

302nd Knowledge Seekers Workshop - November 14, 2019

(,)

(:10). R reads Q: I keep hearing about new T in discussions about forming private groups to work on different aspects, how can we possibly do this if nobody knows what this new T means, nothing new has been taught in months and I want to learn more so I can move forward, we are missing the key, as it is called and I think without that nothing is going to change? (:12). The key is you haven't understood that you have to do some of the work yourself, you have to start understanding and connecting things. For the first time we showed you the MaGrav systems and you went and did and those benefited by it, and those who couldn't get it right and many other things, now it's time to learn how to connect the old system to the new system and understand much, much more. This is part of the teaching, of understanding the totality, it's not so much to do things, but to understand to be able to do more. ..

(:14).

(:20). ... (connection lost .. 50)

(:22). We are still in Brasilia and BRICS are here so the internet is trouble .. It is good to see peaceful heads of state working ..

We have offered the new T to the BRICS ...

(:24). ... We'll move into a larger disclosure of the T.

(:26).

.. We have taught a lot of new knowledge about the soul, how many of you have managed to create a system that carries a soul? AZ took little steps and they have gone on hold. ... It's the job of the rest of the KF to go back on the soul teaching and find out how you can replicate it. The soul is the same as the body of the man, the physicality of the man, it's the same as the energy unit, same as the Pen. How come when it came to the truth about the existence of your life, you all had a heart attack, because you had to face the truth that your soul is within you and you did not search for you, or is it a taboo to speak about the fact and part of the workings of the U. This is what has puzzled me in teh past few months, the soul teaching man has tried to ignore for thousands of years, understanding the work of his soul, the sun of his life, the cause of his creation. (:28). and now you all have a problem with it. If you have a problem to create the replication of the higher level of energy packs, you call it a soul, we call it a sun, we call it the center of the galaxy, black hole, center of U, you call it a creator, has a problem. It's a mental lock which K Seekers have to open up. They have to understand what is the connection between the STM and the PTM. How come for our K Seekers it's easy to understand the interaction of the fields of the sun with the other fields in what we call its eggshell of the solar system leads to creation of meteorites and asteroids, planets and moons and everything else. But when it comes that we change teh name from sun to the soul, and planets to kidneys and liver, you always say in English ??? you just stop, you cannot go any further. How come you made the systems to create energy but creating energy at the level of the STM is a problem for us. Until we don't cross this line, man cannot take into space. Unless you want to be on a bicycle or maybe on a donkey. You like to spend, what is it, it took the Chinese 20 days to get to the moon or do you want to get there in 20 seconds. Because in understanding the truth about how the solar system works, your soul works and how everything else is made, it brings you to the point of understanding the reality. (:30). If you look at it, the STM is the sun, the soul of the physicality which sits with teh heart is the earth, and everything else which is

within the system is the satellites of it. How come one of the planets has 10, 12 or maybe 20 moons, but the body of the man having 4 or 5 moons called the kidneys and liver, is such a complicated things for the humanity. What else more can we teach. When you say there is nothing new it means most of you haven't understood what you have been taught. How come it was easy to make the Gans's but putting them in a certain way to give you some other effects, it's so complicated. From now on we go in the understanding of the U Community, how to interact, but I would like to ask you 1 question. If you come across a man from planet Zeus would you ask him if he has a kidney or liver? Would he carry a kidney or a liver or has he stepped further by creating higher energy through the physicality, not to need to clean up in the physical system with what you call kidney and liver. When you understand how to increase the level of the STM and then increase the level of the strength of the STP, the way the earth and the sun create materials and they share energy. Now you need to share energy, then do you need the kidney? Is there a need for the digestion system, or does teh physicality when you manifest it, it's just a new dimension of presentation at the point of the fields interaction. (:32). It's not to teach new, we have already taught, it's for you to understand the totality. If you take the work of the kidney in respect to sun and earth and call kidney a moon, and the heart of the man the soul of the physicality. The earth and teh sun, the STM, you can see what it does, how it transfers energy. How come we accept the phenomenon of the pull of the moon, fields of teh moon from millions of kilometers away, and everything else to pull the seas up, low and high tide, but we don't want to understand that the same principle applies between the kidney and the heart and in conjunction with teh STM. What is new is for us to understand that every cell in the kidney and in teh body has the same structure and ?? structure as the moon, and the moons and planets, galaxies and stars. Unless you want to create another fancy word in creation as we have seen done in science up to now, up quarks and down quarks, and everything else and live in that fancy world, you can carry on. K Seekers have to step up, and as we discussed with officials in Brazil in teh past few days with teh governmental representatives, (:34). KF K Seekers in Brazil is big enough that now with what e have taught with K Seekers we don't need to send somebody to Brazil. It's the merger of the two, KF scientists, doctors, and K Seekers merging into the government structure. This is what you have developed to, now you have to be ready, now that we start merging with governments, the KF K Seekers that they can step up, they can support. You have to start teaching yourselves, the negotiations with new governments who understand about T, it's not anymore how we are going to teach our scientists who have understood teh basis, called K Seekers and governments just haul in it. Bring them in, teach us. Bring them in and let us merge. KS don't understand what I did and how I planned this for years merging the KF, teaching you for years has made the ground ready for us to merge as an internal system. In Brazil if you are Brazilian go in teh Chatroom, we opened it 2 days ago it has passed 300 and odd in the past days and it will grow to thousands. These people in these channels will be invited to come in and start working internally. We have many scientists in Brazil and many in America once AZ opens up we'll ask US citizens and K Seekers to join in the space program. It's KF. It's not me anymore. It's you to upgrade, to understand the T that now we have started merging KF into the scientific world. (:36). We have done the same thing now in China, where you'll see massive KF work, scientists who will be brought to work in Research and development. We are already doing it. But the thing is we have to understand geopolitics of a nation and how we can operate these things. You K Seekers have to start move away from just making Gans's you have to understand about teh fields of the Gans's. Gans is a connection between teh matter state, the energies and the

universal system. You have to step up and understand the work of the energy, movement of the fields from the Gans, and what strength of the Gans you need. All doesn't have to come from the research centers and very few K Seekers. KF is not set around one person, as we saw it how it was strangle held by the U Council member from Portugal. We were told that there were no K Seekers, they don't have any knowledge, they don't understand anything. We came here and they are all doctors, professors and scientists. KF is not one person anymore, it is all of us, but it has to move up. The question was that, 'you haven't taught anything,' it means that you haven't understood. You would like to hold onto the past, make a few MaGrav's and a few things, now move into the agriculture and see how the fields of the plasma works. Forget about the Gans, about the N coating, what you call, production of this and that. (:38). Look at the energies they create, at teh interaction of the energies, look how these energies interact with teh fields of the environment. This is where it comes to. It doesn't stop. What happens if you look at the universal condition, you have the soul, you travel into the space, you know the soul of physicality, where and what distance you have to make it between the two to confirm your manifestation, and how you are going to be manifested. Mankind up to now has only looked, now in the past few years we've become very familiar with you lot, because you see it done, now the KS have to take it to the next step. We used to say that if we see a man by his face we know, then we went to the fingerprints, now we said the fingerprints are unique if you see them. Now we went to the iris to see how the position and shape of the eyes. The Chinese have gone further to the face recognition in public. In the space why we'll have the soul recognition. How the STM of the and the STP manifest itself according to its strength, and then we know this is this person, and that person, because you can never show yourself in a physical dimension, because of the different strength. Where are the K Seekers to develop this question. We taught it but you have to develop it. It's another way you test it with the agriculture, now KF has been taught, the K Seekers in certain ways to create the first zero time communication through the thought and the STM. (:40). The unit has been made. It's not theoretical anymore. It's getting tested. Why doesn't it come from KS why does it have to come from KF and what I teach and what we put in different research groups. The problem is extend the knowledge, move away from physicality, Gans's. See what the fields of these Gans's do, because in space you have the fields of teh sun of teh destination you are in and according to its position to the strength your soul decides to manifestation of it, another moon, another star within a star. The problem of teaching now is how to get you as K Seekers to move into the universal teachings of universal understanding. The universal knowledge as I said last week starts from this week. And it's okay, we know we need energy to live, to sustain life of the STM. There is something out of line I have to explain to you. Sorry about this I forgot to make an announcement. We have been asked by national securities of 2 nations, this is very important for all of us, as you remember we had the red circle, we don't want to mention his name, as facts about him published, the officials want us to start with teh KF supporters, (:42). whatever, the same way, 'victims of Red Circle' They want us to start looking for the children which has gone missing. This comes on the back of what happened in England finding the 32 bodies in the container and they are trafficking children the same way. We want to alert worldwide how many children this man and the group around him are involved in. We are looking for children that have gone missing and used and abused by these groups. This is important as you know, 120,000 pedophile people have been found due to the Sterling case and Red Circle and his team ..

.. We are looking for missing children connected to Red Circle ...

(:48). Going back to the teaching. The understanding of the STM is very important. You have to move away from the matter state. (we are asked by securities to get the ...)

When it comes to understanding the problem of the soul and the energy, now when we speak about the soul we have to work with the energy of the U. We have to work with the understanding of the work of the U. In the U we interact with, (:50). energy packs. Now that we have developed and stepped up to the next level is that we understood the interaction of the fields of the U at the strength of our solar system, in a given strength interaction leads to the creation of the manifestation of the conditions. In interaction of that condition with its own environment which created it leads to manifestation of physicality. If you read Book #1 it's very much in line, if you never understood it, how the mass and weight are created. Why the mass of a person is the same across the solar system, but our weight is according to interaction according to central gravitational point of the manifestation changes. If you understand that the weight and the mass is the same, the same energy, but the same interactions, but in respect to interface between 2 different fields of interaction, one is constantly be with the universal fields at a higher strength, and one with the Inertia matter of it. then you understand that you can do the same thing with your energy systems to lead to creation of different dimensions. This is what, when you go to Book #1 and read about the weight and the mass, it's about the interaction of the fields of the source, (:52) with the Inertia strength, creates the weight in that point, but it doesn't change the field strength of the center, where it's the difference between the mass and the weight. Change the name, the mass is the STM, the strength of the STM, and the weight is the manifestation of the physicality of that soul in respect to its environment. If you understand this you can survive anywhere in the U. Your soul, the physicality, the mass of your body stays the same if you are on this planet or on moon or Mars. It's the same, the STM is the mass, then the interaction of the fields of your soul with the environmental field, the Inertia of the position gives you different weight, different manifestation of the strength, on the moon or on the earth as they have different Inertia field strength. If man understands this, he'll become man of space, he'll become a universal dimension, he becomes to the position that the physicality has no matter. This is the time when you tap into universal energy and the U Community, because the man moves up 1 step higher. It's us who decides the position and the time of the manifestation. Many men in the past have achieved this. (:54). Mankind has to understand the next step in the evolution of energy and stepping up to U Community. We'll start teaching this. For you to understand these teachings you have to understand the fundamental, what we call the principle of creation, manifestation. We have to understand these little basic fundamental cornerstones of converting physicality to energy that you can transfer the energy to any physicality will happen to the man itself. If you have listened to the teachings in the past years I always told you the, especially in the recent teachings we have emphasized on it that you understand. You started with the matter, when we got more understanding we called it alloys when the man understood that he can mix the metals together he different new ?? models. Then in the recent past we became Nano, we tried to separate, but with the K F T, being 40, 50 or 100 years according to some people who understand, ahead we managed to separate the atom into a Gans, which is the energy, and then we used these energies to create any matter, by presence of Inertia strength. If you interact with a higher strength you lead to creation of new souls, this is the difference in the understanding of the man. If you

interacted with lower strength, (:56). what we call, Inertia it leads to manifestation of physicality. If you interact the same fields of the higher order interaction, it leads to creation interaction with a higher level condition of universal dimension. This is where from now on mankind has to understand the totality of the process. (White board) This is where a lot of governments will come to understand that the KF has started making the difference. In the present science we started with the matter, in recent past we came to the Nano, and now we come to energy, what we call Gans in the matter state. This energy created in interaction with the different strength fields gave us the matter state, the Cu and whatever we saw that Peter made. Now we went to the lower Inertial matter, now what you as K Seekers have come to understand. Now we have come to the crossroads of man's development. We go the matter way or we choose and we go the way of the soul of the Universe. (:58) Here (matter side) you created the strength of the matter state and you got Cu and Zn. If mankind understands this (universal) interaction and created a higher order we will become man of U. Then in this process we understand and in interaction, in conjunction with the energies of the U, where and how we will manifest ourselves. The problem with mankind and some of the K Seekers is they still want to live in this world (matter state), but understand about this world (universal). It can't be done ... You can use this (universal) to reach to this, but for this to (matter state) come you have to go through this process (matter to Gans >>) again. Most of the times. Now you understand from today how we'll take you into the U Community. The way you made systems for production of materials, now mankind has to understand that there is a higher level system that in its interaction will become, instead of matter state, it will become in interaction with what we call higher order, U community, universal understanding of transformation of higher order energies into confirmation of the existence at the higher level. In some languages you call it different dimensions. The game of space T, (1:00). in the condition of space travel, in understanding of it, from today has taken a new shape. This one (matter state) still needs fueling, and this one (universal) needs fueling of the U. We are, we have achieved as KS the point of maturity that now we can see both sides. One road leads us to creation of matter state, and one road leads us to understanding of higher order that in that order we still can create and manifest ourselves, but in that strength. There is nothing wrong with either side. But in that state (universal) when you want to confirm your manifestation then you have to understand the field strength of the environment. This is how the dimension of the soul of physicality has decided. Again it's like before we got so much involved in physicality that we saw the birth of child as the manifestation of the totality of physicality, but does it come with that child, what does it come with that ??, with the birth of a man's child or a fish, it's the creation of new energy packs which can live in the dimension of the universal level. (1:02). It's very much like for those of you who are a cook, it's making the sauce. As the French say, the bouillon, the base that now that you have made it, do you want to make it into a soup, or to a dish. Now you have that base, it's the energy of the STM, energy within the ?? sphere of ?? ?? energies of the matter state of the higher order which has no confirmation in the physical level. If you understood this, now you understand ?? what the new enhancement T we put out means. In these enhancement systems mankind has and will receive a choice, in the presence of his soul will make a decision. ?? Do I want to get rid of my pains in physicality or I use the system knowing how to interact with it, I become man of U. Many, many people when they go into these machines will never come back. Once they ?? see their soul ?? it will become a traveler of the U. These systems have a soul, (1:04). which is connected with the soul of the U. You were waiting for UFOs to get ?? rid of your physicality, but I have given you a system which will take your soul to the

dimension of the U. As I told you I will open more doors with this enhancement unit. It's not to enhance your physicality, it's to enhance your soul to understand the dimension of the U.

(.. break in connection ..) (1:06). (1:08).

We are in the building with world leaders and the whole hotel is covered with the nationalities of governments, we were told yesterday that we are the only nongovernmental organization which is not connected to one of the 5 nations of BRICS that has been allowed to stay in the hotel. This shows how much the 5 nations of BRICS trusts KF work .. this gives you a lot of confidence how world leaders being in a distance from us trust the KF. Those of you who understand the gravity of such a position it gives us a lot of joy. We are not somebody they put out, we are kept in, they trust. ... Now you understand why we are in Brazil and the time that was chosen to be here at this time. It is the souls that decide not the man. It has given the KF a huge step up to be able to meet in different ways and conditions with different officials. What is important in these teachings which we try to bring, (1:10). from now on, is to start showing the man the strength of his knowledge of his soul, what was hidden from him, by himself, by the choice of the soul of the physicality and not by the choice of the STM. For the maturity of the physicality to become independent takes 9 months in the womb of the mother. The maturity of the STM to understand the totality of the work of the U Community takes a little bit longer. Then comes the reality of, do we really need to understand all (this) or do we know it and we decided to ignore it all. How much have we ... What is the reality of which one we want to choose. From today a new gate, new door, a new understanding of the creation starts. Those of you who wrote, Mr. K has not wrote anything new, my god, from now on is so new that I hope you won't break your leg trying to catch up. (1:12). We saw with teh AZ team they did everything to understand how to create the soul and many of you have tried it. Now you have to understand how you take the other avenue, the other road, now you have a choice, mankind has a choice to live in the dimension of teh physicality or in the dimension of the STM in the freedom of the U. As you enter, as you develop, as the interaction of the fields of teh egg and sperm of the mother and father in the womb of the mother, or in a test tube as in nowadays, we have changed the test-tube for the development of the STM with teh enhancement unit. Now you understand what is on the table, mankind for thousands of years could not do that, with the new enhancement units this becomes the womb, interaction with teh man can release and become part of the U Community by carrying and understanding, can carry his soul with his physicality in the dimension of manifestation. Do you remember the movie where the guy said, beam me up Scotty? There is no Scotty and no beaming up. Now it's the elevation of the STM within these systems. (1:14). Those of you who run into pains, and are tired of the suffering and pain of physicality, you are given a choice, to take the dimension of the soul but still exist and be within the realms of the creation in the dimension of understanding of your own physicality in any dimension on teh U. As I said, the new enhancement unit is the womb for mankind to have a taste and understanding how easy he can work within the dimension of his soul without the existence of physicality. In the coming time in some of the units in AZ and some in Mexico, China and Iran, man will enter the system with no chairs or beds, it's not the healing station, it's the elevation of the STM station. Now you understand. Prepare to be born in the dimension of the new era. But still the choice of returning to live in the dimension of the physicality of the man. The new enhancement system is not a known system, I said this to John when I talked about the

creation of the soul. Many times I gave indications. (1:16). With these systems in the direction, in a way we have created a new transportation system which ?? you have. These are portals or whatever you dreamed about, these are the facts that you can elevate your soul, even to elevate your understanding of your physicality, not necessarily entering another dimension of life in the U. Mankind from today has been given a new choice, come with us, or suffer with yourselves. There is a reason we are in Brazil, sitting right in the center amongst the world leaders. We are not here to interact with them in the dimension of physicality, we are here to change teh STM as they are. You will see the new era has begun, even with teh world leaders. Everything looks accidental but in fact it's well planned. We did not know, the KF team didn't know that when we arrived in Brazil that there would be a BRICS meeting and we moved from one hotel to another to be amongst them, because teh soul had planned for the KF and world leaders, and the understanding of the KF K Seekers, (1:18). to enter a new era. Now mankind has a choice, we have developed a system, and this is what I said before in the past couple of weeks, the universal systems which are produced by KF, are set to take man into a new dimension in the U, you'll feel it, you'll be part of it. Then you'll understand. Now you say I have not taught anything (new), now you understand that you haven't listened to me. We inform you as much as we inform the world leaders, the ministers, and you look for the face and we look for the soul. You look for the lower level and we show you the higher level from now on. Try to be part of the totality. Try to understand that there is a higher level energy, but to get to it you have to create it, that the beauty of the STM in the presence of the higher energy, it shows itself. It melts that strength of the physicality and shows the beauty of the STM. (1:20). That's what the new enhancement units are made for. I can solve your problem with your cancer in no time. We don't need many things, but with the new system when they are set will need ?? ?? around the world will give every nation the opportunity to become the man of U. It will not be the exclusivity of 1 or 2, or 1 nation. When you put a lot of heat into something and it boils up it shows its more, new dimension, it's new features of higher strength. it's very much when you put the sugar into the water, you heat it up, it melts into it. Now that fire is the increase in the dimension of the strength of teh environmental fields which can interact with the physicality of the sugar and the atmosphere of the system to heat the water for it to melt in to it. When you open the door you get a new product, a new dimension. These systems are set to do this. As you know I am a very good magician, which one do you want me to have. Now there is no more hiding. (1:22). The new enhancement units are the opportunity for mankind to choose, if I want to repair the physicality or I want the ??? the physicality in the new dimension of teh strength because the fields created within these systems allows you to see the beauty of the U. It gives you the chance to choose with the full consciousness of the STM, if I want to stay in the dimension of physicality. All you need to do is to create a higher level just as you say, heat it up. See if the physicality of man will stay with teh STM because the STM ??? ?? the sun ?? will stay there. Just because you can't see it doesn't mean that you can't taste the sweetness. Man and the STM will understand the new operation of what has been done. The beauty of it is that there are many, many things that have to be brought together, man have the opportunity to become part of teh U Community, but the man has the responsibility through his collective soul to raise the soul of the planet that with it, it helps the other creatures of this planet. Now you understand, (1:24). there are no world leaders to lead us, we'll lead teh mankind to freedom, but our way. When more and more of mankind understands the new totality. One of the reasons we delayed and we put this so far and now we start releasing it, even the next 2 or 3 months we are preparing the humanity and world leaders for what is to

come. It's very simple. We start preparing the souls of mankind and the world leaders in trying to set up the nations all to be in the same direction. The momentum for taking mankind into the U Community has started, has taken shape by you K Seekers and nobody else. Understanding different levels of it, not, some of you never made a Gans but you understand, the knowledge has touched you and that has already matured the soul. That was the purpose and not just to make Gans's. Now you understand what these new systems will bring. >> (1:26). 10 What is interesting is, how much we choose to accept and how much we choose to deny. What would be the outcome of the new condition. What would be the new dimension for mankind. Do we choose to be part of this change, or do we decide to be part of this totality. Do we choose to be both in the physical dimension or to choose the elevation of our soul in any dimension. Do we choose to stay and travel in the dimension of physicality of the man, spaceship of the man, or do we choose to go to the higher level and travel with the other souls of the U in their dimension, in their spaceship, in their dimension of traveling the spans of the U. Does the physicality of the man now become a burden for man (1:28). to become part of the U Community because this physical status as we have chosen on this planet cannot on the physical dimension live in a higher order. Do we trust our physicality to be given to the soul, that, that soul in the coming place in space uses the soul of physicality to manifest itself in the dimension of the new strength. Now you understand what we are preparing the mankind for. The new systems are not just a system that you can get rid of a cancer or whatever. Many of you will leave the KF because to face the reality, to be able to take into the new levels of understanding will be very harsh. In reality all of you have the systems with you. Many of you look as you have to have a dynamic system like the earth and sun rotating in a dynamic system, then it does what you like. If you look there is no rotation in the physicality, body of the man, as I explained in the teachings in the past few weeks, but your physicality exists because you have created it instead of what I call dynamic rotational, you have chosen the circulation of the blood in a vertical condition. The blood of the man has replaced the rotation of the system. (1:30). If you understand this, in the new system, in understanding the freedom of choice of the body of the man, ??? it will be all the same way. We don't ?? need, or ?? the heart of the man to rotate so much ?? speed, in interaction with the fields it tries to show ??? is the heartbeat the position ?? with the creation, separation between the physicality and what we call the non-physical dimensions as it changes from one to another. Would, is mankind ready for January to walk into the system and know he has a choice. Or would we choose a new dimension. How many of us would dare to take that step and know that you still can come ?? (back). You have to realize how to create these conditions that's what I said in other teachings, (1:32). we will not teach this to man. When you reach the point of elevation of the new dimension of the universal level, you'll understand the system. It will not be easy for many of mankind, the human race to go through this transition. We would love to extend the life to be with our loved ones, but we don't want to understand that with this new ?? wave ?? ?? the soul of the loved ones in the dimension ??? physicality, the real truth of their existence, not the ?? ?? in the dimension of physicality of tangibility, within the structure, within the fields of their lives mankind will live. There is no fear of an end. It's the beauty of the beginning. A new understanding in being able to deal with the higher strength STM, then the lower strength of the physicality. This is the choice mankind has from now on. This is the choice you're given. (1:34). It's not the right, it's the choice. Now you have to understand how to create this massive space energy conditions. It's time to move on and to enter this new dimension. The guy said you haven't taught anything new, I hope this is new enough for you to take you a lifetime of

the U to understand what you have been taught. What it comes to is how do you interact with this new condition, how do you come into the point when you leave this STP in amalgamation with the STM you see your children, loved ones, or do they live the same as what you call the dreams. They talk to you and are in communication with you, and you are in communication with them, but they don't see the level of physicality. You become free of the shackles of the physical life of the man. Now you understand what I said, if I tell you how beautiful the other side is without the shackles of the pain of physicality, you all would commit suicide to there. (1:36). We give you a tool, not to commit suicide but to understand the point of transition into the U Community. It's man's decision from now on to choose in which dimension and which order you want to live. Would you like to live with the physicality or with the soul with no dimension, and then if you understand this in the next level of the maturity of the STM in the new dimension, man will come to understand that there is another level which is closer and higher and with that process, as we have shown in many of the teachings the plasma of the U doesn't work expansion outwards, it works on the expansion or contraction inwards. In the dimension of physicality you gain power and become a world leader and reach this way (upwards) as you move away. In the dimension of the STM in the universal dimension you go this way (spiral inwards), that's why the plasma is made that way, by gaining more in the dimension of the strength field the power is gathered inside. (1:38). Where with the dimension of physicality it runs away from the man and becomes his death. That's why in the world of the dimension of the plasma man always exists. In the dimension of physicality it has a time and death. We start from here in the dimension of physicality as the soul is gathered and made, it moves this way. In the dimension of the physicality the more we go further from the point of the birth the demise becomes more certain. As we say we are born to die in the dimension of physicality, but in the dimension of the STM we are born to strengthen. Then you understand why in the dimension of physicality we release the soul because now it's time for it to take the flight of fancy to see and reach in step by step to the point of the strength of his creator. Now we move to a higher level of understanding of the totality and collectively mankind is ready for this, it's just showing the path. Through the new systems and technologies being released, then we choose if we want to be a farmer on this planet or travelers in the dimension of the U, (1:40). and this is what I said, mankind has reached the critical mass that so many can leave and there are enough here to keep the structure of present society open and running the way it has done. Many of you who take into the dimension of the soul would try to come back and encourage your loved ones to take the same path and some of them will do. Some of you will decide to come back and stay in the dimension of physicality for the time of the separation chosen by the ?? ?? Which way the man will take this journey from now on ?? that he knows, it's his choice. ?? That you can free the man from this dimension of physicality ?? ?? dimension of soul .. Then you'll understand part of the work of the U what is hidden in the knowledge of Tesla. But man ?? dimension of ?? physicality of the knowledge and understanding that this is the path to the U Community. (1:42). The process of interaction of the fields in the dimension of social structure of the STM in the U will become part of the teachings in the future, that when you enter the dimension of what we call, non-physicality, how do you react. As we say, to learn in which hand you hold the fork and which one the spoon .. and where you put your physicality and in what position if you need to, and everything else which goes with the new life and the universal condition in the space. The choice is for mankind, now we have shown you the way. Mankind has to decide, I go through the soul and through it I educate the other souls that I stop the criminality and hunger in the dimension of physicality, that those

who stay behind and would like to carry on with the same existence will enjoy it. But don't forget every dimension has its own story and if you get it wrong it's not all milk and honey. (1:44). To the new understanding and development of these new technologies we open the door for mankind, another system of traveling the spans of the U. Now you understand going back to the very first teachings that I repeated many times about you are the last man standing. It's you in that system and it's you ...
... (break in connection ... 1:46:25) I said you in the system will decide in which path you want to take, do you want to take path of physicality or the path of the U Community. You're the last man standing. You stand on your own in the systems and in the system of the U, then you have to decide which way you are going to go, do I rely on the physicality in the dimension of seeing, or do I rely on the vision and understanding of seeing the universe. With these systems and the new technologies we release more and more you understand that you are the last man standing, and you are totally on your own in the system. In the future we'll develop technologies and systems that families can take the trip together when they are in totality, uniform. They'll take that trip together to become part of the passengers of the U. (1:48).

Any questions. .. How are they going to put the hands of the soul up.

Q: Why when we die the physicality doesn't melt as we get elevated like the sugar in the hot water? When we die the physicality doesn't melt because it's at the strength of the planet where we are. The physical body is created by the interaction of the fields, (1:50). the soul has connection with the same field. >> Now I wonder how many of you will understand the point of transition, how many of you will ?? for the spaceship now that you understand that the SS is here, it's you who decide ?? where I am going to captain the soul. How far would mankind trust his own soul to take the next step. Any other question. Q: Is it not one of the functions of the physical world to understand the physicality, meaning that the present limitations are a wonderful teacher, which no longer exists then? (1:52). That has been the dilemma of the man since the beginning of the time. It's for you to decide and to understand your own dimension. You can't teach it to somebody else. I was teaching to somebody recently you can't pilot a plane, but you let others build a plane and put a pilot in it and take ?? ?? Mankind could not find a pilot, a system to get itself off of the shackles of this planet. KF has built that ?? , but this time the pilot of your soul is you. We create a runway, and create (it) and make it available the system for your soul. It's understanding what the T is and that no man has the power or priority over the other one. Q: ... from KF Bulgaria ... (1:54). Q: KF Bulgaria had been dealing with Giovanni (Italy), how to go forward? (1:56). (break in connection ...) (1:57). repeats question. Bulgarian community doesn't know what to do, we want to grow up with the knowledge .. and evolve more people, we'd be happy to have help from the KF. (1:58). If you have anything with these kind of things you have to send it to KF webmaster, it has nothing to do with Giovanni. ... KF ?? is shut down it's finished. Send your request to KF and we'll look into it. We are setting up a lot of national teaching point, Zoom's . I thought we have a Bulgarian teaching room. ...

(2:00). .. Any of you who want to set up national teachings or organizations that works write to education at KFSSI.ORG ..

(2:02). There are people who come looking for fame and fortune to the KF and when they don't get it they go and destroy it. We just seen one of the U Council members make a mistake and walked away and all the problems were KF. ...

(2:10).

(2:16).

(2:20).

.. Q; I will meet with investors about new health units, what diseases it can cure and how many doctors do we need and what kind of set up? .. (2:22). repeats question ... It's a very simple way, you find an investor, you need doctor, nurses .. everything is calculated but we don't put these things out. .. the units are 150,000 until January then it goes to 500,000. (2:24). ...

(2:26). ...

... an operational center with 100 units is in discussion. (2:28). The government and investors are seeing what is coming. (break ..).

We are running out of production, we have to push it back to March until we can increase the production to 1 or 2000 per month. This machine has touched many, I don't even disclose to people what we are negotiating and where, because the contractual agreements and payments have started moving up. It took a few weeks, a lot of people would like to have the system but they are looking how to do it.

(2:30).

(2:32). ... We are there to help just go on the website ...

(2:34). ... plays new video, he will go for an MRI ...

(2:36).

(2:38). .. This is one of the most severe Parkinson's case I have seen, when you look at the MRI part of the brain is not there. ... damages were extensive. worse case I have seen in maybe 10 years and still we have managed to change it.

(2:40). .. Starts video of UBES unit ... (2:44). Case study ... (2:56) Day 40+ exercising

..

(3:02) playing checkers still has some shake.

As you see the progress is quite astonishing .. This week he has come to zero medication. (3:04). We'll see some adjustments, some ups and downs in the next couple of weeks .. and gradually over the next two years the brain will start building up to totality. This is the beauty when such a T gives the life of a man back to himself.

.. We have more volunteers we can show. A young boy of 27 years who was on 47 tablets a day will be totally zero like him in the next 14 days. This T has been proven for the past 10 to 15 years to work. It's a T, it's not a medical system. It's the process where the body accepts. When you don't fight with illness but you work with it, within it you'll see the success from the collaboration. the body responses ...

(3:06). .. When now if you would have seen him before, when he uses a tissue now he asks to put it in the bin. Before he let his tissue go anywhere. These are the slow progresses we see. It's building the brain to recognize these things. When I see I give a life back to a man like him and he gets his integrity and dignity back, he lives teh life, it doesn't matter how long that life is going to be, everything we went through was worth it, the exiles, the attempted murders, all the slanders we stood from Red Circle. It was worth it to save teh life of a man in China whom I never met. **This is part of our ethos.** We are here to serve. I live by my ethos and those who abuse it and then blame it, are those who came to abuse the ethos under cover. ...

(3:08).

(3:10).

... There is no structure as to who is going to be the leader, even on my passing.

(3:14).

(3:16). .. I taught for about a half hour, if you understood the drawings stop talking about the Gans's. Do you want to use the energy of universal passage or production of energy, to run a machine, to find a food. ...

(3:18). .. the end of man doesn't have to come by death. Now for the first time the T has given that option to man. ..

(3:20).

.. It can't be a point of escape, it has to be the point of elevation of the STM. It's not playing hide and seek, it's understanding that it's a point of one man standing and understanding now I have become a better man, better being to serve the U. There is no money, banks, man or woman to enjoy, no alcohol or drugs. It's the point of understanding this is my ?? my point. (3:22).

.. Any other questions. Q: Does the UBES Unit put people to sleep or are they fully conscious or does one even know? (3:24). Q: Does one have to decide then and there to join the U Community? Your soul will know. It's not like university if I am going to pass or fail the exam, would I do would I not. This is not an escape route or another holiday excursion, I'll go and see. It will make a lot of men think and make them wise to their way of living, it doesn't matter in dimension of physicality or the dimension of the STM. Q: ... What could people expect, those who have no experience with the knowledge and don't know anything about it and choose to go through this unit because of health issues, how do you see the way they could be prepared .. what they can expect to experience in regards to the soul and everything? (3:26). You go in for a physical repair through what you think, or you go for a physical processing through the elevation of the soul. It's the soul which makes the physicality. The process starts the transition to be part of. It's something you set yourself for, the system responds. And in that process you can develop many angles into the whole structure. It's not that I go in and I don't know what happened, I come back without a cancer or do I go to another, get the elevation of my soul. It doesn't work that way. You'll understand, people will understand, thy shall not steal. The system is not there to steal life. Thy shall give, it's there to give peace of mind, peace of soul. So this doesn't exist. I got a communiqué from Denmark, that I am selling my house to buy a unit. Go back through the same channel, we'll respond to you. and see how the KF can help. Many people are sending these, we are putting everything in to serve humanity. People in that level have already reached teh elevation of their soul. They put the physical dimension beyond and move into a dimension that they can serve the others for them to elevate, it doesn't matter about their physical condition. This is how KF is set up. (3:28). Q: Can I understand it's like a natural process and if the soul is ready then it will go, if not it will happen at the right time? I'll put it to you this way, just because you go to the airport for an ice-cream it doesn't mean you're going to take the flight. .. You have to be prepared for that. This is not an escape route. When you decide to take that trip, the soul of your loved ones all have to understand and agree with it. Q: If I understand you, it's like they can come back and travel if they are ready, so they can come back to the physicality? ... (3:30). repeats Q: As I understood you if you would be ready to travel with the soul .. can you come back? It's the option you have, there is a way to do it and that is open. I mentioned this in one of the teachings about a year ago. .. I am not telling you

something new, it's already, but at that time you couldn't understand, but maybe now you can. the point is when you enter these environments, it's not a 'beam me up Scotty', job. You have to be clear in the position you create for your soul. It says, thy shall not steal. You can't ?? from teh STP if the physicality is attached to here, or you become another thief by the soul and the soul will not do that. Many people will come to understand this, this is not an escape route, not going for a sightseeing to try to escape the time, it's for elevation of STM, understanding of the more, you can use this system to educate yourself to the totality of the knowledge of the soul, because when you have that elevation you stand outside the physicality and you look at the physicality in a different way then when you are inside it. The house looks different from inside then it does from outside. When you are inside you don't see the house standing crooked, when you go outside you see it, and how you can jack it up and support it to stand up straight. (3:32). There'll be a lot of questions how to do it. You'll see the first processes, the system is so powerful and amazing once it's set in the mindset of the man that it is there to elevate his soul. It's the soul that processes the weaknesses in the physicality, but how did those weaknesses come, because of whatever you call in teh physical dimension, and if the soul agrees with that position, because it will not change the other soul. Would it confirm to elevate the other soul, that both souls can live. Let me explain what it means. If a father is not happy with the son, and if he decides to go in the machine, but he has a prostate cancer. In elevating his soul, in trying to process teh cancer, it would be a half job done. Would he in that position be able to elevate his soul that he can see the position that he has taken in respect to the son, or to elevate his son to see his position, that would bring peace between the father and son, the soul, that the physicality takes any of your system works, then it's applicable. It's not that I just go in there and that's it, I got rid of teh prostate cancer, it will not happen. It will be another chemotherapy waiting for it to come up (again) in a worse condition. This is what (why) this nation of man will become a peaceful nation, through this process of understanding. (3:34). You can't steal and go in there and let's say, elevate your soul, and then leave your children in the suffering of the souls of loss of a father or whatever. This is not an escape route. This is balancing everything that it brings peace to the STM and the souls that are connected to it. Q: This is very nice to hear, thank you. This is not a hearing, you shall see very soon. Any other question. Q: This is John from Argentina. Did you get home safe. Q: Yes, very well. It was nice seeing you. .. Q: We hope to have this T in Argentina. We shall see it depends on the K Seekers of the KF in Argentina. John took a nearly 30 or 40 hour bus trip to come from Argentina to the conference. He arrived in a way that he couldn't get in touch with any one and was in teh bus station for nearly 12 hours trying to find which way to go, because our people (3:36). Q: Very worth it.

(3:38). Q: What is the difference between giving and emitting? What is the difference between G and M it's the same. Emission comes from the light of man, giving comes from the physicality. (3:40). Q: is it conditioned, which one is more conditioned? Giving is more conditioned because you decide. Emission is like the sun you have already done your released in all dimensions. In giving man has a hand, he has to. Q: Can I work with both of them at the same time? You already do. Do you stop loving your children, or do you sometimes touch your children and say, I love you. Q: Can I channel this giving? Of course you can. Ah, you are going another way, I understand. As you understand that members of U Council work on both ways. They give continuously, but they can channel it to people the way they want. ..

(3:42). .. When we die at the point of death our 5 senses disappears? No it doesn't, not with your soul. Body of the man is a replication of the soul, so it has more senses, it just fits its environment, ?? 5 ?? Q: .. The physicality uses the senses but the question is, at the time of departure there are 11 gates in the body that the soul can leave, depending on which gate it leaves will depend where the soul ends up. ?? Which gate can the soul come out? Can you repeat that ... (She goes over the gates .. so the soul can go out any of these gates? K- No, no way. Who says so? Q: Because I read someplace this is what happens at the time of death ..? K- Who wrote it, did the god write or did you write? Q: No I read it. K- You read God has 2 holes and 20 legs, do you believe it? I (you) can write anything you like. (3:44). But you have to understand, that now the STM is free, it doesn't need a door to get through. Secondly if you listen to the past teaching the soul already has access to get out without these holes. Q: Because at night I sometimes feel the soul comes out and expands and at that moment something wonderful happens. You are not the physicality, you don't have those senses, you have better senses. I was wondering how does this come out at night and how can you do ?? during the day? K- We do it all the time, it's not just time bound, the STM is not just confined to the physicality by the light of the day. The STM is free it chooses to use the physicality for its presence on this planet. It's a very strange way. Let me explain something else, Alzar, the astronaut uniform, what they wore to go to the bottom of the sea, ... The American way of wearing clothes and going to space is over. That was their way because they couldn't understand. It doesn't mean that's the way it's going to be for the rest of mankind. We have progressed and developed in the knowledge and sciences. (3:46). In that process do we need the shackle of the physicality for the dressing of the STM, be it at the time of departure or at the time of choice. Q: If I still have desire it means I have attachment? K- No. Q: But if I have a desire to do something it means I have an attachment to it, don't I? K- But you still have a desire when you are in the state of the soul. Q: So what is the difference between attachment to physicality and desire. Say I have a desire to have a pair of shoes. ... That was the old me, I am not attached to shoes anymore. ... Then I decided to not have any desire, then I feel I am dead. (3:48). So I was confused then? K- A man who has no desire, in a way is a dead man. .. (cut off) ...

(3:50).

(3:58).

(4:02).

(4:08).

(4:10). We'll call it a day because the noise of the helicopters getting more. Thank you for being with us.

(4:16). ...

(4:18).
