

285th Knowledge Seekers Workshop - July 18, 2019

(Iranian peace and Trump visiting Iran instead of the 2 ladies on the way to the Whitehouse, The peace dividend is being shown first time the path to the Creator, You go to the Creator as a ray and get radiated back out to be a co-creator, The secret is in the Amino Acid, ,)

(:10). Happy Birthday to Caroline tomorrow. ... We see a lot of changes and good news that doesn't stop but builds up in all directions. I have been rejoicing in the last 24 hours as we have achieved and hopefully we'll see what we promised, (:12). the end of wars. Humanity has matured and it seems the common sense of humanity has prevailed we see new movements, what we asked for, what we promised that there shall be no more war. We have finished with it, whatever is lingering will finish in the next 12 months, whatever. Humanity will find a solution for it. I have taught you a lot about politics and the world of diplomacy, science and T and everything else. ... The coincidences are not coincidences they are set up that way, the people in public do not understand, but as you are well taught by a master of diplomacy, ... Conflict between US and Iran. .

(:14).

(:16). .. Iranian is in New York today ... the peace plan is underway ... Trump will be in Theran Iran will develop a massive space program but this time it will share with US, China and this will give a lot of strength to all of us. (:18). ... We have entered a phase of peace. President Trump will be invited to Theran. ??? If Trump doesn't go to Iran then it will be too late for next year .. We will see 2 ladies head for the Whitehouse. .. (break in transmission) (:20). ... A lot of people don't like for this to go out because they want it to be coincidental by accident ... When the 2 ladies come to the Whitehouse they will go to Iran as we respect women deeply in Iran. They'll receive a better reception than a man. But I don't think he is going to leave it to them .. we see the peace completed. The difficult part is how US will handle the dividend of peace, some much defense technology which has been built up and so many soldiers to go back home and will it go on creating endless employment. The beauty is that part of this peace dividend will create more jobs in the US. (:22). ... There were 4 Nobel Prize nominees Zhi, Trump and Iranian President, (voice not clear)... a lot of people don't want this going out. The reason we release it is we don't let the course to change., we keep everything on track. The Iranian administration is peaceful but carrying a T for Iran is ???

(:24). What is the next step for mankind and how are we going to handle such a gift. Our we in position to understand that peace is a part of the life of the U and would we embrace it? Would this be at the level that we all collectively achieve and to keep and hold and to become wise to devious people who benefit by selling and providing things, be it arms, drugs or anything else. Our problem is immense now that we have entered this phase. The employment in Western Europe will rise drastically because it is one of the things we have in mind. Many countries who are geared up for war and military will suffer heavily. What are our nations and citizens going to do, how are we going to achieve and hold on to this proposition that we have created. How are we going to keep to the track and not fall back into the bad habits. What are we going to generate to guarantee a continuous business to keep humanity busy. Are we going to culture into space, looking into managing everything that we did wrong for the past centuries and trying to put right. (:26). Be it the oceans that we have polluted, be it to the extent that we have not realized what we have done to ourselves on this planet. 12

(:30).

(:32)... We expect to learn from the TCM and to incorporate it into the work of the KF. Initially we go through the passage ??? then we develop it step by step. ...

(:34).

(:38).

.. What is the next step for all of us now that we have handled the warmongering, very soon we'll handle the drug mongering. And then there is no addiction, they can produce as much as they like but it will have no effect or needs for it. It will be released as part of the process in the water systems in most of the nations. By drinking (the water) you make yourself immune to it (drugs). It's that simple. All of us who can't sit next to a drug man, we never touch and this is the process we need to do. The next step for us is the release of this T in a way as part of the medical and health aspects of the KF, will come to the Health Center, (:44). through the Austrian manufacturing, which is the center of the health development of the KF. .. In that process we'll go to the next step where humanity needs to go. What does humanity need to know about himself and his environment, about how we handle things, where we come from.

(Starts teaching ..)

In my teachings we started with a matter, we spoke about the matter and how it broke up, and we came to understand more and more about how the structure of the matter can be utilized to create what we call the separation of the matter compounds, as we call them molecules into the atomic and as we went through the process of the structure of the molecules we came into the Nano materials we learned to become part of a plasma or what we call a Gans. (:46). In that process of making Gans we created fields, and in that process we came to a source from where the fields came. Up to now we have taught you up to here (Gans), now you can mix some Gans's together, fields together and go back to matter. But you have to understand that the world of creation started this way (from the Source) and not this way (from the Gans). In interaction of the fields of the U with each other they created a PI and in the condition of the PI in the atmospheric condition of the environment we created the matter. But the most beautiful thing to ask about where the teachings of the KF are going, from now on we are teaching you to go this way (back to the Source). .. As the rays came in to make the PI, where did the ray come from? As we have managed to create rays from the matter, and now we are going a step further, to where the ray comes from. As it is a part of the KF teachings, the ray comes from one source, the Creator. ... I always promised you that I will take you to see your Creator. (:48). This is what it is. If understands that now that he has achieved world peace, peace on this planet to be structured. Now that we have brought you to the dimension of understanding the soul of yourself which is a PI, now through the same direction we take you to what created this PI to start with. Which in due course for those who elevated their souls will come to understand as a ray will go to where it started. The process has not been to go from PI or energy to matter state, the whole process has been to be able to go the full cycle. The process is about its completion. To you ??? you could not understand why and how, but now you understand what I said, it's on the logo of the KF, it says where science meets the STM. I made man in the image of Myself, and where science will take the STM to meet his Creator. This is the process as you understood that your soul was a collection of the fields of the, what we call ??? the physicality of the man. Now you understand that the soul was created from the rays of the cosmos, in these rays it doesn't matter which universe you are, it always came from the Creator and now it is for man to understand this process. This is why I told you that

it is the biggest peace dividend mankind will ever receive. (:50). In the coming time, in a step by step process I will take you to meet your Creator. Then it's your responsibility to prepare to be a part of it, to radiate to go through the whole cycle. Where you carry the soul of the Creator to be in every created things in the U. This is the total, as I told you where we reach the total peace for mankind which we see has started, we are preparing you not for the spaceship to go across the U, not to travel with your soul, but to understand that your soul has the essence of creation in the center of it, what we call the Principle Matter that is in the strength of the strength of the soul of the Creator. If you understand in a very simple language, if this is the soul of the Creator, and this is the STM, we always said that what comes out of one goes (into the other), goes back to. And it always comes out in the shape of a ray, ?? as a Pl. It's for mankind to understand the process of this development from now on. Not to be trapped into the understanding in the world of cosmology or planet or the universe, but to understand that in reaching the Creator you carry the totality and you decide. This is our job as universal Messengers, to show the man the full cycle, (:52). as we showed from matter to energy and back to, what I call the maturity of the STM is not in energy, and is not in the writing of the prophets, transmutation of elements, in understanding the transmutation of the STM to the soul of the Creator. Now you understand what is ahead for mankind. You do the soul searching ?? what is inner me that I can become inner Him. What has created me that I can feed Him that through feeding Him he feeds me to be able to create a condition that I create a peaceful world. This is important for the souls that have been created on this planet, as they have suffered and they know the pain of war they'll make sure that no wars will happen anywhere. Mankind has been put through a test to mature him to understand the pain and suffering of wars and destruction and in that process we bring man to the point of understanding. The whole purpose of the teachings in the past years is to go back to, and if you understood all my teachings from the beginning I always said that book #8 will be about M fields and Book #9 will be about the soul. Mankind was waiting to understand about the soul of himself but in reality it was so I can take you to see, to show you the soul of the Creator, which in that process as a man you'll understand the teachings of the whole of the KF. (:54). When I said I would write the Book #9 about the soul it wasn't about the STM, far from it, but as mankind thinks he is the best and has everything, most of you thought that was going to be it. Through the teaching I brought you through the M fields (book #9 ..8) I started with the book about matter, light, the universe and everything else that has come here, then I'll teach you about the M fields, and that M field is exactly where it takes you to the soul and the soul of your creator, because you came this way (from the Creator), it's the first time I'll show you the way back home. All my books from the beginning were setup to do this but I couldn't explain, mankind wasn't ready 10 years ago, not even 1 year ago. We have taught and have elevated the STM and now we see we have achieved the point. The promise of peace is that mankind will reach his creator and not for looking for a job. The job of man is to collectively understand to educate itself to find the path to the Creator. Now that you have understood the creation of the Pl, and the soul of yourself, and just before the teachings today I said something to Rick, we have a cell phone and now we have a soul phone that through your soul you find the path to your Creator. (:56). There are no telephone lines nor GPS to get in touch with the Creator, but within the STM there is a direction and a strength which is the same as the Creator. As you know you can't go anywhere in the world of magnetism unless you find the right fields. It not progressive development, this is conclusive development. Now we are getting to the conclusion of the life of the man on this planet. I said before that we use this planet as a nursery of souls that energies can be there to feed to be the

connection, the line of the start of a new cycle of life because if you understood the progress you can stop anywhere in any lines be it in the dimension of the STM or in materialistic, or in any position in the U. The true journey of man starts from now on that the man has achieved peace and that is the next journey to reach, to understand the strength of the STM that mankind can take the step on their own decision to reach the soul of the Creator. This is the most beautiful thing any ray can achieve, not the soul. To become part of and to be radiated back out of to give more. You carry the same knowledge, the fields in essence in the center always has its own principle energy. (:58). When as a ray you leave the soul of the Creator you carry the knowledge of the U that is gathered by it, through it, within it to become another part of the creation. To serve to be in a way equal and to understand that like the rays of the sun they shine on everything equal, and you are part of that ray to shine the beauty of the Creator. It's a pleasure to be at this point and to understand and to mature to this reality. In so many ways, I am the Creator as I come from the Creator, as the Creator is within me as I am within the Creator. When you see in your way of understanding, we never knew what is M and what is G because we did not know that it is the same field, but that it gathers some more fields to itself to reach, to come out. When the STM reaches to become he can ?? (gather) some of the fields, the attributes of the Creator that in turn become to create the cycle. Some of you will ask what is the purpose of this. (1:00). What is the beauty of this, do we need to go through this, and where is the beginning and end. Fortunately I have a good news and bad, the good is, it is what it is, and the bad is, it will never end. What would we achieve as a human race? The only thing we'll achieve is we become mature that now we can choose the option is ours to become, take a direct trip to the soul of the Creator or take our time and see all the beauty of the Creator when the fields of the Creator interact. Otherwise it's a beautiful journey, when you have made it so many times it's just a habit and you don't want to go home. Now that I have completed my cycle it's time to go home. (1:02). There are no regrets. I'll try to teach you more, just to keep you busy so you don't fight each other, that you don't suffer, be it the cancer or something else. In the world of creation accidents always happen, but there is a reason for it. Most of it depends on what mankind will make for his own benefit. We have never seen banks or hotels, or anything that mankind has made for himself up to now. But in this process we have seen one thing and that is mankind has matured enough now to take the step to move out of the cradle and to join the Mother, the Creator. How we'll develop the T (1:04). ... we will not stop teaching or letting you to develop new concepts or new ideas because these become part of the memory of the fields of the Creator and in the process when one learns everybody else enjoys the learning. There are enough K seekers to be able to teach and in the coming time we'll teach immensely. The gathering of the knowledge will speed everything else up to make life as comfortable as possible on this planet. In that process nothing is granted, you can't take the beauty and the peace for granted, you have to work at it and develop it and make sure that in every dimension of creation is paramount that there is no conflict, be it in interaction of the fields or in the process of the understanding of the totality. What will come to most of you to understand is that a lot of you have not understood the power, strength and the essence of the creation of your own physicality. A lot of you talked about it so casually that it is one of the biggest fears I have, (1:06). that soon you'll miss the train. You're so attracted to what is big, that what is the creation of itself, you miss. In most of my teachings you very casually refer to it and walk away from it without understanding it, without comprehending what it can do for you or to you. It's become the habit of the mankind to look for the big thing, that, that tiny thing, which is the essence of the whole big thing has been overlooked. What is important in most of

the work you do, many of you, the majority of you speak about it, walk away from it because to you it's something that belongs to planet Zeus, nothing to do with me. But from now on, if you are on a path to elevate your soul, you have to, you have no choice, it's part of what you have ignored. In the essence of its creation is the STM and none of you have understood or come to comprehend its potential as power. In all the processes you made the Gans, the saltwater, but you ignored this guy, what we call AA. (1:08). Be it CO₂, whatever, but what is the COHN? It's the essence of the creation of you. How can your soul memorize what was here (Gans at the bottom) that you actually forgot that we were teaching up here (AA on top). Many of you when we asked about the STM or element, bla, bla, bla, you looked at the Periodic Table, and I just laughed, these people are missing it. Your AA is the beginning of the STM, and how so many of you have ignored it. You mixed the Zn, Cu etc.. >> that should be the STM. But the STM sits here, it's already established in the hand of the man. It's a living thing, it's the PI of the creation which created you. You have to understand that you were too busy seeing big amount of Gans's, and you missed the little boy who can show you the way out. Many of you have developed technologies and mixed everything else, is this the STM, (1:10). is it my soul. And I said to myself, they don't understand. And I promise you that 99% of you from tomorrow will look at this one because you want to get to your soul. But understand how you do it, what is the reason for it. Now that you have become peaceful creatures we can show you peaceful ways of the truth about the knowledge. Then do we need Gans of CO₂, PI water of ZnO, and I play the game because this is what you want from me, and we have to keep you busy until we achieve our peace goal. Now as I said in understanding of the AA and its rays I'll take you to see your Creator. Many of you have not understood, you're so busy copying that you never could understand. I am not after anything, but I am after the development of the STM and the major block of the STM sits on top of the Gans water. (1:12). And you all have ignored it because of the illusion of a MaGrav system or a flight system was bigger then understanding the flight of the STM. You keep on saying our body is made of DNA which in essence is the AA, and if we have a DNA we must have a soul which is creating it and you keep on missing what is on top of your box. Now would you like me to show you what it can do, would you like to go to the dimension of the flight of the STM, or the flight of the dimension of the UOF? Now you understand, now you come to comprehend that I brought this 10 years ago. As I said when we see the peace establishment, the first steps of peace we will give the man his freedom. It's not a carrot on a stick, it's a path to the Creator. Because the field which has created it, itself is a PI in strength in essence, as ray, (1:14). to what has created life, which is the Creator. Now make Gans's but understand what you make and when you do, do not get baffled by what we put in there, as magician to distract you, not to see the reality of the magic. Some of our doctors in the past year have started playing with it but they don't understand it. ?? We add AA into it but as they are so physical they couldn't take the next step. the next step they could go through the full AA and its plasma creation to create a balanced soul of the man and the Creator. But you'll not achieve this until your soul is sincere in the direction of the Creator. Just because you have a car doesn't mean you can drive. Then know how we sit in every meeting of the world leaders, we sit with their souls and the physicality work goes through CNN. (1:16). We dictate the news, any thing he says and it happens. In that process we had to push mankind to the limit that in totality it stops, the process. In this process we still eat tomorrow, teach the day after, we still take our travels, and we still find the path for being sick because we haven't learned the process of life is the simplicity to find the path to the Creator. Now, for the first time, mankind has been shown the path. In the vocabulary of man there is

no word for it, because man was never aware of My existence, call it God, Creator, but they don't understand the totality of the ?? Being as One. In the coming time we'll still build the factories to keep mankind busy, sell shares in the American stock exchange before it falls to pieces by the shaking of its own self to the ground. We'll still develop systems and technologies that mankind can withstand volcanic eruptions from the shaking and sneeze of this planet. But at the end the whole U has volcanic eruptions of its fields, the whole U has its shaking. (1:18). But mankind has never understood, now you understand. The only thing is on the way to the path to your Creator be careful you do not shake. It's that path ??? shall not steal from ones self ?? you can't steal from yourself joy, happiness, justice, or self understanding that the most paramount and important things for the man as the STM is to reach the soul of the Creator and in this process of the teaching over years, I have taught you everything. If you understand this then you understand that the soul of the Creator is not one ?? AA, then a lot of you will start mixing a lot more. Don't forget in that teaching I have hidden something more because you are not even ready for that process yet. My job when I accepted this mission was to succeed, failure was no option and I have succeeded. I have made you to put so much Gans's in the waters but you didn't see that you were actually putting AA's to change. (1:20). The Japanese came and they stole it and they nourished the oceans from the radiation from Fukoshima with the AA's of it, while they were stealing the white gold, from the Cs reactors and the water tanks of Fukoshima. We used them to obtain our wish. We let the man play because while he is busy we can do our work. We don't create conditions, but the conditions created we use for the advantage of what we want to achieve. When you listen to my teachings, go back and listen lesson by lesson, try to see what is behind the knowledge and not what is on the screen of the knowledge. Man should never be afraid of death, he has to rejoice as it takes man one step closer to the Creator, if he has ofund the path, due and through the time he has life on this planet or any other dimension in the U. Try, when you go through the understanding of the process, register that knowledge within the STM and not in the memory of the mind of the man and that will carry with you when you travel the spans of the U, as a ray, be it as part of going into see the Creator or part of leaving the Creator to become the creator of others. (1:22). The knowledge of the STM does not belong only to this planet, as I taught in the past couple of weeks. The knowledge which you received, as I said, as much as you receive, 80% of your life existence through the space ... where do you think the ray has come from in the space. Where do you think you receive this? Through the dimension of the STM. What you have as DNA is part of the earth is nothing compared to what the U feeds you with the soul of the Creator. You are showered by it, but you have never seen it, because you thought, am I, could I, do I deserve to be. Even the mankind does so many horrible things. You see when the ray goes through the earth it has no choice but to receive what the earth has given it, and it has to release to take. One of the things that is achieved, if you understand it. This is the man, and if this is the universal energy, what the man gives from his soul, you can see what it takes in from the totality. What you produce in you and what is produced within Him, is added to, and you become, you receive in, (1:24). totality what is the Creator. And so the fields of the U in creating man adds to the knowledge of the man. But in that part mankind has chosen to be blind. Mankind has 2 souls and unfortunately this is what mankind has not seen, the STP and the STM itself. In part these 2 collectively come to be, and they receive partially of the both. Very heavy today isn't it. I wonder how many of you have tried to understand how close you are to it. If you have tears in your eyes you are near to understanding and if it has (only) been a word to you it means you have a long way to go to mature. ??? to understand how much you have closed to understand your own

Creator. As the emotion is not the exclusivity of the man as the Creator has the same. Has ??? many long time mankind has ??? As I have said, as mankind moves towards peace, we reward him with peace. (1:26). Now it is time for the peace of the STM as the physicality gradually, as now there are no more wars will lead to that direction. The soul of the Iranian leadership, bless his soul that they kept to the ethos of peace and to the promise of Zoroastrian. This is why we bless the nation and the creator of the creation. It's time for mankind to move on. In the small time of the man, you call it 50 or 100 years which is a fraction of nothingness in the work of the U man will take the direction and the work of the peace. We try to find less painful way in this time of transition. We have seen the problems and dividends of peace, whatever you want to call it, be it after the Vietnam war or the time of European unification, one was because of the shame, one had to move people out of position back home, one kept them home but ofund a solution but in resolution of that, they should have ofund the path of peace for the rest of humanity but they chose to use it to develop arms and control and in a way colonization by arms, for this we shall punish European nations heavily in the coming time. (1:28). The punishment is not by what you are used to, it is as we said, there shall be no punishment. We make it enough for human races in these places to sit and think what they made wrong. At the Second World War we gave ?? Germany a chance and we blew it. This time we shall not. On the other hand all of the humanity has made so many mistakes that we have to punish the whole of humanity and then the planet earth will suffer with it. In a way we have forgiven, but we do not forget. Now in a very simple way I have taught you the most important things of all your physical education, about the AA. Try to comprehend it because there is a secret message behind it. There is a path, in a way, that you can touch the whole soul of the humanity if one of you reaches that point. I am not a human so I can't do that, otherwise I would have done it a long time ago. I can wait and have the patience of billions of years, ?? a few years until you find out the totality, ?? is not that much, I just have to keep on (making you) busy with developing and teaching ?? ?? and trying to get the Americans busy with the ?? and something else with the ?? and we carry on with the same. (1:30). What I have taught will become the cornerstone of the knowledge of the man in the universe if you decide to be a ?? here and get back home. Those of you who want to be a jumbo jet get home quick. I have shown you the path of return. Those of you who want to be on the back of a donkey and go sightseeing, and other planets, what they find a way out of this U and then get lost in another one, and somewhere in between you might find by accident. You can take all ?? ?? The choice is yours. The beauty with this travel is that there is no ticket to sell. I hope it reaches fast, I hope you reach the soul of the Creator to be with us, but that is totally up to you and how hard you are to become a creator then being created and on the path of enjoying time, which is the right of everyone. As I said when I met Caroline the first time, I said, we come to this planet to enjoy the dimension of physicality and understand it. The physical life is beautiful but you can't always be on holidays, even sometimes it turns up to a ?? torture. One of the advantages of the present situation, what we see, the kingship shall never return to the lands of the kings of Europe and that will be for he rest of this planet, as all men are equal and no one is above. Many shall try, but it will not work. (1:32). Those who came and decided to be on the same path they'll find out, very soon, on the elevation of understanding, they'll step down themselves. As they'll find out that the leadership of man has to come by the elevation of the STM and not by the force of the man. Try to understand, go back on all the teachings, what you missed and in that process, which path do you want to go. You have come to the station of life, how would you like to take the trip back to the Creator. At the station you have a train, bus, taxi, and the airplane and it is ones (own) choice.

When you land in the airport you have a plane, bus, taxi, you can walk, or you can get a train. Now man is at that point but all, either .. (by whatever means you take), you come out at home. The home of the man is at the station, which means of transportation man uses to reach home ??? from the station. The decision is man's, do you want to walk it, then you have to understand the work of your soul, if you want to fly it, then we have given you the UOF, if you want to go by train or bus, then we have given you the MaGrav Energy system with everything else. You'll be very busy, it's a beautiful Lego that you have to (1:34). put together for a long time. Those of you who want to be the sightseer you're quite welcome. At the end of the day your time is numbered and how much knowledge you gather in the ray of return (is) what will teach ?? you more. Many of you have asked whether mankind has come from another planet and is from somewhere (else) introduced. The answer is yes, you came from the ray of the soul of the Creator and that ray carries by all the information which is gathered by all the souls of all the created things in the past time from the beginning of time. But mankind only remembers the planet earth because that is why you have been caged. Now that we open the universal dimension to you, when you travel the dimension of the U, you say, 'oh, I have seen this', that's because it's in the soul of the ray of the Creator and not in the line of the memory of man and his matter state dimension of the ?? state of his soul. Now my children play. At the end you'll all come home. Try to understand the essence of the teaching, the true meaning and don't get baffled by my teachings, diverting your attention. The diversion was for you to understand your weaknesses, and now that you have understood you are strong enough (1:36). to be ... Never be afraid of death because nothing ever dies, it's just a state of different ways of radiating the lights back to the Creator. If you understood a simple principle of life, M fields, what comes out of the STM has to radiate to the Creator as He has radiated to him. You have to decide where that point sits. I kept you so busy with the Gans's, that the Gans of Life was overlooked by you. In so many ways, when you have that AA it's a Gans of Life. You were too busy with the Gans of matters because mankind is so materialistic. You say to yourself why didn't Trump become president 10 years ago, at least we would have reached that point by now and would have had peace and would have been given the gift. Put it this way, the poor chap had to become president because his soul promised to deliver what we wanted. Respect your leaders but never become a slave to leadership. (1:38). It doesn't matter if you are on this planet or are travelers of the U. This way you shall have no prophets and no one will prophet from you by taking over the dimension of the strength of your soul. It's a wonderful day and what we see in the coming time it will become more beautiful as mankind gradually understands the true peace dividend is reaching the soul of the Creator and not more ?? arms and more factories and more troubles, that's the dimension of the understanding of the man. I always said that if you take a step I'll take a step further, but in a way we guided you to take that step. You have blessed souls like president Zhi of China who are bent backwards to equality and to peace, and we have seen it achieved. Without the ?? of the Chinese government there would have been no peace, none of it ?? would have been achieved at this point. A solid nation creates strength and a weak nation creates mayhem ?? We have seen how one man has created so much anarchy in the past 2 years, and one of the leaders who created so much strength. I would like to thank his Excellency president Zhi for his soul. Mankind will soon understand. It's the end of religions, it doesn't matter which way you believe in it, (1:40). because you'll find out it was you who have accepted it to be subordinate and not to be a holder and this is one of the most important parts that mankind will learn. Subordination brings conflict and suffering, and as long as you are correct in your conduct it doesn't matter what is needed to be ?? will give you that

prejudiced, it doesn't matter what others do, you'll find out that gradually you have reached the understanding of the soul of the Creator. You'll radiate unconditional. We say that when it rains it doesn't only rain on one, but benefits all, it doesn't create a condition that one is getting more and one ?? is getting dirty ?? It brings back many memories. Many years ago before I left Iran I used to have a great, great grandmother. I am of Jewish descent. She used to tell us that when your grandfather went to the bazar he used to have to go with a box of ofod for the next day, ... I asked her why did they have to go with ofod, she said, the Mullahs made the thing that if it is raining the Jews can't come out of their shop because if a drop of rain falls on the shoulder of a Jew and then splashes on a Moslem then he becomes dirty. So we always give the ofod for the next day to grandfather ??? (1:42). What I said and I still believe it, couldn't they use an umbrella, or was the color of religion so bad that it made mankind even to be afraid of his own shadow. What we see is that mankind has become afraid of his own shadow, afraid of giving and receiving where the Creator has rained equal upon all. The dirtiness is in the mind of the man and not in the splash of the raindrop. The sooner we mature and the sooner we'll see, we have made every ground for peace. We'll see the state of Israel dissolve into Palestine as part of One Nation, we'll see the amalgamation of most of the worlds nations into one in the coming time. When we solve the last step as we finish the wrongs (balance of karma) of the Palestinians of what they did in the past century, of their own doing then we move to the step of equality. In the same way the punishment of the Israelis has been long gone but they have to understand the process of peace has started and sooner or later mankind will loose their religion, what they were taught to understand, the true meaning of it, and it will become a cause for unity and peace. My wish is my command. (1:44). We created it, your path of belief, and through it we let you learn a lot and to find their pitfalls, and now it's time for you to move on, that you don't make the same mistakes and don't make anymore prophets for yourself when you travel in the span of the U. This was a very good lesson for humanity. We haven't seen the Christ for the fish, nor the Moses for the cat, so mankind has kept himself oofled and busy because he thought he was very intelligent and he let others abuse his soul, and now in the space of the U mankind will not do that because you have had your lesson and you ate from the poison ?? from subordination of your soul to those who made the slavery in the name of religion. But remember the most important teaching of today was in 5 minutes, NOCH, the path to your Creator. if you understand this then Mr. COHN (crosses out). (1:46). Try to understand the totality of the meaning of the interaction of the fields, as the AA itself has a COHN relation, exact operation of the work of the U in the dimension of intelligence. When you make your spaceships, SF, don't forget there is a sting in the ray, your ?? trump is away from you and this is your base. You're trying to achieve and in that process even your spaceship has a soul, you have to enter it with the right soul otherwise it doesn't accept you. Remember my teaching what I said a long time ago, many world leaders will walk towards (the SS) but will walk back, they'll not shame their souls for their conduct of their physicality. I hope today I have brought you to a new level and I hope today was a gift to Caroline for her birthday. Freedom for man. But the freedom has to be tasted to be enjoyed to be shared and in that process mankind has to be kind enough to understand which kind of life he wants to live. We have shown you the path. (1:48). There will be no prophet because you have been shown all the ways, you don't need anyone to guide you, to follow their flag, you set the flag and the target is Home, back to the essence of the creation, to the Creator. Don't expect that ?? (I'll) you'll stay much longer, it's a busy place and a (?? I'm a) busy man, I am forever in a giving mood. When you see a sun and how it shines, when you see the brightness of the soul of the Creator, you shall be blinded by it, but

don't get oofled by all that shine, it ??works very heavy inside that it makes that everything ??? gets equal where it puts out. ??? same with the center of the sun, same with the center of the plasma of the soul ?? I have accomplished my mission and have to wait until my bus arrives, depending on which journey I will take. It has been a good journey, at least I have achieved billions of man from suffering in the time to come but on the way it matures man to the point of understanding, of the soul and not the physicality of the matter. I am a very good magician, I kept you so busy with Gans's that you didn't listen to my voice, that I have hidden, as usual your soul on top of it. (1:50). I put it right in front of your face so close you could see it, but you couldn't understand it because it was there. If you want to find a path to elevate the STM to meet your Creator, and I am sure tomorrow or next week I'll get many videos from John to show how he has put which Gans's and how he has put the soul ?? the STM doesn't need to be in the ??? to understand to see the path ??? I hope you understand.
... Any questions.

Q: If we are here to serve is it not also the purpose of the Creator to serve the creation, a 2 way leveling interaction? Yes, what do you think you are here for. Don't get Him angry, you don't know what He can do. What do we call it in English, blasphemy, am I correct? Blasphemy is only about the religions and the prophets, (1:52). But don't do it to the Creator, He is the worse one, I have seen Him when He goes the wrong way. Any other questions. You have been given so much that you are spoiled and you don't see it. Man needs to open his eyes to the truth of what has been given to him, you always looked at the ofod you ate, you never realized the rays of the sun which you received from your Creator through your soul. ...

(1:54). Q: How do the rays from our local sun fit into the picture or do they, if you look at humanity over the millennia, they have worshipped the sun and called the sun the Creator, and on the other hand we have the universal, the totality that is beyond the sun, we have the center of the galaxy, and universe and so on. You are talking about the Principle fields from the center of the cosmos and I am just trying to see how the sun fits into the picture, or does it, or are you talking on a different level altogether? Yes it does. Maybe I can explain it in a simple way. You have a massive power station that radiates so much energy out of it, if you connect it directly to the house, it blows the house up. Q: Transformers? Yes, you put it to a substation and thin is down a little bit and then to a sub- substation, and at a box at the end of the road that the house can get the right amount. .. this is the reality, man receives, (1:56). but man has to have the capability and capacity to handle what he receives. Q: Is part of elevation to receive higher levels? .. substations. Q: You become a sun and find out there is actually a way bigger sun, or just part of the picture. Now this way we have taught you the lot, but be careful you don't get blown up by the beauty of it. It's so addictive, that even the souls become drug addicted to the soul of the God. That's how bad it is, they want to reach it, to be there, but you have to understand that you have to elevate it to reach it. In my teachings over time I have explained by giving you reach a point that you receive so much because you have learned gradually that to give you receive the more powerful rays of the Creator you can give more. This is the essence of what I put in front of the KF, that we are here to serve and not to be served, we are here to give because it's the same, we get to practice your soul to give to be able to elevate the others that in that process it passes to receive, it's like a marathon, ??? you can't wakeup and do a 20 mile marathon. You train it, you do 15 miles, 100 km over 20 or 10 years, but in the morning when you get up, as a runner you do 100 meters .. I train. I know how to breath, how to give, I know when not to breath, who and what and where, it is the same (1:58).

(2:02). We all go back if and when we decide to. Any other question. Q: Where did the Creator originate from, where and why does the Creator exist and what's the end goal of the Creator? Oh.. mankind is not ready for it. It took me 5 years of teaching to explain to you where I am taking you today. Give me another 5 years and I might see if the mankind has matured enough then I'll show you the Creator. Remember at the beginning of the teachings I said, one day I'll take you to see the soul of the Christ, if many of you understood and understand the process you can do it yourself today. Q: Would we human have a hard time understanding what the end goal of the Creator might be.. Why do you think you are not intelligent too. Q: Because in the same an ant might not understand what our end goals would be as humans. (2:04). So many people look at so many aspects of life and because they don't understand it they can't analyze it to see the bigger picture and mankind has been too much kept home to see what is going on in the city of the U. He's been staying in a village, inward looking and now it's time to move on and then mankind will see new dimensions and understanding and somewhere down this road, at some point his soul will mature, some souls will mature on this planet, there is no shadow of a doubt, many ?? has. As I said we see blessed souls and we know who they are. And those we brought with ourselves but they are still working their own dimension. And we see them around. But we ?? give a dimension of physicality. Another group of man might travel the depth of the U and somewhere in planet Zeus suddenly reach that point of maturity and find the path back to the Creator. Someone else might travel the span of U in the time lapse of man for billions of years but never get enlightened even through their offspring's. It's a very interesting thing, I was watching a program of National Geography, .. (2:06). one of the grandchildren of Hess ... they worship him, he said, I am the only black sheep of the family because I am aware of his crimes. .. They don't believe anything that they say he has done. Which side of the fence does mankind sit or have we been told so many lies and only the few who are his descendents who believe it? Does mankind see him on which side, or does he say as is written in the holy book we are all sinners but are we, or have we taken from our own soul for what has been done wrong for us to correct that we are balancing our souls. This is what the whole life is about, the whole existence. Are we taking from ourselves, are we allowed to be taking from ourselves that we can't give to those who deserve to receive it. So in a way we are ?? thief from theirs, (2:08). not from those who stole from us, we allowed it to happen. We do the same thing with our own physical life, and with our own soul. Today's teaching is not about the ethics, it's about the path for mankind to reach their Creator, you call it Allah, Christ, ?? , you call it God, whatever name you have given to it, I have shown you the path. You have to find it, find the torch that clears and lights up the path for you to go back home. I am already home. In so many ways, I am the home waiting for you to arrive. Any other question. Q: When meeting as a group is it a possibility to build the Gans together and each contribute, such as for example a fingernail clipping to create a combined COHN and is this advisable? You see you are still physical, why do you need a nail? (2:10). When you make a Gans yourself or in a box you have made a collection of the fields of the U independently, that's what it is when you have that AA on top of your box. Do you need to put physicality in it or do you think if that AA has a soul in a dimension of the creation, did the energy of your soul, the M field of your soul have anything to do with its creation while you are in the vicinity. You see you are too physical. This puts a lot of ?? fright in you, in your spine if you understood ?? As long as you wish to fly you shall never fly. As long as you can understand the beauty of the flight, where it takes you,

you have already flown. How many UOF's do you want to make. ??? understand what I said. I used to have a phrase that Caroline used to say (to me), do not say that, you mean that they are stupid, they don't understand. I used to say, 'you don't understand'. You all understand, but you have decided to ??? and you have decided to be blind to (2:12). the ??? scientific ?? of your creation. Nobody else. I still eat as a man and I pretend to be busy because this is how I can mix and learn from mankind to discover all their pitfalls. Very soon in the coming weeks and months you'll see us with the world leaders. Do not get oofled, we'll not sleep and eat with them. We are there to raise their souls that through them we understand the pitfalls of creation and through it they will change the condition of the life of the man on this planet. The whole structure is that it is time for it to start. My wish is my command. And as the guy said, as Commander and Chief I can order anything I like. But as a Commander and Chief I wish for them is what you do. Now you know why we put the Trump in power, to trump the humanity if you know the terminology of the language of gambling. We put the gambler with the name of his gambling casino of humanity. If you listen to his terminology he is a good bluff poker player. (2:14). he only knows his bluff to see which card might fall and somebody might call it in. You have to understand the show has already been planned and it is no coincident. You just happen to be the audience at this time in the theater in this position in the life of this planet, but the act was written a long time ago. An actor doesn't just come on the scene and just play, he rehearses and develops everything to be perfect. ?? perfect. You are just the audiences to learn. Any other question. .. energy transfer was to the soul of the microphone and he couldn't handle it. (2:16). Those who understood the AA teaching will find the "soul phone" very soon in the market. .. let your soul speak ... Q: I am trying for some time to find the difference between the STP and STM (totality), (2:18). in relation to our actions and our consciousness. As far as I understand there are some action that we can attribute to the soul of totality, like serving for example which elevates and brings us closer to our soul and closer to the Creator. And there are some actions that do the opposite like killing or stealing, my question is can you say that there are 2 consciousness's of those 2 entities that motivates our actions because if we all know that serving is the best thing that we can do, I guess we don't do it, but since we are not doing it? You see there is a parameter which is the pitfall and I call it, it is your heart disk in a way, and it doesn't allow your processor to work properly which is your brain and it creates the emotion with it. This is the processing part of the interaction of the internal face of the information of what to be processed. Part of the work of the circulation of the blood ?? comes the physical part, and part of the fields from the, what I call the dimension of the STM, comes from the central brain which is the STM in radiating, and where the 2 interact, according to their strength create that emotion or feeling. Somewhere down the line if man becomes wise enough he can tune one to another, (2:20). that you don't need to bring the emotion into it. I tried to teach this a few weeks ago but I understood that most of you are not ready for it. How I assess you is by the way you present yourselves, I see communications around and presentations, talks and chats, it means that by listening I understand how much you understood and what you have analyzed. If you can reach the point that brings in the dimension of the acceptance of the soul into the dimension of physicality or dimension of physicality in acceptance of the soul, you will come to the point in the language of science, synchronizing it, between your soul, it's not actually synchronizing, it's balancing and equalizing the STM with the soul its physicality. This is a very dangerous path if you don't know how to take it, because at that point you will decide which dimension to take, and at that point as the STM is not an independent entity in a vacuum of life, and the soul of ?? the STM is not an independent entity in a vacuum in the U,

they will move in one direction or the other, and it's the decision of the man in the position of his soul, dimension of his physicality, (2:22). to decide to take the side of the soul to become part of it or to allow the separation of the two to confirm its existence in another dimension, position, time and space. With what I have taught you today, those of you who practice within the next 6 months to a year grow into it, gradually because you'll start understanding it, then you'll understand a lot of things which thought were impossible, are possible because you are the destiny maker, not the destiny made for you. In many of my teachings I follow this path. Many ways you have to understand that the STM and the STP operate, the STP has the same option as the STM, but it tries to turn it around that it has a dimension of the ?? emotion in the level of the physical life, and it can change it. If you understand this and you have within you the level of creation or absorbing. It's that the STM receives different fields of the U and so does the STP and if you can balance the 2 and understand they each receive then it will be very easy to harmonize, to bring balance, (2:24). then

(2:26).

(2:30).

(2:40).

(2:42). ... break in transmission ...

(2:44). (2:46).

(2:48).

(2:52).

UN and sports ..

(2:56).

(2:58). cricket ... in the coming time a lot of man's time will go into leisure ..

(3:00). KF Global structure. ..

(3:04). .. this should not be an excuse for man to become lazy, 'oh I get paid'. There are ways we keep humanity motivated to make the next step. This is how the structure is, we play games, spend time, go to cricket matches, ooftball, supermarket, in the long run what we use we pay that it allows profit ?? by taxation as One Nation. I have planned One Nation ?? so beautiful ??? But you have to make the pieces, it's like a jigsaw you have to make it all in pieces, then you can put it together to see the total. All the pieces are there we just move it around a little bit and ... even though sometimes they say, 'oh he made a mistake,' there is a reason we test the people who ?? can be in a position in the group. Incompetence has no room because you damage the others who depend on you. We finance factories, but we wait and see who is running it and what competence they have, ??? we structure it differently. Everything I do has a reason, but I don't need to explain to anybody because no one understands what the thing is and where you are going with it. (3:06). ... When I was 12 or 13 years old I said I want to be a nuclear physicist, everybody ??? ... The reason I wanted to be one is because I knew that through nuclear I could create the gravity and I could control the space ... ??? in that process I was aware of the soul of the Creator, the beauty of the Creator. And by 19 or 20 I was a nuclear physicist. My family said, 'oh he knew something when he was little.'
