

272nd Knowledge Seekers Workshop - Thursday, April 18, 2019 (Soul blueprint coming to close of teachings, ,)

(:09). We have started anew cycle of teaching ... it is part of the progressive understanding of the totality, which we started out some decades ago and we are more or less reaching the pivotal point of all the teachings. These teachings are coming to their natural conclusion ... we have taught everything from matter to Gans state. We came to understand the working of a plasma condition which we call the STM, the same as the soul of the planet, we hear the stars and the planets and the human body and the animals, they all have a heartbeat, which is the manifestation, confirmation of physical life, the physicality. But the STM has a heartbeat too. The STM is no different then the structure of the soul of a star. What is the purpose of these beats, or this purpose of life, of a life within a life which through its manifestation leads to confirmation of creation. (:12). And a collection of the work of fields together. Wherever we look all the works of the U is exactly the same, it's just how you position something that it leads to that point. In the life of man there is a problem between the 2 heartbeats, the heartbeat of the STM and that of the STP. Planets and stars usually have 1 heartbeat, in some cases we find 2, and in some cases stars and what we call twin sisters, collectively have 1 heartbeat, that responds to the other and this is how the strength of the fields of the stars tune to each others heartbeat of the souls. It's the same when the heartbeat of the physicality tunes with the heartbeat of the STM. If man understands this he'll come to one thing, the prime objective of all the teaching, which is peace. When the heartbeat of the physicality and STM match and work together, the physicality of the man finds peace in any dimension of the U. (:14). There is always confirmation of the physicality for confirmation of the existence of one to the other. There is always a need to understand this. Why man has failed to conquer the space is because he hasn't understood the reality and the fact about this work of hte U. In the literature of man in the past times, you have spoken about the Adam and Eve, and how Adam made Eve, one gave the existence of physicality, and one through its existence gave confirmation to the soul of the other. We always look at what Adam gave but not at the fact that what he gave was to confirm his own existence, how own love, to confirm the dimension of the physicality. Otherwise it would have been the essence of the work of the U without dimension. The Creator wanted to confirm His own creation and His own existence. And the man was told this story but at that time man could not understand it. In the life of the human race man has separated the 2 and this is why he can't find peace within himself and with the society of the mankind. When mankind reaches the point of the totality of the STM, (:16). and the totality of the soul of the earth work in harmony as one heartbeat, then the physicality of the man will become part of and works the same, and man shall find peace and then man will join the universal family. 21

(1:00).

(1:12). ... I am tired ..

(1:16). .. the Creator is tired of this unruly children. Rick says, Does he press the reset button? We have done it many times, it doesn't work. Today you have learned a new way to travel the depth of the U without a SS. You still want factories, would that help man or keep him longer in the harshness of physicality. It's very strange when man comes to the point of separation, he wants to stay longer, why? For his physicality to abuse his soul more. Why we don't understand that when the time comes we submit to it that allows our soul to take to the dimension of U Community. Mankind has a problem with the (1:18). confirmation of his own existence, and because he has never understood the twin life of the man. He needs to be aware of what does it mean, what do we want from this existence, why can't we find peace. 52

(1:32).

.. today is ?? prophets Day, (1:38). because we have fulfilled the prophets, that you understand the totality. The Christians have been waiting for it, and the Jews, Moslems, and Buddhists and the rest. Now we have fulfilled the prophecy. From now on it's in the hands of the man. The beauty of it is this time you can't put me on the Cross. .. audio lost... (1:40). (1:44). .. I think there are people playing in the background interfering with a lot of things. (1:45). ... As I said, this time you can't put me on the Cross because this time the Cross is with you. You have to decide if you want to turn right into the Cross at the junction to take to the dimension of the U Community or turn left at the Cross to become being imprisoned by the dimension of physicality. So you have to choose, it's your choice. (1:46). ... I can't see what you will choose for your soul and I can see a lot. There was some writing in the background, do not say this or that, can you see it Rick? ... I think there are a lot of people who don't want me .. (1:48). Can you delete or stop this one called "Spaceman". Put him in the space. What we have to decide is where and how what to do and where to do and how to elevate ourselves. It is not the possibility, it's the totality, which means we need to be where we decide to be and how we elevate our souls, in how we enter the new dimension, in how we decide to take the dimension of the space travel ... (1:50).

(1:54). ... Any questions. Q: Would it be true that some souls can be elevated and some cannot? The man is the decision man, nothing but the man himself. Q: And some want elevation and some don't? In a way, put it this way, how many times have you been to see Mom and you have already matured and you have your own children, maybe, Mom says, stay for the night, and you say, no I have to go home. (1:56). But in fact, you really want to stay with Mom. 06
