

308th Knowledge Seekers Workshop December 26, 2019

(** Adam as Creator, Eve as Daughter: (Best Soul Teaching - What went wrong on planet Earth and how to prevent it from ever happening again)

The Iran Conference you'll be hosted by Iranian families, Americans launched most advanced missiles at Tehran and they returned back and hit Saudi oil refinery shows modern weapons obsolete, The peace has begun, Iran to take leadership in spreading new technology, I have given you the best Christmas gift the Creator could give, the chance of peace and the opening of the Universal Community, 2020 was year promised for beginning of peace, Mankind has a ripple effect on the Universal Community, The true story of Adam and Eve is that Eve is the daughter and carries the creation further, Man first migrated out of Africa through Iran and now returns back, When you rotate the Gans it creates a soul of all Gans in the ball likewise the Tehran conference will create a new soul of peace for humanity, I'll retire March 2021, The conversion of energy to feed the man without killing, The Universal System is not just for man but all creatures in the universe will use this same machine, We are part of the family of the Universal Community and they are present here on earth, In your research try to understand the elevation of the soul and what the soul level creates and in which dimension of the universe, If Iranian G blocks the conference we'll change it through enlightenment, Mankind is ready for the change, Environmental pollution may be for some to go through evolution of the STM and allergies occur when one doesn't accept it, Rotating the Gans in a core you find the soul of it and that brings the universe to you if you match the field strength of the soul of the moon then your love for the moon will take you there, Gans is a portal to another dimension and can be used to spiritually awaken, Feeding the man directly through satellites,

Soul Teaching: 1:54: Goes deeper into meaning of Adam is the Creator and Eve is the daughter, The Creator of all shows his adoration and love for what he can create, his daughter, When man thinks of Eve as his wife he interacts and binds himself with the physicality, When you are just and correct in every sense you do not need a male and a female to create, the balance of the field forces leads to creation of new dimensions - called the daughter, When the daughter of the Creator appears the cycle of creation will be complete, He came to understand why Adam created physicality, When man falls in love with the souls of creatures of the universe they can only create soul children, The skin is the essence of the emotion and plant grafting, From singularity and in balance with each other we create the birth not in the dimension of man's thought, We need to become aware that we possess the physicality and not the soul and emotion, In the dimension of the soul one sees the truth,

The world leaders go into the Enhancement Unit (EU) and come out knowing the truth, People who see the flashing light at point of death where the STM and STP fields interacting like daylight from the fields of the Sun and Earth, Being able to retract the physicality back into the soul and re-manifesting like at time of sleep, When you die nobody goes to the Creator as such you become part of the structure of the position of the Creator, Attachment can hold you to the physical dimension for some time, You cannot die before the destined time because the other souls have to make a position for it otherwise you would be stealing from them, What is behind the fields of the Creator - read Book #8, The Tehran conference is the beginning of the change of process as we have to reach billions of people and change a lot of things at the same time, We need the

religious leaders to trigger it as they are the abusers they have to end it by becoming enlightened to the truth, (2:29) Mr. Keshe tells his story of how he matured and it took 3 times before he accepted his mission, "I decided not to allow my soul to be abused or my physicality to be lied to and cheated and the rest and when I took that step everything has changed", Becoming a physical life to understand how you can stop the processes in it (to fix what has gone wrong like on Earth), The Creator took this physical life that we experience here on earth so that He could discover what went wrong and to see that it never happens again in the physical dimension, What went wrong? - the killing, The problem is with the creator of the planet and the conditions it was created under, The mistakes of the past prophets like Moses was they fell into the dimension of the physicality and justified the killing, Mr. Keshe waited until he matured his soul of physicality through life experience to prevent any mistakes from happening this time,
,)

(:06). Wish you all a Merry Christmas.

.. There are a couple of things to tell. Next weeks teaching will move to 12 C European time not the usual 9 O'clock. I will be traveling. ..

.. Every teachings more or less, different weeks, comes from (:08). different parts of this planet. We are in a different place today and next week, after the week after again different, .. then we have the Malta conference. And then the whole cycle starts. This carries on until April in the beautiful city of Tehran. If you are aware we'll announce next week, we'll open the booking for Tehran Conference. The Tehran conference as I announced in the Iranian teaching, Chat rooms on Monday and we indicated it last week will be a pivotal point in the world of the teaching of the T and the world of Science, and for us most probably the beginning of a new cycle. The conference is open to as many people as can travel to Tehran. We encourage the KS to attend the visa to attend the conference. The Iranian KF has been discussing it and been debriefed about the conference. **The difference with the Tehran conference is we'll try to organize that you only need a ticket to get to Tehran. the length of the conference, your stay in Tehran, will be handed over as much as can be done to the Iranian KF team, which means you will live amongst the Iranian families.** You'll understand the reality of what we call Iranian culture, (:10). of hosting and the love of the Iranian nation. They have started the process. Hopefully, we can accommodate as many people as can come and in this process of 4 days of conference the total space T from the Iranian scientific point of view and the KF will be shared. Which means in the conference the Iranian teams have started organizing themselves to show the different aspects of the technologies they have or are developing through the space T. We have already asked the Iranian government to accommodate up to 2,000 representatives from the KF, the Iranian KF, Iranian diplomatic and the political scene of Iran. To the extent that the invitation goes to his Eminence Ayatollah K of Iran. As I explained we have reached the point of peace, as we see it with the new development in T **the war systems of the present time has become obsolete as we have seen with the American Navy, Air force, and everything else they could muster in the Persian Gulf in the last months, but they could not utilize it because the damage done by their attack on Iran was so destructive to themselves. We saw the end of wars and how the most sophisticated rockets which were targeted to Tehran, (:12). were scientifically and technologically returned back to the sender** as I said in my teachings before and

accidentally as I said, do you remember, go back to the teaching, return to the sender, there is no such address. As I said when a friend sends you a gift and you don't need it you give it back to him. It depends if he has a use for it. When the rockets, the most advanced missiles were targeted for Tehran it was returned and it landed in the Saudi Arabia refinery and they could not find anybody else to blame except Iran because they, themselves launched it. So they got their own gift back but they were so embarrassed to say such a thing that as you saw they tried to get the Air Force to see if they can get more in, and they gave it to the Saudis and they couldn't do anything with it. **Because when the Saudis examined the wreckage of the rocket it had all American data on it. This is one thing the Americans could not tell to the public,** the refinery and the fire we saw in the Saudi Arabia, was a return of a gift. Unfortunately, the ball could not be caught by those who sent it as a gift, and it caused such a mayhem. This shows **the beauty of the knowledge and the T that we do not need to attack, but we have the T to make the present weapons T obsolete. This is the beginning of the peace.** In this process as I explained to the Iranian KF team, this obsolete (redundancy) of the weapons of the present time of the most advanced, has created the end of wars. (:14). At the same time it has created a new dimension that someone has to take the lead in the technological and knowledge of man in the advanced T. There is no nation better than Iran who is the cradle of the knowledge of ?? In Tehran we take the leadership in science and T on the banner of humanity. This is where the turning point comes. This is taking leadership by science and peace and not by weapons and murder and mass murder as we have seen in the recent past and hundreds of years by mankind. Therefore if any of you would like to come to the conference in Tehran to see the first steps in science and T of the space and change in the evolution of the science, the Tehran conference is the beginning of that cycle. As I advised the Iranian government officials, it's time to take the leadership the way Daruis and ?? Kush did. On this way, please go to the KF website and register yourself we'll pass your names to the Iranian officials for clearing your passage to Tehran and secondly we'll pass your names to the KF Iranian community to arrange and accommodate you on your arrival in Tehran. It means they'll facilitate you and the Iranians will take you to their homes and most probably pick you up in their cars and you'll be taken to the love of home. (:16). We'll bring the change both scientifically and to the STM. We'll even invite the world leaders and ambassadors to attend the conference. One of the best ones will be the offer and invitation by the Iranian officials to president Trump. Maybe that will be the only chance he'll get to attain the Noble Prize for peace and maybe a path to the second election. Will it get, through a change of attitude. On this platform it makes it something very easy, it's the responsibility of every KF supporters and K Seekers to write and invite your diplomats, politicians, and your head of states to Tehran for the original scientific conference which will lead to a peace conference. How you go on the media, use the public platforms on the Internet, spread this invitation around the world and the success of it is in your hands and the direction set by the UC and Earth Council. The beauty of it is that we take the leadership as One Nation, One Planet, (:18). and as one race we guide the rest of humanity to the new path of knowledge, strength through the knowledge and T for peace. This is the message of Christmas for the humanity. We all have worked to this target, to this call and we bring it to this point. Every effort will be made that we can and do and the facilities to be made available that humanity starts a new course. Showing you technologies, showing salvation from the pains and problems of the past, gradually changing and financing peace and new T, then for war. Caroline asked me yesterday, do we need to go to Malta and build a center there, why don't we make it on a ship. I said, I thought about it already, but at the present time one missile can create us a

lot of problem, but if we can push the world community towards the peace, maybe the most latest advanced naval warships which have anchored 700 kilometers in the Indian Ocean by the Americans, (:20). will change and become flag bearers of peace to go around the world instead of delivering bombs and rockets, they'll deliver new education in science and T. They'll become flag bearers of peace. It's very easy we don't need to dismantle them, it is easy to change them into education centers, into health centers and put them around the world to help to change and convert a lot. We'll make men of peace from men of arms. You have to understand that these people are highly educated most of the them, so in a way they only change their clothes into teaching, and culture and changing. It doesn't take much, it just needs one man to open the eye of the man to the insight of the peace. We see the Tehran conference to be the beginning of it. As our webmasters open the registration for the Conference in Tehran the only thing you need is a ticket of love. We saw John sitting in god knows how many hours of traveling from Argentina to be in the conference in Brazil, and they turned him back, an old man in his 70's more or less, but the journey was there to make, because it makes that difference in the soul. (Take) this journey and come to Tehran, and when you go to the Embassy, write down we are going to the Conference of KF (:22). from the 19th to the 22nd, in the beautiful city of Tehran. As I said to the Iranian KF, if you invite, and one minister accepts to attend, the Iranian minister has to accept his invitation of arrival, which means, if any of you have a connection with a president of Prime Minister of your nation, or you can do what the Italians did in the Italian parliament when the KF Key was released, to invite and he requests that he wants to attend the conference, the Iranian leadership has to accept and be present. This is the international law of engagement by the world leaders. This engages many of us and this is the beginning of taking leadership in science and T and peace. It comes to one point do we exclude nations or do we invite all. You have to understand on arrival in Tehran and on the availability of what we call the Enhancement Systems (EU) would any of the world leaders dare to take the step to step in. Would the voice of the man going in be different then the voice when he comes out, man or a woman. Or would we get into what we call the pleasure of the Iranian, (:24). master piece of work, what we call "tarruf", which means, 'you go first please, no, no, you go first please.' Let's see which leaders will take the first step into the new dimensions of peace by entering the Enhancement Unit universal system. Would they walk in because of their illnesses or would they walk in to enhance and elevate their souls, that by stepping out they'll reach a new level of leadership. Maybe on the stepping out would reach the saying of Bahuala who said, 'the time will come that no man will take the crown of leadership as they see each other as equal and in love with each other.' It's a very delicate point and in a very slow way, I have guided the KF and humanity to this point. From now it's in your hands, KF followers, supporters or KF or what we call, "anti" or whatever, let's see how we can bring peace through the knowledge and T. Just before we started I was explaining to Rick that I had a very beautiful but strange experience. I was in an airport lounge, (:26). sitting next to me was an American woman and on the other side of her was an American man. Very interesting, attention seeking, enjoying the presence of children as I found out later on that they couldn't have any children, so they enjoyed the presence of them. In my talk, he said he was from Washington. I thought a Navy man or National Security guy, his haircut, his manner of walking, very extrovert American as usual, but somebody connected to me through the haircut of the American military goes with them until they go to the grave. In talking he said, I am the first pilot who flew the F-17 and very proud of it. If you know, the F-17 is one of the latest man-killing machines of the Americans. I said to him in a simple way, with the new T all the present weapons T is

obsolete. We have war, if we manage to create new weapons out of the new plasma T which has come up. He could not take it. He could not see what he worked on and was so proud of, hit the dust. Maybe this is the way we have to go, we have to lead. We have to understand that the world leaders need to set the new line of communication for humanity to explain the new advancement in peace and in equality of man through knowledge and T. (:28). Now you understand why I put Tehran conference at such a distance to build up for it. The Iranian KF have already started the work and they said they have a crew of 30 and can start and they have enough to be able to support such a position. You have to understand the Iranian mentality, as soon as you say you have a guest, they all invite the guest, then if you say he is a foreigner, oh, they are worshipped. When you get to Tehran, don't be surprised if you get smothered with love, kisses, and cares and thought of often, the best seats in the best restaurants and house in the city and are for you for the time you are in Tehran. It doesn't matter if you are a layman or a president. This will create a dilemma for the Iranian government to accept such a conference on such a short term or to take the leadership in science and T and the evolutionary development in the Space T. In the coming days and weeks I will be in touch closely with the Iranian officials trying to accommodate and for them to understand the position of the Iranian scientists that leading in Nano T in what we call the present rocket, nuclear and all the advanced technologies the Iranian scientists have homegrown, (:30). and lead the world in many aspects. Now it is time to officially take the lead and lead mankind to the progress of development of peace and T, and abandoning wars and conflicts. I wonder if our Hebrew U Council can invite the Israeli president to Tehran, or we can get the Rabbis to return to Tehran where most of them were born and bread through their ancestors. Would we see the Italians to be strong enough to see themselves to be in a position to invite the Vatican and the Italian leadership. The Tehran conference is not just scientific but is a total science and T to create the conditions of peace. We encourage all the KF K Seekers, if you have achieved evolution in the T, let us know and we can invite you to present it. I hope we don't get the lady from Italy who wanted to show a game and then when we didn't let her show, she became everything wrong with the KF. These conferences are a serious point for scientists, politicians and diplomats to attend. **I have given you the best Christmas gift the Creator could give, the chance of peace and the opening of the U Community. (:32). 2020 is the time of change and the time when most of the world leaders were promised, the beginning of the world peace, the beginning of the beginning.** As we say the best mark you can get is 20, now the mankind has got 2 of them, 20 out of 20. It's time to graduate towards them and it's the responsibility of all the KF K Seekers to work in this direction. It's not anymore somebody else might do it, I invite him. I invite the world leaders. I ask and request the Iranian officials to organize this function that we show the beauty of our T and the beauty of world peace and world order. I wonder how much and how far we can meet, as I said, by 2021, the beginning of the promise of the new life. The new soul will manifest which humanity and the U have been waiting for. This is what we said, and what has been the promise of the beginning of the time. Then we will see, **are we still going to kill animals to consume. Are we going to destroy more, (:34). to get advantage for ourselves for a short time and life span on this planet. Or we understand more that these small changes that we have done on this planet, whatever has had what we call rippling effect in the U Community.** Mankind has not seen as yet, as I explained once it's like a farmer who grows the fruit and to him it's just a box of fruit that he sells to go to the big city that he can have an income from that he can live, but that box of fruit lands in the palaces and on the tables of the kings and queens and the leaders of the world without

him knowing. **Has it been the ripple effect of the man on the U Community and is it time for the farmer to understand where the fruit of his life work ends up. Has mankind been blind that what he has done, even wrong or right has had a ripple effect on the creation and the world of the U.** And for the first time he comes to meet and eat on the table of the kings. Are we going to sacrifice to cut the tree or are we nourishing the farmers work to bring more the delicious fruit but not for the king and queen, (:36). but for the whole nation that the tree becomes a tree of humanity. The apple which the Adam promised but as we said **the man has never understood the true story of the apple and the Adam.** As I explained, in the present history of man you say, the man or the Adam took a rib that it made and created the Eve. In truth there is more extension to this, the man who created the Eve, **the Eve is not the wife, but the daughter of the Adam, where he could truly love and where his beauty could be passed down to the rest of his own creation.** Now we understand the beauty of the daughter of the Adam, not the Eve. Mankind has always read the stories in half and maybe now you understand, why when the truth was given to the Jewish leaders, they gave only half a story and they said the blood of what we call, faith passes down in the woman, the blood of the woman, the daughter, from the mother, and from the mother to the daughter. Now we complete another mystery in the cycle of man. Now we **understand the true Eve is the daughter which is born to carry the beauty of the Creator, (:38). to be able to replicate and carry both the love and the physicality of the Creator. That is the time of the completion of the cycle of the truth. The apple was the love of the man for the physical existence.** Now as we progress towards the Tehran conference we'll build to the next step, to the direction of not being interested in how the cores go, or how this goes, but we look at the total energy which this T will create in the humanity, a new blood line, new blood life, a new cycle, a new era, a new continuity through the daughter of Adam. This is the time of peace and the peace will come through T and no other way. A correct peaceful T which meets all the needs of the man and corrects all the path and the past. Many of us will come to understand this very soon and it will grow on us in the next few weeks and coming months, that the new promised beginning has started. We don't know any other nation or place then the nation of Iran to carry this. (:40). Going by the historical past when the man crossed the straight of Hormuz into the mainland from Africa, the spread of the human race across the Asian and American continent started just above the straights of Hormuz where the family spread. **So the land of Iran is the point where the humanity spread across this planet and so we go back to the motherland to where we changed,** we accepted the handover from the African Continent and **the size and time of the evolution started. In so many ways we are all Aryans, it doesn't matter where we come from** as if you are a Chinese or a Russian or American or European, the change and the position started just above the straights of Hormuz **when the water was shallow and mankind crossed into a new area.** It spread across the coast line and spread further up in the north ways. The Tehran conference is bringing back the whole of humanity at the point where they divided and where they started. Maybe this time from this point, again we start a new revolution which is dividing into space and we start the process of, we stop expanding across the continents of this planet and **we expand through our knowledge and T across the U. (:42). I am the Messiah. As I said to the Iranians I am the messiah of my soul and physicality and to me Tehran is where my soul will find peace** and knowing that the new generation of souls which come from it will carry that wish and message. It depends on you where your messiah takes you to. Do not forget **when you put drops of Gans's in the ball and it takes motion and becomes dynamic, it creates a common soul to become the soul of all the Gans's in the ball.**

Would with this motion we would bring man to that point, that the new soul of peace will be created in Tehran for all the world leaders and all the man at the same time. This has been our wish and this is what we have planned. **The truth is we have come to that point, the point of maturity,** and the knowledge and science of man has brought us to this point, that we see no need for war as we have managed to match each other in war. (:44). If you think of it, when 2 animals fight and when they get tired of it because no one of them can win, they talk peace. When one thinks he is stronger and starts a war and he thinks he can win, and he gets stuck, at the end of it, he ends up at the table of peace negotiations. Mankind has been through all of this. Mankind has managed to master this thing, master the reality of the science of creation and **we are a lucky few that are born and will be present to witness this point of change.** Billions of us born in the past were wishing for it that they could see it, and billions of humans after this time will wish that could have been present to be part of it. The Tehran conference is a revolution in science and a revolution in bringing peace between nations and religions that they all agree that there is oneness in all and there is no need to cover it with different colors and races and flags and religions and god knows what all. As I said, we have just started. (:46). Write to your world leaders and diplomats and to each other to arrange how many of you will travel to Tehran. We have a hundred thousand (capacity) football stadium in Tehran and we have a 10 room conference in Tehran too. You decide in how the mankind will go, we'll make it, power to see, or will we become shy being afraid of what we believe. Don't be afraid, if you can sponsor or you can make the way to Tehran, apply and go. Arrange the plane craft for 200 or 300 people. Talk to the tour office. The Iranian government and nation will welcome. **The beauty of it is that when you attend the country for the conference how can you put embargos on the nation.** Now you understand. Mankind by killing many in one go at Hiroshima thought that they had found the ultimate weapon of destruction, killing and power. But actually that Hiroshima bomb was the starting point of peace that everybody targeted to kill as many, but nobody dared to use. We saw it, (:48). 70 or 80 years down the line, **2 of the most powerful nuclear technology, one with science and one with weapons stood face to face, and they have come to the truth between Iran and the US. One not knowing what the other one has, and one being fully aware of what the other possesses, but both lethal enough to deter from use.** We have come to the point of stalemate in the world of war and this has shown the world community that there is time for peace. There is time that weapons can be put down. The only skirmishes we'll see will be between the Christians and the Moslems in and around the plains of Africa, and this soon will cease to exist. This is the war of religions, to see who banks more, and this will come to an end by April and onwards. When there is no more religion to fight for, but the unity of humanity and mankind. Vatican has collected enough, to put back in to humanity. Saudi Arabia has collected enough in Jeddah, to allow the humanity to enjoy a new cycle of life. The other world leaders have learned that it is time to talk constructively to change, and it is time to do a constructive work for their nations. (:50). **You won't see any charges on KF Tehran conference, registration, and as is tradition, especially with this meeting, all your registration will be given to the Iranian national security to be vetted by the Iranian security system, that we all know we are going there for peace,** and we all know that they know that we know it is time to talk peace. We don't march on the street, we gather to explain the new T that it marches mankind to peace. We encourage you to show us many applications and developments in the scientific world in the next 4 months using the T and we have asked the Iranian scientists to do so. Now you understand why I said **by March 2021 I'll retire because I will have achieved** what I came here for and the

rest will be in the hands of the world leaders and KF K Seekers, U Council, and Earth Council to carry the wishes of peace from us. In a way we step down for you to start managing. I hope that was the best Christmas gift we could ever bring mankind. (:52). I hope you enjoy it and gather strength and unify the KF around the world to meet and work with the Iranian KF to achieve the world peace plan. The Webmasters will open a new Chat line for the Tehran conference world peace. **All of you can participate with it through "Telegram" it has the facility to translation in different languages and you can choose the one you want and it will be translated, then you all can communicate together around the world as K Seekers.** On this new platform which will be released, as we did with Brazil, there will be no allowance for disrespect and humiliation, or the talks about the politics and the world. The politics has failed, science and the wisdom of the man has taken over. We want you to use this platform to communicate with all the Iranians, Chinese and the rest as a common platform, as the Iran peace conference that it brings us the unity that when we meet in Tehran we already know each other, in so many ways. This is what we call the unifying platform. Try to enjoy each other, and try to understand how and where you are going to meet, and how things are going to be done. Invite ministers and politicians, layman on the street and doctors from universities, (:54). and different governments. I feel sorry for the Iranian government that it has to do such a thing in such a short time, but in so many ways, by **what they did a few weeks ago by diverting such a huge damage that was planned for Tehran. Now they can use the time of peace to organize for this conference.** When a world leader dies, in a matter of a few days, the other leaders find the time to cancel to attend his funeral and to travel to the destination of the burial and celebration of the new leader. Now **the world leaders have 4 months to bury, the dead of the war, of man's wars for centuries in Tehran.** And to organize to be there to see the birth of the new life, new generation, place and dimension. We are all going to the funeral of the end of wars and to celebrate the beginning of peace and the entry of man to the U Community and in the dimension of understanding the world of creation in a much better way without ?? and prejudices of the past. I know many of the KF KS have already told me that they are getting ready to be in Tehran. And strange enough, Tehran is ready for you. We make this platform under the condition, the only condition that the T will lead us to peace. (:56). The T lead us for the Americans, Iranians, and Chinese to work on one platform, how to open the space in a way that we do not make the mistakes of the past on this planet. I was watching a program about the Himalayas and people going to Everest to conquer the Everest. In that process they are very proud, and many die, and many don't make it to the top, but what they don't show is how much rubbish, debris, and carnage they leave behind at the bottom of the mountain. This time as we try to make the peak we should make that there is no garbage left on this planet and in the U, in the brain and in the emotion of the man, and in the direction of the unity of the mankind. Cleanup, that when you start you start fresh. We invite the Jews back to Tehran, as we invite the Armenians as we gave them home in Jaffa. Iran is the land of "Zatorsht" As it was said, **The Three Wise Men who came on Christmas, with the wisdom of, Do Good, Think Good, and Act Good.** (:58). I will be releasing new technologies in the coming weeks in different KF K Seekers will be welcome to test to develop to be ready for the Tehran conference. These new groups will consist of space, fuel, energy, health, environment and materials. Your language should not be the barrier. We'll bring these groups into KFSSI teachings on Mondays thru Fridays. This is how the target for KFSSI Monday is set. **Rick started the process last week. Now what we want to do is to gather a platform of KF experts in different sections on KFSSI to come together on a daily basis to develop and to have these technologies**

ready to be demonstrated in Tehran, irrespective of your color, race or religion. American scientists are welcome as much as the Iranian and the Chinese. We'll work on the platform of One Race, One Nation and One Planet. If you know experts in different fields of what you want to do and the groups are set, invite them, it doesn't matter who they are or where they sit, invite them to the platform of communication and development and they'll participate. (1:00). The KF SSI was set to break the barriers of the religion, race and knowledge and from this term it starts from next week. If you have an idea that can be developed in the next 3 or 4 months and it's basic basis, you'll have a platform in KFSSI and a number of Zoom channels will be setup for this purpose. **Whatever you can imagine, do you want to develop it, we'll show you that it can be done inside the Enhancement Unit (EU) and how you need to adapt it to use it. Even those of you who are of the path of belief in Christ I will manifest the soul of Christ in that machine.** Even though you want to see the presence of Mohammad you will hear him, **if you decide to develop the T in the level of the soul of time and space of the time of the Presence.** I will bring Moses to declare what lies he did, that we understand what has happened in true time. When they speak, mankind has nothing to do to divide himself. **Those of you who understand this will take the path of wisdom. Those of you who do not understand will wither to nothingness.** (1:02). What ever you can imagine in the past time and you want to develop, will be developed in what we call, the Universal EU, because **it is the copy of the work of the U. It's you who has to understand how the U created that condition, the time, space, the soul and the action of the man.** Now tell the Vatican to open the books and tell the Vatican to close the books, and bring the truth what happened. **So many people joined the KF on the wrong track, and so many that came thought they will find the right track. You all will find your own ways.** We all find our own way according to what we understand of the T and how we decide to direct it and divert it. **I have no fear in what is to come, it is a time to rejoice.** In so many ways a lot of people who came around the KF to see its benefit and they got disappointed, ask yourself why and how and what was the reason, (1:04). and why did your soul bring you to this journey? Then you'll find the answer. We came to gain a better financial position, or we came to gain another spread of the knowledge under the cover of financial gain from the KF. Many of you played that game and many of you walked away disappointed. But it's for you to understand. Many of you have come and through this process will become leaders and become pinnacle points, and pivotal points of the new generation of peace. As of next week we'll teach more and more in the advanced levels of the system technologies, not for you, or those who I call, common man to copy, but for those who are more advance educated to be able to develop it, that by the Tehran conference we can deliver that it becomes the cornerstones of the new knowledge. Are there any questions?

R- Thank you Mr. Keshe... (1:06). Q: **What were the categories** of the groups that will form, was it Space and Fuel? K- **You decide. It's just what we can deliver or bring.** What as the KF can develop. It's how we see it to be done. The medical side and the new space T is headed by one of the most beautiful men we know in KF, by **Dr. Rodrigo, he has accepted to head the KF medical section from the teaching and developing of the new machine that we have developed.** He will choose, he has a total free hand in bringing doctors and those who can be trained for the new machines that are coming to operation gradually. He is one of the most capable men who knows the T, he lives and loves the T the way I do and understands it. We have another doctor in Iran who is the same, and many other doctors, 3 doctors, these are men of medicine

who understand both sides of what is there. We put a team under the mastership of Dr. Rodrigo to bring this together. (1:08). because what I think and believe and what I have seen, he has 20 years. **This T will go first through the health of the man's fear of his own life and by seeing progress he will take new actions to bring the other parts in.** the experiments on the health side will be one of the most extensive ones because everybody wants to know how they can get rid of their cancer and this and that. On the other hand, **what about the food that caused the cancer and the emotions** which causes these conditions. These are new researches we need to do. What about the energy fields which cause, that it leads up to these points and conditions. **Many people don't understand how amazingly we create so much of our own problem through the energy supplies. How we create so much transfer of energy from our soul through the use of energy. These all need to be studied. These lead to concentration of and new diseases of conversion and evolution.** Are we going to extend the knowledge beyond the present what we call, physical, pharmaceutical. Are we going to develop new ways to feed the man, new ways of agriculture. In simplicity, if you look at it, if any of you want to do the food and agriculture, what about understanding the totality of the need of the food, (1:10). that the totality of the agriculture. **What is agriculture? Or is it a Gans culture because at the end of it you take the energy of the sun, you convert it to protein or N and you put it in the plant, then you take that plant, whatever it might produce, the root, the fruit, the seed, you put it in the body of the man and you convert it back to energy, that, that energy creates the body and enhances and nourishes the STM.** Now that we understand the knowledge in totality, do we need to go through these processes, do I carry a spaceship of the cows and the wheat with me, or do I carry the energy transfer that you K Seekers now understand and can do it in the universal system, **conversion of energy for the need of the man without killing, without building it to kill, to feed. This is the problem in the process of this planet, this is what has not been understood.** We say we don't want to kill animals or destroy plants to eat. **These are a conversion system and now we have the knowledge do we need to go through the processes of creation and destruction, or can we use directly the energy of the U in the dimension of physicality and the STM.** Can we take the energy of the U through the plasma or Gans T and feed the STM which has been the whole purpose of this killing. We have matured and we have to look at the facts. (1:12). How many of you K Seekers would like to start testing this in these machines. What level enhances to what level of the STM. What do we need to enhance to use the T, enhancement, universal enhancement, enhances the U not the physicality of the man. But I had to show you, this is for cancer, this is for Parkinson's and you all are happy with it, because you are so afraid of your own demise, but your demise was set to establish the soul, to free the soul. What are you afraid of? Would K Seekers look into, **what Gans's do I need and in what condition to create to feed the soul, that the physicality is fed for centuries.** Then Adam, an apple, and a creature of space is not food for consumption of energy. Now you understand. Try to come with .. there are still Gans's, Caroline says to me, you know you have to setup different classes for different levels of understanding, those who still want to play with Gans's, and those who still want to talk about the Gans's, and those who have developed and they want to play with energy. I said to her, I already thought of it but there is only one way, this is the way we are going to open that those who are researchers that they teach the others then everybody comes .. don't be shy, I don't know how to make Gans's. You never know, (1:14). until you ever need to make Gans's, if you learned the knowledge of energy transfer through the U. Maybe that's why you never learned to make Gans's. So when you decide where on these courses, these platforms, when you want to start in

KFSSI, invite the world's K seekers, and the world's leaders in science to come in. You will get a lot of arrogance, especially if they have a PhD at the end of their name. And the ?? is, that the man with no name understands better than the man with HpD. Do you know what is the difference between HpD and PhD? Hypocrisy. You can guess the rest of it. If you understand that the K Seekers platform at KFSSI is for you now to setup the new structure for research and bring other people as I said last week and in other talks to join you. Don't think that they are not K Seekers, you see somebody in the field of knowledge, bring them in and teach them and let them be, then you will see .. they'll defend the book they've read and the title they put on their shoulder, but on the other hand as our Iranian and Dr. Rodrigo both said the same word to me in the past couple of weeks, but in different languages, this is not what you call new T in medicine, (1:16). This completes and puts everything in order of what they have been taught in medicine. It puts everything in a frame that you understand and can help. The beauty of it is, especially in medical terms, doctors sign themselves to help the sick and the man in poor health, but they never had the accessibility and they got fed up with the present world of medicine because it can't solve the problem, but sometimes creates more problems. With this T they have the freedom to test the grounds that they can make the difference for their patients being it an animal, human, or a plant or whatever else. What is interesting is **in a very short time, shorter than mankind can imagine, you'll find men of space in these machines. They come and they ask for healing from the problems of disasters they faced in the spans of the U. The universal system we have brought is a common system across the U, it's not the exclusivity to man.** You might look at it as a strange machine, but actually, as for the first time, as I said, we have brought the gift from the U Community to mankind. As a man, a dog, a fish, and as a man from the space, will use the same machine for every aspect that they need. **I have brought you a gift from the Creator.** (1:18). It depends on your knowledge, understanding, and your openness to accept that the new condition has come and it has started. Then you'll understand there is no difference between the man and the "man of universe", we all we will go through the same system and as they need to nourish, heal and repair, as the man does, will go through the same system. Don't be puzzled that this is a new system, **this is a unifying system for the whole of creation in the U.** But to you it's new. It's not just for making energy, or healing Parkinson's, **it's for man of space to see the machine, he knows what it is and how to operate it. For the mankind we had to put the control panel, but for the man of U, when they sit through their emotion they control the panel themselves** through the operation of the system. Mankind will soon learn, because you missed one point, do you remember, the **strongest always give to the weakest to bring them to the balance.** When the man of U needs the balance and enters the system. Now you understand. Slowly I'll open the beauty, (1:20). of the system I have given you. **Because it takes time to digest and it takes a few to understand for the others to be enlightened.** The universal EU says on it, belongs to the U, and not to the body of the man. Man always looks to his own pocket, but now your pocket has got a little bit bigger. Now it's for you to understand and to utilize it. Do you develop and put research groups in KFSSI that you can understand the use of the system. Get groups who can work and understand the system. You still need to do other fringe works but part of that leads to this. **Don't be shocked if you are in the system and you feel the presence of something.** That something could be someone who has come for repair but in the dimension of physicality can't see them. They are among us and our openness of accepting new friends and new family will be very harsh. This is why we don't want the world leaders and religious leaders to start making this difference, to start milking you again. I will end any religious leader who

takes such a step. (1:22). **We'll not allow the conflict in race, religion, and anything else to go beyond the atmosphere of this planet, enough is enough. You'll meet them with pleasure, you create them with the love of the Creator, the way they have done to you.** In the last conference in Brazil, those who know, we invited one and she was present. I met with her in the morning of the conference and she attended with the pleasure of existence. In the conference I said, we have one of them amongst us. I'll try to introduce the U Community to the mankind in a very slow step. The understanding of it is important, that we are one race, one nation, one universe. As we have chosen different colors and shapes on this planet, we have done the same across the U, but **we all come from the same Father, the same Adam, and the love, (1:24). of His creation through his daughter has lead to creation of the U.** So if ?? to give to nourish has lead to creation of the Unicose. When you are a father and you hold your daughter, you protect her and you nourish her because you know she is there from your creation and she can replicate you to carry your love to your, what we call our offspring's and this is what is the story of the U and **we are one of those offspring's, that from that offspring we have brothers and cousins and sisters so the U Community is our cousins** and brothers and whatever you want to call it, through the diversion and conversion of the fields of the U and the collection and operation of his existence we call the soul of the ping. Maybe we have opened a new door and now we have as the human race to research the new T, to understand to unravel how and the way we'll become part of what we left. We are not a lost tribe, we are just a tribe that was too busy playing and forgot about the tribe, while they were still looking after us. **Try to do your research in understanding the elevation of the soul and what soul level creates, what kind of creation and in which dimension of the U.** (1:26). You were looking to travel through the depth of the space through your soul and see what you convert to in the dimension of physicality. Now that I have explained a little bit more **you have to understand that you can do the same thing by elevating your soul to the level of the soul of the destination that the physicality will take shape on this planet if it accepts the presence.** As I said, this is the universal system. I wonder how many of you will sign up to be in Tehran and how many will sign up to show a new understanding. In Tehran if the time will be short, we'll extend it. **If the Iranian government blocks us we'll change the government. We don't change the government through a revolution, we'll change the soul of the leaders of the government, that they will be enlightened.** What we call, ?? stault soul technology. It's the responsibility of the Iranian leadership to accept, and to setup and take the leadership in world peace in knowledge and T and become the facilitator of the mankind, (1:28). to join the U Community through the understanding of the man taking what we call, the wings of flight into the U. **My wish is my command and the Iranian leaders will follow the same.** We have come to facilitate the peace and for those who understand the meaning of the peace, those who have not crossed their borders for 300 years. They defend it but they don't fight it, they have been they wear the same banner as they did for the Jews and the Armenians a hundreds years ago, now they take it to the point of other nations to enjoy the same freedom and liberty, be it the borders of Syria or Palestine. You have to understand why Iran stood so fast with these, it's because it's been the same **they stood so fast with other kings when we protected the Jews and the Armenians and the rest. Now we defend mankind to become and take the path of peace. This is part of our blood and our culture of understanding that we are all the same family and we need to be treated equal and in the right way.** We invite the Saudi kingship to Tehran for the conference as much as we invite their new friends in Jerusalem. (1:30). Those who sell them arms to create more war. Let them be ashamed

of their own conduct. The invitation has to go to the Iranians as much as to the Palestinians and Americans and the rest to attend this conference. **If they do not allow the conference to take shape in the dimension of physicality, I will bring the STM on the 19th to Tehran. Then there will be no leadership.** Try to understand today's teaching. This is the teaching to open the man the U. It will not suit many those who, what I call, who thought they are at the top and sit right at the top on the KF, and they dictate and they been done wrong. They have not understood the purpose of the KF. Our purpose is very simple, ... **This is what is life. I love to be in the body of a man as a human to enjoy the beauty of a woman, but at the same, I would love to be a woman to enjoy the body of a man to be in existence. It doesn't matter which one of us sits on which way. (1:32). the soul counts and the emotion of the perfection counts and what we create with it.** It is the time for changing and mankind will change. Mankind will change because we have brought something to you that you did not understand, and that is, is the mankind ready for such an evolution, Yes, is the mankind ready to go through such an evolution, the answer is yes. This child has been kept in the womb of the mother for millions of years to mature, to give birth to a new life and it has started. Are there any other questions?

Q: John - Mehran if I may call you this way, thank you for the matter of old man but certainly I don't see you falling into this category for the next 400 years thanks to the Gans waters? (1:34). K- This is Mr. John who traveled from Argentina 10 or 20 hours on a bus to be in the conference in Brazil. He doesn't like to be called an old man like me, we all like to think we are teenagers at this age. We live and work that way. You chose the wrong number 400 years, you need maybe to put another dot in front of it. Q: I didn't want to exaggerate. .. If we go by the pattern of our parents, we were born and nourished by, as we see the extension of all our families related (living) to 90s and 100, at 60 we haven't even reached the half a step, what they say is the new generations will live into 150 to 200 physical life plus, then we are still teenagers and you are right. None of my family, very few lived less than 80 plus. With the health care and replacement of organs that we have we'll all live to 120 to 150, so 60 years is not even there, and we only work for 30 years or so, before they make us retire by law. We are not even there. T ... (1:36). Any other questions? Q: **To use the Gans successfully is all that is required is to drink the plasma water daily** and spend time daily in a Gans energy field, such as the UBESU? K- **If you can master all the energies that the U gives to the body of the man for it to survive, yes.** I was talking to Dr. Rodrigo and he said, you need so many things, so many number of Gans's, he wants everything. I said to myself, Dr. Rodrigo multiply by about a thousand and you are just about right, but that is a good beginning. When you speak about conversion and living, **we absorb not only from the food we eat, as I said, it absorbs 80% of the energy of what we need from our environment and some of these energies are so rare that they only can come in the conditions and interactions of the cosmos.** We are children of the U. We are not children of the earth. Just because we see the light and that is all we are going to receive, no way. Q: Do I understand this correctly, **Gans is a portal from this physical dimension into another dimension where everyone is in harmony** and part of the universal consciousness? (1:38). If you look, I was looking at a video, the Iranian KS are working so hard to be able to make that hole in the middle of the core. They are so busy with it and they just managed to see a few bubbles in it. They were so excited, I received a video yesterday. **The truth is very simple, if you managed to put all the energies of the U in that core as a Gans, then what we see as a bubble, or whatever, you call it, a soul of the core, will match the STM, and does the man need it to be able to transport through it.** Or does it bring the U to the man to be in

that bubble. In so many ways, in the future time man will understand this process. As I said, you make the G field of the moon and you'll travel to the moon, it will attract you. Isn't it correct now that you understand more, I can tell **you that create the strength of the soul of the moon and the love of you for the moon will take you to it. And you decide in which layers of the moon you want to manifest yourself in the dimension of physicality.** (If) you create the heartbeat of the moon in the heart of the man, then the man will become part of the moon. You don't need to flight. (1:40). And that needs a lot of wisdom and understanding if you understood what I said. Any other questions? Q: **Is Gans a spiritual awakening system for all humanity in a few years, something that before would take dedicated monks and nuns lifetimes** of difficult practices to achieve just for themselves? Read the first sentence please. Q: Is Gans a spiritual awakening system for all humanity in a few years? K- If you understood what I said just a few sentences before. Then you you'll understand, I already answered you. ... Q: When praying would aiming the MaGrav reactor be the direction of the target soul improve the elevating of their soul? What. (1:42). R- repeats. As I said to you when you read that before, I said has this become rocket T, you want to target it ... Do you know what they call in English, flashing. R- flashing? In English ... you know they flash they open their jackets and they show (themselves without) clothes. So do you want to flash this way, I target you, you can have my love and then I want you to change your mind. What you call weapons T is over so there are no missiles business. **Isn't it better to understand the totality that you expand your wishes, the dimension of your wishes to encircle, to embrace the other soul, that if it needs it, it will get enlightened. Maybe it's your soul which needs to get enlightened by that soul and you don't see it.** When you think that way, that I want to direct it. **Why don't you expand that you might need direction. That's the point of humbleness, of maturity.** (1:44). Maybe I have answered you if you understand it. Any other question. Q: .. my friend suffers form Volatile Organic Compounds, and AIO, is there a way to protect your home to shield off or minimize those toxins through the use of Gans plasma, what would be the best method? K- Yes it can do but you have to understand why and how and the way it's done. **The environmental pollution, it could be for the evolution of some, maybe not for you, going through the evolution, and you have to accept it. When we get allergies like this it means the body is not ready to go through the evolution of expanding, understanding, and accepting new dimensions. Maybe that is needed for the next cycle of evolution of the STM.** This is why we have the damages because we can't accept the new conditions. Many of us live in the same environment and we accept it because then **it becomes part of the evolution of us to fit the new energy fields of this planet which creates a new condition for us, for our survival in the future** on this planet. (1:46). Allergies, if you want to call them, is non-acceptance, or not wanting to accept the changes through the dimension of the emotion. **When it happens in the dimension of physicality, we call it cancer, which is some energy that we cannot process.** Any other question. Is the sound okay today, are you happy with it Rick Crammon? R- excellent, very good. We have got a new system thanks to Stanley. .. Q: How can we change the habit of owning, accumulation and hoarding things. Man is so preoccupied with that, that he has little time to know himself? K- Has this not been the mystery for the mankind since the beginning. **Even when we were moles under the ground for dinosaurs, we used to accumulate and store. This is not understanding the process of creation and the fear of demise.** (1:48). As we develop these new technologies and we see that we can have what we want, this dimension will disappear from humanity. This is part of the cause of the problems of wars. By giving comfort to ??something everlasting ability will go. **Many**

nations enter into wars just to collect food to guarantee the survival and this will go. Many animals eat on top of, or consume so much energy out of the fear. If we understand some of the reptiles who eat one food a year or whatever or every few months and only eat if it is there, and they can adapt until they get the next food, then you understand that mankind has a long way to mature to get to their level. What dictates, they live in a very small environment but **their radar of the soul sees the totality and what is getting ready for them when they need it.** We look at the point and the position of the hunt, we don't look at the point and condition of the creator of the soul of the hunt, it is at the point of inception. To change that chain is going to be very difficult for humanity and the creatures on this planet. **The Chinese are planning to launch hundreds and thousands of satellites in the next 5 years. Would we use these satellites to feed, to use them to create the conditions of the availability of the energies, (1:50). that the mankind needs that not even the fish will kill. The biggest criminals of the eating of the lives, are the plants, because if you look at it, they continuously consume protein directly once it's created.** Would we live in this dimension of the physicality once we change and understand the change of the whole structure, which we will do. We don't consume physical food. Is there any need for the whole of the digestive system. Do we need the bladder and kidneys to clean it, and the lung to convert it. The reality comes, how would our body evolve to that position so rapidly. Would we feed the STM that in the process, it will confirm the existence of the need of the physicality, and that's it, you don't consume anymore. You get internally fed for what you want to show in the physical dimension. Q: Caroline Keshe, (1:52). .. she is only 10 meters from me, not on the other side of the planet. ...

(SOUL Teaching: Adam Creator, Eve daughter)

Q: We were talking yesterday that maybe it's time for me to explain to humanity Adam and Eve, but **the real reason why it's Adam and why it's Eve,** I don't know if the time is right for you to explain it now? **I just explained it a few minutes ago. No you just explained part of it. Mankind is not ready yet. (1:54). What I tell you in private mankind is not ready.** Mankind is not ready to understand the truth about the Adam. ... **You see the Adam is the Creator, the Adam is not the man.** Through Adam what was brought to mankind, ... the religious leaders converted it to suit them in the Bible and before, in the Old Testament and then it was added and changed to suit the understanding and benefit of the Church, Synagogue, Mosques, and everybody else. The true essence of the Adam was explained to humanity a long time ago. **The Adam is the God, the Creator, is the creator of all and the Eve is that, who he could show his love and adoration for, what he had to give, but he could replicate him, in the essence, what we call, the daughter of Adam, the Eve, what we call, is not the Eve as you call it, as his wife, but in truth was his daughter.** Because not only **could show the love of the father, the love of the Creator, in what is created, but in it, he could see that he could create another life. (1:56). In essence when you are just and correct in every sense, you do not need a male and a female to create.** In essence of justice, as it is in Chinese Yin and Yang, **the balance of the field forces leads to creation of new dimensions,** which is what we call, the daughter. What can create from me, is (its) own existence, another. That's what a woman does. Where a man does not. In essence, as I said for many years, **on the evolution of presence of the soul of my daughter, the cycle of the creation will complete, for me, for the essence of the Creator. Until that time the essence of the creation is not complete.** In so many ways, mankind has misunderstood what was explained, but this was the only way he

could (understand), and this is why when it was originally explained, thousands of years ago, to the men of what we call, who were supposed to be the soul leaders, they twisted it in a way that mankind could understand and put it in the shape of physicality of Adam and Eve and the Apple. **The apple when the female was created for life, for showing the love, not to be the daughter but to be the partner to share with, was what we call, the creation of, what we call, interaction of physical life that man got bonded and bound to the physical life.** (1:58). This is why many times I said, we come to the dimension of physicality to understand why Adam ever created the dimension of physicality. Was it the confirmation of his own physical existence or the pleasures of the beauties of what he can create. **The completion of the life comes when the daughter of Adam is created. Until that time, it is the time to be.** The life of Adam or the Creator or what you call, God, is the essence of creation of ?? the origin. You call it the virgin birth. Does the virgin birth, comes the interaction of the soul of the man or does it come from the creation of the soul of the new life embedded in the body of the man. **Many of those who are the travelers of this planet,** as we have opened these EU, have been here. **Physically it is impossible to interact to have children. The interaction is by falling in love of the soul of the two created, and they created what we call, the child of the soul.** (2:00). And then if the female is of the earth dimension she accepts to nourish that soul, to give it a dimension of physicality. And we see many of those on this planet. I met one very recently, where the feature of the existence of the father we see in the shape of the daughter, and all the daughters carry the same along the line. These are the children of the soul. In Christianity it has been changed into virgin birth. As I wrote recently to a K Seeker, **I have manifested in the soul of Moses, Mohammad, Jesus, and many others, but in essence I am the same soul.** This is what we can tell, what will come, because we planned and we are the originator, we are the origin of. The children of the soul in the dimension of the physicality, we shall see very soon again. Show to the mankind, can match. This is the new dimension. This is what we have to understand that unravels the mysteries of the past, (2:02). which have been shrouded by a lot of mysteries. Adam is the Creator, not Adam as a man. In the passage of **man through the U** as man has always been so physical, man of different, what we call, different strength of the physicality, **will fall in love with the passengers of the U, the same with the women. As I said, physical interaction to create 99% of the time is impossible, as a frog can't mate with a cat, and a dog can't mate with a fish. As simple as that, but a frog can fall in love with a cat. In the dimension of physicality it's impossible, but in the dimension of the strength of the STM or as we call the creation, that is a reality. Mankind, now that he has opened up to the space will see it, as we fall in love like a ton of bricks, with a woman on this planet, we'll fall in love like a ton of bricks in the space with the soul of the beauty of the soul of the creatures of the U. When we give, in giving and receiving, (2:04). it's like an egg and a sperm, it creates a new dynamic situation condition that it leads to a life of its own, and then who of the 2 are responsible, or accept the responsibility, or have the near strength to nourish that new soul.** The future of the mankind in the space doesn't come out of intercourse with the physical dimension, it comes through the dimension of the soul which is the creator of the physicality. Mankind will understand this very soon. **This is one of the reasons we came this time and presence, to complete another cycle of the creation. It's not to be the reflection, it's to understand the totality. If you look at it, in the agriculture we take the skin of one plant and we put it on another plant and it changes the fruit and the flavor and the color. Do we carry the essence of it, or do we carry the emotion of it, there's the skin of the plant, as we know the skin is the essence of the emotion.** Now maybe

those of our farmers understand the truth about it. We will understand new dimensions in the new opening of the space. **If I could explain, (2:06). to mankind how much the universal EU would change the course of humanity, you will all commit suicide to be in that dimension, in the physical dimension not to be present.** As in the Iranian teaching, somebody asked the question, or they are saying in Iran that, now he is changing man to souls and god knows what is going to happen with us all. If man's physicality changes the soul in the dimension of the universal system it means that physicality has matured to join, what you call the world of dimension of the U. **Isn't this why we are all born? If the system creates that condition, it must have the energy of the Creator that we can elevate the STM to be free from the physical dimension and entanglement in it.** Does it mean you are going to miss it? I don't think so. **Maybe the connection with the world of what we call the field strength of the soul will be much stronger than when it was a father in the physical dimension.** Now we understand as I said many times, when we come, we bring the soul which is a lover with us, (2:08). because we have matched in the dimension of the U. **Allowing it to nourish a daughter, is a natural process of the souls of the U, which means they follow the process of the Creator,** but we give it the dimension of physicality, then you call it the Adam and Eve. **From singularity and in balance with each other, we create the birth, not in the dimension of man's thought.** I told you slowly we'll mature you to the point of understanding. Not only you don't need to eat what you see outside because it's beautiful, you don't jump on it because you think it is your right. Soon you'll understand. **We on this planet possess physicality, but not the soul and the emotion. This is one of the biggest mistakes in man's mind and if once you become aware of it, you have solved half of your problems.** As I said once to an Arab, Jewish and Moslem guy, you know you men always think that the girl has to be a virgin that you are the first man to conquer, (2:10). **you conquer the physicality but you don't know where the emotion and the soul sits, is it a virgin. Then mankind understands that man needs to live through the STM and not the dimension of physicality,** because in the dimension of soul you see the truth. A lot to learn and a lot to get rid of in taboos and misunderstanding.

Any other questions.

I think 2 hours and 15 minutes. I think we hear Alzar. ... Last time we had a meeting Alzar did everything to get in but she couldn't get in. We said she lost her wings and her voice, now today she has got her voice back ... Q: What happened after the Adam created the Eve, what happened between them? K- Eve as a daughter to the truth or Eve as a completion of man's understanding of another? Q: **I want to know the real story? K- You are not mature enough yet.** Q: What do you mean I am not mature enough, you said, open .. (2:12). Mankind is not ready for it yet. In the future I'll open the book. Q: So we need to have a private meeting then. K- No, no, no **mankind is not ready yet.** In due course in time we'll open up more. Q: When you talk about man should see the world through the soul because it sees the truth, **but how can we train them, the man to see the truth? K- It will happen in time, the whole of the soul of humanity is getting ready for it, as we see it.** The maturity of accepting is a big part of it, maturity of understanding of it is the reality of it. As I said to you, the guy I met a few days ago claiming to be the first to fly the F17, and his nation is superior to understanding and what he worked for and believes and talked about is now worth nothing. It was a huge shake up, in emotional understanding. In that process he needs to go into his soul, I didn't get much chance to speak with him he had to leave. We need to think, (2:14) what we gained from this process of life. What we need to give from this process of life

or interaction of the physicality with the STM. Then do we find our true value and position in the world of creation. We'll try to get quite a few of these systems into one place or maybe to Tehran conference. Ask a number of **world leaders to get there and go inside each machine. It will be interesting if we have any world leaders when they come out. Would they come out to the elevation of their soul to understand or would they be shocked by understanding the truth of seeing the light**, as we say, which is the light of their own souls in interaction with the souls of their physicality. **Many people at the point of death talk about a flashing light and entering a peaceful condition. Isn't that the point when the dimension of the strength of the STM interacts with the STP**, that it ?? super-passes that the physical dimension of physicality in the soul level, gets fed and satisfied and finds peace. **Isn't this the truth about the flashing light when the 2 souls meet, when the light and the field appear (2:16). from interaction of the fields of the sun and the earth to make the daylight**, isn't that the same point, when the strength of the STM crosses the soul of the strength of the STP in the man. It creates that light, when it, encompasses it. Are you ready for the truth. Then this is the truth. Then how many of you are ready to do that? **As you have the dimension of control in this strength of the soul, would you be able to retract it, to manifest yourself in the dimension of physicality. Isn't this what we do in a very softer way when we choose the path of sleep.** Isn't that the time when we allow this to happen and we do it out of addiction, we need it, and we call it a sleep to recharge. **But our body continuously recharges. Therefore, isn't it an addiction, of the addiction that we have to meet the STP and the STM and we call it a sleep time.** To meet and to shake hands. or allow the STM to, in a soft way, under the way of the physical dimension, **to super impose the physicality and allow all the cells to take what they need from the dimension of physicality (1:18). or the STM. I told you that, if I tell you the truth, you'll all run, because the school of thoughts you have been brought up in, is not the school of thoughts of the reality.** Man has lived in a fantasy world for too long. Q: Do we all exit the same way, I hear that some souls, because of the desires they have, stay earthbound, it means they don't go to the Creator, they stay here. What is that? **Nobody goes to the Creator as such, you become part of the structure of the position of the Creator, but if you have attachment, in a way, to the physical dimension, you can hold on for some time, until the energy balance is closed** balanced. Man has to understand the process of the separation of the physicality, and the process of the creation of the physicality in the dimension of the existence of the soul, which I explained many times. If you, you are a dentist, you work on the medical side, you have seen how people want to give everything in the dimension of physicality, collective, and even their own part of physical body, cut it out, get rid of it, amputate me, I want to live longer, because without amputation I have to leave. I am paying you to let me suffer more on this planet. (2:20). That's all it is. **Why do we go into the hospitals and get amputations and get the cancer treatment and the rest of it, to suffer more, we love to suffer**, man is addicted to suffering. He sees glory in it. The idiotic adventure in physicality. Making life comfortable, yes, but trying to stop the conversion because you want to suffer more. It's something that we'll never understand. If it was me I would say, take the whole lot as fast as you can, let it go. I am gone. I am going to my destination of where my soul has been created to be. Q: I have been thinking the same thing for a long time, for the past 20 years like. I always say, if I get a cancer or anything, I don't need to treat it, it's a blessing, I just go. But people think you are out of your mind, that you don't live life enough. K- It depends what mission you have and what your soul decides. I always remember, I have said it many times, you can bend and break the laws of the U, you can do whatever you like,

but if it isn't the destined time, because the others souls have already made the position for it, you have to stay until the time is right. (2:22). Because they need to be in their position, you cannot steal and give to them. It's like the guy says, Mr. Keshe if you can make gold why don't you make it ... if I make gold, then gold will have no value, then I am cutting my own throat. .. Then will come a lot of people to be busy with it that they can change to understand it has no value. **It's a strange world being in the dimension of physicality, and it takes a long time to understand it,** long, long time. Q: I asked this question 3 years ago but you didn't answer it. You answered it 3 teachings ago. K- that means you matured in 3 years, to have understood it. Q: So the **Creator came from the fields in Himself, He created Himself. But what is behind those fields, who created those fields?** As I said, if you remember, as a good advertising man, **read Book #8.** Q: When is it coming in? K- Oh, soon when I get a chance after 2021 and I am retired. Q: We have to wait another year? I have to get the time to retired, when you are retired you do things. When I can nourish a new dimensions in souls, and new souls, (2:24). and at the same time sit down and be able to contemplate how to get the mankind to move in different ways. **The Tehran conference is the beginning of the change of process as we have to reach billions of people** and change a lot of things at the same time. It's not going to be the flip of a finger. **We need the religious leaders to trigger it, that we trigger the STM.** Why do you think we are coming to Tehran with the presence of his eminence Ayatollah K and we invite the Pope. **They have to really push their station and the position to the dimension of the Creator.** Q: Why? **Because then no one can take any souls to slavery. Then the STM collectively will mature once he understands the truth.** This is what gradually you'll understand. The soul of the present Pope has understood, he said, he'll be the last Pope. The mouth speaks the word of the soul. **As we change the dimension of dependence on physicality by allowing that he can feed you and everything else. Now we take the dependence of man on the slavery of his soul too. And that only comes by the end of accepting what we call, religious leaders. They have to relinquish because they matured to understand the time of end and they open the path.** (2:26). You see when you they wanted to start the revolution in Russia and break up the communism, they brought a Polish priest, as he was inside and understood. When we want to do the same thing, we'll do the same because then we put him in that position. **If you want to change the structure of the abuse of the STM you have to let those who did the abusing to bring it down, to end it themselves.** Now that we have reached the point of maturity of physicality. Now we'll bring those who enslaved the STM to end it themselves. Because if we do it from outside then we are enemies, but when it is done from inside it is accepted by totality. In my time, the Pope will put his crown down. In my time the religious leaders, be it whatever, will put their robes and ribbons to end the thrones on the table. In my time the kings and rulers will do the same. This is not a promise, this is what is actually taking shape now. Because we'll stop the abuse of physicality in controlling whatever, as we have the systems and at the same time, they'll stop the abuse of the STM. (2:28). **In my time there will be no Mullahs, Ayatollahs, no Popes, no Rabbis, none because we'll all become the same.** This is the ultimate point, when the man chooses the path of correctness, what we call the Day of Judgment of the soul, ?? and he is happy. **I allow the abuse to happen to me and when I don't allow it my soul is at peace, then it progresses the right way. I decided not to allow my soul to be abused or my physicality to be lied to and cheated and the rest, and when I took that step everything has changed. I have been on both sides.** I know the game and how it should be. **When I received the message to become the Messenger at age 19, I said,**

no way, no way, I fought with myself for months. I said, there is only one way I can take it, until I am ready, and I went that way, and it worked. It happened again when I was 29 or 30 it happened again, and I said, I know the way, I know how to do it, but I am too young, I am too young, I don't have enough experience of the physical world to be able to accept such a responsibility. I play the game the same. The third time when I accepted the position and to be what I carry, I knew that I have gathered enough that I can be correct in everything, but when I allowed the abuse to happen, everything turned upside down. And then it stopped when I brought the justice back in to it. (2:30). Justice to myself, justice to be correct and to understand, because until you don't taste it, you don't understand it. Until you haven't lived it, you don't understand how it is done, the process. **This is part of living, becoming a physical life to understand how you can stop the processes in it. It's like an experiment, that you live to know what is the correct way, so you get the right formula to work out every time the same. But physical life is a very dangerous path, because it has too many factors involved all the time. By creation of the soul we commit ourselves to progress, and that soul has to be correct, and the soul of the Eve doesn't come from the fear of loneliness, it comes of the love of creation, and this is where a lot of mankind has made a mistake.** We are not here to play and run. **We are here to understand that the same mistakes can't be made in the future in the process of the creation. In a way we took the punishment because we couldn't understand what we created. Now we didn't take a punishment. Now we understand it, (2:32). that it will not happen ever again.** In English we say, 'the buck stops here.' At the hand of the Creator and the boss. So we came to clean up the buck, to understand the reason so it doesn't repeat again. And this is our responsibility to be there. **Q: What was the mistake? K- Killing, destruction. What a huge mistake. Q: Did that killing start with Adam and Eve? K- No, it was the creator of the planet, the conditions. Adam and Eve you have not understood,** in every condition, the love of the Creator exists within it, be it the moon, planet, stars or galaxies. It's the dimension of the interaction of the fields and conditions which (are) created, that have to be correct. On this planet it went wrong too fast. (2:34). Any other question? Or should we call it a day after the Christmas, **you had your gift.** Please register for the Tehran conference as soon as you can, we'll greet you with the love of the Iranian nation. Invite your leaders, religious leaders, the priests and rabbis and mullahs and every sects of the path of ?? and every man on this planet that it is the time for change. **And if it comes to it, I will enforce the change.** The Iranian KF is ready for having and embracing you, and the humanity is ready to embrace peace and love and the condition of science and T and not fear of talk and conferences. We'll bring the humanity to Iran to make Iran part of the humanity to be all in one. That is the beginning of it, the end of borders, racism, and the religions and the beginning of what we call a beautiful cycle, because we have the knowledge, T, the power of delivering it and audacity to challenge the world leaders to peace, because we have the tools to deliver it, and we have the tenacity to be so soft to be able to do it. (2:36). **Q: Can you be more specific about that letter, please so that the whole community that is working in that direction can understand of the purpose of the content in the letter? Write it with the letter of soul not in the dimension of physicality and if you decide to write it with the physicality, let your soul write it, not to be dictated by us. Then you understand. Q: Do we make one letter for everybody or does everybody make a different letter? That all depends of the U Council, you are supposed to be. Both of you are members of the UC and you have to decide as members of UC. When you come to it, it will come to you. Q: .. I have a couple of people who really big changes in the world, and I can**

access them ??? (I think she is talking about people she knows who are not from this planet) K- Why don't you reach them through their soul, the letter will not be there, they'll come and tell you. Q: I already did but I want to send something as a physical part of it, through the connection I have with them, so they can.. K- You see, the beauty of life is for the opportunity we accept for what reasons, and where we are taking for it. Do all the letters have to be the same, as our cultures are different. (2:38). Why does it have to be a unified letter if the essence of unity sits in the soul of the UC. **We have chosen a seat for the UC in the past few days. We hope we succeed.** We hope in time, what we think shall be. The KF management has seen the sight and if we succeed in a very short time the seat of the UC will be set. We have to understand that it doesn't come by the land or the sea, it comes through the STM. The sooner we understand that for the UC, you will understand that it doesn't need to be written on the word and the paper. There are no paper, seats, or pens in the U. As Rick said, would you like to torpedo it in the direction of who you want. Q: I had a dream that there was a time that you weren't here, you were gone and I was traveling and going to airport but the planes weren't like this, and Youtube was playing in the airport in every station I went, .. and the planes weren't like our planes they were like the UBESU, and I went to it and laid down and was appearing someplace else. I was going from place to place and your Youtube was playing everywhere and I was thinking, (2:40). I wasn't dreaming, I was really in it. I was saying to myself, in everyplace instead of where the usual TV is, Mr. Keshe is playing there, how did that happen. Suddenly I woke up. K- I don't know. (silence) There is a very nice question here by Dan. Q: Thank you for clarifying 2020, why just now it's the right time for peace and knowledge. **Where did Moses, Christ, and Mohammad go wrong in achieving this goal? K- They took the dimension of physicality. They took the position of physicality.** Moses as he understood he could put it more. Mohammad meant, once he understood his power can eliminate other things, but (also) brought him other things. Christ went a different way of doing it. **In our time we do everything in moderation and correct way for our souls to be just, not the dimension of physicality.** Mankind will soon understand. **The message was correct and the messenger was correct, (2:42). but then the earthly possessions took over. Once they accepted the imbalance of their souls, the rest took over. The KF was going the same way, but we stopped it** very recently in the past couple of weeks, because we understood the problem, and the physical changes necessary to be changed in that direction. I am not attached and don't possess anything, and what ever we possess goes back to the KF and to the humanity. It doesn't matter if it is there or not there, and what happened was not there, was for us to learn. And for the KF, in a way, for those people who were supposed to be working for the KF understood that they were here for a different ethos, even though they sacrificed a lot. In examination and in testing ones soul, one matures, not the physicality. **There are a few turning points in small part of the world, which then effects totality, the whole mankind in the long term, and one of them was the misconduct of Moses and the killing. And then with Mohammad with his killing.** He went to destroy the statues, but his followers ended up destroying life and that's where he went wrong. **We don't behead because one doesn't agree. You allow the change, not to kill, to change. (2:44). And this is where the message in all cases went wrong.** Typically, Mohammad was fully aware of this, that his limitation was the statues, not the pen. This is where it went wrong with Moses too. **I don't hold any physicality, I have no attachments, and I kept to that way. I hold all the assets of the KF as a trustee, for the KF, and on my passing the U Council and the Earth Council become the trustees but not the owners.** In the next few, coming time we'll change the mandate of the KF, from the United Nations in

US to house of Justice in Israel, to the U Council and the Earth Council on a 50/50 basis. In the control and running of it in the hands of the KF. This time there are no leaders to abuse any ones soul, and **we saw the abuse of physicality by the behavior of Rui in Portugal. It was unbelievable what we saw.** (2:46). That changes. As a member of the U Council you are there to shine, not to dictate your agenda, or your national agendas, or your cultural agendas. Step down as a member of the U Council if you are not participating in the new structure. **The U Council needs to mature, you need many members, to complete, to be able to reach, to change the soul of the humanity on this planet.** As someone asked me, **would the fish have a member on the U Council? I said, do they have their soul and do they speak a language.** Thank you very much for today and a Merry Christmas for those of you who believe in the beautiful path of Christ. Move and make this planet One Nation, One Race and then we become the race of the U. That's the part of maturity that we all will be looking for, the maturity to understand, (2:48). to comprehend. Next week we'll start at 12 O'clock central European time. ... We'll see you next year for the New Year. **It's a year of luckiness if you are Chinese, when you have a double of something, 2020 is very lucky because it makes 400 and it has a 4 and double of the zero in it, which is another lucky thing.** Let's see how we build it and where we go. The 4 in Chinese is a sign of love as well, for those of you who might understand something with it, and lucky because it's a time we can give. And **it is balancing all corners.** R- North, South East and West, it covers the whole planet that way. Don't forget and please try to organize yourself for the KFSSI research that what you want to develop, and how fast we can develop if we want to show it so we can show it in the Tehran conference. (2:50). We'll setup the "telegram" for Iran or Farsi conference point that all those who want to participate can come in, just give us a few hours and we'll set it up. We'll panel, by all the Iranians will be there. Try to see how and where and the way you can find people to work and the Iranians can participate, even for the research in the K Seekers what you want to research with the Iranians. One thing I have to remind you, Iranian participants, those who are in high level of research are usually not allowed by government to participate on this level, even though many of them are there, followers of the KF work in research and development. Thank you very much and see you next week.

(2:52).
