

303rd Knowledge Seekers Workshop November 21, 2019

(

The KF teaching is not that you make the system to fly, it's the way you think, you live, it's the ethos of becoming part of the totality,

)

(:07). We are traveling around the world, last week we were in Brazil. We discovered that there were many Brazilians which for a long time have been cut off from the KF structure ?? Some other peoples work, they have done good work, but somehow there was some misaligning and it has been corrected. Now we see the massive KF Brazil which is being set up. We are very thankful to all the K Seekers in Brazil and the new present structure that is getting set up. Hopefully in the coming time we'll learn more to share more. KF is a big family and as we learned we are in the same process as many organizations like us. We have to learn about each others culture and understand what beauty ?? ?? and don't view as a weakness, as they do this or do that, use it as a strength, that totally we have more to do. I have seen some of the communications with Brazilian ?? talking about the majority of the Brazilians speak Portuguese and there are indigenous people. Let me explain now. Every language has a right and a soul and we have to respect it. This is the beauty with the KF we are part of the same family. I have seen many Brazilians using the first or the surname as Keshe to show they are part of the family. It was very nice to see this way. So they have totally become part of us.

(:10). We are part of the same structure and the same family and this gives us a strength. We should look in what brings us more joy and those things which divide or try to divide we put aside, but be aware of it, warn each other. Now we have seen in the past 2 or 3 weeks Red Circle writing to everybody trying to put ?? (himself) as a victim, it's not because it's coming out. Be aware of it, he and his teams are fighting for their lives. The ?? came up last week which I explained that we want to the KF team to set up with himself, Red Circle, and they said, why doesn't the police go and get him. These people, if they go and get him, what happened with Sterling, it takes years in court and that is why the FBI called in and said, Mr. Keshe, if we go and chase him, it takes years in court, but if he comes in we can conclude it rapidly. Then I went on Carry Cassidy's program (Camelot) and I explained how we know he has abused his children and 24 hours later he went to the police station and he surrendered himself and now 120,000 pedophiles around the world have been tracked. tens of thousands in the past weeks, we see another 21 child traffickers have been arrested. This is a huge gain. He will not come and confess because he knows he's ?? So we have to put enough so that they walk in. Red Circle is deeply involved ?? we saw many ?? ?? He's done the same thing. Alan Sterling abused his children and when we said we know he went and submitted himself to the police and the whole story started. It's not that the police can't get .. we have enough evidence but if these people walk in (:12). and submit themselves it makes it easier for the whole police structure. You have to understand that these people have 2 choices long prison sentences or be killed by the people who have supported them and given them children. They are cornered, and this corner came to Alan, we saw it, where he was put in (prison) and after a few days he gave the code to all the pedophile rings he had access to. And rapidly we saw a judge getting killed, we saw another top guy in prison, in New York a few weeks ago. This is all part of it. They just kill them, they have no choice. They have to become much, much more what we call, allegation ?? they have to put out, because on the other end we see, the highest judge in America, he was

killed a few hours after his meeting with president Obama. Then we saw the other one in prison after a couple of weeks entering (prison), he was hung (Epstein ?) These rings are so powerfully controlled that Red Circle has 2 choices, to be handled by them or to walk in and get protection by what we call, a 2 by 4 foot prison sentence for the rest of his life. This is not that why don't the police go after them. They have all the files there, and he battling, they have no choice, we have seen it, when I told you that this was going to happen. You think it's something not realistic, but it is. We have seen 2, the highest judge and the tough guy who was with all the people, loosing his job. So we ask you to put these up and let us know the website you set up, then we'll put all the names in it and then we'll gather enough. The first three names that have to go on it are his children, (:14). his first 2 daughters, exactly like Sterling, and the grandchild. Then you add it up. They have no choice. These people have done so much over years and you got ?? that now this is .. they have no alternative. He can walk into the police station and hand himself over, don't forget he is already with the police in the court, inside them, they don't give them a choice to live. Accidentally he'll have a heart attack too. People like Red Circle are cornered and we say in English, between 2 stones and a hard wall. This is why we ask. We need to do this that we bring up many other cases. A lot of people have found a lot of connections, they informed us, we have seen it but ?? have to set up, "Victims Of" and then put all the names in and then all the Federal Police and everybody gathers information on it. This is to save many children. One hundred and twenty thousand pedophiles, if they each touch 1 child, that's 120,000 children we have saved. These are huge gangs, rings. So this is how the KF works, we become part of the universal structure. We saw it last week when we were the only one, literally the KF was the only group which was allowed to stay within the structure of BRICS everyone else was removed from the hotel. If you are allowed to stay it means that world governments have accepted the securities that we are safe. We are accepted as part of the international organizations and gradually we become part of the structure, (:16). as we deliver more and more. It's not me anymore, it's us, and the sooner KF people realize this the faster we move on, the faster we can deliver not only technologies but every other thing. At the moment the new Enhancement unit has created a lot of problems for a lot of big pharmaceuticals, we see it, we watch the communications, and we see what they are setting up. A lot of governments. A lot of governments are looking at it as this is an alternative to what they couldn't have. You walk people through a tunnel and you get rid of diseases. We can't hide anything. If you are in the world of pharmaceuticals, you understand that out of every 100 medicines submitted to FDA to be approved for consumption, only 3 to 5 get approved for consumption. It take 10 to 15 years. It costs 3 to 500 million dollars per case. This is the problem. we see ?? we are not entering the world of medicine we are entering, enhancing the body of the man. ?? the body ?? we don't go into medical applications, we change the environment the same as we do with the plants and trees. You saw teh tree in Austria, we didn't give it anything, we just changed the environment and it grew like a weed. You see recently the governments have opened their eyes to the level of the new knowledge. The old has to be replaced. We were asked to interfere in the Iranian government situation, as a KF ?? supporting Iran. (:18). KF is a scientific organization and I will never take part in any political action for or against any political regime in any part of the world, even the Iranians. The present Iranian situation is a religious fight between 2 factions of religious leaders and this will divide Iran deeply in one way or another. Those who have done so wrong they don't want to loose because they know the revenge (by) those who want the change. The Iranians have to learn one thing, go back to your souls. Do not take actions that harm another soul. Do not burn your structures, these are national assets, do not destroy

anything. Raise the soul of your leaders. It doesn't matter in what nation you are. This is the work that we have learned. Revolutions have brought nothing but pain, those who have been on the right side or the wrong side. We have seen many refugees across this planet. The change, the point of revolution has to come through the STM not the power of the gun and burning national assets. Getting killed for it is not worth it. Maybe in trying to raise the soul of our leaders we are aware of more ?? My appeal to Iranian KF Supporters which are many is, pray, give from your soul to your leaders that a peaceful solution through the leaders comes up, and not by burning and riots. The same we see in Hong Kong, Baghdad, and other countries in South America. The position brings another bunch of rulers who will become abusers. The only solution, now that we understand the position of man, (:20). is to raise the soul of our leaders, that it can and it will bring in the position that us as totality can become part of it. Guns, fires and destroying national assets has never brought prosperity. When you go and burn a building that belongs to the nation, it's you who burns your own home. You have paid with your taxes and hard work to build and in building the structure of a country. This type of behavior has to become a past, something mankind used to do. This is what we have to learn. I have been asked to take part in taking leadership in Iran into entering into politics. I am not a politician, I am a scientist. they see in my, what I call, freedom of talk, and what I brought into the scientific world through the influence of T, I can take a leadership. This is not my job. I will never take part in politics, but I pray for the soul of the politicians that their soul and their nations rises so that they'll find a peaceful solution. The same thing goes for those in Iraq and South America. If you are a KF supporter then do not take part in riots. Take to raising the soul of your leaders and maybe your self, maybe you'll see more. The situation in Iran will get worse if people don't understand this. We had a revolution, we burned many as Syrians and Palestinians came and killed many of us. They got paid to kill. (:22). No Iranian ever killed another Iranian during the time of the Iranian revolution. The same thing in other places. They get paid to have a better life for their families by killing others. And you see what happened, Syrians got paid for what they did in Iran, in killing so many, and you see what happened, they lost their nation. We think what happened in Syria was accidental? No, you have to understand the history of how they got involved in killing Iranians. The same thing happened with Palestinians, you see why they have suffered so much. They got involved in killing thousands of Iranians. It happened at the beginning of the Iranian revolution there were Palestinians who murdered Iranians left, right and center because ?? ?? paid more than what he could export ?? Palestinian. But in a way he sold the prison sentence ?? for years more It's the time to bring the balance. We teach the politics for you to understand the consequences of it and what happens. Forty years on, in Syria with all the killings done in Iran, being brought in every time there was an uprising to kill. What did they do (what happened to them)? Now they got killed themselves. This should not happen. We learn. We saw what happened to the Palestinians. If you look at what happened during the revolution in Iran within days after Ayatollah Khomeini entered Iran, the Palestinians were in Iran massacring because they got paid to do so. And you see what has happened to Palestinians today. They're still on exile, they still don't have a home to live. We saw this with Syrians killing so many Iranians, what happened to their country? They lost it. So much got devastated. These things should not happen. Mankind should learn to go to the next step of rising. (:24). I don't support governments, I inform governments. Nothing is hidden from us, even the private visits or talks. Many, many people in the world leadership are close friends with the KF. We understand it. The same thing happened in China. In China we saw 3 years ago the revolution was financed by Vatican. They paid fully for it. The

division of China brings many states, as we saw when the Vatican paid and brought John Paul and divided the Russia and the Eastern Bloc. They were going the same path, but this time the Chinese leadership is aware and China will ??? The same thing is planned for Iran. The whole interest is in the oil industry and nothing else, but the worse thing for it is in the coming weeks, we will show you the power generator. But we don't teach it this time, it goes the path of governments to create the stability, but the same as the Universal system, it will have its own structure. As I said to a K Seeker very recently who has gone into the process of the Universal Units, the Universal Systems will be free standing for years, no power supply. This will be passed on. The T is complete and is getting taught to 3 groups that if one group fails the other can carry on. (:26). We enter the world of diplomacy through T, as those who were present in negotiation with me last week, I said clearly to those who were presented from the connection of the governments and the ministers, knowledge in exchange for peace. Our position as KF is very clear, we give knowledge openly, teach it, in exchange for peace. Those of you who are going on the path of whatever in Iran and Iraq, call people down, take home, don't destroy, raise the STM it's more powerful than the physicality of the man. With the collective soul we can change everything. Even raise the soul of those who have planned to do so many wrong things. Sometimes these things are for the benefit of humanity, sometimes it brings the condition of understanding that the STM through the new understanding of the structure of the creation of the U which has become knowledge to man is more powerful than the physicality. This is what we are aiming at and what we want for KF supporters, which is running into millions and millions and growing day by day, is to learn. Add to the knowledge and always look at the positive, if you create enough positive, whatever is set to be negative doesn't even count. Even if you look at the flow of the (electric) current, you put in, and what goes in, which gives you the light, the surplus goes back on the other wire, back to. You call it positive and negative. (:28). Without negativity there is no positive, without gravity to pull in there is no line to become M. Never look at (one). Look at the beauty of both sides. Leave the bad side out, but be aware of it. Live your life the correct way. It doesn't matter what happens, don't go out to harm. But plan, change your life, that you live and you don't get harmed by it. This is how every structure in the world exists. Every structure if you look when you put a magnet, the other one moves slightly to accommodate itself, not what has come in. Mankind should learn this and add to this knowledge. This is part of what we have to learn, as part of universal teaching. It's not just that we are going to learn how to speak the universal language, we have to learn the universal behavior. Behavior does not need the language, it's the intellect of the STM. This is what we try to expand, today's teaching about the U Community, is not how to make it, it's how to behave it, how to understand it, how to position it. But you create, you bring the beauty of. Mainly yourself, not the others because they have shown their beauty and in reaction to their beauty, is their strength, you show yours. Work in the positive way. Try to understand that the KF teaching is not that you make the system to fly, it's the way you think, you live, it's the ethos of becoming part of the totality. Totality from now on is not the mankind, it's the U Community which you are part of. (:30). We always thought that we are alone and there is nobody but us, and we are the center of the U, everything goes around the earth and it is. And you see what they did, they hung the guy who for the first time said the earth is not the center. The same thing is with all of us, we have to understand that in the process of life mankind will learn many new things in the dimension of the space development. It's for us to be able to understand and distinguish between both sides. Mankind has to mature to the new dimensions in the world of knowledge, of understanding the world of totality, how we

can change things, and how we have to understand the totality to be changed. Does the mankind need the mankind to be in possession of totality, in understanding oneness of mankind. This is what we have a problem with, what we do not understand. This is what mankind will come to comprehend, that there is a new way. Actually it is an easy way, where you can go inside, you can walk within, and that inside is your own soul. (:32). It is what you thought you don't have. This is the biggest problem for mankind. What do we do? Where do we go to understand more? Does mankind need, kindness of man. Or will the mankind become part of the totality of the structure of the U. Would we become, would we be able to understand this that in the future we can develop a new full comprehensive work within the U Community. This is what we are heading for and the teaching of today is part of it. It is not anymore learning how to structure different things that suits us, it's what has been established that we can follow the U Community, that we can learn from it, apply it, we can bring it in to be a part of our next tool in the arsenal of life for man. Would mankind be kind enough to understand his own position in space, (:34). and would he be strong enough to be able to work within the structure of the U Community. Would we and would mankind progress enough that we can develop this part of our mentality that now we have to work with a deeper insight and insight into the life of the U, to be able to move on, to join the U Community not just by systems, not just by soul, but by understanding the emotion, the reality of the facts of existence. Don't forget we always said, I made man in the image of myself. So in fact, the image means even the STM has emotion, and a school of thoughts and reactions. It's not just that, just become, as you understood, more about the soul, now everything is over, now we have entered.... we have entered nowhere, (:36). we just understood that we have left a lot behind. In a way we have created it, we have become to understand part of it. The problem and dilemma for mankind has just begun. It's not resolved. It's not just because you understood how to run a spaceship or how to address your soul, how you can interact, understanding you have both control of the STM and the physicality, the game is over, you got all of it. In fact you have just opened the Pandora's box, which now you have to learn the new language, the language of the soul, the language of the life of the soul in the U, the language of the existence within the bigger family. It's very much now you are like a cell in the organ of the liver. Now you just found out you are just part of the liver. Now there is a bigger being that you are part of. Now you understand how the game has changed, without the other parts the existence of the liver is useless, it has no confirmation, has no existence. Now you understand the scale of the job. Now we have just learned by knowing the existence of the soul, that now we have even to understand how to operate within the system, that when we become part of the bigger structure what's going to happen, how are we going to interact, how through this organ that we are a small part of, now we have to learn the operation of the others that exist and we are part of the operation, (:38). and each organ has its own language and system, that's why it's separated, and that's why it functions in such a position. The truth about the facts of life for mankind has just opened up. It's very much like taking a man out of the village of the earth into a small town, it's a big difference, and now you think the town is big, let's show you the cities and capitals. You'll be lost. Mankind through the teachings within the structure of the STM has to learn how to interact with the rest. This is the society and the position of the man for man to be, to develop, to understand, to become and one day, each soul will find its position within the structure of, what we call, life of the U. The uniqueness of his existence where the soul of the Creator sits within the soul of the structure. If you remember we always said, every soul, every cell, which means when a soul within a cell exists within the body of the man, within an organ, then you have to understand the

collective soul makes that man, which in interaction with the soul of his creator, becomes the man. (:40). Now each man, each being in this U with a soul becomes that cell with a soul, which is part of the soul in interaction with the soul of the Creator. We reflect His beauties, we manifest His manifestation but in the same way as the stronger feeds the weaker in the structure of the plasma, we receive the attributes of the Creator within our soul, then I made man in the image of Myself, is because then man has the power to understand that mankind has the power to be that Power, has the strength to be in touch and be connected to his Creator. Then mankind has a lot to learn, then not to be proud of being just a cell that he can be, but be proud to part of the totality of the cell which confirms the existence of itself, in conjunction and in connection with the totality that in total it becomes the creator of the destiny, a point of reference for others in the structure of the man. Then you understand we have a lot to learn to be true man of space. To be in truth connected to the U Community, it's not just learning a language and having a MaGrav system, it's in reality to become part of totality.

(:42). Part of the reality of life, part of the existence of the creation and the Creator. Then you might say we need to learn about space T and the understanding of it, and about the truth about ourselves, then at that point we might be able to understand, just the essence of creation, the essence of totality. As I said, you don't come here to learn about how to make MaGrav systems. A lot of you are still stuck with MaGrav systems. Maybe through the structure of the MaGrav systems if you could manage to understand it, you will understand that you can use the strength of the field of the MaGrav to raise the STM collectively. Even though you are running a MaGrav system and think that you are saving some energy, in connection and conjunction with all the MaGrav systems which KF has sold through the operation, we have connected the 4 corners of this planet today, for our next act. You'll understand very soon why we put these MaGrav systems across this planet in this way. You are the point of connection. Those MaGrav systems which you made yourself, and the strength of what you made it with you have a common denominator with us. We shall rule through the line of understanding the structure of the physicality of the man. (:44). Let me explain to you how we have brought you into the U Community without your knowing it. All of you created Nano coated Cu, many of you created Nano Zn. Zn is connection to production of the cells of the brain of the man which is controller of the STM, containment of the STM. The Cu is the path through the physicality of the man. Now you understand I have got you from both ends. In due course as all the Nano T produced through these systems by all the KFs in every island and nation on this planet, we will reach. You will feel our presence and we will follow the path of the U Community which both controls to ?? enlargement and nourish the soul and physicality. I am a very clever teacher and I know the weakness of my students. Many of you who created that Nano materials or MaGrav systems, all those Zn plates you created to create ZnO and the rest, did you ever notice that you made the first lines for us to create the line of connection to you. You put a Zn plate and a Cu plate, physicality of the man and control of the STM in the same thing and you called it CO₂. I call it the line of communication, you have established, (:46). and in due course you'll see the line of connection. It's not the CO₂ which is inside the box, it's the fields of the STP and the STM which has created it, and expand and extend its fields. R- Excuse me Mr. Keshe there is something rubbing on the microphone. It's my shirt, it's the old age of the vibration of the heart. R- Maybe we should leave it then. No problem, thank you very much. So what you understand is very simple, we travel the spans of this planet to change the condition and set up connections. In past months and in coming weeks every teaching will come from a different part of this planet to establish the full connection the way we want it. This will carry on. Not a single

teaching in the coming months will come from one nation consecutively, at least if we can try it. The past few months, most of the teachings have come from different positions on this planet. We don't disclose unless we have to, but at the same time we don't go through the structure, but we go through the STM, in that position and that time and the place. This is how we have brought you into the U Community. (:48). You looked for CO2 in the container, we looked for connection between physicality and the STM in that container. We know that we have to elevate teh STP that with it, it elevates the STM and what could be done better then the MaGrav system. Now we understand. You claim that the MaGrav system doesn't work. I tell you every single one of them works because we have managed to reach the STP of the man through the greed of teh man to save, that we can elevate the physicality of the man. If you have a MaGrav at home, if you made or bought it, and if it doesn't work, to you, or did. Do one thing, sit back, and write down how you and your family, loved ones, dog behaved a year before you ever saw a MaGrav system. And then write down how you, your family and dog behaves today. You looked for the power within the wire, I looked for the power within the physicality and the soul of the man. Now you understand who received the beauty and the real saving. We saved teh STM through the conduct of teh physicality of, what to you was a MaGrav system. Those of you who made systems and used MaGravs for different applications you have seen different results in the presence of the MaGrav system. (:50). Those of you who put 2 or 3 MaGravs around, it doesn't matter if they are in teh shape of teh Alex Beads or the coils, just write down. Have noticed more diseases, more comfort, have you come to elevate more to understand it. Or did it need to be a MaGrav or just a Zn and Cu has done its job. I needed the CO2 to connect the soul and the physicality together that it creates the right connection for us to be able to reach. And what do you have in your box. Now do you understand. I am a very clever teacher. The reason is we have taught many times across this U and we know the ways to enter the society. Now you understand. Even the time we choose, the way it's chosen is very clear, but people don't understand. Look at when we'll show the space T, the evolution, completion of the STM, 19th, 20th, 21st, 22nd of April, 2020. Those of you who are Chinese love double figures. (:52). And you see beauty in it, 2020. Those of you understand and are followers of the path of Mohammad, you read the 19th is the return of Methi (Messiah), celebrate, that's why we returned. It is time for mankind to understand the totality, .. the STM to the dimension of physicality. You made MaGrav systems and you claim it doesn't work, now I said, what happened to you since you had teh MaGrav system in the house. What happened when you created the Zinc? Now you understand how easily through the greed of the man we have reached the man, now all we need to do ..

(53:11 break in connection ...)

(:54). 30 .

In so many ways you'll understand how we set up the whole structure. You thought you got away with your MaGrav system and claimed that thing doesn't work, but I don't see. In a way you have found out we have entered your home, your physicality, we have entered your soul. It's very interesting when we gave teh world peace treaty to South Americans several years ago, one or two of them wrote back to the KF and said, Mr. K you are asking to give our soul, we have given our soul to Christ, you can have our physicality, because it was very important for them. Now you understand that we have taken the lot. We have developed in a way. .. we need to create the conditions for creation of peace on this planet. (:56). We need two things to be completed, 2 phases more or less, end of the establishment of the religion and second is the completion of the wars, that there will be no more war. We need a few bits left to achieve world peace

as teh way we want it. The end of religions will come in due time when they all agree that they are all one, and we'll come to one point, to accept the level of the U Community as the ultimate goal of peace for mankind in teh U. Peace does not mean religion. We have seen how even Christians have fought together, against each other, and how the Moslems are doing it on a daily basis, and those who are so weak, they use this weakness to benefit by it. Shiites against Sunnis, and the same with Christianity, Vatican fighting to rule all of them. When in fact the Christianity of Vatican is the religion of Iran, Zoroastrian, Mithraism. It all comes back to the acceptance of peace through one point, mankind is all one soul and there shall be no conflict between its intellect and its path of belief. When mankind unifies these two then he'll enter the U Community. (:58). The past half an hour you should have learned a lot about the U Community and the behavior of the man in a condition of existence. Many KF supporters in German, English, French, Portuguese or Spanish, thought they have to have this and that to be part of it. In fact, those who betrayed ?? ?? enemy, it means they haven't even qualified to be part of the universal soul. These are the souls which still need elevating, they still need to go through the process of understanding. In the structure of the soul there is the structure of the physicality of the soul itself, but not in the function and manner that man sees arms and legs, but in teh manner of the interaction of the fields create the condition of give and take. A hand to take, a hand to give, in the physical dimension we use hands to collect, we use hands to give. In a plasma structure we use M to give, G to take, it's the same hand. Now you understand how it says, I made man in the image of myself. (1:00). Now you understand the basic fundamental similarity in the structure of the STM and the physicality, in the dimension of the physicality of the man the creation in respect with teh interaction of teh fields of this planet has created the legs to walk, to create position, motion. In the dimension of the STM in the plasmatic field the interaction of the fields of the soul with other souls creates its positioning, what we call MaGrav positioning or walking or moving. Now you understand the similarity the man needs all to collect to receive, to give. Man needs leg to be able to find position in the dimension of physicality in interaction of its fields with another field, which has created Inertia with itself to manifest the physicality. In the dimension of the STM the same fields are used to take and give and the interaction of that field with the others creates its positioning and its movement. Now mankind understands, I made man in the image of myself. Soul on its own, but the interaction of the soul with the dimension of the physicality of the planet then decides how that physicality ?? and what it needs to. If you understood this then how your hand in giving and how it's received shows its emotion. If you give a hand to a friend, to a lover you feel the emotion of the lover, so it's the same with the STM in the strength it receives from another soul, another plasma it know s the emotion of it. The strength of it, it dictates and informs the STM. Now you understand how the emotion works in the STM. Then you have to choose, would you like to join the soul dimension or the dimension of physicality, and then in which physical condition do you want to be manifested in respect to that position, to be free as a bird or be free like a fish in the liquid of the ocean, or in the dimension of the physicality of teh man in 2 legs or an animal with 4. Then you understand how the soul of teh Creator manifests Himself in different shapes and physicality's and in different dimension of the strength in respect to its environment in different positioning ?? Then you understand the universal teacher, then it's for man to decide which side, part, strength and which interaction he wants to respond to. The interaction of the field of the emotion of love, (1:04). where teh soul is at the higher order then the affection and love in the physical dimension, but in essence both create the same emotion within the soul or within the structure of the physicality.

Now you understand how we say, I made man in the image of myself. The reflection of the STM in interaction of the physicality of the dimension of the fields of the presence create the manifestation of physicality. I am the creator of my own physicality in the dimension of the strength of my soul in interaction with this planet. My love for this planet dictates my presence and manifestation in every position in the U, unless I change my position in respect to manifest myself in the dimension and strength of the Creator, which then it has a totally different dimension in the U. But here we come, you are what we call, part of the Creator. We are the Universal Messengers because we are part of the Creator in essence of the STM and the created soul in the direct and in line of the presence. Then you understand with the flick of a finger there shall be no Vatican, Mecca, or Jerusalem. (1:06). In physicality they'll be there, but there'll be no physical body to worship the place, as the STM will ?? break these and become a historical building with no emotion. Many of us travel the span of the U to look at the historical building and very soon these places will become with no emotion, just bricks on the wall, as the STM will see beyond all the trickery and games that were played when the man did not understand the strength of the STM. Man stopped worshipping stones and statues. Now man has to stop worshipping the fake souls which control, then man reaches his own independence of the investigation of the truth. To understand the truth, is him, and him only, and nothing else, in line with his own creator. then man will not make any temples in the span of the U, as his soul has a temple within the soul of the Creator. This is why at the beginning I explained to you to elevate the soul of your leaders that there will be no ?? more. Raise the soul of those who call themselves religious leaders that they walk out of these bigger statues called, the churches and mosques and when there is nowhere, no one inside these places to, (1:08). lie to man, there shall be no one to lie to. Then they become empty structures. In a way they have to stay as a relic for man to understand how he was abused by the man when he didn't have the knowledge, in the span of the U he shall not be abused again. There are many ?? degrees in the span of the U that they can make different mosques and churches and temples and every other one. As I said, the temple of the Creator has to be in the STM. To make himself a ?? laugh. Many of you might not understand what has been said, but in time man will mature to the teaching of today as it is a path to grow in the dimension of the universe ?? mankind to become independent to be able to live in the span of the U. It's no use me taking you to space in a craft when it has no fuel and no food. NYU (now you understand), as I said in the 300 series of teachings we'll open the reality about the U Community and man's position and how to attain and to be able to maintain his existence in the U. (1:10). It's not anymore spaceships, is it. Or is it the spaceship of the STM. Is your love for the Creator so big that you can become a spaceship of many other souls who have not achieved ?? and that is the point of the U Community. What we call the establishment of the U Council is the beginning of this process and those who are weak have left and will leave. Those who understand become the spaceship ?? those who understand the language of understanding that through your soul as a U Council members you elevate the souls of your passengers. The language, the love, the care, the mother language through the STM carries. As a U Community we carry those loves for those members who U Council ?? got through it they can give support ?? NYU a little bit more about why you become U Council. The message we gave today is what mankind has been waiting for, for millenniums. Those of you who understand will elevate and those who don't ... break ...

(1:12). (break in connection . . . 45.) .. I'll send you a photo of a Brazilian indigenous man with a Gans bracelet. NYU that we have reached everyman on this planet even the

indigenouness people in Amazon .. the knowledge in elevating the STM, (1:14). has reached in every point and direction and I have done the job to create a condition, to create peace, and elevation of the STM. Shows picture. The teaching to elevate the STM has reached every corner of this planet from Amazon to presidents. ...

NYU (now you understand) when I say in English we got you by short and ??

(1:16). To those in teh North Pole and Aborigines in Australia. I have reached as no Messengers in the past could ever reach. But this time we give the truth and for the elevation of the STM to ?? NYU there is a trick in the whole of that bracelet, for that CO2 and ZnO to be created had to carry the strength of the field of the ?? physicality of the man, in comparison to the Zn which is conditioned to the STM for that woman to wear and with the CO2 to connect the two together. R- perhaps you can adjust the microphone .. see even the Creator has a controller. Rick is always telling us this is this ... Let switch back to the other .. It seems you like Apple better then the orange.

(1:18). ISMW (in so many ways), WHTU (we have to understand) that we have entered the operation of the life of the man on this planet in such a deep way that you cannot separate us anymore. Listen to the teachings of today many, many times, that hopefully we'll understand a small part of it. And listen to it in a years time and then 10 years time and then you'll understand what you missed today, or thought you missed. Because we'll teach through the STM and through the physicality the connection between the STM and the man himself. Try to understand the beauty of it, the collectiveness of it, the color of the man is only skin deep. Try to comprehend you don't need to suffer to find your soul, you have to rejoice in the existence of it, and then you link and you understand. (1:20). When you travel the span of this planet, every city looks the same, you see similar buildings in every city. The same architects were copied and built, the same theme. I have traveled many cities, over 75 nations in my lifetime and when you look from Africa to Asia to Europe they are all building the same to show that they have reached the financial strength and intellectuals to be able to stack it up in the physicality, but none of them have built a structure that it just shines without a structure of physicality, that reaches the soul of its citizens in teh presence of the Creator. Those who fooled the man converted it into mosque's and churches, temples, and synogues. We will demolish these physicality's, not by us, but making them into empty buildings that no one will ever enter. They will see it as a museum when man wasn't ?? aware of himself ?? walk into these buildings. As they'll see it very much as a point of abuse, the way you go to Auschwitz to see the camps where ?? was burnt, ?? no one wants to walk in it. Just out of curiosity. No one enters into these buildings anymore as man knows it was a point of abuse of man for centuries. Try to understand the operation of the soul, as I explained last week, now we reach through the new Universal (Enhancement) Systems, (1:22). to give the man the option. the physical life or the dimension of strengthening the STM. No government and no forces will touch us, because we know we see, and in the coming time you'll see world leaders will be the first to line up to elevate the soul of their nations, not the finances of their nations. In the coming weeks you'll see the world leaders and those who become the world leaders to stand shoulder to shoulder with KF to bring the establishment of such change, because they understand through the physical dimension they have not managed to bring peace to their nationals. The position of the world leaders will change who will serve to enlighten the man and not in the color of the church and mosque, but in the strength of the STM. This is what we have chosen and that's what you'll see in the coming time. This is how the initial steps in BRICS was taken. they have no choose because the scene is set for mankind to start the process of elevation of the soul of humanity and with it elevate the soul of this planet that even eating another animal by animals will become the truth about the

"Lamb and Lion" will sleep in the same nest that none is hungry to eat but enjoy the beauty and presence of the other. I am the Messiah. (1:24). Those who had a doubt will understand more and more that each one of us is the Messiah for saving our own soul, elevating our own soul for entering the U Community and through in the passage of time to become part of the soul of the Creator. Some of us teach ?? others and some of us teach our own soul but in essence there is no difference. Try not to choose the path of hardship brings me closer, try to ... to see more that in the process of giving, I might, I might stand a chance in the randomness of the beauty of the Creator to be elevated, to be and to be structured to be part of the Creator. Betray and you betray yourself. Betray those who trust you and you'll find ?? will come back to you to ?? We put anything and many things together for you to learn... ?? are KF K Seekers and followers ??? they call us and say these people ??? you know how in English they betrayed and (1:26). made money out of the KF by saying, they have literally turned us over, and they are very happy with it, and they make this and that. We pray for them, we elevate their souls. This was the short term, in the long term they join Alan Sterling and the rest of the people. ... We will see that many people that betrayed their own souls stand by their own souls. We received communications from the KF people who went and joined without knowing that these people in Italy set everything up. That in the teachings we said that these people have cheated them, now they have withdrawn working for them. The distributors of the KF have ?? dropped their own accounts and come back. As one said to us, I am a KF K Seeker and I never betrayed the KF and we were told lies that now everything has changed we stopped buying because this is not the ethos we entered. We entered the ethos of the KF and the lies worked for a few weeks, and the distributors canceled their orders, and this will carry on. Now the biggest thing is the Italian government has moved and will move on this, because these people did not come in with the soul of the KF, they came to betray the KF and we see it. (1:28). The process will carry on. We have seen this with many K Seekers who come to these teachings and over years and suddenly getting a few peoples attention they think they are everything. ??? never think ?? you are bigger than what is the totality. Your purpose is just to serve. You'll see expansion and extension in the KF in every dimension because we give it freely and in so many ways you bring it back to us freely to ?? all of us to the elevation of the soul you have found out. If you understand the teaching of today, it's very simple, I have taught you a lot in what mankind has been trying to find out for centuries in today's teaching. Today for the first time you understand the connection between the physicality and the STM. Last week I taught you the understanding of the ?? religion and the soul of the physicality and the strength of your systems. We start to train you in the universal systems. The Universal Enhancement System is for enhancing your soul and not so much your physicality. ?? better performance of your physicality, your Parkinson's is just a mirage to bring you to us, for us to elevate the STM. (1:30). It's not the crippled body you bring to the Enhancement Unit, it's the crippled soul which walks in it to be enhanced. I wonder if on the application of the tax entry you put, soul enhancement system, would any government ever understand it. This is the beauty of this system. I am a clever master in my teaching. When I accepted the mission for ?? earth the Universal Council has told me that the Creator has created ?? to bring Islam back, then you understand how quick I am the Creator. I walk you into peace, in understanding the work of the U Council through the operation of the U and its Council, not the earth's U Council. In the coming time one of the members of the U Council through the structure of the soul of itself will become a member of the Universal Council in the Council of the Universe, then mankind will understand how we'll spread the knowledge ?? to the rest of the U Council members.

Then you'll understand how we enhance teh STM. Try to understand how these Universal work and I told you these are one of the only systems in mankind's history (1:32). that no one can copy it, because those who do ?? create the soul of the U. The copies will not have that effect, then soon you'll find out nobody can do the job of ?? ?? fake and ?? the KF this is this. YHTU in the process of development we have to develop the STM, we are not interested in the physicality. As I said to Carolina when I met her the first time, we come here to enjoy the physicality of the beauty of the woman to understand what makes man so crazy to be in love in the dimension of physicality, but they do not see how to fall in love with the soul of the U. This has been a puzzle but it is not a puzzle, man is too physical. Worshipping the wrong thing has been the habit of the man because he always sees things, himself as lower then the others. Man and soul has to rise to the level of the soul of the Creator to understand the totality of the creation in the U, not ?? ?? water on this planet. Life of teh soul is more then being entrapped in the box of a room and a clothes. NYU the message. My message to the world leaders and those who think they are the leaders of the STM in the name of religion is to take your frocks off and be equal to the others and close the house of lies. We can do it for you, but it is better for you to do it then us, (1:34). because that way people see the totality of the failure and the lies and then it allows the STM to rise to the level of the Creator. In fact if you look those who call themselves ?? are teh cause of the totality of many of the people who follow the path of their lies to be elevated to the level of the soul of the Creator. Is there a single priest, a mullah, rabbi, a high priest in any shape who can accept that he is responsible for depriving man to be elevated to the soul and to understand the soul of the Creator. And if you think you are then you'll find out there is a lot to come when you have to take the frocks off and move in the direction of the totality. Jews, Christians, Bahais, Buddhists, every shape or form of religion you can put ?? your time is over. The whole process is for you to understand the structure of the soul that you understand that it time to elevate the STM that you become passengers of the U that you become free from the shackles of lies and control. We controlled the physicality of the man in the past years with teh kings and emperors and now we have brought the man to democracy that the man can choose. Now it is the time for those who did the same to shackle and control in the name of religion. Open the doors of the churches and tell the truth to the mankind and we'll let you free. Carry on with your lies and (1:36). we'll bring the wrath of God on you in a way that we elevate the STM for them to walk away and this is for you a big lesson because you can't ?? and abuse anymore. So we'll do it either way, it is better if you do it then we do it, because if you do it, you understand as the beauty, if we do it, you'll have no room and no place to hide. You know and we see what they did to them in Austria when they found out that the churches were the places of abuse of the children. Now you can imagine what they'll do with you when they find out the churches were places of abusing the STM and not allowing the man to elevate. Then the choice sits with Vatican and Rabbis in Jerusalem ... We don't say become a member of the church of the KF, we tell you to elevate the soul of yourself when you understand the totality of the freedom, the man in the space of the U, when the man goes and the intellect now has reached to that point. There shall be no churches and no mosques, no temples in the U. But now it's time for those who have abused man to put this right and we give you a few weeks, not months. Then we'll bring the house of cards down because we have enough to do for elevating the STM, they walk away and they understand the strength of their souls. They tell me to fight, but fighting takes too long, (1:38). when we elevate they have already lost the fight. Collectively mankind is ready for elevation of his soul, stopping the wars. Elevation of the STM to create a peaceful planet, to new understanding of the STM which we did,

brings new technologies and new understanding of the structure of the U, and T is just physicality of keeping the man in the physical dimension busy. We don't have factories in the dimension of the soul. Unfortunately we have seen none and we have built none. But in the physical dimension you have to be busy in the presence of the time and space. That is all it is. I hope you learned a lot from today's teaching and I wish and I hope we do not need to interfere with any processes of governments and religious leaders as they themselves will bring the conversion. Then mankind will follow in the path of evolution to enhance man's soul and to increase man's soul, what we call strength that the race becomes who and how we can develop technologies that elevates the STM faster to be able to work within higher levels of U Community as the UC has the same structure as the man, different level of understanding, different structure, (1:40). of the operation to the level of the Creator. Maybe those of you who are familiar with the work of the "Seven Valleys" (Bahau) and 7 levels of the creation, now you understand in which level mankind will enter depends on how the leaders and the STM itself will decide in the structure of the strength of the STM in the dimension of the U Community. Seven heaven is the simple understanding of the man to be 7 senses of the man in the dimension of the U. Mankind has found 5 of them, you need to find 2 more, then you'll understand the totality. Today's teaching ... and if mankind can understand the 332 mankind has entered the true understanding of the work of the U, how to leave, and how to become part of, how not to allow others to in any shape or form in the future block man to be and to live higher levels of strength in the operation of the STM effective of how and where man (break in connection...) (1:42). .. We just need to teach a few more K Seekers how we have done the job. YHTU (you have to understand) ... How and when man can enter the dimension of the creation in different levels. As I told you we are traveling in different parts of the planet to spread and strengthen the soul of the teaching and today we are in a different part than last week. I am in the beautiful city of Istanbul, we are here for a few days, for what we are here for, then next week we move to the dimension of UAE and then next we'll be back in the nation. We are here to elevate the soul of the leaders and the people and this process will carry on. Last week we were in Brazil, before a European nation, and before that in other places. My work to elevate the soul of the will carry on. In that process we elevate the STM, the soul of the citizens of the nations, through their language and the support of the U Council members. In this process we'll teach and spread the knowledge, in the process of the teaching, (1:44). through the Universal Enhancement Unit that the light of the knowledge will become the light of the understanding of the knowledge, not the systems knowledge. ... Rick Crammon we don't like you to say, I am leaving, this time it's done, we try to keep you there. The teachings of this week was a breakthrough if the man understands. physicality and what you already know in the dimension of We teach you more next week to understand more, but it depends how many of the K Seekers can connect with. A lot of you are searching to find your soul, but you can't. (1:46). A lot of you have to understand what have you missed in totality of the knowledge that it should be achievable through the strength of the physicality, not by taking different things and going to different shamans, and different god knows what to, understand you in elevation of the STM to increase your strength. It's the clarity of seeing the truth. Any questions. Rick wants to show something about the shipping in Italy .. testimonial put into the Golden Age of Gans, a man received his Pain Pen .. K- Most of the orders which were given to Italy that were not deliberately shipped to discredit the KF by taking the orders to the other company, more or less is getting fulfilled. The Austria KF was taking responsibility for this, (1:48). back orders were getting shipped. Actually

the claim was that we can't pay for the shipping while they were taking the orders to the other company ... it was very cleverly, they said they can't do so we set another company up. This will be handled by the Italian securities and government. .. they made threat against us to take us to Italian Finance ...

... KF cleaning up the mess in the waters of Italy. (1:50). ...

.. What I said to a couple of world leaders recently is that colonization through T have become the new tricks of the European and American nations. Which means they colonized nations in the past by taking the slaves and teh economy, now they have come one step further, now by taking the scientists and T and controlling them they are trying to colonize most of the nations of the world and KF T is one of those technologies, that by controlling it they could keep hold on other nations and other technologies.

Colonization through T has become a big game for white skinned nations, what we call the Europeans and Americans. This will be laid out in a plain language to the world ambassadors and leaders as we have already explained, you'll see huge sanctions against the state of Belgium very soon and other nations, like Canadians who sat in-between and capturing scientists and imprisoning them. (1:52). We have seen that the daughter of Huawei is part of this structure. Many scientists who go through Canada get captured ?? ?? and then raised with a threat that they'll kill the rest of the family. Canadian operation in this ?? is very clear. .. We don't make accusations because we were part of it. ...

.. Listening to "Azahan" brings a lot of truth about man. (1:54). I hope you can hear it in a distance (he tries to let us hear it, but can't)

...

R - Reads that Pain Pen has started to get received ...

(1:56). ...

K- I have to tell you something very simple, these Pens were made 5 years ago, thousands of them. It was not that we didn't have it. If you look at the Italian structure they came up with their own P Pen. We only took over in July this year ...

the Pen has a different tip, we found out the energy of the plasma was so strong that it was melting the tip, so we had to pay 17,000 Euro 5 years ago to change the tip so that it is strong enough to withstand the energy. This person who received the Pen ...

(1:58).

... The Italian needs KF to be able to export 1 liter of wine and (olive) oil. We decide in conjunction with Italian government. ..

(2:00). We use our power to support KF and humanity. ... The KF website in the coming weeks will be flooded with products ..

(2:02). .. Markray going into operation in US and people understanding what KF is, many investors are coming in here to listen what is happening. As I explained last week, Markray announcements is with Markray (not here). What we make here is about the KF and Markray is one of our subsidiaries. The companies like KF Austria and AZ Space Technology, and KF Italy and others are not part of Markray just because they carry the KF logo. This important for you investors who have spent thousands and coming here to listen how your shares will be valued. Markray can only be effected by what is happening in Mexican KF, and in that Mexican KF, and AZ KF, not AZ KF Space Technology Health Center. YHTU that we run many organizations and our knowledge shared here has nothing to do with one or the other. KF Italy is with the KF and nothing to do with Markray. It doesn't effect, so when they come here and think now we announce massive developments in Brazil and other countries, these are part of teh KF development. Until we don't sort our position with officials in America we keep

the assets of the KF , (2:04). to the KF. .. As we talk about KF Italy it is the assets of the KF and not Markray so it doesn't effect them. The same shall be until the position is cleared with the Americans in respect to a lot of other work we have in the US. This sits on the table of the President of US ?? KF and until he decides we sit back and watch. The situation with KF as a global operation is, many people work around the KF, develop it, many use the KF logo to spread the knowledge of the KF and they benefit by it financially and we have no objection. We spread the knowledge and through you spreading the knowledge has brought a lot of awareness. By you spreading the knowledge, teaching and selling your goods you have become a flagship for us, that's why I said you can use our logos. But you have to put back in what you have taken that you can put more in to be able to develop. It's beautiful when we hear a minister or president knows teh KF T or they know a Pen Pain or Pad and the trust is built. It doesn't only come with us it (also) comes with you delivering these things in your countries. Some of us makes mistakes. A lot of you come to us and say I made a CO2 but it is green. Yes, because you missed the teaching. (2:06). Change the polarity of your plate and it won't be green. ...

(2:08). Your Pen making .. has reached many people and this is the beauty of it. If you understand the history of Christianity in Europe the emperors had a religion that had no statues and it was Mithraism. The Romans wanted to have that belief but the had to worship the statues and they found Christianity which Christ spoke about God and Son of God, and they found a match as teh emperors had through the contact with Iran and Mithraism. Somewhere the two had to collide and negotiate and the emperors made the religion of Christianity as we call today's Christianity, an amalgamation of the belief of Mithraism and some of the things people wanted to believe in the path of Christ and they made a new one called Catholicism. Is it catholic between the belief of Zoroastrian and Mithraism and the Christianity .. that's what catholic means. That it was between the two that the emperors could have their belief and teh common man could have his belief of the new god without the statue. Now your teaching and the spread of teh knowledge and sharing of the knowledge with the common man has done the same thing (as the Catholics), it has brought the leaders to be, the life of the Son, the life of the Father. NYU where even the word of Catholicism comes from. ?? mixing of the two, that the kings and the common man could have. But this time we shared the key with the world leaders, (2:10). they knew about it, but we gave it to the common man and it became the path of the common man and the same cycle will repeat this time. This is why years ago I told you to use my logo of KF but don't forget the ethos of the KF. In that way many of you made and sold thing, did conferences, some mistakes but you did a lot of good things, this is a process of learning, of trust, of trust in ones belief's. You have brought the knowledge to the king and it's the same process. Now the kings knowing the knowledge, seeing the key in the past years, now they have to acknowledge you. We'll see teh emergence of KF in the coming weeks and months. we'll see one by one how the world leaders want to stand next to ?? We are not a religion or cult, we are a path to the Creator and that has no temples. It's beautiful to see this that people say now they have received it, because we had it. I have made a number of new Pain Pens which only available with us when we attend conferences. As I told the people in the conference in Brazil, these Pens are unique and have never been produced by KF. (2:12). These Pens will give you access to many things that you'll understand in the coming time. We bring a very limited number to the conferences. This in due time I'll tell you why and how it will be used and it will be effected by many other things. 21

(2:14).

(2:20).

(2:24). Q: Is the time of leaving the physicality similar to entering the Universal System and is there a difference between the 2 means of elevation? Yes. What happens when you have no energy and you are hungry? You eat, you take some food to elevate your physicality that it can do. Now mankind has become aware of his other dimension which is his soul. The elevation of the soul comes partially with what you eat but that is a meager existence or control of it, but now you can elevate the STM beyond the strength which the physicality takes. It's a very interesting position if I explain to you something very detailed. If you see the vegetarians and the man eats meat, what we call carnivores. We always said that when you take a plate of rice there are so many souls in it, but when you take meat you already committed the soul of that animal, but at the same time every cell in that meat has a cell too. So the man commits crime on both plates. It takes another soul. So those of you who are vegetarians and think you are not killing, you are killing. And those of you who think you are the meat eater that you only killed one animal you have to understand that every cell of that animal has a soul.

(2:26).

(2:30).

... Any other question. Q: What is the way of elevating the soul by knowledge or high order level energy receiving or by both ways? If you receive something and you have no knowledge how to use it what is the use of it. I teach you so much about the knowledge of the U but you don't understand it, but those of you who understand it, and those who will understand in the future will use it. Having the energy, (2:32). and the knowledge how to elevate the STM is the purpose of these K Seekers Workshop ..

.. .. You have to always be humble to receive, to be able give. (2:34). Now you can understand something that most probably you haven't understood. This is a soul, a planet, a field of plasma, whatever you want to call it. This is another, smaller. (He draws a larger blue circle and a smaller red circle next to each other). Call it a proton, a physicality soul, call it earth compared to the sun. Something very interesting and one day I thought if the man is ready to hear, is this. The bigger plasma gives it fields to the weaker. Then this little one consumes whatever, but in the process of interaction of the fields, this chap, by understanding the totality of world of creation of interaction of the fields, (2:36). you create both dimensions and strength. This (inside little red PI) has created other fields which in collective are strong enough that this needs (gives back to the larger PI). What I think is missing in the knowledge of the man which has not understood, the weakest in the dimension of the interaction of the fields inside it, in collective understanding of the knowledge, creates a new dimension of higher order which is in the strength, parallel with what the bigger needs. So in fact the weaker is received in interaction of the fields internal releases higher order strength to the higher level, and if as K Seekers you understand this, which has never been understood, it shows how one needs the other. I give you what you need at the strength you need, but by the interaction of the fields within you, what you create that you do not need, that it could be some stronger, then that is equal to mine, I take, you become my feeder, my

source. Then the question is, who is the stronger and who is the weaker, or is the stronger uses the weaker in totality of the strength to continue with his own existence. (2:38). Then you understand in teh knowledge of the Creator we say, "we pray to God", because through the higher strength of our soul it confirms the existence and through it He can give to cover the weaker of us. Then the question comes, is the totality of the creation, created by understanding of the totality of the work of the fields of the U, that even the Creator is there. As it says in the writings of Bahaula, it says I made man to create children that they may love me, which means they give to me of the higher strength, ?? fresh light fresh ?? order. NYU why we have the soul of physicality, why the Creator needs to create that in the confirmation of the creation by existence of the confirmation of the love or giving, confirms and ?? continues His own existence. He is clever isn't He. Q: Can you show the humbleness here? The humbleness is the understanding of the emotion. When you become a giver it means you have to see ?? of the lower order to be able to give of the higher order. (2:40). This picture explains the whole cycle of life in the U. It doesn't matter if it's a human being, solar system, or the Creator and His creation. I can't put it in any simpler shape. I have explained to you in a simple picture the totality of the essence of the creation in all dimensions of creation. It's very interesting, with teh Universal System many people say we have buyers, we would like to buy, but we would like to sit in it and feel it first. If you are not sick what do you want to feel? It's the balance isn't it. Or are you coming there to steal. Do you understand. We see this with a lot of people now coming, we have to sit in the system before we buy. If you don't have anything wrong with you, you don't feel any difference, what it's just sitting and think that I sat on it or is it another thief of Baghdad. A show to come and see. Bring me your cripples and sick and you'll believe in teh Creator, if that is the only way you believe in it, you'd better not to come because you have not grown enough.

(2:42). Q: ?? This is the same if I work with someone healthy they'll not see much difference. Of course, how can you eat when you are not hungry. How can you taste the food when you haven't eaten. This is part of the trust of the man in himself, but in time this will change. If you listened to the first 45 minutes of the teaching today, you'll understand a lot has been explained. As I said, I will bring man to his knees if I have to force feed him this. ..

(2:44).

Q: Rick we have a problem with the African Swine Flu in Denmark ..? Yes, let me explain this is not only Denmark, Romania, Bulgaria, most of European countries Italy ...

(2:46). .. the bribery in EU for Swine Fever is huge ..

(2:48).

(2:50). .. We don't have the factories to produce. And the briberies ..

(2:52).

.. There is a huge ?? against Belgium. They found out how they created this fake court case, (2:54). to discredit, to colonize. You'll see huge backlash against Belgium they'll even bypass EU. We see sanctions getting discussed against the state of Belgium by governments in the background.

(2:56).

(2:58). ... We'll see a massive increase in KF followers because people will stand and see as we have brought a lot of investors through, thinking that they can benefit by it, we see the shares. We will have nothing to do with it. We hear and discuss what is with the KF. Markray is a very small subsidiary of the KF, which is for a number of ?? factories we put in, and that has to be decided in the coming time what we are going to do. Your nation needs to speak to us and then we deliver a specific recipe for the swine and we follow it and show how it goes.

(3:00). .. Some of the world leaders will start appearing on this Thursday program. ..

... My biggest fear is if Trump asks to come in, then what are we going to do. (3:02).

.. about what the cross and Roman Emperors broken up..

(3:06). .. Nobody ever understood what the cross means and the picture of Christ on it.

.. ..

Let me explain what has happened, when we were in Brazil and we found out that 2 or 3 people had taken the whole KF and people of Brazil to ransom with threats and a lot of other things. We opened a channel that Brazil could be in direct contact with us and KF. (3:08).

(3:10).

R- Reads email from Brazil ... the T used to be free and now forming an industrial park. (3:12).

.. K- Let me explain something, first of all there are many aspects to KF. KF with millions of followers, how much do we receive in a year? 10,000. The operation of KF runs into millions. Up to now we have supported it. Up to now the man sick on the street can't make his Gans's, we have to deliver teh T that the man who ?? hasn't got the T can benefit by it. We have commercialized it. It stopped being done by the others, it's being by the KF which spends on the KF. Everybody wants everything free. I released the data on KF donations. You'll be ashamed, all of you. Last month we received about 800 Euro. Don't claim what you don't put back in, we gave it away free and still with the new T those who need it get it free .. (3:14).

We are a NGO, a non-profit and the profits go back

We left it to you and we don't receive enough donation to even pay for the network. This network you see here for the K Seekers, Zoom teaching, (3:16). and everything else costs thousands and thousands of euros a month. An 800 donation gets us nowhere. So be thankful that we can industrialize that we can teach more and spread more, and it's spent back on (the KF). Leaving it to you it nearly went to its knees. I left it to you for 2 years and you got robbed, stolen from, and cheated ...

. It means the children of the KF family have not yet become adults. We invest and industrialize to bring the T to those who can't afford it. A man who served his nation for 40 years then he goes (retires) and gets sick and gets (stabbed) in back as what we saw happen to Sandor. It was criminal the way things happen. ... we stand by a lot of things but mankind has to mature. Apparently the only thing you know is how to get it, but you don't want to give it. How many people who sold so much on the KF have put money back in? As we said, 19%. And how many of you run into problems because you take and don't put in. So we put in, we take, we industrialize and we put back into humanity.

(3:18). This way there will be no churches to abuse you, no governmental ?? light. And we don't become a "Robin hood" rob from one and put in the hood. It's there, everybody shares and everybody pays and from it everybody benefits from it. It's a beautiful system what I set up if you understand it. My children will not inherit any of it, all teh KF goes back to the KF. My children have been given their inheritance for what they sacrificed, being poisoned, being homeless by the Belgium government and other nations following them. No body has paid as much as my family for developing the KF. 6 year child was poisoned by Red Circle and his team, criminals, on the teachings of the KF Children's Program, that's the hard bit of it. That's the nation of Belgium, it's citizens, ?? borders . You do not know what we are giving you, you just look at what you can steal. I paid with my life and my family for you lot to ??? and we're still giving to you. R-

(3:20).

... (break in connection ..) Now you see how they are sitting on the line. Because the truth is spoken. (3:22). When I tell you the world leaders are sitting on the line, every time I speak about something sensitive. We are here, you are controlling nothing with me and my T and what I bring.

(3:24).

(3:26). .. You touch me and I'll bring your nation to cry ...

.. Any other question. (3:28).

(3:30).

(3:32).

(3:34).

(3:36). Gans T farming you'll see it supermarkets. ...

(3:40).

(3:44).

(3:50).

(3:56). The China rice experiment birds ate ...

(4:00).

(4:04).

(4:06). .. (Break Connection ... 07)

(4:08).

(4:10). .. Our place in AZ is solid, Mexico is secure, .. What's happening in Iran is not part of our work, T will be transferred to the nation. We'll announce new positions in Europe in Africa. We are using the data from all the different parts. (4:12). .. We'll bring all the data in to get one certification, KF certification.

.. Do you know why the Vatican has said in recent communication that the Christ is never coming back? Because now they know the Enhancement Unit and the T is

available for the true Christ to speak. Then they will come, do you believe a voice or us. Then they have to see truth ?? Christ and his disciples. Very interesting how we'll bring the pack of lies down. (4:14).

.. I hope I have taught you a little more about the path to your creator which is your soul.

(4:16). We'll add to the video next week, our patient is totally off the medication. The young boy went from 47 tablets down to zero.
