

## 316th Knowledge Seekers Workshop February 20, 2020

### English Transcription:

(:06). .. As some KS said, I am putting you to sleep, I hope it is a good dreams and becomes nice when you wake up, and reality is better. The Chinese Flu is getting extended to more nations and unfortunately, yesterday, for the first time, in Iran we lost 2 people to the flu. The extent of the disease is expanding is crossing borders, mercilessly. We have offered support to many governments, and we shall see, ?? effects of ?? on, how we can support some of these conditions. We hear from the Chinese government that they think they have managed to tame the situation, and as they said, from the 17th of March, one city should be opened for business and we wish all the best for the Chinese government and nation, that they will achieve it. The indications are totally different. I different parts of the world we'll see the drop as we come into the next few weeks as we pass the cold part of the seasons, (:08). or the year, but the reality is this virus will come back again. We have not found the solution to eradicate it. We have found the solution to maybe in some cases, reverse. according to the secret national reports, 10% of the people survive long term. The total infection is 90% mortality. The governments at the moment try not to release data so it doesn't bring national panic, but the reality in the background is much harsher, and the biggest position for us as KF KS is to get support through the new T as much as we can, and to extend it to the way that we can support other people. Up to this moment in time we have not heard of any of the KF KS having losses. We are still standing firm, maybe one or two got infected but they have overcome it. In general this is part of the T which we depend on. There are a lot of things we have to clarify as this thing takes hold. it might disappear in the next 4 or 5 weeks due to the heat, but it has the possibility to recur during the summer, and then be stronger back into winter. The environments have not been disinfected, there is no T in this moment in time that can do so. (:10). The ground for it that is hidden somewhere, can merge in any shape or form. even if somebody freezes it, and defreeze it after the winter time. In totality, we have to come to certain understanding as KF KS, one of the main things that KS have to understand clearly is the mask's that they are emphasizing for people to wear to stop breathing this airborne disease. Most of the people who die of this disease don't die of fever. the fever always drops, the majority of the cases are from the lung infections, from the destruction of the layers of the lungs. When we get these (reports) that they say the people have overcome the virus, it shows no virus in the blood, but the cells in the lungs are deteriorating. According to the official reports and what we see from the doctors facing the truth about this T, and the T of the virus to kill, is that they die of flooded lungs. The doctors report jelly like material flooding the lungs, even if you can empty it, it floods back again, and people literally die of suffocation. Up to now the Chinese Traditional Medicine (TCM) or alternative medicine has shown some sign of bringing the fever (down), and some sign of recovery, but in general we do not see at all, (:12). direct clearing of the lungs. the major problem in this disease is damage to the lungs, and not so much the fever. the fever can be controlled and the blood cells will show a perfect thing, but down the line, those who suffer form this infection, one way or another, very much like ?? leukemia, will die of the lung damage. Statistics are (only) being kept of those with none (fever), but if they follow these, and we see it now after 25 days to 30 days, the lung will kill (them), because it solidifies, they can't stop it, it becomes rigid, they can't stop. One of the things I said with the situation with the masks,

.. is that yes, you put the mask on to attract, or to stop the virus to enter the lungs. This virus officially has 30 minutes life, if it passes 30 minutes, according to the scientists who deal with it, it will not damage that much. But when you take the mask off you have to go through a strict way that you never allow the outside of the mask to touch the inside of it, when you put it away for next time use, and you never touch the front of the mask, because you transfer ... (:14). what happens is when you turn the masks, or when you touch it, or if the mask falls on its own inside out, then you carry the virus in. So in a way, what the mask has stopped, then you infect yourself (accidentally) with it, by touching it. The virus has different ways of taking hold, we have not yet seen the evolution of the virus into muscle tissue. It only effects the lung tissue. If this virus gets into the muscle tissue, we have no experience in that, we'll see ?? dead cells, ?? black skin and all that. We have not seen it yet. What happens when you use the mask, make sure you never touch the front of it, and always put it flat on the breathing side, not on the (incoming) air side. Make sure it is not touched by the body or the nose when you put it back on. There is a new mask that we have seen that has come out by the Israelis, confirming that they can do and have done everything. There again, the problem with this mask is it needs time to work, but going back to when take the mask on or off, you still can pick it up. (:16). These masks need to be ?? washed, handled, never touch them. They say they can wash them and do whatever you like with it. It has to be under very high temperature, especially if you have cooked, what I call lobster, you need a boiling water like when you cook spaghetti, high boiling water and you drop it in, and then it has to go through a sterilization. It doesn't mean that the virus is dead, when it goes through the heat. The prevention comes when we can sterilize the centers of the disease, like hospitals. Unfortunately, what we hear from the Chinese authorities on the surface, and the data we have, over 5,000 front line medical teams have been infected. These are the people who are supposed to help us, putting their life at risk, are getting infected by us. We are giving them the disease when we carry it. What is important to the KF KS, who are using the mask, before, during and after using the mask, spray it with the Gans water, then at least you try to kill as many viruses as possible. Keeping your spray with your mask can help you to do it, when you touch it, and when you again take the mask off, spray your hands with the Gans water. Spray your face with the Gans water, don't take anything for granted. We have a major concern in Iran, which by today or tomorrow will establish, why and how this cluster has appeared in the center of (:18). Iran in the south of Tehran. There are certain reasons for it, we want to eliminate it and then we'll look at the same pattern, if and why. The disease has appeared in Iran at the center of religious organizations. It spread to where the daughter of Mohammad has been buried. And is the center of culture of Islam. We are looking into different aspects of it. But is it near the Tehran airport, somewhere near there. We want to know if it has been cross contamination between the Chinese traveling through Iran back to China. As you are aware most of the airlines have stopped flights to China. Iran and Istanbul is one of the ways at the moment that the Chinese have found to go back home. We would like to establish why 2 elderly people in Iran died yesterday. the notice was short. Initially we had a notice of infection 4 days ago, officially denied, and now we see it was a reality. An internal memo was released and then denied, not to create panic until they could control it. But in the announcement of yesterday of 2 deaths of elderly people who are non-Chinese has raised alarm in international security. What we would like to see is if the race game has been played, and if we find that, we have to respond accordingly. One of main things for KS is to keep filled, make sure you have enough, that you can support yourself and your family and your neighbors. The governments at this moment are playing deaf ears to anything. (:20). Because most of them are in panic

state. What we see in places of holiday zones, like Tenerife, Canary Islands, Maltese, all of these become a center of danger, not only for the virus, but economical damage, people will stop traveling. This will create a massive problem for most of these nations. Be aware and very careful in where and how you travel, even in the airplanes if you have to sterilize the seats, spray the Gans, and just there you are safe. You don't know who has been in that chair or who has been in that cabin. It's your responsibility to protect yourself. If we stay correct and follow the procedures of protecting ourselves in using the Gans or any other T, that is all that matters. We will see a drop in the next 4 weeks as the temperature goes up, and our concern is to see if it will follow after the warmth, which means if it links up, or links itself up, to other viruses. The problem for all of us is very simple, make sure you stay safe and keep your immediate family and friends safe. (:22). In so many ways, you become Samaritans, you come to understand that you are the "last man standing," and in so many ways you are the last doctor or physician that can help, with everything that you know regarding this virus. Try to understand what is the next step. We'll see the drop most probably in the next 4 weeks, but we'll see an incubation time, and a more vigorous one in the Autumn. A lot of things need to be in the summer by the governments to be able to protect and to eradicate most of the seen and unforeseen situations. Many of you have made Gans's and you get different colors or whatever, it's no problem, because at the end of it, because you have the 2 Cu (coils) inside, you always create a Gans which is at the Cu level, you always create a combination of CO<sub>2</sub>, which has a strength connection of C, so don't panic if one is yellow, green or blue, you have created a condition, but according to what you have created as an energy passage you get different colors. I have seen some KS use galvanized Gans's, these Gans's at this moment cannot be used for this virus. This virus is airborne and has to be handled through, C, O, and CO<sub>2</sub>. (:24). If we get disease through muscle tissue and the blood, then we'll go a step, because when you use galvanized sheets or whatever, you produce blood, hemoglobin, then you can use it. This is important for you to understand, if you produced a red hemoglobin, when you used by mistake galvanized paper, or sheets, or nails or whatever, you can move into the next step, and we would like to start that ?? Are there any questions about this before we start to the next step? .. Q: If the Chinese know about this T and are exposed to it, why don't they take it seriously? K- They have taken it seriously, there is a problem we addressed very early on, we have recorded conversations confirming that the Chinese military have taken the T very seriously, and KS are working with them, and these are KS we know, (:26). to produce around a ton of Gans per day, to disinfect some of the cities. They are using it and this is one of the ways they are controlling it. There is a very big problem that the Chinese have a habit of stealing T, and this has come to a head again this week. The Chinese do not want to confirm that the T belongs to an Iranian and what the KF KS in China have told them, that Mr. Keshe is our teacher but we produce it ourselves. In that way we see another betrayal by the Chinese government, because it is the habit for them to glory to themselves, but if it saves lives, let it be. At the same time the Chinese government is working differently to do it different ways, and (the information) we have been given, the implication is, it is being done by Chinese KS in XinXian, they are working with the government closely and actually producing the material. It is interesting in how they bend to the government to say that the T is Chinese, and hopefully we'll see this coming back, as we have a recording of it, of those who have been trying to recruit other Chinese KF supporters to work for them to produce more for the Chinese military. The reality of it is that the Chinese government is split into 2 sections and this is right at the top of the CPC, which is the governing body of China. There are those in the governing head that would like to

reduce the population of China by another 400 million, and these do not want see any process, not only KF, but other ( possible solutions) to come into operation. (:28). You saw us last week with the academic professor, or specialist who wrote about the KF, and we exposed him, and 2 or 3 hours after the teaching, he went around and made a threat on me, and this and that and a lot of rubbish, and we know, in informing who was where, a number of leading scientists were arrested for collaboration with the Americans. We exposed a lot of things, but you KS just listen, but in a way, we give a lot of coded messages to governments, they understand where to go and what to look for. At the same time as we see it, it is stealing of T by Chinese has taken a new shape this week, and this thing has to stop. This stealing of T, this paying to have, to be more superior, has to stop if the human race is to become one. What we are doing is absolutely opposite to what we are doing in other parts of the life. We find an elite sportsman and we glorify them, and put them on a pedestal and we allow in every shape or form they show themselves. But in the world of science, we imprison our elite scientist, just because they work with another government, and they shared knowledge with another government. Our sportsmen cross the borders, change their passports, and run on the flag of another country, play football for another country, and as we have seen, black sportsmen run in the arena, (:30). for European races, but do not speak a single word of the national flag. They are allowed and they become the ?? the Olympic gold medalist for the rest of the nation. But the human race has gone so low that it imprisons its scientists for sharing knowledge, and forces the scientists to find a way to share knowledge, and then when they find these people, they imprison them for life for sharing knowledge. This is the beauty of the way I setup the KF, knowledge is free and nobody can be imprisoned for it, and even when they want to steal it, they can steal it to their benefit in the name of their nation. When a man steals a gift he is by nature a thief, that you cannot change. This is the behavior of the Chinese leadership, the Chinese government. When they steal a gift that was given freely to their nation, it shows the leadership and the government is a thief. It doesn't matter how you shape or name it. It doesn't matter which country, the Americans do the same. And when a nation is by nature a thief, becomes rich, because they have done nothing for it, they have stolen T. This is what we see, I have made myself very clear to the Chinese and other governments. Knowledge has to be an asset for mankind and not the property of a nation and a demarcation on the lines of the lands, which God never creation. We saw sadly another case this week, one of the leading scientists imprisoned for sharing knowledge with Chinese, or Chinese trying, (:32). to steal, or collaborate on different names and banners, from Howard University. If governments open the borders of science, then no one will become a criminal. If the knowledge is used for peaceful application and the extension of the knowledge for humanity, it has to be glorified, understood, it has to be brought up to be applicable to all. We have seen a leading scientist again this week imprisoned by the Americans, for selling T to the Chinese. But do the Americans say how they stole T from China? This has to stop. One of the main functions of the KF coming into operation, has to be the freedom of sharing T, the way we do, and not imprisoning our scientists, and not imprisoning those who become elite. Those who use their knowledge to harm humanity have to be isolated. But those who share for whatever reason, to extend it, cannot be imprisoned, killed, or threatened to be killed if you don't give it to us. We have seen it with this case. .. When the governments teach their scientists to be open, then scientists don't need to go under the table to work. This is what we encourage, the KF KS in China claim, he is our teacher, (:34). so be it, he is, but it has to be with, and through it. Those who went and worked with the Chinese military to now produce massive amounts of this, should share it directly with the KF,

with the government. The military has a different agenda and the government has a different agenda. When we stop killing and imprisoning our scientists is the time when the man matures to understand, that these are Messengers of God in the name of humanity. They share more than many others, ?? in the name of ?? Do these scientists who put their lives on risk to share with other nations and other people, criminals, and do we do to them, what we did with Christ, crucify them. Why such a brilliant scientist has to be imprisoned, because he shared knowledge with another human being, to extend it? And why did the Chinese go this way? Why can't we openly travel and go across? If you look at it, we had it last week (Mexico), and before, and coming up in Tehran. Your own KS you come in with different knowledge's about the T, and you just put it in the teachings of the conferences that you are going to, and you teach there. Why don't we imprison all of you? What has changed with the KF? How come we share knowledge freely and they take it and put it in their name, it doesn't matter. (:36). but at least it saves themselves. But when a nation does it, then it becomes a criminal offense. Isn't better to have One Nation and all the scientist under one cover? Why don't we give protection to our scientists internationally, why do the scientists get victimized? Why do our assistants have to go into prison or get killed. This guy has a sister and she is Chinese, it doesn't matter if she is military or whatever, she is there to support and transfer knowledge to her nation and should be free. Why was Fabio killed just because he was the assistant to me, working in developing? We in KF have been through it. Why do we glorify the sports people who live off the drugs and they show for a few minutes, something and then they disappear, and those who share knowledge and put their life into science, get imprisoned. As I said, until the Tehran conference, we'll bring a lot of weaknesses which man has created for himself. Why I have to attend a court case next Tuesday for the death of Fabio, and then when I want to attend, I get threatened, that I will go to prison for 43 years if I go and talk in court. (:38). Just to show what we know gives me a prison sentence? A king could not threaten me, let alone a peasant man. It's our right in every shape and form, the truth about knowledge and those people who work around us. Hijacking documents and computers of the company, threatening, and everything else. Everything is in the hands of the legal frame of the Interpol and the police. We are just looking into it more. How did Fabio get killed. When we want to explain, it is a criminal offense, by those who want to benefit by it in a different way. It will be in the hands of the court. I invite the Italians, to invite the police on a private line Chat, in the next day or 2, we don't make any allegations, we'll show and explain in detail, how Fabio was murdered, murdered! We have been told that if we release then we'll become a criminal. Since when has revealing a criminal act, become a crime? Except for those who want to benefit by it. This man chaired in Howard, shared knowledge with the Chinese, he goes to prison. You look at the conference in Mexico, Brazil, Vienna, we shared knowledge and KS came and taught what you have done, which one of you have been put in prison? (:40). This is what is wrong with our society, letting criminals run, and imprisoning the intelligent ones. To bring such a man, to such a knowledge takes generations, and who loses? Humanity does. Why don't they put the pictures of the pedophiles, the kings and those who have killed many, and put them in prison. How come they are free, and men of science are imprisoned? If the governments make the transfer of T free, no one needs to lie. Put the love of their knowledge and the sharing of their knowledge. And no government ?? backhanders to create such a crime. Knowledge has to become the point of peace, as we have seen in the past 4 or 5 weeks. Until you don't teach them a lesson the children play and make noise, and destroy things. We taught a lesson to the Americans, since that day we haven't heard a single thing about a war, or destruction and what is going to happen

to Iran. The new charter is that way. Science and T creates peace. (:42). Advanced science and T creates peace. If the lesson was not taught to the Americans in Iraq a few weeks ago, we would have everyday sword rattling, as we have seen for months and years. What happened? Let me explain to the KS and the American and Chinese government officials who are sitting in the background, and to my Iranian leadership who are also sitting in the background listening from the Iranian government. I explained this to the Iranian officials very clearly and you'll understand why we are going for the Tehran peace. In talking to some of the military elite in the past 3 or 4 weeks, a joke has started, which is, if the Americans could not save their base how come they selling us defense T? How could the Americans and Europeans in the same base not protect themselves, and now they want to sell advanced T which is worth nothing for us, to take money from the mouths of our people and give it to them. Since the situation the situation in Iraq, many military orders have been canceled. These are piling up and we are making nations and governments more aware of it. If they have it, then why did they get flattened, and they were the army of the most advanced nation on this planet. (:44). The position for peace through T and science has started taking shape, and as I said to the Iranian leadership, we have to take a step that we become the leaders of peace and transfer of T freely. Knowledge has become the cornerstone of the present peace. Maybe this virus is the next step for it. This virus can create 2 points, showing the having of no border, and extending everywhere it brings nations to have no border, and we have seen it. We all get it, the virus doesn't get a passport to get on a plane to go from Malaysia to Asia to other places. Secondly, is who initiated these viruses, do we allow these people to run free. Do we allow people who think that just because they became leaders in the finances of the world, that now they have become ?? collectors of reducing population. in so many ways they are digging their own graves. Today's teaching is very simple, what are we going to do with the knowledge which is going to be shared unconditionally. And the knowledge which is shared unconditionally with the backing of governments. What is president Xi going to tell his people, in one way or another through KF T has come to be benefited somehow through it. (:46). We stole the T? Isn't there one who was saying we are going to bomb it out. If you remember we used every means to destroy, and they even put a map of 52 of the most historical sites in Iran that they were going to destroy with bombs. These places are not defended, the other places are fully defended. Do we go as low as Trump or do we get him trumped. The ethic of the knowledge becomes the player of the knowledge. By international law evidence has to be correct in court. Why do we imprison our scientists and why don't we imprison our athletes? .. If you are Nigerian and but don't speak the language, you come and be an athlete for my nation, they do the dealings behind under the tables and then suddenly they take a new passport. How many athletes have we imprisoned for crossing borders? Sharing what the nation built up. (:48). What is wrong with us as human beings and how come we have become so low to do these things to ourselves? The problem you'll understand very soon is that, you KS now you all become the spies. Because you are sharing freely. And you KS in China who are working with the military and you say, we'll not work with Mr. Keshe because we are getting paid to become rich and the government has told us, don't say anything about the KF. Have you lost your ethics and dignity? We'll expose your names, we have recording of it, and then the Chinese government has to say, we stole T. We gave a gift and you are stealing a gift, so by nature you are a thief, be it KS or your leadership in China or in any other country. (:50). Any other question? Q: How do we overcome people's resistance to the T and the Cup of Life? K- Nothing, you just do your work. Resistance to it, is their lives to loose, not yours. You see the resistance to the T is as long as Fox existences,

and the kingdom of Belgium, where pedophiles give children to the heads of organizations to pleasure, and buy their silence. As simple as that, it is A, B, C. As I said, when the KF is allowed to come out and do whatever we and you are doing, then your worth it. People are like sheep and they follow, even on the top. On the bottom, life we have seen with (Allen) Sterling, 127,000 plus people are under investigation, and 7,000 have been arrested as pedophiles. We saw one of them who was at the tip, he was killed in a prison, or they say he hanged himself. And we saw the other judges accidentally got killed by it. So these people on the top have taken the bribe of life, .. (:52). they never understood what we call the "free energy". The free energy lobby were those who the life of children were free for them, and that is where the phrase came. And it all sits at the real heads of the nations. Starting from kings and the rest down. Any other question? Q: Can we use water fountains in cities as a system for protection and health, if we put the Cup of Life (CL) in it and Amino Acids (AA), and Gans in it to cover a big area, how much do we need and what ratio? K- I know a woman who did it as we traveled around the world, she was forever in the fountains. I know a lot of Chinese did, and other KS did. You spread the energy, when you use fountains, you are better off to use the Gans, then Gans water, because they have so much energy, they are like the sun, and they deplete. It comes, if you go across ?? fountains especially if you travel in summer time, you'll change it, you give energy to the people inside. You don't know how it changes them or how they are effected by it. But in so many ways, you share, you put additional energy by it, they're not aware of but it is in the ?? and the strength of their physicality. Whenever we travel around the world Caroline does this frequently ?? (:54). She forever feeds it into the fountains and waterfalls. You see the Chinese in XinXuan they forever throw water into the rivers. There is a structure, hopefully, if we didn't have the problem in China, or ?? would have come through, is extraction of a large amount of CO2 from space, or what we call, atmosphere of cities and to be fed into the channels of the city (water system) to ?? and to sort out may imbalances. At the moment KF team is talking to a couple of governments for this ?? It's one of the best ways to do it. I have a question, what happens if you put Gans in the room of the house, is it good? K- It's good but if you have a sick person with a cancer, you cannot put for example, CH3 in that room. CH3 is a level of the energy to itself. In that purpose you energize, you give energy to all the cells, so you have to understand how, where and what you do. Many places use this natural water for energy for extraction of minerals. It's part of the teaching which you have to understand, it's something which I touched (:56). before but I want to expand on it today a little so you understand some things in a broader way. If you look at what we discussed before, the life of the man is made of 3 blocks on this planet. You have air, water, solid, which is from this planet, each one of these brings to the body of the man energy of a certain strength. In what we breath (Air part) we don't only take O, we take Fl, Ca, K, in this (Water part) we do the same thing, and the same thing in the Solid part. In our breathing we just don't take the air, we take the energy of the elements, which fit into the structure of the air for he use of the body. For example, in the air we take K of the strength 0.1 to 0.4, in the water part we take of the K from 0.5 to 0.8, In the Solid part for the K we take 0.8 to 2 , where 2 is the maximum. (:58). This is what our world of science has not understood and it is time for us to understand. We just don't take water or air, and what they said, oxygen. In every breath that we take we take a combination of the elements which fits into our lungs. Our lungs do not give the energy only to our blood, it's the conversion of the energy directly, and if you look at its position, very simply, it's this. These are your lungs and this is your liver (to do with Air). The lungs give the energy of K which is needed for certain actions through field

transactions through the liver, without ever going through the body. If you look the position of the liver in this place (Water) is exactly the same. the liver and the intestines around it. a different strength the liver. the liver doesn't take all its energy, vitamins or whatever it needs on all the strengths .. they go through the transfer of fields through organs. They don't need to be absorbed, they get ?? .. At the same time when you drink and eat (Solid) , through your intestines, again you are surrounded with the liver. So ?? the strengths of the solids of the earth. (1:00). are again absorbed to the liver ?? the body. In each process every time we breath, it's not just the O energy, it's a collection of the energies of the elements which are within the air, and it is absorbed by the body, and in the process of even viruses, some of the viruses come through the strength of the connection to these ( elements) to the body. When we go to space and close our mouths, we don't need the lungs, when we don't eat there is no need for water, then we become more and more vulnerable ??? to transfers ?? transfers in our body. In the deep space when we receive energies, these energies can be as harmful and as needed by different parts of the operation of the brain or the physicality of the man. One of the most important parts of this transformation by not eating, by absorbing energy, is the only structure which needs to keep the physicality, which is what we call a bone structure. But our bone structure in due course will change to the energy packages to keep our structure according to its environment. Now that you become more advanced in your knowledge, now you can understand the next steps in gaining the knowledge and what you can do. (1:02). When you go for inhaling, up to now all of you use the ?? CO2 and maybe something. But now you understand that you have been feeding yourself a half cup, the other vitamins and minerals, all have been ignored, at the strength of the air, not at the strength of the solid or the water. When it comes to your physicality you have to understand this, the same when it comes to the condition of your liquid and air you have to understand this. Especially for our physicians and those who work around the medical application, they have to understand this. Then you find out that you are more effective and your (health) systems work better. The conditions of change become much more rapid. Then you have to consider the structure of the soul with these, and within these structures. Then you'll understand that the Cup of Life is only to survive this virus at this moment. The true Cup of Life has to cover every piece (all elements) in the structure. Understanding these parts goes back to what I keep telling you to move away from the Gans's and start understanding the energy transfer, (1:04)., plasmatic energy transfer. A lot of teaching goes on in the Persian language by Hassan. I wish we could translate these back into English and the other languages. He explains knowledge in such a depth that a lot of you need to understand, maybe has not come from my translation. My son was telling me, do you know why the Iranians follow and understand your T better, because you speak English, Farsi, and they understand it, to them it has a meaning, because they think English Farsi too. That's why the Iranians are so successful with your T and the others haven't been able to ?? it. If you understand, the totality of the knowledge and if you could get some of the teachings of Hassan to be translated into English, you will understand a lot of new ways that could not, or have not been understood. I go in his teachings and just sit sometimes, and it's amazing. I say, this is exactly what I say but they don't understand me, but they understand him. (1:06). You have to go in more detail, the KS now especially ?? going into a massive teaching, share of knowledge, cannot be anymore of Gans's. What happens to this Cup, and around it. Who gets effected on this side of the Cup and how, and who on the other side and how. Hopefully, by next week the Enhancement Unit (EU), the first two should start coming out. Now that the Chinese factories are reopening and they are allowing us back in. Then it becomes a new zone, a new environment for everyone to enjoy. In this

process we have to open our eyes and to the knowledge of the plasma (Pl), and not to the physicality of the Gans of Pl. This was one of my biggest fears, that the KS would do this, and they have exactly done that. They have gone back into the matter state of the Pl. (1:08). Start looking into the interaction of the fields, and combinations of the interaction of the fields. Try to understand how the fields interact and create and create life with each other. Try to extend the knowledge with the fields and not with the matter state, then we'll see a new world. a new knowledge will open with all of us. Then it makes my life much easier to teach. In the space T, in the dimension of the interaction of the fields, in understanding the totality of the transferring of the fields, some of you might for example say, where does this K come the air? We are the bottom eaters of the air atmosphere. Interaction of the fields of the earth and the sun, create a life in non-dimensional, physical ?? tangibility, but in the dimension of the field of life. And these lines here (in the upper atmosphere) have a life. In time when the life ends, like in the way it happens in the oceans, as the fish die they go to the bottom eaters. Mankind with all his glory is nothing but a bottom eater of the air above. (1:10). They have already digested the Ca, and you think what you are breathing is yours. I always said, this ?? float has seen a ?? woman going sick with it. If you are a black man in Africa, and a white man or woman in Europe, or you're a Chinese in China, we know one thing, you want to know the truth, you can't stand the color of a black man, but you breath the air he breaths and you are happy with it. You are breathing second hand air from him. We are each others integrated, our lives are integrated with each other. We breath, inhale and exhale, and the white man next to us does the same, what I breath, he breaths and thinks ?? of me. Stands the same. When mankind understands how stupid he has been, even by the air which gives him the life, then mankind can never be prejudice or racist. Now with this virus we see it, a Chinese man breaths and a European man gets it, and dies, how else can the virus transfer, unless you transfer through the breath of my life. (1:12). Through the same breath I spread the knowledge of love, and from the same breath you take from me, I spread death, through the viruses and everything else. If mankind understands we are totally as a whole race, breath each other, in and out, man could have never been a racist in any shape or form. Then if you love the next air that you breath, then you love me because I breath that air to you. As we are breathing the air from the upper atmosphere and we are allowing it to enter our lungs, then we breath it out, and we breath a mixture of the 2, and then it goes back, and when it comes back to me, I am breathing what you and the others breathed out. So you are part of me, and I am part of you. How can I be on top, in any shape or form, a king, or leader, of ?? because I am what you are and you are what I am. What energy level in Ca you breath out, it could be that this is what I need for my structure. So I depend on you breathing, as much as you depend on my breathing. When mankind understands this, the prejudice and the lies and the stealing will go. But mankind has not yet become wise to this. You don't need a?? mouth to breath to give life. (1:14). By breathing we give life to each other. We feed each other, we are messengers of energy in different levels. How can one be superior to the others, when it eats from it to survive by it. So it must inferior that it needs to be fed. Or do we all accept that we are part of it. This is one of the maturities of man needed for him to enter into universal knowledge and universal understanding of energies. ... Try to become open minded and try to understand the knowledge in its true essence, not to what it fits. Try to be aware and fully aware of everything. Don't be afraid of threats. Don't be afraid of what they might do, because when they threat, they think they have won. We will release documents to show scientifically how this life exists that, the reality, when we die and we go in the depth of this .. and we go across in different shape or form, (1:16). we again become part of another life, all of us, and

now we exist in the bottom of the oceans, as collective residue of the lives above. In the long term we become the creator of this (?? process), so what are we racist for. As one KS asked, where do all these souls go that are dying in this virus? The pleasure of the life goes to the elevation of those, and the losses of their lives goes ?? through again. If these people understand what they are doing to their souls, they'll commit suicide, at least to ?? what they ?? Rich in banknotes that are worth only 2 kilometers if you can spend it, depending on how high the apartment and restaurants are from the ground, and the rest is the ?? completion of it own, the Soul of The Man (STM). In what actual worth you have left ?? worth you have more of because you killed more. (1:18). If you have seen one of the recent videos on the internet, the Chinese government has decided to burn the notes, they think is the way of transferring the virus. I said, fantastic, now we really become WeChat ?? The interesting thing is the Chinese are throwing the money through the window, because that money in their pocket could be the one that carries the virus. So they don't want it. If you have seen some of the videos coming out of China, money is raining down, because they just realized hat they could have been to the supermarket where there was an infected guy who was picked up. But you can't buy life, knowledge does. We see amazing things with this virus, it coming to the point of maturity, and getting ready for the Tehran conference. In the Tehran conference ?? the opening speech will be one of the most eminent scientist, supporter of the T ?? Ayatollah of Iran. Knowledge needs to have the men who understand, nourish and support it, like .. If we would have still have the Shah we would be slaves to the Americans. In have a wise leadership in understanding that the science and T is the backbone of a nation, we stand where we stand, proud and high, (1:20). not only for Iran but allowing the knowledge of Iran to be spread across this planet through the KF. Don't forget the first space systems were developed in S University in Tehran, by invitation of the Iranian government, by the leadership of the Ayatollah K of Iran. When we come to understand the facts, the reality of life, we all understand that we are made of the same. We eat the same, we feel the same and we share the same air, not just because we walk it, but physically we drink and breath from each other. Maybe now you understand why we are One Nation, One Race. As I announced to the Iranian government yesterday, I'll be back in Tehran to oversee the virus position, to support the ?? not to take leadership. to bring a new T and (1:22). to be able to curtail pain for more people. And through that and ?? the T in Iran, we'll transfer it across the planet, and bring the shame and leadership of Chinese, those who want to hide, what they use. We have announced our stand-by with our flight to Tehran with the call of the Iranian leadership and we hope if they need it they'll make that move. There are various Iranian KS who are talented and can support and spread, and this time the Iranian leadership will not go by race, color, or religion, but by the humanity to be correct. Any other question? Q; Can the virus change or manipulate the RNA or DNA, if yes does the One Cup Gans repair these defects? K- The position is very simple, you have to understand the depth of the knowledge. This virus enters the body of the man (1:24). .. now, the virus enters the body, what does it do? it adds or takes or changes something in the body, maybe this unbalances DNA or maybe RNA, maybe genetically modifies, but what is interesting is that by drinking from the CL, which is a reference point, this body was made from the Cu, Zn, C of reference, so any thing will happen with the Cup, all the changes in RNA and DNA will go back to the point of reference, genetically modified into what it was. Because now we have, if you understand a point of reference. Your Gans's, when you use for health application is reference point in respect to what changes might have occurred from this to this. This reference point is strong, it doesn't have anything to share with, so this reference point (? in body) has to go through (Gans)

and give you the purity. (1:26). This is what you KS have to understand, and it is you who decides this (Gans) reference point, the way you make the Gans, how you mix it, are you making it for breathing, drinking, or for eating. If we all understand this, your Gans is correction of deviation, because this (Gans) cannot change, it came from the lowest, which is the earth, which is what we are made of, the Zn, Cu, has a spectrum of energies, yes, but our bodies are made within that spectrum. We give it a reference, a point of balance, according exactly, that this (body) is made of Gans, this (body), and this (Gans) is made of Gans, which is the Nano structure plasmatic fields which leads to the creation of the human body, and the way we showed you, and the way you all made the Gans, this Gans (Cup) has 3 dimensions into it. It has the AA, the Soul, and physicality to exist within it. So you create the 3 dimensions for it, the physicality which comes from the oil on the top, the soul which comes from the interaction of the fields of it, (1:28). the physicality which comes from actual Gans's itself in the dimension of an exact copy structure of your own body. this CL is life in a cup. And for that we have given it a fix, in science we always have a point of reference. In life with Gans, this is our point of reference. So if you have slight changes in DNA or RNA, correction too, because it has a soul that interacts with RNA, and as a dimension of Gans it interacts with DNA. I have given you a gift, if you understand it, a gift of life. You call this Cup a man, I call this Cup life, what is the difference. Holder of dynamic Gans's with emotion and soul. If I put this in a fish and I give you the fish, I tell you the fish of life. It doesn't make any difference. Man is so physical. (1:30). Q: Can a virus be the reason for mental diseases? K- Of course, if it is at the strength of the brain cells, yes. We'll see many of it in the space. There is something man will understand much faster than the brain in its all beauty, will go through transformation in the space, we'll not have, not see the structure of brain in the space for the man, but due to interaction of the fields in the U, due to the matter state, we shall see only the fields of the brain. The shape of the control system will be called the brain, and it will take shape at the point of destination when it confirms and converts to physicality, what that physicality might be. You will learn more. (1:32). You will see the brain can and will be effected by energies in the space, because if you are in the space where the K, Ca, Zn, and CO<sub>2</sub>, in a given plasmatic condition converts to its gaseous or plasmatic field energy condition, then you don't have a brain, but you have the fields of the brain, that still operates in the same way. (the sections of the brain are still there) Consciousness section, pain section, decision making, if you understand this, this is how I saved the life of Naomi. I don't rely on the structure, the fields, the structure is irrelevant, then in the dimension of physicality the structure builds itself in the position of the fields. That's how we repaired the brain of Naomi. And nobody understood. You look at the physicality, and I look at the field transfer, and I keep telling you to understand the fields operation, not the physicality, because in the space, if I take you a few kilometers up, according to the law of physics, gases change to da, da, or gases change to di, di, di, what are you going to do, are you going to be the di, di, or da, da. But if you understand the extension and the totality of the world of science and interaction of the fields of the U, then you understand this is what it is. (1:34). Would we in the dimension of the physicality, understanding that there is such a change there (K, Ca, Zn ..), do you think that you have a skull. Do you think that your brain and bone structure will be there? All of it vanishes. We have to open your eyes to understand deeper in a slower manner. We have to be able, the present KS in the future have to understand what sits with them. The teaching of today, some of you have not understood, but you are still sitting here, because you come to listen to the Messiah. But do you hear the words of the Messiah through the soul of the Messiah? Or do you hear ?? two Messiah, ?? of your own soul.

You have to be clear and understand. (1:36). Then will mankind become kind to his own physicality, or become kind to his own soul, or become kind to the energy which creates him? If you look the story of a life of a man on this planet is very simple, in not understanding it man has made it complicated for himself. Any other question? Q: can we use a plastic tub to make this Gans? K- You can use anything but we prefer ceramic. R- or a glass jar? K- Yes anything. Would you like your skin black or white? Q: Can we translate or copy fields or visions into Gans's or PI fields through our soul and hands? (1:38). repeats .. K- Of course you can they are all fields. We have a ?? from Chinese in Wuhan, "blockade is very serious, every household can't go out, so it is hard to send the medicine to people who need them. .. the methods are hard to implement because they lack the materials and confidence, it should be better when Wuhan is ?? " K- We understand you Chen. In Wuhan they are literally bolting and welding the doors to the houses. ... nobody can go out. This is to control, but on the other hand this is sentencing people if you are sick, which means the family dies together. One gives to the other, because you don't have the nourishment, you can't get the food and everything else. You become weak, without immunity, and so many families have died together. In Wuhan the death toll has passed seriously, 1 million people, but the Chinese nation has to be honest with its people, and not the KF to show figures, and numbers, with its citizens. (1:40). And I hope those who are true lovers of humanity will take, not those who have been paid to reduce numbers. We are aware of it, I see secret, what we call, information's, our intelligence is strong and powerful, and at the same time we stay loyal to the Chinese nation, but when there is a problem it has to be looked at and seen. Guan Lynn (GL)- Q: they have been applying TCM herbs ... (1:42). Does the TCM play the same role as plasma? K- We believe so, but it has to be done in the correct way, Chinese Medicine is another version of Gans's, it's made from the Gans's, but it has to be converted to it, not in its matter state. The beauty with this knowledge is that we are a collection of the knowledge's, we are not something elite that we are always right. But we have to understand and even operate, I have a very big problem with Chinese Medicine as I explained to you, I know the officials are always in the background reading whatever I put on, the opposition, or what we call, discussion with the Chinese Medicine, is that the Chinese herbal medicine is using the majority of it, what we call, poisons in it. And when you make a Gans of poisons, or they want to mix the KF T with the herbal medicine, we hear from the team which goes with Guan Zoe, which goes with the military and the governments working, are mixing it, and boiling it, this has become a lethal weapon, in the future to kill many more Chinese. (1:44). Because Chinese herbs have such an in-depth of poisons in them, that now you bring it into the food chain. This is why I object to those who think they are very clever in the KF, and they are doing things, and I warned them before, if you want to, we have an agreement with the Chinese universities, to do the trials, and I encouraged them to do the trials, the Chinese have natural Gans's, but with the poisons they become death traps. This is why the Chinese M now-a-days isn't as effective as in the olden days, because so many fertilizers and pesticides have been used that it has changed their composition. Now when they enter the body they don't work, they become poison and they create more injuries, in most of cases. That is why the western medicine which is purified to one level looks better. As I said to the Chinese professor when I was there a few weeks ago, where we started the clinical trials, is, we can and should use all the natural herbs, not only Chinese herbs, but from Africa, South America, and Europeans and Asians have their own herbs. If we go through the cycle of growing herbs, third generation, which is the Gans T, which is purifying that there are no pesticides coming from the ground or herbicides within the structure of the plant, then yes, we are talking

about the same. But at this moment, Chinese medicine when they are unpurified and everything else, (1:46). then you are injecting more poisons into the body, and they think oh, it's working now, yes, but show me the body in 3 months time. New generation, then brain damage, and then what will you say, oh we cured it, or something else. When a KS works with the knowledge of the KF, he has to be open to accept everything, not just pushing the new T. We don't create new hypocrites. The best, you have been with me many times GL in negotiations, I always say, the Chinese herbs are another step for the KF, but first we have to purify. At this stage 99.9% poisons, even Chinese Medicine doctors don't know. When we started creating herbs like 200 years ago, where there were no fertilizers, pesticides or poisons on these plants and they become pure, we can test it, then yes, it has to be, it is made of us. It's us, we have seen it. China is the biggest producer of tea, but how many of you have seen real Chinese tea in European markets. ?? Why, because when they test the tea the level of poisons and pesticides is so high it doesn't pass certification for entry into Europe and America. Here we go and we buy tea. In China tea is given as a sign of love, respect, and care (1:48). as a gift. We give each other a gift of poison. When we clean up and go back to the process of real bio-natural Gans T or any other T, then yes, it has to be. But in the present time, those who boil, what I hear in China, Gans with Chinese herbs and they say yes, it's effective, yes the Gans is working but your poisoning, what you are boiling creates more problems for the Chinese in 3 months , you have to pay for those souls, sir. You become rich in the pocket, but your soul becomes so poor that it can't find a place to live. .. Never be prejudice I joined the KF, my son said, mom says I have to study the KF teachings, but I want to go to university and do this. I said, listen, knowledge is a step that we all have to go up in. The knowledge of material, without is you can't live. This is another knowledge of the PI, you have to learn to live with both, because you are made of both, and one is connected to the other. Our knowledge as KS we have to be very opened minded. Never refuse another T, but build on it, unless it is fallacy. (1:50). If we get this behavior, understanding, we'll always succeed because we are inclusive and not exclusive. I cannot create the Gans of the Cu if the earth doesn't give me the material, if the atmosphere of this planet doesn't create this PI. I can't produce CO2 if this atmosphere doesn't make it available to me, how can I make a CO2 without ?? . Q: Someone used only 1% salt and AA formed on the surface of the Gans, why? K- The salt goes back to the teaching of a couple of times before, that the salinity dictates the creation of the matter state of the body. One salinity gives you the heart muscle, one salinity gives you the lung tissue. So it should not be very hard to (1:52). understand this, you change the salinity in respect to your environment, so yes you have. Any other question? (1:54). .. . We are waiting for final instructions to travel to Iran. Q: What is the process for getting a visa for American citizen to attend the Tehran conference, you mentioned once possible special visa? K- .. It has to be approved by AK.. if we get the final approval in the coming days, there will be a special arrangements made, as Trump will be invited as one of the members of the conference. The Tehran C is a peace conference, we'll invite heads of state of Saudi and Israel, it's a conference of peace in the understanding that, then there will be a special arrangements between governments and to what limit we can allow people (1:56). numbers are flying around at 10,000 attendees, ... This is an international affair not the KF, when we invite heads of state they have to be met by AK, this process is very extensive and needs a lot of organization. The last time so many heads of state were in Iran it took the former Shah nearly 5 years to organize it, and we are trying, because we have the power to organize to get the world leaders in 2

months into Tehran. We have been told that if President Trump attends, then President Xi will also. I have already put the US KF on alert. ..

.. the world leaders have to decide how to unite. (1:58). All the religious leaders have been invited, it has to be inclusivity and at the same time has to be the acceptance of peace. When we share such a knowledge in such a platform.. when KS share what they have learned . . . then who is going to patent it. The Tehran conference is not a KD conference, it's a conference of a change of attitude by all of us. By it form world leaders to religious leaders to the point of understanding the totality. .. with the ex-head of a government and he said to me, Mr. Keshe what do you want from my nation, from you are telling that you have given and are giving to us? I said, I want nothing, just make sure that no one dies of the virus. He said you know these things don't exist anymore, (2:00). they exist in your head, but they exist in the KF. He said, there is nothing I can tell you, we never had such a gift so we don't know how to handle it. We are Americans, Chinese, we have to safeguard Tehran, by showing the virus is eradicated in the next 2 weeks. I am making the Tehran conference a virus free zone. Very soon we'll offer through the Tehran office, hopefully once I get there, what we call virus tourism, we'll accept if your nation doesn't accept. You know you have a virus ?? we'll accept your plane, your body and your soul and we'll see you, meet you in Tehran and we'll send you back home with no virus infection. When I called it a virus tourism one of the guys was laughing at me. I said, they have no choice if someone gets this virus they have no choice, they're sentenced to death. There are many rich people who will get this virus. Their money can't buy their life. so we'll do it and we'll spend it on their nation and on the people. Handling this virus is the way to unite humanity if you know how to do it. Don't worry about a visa, get on a plane when your president flies in. (2:02). .. I said, you know when the Iranian president went to New York to the UN conference he was restricted to certain blocks, he could not go anywhere. He was literally by law free, but by nation imprisoned, which is against the law of the UN, but the Americans put it in their house. All the world leaders went to see him that he didn't need to go anywhere. I said when Trump comes to Tehran we'll give him the freedom and let him go where he wants to go, then he'll be ashamed of what he is doing and what he has done. .. a lot of things are made to suit, and a lot of things we make to suit. With the new T and sharing so freely we'll govern. Any other question? Q: (2:04).

(Krashmere has accepted the full time position of KF global marketing ... ) once we go a few kilometers into the space and the gas is transformed so our brains will have to transform as well, does that mean that the PI is so dependent on the conditions that for example, that if we take the CO2 kit into space we would not be able to capture CO2, so how would we be able to feed ourselves if we go into space and are not able to capture the materials, and would it be beneficial to find a way to create those conditions on earth? K- The thing is the M fields always find a position where they can position themselves. You don't come into the vacuum, you are positioned into what you can receive. So that is not a worry. When you give a room to the Gans in a different dimension, it will expand irrespective of its condition. the possibility is, this is the favorite word of Rick, (2:06). energy or the expansion of an atom can fill a U. So if you create a condition of the conversion of the field, 1 Gans can cover the solar system. This is what the sun is. And that is why you find mercury as a liquid in one planet and as a vapor in another. In a vacuum condition of M field they manifest themselves differently, but it is still mercury. Q: Do we have the same elements on different planets or ..? K- Of course, it's the energy of it, but it's just that, if the Inertia is there to transform them. Energy exists right across all the levels of the U. It's the energy in what we call the Inertia level, in that level which manifests the material in the state of liquid, gas, plasma or solid. Even

within mercury there is a ?? even within the gold there is an O. In a plasmatic energy field, because without it you can't have the next level which is Na, you can't have the energy of the link, for it to be there to become gold. It's a step up, but it depends on the environment, (2:08). and the field strength of the environment, and then the Inertia which is the matter state of it, which one ?? manifests itself, it's like a light. Q: Would that mean the physical manifestation of any element contains everything below it ..? K- below and above it. of course it doesn't disappear, it's just that it is not visible or useable to us. When you travel the field of the sun to the boundaries of the solar system, at the boundary the field changes and we see ?? at the more center we see heavier elements. It's inside it, the full spectrum of it, it depends on how much of the energy of it, that we use. It's like a banana, how much of it do you strip (peel). As I said, many times before, if you think of a Pl like an onion, the further you go the bigger it gets, but in the body of it the taste is the same in every layer. If you ever want to study the Pl, cut 2 onions and put them end to end, and look at the behavior, you'll see a real 2 or 3 dimensional Pl. (2:10). Any other question? Q: is it possible or good to put the Gans in ?? for to spread the CL Gans to cover bigger areas or is it not a good idea? repeat .. to put the Gans in the toilet to spread it through the water system of the city, everyone can have some of these fields? (2:12). K- I presume you can, we have a friend in Argentina he puts it in the bottom of a tank and everybody drinks from it. Q: how much do I have to produce to have a good result? K- You always have a good result, it depends on what you do. What is in a Cup is effective in a cup, when put it into the water system through the toilet, now it's bigger but it's the same amount of Gans. When you flush it, now it goes into a river of it, so if everybody does it, then we see how you expand on it. A Gans, when you use it long-term has to have a source. Many people just put a Gans in a bottle, it's there, it has got .. it give energy out, okay, yeah it absorbs some, but if you want to have a Gans which goes for a long time, you have to leave some of it in the bottom of the cup. If you have a dynamic ball and just put water of the Gans in it, it will last maybe a day or two, maybe a month, but it's energy is given and taken. It's not just that you put it there, you wish it there. When you use something for the long term always leave some of the physical Gans in it, then gradually you'll see it's not there, or it changes color as it gives energy. Q: To multiply the CL Gans, (2:14). can I use the health cup with the AA and do it like the orange that I transform into the water.... ? ... the health cup with the 4 Gans, instead of the orange I would put the CL there .. I wouldn't need to produce N coated Cu and Zn and so I could produce faster and a bigger amount of this Gans. instead of the orange I can put the Gans of the CL there? K- yes you can. (2:16). Q: I would to produce more Gans and faster, K- yes but you have to keep the Gans in there. Anything else? Q: When I hand out the Gans water to family and friends, must this also be inline with the desire to eliminate the virus, to have the intention? K- With or without the intention, it will do. R- Is that because your intention (Mr. Keshe) has gone into the process? K- Most probably. Q: John Argentina - How many grams of salt into 1 liter to make One Cup? K- We advise 15%, 150 grams per liter? K- roughly so, you can do it with more or less, but you get a different kind of strength. If you are producing 2 or 3 CL then use different salinity, (2:18). and then you'll have a collection of different Gans's. And mix them together. Make sure you separately collect the AA on top. When you collect the AA always carry some of the Gans at the bottom into the cup, then you keep the environment correct. Q: It wasn't clear in the audio. K- I have seen that complaint. A doctor in Iran wants 1 hour of teaching directly for him and the Iranian doctors. It doesn't happen, I don't have that 1 hour. You have to educate yourselves, it doesn't matter if you are the only doctor in Iran or many of you. I tried to teach as much as possible. Wow, this is beautiful, I just received the final shape of the Enhancement

Unit (EU) complete. Thank you very much Chinese team. .. It has become absolute reality. .. (2:20). I am sure it will save many lives and bring joy to many men in the space. As man said, we are ready to take off. The EU structure is completed, I just received transmission now, and outside it looks absolutely, what we promised. ... Q: I think we could recuperate people who are very heavily effected by the Coronavirus, I imagine we could put them in the EU and recuperate them? K- You know ??? that's what you're supposed to do. In space it will become your feeding station, your doctor, material production. Once we show the EU in Tehran, you'll see 2 units in this shape (triangle), one is the enhancement for body and one for material. (2:22). The two have to exist together, maybe we can produce the material that the other one can take, ?? the two go hand in hand. I was looking at the design of the new Spaceship center in Arizona (AZ) and it's gorgeous.. I'll ask John to show. The centers are taking shape, he should show it, not me. ... They have designed how they are going to position the 10 units in AZ where the property has been bought. They are working on it, Jamilla the head of ?? is in the US seeing this through in conjunction with John. .. they are waiting for the system to arrive. Maybe next weeks teaching will come from the beautiful city of Tehran, where I'll be in conjunction with Iranian scientists trying to divert this virus. We'll see how we can tame this unruly animal. (2:24). Next question. If I have to go to Iran through the request of the Iranian government to support, I will not be able to attend the court in Italy. Those of the Italians who are here, please record this and pass it on to the Italian police force. I was told that if I give this evidence in court I will become a criminal. I don't think understanding the facts is criminal. There are certain facts missing which the police could not put together and we can shape it up. Please, I know the Italian UC member and other Italians are here. This is for the soul of Fabio, he has to be freed from the injustice that was done to him. I'll explain this without accusation, thoroughly, and exactly on the physical evidence. .. I was the last person to see Fabio alive. As he got into the cars, our cars were parked next to each other, I got in on this side, Fabio and Naomi got in on that side. At the point of accident the body of Fabio is some meters away, estimated between 7 to 20 meters. (2:26). But the body of Naomi has been found on the drivers side. There are a lot of discrepancies which have to be considered by the Italian police. And it has baffled the Italian police. We got the car and Fabio drove off, and me within minutes behind it. Fabio lives here and I live around here, and we traveled on the same road, the distance is maybe 30 kilometers (to Mr. Keshe's house), and then another about 30 kilometers to go to Fabio's house. I come off at this junction, and F and N travel on. The KS always helped us in our center in Barletta. You have to understand the topography there are a few turn off's and 1 or 2 fuel stations somewhere in-between. The road construction in this area of Italy is 2 track roads, which means both sides of the roads have 2 tracks (4 lane road). We usually drive on together until I get off here and they carry on. (2:28). Fabio was found dead at this position (just before K turns off). The discrepancies which the police couldn't understand is that at the point where the junction is here. At the point of accident the car has been touched, by a truck, hitting the barrier, whatever, rotating, stopping at this point, and the truck driver has carried on and ?? The witnesses have seen things slide out of the car, there is a very major discrepancy in the whole package of this accident. Where Fabio was found on the ground, understanding that the car has gone into a number of rotations after being hit by a lorry. Fabio's body, because again I was the last one to see him, was into coffin. We were allowed by the family to see Fabio, before the coffin was closed, to say the last good-bye. The discrepancy that has baffled the police, (2:30). we have been told the police have made a lot of, this accident they can't understand, is any speed, 30 to 50 KPH, whatever, that the body was thrown out of the

car, there were no scratches on the face or features of Fabio, except damage to the back of his head. .. if you throw a body, an egg, or a tomato, potato, even if you throw a stone for 7 or 20 meters, in the speed it doesn't land without any scratches or broken parts. This is what has baffled the police, how can a body be thrown out of the car, thrown maybe 20 meters and have no damage to body only to the back of the head. Strange enough is, when you set the car and put the two passengers, the damage is only to the left side of Naomi's head where she was ?? blanked. We don't see the front screen (windshield) smashed or a crack on it, and (2:32). and we find Naomi on this side when the police arrive. Again what we see is only one damage to the side of the eye of Naomi, with a hip broken. The puzzle is, how 2 bodies going through this crash, and being found at such distances with no scratches or bruises on the body. It looks as if Fabio has fallen on a point, he literally has collapsed. He is flown, stood up, and landed, just as somebody who kneels down and died. There are central barriers here (road) and here. So we presume that he has touched nothing and has flown all the way. And he landed, which is against all the laws of physics. We are not accusing anybody of anything, but as a physicist and somebody who understands the laws of physics, this (accident) is impossible, and this is what has baffled the Italian police and Interpol. We have seen these kind of falls, when you are hit with a hammer in the back of the head, (2:34). or you have been hit by the side of the head, the way we have seen with Naomi, with a hammer. Which means Fabio was alive and he was attacked by a hammer in the back of the head. And Naomi was alive, and attacked on the side of the head by the same hammer. This hammer is what you have to ask the police and the authorities to check, the size and the position. We need this as an evidence to be checked. Please send this part to the Italian police. I tried to do it and I was told, everything possible, and my evidence will give me 43 years of imprisonment. If evidence from a scientist is a criminal offense to have, then there is something wrong with the law of Italy. If Fabio's body carries no scars or any bruises, then flying 7 or 10 meters from the car, and only bruised in the back, it means he has been attacked. Now we'll tell you how he was attacked. this is because I am a witness and scientist, I can claim the right to analyze the facts. As you know months before there was an attempt to kill me in Barletta, where the police arrested a black man who came from Holland and subsequently, he was released and he had to leave Italy. What has happened is, (2:36). there is a story behind this. When we lived in the Insano and John as one of the KS who poisoned me. He told me something very strange, he said, I explained to him, how when I was going from Antwerp, from G ?? to Antwerp, going to Germany, a bomb under my car blew, and I could see the parts. I pulled into the hard shoulder (of the road) but my engine was running so I knew I better not stop, I came out of the first exit into the, coincidentally, the ?? shoulder of the Mercedes. What John told me is, "what we do," at that time I didn't know he was an agent of Belgium, 'we make you to go on to the side (of the road) and when you do, they attack you and kill you with a hammer or something.' Which was strange to me, he said, when people, many scientists, when there are people we want this is how it is done. He must have thought that I would never stay alive to remember this, because he was poisoning me. So the plan was when my car was blown up, with my sister and family in it, was to pull me to the side, and then do what he said. Strange enough, we see the similarity (he puts Fabio's accident back on the screen). This opens a number of things for Interpol, and international police, to look at the number of people who submitted patents and new technologies, to the Belgium patent office, and how many of them have been killed, (2:38). in roadside accidents. This opens up a structure, ?? was another, and killing scientists by accidents is another. And they all have patents submitted to the Belgium patent office. This is part of the investigation, we'll open in

the European Court of Justice to show. Now understanding what happened to us, it means that if they put a bomb in my car, we have all the invoices from the Mercedes Benz of how they did it, because they blew up the electrical circuit we had to fix. It shows a pattern of work. They had placed the bomb, that was the only night we placed the car outside for Rubin not to wake up, as he was young, the car was outside the secure yard, and they placed the bomb underneath. So it means there is a tracker, two tracker cars, where they wait for you to get out of the car, and then they hammer you. This is what we call into the court as a witness, and we have recordings of this. If this is the case then it becomes like a road accident. But in the case of Fabio, was a puzzle. It means the police have check, we two were tracked out of the office, and Fabio with a faster car (2:40). passed me on going, the trap was set. With this we'll release a very interesting information, because our analysis as a physicist, it did not make sense because, we couldn't understand how in this position the accident could happen, without anybody seeing. We always presumed that there could be 2 trucks, but it still left the lane open for others to pass. We released an interesting thing in 'facts about Derek', he picked it up, and he was writing, which we have a copy of, he talks about 3 trucks, then the solution about the position is resolved. two trucks blocked that nobody can see, the two cars, or the car that is carrying the man with the hammer, on ?? toll in-between. he pulls up, hits in between, and goes. This is why the Italians could not find, because they were not aware of the behavior of the Belgium's in killing scientists. I am not making accusations, because I am the victim, and for this reason, we see other cars in videos, and the Italian police have to see where our 2 trucks are, as Red Circle has told us, there were 3 trucks, because how do you know if it was 3 trucks if you haven't paid for it. Now this has to go to the police by the Italians as fast as possible, (2:42). that on a Tuesday trial on the 25th, I will be in Iran, the soul of Fabio can be defended. This is a preplanned murder, I must have jumped in going out fast, and Fabio was trapped. It is for the international police, for Interpol, and the Italian secret services, to decipher this, knowing the new knowledge that this is how, an agent of Belgium government tells me, in my face, how I would have been killed in that accident. We need to open up, and see how many patents, and how many scientists in Europe have been killed this way, road accidents, and see if they had submitted patents of a lot of value, which ends up on the desk of the lover of the king of Belgium, who we know who he is. We do not make accusations, we are very straight forward in what we put down. We stand in the courts of law, and we'll show the invoices of the car damage, the position, and Mr. John put on the system to cover. The position is very simple, please contact the Italian police as I can't be in the court, as I have been told that I have been called by the Iranian government to save and proceed with the enhancement for the virus, if I get that call I have to go. (2:44). It's up to the UC member .. and those who love Fabio to make sure this knowledge, as part of the teachings, gets to the Italian police as fast as possible. This is not a theory, these are the facts, and the only thing the Italian police didn't know is that Fabio was working, supporting the KF as a volunteer, and was working with a man who the Italian police have 3 times record of assassination planned for his life. Once in Rome, poisoning in the Insano, shooting in Barletta, now we connect the whole lot through Fabio in this case. You'll have to explain to the police how can a man fly, even you get an egg and throw it a half a meter and what happens, let alone the softest and beautiful skin of Fabio, and no scratches. When I stood at the top of the coffin before they closed it, I said to myself, this is impossible. Caroline said, we both stood there, this is impossible how could he be flying out of the car and no scratches or broken bones. Now we know why. This is a planned assassination, just the wrong victim, because in the other car was me and my son. (2:46). Please take this as fast as

you can to the Italian police, the case of Fabio. And I was told, there is a 3 years sentence if we simulate an accident. We simulate in our head, understand the motion, it's simulated on a computer to understand how we lost a friend. If that is a criminal offense then the lawyer has to be imprisoned for making threats. When it comes, the biggest question, if the Italian police can proceed with this, who has paid for all this? three trucks, 2 drivers, are they connected or is this an accident. Then we have more evidence to connect Red Circle to Albania. This is not the place for it, but if I show you the evidence which we'll give to the Italian police, it will be a shock to the whole system, black and white evidence. We left Italy for this, because we were told there is another plan of assassination, but I have the Belgium's on my life. (2:48). If you noticed, that after the death of Fabio we moved to Africa, and there on to China, and now we understand. A young boy should not have a hole in the back of his head, nor a young girl a hole on the side of her head, but they could not find any blood inside the car. My assumption is Fabio came running out of his car after the truck, because he loved his car, and he got a hammer, and Naomi seeing him hit ran behind and she got hit on the side, and put in the car. And all the simulations by the police confirms it is so. My Italian friends we love your nation, but we don't like those who make threats against us. I'm not stupid, I am extremely intelligent but we have to wait, until the court case appears and we could give evidence in the court, and now we were told if we give such evidence in the court, we'll get 43 years of imprisonment. And if evidence in court gives imprisonment, explaining as a scientist what you see, then there is something wrong with that nation, and there is nothing wrong with the nation of Italy, we love you, and we have a beautiful life with and amongst you. And that was part of the plan, to break up the family of the KF. (2:50). This is the truth about the life of one of the most dearest friends of the KF. It took us 2.5 years to put all of this together, and we waited for the court case, but the wish of God, the life of poor people, and the beautiful life of Fabio, has to be taken to the Police immediately. This is a scientific analysis of an accident the way we analyze PI T and everything else. There is no accusation but this is a statement of fact, and the police will tell you, how and the shape and the size of the wounds are the same and they look to come from the same hammer. That's all. I hope we bring to justice, those who did injustice to us, as a family, taking such a beautiful boy out of our lives. What made me to come out with it was the threat I received that I would go to prison for 42 years if I bring this evidence to court. I am scientist and I can put, and the police can confirm that I am correct. (2:52). We haven't made a simulation, we understood the situation. Find who is responsible for Fabio's case and let them have this imposition as fast as possible. We'll look after ourselves through international governments. We do not make any accusations. This is a statement of facts, and now police have to understand how the facts have taken place. What we understand, possible, that they have been parked along somewhere (along the road) waiting for instructions, they saw us leaving Barletta, to move in sequence, preplanned. And possibly, the car that did the hit, there could be many people involved. Maybe not the truck driver that was at the scene. But there is one thing, the connection we have with Red Circle ends up with an Albanian. Now you see how everything is the responsibility of the police of Italy to decipher. It was the fourth attempted murder on me, but unfortunately, Fabio got caught. Or was it a plan to kill him, to teach me a lesson to stop and give everything to the Belgium's. They didn't pass poisoning my 6 year old son. (2:54). The damages and losses for the lives of Fabio and Naomi, has to be paid by the state of Belgium. I told that when I am finished with the European Court of Justice, the kings of Belgium will cry for their lives. They told us that is was all dreamed getting poisoned, a dream getting done, now it's the reality, that you come in to. Why should

somebody get hit in the head with a hammer, a young boy and girl. the point came when we triggered, I told you many times we release information in a coded way, we push to see what happens. We pushed, and we go the 3 trucks, they made senses to us. The 2 trucks pretending to break speed, slowly passing each other, they had created a scene, in which they could do whatever they wanted. These roads are so narrow that when you put 2 trucks through you can't see anything through them. Please pass this to the Italian police, to further our case, to the Secret Service, (2:56). anywhere you know as Italians. It is your responsibility to put the soul of Fabio at rest. I have done kept it that it can be done in the courts, but I was told that if I release it I'll get 43 years imprisonment if I go to court and give this evidence. And I said, how come, in which country now, that stating facts brings criminality. Even if you fly 1 meter you get bruised, and even if you fall 1 step in front of you on your face, you bruise on the top. What is horrible to me, is the man who hit, was holding him, and they just let him down, that was their mistake. The same the man who hit Naomi, has done it, and pushed her back in the car. And then they opened the traffic, and first ?? ?? lied. I go to prison 42 years if I am wrong. Don't forget I am one of the leading physicists in the world. (2:58). And one of the top, interaction plasma state, knowing where everything goes and how it goes. Tell the police we want the x-rays and the measurements of the holes, and what ?? , and let's see. Red Circle, (2:58). the bells have rung, the eleventh floor is not high for your crimes. We release the connection of Red Circle to the Albanians, to the Italian police, and then we'll release it to you as public. The cost of such operation, trucks to bring in, plans, at least half a million. Who invests this kind of money to kill a man. A king who has stolen from his own nation. He didn't have a daughter, he is a lair and a cheat. At least I don't need to go to court to get 43, I'll wait until they come after me, and give me 45. The interesting thing is the left side of Naomi's head where the injury is, that was supposed to be with the glass, if she was on the passenger side, she would have been hitting Fabio, on this side, but there is no mark or anything on the side of the face of Naomi. This is what puzzled the police, was how come she had the injury on the side, she was put in the passenger side, after she ran out of the car, with a broken hip, and put back in. (3:00). Fabio your soul is free. Please put this directly to the Italian police. thank you very much. This is analyzing, and making no accusation about the murder. and my analysis is 100% correct when the police come to it. The payment by the Belgium government to Fabio's family and Giovanni has to be much more than an insurance policy. They have suffered enough. Thank you for today and let us celebrate the most beautiful life ...

(3:02).
