

318th Knowledge Seekers Workshop March 5, 2020

English Transcription:

(:15). .. In the past few weeks, since January, we got pulled into this Coronavirus in China. We saw it becoming relentlessly powerful, taking many lives, and we thought that was it, the Chinese got it, then the virus appeared in a number of countries, by Chinese. Then we saw it in Iran, as we explained last week, then we saw it in Italy. Now the Italians with their love of pizzas and spaghetti, have spread it to the rest of the world, as now we see. This virus, they thought they could control it by mutation of the genes, by race. But now it has shown that it can mutate itself to any race. But when we spoke about mutation there was some concern, but now scientists have proven that they have found the second generation of mutation that they can confirm. This means that this virus will take hold. As I said in the past few teachings, we have to see how and when this virus performs and if it is going to that way, for the beginning of Spring, and we put our doubts on it, that this is self-mutating, (:18). and self mutation, at the same time. So what it does, it destroys itself of what could, in a way, have killed it, or have destroyed it, .. to a new way of energy balance. .. if you understand plasma (Pl) technology (T), we know how, with our experience, that this virus has mutated in a very drastic way. The authorities, as usual, they thought that it was going to away with the heat, but what we see, is that this virus has appeared in Brazil, a warm country, 20 -25 degrees (Celsius), usually we don't see flu at these kind of temperatures. Twenty degrees in northern Europe is summertime. So this show that this virus will be with us right across the year, and it mutates very rapidly. We have seen mortalities, death, and infections, we have seen the same in Europe. Many Iranian leaders have died, or are entangled with this virus. We see now, internationally Italy is under siege with it. We'll see in most of the western Europe that the communications will hit. We see in London being hit. In Paris, (:20). France they say they have come up with a solution, but we see the French are still getting hit. The only French who have found a solution, is controlling the media and putting lies out. Because if they had it, they would give it to the French and the rest. At the same time to the Germans. We don't see any solution or any way (out). We see the economical effect of it, will hit America in the next 14 days. We see a massive rise in the death of the Iranian leadership, at the highest level in the next 7 days, because we know when it was spread in Iran. The 14 days is up on Friday or Saturday. This process has brought a lot of things to us as a human race. A very clear indication. We have no world government to govern, in this case as it rises and it comes, it comes in another virus to us. There is no leadership by the World Health Organization (WHO), as they themselves are baffled by it. All the world presidents are canceling their meetings, they refuse to handshake with each other. It has become a very strange situation. They are locking up presidents in their palaces, and kings and world leaders in rooms and in isolation. The military heads are hidden behind their desks and in so many ways, a war on the human race, has been called in, by the greed of the human race. (:22). In so any ways, we shall see the beginning of what we call, the apocalypse, the total destruction of the whole society, shaking, and then by shaking, destroying itself. We will see, as I have written to a couple of world leaders, a Biblical destruction, commotion of things which will come. In so many ways, is it that bad. It is worse then bad. Locking up people in their homes will not change it, as locking up man will increase the spread and mutation of the virus. .. all of you are not sure what is the position. There are a lot of claims on the how, and the way, and in so many ways, the

methods used has to be done the man himself, and nobody else. In a direct relation to what is happening worldwide with this virus, this situation will not be sustained, maybe for another 3 or 4 weeks. As we have seen people from the cold environment of Italy, (:24). in the wintertime went to Rio de Janeiro for the festival and they spread it right across the world some five or six million people. As I said, we will see a massive rise in the loss of life in the gay community, who very highly concentrated in Rio, in what we call, the festival. Many of these have been battling with AIDS, and are vulnerable to this virus. This virus statistically kills more men over the age of seventy, or sixty-five, seventy and it kills people with immune system problems. So in the next two weeks, around the world we'll see a rise in death, again, in homosexual community in a rapid way, if they've been contaminated in Rio de Janeiro.

At the same time it's the responsibility of a man to look after himself. Today's teaching is a very direct teaching, and is a teaching to each individual of you, for yourself. Many parts of it, are a repetition of last week, because maybe you did not understand the gravity of what was taught last week. In Iran, we have set up a rescue organization. In Iran, we have seen direct results of people who have had Corona confirmed and reversed. The Chinese government blocked us from receiving data, but in Iran we have put data on the Internet. (:26). Many of the Keshe foundation knowledge seekers most probably, when this virus goes beyond control, will be very few, who have stayed alive. If you followed the procedure the way it was set up, and looked after yourself, your family, and your environment. In any case, as the virus mutates, and you keep on using the Gans water once a day, and the rest, then you allow the virus to be taken out. Let me explain to you something very clear, you were not aware, and we were all under pressure in 2011, 2013 and 2014 with Fukushima. As you all have the data, and the Fukushima paper has been published, when we got involved as a Keshe Foundation and we helped TEPCO with cleaning up the Fukushima, we didn't hear any more about Fukushima. Because the knowledge transferred to the Japanese government, and stolen by them, thinking they were very clever, taught us a lot. The most powerful energy which enters the body of the man is radioactive materials, and it has a concentration of the ray destruction, and we've seen with gamma rays, and other radiation mixtures, many people get cancer and they die. The test in Fukushima gave us a clear indication, that GANS water has the capability to extract the radiation from the body of the man. (:28). The Japanese and Americans stole the white gold, from conversion of tritium to white gold, but they could not understand it. Their lack of understanding, and what I call arrogance and stupidity, that the Keshe foundation was sitting to see the results of the effect of extraction of the radiation and fields from the body of man. In this process from Fukushima, we learned a lot. It showed we can extract radiation, because the workers in TEPCO, who now use the technology everyday, by drinking the water, washing their body with a GANS water, to extract the radiation from the nuclear reactor centers. This allowed Fukushima to go back into clean-up operation in an orderly manner. What this means, the workers of the Fukushima can touch any radioactive material during the day, or come across (in contact with) contamination materials, and at the end of the day, by drinking some GANS water, and getting washed by Gans water, whatever they absorbed (during the day) is extracted out of the body. In a simple way, Fukushima was a pre-run to this virus, for us, to understand more. Therefore, when we come to a weaker version of radiation, in interaction as a plasma, with the plasma of the body of the man, we'll see the same. Those who everyday work in the Fukushima plant, with a normal life, will go through the same process when the virus hits. When they drink the water from the Cup of Life (CL). In so many ways, (:30). all of you are

in the same position. The last time the contamination was in Fukushima, but this contamination is planetary size. The last time we gave the water to a nation of, the thieves of Japan, to steal, but in so many ways, it helped us. This time we give the knowledge of the GANS to the free man of this world, to help you, to help yourself. The same procedure, the Fukushima nuclear reactor, was an energy concentrated on the ray of photons. The Coronavirus is an energy, in collection of a package, of a few different strength energies, the same as Fukushima. In so many ways, is like putting Alpha, Beta, and Gamma rays into one cup. We call it a virus, because now as the energy reduces, they interact with each other, and they start dynamically live, to find a way, and we call it a virus. We helped in Fukushima, now we help the world with Corona, but this process, is another process, that we as a human race are getting ready to enter into space. Because in the space we'll receive plasmas and rays, and as in Fukushima, and as Corona. And with this technology, understanding the process of the drinking of the water, the GANS water, the Gans energy, we have understood how to extract it. In the Enhancement Unit (EU), which is to be released next 2-3 weeks, hopefully, we don't carry the water inside, you don't drink the water, but we have gone to the level of transfer of energy, from the body, in the level of the virus. (:32). So by entering the enhancement unit, within seconds you have no virus. But at the same time, we have to understand, that there is a lot that we can do for ourselves, until the number of these EU are developed and delivered.

As a human race we are resilient, and as a human race, extremely intelligent. As a human race, one has to understand what is the composition of his body. Collectively over centuries we have gathered a lot of knowledge. In a direct message, to the Iranian Corona group in Iran, yesterday in our meetings and today, we send a message very clearly. The message is simple, it is as easy as ABC. Our message was as follows, the situation in Iran is that the Iranian scientists have not understood at all, what a virus is. (:34). Exactly how a virus works, and exactly what the body of the man is made of, the lack of knowledge has been the cause of (not) understanding the most advanced T. We have no choice, we have to understand more, if the knowledge was understood more about the construction of the man, then man would not have had such a problem. Let me explain to where the problem starts. In homeopathy, there is a belief of the 12 salts in the body, some of the salts we don't have, because some of the salts which are spoken about, and we don't understand, is a combination of the mixture of the salts, essence of the energies and not the salt itself, as that being described in the KF, as a plasma (PI) energy of the soul. When you have this, and you have emotion, and it has to change to the direction of understanding of its own direction, it needs a PI of the mixture of the salts, and not the physical salt. If one understands this, one will understand that through the strength, (:36). of certain salts, magnetic (M) field, man can replicate the emotion of the man, not with the salt. Which means the human race has to go further in the knowledge of understanding of its own creation and operation of its physicality. The scientists look for the salt in a physical term, but have not understood, that even the salt in the dimension of the energy pack, in interaction with the condition of the matter energy pack, create and lead to the creation of emotion of the man, in interaction with the field of the soul of the man (STM). Where we go and what we understand and should understand from now on, as an invisible energy PI Gans, in the dimension of the Gans's of the Gans's. If you go back John in AZ tested this, but never understood. The Gans's of the Gans's in some of the teachings of the past I referred to it. Now you understand what it means. The Gans's of the Gans's, if understood using the energy of the Gans's, leads to understanding of the energy of emotion of the man. In this way,

there is one major, major understanding that needs to be understood by men of earth. As I explained to Iranian scientists at the highest level in the past few hours, (:38). if you look in the body, different salts and strengths of salts, leads to creation of the tough tissues, of the soft tissues, of the blood, and the rest. When you taste your blood, it has a salt in it, because that salinity dictates the thickness of your blood, and the pressure of your blood, and the direction and the strength of the emotion of the man in the dimension of physicality. That salt transfers the knowledge of the emotional of the physical, to the emotion of the STM, and in that direction, reflects to the emotion and behavior of the man. If the world of science understands this, handling viruses in the U, for man, becomes a game, and a child's game. As I said (AIS), depending on the strength of the salinity of the mixture of the salts, including the salts of the emotion, the direction of the motion of the salts, opposite, or in the direction of the STM, or the soul of physicality (STP), then man understands how even his physical condition is created on this planet. As I explained in many teachings years ago, man has not understood the essence of his own creation. (:40). The Gans's in respect to the concentration of the salinity, will create matter cells. The Gans's as a PI, in different conditions, and variety, of dimensions of salts, and essence of the PI of the salt, in a Gans state of energy, will dictate the emotion in the creation. This is how through the emotion you get cancer, the transfer of psychological or emotion into physicality, by changing the salt in the strength of the emotion in the direction of the physical part of the body of the man. If mankind understands this, this virus, Corona, will become nothing. This is one of the weakest viruses man has ever been tested on. How do you want to live in the depth of the space, where the bigger and stronger fields are there to consume everything man carries as a part of his soul and physicality. In Keshe world family and in Farsi I have posted 2 or 3 messages this morning. The messages you hear were given to the leading Iranian scientists and the government operating at the moment. So we share equal to all of you what the Iranian, Chinese, German, and Russian leaders are listening to. (:42). As we make One Nation out of the human race, through this virus. Now you are each, in intelligence, equal to the professors and the world leaders who were educated 50 years ago. AIS many of our professors and doctors who are battling this virus, in most of, or in all of the countries, are as good as the old donkeys, with the bit on the back, carrying a stone or books. Nothing goes in their head and they don't care what they are carrying. As long as the pride carries that double word, "DR". One day I'll tell what the R is for, but at this moment we'll leave it for them to explain. You have to understand that every part of your body has a salinity, and that salinity dictates the energy, which is absorbed, retained, and released. Now many of you with the KF in the past few years have been through this process. If you remember, for some time we all played with the pH, creating 10 and 12 pH, and 0 and 1 pH, (:44). and through the understanding of the PI T, we understand that anything over 7 gives us more solidification towards the body by absorption of the energy ?? which is, anything going positive above 7, is G field force, and anything below 7, we call it, acidic, or energy field force. Seven is the equator line, in a way, 7 is a zero point.

Now I'll teach you the secret of this virus, and it is for the KF KS to spread this knowledge across this planet, and secondly, remember that when you become "man of space," you need to know. At the moment there is a huge problem with nations like Iran, China and the others, what they have done, they have blocked, once they have identified the virus that somebody has and is positive, to be cultured any further, to see if anything has effected it. Like a Gans water, they can't do, because there is no certification for the laboratories to grow. At this moment in time they don't know how to control. But all of

you have been with us and you understand this very easy. If you carry a normal blood without infection, test the pH of your blood, and saliva, (:46). and test the pH of what might come from your breath. At this moment you have no virus, make make these your zero reference point. Do you remember last week I taught you a couple of tricks, this is another trick or way to detect the virus, but in a scientific and direct physical way. The first time we showed you how to do the 10 second test, in Iran it has become very effective for KS to test themselves and the ones who are helping. For 10 seconds, hold your breath and see if you cough or run out of breath. If it's below 10 you are vulnerable. We have seen in Iran that people can't even count to the first second, and they cough. And after using the Gans water, 30 minutes later they can hold about 12 seconds. We have seen the breathing go from 12 to 36, and blood pressures go from 80 to 97 in less than a half an hour. All is getting documented for the Iranian government, and relentless down by the KF of Iran, headed by Mrs. Mohammadi, is breaking through in a beautiful way. What we learned is very simple, if you can hold for 10 seconds without coughing you are just about safe, maybe. The next test is, we understand that this virus has mutated, (:48). and has gone from the lungs into the brain, when we said this, they said it was impossible, but now the Chinese confirmed, that this virus mutates. So if your lungs are not done (infected), it doesn't mean 100% that you don't have the virus, because now it has mutated to the energy of the soul and the brain of the man. Then you spray your head, your lungs, and your back, with the Gans water from a Cup of Life (CL). If it doesn't have any effect on you, no pressure in the brain or lungs, now you are 95% sure, yes or no. If you get a headache with no pressure (in lungs or chest cavity), or pressure (in the chest), with no head pressure (headache). It means you most probably, possibly have a virus, of the Corona in your head -- possible. If you get both in the chest and the lungs, you're 95 to 100% sure that you have got it. Don't panic, but keep on spraying. Understand that it's not a water anymore, the Gans is extracting the energy of the virus, and within 6 hours you should see some results. We have seen in Iran, the wife of one of our people, and the powerful people themselves, using the T, and after a few days start eating, when they haven't eaten for a long time. Strange enough, all the reports we get from around the world, from those who have had the virus confirmed, (:50). after the application of the T, they want to eat, they're hungry. Do you remember, the first pig that had the Pig Flu, after we washed it, it started eating like mad. He wanted more food, he used to knock on the door of the farmer asking for more food. Mankind has followed the same, because the virus has eaten into the energy of the body of the man, and the man is hungry and asks for food. We hear that most of the people in Iran report that they are hungry and start to eating again and well. The Chinese betrayed the KF by hiding knowledge which was in their hands. In Iran, the KF has become a parallel government in the health industry for the people of their nation, which means we do not blame, they do not know, but we support delivering the T to the population. In Iran today, you get yourself to the KF, you report where you are, if you have signs of the virus. Hospitals are full, they don't accept patients. The KF has become the alternative rescue center for people. Within hours the KF Iran, delivers materials, and Gans water to the people and gives them (instructions) how to make it that they can carry on making it themselves, helping themselves. I have noticed that it is a problem to ship waters around Iran and we know there is a problem shipping water anywhere, and the Gans is a water. The Iranian team has come up with a brilliant idea. ... (:52). They are making ready-made Cups and sending them to people, and transport companies have agreed to deliver directly, for free, to help the nation. They receive a cup. The best they can do with the boycotts of Iran by the Americans. This is what they receive, see photo. All the connections are already made. All they

have to do is add saltwater and start saving lives. This has become the pattern of saving lives. As I was told just before this meeting, 3,000 of these are ready and are going out, which means immediate transportation and immediate use, and immediate help.

So now (let's say) you have (failed the test with) the 10 second (of holding the breath), and you had the virus pain (after applying Gans Water), now it goes back to our professors, doctors, scientists, ministers, and the presidents of the government, (who say) we need a physical evidence. Let me educate you, the doctors, the scientists in your governments, and countries as KS. You tested the water and you know its pH, and you have tested the Gans's over years and you know the pH. (:54). Now we tell you to test the saliva and the blood, and the man who has the virus will show a different pH. Then if the pH of your Gans water is below the pH of your blood, which is infected by the virus, it means through the principle of the energy transfer, the virus gives its energy to the Gans water, and loses its power as a virus to damage the man's life. You have to understand the higher pH is the gravity (G), and the lower is alkalinity, but always by the law of plasma physics, the stronger gives to the weaker. You don't need to wait for your government to tell you that you have the virus, and 'we have no cure for it, you have to suffer and die with it.' You did the 10 second test, you sprayed the Gans water test, and you tested your pH, and you have your Gans water to do (to use).

The last man standing is the last man surviving. Do you remember the story of the Moses, and crossing the water, the Red Sea, this is that, what you were promised. We have opened the ocean of life for man, and it is for man to cross. It is very simple, what is in the Old Testament is delivered today. (:56). The plate, and in the Biblical proportion disaster, and the solution, with the enemy behind. We have opened the ocean of knowledge and it is for the man to cross. Those who deny and know, and those who don't want to accept, will see the consequences of their own time, as this virus evolves, and gradually over years will take those who are non-believers in the peace, in understanding of the change of the condition for human race, and evolution to One Nation. The message is very clear, you have everything in your hands to test. The KS in Italy, Iran, or in the US, you have been given the key, if your soul has chosen the path to cross the ocean. Once you cross this line, and once you understand the totality of the knowledge, with what you have, then mankind is ready to enter into the Universal Community (UC), because then, he can safeguard himself with the knowledge he has, with the test that has passed, and he will survive all, or most of what is in the U to come. (:58).

In so many ways, as I said to the Iranians, we're on course to hold the April conference in Tehran. Iran will be the only nation clean, for anyone who comes in, and anyone who lives within its territory. In the coming time Iran will send the Sepah out, as we said, to help the rest of the nations to develop and understand the T to safeguard their nationals.

If you don't understand, we'll tell you something very simple, how bad the situation is. The KF in the past few days has been requesting to receive a container for shipping. We have been told that there are not enough containers to ship around as everything is stuck in the ports in China, and is in the hands of the Chinese. That's how the economical situation will become worse. In one of the European nations the dockworkers refused to unload goods from Italy, in the past 7 days, as it is assumed to be contaminated. They refused to unload goods from Germany, as it is contaminated. They haven't accepted any loads from China since the disaster started. Are we going to stop, and feed

ourselves with the Gans waters in the process of survival, and would we have to listen to the Thursday teachings in the next couple of weeks, on how to feed ourselves with the development of new T of the KF to have food to live to survive. Or is it heading, that we become One Nation, One Planet, One Race, One government, (1:00). governing by the man himself through his own soul.

It's very strange when you look and you understand. The strangest thing is that while world leaders are canceling their meetings and hiding behind the doors, the KF management is traveling into countries to deliver conferences, because we are free. We know we are protected, and we carry the knowledge with us. As I was just saying to one of our KS in Iran, he is traveling from conferences to meetings, and meeting directly on his way, to one infected person to another, and he sits right in front of the most infected, double confirmed Coronavirus cases, and wearing no mask or anything to protect himself, and then he goes to another infected person. It's because he protects himself (with the Gans water). I laughed at him yesterday, I said, do you know something, you are like a vacuum cleaner, you are going everywhere, meeting all these people with the virus and nothing happens to you, because you are protected. The KF teams, management, and KS travel with freedom of mind. You are well protected by your own knowledge, not by the blessing of gods and imaginary lies. We will attend the Brazil conference, and we are proud to attend. We will attend the Tehran conference, because we are well protected, by our own knowledge and a simple water. (1:02). I would like to ask, if president Trump would like to join us, at least it's somewhere he is safe without the disease. I would love to know if president Xi of China, would leave the prison world they have made around the leadership, to protect them from getting infected. They close the doors on their kingdoms and presidential offices, while we open the freedom of man to mankind across this planet and the U, through the knowledge and understanding of the totality of the knowledge of the U.

Now I am the Messiah. I am the promised one for my soul, and the messiah of my soul. And if all of you understand this, you understand simply, man rules through his soul to the dimension of the U. I have one regret, and I hope that Belgium will be safe from Corona and nothing happens to this land, that nobody dies in that country. We need that king alive, that he doesn't die in the hands of Corona, because he is of old age, to bring these cronies to the justice. It's very simple, understand one point, understand how you understand the knowledge. Understand how you control the knowledge in every direction, (1:04). when it comes to energies, life, food, and everything else around you. Understand the interaction of the fields, and if you remember in the past months, I keep on saying that we need to move away from the Gans's and understand the fields of Gans's. Understand what it means and how they interact. Now you understand, why and how I have been asking you, because you are dealing with an energy called, a virus. It has no physicality, it's a game that no machine can see.

Yesterday in a trial in a hospital, when they used the Gans, they said, 'the structure is the same.' I said, culture it. They said, 'we cannot, we don't have a license, nobody can culture it. I said to them, now use the pH. Use, understand. Listen to the KF world family. I have posted everything you need to know, about how the virus works, and how your knowledge as KS works. Now you all have become philosophers. Up to now we have PhD's and professors, and you had to go to universities and schools to become one. There are no schools for philosophers (in space). Now you are philosophers of the space, and you have given the degree to yourself. You understand more than those who

carry the books like a donkey on their back. (1:06). Because you understand the essence of creation, and you can handle it. So, when it comes to the virus, change the environment. Spray the Gans's in your homes and offices. When it comes to your body, protect and shield it with Gans's, that if it is in (virus), it (Gans) will take it out. And what is out and needed, can be transferred in. So you wash your body with the Gans, and take the energy of the virus, which is stronger out. Then you very simply drink the Gans (water). Watch if it has mutated the muscle tissue of the man. You breath the Gans water, air, that it goes into your lungs, that it converts its energy, and it takes energy out and you start breathing. Within 3 hours, you should see the first results. If you are in a critical condition, then within 3 days.

We had a case in Iran that a child of 9 years old, as written by the great aunt, they tell us in the hospital, that they can hear his heart in the room, they don't need the machine to listen. The next morning he was discharged (after given Gans water), I have the discharge papers, that say there is no virus, that he was in perfect condition and can go home. (1:08).

You asked if you understood, those of you who are physicians here, doctors, and you have understood the new T. When you take the liquid from the lungs for testing, test its pH. You don't need anymore, these sophisticated things and culturing. You just test and see how high the pH is, then you introduce a lower pH as Gans, as air and you extract the energy. If our friends have seen the pictures of the infected lungs. I sent one to you Rick .. can you play it. ... it an MRI of the chest of an infected person. .. if you look at this MRI you see calcification, this is how you die. Your lungs literally solidify, and they see it as white. I have pictures but no internet ... (1:10). ... What I am going to show you is very simple. ... I am going to show you some pictures on how you die, it's the most horrible way to die, but too many of us are dying and governments are not responding. We have taken charge and let them do whatever they like. I'll show you how you die. This is how your lungs will look, (shows MRI). Calcification. (1:12). This will be the shape of your lungs in the last hours of your life. This is a new MRI, less than 3 days old. This gentleman went through, and the doctors couldn't believe he has changed so fast. They went in to intervene and opened his body and he died. Well before he couldn't even breath. This is how your lungs look. I'll show you more. ... What I am going to show you, if you are lucky, you get long before this. The situation is totally out of control with governments, because they themselves are dying. World leaders are hiding for their own lives, and how can they govern, when they have locked themselves away. Shows a second MRI, this is a better condition, and this person in China has survived. He is tested and cleared with no virus. You have to understand, that when you go through the situation, you loose a lot of controls. (1:14). In so many ways, you see this lung, it is worse than the other one. I can even show you the face of the woman. This solidification or calcification of the lungs comes through the new salt condition, which carries partially the emotion of the physicality together, and as every cell of the man carries a Ca center in it. Then one understands how to see the change, as the energy changes, it creates the energy of the Gans of the salt, of a higher order, and the lungs gradually solidifies like a bone. The doctors call it calcification, if you look it looks like a bone structure. And if you look much deeper, you see it as harder and much whiter.

Now you understand, but the problem with this is, (1:16). once this virus enters your lungs, you have to remember the other part of the T, which I have taught you. If I take

away your kidney, because it was there, and if I can create the right condition, I can let your kidneys grow again in the same position, of where the cavity of it is. Because the field of it has been in that space. So in your lungs the field of the virus is always there. If you travel and come across another strength of the virus, it connects up to you, because you already have a common denominator connection. So you get hit a second (time), ?? death. But if you keep on using the Gans water for the time to come, as we do not yet know yet, how bad it is going to get in the summer, as we have seen in South America. This virus lives in hot and cold, we have never had (one) like this. He is a very clever one. With the Gans waters it doesn't matter how it mutates, you mutate with it, because you keep steady with it, with your Gans's, it is completely there, and it is always weak and it (the virus) loses energy. In so many strange ways, we understand the whole process. Now the knowledge I have given you in the past hour or so, is not acceptable by the doctors because it wasn't in their PhD thesis, nor was it taught in medical school. (1:18). Now you are more clever and knowledgeable than your own doctors. We have seen people who have gone through the first phase of the virus, and then when we take the virus away, we see the damaged cells, going through infection, and a second temperature that some people go through, it may be stronger or weaker, depending on the strength of the virus, which has hit. You see them using a course of antibiotics, under the advice of the doctors, and once the cells get repaired, they release the rest of the energy of the virus. You carry on with the same Gans, and you'll walk away in about 6 hours. Try to remember that, do not panic, at the same time remember that this virus can mutate without dimension, and it even has the space to interact with the energy of the STM as it does with the STP of the man. It's extremely intelligent, and it hungers to survive. What we have seen for the first time, which is extremely frightening, if you don't understand anything about it, but if you are knowledgeable like us, (1:20). it brings a new dimension into the life of the man. As you see in this lung, it (virus) is trying to give himself, itself a physical manifestation. If it reaches that point, it will become like us, being pregnant with a virus, will live within us.

We have seen this in the space, and in the condition of what we call, parasites. These are virus parasites, about which, man at this moment has no knowledge of. If you are a lover of Indian food, you understand that every herb that Indians use in their food, while it is tasty for you, but for them, it is a way of surviving the parasites in their environment. They have found a way through herbs and roots to overcome it, be it ginger, turmeric or whatever. When I see this picture and with the knowledge I carry, it brings me huge concern, and that is, if this virus becomes a parasite virus, as we see it is developing, then in the long term, would this parasite take the body of the man, with it. It has happened in the U. (1:22). This is not the first time that we see it. Maybe in a few weeks, months or a few years you'll understand what I have said in the past 5 - 10 minutes. If it has managed to create strength, at the emotion of the field, to create the emotion of the Gans of the salt, to in a way, calcify the body of the man, and now he can mutate to understand the strength of the calcification of the Ca, it becomes like a child within the body of the man. But this child will not be given birth by the body of the man, but this child will be the owner of the man. I have never said to you anything, which has not happened, or will not happen. We have seen his mutation, and his intelligence to mutate, if you remember when I gave you the CL, and I told you the Cup has a soul. Now you understand why. Because this virus, as I told you, it has a soul. He has created a soul between the energy interaction of itself, and the soul of the cell, and he has triggered a known condition in the U, which leads to creation of life, and if the salinity strength field of the emotion is right, (1:24). it will give life to himself as a

physical entity. Maybe (now) you understand the creation of Adam and Eve. Maybe now you understand the essence of the creation in a physical dimension in the U. Then, was this virus deliberately, delivered to, or has he entered to take over all of the human race? Now you understand why we say, that we have to prepare mankind for space. The parasites of the viruses, are so much worse than parasites in the physical dimension of human life. There are races in the space that have reached a compromise between these, and their soul, and both live in dimension, and we can see both. In time mankind will see these creatures in the U. Remember, (1:26). the 10 second (holding breath) test, the spray test, the pH test, and then understand the test of the strength of the STM in this condition. This virus will mutate beyond, this virus can mutate beyond, but the strange thing is, it has taken the shape of the body of the man, and it can live in the cold and warm, and this is what we said with the African Swine Flu, it's a warm temperature. But we see it, still ravishing across China in the winter.

There is an amazing picture of one of the women that I admire in the news. The chancellor of Germany in a cabinet meeting, goes to shake hands with one of her ministers, and he refuses, and he says, haven't you heard about the virus, I don't want yours. Or will all of us become Japanese, and bow and never handshake again. Would a kiss become the kiss of death from the husband to the wife. (1:28). Or do we start thinking about everything we do. And here man knows he has become the source of the transfer of the virus. Would we have anymore value for the bank notes? Or would we all pay with little cards with circles on it, that it is just by touch. Then there comes a social structure, I do not work, I have no money, but I know where to print a card that it says, that I have money. So I create my money that I can feed myself, and he is respected, because he will stay alive. We have seen unbelievable scenes in governments where the hungry people not being able to feed themselves, take their lives in their hands, and they walk the streets, and then somebody executes them, because they have no permit, and they have no food. Being dead by the virus or the bullet is the same, end of suffering. Would we see this on the streets of Washington, New York, and Los Angeles? ..99% give me time. We'll celebrate "Narus" (Spring festival) in Iran with a clear nation (free) of the virus, and unfortunately we have to see other nations to suffer. I have made one commitment to the Iranian nation, we'll lead this virus out of the nation. (1:30). Then we have to see. Would the world leaders come to Tehran, because it's a free virus zone, and not out of peace? Or do we get them there and then, they force themselves into peace. We have to watch. Iran's ambassador to Vatican, has died of the virus in the past few days. Would we see the same in Vatican.

If the Roman's took the disease with them to the US and Rio, they're so religious that they go to Vatican every Sunday. Would there be an empty building as there are no more priests as they all have died of the virus? And would man judge his creation and the Creator? As we hear the Pope has canceled last Sunday's Mass with himself. How many infected people from different parts of Italy have been to Vatican and sprayed, touched, kissed and cuddled, everyone (dipping) in the water as they enter (the Church), and every thing that can be touched. (1:32). The "House of God" has become the house of death. Didn't they do the same in Iran? Are we now taking our belief in our Creator into our hearts, because we can't go to Mass. And that was one less headache. The worst nightmare for the Liverpool Football team, was that after years they were just about to win the British cup, and now by canceling the football season, because of the virus, all dreams have gone. No schools, no football matches, no interaction in the society. As a woman said to me in the Iranian Chat, 'you know Mr. Keshe all of us 3 sisters with all

of our grandchildren, we all met 10 days ago, and it was such a beautiful time, and now all the grandchildren, daughters, sisters are coming up with the virus. And the child is in the hospital, and the second one, another .. Will it come to the point that we do not even meet each others family, out of the fear. Or do we move to a new knowledge, that we took flowers, and now I bring you a more beautiful way of producing Gans, the way now in Iran they are gifting to each other (with Gans). The Iranian KF team is amazing. (1:34). They reach the victims, they spray and cover themselves, and they give to them and teach them how to do (make) it. Sometimes they are on the phone with me, even with the sick person sitting next to them. I asked them if they were wearing a mask, they said, 'I have no mask.' In the past 48 hours the Iranian KS with the Gans's, have sat with the heads and leaders of the nation, and with those of the man of the street, and they treat them the same. And at both times, I have been on the line, because they want advice. Knowledge and life, no border, no seat and no power.

My only regret will be, that the ones that we save will abuse this power and this position. As I said to one of the KS in Iran, carry the World Peace Treaty and get them to sign before they die. If you want the help, sign the World Peace Treaty. You are the head of a nation or a minister, you sign and commit your nation to peace. And then you'll see that you will keep (it). It's for your soul. Then you give them the paper and say, this is the promise you made to humanity and your soul, and this is the Cup of Life, keep the promise. (1:36).

But what I see, is the same again, as during the Roman times. The Roman's believed in the god of Iran, what we call Mithra. Would we see the repetition again? Would we follow the same. Would humanity follow the path of peace after this, or is it just another crisis that we pass through? This time these crisis will stay with the man, and becomes the control of the STM. This parasite is a parasite of the STM. Soon you will understand. Now you have the full story and I'll give you more.

If the time comes that the nations get hit with the shortage of food and fuel do to the closure of the gates, borders and roads two things will happen. All nations, we have the (same) problem, we all cross this matter, and it gets mixed and mixed, and different virus combinations will appear, or it becomes a total shutdown of the borders, where even there is no soldier to guard, as he is dying of the virus. (1:38). We'll enforce the end of the national borders through natural calamities, the process that the man has done to himself. We have seen the abuse by some of the world leaders of the position and time, and you'll understand soon. The interesting point is, how the world leaders, even in the time of crisis, by the habit of stealing and robbing nations cannot stop. They go to Switzerland to make sure their bank accounts are well ready for the bribe they are about to receive in the next country they meet, signing huge military contracts, on behalf of their nations. But the wisdom is, do we have any soldiers to protect, and do we need these arms. You have to understand something very simple, the Chinese government and nation in the past 30 years have become so advanced, and people and the nation have become more clean and hygienic, but still, with this, we have seen massive death and infection. You have to be very clever and understand the truth, a government doesn't close and shut the nation of 1.4 billion, because of 2,000 deaths. The government shuts nations when there are 2 million deaths, (1:40). 20 million deaths. At the same time if you have a nation that has become so advance like China, and so clean, looses so much. Do you believe only one thing, where a nation is clipped between two of the worst nations hit, China and Iran, with the virus, and it has only 5 deaths, until the

President (Trump) leaves and signs the biggest military contracts he wants to sign, and if he manages to sign it. And the state of India says, it only has 3 or 5 deaths. Is the news getting manipulated for the benefit of some, that they can steal from the nations even in the time of trouble. Or would we see bodies on the streets of Delhi, and whatever, because there is not even a place to burn them. Or have the governors of India lied to their nation, and the situation is far beyond. Don't forget India has a very healthy Chinese business relationship. And it has a better business relationship with the Iranian government and their works. And they only report 3 as of yesterday or two days before, because now the thief has come and gone. (1:42).

Let me explain something of the gravity of what is going to hit you. .. Lisa is Earth Council for Australia. .. Could you tell me what is the effect of the Chinese not coming back to the city, the students and the rest. L- We have a very high student population that comes from China because it's a way for the Chinese to learn English and get the visas to be able to live here permanently, so they first become students. .. Because the New Year starts in February, of course none of the students were coming back to the new year of their classes, so there are peripheral problems with them not coming back, property problems with rentals not being filled, jobs that now vacant. ... because 60% of our toilet paper comes from China people are hoarding it. There are very strange effects going on around. (1:44). and hitting us in ways that are not yet apparent. K- What are the effects on shops. L- a lot closing down, and going bankruptcy ... K- What do you see economically L -- it's economically depressed and tourism has crashed. (1:46). ... K- can Australia in the long term stand such a loss? L- in the long term I don't think we can ... just about all of our components come from China ... (1:48). ..

K- What is interesting is now we see that governments are not in control anymore. It's nationals who are not going to Chinese restaurants or buying Chinese goods. Yesterday I went to 3 supermarkets to test something. All the tomatoes, anything with the Italian name on it are not moving much on the shelves. What we saw the Chinese restaurants empty last weeks, now we see that Italian restaurants are empty. And when Americans get hit, how many will not go to McDonalds or Kentucky Fried Chicken, and the others. When we draw a line, like no flights coming out of China or Iran, we close each others borders for whatever. The nations will say they have none, but they have a lot (of virus victims) and they don't want to report, (1:50). because they don't know how to handle the crisis. Our ministers are the ministers of incompetence, because they were ministers as long as it was humming and they were getting loot. I called a minister wanting to speak to him, he said, it's my time off and I don't speak about business during my time off. I was shocked, you are a minister of health and you don't talk. We'll see people will take position, and we'll see the change in the long term, by all of us, towards ourselves. We'll start taking self responsibility and self endurance.

I was going to teach you something new last week, but I will wait until that time comes, then there is a need for it, because at the moment there is nothing, no need for it, but at that time you'll understand. At that time you'll come to understand it, because you'll have to feed a child, or you'll have to steal, or die of hunger, or the virus. But the reality is, are we getting tested. There is no way, under any circumstance, can this virus be controlled. This virus is out of control in every nation. And how many of us will go out of it, and then come back into it (relapse). The Chinese have shown mutation, and that a large number of people, who came in for the first time and the virus cleared out, now

they have come with a second one, and they die. (1:52). In some cases they come with a third one and then they die, because the virus is mutating. The virus is continuously mutating. In so many ways, the human race has made its match, you killed enough, now you get killed by yourself. You can't blame no one, there is no war. We finished the wars on mankind, on each other, but mankind did not finish the war with his own soul and his own dimension.

One of the most important parts of the teaching in the coming weeks will be the survival. I showed you how to protect, and work within, and around this virus. Now I'll show you how to live with it. How to use it to feed and nourish you, and to use it to protect you. The name of the game, is understanding the work of fields in the U. As Lisa told us, the economical condition will change very drastically. Too many containers are stuck in China, and too many, (1:54). are Chinese and nobody will unload them. Most probably, the Chinese are telling us, that they'll start supplying in March, but most probably, what is in the background, we don't care how the people die, the nation has to go through. Now death will become as a natural process, anything that dies by the virus, doesn't count anymore. The way China is now gathering statistics, there are no reported deaths. But unfortunately we see many cremating machines appearing in the cities. If you don't have any deaths, why do you need to burn them. Satellite reports shows different reality in different parts of China. When you burn bodies it creates specific traces on the international satellites and spy satellites, are telling us that the burning is beyond. Don't forget KF has one of the strongest national security teams in the world, dedicated to perfect correct information. The death toll in Iran, I don't want to put fingers on it, but I can tell you, you don't want to know. As I to a friend yesterday, I said, you know its very strange, there is a national committee meeting, and we (usually) see many people around the table, but yesterday in the picture there was only 3 and they're all sitting 5 meters apart from each other. (1:56). But the interesting thing is, if this virus is mutating through, whatever, its soul, would it translate and transfer through the STM, or would it be able to get through the telephone lines, through the voice of the man? There are a lot of things coming to me saying, that G5 ?? is responsible for it. Excuse me, we don't have G5 around here, in Iran, as far as we know ??? after 30 days now, it's 100%. A certain strength of the virus. There is a hypocrisy, that some doctors have come up with, as it goes more and more it becomes weaker, but somehow it gathers energy, ?? at that weak point, ?? other say it becomes stronger when it comes back. Let us understand the P I T. Let us understand the state of the affairs internationally. In so many ways, we need to understand how and the way to do it. There is the process and a way, and there is a school of thought, that says, world leaders who become world leaders, stay world leader, but how far more and how far less will it come? Summer or winter or autumn. ??? We are in the cold ?? season, Italy has shown us that it is living in the cold. The problem is, (1:58). how far is mankind ready to evolve, vaccination.

R- we are having some interruptions .. K- At least you haven't resigned yet Rick, this time, that's good. R- That's way better thank you.

But you have to understand, we'll make direct attempt in Brazil conference to bring some sanity to this situation, before the Tehran conference. The KF team has made ready equipment, and we'll have equipment ready in the next few days to cover the state of Italy, Austria, and Germany, with a rapid response. The systems will be taught, and then it is for the nations to develop. We have to go through this process, the governments have to feel the pain before they accept the solution. As an Italian friend of

mine said, I can't fly because the airport is closed in Italy in the Northeast. I have to fly for my living for my living, where I want to go they have canceled the flight.

proofede to here

(2:00). We see flights out of Italy still carrying on to other parts of the world, spreading it like flies. You have to remember certain criteria. The UAE gave vaccinations to all of its citizens by force. At the end it stays about 3 weeks ago. But they have not managed to control the virus because they closed the schools as of this week, for 4 weeks. I promise you that it will come to March and say it's another 4 weeks, and then they'll say it's summer holidays, we'll go through. We'll see the same in many countries. The Chinese have gone on the Internet with teaching, so the schools are not shut. The other nations will choose a different path. We'll become nations of isolation, no one will talk to no one in case they get the virus, or you'll carry a bottle with you, across. You put a sign, I carry a Gans with me. We have to understand the situation is going to get critical, it is already critical in a number of countries. But you know when you'll hear it, is when the Americans get hit in the next 2 weeks. All the ones from Rio, who what you call, partying, who have brought the virus will land in Los Angeles and in different parts of America. It will spread to other parts of Brazil and right across North America, and then they'll start dropping like flies. Most of these countries have no equipment for mass emergencies, (2:02). except ?? It takes months to build a hospital, they built one for those who are infected, which are actually warehouses with beds to die in. Because when you send one person from Italy to Rio, and you get so many infected, can you imagine what happens when you put a thousand in one room? Who do you expect to come out alive. It's become a prison of the man. In so many ways, there is an old saying in English, you send young boys, who have done petty thief to prison, to come out 2 years later as graduates and PhD's in all the criminal activities. They have nothing (else) to do, but they are with a bunch of others who are expert in it, so they learn ?? It's the same with the man who has the virus, with a thousand of them in one room of the place. What do you think? Would you send any of them out (alive). Isn't execution on the streets the best solution, then suffering over the long term? As it is done by some nations today. Many of you are asking, how can I make Gans's, what is this and what is that, how can I do this and that? (2:04). Stop asking questions and just make it the way it is. I'll show you a way to do and it passes as a way for many of you to do it. This is a simple way shared last week, it comes from our Iranian friend. .. (For connecting 2 Cups together at the same time). Make yourself 2 stars (wires) , one Cu, and one Nano (N) coated, and one Zn. Make another star the same way. As we taught you, get a simple cup, another cup. Hang your N coating, of the star, in the middle, put your Cu, on the same side, in each cup, facing each other. .. Connect the 2 outside (Zn and Cu) together, for both cups. Then connect the Cu and Zn in Cup #1 to the middle N wire in the Cup #2, and visa versa. That's all you need to do, then fill it up with saltwater. You don't need a battery or wires or any confusion. the beauty with this is very simple, each Cup has its own soul, and now they can mutate with the virus. Mix the waters from the 2 Cups, mix the Gans's, and wash them and make it. There is one principle you have to understand. (2:08). When you extract the Gans's, there is always ?? salt. You have to put this in a water as many times as possible. .. And the water you take from the top of the Gans has to be sweet, no salt. In that process, ... (break) (2:10). The totality is when you take this water, it has to be no salt. the water you wash (rinse) until you get a sweet water, you can keep for sterilization of the environment, house, room, door handle, lift (elevator), but you never use the saltwater on the body. This salt has an advantage, because when it dries it has a little spot of white, wherever it sat,

because it has salt in it, and with it, it has trapped the energy of the Gans. So when you put it in the room, it covers the whole room by energy transferring across, you disinfect the whole environment with it. If you understand the transfer of energy with the Gans's. When you get the water without salt, wash your breasts (chest) and the back. The chest area totally. Wash your head the front and the back, and drink at least a 100 mls 3 or 4 times per day. And you have to breath in (water on clothe or mask) at least 1 time per day, 10 to 15 minutes. If you go to the critical condition, it's worse, you have to do it totally a different way, and you have to increase it, washing of the head and breast to every half hour until the temperature is gone. In Iran we have had 100% success. We'll release data so when the world governments ask us, we'll show you people, we've found very good actresses, as they said before. (2:12). Some of these people are public figures in Iran, ?? , and some are scientists themselves. This T knows no mercy (difference), palaces on the street or cardboard boxes of the Vatican. The strangest thing is would anyone dare anymore to overlook a lot of things with the viruses now that they have become part of us. .. Do not get yourself in a position of no return. We have seen people who had a temperature and fever and they used the Gans water (once), and that was it, they forgot about it, and 2 or 3 days they said, it came back worse. Make sure, once a day, twice a day, once a week, twice a week, and just keep on spraying yourself, and if you see a sign of it, do the 10 second test every morning and evening, and you'll know if you ?? have it, you'll see. One point which most of you must know, do not panic, even when you get it. (2:14). This virus is emotionally controlled and we have seen deaths in Iran when people who show no sign of the virus, no fever, temperature, or coughing, but we see in the body, what you call, the virus, and they die of a heart attack or a brain hemorrhage. We see a lot of brain hemorrhage deaths in Iran, because of the fear and the virus working through the head, and the lungs. One thing which most of you will understand, is this, this is the first time we are releasing this knowledge, and it's very important for you to understand and you may share it with the others. What I explained before, about the lungs and the heart and how the energy transfers. What we see the majority of the cases of people who are infected, the ?? pain in the center of the chest, known as the ?? solar plexus. In this position you feel the energy, this is where the virus is taking its energy from. When this solar (plexus) gets damaged or runs out of energy, is when the line of communication, literally gets disappeared, and gets dissolved. (2:16). Then you see death, because as its name goes, it's the star, or the center. It's where the energy has come from. You'll find out that when the solar plexus runs out of energy , the soul runs out too, and the death occurs. If the soul runs out of energy it separates from the body too. A lot of people talk about the pain in the back of their chest, and then a pressure on the heart or the solar plexus, before they die, or at the beginning. And a lot of people talk about the pain in the back of the head, somewhere inside but they can't say where. We have these, so don't panic, just wash as many times as you can, frequently. Wrap yourself in it. Wet your T-shirt and clothes. .. Spray your ?? bras (for breasts) , you women are in a better position then we are, because your cross brow has a pin point right on the solar plexus. (2:18). Put a pad on the back of the bras under the straps, with the Gans, you're done, the wash your bras , again in the CuO water, don't touch it, leave it in CuO for 5 minutes, that way it drains its energy. If you see it coming back change the bras or use a T-shirt. But you have to clean it to zero, that it takes its energy off. Those of you who are faced with pain in the body, spray your body, it means the virus has entered the body tissues, through the strength of its soul. I have setup a Chat that is only for rescue, and we put people to start answering this Chat in the coming time. Because we are trying to sort this out with many people, that this can be handled by competent people and those who understand. The line is called,

Coronavirus Emergency Center. Do not send to us, "I made the Gans, this is that color," you'll not get any response. (2:20). The emergency team worldwide, and it has to be setup by all the Universal Council (UC) members, they have to handle this themselves. They have to look after these in their languages. Try to setup centers with the people in their country, to respond, the way it is done by the Iranian team. Which means we have to organize people who are in position to be able to help to setup. ... The teams in the background could explain to you how they are supporting and running this. .. Mrs. Mohammadi (MM) .. she has done an amazing job in Iran, she is head of KF Iran .. (2:22). ... MM speaks.. would you like to tell what is happening in Iran. K- Translates. She is sending all her best regards to all the KS. I am Mrs. Mohammadi. .. (2:24). Since we started to find a way to negotiate with the Iranian officials from the government to the KF. We are setting up and writing many letters with the officials and get them to understand the virus in Iran. We have been working with all the KS across Iran for nearly 2 years. We decided in parallel to setup knowing it take as lot of time with the officials. (2:26). They have established centers in every district which they carry Gans's and they have the knowledge to teach people how to make Gans's. Our target is to have one center in each city, that once they put the city on quarantine we have access to support the people from inside. All the help is done by KS, and all the materials are given to the KF freely to make this possible. (2:28). With what we setup we can see that setting up a structure we can support the whole of the nation, until the government wakes up to the reality. (I have to explain it's not in the translation, in Iran when it's critical, they use red to indicate that the infection is high.) She said that if we manage to cover these red cities, which are highly sensitive and with a lot of infection, then we can cover the family. If we can cover this little town in the north of Iran that has huge infection, then the world of mouth telling them that rate of death has dropped in this city because the use of the Gans T, then the T will go mouth to mouth by the people. (2:30). All the Iranian centers across Iran have started producing the CL as you saw early, to send to this city that it gets covered with the One Cup One Life, that we can cover the city and support it that it can walk away from the disease. But she can't mention the city for security reasons. Next week we'll announce the result and outcome of this from the city, that how we have managed to cover this city with One Cup, because this city is a highly infectious area, and we'll announce the result next week. She is thanking all the KF supporters for their kind support. K- MM how many lives do you think you have saved up to today? MM- many I hope. (2:32). K- How many people have responded to the KF team? MM- They have supported many and have kept a list of the people that they helped, and they have setup a rapid respond team in Iran. If they can't get to them with the water, they send them a CL and instruct them how to use it. ... I have to explain something in the background.. They have setup centers in all the cities and districts, and all districts are covered with materials, that they can respond immediately and the minute they get the requests they respond to it within hours, and if they are not there, they dispatch to some companies that they have come to an agreement with, who do the dispatching free. Up to now they have saved many. On the support lines people come in and they start making the CL. They get taught live and can go on the Internet and they are teaching their families, and friends. What KF Iran has done is to take the knowledge to the home of people. (2:34). It's manned 24 hours a day, I sometimes stay online, we have teams of doctors, 2 or 3 in the background to advise for anything else because some people see different conditions. the emergency team in Iran is very rapid. within minutes, they ask for the address, home, telephone number, they talk live online with the patients, with the person who has monitored. We have 3 children looking after their father, I have videos where children actually ask

them, if they can do the count (to 10). Then they come back a hour later and say, "Papa do the count." They send the video. They have mothers and grandmothers making the Cup, and they all have become, one ?? gel family. In emergencies, I and the doctors try to come in to advise what to do for the next step. MM and her team are in the city of ?? have setup a structure, unbeatable even by the Iranian regime. They work relentlessly, and every KF KS in Iran who can manage, or they start learning. They start putting the names and telephone numbers on the list, and you just find who is nearest to you, or you go to the emergency line and they find somebody to get to you, something. Iran will be cleaned in the next 2 weeks from the virus, because of the wisdom of MM and her team. And one of Iran's airports have been taught in the past few days how to cover. (2:36). We'll cover nationally. .

everything possible. They make Gans's, there are hundreds of thousands of liters of Gans's in bottles. I wish I could share these pictures with you. They just send it in any shape or form to people, and people receive it warm, because they call up and say, I'm a mother, I have MS and I have got the condition and I have two young children. I have isolated myself in the room, for my children not to get infected. Later we get a message that they've delivered the material to her, and hours later she sends back, 'I lost the symptoms, the fever is gone, the temperatures is gone, I feel energy,' and the mother is back with the children. We, .. the work done in Iran, is unbelievable. The foundation has taken over the job of the government to support. But we still sit in conferences, and the doctors say, 'these are not acceptable, we have to have a clinical trial, it has to be in journals.' By the time you get them in the journals, you're dead or your family is. We see them, and we have structures set up to succeed, and I spend all the time on the line, I'm there, I stay in the background to see what is going on. There's a need to help, the first few days was a lot of answering questions, and now it's become routine, the team has taken over, and they're working, and they're supporting. You have to understand there's a lot of the skepticism about this, (2:38). they're not happy, some people come in and they take it, and then they see the results, and then they start to teach. There is a huge work going on. We saw yesterday, we are handling it in a beautiful way through Mrs. Mohammadi, she is not only handing what I called the Keshe foundation, with the rescue, she's heading there all the negotiations everywhere. If anybody who doesn't move in the governments in the local areas, then they inform her. So she's a central pivot point for the whole thing. I called her in one of the talks, the "Mother Theresa" of Iran. She's working relentlessly, if you send a message five o'clock in the morning she answers you, and if you send a message at one o'clock in the morning, she also answers you. She had some trouble ??? .. and this is the same with the whole of Iran. The Keshe foundation team has found the strength to serve the nation, and doing it. One of the knowledge seekers says, I haven't slept yet, I'm talking and advising with my eyes closed, because I've been up the whole night, and I say okay, you go to sleep, I'll take over. And now there's more and more of them (people helping). We need this in Iran , in Italy, in Brazil. It will come to you. Try to learn from the Iranian emergency team that has been set up. We have become the support, in the back of the government. We don't blame the government, because government ministers only listen to the advisors, and advisors are more interested in that piece of paper, and the title on the door, as long as they're alive. We hear that many leading clergy have died in past few days. Many, many clergy, we have seen their coffins. (2:40). We have seen many leading scientists and doctors have died. We have seen diplomats, politicians, and members of parliament all

have got the infection. We get calls that members of Parliament's are infected and they want emergency help from the KF, and it's been delivered, during the day or the night. We get people, grandmothers, old people in the hospitals. They come out of the hospitals and they learn how to use the Gans, because they don't let them use it in the hospitals, so they go inside and they use it on their family, and they see the change. We have seen 85 (percent) what you call it, oxygen, and within 10 minutes it goes to 97%. Then the one in the bed next door, asks, 'can I have it too.' So they give it to the bed next door too, because they want to save everybody's life. They come out of the emergency units, and we have cases where, the son has the father infected in the same hospital, as he's a nurse and he takes it (Gans) for his father to save the life. Now the nation has taken over the government, because the government is in disarray. We have a started governing, literally helping the nation. And just one second. (2:42). .. please ... sorry about that.

We see this process that is running, and we will see the taking over in this section, by what we call, the KF team. We are there, we don't look that we are there to do anything (?? to interfere with the government). We are there to support the nation in the time of trouble, it's very simple. We need to be there to support the nation in the time of trouble. In so many ways, we have to be independent and stay independent, because the system, the technology, the information of Technology, has to help the humanity. (2:44). In so many ways, we have to understand, that we have no choice. In a way, our own leaders are in trouble, that are infected, and it's our job to support the nation.

If there anything you want to add Mrs. Mohammadi (MM) just carry on please, I'll translate. MM speaks. ... K- She is telling us, that in a way, people have reached the point that they want to start telling themselves, as they see nothing can be done by the government. In a way, they have taken charge over their own lives and what is happening to them, and to their own lives. (2:46). It's maybe for the first time they realize, that staying alive, and being alive, is in their own hands. It's what we say in Keshe Foundation, "the last man standing," because there is nobody else to help them. The decision has been made by the Keshe foundation in Iran, that every member of the Keshe foundation team in Iran, is responsible to train 10 people every day, be it online or whatever, until they go through the process of learning, that they can support their own environment and their own body, and what we call, the surrounding people. So whatever we have, they support it. She says, it's a compliment. Since it's a gift you gave us, and we are trying to give the same gift to the people of Iran. (2:48). She thanks for being here, and we'll see. Caroline- Mr. Keshe can I maybe ask a question? Q: Isn't it correct that a lot of people, who have nothing to do with the foundation, like business people, and they start coming in to support the knowledge seekers? K- They have seen what the foundation is doing and they are giving everything free, to support the knowledge seekers. Yes normal people, because they know. You have to understand. MM can tell us. Mrs. Mohammadi isn't it a lot of people who are not KSeekers, but they come to support the foundation in Iran, by giving things and doing things? (MM-) She says at the beginning we were not many, but now we see every day, they are coming more and more to give, to support, and then the way that these people are coming to give support. They are getting baffled, literally, (2:50). joining the KF to help, because of the knowledge and what it brings puzzles them, and now we see more and more people coming in to support that it can be done. It is nice to hear you Caroline and we are looking forward, hopefully to see you in Iran with open arms very soon. C- I appreciate it very much, we are there for you around the clock, for every one, not only for Iran, but for the whole world, and we thank you for what you are doing (big emotion). MM- thank you so much. Q: How can we get in touch with MM, address or

in Telegram. R- Is there an address? K- For the address you go through the KF info and the usual channel. (2:52). You have to understand, we see other things which are happening in the background and we have to protect the Iranian KF. The terrorist organization of Red Circle has become active, and they are ruthless, even in the time of trouble they are trying to create damage, especially the German Red Circles. We are protecting our people heavily. As you know Red Circle is now in court, and he'll be arrested very soon for murder, and planning a murder. .. These people don't stop. We protect the Iranian team very heavily and closely. If you have families in Iran and are concerned you know the channels you can get through the info@keshefoundation, and we'll if you are Iranian, we'll put you through. I am very adamant about this. I have stopped a lot of things in the background to keep the Iranian team without these things and pressures. If you are Iranian go through the channels of the KF, and we'll put you in touch. We have already had requests from outside Iran for their family in Iran, we honor and respect it and have supported them. ... The KF security in the background are working relentlessly to make sure that everything goes smooth, inside and outside and in connection with the Iranian team. If you go you can find the KF web team. I give a warning to the German team, "one more move and we'll wipe you out." (2:54). One more move, try to create anymore mayhem or whatever, I will wipe you off the Internet. It's very simple, you are playing with people's lives. .. K- I have to explain to you that the team in Iran has made preparation that even if the Internet is cut off, or any problem with it, a special emergency system has been setup in Iran, that a rapid response team will operate through it, from it. So any interference by cutting off the Internet or causing any problem, (2:56). the system will go into rapid response through the telephone communication. They'll support anything. The Iranian team is highly motivated, and some of them very powerful people with the KF. They have foreseen any eventuality, and we'll gradually get ready in the next couple of weeks, ?? gone to respond to emergency. To forward to the other nations. Iran we had a good run. Thank you very much MM for all of your efforts for what you are doing. You have to realize that this work is relentless, and the way it was spread by the Americans in Iran, to do the maximum damage, that then they could do the clandestine activities, after they had lost in the Iraq situation. As I said, we stand solid behind the Iranian government and Iranian defense T, and in the coming weeks, as I announced before, and I put directly before the Iranian administration, the Iranian Sepah, military will travel even to Washington to support, and even how to save themselves. This is the hand of destiny, but in the coming weeks you'll see that the Iranians will be the only nation that will go out to work, and literally overcome this problem. We'll announce very soon Iran, as a free Gans nation, which means, a nation free of the virus. You get the Gans free, and with it you make yourself free of the virus. This what has been setup by MM (2:58). will extend to all the nations, and nation by nation we'll travel to deliver. I will deliver a talk in Brazil, laying out the structure of how we are going to do it, and how it has been done. Hopefully in the next 2 weeks we'll see a change in the course, by not fighting and hiding knowledge, T, and information, but by teaching the T that we can save ourselves. The beauty of it is, as the governments are in disarray in many of these countries, they don't know what to do, Iran is heading and leading the process. The beauty of it is, that everybody is coming in and learning to do. They're also coming in to teach how to do. We support and stand solid. There is something that has to be done by the nations, and how it is. The center for rescue sits in Iran, they have set it up so perfectly. The only thing is, in the west, you all wait until something hits the US, and then you run with it worse. It has hit the US, and give me 14 days, the "Carnival" time (Rio) is over, and now the carnival of life starts with all the people who traveled across and brought these diseases around.

The governments are not releasing the numbers out of the fear. This is the biggest problem they have, and then the people travel and they spread it more. And they have spread it more. The only solution is, (3:00). most probably what the Chinese have done, which was to bring 80 cremation machines to a city and just burn. The pictures released by satellite do not lie. Burning fingers leaves a specific fingerprint. Burning bodies leaves a specific fingerprint. When you see more trees with hundreds of bodies, when you see holding places for thousands of people, all beds fully occupied, and they are all just waiting to die, because there is no room. The containment has not sorted (it out), but has opened up the doors, but who is going to contaminate who and where. In so many ways, one thing is very clear, this virus knows no race, color, nationality, temperature, and no borders. Africa has reported, and in so many ways Africans don't even know how to report. I was explaining in one of the teachings this week, the city of Guanjo a southern city in China, is full of Africans married into Chinese and speak fluent Chinese, (3:02). and they have been trading back and forth with Africa, with themselves and their wives. They have exported it, it's everywhere. If Italians have managed to get it around the world through their travel, do you think the Iranians, Italians, and now the French, getting everybody else and they transmitted it around the world, and now London. We see that the masks don't work, and become a bigger problem than actually the whole thing. The masks bring more infection, irritation and everything else. There is a need to understand the T, to know how to use it, to explain to others how to use it so that we stop this mayhem. As MM said many times, no one should sell the T, the Gans water, or the materials to each other. It has to be free. It was given to us free and we give it free. If anybody offers you a Gans water, or if you see it in supermarkets, and some shops we have seen it in Iran. (3:04). It's very simple, just test it for its alkalinity, then you'll see if it is only tap water. Any ph over 9, or 8.5 carries a Gans water. You cannot give a ph to water and hold it at that level, unless it's Gans. In the coming time when you buy Gans water, if it says Gans water, put it in the freezer and see if it has M field flow in it. As you remember some time ago, if this is a block of ice, you should see lines like this (vertical slightly curved) in it. If you don't get that it is a normal water. We have to support until the nations get back on their feet. We have to support it out of this mayhem. Thank you very much MM, Iranian teams .. We don't speak about numbers, but setting up a structure to be there to support and now it's supporting. (3:06). .. C- .. As you were explaining the double Cup, it is amazing how fast it is producing amino acids (AA) on the top, and the Gans at the bottom. It's correct that it just kick starts out of nowhere, just exactly as you said, it's beautiful.

Any other question.

Lisa- I am trying to setup a network of people who know how to make Gans, people in the KF Australia. ?? .. K- One of the first things you have to do in Australia, you have to inform the Australian police regarding Richard, and the false things he is selling. He's selling contaminated waters as Gans, and he is selling it to Iranians. (3:08). Somehow it is the work of this guy pretending to be a doctor, and selling Gans. Selling Gans's in Australia has to stop. You know who I am talking about? L- yes. Somehow the government has to be informed that this guy is going and bending backwards to defraud a lot of people, by selling Gans's and all sorts. I'll tell you have you get a lot of support on how to make Gans's. A large percentage of Iranians in Australia follow the KF work, and they all know how to make it and work with it. You have a very large community yourself in your area. You set it up and we'll try to support you. You tell us what you need. L- At least mentioning it here, or Facebook (FB), they can start putting their hands up and saying I am here or here, because Australia is such a humungous country that we need people around the country in local area I have already 15 people in a

network, but that is not very many to cover the size of the continent. .. (3:10). K- they need to go to KF Australia. .. K- We are waiting for that critical mass to come in, and that is about 2 weeks from now. I'll explain what that is. the critical mass will come when the US literally shuts down, becomes near closure. Because the world economy will come to a near halt. The Chinese economy tried to export goods but we see a lot of companies refuse to handle good from China, because it could be contaminated. Then when the American economy gets hit, the dollar loses its value. We see that the metal has lost a to of its value in the last few days, (3:12). because there is no demand for it, because major factories are (not) using, because they have no (orders) because they can't ship anything. Give it another few short weeks, meetings with the world leaders will come online, there are not to see each other. Even if one of the W leaders dies tomorrow nobody will go for the funeral, which is tradition and they usually go. The emergency kits, systems to back the governments by KF is on the stand-by. We have made it. It has been made by our team in Austria, and they are there, to support and increase it, and to see how we can literally push it to the front to support the governments. The emergency kits which you will see coming up from the KF is very simple, it's all boxed, well marked and will arrive to governments, in destination. You'll see that is how we see it and how it will be given out to officials. (3:14). It's for saving lives. I am sure most of the materials will not come into the hands of the public. I have tried to establish something. ... what you'll see, kit like this will become very .. able to deliver ... We have set the structure to be able to deliver rapidly to the governments. at the same time, we are ready, we foreseen this coming up, they're already shipped to location, we can cover 2 or 3 nations. The first kits were made ready to go to Iran for rapid response, and (3:16). Shows photo of one of the "Emergency for Coronavirus", emergency kits. We are prepared to respond to the governments. It's real, this is not anymore happening to somebody else. We are all in it and it's the responsibility of the KF to be ready to respond and we are there. All equipments ready to respond in every shape or form. It's essential that the response teams, not only in Iran, but the backups setup is there to deliver. We don't just talk, we are ready, it's the peoples lives. We can see some of the things which are in these emergency kits. This can support about 1 million people. Shows photo of kit. (3:18). We can cover most of the western Europe in 3 to 5 days, upon request from the government. And using the KF that is already in the country we can deliver very fast with everything else. It's the reality which the KF has accepted a long time ago. We are there, we just don't talk, we are there to support and to cover. The KF team is not just in Iran, and KF outside is working relentlessly, especially in Europe in Austria. We are not waiting for something to come, we are there to deliver when it's there and has come. It has to be the same with most of the KF teams in your own countries we have a vast network of teams in your own country that we have setup. L- I just want to say that we are covering New Zealand as well, we can support one another. .. (3:20). K- Yes I understand we are all the same, .. The situation is not anymore that's Iran or Canada. We'll respond to betray of the Chinese government in a very radical way. The Chinese government decided to go the wrong way, and in due course they'll learn from their own mistake. All of the KF has to be ready to respond, it doesn't matter where or how we are. I know the KF Chinese team are working like crazy trying to get things out. Every means has to used and every way that we can use, how we can help each other in these times. There is a way it is done which we collectively have to understand how to do it, (3:22). the same or better, or working together to change it for better. The reality is that the KF as a team as One Nation, has to be there to respond. We can't separate, that someone is from somewhere else, we have no borders. We don't see nationalities, so we are responding

very rapidly to a lot of governments, but we have to be aware what they are doing with the knowledge and T we give them. Are they using it for the benefit of the nation, or like what we have seen in one country, the minister decides to do for his own benefit, and to what extent do we allow these things to happen. Are we allowing the KF teams around the world to start dictating the conditions. (3:24). Do we have to get to that point, do we have to see that we can do these things, and literally start governing. Governing ourselves and not the government. Have we become strong enough to understand that we stand for a very strong morality of working and delivering. I will share with you some of the things that we need to see how people with the KF are working in the background. Because we see it, it is absolutely real. What you see, (photos), the kits are ready to go, and you see it, this is as far back as the 25th of February. This is at the airport. You see how the Iranian team made Gans's ready, and delivered the Gans's at the bottom (photo), they are ready to dispatch the minute the call comes. It's the first life support. (3:26). hundreds of thousands of liters are all on the stand-by, the minute the call is given. Here is the list of Iranian backup on the 26th of February, where they are, education, what they have or hold, even small amounts, with their telephone numbers. These are the backup systems. Anybody can call Tehran ... They cover the whole of Iran and is accessible to anyone by telephone call. This is a rapid response, ready for one nation. It says on them, emergency for Coronavirus. It's all made ready to go. We understand our responsibility, but we have to understand, that we are first responsible to ourselves and family first. (3:28). K- this is old Iranian poetry, it says if one part of the body of the man is in pain, it doesn't leave for the other parts to be at peace because one part is suffering, the whole body suffers. As a human race we are all the same. When you read through the Iranian Farsi support team, it's very hard that, we all suffer with this, and we all will suffer more with this, if we don't learn to work and live together in a different way. There are pictures that we don't see. The doctors don't understand, (3:30). they're baffled by this. How far can we help them. I see somebody placing new pictures on the Internet. The people died, the whole. We change position, we understand the position. How we can change it collectively, all of us, how far and where can we set these things to. I think we are getting tested in a very good way, how we'll become human, and how a lot of things will pass us. (3:32). Hopefully, sooner or later, it's not the virus, that can't be solved, it's the virus with us, we have to live with it and we learn from it, how to be correct with ourselves. R- We have an echo. K- If you want to see pictures I have to go on another phone and then we have an echo. Is it better. Q: I have a 200 liter tank and I am preparing it for One Cup, and this tank is already used before for chemicals. As you know I am working in washing and all these things. If I want to clean it can I use the CuO water to it to clean? K- In a way, yes, but it depends if it is totally cleaned of the residue of chemicals. Q: I washed it more than 10 times with a high pressure water, but as we know everything stays there. Should I use CuO or the same. .. K- Get a new tank. It's the easier way, (3:34). because we don't know what has been carried in these tanks with the chemicals, or what chemical effects they create in the plastic. Q: I have a hundred in my garden. K- Yeah I know a friend of ours has a hundred big glass jars, he obviously found a use for them. Learn as you need, but we try to keep clean sheets for this, especially in the beginning. Especially in the beginning. .. GL- .. Our Chinese website of KF is ready now, I want to announce here. .. K- You are doing a lot of good work with the Q Q spreading the work in China. What is the update in China now? GL- We are getting some new people joining, some government officials .. (3:36). .. KS come in to teach .. K- Can you share with us what is it called, the website. GL- it's www.keshfoundation.china, but that is Chinese character, Quong Gua. I have the right to Rick. it's in the Zoom Chat. .. (3:38). .. K- Is

there anything else you want to tell us? Is your factory up and running now to be able to produce enough of Gans's. GL- yes the factory is running, and I am asking them to do agriculture because this year the food will be a big problem. ... if he recovers he'll promote KF. ... (3:40). Are there any other news, we love you China, and we'll leave you if there is nothing else. ... G1- I think the T is now in the hands of the people, and we are going to spread it throughout the world. K- without telling too much, how is the Enhancement Unit (EU) up? GL- Actually we have one technical issue to resolve .. K- It doesn't matter, you don't need to talk about that, but is it on course, will we see it soon? GL- yes. K- It's amazing how it looks. GL- yeah it's beautiful a new womb of the U and it became a new baby of KF. ... It's a beautiful team that GL is heading. highly devoted. (3:42). They work day and night, they don't sleep .. Q: you mentioned it (virus) is more acid, and our Gans's are more alkaline, so we can ?? drain the energy. Some people are asking, because normally if people are vegetarian their body is more alkaline, then the people who eat a lot of meat, so they're asking if it's possible for vegetarians, is it not easier to be infected by the virus? K- It's a point of reference, in which strength of the virus we catch. It's acidic in respect to the strength of the Gans or the virus is alkaline, in respect to the Gans we give. It's not that everything fits, if you have a higher strength of the virus. Because this virus is not a single strand strength. It's multiple and it divides all the time. Now we see it with the brain, then with the digestive system, so it doesn't matter if you are vegetarian, meat eater or you just live on the fresh air, (3:44). if you find the right strength of it, it will catch you. That it doesn't happen to vegetarians, it's only for meat eaters, that doesn't exist. We see recently, cases of stomach virus, it has mutated.

Governments, by the time they say something we see so many cases, especially in Iran. Iran has become a massive learning ground for me. The Chinese stole and hid, they wouldn't even give us the report. GL have they managed to get that report from the Shanghai hospital on the Gans use. Is that written yet. GL- I pushed but it has been written yet, they said they write it. K- The T has been tested in Shanghai hospital in the city. GL- it's actually in Guang Dong. .. We see that they are hiding knowledge, we don't get the report, they are writing the report. But in Iran we are in the front, we get reports case by case how they feel, and they're trying to gather the information from all the people who have used the T. We see a bigger spectrum of knowledge and the KF sits on it. MM from Iran is gathering this knowledge, (3:46). and it will become available internationally for all of the scientists ?? What I see on specific way the Iran KF, the Coronavirus is set. There is a channel where people talk about the ground ?? , there is a channel where they talk discuss what they made, one for the rescue team to talk to each other for rapid response and consulting with each other, then there is a response now that is showing data, information of what is happening, and whatever, and is getting gathered. This is giving us a good opportunity to see the whole process. As MM and I sit in all the channels and a number of people sit on all the channels, I observe the social psychological structure, there response and more or less what we get at the end. We see from the time when the first call is made until the end, where the data has been recorded what has been achieved.

So we see the changes, they say, oh today I have this and that, and the other day was this. This process is very rapid we see reports within hours coming from, the time they use the Gans, even though they've been (there), and we ask most a time to give us a recording with a the video recording. (3:48). The understanding of it is, that there is a solution for all of us, but in what solution, and how we and our governments will allow

us to go in with. But in a way, as I said, we have become a governing, supporting a governing country, because there in disarray. We will see the same thing in Italy, we (have) seen the same thing in China, because nobody has been prepared for this. This is a prolonged battle, for years and years to come. Conversion of what we call GANS of the energy, to the full energy is dangerous, extremely dangerous. I'll try to show you something which just being posted in one of the Keshe foundation systems, that you will see on the edge of technology what the doctor see. It's death, there is no other name for it, and if we don't organize ourselves, sooner or later we'll be defeated by it. (3:50). Any other question?

Q: You showed this picture of the Cup of Life (CL) from Iran which they will send to the different regions, because they cannot send water. Now just to clarify, on this picture you have a cable which is fixed to the zinc to the middle coated one and to the copper, but on the end of this there are three ends shouldn't they be connected? They will do it, you just see the structure. . . . I will eventually also do something like this here in Switzerland, and it's just to be really sure that that the three cables will have to be connected as soon as you put the saltwater in? K- It is when you connect it this way, you have to connect the two from the side plates (Cu and Zn) together, and then use a (separate) wire to connect to the center (Nano Coated). Q: I see, so these two are first connected one to the other, and then the two together, are connected to the middle one? (3:52). K- Yes, you have to connect through a (separate) wire. You need transfer resistance, as I call it, to achieve. I'm going to send you something Rick, see if you can show it it's just coming the Iranian channel it is from the doctors. I'll translate for you from the Farsi. Yes, you see the connect the white and the red together, and then you need to put a (separate) wire in between here. . . . you connect these two to this and this one to this. You need this red wire. Unless you set up a double Cup, which we showed how you do it (earlier). Rick can you play this. It's coming from the medical news. Have we received it. R- Yes. This actually shows how an MRI, you see Coronavirus lung. It is calcification, they call it. (3:54). Then you'll see how real the whole thing is. . . . Plays the video. (3:56). K- You how bad the lungs have calcified. In a way, there is no room for oxygen to be absorbed. The text reads, it's a 59 year old woman. Any other question?

Q: How to change the pH value of the plasma? K- Oh we've been through this three or four years ago. It's by plasma ratio, by volume ratio, in so many ways, of different Gans's. You have to understand, if you create a plasma which is a higher pH than the virus, then you feed the virus. If you create of plasma which is below 7 (pH), with the power of feeding, (3:58). you feed the virus. This what we showed you, and called it a CL is well calculated. I made science so easy for you lot, that you don't even, you think it's just a game. It's the art of being a good teacher sometimes, that you make it so easy, that you all jump into it. But there is more to it. Q: Can you explain why, somebody who carries the virus, but doesn't show any symptoms, but still spreads it and infects a lot of people. K- This has happened in China quite a lot, we know that. They find people without the virus, and then they release them from the hospital, and then they go and infect many people in the community. Because they say they don't have it, but then they show the virus. The reason being, is what I explain all the time, is our scientific knowledge in the present world of medicine is so limited, amazingly limited. In so many ways, once . . . this is the body of the man, (have you ever noticed how my drawings of men have changed, they are not like this anymore, stick men), now we have to give them a shape. When you have the lungs, (4:00). and I explained it later on, and this is your gorgeous little heart in the middle there, when they test it and they show they have a virus, and then (later) there is no virus, then they test their blood and it's not

there. In fact, what the doctor should do, they have to test the water of the lungs, what comes out of the lungs. So they see no virus in the blood, and it's very .. they don't to a culture the virus. I was even discussing this with the scientists yesterday, they need permission. They don't they see the protein structure of it, and they say it is a virus. So they go in and they say, they have no virus, but in fact, if you look at it, this is what they carry, the energy of the virus. So they don't show it in their blood, but they carried it as energy in their lungs. So the virus is an energy pack, it could be on the skin, or the sweat of the fingerprint, or whatever. So now they walk around, and they see the guy on the street, and he has the same strength amino acid (AA), they could be cousins by 10 generations, and what do you get? Energy transfer. The viruses don't go by mouth or by air, (4:02). viruses go by energy transfer. And this is what doctors haven't understood. So now the guy is walking around with a pack of energy of virus, whoever is in his village, of the same cousins or whatever, ... it jumps over. This is what I explained in a very rough way, to the Iranian medical team handling the Coronavirus this morning. It's an embarrassment to address such a highly educated people this way, but it's the only way you can get to these people. This virus this is how it comes. Your lungs are the nest of it. Dr. Samet understood this, even your brain, now we know, is the nest of it. The Magnetic field transfers through plasmatic field lines. This is part of what we see. Do you hear me coughing all the time, for nearly two or three months now. It's since we went to Brazil, where a lady doctor gave it to us, and none of us can get rid of it. It goes away for some time, and then comes back. It's just a long suffering with just one virus from South America. A gift from the Brazil, I call it a Brazilian nut. So you get the transfer, you don't need to be in touch, he can just pass you on the street and you get it. He's made, in a way, (4:04). he is a beacon of plasma, and if he gets it hit by another one, say of a different strand from this one, then he dies, because now he's going through the same process again. If you use the system of protecting yourself through the Gans environment, that is the skin, the breathing, and everything else, you continuously deplete these (energy transfers). So their continuously taken out every day. This is what we're doing in Fukushima. You see the medical doctors doesn't understand the experience of the Keshe Foundation, it has such a vast amount of information sitting here and it is shared with all of you. You just have to understand how it is connected. We have this knowledge of transfer of energy from Fukushima, we've seen it. We can relate it. So this is how its transferred, and not by hand. You leave it here, and you leave it there, and with it, if the energy of the cells has been transferred, this becomes transferred. Then this has to have the same strength, by passing it, to collect it. This is called, the virus, or energy transfer, and our soul, emotion, and RNA works on this. Where we think, after this disaster is over, to see all the people who are effected by it, how the RNA and DNA has changed. They will all be changed, definitely. (4:06). And I can see maybe in three or five years, those who used the injections, we'll see huge size-effects. We would estimate massive rise in what we call, heart attacks, and we'll see a massive rise in brain hemorrhage, and in suicides. It's a Trojan gift. You see the mentality, I explained that before somewhere. Gates has given 500 million to the Chinese as a gift for, ?? the vaccines from himself, his own company. And they thanked him for his gift, for giving it to us, and that 500 if his \$1 each, 500 million Chinese will die because of it. You'll understand. Or you'll get the same as other injections, the side-effects of psychological depression, Alzheimer's, and everything else, autistic behavior in the old people and the young ones who have received it. Who's going to find Bill Gates in his grave. A legacy of murder. This is how it is transferred and doctors don't understand. (4:08). You transferred it when you walk around, you are a box of energies that have grown, because it's in the air. They got rid of the liquid, the guy he doesn't

have it in his blood, but he is carrying it as an energy inside. Mortality rates over 30 days is very high. You have heard me many times, especially in KF I always advised. I did a lot of studies on nuclear weapons aftermath, and what happens after we use the nuclear weapons and how the radiation would change the patterns of the genes and DNA, and the rest of it. A I always him always advised, it is written in many places that I have advised, if you see the glow and the nuclear sound, walk into it, because the death of it, is less painful than the long-term suffering. In so many ways, the Corona carries the same. If you are injected, you have walked into the nuclear zone. A lot of you will soon understand. (4:10). Q: Somebody is asking a question about, if with this plasma water, if we give a baby the same amount or less? As far as we've seen, we haven't seen any side-effect, and it's been used for years by people. People in Iran are reporting, because we always warned for those who have pacemakers, and they've been using it, because of the fear of the virus, and in the past few days they have been reporting, that there's been no changes, no side-effects. We always are stay on the cautious side, but it's for them, they made it, and they don't see any changes in the pacemaker, or (having) side-effects. It doesn't mean it doesn't work, with others it's the same, or it works differently. Q: Caroline says, Mr. Keshe .. can you go and look into Q&A. There is a family which is calling for help from the United States, in China here in the Q&A on the top there five there? K- How come I don't see the Q&A. Q: I have a question for Mr. Keshe or GL, I have met a young Chinese family here in the US that have friends in China. (4:12). I have shared with them the One Cup video with Chinese subtitles. They have shared with their friends in China via We Chat, but they are not able to access it in China. What is the best way for those in China to view this video, and or to get help. I would like to pass this along to the family that I know, and then it stops. Then there is a second request? K- Wait, wait. GL- I think I'm going to send the QQ link, in the Chat and they can ask them to join the QQ group, because we have the KS there to answer all the questions.

(unclear)

... yes only with here and they can be transferred this across the QQ to this family let them contact me I sent them the QQ group truly I will send it reading your Richards ok and the gentlemen can get in touch with me if you can shame actually he just need the 2 Q link and join a group and we have everything there and and we have the people answer the question online so he can do it great ok Tomas whether is the requester Dan you have the second one (4:14). ... Do we have any contact near Tanzania. We must reach Mr. Christopherson Winger. He's doing an amazing work for many years, but he's having enormous difficulty ...

close your microphone please. Q: We have a confirmed case in UK who can't pass a few seconds of the breathing test. ...

K- We don't know the structure there. Just keep that. I'll contact them later on please.

Any other question we pass well our four hours?

Q: ... It's come up two or three times in our meetings with Universal Council members. How can we position ourselves towards this virus, as it has become. or is has materialized like a soul, how can we position ourselves towards that field strength as a soul? (4:16). At the soul level please?

K- I think the Gans has taught us how, be humble enough to be able to receive from his strength. This is the only way mankind will survive in the space. Or you become stronger, that you feed it, that in time it will come to your strength. It depends on the position and the strength of the thought and the strength of the soul. Do you want to take energy from it, or you want to strengthen it that it becomes the same strength as you. It's you who decides, and the thinking doesn't come by the thinking of the physicality of the man, it comes with the strength of the STM. This is what we said, mankind has to learn to understand the conversion of the energy of the soul into the world of the language he understands. In the space technology as part of it. When mankind goes through that step, it's very easy. In a spaceship system, we create, as much as the barriers, (4:18). we create four different (kinds of) shielding. Part of this shielding becomes a shield, which is used by many spaceships now a days, it's a very common practice, that the minute you see a virus strength, you trap it, and then in process, its energy is transferred. The reactor's built, release multiple layers of fields, and then, you have a shield. Now we have a Magnetic (M) field for radio communication, and we create a shielding for viruses. The easy way to do it is, in the time to come by research by mankind, we'll find out, that what we call, DNA and RNA have a spectrum of strengths, one for the soul, and one for the physicality. What you do, because you understand that these are vulnerable at this bandwidth of the strengths, you create the shields here (the second field inward), that acts like a trap, but you build it inside the design of your reactors, that any field strength coming through, which is the strength of the soul and the physicality of the man, cannot enter to interfere, or to ?? interact with the passengers. You have to do both, the soul and the soul of physicality, (4:20). then he covers the whole spectrum of amino acids of the body and everything else. This is a part that we will enjoy developing in a coming time. It comes by the mixture in your Gans's and if the technologies are advanced enough by mankind, then you do this, otherwise everything will just come in and it takes you. As long as you have the spectrum you are in, nothing can enter that spectrum. Shall we call it a day, we are nearly four and a half hours into this today.

yes forever thank you very much thank you very much thank you where was the Iranian team the Chinese team Austrian team was relentlessly working to make a lot of things happening they're what we call the suitcase renditions worldwide each one of us.

My message to the Brazilians who are in panic at the moment, as China went (was in) some weeks ago, is to stay calm. We'll bring, and hopefully by the time we get to you in next two weeks for the Brazilian conference, you will see that the Keshe foundation will come in with a free hand. We'll come with our systems, we'll share our systems that we'll bring with us, to protect us in a very effective way. In so many ways, we'll come to show that we can, and we will overcome this virus condition. It's another air that we breathe but of a different strength, and we have to learn to live with it from now on. (4:22). We have to learn that it has become part of us. My only hope for the human race is, (that the virus) does not mutate to a living entity, because then the human race, will be in a big heap of problems. If the energy of this virus, in contact with the human race, as we seen in the lungs, if it manages to find the conversion of the energy of the body of the man, to what we call, calcification of matter state seed, and then if he gets through its field transfer converted, then mankind is in a huge problem, a huge problem. The problem with it is very simple, and this is for governments and world leaders, you'll have nothing to govern. In the lungs, every cell of the man, has a seed of calcium, and this virus has managed to change, that this calcification becomes reality. In a way, if

you understand it, it's making a bone structure out of it. And if at one point, itself learns, how to give itself physical structure, then mankind is doomed. (4:24). In a way, it's an RNA and if he finds out how to mutate and creates his own DNA using the body of the man as a host, mankind is over. You don't see what we see, and we hope that this darker version does not come. You feel an entity living inside you, and you can't do anything about it. You can't take it out, because it will replicate itself again, because it has created a field ?? carrier cavity and I've told you how it transfers. We see a lot of this at the moment happening. If this process goes into mutation, what we call, in human terms, parasite virus, you have no way to get out of it. But there is a technology that can be done, but the problem is it will go to the fish, the cat, and the dog. It can even transfer to the trees and plants. The problem is that it can mutate outside the Earth, (4:26). so in these positions, there is a specific way the Universal Community has decided how to handle situation like this. It has happened before and we know what to do. The Sun will not be far. Q: Jalal, Mr. Keshe don't say I hope I am wrong, because you are never wrong. K- We see things. We see things. We see the calcification and the speed of it, and if he has a soul and he finds the link strength to calcium, which in every cell of the man, there is a calcium, and the ratio of the salinity and other fields decides what it becomes. Even in the immune system, there is not a single immune cell, that doesn't have a calcium. We come from it. It makes us. It's not that only the calcium is our bone, and we see it, every cell has that calcium seed as part of it, and that's why they position themselves according to the structure, of the bone structure of the man. When you look at the bone structure of the man, every position of every muscle depends on the calcium strength in position to the main gravity center, and how the bone is shaped. Then the muscle dictates, you've seen this one, we just had it. When a lot of you make Gans's you say, 'I have a white Gans on top,' and I keep on telling you, the position, the gravity position, it's the same. Why do bigger muscles come around the bigger tissues. Why when you have a problem with your father, you as a son, you grow very big, unless there's an illness, because the field strength pushes and positions it. Because it is to confirm their emotion. You have a lot to learn. Q: But Mr. Keshe we heard that the first dog has been diagnosed with having this virus in Hong Kong, and we heard that the wild pigs in Hubei province (Wuhan is in this province) has been found to have the African Swine Flu. K- Yep, when the Americans flew it over, the virus doesn't know the difference between the wild or non-wild (pig). This virus, and African Swine Flu is a gift from United State to humanity, but it comes to bite them worse. Remember what I said, if we don't need a gift, we send it back to the sender. This time it found itself, its way to its center. (4:30).

Thank you very much and see you next week maybe we have a better good news for you. I'm sure we'll have a good news for you, but we have to wait until next week and the week after, and in the weeks to come. We have to start learning how to live with these virus. Maybe true meaning of living, is living inside us. And then God help humanity.

Thank you too much and see you next week.

R- Very good thank you Mr. Keshe for another knowledge seekers workshop and this has been the 318 knowledge seekers workshop for Thursday March 5th 2020.
