

30th Knowledge Seekers Workshop Oct 2 2014

New Turning point for Foundation

New Step for Mankind's knowledge detach from Matter, Keshe's Book 1 talked in normal terms, Book 2 in new terminology, Detection of MagGrav fields in Amino Acids for humans, confusion between Matter and Plasma, Gans is "gases in Nano State", Summary of the Teachings so far ... don't need to build resistors, capacitors, etc., How real Fusion works, Cup of Life made in China, Linking Ebola MagGrav field in a new material near it, virus links to new material instead of attacking body, How an egg is fertilized by 3 different Gans, Create Mass with new technology, Batteries are specific to MagGrav fields, need new batteries, Can light whole city with 10 cm wire, The friction between Gans layers releases huge Energy, teach later how to absorb cosmic rays, These are on Universal fields, Each Solar System has a barrier to keep certain things out, when leave Solar System then whole different way of seeing, Work with Atomic structure add up Proton/Neutrons get Plasma size, determine which gans to use as container, friction between creates energy, Fields open up and merge create Gold, etc, Malta Health center open, Application process requirements, Mr. Keshe's illness 2 workshops ago, Technology can change mind of a assassin so he forgets what he is doing, Ones wanted to control seeds of humanity, technology sets the seeds back to original, Dangers of handling Gans,

When drink water body changes it immediately to Gans of Water so it is available for whatever comes into body, Ellie telling what happened to Keshe, bleeding in urine, all test at hospital not showing what's wrong, looked like poisoning Arsenic, Homeopath gave Arsenic, Bending of light around stars shows MagGrav fields, Light is a plasma entity this is how it makes it to other side of universe, We only observe what the retina can observe, Nano layer on wires can be forced to produce light if we force something through the layers,

We don't see all the matter in the Universe because not all release MagGrav, Universe has different spectrum of colors,
