

## 313th Knowledge Seekers Workshop, January 30, 2020

(\*\*\*\*\*Coronavirus One Cup: Hidden Secrets: Salt, Soul, MaGrav;

### English Transcription:

(:06). It's nice to be back to share more knowledge. Try to reflect on last time I explained the difference between the kinds of G and M fields which creates different kinds of life in the space and motion and the matter. We'll try to go into more depth later on. There are a number of important announcements to be made, if you remember as **KS in 2010 on my trip to Mexico, I was captured by the Canadians, literally took hostage, and terrorized, by terrorist activities of the Canadian government. I was captured on transit going from one plane to another. A gun was put to my head a few times and it was told, to my sister on the other side of the glass that I would be killed if anybody publicly knows that the Canadians have gotten hold of me. After 11 days of torture, or what they call interrogation, from 9 AM in the morning to 1 AM in the morning. They decided that I can go back to Belgium and if I would have said that this happened to me, many of you would have said, that this was just a dream.** But typical, stupid, maybe a friend in the KF. but the Canadian security service decided to leave private documents with names and everything which they copied, and official papers of the Canadian government in my suitcase, (:08). that when we arrived back in Belgium, it was very funny, as I was coming off the plane I was handed over to the Belgium police and taken to the basement and I was told, 'you are free, you can go.' And it was ?? that time. Eleven days of being told you are going to be executed, and one that you are going to be put in a prison ?? if they decide that way. It wasn't an easy emotion to go through. I think the last one who did this was Saddam Hussein. The Canadians are not short, and their masters the Americans are not short either, because in many interviews **I was told Hillary Clinton decides my fate.** I think that I decided her fate, it matches perfectly her disease, by the wish of the soul, she received what she ?? gave for many people, it is said that way. To this effect we went to, and understood the position. The Mexican conference was to be going that way, that I would attend the conference next week. **We submitted the application to the Mexican Embassy this week and our securities watched the courses, and we were informed this morning, my travel to Mexico is absolutely forbidden.** This is according to KF international securities. The reason is the same thing has been planned. My life ?? and Carolinas life is not at the disposal of some incompetent ?? people in these offices. The Mexican securities have informed the Americans, and the plan is, that if there will be a capture in Mexico or a landing place in America. The president will issue an Executive Order to arrest. For this reason I will not be attending the conference. (:10). My life is not worth much, but it is not worth for the Americans to play with. We have seen they have done the exact same thing with Huawei's daughter. And we saw what happened in Iraq 2 weeks ago. For this reason Keshe will not be physically present in the Mexican conference as we have unfolded another terrorist of duties, inside the government by officials. It was repeating what was done 8 or 9 years ago. For this reason the KF conference will go ahead as I am the figure head but the real head of the KF is Ella. She and other members of the KF will be there and I will be present in Zoom conference. Nothing changes, except that we value our lives more than some idiots sitting in the Oval Office deciding on some peoples ?? life, which is worth nothing to them. We are very straight forward on this matter and our securities have never been wrong. I had a warning last time, do not go to Mexico. You have to understand the last

trip that I was captured and terrorized was to Mexico City, during the BP oil disaster in the Gulf of Mexico. For this reason, I do apologize to the KF KS, nothing changes the conference, it will go through as it is. The presentation will be the same as if I were there but on the screen and our webmasters, and the head of KF, and other members of the KF will be there, as in Philippines and Austria and in Brazil. We have to understand, (:12). not much has changed in the world of the wild animals on this planet. When my securities, the first time ever advised me, that I am forbidden to travel. Forbidden means it is one hundred or 99% percent. When advised we listen, but forbidden we take note and we act upon. For this reason I do apologize for those of you who were hoping that we could meet. I am sure we can meet in other places around this planet. As we have had the taste of the animals of the US and the Canadian government, for 11 days, I don't think I would like to go through the same torture, keeping you 24 hours a day awake, marching up and down your room making sure you get no rest, solitary and the rest, you don't want to know. A kangaroo court, exactly what happened to Hauwei, I have been through all that, in the Canadian structure. I never asked for asylum, they put me in a kangaroo court and told me, that if I say anything in the court, there is 1 bullet waiting for me behind the door. That's what I can say, American and Canadian justice, for this reason I prefer for them to keep the bullet in their gun then in my head. For the American administration. We wish you a fantastic conference, we'll be there on Zoom. As this condition has arisen and it brings a new work to the KF. As we have seen the most powerful nation on this planet, claiming to be, have surrendered, to what we call, the most powerful knowledge. (:14). Bullets, guns, and missiles and everything else against plasma T has shown to have no match, and we see it. We'll deliver this T ?? done by the forces known as "Sapah." For those of you who don't understand Iranian culture, you have to understand what sapah means, it means army, and has been part of the Iranian culture for over 3,000 years. **We have for this moment, sapah ?? , they were set to protect the life of the nation and the king, during the Darush and Kurush time.** This sapah was established by the Shah of Iran, the last time, and in that process the name was changed to, sapar ??, which means there were 2,500 soldiers defending the nation with their lives, faithful only to the king and nobody else. They are ??? In the Iranian revolution we saw the ??joaw be dan , which means putting their beautiful life on the line for the nation, was changed to the word sapah, which means the guardians of the nation, that's the true meaning of it, means people who protect the life of every citizen of the nation. It means dedication to humanity and peace. It means those who prefer their life, not worth much, when it comes to the national peace and security. With what we have seen in the past few days and weeks, as part of the structure of the Universal Council and the Earth Council, we'll establish one Sapah, what we call, the universal Sapah. (:16). This is a military force which keeps peace on the banner of the KF, no nation, no borders, looking after the territory for any ?? names that might be . ?? the Sepah ?? .. One Nation Army, which means they are there to protect every citizen of this nation. What I foresee in the setting up of this force with the KF will support World ?? and will make of it, will be different then the ?? Blue Berries of the United Nations, as they sold everyone at any price as we saw in Africa, where the Dutch soldiers were walking away because the pay was too good, and allowed many to be executed and slaughtered. **The new Sapah will be made of every man of the nations on this planet and their responsibility is to humanity and not to a government, nation, or a district. They'll be a permanent force and they'll be used in many other positions and needs.** The establishment of one Sepah as part of One Nation, One Planet, One Race will give it security during the transition from the animal behavior of the man in the past, to the new standards the ?? ?? started. We need this so

that we will not have what we have seen in the past through the ?? Blue Berries, incompetence and in so many ways, working on the line of the political needs and not national, which is One Nation needs. One of the first jobs of this group is to make sure that no arms crosses national borders from then on. Which means no ships, planes, and no man with arms will cross any present borders, (:18). of the nations. In that way we don't to create sanctions, we create conditions that boats will sink, the planes will land nowhere, and those who planned these directions will never be able to deliver anything. Enforcement of peace through blockage of arms deals, and of those who claim that arms are the protector of their peace, will come to an end. The protector of the peace has to be no army, not those who sell as much arms to create peace, the false promises which have been built up by the American government to sell arms. The new universal Sepah will have one thing, to make life pleasurable for every man on this planet, making sure that no harm comes to man, it doesn't matter where you are, here or beyond. At the same time **it is the responsibility of the new Sepah to protect the life of the U Council and the EC, we have not changed, we have created a protection for those who need to be protected during the time of transition until full transition is complete.** We come to one of the most important things that have happened in the past few weeks and has touched many of our KS. **The situation in China with the virus has taken a heavy toll. We hear numbers are increasing.** KF last week called upon all the KF KS of China to be gathered that we could share the new knowledge. (:20 ). In that process a new structure that every man in China, and consequently and from it, everyone on this planet, has to be protected to the "last man standing" by themselves. We released a new video made up very rapidly just to be for the Chinese to understand the message that they can protect themselves. **The message was simple, "One Cup, One Life," it takes man a few minutes to make it to save his life, his family and loved ones and his neighbors. This video has been spread across China and around the world.** It is simple and very direct, some of you might have seen it, and as we were told, **it has been downloaded and watched by over 300 million in the past few days. The numbers are increasing on a daily basis.** Share it with the others and understand what it means. **This material will protect you from any virus from now on. Anytime you hear that a virus has hit, or is about to come, or even a flu, you have to understand the combination you make that you are protected. I developed this T for deep space as the space is the point of the virus,** as you hear in the tape. I'll ask our team to share it with us, and if you have seen it bare with us, and if you haven't seen it share it across the world. It has saved and it will save many lives. And then we'll go back to it and discuss more. Would you like to play VIDEO of One Cup, One Life. ... (:22).

(:41). ... 41:30; K- Thank you very much. As I always say, it's the last man standing and hopefully you are not the last man standing for China, or the last man standing for humanity, from this disaster, which is not Chinese anymore. If according to the statistics of what is coming out and the research done, if this virus takes hold, (:42). **the estimated loss of life is 60 million plus, not just in China, but US, South America, Across Asia, and every corner of this planet.** The problem with it is, us as men we love to travel, to go to new places. This time by going to new places during the Chinese New Year we have brought the gift to rest of humanity. **It has to be understood that this is not the first nor the last time, but in opening the Universal Community (UC) to man he will continuously bring these kind of viruses into the atmosphere and the life of the man, be it on this planet or be it ?? wherever.** Therefore we can see how and why we needed to show this for the first time, then on the back of this a new T

will be delivered to the Chinese government in the coming days, that will support the Chinese nation in a very effective way. Then we learn, this is a pre-run to what mankind will have in the space. As I said, by 2021 we'll open the space and with this T and this virus we are getting the first lessons and first tastes of massive virus transfer to the human body and in that process, how we can handle it. My advice to the Chinese government is very simple, do not panic, we always see these things. (:44). Until we find out that the virus is there, we always have fatalities, or some other effects that we see. The KF stands solid behind the Chinese nation and government. We respect the wishes of his Excellency President Xi and KF China is at the disposal of the Chinese nation. Many Chinese KS are now in different places, making these and sharing knowledge and the process has already started. **We know of possible 5 cases which have used the Gans, even with a temperature and it has disappeared and faded or reduced. We know this T works and it's up to the Chinese government** at this moment and in the next few weeks up to the American government and the rest of it. You have to understand something very important to all of you who live outside China. **The Chinese government has central control on movement and everything else, and they will contain this, they had a pre-run some years ago. They have blocked cities and the sections where there is a much higher rate of infection and they will contain it.** It will take another few weeks. They will contain it. The death toll might reach a peak and then will stop because the person to person transmission will not be there. But in the US you are free and will very soon (quickly) take it across (the country) and the government can't confine you. (:46). The same with Europe. This is the biggest problem, the main damage will come outside China. ?? in China they have done damage control by the central government. You have to understand, one of the main things is, as I explained, in another teaching, **we were expecting this virus. This virus is closely in energy connected to the African Pig Flu on the energy structure, and it combines with the second of the first strand, and with that makes it guaranteed. What has happened and why we see such a rapid structure development is we can connect this virus to the African Pig Flu, as I said, in an earlier teaching from a plasmatic point of view, not biological. What we see is, what has happened and it's deliberate accident, not accidentally accident. The Pig Flu was delivered into China as part of the double combined virus, and now the second has been release, this is why it has taken hold so rapidly, and it will go very rapid. What has happened is that the infected pigs found an opening and their way into the market and the people who have consumed them, they already carry the first strand of the two strand's, common denominator, (:48). and with this we see the second strand completed. This is a designer virus, that was introduced deliberately.** Last year I warned the Chinese authorities of this. I always said, even to Guan Lyn, I am waiting to see where is the second one. **This like a composite group, one on its own doesn't have much effect, but when you mix the two, it is deadly.** What will be interesting to see, if, as we expect, this virus will not take shape as such, but will attach itself to others in the Western Europe and America and other parts of the world. But in China, it links itself primarily to Chinese, who had the African Pig Flu. **It is sad to see that some people chose this path to create this mayhem. Everything was controlled and timed to create the maximum damage, on the Chinese New year, it wasn't accidental. I was fully expecting this,** my expectation was that it would hit China on the New Year, and it hit China on the New Year. **This is why I announced the establishment of the universal Sepah. These criminals who bring these things have to be brought into justice** in a way that ?? (:50). In a way what they deserve is to be given the same virus to them and their loved ones, that's all. If they can stand it, they

have worked it out themselves. If they have been so much involved in making and controlling and whatever else, that is a decision of themselves. This has to stop, these kind of atrocities have to stop. The biggest problems will come for nations like the US. The KF will support humanity, but KF can't be there to watch the abuse of humanity. **I give full support to the Chinese administration if called upon to travel to China, to do and take part in controlling it. It will be done without hesitation.** At the same time the KF in China, has been producing as much as they can, we know what we need to do. In the next few days, we'll hope to receive a positive call, by the Chinese administration, calling the KF into support. If we get this call, I will call upon all the KF worldwide to transfer as much material into the Chinese territory as we can support with new T. Then we'll take shape in how we support the other nations. You have to understand that **3 doctors died** last week in China helping others. **Two were in touch, they were there to help the first victims, the third sat in the same room and just had a drink while talking to them.** (:52). **If you have found one person in the US who flew from China, with 200 passengers, going through American immigration, all the offices, and those 200 are now traveling in 200 different directions across this nation.** The third doctor. The situation is worse than can be imagined and it needs to be looked at. The job as KS as you are, is to prepare yourself already at your homes. It doesn't matter in which part of the world you live in. We never know if our next door neighbor was an passenger on the second flight from Los Angeles to Seattle. And then another 200 passengers on the same plane, 12 days incubation, 24 days strength, to the second incubation. In so many ways, it is your responsibility, now that you know, to prepare everything for yourself, your family and for your nation. This flu will take hold, and it will take hold drastically. We see pictures coming out of China which are horrendous. We see pictures which are not seen so much outside China, (:54). but maybe you have to see it, to understand what we are faced with, what is there and how things are happening. One of the most important things for you, what I call, European and American, is very simple, try to understand this process will be extremely dangerous for all of you. What I am going to show you is very simple, the Chinese can do things which our governments cannot do, they have a central control that our governments don't have. We are in a worse state than the Chinese, their government can secure their citizens. this is part of what you have to understand, we are dealing with a lot of disasters which we have no control over. I would like to share some of the things we get, and there are many in the background we see. I shared a couple of videos and pictures with you last week. I share with you what, as European and American citizens don't have, a nation and leadership which cares for its people and a government structure (:56). that can protect its people. We don't have this and in China they have and they'll control it. The Europeans, Americans, and the rest of the world will envy the control which is set and is done for and by the Chinese government for the people. This is what I see in the Chinese community, these are pictures sent by KS and share them with on the Zoom ... This can't happen in the West, where they have these kind of freedoms, but in China this power of government allows for the security of the nation, and this we don't have in the West. **They can isolate .. cities and communities and people respect it. Unfortunately there are too many guns and no one will respect. We'll see this to spread to US and other parts of the world, if this happens there is no such control.** The good thing with this structure is that when it is contained like this, (:58). When we go in as KF we can in one go, clean up the whole city. We can bring control back within weeks, where in the rest of the world we don't have such a setup. Shows photos. This is China under control. You show me Americans who will stand that. This is the eventuality of locking down cities and this is now in China. As KS you

have to be able to be ready, it doesn't matter if it comes or doesn't come. At the same time, teach as many. The link to the KF is there, it's translated to other countries and cities. You have to understand that if 6 were found in Brazil, the 6 came in 6 different planes. Just give it time. The woman worker who washes the dishes coming off the plane, changes the trash bin in the plane, is in the same danger as the guy who sat in the plane. This is a reality. Now you understand why people in China are much better off, (1:00). then people outside of China. **That is why we made "One Cup, One Life", try to make as much as you, as many as you can, in case it goes out of control, because we don't know who was on which flight. This is part of the work and we'll face many crisis's like this when our travelers of the space come back. If you look at the Universal Enhancement Unit (EU) this is where we travel back into, and travel to, from, more or less a quarantine unit.** If we could have a picture of the EU you'll see it. **It is made to contain life and energy and balance the forces according to the environment,** you land. When we go into space it is not that we become again man of the earth, and become selfish, me and I. We have to understand when we enter a new community of life in the space, what energy we are carrying that it is not a virus to them. Man's respect for life has no limitation to earth, but is limited to the U. (1:02). Then you'll understand why we took and we take such action. You need to understand, that going through the transition, the EU, when it closes it creates a condition of the womb, the condition of the position of life. As every planet is a womb for a life, it creates itself for itself. It's you who has to understand, in so many ways, as man opens the doors of the U, we'll find that **many travelers of the U can never land on this planet, because the condition of this planet is (like) the virus which is killing man in China.** We meet in the open spans of the U, where we greet each other in the spans of this galaxy, but we not be able to make a different home, as home can be a death sentence to the friend. The same for us and this is a new way for mankind to learn about what is to come, what is to be, and what it needs to be in that process. As we explained the KFSSI research teams have already started, they have gathered themselves in forming and shaping this month and hopefully by the beginning of February their real work starts. **Part of the work of the researchers in KFSSI has to be the understanding of the field forces of plasma (PI) in the virus level. (1:04). The virus is to understand how the cell allows itself to collect, what allows the man's, what we call, Amino Acid (AA) of the soul, and the DNA and RNA to connect themselves with another energy.** Is this a need, a shortage of, or a wish of? Many of the KS research time has to go **into understanding the strength of every field, which comes out of every star and planet, how it interacts and effects us.** As KS, the peace dividend is a research dividend. Now that we have more time and more finances will be available for nations to spend on research, just as much as they spent on arms, then these kind of researches for space become necessary. Those in KF will take the lead in the coming time, when KF will be put in the universities to become lecturers and teachers in these schools. In effect, **what I am looking for in the KFSSI education platform of research are the scientists who can go to universities after the completion of their researches, to teach to the others.** And then we can support. (1:06). We have seen one of the top KS of Brazil has managed to put some 20 doctors as KS together in a hospital, and I will give them 10 hours of private teaching directly to these doctors, that they can bring these processes directly in the hospitals to their patients. This is important for us not only on the medical side, but even on the agricultural side. We have to be able to understand the totality of the knowledge and one of the reasons that I am stepping down totally, is to be able to teach, one by one, most of the KS and in depth, the edge of T to the scientists. The administration and running of

the KF is not my job. In that effect what you will see for example, accidentally or by whatever, the conference in Mexico will be run by Ella of the KF, as she is taking more and more of the responsibilities off of my shoulders. And she decides the running of the KF. **The respect for her has to stay sacrosanct, she has put all of her life into the KF. In so many ways, it's there, her presence is my presence.** We share the knowledge, not the ?? of the KF. As we are the cornerstone ?? ?? In the time to come, as I spend less and less time, as KS, you have to start running the KF and understand how to set up courses and structures to make the humanity ready in the coming months for interaction with the UC. (1:08). Understand how you will manage and structure it, how the Earth Council (EC) and U Council take charge to guide humanity, over the ?? at the KF ?? The job is not easy, you have seen how one small virus has brought mayhem to nations. Now **we can expect one more.** You have to understand that gradually **as KS you are taking charge of the KF for centuries to come. It has to be correct and done on the basis of devotion to humanity, not to the KF. In that way the KF becomes humanity.**

Are there any questions?

.. you have something on your screen, it says Mexico City, Kenya, Tehran. The Iran conference is under a lot of pressure to be going through (happen). Those of you who go to the Iranian embassies, (1:10). please hold on for another 2 weeks, until everything is done inside Iran. **This conference is a very important conference, it brings the bearer of the peace and science and T and it has to be done under the full control of the Iranian government.** The KF team is working on it, please wait until we tell you when you can go to the embassies to start the applications and what is needed to do. We'll see if we can get any kind of clearing for fast lines for the KF KS who enroll or have already enrolled for the Tehran conference. The Iran situation is very delicate. Iran has taken the leadership in science and T and at the same time become the cradle of the new space T. It takes time to let and get the Iranian leadership to understand the position on the table. We have received very good signs from, what we call, the last weeks private talks with his Eminence Ayatollah K. Iran will become the cradle of the new space T. With that space, and with that understanding with his Eminence AK private prayer, T and science will take the leadership in Iran and will lead the world, but we need, not just the KF KS but the support of governments to be, and to support. Upon reaching an agreement with the Iranian government on the conference, we expect an invitation of his Excellency President Trump to Tehran to be present. Official invitations if the meeting is agreed, (1:12). will go directly to the Whitehouse. We will not use any intermediaries. We put out the hand of peace in Tehran, as we did with the Obama administration. At the same time the invitation will go to all the world leaders, President Xi of China to President Putin. **We'll make the Tehran conference, the post for peace and knowledge in signing of, "enough wars."** We are waiting for clearance from Tehran. **If the Iranian government and administration is prepared to take the lead of peace, in having the first "Sepah" ready to control and support humanity towards peace,** of what we have seen. At the same time we'll bring all the KS of the world together in their own nations under one roof of sharing knowledge. **The Tehran conference is more or less the turning point for a lot of things and it needs, it's the first time we collaborate with the government for the conference.** The other conferences were done by and through the KF team. This time it is the collaboration of the two. In that process I expect the Iranian administration to invite on the religious level, the heads of the Jewish community in Tell Aviv, as well as the Vatican. When we put the olive branch of peace, it has to be to everyone and not just to a selective few,

then you have not achieved peace, you have selected to create conditions for more war in the future. The Tehran conference has to become a point that we see the Moslems, Jews, (1:14). Christians and the rest. Don't sit to become one, **accept that humanity has moved to a new level and guide humanity to a new understanding of the STM**, then you'll understand why the Tehran conference has to be agreed and released ?? ?? of his Eminence AK of Iran, otherwise it will be useless. For that reason we hope that we will receive their approval in the office of his holiness. It's the celebration of the peace and coming together as One Nation and the celebration of sharing knowledge together at the same time. Before we go into this session there is something important that will effect the work of the KF in the coming weeks and months and might propel us into the front news for the wrong reasons, but in a way it is the reason we are here. As you have heard in the news, what we call, have to find a word for it, in a way, what we said, **when the king of Belgium asked me to give this beautiful T to them to control the mankind, and I refused and we went on exile**, and following all the things we went through, part of the result of that is why we can't attend Mexican conference. **The shameful king of Belgium has accepted that he has an illegitimate daughter, which she claimed on the year we left Belgium.** (1:16). When I sat with the Belgium's, I told them, when I leave your monarchy will go. I left in February, the shameful man stepped down as a king, on the cases of being sick, but in fact, was at the same time hit, with a petition from the court that he had an illegitimate daughter (Delphine Boel). So stepping down was for the daughter, he was lying to the nation, as he had lied all the time in his life. He lied to his nation that he was sick and he had to abdicate and he became a normal citizen and at the same time in 2013, as he knew the case is coming to the court, fake application and fake illness he refused to give blood. He was forced last May to pay a heavy penalty, or to give blood, to confirm that the girl is his. He lied to his nation for 50 years as everybody knew in having a daughter, and now on 27th, 3 days ago, **he has accepted the girl to be his illegitimate child. It happens to many people, but the way as the head of a nation he lied**, and has kept on this ?? lie to this day. This is beautiful for the KF and is the reason I brought it up. **We have a second man who has paid for the patents of application, and he claims to be the 5th child of this family. As the blood of this man is now part of the court evidence, it is open to public to be tested.** (1:18). We would like the man who has paid for the KF patents, that you all received, with his generosity, he paid Mr. Red Circle by check, because I have seen the check, that his blood to be tested to that of the king of Belgium, ex-king of Belgium. To that effect, we want to show if he is, as we know he is, according to his claim, and he looks like his family. If it is it shows that the royal family of Belgium, is into criminal activities, a son hidden to carry out clandestine activities of stealing T from scientist. We'll explain to you in more detail in the future. This court case will become the cornerstone of our court case in the European Court of Justice. A lying king can lie as much as he likes, now we know he lied, he lied to his nation as a king. He lied to a daughter and he refused to accept until the court said, that he can't say no. That witness is very clear. **But this opens another channel, there are 50 cases of murder of children under the age of 10 and 9, sitting in the courts in France.** At that time, the man claimed immunity being a Prince. A common man. We have asked the Court of European Justice to open these cases in France to confirm the DNA for sexual abuse and murder of children. As I told you, when we finish, there shall be no king. Now you understand why the present king paid a visit to Canada, (1:20). the way the present king of England paid a visit to Canada. Don't forget together they have stolen so many technologies like mine, so there investments are there, waiting to use it. We have to make sure that no one benefits by their crime. We are waiting for the European Court to

allocate the time and date. Very soon we'll announce the date of Fabio in Italy for his murder. Now you understand how the game of ?? is played. It says on 20th of January 2020 it was determined through DNA tests that King Albert II of Belgium is the father of Delphine Boel, the girl. This is in Wikipedia. ...

.. by the same DNA test. The KF ..

**.. the people who paid for the patents, and the one who wrote the patent, who is their real father, who was their real soul sold to. Then as part of our evidence we can show collective killing of scientists, (1:22). organized by a state.** It's very interesting, what a simple DNA test, the saliva of a man, liquid of the mouth can show of the man. The KF states very simple ?? another man who has been on the table ??? The bank account of the Red Circle has to be checked by the authorities that he received a payment of \$1,600 Euro, as a payment for writing the patent, and he issued an invoice for it, and I have seen all of it, so we can connect the whole structure together. This is a very happy news for a girl who had to fight to confirm that a man is her father, and it is a shame on a nation that they accepted this man as their king. A cheat liar and the rest. He lied to a man, a woman, to a nation, and we don't expect him to lie, to say ??? .

**.. At least we can celebrate that we can bring the killers of Fabio to justice and many other things. Maybe we can bring peace to 50 families what have been waiting (1:24).** for years, while he claimed immunity, His saliva is part of the court evidence and can be used...

You see a picture of a pedophile. ..

Any questions.

R- There are some questions from the **video "One Cup, One Life". Some people are a little confused that they may not have some of the knowledge that most KS have about the Gans's and so on.** A lot of new people are getting introduced through that video. In fact I noticed Mr. Keshe, that video now has 31,495 views on Youtube, plus many more on other channels. but that is one of the best videos that the KF has ever put out for years. It's going more or less viral at the moment so that is good. K- The best we have had up to now is about 3 million, which is from the Earthquake ?? , (1:26). was 5 or 6 years ago in the last weeks we were in Belgium. It was watched over 3 million times, and then we don't know where it disappeared to. It's still there somewhere in the background. Any questions? Q: in relation to the European Court of Justice, is that the real reason behind, Brexit, England's exist from the European Union? **No England's leaving from the EU is, had it done, because of the, what we call, the ?? game from an African nation. When they raided Libya, as I said before, they expected 14 billion in loot shared with France, Germany, Italy and UK.** They always said, that Kaddafi had squandered everything and gave everything to his family, whatever. But when they got to the central bank **there was a 140 billion plus in the bank in gold reserves. Then the British took all before anybody knew.** They went in and took everything to the Queen of England. They were ordered to return (1:28) and share the loot because the thieves wanted to share. The British monarchy said, the present president of Libya is theirs, so the past rules very rapidly in the structure by their own man, who they put in there. And they kept the money and would not share it, and that was the immediate response, you leave the European Community. In a way, we loot, we steal, and we share together, or the one who doesn't share it, gets kicked out. This is why, if you look, the whole root of Brexit came from that point. (Before that) there was no sign or anything about it. France and Germany wanted England out, that they will never do such a thing (again). You will see the moment Brexit comes into operation, new ways of sanctions and control from the European Union on England. You have to

understand, the only way England can get food is from the US if they put the pressure on. You'll understand the game that was setup under Germany. The Germans are very punctual ?? and 140 billion is a lot of gold. We saw them paying back with taking the monarchy, understand, but this time it's the punishment for that. All the public going and voting, is all gimmick. They have no choice they closed the borders. You have to understand closing the border to England especially from France and Holland is death to this nation. **They will get all of it back, but you know, what we call, "Rothschild's" plays centuries games. They don't play, tomorrow's game. As you know, Vatican took all the controls of the Church of England back, (1:30). to Vatican. The Queen is just a figure head. They'll take everything back but it will be paid for by the British nation.** These things, the recovery of a lot of money which happened in the past 20 years in different shapes for the **Rothschild's family, when money was transferred to the other families, and as they fight amongst each other, they play these games. The same way as a lot of you never understood how come the Pope abdicated, and usually the kill the Pope or he accidentally dies.** The first ever, more or less, we saw a Pope abdicate and he was a German, **because up to that time the Pope had the right to move all the gold, and he did, he moved it to Berlin under the control of the Rothschild's family and by the time the Vatican found out that they had no reserve, they had 2 choices, kill him or do something. The German's negotiated for his life, they said, he'll live out a vow of silence, not to tell how much they did.** You have to understand why this gold was moved to Berlin for Rothschild's. **If you go back the root of it sits some 5 to 7 years before when the EU ran into problems with Spain, Portugal, Ireland and Greece. If you remember they were in crisis. The Vatican guaranteed these to the EU, because they were Catholic governments and upheaval ?? as they had an uprising in (1:32). ?? ?? the nations could not go.** In a way the Vatican underwrote the European governments for the security, and we saw how things changed. **Now the Rothschild's called in the debts and they took the gold. This is how the money from Vatican ended up in Berlin, the guarantees to bring stability to the 5 nations** as we know if you go back in the news. They were in financial crisis and people were on the street and Vatican cannot see to what they setup to rob all the European nations and then the world. As a EU, was falling apart. They gave guarantees, they actually signed papers, these are not just by talk, and the Rothschild's called in their debts, when there was enough and they had their own Pope into position. They deliberately took that Pope into position, the German Pope, to be able to do this, because they knew the loophole that they could do it. They called the debts and literally transferred all the gold of the Vatican to Central European or Berlin Bank to pay for the guarantees to save these 5 nations in crisis. These are all connected, but if you are not in it you don't work within the structure of the world security of finance, like the way we do, then you don't see the pattern of the work. These are all connected to each other. As you have seen the Pope had to take a vow of silence, naturally he speaks a lot as he is traveling everywhere. (1:34). If you don't know why the vow of silence came in, it's one of the first man ever to be put on the vow of silence. **Because in the Catholic Church the vow of silence came only for nuns when they were pregnant by the priests and you couldn't have them walking in the church with a belly sticking out, so they made this clumsy claim of vow of silence,** not to show that the birds and the bees have been busy in the name of the god. We see the first man who was pregnant with a lot of gold, not with child.

Any other question?

Q: Can you explain the differences of different AA found in different Gans's? And this AA has ?? in connection with light and the creation of ?? that was shown in Iran. ??

My mother ?? saw the soul ?? light what you call UFO but the other ?? ?? searches these ships (1:36). What does this mean can someone explain?

**K- Every AA is unique to the Cup which has made it.** Only the AA .. Every AA is not the same. .. the understanding of the AA which you make in One Cup, One Life is totally different then the others, **due to the position and the distance between the N coated materials and Non-Nano coated, salinity, field energy in the environment where you made, positioning, and many other factors.** So each AA is unique. But what I don't understand, in the question it says, ' in connection with the flight and the creation of the ?? that was shown in Iran? ' It says, "my son made the flight with what you call the UFO" K- I don't understand what this means. (1:38).

Q: I know the AA is unique that is created on top of this One Cup, but last time you were saying that every AA creates Gans on the bottom and fields on the inside or outside, is unique, different strength ...? Yes. .. Q: when you have N coating layer and the Cu, like Fe and Galvanized, you have the strength behind like Fe and Zn, it's an interaction between the strength field ?? N and matter, K- I don't understand your question. Q: How is it different when you make one unique AA (1:40). and when you change the plate in space, when you put in the middle or behind the plate, .. you choose the ratio strength of 1 cm or in certain way ... you choose the salinity in a certain way, .. .. is it right?

**K- The thing is in the coming time we won't use (Nano) plates anymore, as we'll show production of the Gans's through energies. We don't have the salts and the water in the U to be able to create conditions so we have to create the strength of the salt** and whatever .. for the fields of the Pl. These will be shown in the EU and the next generations of the EU soon we'll be able to see, that there is nothing by Pl. We don't see Gans's, we don't see materials. **We'll even replicate the field strength of the Gans's, and of the matter state, that the matter doesn't need to be there.** As I said, (1:42). in the last teaching, when I'll show the first 2 reactors, we were hoping to be able to do it next week, but as you know China is shut down. The KF team had to shut down, the factories can't be open. We hope they don't extend it beyond the 10th. We would have shown you the new spaceship reactors and one for the materials, and one for the enhancement of the body. **In the coming time you will decide on the field strength in how and what, as a matter energy is created. Do we need to go through energy to create the Gans, to create the energy to use the Gans for another energy? Or, as you will see, in a more advanced version of it in the coming of the EU.** We don't need that anymore. Because to create a matter state you have to reach, what we call a heartbeat and balance of the two, upper and lower level of the material. Now that we are gradually establishing the data, you will see that none of these are needed. When you look at the .. (1:44) **Q: Is the purpose for creating the Gans, to learn how behaves the salt in the UC like a MaGrav for sharing, for giving, learning for giving .. ?** K- It has different applications, it depends on how you can see it. ...

**You see in the body of the man, we call it a heartbeat, and what is a heartbeat, it's the 2 sequences of what I call life, in that sequence you have to understand the true position of the field strength.** If the field strength in the body of a man, is this shape, it finds its balance and then it goes back up in this shape. the sign in the, as I have explained before, you get a blip (upper peak), (1:46). when it comes to here, a blip (lower peak). and **this position of change, gives man the heartbeat. This heartbeat creates the strength or the bandwidth, that, that Gans can work within.** This is what most of you KS have not understood. **The strength of your Gans, dictates the**

**strength of your heartbeat.** In the matter state, as we have always seen, but never understood, in the world of science, you have the heartbeat like this. Where in physical life it is like this. In the state of what we call, vegetation, the beat is like this (square), more or less. It usually goes like this. On this side we see more or less, but usually these are the kind of shapes you see. This is a solid state frequency, or you call it a bandwidth. This is a plasma life line, and this is what we call plasma vegetation bandwidth. **The beauty with vegetation, or with trees, is they have this beautiful possibility that they can do this, they can change this (the lower and upper widths) as they wish. That's why they can live a winter and summer life. The humans cannot do. (1:48). But if we control the bandwidth of this cycle of life through breathing we can change it, slightly to (something) different.** Or if we can change it in another way we can extend it. What we call the heartbeat, the strength, **in the coming time mankind will understand how to do it. How even you can change some of these to the point of what we call, feeding and in a way, a transfer of energy.** This is why when you add a field into an area where the vegetations are, you change this, more or less if you look at it. Where maybe originally it was this. With the variability of the field you harmonize and make it constant, and the plant can live. It doesn't matter how it is connected to the AA, which bandwidth. **In human life you can't do this, (1:50). because the way you live with one central beat, whereas the plants have been given the freedom of motion to the central beat of the planet, so they tune to it,** that helps them with the work. They don't carry such a, what we call, secondary backup. Plants tune to this, but we as a human we move around all the time, we change our position to this, and this has created a new dilemma for our lives and our existence. Our lives the way we live, in what we call, human life is very much dictated by the earth. In the depth of the space this will change when we become regular visitors.

Any other question? Q: Why am I learning how to breath, to keeping down the heartbeat to say 100, from 15 heartbeats to close to 200 beats, Why am I learning, because change is double trick, because I hear when I breath and I hear my heartbeat and it, (1:52). changes through my emotion?

K- Because you still live in a human life and you haven't learned yet, you are still trying to learn. Maybe I'll open a door for you somewhere, to have a look at something else. If you understood this, with whatever. The passage of your breathing through (the nasal passage), or with the food you take too (mouth). You want to control this (the food), to elevate this (STM). What you have not learned, which is normal with the humans, why don't you control this (STM) to control this (breathing & food). **If I control the strength of the fields of my soul, will I need to eat or to breath?** But you are human and you think this is the way to do it, so you use the hardest part as men usually do. If you understand and find a position of your soul in the dimension of the creation, your own physicality, why are you going through the process of breathing control. (1:54). Why don't you work through the process of the soul to feed the physicality. Q: I have already done, in certain ways, I don't sleep for 24 or 48 hours, **I feed me only with the emotion,** I stay in this room day and night, I don't sleep, I don't eat in the physicality way. **I found a way to feed myself from the soul level.**

K- **So gradually more people will learn this. But the thing is to extend it to 100 days then 100 years. From 48 hours to something like 200 hours is normal.** You have not passed the barrier yet. 48 hours is normal, **a lot of people can go 48 hours without food and sleep and be as good as normal.** I showed a trick to the KS, in one of the classes on how you can stay awake for a longer time and be more energetic by drinking a cup, if you **add a little bit of salt to your coffee** you can go (bang), like a pack rat. Do you think sugar makes you hyper active and keeps you awake, try salt and a cup (of

coffee). **Because salt is part of your life, it's the channel of the solution and dilution of energy.** Q: I have the trouble with my wife because I am eating so much salt, in extreme, sweet and salt. (1:56). K- You must have a Chinese background somewhere, no sweet and salt is the Iranian culture. We eat that quite a lot, it's part of the structure of the food, but the salt does this. When I was a boy my mom used to tell me I used to eat a huge amount of sugar and huge amount of cheese. Normally they say when you eat a lot of cheese it makes you thick. But I don't think she realized that **I knew the secret of the energy.** If you have a **protein and salt available, if you add sugar with it. It's an everlasting motors.** And the thing is because it works, **it goes directly to the brain,** and you can see the difference. Any other question?

Q: .. (1:58). It's off the topic. **I am having problems sharing KF videos on the internet, I am wondering if I am the only one?** K- **This is part of the control by the Rothschild's family and Fox** and .. You have to understand we promote peace and the way it goes in the past few weeks, you know where the **Facebook and the others sit, who owns them. They get instructions and they work on instructions. The owners of these organizations are not very favorable with what ..** they see it as a damage to their interests. We had this and know it exists. If you go to Wikipedia you can't find MT Keshe because if they decided if he doesn't exist, then nobody will search for it. Unfortunately they searched more for it and they found more about what ?? ?? things about him. So people are becoming aware of the wonderful arrogance and control of these organizations. **But it doesn't really matter. It's been put up 3 or 4 times in Wikipedia and it's been taken down, because if he is not here, then he doesn't exist.** That's what I call the Jewish mentality. You will understand this very easily, they have decided if he doesn't exist on the Internet, on Wikipedia, the public doesn't understand. Facebook (FB) has lost its face value and not we see very strange things are happening, I saw a beautiful article coming out from a presentation, (2:00). of president Trump a couple of days ago with the president of Israel. If you can find it on the internet. He said, **the state of Palestine will be accepted as an independent state when bla, bla, happens and he refers to, if I am correct, like a, they have to show there is no fraud** or what do you call, there is a word he uses for it. **The strangest thing is the man standing next to him in the court of Israel he is standing for 2,000 cases of fraud and deception.** It's ironic, the guy says, the ?? assets he wants for the Palestinians, are not involved, in this, this and this, is exactly what the guy standing next to him as Prime Minister of Israel. What is the word he used? ... If that is the condition on a nation, how come the guy who is supposed to be from the nation, has 2,000 court cases by his own parliament on him. ??? a couple of days ago he offered them 50 billion to ?? peace between them ?? ... He's telling back what the guy is literally going to be convicted of in his own country. This is the hypocrisy .. (2:02). it's part of the speech by Trump on Middle Eastern peace talks. He is going to offer a new deal for the ?? You have to understand the American administration now after what happened in Iraq 2 or 3 weeks ago. He doesn't talk about war with Iran anymore, it's all wiped out of the Internet. Everything else which was there, has disappeared. We see this is gone, don't get upset. Many KF people have done that. if you go on the FB, there are many Mehran Keshe's, they allow anything, fraud, any rubbish to be put in. The owner of FB he knows, he actually encourages them, because don't forget, he has a big problem. **His space programs are on the way to obsolete. NASA used him as a donkey, until NASA can develop their own processes that can carry,** .. this is part of what it is. Q: Mr. Keshe FB for a long time belongs to the CIA, they bought it. K- Don't worry about these things, that is their problem. (2:04). Everybody owns everything at the moment, because if you own a share in the market, of it, you own it. Any other question? ... R-

people are coming up with questions about the interaction of the virus energy and the depletion of the virus...

**Q: In what M and G way does the virus energy get depleted, by giving its energy to either the lower energy of the body or of the Gans? ... repeats .. (2:06).** Q2: How come the Gans water is of the lower energy, then the body Gans?

**K- The body Gans is always a composite of many, and what you call the energy Gans of .. when we talk about the Gans of the body, you have a composite of many, Cu, Zn, and many elements (draws a cell). The virus links usually to the AA, and in the dynamic life of the AA, this will use the energy, and it gradually gives out (draws the AA replicating itself), like a flu or whatever, until it comes down. In our case, we put the AA and we attach 2 little things, made with Zn and CO2 to it. Now you can see the difference (very large cell and draws tiny Zn and CO2 Gans), it depletes, and through the line of connection, this gives part of the energy. This doesn't deplete completely (the cell shrinks but does disappear). This becomes like this, it is still there, but as energy, where this (Zn Gans) grew from this to this (Zn Gans becomes much bigger). It's what we call, "camel bird" they carry now energies, which does not attached to anything. This is how it works. (2:08). **The reason we ask you to put an AA, because then it is easy, the connection is very rapid.****

**The KF has developed a new T that will control AA in all directions, even directly to the STM. This AA will be used extensively in the new EU. That's why when I tell you, when you go into these EU, we elevate the STM and nobody can copy it.** Because it's a combination of things, part in??, part in T, and part connection to the cosmos, I have used to bring you .. I carry the knowledge of the U, and it is very easy when you know how to play. This is why I tell you, **very soon you will see lights coming from these EU, (which is) the strength of the STM.** Very soon these will be very easily explained in that process. This is what I said, when for example, we asked the Pope to go into the machine and then we'll enhance his soul and it will become a light. As he comes, can he claim to be the Christ? (2:10). Because you'll find out, that the light of the Pope will shine the same as Alan Sterling (convicted pedophile), they come from the same behavior. This is what you will see. In so many ways, I know the T and also the structure of the body of the man and you will see, that's why I told you to buy as many machines as you can, if you get it. I salute you. Be careful you don't come out as a pig, there is an African Flu for it. **You will see, many will come out of the machine as a soul, then when they come out they have to decide if they want to stay as a light, or will they take the dimension of physicality.** You have to remember a leader has to lead his nation and his people first. In the olden days when we have the Roman Emperor, the king was always in front of his soldiers that's how he gained respect. I wonder if the Pope would do the same? (2:12). Don't forget he was the first Jesuit, he is a soldier of the Church. In the interview which last week was made on Iranian television ?? to be broadcast ?? if they have taken permission to do. The interviewer asked me, why are you like this? I said, it's a big problem, **I come from a line of Cohen in the Jewish religion, I come from a line of Saheeds from the Moslem side, and these two (lines) cannot be killed.** That is why the Jewish state has a problem in killing Keshe, and so does the Islamic states. You cannot touch the blood of the prophet. Let's see if we can bring peace to man it doesn't matter what he wears. Any other question? (2:14).

**Q: In your research are there any more than 20 AA? K- Do you want to know the number of Amino Acids .. 20000000...** I don't have enough whiteboard, sorry about

that. Let me explain why .. **This is the 3 layers of the skin of the man and each one and in each position, different cells, each one exists and holds, it doesn't matter what shape, a specific M fields which leads to the manifestation of what we call, the physical skin, a mirage, our skin is nothing but a mirage. If you realize that number 1 has a different salt content than #2, or #3 or .. or whatever, each one holds a position according to the specific salinity and a specific position, ... (2:16).** So if each one has to have a specific salinity to be a cell in that point, now tell me, do you have 20 souls (AA's)? But, then you have to understand, this one carries the salinity of the salt of the cell ?? layer , and this carries the salt of the cell ?? layer , and then the same. this (middle layer) always carries (PKFS) K, Ca, Ph and sulphur salt, this one (1st layer) carries it the other way (KPFS), this one (3rd Layer) is totally different (SPSK) by order of magnitude of the strength, and then on top of it, there is salinity. The salt combination of the body of the man is the backbone of the structure. **In Homeopathy, they believe in 12 salts** and I know that some of our doctors work that way, but with me, we work with, no condition, but understanding of the position, what it needs to be.

**The mastership of the man will come, when for example, you can do the 4 chambers of the heart and the connection of the blood vessels. (2:18).** What we call the vessels which sit around on top of the blood, the arteries. Then you'll see how a small salinity allows the connection. **Change of salinity, and change, and then what salinity allows the flexibility and allowing it to shake itself.** If it was a car on the road, and it shook as much as the heart shakes in the lifetime of its shakes. And this thing never lifts apart (arteries never ripe from the heart), at the point of the pipe, and the engine, because it continuously adjusts itself. The body of the man is a marvel of engineering of the PI fields.

If one day mankind reaches the point that he can change one single cell, one single cell, and be able to replicate it. He would be ?? another brain, in the same position that the order of the others don't change. **Then man might have reached the point of understanding, maybe 1/10th of 1/10th of 1 percent, (2:20). of knowledge of the U.**

Q: Can we multiply AA like growing salt crystals? K- Of course, God does it, why can't you do it. Q: Can I multiply my 2 souls (STP & STM)? K- Why? Would you like a bigger head or bigger toe. R- Does not the Creator create more creators? Maybe that is what he referring to. K- We always create, it's man who puts limitation on the limits of his own understanding. In the knowledge of creation there is no limitation. I have said that many times. I always said, man will understand this T according to his intelligence. (2:22). And some of those intelligent leads and ends of with 3 words, PhD. That's it, I want to live off it for the rest of my life. I have gotten myself, "donkeyed" with 3 words, I am very clever, just 3. Q: If we know how to stop eating why do we do it? I am sure pleasure, for emotional satisfaction of that taste that tickles my soul?

K- A woman asked me that question years ago, she said, " why did you come here if you have everything?" I said, **there is a pleasure in the physical dimension and we come here to enjoy the presence of it. The life of a man in the dimension of physicality, is the pleasure of feeling that physicality, be it an animal, a woman, a flower, and seeing it, you don't need to touch it.** As I always say to Caroline, she says what are you looking at, I said, I am admiring the beauty of what I have created. **That's why we come here, to admire what we have created, and what it can be given. We come to the dimension of physicality to understand the limitation.** As I said once to a friend, do you know what is the difference between a theory and the fact? Theory is that in the U we make a lot of assumptions. The fact is we come here and we see what the human in the physical dimension has done with it. (2:24). We write a lot of papers,

that this is going to happen to this, and this, and we go to the laboratory, in the U, we call it earth. We go there and see if the theory works. **Now you understand why we come to earth sometimes, we want to see if what we assumed theoretically, works physically, for the ?? of his existence. I call it, the love of the U, and we have many of these labs, or these creatures that are special.** I never forget the first time Caroline says, why did you come here then. I said, because the earth is a place of existence, it was the pleasure of existence, touching, feeling, smelling, and loving. **We wanted to see that if what we did in theory works in reality and practicality.** Q: I think it's not difficult to see that in the practice here on earth. K- Everything is possible. I had a big discussion with Armand this morning. He said, you are not coming to Mexico. I said, I am not coming because I don't want to be killed or be imprisoned with Carolina and Rubin for months to come. He said .. It's very simple, **I came here to share knowledge and not to be imprisoned for the knowledge. (2:26). It depends what we decide to do with these pleasures of life and the prison of physicality.** It's very much like you go and teach something and you build a theory, and later on you see your invention in the shop, or in somebody's home somewhere, and you say, oh this is what I invented. This is what we see with the STM in the span of the U. **We say, this is what was created on earth. Then we see a lot of problems with everything which is exported out of earth.** Like do you remember 20 years ago everything made in China was faulty, they didn't get it right, so it was made on earth and we have come to fix it. The Chinese took time to fix their products, it took man millions of years to fix his. So we come to fix. Shall we call it a day. R- Do you want to see pictures of the One Cup, (2:28). Yeah, I have seen one beautiful one. Why not we share knowledge, it's amazing. Since the MaGrav systems that many KS tried to make, **this is the first time KS are at in again. It's like they were waiting for something to come from Papa to see how we can do it.** So let's see what it inspires or does it die again with the MaGrav. There is one that is so gorgeous, it's so simple, I think you can find it. It's a piece of wire, he has hung a Zn, Nano coated, he actually N coated the wire itself and then he has put the Cu here. There are wires coming out of the plastic and he has connected to the battery. ... I think it is so simple and beautifully done. **Actually you can connect the 2 without the battery to one. The way it's done you can connect the 2 to one end, and one to the center. (a wire where the battery was) (2:30). The Potential Difference will be created, you don't need a battery,** but the simplicity of it is just, so sweet. .. Shows the photos.

(2:32). ... even the choice of the color ... I think we are starting to get you KS moving again. In the coming weeks we'll launch new scientific technical products. What you might use in N production or the plasma for detection or whatever.. (2:34). This is how easy it is to save a life. ... Q: Carolina, I have quite a few questions in my private teachings where people keep asking about the MaGravs. I said you all have been asking the technical questions to Mr. Keshe, but you never asked him to reveal what the MaGrav system is actually a gift to humanity. I was waiting all the time for this, because last Tuesday we encouraged them to put the questions through to Rick to ask about the MaGrav but apparently nobody is daring to ask you or to open that door. But so many people have made and bought the MaGrav and they are working, but the finice of your understanding of what it is (2:36). I think it might be time for you to open that door of beauty for all of us the same as you have given the Cup. of Life. Would it not be time to open it for the MaGrav too? ..

**(Secrets Hidden in One Cup: Salt, Soul, MaGrav)**

**K- This shows the beauty of how simply you can make Gans's. A lot people were expecting to see a green Gans, some see a yellow Gans due to the higher energy they choose in their battery.** If your battery is not so flat you'll see different colors of it. But again, it's that level of the Gans in that strength of the Cu. Keep that picture, Here you have seen something that you have never seen. You have a condition here of what you think, CO<sub>2</sub>, sorry, here you have a condition of CuO<sub>2</sub> (changes it), .. here **condition of CuO<sub>2</sub>, here a condition of C**, but what you have to understand, all these pictures have a different strength. As you create the same here, the set up a flat piece of Zn, (2:38). for a different strength of Cu, **you create a spectrum of the Cu and CO<sub>2</sub>.** Because it is not only this and this. It's this with all of it. the same with this and all of it. This is why the AA which you produce on the top, here, has a spectrum of, and **this is why this thing is so effective, it carries its own AA spectrum, CO<sub>2</sub> spectrum, Zn spectrum.** But there is **one thing hidden you have never thought of, most probably, is now that you have created the Gans condition, the condition of the matter Cu with matter Zn , this is the connection between the brain of the man and the physicality, is in the strength of the Mg more or less. This is how most of the salts are made, because these waters are in the condition of the plasma of the U, they are not just water.** (2:40). This is how salts are created in the U. **The G pull in the matter state, which is what we call salt. This is the secret in this Cup,** and you were looking for something else. This Cup when you produce it, has **another secret, a beautiful hidden secret.** It's very simple, as **it is a dynamic between here and here (between the Nano and matter Cu and Zn),** why this system touches the man, the ill person, is, that **this system has a soul (dot in middle).** **Because in these 2, one is a sperm, and one is an egg. And this is the womb of the mother. In fact, if you look at it, I have given you a real Cup of Life, where the real life starts.** (2:42). Originally I taught this years ago, but nobody understood, maybe this time some of you will understand. Then **if you turn this 90 degrees you have the Cu fields, the Nano fields, and the Zn fields, isn't this your MaGrav system.** What did I tell you, I always told you. It's very easy, **why we do not need prophets,** because I am another magician in the dimension of the universal knowledge. If you understand it, you would have seen what I set up. If you understood that, it answered the question that just was asked, **the beauty of the MaGrav system is the soul in the center of it.** You were looking for megawatts, **I am looking to energize the STM. If you come in with the wrong behavior you get nothing from your MaGrav physicality. The MaGrav systems have the energy of the soul,** and many of you will never understand, because the man is so physically weak to understand the knowledge of the U. How many times we said, if you put something on top of a MaGrav, you will feel the fields. (2:44). Isn't that field, these fields. When you sit on it, you get from it.

Q: Do you remember a lot of **MaGrav systems have been made with the crystal in the middle?** Yeah. Can you explain more please? ... K- This is very much, when you have **crystals you can unify singularity of the chosen fields.** People who did, maybe they understood or never understood. I explained that when you started playing with crystals to understand what you make. ... Go to whiteboard. You see **when you have a planet, you have many fields, (2:46). coming in and going out. We don't know which one is which.** Does this one end up with the soul of the mother, and this one with the soul of the cat, and this is the strength of the soul of the stone, or is this connected with the soul of the Mars or Moon. **When you put a crystal in the system,** and if you understood what a crystal was. As much as different energies come in and the rest of it. Then if you understand, then **in the future you decide, I am**

going to go into this one (choose an individual field), or you decide you want to connect to this one, the soul of my dog. Or you decide, I want to be, we call it mono field to the moon. We'll play games with crystals later on. Man hasn't got the knowledge yet. ... Now you understand the knowledge of crystals. But you have to understand, (2:48) **where the homogeneity of the signal and the strength comes from and goes to. In the future, the KS who expand into the space travel they will be able to do this. They'll close the circuit, because you need the feedback of the same, to be able to become part of it. The Iranian space T scientists have reached that space point.** In the Tehran conference, if his Eminence Ayatollah K allows, we will show technologies which man could ever dream of, as I said, why are we ashamed of the knowledge we have, when we have to be proud of it. Any other question. This is an answer in a very direct way to Dr. Alzar. (2:50). If you understand something, it is very easy to understand (draws a loop of the fields), but if you don't understand it, you can sit there and scratch your head, did I connect to the soul of the mother or did I do what happened. This happened to me this morning, Carmen came down, our boss, (2:50). Mr. Tipoli (dog), I usually feed him because he has everything he usually gets from his little trick, or the treat, but he was going on and on. I said, Caroline I don't understand what he is telling me. She said, he said that when you came to the room you closed the door, instead of letting me tell you, he doesn't like you to close the door, because he couldn't be with you. When she explained that, he went quiet. Absolutely quiet, no more barking, not even once. She understands the language of the dog, **his soul. He wants to tell me, next time don't close the door, because he always follows me in and he gets treated as the boss. It's what we understand and how we are connected through the soul.** Any other question.

Or shall we call it quits. ... Q: Can I share one of the MaGrav with the crystal, the one Klaus made in Austria? (2:52). Which Klaus. ... shows the photo. Q: This must be Santa Claus. K- Their soul is on top of it, connected to it. Thank you very much. Q: Libby, .. Yesterday when I started making the One Cup, **I decided to use Mg Sulfate (Epsom Salt) instead of kitchen salt is that a good thing?** I am going to make another one, I made a lot of mistakes? K- **Yeah, actually the Mg salt connects directly to the STM, why not. Q: Excellent, because I felt like I had an interaction with it when I was going to bed last night, I felt like I was communicating with it.** K- You feel in love with it, is it? Q: I did. K- Let's go to bed with me (ha, ha). .. I was, 'is that reactor talking to me.' (2:54). I was really amazed and I want to thank you again and again for what you have done for humanity. K- You're welcome. As long as it doesn't wet the bed it's good, be careful how you keep it up. As I said, **the limitation of this knowledge is the limitation of man's understanding of his own limitations. We limit our knowledge, there is no one right, and no one wrong, and this is what I said with the new T, there is no fear in it. If it gives you a result you have to understand why. Why do you feel it when you choose the salt of Mg. Because in the brain of the man you have mainly this, Mg and Ca and very little P, you have a Zn, and hardly any, zero Cu, very little. These (P + Cu) are very minute and are used in very specific positions. You have a huge amount of what we call, radioactive material K, (potassium), but we don't see this, because this is the holder of the cells of the body, and in so many ways, we have very limited amount of this (Na). (2:56). There is vast amounts of what I call, (P) Phosphor and Sulphur, connected to the dimension of repair and multiplication of RNA. If you have chosen any of these salts (Phosphorous, Sulphur, Na, Mg, Zn, Ca ) then you have to understand where you are heading. If you notice, here (P + Cu) and here (P + S) each one has a specific reason and position. Each salinity between these, by connection of the CO<sub>2</sub>, ??? you have a CO<sub>2</sub> in lungs, it's**

very simple. And you have CO2 in your brain (draws lungs and brain). They feed each other. That's why they are placed above or below each other. The line of connection is CO2 in them. That's why when we breath, when we start our breathing channel the whole thing falls apart (?? the virus). (2:58). When we breath we don't pass energy, then the energy is outside the physical boundary. This is what we see in the structure, so any of these salts you can choose, this (K) has to do with the STM, if you use this one (K) and understand this one (Mg), and the connection with this one (Phosphorus + Cu), or connection with this one (P + S), especially, then you can reach the STM and the soul of the ancestors. But this needs a very deep understanding.

Q: is this the reason why you use 6 to 7% **CO2 in our brain?** **K- Without it you don't have the connection with the lung. The field is created, controlled and linked up through the lung. One of the reasons we released CO2 is to keep the structure of the brain in order.** .. Let me explain something please. You have to understand that we create huge amounts of CO2, and we think we breath it out, but as we said, **when you breath, if you remember, draws mouth and nose, you get the best and highest energy. You do the same when you breath out, you get the best and highest energy, which is needed for interaction with the physicality and the STM.** (3:00). It's not that you just breath CO2 out. It's the same process, the best of the highest energy for connection ?? for the physical construction with the body comes on the way back (out) too. This CO2, not only linking, but continuously confirms its existence. We are always looking at what we take, and this is the biggest problem with the human race. If you go back to the teaching in the past I explained to you, that when you breath the soul takes the best, the soul is a clever chap. And when you breath out he also takes the best of what is created and good for itself too. Maybe for the first time man understands why he breaths CO2 out, and that is why when they cut the throat hole, if you cut the breathing line, the brain stops because it doesn't get what it needs to match, to link up and create a dimension of the connection with the STM. **The breathing out is more important than breathing in because the energy which it has made for itself, it consumes it. It needs it, otherwise it cannot operate.** If you allow people in Coma or in a deep shock state, to breath through their nose and their lungs they'll recover very fast, because you energize with what the body creates. **It's literally the exhaust coming out, it is very much like people who drink their urine and they say they put things back. Because the body has made it, it is matching it. It is what it needs.** (3:02). **It's not the conversion that you cross all the energy through the lung into the blood, that is for the blood, but what comes out (through the exhale) is for the STM. The very best that could be done because it's made by itself. This is the first time I have released this knowledge,** but if you understand it, go to my cups from 20 years ago this is the first thing I considered. **Breath it in, and then breath out very, very slow because the soul needs all what was created,** you are destroying everything that is there.

Q: I do 2 kinds of breathing, She describes in detail, the method of Kriya Yoga ..

(3:04).

.. I do it for a half an hour and can feel the soul is outside the physical soul. It has a big effect on the body, I try to do it 3 30 minute sessions per day. K- I thought you were a dentist and had a lot to do. (ha , ha). ... you don't even need coffee and tea, and I never feel tired ...

K- If you learn, not necessarily to breath... you see, it says, "I made man in the image of myself", I repeat this many times, but not many times do people understand what I am

talking about. It says, I made man in the image of myself. (3:06). (draws the brain). If the man needs, or the man can think, so does the soul. **The man has to learn to understand this (soul) thinking, and not this thinking (brain).** If the man becomes a passenger of space. Because **this (soul), it is this which will manifest itself in the depth of the space. And if it does, it must think that it can exist.** The problem and part of the teaching has been, and it has been one of **the biggest dilemmas for me,** for weeks now, how can I explain, maybe this is the best opportunity to do. **How can we get the man to understand the thinking of his soul and not the thinking of his physicality? At the same time to be able to distinguish, is it the soul thinking or is it the thinking of the man? Because the soul as you are, is already thinking and communicating with the other souls, what your physicality is thinking or communicating with physical life.** Then it comes, this or as you say breathing, do we by different understanding of the use of the physical dimension, can we access this line (soul) of communication? (3:08). Because **when you accept this line of thinking (soul) then you become the light.** If you work this side (brain) of the thinking, then you stay in the physical matter. We fall in love in the dimension of the physicality, if the physicality can fall in love, and "I made you in the image of myself," so does the STM, falls in love. **When you fall in love with the soul and it takes over the dimension of the life, you'll see who lied to you in the dimension of physicality. This is where I am at, but my silence is my virtue.** If you do understand this, then it comes to the point, is it the STM that we hear, or is it the physicality of the man which we hear, or do we become so transparent to our physicality, that we know the difference between the 2 ?? core poles, and when we get this balance (? imbalance) it's ?? single ?? .. because that is what happens to you on the day when the 2 (souls) have to say good-bye. A balanced book. (3:10). This is what a lot of KS, **they have to go through the transition. With this new EU coming in, you will face it, you have no choice, unfortunately. Then do I think on the level of my soul, or on the level of my physicality, because, "I made man in the image of myself."** If man can think, so it is, also, one of My own attributes in the dimension of the soul. Then if I think in the level of the soul, which has ?? no dimension, isn't it supposed to be the dimension of the Creator. Then it brings a lot of understanding to a lot of us. **Do we need to breath, to be able to, or do we need to go to sleep to open these boundaries softly. The man has to understand this, now that you are becoming aware of the soul, are you thinking with the dimension of the man, about the thinking of the dimension of the soul, or are you thinking in the dimension of the solar strength the effects the dimension of the physicality. Then if you achieve that point, you can convert yourself to anything in the dimension of the U. (3:12). Anything. Then you become that Gans.** Do you remember you have a Gans, then you get gold, silver or whatever. **So now this Gans is the STM, in what dimension strength do you want to manifest yourself.** Or is it the one you love, that loves them, and you can create it in the dimension of the diamond to see the beauty by the soul of it, that understands, appreciates the non-existence of physicality, in the dimension of physical observation, but seeing it as it exists. **I call these ones, the magic of the soul. I can give you whatever is in your imagination in the dimension of your physicality, that elevates your soul, to understand the power of my soul, what I can give you as peace and satisfaction, because your soul is important,** I love that soul, I respect that soul. It's not much, what physicality stands for. When I stand and say, would you like to see a shooting star, I do that for the love I have for the soul and with that satisfy to the eye of the man, to the dimension of physicality. **It comes from my love, for the love of that soul and nothing else, because the dimension of satisfaction, the dimension of physicality, is to satisfy the soul, then you can see as**

**many shooting stars as you like. (3:14). In so many ways, a shooting star is a confirmation of the life of the Creator, that is what the soul sees, that is what the Christ saw, Moses, and Mohammad saw.** If you understand this, you understand the totality of the love of the Creator. The life of man is a shooting star, in the broad horizon in the life of the Creator in the dimension of existence. But you have to ask, who does he please, with that shooting star? Then you have to think, from now on, gradually, as KS, and those who come to be the seekers of the knowledge, am I thinking in the strength of the soul, or am I thinking in the strength of the physicality, as, I made man in the image of myself. Then it comes to the fact, does this (the soul) have a separate lover, then this (the physicality), in the dimension of the physicality. But the beauty of it is, can this lover (soul), be changed in the dimension of physicality? For this (the physicality) it would be a hard job, because you have to take the physicality too, into the soul. **Today's teaching has brought many things on the table, (3:16). but this is part of it, for the man to be able to enter the U Community.** When you come to the dimension of the soul and **you travel the spans of the U, for your soul, how do you know what is here, or over there, what is this (object in front of you)? If the soul could not think or understand, or do we put the dimension of the understanding of the physicality within it. Then let this think for the STM.** Try to understand, that we understand the totality of the creation, what has taken the creatures of the U billions and billions of years, and not many have understood.

Any other question?

Q: You mentioned the name in Iranian, is that "Defah", our protection? You said, Sepah? (3:18). K- Sepah means army. "P" in the Middle Eastern languages is exclusively in the Persian, in Arabic we don't have it. ... Q: you write it? K- It's written like this, what you call "P" and Sepah means collection of people, in so many ways that safeguard the nation, under the king or the leaders. It was a forgotten name, until the regime of the last Shah when he brought back in the Sepah, which was 2,500 soldiers sworn to protect the monarchy and the nation. When the Palestinians raided Iran, this was the first lot they killed. I lost one of my dearest friends in this group. Nearly 30 years ago. Q: .. K- "**SEPAH**", **this is how it is spelled. This means, 'army for the people', it's an old ancient name for army**, army is a new name. (3:20). In Iran we have 2, one is ?? which is the present national army, sepah, protection of the nation. They protect the Iranian nation with their lives, as we have seen. these are part of the culture of Iran. We trust them with our lives because they are there to protect us. It doesn't matter who puts the name and how it gets used, but that is what the true meaning of it is. ... Q: In Arabic when you hear that, sebah, it means mourning. K- This actually means army. If you saw this ...

(3:22). It's part of the Iranian culture. ... Any other question? Thank you for today. I do apologize for those who go to Mexico, I go with my soul, I'll be present as much as possible on the Zoom, teaching on the Zoom. On the other hand the head of the KF and the backbone of the KF .. in a way it is a pre-run of the time to come. It's a good start. Please remember when you are in these ?? you are in the soul of the KF, not individuals to, as we say, play games. The knowledge the ?? for peace and ?? T for the governments to understand it's sacrosanct. ... But today I opened a small gap into your knowledge in respect to life of the man in the U (3:24). if you understood it. Thank you

(3:25). K- You were explaining the different meetings. Something very important Rick was just mentioning, we need, now that we are dealing with governments (3:26). in a vaster way. We need the testimonials to be categorized in a way that we can ?? print the

disease per case of tress, animals and everything else. Especially in the Golden Age of Gans where people are putting these testimonials to bring a rapid shortcut to what we call clinical trails, we need all the people who have done trials to bring all these testimonials under one bracket. If I need to show cancer, 10, 20 or 100 of them, I just go to the cancer section, take the file and I can give it to a doctor. Now that we start negotiating with governments these testimonials are becoming very important, extremely important, we are realizing the importance of these testimonials you are putting out. we need someone or a group of people who can categorize the testimonials that now we are doing research or what we call, clinical trials in China. They want to see all the trials that we have done and we'll present these as KF trials around the world. When they see different countries it gives a lot of strength to us. .. especially agriculture and medical

(2:28).

I know a lot of Chinese doctors have done a lot of work but they are hiding it. It is time to open up. and let us have the data you have worked on. this speeds up the work now that we are in with your universities.

(3:29).
