(:12). (:14). (:16).

(:27). KF "peace" coins will be backed the 300 KF factories and all the KF supporters.

(:32). KF coins and how it works ... (:43). We have established a government, a parliament, banking, ... (:45). break in connection .. (:48). break .. (:49). ... (:51). Some people don't like what we said, .. (:56).

... we will not allow you to speculate on the coins. ... 1 million coins released, 5 million shares, on the open stock exchange. Any questions. Q: When they join the KF they have to sign the World Peace Treaty? This will be part of it, these coins can't be used to harm any being on this planet. (1:02). We will monitor that no organization take shares that are involved in any kind of Defense Technology or killing and the rest of it. We will monitor this very carefully. We are talking about tens of millions per day income, the way we are laying it out. Those funds should not be used to harm anybody, but it has to be for the elevation of it. This is why we made it a thousand that the others who need it can have use of it. We'll be transparent. We are not giving as charity, but we need to share the resources of this planet which are a human effort. Factories are where man and the planet put their efforts and knowledge and the entire being for the product to manifest itself. Q: Is the KF coin dividend is that 3% annually? Yes. (1:04). will this increase as it becomes successful and will there be other benefits? We'll look at it as we go along. Don't forget that you are buying into a company or organization, this is not a coin outside in the banking system. So when you buy the coin you become as part of the team at the KF. .. you become a member of ?? KF. You buy into the efforts of the KF factories. Most of these returns at least the first 10 years, will go on giving back and bringing the whole humanity into balance. At the moment the 3% is guaranteed, you don't buy currency, we are not bank exchanging. When you buy a coin you buy a share in the structure of a company. You become part of it. The company has become international in the market that we can all benefit by it. We open the coins today...

(1:06). .. we don't extend the coins for speculation that some people loose their money, it has to be that we all benefit. Like in Europe the governments have taken the speculation out by taxing the gains and the profits go to everybody. .. you sign yourself to peace... (1:08). Shows the photos of the factories in Nigeria and Ghana and Mexico. We have committed ourselves to peace and there is no way to turn back to the past.

(1:10).

... Q: Will there be a limit on the number of coins that can be purchased? Not at the moment. Please don't go and buy up coins because you have money. Buy one and give to others.

(1:16).

(1:18).

... at the moment the MaGrav are still giving 30 to 50% reduction and we're still selling them from the factories. We have sold thousands and nobody is returning.

(1:22).

(1:26).

(1:34). You have to get use to the new conditions...

(1:36). Q: About power ... Nobody carries any power, we are proud to be there but we are not arrogant. These are the fears we have, some may not be able to take it, but we will ... Q: I hope humanity changes their ways. We don't hope we are already there it is just growing more. Q: But the same people .. Why don't you look at it in the way that the people become better and they contribute more, why do we put the seed of

negativity, we have had enough of it for centuries. These thoughts start negativity and create division, if you are waiting for people to betray you, just pray for them, it will to your benefit. Your love will go to them and it will grow. ...

(1:42). Q: Is there a model? No all the models failed. We are creating it.

(1:44). Q: This beautiful river of kindness can I put my family name in it so they can also benefit? (1:46).

(1:54).

(1:58). A tribute to Armand and his wife Sara and family...

.. you are worried if you'll get 3% but we sacrifice our family to get world peace, there is no bank to pay for it.

(2:06). Teaching. Where does the heartbeat come from, the change when we go from G to M and M to G, that switch over creates a pulse we call a heartbeat. 46

... the speed of conversion gives the rate of the heartbeat, if you can understand the work of this it is very easy. Why does your heartbeat suddenly change when you see your lover? (2:12). It doesn't need to do a thing. A certain telephone call brings a massive change in the heart noise. Our emotion is the controller of our soul in the dimension of physicality but we have never understood, but if we do then we can dictate the process by which the structure of the STM interacts with structure of the STP of the man, and how the heartbeat of one creates the motion and heartbeat in the other, that one can't exist without the other, the more clarity in the STP and the STM the more pleasurable the transition shall be. If the STM sees in the conduct of the physicality as ?? one has been as part of its ethos, you find ?? at the end of physicality, is not so harsh as one imagines, it becomes very pleasant, it is something to look forward to, I have done everything there and now I am going home. A heartbeat exists with every plasma entity in the U and if you can adjust to it you can enjoy the pleasure of existence and then you can control everything. But does the STP through the beat of the heart allows the release of certain amounts of the fields which is the essence of the STM (2:14). to be released from the soul to confirm its existence, because one triggers the other and it allows the STM to absorb energy of a higher order from the universal fields, then if we can change the rate of the flow and the strength of the higher order from the STP into triggering the STM to extract more ?? from its environment then man will reach the point of ?? .. in joining with the U Community, because at this point it's the height of the strength, is at the highest of any being on the planet or in the U. None of you have understood but soon many of you will understand. Q: Is the switch over between M to G in the heartbeat, it comes to something like the black hole, that point of switch is almost like it's not there, (2:16). the point between coming into existence and going out of existence? If you look at the rate of the birth when the egg and sperm comes together, somehow gradually they create their own heartbeat and that beat is transferred gradually into a muscle we call a heart. The heartbeat comes when the collection of the souls of the physical matter of the entity combine together and in that process create a give and take, or take and reject, and it creates a center of life what we call existence. Any of us can live in that dimension, have a heartbeat. Anytime you put the Gans' together in a very dynamic condition they create a heartbeat. The teaching of today what I just explained in the last 10 minutes, if you can grasp the whole concept, the idea, essence and knowledge of it, should make many of you man of space. (2:18). Q: When we elevate our soul does that mean we also elevate our emotions and stop feeling bad emotions? Emotions don't ... why do we look for emotions of negativity, sorrow and

pain, why don't we look for positive E to give to be happy to rejoice, (2:20). to share give, and be able to justify to our own soul and nobody else. How many have walked next to your wife and said I just love looking at you, or to your child, or family. Loving is a privilege and the man has never appreciated it. Loving is the gift to humanity and man has abused it against himself .. why don't you look at that when you fall in love you learn how to give, to be generous to your own soul because you give from the soul. Why do we always look at the negativity and that people are going to do wrong, that there is going to be sorrow and pain, .. if we change it, it's not there, it's in another position. It's amazing when I see detachment, I am getting there, not quite there. ... I crossed another detachment. .. now serving humanity is the priority. We need to come to the conclusion that there is no need for sacrifice, very little of that, because when you give from your soul you have already given, there is nothing left to sacrifice, .. it has given everything (2:24). Q: we are all connected through the creation .. (2:28). ... if I understand that if I hurt another soul, it really is my soul that is hurt by it, would you like to hurt yourself, unless you are a maniac, you see pleasure in pain. Q: I don't have to worry with a man holding a gun at me, if I ?? his fields he'll drop the gun? In so many ways but we have to mature, it's the time of maturity. Q: How can we help ourselves and others with addictions? (2:30). It's possible but we haven't had much time, now the focus is on the factories. You can get rid of all addictions, except one, in which it is embedded in our RNA, which is the cornerstone of all the structures of the creations of the man, is the addiction to reproduce, because we doubt it, it doesn't exist. Even those who don't want to reproduce, in totality we always see the reproduction always leaving its fingerprints, it's part of our responsibility ... and the pleasure we get from reproduction ... (break in connection) .. (2:35). ... why the physical anxiety, the detection .., it's the soul which needs to be satisfied on the physical level, ?? and if he can't satisfy it, it becomes addicted because the soul is aware of it, but the soul of physicality is not aware of it and they try to match, and that matching needs additional energy, because it's on a ?? matter state, it's a Gans matter level so you can subdue it or increase it like a physical matter like sugar, or a chemical ?? because it's a rapid release energy in the structure in the body. Every addiction is reversible. ... I have had cases of people 20 years addicted to drugs, within 24 hours they can't even stand the smell of it. (2:36). because the smell is part of the E of the man in the dimension of physicality and the soul of physicality. If you have been a smoker for 40 years to stop can be too dangerous, and if you're in your 50s or 60s you write your own death sentence, because the body has to reverse back in and then the body creates mayhem. Addiction is coming from the STP to the physical soul, one is what creates the body ??, and the other by what is created by the matter state of the body. ?? then you can overcome anything. Why some drugs (herbs) are so effective, you just put some nettles leaves next to your body in that dimension ?? Doctors don't understand. Satisfy the STM, the STP, and the physicality, when you control 2 out of 3 in the right way the other ones will fit in. Then there'll be no addiction. I am sure you all know how to do it. (2:38). We missed the first part of your discourse. Ah, it means God didn't want you to listen as usual. ... Every word has a meaning for you to learn from. Addiction has nothing to do with the E or the soul's side of emotion. It has to do with the STP and the physical soul of the man. They try to match and when they can't, then we try to create a match for a short time, the more strength you have in your physical soul and the STP, understand that they are separated. The soul of physicality and the physical soul are totally separate, one has to do with the physical body that we leave behind, and one with the soul or collective (effective) life of the physical life the man creates, and addiction has to do with this part and has nothing to do with the STM. The minute you go into the soul business you'll

find that the addictions are lost. If you can go in the direction of improving the soul, the energy of the both sides, the physicality and the energy of STM, or the physical soul (2:40). then you'll be able to walk away from the additions. It can be reversed in seconds. What we look for is that matching ... if we can't match our physical soul to the STP so we try harder and we look for the energy, which is drugs, sugar which is the alcohol. A drug raises the level of energy. And that is what we are looking for. It has to do with a physical entity matter and not with the soul matter. Souls don't get drunk. If you want to see one, you're quite welcome. Drugs, sugar, adrenaline, why do we go after these, dopamine and the other things we get when we gamble. Because it is the energy which pushes the neural system on the physical soul level to the soul of physicality, we want to bridge it to make it one, and it doesn't happen. You can help a little bit from the soul side, but you can't do much for it because it's the interface between 2 different levels of entities of energy. This is why addictions are so hard to reverse. If you understand it, why do we get addicted to sex, why do we do it regularly or get involved with another partner, what's the payment, that adrenaline, that giving, that love .. which creates ?? and it's all physical, ?? your soul (doesn't say) it's time to make love, or go and find another soul. It's your physicality and the STP and physical soul, .. that have to confirm each others existence. (2:42). we confirm with another physical body ... to satisfy .. but to ?? it . (2:43).
