

213th Knowledge Seekers Workshop March 1, 2018 (MAN ENTERS THE UNIVERSAL COMMUNITY today, ,)

(:11). We setup a One Nation government last August with the Earth Council (EC), they are responsible for life on the earth and communicating with the Universal Community. The UCouncil is responsible to communicate with the UC and they remain a member of the UC until they decide to move out of this planet. We'll see many members of the UC take to space and at that time they'll hand over their position to another. Up to now these positions of guidance we given to what we called prophets.

(:14). We become collectively the prophet ... The messages from space that people who go to space find will be brought back, as the explorers brought back information about Africa, the space will be the new frontier. Through the UCouncil we'll receive what is needed and what can be done once the transfer is through. Like with pilots and air hostesses without flying we don't need them, it's a non-existence job. When ... as we start feeding the soul so the creatures of this planet and other creatures of the U. (:16). In that process we need people who understand the dilemma of being in the body of a man or the physicality of this planet. The UCouncil is not an unusual process in the U, it's one of the most common denominator factors and that's why we set it up. 36

Universal Council charter will be read, it's the start of peace for the planet. (:29). Shows UC video ... (:40). reading of the UC Charter ... (1:23).

(2:07). Mr. Keshe continues. We made decisions on 2 platforms 24

.. the 99 names for God are in fact the attributes of the STM. For the first we have known our own attributes (2:10). What we thought was of the highest order we see are of us, we are the STM of the highest order, equal to all other souls. Now we understand more and I thank you for al the work which has been done. This was brought out in names centuries ago by those who believed in the same path but they didn't tell the man that was actually the STM. There is a message here that I would like to pass on. The human race has written its Charter to become part of the U Council as part of the Universal Community and is allowed to enter the UC upon completion of the Charter.

WE WELCOME THE HUMAN RACE TO THE UNIVERSAL COMMUNITY.

Now that you have chosen the path of peace we open the arm of unity and prosperity for the human race and the planet. We welcome you to the UC on the basis that the STM has matured to understand his dimension of physicality. We welcome the human race in the steps he has taken to start the entry into the UC. We support you and salute you. (2:12).

It's a glorious day for the human race, not because of what was written but with what the STM has accepted to be part of, to be peaceful and be a member of UC. In so many ways we have been waiting a long time to welcome man into the UC, you'll see rapid changes and the progress for man to be welcomed by the UC. Thank you very much. (2:13)

End of THIS SESSION

(2:15) play video of the U Council. .. (2:24). If you were blind and just heard the voice. The terms of the voice in conjunction with the noise of the sight with what we call the vision of the man. ?? the emotion will ?? and what's interesting is that maybe for the first time man understands that the voice is the emotion of the man. Many times we said it's the E which is between the STM and the soul of physicality, when the soul feels it the man speaks it, not necessarily in the voice of the box, but in the voice of the E of the brain, ?? but he gains the strength of his own, which is his sound, his interaction with the STM, creates the fall out which is the physical interaction, physical response of the man. When we see the earth and the sun interact with each other in their fields, we see the daylight, the creation of new matters, so is the E of the man in the dimension of physicality when he interacts with the STM, the fallout is the physicality, the behavior of the man. Everything makes noise, has a music, the creator of ... it's us who has to find the instrument to listen and detect that sound of interaction. If we rub a hand we hear what it is and does. (2:26).

(2:32)

There were no deaf amongst us, (2:34). it's just that we didn't have the instrument to be able to understand this interaction between 2 people. If man goes further he can control the soul of physicality in position and strength in respect to the STM and make noise without any voice box being used, that's how we do it, because when we detach from our physicality and we become the soul, this is how we communicate with the others, from the interaction of the soul of physicality (STP) and the STM itself. Many of you have had a dream of their old dead relatives, physically they are not there, they left the physical body, it is the interaction of the soul of physicality with the STP with the mother or sister, that in rubbing against each other creates the noise and voice of the soul, ... we already know that we don't need the physical dimension to be able to communicate (with other souls) but instead we say, I had a dream of my mother and she spoke with me.

(2:36). because at that point we don't use the voice box, we use the STP because it is all of the same strength. Now that we start traveling the U. A question many of you have is how come I can see my mother who passed away a long time ago or they are living in another part of the world, you see the STP of the person and not the person, when you recognize that each one has a given strength that even controls the eye color, then you say I saw my mother and she had a red eye, I wonder what was wrong with her. We have become so good in translating the sounds of the rubbing of the noises of the creation of motion of the fields within the structure of the STM and the STP that we have totally confused ourselves because we are entangled in the dimension of physicality. Today we bring the humanity to join the UC, now you have to understand that every point and interaction has a sound and it has a strength according to ?? and it has a color also. (2:38).

(2:46).

(2:58). Any questions. Q: Is there music or sounds in the U that elevate all souls that hear it? Yes, you have to find it. The noise of the soul of the child's heart of the physical dimension, with the soul of the child in interaction with the soul of the physicality of the mother and the soul of the mother dictates the time of the birth. (3:00). When the child can't take it any more, it doesn't get kicked out it moves to find a new ?? passage that it can take what it needs because it needs more, and you call it a birth. I hope you understand. Q: ?? one of my communications was with a stone, very clear. Can you

explain how that works. The writings of Bahuala says, even a stone has a soul. You have managed to reach that point where you hear the voice of the soul. (3:02). ... the guy in Beretta who wanted to move the cup with his soul, if ... at the strength he can reach the cup. it's so simple. ... (3:04). the Bahai start fasting for 21 days until beginning of Spring. The Jews, Christians fast at this time. What noise does this fasting do to us. to hear his own weaknesses, connection between the physicality and the soul. (3:06).

(3:08).

(3:14). There shall be no prisons or killing. Have you ever heard of a soul leaving a man without the agreement between the physicality and the STM, why should we commit such a crime. Those who use these apparatuses have to stop because we don't hear the STM. Now a days if they can't get you for what they want they make you a terrorist, that is the easiest way, now everybody is a terrorist except the terrorist who sit in the throne and do the ?? to take what they want. But do you hear the STM, the cry of the man who runs from these positions, because now we have to hear we have no choice. ... the man from planet Zeus doesn't do wrong because he sees everything coming from the strength of his soul. We have done everything to stop ourselves from listening to the music which is the fields which radiate out of the STM. In time you'll see something very strange where the field strength of the STM radiates it has some ambiguity in the noise, very clearly the fields are not the same as the others (3:16).

(3:20).

(3:28).

(3:36).

(3:41). Don't renounce violence, promote peace it will come. We lost the English and French members ...

The UC members will receive help from the U Community for peace.

you signed yourself into it now you have to act on it.

... Mr. Keshe had a stroke, brain hemorrhage at the age of ??40 on the plane. The consequence of having it at a young age is it goes to the bottom of your brain, and you get paralysis etc., one of the side effects of this is that your brain goes through an emotion of not having enough time, its subconscious, you speak before the others finish.

(3:50). ... the physical E takes over the appearance of the soul. When you hear me jump in before other people finish speaking is because of this premature stroke. You find a way to walk out of it. Fear of not having enough time to achieve what you have to do.

(3:52). .. we have to be aware of our own conduct. .. we get stressed when the physicality doesn't match the physical life. when the strength of the soul doesn't match the STP and the physicality itself. (3:54). we come to this planet to change .. what you learn from it helps you to put it right. . it can take 10 years to discover what you're doing, you didn't know that you walked this way. "why do I do this", I didn't know.

(3:56). When people come for help I have them hold their hands out, I can tell by the position of the fingers what is going on with them .. the STM is the palm, the fingers shows the total E of the man, radiates from the soul. the thumbs are shorter if they bend backwards when you open it means you're a very high giver. When it bends in, taker.

(3:58). When you put your hands together you bring the energy of the STP together, the gap is like the friction between the sun and the earth, so I can create light between my hands. (4:00). 85% percent of men who are shorter then the wife are unfaithful, then they find a women who is shorter then them. ... (4:02). It's very interesting how we shape ourselves, how we stand. People with fibromyalgia stand with shoulders 5 mm

above the chest, a position of protection, like when you have been punched in the

stomach, because they have been abused that shape takes over, then abusers pick them up like nothing, that's why people go from one failed relationship to another because you have marked yourself. When you elevate their soul they change their partners and their body posture changes. Their clothes don't fit anymore because they have grown by about 2 cm, but they don't see that it is only the posture that has changed. You have to look at the STM and what condition creates physicality. When you shake hands with people it can tell you everything about them, even the emotion and what they are thinking. Also by which finger they press. Q: Where do you learn that? I brought it with me from where I come. I carry the knowledge of the U, darling. But somehow you can't teach all of it, but then you go and find out how humans have done this and then you can go to it and say this is what it is (through observing the humans). ... (4:04). Now the scientists that they can't get their technology they issue them as terrorists. ... they want to carry on with the abuse. We have documents to present to the European Court. (4:06). We allow people to abuse us. .. You know by the handshake, you feel the emotion of danger and you know .. we have built systems to protect ourselves this is how we assess ourselves. We hear the noise of the soul, it's puzzling for a lot of people, how do we know what is going on, because we hear the STM, we don't need to be there, and when you are here to serve they bring you in. It's just having the self confidence to know that you are here to bring the change for the better. When you do it for yourself you are the loser, when for others to be better you always win because we carry you through. We always look at the physicality but we need to look at the E of the fields of the souls of the others. Why do you think we are in the position that we are in, we receive so much blessings from so many of you that I don't really care about the physicality because the souls (4:08). are there and they adjust everything else, my job is to bring the condition that I have accepted to do and then the rest is in your hands. ... I am here to serve and I know what my soul has to do, it doesn't matter who comes with what money and where it sits because at the end of the day there is no money in the U. If money is a way to bring peace on this planet, and through it, then those who have will service it because it means that their soul has reached the maturity and they want to be part of it. Us as human beings have to understand when you read (about them) what was their detachment, I am detached from everything, but I am here attached to what I came here to do. But I had to learn a lot about the man, this creature is an amazing creature, it's a chameleon even with its own soul. e have to understand the operation of the soul then in the U we'll survive according to the strength of our own soul and not dependent on others, knowing that when it is needed it will be there. Now there is a time and need for peace and we'll achieve it, you'll be amazed by every possible way. Understand why we are pushing for space technology this year. I am not interested in taking you in to space because you can go with your soul, because when the space technology is developed and the way it's getting developed ... it will mean there won't be any borders, anybody can go from America to Canada, anywhere. (4:10). And when you have people do it this is how to get rid of the borders. It's not fighting anyone, it's delivering technology. Technology for peace. We don't talk about what is going on behind the scenes and the way the governments are working with the KF. ... We continually embark on creating knowledge and the knowledge brings the peace, and nobody understands how it works. I am changing things with knowledge. Many people are on the verge of flight this year. I don't need to do anything. ...

(4:12).

(4:16).

(4:21).

It's the day man is welcomed to the Universal Community .. END ..
