

322nd Knowledge Seekers Workshop - Thursday, April 2, 2020

- * Coronavirus solved by Iran,
Corona mutation leads to massive Cancer.
Elevation of soul by Cup of Man worldwide.

ENGLISH TRANSCRIPTION:

(:09). .. Hopefully, as all the times before, we'll add to our knowledge in a different way and in different times, and concentrate on what we call the topic of today, the science needed for that time and that age. At the moment as we have been gripped in this Corona situation, every effort is being made in every direction, by all the nations, by what we call, the scientific world to achieve, or understand the breakthrough. In this process we are one of many, we are not the only ones. We are doing, what is called in African language, our level best, to be able to help, at least our Knowledge Seekers (KS) and many others. As you are aware, we worked heavily with the Chinese government and authorities, and once they were given the Cup of Life (CL), and then (it was) explained to them, and when they saw the results, then they went and took the technology (T) back into the Military, and they brought it out in a different way. They have managed to curb the situation using the T, and in so many ways, if the Chinese authorities would have been more open with us, we would have stopped many more deaths. But the openness with the KF in Iran, has brought that situation. We are in so many ways, a few weeks ahead of the others. (:12). Maybe we can stop the suffering of many more. In the situation with Iran, we have managed to clean one city, one hospital, in Iran, totally of the virus.

This morning, most probably, there will be no more Corona patients in this hospital, for the first time, we hope. The emergency room in this hospital carries 10 beds and it was full until we got in. Now, there could be only one person left, who could leave most probably today or tomorrow. We have lost no doctors or nurses, as far as we can see, no personnel in the section of the hospital, has been effected, and with the support of Mrs. Mohammadi (MM) and the KF, supporting in Iran, we have taken the illness into outpatient level. This means when the people come in, they are diagnosed, and are confirmed, they are given a CL and a bottle of Gans Water, and now the doctors diagnose if it is an upper or lower infection, then the patient has the option to the second Cup (Cup #2). The beauty with the new way is that, before the patient was told to go home, and literally they would die at home.. Because if they recovered or not, the rest of the family would get it, as we have seen in Wuhan City, when they opened the buildings, which were locked up, and all the members of the family are there. (:14). In Iran with the spreading of this CL, with the Water, through the hospital, they had over 100 patients in their homes, locked down, and they were infecting their families. With the CL now the whole family is getting support. As such, there are no more new patients coming to the hospital. The city is being announced to be clean. It was announced by the Ministers, or officials in Iran yesterday, on the national television. What we are telling has already been released, and they have mentioned the name of the hospital and the city. So for the first time, the KF work has been recognized by a government. At the same time many more hospitals are going under the same cover in Iran. We expect a national announcement by the government officials in respect to the KF T in the coming days. A close collaboration between the KF, MM, and the KF team and the Iranian officials at the highest level is gathering the data, confirming the

outcome, and shortly, if they are happy with the whole structure, it will be announced as one of the alternatives that the government will take with the nation. The beauty with this is that, everyone can help themselves in the house, in house, and we can take it to new procedures.

The Protocol, for effectiveness in Iran has changed, in a way that we go for rapid discharge of the virus from the body. (:16). At the same time, you might have seen videos, that in Iran, individuals have taken in their hands to wash the streets and towns with the Gans Water. The KS in Iran have seen the results. The KF, one of their (Internet) links to public has passed 29,000. We closed it for some time, to not increase the numbers, because the support team could not handle it, and it has been opened in the past day or two, and total it is estimated that we have reached 1 million Iranians, right across Iran, and many more. It has been said, that one of the reasons that the death tolls in Iran has been reduced, is due to the KF volunteer teams across Iran. In the past, if you had the disease, or died, or got infected, you had no choice. Now, the people who are on the end choice, who know they are infected, and are locked down, they come to the KF. They help themselves, and then they make many more Cups for many of their families and relatives. In this cycle we have taken the edge off the top of the death rate, through the new T. At the same time we have seen a rapid drop in the death rate. The Iranian government has not managed to curb the growth, but even with the growth, we have no more death, as such, very few, compared to what we see in France and Germany, Italy and the rest. The Iranian government officials will open the T to all the government across the planet. The Iranian officials, military and the Sepah, will deliver the T on the official levels, (:18). to all the nations. In that process we expect to curb the whole process of the Corona, by the end of April internationally, this is the aim and the work of the foundation.

In the next days, an official scientific paper will be published, the first time ever by the Keshe Foundation with the support and full understanding, and peer reviewed by the leading scientists in Iran. As a scientific paper, which is ratified and confirmed, going through the whole process. This paper will officially put the technology of the Keshe Foundation on the map, as a major breakthrough in the world of science. The Keshe Foundation team have been relentlessly working, and the scientific team in Iran, have been more or less calling many, people who have used (the technology) to confirm, that the nation was used as a clinical trial, and has shown success. Usually when you do clinical trials you have to find patients. This time, due to the effectiveness of the technology, the whole nation of Iran was used, and the data provided by the Keshe Foundation, that the ministers and the officials can call the patients on their line (phone) and get that firsthand, direct knowledge, of who they are, what happened, how they were treated, and the forms have been filled in to confirm. So the Iranian government has used the Iranian nation, who volunteered themselves, using the Keshe foundation technology as a national clinical trial. This has never, ever happened before. At the same time, many Iranians, and outside Iran, (:20). have used the technology, using the Iranian channels. To that effect, all those who are non-Iranians, but who were given the form, in the past few days, to fill in and return to the officials in Iran. To show that the technology is used across this planet, and for this reason, the Iranian military officials will take the lead in spreading the technology across the planet, but we wait for the official announcement. As yesterday, two of the highest-ranking scientists and officials, have confirmed that Iran has reached a new scientific breakthrough, a major scientific

breakthrough, and we all know as knowledge seekers, this knowledge is in your hand, has been in your hand and many of you across the planet have used it.

At the same time, in communication with the White House, through the officials, through what we call, the advisors, military advisors to the American government and this morning to direct communication with American officials and embassies, we have offered to clean and help USS Roosevelt of the 200 corona patients on board. The offer has been made very direct. The Iranian military will attend with all the equipment's on board USS Roosevelt to help the American soldiers. This has been officially ratified, and we extend this to the American military across the planet. We are not anymore enemies, we are friends in arm against Corona. We expect a positive answer from the American administration and office of the President Trump. Lieutenant General Michael Flint has been approached by the Keshe foundation as a personal advisor to President Trump, (:22). for a direct decision by the White House. We are very open in this case, as the Iranian military personnel's will attend, and will be available to help their colleagues and across USS Roosevelt, as many of them will die. 5,000 soldiers are on board with 200 confirmed, and it can spread. Within seven days we'll return the nuclear base, what we call ship, back into the hands of the Americans, cleaned of all viruses, no infection, no personal being affected by the Corona. Open play ... play again.

We will take the same procedure (with other nations). We have already informed the administration of the Austrian government, that this technology will be offered to the European nations, by Austria, through the Keshe Foundation Austria. In the next few hours, this offer, with a full support, will be offered to the Prime Minister of Austria for the European nations. All through the direct dialogue between EU and Iranian military officials, for transfer of the technology. As we said, we all played a game, and now is the time, to benefit by the game we played for the past 10 years, sharing the knowledge freely across this planet. We needed the support of a government to back the Keshe foundation and show the track. I would like to thank the office of his Excellency, and his Eminence, the Ayatollah Khamenei of Iran for allowing this to happen in Iran so openly, that we could help the rest of the public, not only in Iran but beyond the borders of Iran. (:24).

This technology in due course, if we receive rejection from the White House, will be directly delivered to the Governors of Arizona, Florida, California, and Washington, and to New York City. It's the decision of the governor's to override their president, if he makes the wrong decision, through his own personal vendetta or feeling. The Iranian military and the Keshe Foundation, will stand solid behind the American nation. I will transfer the technology across. The next step after this, will be the development of the space technology collaboration with the Iranian government officials, and most probably the Americans, and the rest of the world. We need to build trust, we need to build friendship, and we need to build, through Corona, a new direction, a new change for humanity. We have asked for a direct face-to-face meeting with American officials within the next 24 hours, to discuss, how in step-by-step, we can build back trust and the friendship, be it helping American soldiers on USS Roosevelt and many other ships, which the Americans are affected. Technology will bring peace, but the peace has to be understood, that it does not become another step, for another animosity between nations racing towards new knowledge. In so many ways, we have to understand more, how to build, how to do and how to extend. (:26).

We have in a scientific paper to be released by the Iranian officials on behalf of the Keshe foundation, in the general publication, within the next days. It will clearly state what we see as the Keshe Foundation, the way to handle the Coronavirus, the way to overcome it, and the way to foresee the future problems that this virus will bring. In the past, viruses, where only, and only, viruses. They damaged, gave the flu, they killed, and they were gone. With this technology, and with this new effective way, we should not loose around 1 million people every winter to flu epidemics. This is a solution to another cycle for long term problems with viruses. At the same time we have to learn, that this new virus, according to the scientific paper to be published in Iran, would explain something very drastic. If the governments do not understand, and if the governments overlook the long-term processes and damages of this virus, we will have more deaths in the coming months and years, from this virus, then actually, the virus is doing today.

This virus, as I explained before, has very specific characteristics, which we've never seen (before). (:28). In a span of the universe we know how to handle it, but for mankind this is unknown. This virus, in finding a cell and attaching itself to it, it creates an interface with material and the illusion of atmosphere. What we have seen in this virus, as we all know, at the center of all cells on this planet there is a calcium in the form of energy, not in the form of a solid. In interacting with this, as many other parts inside the cell, this energy has managed to change this to a calcium cell. Understand, that this virus energy interacts on all levels with the cell, but the strength it carries, is so specific, that it carries the salt of calcium, (:30). which means it changes the energy into matter state. This is why the doctors in the first Corona pictures, show calcification of the cells of the lungs. There are number of problems with this, that the humanity has to face. With the new technology of the Gans, which we provide, we encircle a new dimension. In a way, this encirclement comes from the Gans we've produced, that in field strength interaction, we deplete the energy of the virus. In this process, we see such interaction. As our system, due to Cup 1 is set, we protect, and create a link with the energy of the calcium. In this process, we do not allow the virus to change the calcium to the solid state.

For this reason, a new protocol has been issued by the Keshe Foundation to the Iranian doctors and to all those who use it, (:32). to change the protocol, that we change this for good. But what happens when millions of people in China, and millions of people across Europe and America, do not go through the process of using the Gans to deplete the energy of the what we call, the Corona, from this calcium. As you know, as we said, every cell of the man carries the seed of calcium. We manage for those who survive in one way another, to shrink the energy of the virus and they survive. But due to calcification, which is inside the body, we expect a massive rise in cancer across this planet in next three months to two years. Because the process of decalcification is not there, in a way, this calcium will stay, and it will become, as it carries the strength of the salt of the calcium with it, that it is converted, it becomes a salt in the tissues of the man ... lungs, brain, intestines, liver, kidneys, testicles, ovaries, the womb, and the prostate. (:34). We will see a massive increase in bone and in blood cancer. If Corona takes from us a million, we will lose 20 million to cancers. In China, we estimate about 20 to 30 million have been infected and died, or the totally affected numbers, runs into 50 million. We expect a massive death rate in China, anywhere in that region of 150, 200 to 500 million Chinese will die of this cancer. In Europe, we expect the same.

Depopulation will not come through Corona, but it will come in the secondary cancers, which will be very aggressive, as the seed of the Corona has already been set in massive numbers. Usually cancers start with one or two cells, but now Corona has made many of these cells. We can see the accumulation and the collective cancers across the body of one person, the brain, lungs, kidneys, lymph and everything else. Because when you say, that you had a pain in your body, it means that every cell has been calcified. (:36). Which has got to do with your nervous system, somewhere. I have given warning to the Chinese government. And I have given a warning to the Iranian government and administration, that we'll run, what we call anti-calcium, or decalcification in a very rapid way in public teachings across Internet and television in Iran. So that people can run a 3-day, or 3-hour session twice, in 1 or 2 weeks, to totally decalcify this. In a way, the energy will stay, but the calcification will be removed.

This knowledge is unique, and it is in the hands of the Iranian national, and the Iranian nation, Iranian government and it will be set out in the new scientific paper which will be published. I would like on behalf to the Iranian Keshe Foundation, to thank the military, Sepah, and collectively the Ministry of Health, and all the officials from the office of His Eminence Ayatollah Ali Khamenei to support, and to work so hard, to be able to achieve this, and to be able to support the Iranian nation in such a rapid way. This is how it sits for all of us, and every time this virus hits us, if we don't clean it up, this is what is going to hit us in the coming time. (:38). The first series of cancers in China, has already shown its face, because it's so huge, such a large number of cells have been effected, that the body can't decalcify, then it goes in a nosedive. One of the ways to handle this will be explained through the Iranian officials. The doctors of the KF have been writing the Protocols and the whole process, in the past 2 or 3 days, to be part of this scientific paper. Now, we can see that the Corona can be with us for a long time.

It's the first time we have a virus which has access or strength to the level of the physical part of the body of the man. All the viruses up to now were energy packages, but for the first time, this virus has managed to bridge a very important position around the cell of the man. What I am about to explain, I have already explained to the officials. This is not scaremongering, this it to explain, (:40). something very real. As we have seen, the virus has managed to make access at the strength at the level of the Ca within itself, with the cell of the body of the man to create the calcification.

The biggest fear, which we see, which could be imminent, but we cannot put a time on it, is that, if this process of interaction in the fields, within the structure of the virus, leads to creation of the Ca within the virus itself. It means it will be entrapped within a new physical body, and for the first time, RNA will be making its own DNA. If this happens, what will be the consequences of this growth outside the cell, and would it be a parasite, which we'll never be able to get rid of within the human body. Would we change our life to the new dimension of, in fact, a cell from the virus. Then what this will do, this will become a parasite, a "virus parasite" inside the body of those who are infected. (:42). Would the mankind have the knowledge and T to overcome this? It will be the first time a virus has changed itself to a physical entity, known to man. If you have understood and read, even the book #1, and understood fully from the interaction of the fields, such a creation of energy and gravity point is possible, and is at the strength of the Ca, creation and change the virus to a cell on its own, within the structure of the body of the man, is a possibility. The problem with Corona, is that, it

can become the crown of the whole human body, and not just on the cells. This is a reality which we have to consider, because it is for the first time we have seen this. We understand this process fully, conversion of the Ca fully, because by accident, or by fate, or by the "Will of God," the KF had the opportunity and a full time to understand the calcification within the body of the man, some time ago.

In so many ways, what we talk about, (:44). is the reality, which we have already handled and have seen the conversion in calcification. If you remember some years ago, we showed you a number of pictures of the lady who, her body was converting all the, what we call, body cells into Ca. In changing her life and working so closely with her, we managed to understand this process a long time ago. So if we get to that point, and we understand this position, if you remember we tried to blank her face out, but show you the face. We have dealt with calcification of the bone through the blood, and then amputation and ?? death, and everything else which went with it. If you remember, some years ago we showed this, the lady who, her body was changing everything into Ca. (shows the picture) Do you see the fingers, the tip of the fingers, especially the ones facing you, we could see the bone, because the blood vessels were calcified, (:46). and no blood was coming in, and the body was wasting. We have many videos that you can see all the bones. It took 3 months to reverse, to change the calcification in the blood, to no calcification. You can see it from the tip of the fingers, very clearly, if you look here and here. We know what this virus will do to mankind. It will strip the flesh from your bones and you'll have to watch it. This calcification through the energy transfer, and what we have seen with this virus, is very real. You can't overlook it, nor ignore it, because many of us will start this process in the coming months and years. We'll release a new protocol in the coming days, that the KF supporters and KS, and people across the world who want to keep on changing these calcifications to normal energy of the cells, (:48). can follow.

We are waiting for the official papers to be released by the Iranian Government, and then we'll start building on the true knowledge in how to divert and change (this). Many of you KS, will not be here in the next few years, due to the damage of the Corona, which you overlooked. And when it touches you, you'll understand. There is a process to reverse this, if need be, and when the time comes we'll release the T. But until that time, it is your responsibility to look after yourselves. We have pictures of the bones in the fingers, if you want to see, a bone sticking out without any flesh. It's never been done before. We know what will come with this, I have seen it. (:50). If you want to see the horror of it, no problem, we have 10,000 pictures from this lady, and videos. Fortunately or unfortunately, she is Iranian and still alive. This photo of her hand, was taken last year, October. She attended my father's funeral, that's why she is in black. We helped her in 2005 and 2006, and the hospital in ?? Belgium have a full detail report of her. You can go and ask them to look at the videos, MRI's, and the rest of it, and the amputation and the growth of the toe, and the amputation of the toe.

You have to understand, (:52). that the Corona is not going to finish when your pain goes, or you survive, it is the beginning of a long term pain and suffering to come, if you do not look after yourself properly and regularly, until we eradicate it. This virus has mutated. Let me explain to you as I have done before, how much it has changed. The Corona now has developed in this way. (Draws on screen representing each version of Corona). Then there is a Corona, (:54). I don't have any other colors, I can show you like this. Originally the Corona appeared in the lungs with fever. This is the old Corona,

the original Corona. Then it appeared in the brain, then kidney, and liver, and stomach. Then it appeared in intestines, and then in reproduction cells of the body. In the past weeks, we see Corona in arms and legs. Except for the lungs, we do not see temperature in any other (places), but sometimes in the liver. In the past few days, we have seen Corona creating white marks on the toes and fingernails, as it interacts with the Ca of the nails and deepens it. (:56). In the past week or two, we have seen Corona with the pain in the joints. As these are the points where bone marrow comes out, and every new cell has a calcium as a seed, and automatically, it immediately calcifies, creating blockage and pain. So in fact, Corona has shown its face in six different ways, 1, 2, 3, 4, 5, and 6. And the doctors today only talk about this (the lungs), due to the ignorance of their knowledge. We have seen, now that we are handling the section here (lungs and brain), with Cup #1, and section here (the other places) with Cup #2, in a totally different manner. In cases of the kidney and the liver, when it's eradicated from the body, we'll see pain, massive pain in the brain. As this is connected and is adjacent to the heart, this pain comes from inside, (:58). the interaction between the STM and the STP. Where the physicality confirms to the STM, "I have survived," and he has to adjust itself, to accept the other part, that it is not leaving. We understand the process. The people who had the brain Corona in their first phases, speak of a totally different type of pain, then when they have a Corona of the kidney and liver, just under the heart.

In Iran, we have had people with 52% and 57% oxygen and usually they die. But now they are home with 90 % plus oxygen level, without oxygenating them. It's never been achieved. This is death (52 %) , reported as another number, and this is a life (90%), which is carried on at home. We are informing all the Iranians to carry on with the full Protocol, from top to toe, with the new Protocol. The first week, where the Coronavirus is eradicated, and then seven days later a repetition, to make sure any calcification of the cells has totally been reversed.

Today the world of science, speaks about this (lung infections). (1:00). The world of science, in six months to in ten years, will talk about the millions of people who suddenly died of cancers, strokes, and brain hemorrhage, because of the calcification from Corona. If those in Europe and America think they have walked away with (only) the temperature of the Corona, you have said yes, and hello, to the cancer of Corona. What we understand and what we see, the way this virus has managed to mutate itself and it goes to calcification. We will use in further stages, we cannot put a time and limit to it, to use all the understanding of the different states of the calcium in the body of the man, to create a replication of the virus of itself, in a shape of the operation of the human body. It has such a capability, because the calcium's of the brain, are different than the calcium of the nail. The calcium of the heart cell, is different than the ones in the bone and the blood. And this virus has managed to replicate and connect to all of it. (1:02). So in total, it must, and it has to be building a storage bank, of RNA conversion to DNA, equal to the structures of the physicality of the man. The world of science has to understand this within next six months, otherwise there will not be enough land in some nations to bury their dead and there will not be enough men to bury the dead. People will die faster than they can bury them. As we have seen in Italy, churches have become mortuaries. As they tell us, in Paris they're putting the Corona patients on the train, to outside Paris, because there is not enough hospitals to accommodate.

I advise you to contact your governments and your military, and ask for a direct talk with the Iranian military and the Keshe Foundation in Iran. We'll support, teach and

bring the technology to your nations. We'll use the office of the Prime Minister of Austria as a point of contact and consequently the Iranian Nationals, governments and military, use their own offices across this nations to establish the link. (1:04). Wait another 72 hours maximum, by Saturday, and then start the process with your governments, for the transfer of the T from Iranian military, to their military, then they can ?? penalize, and deliver the T right across. If your officials conduct the whole process as we did, in Iran, by the end of this month, we should be able to bring normality at least, on the life, and into the life. There is no way we can do the military precision as was done in Iran and China. But as you teach everyone to use a CL, and this CL will continuously produce, you can literally wash your buildings from inside and outside, or give it to your governments to wash from the inside to outside. Everyday you produce a CL Gans, and in the process, by throwing it (the Water) on the streets of your town, and the cars passing will continuously disinfect the whole city and the country. This is the only way that we can spread it so fast. The CL is not for you in the house, the CL, once (it) saves you, and you have made yourself immune, you throw a Cup, you give a Cup, or the products of it, to your nation, to your neighborhood. The old tradition was, that they throw a water and clean the front of the house. Throw the Waters on the buildings and on the streets, and let the cars disinfect, let the people as they walk, they'll disinfect the whole city. We don't have any other way. (1:06). Even the Chinese showmanship, of (cleaning) stations will not reach the passageways, alleyways, and the public toilets, and the rest of it, nor in the libraries and universities. Spread the Waters from the CL for at least a year, everyday, and everywhere you walk, as it is produced ,it's free. This is the only way that will battle this thing. It is the only way, that you can stop this process to develop, as we change the whole of our environment away from this virus. In Iran, the people have started it. The KF KS have gone through this process, and now they have taken the cleaning of the cities in their own hands. In so many ways, they are doing in it. In the West they don't tell you, but in Iran, many KF supporters have started the process. This becomes part of your job. This is what you have to do, and this is how we will change the position. The governments are incapable, they don't have, and they'll not be able to do this. This is as we said, "the last man standing." You are the last man standing for your home, your city, and nation, and as One Nation. (1:08).

When I spoke to the American officials, and I said the Iranian Military and KF supporters, are ready to go into the USS Roosevelt, you could hear the shake in their voice. They could not believe it. We told you, we would make bridges of peace, through the thoughts of our enemies, not through our actions of friendship in sharing. You have become the same, spray the buildings, spray the cities as you pass. This CL will not stop making Gans's.

Rick I have sent you three videos. This is the Iranians in a small village, and now you understand how deep the Keshe Foundation is embedded in the Iranian lifestyle. Have you received them Rick? ... You can play them one by one. People are saying, "we build these in our empty homes, empty places, and with this. we'll disinfect our cities, ourselves at night, when everybody's asleep. Don't forget, it (Gans Water) does not go away, it stays and (continues to) disinfect. We saw it in China as a showmanship, in Wuhan City, and taking the president, who was scared of even taking his mask off. You see the Iranians with the pleasure of the knowledge are spreading the Gans across the street, even in small villages. If it's done in a village, small village, (1:10). now you can understand what other Keshe Foundation Knowledge Seekers are doing and can do

across Tehran and the other cities. This has become part of you, spreading in the churches and the mosques and the streets and everywhere else, that people by walking (over it) will take it and spread it. This is one of the Knowledge Seekers in a small village in Iran. You can play, please.

Plays video ... <Farsi Speaking> <Farsi Speaking> <Farsi Speaking>

As you can see, last week when Mrs. Mohammadi was saying that, (the opposition was saying), that this is only for the Iranians in Tehran. This (video is from) the Keshe Foundation in (?name?), a small village where, what we call, a different culture of Iran lives. You can see people in villages have started this, using the Gans Water to wash, and we only use the water of it, not the Gans itself. There's another video you can see them, these people are spreading it everywhere. (1:12). They've taken on themselves, the job of securing their country, their lands, their cities and their own villages, and this is a small village. Very small village. <continues video> It's not just their home. As you see it's not just their own home. And this is how it'll be, and this is the only way we can overcome this virus. It ends up going everywhere, and you just walk on it, and when it rains it'll spread it more. It's beautiful how people have taken things, Keshe Foundation Knowledge Seekers, in their hands in Iran. And the government understood that the knowledge is totally free.

(1:14). This is Space Technology in the hand of a man, in a farm, which understands, he's saving life. And as we said, share it freely. He hasn't just disinfected his own house, "and I'm happy and that's me." He's taking his knowledge everywhere. This is how you should be as a Knowledge Seekers.

In so many ways, with the new announcement with the Iranian government and the teachings coming up, and if the European governments follow the same path, and the American governments and the rest of the world, we will overcome this virus within the next month or two, and we'll go back to normality. But this normality will be short-lived, and the hospitals will be full with people with cancers, if the government's do not follow the procedures to decontaminate the body of the man, and the environment from the total Gans, what we call, the plasma of the fields of this virus. (1:16). It's not anymore just: "I made a Cup (for myself), I'm happy in the house. I have a Cup which keeps on producing, and I clean up the cities, the railways, train stations." Just throw the (Water from the) Cup, you carry a Cup. People will understand, and as we all do it, it will become a Cup of Life for everybody else. And in so many ways, the governments cannot afford to do, the financial burden on this is huge. And as one of the Iranian leaders in the meeting said: "We were told this technology and knowledge is free, why do we have to say, no to it? They are not asking for any money, they are giving it to us free and we see the results. It's not vaccines that we sell, and it's not herbal medicine that is sold. It's free." It's a free water, and if it saves energy, and people follow the protocol and saves their lives, maybe Corona becomes the crown in the friendship and unification of the man. (1:18). The only people who loose money from this pipe and Water you see (spraying), are the Pharmaceuticals, and those who were planning to inject every man with vaccines to control and then destroy. This Water is washing the "Gates of Heaven," where, for the mankind, from those who were planning to introduce and force vaccinations, becomes the "Gates of Hell." All of their investments have gone down the tube. This will make the Gates Foundation bankrupt. You'll understand soon how. The lawsuit cases against the Foundation for spreading vaccines, which were not

needed, and deliberate will deplete the funds very soon from the most riches foundations.

Any questions? (1:20). ... Please do not put any telephone numbers on the Chats..

Q: .. My love and gratitude for the Iranian people and their leaders for stepping forward for the world. (1:22). K- We are waiting for the Iranian leaders to make the official announcements of what they have done and what they still have to do.

Q: Do we need to have a giant amount of Gans Water and compressor or giant machine with hose and spray that, or can we work with a smaller spray ? .. K- This is the Iranians and the love of their neighbors, they won't go and do it in a small way. .. You can carry the spray and spray everything else. A KS said, I have been even giving the Cup 1 to my plants and they are growing so fast, they must have had the virus too. So you can spray it everywhere, I was in the lift yesterday, and spraying it in the lift. People who are not recipient to it, you can't do anything, but those who understand it and they use it. ... In a way, if you spray it on your own clothes and you are walking around you are disinfecting the environment. .. Spray your shoes, masks, when you are outside the house. I think it will become part of the tradition to wash (with the Gans Water) because the next cycle of the cancers are so horrible. (1:24). I can show you some of the pictures of Corona cancer. We have already started to see it. ...

Q: .. What do you forecast for the future of this virus, can humans and the world overcome it? K- It depends on how we handle it. Very soon, nation by nation and behavior towards it, (1:26). will set out the outcome. It's not anymore just spray, drinking, and breathing. The Protocol has changed drastically because we have seen the progress and the change if it, and it's cleverness of it. We forecast and see a massive increase in cancer especially in China. I forecast 200 to 400 million losses in China, due to the cancer. What I call, "election counts" will tell. China in the way they behaved, they thought they have eradicated the Corona from the lungs, but it has seeped into the other 5 pillar, what we call sections (organs), and they'll pay heavy for it. Or unless the Chinese government goes into a national teaching, and teaches people, before it gets too long (time), how to deplete the energy of the virus. There is one problem with China, they have to go back to openness, about from where the T came from, and in that openness they can share it openly with their nation. As I said, the way the Chinese handled this, and taking the knowledge from the KF, (1:28). and then changing it and officially through their Military, saying they don't want it to be known, in a way, they took a Trojan inside their own blood. Now the Corona will grow, and they have nothing for it, to say, as we have seen it in Iran, and it will go into cancer. I'll explain in a very easy way, when you steal a big diamond from the jewelry shop, which everybody knows about, or from family. You cannot wear it in public and you cannot show it in public, because they know you are wearing stolen goods. You can only wear that, where you're with a bunch of thieves like you, who what they bring to the party is also stolen from the others, the same way. So you know you is sitting amongst, a bunch of thieves. And the Chinese did the same, they stole a jewel, and they cannot show it in the public, but they show washing their places with (Gans) Water. Now they are announcing that they have cleaned up their places with the Water, and everything is open. But the Iranians did it differently, they showed the jewel, and they are proud of the jewel, and they're openly sharing it with the rest of the world, whereas China has to hide it. And for that hiding, as you know, sometimes some of these gems bring with themselves a bad omen, and China has got stuck in that bad omen. (1:30). Or they go back to the nation

and they tell them where this technology came from, and it's not Chinese, and it's not what we said, and the nation needs to protect themselves. Then they follow the Protocols, which are set by the Iranian military and the Keshe foundation, as a joint collaboration, to save the Iranian nation and the rest of the world. We hear in one of the governmental, internal in East Asia, China is speaking about the new nanotechnology they want to give to Malaysia, to help them with the Corona. Doesn't that sound familiar with nanotechnology and the Gans technology? And how come they did not announce it publicly, and are discussing it privately with a government.

In Iran we are proud, and we share it proudly, the way we have done with you for years. They don't believe you, when you call the press that don't listen to you. When you call the government, they put the phone down, and regard you as a bunch of idiots. Now the military and the government will announce it, and deliver it, and show the figures of the empty hospitals by use of the technology, as a jewel in the crown of Iran's science and technology, and your governments will embrace the Keshe Foundation Knowledge Seekers, to teach them how, and how fast can they do it. We'll talk next Thursday, and the Thursday after, if the Iranian officials keep to their promise. (1:32). As you've seen, it has been announced in past 24 hours on a national television, that Iran has reached a new technology, a major breakthrough, then the forecast is two ways, massive cancers in China, and a healthy population in the West.

You follow the protocol. In so many ways, as I said, public swimming pools (filled with Gans Water) will become, where you make sure you are disinfected from the virus. Taking a bath on regular basis for the Corona, in what I call, a Cup of Life, will support you to get rid of and reduce it. Washing your cities, cleaning up the places, in a way, making the Corona ?? world as part of the water circulation, over a few months we'll overcome it. The beauty of this is, the burden does not go on the national governments, who are already bankrupt, but goes to the individuals, as they wash their cities and the streets and the rest. Here you see the Iranian guy washing the city, because they don't have enough Gans. But, can you imagine in the cities with say, a hundred houses on it, with two or three apartments, and three hundred Cups, or let's say even, the Water from a hundred Cups thrown on the street, on the buildings, and the footpath, and as the cars that will cross that street, will take it across the nation. (1:34).

We do not, we cannot, and we will not allow this to win, if we unite. This will bring a lot of benefit. I would like to share something with you, which I try to teach last week, but many of you did not understand. In Cup of Life, many of you, and even in a CL #2, you have seen many white Gans Cu, which means it will affect the emotion of the man. You will find yourself very calm people, you will find the city calms down, you will see, that the aggression will go from the nation's, because through the CL we have raised the level of the STM away from aggression. In a way, we have done exactly what you did with a Cup when you were sick, now the nation's sick and it will change. The Water from these Cup of Life's that you throw on the streets, or you wash into your basement, or into your pipelines and will come out in another way somewhere else, will change, will bring a new atmosphere, will bring a new condition, which is what we wanted, but, we did not hope it this way. If you remember, (1:36). a very simple thing, in the Caribbean's, when the Gans was spread with a few cups, we saw how a hurricane was stopped. Now, in your cities, and in your buildings, and your towns, you are throwing a CL, and you will see what will come of your city. Gradually, you will make that dome, and this dome on its own, will have nothing to do with animosity and what

has been wrong with the breath point, what gave you life, of the planet. And if enough of you spread the Gans's in the coming months around this planet, we will create a "Dome of Peace" on this planet. I told you, I'll get what I want, it doesn't matter how you play the game, we use the opportunities to create peace. And now you understand. You throw your Gans Water in Sydney, and you throw it in China, in Iran, in Europe or America. (1:38). Do you remember the dome - there were a few cups, but now you're cycling tons of it. After this, if you follow it, we'll see the change in human behavior, because we have elevated the STM through the Cup #1 and Cup #2, and with that, the human race will change to a new course. We will see peaceful nations, as One Nation. We will see the embodiment of embracing the Universal Community, where the humanity reaches a new understanding of his own beauty and his own values.

I told you, many of you built many MaGravs, now those MaGravs become the beacon for all of this (the fields to connect). In so many ways, and I said to you before, we look into make the best for the human, that through that, we can make the best for the rest of the universe. If we carry on the way you are doing now, (1:40). and the way, even if you understand what you've done, how we have used you and your body. Many of you drank the Gans, and it went out of your body, still energized, into the sewages and across the nations. We have already started the process of change. The only difference this time will be, that collectively the human race will accept the new condition.

We have seen a shameful behavior from the White House, and more shameful behavior in past few days in Iraq, from the White House. But as we say, we do not expect good news from General Michael Flint, to accept support and help from the Iranian army to overcome the American problems in their Navy and other places. But the nation will override the president, and the president will have no seat as a president. You have to understand, in the time of trouble even the worst enemies step down. (1:42). The shameless, the shameful president's increased deceptions, and again we see military moves in Iraq, on the banner of Iran wanting to attack us, to make ready, thinking the Iranian army is weak, and it's the time to strike. What a shameless man. We'll defend the territory, but at the same time we help your soldiers. They'll be putting arms down, to the shame of their leaders, how can we fight with those who saved our lives. As I told you, we'll disgrace those who stand in our way.

As I said, in the last negotiations when Obama administration approached us, that the Senate will not ratify the 5 plus one (treaty). I gave an interview to Mike Harris and I explained how many senators in the Senate, and in the House, would like to say no, to 5 to 15 million jobs, which will come out of the peace process with Iran. In the time of recession, you have to tell your people, that you are refusing millions of jobs. And the following Monday the opposition collapsed, and we got the ratification through the Senate. Now, our call goes to the American Navy, Army, and Armed Forces, your sons and your soldiers will die of Corona, (1:44). would you like to fight, or would you accept the hand of friendship, from the Iranian army and military for eradication, using advanced Iranian technology, beyond nuclear. We'll give you a guarantee, that within seven days the USS Roosevelt will be open for public, the way we cleaned at the hospital in Iran. Let the soldiers decide, not the incompetent leaders. We'll bombard the American military with a gift of life, and let's see who has the strength to create more war. We stand shoulder to shoulder with the world military, to deliver this to all the nations, because they have order, and they can reach, where the governments are incompetent to deliver, except one. As we always said, armies are men of action and

they can deliver. And this time the Iranian army will deliver peace, and the solution for Corona. We are proud to stand, shoulder to shoulder with Iranian soldiers to eradicate the Corona from Iran and rest of the world. You asked me, what I see for the future, I see the future of peace, using the opportunity of Corona to forget about the past. (1:46). But the same time, we have to take steps, that it will not take a toll on our lives in the future months through cancers and others.

Any other question?

Q: .. Can I use another PI at the same time? Let me say it another way, can I reach the virus with CO₂ and Zn?

K- The CL has a structure for Ca, and Mg, that's why it was developed for this purpose. Do you understand, you have the Cu, Zn, and the Nano (N) coated (coil). What is Ca, Rick? ... 39 -40. (1:48). You have to understand the design of it. We look at the Ca spectrum from 35 - 49 (plasmatic field strength). We average around 39 - 40. You have a Cu, which we calculate around about 57 - 69, around about 60 to 63 to 64. As you know, when you have a dynamic system which is created due to the N material inside, not all the polarities are in the same way, as we call it, some are in opposite way, this is something you never understood in the work of the Gans of plasma (PI).

In this water we have a Na, around about 19 - 25, we average it at 20 - 23.

Understanding the dynamic motions in this Cup, if you take 63 minus 23, of the Cu, you come to around about 40 of the Ca. Then you understand, the magnetic (M) field of Mg, or possibly Ca, (1:50). and Na and the Cu presence will give you the field strength of the Ca, this is how we interact with the Ca seed, which the Corona has touched.

Q: I have a breathing device, which I made with the CO₂ and Zn, can I use it at this moment .. K- For the time being, yes, you can do, it's emergency, because part of the Zn, and the best way to do it, is to add 1 or 2 drops of salt into it, to create, near this condition (of the Ca), for yourself in this Cup, and use the Gans saltwater, from your pot (saltwater in CL before removing the Gans), not just the normal Gans, which in that process will give you that. Just add 1 or 2 drops of the Gans saltwater. Q: Thank you very much. K- Now you understand how we handle the Corona, and why we are so effective on it. Because we have matched it, match to match, we have linked with it, link to link, we have done everything possible to make it available. In a way, if you look at it, Corona is like a big mother, a mother pig with so many tits, and we put a piglet on each one, sucking the energy out of the mother. Every possible way, (1:52). we have linked into it. It's a simple T, you see to me, physics is fun, and it's beauty, because I see how things go. When you enjoy science then everything is easy to solve. I built this T and I know every brick of it and where it needs to be fit in.

(Fibromyalgia teaching)

Q: I think you misunderstood me, I made the CL and have the Gans of it, but also I have another device, a breathing device I use with CO₂ and Zn, for my, I have Fibromyalgia, when I use these two methods (together) do I make any wrong thing?

K- No, that is what I told you, just put a salt from the CL in your breathing system, you do both, you help your Fibromyalgia and your Corona. Why have you got a Fibromyalgia? Q: I don't know, life I just got it.

K- What are the signs, what is the number, of your Fibromyalgia?

Q: ... I consulted with a doctor, she sent me to another doctor, and he gave me this breathing device. I have a pain, everyday, for 24 hours. (1:54). some pain in my legs, I

did all the tests and the doctor said, you are okay, you don't have any problem. You have a mental problem.

K- Have you been tested for Fibromyalgia?

Q: I tested with other things, pineal glands, all of them are okay.

K- No, Fibromyalgia doesn't show in any of these things, they are okay. It has a specific structure of identification, and you can ask your wife to do it for you. I used to test people who used to come, they said, oh, you want to touch us. I said, you know something, you can go and get lost in ?? yourself for the rest of your life.

Fibromyalgia, has 18 points in the body. If you pass 11 points as positive, then you have Fibromyalgia. Some people are as high as 18, they can hardly work, and they end up saying it's just psychological. It's not psychological. How old are you? Q: 41, from Iran. K- When did you leave Iran or were you born. Q: 10 years ago. K- Okay, Fibromyalgia is very easy to diagnose by someone who stands next to you. You need to put pressure at 2.5 lbs/per sq inch. (1:56). or 2 kg ?? it's best around at the tip of the finger. The first thing you do, is take the back of your ankle, do you know where the tendons are at the back of your foot. This is point 1 and 2. You get your wife to squeeze these tendons, between her 2 fingers. If they are painful, and you can't stand it, don't kick her and don't push people around, it means you have been abused while standing on your feet. That is the first sign of Fibromyalgia. So you have the first two (points). Then there are 2 points inside near your thighs, which goes near the "shy" line, women think you want to touch them. These 2 pressure points are points number 3 and 4. Again if you push the point with a hard pressure and if you feel pain, so now, you have 1 and 2, 3 and 4 (4 of 18 points). Then on the back of your shoulders you have 2 points in your shoulder blades, you press those deep, and if you feel pain, that is 5 and 6. Then under your arms there are 2 pressure point on the ribs, when you press them, pain. (7 and 8). (1:58). Then there are 2 points in front of your chest near the collar bone, number 9 and 10. You have 2 points by the neck and ear, number 11 and 12. There are 2 points on the back, in the spine just behind your hips, number 13 and 14. Then you have 2 points, which sits on your sinuses on either side of your nose, 15 and 16. Then you have the final points. These 2 points are very different and change the position. You press on the side of the breast, if there is a pain, number 17 and 18.

If any of these numbers 18 (in total), comes (adds up to) 11, you have Fibromyalgia. (2:00). You feel the pain, you kick people, you say, don't touch me, it hurts.

Fibromyalgia comes while you're exhausted, because to keep these pains under control takes a lot of energy everyday. These are emotional damages, which were done on you, the abuse by family or friends, before the age of puberty, that is run for 12 or 14 (years old). Am I correct?

Q: Yes exactly.

K- Yeah, this creates a psychological depression in the brain, which leads to not wanting to work, and being exhausted all the time, because you have to understand, to service each pain, which is part of this, takes something like 10 to 20 calories a day. If you have a 20 calorie energy loss, times it by 18 and that's nearly 400 calorie a day, which is wasted just on servicing these pains. So if you take 1,400 calories a day, what's it number, you're already short by 400, then you're already exhausted, you're tired, and if you cannot walk, it means they have told you, that you're incompetent, and you cannot do anything.

Q; Sometimes I can barely walk.

K- Yes, I understand. So with the Fibromyalgia this is the structure, ask Dr. Mujar, (2:02). to put you in touch with me, I'll take you out of it within two to three weeks.
Q: Thank you so much.

K- The process is not this way. Fibromyalgia has a specific process, I have had people who for 17 years could not even go to work. They had to work two or three hours a week, just to get paid by social services, and then they would spend the whole week recovering, for those two or three hours to stay alive. In less than three weeks, they were cooking and everything else and living a normal life. You have to understand Fibromyalgia is a psychosomatic, by abuse done before puberty. Then if you enter the workforce, or when not a workforce, but when you cross puberty, number 17 and 18 changes position to, these are your tits, the tips of your breasts, and these are your last ribs, you line up, if you are a woman, you lift your breast up, you take your tits, and you go directly in line to the rib, and you pressurize these two points. These become 18 and 17. If you have no pain, for ease, let's call them, 20 and 19. If you have no pain on either 20 or 19, then you have Fibromyalgia. (2:04). But if you do have pain on 20 and 19, then you have what is known as Fatigue. Points 19 and 20 come after puberty, it comes from being subordinate. You have a boss who tells you you're useless, and you accept it. Your wife tells you that you're incompetent, and everything else. You work in an office, because now you are a teenager, and you grow up, and they blame you for everything, and you know it's not your fault, then you start getting a depression.

This is Clinical Fatigue, CF and FM (Fibromyalgia). CF comes after puberty, FM comes before puberty, around 12 to 14, or up to 12 to 13 years old. This (CF) comes from anytime, from age of 14, to the end of life, whatever that life will be. You can get Fatigued (CF) at anytime, a lot of people accept a lot of pressure at work, because they need the bread to put on the table, and the boss is ruthless, he thinks he's the boss, and you get CF. You go into a marriage in which the wife is abusive, but for the sake of children you stay in it, and you get CF. Or you go into a marriage in which the wife betrays you, and you know it, but you stay in it for the sake of the children, you get CF, and all the abuse that comes with it. (2:06). When you accept, that it is not my fault, but everything I have to accept, just for the sake of having bread on table to live, you get this (pain on 19 and 20). Then you have to test yourself, because your front, your breast, is where you protect your heart and your emotional, and that's where the pain comes.

It took me 10 years to complete this (study), and I've mastered it, and I'll walk you out of it. You walk in and you divorce the wife, and you start a new life, because you won't stand the abusive behavior. Most of the children who go through bullying will suffer from FM, long time. With FM and CF, you need to strengthen the soul and the emotion. When you see the people with FM and CF, when they walk into your office, the shoulders are here, bent forward, and submissive. In three months they stand tall, and they won't let anyone abuse them. Your posture is like an animal in the fields of Africa, where the lion picks the animal by the posture, and so do the men. This is why many women go from one abusive relationship to another, because of the posture, because of the problems, which psychologically brought in a hidden FM in their life. (2:08). It's the same with a lot of boys and men. It's not the first time when we tell you, that we'll change the moral, and the emotion of the man, through Cup 1, because we understand and have tested fully in the cases of the others, in the past 20 years. Take a picture of yourself if you have FM, and go through the process of the Keshe Foundation, what I call "FM recovery," and then take another picture, you'll be at least 2 to 3 centimeters

taller. No lion will pick up, because he knows you kick. Your prospects, your understanding, your whole structure will change. I've seen couples who have sat in front of me, and then they realize how abusive they've been to each other, because both came from the abusive Fibromyalgia in their background. After 3 months they couldn't live with each other, because they understood how they carried the abusive behavior of their parents, into their partners.

Q: Thank you, Dr. Keshe, for your time. I'm really appreciative.

K- Am I correct? Q: Yeah, many of the things you said is exactly the same.

K- Speak to Dr. Hassan and I'll sort you out. I'll help you to get out it.

Q: Thank you. I really appreciate that. K- You're welcome. (2:10).

Any other question.

Q: .. about the Cup of Man (CM), how should I use the Water and Gans from the CM, and also how can I bare, feel and interact with the fields form the Cups?

K- The CM we'll open it in the next few weeks. Make a CM and keep it at home.

Q: I already made 2 of them.

K- Good. Let me explain to you how things are in 2 different ways. I was explaining this in one of the teachings this week. We gave you Cup #1 and Cup #2. The word CF ?? is Clinical Fatigue. FM is Fibromyalgia, I can see the word popping up. (2:12). He draws, Cup #1, Cup #2, then he draws Cup 1 connected to Cup 2, we call it, the Cup of Man, parallel.

The world of science starts with fields. You need 2 fields to interact. You need 2 fields to interact to give you a plasma. This is the field to you, of M field effect. This is plasma T. The next step is, what we call, Cup #3, or system #3. These are 1 and 1, or 2 and 2, and the interaction of the two, 1 and 2, has given us, sorry, the point, #3, no 2, 3, I do apologize. (2:14). (He erases #3 and draws #2). Which is this one (a plasma).

In the coming teaching, another combination of two's, when we put 2a and 2b, the combination of two's,(2a + 2b), will give us what we know in the world of science as, Physics. Two plasmas, each created from the interaction of the fields, gives you an atom, which is Physics, before that they are just plasmas and fields. In the interactions of the two's, two two's, which becomes the Physics, becomes #3. Now if I put two Three's together, you get Chemistry. (becomes 4) (2:16). If I put two 4's together you get Biology (becomes 5). If I put two 5's together you get the soul of physicality (STP). (becomes 6). If I put two 6's together you get the soul of the man (STM). (becomes 7). If I put the STM together, (two 7's), I get the soul of the Creator (8), as in Chinese we call it, ?? That's why you have the figure of infinity (sideways 8). That, in the interaction of this (the two 7's) you go back to 1.

Q: Are you going to give us 6 Cups that we ??

K- With 6 Cups, you come to this point, that the rest is understanding the STM. Man now has reached this point (two 6's), in your structure. (2:18). But if you understand, in Cup development, you are still here (1 and 2) with the Cup of Man. Only the Head of KF, and one other person have been enlightened, by this (two 7's). If you understand the operation of Cup #1 and #2, you will just about to come to understand the interaction between the 2 parts of the body of the man as separate fields. That it makes the plasma of the man. Then you'll understand, then we give you the dimension of physicality and the rest. (2:20). At the moment we have to go with the Cup #1 and #2, as the CM, because we have to elevate the STM, and the physicality of the man, that both are at the

same strength of the soul of interaction, that we make a perfect man in the physical dimension. We have brought your level of emotion, with your physicality. We first increase the emotion side to support the lungs and the brain. In that process we saw the weakness in physicality, which we brought the Cup of Man.

You have the CM, but it has brought a beautiful structure, The Chinese understand Yin and Yang, and they are talking about the fields of it, how they interact. The Iranians and Middle easterners, have come up with, okay, what is it doing with my physical, I want to see this and that. We see in the Westerners and Europeans, they are still in the dilemma of, "how many turns, is it left or right, what things it's going to be." It's amazing when I listen to all three schools of thoughts, and I see the West is so entangled in the world of physicality, it will take him a long time, even to come to understand the ?? second body. And even Middle easterners have a long way to go, (2:22). to the culture of the Chinese, understanding of the balance of the creation. When you look at the European Chats, they are still talking about the coils, and the Gans and this and that. The Iranians are talking about, I made the Gans, what can I do with it, and the rest of it. The Chinese don't even look at the structure of the Cups in so many ways, they go directly to what does the field effect have, and what is the Yin and Yang. This is why mankind has to work collectively, and understand each other's level of the soul, that it, in a way, works this way (Infinity Loop from the top to the bottom). When I see the European Chat room it makes me laugh. We made nearly 30 Corona Chat rooms. When I look at the Arabs, it absolutely bring s to, "we don't know what it is, but we'll try to be part of it," but some of them understand a bit of it, but there is a Chat so we have to talk. But when you go the Iranians, they are at it, it works, let's get on with it, I can save my physicality, I don't care whatever it is, terms, it has to do its job. Then you go into the Chinese, "what effect does it have on the soul,"

As they said if you heard, if you hear the Chinese... the Chinese QQs translations, some of them says "It is our right to steal. It is our right to use the Keshe Foundation technology. (2:24). They've given it to us." Yes, but we gave it with respect, it has to be respected, not to be stolen. As the Iranian official said, "He's giving it to us, a free gift for our people. How can we reject it?" Chinese said "It's a gift, we steal it, he doesn't need to know its his." And then in 2 years, 3 years down the line we'll see the survival rates in Iran and we'll see the survival rates in China, and we'll see the survival rates in Europe. And as is our tradition in Iran, in the time of war we do not fight, we help our enemies. We have even given a helping hand to the American Navy to get better, that maybe when they come back, we can beat them nicer in the wars, if they decide to battle that too. We don't help the Americans out of our weakness, we do it out of our love and respect for humanity. But if they want another beating, it's very free. It will be done so easy. But this time it'll be a beating with the love, not with arms, with sharing of the knowledge.

There is one condition, that the Iranian military forces will put ahead in supporting and helping the other nations. We insist signing of the peace treaty between the armies across the planet when accepting the technology. (2:26). The prerequisite is, armies working together. Don't forget the Iranian army signed such a treaty with the Romans 2500 years ago, and nobody knew which one is which. We are used to it. We run an empire, long before you could find their village, to call it home. Any other question?

GM- Good morning, Mr. Keshe! This is Gatua. I have a question.

K- Yes, Dr Gatua. You are the problem, I have a... sorry, before you say anything, I have to tell you something very strange. How come you have so many supporters and so many students in Kenya and around you, and none of them are on African chat line?

GM- No, they are there. I have invited 2 so far. The others I have...

K- Your classes are packed with people. They should be there to share knowledge. GM- I know but they don't have a telephone.

K- It's a free platform.

(GM) They don't have Telegram.

(MK) Open a chat room local They talk to each other there. It's everywhere. I open it, in the WeChat, I open it anyway you like. Get them talking to each other.

(GM) I... I will do. I'll do that. To...

(MK) Thank you very much.

GM- So the question is What is the appropriate salinity of the Cup of Man?

K- We are back into the same thing. (2:28). You decide. This is what I said last time. Let's say, what you decide.

GM- I've already decided but I may be wrong, so I wanted to...

K- So then you... you turn up to be Chinese looking if you're wrong, and if you get the salinity right and everything else right, you might look American white. So, what difference does it make? You are still a human, you have a soul.

Azar- (interrupts) K- No, no, no, wait! Wait, wait, wait, Dr. Azar, we have to explain.

(AB) Mr. Keshe, if he... it depends if he wants to become a salty man or a sweet man.

K- He is a sweet man. He's Dr. Gatua. Dr. Gatua, carry on.

G- What I said is I already decided but I could be wrong... (MK) So? (GM) So I didn't want it to be... right.

K- How could you be... God made a mistake, made the man. But he still got some things right, huh? You know, Dr. Gatua, there is a beautiful joke in Farsi It's a very old joke, and I heard it again recently, in a Chat. ... A man said to the God, "Why have you made the woman so beautiful?" God said, "Because I want you to enjoy the beauty." The man says to the God, he says: "Why did you make a woman so stupid?" He said, "Because then she can love you." Do you understand? (2:30). G-Yes. I do.

K- So we give the beauty. It depends on how you want to appreciate it You have to change things according to what you understand. As he said, she's beautiful, but she's stupid. And the God said, I made her stupid, so that she can love you. So let's see. Do we love our soul or do we stick to the physicality to love what is physical? As I said, it depends on the intelligence of the man. You can make any shape, any color, any salinity, but what do you expect?

Then you have to understand the Cup of Man carries a soul. Did you bless it, or you just pushed in the bars to see what you make? Because the purpose of making the Cup of Man, wasn't just to make a Cup. The purpose of the Cup of Man was to teach man to respect. This is the problem when I gave you the CL, I explained to you, it has a soul. In your lives, you give life, a physical life to your children. (2:32). I allowed you to do that with your own eyes, with the Cup of Man. You have created a soul, that you are responsible for. But you're so physical, that you look at the Cup as another thing to save your life with Corona. Corona and the Cronies of it, we were finished with it, with Cup 1 and 2. I've brought you to a level very much, very much ... one man making two Cups,

and one man making two "Cups of Man." One physicality giving life to two hidden souls. In the life of the man you call it, "schizophrenic." You have to understand the Cup of Life, and the "Cup of Man." You're still looking for everything in it, except understanding the truth. This is the soul of emotion (Cup 1 on right) and this is the soul of its physicality (Cup 2 on left). It has life, (2:34). as your child (draws an Infinity Loop connecting the two). You have created it. And in essence, its soul is connected to your soul. You want to play with it, you're quite welcome. But be careful what it can do to you, when you're dishonest with yourself and the others. You will understand soon, where you have become the other Cup.

K- We say in the old proverb "Do to the others as you like to be done to". Understand what a CL. You need to understand the Cup of Life. And you need to understand the Cup of Man. In the coming time, when we open the space to you, this is what you will be facing with (draws a circle around the CM), and it's the truth about yourself, who has got to be interacting with it. We'll start teaching the Cup of Man, post Corona, and not because of Corona. (:2:36). To us Corona is complete, it's finished. But because you're so physical, it was easy to bring it in. In fact, if you look and every man makes one Cup of Man, we'll have 7 billion physical souls, and 7 billion souls of the Man who have trust to interact with. Very interesting if you understand it.

(AB) Mr. Keshe, I have a question.

(MK) You never stop asking questions. Q: Can you.... can you help someone else with the Cup of Man or do they have to do it themselves?

K- The Cup of Man has to be made by the man itself. (AB) But can you teach them, help them? (MK) Of course, we teach you. Don't you teach... don't you teach sex education to your children? (AB)Yes. (MK) So, that's... this is a soul education.

(AB) OK, the other question I have... last time in your teaching, when you were teaching Cup of Man you said, we elevate the soul of the man. So the STM is supporting the physicality? The soul of physicality, that... in which the virus of the STM is very rare. Does it mean, once the soul gets elevated to the point that physicality is supporting the physical soul, the virus can never affect us? (2:38).

K- Why are you afraid of the virus?

(AB) I'm not afraid, I'm just asking.

K- Space is so full of it of it that it's not going to affect you. Have you ever been in love? (AB) Yes. (MK) How many times? (AB) I don't know, Mr. Keshe.

K- You are a woman. Women fall in love day out, day in. It depends on what shoe they wear. But in reality, love is a virus. It has no physical dimension. It's us who's has to handle it. One of the best viruses we know, is falling in love. How do we manage it? How can we let it affect us that way. How can our soul allows to share our heart, the physical part, with somebody else? So, if you understand the totality of virus...viruses we are born with it and because of it we reproduce and we enjoy the existence of the others. So what's your fear?

(AB) Mr. Keshe, you know I ask this question. I wrote down your last teaching, word by word, and I'm decoding all this because the physicality...

K- Yes, but in the physical language. Understand it in terms of the Soul of the Man.

A- So I let my soul understand it then .. ?

K- I don't know, that's your problem. That's your understanding.

(2:40). K- Yes, we have Mrs. Mohammadi (MM) from Tehran. Q: So the STM needs the STP. ... Q: Does the STM need the STP to elevate or not?

K- The STM is the only elevator of the STP. There is no other way to (do) it. And in the process the Cup of Man is set, to set the scene for that, for the man, if the man understands. If you look at the Cup of Man as a Cup of Man you will not understand anything, it's just another cup, another game to play. But if you reach the soul of the Cup of Man, with the STM, you will find mysteries of life. Let me explain to you something which I explained, I don't know if you been there ..some of you have, or not.

Very soon, as I explained to some of the Knowledge Seekers in the background, we will show you how easily the life and the soul, can be created in the dimension of physicality. Where I will give you a drop of water, (2:42). and I'll give you a fish tank. And when I drop the water into the fish tank, through the emotion of the STM, you can have a fish, or you can have yourself a cow. Where for the fish, it becomes where it lives, and for the cow, it becomes the womb of the mother, as a cow. This knowledge is hidden to man. And I'm training one Chinese man to be able to do it, because the Chinese understand the essence of the Yin and Yang. If we give it to the Westerner, he would like the fish to eat. If we give it to the Middle Easterner he would like to see how fast it grows, so he can eat it. This gift will come from a Chinese man. Where we add a drop, and from that drop we create a life. Do you remember I told you, I'll create a condition, so that you can see the fields that others from the universe will come. Now, that will be your first training. That you can see it, so that in the space, you don't fall for magic. I was planning to show this in the Tehran conference. (2:44).

Q: Mr. Keshe are you sure you want to teach this to a Chinese? Because Chinese eat meat, but the Indians don't eat meat. K- Yeah, but they eat more vegetables, and more souls. I prefer a meat eater to a vegetarian. One soul carries one animal, and each grain of rice on a stem of rice has a soul. You need a thousand to fill in a bowl to feed a man every time. It's your misinterpretation and understanding of the life. I stay with the less criminals, and sometimes it's better. But there is more criminality in this too (meat eating), which I don't show you. Maybe you want a drop, that it becomes a grain of rice. In that drop I'll give you the soul, it's your thoughts, which gives it the physicality. That's the difference between the man, and a Cup of Man. (2:46).

Mrs. Mohammadi, have you finished your job, or are you still busy, while you're on the line? MM- No we are busy.

Q: Mr. Keshe is it possible to do the Iran conference this year still, or no?

K- We have to ask the Iranian government. We are ready if they're ready. Q: We still have 17 days to go. K- We can curb the Corona very easily That's what I said to some officials in Iran, we have managed to curb the Corona, so anyone who's got a Corona, we call, Iran, as what we call, medical tourism. You can come to Iran we let you, we save your lives, we cure you, and you can go back. Tehran will become the only city in the world open for business with no Corona, and if you have it, we accept you with the greatest of the pleasures. Health tourism for Corona, for Iran, will bring the most powerful men in the world, trying to save their lives with their families. And Tehran is open. It'll be the only city, the only country, which welcomes anyone from around the world with Corona. Because we have managed to crown it. (2:48). We will announce it soon. Tehran will be open for international travel for people who are sick with Corona. The richer you are, the more we welcome you. We have to recuperate some of the

money we lost with the sanctions through your lives. At least we can give to our people, so they can start developing a better technologies for the others to enjoy.

One of the best things with this will be within the next few days, we'll announce, that Iran is open for international travel, because we know how to handle it. No quarantine, you can come and go as the way you came and went before, just follow our procedures. Tehran K airport will be opened in the next few days, and we welcome anyone from anywhere around the world. We'll sterilize you inside the plane, and we'll give you a Cup to make sure you don't catch it, and you don't give it. And if you have it, we contain it. I told you, I'll bring Iran to be the crown jewel of Science and Technology. Now you need a jewel to find, and then crown it, and not to find a jewel to crown, the crown with it. We will announce very soon, we are open, back to normal right across Iran. Give us a few days to clean up, (2:50). and then in the meanwhile you can come in. And we'll see if we can keep the 19th Conference open. You're afraid, because you have so many people in Paris, that you're putting them on a train to another hospital outside. Put them on a plane and \$1000 or \$10,000 each to spend on holidays in Iran. We treat them for you, and send them back. Any Parisians wants a ticket to Tehran, you're quite welcome. We'll even accept people from the White House. Any other question?

Q: I have one question about Cup of Man (CM). Can I use it for example, if my wish is to feed myself and elevate my soul. Can I use this setup, this CM, during sleep for example doing the putting Cup 1 on the head side, and Cup 2 on the leg side, of the bed?

(no answer)

Any other question ?

Q: Hello sir, its Mehnaz thank you and I'm present in all your wishes to help Iran, (2:52). for the benefit of humanity becomes the jewel of science and give it with hospitality to anybody. But I think we need more zinc plasma waters on the whole world. And as far as, if you permit, as far as these specifically towards this virus I have tried, I have said it before, I've tried with the flies, I accepted them and I opened my house somehow. I responded with reception, and they didn't bother me anymore, the flies in my house. So I have the same feeling with these virus, like I cannot of course, I take care of all precautions, but I cannot have hate or fear about that. I feel like, if I am receptive, and I accepted it as a part of the universe, and I'm not aggressive towards it. I think it cannot attack me, if it has a soul, and if this soul, .. is like me, it's receptive, and welcoming and no animosity towards it, maybe it would pass by me, because I'm not reactive. That is my first question?

Secondly, is that the historian of the Egyptians (this was the Jews in Old Testament), when they put on time of plague or the illness, they put the design of the blood or sacrifice on their doors. The illness was passing their house. K- why-why-why stop, why? (2:54). Q: Because of the spiritual force...

K- Oh no, oh no, come on Mrs. M. You should understand the symbolism of it. If you understand the work of the Gans, and the body of the man having a Gans. What do you do now, when we tell you to spray your house with Gans's? Isn't that the cross of blood over your door?

Q: Yeah. probably yes but I'm talking about this...

K- No, no because symbolism in knowledge has to be understood. Because the blood is a Gans, it is at the level that it absorbs, it interacts with the virus, with the plague virus.

If you take .. this is exactly what you're doing with the spraying of the Gans in your home. This is why I tell you to throw it on the street, and wash your buildings with it, why? You don't need to sacrifice an animal to do it, to put it. Q: I know.

K- Now do you understand?

Q; Sacrifice is also giving food ..

K- No, no, its not a sacrifice. We are talking scientifically, the blood is a Gans state, and the virus needs a protein to attach itself to, so when it's got a free food there, they're there, and then it devalues to the energy of, whatever is there, the building or whatever, then it loses its power. That's what you do with your Gans's. That's what you do with the Gans's on your body. It's not, what you call it, it's understanding what it means. What it does? (2;56). Q; What I mean is, how about the spirit of a person ..?

K- First of all let me tell you something. In a couple of sentences you said something, which is very alarming, but in a way, very important. You said, we cannot be afraid of viruses, and this and that, yeah? ... If you're afraid of viruses, please do not leave Earth's atmosphere. Stay a human, chain yourself to this planet. Outside (this planet) it is all viruses. So to begin with, you never become a "man of space." Then you have to understand, if that's the case, and you become "Man of Space," viruses are part of the environment. You have to understand how you deal with it, with the interaction of the STM, with the STP of the Man, that it does not create an absorption or interaction with the fields you don't need. But we still need these viruses or fields to feed yourself from it. Do you understand? So if you say, "I'm not afraid of viruses," I've never been afraid of viruses, because I know, that you cannot be a "Man of Space," if you're afraid of viruses. They say, if you can't stand the heat, don't get in the kitchen. Don't start cooking. So if you're afraid of viruses, don't even try to get your soul out of this planet, because out there, there are nothing but viruses, which are an energy packs.

Q: Which can be used for survival? (2:58).

K- Of course, you are doing it now. What do you do with the Gans water we give you? You wash yourself, your body with it, you take off the virus, in bits and bobs, and you feed yourself with it. What do you do? That's why I keep on telling you keep on drinking water, the Gans water... You take the energy of it is in so many bits, the banana ,the strawberry. Some of you try to understand, that when you drink these Gans Waters, do you taste, feel, or crave for something. Or do you feel satisfied, you're not hungry. I used to eat a lot, but in the past few weeks, I am drinking so much Gans Water. Oh, now I eat very little, in nibbles. I was thinking yesterday, my god, if I go this way, I'll be as thin as anything, because I eat a very little on plate, very little, whatever is there. I try to have a nibble, just to have that energy, that I an carry on. Because if you understand, you're using the energy of the virus, to feed the rest of your body. You're not making it immune.

Q: So what about specific ..??

K- This is one of the reasons, that I explained to some of the Iranian scientists, that this is one of the reasons we see such a fast recovery with this Gans Technology, because we use the energy of the virus, which is in parts, and while it goes through the stomach to feed the body, and because it's already digested energy, it brings recovery so fast. It's a huge stone, we cannot move, but when we chop it in pieces, (3:00). we can build buildings with it. The building's blocks of the life of man.

Q: I am present with your wishes.

K- I carry the knowledge, I have no wishes.

Q: For Humanity, for saving us.

K- You are saving yourselves. You see, I didn't answer the gentleman from Romania, because then, there is a lot of speculation of whatever. Use your intelligence, and do not try to set, to formality, and a framework of what has to be. Many people are accepting, and doing different things with the Cup of Man, but it needs a man to understand the Cup, not just there, for them to become a gimmick. This is a big difference.

Q: It's a new experience for man, not to be in a framework or whatever.

K- It's a new toy.

Q: Yeah, another thing, what about some spiritual advice, some special practices, or prayers, or meditations, that if they are sincerely applied, where some people ...?

K- You're talking to the wrong person about meditation and prayer, who am I praying to? What am I giving? Or who am I meditating to? If you spend time with Gaun Lin (GL), she spends hours meditating. I don't know how they are meditating, but Chinese spend a lot of time meditating, and I don't understand what they meditate (on). (3:02). They will sit on the train and are meditating, if the time and the place is right. But, what is the meditation? What is the understanding of prayer? Who do we pray to? Who do we give to? We give to our own soul, we elevate our own soul. If you understand the truth, now. Who are we giving to? Who are we praying to? Unless we give to the souls who created us, or brought us joy? Or brought us life?

Q: If I can express my feeling, it is a kind of getting inside myself, without the noises of my physicality, and that opens me to a bigger, infinite space, and then I get things differently.

K- Let me, I'll bring you an expert in this, just wait one minute. GL are you there? Just listen to this one. ... GL you spent hours meditating, every time I talk to her she says, "oh I was meditating." What does meditation mean in Chinese? Or in your way .. GL- Okay, although I spend time on that, but maybe I'm not a good meditator, because I...

K- How long have you been practicing meditation?

GL- I just occasionally sometimes when I ???

K- Everyday I think?

GL- Yeah, if I have time I do. But the method for me it's just to relax and to feel my body, to listen, like something pumping in my head, (3:04). what is there. Just like an observer of your thoughts, observer of your body, and yeah I calm down. But I know I'm not really good at that. I know a lot of people who go through meditation and they have a lot of achievement. They free their soul. So actually, I'm just a just a very, like a lower primary school or kindergarten for that.

K- But you spend so much time on it? GL- oh, yeah that's because I'm the stupid, that's your idea for women, right?

K- Is there anyone on the Chinese QQ, who can explain this?

GL- Yeah, I think I can ask for somebody if they want to pumping up and to say something and I can translate. ... GL- I just translated for you.

K- Let me explain, when you call GL and there is no answer, it says she is busy with something. You call back an hour later, still no answer, (3:06). you call back 2 hours later, she says, I was meditating. So you get used to it. The Chinese are forever meditating. I have never known a nation with so much meditating. Is there any response from the Chinese.

GL- Somebody said this is a cultivation way in Taoism. It's also in Buddhism and Confucianism, they all try to mediate, this is the way they try to communicate with the soul. When you are calmed down, then the soul is going to pumping up. ..

K- Meanwhile when they are quietly playing the music of the soul. A lot of KS have to step up and understand more about the real life, not the physical life. Space will become a very comfortable place. As long as you are afraid of viruses, do not enter the Universal Community (UC), because a lot of them are energy packs of what you call viruses, but they are lovely viruses. You can even fall in love with the viruses. As somebody used to say, can you imagine that. (3:08). We already know that virus, we call it love. .. Are there anybody? GL - nobody want to pumping up.

K- Or are they shocked.

GL- Yeah, I think they are more shocked when you said, you are going to teach a Chinese guy about how to create a creature in the tank.

K- We did that, one of the KS created a brain in Barletta. Don't be shocked, look at it this way. You have a womb of the mother, and 2 drops of water create the life, we call it a child. What is amazing with it. It is not a shell, a yolk, a shell, that you crack it and a sperm gets in it, and then something else. It's the interaction of 2 liquids, where in the liquid of the womb of the mother, it takes shape. I give one part, and the tank gives the other part, and the interaction of the two creates life. You see, your lack of knowledge becomes your.. (3:10). I become God, and a magician. But if you understand this, no one can be a magician in the universe, that is why I explain it so simply. When you look at the operation of life, the egg is already inside and part of the womb, in a way, it is made of it, and the sperm enters, and the whole lot start operating as one. When you give me a tank, I add that ?? something to it, and the whole thing becomes a womb, and the ?? created.

It's interesting how knowledge is coming up in different ways and different things with the KS across the world. A KS wrote to me very recently, he said, "Mr. Keshe there is a problem I have discovered." I said, it's not a problem, I know that. He says, I want to do more realistic tests on it. He says, my water has turned parts per million, particles, but when I put Gans Water in it, it becomes 44 or 40 parts per (million) particles. He says, how does this happen? I said, very easily, you convert exactly like the virus, energy into matter of what is available in the water. Now they are going to do a scientific test, (3:12). and come up with a result. In a way, we enter energy in a water, and other particles inside the water convert, by energy to what ... it's exactly what Corona is doing. It's an Iranian scientist, and we'll see what he comes up with it as. As we said, 2 or 3 weeks ago, we had a report from a scientist in Iran, for the first time we have gone below Pico meter. Nanometer was our achievement up to now. Now in Iran, it's assigned to an institute, have confirmed, that we have gone below Pico meter. We know that they are there, but we don't have machines to go deep enough to see them. But now we saw below nanometer. We go to Pico, and then below Pico. In fact, is the clear water, still carrying Pico materials, which has given an environment, which becomes a particle. We are converting energy in Pico to matter state, in that ... by giving energy back to itself. I told you that if the world switches to peace, and the finances that were put into arms, now goes towards the peace work, oh, mankind will not have enough time to explore every avenue of our life and existence in the creation of God across the universe.

As I said very recently, and I'll repeat again to the American administration and government, especially to the state of California. If you take the state of California, out of the American (United) States, (3:14). it becomes the 8th largest economy in the

world, and America as a state, would fall below 15, more or less. Because of a lot of negative, and other positions which California creates for other states. Now that we have reached a peace condition, many companies in California were involved in weapons, and development of weapons T and arms, and everything they call it under the defense. Now these people are becoming without a job, that's why, as the Trump said, we are getting ready because Iran is going to attack us. When actually he has to find another war to keep these companies going in California and the rest. .. As you remember, it was beautifully said, there was a map of Iran and there were all American flags, as bases, all over (surrounding), then the president said, Iran is planning to attack Americans. Who came 20,000 km to be caused to be attacked, and we still don't attack you, because we are not animals. We are a mature nation. So now we see movement in Iraq, as we have been told, and I spoke with our American guys yesterday in the US, they said, yes, our plan now, is moving, because, we think Iran might attack. I said, no we are not stupid. You think that Iran, through Corona has lost some of its military and you think it's a weak point to attack, but be careful you (don't) get burnt. The Baghdad situation was just a taster. (3:16). The situation in Iraq, 6 or 8 weeks ago, was just a taster, this time don't play with the fire. But again it is the same situation. ..

We are looking for the maturity of the man. Now that all of these guys have gone into worrying about Corona, with the Cronies, and they have to go home, and they have to go in the Navy, and the ships, planes, and they carry the Corona with them. We are prepared to help the Americans, to "de-Corona-tize" before they go. Even in Iraq. We open so much, the hand of peace and love from Iran, that we put you to shame, the American military forces. We don't show you .. it's just because of our strength that we can do, both in science and in weapons T. I speak very openly to the members of the White House, meeting they understand. It ?? extend the hand of peace, let's save your soldiers and your ships, not only in America.

As I said, I'll enforce peace, (even) if it means by writing off nations. Not the people, but the ?? rulers. Try to understand, if what we call, as a through and through peace dividend for humanity, we use all these scientists across this planet, who were involved in military and defense, and whatever names you gave them, to develop technologies for .. (3:18). Now they can't sell anymore they can't threaten each other anymore, into space development and into everything else. Can you consider that humanity will evolve in less than 2 years, more than 20 billion years on this planet, and then Mrs. M will not have a fear of viruses to go to space. As we understand them, we analyze them, and how to deal with them, and how to live with them.

The message today is very clear, Iran has taken superiority in Corona, and dealing with Corona, and we'll use the Iranian military forces to spread the knowledge across Iran and beyond its borders for other nations to enjoy. We put the hand of peace out. We do not need your generosity, we give you, that you stay in power as governments, but at the same time free your nationals from what is happening now. And we'll share the T freely. Iran is a peaceful nation and its T belongs to humanity. We'll spread this T within the next few days, across Iran with the support of the Iranian army, because it's the only way it can be done, that we can reach the whole of nationals, and be able to secure the cities. As we saw with the Chinese, they brought to do the cities, the cleaning and the rest. But in Iran we are used to using our military for the prosperity of the nation. (3:20). We'll bring that to the other nations. We are not going into developing a condition that we all suffer, we are going to develop a condition so that it becomes

peaceful for humanity to enter the next step to peace and T. If we do not get a positive response from Michael Flint, or the White House directly. As you know, lieutenant Colonel Michael Flint is a direct advisor to president Trump. He is the only adviser that he accepts. We have put a message to him. We expect a positive response. If we do not get we'll reach the USS Roosevelt directly, and its chief, to secure its people. We have the means to do so, with peaceful intention, and peaceful application. The same will reach the Governor of Arizona, and California, and we'll change the course directly. We'll break up the animosity through friendship and safe conduct. There is one answer, we collectively work, with the armies to eradicate the Corona, and to bring a new condition of peace across the world. I stand shoulder to shoulder with all the military forces of any color and race, as long as it serves the nation and humanity. (3:22). Any other question or shall we call it a day?

GL- Can I read some feedback from the Chinese? About the meditation, somebody said, all the matters has the spirit, has the life. Another said, meditation is the practice to link with your soul, to have a call with your soul. Somebody else said, my experience with meditation, is a deep inside view when the brain calms down, and the release, and became emptiness, and the inner awareness starting to expand. Another said, to meditate is to expand the soul, to become the same size as the U, to unite as oneness, then the U energy becomes oneness status, and then you can download it. ...To feel your emotions, .. do not react to it. .. (3:24). I agree with somebody's words, they said, Iran is the best nation to open this peace T to the world. I quite agree with that, although you tried a lot with China, but maybe Iran, as you said, Iran has the key, the Iranian nation has to accept the key, and then open the door of China. That is what my opinion is.

K- Can you explain to us the discussions in QQ regarding the Cup of Man, how they look at it. .. What do they talk on the QQ regarding the soul of the system? .. You had it on the QQ this past week, what has been talked?

GL - They are trying to understand why some parts use the N wire and the salinity of the different caps.

K- No, I am talking about the energies, what do they talk about the energies, the Yin and Yang in the Cups.

GL- Actually I didn't see much discussion of that, but I have some understanding ... we also think that the STM and the STP, (3:26). can create the field, yeah, as you said, it must to create a soul, so we create a soul of the same strength as our soul, so that we can communicate with it. And today you were talking about the "Beautiful People", so that's what I understand, maybe you'll find that inside you'll have 2 souls, and you can talk with the other soul. K- Can you ask your QQ people how do they see the balance of their fields as a Chinese? Q: A balance of the fields, okay let me ask them. K- In a Cup of Life, because other QQ's who are involved in the work of the soul and the Cup, have very deep discussions going on, on this matter.

GL- From where?

K- I'll give you the QQ to go to. You are not the only place I talk to. GL- Ah, here there's not much people discussion about that. [Chinese]. (3:28).

K- Go into the Taoism chat lines.

GL- Taoism chat line? Where?

K- Yes. You should find it. They are those people who've been around us, and they are considering the Cup of Life with it.

GL- I didn't have that... Interesting. You don't understand Chinese but you are in a QQ group which I don't know...

K- Because they explained to me how... you know with the Taoist groups we met with a lot of them... and they have opened the Chat lines, and they still follow the work of the foundation, and they are discussing it, yeah.

GL- Can you invite me in?

K- No, we if they wanted, they would have invited you in. They are looking at the Keshe Foundation work and Taoism. As you know they always said the two are very similar. GL- Yeah, yeah, that is what I feel also, yeah.

K- Yeah, but Taoism people always looked at the Keshe Foundation as a, what you call, confirmation of Taoism.

GL- Yes, for them, they only had the older mystery theories, but not much things can be like a really... really can... can see and show. So, that... I also, yeah. I was learning a lot from... from other groups of Taoism also. It's very interesting the more I learn, the more I think it's the same. Just as you say, it's the teaching from the custom maybe 5,000 to 6,000 years ago, (3:30). and now you have teaching in a new modern, scientific way of the old Taoist and more details.

K- And the Taoist groups understand this. They think they have found an answer to many of their long years of questions.

GL- Yes, actually that's why I introduced this to some people and they find it easier to understand you, if they really know what you're talking about.

K- Yeah, because Taoism believes in Yin and Yang, and a balance of the two. We had many meetings with them, and they see the knowledge with the technology as an answer or, what you call it? How do they express it? They express it as a...

GL-Confirmation.

K- Confirmation, yes.

GL- For what they learned from the books, or from their masters. You are totally different, like the new way to explain it so easily, that everybody can understand. Because if you read the old books, for us, we think that's the book of the God. Nobody understands because they, you know, for all of your theories (teachings), they just use several words to describe all of it, the whole of plasma. They do it in just maybe 20 words. They explain everything. But if you just read those words, they are just words, they don't have any meaning. But if you hear yours, you are explaining how plasma is working. We'll come back and say, exactly. That's this, in very simple words. What if you planned the whole world, how to run.

K- The Taoists in China, When they come in touch with the teaching of the foundation is like that they find the missing links. (3:32).

GL- Yeah, that's what I always say. That your teaching is linked to the ancient and the modernized, links the West and East, and links the Earth's civilization with the Universal Community civilization.

K- Thank you very much. So what do your people say? Let me explain to our listeners. We had many encounters and many beautiful meetings, and we made many friends with the Taoists in China, during my stay. .. The more we work with, and the more contact we have with the Taoist leaders and key people, the more we understand we are talking the same. But now we understand more of the same. The Taoist groups, especially in Beijing and in the other places, where we have met, are adamant, that the technology has to become, to be explained to, and the Chinese will understand it, because it's part of their culture. In the groups which work with the Keshe Foundation, with our knowledge

they have gathered a lot in past 3 or 4 weeks, especially with the Cups. The Cup of Man. It was a point of mystery to them, which now has been unraveled. They understood a lot, and it has affected them a lot. (3:34). If you look at the 2 Cups, are the Yin and Yang. One has a weakness, which the other one covers. And one has the strength, which the other one has to give. But at the same time, both wear weaknesses and the strength, that the interaction, between the four, in a way, what we call Yin and Yang, or gravity and "magnetical" (M), creates that condition of the balance between the Cups, the Cup of Man. This is what we have with the physicality of the man, and the STM. The STM in the brain, has a very powerful strength, which leads to the creation of the man. But it needs the STP with its soul weaker, to be able to expand itself to manifest the physicality. At the same time, in its strength, it needs to receive, which uses the STP and the actual physical body, to maintain that position of receiving the lowest, that it can give more, of the highest. In our stay China, as I said, we came across many true Taoists, and I've given talks to many Taoist groups and teams, and individuals. They understand the culture of the Keshe Foundation and the teaching in a totally different manner. It's like a fulfillment of what they could not understand. And strange enough the militaries, (3:36). took it the wrong way. But it's okay.

Any other question?

Q: I got the question from the Telegram group, and it's about the two Protocols. How are pregnant women to behave in regards to Protocol 1 & 2.

K- The Protocol has... does not make any difference on a pregnant woman. It's the fields of interaction, if the Coronavirus is there, and has no... no what you call it...

(cut off by Rick, he's not hearing the program ..) ..

R- There's Mrs. Mohammadi and Phillip also has hand up.

K- Lets listen to Mrs. Mohammadi, what she has to say. ... Can we have MM, is this the old talk or she still wants to speak? MM- Yes, for just a minute we need you here (for an important meeting in Tehran, please.

K- It's time to close down, yes. It's important for me to be in Tehran. .. Thank you very much indeed for today and I hope we have good news for you.

(3:38).

No, Rick is gone (inaudible)... can't hear anything, He's talking to himself.

K- Okay no problem. I have to go into a call from Tehran. It's urgent. So I would like to thank you for today and hopefully next week we'll have a better news. At the same time I hope today we learned a lot and we'll see what will come and how will... this thing will take shape. Thank you very much.

Thank you indeed. Bye-bye.

This has been the 322nd Knowledge Seekers Workshop for Thursday, April 2nd, 2020. (3:40).
