

25th Knowledge Seekers Workshop Aug 28 2014

Fundraising, Building a Capacitor from last week, only have to scratch both sides of wire, the Cu wire is the capacitor, still get AC/DC, Fukushima tritium changed into Gold, Story of how sheep gather gold rare earth minerals in fat, processed away, Chemical Sugar leads to cancer, when it touches tongue sends signal of massive Sugar coming organs adjust to signal, body begins to ignore when real sugars come in, Only the energy of chemicals cross the stomach wall not the chemicals, This technology effects the RNA which changes the DNA, Asthma is a psychological disorder, Electrodes inside a sphere, More fields stronger near the Earth surface, sleeping on the ground you feel better, Earths Axis slightly tilted gives different effects (life on earth), Key to Patents, take one and bring into the other all patents have to be read together even the health patents, What conditions created to liquefy the Lymph and they solidify the lymph, they use the principle to dissolve the sugar lump, From the scrap yard materials the process is how to use it in a gravitational magnetic field, if you have a matter convert it to what you need in a plasma field and then manipulate it, then understanding as a plasma, free plasma, and a plasma as a gas, the matter itself is a plasma but of a different strength, then play at creation level, you have a invisible plasma which is a gas, in a different layer is a nano, the same plasma in different strength in a tangible way (matter), the 4 states exist in every strength level in the universe, In the lab we create different strengths for you to see the different creations of God, the theory of light-years to see star is rubbish, you see it instantly, Twin universes, not parallel universes, Third Reich in Brazil developing UFO technology, Teaching military of different Nations to protect from what's about to happen from Alien forces, Nasa space rocket propulsions finished, Have Fukushima work with Japanese Government, emails can release, How to make the structure of Man in a cup, Had the technology 3 times this is third, (Egypt), Music is physicality of ears, Universal Rules of planets, don't bend but make aware of conditions,
