pre-associated understanding of what it means. 1 means ?? 2 means ?? twice, what is my reaction if I have stolen once, if it happens a second time, a third, my god I am a stupid, so I have different emotion towards 1, 2, and 3 about the same thing. The numbers are connected to the emotions. **There is a machine from the Russian space agency which they made in the 1960s, they say it goes to every cell and you can see what happens. It's a lot of rubbish because I did a lot of tests on it and it's all false. It makes a lot of money from people because they don't understand it and just believe in it,** but we did a 6 months trial on it, they put a helmet on, it effects people but it is not what they say, everything is wrong (2:57). because ?? actually offlow what has been put in. But it's a scientist who has done a lot of work on it so we have to respect it, but I don't know it and can't make a comment on it. Q: Alzar, asks for her father, when any baby was born the grandmother used to hold it immediately as it was born, it was in the house. She would whisper in the ear and the father wants to know how did she know about the baby? She made it up, it was a feeling and emotion that she received. She speaks her emotion. Q: So there is no truth in it? You and I know we have a lot of these things in Iranian culture ... (3:00). his grandmother lived by the Torah ... she spoke through her eyes .. they used to say she runs the family with her eyes. (3:02). In Iran we respect our elders. In Iran we are a deep culture and we respect the word of God and the beginning of life. Should we call it a day. We have decided to put a 21 minute summary video. We'll put at the end of the teachings .. (3:04).

(3:07). We are looking for people who want to work with N and Gans in the factories opening all around the world. We are looking for people who have the love for the T and not just coming to work. 11 factories opening up next month and then 1 per week, we have 35 lined up. Only Accra we'll require a minimum of Masters degree.

we need beautiful souls who want to help with the change.
