

284th Knowledge Seekers Workshop - Thursday, July 11, 2019

(The teachings are now going towards the soul of the man connecting with the Creator to become part of the Creator, The soul carries the totality of the knowledge of the creation, The hemoglobin created from CH₃ is pure and can be used to contain a creation of the soul of the man and a physicality, "I can create anybody I want", The salts are the ?? energy of the soul, , Holding the breath to feed the soul with universal energy and release it, ,)

(:19). We might have a lot of problems with internet .. (:22). In the process of understanding the T we have endeavored in many ways to extend our knowledge beyond what we ever thought was possible that we could understand, we endeavored to understand more then we thought capable to understand, and in that process many of us gotten enlightened. We came to understand more capacities of ourselves in every aspects, we can understand the work of our soul, of our physical dimension, the totality of to the limit of our comprehension of the extent of our life. For the first time mankind has been given a choice that he can develop to live in any dimension. This is what we were not aware of and this is what we try to extend the knowledge into, that we are capable and have the potential and we are worthy of understanding the totality. And to the extent that we can understand we structure our knowledge according to what we have been taught up to now, 'I know mathematics and I know how to calculate, I am a doctor and I don't know about physics,' and we pigeon holed ourselves, (:24). according to the knowledge we pretended to know. Now with the understanding of this T the pigeon hole has gone, there is only one hole and that is the knowledge of plasma, of creation. Now we see that we are capable of everything, we can make some energy and if tomorrow my child is sick I use the same thing to get rid of his headache, later when I plant a tree I put some Gans in it, etc... Suddenly we have become a master of knowledge. We don't need to go to a pharmacy or an agriculture shop to buy a fertilizer. We are gathering knowledge and this is the first stage of it that gradually most of you K Seekers are becoming masters because you have taken the limitation off your understanding. ... Now you don't need anybody to tell you what you don't understand because you're not a doctor, chemist or farmer. You are everything and this is what the man has to be in the space. This is the whole target of all these teachings. As I said from the beginning of time, 'The last man standing', you decide your life in the depth of space. If you take your knowledge to another level it comes to the point in the maturity of time and knowledge and space, (:26). that even I decide how to manifest myself and this is the beauty of the new knowledge. Not only when you appear in the dimension of physicality in that dimension, because the knowledge you carry through your soul decides how you are going to dress yourself, how to present yourself. Now for the first time man doesn't need clothing to wear to present, manifest in any dimension in the U because he decides through the knowledge of the soul what is appropriate and how he wants. This is a major break away from all the knowledge we have up to now. Up to now if we want to go to a party we go and buy a party dress, etc.. Now we change position from one galaxy to another, from one space to another, we decide in that space how we are going to present ourselves. We have become the controller, producer, manufacturer of the ?? of our physicality. This is where these teachings are going. A lot of you have listened to me many times and I have referred to what we call the messiah, we are all Messiahs, we all have found the answer to our souls and our physicality but there is one line of the teaching which many of you will understand in (:28). due time, and that is, what is the purpose of all these teachings when now we know there is a

Creator and we have a soul and somehow we have to make a link between the two and this is why we are here. We said we are the messengers of the STM. The link between the Creator and the STM and all these teachings are to guide mankind to his soul to become part of the Creator, and not for him to make electricity or Gans or whatever. We live because now we have decided for our soul to manifest upon this planet and there is an old saying if you don't want to be embarrassed be like the others are. When you come to this point you understand the whole purpose of our teaching in the past years and in bringing so many messengers has been to teach man and to bring us to the final position that we are here to take the STM to meet the soul of the Creator, and that is all it is. You call it in Christianity, (:30). 'In the name of the Father, Son and Holy Spirit,' we are the Holy Spirit, the connection between the two. The messengers of the physicality have completed their jobs. Now that we teach and we understand the soul, we can't teach the soul because the soul understands totality, about don't do this, there is a punishment there, no, it's just showing to the soul, the path to the Creator and that is being part of the soul of the Creator, in reaching the hand out to call to guide the soul of the child home, then you can exist in any dimension in the creation in the world of existence. In so many ways the job is complete if man understands how to reach to access to become part of the soul of the Creator. I have done my job, I have shown the path. We'll still teach everything else because so many have to be guided home, and in the same way as you become part of home then it is where you entertain guests and friends, to look after those who started the process for mankind millions of years ago, until he reaches the point of maturity of understanding the totality today. (:32). We'll still teach more for you to understand more, we'll still go more in depth in teaching and how you can do things to make your physical life comfortable, but in reality gradually as we progress in the coming weeks, we'll show you the path to home. Last year I started teaching about the soul, we have had a year of teaching, of you trying to understand the soul, now we enter why we have shown you why this machine works. Now you have to put it to the test, take it home. There is only one driver for this car and that is you. The STM carries the totality of the knowledge of the Creator, not part of it. When mankind becomes kind to himself he'll understand the purpose of all the teachings. This is why we always taught you about the Messiah, you are the Messiah of your own soul. You have to understand the totality of the work of your own soul, nothing else, that is the only thing that you have to do, and now that you have understood, it's our job to show you home. It's not that I have come to take you to see with your soul planet Zeus, or another galaxy. (:34). When you become part of the Creator you are in every dimension of His creation. This is the job, this is why we become Messengers of the STM and not of the physicality even though we had to come in one way or another to get your attention. It was the only way we could keep the children of man entertained that they could learn. As I always said in my teachings, physics has to be fun, and that was making Gans's, space reactors, MaGrav Units, keeping them entertained and little by little teaching about the soul. You always believed in Father Christmas, and then you mature and say, there is no F Christmas, it's me, it's Papa he brings it and said it was F Christmas. Now we have come to that point that man has to mature to understand the job, the purpose of all teaching is to bring the STM to the soul of his Creator and through understanding of that to become part of, that in that process he becomes another creator and this is more or less part of the cycle complete and as you know I never show all of my hand, it's the easiest way. Mankind is so immature that he is happy with a little bit to play with, 'as long as I am busy it's okay with me.' (:36). Progressive understanding of the STM but you have to remember that whatever man has learned in his time is part of this planet and part of the U, he will

carry that with his soul to become the knowledge of the Creator, ??? The STM at the point of maturity which is now takes everything he has seen in the process of getting to this point from the point of separation from the soul of the Creator to the point of going back to, is just like reporting back and putting more knowledge in the library of the Creator, that is there to be, to understand, for those in the future in the process of creation can use and be shared with. This is our job, we are not messiahs, not the Methi, they have done their job, they have been and are gone, the return of Christ was completed long time ago. We are here to take the STM to the ultimate point of becoming, the unification with the soul of the Creator, and that is my job and there is no name for us in the vocabulary of the man. You were looking to call Methi, or return of Christ, it's all past, go back, look 200 years ago (Bahai). We assumed the man has matured by now, is ready to leave the understanding of the physicality and understand the connection and the path to, what we call, (:38). understanding that is part of the totality in the dimension of the Creator and it's not something on ??? its own. If you understand this now you understand why I repeat that we are all messiahs and the rest of it, because you have matured to the point of the maturity of the physicality. Now we have matured in one term the STM, and it is to a man to connect the two together. He has a bigger job he has to move from the dimension of the physicality to the dimension of his soul and understand his soul path to his Creator who lead to his creation, and that's what we are, we are the path, we are the torch bearers keeping light that the STM can find his way home. This is what goes back to the beginning of the teachings, we are called Universal Messengers. We understanding the totality of the creation and if you look in my teachings I have shown you everything, any subject we go in depth, we can put it in the library of the knowledge of the U in the dimension of physicality. What man knows about the knowledge of physicality is so simple, you haven't even understood the level of the work of higher physicality, but man has that talent, a gift that he can jump that barrier and then with it decide. (:40). In the teachings in the past few weeks I gave a lot of hints to this point of today that we wash our hands of being a child and maturing into the soul. This what we teach today it will take you hundreds of years to understand the totality of the time of the man. And maybe in one instance you'll all mature. It's just if the STM reaches to the point of maturity. We start teaching about the path to the Creator for the STM to find its way. We have done it in a very slow pace because there are a lot of things left in the dimension of physicality in the cooperation of the STM, how to handle it, that we can come to the other ?? ones. How you don't let the STM to disintegrate because if it's not understood, it will loose its path, its physicality and in a way the containment of itself. Man should have understood how his soul breaks up, open, and how it reaches separation in dimension of physicality. You have not understood fully the operation of the motion of the fields, because when it comes to the dimension of understanding the path to the Creator through the STM, now that we start guiding you have to understand what are the limitations, and how do you break free from the dimension of physicality. (:42). How do you allow yourself to mature, how do you free yourself from the shackles of physicality, how do you repair the physical condition. The time of medicine, herbs, and operations is over if you understand the dimension of the STM. In the coming weeks you'll see systems which feed only, repairs only the physicality through the dimension of the soul. We have reached that point that it can be done. When we do this then what is the expectation of the man from being here, expectation in the dimension of physicality. When I stood in front of the machine yesterday, I said the man has a spaceship, has a machine for elevating his soul and a system to repair his physicality, all in one system. When you see and understand the T then you'll see that the system becomes part of you that it

becomes part of the containment of the STM and then through it becomes the freedom of the STM (:44). then in the dimension of the soul of the Creator. Many of you haven't even understood how you loose your life in the physical dimension. How the Gans's in a given temperature condition connects to containment of the STM. ... you now understand and I have to explain (to the others). It's very simple thing. In a physical dimension we get a temperature, the doctors tell us that if you pass 42.5 - 43 maybe 44, that you'll have permanent brain damage. It means your brain cells will somehow malfunction. And we see the physical damage to the brain, what has this meant to the man up to now? We didn't know it was just a brain cell, but now we know that, that brain cell is made from the plasma of Mr. COHN and its connection to the other materials, whatever we might call them, Mg, Co, i, but why does a temperature of 43 - 44 creates that separation? That shock, you can go into anything else and the cell disappears or gets dissolved or whatever name you put to it. (:46).

.. You learned through the Gans Boxes and AA how to make blood. This blood doesn't coagulate, it stays in a Gans condition because it has not reached the condition of the emotion. (:58). Blood only coagulates when it has reached the condition of emotion. 'I don't want to accept this so I close everything down, I have too much heart pain, I coagulate where energy comes to the brain, I don't want the brain to see so much pain.' You get vascular blood vessels on the side of the head to block the brain. If the doctors understood this then they would understand why when we tested the blood, it fits everyone, because it doesn't carry emotion when it enters and inhabits the body then it carries its emotion and then it can create all its conditions of existence. If you understood this and many of you managed to create a circulation of this hemoglobin (Gans box) and you could maintain it and you could create a condition of the STM, you will lead to the creation of the physicality of the man on this planet. I can create anybody I like. The process of physical creation is not hte way man has thought, a big mystery. We have given you all the tools of it, to test it and understand, (1:00). that one can create a soul and create the circulation of the containment of the soul09

(1:06).

(1:16). ...

(1:18).

.. As you have the salt to open the cells of an atom into a Gans and to confirm its existence in the dimension of energy then that salt is the soul of the Creator in the dimension of the ?? STM. (1:22). If you understood this it's very simple to find the path to the Creator. It will take you some thousand years to unravel the last ?? ten minutes. Any questions.

We have no answer to the ones who want to know how to make the Gans of the soul and the Gans of the soul of the Creator. Q: What is the difference between low self-esteem and humility, or a slave and a servant? A servant is what it does to please, maybe with the expectation of getting something, the slave is when you have to give without your permission. (1:24). That is the habit of man. You serve and with it don't expect, with the slavery you are forced to serve with the expectation that you are below the one who has forced you to serve. We don't see any slavery anywhere in the U except in the brace of the man. If there was we would have seen a lot of you on the chain and

shackles somewhere in the U. Man is so feeble and so below the understanding of the level of the universal community, and those who ?? would have taken the whole mankind into slavery all over the U. ... we have never seen any of our children snatched and not brought back. There is no slavery in the U except on this planet. We serve out of the pleasure of allowing another to be higher than you and it's the pleasure that I have been there to be part of it. The sooner we learn this, the sooner man will ?? (1:26). Any other question. I have taught you a lot today, this is the mystery the mankind has been waiting for his whole life of this planet, but which one is wise to understand, it depends on the maturity of your soul. 36

Q:

... the salts are the connector between the plasma of the energy and the matter state of the plasma. (1:30). Up to now we always looked at the acids for the energy we never looked at the puller, what holds it together has the energy and as you see you get to the point in the world of physics that if you have such a strong M somehow it becomes G to feed. This is what we have to understand. In a way you become so acidic at the verge of becoming so acidic, that you become alkaline, there is no line of cut, it's the line of what you fit when you reach a strength that it is a strong or weak enough that it fits, something, of another fields, that it allows you to be part of. We always never understand until we explain that in the world of physics they always looked for where is the point of change that fields change from G to M, until in the books and teachings, is literally if you look at it is to the eye of the beholder, if you look at it from that way it is coming to you, but if you look at from the other way it is going away from you, it's G getting pulled somewhere. If you go by the same principle at this point you are acidic, and here you become alkaline. (1:32).

(1:38). Q: I am wondering if you have a memory of a previous planet where you came from, or do we come from the soul space and those kind of memories get erased from the soul's perspective? Nothing is erased. We don't teach this way if we haven't been to other schools and saw how the other students have misbehaved, we know how to tame the man. We are well trained and you can't train if you don't have experience of. The planet Zeus is the best ?? disguise. Any other questions. Q: Should we be preoccupied by those who want to create the STM, or woman, or the Creator, by that she means those who are abusing the knowledge for their wills? Oh, they can never abuse it, we give you a toy to play with we already have control of it until you understand it. It's just a toy to keep you busy, we keep man busy with work and factories on earth we keep the soul's busy with something else. (1:40). Q: Our God has a Creator? Do you mean God of Gods? Q: Maybe does a Creator have a Creator? You haven't understood have you? I made man in the image of Myself, why do I need to have a Creator? Any other question. Should we call it a day. Today's teaching will take man a thousand years to understand. It's the first time we have shown you the path to the Creator. Then how you understand it ??? you want to see if you can do it, create another soul ?? to see if you can do it then you'll call yourself creator and God, then as we have seen ?? they learn how to make the MaGrav or whatever and then they became the teacher of Mr. Keshe. They taught everything and we copied them. (1:42). There is a guy on the Internet, it puzzles me, anything on the Internet he says this is mine and they copied me. ... I think his name is Justin Smith, everything created is his. ... I think it's just in the brain that it just doesn't

understand it. Whatever you learn belongs to everyone and not just you and if someone does it you have to be proud that my knowledge has been shared and not crying that he stole it. I am sure many of you will try it, but remember when you try to create a soul and a man, he is 3 dimensional. A single pipe and ??? ?? and then what you have to understand can you handle what you have created. Imagine that what you create is as bad as you or worst then you, will it become a master and you a slave to it. (1:44). Creating and having confidence in what you have created it needs a lot of understanding, a lot, a lot of comprehension of the total work of the U. I don't forget and I don't forgive, just pretend that I have forgiven. Any other question. Q: Hassan had a dream where he saw me in the dream and showed me this, you said in the 272 KS Workshop after 1 H, 1 minute 45 sec mark, if I change my breathing would I change my heartbeat that it tunes to my soul that I can achieve that dimension, then Mr. K you breath in a special way to me after this sentence ... of awareness and become part of the U Community or do I chase in the path of killing that I can never achieve that? My question is, (1:46). are you giving us hints sometimes on how to breath to be able to free the bird from the cage? Love you all from Senegal. We you love, some of the most beautiful countries on the planet I had the pleasure of living and working there for some time. In so many ways, do we slave our souls or are we a slave of our soul, or is there a point of compromise? Do we create that point or do we understand the totality. Do we understand the process of the freedom for both, the freedom of one allows the freedom of the other. When we slave our physicality or our soul through the physicality, is it by choice or is it to create a condition that we can extend to a higher order the level of our own understanding our own existence. If you read that question again (1:48). and understand what I said, we might find an answer. Rick reads again. ... Let's see what it says, if it's a special breathing then what happens when you breath in a certain way. You have to go back to the teachings of the past. He draws a head. If you look and understand the totality. ... (1:50). This is your blood circulation, this is the passage of the energy. When you breath it does 2 things, the energy goes to the soul, this is why the nasal cavity and passage are here. It's a direct feeding of the STM. Then this goes into the lungs which feeds the containment (blood circulation around the brain). If you can breath in a way that the containment and what is contained balance in their fields between (them), it's exactly what I explained to you about Mr. COHN and Ca, you can create a condition in balance, the STM can extend beyond the boundary of the physicality, because now you have changed the game, you are not containing anymore, you are equal. As the soul receives the first energies it becomes more powerful, and the emotional containment or the blood becomes lower (in strength) you allow the soul to bypass its cage. (1:52). But still through the breathing it has a connection ?? of physicality because it takes breathing, not air, breathing is adding form the energy of the universe, you call it air or whatever. If you can reduce this cage you'll find out that the soul finds its new passage into the dimension of the universal field flow, and communication with the outside or creation of the condition. This is what happens to us in sleep and that's why we dream, we reduce, we still hold the seed of the soul but it expands to be ??? beyond everything else, the future dimension of meeting the soul of the mother or anybody else, or you go and see Rick. Because you wanted to see the Rick, he is there he serves everything, I want to see how does he look in his soul. ???? the ?? man doesn't end up with the dimension of physicality. The most purest creature in the creation is the Creator Himself, you always ?? wanted to see what happens when I mix this with that or cross that. And man is one of those (creations), what I call, what is going to happen when we mix it this way. Now you understand why you ???? how you can. But again the emotion of the man has to be at the level of the virtuosity and not the

slavery of the STM. When I do what I want to gain from it. (1:54). (rather) in what I do what am I going to give with it, then you can bypass, allow your soul to extend beyond the boundary of your (physicality). How you breath, what you breath, why do you have a gate at your throat, why is there a passage that you can lock it. If you want to go through the passage of the elevation of the soul understand the structure of the physicality of the man. You have in your nasal condition a position that you can close the gate, and hold your breath. In that position you can allow the soul to take what it needs and then release, that the lower strength feeds into the dimension of the containment. It's of the highest order, but the lowest order of this matches this. It's not that you breath ... one of the ways of it is holding the breath, to hold the breath so that the soul takes from the air what it needs ??? that it gathers strength from the environment, then at the same time as you are depleting the time of the energy out, the containment reduces and the soul increases. (1:56). The STM takes to ?? the creation. Many people go ... the secret to it is to hold, block the passage through the throat that air blocks itself and releases all its energy, because the air you breath is AA in the Gans state, and this is what I have said many times before, man never understood why we breath or why the structure is even this way. How do you win a war, win a game, how do you play a marathon, you need strength and you rely on your opponent not to catch up, not have enough strength that he can break away. In that process because the 2 are connected you can let the soul free because you fed the soul first with the highest order, magnitude before it gets diluted in the lungs and everything. Now you know how to let your soul breath if you understand the process. It's going ... You have to understand, 'I satisfy the need of the soul', but I don't damage the soul of the physicality. And that is where all of you will fail. Now maybe for the first time you understand why you have the possibility to hold (the breath), this is what the soul does. (1:58). He has to create the physicality, that I take what I need, first because I have to exist that the physicality can exist. It doesn't come back on the back passage. It takes as it comes fresh, and what comes from the universe, as it extends it, and it reduces it, it pulls in from the U. If you can create a condition that the energy that was in the blood vessels, the emotional part, the containment changes, as it is weak, it opens up (and the soul can go out). I told you I'll teach you everything man needs in space. In the new systems that are getting developed you'll see, they're in the trail tests and it'll go into the next phase. I do not touch systems .. it doesn't matter if you have Parkinson's disease ... the systems we develop are to elevate the STM that he is happy with his physicality. If he knows that his physicality has no reason to be, then he still dies when you go into the system because the soul wants to be free. I change the blood vessels around the brain to the system which I have created. Don't forget I am the creator I know all the tricks ??? . And I am a magician I know how to ?? The guy could raise the dead. I create death from nothing to raise itself. The dead (is) the physicality and not the STM (2:00). So I can feed the soul to create ?? (a body).

Q: Did you say Tuesday you'll release the penultimate system for feeding with the rest of the systems we are going to do? Yes because we have to feed you in space. Good god how many UC members are present.

Q: Is there a secret in the position of the brain that the past prophets taught? The prophets never understood that. (2:02). Q: They just delivered without understanding? No, they looked at the physical dimension, never were allowed to?? not understood the position, to reveal the work of the STM. If you don't teach then the man has to find it himself, then it changes the grain of the man, and the hope was that one day man will find out, but those of you who forgot the path, they created enough mayhem. They don't talk in front of you, they talk in the back of w, then they could have said what they

understood, then you know what they would have done to them, they put one on the cross, they put 900 bullets through the other one. The knowledge has to be understood and then it can be played otherwise there is a lot of power play and a lot of people don't understand, they don't want to understand, they like the way it is. (2:04). Q: If you are married to me, can I figure out what is the knowledge that you have brought to create the right conditions or positioning through the Gans's or whatever system they want to use for that balancing. ...32

(2:10).

(2:20).

(2:26)... Since we announced KF Global we get many people who want to buy shares. There is no problem, in a way you buy into where you want to serve. ..

(2:30).

(2:34).

(2:40).

(2:42).

(2:48). Q:

(2:50).

.. If you think you have seen the God with your own eyes it means you have not understood, in a way it means you have no eyes to see. (2:54). We taught a lot today is another change of game to a higher level, it's another opening for mankind to understand his own position, their own understanding, strength, man has no failures and no weakness, it just has to learn how to strengthen its weaker points, what is not ??? Q: When you say we who is this we you are referring to? Which part of the we. Rick says, I thought you might say that, it's really depending on the conditions because sometimes when you say we you mean all of humanity, sometimes it's all of the K Seekers, ... sometimes it's all of the universal community. ... I ?? have to say we, we of creators. It's nice to start a new phase of teaching for us to understand the next step, what is and what is to come, and what do we need to be proud of who we are, that's the next step (2:56). ... when the soul leaves the body it doesn't go and sit in a corner and say that's it i have got rid of the body, I have done my job now what am I going to do. It has its own cycle of life, existence, and it has to live in that direction ??

Thank you for today ...

Those of you who want to buy shares in the company, just give us time ... (2:58). I have to watch what I say I was told a week to 10 days. ... (3:00).

We are responsible for those families where the T makes them obsolete. This is how we have to be and how the new cycle has to work.
