

## **304th Knowledge Seekers Workshop** - Thurs, November 28, 2019 SUMMARY:

(Many Knowledge Seekers have been touched in their soul and are seeking a deeper truth about themselves, The purpose of these teachings are for man to find his soul within himself and not somewhere else, Will the new Universal body Enhancement Units enlighten the man to his soul, This is the first time this technology has been released on the surface of this planet and will bring rapid change to humanity in 2020, The new technology is connected directly to the soul of the Creator and mankind is not yet ready to understand it, We can go through the totality to reach every soul on this planet, The infants soul is at the same strength as the adult soul, The totality of understanding of the creation comes from the weaker plasma and not from the stronger plasma, To get closer to the Creator you have to be weaker and a giver, IMPORTANT discussion on the weaker plasma rotations such as solar system and the physicality of the man which uses the blood circulation and that of the souls of the cells to contain the plasma of the soul of the man, The stronger plasmas like our sun shows violent volcanic eruptions on the surface, Why the Jewish people rock and Sufis rotate to find the point of interaction with the soul and to get enlightened, Is the soul of the man the possessor of the totality of the knowledge of the universe, No one will be immune to the truth when they enter these systems and is mankind ready for it, Example of Obama ordering assassination, Many will leave the foundation rather than enter the new systems and face the truth of themselves, Would we bring mankind to the point of submission to his own soul, Religious people start to listen to the teaching and teach about the soul, The Enhancement Unit can be used to communicate to other souls , )

(:11). .. We'll try to understand more about the work and the science of the STM. The soul teaching has taken a very in depth touch to many of the K Seekers, it has literally touched many of them in their souls because it has brought them an understanding of what to them was a mystery, what wasn't understood and claimed to be somewhere and now many K S as we speak to them and see lines of communication, they are more interested. As one says, now they cannot tell us, they can't cheat us or tell us it is not there, there is something somewhere. Now we know it is within us, it's part of us. It's our existence. What we call the enlightenment, is an understanding of the position of the STM has empowered many people to search for a deeper understanding of the truth about themselves. By finding the STM to be within the man has brought a lot of soul searching. A lot of K Seekers now come to understand and comprehend that it's them, by them, for them and they are responsible for everything. This is what the purpose of these teaching is. For man to find the truth about himself and to find out how and what was imagined to be somewhere, now is in, and within, and within the power of the man. (:14). The interesting point up to now has been to find it. Then we have to find how we connect the soul to every soul of every cell, and then the next step for us in trying to ?? process this. Okay, I am the last man standing, but how do I know who is there and how can I communicate with it. How would I know, how can I extend it to become part of, to be with, to be able to communicate, to reach , to touch. Can my soul touch the physicality of another being or it just touches the soul of another being. Can I create that dimension of the emotion, that converts the feeling and the emotion and thoughts of the soul to reality of understanding and in essence being in touch with. This is part of where we gradually try to take, and try to understand. Many, many people will walk away from this KF very soon as they have to face the truth about their soul. We know in the

coming time when the new Universal Enhancement Units are released, many will run out of these machines because they have to face the reality of their own existence. Because many will not walk into it as they know they have to face the truth. As I said recently to one of the K Seekers, maybe the "Day of Judgment" for us to know our soul is when we walk into these units ?? Then we understand what the truth is and what is hidden, what would be hidden. The most interesting part would be when for example, when we ask the "beautiful people", (:16). would we see the 3 souls of man to be confirmed how miss guided he has been in the present ?? in the life of the man. Then we come to understand more, that would this new understanding of the STM would allow man to build, to establish the communicate within the man. Would we go deeper, in understanding more of, would we go in the path to become more observant of our own ways. Thy shall not steal. We do not let ourselves steal from ourselves, let alone allow others to steal from us. What can be done. What can we do and to what extent do we come to understand the truth about the existence. Maybe through the soul, through understanding of the essence of the creation of the soul. Through the understanding of the man to be alone as the last man standing, within the soul of physicality of himself. Would we create a new dimension. Would we come to understand how to communicate in the physicality and the soul. Would we be able to progress to the next step that then we can change the STM in the strength that we can go through different dimensions of the existence, that we can exist ... what we are existing. Can we go to the limit, can we go to understand all. (:18). Can we come to the point that in understanding the totality we understand, that WE KNOW NOTHING. And to become humble and to become one of those that in the coming time will become the "Man To Come." Would we understand the connection between the STM and the physicality of the man. Would many of us walk away from these systems. As I said, mankind has been looking for this but he doesn't know how to operate within it. Mankind has gone through a system of understanding the existence of the soul in the past times, but now what are we going to do with it. Do we need to go further to understand more, or know that we know we stop, we contemplate that what we have been taught for centuries and thousands of years by those who abused us. Now we have to be able to show to what level they are. One of our K Seekers pointed to the point that, what about, we get to know, how would we handle it. How can we handle the truth now that we understand the existence of the STM. Now that we achieved systems that create a condition of life without the physical dimension. Would it be the time that we entered these ?? ?? machines, that what we call, the strength of the STM goes to a point that allows the STM to manifest itself. Would we be able (:20). to record the presence of the soul as a light in these systems. Then would the soul speak the truth in the dimension of the soul that we understand. This is one of the points, in a way we say, the clock is ticking, and it's ticking more and more as we understand more, as we go through the phases, and phases change to another phase, we come to see the truth about ourselves, our conduct, what we have done, what we have not done, what we did. In so many ways, would we accept the position of transition. If I create a higher dimension strength within the structure of these Enhancement Units where it enhances the STM, would the mankind come to the point of seeing a new dimension of his own life. If we go further in the strength would we come to see the other dimensions of the life in the strength of the Creator. Then how would we react, would we see the light of the Creator. Then would we like to come back to the dimension of the physicality of the man while we are in this system. Many people will go and will find themselves lost in the maze of the truth of the U. Do we need what we call the spaceships when we have found the ship which can take the STM in the dimension of the Universal Condition to the Creator. The fields of the strength at

the strength level of the Creator. With this new understanding there is no limit and, (:22). we will have to come to realize that the STM is nothing but the transition of fields in the dimension of the matter state of this planet. Then mankind will step forward and when mankind sits on the seat of what we call, the kingship of his soul, or will he come to understand that he is the last man standing. As we have the physical children, would we see our children's soul as belonging to us, or connected to us, or do we still care as parents for our own children in the dimension of the soul. Or we know in the strength even in the child and even in the infancy, they're the same strength as us. The life of the man takes a new course in understanding the truth about himself. Would we be able to transit, to be able to go through the dimension of the soul of the totality to the soul of a cell, and if we understand that would we be able to do to reach the soul of every being on this planet, as each one is nothing but a cell in the light of totality. In the coming time we'll see huge changes. In the next, most probably 60 to 90 days the course of mankind will change, be it ?? in days, not months. Before these systems are launched on the surface of this planet. (:24). Which one of you dares to go in, which one will sit to be able to see the dimension of the soul of itself. Let me explain something which I was explaining to some KS and friends recently, because I think it might enlighten them. In the solar system in the dimension of what we call the dynamic motions of the light, or what we call the M fields of the U. A dynamic field was created by motion of the creation of the, what we call, the star, our sun, and in the weaker dimension we have broken into understanding of what we call, the weaker strength of the M field of the U, which up to now, before Gans's was not in the reach of man. Those of the K Seekers which come to understand, and have understood, realized, that the totality of understanding of the creation comes from the weaker plasma, not from the stronger plasma. In the dimension of the stronger plasma we see violent, very violent situations like the sun, and what we see on the surface of it, as volcanic eruptions. When the rest of the creation lingers it doesn't show such a sun. It shows the weaker ?? part (or path ?) in transition, which is why we brought in the knowledge of what we call, the Gans. Then in the future would mankind understand more about this, (:26). that he understands that the closer he wants to get to the Creator, the weaker, the more giver he has to be. Would mankind come to understand that the soul of the creation is the soul of the man and within the STM. As we said, the weaker plasma transition, creates the dimension of the existence of our solar system, the rotation, the spin, but as I said to our KS before, man in the physical dimension of his body cannot do that. Our bodies would be rotating like crazy, rotating so fast, trying to maintain and hold the plasma of the STM within the body of the man. So we have found a replacement as I said before, with the circulation of the blood. There is no difference between the circulation of the blood within the body of the man. The movement and motion of what we call, the emotional currents within the body, which has contained the soul of it. It has contained what we call, the plasma of the soul. It doesn't matter how little that plasma is. Little plasmas sometimes are more stronger than bigger plasmas. Then you understand the totality of the existence in the condition of the electron and the proton, then you understand why the body of the man uses the STM to confirm its existence. It shows its dimension, its limitation, its restriction, the same as when you have (:28). a plasma of H, we only see the atom of a H when the electrons and the protons move while they are rotating around themselves, rotating in respect to each other, and that creates the boundary of the atom itself. So in fact the rotation of the fields of the plasma of the blood, and the rotation of the fields of the soul of the cells of the man in respect to the totality of the STM, dictates the dimension of the physicality of the man. Now we see more and more, now we understand more and how by weakening or strengthening the plasma of the

physicality we can increase or reduce the position of the STM in respect to the soul of the planet. Maybe now mankind understands more, why, how, the way its height, its shape is created. In the past in the world of the man who understood this process of creation, understood what we call the gyration as we see in many ways, as I said in the teaching of many years ago, maybe 2 or 3 years ago, why do the Jewish people shake their heads back and forth when they pray, because they try to find a point of direct reference between the STP and the STM that in that point they could be elevated. They could find what we call, solitude, what we call elevation of the STM, to be enlightened. This is why we see many Jewish (:30). boys, the bending of the religious people rock trying to find that pitch, that point where the line of the force of the enforcement of the soul and the physicality come in line, within the sparks, within the sparks trying to get . As we said to our friends very recently, I have explained this years ago in some of the teachings that now we understand how Sufis have come to understand this process. Why do Sufis dance and rotate, in so many ways, that gyration, reduction in the blood circulation to a lower part of the physical body of the man allows the STM to expand beyond the boundary of what we call, the physical brain. This is why Sufis rotate at given a speed, it's that centrifuge, that core which we create and that increases and enlightens the life. Many of you say, how do you know, I wanted this Gans, how did you create the Gans. Gans's don't freeze, that's how we can identify. It's very simple. You try to get a natural water in a ball and rotate it and see what a space gap you see in between, then put a Gans water or Gans in the same ball and rotate it, you will see a hollow center. You'll see the center of energy, that hollow, that bubble is not empty, it's the center of the most powerful strength which that liquid can manifest, that liquid can bring about to exist. Then you understand more. (:32). .. When a Sufi turns and turns and he can keep and maintain the momentum, in conjunction and the ratio to the speed of rotation of this planet, then the Sufi reaches enlightenment. If you understood why the Sufis wear the white clothes, those Sufis who have reached the point of elevation they'll shine, they become the light. This is the reason the original Sufis got to wear everything white, because of that point, the physicality and the STM will be nothing but white. It will be an enlightened soul and an enlightened physicality. In the process when a Sufi turns he becomes that centrifuge element, where in fact the totality of the energy of the physical soul plus and including the STM itself creates the hollow center in the dimension of the strength of the field and that, it just shines, it breaks through all barriers. It becomes so G that it becomes M and then the Sufi is enlightened. Those true Sufis, many never return, because the strength of the soul of the Sufi, the strength of the true STM, then takes over. Mankind looks in the dimension of the reality to the understanding of his own, what we call, stupidity and he hides his intelligence, (:34). behind so many games that man himself becomes fooled by his own foolishness. But the reality is and the facts which will shine on all of us, is mankind ready to go through the transition? Is mankind ready to take that leap, that bridge, that step, that weakness in the strength of his soul, to find that balance. Would we bring mankind to the point of submission to his own soul that, in that process will change the mankind. Nowadays we tell you, if you want to have this, you have a health certificate and then you can do this or that. Would in the coming time, people will ask, do we have to have a soul certificate, that we have been through the Machine, the system for enhancement, that we can see what it is. Are you enlightened? Have you seen the truth about yourself, and that truth, has it changed you? Has it brought you to face the reality? (:36). Many of us will start understanding why at this stage we have introduced the Enhancement System. .. Would we allow those who call themselves our leaders that they have to have certification that what they commit themselves to, to bring for the nation, or from the

race they represent, shall be the truth. And would we ask. This is not the truth machine for others to know, but it's for you to understand to become humble enough to serve the humanity. Then would we get wrong presidents, would we get those who have a black skin and by killing stay in power for years. Then would there be any man who would stand to be a leader. Would any man take the seat of leadership as the man finds out about his own weaknesses. Mankind is going through a massive transition in 2020. As we see the new developments, as we are developing more and more and are adding, as our K Seekers who are involved in these system understand more themselves. (:38). How much is it, and how much will be, the influence (of these systems)? Would we be enlightened with the knowledge of the U instantaneously once we are in these systems. Would we allow a filtering system that mankind can understand up to a point when he goes into these systems. There is a very interesting point, as we come to the use of these systems and as we bring it to the point of perfection that it does everything we need. Then it comes to understand, is the STM the possessor of the totality of the knowledge of the U? Or as I said before, like a child in a classroom while listening to the teacher he has got his ear outside listening to who is playing football, to go and play. When you see that our soul while it is listening to the physicality of the man what to do, he has the other ear to the U Community and the soul of the Creator, what is going on. What is there that I need to know to elevate and to change. Then a very interesting point arises, and that is, would mankind use the new science and T of the STM, (:40). to elevate himself and the soul of others, to become to be. (.. Break in connection .. 41:17 ) we take the flight in the physical dimension, but very soon we'll take flight in the STM. For those of you who understand or may question, why do we still take a flight in these fancy metal birds where (when) we have the knowledge. In our position, there is a knowledge to fly, the way we came on this planet to enlighten the man, we can leave the same way. But the only thing is that as they say, (:42). when you're in Rome do as Romans do. .. Mankind will soon understand the way we take the flight of fancy, our flights will be in the dimension of the STM and then there is a big question, would there be a Rome (? room) for airports, or do we say I will sit 18 hours waiting for the flight or (break .. ) (:44). ... 44:30) I am back sorry about that it's just the announcement goes in 3 languages, we have to wait. The beauty of it is when you travel with the STM there is only 1 language and that is the language of the STM. It will be very interesting on how we adapt to these changes, and how we'll face these changes. One of the most important parts of the new teachings is, we take pause, we stop, we go slow for so many of the man to understand the point of elevation, the point of understanding their own soul. Man has ignored it for thousands of years, now how can man so fast try to change. Every person we meet, 9 out of 10 in the past months or weeks, after talking awhile, they always say, you know you stopped talking or teaching about the soul, can you tell us more. We want to know. It seems the point with the Gans's and flight systems, (:46). with the MaGrav systems and everything else, took one or some people interested, but when it comes to the point of the STM, everyone is interested, because now we understand. A very interesting point that was raised for us was that in the recent past, many, many religious leaders who are listening to these teachings have started teaching but converting it into their own language and as if it is the finding of their own religion. How long more the Churches, Mosques, and Synagogues are going to lie to the people. Now that they have developed understanding as people from different religious groups listen to these teachings, now they are trying to catch up, trying to build something new, trying to speak about the truth of the STM. In so many ways as it has already been in the books of the past and now they are explaining it more. It's not important, as long as you can enlighten the flock, it can take to the new understanding of the flight of the

STM. This is our purpose. We can't put the teaching and the progress of the STM on a USB stick and give it to those fake men of God in different robes, as we did with the knowledge of physicality to the presidents and the leaders of this planet and then to the mankind. Now we see more and more people of religion listening to these teachings are teaching .. (break .. ) (:48). ...55 .. (:49). What is important and what we see is that not only the K Seekers are woken up to the new knowledge, but so are the religious people. At the beginning K Seekers were interested in the Gans's, then we saw the governments being interested in the UFO's, spaceships, and how they can capture each others plane, and in the past few weeks we see a surge by clergy who listen and now want to transfer the knowledge as the progress of their religion, as the man matures. This is all good, this all the same as we taught you how to make Pain Pens and Gans's and now the clergy teach how to reach the soul, how to understand this. (:50). Now we have brought the physicality of the man and the abuses of the STM together on the same line. But there is one point for those clergy who listen, do you have a physical life, do you have the dimension of the existence in the dimension of the STM. How many of the clergy will walk into these Enhancement Units. As I said, we cannot certify the systems for enlightenment and enhancement of the STM. There is no "C" certificate for the enhancement of the soul and no Vatican has come up with certification from the Church. Maybe the soul of what we call, Padre as he said, would be the last Pope. It's true, as the soul knows its time has come. Maybe we enlighten enough that the truth shall be shown that the last man standing is the man himself, in the presence of his soul. Now how do we do this. The new T which is delivered and which will not be replicated by the man in totality, as the man will not understand, carries one thing, and that is, the essence in connection with the soul of the Creator, with the soul of the system in the dimension of physicality, as is with the man and its creator. In electronic games we call it, (:52). a booster, a replicator, we call it a tracer, in every shape or form, we might ?? to you, would it boost the dimension of the physicality that the STP that it reaches the level of the STM and it goes there to show itself. One of the most interesting things with this new T and understanding of the soul, is one fact, and that is, no one is immune from the truth. No one will be immune from the truth. As we recall what one of the world leaders said, "would I have to face the fact," and only to my soul and only to myself. .. Many people have notice one thing, when they have to understand the judgment, to understand the position of our own soul. As I was explaining with one of the world leaders and what we call, ??leader world leaders, was, did you ever notice, did you ever trace, that ?? statue of ?? Obama two weeks, three weeks before when he was proud to announce the killing of another. As I said before in the teachings, (:54). now do we hear from the man as such. We hear from a lot of past presidents after they leave office, but in so many ways, Obama has disappeared. It's the spirit ?? that he's there but he (only) appears in very small presentations. But if you look at the future of the man, weeks after, what he allowed, he had to make a decision, he sat there with very much the ear corner of the sharp shooter, in his ear, "sir I am waiting for instruction", he had to give instruction, he had to accept the responsibility, because all the ones in the room were Christians, and the implications of it were huge. He was the only man who could say, yes, shoot, take the life. I wonder if you put Obama in the system what you would hear from him? He came, in so many ways, after that point ?? ?? the real ?? business of the behavior of the STM ?? appeared .. (break .. ) (:56). ... :39 ; As we said, maybe these gaps today are good, many of us can think, contemplate and understand where we go. What we do and where we would like to be. One of the biggest questions for me is very simple, these systems when we launch them I wonder how many of you will come in, if you want to enhance your condition from anything which you might have, eczema,

or you might think you want to have. Or you might think you have Parkinson's or something else you want to work and find out. How many of you will actually come and pay to say I want to know my soul. I want to know the position of myself before I leave. I want to know where I stand. I can't do it on my own, I have tried everything. Would I be able to go in, to stand the position and condition of knowing, (:58). where my soul goes. How many of you the way you go the world of dreams and speak to your uncles and mothers and fathers of the past times, will come to see these machines as a way to communicate, to enhance your soul that in the dimension of physicality, the way you go to a (phone) Kiosk and you call mom at home when you are in France or US, now you find a new way to reach soul to soul, to the dimension of physicality of meeting. What you could not say to the father or mother before they left. This is one of the biggest point that we have come to understand, we come to be, we want to be, to sit and to understand. I want to see, who, what did I say, how can I mend faces, mend fences with my family. How could I see and understand. How far can I push the dimension of the life. How much to what extent can I face the truth to myself. What have I done wrong and what can I change that will not do harm to me and to others. How can I clear the condition that when I come to depart or decide to depart from the dimension of the physicality, I have put my life right, I have corrected, I have not mismanaged and I have brought a dimension of the reality to the dimension of physicality. (1:00). Many of you will use these technologies in new ways and in new dimensions. This is to enhance the connection, to align the dimension to what we call the past. Would the mankind come to understand more and more. Now you understand what is hidden within the structure of the enhancement. In reality, as what one of the rich guys says, can I buy one to be private at home that no one knows the truth about me and I can change things in my own dimension, position and my own strength, that there are no witnesses to my doing. In talking to those who decide the future, we'll come to understand that the future is within the man, within the grasp of the man, not in the dimension of the physicality, but in the dimension of the STM. Step by step in the coming time we will release more and more knowledge about the ancestors. Would you like to create and face, to see what is set for the future of your soul for the understanding of the dimension of the physicality. I repeat, mankind will come to this T not out of the love of it, but out of the fear of his own demise and many thought it would be used for weapon T, (1:02). and for different things, and many thought for man to take himself to the depth of space to find new dimensions, but now you understand the truth. This systems are there to allow the man to find himself, to find the dimension of physicality of himself, to find in a way, the dimension of the past and the future. One of the KS asked me, if I bring a hair of anyone can you bring me or take me, allow me, can the system bring me to the point to be able to be in touch with the soul of the possessor. In so many ways, it's not impossible if you understood the totality of the process of using the T. I open these doors very slowly and to the point that the totality can be understood by many, but many becomes too many, it becomes all of us. Or when we leave these systems would we go to our loved ones and say, "do you know this or that", "did you know what happened." because you made yourself a telephone call through the soul call to the dimension of the new strength. Do you remember when you used to go to telephone Kiosks and you made the call, and now we have a new dimension in what we call the new mobile phone, within the future as we see it, (1:04). will create the new dimensions in that process with the STM with the mobile system that we can go through the transition much faster and no need to be locked up in position. These systems are already in hand but mankind is not ready for it. We decide where, when, and how to be part of this process. Mankind needs to understand, to grow up, to elevate his own soul that he is not the last man standing.

Maybe, maybe we'll reach the point of break, break from the past and start of the new future. Maybe the enhancement unit will enhance us. Maybe in the time to come we find, not a new confessional box as is tradition in the Catholic Church, but we'll find a way to find and confess to ourselves in the dimension of our own souls and physicality that what it needs to be put right. We take command of our physical life for understanding through our soul what we have done wrong, or what we need to do, which we have denied ourselves. Is mankind ready for this transition. This is our biggest question. One of the biggest questions to come. We are aiming and targeting the system to be operational on the 30th of January, 2020. Then you'll understand, 60 days for mankind to start, to look forward, to be able to do. (1:06). ... Would a new way be shown that the mankind will take the highway to understand his own totality, to the path of the Creator. Today we take flights from airports and runways, would we in a few months time take flight in the dimension to different positions of the U through understanding of new T. How far would we be real to ourselves. Would we be able to bring a nail or hair cutting of a man and bring it to the condition of the STM and then we allow it to confess, not to confess but to let us know what it has done. As a mother said to me very recently, if I bring a hair of the Red Circle, would his soul tell me the truth about where my child is. I said, that is possible. If I lost a child would I be able to find out where the child is, as I have hair lock and a scent of it, and I say yes it is possible. This is what we see and what is to come. Nothing will be hidden. But don't forget one thing, those who took the pictures in the home of ?? trust have left a lot of fingerprints in the home of ?? trust too. (1:08). Those can be. We are ready to elevate the STM but would the mankind be able to understand that elevation. I gave you a hint very recently, I said if you give me the skull of the man I will make the man. Those who claim they have the relics of the Christ very soon we'll show if it is the truth or not. Those who believe in the path of Mohammad when we touch the clothes of the Mohammad (BHN), that is in the possession of the Saudi royal family would we find the of the beauty of the Mohammad in the presence of his soul. We'll shape the mankind through the structure of his life through his soul. He is born to his structure that in time mankind understands there is no where to hide and there is no Rome to go back to. We don't need blood tests to be given by the courts and be hidden. One hair and the soul will speak. There is no ruler which hides from me. Now you understand how powerful mankind has become. He has become powerful enough to understand the work of his own soul, the work of his own physicality, that the time of the truth with the enhancement of the STM will bring many realities. Would the future holds different ... (1:10). (1:11:20) .. As I said we will not be able to ?? these systems, not for what we call the physical enhancement of the man through his soul, but through the dimension of the creation ?? of understanding of the STM. Would it be interesting for many of you would be a simple point, when you go into these systems if you are ??? R- Mr. Keshe we couldn't hear that last sentence. (1:12). I said, if you are a father and you go into the system with a prostate cancer and you are hoping through the enhancement of the STM to find what we call a solution for your physical demise, would your soul bring you to see the reason. Would you come to understand to hear the voice of your child, what you have done wrong to him and you blame him for your own destiny, and would your feeling to be correct, raise the soul of your son, to elevate him. ?? You do not need to go ?? you do not need to go to chemotherapy to sort out the cancer, but in a way you elevate the soul of your son through the inner connection of ?? ?? that the physicality takes a new course. You were looking for the physicality while we were looking at the elevation of the STM. Will the mankind take a new course. Now without a doubt he shall. Would the mankind go through the next step of the elevation. Do we need ??

things to hide it. Or do we need a new dimension of critics of our own soul to be enlightened. This is what we are looking for. This is what we think the time has come. Today's teaching is for mankind to understand one thing, (1:14). the "Day of Judgment" is the day what we decide or would it be ?? ... break .. 1:15:16. As you'll come to understand would the STM, will see the point of, would we choose the point of our departure. Would we use this new understanding of the STM to create a new dimension, a new understanding, make and amend our ways and our lives. Would we create a condition that knowing the truth about the condition of our own soul will create a new condition for the dimension of physicality. (1:16). Many, many K Seekers as I said, will walk away and deny everything because they have to enter these systems due to illness or challenges of life and then what would be the answer. Would there be a kingship? Would there be anyone who would like to be on the seat of kingdom and of kingship .. ( Break ..then it comes the question of all of us .. passengers or do we... (1:18). 14 ) would we understand more about ourselves and would this enlightenment about ourselves bring in the new dimension in our behavior ??, in our national behavior, and in our leaders and in so many ways, would we challenge our leaders ?? ?? before becoming leaders ?? then would we ...

As I said we are an airport to depart for and I hope I brought you a new knowledge, a new way to think and a new way to see and I hope in time to come mankind will learn new ways. Mankind will come to understand and in so many ways the time has come to change ?? ?? which man thought he had .. and in so many ways was the thought of many leaders ?? ?? .. and the prophets of the past and do not stop until the man can understand his own weakness. I have to leave because I have got a flight. .. (1:20). the short teaching of today was a very powerful teaching for those who understood and what we brought, the 5 times in between , the time of ?? Thank you very much for today and we say good-bye to this beautiful city of Dubai. ?? ?? and in time, ?? will come the time we'll return to many places we have been in, as we left this city some 3 years ago ?? by invitation ?? in the short time we stayed here in the city we learned a lot of new changes in time for the nation ?? ?? people, a new dimension of understanding is the hope ?? ?? ?? thank you very much for today and we'll see you next week. R-Thank you Mr. Keshe, Just so people know we'll have a short workshop this week because of Mr. Keshe being in transit as we discovered today and sorry for some of the problems with the audio, we'll try to get a transcript of the workshop out as soon as we can.

Thank you for attending 304 workshop November 28, 2019.

(1:22).
