

299th Knowledge Seekers Workshop - Thursday, October 24, 2019 (Shandor elevated to Universal Community, ,)

(:00). Video: "Where Science Meets the Soul" soul teachings 177 KS workshop.

(:19).

(:20). ...

(:22). One of our members of the Core Team, Shandor, was elevated to the soul of the Universal Soul. We all know him he is still in the dimension of physicality with us, but he has taken a path to the elevation of his soul to a new dimension. It's not a path unknown to us, we all know this path, how we make our way to the U Community and the Universal Soul, as in the intro video we saw. We have to understand the essence in leaving a smaller piece in the dimension of physicality, we become a bigger part to create a new cycle of life to become part of the creation of the Creator. In the dimension of soul which lead to the creation of cells in the body of the man and once we depart we become the creator of a bigger structure, the U Soul, which allows us to be able to participate in the beauty of the Creator, to be manifested across this U, the spans of Unicoise. A lot of us have very good memories of the physical time of Shandor, and he is with us, amongst our souls, and my thoughts goes with him and his family, we give from our soul to them to go through this time, to understand, (:24). the changes in condition and changes in the physical dimension of the man. In the future as man understands more about the process of the creation this point of separation from the physicality is a birth to a new dimension much bigger then man could ever imagine. In time when we reach that point, it's a joy and a time of rejoice and we keep pictures and memories and we carry on a lot of things to remember the time when we were in physical dimension. It's very much when we go to another country and we see our family, we rejoice being with them and then we go home. That trip of holidays is the trip of the life of the man and now we join what we call non-dimensional position of the STM in dimension of the creation of teh universal soul. Our friends have gathered pictures, some memories of his physical time with us. As you know he is a member of the Core Team and the soul of the members of the CT stays sacrosanct are forever. It is important for us to understand that we all leave the physical life. We all have a time. As I heard very recently they said, why couldn't, why shouldn't, why did we not. As I explained ... we are not here to change the course of teh physicality just because we have the knowledge. Our knowledge has to be, (:26). that we satisfy the dimension of the STM, not our precious physical time that we have. Then if this is not the point that we don't understand then everybody becomes a member of the KF that through the knowledge of the KF they have a physical life forever and we become a another cult. In total understanding of the KF teaching, we have to understand that physical dimension has limitation, whereas teh soul has no limitation in dimension of ?? in the soul of the Creator, then if we don't understand this, then everybody becomes a member of teh KF that they can last forever in physical dimension and whenever they can't do that then there is something wrong with the structure of the teaching of the KF. This shows lack of understanding of the truth on behalf of those who have no understanding of teh creation. We all take this path, even my soul, my physicality and the rest of me. The reality is we are here to nurture and to understand the process of the creation that comes to us after the birth in the new dimension. We all take this path, some of us shorter and some of us longer. Some of us we leave it to the decision of the soul because the others are not aware of teh physical pain we carry. As you'll see in teh videos which were

collected, Sandor was a master, of making everything the KF made. he was a teacher. He taught everything and he knew everything. (:28). The KF showed him the way for him to decide and the soul has decided, not the physicality. In so many ways, he was aware of the whole knowledge, he was given every support in the dimension of knowledge, as teh last man standing, and as a teacher, and as one of the main, what we call participant in teaching operation. He could decide his own destiny, and it was left on that, even though we gave him all the knowledge. In fact the same goes for me as much as every one of us. We have teh knowledge, we have to choose the time and the place through the dimension of the STM. As a K Seeker, a member of the CT, as a support member of the U Council, teacher and master of teh KF, Sandor knew everything. He taught many how to do and make things. He could explain the details and intricacy understanding of the T, but the salvation of his soul was his own choice. The last times we talked with him, and had a conversation on any other point he was always aware that it was not my decision, or anybody else's, he had to take the path. So many of us we choose it our way even though it might not look the right way in the dimension of the physicality. I give from my soul to a member of the C Team and knowing what I know, he is safe. (:30). We praise his time with us and we praise his soul that it still gives us to guide us through. What we need to learn now that he has become a universal teacher ...

(:50). R- He passed at 11:11 on 10/22/2019 (numbers add up). (:52). R- I bought 2 lottery tickets in memory of Shandor. \$2 winner, it matched 222, 2nd ticket also came it matched \$2 winner, he scratched an hour ago. again \$2 and 2nd \$2. It's a sign that strings are being pulled in this dimension. ... Carolina talks about him. (:56). We all met in Trany, Italy. ... (:58). .. He was cheeky, a walking library ... (1:00). ...

(1:16). (1:18). The announcement from Putin is that this was an historic announcement they made towards peace in that area , .. Syria will be the end of all wars. It's interesting that, that occurred on the day that Shandor passed. A big part of Shandors work was towards world peace and the One Nation ... (1:20).

(1:22).

(1:28).

(1:34). Rumanian reads question in Rumanian. Q: For detachment of the soul is it about insulating the earth field and us? R- Is it necessary to detach an insulator between the earth's field and us similar to the Chinese system. (1:36). meaning a Nano insulating layer between the earth's field and us? ... Is the insulator needed or not? K- I don't understand exactly what the question is? (I am not sure either) R- Is it necessary to have a buffer between us and the earth's fields.? K- What does that mean? R- It's about detachment of the soul, ...(1:38). K- Let's see if they come back, maybe we can understand more. Ursula- ... (1:42). ...

(1:44). .. I love you Shandor.

... K- I think it's a beautiful ?? to remind all of us that physical life has dimension in time and space, and man wishes to stay longer to suffer more, and this is one thing I have not understood all of these years of being around, why does mankind see suffering as a way of, what I call salvation. (1:46). **Why we see this in the human race is something we do not understand, as somebody wrote to us, my mother doesn't want to be helped because she thinks that by suffering more she'll be closer to the Christ** when she passes away. Once we leave this physical life the freedom of the soul is the dream of the man. I have said many times, **I am ashamed to be in the body of the man, but this body has to go through its cycle, the time and point departure is preset, it doesn't matter what we eat, do, where we go, and how we try to trick the time machine.** No one has ever stayed long enough to remember the totality except the soul of the Creator. It's time for celebration as we enter a new dimension. So many of us think we could do this or that, but the best thing is to leave it to the STM to decide the position of the physicality and the sooner we realize this the easier this journey of the physicality becomes for all of us. Remember Sandor in the dimension of physicality, (1:48). but in a way he is ahead of us, and not behind us. Maybe the time when we enter the new dimension we'll see that he has laid the path to be better for us to achieve and move faster for the whole race of the humanity. Thank you very much for your presence Sandor, it does not need to be on the pictures and the voice. The knowledge of the STM sits within the secret of the physicality of the man and the sooner we understand this, the sooner mankind will move to a new dimension. As R said and the date of 11/11 of 27 (22) of October, shown , as I said, there shall be no more war. And even there shall be no more war in the ?? past separation of the STM from the ??? the time of ?? his physicality. It's a time of joy for many of us as we hear, and as we said, there shall be no war. Would our generation's children or grandchildren will be the first generation, that in the vocabulary, the word of war, the pain of loss ,will become something of a distance, that it was something our grandparents, parents or great grandparents did. (1:50). The work of people like Shandor and of the K Seekers is that step. He is the creator and will show mankind to the direction of the peace as we wish. We saw how cleverly, when there was supposed to be a war, when there is such a leader as Putin, has changed to a victorious peace. There shall be no more war and if those who create it, will find out that they have a lot to loose. ... We will see uprisings in many western countries, US and Western Europe due to this peace. Uprising not by wars but in looking for new technologies that replaces now that these nations can't sell arms anymore. Change in the course of scientific development has become ?? imminent. You'll find out that western nations like France, US etc, will face a new calamity which is a good one. We have built so many companies with highly educated people to make tools of war, and now we can't sell. We have 2 choices, massive unemployment, or invest in a new cycle of T. (1:52). The option is the same. One of the reasons members of the KF travel the length and breadth of this planet in the coming months is to bring the option on the table. Plasma T and new sciences in the space T and changes in the direction of the betterment of peace. Shandor's and my generation, we are very few who have not taken arms to kill. By choice and condition, whereas our forefathers had to, to survive. Now in our generation we have seen the maturity of man. We have no choice but to create a condition of alternative science that the nations will thrive on it. When you have the T to develop the most advanced space T why should you, why do you have to create weapons to destroy. You are waiting for April for the KF to show the space T, with the cooperation of teh KF Iranian team we have started the celebration in preparing the party for the united mankind to enjoy itself by April. This comes as part of

our work. I am committed to peace. (1:54). If the last war was going to be fired in the way that others were timing and planning it, now we see one choice, the choice of peace that with it, it brings peace to the STM, that we are not afraid of dying but we celebrate and choose the time of what we call the transition. From now on as we develop the knowledge more you'll understand that we can choose the time of transition, we understand that we do not pass, we do not finish on this. As we used to say, we change our address to a permanent address then moving from house to house, country to country on this planet to the address of the U Community, a destination for the time of existence of our soul. There is no need to change home, country clothing to fit in to where we go and what we see. We have started a path and when we said and we did, many people had doubts on it, but as we have seen, there shall be no war. The last skirmishes we've seen have taken place, and those who thought a bigger war would come up, by them withdrawing from Northern Turkey, has proven to show shameless loss to those who planned the bigger, but ended up with nothing. In so many ways, mankind has become wise, we have to put the structure and not wait to the point that we finish with physicality, but we develop technologies that we decide that we change the position of physicality, (1:56). to the direction of the soul that it never needs to depart, but stays as part of the totality of the Universal what we call soul. It is important for every soul to understand this position and for every man to understand the position of his soul. We get together on Thursday and share knowledge and with it millions of others share the same knowledge in different ways. We see the wish and the power of peace and peacemaking has become very strong. In the coming time I will travel to live in Iran for a long time, as the peace has started and we make Iran the land of peace. It comes to us to go to our sources, and to become to understand the reality about the creation and the life of our soul. In the past few weeks we have concentrated on showing so much on what we call the Plasma Enhancement system, ?? what this system can do. Last week I shined more light on what I call its capabilities. Today I explain more. (1:58). As many of you are looking at this system as a way to get rid of Parkinson's to overcome the dimension of physicality, and very much if you remember when I started with the teaching you wanted to see the power of the system, cancers and how they changed things and you started believing in it, and then you made pads and everything else, and you enjoyed it. Now with this machine we are gradually taking you to a new dimension which you could not imagine. So in the same way we got the confidence from you in understanding gradually and moving into the Gans, gases and plasma T, we want to gain your confidence in what this T will do, that in that process, as I said last week you can take the system to a prison and by elevating the energy of the STM we'll have no prisons and in the same way with the physicality of the man. But what is the beauty with this new T, new system. You look at it as a womb of the mother to get rid of your pains. One of its jobs is the womb of the U to allow you to understand the positional transition from dimension of physicality to the dimension of the STM. In the coming time, very short time, man will walk into these machines in the dimension of physicality in the opening of it, and will walk out of the system as a soul. I can't tell you everything in one go, (2:00). but I have to guide mankind gradually to understand the process. You look into the machine for your cancer and diseases in the dimension of the physicality, I look as a creator to the dimension of freeing man from the shackles of physicality, but as with Gans's and the cores, I have to mingle everything together that you gradually understand. In the coming time when we reach the point of separation, before we reach the point of separation of the physicality we can enter these systems and allow us to choose the space and time, or in the coming time we decide we don't want to be in the dimension of physical life in one place or the other. With these

technologies will allow man to convert his point of physicality to the point of state of strength of his soul. Now you understand what these systems are. It says, Enhancement, you look for enhancement in your physical dimension, but I look for enhancement in the STM. We have to get you to understand more and to see that it works, that you understand it's time for transition. Two weeks or so before we showed it in Vienna, a picture of the system, we showed the animation of it. Last week we showed you more animation and with it the pictures of a man who still bounded. (2:02). Now we show with the same system and the same man, how much he has changed in a few days, which in the world of medicine cannot exist. Then in the coming weeks you'll see more changes, then in the time once you get the confidence of what is there²⁵.

(2:04).

(2:06). ... As it has been said, I will stop teaching from the 300th K Seekers Workshop because I stop teaching about the physicality, I will enter to start teaching about the U Community and these systems will start opening doors for mankind. We'll prepare you in the first sections, and then hopefully somewhere around January a number of these systems will be shown operating in Tehran, Iran. This is the promise I have given you and to the Iranians. As every knowledge is shown fully in the place of its birth ?? some 20 of these units will be demonstrated operating fully in the city of Tehran as the beginning of the change. At the same time in following days and weeks, (2:08). you'll see them in London, UK, Austria, Canada, Australia ...
... Shows the video of Enhancement Unit again. (2:10). ... (2:12). .. then the Parkinson's testimonial video ... Day 40+ exercising in parks .. (2:30).

.. with this machine we free man from being trapped with in the physicality. How simple we have changed the life of a man. Many outside China have written, we want to see to believe. Even we show it you'll not believe. The reality is that the change has come, and this is done many times. ... (2:32).

... We need man to understand that it is him who traps himself in the dimension of physicality. We need to be able to realize the transition from the tablets, the matter state to the plasma state has come. (2:34). The way our structure of physicality has come.

.. then it's every man's choice to decide the time and the place for the dimension of the departure of his soul, as Sandor did. It's not that it was not there. It was there because the freedom of it was there for the physicality to choose. We can change, we can. Understand how this new T not only changes the world of medicine but it will change the world, we as individuals decide to be the medicine for our soul. **We always looked at how we can get this physicality out of pain, but we never understood how much pain we put, and we created, and our soul has endured by our conduct and life in the physical dimension.** Simple, we saw a man in a wheelchair some 40 odd days ago, and if you look at the last seconds of the video, (2:36). the problem is not that he can't run, it's the doctor and the people who are with him, they can't run anymore. They stopped it. Because the joy of life that he can move again. ...

... Hopefully in the next few days a report will be made to the world of medicine. .. (2:38).

.. It's you who has to believe in your own self, not us. I have no problem in delivering the knowledge, but you have the problem in believing the time of change has come. (2:40).

(2:42).

.. I have given the man the key, the freedom of his soul for the first time without the point of separation, as death to man in the dimension of his physicality. This is what this system will deliver, not getting rid of your ?? or your cancer or your Parkinson's. If you are happy with the crumbs you are quite welcome. If you go in with a wheelchair that you can't walk, and if you can change the dimension in the strength of the STM, the body will walk. This is what we do in these systems. (2:44). You have to comprehend the change that this will bring. You can allow more people to suffer with this as they do now or you can allow the change to come fast that we can force the change on governments and nations. We are not here to show, we are here to confirm. When you are put into these systems you'll understand one simple thing, that the truth shall speak. The strange thing is that these machines all carry a video and a recorder. We'll take the kings to walk in and they'll tell the truth about their actions. We'll walk the world's presidents into these systems and elevate their souls that they'll be ashamed of their conduct in the dimension of physicality. From the writings of Bahuala, that no man will take the crown of kingship as the realize the souls of the man are all equal. (2:46). It's not anymore in the name of this or that religion. It's all in the name of the STM, and now today I unraveled for you to understand what this system is about. We are setting up the system that it has no dimension but at the same time the same system can create a condition in the spaces of the Mars and different dimensions of the U that in a way you'll see how you will live, how your physicality will be and you don't need oxygen, as on this planet it doesn't carry oxygen, but it has its own system of energy transferring. This is the fish tank I promised you. Now the fish is the STM and the tank is the plasma of the U, which will become confined within the structure of this system. In a version of this system you shall see no cores or motors, I'll bring the energy of the U within. You'll hear the voice of your own soul and tangibly you'll feel the existence of the Creator. I am the Creator. The creator of my own soul, of my own dimension, (2:48). and I share that knowledge with those who want to join. From the 300 K Seekers Workshop you'll see a new dimension of teaching, as the physical dimension of teaching is over. How would you handle your soul once you face, once you feel in the dimension inside this system on your own. I am the Creator. Many centuries and thousands of years (ago) it was promised, and now it is delivered. You have to understand something very simple, I have no mercy on those who bend backwards to harm another. Work through knowledge, and if you understand further, this is just a game in the dimension of convincing those who want to see to believe. But we can deliver this T in the dimension of this planet. Unfortunately, the decision is not in the hands of the man, those who are advisors have made the decision for the man. We have reached the point that we think that mankind can just be pushed enough to understand, to be able to become part of the, (2:50). U Community in the coming weeks and months. We just don't do magic, we show systems and T which allows man to take that step.

Mankind has got to realize what needs to be faced. As I said before, we have not reached the number of mankind on this planet to critical mass. By stopping killing and wars it allows you to reach that critical mass. There are not enough of you to justify, to create a condition of open policy for man to have access. At the same time you are under quarantine, until you can show your conduct that you can behave correctly in the open spans of the U, no killing, no wars, no conflict, partnership, work in peace, development of the new understanding of the work of the U. You know if it has been created it has already been understood. It's just to keep mankind busy so he has a purpose to be part of the U Community. When you enter these machines, the lady who is there (in the picture of the unit) is just a mirage. You are in there, and the way they

have been developed that you stand alone, (2:52). as the last man standing between you and your soul. Soon you will understand. The hidden universal knowledge and T with this system is beyond man's knowledge of comprehension of today, but I had no choice but to release, that I give that little push for man to go. Our friends wanted us to be in the stock market, I wanted the mankind to be part of the stock of the U and I have achieved it. We still keep busy with other things, but it is just to keep the physicality not to get bored. As it will be the job of the man traveling the spans of the U. As the children, if you have one sit in the back of the car in a small journey from one place to another, what do they say? Are we there yet? And would that be the cry of the physicality to the STM, have we arrived yet that I can show myself, here this time, to the dimension that you choose. Are we there yet, will become the question between the man and his soul, dimension of physicality. Are we there yet, for man to be mature to take this step? Yes, we have no choice. (2:54). Are we there yet to understand that we are all equal not only on this planet but across the U? Mankind will learn soon. Not to be afraid of punishment, but to be ashamed to loose the opportunity to be. Are there any questions?

Q: Will these first units be flight capable? We are back into show me so I can believe it. As it said, buy me so you can eat me. R- You did mention that flight might be a possibility and you are discussing this with the Iranian showing, is that still in the cards? Yes, we are still aiming for 19 to 22 of April in Tehran for the flight demonstration. We have asked for collaboration of Iranian scientist space T to join us and start the development in the next few weeks. (2:56). We are preparing the party.

.. Iran will become the land of the knowledge of the Creator. It will become as it was. We brought the poetry and love and now we bring the knowledge and the strength in the STM. You have to realize that you can not throw these things at once. Step by step we showed you the machine, we showed you 2 weeks of development and now we see the man running. I am sure in the next few weeks he'll come and thank you all for bringing the T to China that the Chinese could enjoy and he'll be the first man in China that has taken that step. If you think of it, he is the Neil Armstrong of China, small step for mankind and a giant leap for the STM. This is what International cooperation is. Hopefully as he reaches zero medication next weeks and as the side effects of the medications, which has taken over (2:58). years to finish then we'll all come to understand more. He can explain to us the pains he went through. ... Q: Does the unit require any maintenance, (what do you think) maybe after the life of the great grandchildren? Maybe after the life of the Creator. You are looking at the physicality. Q: Does the same principle apply as in the case of the Naomi helmet, with the brain reconstruction, or the principle of the orange fields transferred to the water, is that the same as this system? No. That system with Naomi was rebuilding what was existed, connecting. Naomi's case to full recovery will become a norm. As I guided step by step Giovanni, (3:00). even came to get exactly done what he was supposed to do. There are a few steps missing. The other step is, can we speed it up with this T, that is comes into operation. Now we know Naomi is trying to talk. It's taken a long path. With these technologies it will be very short. The understanding has to come that you don't go into these machines and jump out with 4 legs and everything else dancing. You go into these systems according to the wish of your soul. Your physicality will manifest itself through the dimension. You have to realize something which has been missing and I repeatedly explain, is that one point you walk with a wheelchair into this machine and you walk out with no wheelchair. You know the problems for those who put you into that

machine and those who push your wheelchair for years. As I said to our team in China, looking after the one who pushes the wheelchair becomes more important than the one who is in the wheelchair. When at the moment a husband, wife, mother or child gets sentenced to limitation in mobility, (3:02). the others put their lives to make sure that he can be mobile at least in packages of wheelchair. They put their lives in it, they change jobs, they choose to care for that physicality which I respect. Your wife once you become paraplegic doesn't put you on the street and say good bye, we were married as long as you were good. She pushes you around for the rest of your life. She has to be respected. At the same time it is the job of the physicians to elevate the soul of the wife to thank for the STM for what she has sacrificed, or visa versa. This is something that the present world of medicine doesn't consider what so ever. They give you the medicine, you're sick, it doesn't matter who pushes you or who sacrifices what. With this T no one pushes a wheelchair. We thank through the soul to elevate those who sacrificed to bring us to the point of maturity. This T will bring the STM to function, not much the physicality. In a way this T is what we use in the span of the U and for the first time we have shown you. If you read on the side (of the machine), it says, Universal Body Enhancement. This is a gift directly from the U Community, (3:04). directly to mankind. Now you know we have made contact. We have given you the gift and it's for you to respond accordingly. It's there to enhance the knowledge of the man to the gift from the U Community. I promised you that I will bring you to be able to face and to live within the U Community. This is our gift to you as humans. It's written on the side of it, but you never noticed. This is the first step. Mankind works, to keep himself busy to get this T in a way, we'll give you more gifts. This is the gift of knowledge and this is the first time in a long time that we have given mankind such a, what you call a shake of the hand. This T doesn't belong to humanity. This is a gift from the U Community to mankind. I am the bearer of the gift, but at the same time mankind has to embrace it. We will meet in these systems as friends and you'll understand who we are. We have opened the portal. (3:06). It's for the totality to understand and to accept, not this time to hide. We did not put this system as to sell, but for mankind to understand that we are here in full force and live amongst you. Now it is for your leaders to respond. We have created a condition of peace and this is a gift for man to stop the wars. The rest is your decision. I can make you play any games you like. You were waiting for the opening of the U Councils through your blood sucking nation of United Nations. We gave you the contact and opening to the U Council (?Community) through the blood of peace. Now you know who I am. You were happy with a wheelchair, I gave you the knowledge of the U, at what you were happy to ?? We have done our job and that is why from the 300 KS Workshop on we take you through the journey of the U. (3:08). We open the direct contact in Theran. In the coming weeks and our position is very clear, we are here to stay and to change the course. You were wishing and praying that you'll come in touch with the U Community, will do, we have done. We have delivered. You want it to fly, I'll fly it for you. If you want to walk in and see the soul of your father ?? I hope you don't walk out crazy. You asked for contact and we have responded. You wish for peace and the beginning of the change, we have given you the system and a tool. It is for your leaders to respond, even though we'll still try to keep the man's business of buying and selling. You are the merchants of death, and we are giving you the merchants of life. Now you understand the game of interaction, interface between the U Community and mankind has started. You have the machine, try it. (3:10). Q: Can the spaceship unit be used as a portal to leave the body and travel instantly to any place in the U? You try to get your body to understand it, the soul will teach you through. We have opened the doors and it is for mankind to decide.

November, December, January, the world leaders have 3 months to respond. Any other question. Q: Jalal .. (3:12). I came across this person who was pushing this chair ... I asked, do you want to help the person who is in the chair? He said, yeah why not. With this T we can do a lot, we can help him to walk and get out of the chair. And this person, said yeah good, but wait, if he walks I will loose my work. ... The person said, no leave it like this because if he walks I will loose my work. I said, if you think you are benefiting from using his condition. He said, no he is also using us to do all sorts of things. I said, I hope you understand what you are doing. I think in the future these people will understand what they are doing. K- Would you like to say it in Arabic language. Yes ...

(3:14). ... Thank you Mr. K. Now I want to ask you a question. You spoke in English the same knowledge and you shared it in the beautiful language of Arabic, in talking in both, which one touched you more? (3:16). This is a hard question. Which one had more meaning to your soul. Absolutely in Arabic. Now you understand why we choose the U Council through language. Yes, I came to this conclusion along time ago. We are all beautiful Mr. K it's the time to recognize that. I would like to speak for Sandor. The souls are singing happy birthday for Sandor. K- This is exactly what I wanted to say some time ago. But it is nice that you felt and you talked. The position is how far will mankind will take this knowledge. We shared this knowledge before in the time of the Pharaohs and it was abused in a very simple way. We share it this time with mankind as a whole and you understand how and why. (3:18). Do you remember we gave the USB stick with all the knowledge to man's leaders, to world governments and they didn't share it with mankind and it was kept in obscurity and then we gave it to all of you, you have seen how the spread of knowledge has taken place. We did the same thing in the past time. We gave the knowledge to the leaders and they did nothing but to abuse it in palaces and in trying to dominate. Now with this we give the knowledge to man the same as we did with the key, for them to change the world leaders. We repeat the same game because mankind was not wise to our work. Last time they headed in palaces and temples and then in Churches and Mosques. This time we give it to the man to carry it in the STM that you exist in the spans of the U. ... We asked Sandor if he could do Gans's, and he said I have no Gans's. That was his word. (3:20). And in the videos of today you have seen how much he made and how much he had. Then you understand the freedom of the choice of the STM is and has and will be with the STM. How can a master have no Gans's unless he has chosen ?? R- I remember when Shandor said that and that is correct Mr. K, absolutely. Now you understand. How can a master ?? and make sure that there is none there to stop him to his journey. You have to understand something of the background to the work of Shandor except me. His soul was ?? blessed (blasted) by many, by many who abused, and he gave them their freedom. One day mankind will understand the position of Sandor. No one except him and I know, we walked very closely and I know why he chose the path. He received enough that he was elevated, he wasn't happy any more with Gans's and he got ?? rid of them all. (3:22). Don't forget he carries the soul of the Core Team. Now you understand. The choice was his and he told me his choice ?? Now you understand, we have opened a portal as you call it, we have opened the gates of the U Council, and we have opened the gates of the U Community to mankind through this system. We wait for a response, but at the same time we carry on teaching to elevate more to understand. If there is no other question we'll call it a day and I hope the mankind and the world leaders and your leaders understand the message. We are not here to play, we are here to change the way we

want to bring man to the next level, from the love of the Father, not any other position,
we don't rule the physicality. We share the soul.
Thank you for today. (3:24). ...
