

## 204th Knowledge Seekers Workshop Dec 28 2017

(Those who understood about the soul used their knowledge to abuse the man and called it faith and religion and now we understand that we have the Star Formation within us to travel in the universe, When you discover the strength of your soul then you become enlightened and then become part of the Universal Community, All the knowledge had been given to Moses but he changed them and only brought down 12, Today we release all the 24 Commandments that had been given to Moses, The 2 languages that have abused man the most are English and French and will be handled differently, You give and it depends on the receiver what they want to receive but you never interfere, The reason for man's intelligence is related to the Universal Community, Over the centuries many men have reached the enlightenment and become men of the universe, Man received the knowledge to be peaceful at the creation of his soul but we have decided to accept limitation, If we give from our soul and the physicality comes into alignment with the soul then we all become Messiah for our own physicality and not for others, Reads 10 Commandments these are all things Moses himself did, He explains the 24 Commandments which completes the cycle and the start of the new cycle with these commandments of the universe, The prison is the body and if man is taught this from the beginning he won't commit crimes, People are selling Gans for their own pockets but the goal is to teach and not fill your pockets, I have no fear for my life, that way I can speak the truth and tell what is correct, Teach my technology don't just give a patch so people have to come back to you like the priests and then you have power over them, Teach to everybody freely and don't judge who can understand or not, everybody can understand this technology. We are not Robin Hood, the guy who takes from the poor to give to the rich, nor from the rich to give to the poor. We take the money from the rich, the ones who can afford it, that by giving to the poor that the blessing of the soul, elevates the soul of those who provided it. There is so much more to learn in the process of using these Gans' but the only problem is that you don't teach enough so that more knowledge comes back in (to us) so that we can all learn more. I am not a philanthropist. I am a man of God, because I am God because God in our language means the Creator. I am the creator of my own physicality, so in that order I decide how the energies and the fields of my physicality as a creator of me is used. Thy shall not steal. At 19 when I took this position I what Judgment Day is and how to judge myself, Certification through FDA is underway in the USA, The completion of the Commandments was the end of the time, of the present cycle, and it's done today, In the space we don't need to sleep, This time we will not leave the man alone until he matures because we have seen the abuse of the man by the Messengers and their cronies, Wishes for 2018 man will mature and enter the space, Chinese government to head space program. )

(:11). It has been a big year at the KF with a lot of changes. **We have done a lot of work, soul searching now that we have started teaching about the essence of the creation of man** and especially this year we have taken a long journey in trying to understand the essence of our own creation through understanding of the new technology, that there is no myth, or because somebody said so, but because we understand ourselves, who we are, how we are and what we are made of, and what is our destiny once we leave the physical world in the essence of the body of the man. **Many people have written to me and I get it from a lot of international organizations that say, can you stop mixing the STM with the science, in that case**

**we can support you because the science makes sense, but there can't be a connection between the science and the religion.** (:13). And I explained to them and to you again and again, that the science of creation has lead to the faith of the man and not the faith of the man to the science of creation. When you come to understand this you understand the essence of creation, why and where we come from and where we go to. As a human race we have chosen a very interesting path, where ever man has appeared he always accepted somebody to be higher then him. Somebody has more power then him and is called the god of wind or rain, then he has made the statues and put his mind to the mind of the stone, and the wishes of the bricks, and wood, and in every shape or form he has considered himself not to be intelligent enough to understand and that has created a channel for those who think they can abuse these conditions to come into position of power, and also adding to the ignorance of man for their own benefit. The interaction of man in the dimension of understanding his own ways ?? the creator, has known different channels, in different ways and over time man has learned the science because he has done it himself, and whatever has been brought to man for him to understand the essence of his own conduct ?? physical structure, he has called it a mystery, a god, a creator and then has chosen different paths of believing in it. (:15). **We try to break open the stigma for everyone to see the reality. Now it becomes very dangerous, because the abuse of the man in the name of the man himself, as a creator of himself ... they have become the intermediaries to control the STM with the physicality.** In fact what we have seen in what we call a path of belief, religion or whatever has become another, what I call, a strength length, strength of fields, that instead of us internally interacting between the soul and our physicality, we call it our emotion, **the external strength of it we call it religion. Those who have found this strength they emphasize on it and can tune into it, and then abuse it. It's very much a controlled mindset of those who could understand it, and then abused it.** If I speak to you in the language of love and you understand love, then you understand the reality of the fact that you speak and understand the same strength as me in sharing and giving. Those who could understand the strength of the abuse they have created it and given it the name of faith. **In fact there is no difference between what we call religious belief that touches our emotion, and pain, joy, sandess (:17). but man in the time, has found that strength, we call it wavelength in the matter state, and so has abused man and has called it every name you can.** Now we understand the totality **that the faith of the man is the conduct of the soul of the man in interaction with the emotion, and then it depends on whatever you want to call it, god, sin, happiness, joy and this is what has been part of these teachings. We are elevating our own knowledge and the understanding of our own creation and now we can do it.** Those of you who have understood most of the teachings this year you'll be able to understand this very easily, and those who have not and haven't comprehended the totality, hopefully in the future you'll understand. If you go back to the **Star Formation (SF) and you get a dynamic setup of 4 base reactors and 1 above,** with the understanding that the strong gives to the weaker for it to become strong and equal and in that process creates a condition, and if you understood **that the STM is a dynamic sun, which is within the man, then you have 2 choices, stick to the physical dimension of the spaceship program or use the STM to create (:19).** the spaceship of the man in the depth of the universe, or if you have elevated your soul further enough to understand the totality, 1 soul with the understanding of the operation of the physicality which is the distribution of the soul's in collective areas as sub, or taking part, of G part, the heart of the man absorbs, the lung absorbs, you found 2 of the G parts, and the STM which is in the brain, which is a giver on

**top, you found the essence of the SF within the body.** If some of you who have not gained in your confidence, structure yourselves that your souls, the essence of the creation of your own being in conjunction to be a giver to the others in the SF can lead to the creation of the spaceship which can take man out of the position. It can be done individually or collectively, or you can do it in a physical matter, I have seen many of you creating these dynamic cores. The STM is dynamic and of the highest strength known to man and in the universe. Man on his own can create his own dimension of travel within the depth of the U, or collectively men can become and create that dynamic setup, or if you are connected to the physical entity you get to that point. What has happened in the past times and past year, I have tried for 4 years and the last 10 years, to teach the physicality that you become confident and gain strength in that process, then I have moved you to understand that there is a mechanical system or the STM, some of you have started to use it and practice it, it needs a lot of understanding ones (own) strength to be able to achieve it. **Once you achieve it, it's like that god that you have created and understood the strength of, and they could abuse you because of it, between the dimension of the soul and the physicality, or the strength of the love.** In either case you become aware of the knowledge and at that point you become enlightened and become part of the man of the universe, the UC. In the past centuries and thousands of years, in a hidden way all this knowledge was given to Moses in commandments. (:22). We know of the 12 he brought down, I opened 2 of them to you in the past 6 months and today I review the rest and then you'll understand. **The rest of the Commandments will be released today. Then you'll understand that man had the knowledge to reach maturity thousands of years ago, except for the intermediary of those who received the enlightenment but for the benefit of their own physicality, they blocked, destroyed and ignored.** Today I would like to let you ask questions, but understand that we are not here to speak about N coating or Gans, those will be left to the teachings of KFSSI. I'll let you ask questions and in the process we enlighten each other that as it was said, today is the last workshop of 2017. **We start the 1018 in being enlightened, and we should start seeing the changes in all the KF work.** The supporters are learning more and more about the dimension of the STM, and then **we'll cross the line to become members of the UC. Will it happen in masses or individual cases, or will it be a collective work between the U Council and EC and Core Team to facilitate.** You'll see the change of the souls in the members of the councils (:24). in a specific way and reason. **The 2 languages that have abused the STM the most in the past times will be presented in a different way, and you'll understand. One is the French and the other is the English,** then you'll understand why this process has taken place because the language and **the use of these 2 languages has brought more abuse on the body of the man as a race than anyone else in the past times.** So by the wish and the will of those who wanted peace, it (they) have been left out that we can understand the totality according to us, then if you understand this then what comes as part of the Commandments you understand the totality. If you have any questions that are relevant to this we'll talk about it, but we are not a religious group, we are here to look at the totality of the facts and **understand the physical process of our soul and how understanding the physicality of our being we can use our soul to create new dimensions and new crafts.** Are those organizations who put man into space, used the knowledge of the science of physics and tried to enter the world of the Universe, are also meddling in the work of the God, are they then in the process of interfering of the soul, science and religion, or have **we found a new fuel, a new system, (:26). which allows us to travel much faster, and much more clarity and safety in the space of the universe, then those who chose propulsion, or jet, or a**

donkey to travel. This is where the change has come, for us to understand we have access to a new fuel, system, a new motor which you like to call it the STM, and this time we don't need a captain, or astronauts to take us there, but we can do it because we understand the process and have understood the creation of the Gans' and the field forces and how to convert a Gans to matter state, and through that process we have become the new generation of those who bring the science and religion together and make one out of it. This is where the fear of those who threaten these teachings is, that now **the generation, production, understanding of the new fuel and new system, is an industrial revolution in the STM and the physicality of the man. There are many that do not like to see this as they'll lose control**, as they have to become part of (the) one, and they become part of it. And this is what it is. Those of you who go into dimensional understanding they new, plasma technology which is the plasma of the STM, which is the sun, which radiates, gives, which in its fields creates the earth, and through the interaction of the fields of the earth and the sun creates the man and the intelligence, and that jet engine propulsion system for the rocket, (:28). now has lead to **for the STM to complete its cycle and become another sun in respect to the sun of creation. And this is what is the problem with all these teachings, that now you have become the scientists of the whole knowledge** because you understand the basics, you made the Gans' and saw the fields, you have seen the reaction of your body to the fields, and now we have matured to become man of the space. **Many of us will cross this line in 2018** of the Christian calendar. Many of us will start the space travels in different shape or form. We promised that in 2018 we'll make wine on Mars. It says 2018 travel to Mars, ??wine Mars will be served. The knowledge is there, go back on the KF (statements about) travel into space, there is a line that was put in there, **and this is how man has advanced in such a short time**. And we knew that 2018 was the time for it. **It is us who can fail or succeed according to our own path of belief**. A lot of things have changed, a lot of us would like to understand more, and a lot of us will walk away because we don't see ourselves to be worthy of being the man of space, but listen to the rest of the Commandments that are going to be released today. (:30). **Moses brought 12 and reduced it down to 10, 2 have been given, and 2 have been hidden that when you mature to become the man of universe you will receive those 2 through your own soul, then the 24 Commandments are complete**. Any questions? Q: Alzar, What were the first 2 can you go over it. No, it's for you, it was in the teachings in the past few weeks. One was that thy shall not lie, because Moses wanted to lie to his flock so he had to break it. What you see in the 10 Commandments which **Moses refused to release because it effected him personally in what he wanted and planned to do**. But if it would have been released it would have changed a lot of things for the man, and Moses could not have done what he did, and what we saw with the followers and then the continuation of people of his path. (:32). Q: **Before you said the Earth is a nursery and the UC is watching for everything and are teaching us here on Earth, why did they let all this evil come through for all these thousands of years?** There is a rule in the UC and you will abide by it when you become men of space or members of UC, this is your obligation. **You give and it depends on the receiver what they want to receive. You never interfere**. The knowledge has been given to man and it elevated the soul of those who were supposed to be elevating others. In the process of time many has chosen... many times correction has been put in. If the ?? intimation of the UC had not been there, man would still be a wild beast as in the jungle. Something very interesting regarding the STM and the physicality of the man, **the way the STM, (:34). and the soul of the physicality of the man is positioned in, and the way it has processed itself has lead to a given intelligence that has a**

**common denominator with the rest of the UC.** It's not just that you can walk on 2 legs you gathered the intelligence, **it's because of the combination of the interaction of fields and in some strengths you can receive universal energy fields but the enlightenment is dependent on the man,** this is what I have been saying for such a long time, people take from this technology according to their intelligence. **Many of the man of Earth who possessed or reached the position of understanding the totality, have already become man of universe, many, many have done it over centuries.** And those who used or abused through the path of weakness, but they understood the strength or the strength field of the emotion of weakness of the man, they have brought in different lies. This is why from the beginning we said that we are not a religious group. We have nothing to do with the faith, because it is the understanding of the STM by the man himself in the dimension of his physicality. We'll never become a religious group, because we carry the science of the universe. **The knowledge man received, all of us from the day of the creation of our soul received the messages of what has been given to the others to be peaceful. It is us who has decided the difference, we decide the limitation of where, and how, and how much we want to go, (:36).** we are beautiful people, such gorgeous loves to our beloved, and then the same man becomes the worst enemy to the others. Therefore, we chose. **It's not that we were left alone, the option, the clarity is with the man. How come you worship and love one child but hate another, but you were the creator of both, so you chose and not the children. It's the same with the love of God, which is you the creator of it.** Man received a message from the beginning, through his creation, he chose how to handle it and how to ignore it, because the term of physicality to him was something he could touch and feel and tangible, it was perfect for him. If we could, like the space agencies that used the rocket propulsion to get out into space to become part of what you call another planet or whatever, call our work wrong, who is there to believe, them who hide themselves behind the gates to lie to themselves, or you who see the effects of the Pain Pens and MaGrav Systems and you know you have access to a new source of energy and life. (:38). **The message has been given and man has chosen different ways according to his power. If you find the strength of the power, where man becomes power hungry, like a food, and you can elevate that soul to become equal to the others, there will be no kingship.** It was given to Moses but he refused to deliver because then he couldn't call himself a king. Any other questions. Q: About the SF in our bodies, the soul is 1 reactor a giver, the heart is a receiver (G), and the lungs are G also, which would be the 4th reactor or does the lung act as 2 reactors? The lung acts as 2 reactors, go back to the previous teachings. (:40). Ursula translates Spanish. ... we have come here to serve and not to be served. ... (:44). And **we'll elevate our souls in helping others.** Thank you. I think there is a slight misunderstanding from the first question. We all ??? .. this is where the rest of the problem comes. **If we can give from our soul in the right way that our conduct in physicality is in line with the conduct of our soul, then we have become the savior of our own physicality, and that is what the Messiah means.** It doesn't mean that you become Messiah for your son, neighbor or nation. **If you live through the correct conduct of the soul with the interference of whatever in between then you have reached the maturity of man,** where the conduct of the physicality is the mirror of the wish and the conduct of the STM. A lot of us look for Messiah that somebody will come and salvage everything on the Day of Judgment. The Day of Judgment was in one of the 22 Commandments to Moses and he took it out, because then he knew that he couldn't do it (himself). I am going to tell you one by one the 12 Commandments. Rick can read on the net. (:46). Then let's add to it and you'll find out that the knowledge has

been correct from day one, and man would have not been here. **This message which was given as a formation of light is the essence of interaction of the Creator's fields with the essence of the creation of the man what you call, the past prophets, .. not in the word of God, but man has converted it to ... he felt and that feeling was converted into writing by Moses, Buddha and the rest.** And this is where it comes (from). Buddha and others took the path of the soul in the conduct of the man. **The ?? Abrahamism came down through the physicality for the man to abuse, because of the pleasures of physicality. And you see the difference between the two paths of the same message, the same light ... was used, or appeared to all, when they reached that enlightenment, and then the interpretation was done according to what they wanted to do, or abuse, or to give not in the direction of physicality but in the direction of the STM. Would you like to read the 12 Commandments ... 10 Commandments. (:49). Ten Commandments. Ricks reads. I am the Lord they God, No other Gods before Me, no graven images or likeness, Not take the Lord's Name in vain, Remember the Sabbath Day, Honor they father and mother, they shall not kill, commit adultery, steal, bear false witness, covet. ... And this is everything at the bottom that Moses himself did. He killed ...** interruption by Spanish .. (:52). Go back to the ones which are there, one by one, to the 10 above. Initially when Moses brought them down there were 12 and in the process of running his affairs, the way he destroyed the other 10, he got rid of 2 more because he would not fit into it. One was thy shall not steal, and he killed and stole a lot. Thy shall not commit adultery, he killed men of villages and kept the women who were all married to men and he took them as his whatever. And he broke everything that he brought with him, every promise, even to the state of calling himself whatever. In the process he did not bring the one, thy shall not lie. **One of the first tablets he destroyed was one with that one because if he was to rule he could not tell them that he had more, so that was the first thing he destroyed. One of the Commandments to him was, thy shall not judge, no one (else), except (he could judge) himself. And not to be judged by anyone.** Because he knew that if they will judge him, with all the lies and what he had done, they he could not do the job, that is, what he did, to acquire more physicality power. (:54). **The 4th one was, thy shall be equal to others and do not consider thyself to be higher or lower than them, which means there was no leader or kingship.** And he could not do this, because now had found the power that he could do what he himself wanted to do. If he would have listened there would have been no kingship from the beginning, as we are all equal in soul and our physicality decides the happiness as a fraction of our soul. He says, **thy shall not touch or carry arms to defend or kill another,** he took this out because he wanted to use arms to achieve what he himself wanted. He says, **thy shall be a peace with one another and oneself, with thy neighbor, tribe and tribes.** He could not invade and kill if he was at peace so this had to be destroyed, because he could not have done the coveting that he did, he knew of more beautiful women in other places and to be able to covet he destroyed this commandment. He says, **thy shall be the river of life and love not only to thy self and thy loved ones but in equal measure to his enemies.** He could not create enemies but was to love them, therefore he could not do genocide and (:56). the killing. **Thy shall accept no path except the path of his own soul to his creator, who said, I made man in the image of Myself.** It means that the physicality had to follow the path of the soul to be perfect. He says, **thy shall serve his loved one and his own as he expects to be served by the others.** You don't like to be treated wrong so you don't treat wrong. One thing which he did not put upon the top, this was important because then he couldn't rule under the name of god, was, **thy shall believe in One Creator for all men.** If this

would have been done we wouldn't have the religions that came after him because he took the most important part out of the whole equation of the elevation of the man and the elevation of the STM. Thy shall believe in One Creator for all men. Then we don't call one Jew, one Christian, or one Buddhist, because at the end it is all related to one. ... President said to move the capital into Jerusalem that the true essence of the first order (:58). of the tablet was this. Then all becomes one, there are no religions of different paths, we all call it God. He took it out because then he couldn't say to the others you are different and that I have to change you because of what I believe and received. **Then you understand that when you receive the 2 and elevate to understand the work of the soul of your self with your physicality then it's complete.** There are 2 missing that came done with him but he took them out, because they were read to the others and so it wasn't to him anymore. **I will release those 2 in due time, then the circle is complete.** When you **mature to understand the work of your soul through understanding the fields and operation of it, then when you hold your hands together and see the light in the palm of your hands,** you don't hold for you to watch, to enjoy the beauty, you give to it what is needed that it can receive from it, what it needs, that it sees the same light as you. **The maturity of the STM, the missing commandments of Christ or what I call Moses is complete. We have finished with the old cycle and we start with the new.** Because in the new way that we have taught means **we start understanding the commandments of the universe (1:00). which is one, which is the totality of the 24, which is the mirror image of the Creator.** It says I made man in the image of myself, **man made the image of himself as a physical condition from his soul, and he doesn't need the physicality but he made the image of his soul in the STM to go the dimension of physicality, interaction of the inertia of this planet, it created that physicality, so it could memorize and multiply in so many ways to create what it is.** So many times the present scientists, those involved in deep space science and who go in depth and understand, they have already seen and understood. **Many philosophers of the east have reached this point, because through the path of their belief, through Buddha and the rest, they elevated their soul and not the physicality, therefore it was easy for them to reach the understanding of the position of the interaction of the STM with the soul of the universe,** and then they understood that they are part of the creation of the U and not this planet. **The Christian and Jewish world has been waiting for these commandments, (1:02). to be completed for thousands of years and now its done. But the promise was that when they are done (completed) then the man has reached the point of maturity** to go into the next step. I have completed the balanced step, and I walked you through it very slowly in the past time. **Now it's for you to elevate your own soul and remember do not judge and don't allow anyone to judge you. Do not become arrogant as you are equal then there is no kingship,** as men you are all equal, then you are all kings, of your own physicality and your own soul, and no one else's. When you are equal and not a king to anyone, then there is no need for armies or killing, then the whole of the Commandments make sense. **A lot of people don't understand the true essence of the last Commandment, it says thy shall not covet,** (Rick interrupts ...) (1:04). No we'll stick to one because that is. The coveting doesn't come from dreaming of the beautiful wife of the next door neighbor or the man you saw on the street. **Coveting is for the STM,** because the Christ took the second Commandment I spoke about the soul, a few teachings ago, **it comes from the soul, I want to be like him, a soul as good as him, not I serve to become the giver, that he becomes better than me.** The coveting is not the physical coveting that a lot of people talk about, dreaming of. **Because most of these commandments were taken out of context,**

**destroyed by Moses and it was not completed. One of the things that Moses took out, he had to take out, was thy shall not rape.** And we know why he took it out. At the beginning when he brought, and when it happened in his time, he could not tell people not to do what he did himself. Because he was already given to the high masters. **As number 11. Rape didn't mean physical rape but rape of intelligence (1:06). and understanding the STM, and to use the physicality of the man.** It's that simply. Now put the 21 that you have up to now, then you'll easily understand the 22nd. The last 2 will come in the maturity of time when you enter the UC by the understanding of the elevation of your soul. I have completed the 22 Commandments. The cycle of the prophets of the past is complete. But for those who understood and chose the path of ?? , but in so many ways **applies to Buddha and the rest. Take the physical part out, listen and read these in the essence of the STM,** because it says. The first one he received was, Thy shall believe in one creator for all men. Then how could he divide those who were his followers and following his god from those who didn't. The 22 Commandments are totally complete. These were given to Moses thousands of years ago, **and it was given to every man who was enlightened to understand the true creation, be it the Mohammad, Christ, Buddha, and those who called themselves prophets in the South American continent in the time of the past, and those who became the prophets of the people in Australia with different names (1:08). and features (aborigines), and those in the far East, they all received the same.** I gave the same so it was equal to all children. The difference is only the path that we chose. The Day of Judgment as they said, you never judge and you don't allow anybody to judge you. In that way **you are always aware of your own conduct so that it doesn't need to be judged because it's always correct.** This is what they took out, because if you are not aware then we can create for you a Day of Judgment. The Messiah has come for many of those men who have matured to this point and became part of the UC or they decided to stay as men and serve humanity, not in the shape of robes and ropes to abuse children, and others and to call themselves kings and the rest. We created these kings because the true message was taken out by Moses ??? and that is why we see most of these wars in this part of the world where they have become part of. If you go back to **the original tribe of men, there were no shoe makers or fishermen, and everybody fished for themselves and they all lived in the same community. If they needed something, they took and gave. (1:10). In the present language we called them barterers and this way everybody was dependent on each others skills** and what they became better at. By creating these weaknesses in man, who could understand the man's weakness, **it created the influence of what they called the village, and created the influence of what you call financial gains and monetary system.** Now with the teachings that you have matured yourself to, you understand that you don't need any of these (things). There are no banks or churches in the space. Now it is for us to understand the totality. **I have done my job. I will teach you more until more of you become mature in your understanding the operation of your soul and the conversion of the strength of your soul, if you are man of physicality** to confirm your power of becoming mature to the understanding of the totality. I teach but it is **for you to understand according to your intelligence and we are all intelligent in equal measure, it is the fear that has been put in us by those who abuse our souls in line with our physicality, which has stopped us to open** and understand more of ourselves. You don't need any prophet to be enlightened with the light of the Creator. Become the creator of the light yourself. (1:12). **Your soul is the mirror image of the soul of the Creator. It depends on how you turn the angle of that mirror, as to how bright the light of the STM will shine.** That's all. **That mirror is the physicality of the man**

**which reflects the light of the STM.** The more you become aligned with the correct path of life, the more the line of the sun comes in line with the sun of the STM and shines the same as the light of the Creator, I made man in the image of Myself. **You need a mirror to see the image, and you need to have a mirror which is the physicality to understand the position and the conduct of the STM, in respect to his physicality and the soul of the Creator.** Blessed are those souls who understood this. Any other question. **Regarding number 12 which Moses took out (1:14). was that the man feed his loved ones the same as with his enemies.** And he couldn't do that. **The food wasn't food of physicality but the food of love.** The food of giving from ones soul. Because food for us, we work for it, to earn it, to be able to consume it. He had to give from soul the same to his enemies and to his tribe and he couldn't do, so he had to destroy it. **Now you go to the 22.** Q: You said you forgive but you don't forget, in this way are you not judging, how do you approach this way without judging? **The forgiving is the maturity, and the forgetting it shows the path to forgiveness. It's 2 different ways,** 1 is the path and the other is the way of living. When you don't forget you'll not make the same mistake or you know the path to reach (1:16). the same position faster. You forgive because then your soul is mature enough to receive more. It's 2 clear points, 1 is the path and the other is the destination. **When you don't forget it means that you know the path, forgiving is enough that you can give so much that it doesn't take much from you, but in the next cycle you'll know the path and you can reach it faster.** Q: It means you can use a different path to approach it? Yes, but if you have seen what the end result has been, then you choose if you want to go on this path to get to the same place or the other to get at the same target as I want. All road end up in Rome, it depends on what path you want to take to get to Rome and what is the aim of it. In Italy you see it very clearly, wherever you go you see the sign that says where Rome is, there is always a line to Rome, it doesn't matter whether you come from the south or the north. (1:18). Q: **You said prisons should not exist... but in this period of transition what is the solution for people likely to commit new violent acts?** If you listen deeply to the teachings, **prison is the body of the man and not the physicality of the prison as you call it. We have imprisoned our soul and conditioned it to so many wrong things.** But if you look at it the other way and understood all the Commandments, with this there is no need for prisons that one can be in charge or in control over the other. No one will do wrong. **If all this were taught from the beginning to the man,** crime. We always want to be better that we have more but if we realize that we are equal, we serve more to give more for the others to be equal as well. It's not that it's through the soul, it's understanding that giving through the soul you have helped to elevate the others. Last week I explained that **a lot of KS have started selling goods,** (1:20). without certification and some of them go very upset... that you have told us bla bla and da da. . Yes, **but I told you to teach, but I didn't tell you to sell my teaching. It's a big difference. How many of you when you started to sell the Gans or whatever,** you put a note with it that, this is a gift you paid for my time and this is the way that you can make it yourself and you can teach it to others. No, you just went for the financial gain, you have already failed because you never understood the ?? then they get upset when we asked people to report them to the authorities and the rest, if we do this and that. Of course, you were taught to share not to sell for money and then change things just to suit yourselves. This is the path where a lot of people have become merchants of death, in the past, in the name of the kings and the rest. **Knowledge is given freely with love and care, it's your soul who has chosen to abuse the other side. In a way you're beginning to do as we see with the priests and mullahs and the rest of those doing this today.** The only difference is that you

have found, instead of a bread to be the body of Christ and the wine to be his blood, the Gans, Patches and Pads. We produce it because the funds from it will release the others in the physical dimension, but we haven't seen you doing anything, you just take more and more for yourselves. (1:22). **Teach my knowledge don't sell it for your own benefit. Then you'll understand the message. I teach freely and you teach freely. I give unconditionally, without judgment of who is listening, or are these people good, bad or whatever,** I don't judge. I don't expect you to judge me, because if you were a correct judge you would have judged yourself first. We have to be in control of our work, not others judging us, because then they bring their own feeble, misguided works into it. When a man needs a judge it means he is not mature. Q: Who is going to correct Wiki ? The KF, it's not correction it's adding. KF has its own Wikipedia. Q: Boniface, could you clarify by what you mean by judging, because there is a school of thought that says when we look at someone's behavior and evaluate whether they are doing right or wrong ... I am going to stop you there. **The judging is man being aware of his own conduct, that's all. True conduct and not what he imagines to be.** (1:25). A lot of us do sins, as you call it, and we find an excuse to do it, so we have already judged ourselves and we have found judgment to pass, that there is a reason for it, that's all. Q: So when people are selling your teaching, the Gans and what not and you are pointing out that they are doing something that they aren't supposed to be doing, is that not judging? **No, that's my property, my knowledge, it's them who came to me. I don't judge, the judgment is for them to decide if they do right or wrong.** You have to always clear your point why you made the system and what's it to be used for. For the person who uses your system, if you made them a computer or a machine, it's not a judgment, you gave them an instruction, a manual. We gave the manual, which was, this is the process and teach it. If you have to put your time in to make it, then you offlow the process, not just taking part of the teaching out to make a copy out of it. **We didn't say to stop making anything.** (1:27). **We said 2 things very clear, do within the law, which is the correct way. It's you who has to judge whether or not you are within the law. Secondly, we said when you do (make it) then teach.** There are many people who start running workshops around the world in my name and we see them disappearing, because they opened these workshops only for the profit of their own pocket or whatever they could do with it. We had the peace conference in Italy and I put my 3 books on the table outside and I put a cup next to it. I didn't put a man next to it to sell the books, I said, if you need it you take it free, you pay how much you value it. It's for the man to judge, am I going to take the book, I want learn knowledge, I can afford it, but I want to see what it is, or I paid for it, then I'll read it because I paid for it. I didn't judge who has the money to take it or not, or who takes it because he needs the knowledge. The judgment is by you. the system has a manual, if you don't use the way it is written you (1:29). won't get the same end products. It's no use heating the milk and adding the lemon at the wrong time to it, depending on what you want to make, it's the same here, would you like cheese or anything else from it. It's you who decided which way to go. **My work has a manual and if you want to achieve it offlow the instructions in the manual... SERVE, share.** If I share and serve this is what I get, what I need for it, then it's for those who accept it to share with you. But always share my knowledge with every piece you sell, so that you **are not like the priest that they have to always come to the same church again and again. this is what you all missed, and i kept on saying to many people, teach in your workshops to freely to those who come and let them do, and don't make the workshops as a banking system for yourselves.** And then they sell products with it. It has become a cattle market. I am alive and they have already started abusing it, so if I don't put it correct

now it will never be corrected. It doesn't matter who gets bothered, that only means that they want to carry on with the same path, they want to judge that I am wrong, because they want to do wrong. **Stay within the law, stay within my instructions and you'll see the gift that you receive.** (1:31). Q: Okay one more try at my question if you don't mind, what word ... **you never understood the answer that's why you are trying again.** Okay. **It's your understanding because the abuse is there.** Okay what word would you use to describe those who are not following your instruction? They have to judge themselves and understand what they are doing wrong and not me. They have to understand, otherwise I have to be there everyday to judge them. they are there with themselves, **go through all the teachings and not just the parts that suits you. Then you can do the abuse.** I have seen this many times. In the Iranian history, in the writings of Bahuala it says, that one loves not only his nation but the whole world, and what did they do in Iran, (1:32). they took the part "the whole world" out and then said that it says, not to love your nation, and they persecuted the Iranian Bahai's for that. Because that suits them that way, but was it the complete message. It says, do not just love your own nation, but love the whole world. Whose is judged and who served. **Understand that I have no fear for my life, that way I can speak the truth and the correct, those of you who have fear of what might happen to you, adjust the things the way it is, just to suit yourselves.** I don't need to suit anybody, **I just have to be correct with my own soul that the message is given correctly and as a whole, but in the steps that it can mature the man and not to flood the man or drown him (with too much knowledge).** Do you know the story of the king who came from the desert and knocked on the door of the old woman, she opened and he said, I am thirsty (**it was a thirst for knowledge**), if you translate it the other way. The woman went in and came back with the sweet water with a lot of straws on the top, and the king was thirsty, and he had to keep on blowing the straws away, (1:34). that he could drink as fast as he could to satisfy his thirst, then when he satisfied his thirst he turned on the woman and said, you stupid old woman why did you put the straws there couldn't you see that I was thirsty. She said, **if I would have given it to you without the straws you'd have drank it all in one go and killed yourself** because you have been so thirsty for such a long time. this way he took the knowledge, the thirst slowly away with the water and that saved his life. **It's the same with my teaching, if I give it (all) to the lot of you, you'd hang yourselves because you don't understand,** but I taught you the same, with a lot of straws it in, let you make the mistakes, that you come up with the new position, **otherwise I could have shown you the flying systems and the Creator and the soul of the Christ from the day one.** It's my wisdom and your hunger to by-pass everything. **One of the things when you mature in the soul, it says, thy shall not possess.** **Possession brings kingship, demolishing others,** when you share and serve you don't possess because you all possess the same, you only possess something when you don't have and you want to get to have it. **Now you find number 24. (1:36). Detachment. I remember seeing Moses when he received** (the Commandments), he was so joyful that he was jumping up and down, and then at that point, that is why he took time on the mountain. He started reading it so that he could interpret it in the way of physicality, then he saw that a lot of it wasn't what he came up to the mountain for. Said to him, take the whole and not the part. **He took the whole, but by the pretense of it being heavy he dropped the whole. It wasn't written in the stone, it was carried with his soul, he wrote it down. The heaviness was on the STM and not on the weight of the stones.** Any other question. (1:38). Rick says we have Peter, Paul and Mark all the Biblical names showing up. It's **Lynn from Montana.** You are the couple that is the veterinarian, and you got upset by what I said last week? Yes I did. I hope now you

understand. I do and I have to think about, it's a quandary that I am in, for example today someone was here at the house and I had given the group of women the Gans gloves for sore hands. ... let me just give you another pair .. Let me stop you. **This is where my dilemma is, you gave the gloves out of your generosity. (1:40). We say if you give a man a fish you have to feed him your whole life, teach a man how to fish and he feeds himself. The problem and quandary with you is that when you gave the gloves did you tell them how it's made so they can make it so they don't have to come back to you.** This is what my problem is. ( the gloves are baby steps because nobody ..) It doesn't matter, this is what it is. Some of them will never come back to you. One came back to you. Because they don't need the glove today, but if they have a pain in their leg they can't put their gloves on it, or if they have a pain say in their liver. **Because you haven't taught them. this is the problem I have** and I appreciate and respect your work (Lynn and Paul). I have a lot of respect for your work, but the essence was don't feed the fish, teach how to fish, doesn't matter if you give a fish until the time they are hungry and want to catch another fish, to feed themselves. There is no quandary, the quandary is live, give and teach, but on the basis of that I didn't just tell you and gave you a patch, **I taught you how to make the patch.** It was taught and explained even in the medical teaching in which you were present. Whenever I attended (medical teachings) I explained in detail the process of what it does. (1:42). People can't understand the process but they can understand the basics. **Teach my technology and knowledge, but understand that you are just a messenger, and not someone for people to come back to you to ask for the next message.** What was the message, that you kept the book hidden. It's on the Internet it's well taught. I understand your problem. I understood what you wrote to me, but I hope you understand what my quandary is. **My quandary is that I teach and serve unconditionally. I don't ask for you to pay and to come to these teachings.** Whoever pays gets an entrance, this is not a football match where you pay and watch. **Your soul and conduct have to be the same.** Alzar interrupts ... they want to give something for free so they can see. People come in and see and then I can teach you. ... (1:44). I offer to teach them but they said no. You see Alzarjan, you leave it to them. Do you understand? Yes, but always they say give me the Gans, they don't want to .. But tell them there is a manual, you read it, **ok I give it this time but make it yourself next time. This is the difference. I can bake a cake at home and I can make it the way I like it,** but I don't have the time so I go to the baker and I say I want the same cake that you gave me the recipe for. It's a big difference. One of the reason i teach it this way is. **We have opened the UC to man, you are going to have a lot of problem in paying and getting paid in the space. You have to learn that you give unconditionally. And when there is need that your soul sees the need and sees the knowledge unconditionally** also. It's understanding in a different way. It's not just giving a patch. We don't open the factory in Accra and put patches on the street. No we accumulate to teach, to give to the others. **We are not Robin Hood, the guy who takes from the poor to give to the rich, nor from the rich to the poor. We take the money from the rich, the ones who can afford it, (1:46). that by giving to the poor that the blessing of the soul, elevates the soul of those who provided it, this is the difference.** We have to understand that the game has change, but we try to fit it into what we know at the present time. **Do you know where the term Robin hood comes from? Rob was stealing and hood was the man using a hood so nobody could see him.** taking from the rich to give to the poor. **Stealing under the cover.** This is what we ended up with. **We give for those who can financially do, to elevate the whole and then we give to the poor that the blessing on receiving goes back to the rich man who made payment.** This is in line with my teaching, **I said the man who makes**

**the gun carries the pain of the soul of the soldier who shot the bullet, it's the same with the man who is the director of the arms factory.** It's so with the factory in Accra, the man who pays to buy a bottle of water, MaGrav power generator, or patches which are made, his money goes to supply and educate and bring facility for the rest of the people in Africa, that the blessing of the one who receives the water and his pain is relieved, does not come to me, it goes to the worker of the factory (1:48). and the man who bought the bottle. **There is no difference in the work of the creation, it's us who has to understand the totality.** My instructions are on the table everywhere and anybody can go on the Internet and make it. It's shared by the others, **I become the merchant of your souls. I arrange factories that they sell so much that they bless you from what you provide them, that I become just as part of the system.** I live a good life. The man who bought the bottle because he needed it has paid to live a good life, and **the one who receives from the benefits of the work of the factories has a good life also, because we don't rob anymore and we have no hood to cover us. We work as one in the openness. It's us who judges ourselves and not the others, this is the difference.** You teach, I teach. Nobody comes to me and asks for a patch, but you are there because I teach. **If I make a patch I give a man a piece of cloth but with it goes my soul and his level of understanding and what he wants to do with it.** I don't give a patch, but I tell them to go on the Internet and read it, it's there. This is how we have to understand the work of the KF. (1:50). In the coming time we work to teach. **These Patches, MaGrav systems are nothing, nothing compared to what you lot will be able to do in the coming time when you understand more.** You will talk about the old times, do you remember when we used to make Gans' now that's child's play. **There is so much more to learn in the process of using these Gans' but the only problem is that you don't teach enough so that more knowledge comes back in (to us) so that we can all learn more. You want to sell and when somebody pays for something, then they don't need to understand how it's made, and this is where the problem is.** People have to understand that through this ... it's not just the Gans, but then you can explain about the fields or they can read that the fields are at the level of the strength of their soul, that they can elevate their souls. They see the process of the use of the glove or the patch, but when they understand that the fields of it are the fields of their own soul, then they can elevate themselves to become part of the UC. This is where my problem is, and this is what you don't see. **I am not a philanthropist. I am a man of God, because I am God because God in our language means the Creator. I am the creator of my own physicality, so in that order I decide how the energies and the fields of my physicality as a creator of me is used. Thy shall not steal,** you can't steal from what I have decided my physicality to contribute to serve humanity. (1:52). **It's you who want to abuse, but you want to give it a conformity that it satisfies you.** It's not the shape, we put it. This is important for all of you to understand. We have a structured society we call nations, as one nation. In this society because of whatever we have brought in, conditions, and the new conditions are very easy. It's just me who I have to judge, nobody else, and it's me who has to be correct and nobody else, and it's me who has to serve and nobody else. That's all. I hope Paul and Lynn I have answered your question and I hope you understand. I appreciate you work and highly appreciate the knowledge you have brought and bring, but a slight correction saves you a lot. **We are not here for the elevation of the pocket of the man, we are here for the elevation of the STM.** Understand what I said, **the man who makes the design of the gun shares in the suffering and pain of the man who shot the bullet, so is the benefit of the soul in teaching and receiving when you relieve a soul from its pain, then he can share.** When a soul is in pain he takes most of the energy to

compensate for his pain. When you elevate the man and alleviate his pain (1:54). he has more to give back to you. **And there is a society at the soul level.** A man with a cancer in bed can't do anything but to take. When you take a cancer from a mother when she is ??under load with her children, and she educates the next cycle of man in a correct manner with love and care, ?? we can't help society in the next cycle, but we save ?? ones own. This is the difference and **the sooner we understand this the faster we elevate our own soul and enter not only the UC, but the point of judgment that when we leave the physicality, we go in a balanced condition and not in debt, when we are in debt we have to find another way to pay for it.** Q: Lynn wants to add one thing, when we provide the energy station we have instructions on how you can make patches to share with other people, and we have videos on website to explain, **and we used to send 12 pages and what I found was people didn't read it so I sent less information** and said here's where you can get ... **please don't do that. Don't become the judge of what they don't understand, let them judge themselves.** Do you understand? Yes I do. (1:56). **It's there, they might read one word in one sentence, and that enlighthens them to something new. When you judge that they have received too much then we are back in the same wrong track.** Make it 20 or 100 pages. **It's for them to search for it. This is something that we have been taught the wrong way, we think people don't understand ... everybody understands everything, but it depends what word suits them.** Do you understand? Yes. Don't limit that you have or you put, I have seen your website... We told a lot of people to correct their ways. You all are doing a good job, you're spreading the knowledge, the whole thing, but realize one thing, **do not judge who understands what, leave it to them to understand what they judge themselves** for. Do not limit with 10 - 12 pages, you have a beautiful website and you teach a lot and that's how it should be. But the problem comes ... **stay within the legal framework,** because we understand and have seen how these people who understand it will come up with a new knowledge, they add to our knowledge, community and society. It's not for us to judge. **People like you are the cornerstone of teaching the new technology. (1:58). But the conditions we have are that it has to be within the conformity of the law.** Let me tell you why you'll thank us in the future. **We have come to understand that there are people producing Gans' dangerous way.** They don't understand and for them they do whatever they like, I can mention the name of one of the guys. But if they damage then who will get damaged, you and me. When you are controlled and confirmed that you ofollow the procedure the way it is. **We had one person say that he made the Gans and it was toxic. We asked one question, did you wash the plate when you took it out of the caustic. No he didn't. So now you tested it and it's wrong. ....**

**I don't need to be in a place and see it to understand, I am there present in the STM. I understand and comprehend and in time many of you will do the same. I am prtoecting you with what I said, but sometimes the pill brings some pain or bad taste in the mouth. (2:00).** But the effect of it, the end product is correct. It gives the result. We have to prtoect all the KF work first the teaching, secondly the process of understanding. Thirdly when we produce it, it has to work. ... if you want to start production they come to see you factory and they have to certify it. .. (2:02).

(2:06). we do the right job the way we said, ...

.. we'll become one of the most organized groups, we need no government support because the humanity will do it, we'll explain at the right time ..

(2:09). Q: **I was born Catholic and we were told that there is a Judgment Day? It's everyday and every action. That's all it is, they should have explained to us that we should judge everything we do.** (2:11). I tell Caroline that **when I put my head down at night I sleep at peace. I wake up with worries in what I haven't done and what I could have done more of. This is the only worry,** I could have taught more or done more, but I never look back that I have done anything wrong to anybody because I learned that when I was 19. **I learned then what Judgment Day is when I was 19 and accepted this position and I came to know that I judge myself. I judged when I received the message to do what I do now, I was 19, I said I am too young I need the experience, so I knew how to judge and how to delay. Again when I was 29 or 30 the same thing happened and I knew I was still not mature enough to accept the responsibility because I didn't gain the knowledge to do. I judged my position and I knew my capability and I knew the expertise I was lacking to be able to stand. When I came back from Iran at age 30 to 40 I knew I was ready to go.** But still it took a few years in accepting it to become master of it. To understand how to judge and nothing else. We have to judge everything we do. I don't know why I come into peoples life and this and that happens to them, I become a judge, jury, and executioner. **I became the judge of myself and not them, in me being correct they had to find a way to be correct and they sorted themselves out.** I don't judge no one. (2:13). If you understand it, **I have become a messenger of my own soul and I share, no more.** Q: Lynn asks **where in the USA does one get certification? We have tried in different channels. You have to go through FDA and the laboratories that do the tests for FDA.** There are companies that do it, we have logged in to one of the largest international organizations that do it. It's just by chance, in the summer I was sitting in Guangzhou airport in my travels in China and I met a man and we started talking, and **he is the head of one the largest laboratories in the world, and he said, Mr. Keshe I never knew about you, and I said I never knew about him.** (2:15). **He said, everybody in the world knows us,** I said, not me. **He said, we accept the job to do these things because its a new technology and we have to be with.** Now KF is working with them to start the testing. To issue the certification worldwide. ...

(2:18). continues about certification ..

.. world governments are looking very closely at us and they want us to do it correctly.

We are receiving a lot of support governmentally. we need to be correct.

... the opening day of the Accra factory will be a Blueprint Day in how to open a KF factory. (2:20). You'll be with us with the world governments. We are not short of assets. **We are short of time to bring for you lot, you are too impatient. You are too good of students just be patient with us that we can prtoect you. We need to prtoect you because we need to prtoect the whole of the KF work in the new technology and science.** We touch every corner, health, energy, space, materials, new communication system which you haven't even had a chance to understand it yet ... everything that humanity has worked with through one technology. We have to prtoect you Lynn and Paul, if I let you down and you have a problem then I have let myself down and I can't allow it, even though sometimes it's a bitter pill to take. **I don't want you to take the name of the KF off your WebPages. If you are proud to use it, use it, but understand and work within the law.** We saw **the guy who was a member of the U Council, he came to do the wrong thing and when we found out and told him he can't do it. He just changed the name on it and said it has nothing to do with my knowledge.** Let it be, but your soul will know. I wonder how much ??? because he went the wrong way. (2:22). **And he is not there anymore to be a member of the Council,**

**he came to abuse the knowledge.** We are aware. It's my job as head of the KF to protect you. If I don't do my job right I prefer not to be here, but if I am here I teach you freely and I have to tell you when you go wrong that you are protected. **We have requests by world leaders who have illnesses and have come to the KF, and by some of the richest people in the world who have diseases and we are there to help them in the background. We don't go and put their names on the bulletin board so everybody knows, no, we rely on their souls that they support the KF work their way when the time is right.** Just be patient **we'll bring you the certification and licenses worldwide.** I said, 30 to 45 factories by the end of next year. **We plan for 500 factories in the next 5 years** because it's needed, every aspect of the KF needs to be covered. We do the work to what we know, you bring the designs, technologies in your name, you'll be benefited by it and so will the humanity. (2:24). We have not even taught you the space fuels and space stations or the flight systems. You see the swimming pool built in Nigeria by the wishes of one man. If you want to learn about it, make an arrangement with KF Nigeria, go there and see what the effects are. It's finished, if Alex is online he'll explain. We paid for it and it's beautifully done and it's there as a research center. And we have allowed for an expansion of 10,000 meter factory space, 200 million people to support a large sized factory. Any other questions. **Caroline comes on, (2:26). I love you, I love you too.** I have a very big question, a lot of people are asking in regards the conduct of their soul is it possible to go into more depth, very slowly, to explain the original 10 Commandments as we know them, for people to understand the correct way and not through their physicality. Because it's not complete. ... they have never understood the 10 Commandments towards themselves personally. **The problem is that we always looked at the Commandments in the physical dimension (2:28). and not for the applications of the STM because when we read it, for most of them, it tells us misinformation between the soul and the physicality,** that's all they are. It say, thy shall not steal, the soul gives freely, it's the emotion that steals that the physicality doesn't receive, the E is ?? by us. I explained about **the Hidden Words of Bahuala, the Arabic and Persian versions are done in a very different way, because in the past time when they were taught in Arabic, even though they were originally written in Persian,** but the only line of education was ?? (Arabic ??). In Iran at that time nobody taught you medicine by way of books unless you were after something. The education was how you read the Koran. The higher class Iranians were only going to ?? schools to learn how to read the Koran, that is what all the teaching was (the only place you could be taught). And in some ?? maths. In that process the teaching was ?? done by language either Arabic or Farsi. they could express themselves at a deeper soul level in Arabic, because it's a very specific language. **Bahuala wrote 2 Hidden Words, 1 in Farsi and other in Arabic.** (2:30). When you read the version in Arabic you see the STM, he could explain it, because he understood more in Arabic and not in Farsi. When you read the Farsi version you see the weaknesses in the man which is hidden in the name of the man, in the physical dimension. even he was aware of the 2 dimensions the STM and the soul of the physicality. All the Commandments, the ?? harif, comes from the origin of this life of the cycle of the religion, touches the STM, it's the man who has transferred it to physicality to suit himself. We have been through it in the teachings, the hundred names of God. But it's a hundred names of the behavior of the STM. The teaching of the Commandments is for the STM but man has up to now translated it as physicality. Thy shall not steal, you should not steal from the soul of another because you promote the STM. **Read the ?? habiss of Mohammad in the name of the soul and the elevation of the STM then you find out it's so beautiful. (2:32). It's exactly what has been**

**taught in all the books of the past and of the future because it touches the essence of the creation.** The 10th Commandment, **thy shall not covet**, you understood what it means, it's fundamental to the soul. **I don't want, or dream of somebody else having a better soul than me and I want to be with that soul as I give from my soul that I elevate that soul to be better than me, that if he doesn't need something, I can elevate myself but not with that, I give from my soul to elevate the other soul** so I think about it, how to elevate the others, and not that I think about it just because it's a lover (beloved). Try to look at the knowledge of the conduct of the man through the STM. The Chinese understand this very clearly, they are very close to this. **Through the work of the Gans' and fields and understanding the communication with Gans', how our souls interact.** You make a Gans of Cu, Zn, AA Cu ... see how they react when you have the technology to understand, then you'll understand the behavior of your soul with another soul, it's the same but more of, in more diversity because you have so many different acidities and combinations in your body. We have to understand that the **physicality is the end product of the production line that starts in (2:34). the STM. Would you like to be the user of it or part of the creator of it, it's you who has to choose.** The faith shows you the physicality, thy shall not steal, when I go to the shop I don't put anything in my pocket without paying for it. No but I don't touch a soul, I don't take from a soul which is not there for me to take. **Then you don't even think of going to the shop to take something.** It's us who has to educate ourselves to understand the new language, which **we knew was not new, but we ignored it, but we left it with those guys who called themselves the priests, to do the misinterpretation so they can abuse us. We opened ourselves to abuse when we denied our own soul, that's all, and they used it in the name of what they called God.** Release the new 12 Commandments as you call it on the Internet and see who opposes it, why? The Vatican will be the first, because it's the end of their job. **The completion of the Commandments was the end of the time, of the present cycle, and it's done today. We were not the Messengers but the people who delivered the message, they messed around with it, now we delivered it directly to the people. There are no Messengers in-between. (2:36).** Write the 22 Commandments and join with it and see who objects to it. Then we have started a new cycle, because with this we have finished with the old cycle and **started the new and now we understand our responsibility as a soul and now we have to understand the conduct of our own soul.** I told you that I will finish with all the religions because religions are soul of the man who allows it to be , and now you have the whole 22, I also gave you the 23rd, the 24th comes at the point of maturity, nobody gives the key for you to open the door. I am the beginning and I am the end, I told you that from day one. I have seen the weaknesses of when the message was received and I have seen them weeping when they lost it because of the abuse of the physicality. The same Messengers. (2:38). Any other question. **Q: Since it was Moses who gave these Commandments, if we give to his soul to be elevated, will that effect all the souls and correct the path, that it can be .. It was done by the Core Team that is why we are in this position now.** We asked the Core Team to elevate the soul of the prophets that they all become equal, ... they made a circle of each one, for each prophet. And then they took the world leaders to elevate theirs. A lot has been done in the background. The 14 members of the Core Team, even if they are not present their souls are operating and doing the work without them knowing about it, ?? the physicality's time has passed. We did this it has been done (elevate Moses). Vince do you remember who took Moses, Rick says I believe it was Arman, he so No. (2:40). .. I took President Obama as the man I could handle and we did a good job with him, you'll see what will come with him because of the misconduct, but the elevation of the

souls of the prophets of the past, because of the souls which have committed themselves to him, ?? they work. We'll see, a lot of unification has come to where we are today. A lot has been done by you as K Seekers. How many of you when you give these gloves, patches etc. (2:42). ask any of the people in your audience, are you a Jew, Christian, or Moslem. You have done what I have done, you taught unconditionally. And so through the prophets they offlow, the prophets have received the message, it's just a confirmation. That's why your working so vast so quick, because the message has gone through the path of the founders of their path. **Coming up we have a number of Mozhan's who will show their work. Mozhan's have not been trained in the physical dimension but in the dimension of the STM, when they are ready and mature in the second part of the teaching, then you will see them shine.** It's been the same with the Core Team, EC and UC, when they get together their wish is their command, because now they are their to serve the totality and the One Nation. **My only wish was, if Moses would have thrown all the Commandments in the bin and only kept one, 'thy shall believe in One Creator for all men,'** then things would have been different (for humanity). Then nobody would have been jealous of the rest. (2:44). We have a long way to go and a lot to learn. the problem is this school has 7 billion students and we have all sorts, there are those who carry a lot of lines of ?? abbreviations of names of doctors and prophets, and their soul is still in the nursery, and we have those who clean cars and their souls sit in the universities of the STM. **The degree of physicality doesn't show the level of the STM and that is the beauty of it.** This is why in KFSSI we give no certification because we only teach and the elevation of the STM at the point of need becomes the graduation of the man, and not in what we ask him ?? in physicality. Join the KFSSI and learn the knowledge and purity of its teaching, from the first days even until today. Some come because they have to emphasize their existence that they know more, but rather listen to their soul and not to their mouth. **I will be teaching next term ??** at KFSSI, I have been asked to go back into teaching, because in private teachings I touch the STM. In this coming term I will be teaching directly like I used to do. (2:46). Learn the essence not the physicality end product. **Q: When we sleep we are free from materiality and so are our creative thoughts more powerful? When we sleep we use less of what is given by the soul and then the soul has ?? We don't sleep in the space. One of the most horrible things for man in the space is sleep. Because if you reach the process of no understanding of no interference of the STM,** Physicality of the man, when you go to sleep or what you call resting the physicality, you'll find out that **we are aware of all the thoughts of physicality, you don't physically sleep. It's a very strange feeling.** (2:48). You just see the body going through and you know you have to rest but at the same time you are fully awake operating with whatever needs to be done. Then there is no night and day because in the space there is no night and day, **we don't have the sun rtoating to tell us. the physicality gets what it needs, it doesn't need the rest time to recharge. We have taught our bodies to go to sleep, because when we started life (on this planet), (it's only the past 100 years that we have electricity on this planet) there was no light and we couldn't see so we sat down. Sleep was a natural process, doing nothing.** In the space we don't have this, you'll see that our body clock will change because there is no rotation of the sun. ... which way would you like to find the Mecca in space, except in your own soul. Will the man ever sleep. We have brought this habit of sleeping because of all ancestral time, when it was dark we had nowhere to go because we couldn't see, and we didn't develop night vision, so we decided to stay put. In the space we don't have this. We always be awake. There will be no Christmas or New year because we won't be in those cycles. (2:50). You travel at such high speeds ,

or would you receive it every few seconds as a new year. **A lot things need to be taught and accepted and understood, not by forcing but by understanding.** When we are in space in a few years time traveling at speeds beyond the dimensions of this solar system, would there be a Christmas or shall we spend the time with Christ, there will be no need to celebrate his birth, ?? elevate every present. We have a lot to learn. **This time we will not leave the man alone, we'll mature the man because we have seen the abuse of the man by the Messengers and their cronies. When we educate the soul nobody can abuse it because it is aware of totality and not the weaknesses of the physicality. I don't let anybody insult another and those who do have seen their way out of the KF, because when you insult it shows your lack of understanding, and you don't deserve to be a human. Because the soul of the human is sacrosanct.** It means you have to go back to the school to learn. to the school of the STM in the dimension of physicality. (2:52). ... **releasing the Messengers of the Creator in the name that was given to Moses, was a very hard position, because nobody can touch anybody that man understands the message of the totality.** Now it is complete and it has already been there for thousands of years, waiting to be opened up. Let any of them the Jews, Christians or Moslems put a finger on it and say that it can't be done. **It finishes with a lot of things because it starts with us opening our eyes to the work of the STM.** It's not the Commandments but the understanding the work of the soul, which commands us what to do for our conduct to be correct and understand that we are all equal. We start a new calendar in the Christian calendar which most of the nations of the world in one way or another of flow the work of the Christ. **2018 will bring a lot of changes. It will bring the maturity of the STM, the opening of the space to man, a new dimension, I foresee the work of all the space agencies in the coming months will come together, and we will see the rapid** **expanse of the opening of space, but the scientists have to understand the work of the STM in the space and not the work of the physical systems (2:54).** It will be very hard for them and once they do, **all these resources we see of the different nations, will become One Nation and will go in that direction. I see the Chinese government to head the space technology. I see the same that humanity will change in a very big way, we'll become more aware of our own conduct and not the others. On the other hand 2018 is 11, it's a very balanced year, it's the beginning, it's individuality in totality.** Let's see what it brings and I wish you a Happy New Year and that you have had a very merry wonderful Christmas, but remember one thing, my physicality doesn't count, it's the soul which speaks, or changes the soul and not the sound of the physicality.

(2:56). Music End
