

## 311th Knowledge Seekers Workshop January 16, 2020

(\*\* Purpose of the soul of the man is to create a perfect universe, World leaders and religious leaders have to step down;

### English Transcription:

(:06). We are traveling around the world in different cities and countries for the expansion of knowledge and T. Last week we were with you from the city of Beijing, this week we are in the beautiful country of Malta as we have a conference tomorrow and we move on next week to one of the most beautiful cities in the Middle east, Istanbul. ... as we expand the knowledge with governments and scientists and KS of the KF. As we were talking in the last weeks about the process of peace and as we have seen peace has become, more or less solidly based, as a structure, as we promised there shall be no more war and the world nations are leading to that position. We heard what happened in the Middle east in the last 2 weeks, unfortunately a lot of people.. but what has been brought home is that nations will start talking and this time it is the Iranian and American leadership, some time in the next few months or weeks will meet to start the first stages in the negotiation on peace. This is what we promised. .. the meeting between the world leaders take place in Tehran during the Tehran peace conference and T. (:08). As is the habit, the defeated meets on the ground of the victorious and the same shall be this time, but this time science and T wins over what we call the animal behavior of man. The meeting shall be in Tehran. As we succeed to enter these calls and event there is a lot of things to be prepared. We said the prerequisite for opening up the Universal Community (UC) to man was, man starting and reaching to that point of peace. When the peace talks complete and are done, when what we call the present time of Iran and the US there is going to be a massive problem especially in the US and western Europe and in an immense way in Iran and in nations like China. As we enter peace there is no need for the development of weapons T, and we'll reach rapidly into the phase of how we'll transfer these huge structures, companies and employees, these nations have brought together to create war, to be used in the peace time. This is going to be one of the biggest hurdles for humanity. Millions and millions of people are involved in making tools of war, and now that we reached this point, and we have reached this point, we come to the step that how are we going to keep these people employed and how these huge finances for war are going to be employed. (:10). You will see after the completion of the peace talks between Iran and the US, the peace movement will take a new rapid phase. We see on the back of this movement with the Russian leadership Putin, a structure for peace negotiations will take shape by autumn. What we'll see, what we promised once mankind reaches that point of peace, is that we will respond accordingly. As we said, there shall be no war. As there shall be no war, we'll respond accordingly. That response will be, as I informed the head of KF in the past 24 hours in a very direct way. If the pattern of work between the KF KS and the world leaders goes the same way, **then in January of 2021 we'll make the arrangements and facilitate the interface internationally with the UC on the open spans across this planet.** This is what was the wish, and this is how it shall be responded to. If the world leaders endeavor to carry on with what we wish and will be carried out through the Tehran conference ?? and we'll see the next step in the progressive halt in development in the weapons T, now that it is not needed, and the world leaders enter into the peace negotiations that there will be no war by some September or October of this year, which is already in the cards. What we promised,

that the UC will be visible to humanity. We'll make that available. (:12). It was promised and it will be delivered. This is one of the main reasons I said **by March 21, 2021, I will step down, as I have fulfilled my work** and we have achieved what we promised. Then the future of mankind will be in the hands of those we chose as world leaders to be the interface in conjunction, most probably with the U Council and the Earth Council. This is what was promised and as I said, we have seen the end of war, now as we have reached that point and now the resources of man has no more room to make weapons, man rapidly in less than 6 months will reach the ultimate goal in using the T that has been released and collectively world peace will take shape and in that sequence, as I said, January 2021 is the date and time appointed for **opening up the U Community to mankind, then you are in the hands of the safest hands mankind could ever be and man will start a new cycle in the depth of the U**. There are some **prerequisites** to this completion, as I promised you, it will be **the end of kingship** and as I told you a few weeks ago, the kings and what we call, the kings of this planet who recall kings, we cannot have anyone above another. So there should be no king. To this effect we have seen the first step, a few weeks ago the Belgium king took the first steps to see how he can take refuge in Canada. (:14). As I told you it will start in different ways and we saw the first British Monarchy taking that step in the last few days. The process will complete. At this moment the only safe place that in the future mankind will decide what to do with the monarchs for what they have done wrong or what is there to be done, all will be gathered and collected in the state of Canada. They have the luxuries of the western world, until that time, then this planet will have no king, no emperor, no Archbishops, and no Popes, and no leaders in the path of the religion and the faith they wanted to control. It's not only the kingship of the man, but **also the kingship of the STM that has to get collectively closed, bringing all the religions to one. We see the end of Vatican**, the end of the leadership in the Islamic world as the way we have seen as Imams, Ayatollahs, Rabbis, and every other shape or form of priests. We can't enter and see the reality and still carry the myth of the past. Then we'll see the beginning of the end of many what we call, false beliefs and so many things in reality adding to the joining of the man to the UC. **One of the first things which has been agreed that the man will be taught, is to understand the station and the power of his soul, and in that process of switching from believing in the statues, and all sorts of things to understand the station of his soul. This is the responsibility of the team which are already working on these levels across the U**, (:16). and to do that with man is to teach the STM and the physicality will follow. We will endeavor and will lead into the full structure of unification of man through peace and then you'll understand why mankind has come through the steps the past few years and as we promised and we delivered so many new T. Everybody said to us from the beginning, 'we'll believe it when we see it.' We taught for years and now this year until January, we'll deliver so much T that you can not only believe, but you can eat and live it and you'll understand how the T has come to change and then you'll understand in what we say we'll deliver. Now it's the time of the harvesting the truth about the creation of man. We'll have an exciting time to come, another 14 months, it's not that I'll step down as the head of KF, I'll hand you over to the UC as I promised and then mankind will take a new course. It's the responsibility of all KS and as we bring the completion of the whole process we'll see the transition time. The U Council and EC and the Core Members will make the basic core platform for the transition. (:18). It's the time that the world leaders will take their own steps according to what needs to be let (done). As we see that there is no need for kings, and no need for Vatican, then mankind has to understand and decide what they are going to do with all these relics, be it the Churches, Mosques, be it

whatever assets which over the years have been collected by the hard work of the totality of human beings to build these establishments. **Are we going to as a race keep these to remind us or do we keep these because man in a hidden way still believes in these somewhere in the background through his own weakness.** As we see in the structure of the Africa belief, they still believe in their own local beliefs and their statues but they still are Christians and Moslems. **This cannot be because then we go back on the false path of the past.** So in the first steps of those who decide to lead, or are chosen, or choose to lead have to decide if we are going to do what Mohammad did, destroy all the houses of temples and statues or we use these in an appropriate way that it becomes part of the life of the man. In very much the way we saw how the British did by selling the churches to become schools, homes, and offices, and in so many ways they have lost their value of understanding. In this structure there is a fundamental work to be done in the coming weeks and months. The, what we call, the Enhancement Units (EU), which we'll bring, (:20). for the world leaders to understand, this will be completed this Saturday. We'll have the first two, hopefully in shape, the first week of February and all auxiliary equipments to be fitted and completed some time before the end of February. We'll have pictures and these units will be released internationally. Then they'll go through the phases of licensing and certifications by some time in March they'll be released to the positions of the nations as they have ordered. In this platform we'll show the first uses of it in the city of Tehran in the conference and around the same time it will be shown in China and Arizona. So we'll **try by 19th of April to have units in key positions around the world, that simultaneously, the same day will be operating and showing. Depending on what you expect from the wishes you do (make) when you enter the system, your wishes will be fulfilled. If you wish to join the soul of the Creator, you shall be.** It's not that the machine (makes) you disappear, it means you choose the time of elevation. If you have other wishes it will be the same. So you understand what you wish is what you shall receive. If you wish to get rid of your cancer or your Parkinson's or whatever, these machines, (:22). are the enhancers of the STM, and the physicality is subordinate to the totality. I have laid down the work for mankind and my mission of 19 years has reached its completion. I'll try to guide as much as possible to reach the final point, this year is the time of, 'seeing is believing.' We'll show you so much that not only you'll believe, you'll give to be part of it. Then we'll understand how we actually brought everything to be in that position. **We'll see 2 ways of handling the KF, massive sanctions, closing down of the different functions of the KF, or elevation of the knowledge to the level that it comes universally as part of the totality that we all move forward. Those who try to bring closing, sanctions, and all sorts of games to stop (us), shall see the demise of themselves,** be it the world leaders, governments, be it what ever. The beauty and the freedom of the totality of the human race and the creatures of this planet are more than the wish of a few, what we call, imbeciles. This will carry on the same. We'll carry on the teaching, but as I said, the last war was Syria and we shall not see another war. **The dream of the man to reach his Creator will be completed,** (:24). by the end of this year as the world leaders gradually take steps in the steps of what we call, abolition of kingship. Equality, science, T and knowledge and one of the first things the world leaders will agree on is that no race of the man shall never make arms. This will be the prerequisite of the opening of the January opening of the UC to humanity. It will be very interesting to see how you and your nations and your leaders will respond and behave towards this ?? **As we have implanted everything that we want and we achieve what we want to achieve, it's not very hard to get to what we want. We brought the condition of the world peace and the sharing of the knowledge freely** and doors are opening in every

aspect of our wish to the totality of the wish of the humanity. **My teachings are numbered and by 2021 if mankind really wishes** to achieve the totality of peace and wish to conquer the U, not to conquer, but to enter the UC and understand the work of the U, **new teachers will be appointed who are masters in their work. (:26). they are not prophets or gurus, they are those who will teach man the new knowledge of the U and will take you step by step in that direction.** The prerequisite for the January delivery is the end of the kingship of the man, from his soul and his physicality. In this process we shall see many hurdles but also many solutions. It's the job KF KS and the U Council to make sure the path is done through the STM and not the physicality and the offices of the buildings which the man has made. You elevate the soul of the leaders, not the true leaders will appear from this structure. One of first groups of these leaders who lead mankind to the point of prosperity and universal peace, we see in his Excellency President Xi of China. And to extend the knowledge of the man to the level of his maturity we see in his Eminence Ayatollah K of Iran. We learned through the Americans the humbleness, and not to be arrogant, and in that process **we bless those in the US who understand and bring peace through the next administration. (:28) We shall see a woman at the head of the American institutes.** We foresee the totality of disarmament and completion of cleaning up of what damages mankind has done to this planet, in a very large scale. In that process we'll see the stepping down and closing of Vatican. It will be done voluntarily and the Pope. In that process the stones of Vatican shall return to its original place. In so many ways, it will be only a relic, that there was such a place and coliseum will become the place where we celebrate life. In the coming weeks, a series of new T on the basis of what you understand will be released, which means it makes for KF supporters to move very rapidly. As I explained to the KS of KFSSI the starting of the teaching of this year on Tuesday, you have to start research and development both in the dimension of the plasma and the physicality on both tracks, that you'll understand in the time to come when you use these systems. (:30). The KF Chinese team is heavily involved in the structures of the new T for cleanup, and the Iranian team is up to another part of it, and we'll see what comes from what is to be set up in the western Europe. We'll look into the African nations to bring new ways and thought to humanity through the old path and not through the western colonization of ignoring everything possible. **The financial affairs in the world banking will change and already in a couple of teachings before I explained how. The finances will become financing of the STM and not on the dimension of physicality.** In understanding this you'll understand that **I'll start teaching in a very compressed way, in small segments in the next time through next March. Somewhere around the 21st of March we say good-bye! We separate and depart from both.** In the life of the KF all of these teachings will stay accessible to the whole of humanity. As of that day I will take position as a man and the totality of the ?? of the KF structure as we know it, as the structure of the KFSSI, as was said will take shape of its own and those who lead the KF will take their own direction and position. (:32). This time we'll not allow what happened 2 years ago to take place as more people with capability to understand the final position of the KF will take over and ?? as we said.

Are there any questions or should we go into the teachings? (silence)

K- I don't think they need warming up, **I think they have had their shock.** This is what they wished and shall be given them. The only biggest problem is, (:34). that **most of the KS around the world will have a big dilemma, 'what am I going to do with what I believed up to now?'** Be it a Christian, Moslem, Jew, or whatever. What am I

going to believe in to be able to stand what is to come, **except understanding that I believe in my soul.** This period of time, this transition time is a very difficult time. **What we have seen from experience from other conditions in the past in the life of the U, many people, many creatures decide to transfer into the dimension of the soul,** which means the understanding in the dimension of physicality is very hard and through our experience in the U, many what we call, **in this point of transition decide to take refuge in the dimension of the soul to become the light. As it's a reprocessing a bunch of beliefs and a path of life will create a lot of uncertainty.** How you come to the position not to eat another animal. How you come to understand that you are, that what you believed was for you to decide whatever name or shape you gave to it. How I come to trust in me as a soul in the span of the U and the knowledge which I need. (:36). In the coming time when mankind reaches to the point of using and understanding and comprehending the strength of his soul. **When you run into to problems or you look for the solution, you don't read the books as there are no books in the U, but you put the feeling of the emotion of understanding that problem into what we call, pastures of the UC and you shall receive the answer.** This is how it works in the present time in the UC. If we are what we call, understood, if we understood and are in line to understand the totality, then you understand that **you have access to the totality of the knowledge of the U, and it is open to you at the point of demand ??** linked. It's a different way then what we are used to, we call it the open source, policy, T or what ??? The U works on what we call, the open universal policy, on the condition of understanding that **all the fields of the U are connected and it depends on which stream you tap the wire. The totality of the work comes to understanding that we are not alone,** that your soul is part of, the same as you give knowledge, you receive knowledge from those who need it at the time and position. (:38). The understanding of totality is very hard. **There is one point that is very clear, if mankind doesn't go through the phase which we have set out, mankind will be left in the doldrums for thousands of years to come. We set out the structure to achieve and if this structure is not achieved in the time frame of what has been set, this time we'll let mankind go to his own demise.** In a way that we don't see anymore progressive development in this race, on this planet for the rest of this existing life. **We showed that we will not reach that point.** It's not going to be the end, but the end will come in the hand of the man. This is the third time we tried and we have never been so close and reached so many across the planet as this time. We hope that mankind doesn't let himself down this time to cross the threshold with the UC. You wanted to see the aliens, what you call, as you are alien to them, from January 2021. It's in the hands of yours, and what will come and how you will receive many new knowledge's that will change the course that mankind, (:40). has done wrong to himself and this planet. Mankind with the new friends, you have 3 months of honeymoon and interaction and by 21st of March a marriage will take place and a separation will be altered. So now you can see why we even launched a Universal Enhancement Unit in such a position. Twelve months is more than enough. You have to understand that every facility and every knowledge is in the hands of man sitting in different organizations that collectively the knowledge will get out very rapidly.

Are there no more questions. .. Yes, can there be a world without Alzar asking a question.

Q: When you talk about this **what are the situations or possibilities that mankind doesn't go through this process? We have made it to zero as possible. The only way which mankind might not or will not go through this are 2 things. (:42). The stepping down of the religious leaders and the kings.** We can't enter a world of peace

and equality if some people are making the false claims that they are the heads and they're above and they understand more. We can't run 2 horses. We will achieve it. You'll understand in the next 6 to 8 weeks how it will be achieved. Mankind likes to see to believe, we'll make you to believe that you can see it. Q: I think that we'll achieve it because I have seen it. (silence) No other questions?

Q: How long will it take to normalize the "frozen mass of mankind" by using the conscious souls and the spaceship units? (:44). **The process doesn't need time and it doesn't need the spaceship unit, Most of the change will come through the changes in the world leadership.** Any other question. I think **when you see the enlightenment of the first souls in these processes of these machines, mankind will start thinking very rapidly.** And you know the bad habit of the KF, when we do things like this, we go live on the Internet and you can watch. As I said to one of the leading professors in China, in a Chinese Medicine university a few days ago, is **you'll watch through the window the change of the physicality to the light. Then would you call that light the Creator or whatever** or whoever. You'll understand that mankind has elevation of the soul to go through the transition of the birth, (:46). of the understanding of the existence within the fields of the U in what we call the transition time or matter state transition time. **It's not that you die or something happens, the reality is that the level of the soul reaches the point and chooses the dimension of the fields of the U** and not in the dimension of the physicality of the U. R - Q: **Is that a permanent condition** or does it have to be reinitiated from time to time? K- What? Q: That connection with the soul, that you just mentioned, that EU will allow that connection to the soul? The way it works you'll see that, in a way, it's that the soul by elevating its position it, circumvents the whole of physicality. **So you don't die, but it's ??.. its physicality becomes the inner part of the energy of the soul, where up to now we see the physicality and soul entrapped inside it. It's the reversal but then mankind learns that this is how it's done. In the dimension of physicality you manifest yourself in the physical dimension (:48). and then when you want to travel, or whatever you want to do, then you transfer into the direction and the dimension of the strength of the soul it. It is very easy. Now you use the plane and train and the bus, and (later) you'll use your soul.** It's the best transportation system, zero time travel. ...(Stephania interrupts...)

Any other questions?

Q: I dreamt about you this morning Mr. Keshe. K- I know many people dream about it, ?? women dreaming about it. Q: I was dreaming I was making your bed. ha, ha, K- So I am ready to go, Q: And Caroline. (:50). We go through the process of completion of the first phase. You'll start seeing, as is the habit of the man, in elevation of the soul through these systems, and though it, then you'll find out that first step is, that souls have no kingship. The kings will step down. In a way as you become the light, as a STM, you become in a way, if let's say, the Pope needs the knowledge to see the light, when the Moses, or Jesus was what we call, privileged. Then you'll understand they will all step down one by one. It doesn't matter how they shout, cry and howl. The beauty of it is that you still live a human life, run a shop, or go to the university, **but you know that if you need you can take the dimension of the soul.** The whole process of mankind's life, and living will change in the coming months. Q: But we don't do this now during the day we are in the physical, then when we go to sleep we go into space and then come back again in the morning. I think we do it already but we are not aware of it or we don't want to recognize or ? K- In a way we do but let me put it this way, (:52). **we all will become knowledgeable enough that we'll become aware of most of the life's structure, we have only been aware of the physical structure of eating and**

**sleeping, day and night, we'll come to recognize our what I call, our schizophrenic partner, which is our soul** and then we'll start living the cycle of the life as it has to be. It will be very interesting to see how many of the world leaders will volunteer to go into these machines and at what level they'll ask the machines to interact with them. Q: Maybe they would love to go in because they would love to change but they don't know how, maybe they think the machine would support them on the changing. K- Maybe they do, or maybe they need to go through and experience to understand their own, what do you call it, pain and suffering to their suffering. Mankind will understand the suffering of his (:54). physicality first before anything, and then he'll decide, 'if I am going to carry on with this or I live in the different dimension strength.' **Are we going to stand the suffering, or are we going to listen to the suffering or will we take the step to move away from it and do and make a change.** Now we decide the suffering of our physicality, nothing else, ourselves, and nobody else. Q: The suffering is unnecessary? (exactly) K- It reminds me of you in China (with Swine Flu trials). **How you were suffering with the killing of animals every moment.** Q: Yes, that was really powerful for me because I really **arrived at a point when I just wanted it to stop, it was enough, this has to stop,** it can't be .. it was very clear that point. K- Any other question. Q: but it gave me the strength when (:56). you asked us to on the last day to ... we are supposed to fly and I remember when we practiced, that experience, I didn't want to repeat again .. it made me focus more on the heartbeat on unconditionally love .. I still remember very well. K- Thank you .. Q: Why do some animals decide to leave? What do you mean. Q: Because in this process **you said some other existence, that animals decide to become the soul, leave the physicality? Do you think this elevation, this position is only for man who just speaks?** In most probably a handful of weeks we'll release a new T, you'll all know, but in a very simple but advanced way, that we'll start (:58). elevating the soul of the whole planet and all its creatures. You'll understand very soon. Then they have the choice as much as the man. Q: .. For us in KF it's easy the notion of the soul ... because we are looking for this and have come a long way, but what about the majority that are outside in the system, that have no notion of the soul the way we think about it and how to access the soul, it's difficult to explain or be accepted. **What about them that are the majority? K- This is again, you have not listened to the teachings in the way which we taught** and especially for example, last week or 2 weeks ago we heard an American president for the first time openly speaks about the soul. Rick can you find President Trump's section ... (1:00). where he refers to the soul. **As is the habit of the man he thinks he is the only one and is always in the physical dimension. As I always said, when we teach we teach for the U.** But you always thought that those who are the KS and listen to the teachings have received the elevation of the soul. **We have already reached the soul of those you think haven't heard about the KF and the work about the elevation of their soul.** You listen with the ear of the man, they listen to the ear of the STM. **The whole humanity and the whole creation on this planet has already heard that call.** Q: So the religious leaders and kings will go away like that. Do you think they'll leave their position if they are not forced to do that? K- Why do you need to force, why is the habit of the man to force. Q: They have to decide that going is better than staying. K- We shall see in the coming time that many, most, or all of the religious leaders will put their turban down. they'll understand the truth. Q: The problem is how the majority would face their soul? K- **That's not your job, the majority have nothing to worry about. How would you face your soul, that is what counts. The rest we'll reach that is our problem, not yours.** Q: Thank you very much I pray for that. (1:02). Q: Yeah, we are one, that's why when you live a children's soul we all get elevated at the same time. K-

Good morning. I am a very good magician. You thought I was teaching you about the MaGrav and energy unit, and in teaching we have elevated the totality of the STM. ...

Q: They used to burn the magicians, that's why I am afraid to be a magician... .. K- the problem is that the soul of many world leaders have already been, has become aware of the ?? change. **We'll still go to work and run offices, nothing will change but then we'll do it in a totally different way.** As I said to a friend of mine, we have all been waiting for the revolution and then when the revolution happens, this time with our soul understanding of it, you say what, how have you done, how long we have been waiting for this. We haven't asked you to go on the streets and march ?? the Christian, Moslems, and Jews and governments, we elevate the STM that itself marches himself to that direction of elevation of the ?? It is extremely easy. (1:04). It looks complicated to man because he always thinks that there should be something to be done. There has to be a reason and a cause and an effect. **But in the universal dimension there is no what do you call it, cause to do something, you do it because it is to be done to benefit the others.** Q: Yeah that is the problem because we think materialistically, we say, how much effort to change how much effect ... K- Let me show you the way with all these systems, **very few systems will be keyed and set to convert the STM. Very few systems and those systems, when we do it, we'll let you know. Then man decides.** It's very much like a Chinese or Indian or any restaurant, you choose what restaurant to go to. These systems will be more or less the same, you choose, if I have a cancer and want to get rid of it but I still want to suffer in the dimension of physicality on this planet. Or you say I have no diseases but I want to be at a point of understanding the work of the U and I want to be a part of it, then you go into the machine and it elevates you to that level. Q: Thank you for showing a little bit of what is waiting for us. (1:06). K- It's already in China ... The Chinese KF has been extremely working hard and are the backbone of this structure, .. especially the Austria team and Canada in. .. It's not one man there are many involved in the structure of this machine, in the setting up the structure... In China, everyday we achieved a higher level and more .. in 7 days ?? leaps in the totality of the work of the KF. The first factory was completed and contract signed and Shaunzin paid. ....

The electrical side of the systems .. work of .. KF China. (1:08). All this is set up by Gyaun Lynn who is coordinating this team .. ...

going into manufacturing of the products and large scale setting up of factories ...

We hope to complete in March, massive structure, 2 factories in China ...

.. on the yellow river with building of new research centers..

Chinese TCM university in the trials that have already started. ..

(1:10). In conjunction with a world leading university's As these things take shape we'll see more collaborations in that structure. China will become the backbone of many things for KF developments. . . .

.. EU in AZ .. cooperation with space agencies..

We take shape in science and T in exchange for peace. And the next steps in developments. These are very small duck compared to what we came to mankind after the total peace treaty between America and Iran. ?? and invite the president to Iran.

(1:12). **We have no more guns to sell or rooms for producing defense T, so what are we going to do with guys who are so talented sitting there making war weapons.**

**They'll start making peace weapons** and then you'll understand. We are reaching that point .. we'll see in the coming weeks once the announcement has been released, you'll see the changes. Q: Thank you ... As you talked about the private teachings the KFSSI private teaching is now structuring itself into research or what we call groups they'll

come to some sort of conclusion by tomorrow or next week. Then they'll start the process of research into what they would like to do. Then the KFSSI will merge into the work with universities .... This isn't something new, we went it up this way ...

(1:14). inside the leading universities ...

.. There is a big problem with this, as you know China, Iran and Us are very protective with their knowledge, Now that the KS start sharing knowledge with ?/ in America and China and every where else, the knowledge of plasma. It's very hard for governments to go through this transition and trust needs to be built that this is now universal knowledge it's not just something ??

(1:16).

.. open up to share, or do we go to the next step of forcing the conditions. I don't like fighting and that kind of thing, but at the same time you can make conditions that the other side has no choice to accept the conditions in increase or decrease in the value of their position ...

.. Someone came that wanted to know Mr. Keshe outlook on China's position with regards to the outside. ..

(1:18). My advice to the Chinese government and to the administration that these reports go to was, zero trade with US, which means we don't need to go through all these tariff fights with the president ... **We just don't create that condition, when there is no trade there is no tariff, there is no discussion. The Chinese took this in a very strange way, directly to zero trade and what they did,** is sent out an order that has to be carried out, that no Chinese governmental organization or those connected to the government in one way or another, in 3 years from January of this year should (not) have any computer or electronic system which made, controlled, designed or has any control with the US. Zero trade, when we don't have it, we don't buy it. This will hit badly the US and the computer industry. This is the cleverness of the state to find solutions to what is. this means we don't need to tariff you when we don't have any equipment to use or T. What we have seen in the background is CPC has advised like Huawei to produce and replicate all American products. Now we understand you can bring as much tariff, but you can't tariff when that is nothing to be tariff on. (1:20).

With what we have signed and setup with the Chinese KF in the next 12 months with the leadership of the KF in China, we'll see the development of the full productions in western China then China won't need to import any goods that will lobbied on. This process I part of the factory that we have taken over as of this month .... We are going on the same path with the T with the know how and solid science of it. We'll explain this within the Chinese structure. In that process by making China to be one of the leading nations to be independent of food and T from US, then nobody can tariff. ...

we have seen Putin move in that direction with disarmament, or discussion with arms . We see all these things taking place step by step very rapidly, you have to realize that, this revolution, this what we started is going to be so radical that it will not take the time of years but will effect us immediately in weeks. (1:22). When the East and West opened up, it took a couple of years for western and eastern Europe to start finding out we have no borders, we have no soldiers what are we going to do. Cutting you down. With the evolution and revolution which will come in the next few weeks, suddenly factories and organization that were geared up to the armament factories and defense, have nothing to sell, they have the products but no buyers and then what's going to happen, go bankrupt or find new products, new ways to do things. This is the point where KF KS have to be standing by and aware of which companies run into this position and approach them directly. Let's talk about the new T and talk about things in

the new way. Let's see what we can do with the knowledge we are holding for thousands of people who are holding such a high talent. This is what your job is, headhunting to convert the companies into a processing in our new peace processes. It happen 20 years ago in 1990, now it's a second revolution but this time it is all of us. What happened with all the people who used to make arms in the eastern bloc, they're gone. What did they do? Some people opened other factories and did other things. the same will happen in the western world and this will be very rapid. (1:24). We are not talking that this will happen to humanity, it has already started. **Let me explain to you what happened last week and why America totally submitted to the Iranian state of peace and talk. Hours before Iran took the step of not damaging anything that it could effect the zone with Iran.** They chose a specific position. **They blocked the total radar with what we call a plasmatic dome. The Americans had no communication with the people inside. The same thing that was repeated with the drone, was repeated on the ground.** The American defense had no knowledge, they couldn't see inside what's happening to their base. **It wasn't an electronic blackout it was a visual blackout, very much like when you look into the sun.** The reality of what happened in those few 10 minutes showed the total incapability of those most advanced nations in the world, even to stand supporting its own soldiers on the ground. They had no access to it (their base). Initially Iran showed its power in the capture of the drone. Then Russia showed it on the (Black) Sea. **For the first time this was shown on the ground. Blocking the state of Israel for 10 minutes and wiping out electronically all their systems,** (1:26). now is a reality. It's not that as I said, not allowing Iran to have nuclear, it is our nuclear has no power so we have to find an excuse. The power of the T delivered in **Iraq has literally decapitated the whole of the defense T as we know it today.** You ask the Americans to show us any pictures of the zone in Iraq where it was the scene, what we call the screen of what was going on. Ask them, let's see if they can show us any satellite film. they have drones and a (2 hour) notice can we see any drone pictures. **Q: It was in the Internet, the news the passengers and American soldiers were frightened because all of a sudden there was no light, no movement,** it was written they were frightened by the cut of communication. K- Don't forget we read the passage of history to tell us about the casualties in that night. The casualties of fright, of the most advanced T worth nothing. **We will see the fallout of last week in the coming weeks, (1:28). and months when the American defense T cuts.** Because we saw .. What it is, **the American taxpayers and Senate have to ask the producers of these T to Pentagon, the American Army and Navy, where is and why did your system not respond. What have we bought from you, that in the position of what it has to deliver, it has no functionality.** This is the question we have to ask. Now our militaries when they buy the latest gun or whatever, have to ask, can it overcome the Iranian new plasma T. It's not that we buy from them, it's, can it be or is it already obsolete. We have seen the beginning of the end. **Many governments have to ask about their purchased military positions, is can it overcome what Iran has delivered. In the past we saw how much the Saudis were jumped when their chemical plant was hit, how the Americans blamed Iran for it, but in the end it was one of their own (missiles). Return to sender.** (1:30). If they could prove, show one piece of that rocket, that it was made in Iran, haven't you seen how they played, before they sat down with Gaddafi and the rest. They knew it was one of theirs. Now we see the latest defense T sold to the nations has become obsolete. these are walls of castles that have crumbled. What are these American defense T going to do? Collapse. Or do we see the emergence of peace and we use these for the advancement of mankind into space and the development of the new structures

for humanity. This is the beauty of what is to come, we have no choice. With what we have seen in the past days in the Middle east, the 2 that has happened. First of all one of the highest ranking of the Iranian army and secondly the death of the wars because of it. No one will go into war. If the Iranian military, scientists use this T. Go back on the teaching, how many mothers and fathers will not ever see their children (again) and how many children will not see their fathers and mothers when they are buried in the depths of the ocean. (1:32). **We hear the Americans say they had no casualties in men, but the flight to Israel speaks of other things.** We have to take this opportunity for peace and we have to push for delivery of the T for peace. It's the job of the KF supporters in western Europe and in American and other parts of the world to **keep your eyes open for weapons T who were supposed to be so advanced, that they start announcing the closures. Go in and offer them the alternative T, that they keep the employment,** that we do not touch economical conditions and in the process start teaching classes in the most advanced factories. But one thing you sign with us. When you went and you made all these tools to kill, you became part of it. You sign the peace treaty before you start. This is your job. You'll see this coming up. I have been through this position in the Eastern Bloc and the rest in the past 30 years and I know how it will come up. You'll start seeing major corporations in defense laying off people. **You will see cancellation of orders by people like Pentagon** and other organizations as they cannot do. (1:34). You have to the bridge. Q: All my blessings sir, thank you. You will see that the release of this EU will force Tehran peace talks and conference. You will see we have given it 2 months gap, beginning in March to middle end of April. We'll create such a pressure on governments to walk into the peace talks. there is no choice. You'll understand more and more when the systems come and people paralyzed in wheelchairs and in coma, and in all sorts of health conditions ??? and not what we call the power of the physicality we'll enhance, Then we'll see how the world leaders and their families want to be in front of the queue. Then the conditions for it is please sign the peace treaty. **We will release the list of leaders, ministers and prime ministers and royal families with the diseases which they waiting to die for and with,** then you see when we said there is no priority path (1:36). as we call it in Turkish airlines, fast track for business and first class. then we'll understand. The strange thing is all these people have families, brothers and sisters, children and the alternative to use the system. Don't forget this is an EU and not a medical unit. Any other question? There is a fundamental question that will stay in the hand of those who will decide for future of mankind in using of these T, (1:38). is that **would mankind erase the memory or part of the memory of the new generations and the present generation of wars.** **Would we see it as so horrendous that with n the structure of these systems, that we take that from the essence of the STM from mankind, and what we call the beginning of time of the life of the soul?** These are the conditions that have to be decided by the Universal Council. **We will not modify, but we allow the soul to make decision that this part of the memory in the dimension of physicality of the man to be erased. There is a specific point within the RNA and DNA which especially carries this behavior and this message.** Q: I remember when we were in the Mozhan when I just couldn't think anything bad, (1:40). like if somehow we create a condition and .. even in my dream I couldn't think anything bad ... by creating those conditions for elevating the soul it was impossible to think anything bad, so I was thinking by using these machines or Gans that naturally there will be no more wars? K- We shall see. Q: You said before, why don't we do it, that it's very easy that the soul should go out of the cage it's very easy ??? if we want to be physical or not physical, you can even go in the bathroom and disappear and go into space and come back out of the toilet and

just a few minutes are gone. So when you said to me, what are going to do now, the only thing I .. sometimes I play a game and I say to myself I can do this now looks like, (1:42). I am already doing it. thinking this way, another thing you said, the moment we think it's not it, so it's all about feelings. Learning how to record feelings and through them we can change the structure. I have been practicing this. So I think I create conditions, that things happen like a switch... you see I am contradicting myself all the time because you said, you don't need to practice, there is a switch, it's just a matter of one hundred percent trust. I remember the last day when you asked us to fly. Things started to change for me, I remember the heartbeat, and I remember thinking about the killing of the animal, it brought me to the point where the suffering was enough, I declared it was horrendous and unnecessary, then it happened the last day you asked us to fly and I remember thinking that there was such a change in me as I brought back the feelings of (1:44). there has been enough and it was not necessary to suffer and there was this feeling of unconditional love, and I remember my heartbeat changing but then I remember I got to the point where I had the fear, and that is where I went back to feeling everything being normal again. When I think back about that experience I can never forget, that for me taught me that trust is necessary, we have to have full trust and it's necessary to the U and to our soul and everything is going to be fine and you said, the moment we are ready to loose everything, only then, we are going to have everything. I think when I was in that moment and I felt all these changes happening and I was lifting up and down and then rotating, you remember when I told you this story, no, what happened between us, and everything stopped because of the fears I had of the unknown, and that taught me .. we have to focus on our self and we go back where when you ?? yourself everything go ?? because it's true what you said, it's very easy to do this work from the soul to the physical like you said. That is not the issue, (1:46). the issue is, that when the moment comes we have to be ready to have the full trust to make the jump, because it will happen as a switch, and you said to me, do I believe it, you have to be prepared. It's all about to have full trust. And of course unconditional love because it means you are ready to give up everything, and you said, it's a bit like you have to be like people who want to kill themselves. Ironically they are ready because that are ready to give up everything, even though they should not of course kill themselves, because it's unnecessary. K- Thank you very much. Q: When Stephania talks about the switch is it 3 years ago I talked to you about the vision I had. There was a switch. There was a noise, if you turn on the water, it ripples and you can see them on the water. And this noise created the same ripple in the air, and then, you said don't be scared when you hear this noise, it wasn't a usual noise, it was a very different noise, it created a whole effect in the air, I could feel that the air moves like the water, and then you said don't be scared because we're am going to switch you off, then we'll switch you back, it's going to be different. When I came to the new planet it was so different, so beautiful and it was shocking to me, (1:48). then you said to me, I'll tell you about another time. This was 3.5 years ago. **K- The thing is we'll see women take a lot of positions in the KF because they somehow interact with their, what I call, creative and creation skill.** The position for all of us will come according to our own understanding and what we said and what we'll keep is that the creation of peace will come out of the position which has been created and needs to be created. I see it, in what we said, just now regarding the situation in China and the electronics and computers. A simple step in announcing this, less than 10 days ago **by China has forced the Americans to sign and close all their economical dilemma and whatever they created with China for nearly a year. Because in a very simple and wise move the Chinese showed the Americans, we don't need you.** Now what we saw signed

yesterday is literally, just give you a little bit more, until you do your thing, you don't need us but we need you to keep peace inside (? America). Economical sanctions on America will bring huge submission. (1:50). To America and the western world. **The biggest problem for humanity is, how rapidly mankind will repair the physical damages into what they have done to each other, in past years, centuries and thousands of years,** this is the part which we watch and we'll see. **It's not that now that we have the knowledge everything will change and everybody will change to whatever. Mankind has a very big weakness, amazing weakness, and this is what we call love.** We will see that mankind will chose to keep to this planet for the love he has for his family and his loved ones. For this reason we'll not see huge changes as man will imagine will happen with the opening (to space) ?? will come in. In essence this revolution in science and T will change a lot of things and expectations in the behavior of the man. What will be interesting is how the European nations will sort out the situation in what they have done wrong to the ?? planet. One of the most abused continents ?? by man ?? (1:52). then through man turning on himself in different ways. Something which will be very interesting and we'll see it in the coming months. It's when for example the Pope will confirm the end of the Vatican, how the man is going to take this to the ?? Africa of his soul, so much to the Africans and to the others. These are across the world. What happens when so many believers in the Islamic world, and other paths of belief of the STM will one after another, what we call, lay their paths down and accept to go back and join ?? all ?? and mankind will ?? let and decide on his own soul. What do we have to support this. **What are the capabilities which we have to support such a change. It's not going to be easy,** an easy job that the religious leaders will handle the kingship. Because it's easy. **Our biggest problem is how are we going to handle the religious leaders to tell us that their term is over.** This is one of the biggest dilemmas for the (1:54). world leadership of the religious leaders. The biggest problem how individuals are going to fill in this lengthening gap. The problems are not solved in one go. **The problems now have to be handled in a very specific way by the religious leaders in how we going to tell people that now we have nothing to replace and it's us that has to stand on its own legs.** this is the beginning of an end, but it's the end beginning of the beginning of the bigger problem. I can see this clearly coming up in the coming time, when the religious leaders have, and they have literally abandoned churches. We have seen this before, it's not the first time. We have seen religious leaders just changing positions and abandoning their flock. The complication is huge. (1:56). It will start when these religious leaders try to explain to humanity that the past is wrong. These are part of the problems which will come to us. It's not that it's, I can see the sequences and consequences of it and the reality will hit home very quickly when most of these religious leaders themselves being sick enter these machines for saving their own lives. Then they'll become wise to the reality and the facts, and then what is going to happen. I always said mankind will take my T not out of the love that it brings, but out of the fear of his demise. Q: Is there a way PI T can change the brain structure in narcissist sociopaths and psychopaths just like autism can be treated? (1:58). .. **These machines will turn up to be showing the alternatives to the present problems, but not necessarily will it come to be the final answer. Primarily mankind will come to understand the alternative and the possibility of the solution for themselves** for what we call, per case so. In time mankind once he is shown this new way, path will come to appreciate it and develop new T around it. What I see, the process of development and conversion, somewhere between middle of this year, to the end of the year, to sometime in the beginning of the following year. It will be so rapid, that mankind, what used ?? to take 200 or 300 years to get, will achieve in

months, very rapidly, because you have to realize a huge number of people are highly educated in given specific parts, (2:00). but it just needs this to be added to for it to be completed so that it can be delivered, extremely beautiful structures and whatever mankind needs. This is the beauty of it. The changes will come very rapidly. We have seen now the end of the war between China and American economically, since **China showed that we don't need you. That's another submission. One thing puzzles me, I have never seen a nation trying to glorify his losses as Americans do.** They are very good at it, every time they have lost they glorify it as a win and only themselves believe in it and understand it. Outside nobody looks at it that way. This is what we saw now, with the American situation with China, resolving again with China making one move, and without a war. They just stop, zero trade. And within days we have seen what's coming. We have seen the same situation now in respect, they thought they were very proud to kill, but they shot themselves in the foot directly. that was our wish. By attacking at what we call, the airport (drone attack). Interestingly their was nobody ready to go to war. Interestingly is **what is mankind going to do with its own physical structure and the wars within himself. Can we use these machines to elevate it.**

(2:02). The worst thing is, that as the kings will abandon the kingship, we got used to it. We'll bring elections in and what we call democracy, we bribe and do whatever we like to, we'll bring it in. What are we going to do with the gap in the religious leadership and what resentments will come after it. What we see .. world leaders and monarchies abandoning ship and asking for refuge in Canada. What happened with this British Prince we already knew from internal security weeks ago. Now we tell you it is the same. The Belgium monarchy will take refuge in Canada due to the fact of many things which are coming in. We'll see the same thing with the beginning of the end of the British monarchy the same. The Japanese Emperor will move. In the structure we can handle this, but how are you going to tell people who through their soul have believed in Christ or Mohammad and now they are told, it's up to your soul because we are not their to do because we have discovered the truth. The reality is (2:04). that when the religious leaders when they step down, because they have seen and understand the truth, then now how are you going to do. What are the implications of this change. Or **do we build another system for people to go and pray to, to go and elevate their souls, or will they understand they can do it themselves, or there is a process of achievement.** There is going to be a very rough ride for the human race in the coming weeks. We have seen it step by step. Yesterday you've seen it, Americans and Chinese finished what the Americans started, it was a good thing because America lost their power in the domination of electronics, because other nations will follow suit. Because now the Huawei and others are ?? ?? the Chinese will supply to other countries. We'll see step by step the cleanup ???. What happened yesterday in America, with 3M and Dupont, have now come under a huge structure of contamination creating cancer.

Dupont and 3M will have a lot to answer in the cancer process. What we saw with what the government of Michigan has done with 3M yesterday (2:06). will bring a lot of these big companies to answer for what they have done wrong and how they can put it right. The 3M legal on the back of Dupont, cancer PFS will have a lot of implications. What is important is to tell the people of Michigan how they done it and how 3M and Dupont have done this contamination, who can repair it and how can they correct it and how many people got cancer because of it. The same will come with the other things of ?? Don't forget we have 14 days left for the Italian government to decide what they are going to do with the KF work Any other question. Q: **Will the use of money totally disappear? When you can feed yourself from the energies of the U** and when you can ?? supply yourself from the energies of the U, what do you need money for? The

Porsche or the bicycle. We have to wait and see and understand the next step. **The world economical order will collapse. (2:08). this is without a doubt, the way we know it. The world power system, collective running and accepting will come to an end.** These queues as immigrants and refugees that cost them will become a laughing stock in a very short time. Q: My understanding is that one of the jobs of the U Council is to focus on the vision of for example in correlation of the army people that they are going to go on to jobs soon. And what we can do with all these army or ... now is the time we have to focus on the vision to ?? to good so how can these people be served, humanity in such a way to help the transition, (2:10) now it's where we should focus on the vision of how we would like to make this transition to go for the army, and schools and ... if my understanding is correct? K- We shall see. .. that's the job of the soul of the U Council. Why do you think we gave you the job? We made it easier for ourselves. Q: When the east and west bloc collapsed and the arms factories collapsed because they stopped working, but in recent years, at least I know in one country, in Bulgaria all those factories they picked up and now they produce in mass ?? arms (again). so what is going to happen to them now? K- They'll go back through the same phase again. .. The world leaders have to find a solution that every man lives in comfort and has what he needs, we are not going back to the communist times of equality, but every man has the opportunity to elevate his soul and if he wants to live in the dimension of physicality to elevate his physical condition. that is the reality of the time. This is what is up on us today. (2:12). Q: **In the process of this elevation and process time are we going to have any casualty of the man? Why are you worried about the casualties, look at the beauty that it brings.**

Q: ... I have an old car. I applied the Nano coated wire since the end of 2015, I put 2 wires to it and I notice about 6 months ago the shiny lacquer in the car started coming out. Do you know this shiny lacquer which all the cars have. Yeah. It started to come up from the car and stops all over the places. It's not normal. K- It's very normal. Q: I mean it is not normal for these cars. It can be in one or 2 places. (2:14). But not the whole upper part of the cars. I don't have any rust on the car, even when there are scratches, or rocks hitting making dents but no rust. So is my car ready to fly now? K- I don't know, are you ready to fly? Q: Always. K- The flying car or flying objects as we call it will be shown in the structure of the EU. We'll show, what I asked is to show **the 2 systems next to each other, one is for the enhancement of the body of the man, the other for the enhancement of the environment. When we show these 2 units we'll try to have them next to each other. One you can produce materials and the condition of the space and one you can produce the condition of the human body.** These systems we'll have the, or part of it, in the coming days, then as it is the Chinese New year we are stepping down for a few days and then they'll go back and finish this part (the 2 systems). Then we'll see and show the total operation. (2:16). Q: There is a teaching you taught regarding this in 2016, yesterday I was watching it. K- In respect to what? Q: To this, devices. K- These devices now, always exist, we will release technologies in the coming weeks, totally, that will change the process and new characteristics. The number of teams of scientists around the world which are working to complete this process in March. They say, if we see we'll believe it, so **now we are going to show you so much that you don't even know what you've seen, you've believed it.** Any other question. Q: .. using the machine, I understand that if you have an artificial component in the body, there are other methods you can use for treatment but is there an eventuality that you will be able to enter the machine if (2:18). (you have an artificial piece in the body) such as a hernia mesh are removed? K- Can you explain exactly? Q: I remember you saying that if you have something artificial in the body that

there would be a condition created in the machine that you wouldn't want to use the EU at that time and you could target the body with other T. But if I have a desire to use the machine, **would I ever be able to if I have artificial parts in my body? K- We have foreseen this in the Universal system (EU) yes. What you'll see as part of the EU is,** this is the dome and we have developed and actually you will see it, that if this is the body, .. we have developed a T that we can isolate systems, part of the body to the other condition there. **With this new system it can be done yes. If you have say, because I have this dilemma with this guy (Armand), who had a heart operation and I couldn't help him because at that time we didn't have the T, (2:20). but now in the design of the EU, yes.** We have developed a system which **we sandwich the body and we can isolate certain parts while we are processing, or target certain parts while we are processing.** So when you have let's say a cancer of prostate we can target directly the cancer of prostate and the brain of it directly at the same time. Not to touch anywhere else. Yes, this has to be done for Armand and I had to sort it. I designed this system to overcome because Armand had pieces that we could not help. The T would have created more problems but many people have others pieces of things in their body. **With this we can create a stable condition in the given positions while we are sorting the problems somewhere else.** We watched that to be, we have a problem .. we are testing this now in China by doctors. We have a volunteer who was blinded and he has a platinum plate. I designed a system for the doctors to bypass and not effect this platinum plate and he was with me and the doctors last Saturday, and his vision is coming back. He has improved his vision in less than 4 weeks and he is coming back. He has tried the stem cells and everything else and this is part of it that we could allow that we do not touch the environment of the (2:22) platinum plate in the head. We look at it in a totally different way and this has been a ?? You can go in if you have had a bypass or a hip replacement, the machine should be able to isolate it, to keep it at a perfect position as it is, while the rest of the body is getting processed. Yes now it can be done. A few weeks ago it could not. As they say, need is the mother of inventions. For years I tried to sort this out, and then Armand went through this and I wanted to help him in every way but I could not see it happen, but now, yes we can. **Q: Can you give us a hint in how the fields are directed that way.** You have talked about it many times but I am thinking specifically with the EU. We were discussing this in the Plasma group to determine .... ? **K- We call it a trade secret (ha, ha) ...** Let us, .. we have a funny case, **the Spanish guy who has copied the MaGrav system, he has taken all my MaGrav system which is blue and made a green one and put his own name on it.** He has made a copy of the plasma unit and he has asked to buy one of these EU he wants to copy it. So we said, no you can't have it. (2:24). He takes everything and changes it to his own name, what do you call it, the inventor of new T. It's very amazing, he has taken a MaGrav Unit, a blue one and has made a copy of it in green. .. So we try to keep these trade secrets and we monitor where these machines go and how they are handle. That's why I said we'll keep a trade secret. That's what a secret is, we have to bring it to test it and evaluate it and understand it and then release, and then we will teach it. We don't teach it anymore, you can buy a EU for half a million now or for a million in 8 weeks time and then we'll see. .. **Q: I am sure there will be people replicating and using the T, in a way it's beneficial and in a way you have competition in the market place as they say. K- We don't have a competition. Whoever copies our system they pay us a fee for it, according to what they do with it.** You'll understand how soon we'll operate these. **Q: You said nobody can copy these EU because you designed it in a way that only you can make sure that it works in a proper way, so even if they pull it apart they can't copy it, that what you said? K- Very much**

so, you'll understand, you'll see it. As I said, it is not magic but understanding the T the way it is set. **If you work within the ethos of the KF you'll learn and you'll gain.** (2:26). We'll see. Q; Why was the double ball reactor used? In reference to our soul, our "universal unit" that you have put in the EU of the egg, so it's like a double ball reactor. In order to gain the confidence and soul area of physicality?? **R- Is there a relationship between the idea of the double ball reactor and the idea of our soul inside of the EU? K- We'll see,** it's just how we are going to do it. Something which we will structure around it and we'll see,... we'll wait and see how things will take shape. Q: .. What is the difference between a Gans made in the frig and one made with water at a temperature of 15 degrees above the ambient temperature? K-This was raised in the K family questions. (2:28). and they are tagging it everywhere. I think they have to go and test it and come and tell us. We already did this some years ago. Q: **What is the difference in the strength of fields involved with such as Gans made in summer at 35 Celsius and in winter made at 4 Celsius? K- No difference.** Q: Does the interaction continue in the water, the Nano coating of H and O together? K- What do you mean? Q: The birth of plasma between H and Nano H, does the interaction continue in the water, Nano coating ... , you could consider water to be di-hydrogen oxide, an oxide of H does that mean it is already .. ? Next question. Q: **Some people are worried about 5G and they think it is programmed to kill all of the human race and so on, is there any counter acting T in the PI T?** (2:30). K- What they want to make it 6G. R: I think you once mentioned about 9G or 50G or whatever of the PI T? K- the process about 5G or the other modes of communication is how much energy in such a short pulses can transfer rapidly. If you make these powers now instead of frequency into plasmatic. What would the effects be and how it will change the position. Q: **Who will be the first leader to take the first step to announce PI T?** Ayatollah K will be the speaker in this Friday's prayers in years? (2:32). Will he surprise the world? R- I think it is hard to make predictions sometimes. K- Don't forget we have requested for AK to give the first speech, the opening speech in the conference in Tehran. You have to understand that **the world leaders have to satisfy certain internal consumption of what we call, rise of nationality and on the other hand they have to satisfy international demands. We will expect an announcement in the new direction** and dimension, at the same time you have to understand, that the gentleman who was "missiled", was very close, close person to him. I think we will hear some rhetoric, other actions, and some talk, **but underneath of it Iran will offer an olive branch to the American state but with authority and the power and not on the levels of submission.** This is what is expected from this and you have to listen between the lines with Iranian talks. (2:34). You have to realize when Trump blocked all the assets of AK he didn't respond because he is not financially attached but when he touched those who are peacemakers and those who are influential in the strength of the Iranian knowledge making he responded with a ?? prudent wisdom and we expect a very deep fundamental change in the Iranian attitude towards world leadership in science and T, and advancement in this. We will hear as usual, some rhetoric's which is normal with these situations. The consequence of it will stand on its own. You have to understand Iran has lost some 190 people by mistake and they will respond to that. But we expect a strong olive branch on the basis of peace and we'll see a new step a new era but we'll have to separate the rhetoric's and knowledge information that comes behind it. We hope there will be a word of wisdom in Iran taking the leadership in science and showing us a science in a different way then what had to be shown in the past 7 days. (2:36). He is a very wise man and knows how to handle it, but he has a domestic audience which are extremely angry with the situation and it has to be addressed. Any

other question. Q: **I found a teaching where you discussed the diamond structure for Gans production, 8 sided that indicated 1 dimensional opposite to each other, 8 sided**, potentially alternating plates. Is there a teaching that shows the effect that would have on Gans production, then can I transfer that to a 2 dimensional Gans production, where I put a plate on top and bottom as well? K- **That can be done, this is part of it but you have to understand how you create that condition, and what will it bring.** I wrote to one of the Chat room, the limitation of this knowledge is the imagination of the man. (2:38). Sometimes you'll be surprised what you'll see.  
Any other question.

(Soul Teachings: )

**In the process of the creation of the U** if this screen, is a blank sheet, in the motion of the fields of the U mankind has to reach a point that understands the position of his soul, it's due to the interaction of the different fields of their motion, it doesn't matter their direction. There needs to be a point where the seed is set, that this seed becomes a position that the other fields of the U can attract and interact and in the process lead to creation of the fields, that this seed of fields becomes the seed and oyster, for the pearl. In the world of oysters the animal makes the shell and when he takes the seed and he creates an environment inside it, to grow it into a pearl. **In the universal condition for this position, for the very rare amounts of energy which moves, (2:40). creating so many trillions of stars and galaxies, to create this seed, to start the star or a galaxy, it's very harsh.** As man becomes aware of his position in the universal condition, he will find out **at the point of separation of his physicality, using the creation of his soul, the seed takes flight of fancy and in that process where he finds balance will become that seed.** Then in so many ways, now you understand why the STM is so important in the dimension of the creation. **We nourish the baby in the womb of the mother for it to create the existence of the soul, that this soul becomes the first seed in the creation of the condition of the existence in the U,** that the totality of the fields of the U, in collective interaction will lead to creation of life and sustainability that this life in turn will link in the strength to the soul of the Creator, that in conjunction, (2:42). with the interaction of the fields of this unit, in the coming time there shall be a merger of the bigger which the totality will lead to, what we call, the creation of the Creators condition of existence. I have explained this before but with what mankind is about to come to reach in the coming months. **Mankind will come to understand how the U Community will feed mankind, as the STM is part of the creation of the soul of the U. Then we hope that once man realizes his position, he will not become arrogant to lead to his demise in the U.** Then you'll understand why in many teachings ?? we always told and said **that the mother is the most important factor in the structure of the life, that she creates the right soul, that in eventuality leads to the creation of a perfect existence in the dimension of the U.** In totality what we will see, (2:44). in the universal condition and dimension is that the, what we call **the nursery of the earth, the perfection of the soul is the ultimate goal to create the perfect star and system.** Mankind should not suddenly be taken for a fool when it comes to the condition of the interaction and the life of the U Community. **At the same time mankind should realize that in the UC he will not be used as an incubator for the creation of the conditions, ???** for those who understood a little bit more about the structure of the creation in the U. As I call, souls are the seeds to create the conditions of life across the U should not be a blind spot for the wisdom of the man. The travelers of the U are aware of this knowledge and I always remember the words of Dr. Elya Kostova she used to say that the earth is a very, what we call, an expensive commodity

for its minerals, and has very high state value. (2:46). But in fact it showed that, how **man has still not understood the value and the position of the man in the UC is the strength of his soul in what he can give and create in the dimension of the UC that in the future those who have traveled and understood the process of creation will not take man, the STM as a part of developing their own structure in the depth of the U due to the lack of the knowledge of the man.** Mankind will soon understand this, as we take you to the U it's no use you going in not knowing that you have one of the best fruits, and they tell you nothing about it, and they sell it at a higher value in the market and they tell (told) you it was rubbish. **Mankind has to come to understand this, why the UC is interested in the STM, it's not they can take it and use it, the UC knows that this cannot be done, so we brought mankind to the level of peace and understanding of what we call universal peace for him to understand that there is a need for perfect souls, that from it becomes a perfect creation of the new dimension of the U.** (2:48). In the coming time mankind will understand that new universes are continuously in creation very much like you create new states that these universes need perfect souls for the structure to begin. **The STM is one of those gifted soul and that is why the world leaders those who take the seat of what we call leadership, have to understand that they can't compromise in any shape or form in the future, and in the future contractual agreements and understanding with the UC.** These words will have a lot of meaning for you in the coming months as the structure is set. The world leaders on this planet should understand this next step clearly, that mankind doesn't become the nursery for the physicality of the man to create souls and **the human race has to be in total control and understanding of the position and the freedom of his soul in every dimension of the U.** It's very much like those seeds that you plant and you water it and watch it grow. The STM is the seed of that plant and that tree. **Now you understand the function of the tree of life. The meaning of it. It starts with the life and the STM. Mankind has always been so ignorant to the knowledge, to his knowledge of the U.** (2:50). **He has taken the knowledge given to him by travelers of the U in the physical condition and not in its true essence of its understanding and creation.** My hope and my deepest hope is, with what I taught you that I don't make you slaves of your own soul in understanding the creation of the new U and the conditions in the U. In reality the expansion of the U needs new seedlings to guarantee its survival and planet earth is one of those nurseries, nurseries of the soul. **The only thing that we have not managed to understand is why these citizens of these nurseries kill and destroy each other, where in the future they themselves become the structure of the life** and would you like to see your children get killed, as you kill other people's and other entities children. It doesn't matter, vegetation, animal, or human. **In the process of why there is an interest in the structure and the life of the man on this planet is not the physicality but the STM, is because to take the physicality of the man to the other positions and dimensions is too cumbersome, because then it can't be replicated, but when you take the STM it adjusts itself to the dimension of physicality.** (2:52). When we take the physicality of the man to the depths of the ocean it can't survive, but if we take the STM to the depths of the ocean it will decide on its own creation in the dimension of the existence at a position in the sea or wherever it is. Now as I said, **I will not allow man to become a slave but on the other hand mankind cannot become a ransom taker and selling of the STM. Our job is not to allow the abuse on both sides and this is one of the reasons why we have abolished the kingship that no one becomes the property of no man and each soul needs to make his own decision of his own freedom and free choice.** In the time to come **man will learn the ways of perfection, of perfecting his**

**soul, of the structure of his soul and the knowledge it carries. The wisdom and the understanding comes from the intelligence and not from ignorance.** In the coming time we need to explain, (2:54). to the world of humanity what is awaiting mankind in the dimensions of the creation. **As you have seen a queen looking after the eggs in the nest of ants by creating ?? ever this has been the job of the earth for the UC, but now the UC has taken the step to make sure it's perfection from the beginning,** not going through, what mankind has been over the life of his physicality. At the same time now we understand why the prophets of the past have said, 'if I tell you how beautiful the other side is you'll all commit suicide.' And that is, **when you understand that your soul becomes a 'soul seed' of another U if it reaches perfection, how many of you would like to be the creator of a U. The totality of the knowledge has to be transparent to the men of the planet,** to the totality of the human race irrespective of color, race and position, as there shall be no religion. (2:56). **Man will nourish his soul to perfection, that at the point when he chooses the separation or amalgamation, he creates the perfect light to lead to creation of the seed of the U.** Would you like to be the seed of a U or to be a part of what others have created, then you become the slave to it. A slave in the way that you live according to their conditions. This process of transformation has been hidden from mankind. In many teachings I have referred to it and you are fully aware of it, but now we make it very clear. Do we understand the position of the STM and the reason for creation of the man and how so detailed the structure of the physicality of the man has come to be. (2:58). **The process of creation and positioning of the soul** is very simple, this is the earth and this is the STM, and this is the soul of the Creator. **If the strength of loving the Creator, mankind is strong. In the strength of being loved by the Creator it has the dimension according to the position of other universes within the Unicose.** This position of the strength of the STM decides the position that the STM will create his own U from. Would you like to be the creator or to be a dust in the created environment for what it is. Mankind has to understand more before the point of meeting. And mankind has to, in a way, understand the totality of the knowledge, before the doors of the universal knowledge has (will be) opened up to the man. The gift with this knowledge is that **the soul shall decide what position in respect to his creator, (he) will shape and take according to the strength of the souls he has gathered during his life on this planet.** (3:00). **The physicality of the man is nothing but the position of the interaction and absorption of the fields of the U through the STM. Maybe now mankind understands the purpose of this creation.** Many of you have asked, 'why are we here for, and what is the purpose of life?' Now you understand in full, that **not only are you there to create a new cycle, but if mankind serves the UC as a whole, at that point of strength, mankind will become and can choose to be part of, or to be the creator of. Then that shows, it depends on the pride of the soul and the physicality of the man during his life on this planet.** It's very much like when you are in the womb of the mother your physical condition decides if you are going to have blue eyes, short or long, be born in a rich family or be poor and suffer in the dimension of physicality. Now you understand in one of the teachings what I said, if you care about your physical children, what would you do, and how much do you care for the life of the souls, (3:02). which your life will lead to the creation (of). **If the religious leaders can explain this to us, it means they would have already been enlightened, but they have kept the secret from humanity to abuse the physical dimensions of the man.** So it means none of the world's religious leaders and leading scientists in the religion have ever understood. And you'll understand why soon they'll all take what we call, the ?? term of, and will put the hat of the man on to accept, all the knowledge on to, than abusing the man through the same

power of the ?? head (hat). Maybe and it's my wish, maybe, that by the time I stop, mankind will have started the true journey through the spans of the U. **The reason we have introduced the EU is very simple, we would like to reach the point of the perfection for the STM before his departure to his new destination.** It's very much like when we let our child go, (3:04). we try to give the best education and best clothing before we let our child marry into a new dimension of life. The purpose of the EU is this and nothing else, the rest of it is according to the man's dimension of physicality and understanding. There is a beautiful verse in Koran, -- Which means we have given all of the ?? gifts, all of the ?? barricades of God to the STM, and it is for it, to elevate itself. **Now that we have seen that weakness in the structure of physicality, we have given man a gift. In a way we gift you the knowledge that through that gift you will create perfect souls for the new universes to be created in the dimension of the creation.** It goes back to the same, the fields of the UC from the soul of the Creator are as ?? brought, and then we put you there and you create a condition that will lead to creation of new universes. And this, as it is connected to the UC, of man's field strength will lead and attract new souls, which are common denominator to the strength of the field of the man from earth. This field itself is needed that in interaction with the other souls created, (3:06). and the stars and galaxies created by the strength, create that gap strength, or condition of the confirmation of the existence of the U. Which means in fact, if you think, the STM could be like that proton in the atomic structure of the gold in the center. Where other protons, electrons, neutrons from other universes collectively leads to creation of the galaxies and creation of universes and those who become part of the Unicose as the creator in the center of the totality. Now it's the job of those who call themselves the religious leaders to enlighten the flock of man to the truth of the existence of the soul. It means that opportunity before the closing of the shop, as we say, to prepare mankind that the man will not suffer now with another new loss of going to be where it is, that they start creating another god and false statues to be the ?? leader. The man in the dimension of physicality is looking for a purpose and it's the job of the world leaders and those who abused man to show and guide them to the right action, but this time there shall be no abuse. (3:08).

Q: Maybe a high level meeting of the religious leaders will bring unity between them if we all wish and imagine and some of them will accept and a new uniting role position in true humbleness? K- The world religious leaders know their terms. It is over. As we say, the bell rang months ago. Humanity did not listen, but the religious leaders were waiting for that sign. That sign has been delivered. They know exactly what it is. We shall see in our meetings with the heads of religion, what we call, head covers in the robes of their shoulders and they'll become man of, common man. In our time we shall see that there shall be no priests to abuse the STM. And no one should claim that because I used to be this and that, guide your soul to become and get a better position. There are no agency workers, as I call it. As the last Pope has said, he will be the last Pope because he knows what is to come. **Don't forget that these people read the true scriptures and they know what is inside it.** (3:10). Any other question. R- We have a technical question from "the Breatharian Institute" as it is called in live stream. Q: I utilize a 100% scientific accurate divining system, do you know why the standard male formulas tend to be 70% CO<sub>2</sub>, 30% ZnO, in the beginning and then working up to be 5 to 10% CH<sub>3</sub> while decreasing ZnO. and women tend to need 70% CO<sub>2</sub> and 20% ZnO and 10 % CH<sub>3</sub> .... is anyone discussing this at all is it possible that male scientists are missing this subtle difference in constitutional needs? ... (3:12). K- It's not too

technical, it's his understanding and it has to be valued. ... yeah, but then it becomes sacrosanct that is what it is. It is his understanding. It might elevate and create a new condition for the others to think and maybe understand the knowledge in different ways. Q: Stephania .... To me it's very important to have the vision because if we are the seeds of the U it's very important to become a beautiful plant and to have self responsibility to keep our vision clear ... the U will be the result of our vision if we are seeds, is it correct? K- Most probably, yes, it is according to your understanding. Q: This give you a lot of self empowerment and self responsibility because I remember you said, one man can change, (3;14). ?? the whole earth, whole U, galaxy and beyond, so there is so much we can do? K- Man through these teachings should gradually understand the position of his life in the U. This is why we started this teaching and this process and in so many ways, many people said, when we see it, we'll believe it, but when we show it and you believe it, you will give your life for it, because then you'll see the light of the knowledge of the U. Then you'll understand. Shall we call it a day... Q: Can the MaGrav or Gans make the soul more powerful? K- It depends. Thank you very much for being here today and, (3:16). I hope we all got the full message of what is to come and why we are here. Be ready for what mankind has been waiting for, for a long time and if mankind does not come to become kind to man then kindly you have missed the boat. Thank you very much and see you next week. ... Mexico City Conference February 7 - 9, 2020. .. (3:18).

.. Q: Would it be possible to add streaming for the conference for those of us who are limited in traveling with our physicality, so we could attend the conference Online? (3:20). K- The only conference that will be streamed out will be out of Tehran. Q: How do we sign-up for the online? This will be done according to the permission by the Iranian government and how it will be allowed to stream out. We have put a notice on the Iranian channel that is for others who are aware of. The 300 Euro for the Iranian conference. Those Iranians who take a guest to host are given a free entry to the conference. If you have the financial means you can pay 2 one for yourself and one for your host in Iran, or on the other hand, all the Iranian hosts will have a free admission to the ?? conference. In this process we try to bring about the condition of understanding the totality of the work of the KF and in the next few days I'll be meeting with Iranians .. (3:22). We are still waiting for answer from the office of Ayatollah K if he allows the conference to go ahead. We don't see any reason why not. You have to understand there is a very critical position for the religious leaders and not the scientific leaders and that's why we put the position to the Iranian leadership to take the leadership in the scientific world then the religious side, that is once the world religions accept and see the power of the new T in the coming weeks through the EU and other things which are coming out, how can they resist the truth and how will they find their position in this structure. Then you'll understand that there is no seat for what we call priests. Then they'll resist it because they won't have a seat, but those who you have elevated, or they have elevated their own soul will put the turbans down and that will be the end. But it doesn't mean the knowledge in different dimensions of the knowledge of the man cannot be used for themselves and the others. The Tehran conference, if the Iranian religious leaders oppose and block we will stream line and end the whole of the religious structure worldwide through the teachings of those 4 days and I will show you what is even if it means to bring the presence of the souls of the past prophets. It's within my power and knowledge. (3:24). So there is no choice, it's a one way track towards peace and knowledge, in exchange for peace and no religious leaders or world governments or

officials or leaders can block this process. You will understand step by step. Look at the structure when we announced conferences in the past 3 conferences. In Vienna there was an admission of the government to corruption and took place during the time of the conference. We saw again in Brazil. Today in Malta. Yesterday the new government cleaning up the corruption of the past and completed they start anew, fresh. These are not coincidence, as we touch we clean. Tehran in the seat of religion, the present, ?? Nothing is coincidental in the way we structured and take this. Tehran it will be streamed, inside Iran to outside Iran. Thank you very much. (3:26).
