

333rd Knowledge Seekers Workshop; June 18, 2020

ENGLISH TRANSCRIPTION:

... As usual we started a long path, road to be where we were supposed to be millions of years ago, and maybe this time it will make it easier. It's 333 KSW (:12). and its sum of 9, which itself could bring a lot, as usual, we don't read off the script, there is nothing planned, and we see what those who decide the future of humanity decide to deliver. As usual as you have seen, .. introduced new products, as we bring new T in. .. show the effect of new T. If it is not used it stays as theory on desk ..

(:14).

(:16). .. showed the manufacturing ..

to be shown by the request of the Iranian government for the first time operational, in Iran. We respond positive to the Iranians ..

.. Kramere .. responsible for sales promotion, 8 9 years, 2 years a UC member. .. (:20). shows new products in KF Stores ..

(:36).

K- Thank you .. After betrayal by the Italian KF, we'll bring the KF back in ..

(:38). the man who learns from the mistakes of trusting humans ... not to be afraid of making mistakes ..

(:44). K- We see a lot of changes ...

(:56). .. or do we have to go through the process of understanding? In the coming weeks we start teaching you about .. 3 dimensional, non-tangible computers, line of communication. The .. prerequisite for it has been set. We'll introduce this T in a very soft way across the world. The present computers become obsolete, the present system controls become obsolete. (:58). I disclosed this T to Iranian Ministry of Defense University, in the past 48 hours. In response to the positive response to the Office of his Eminence Ayatollah K of Iran, in embracing the T, we release massive technologies, through 1 university as we see through the center of technologies dispenser. The T remote transmutation and transportation has been disclosed to the Iranian university in the past 48 hours. Non-tangible systems in a full control. It's for the universities and the heads of Iran how to disperse this T, across the planet on equal terms, but still stays open till all the KS of the KF. Non-tangible, 3 dimensional computer, working on what we promised has been setup ?? I said always, I receive, I give. .. knowledge at the edge of science will come in a very soft way in total understanding. We have disclosed to the Iranian officials transmutation of elements, and we have shown them. We have shown in a very detailed way, (1:00). how the next generation of technologies will come out of KF, and needs to be shared. Understanding the knowledge is no good, comprehending and knowing what will bring will bring the change. Step by step I will release the most advanced technologies never seen by man. Some you could not even imagine it could

exist. If UFOs were your dream, transmutation across the U and planet, will become your nightmare. This T as I wished, and I was assured that mankind will stay on track, has started ??? if you thought you were entangling with Gans's now you have to understand what these Gans's mean, and how they mean, and what they can do, and how they can be utilized, not only for peace, but for communication, transportation, and most of all unification with U Community and the rest of humanity. .. feeding (1:02).

Do we find a position for physicians, when in fact your soul becomes your physician at the point of need. Don't forget I said, you are the last man standing, you are your physician. we are going through a transition between the man's knowledge, (1:06). and universal knowledge ..

I don't need a physical life .. we came to earth to enjoy the physical, but nothing but suffering.. man enjoys suffering ..

I have hidden many knowledge's without the KS even knowing in the product's you see. In time I will explain how, step by step. When a product is offered twice is because I see the bigger picture where it can be used. It's not that it is there just as a product. When we put something, it is a bigger structure plan .. and with it we elevate the soul, step by step, (1:08).

understanding the true operation of the physical life ..

(1:10).

Maybe mankind is ready for the next shift, but it has to come through man, science and through the ethos. .. change the position of the STM and teaching the way we teach not how they taught ..

unification of all thoughts on the ethos of theology ..

Easier to get the Pope to teach the T under the ethos of One Nation, One Race, .. the understanding of man will be much more rapid. (1:12). We know what we do, and what is to come ... through already established systems which has taken thousands of years. Our Brazilian friends in asking a question, I felt the hammer, and I felt the nail, and I felt the pain going through the hand on the cross. I know the pain of mankind and I know we brought

(1:14).

conversion of energy to knowledge .. becomes the knowledge of the University, I made man so that he can love me ... the human race can give back to the Creator .. (1:16). Every field you add up .. leads to thoughts and betterment,, passed on to your soul .. the love ..

add to the knowledge of the Creator .

(1:18).

We bring the knowledge of the Creator for man to put together new ways .

(1:20).

The Creator has decided to take shape on this planet ...

that the rest of the U learns from its purpose, from its love and beauty. Maybe, (1:32). today's teaching has brought you a bit closer to understand more. But you will not get systems, not for the time being, new technologies, not for the time being. If you remember we did a lot of theoretical teaching before we started showing how to make the reactors. Now we start teaching you how to get ready, to meet, to live, and work in the dimension of the universal strength and knowledge. And do not expect to have a reactor in hand and something to rotate. Expect to work through your soul, understand it, understand the operation of it, and trust it, then a new knowledge will appear. A knowledge of the U, and a knowledge of the souls. Maybe it will be the time to show something special, and maybe time to create that special condition. For sure, no time has been wasted every step ...

We put this dough in millions of years ago and now we open the oven to see how it tastes .

(1:34). .. Christ said, this is my blood, this is my body, and that bread becomes the body, and that blood becomes the love of man to give. That's why it is ?? in the dimension of physicality .. we hide knowledge in physicality ..

It's not all bad on this planet there is something good ..

(1:40). becomes a sanctuary for the U Community.

We have never broken a promise ..

(1:42). but not much left time. Because all the ..

Sometimes I think it was bet to hide man from the reality outside till he matures ..

(1:44).

One of the attributes of the Creator came from this planet, because He feel in love with this planet thousands of years ago ..

If you ask yourself why you have so many visitors, they come here to convert, to taste, to feel, to understand the essence of loving, while they know the Creator is here too.

Maybe, the creation of man was not such a bad thing in the end, even though it was accidental. Now you know, and as I said, we start teaching you the knowledge of the universe, as we start sharing this knowledge with the Iranian Defense University, in small steps at a time. (1:46). Because you have to understand, they need to understand to defend it from any abuse. It wasn't coincidental that we ended up at that university, it was a purpose and a choice that they defend the knowledge, for the humanity. As there are no more armies, that they defend it that it be used and shared correctly with the rest of the humanity, and maybe the Universal Community. Maybe it's time to contemplate, and move and understand, everything we do has a purpose even thought it might not look, because the Master knows how hide the secrets. .

(1:48).

Any questions?

(1:50). Q; When do we know our soul is speaking to elevate us? ..

K- Why do you have to hear your soul? Why do you have to have your soul? Why do you have to have your soul hear with your ear? (1:52). Why do you always have to hear something with your ears? Why don't you trust the emotion of the soul? Why do we have to always be in the dimension of physicality, I have to hear it, see it, to believe it. Aren't you here, aren't you hearing, aren't you learning, we teach you from inside out, but we made a voice to it that you believe it, now you have to find it.

Don't forget, with this dispensation of eternity, we have brought no prophet. We left it to you, according to the maturity of your soul, and your understanding to mature to the point of understanding the totality. As I said, we leave no prophets behind, because now you are the guide, you are the instructor of that physical dimension. (1:54). This is the problem, you got to learn, if you are here at this point and time, the central, what I call instruction, has already made his decision where you have to be, and why you are there. And that is your soul, you got to understand a very simple process, and the sooner mankind understand this, the faster we can take this next step.

Lineage of the soul (not reincarnation):

You have your physicality, and you have a soul, and this soul has an immediate souls which have lived, and lived with. And this soul at the same time, has the souls which lead to its creation, which drew the line to its creation, because these souls have to balance with all other souls. You have a short term responsibility and a long term responsibility to your physicality, and when you are born you fulfill both. It's not just your birth in this cycle, what your forefathers did has brought you here. Because what he did wrong or right has positioned you here, in every shape or form. Partially you are fulfilling the destiny of your physicality and the soul, but partially you are fulfilling the lineage, which comes to you to be in that position. (1:56). Even if you are a cleaner of a street, or even if you are a king and leader of a nation. If you follow the lineage, you might have been a king here, where your great grand children become a cleaner here, but the soul is the same. The dimension of the physicality has changed. And when we created the prophets we followed the same rule, that is why we know where, and who appears where. And in point, we give gifts for the others to be elevated too. In our work there is no accidental, we see the position and decide that both are served, the time and the place, and the lineage and the structure, the way we set up. This is how we can say, in such a time will come such a prophet, because we have already decided lineage. We allow no interference from outside, from where we sit. At the same time we gift at points for others to be in the future, the creator lineage, at other positions of the U, and they take their positions. As they have learned and matured they take there positions. So the lineage and life on this planet through the physicality, does not end with this planet. And this is why in other teachings I have said, (1:58). you have to care for soul, what it does and what it will bring. Then you want to hear your soul, or do you want to see your soul?

Any other question?

Q: Lucas ... in past thousands and thousands of years, what you said about a few minutes ago, about the ?? we have in our planet. Why and what would be the purpose for the Creator only use our planet, if it is about to choose the prophets, why (2:00). .. How would it be possible to do in other planets in the whole Unicose, would the prophets be sort of co-factor to the Creator, and that's why they always ?? here, there is

some kind of interaction with the human kind .. ?? if we be a prophet ?? in a matter of love, be able to elevate, and be able to empathy .. in all the Universe, would be that the .. I way to see.

.. Some members of your family were touched by the light of Bahá'u'lláh, and now we know that was you. So it's an honor to question you personally, thank you.

K- Mankind needs time, and as I said in some other teachings, needs maturity otherwise you mess it up, you destroy it. .. (2:02). Why are UFOs more or less uniform, they don't all come from the same place. In a way, as the knowledge of the life reaches the point of maturity in the U they gradually shape to come to understand the best, the same as we done in the past years. But they have to gain an ethos, and many races never killed, never destroyed because they tap into U Community from the beginning, so it is easy share knowledge and bring them into uniformity that everybody enjoys. The U has a rule, it has a rulebook, it has a guidelines, and .. it's like .. European market, as you join in you all have to have the same standard, the same lay of the same roads, the same health system, and at least the same kind of protection. .. UFOs all use the same knowledge, the same T, because as the community achieved peace and equal share of knowledge, they each shared each race across this U has added something into it. It is not all made by one. (2:04). This is what mankind has to understand.

(2:12).

(2:14).

Q:

K- The problem is not a problem. It's a beauty. The problem is not for the Creator, it's for the man.

Q: But in my way of thinking, the most precious thing the UC is looking for the link to the Creator, the link is the essence of love ...

K- There is an old saying, you never see what you got because you are too busy looking over the others, what they have. And mankind has been too busy doing that ..

Mankind has never looked inside to see what he's got ..

(2:16).

(2:26). video; moon lamp, Gans manufacture, (2:28). speaker lamp.

K- .. when you see these it shows all the dreams of man, to be able to fly, reach moon and have a clean planet. .. none of it is impossible. ?? world gone in this position ground itself into the ground, we take the ethos of keeping the planet clean and cleaning up the mess we ?? made up to thousands of years, and especially worse in the past couple of hundred years. (2:30). Then we have access and ?? knowledge what we have passed on to the Iranian Defense University, to make that UFO for humanity. To allow Iran to show the T they have, and maybe sooner than we all land on the moon, the moon of our dreams, not necessarily the moon of the earth. The U is full of moons, you choose. .. man's knowledge has reached to that point to ask and receive, and he has reached that point to be able to understand the totality. Maybe mankind in shorter time will reach ?? but to what extent, and what do we need to do to get to that point.

we have decided to bring that change and elevation ...

by converting such a rapid amount of energy to elevate the STM, the planet soul will change too. If you look at it in a simple way, you have the planet and the body of the man. (2:32). You have a disease anywhere in the body, we make you a patch and we let the fields go through to take that pain away, and to make ..

what have I given you, a change of physicality and a pain of the planet, to the patches, to the MaGrav systems, to the Gans units, and gradually we are coming (like patches around the planet), soon then you think, we will be there. But we needed the mankind to need it from his soul, not his physicality. His physicality for centuries, marched the streets, change governments. ... no one has sorted it because no one ever elevated this part (STM). (2:34). And with this understanding we elevate it ... you need a lot more to change this one

you cannot take a horse to water and expecting it to drink ..

(2:36). So this is an opportunity for the man to elevate and .. satisfy that thirst for knowledge and peace. One thing is the Creator is not going to wait that long if there is no progress. Every man should know when to cut loose. And I don't think the Creator will be any different. Mankind has to move on. I was asked, would you move this planet to somewhere else with all its beauty? If we see the way it is, why not, if we see the progress and the love, why not. We created it, we control it, we maintain it. Any other question?

Azar: When you explain about when the souls appear and each one has to ?? position, and we know (2:38). where the souls are according to the lineage. ?? then also we know when the Creator is going to bring a prophet. Say I change to this planet according to my lineage and if I go back to the analogy of the car and a driver, say I am supposed to go to this route, and I am supposed to exit 66, but then I don't go to 66 I go to 73, so my position changes, so does the position of everybody else changes, and also the position of the prophet at the time he is coming?

K- Depends on what is been agreed.

Q: So I went to a different exit, I messed up the whole plan, just like the, magnets 4 or 5 , change position .. I didn't fulfill my route, so it means I messed it up?

K- You are part of a structure like everybody else, we are all part of the same what I call package, .. so many that all needs to agree for that mess.

Q: So it means as the soul level I am coming all the souls. and I go to a different exit , the other souls understand?

K- The other souls are aware, they don't need to understand. (2:40). Awareness does not become an answer.

Q: .. a lady came, said her grandson acts like he has 3 to 5 souls from the past, he is so knowledgeable ... She was asking about reincarnation, if the soul keeps coming back. I said, I don't think we believe in that, Mr. Keshe says the same soul doesn't come back. Then perhaps the knowledge, because we know the lineage, the knowledge is carried in the RNA, the child remembers that knowledge. Am I correct?

K- Maybe. We cannot do, only the time and the place is decided.

E- Maybe I can try to answer Azar's question about taking different exits. It's interesting the analogy you made about driving instructors. .. (2:42).

.. instead of turning I went straight .. it actually took me to the path the other student driver had to take. And I knew that path, by going behind that ..

that mistake allowed me to do everything right to pass the examine. So in a way we can have an instruction and we take a turn or we don't, and if we are meant to reach a certain point we'll reach to that point. And maybe along the way if we don't listen to that

instruction we can end up in some side-effects. In this case if I take a wrong turn something happens to the car, which means the STM given instruction to the STP, and yet the STP took a wrong turn, and damages the physicality. I believe that is what Mr. Keshe is trying to explain about the mismatch in the emotion, (2:44). between the STM and the STP that then reflects itself as a disease or a cancer inside the body of the man, that is the emotional cancer. But along the way, because you do not ...

Right now we are very scared about what the STM is instructing, because we can't hear it ...

Important is not to be afraid to take any turn, because in the end if one is to reach home, ?? or the other, that road will lead to home, it's just that it leads with a bit more complications along the way.

Q: I have one question, I want to connect this to something else Mr. Keshe in the past. (2:46). .. some men come to this planet, and when they leave .. they leave as a donkey, because they became even worse. .. Say I came to cleanup whatever my lineage did on this planet, yeah, and then I was supposed to go to a different path to cleanup, then I don't even cleanup but make it worse and leave. It means another from my lineage needs to come back and do the same, so that is my question, when you go in that direction, you go into the wrong exit, you are going to make more things complicated.

K- It's only more complicated for you. ... we also "jan" means life, it means I give you my life. .

(2:48).

(2:50).

(2:52).

.. But when you make that mistake deliberately when you have the option, you pay for it, by taking the time, by wasting the time, because there are people in the party waiting for you to arrive, you keep everyone waiting, and that stealing from the others is not allowed, when you are aware of it. If you are not aware of it, there is a reason for it. But if you are aware of it, deliberately take your time, what I call the French system. In France the later you go the more important you are, so they say diner is at 6 but in reality doesn't start until 9 o'clock because we know Mr. Franz doesn't turn up at ..

(2:54). So the food and everything else has to wait because of one selfish person.

The loss is yours ..

If in life we fall in love with the Creator, that is the destiny of the soul, no one can do anything about it, but if we fall in love to create the mayhem deliberate, then there is a punishment, in a way of spending the time on your own to learn to go around and come back to the same road and see if you make the same mistake, and take the same junction again to go out. Loving is an art, and mankind knows it by heart, because he created it in that heart because he taught to the soul to love. Souls give, but that is what they do to be in position, but now you give to a soul which is in love, god help the U everything else vibrates. Humanity with the next steps of development, (2:56). in science and technology will create that vibration throughout the U. .. it's like they are going to bring a new car and advertising ... the whole of U is waiting for it ..

In a way if we don't deliver on time the universe will start making a fake love, and that won't do. We give them all that they believe in true not the made up, and fake.

(2:58). Each one of plays a part in it

Mankind has to move ..

What a shame if we miss this bus. One thing, no promise has ever been broken ... we keep the promise... (3:00). Maybe you can hear it in the background ..

or would they celebrate when the Pope says, the Messiah has come.

(3:02).

Any other question?

Q: .. I am thinking of a driver who has an instructor, but the instructor doesn't take over when the accident happens, and the car moves and kills a lot of people, (3:04). every time it takes, it kills a lot of people as has been happening in the world, so in that case, what's ?? with the instructor, why doesn't the instructor intervene, ?/ in the killing?

K- Maybe there is a reason, maybe there is a purpose, maybe the soul that is there for the driver to learn something. Maybe there is a purpose to serve. I said that very recently, it's not being ruthless, it's being realistic, and understanding totality. If you look at the life we've done, maybe we. I know there are a lot of hardships, a lot of deaths going on real or fake, or made up, or whatever, but part of it and some of it, by the souls who accepted the mission to be there, to move on, that with their presence we can change the society. All deaths are not, especially on large scale as we have seen with Corona and the rest of it, it was made up, it was done, some people have an incentive to do it, but .. overall there is a plan for even those who made it up. .. it's not a sacrifice, it means the souls have matured. (3:06). No souls leaves its physicality if it has not matured its time. If accident, even that will mature the soul in time. So .. all the souls you see in different positions and times have a purpose.

A good example of one of these beautiful souls is Fabio. Fabio came to us in a beautiful way, and we appreciated his life .. and in that process with his death and with the accident, it changed the course of the KF for to be where it is now. Even though we went to Middle east, Africa, China, and we came back and with all the problems we had. If that accident wouldn't have happened, most probably we wouldn't be in the position we are ..

(3:08). ..

(3:16).

Any other questions?

K- Why we don't release the KF virus report in the KF Journal, is because it's the first time we have been requested by the Iranian official, the university, it's the first time, this will bring the credibility of the rest of human race will listen.

Reading Farsi for me is an impossibility . (3:18). So when they wrote the paper they translated it to English ..

The only thing I haven't forgotten about Iran is how to love, the way we do, it fulfills to the point of demolishing ?? your ?? because sometimes we don't understand how can a man love so much. ...

Q: ... (3:20). ?? what do you mean by you are a temporary passenger, they put you down and somebody else gets in, what do you mean by that, about the car and instructor?

K- It's understanding about the time and position that you do not possess anything. If you think you are always the owner of that car and the only one who drives it, then it brings arrogance. So you always have to know, the soul moves in combination of the fields gives opportunity to other lives .

Q: You means the body is ?? improving?

K- It depends how you take it, it's according to your understanding.

Q: The whole thing is simple at the moment .. it changes .. In Koran it says if you are not doing what you are supposed to do. (3:22). then we change you with another people who loves God more then you do

God will change you and bring another people in your place ...

.. In Koran it says ..

(3:24).

Satan can deceive man until the Judgment Day .. only people he has no access to is sincere people ...

K- Thank you very much. One of the questions asked in the background, it is really interesting. . . what it brings to understand is, would the mankind evolve to the ultimate position of understanding his soul, (3:26). or would the mankind become aligned with the physical soul, ?? knowing that every cell has a soul. And mankind soon will learn that it is within his knowledge of the soul and physicality to retract everything that he has created with him, if he decides to. What this means is that in fact, mankind will understand one point, and that is, physicality has a field dimension, and if the mankind is so attached to it, he can take it with him. .. as we said before when you ?? make the Gans's and put back in for the soul of the planet to elevate. You do the same. You can take with you the essence of your life if that is your ultimate goal. If that is what you want, if you are so attached to the physicality, (3:28). take it with you. If that gives you the freedom to your soul. Many times I watched people telling me, doctor has given me so many days and months to live, I want to live more, can you help me. In so many times I said, I don't want to stay here and suffer. Me, I want to go because I know what is on the other side of the wall. And what about what we know. I have changed many clothes over thousands of years, but the soul stays the same, the commitment is the same. And why doesn't man learn that? Why do humanity wants to stay more to suffer? Unless you understand the elevation, put it together, elevate it, and let's have a party somewhere else, without losing it. In so many ways, when you get to that point you see there is no physicality, you become light. Some people on this planet have learned this, they left no sign. (3:30). But in so many ways, they took everything with them. If the man is so greedy to have everything made with him, then we give him all the power to take all the gold in the atoms, ?? in the strength so when everything else. ??? have the strength to take everything with him. But I wonder if that man will be able to take the love, the emotion with him too? Or the desire of physicality is more then the emotion of physicality.

Any other question?

(3:32). Q: Spanish .. (3:34). .. He wants to know what is the objective of the MaGrav and all the teachings of the years?

K- You understand him to your understanding in Spanish, and explain to us, you'll be our teacher. ... (3:36) . J- I have explained that all these teachings are to get connection with our original soul, superior .

Q: He would like to know if ?? nine is the objective of the whole thing?

K- would you like to answer .

J- .. (3:38). The idea is that all of us are a part of this change, each one of us has to create a field .. to cover the whole of humanity .. we all have to be conscious that each one of us is a part of it, and we have to grow together. (3:40).

J- He wants to know how does the Silicone work and has does it relate to C14 .. all different energies of the original H .. (3:42).

K- Can we go to another question, thank you very much.

Q: from Brazil. about the Bible and fulfillment of the prophecies. when the Bible talks about return of the Messiah, is it about the Christ consciousness or about your call here on this earth. Can you give me a clue?

K- What was your question? \Q; You here on this earth doing your job. (3:44). to the mankind, as we can take it as the fulfillment of the prophecy in the Bible, Christ will return. .. Creator return.?

K- What was the purpose of it. What is the purpose of the Creator returning to the earth every time it becomes your time of Day of Judgment? Or is the prophecy hidden, in a way, when you mature in soul. Is that the Day of Judgment, it means you have matured to the level of understanding of the prophet. A lot of people got matured in time by leaving the physicality, but in time if you mature to understand when you speak about the resurrection or return, now we showed you and have given you the knowledge. You can resurrect yourself, you can if you understand it, how to take over the soul, and it time need to return to physicality. We have shown Gans's and creation of matter. So if you have a desire for someone to be the return of Christ, so you say it is the time of maturity, okay yes I accept, but what happened now. Nothing happened to my soul, so he couldn't be. So the return and what you call maturity, comes to the STM, not the collective understanding of one. (3:46). Otherwise we have to bring billions of people, sitting, saying, oh it is time now, we sit and listen. How many want to go back to physicality, and how many want to stay in the soul. What your soul and physicality were aware of when you die by the old age and separation, now is given to your hand to decide. ?? everything correct to my soul, for my soul. YO cannot steal from your soul , and this is what everybody does, we sacrifice, especially in Christianity. The more you sacrifice, the more you suffer the closer you come to God. There is no word so much wrong then this ever brainwashed the man. When you steal from yourself, how can you have to give. I do everything for Him, he is whatever, the God, the Creator, and he dies, I don't want, I want to sacrifice. Especially what is traditional in Brazil, the more you sacrifice the more you see, the more you allow your soul to physically suffer, the lower you go. Who told you these things. How can you be richer when you steal from yourself. So is the time of the return of the Christ, the maturity of the STM? And does not need to be the ?? But if you want it, it satisfies you, and you think you can mature. Yes I am. (3:48). If that satisfies you, and you have a reason to mature, then my job is here to serve. I am. But what does it give you, with that word I tell you? As you don't see any change, because you haven't matured your soul to reality, it becomes resentment and lie. If you understand it, the true meaning of what is said, it's on you to educate yourself, to elevate your soul to the point of maturity. And that day will be the Day of Judgment , because you have judged yourself, and this beauty is that we have given this gift to everyone. So what do you think? Am I the return of Christ, do I fulfill all the prophecies of the past? Yes, I do, one by one. And if any are left up to now, bring it and show it. But does it make me the Christ? Or does it make me, for you to know, I know. But at the end, if you don't comprehend it, and you don't know how to reach your soul, (3:50). I cannot steal from the STP, because it is not mature enough to see its soul.

Doesn't matter how much you want. It's doesn't matter how much you love a car, you don't enough money to pay for it, you still have some left to collect to come in to be able to buy. It's not by sacrifice, it's by understanding the knowledge and the truth. Otherwise you'll be going to everyone in the universe, have you seen God, how can I get to Him, can I pay you something, ?? ?? you give us your soul, we'll give it to you, and even if they show it to you, because you haven't learned it, it's no good. You bring all the Holy Books, I wrote them, and see if I haven't fulfilled every single one of them by now. I have. Does it make me God the Creator, or does it make me the passenger of U who have time and wasted time to stay on this planet to see if he can change this race. But I still live in a body of physicality, I still eat, fall in love, cry, and be ashamed to be a man, because that is part of the process. Otherwise I'll manifest as a light, you want a color, you want this, you want that, you can have it. You wouldn't learn anything from it. (3:52). Mankind wouldn't learn anything from it.

Q:

Amazon chief dies of Covid-19. No world leader dies they pay ..

(3:54).

Any other question?

Q: When we learn to recognize our soul here in physicality and get used to living by it, will that experience of the soul be the same when we leave this physicality behind?

K- repeats. .. We have learned it, it's imprinted. And if you understand the emotion of a then you mature to be part of U Community, because then you live and speak by it.

Many KS have a big dilemma, they believe, they have seen, they are searching for it, (3:56). and they say, when we believe it, accept it, now we have new kind of believers, nonbelievers, and then we have seen the power of Gans plasma saved us from Corona, but it doesn't take us to the Creator which is our soul, and beyond it. And we cannot do, we want to spend time in physicality, till we see the soul, till we understand the soul, until our soul tell us. How many times do you want to fail, and by failing stay more, and bring more suffering, and loose more. Or you understand you have to ?? leave the physical life as much as the emotional life and the soul life. So why do you make it difficult, you prefer the suffering, or at least make it easy for me. We cannot steal, and that emotion of stealing has ?? gimmick, and mankind has got used to stealing and find an excuse to steal from his soul, it doesn't matter what it is. Because the taste of physicality is more..

(3:58).

Our emotion is the finger print to our soul, this is why that fingerprint bring you punishment ..

(4:00). Never refuse a gift, because you are stealing from your soul, because there is a purpose in that gift otherwise it will not be given.

When you receive a gift with emotion, it has a soul ..

(4:02). there is a trick in that soap, a big trick, one say I explain.

Q: .. what is the meaning when we are all spraying the Gans water in the Cup of Life at the same time across the entire planet?

Is to allow the fields of this planet to come back into balance. Don't spray the Gans Water, just spray with the Gans that it lasts. And this will start a change we see the change, we know the change ,and as it becomes more and more, it will clean, it creates that dome of peace. Now we put fertilizers and everything else on this planet, now we bring Gans's ..
