

34th Knowledge Seekers Workshop Oct 30 2014

Breakthrough in Reactors delivered 120 Tesla, can destroy any space satellite, Los Alamos used 1GW electricity to generate 100 Tesla years of work magnets destroyed, they can't understand new technology, electrons (electronic systems) have no effect on the plasma, Seekers were asked to take over control of reactors by their thoughts, saw changes on the scale, they were asked to make two keys to control reactors, Interaction with Gans communication between fields 0 time, Can detect persons motives, 2 people communicate with machine, Will see the lift when ready and on basis of World Peace, only showing copper reactors for teaching, can use ping pong balls, A Gans is an Entity, pray for it, it understands what you need, Mobile phone has created big change in social interaction, chosen to be at Institute, Religion man made, put an end two weeks ago, You don't see skins or containers in Universe, called free plasma, Living among so many unseen creatures in Universe, need to recognize them, call them ghosts, feel touched but nobody around, making a "frame box" to see other creature in Universe, call it a "free plasma", then you'll see the past like video, the Christ will be there, Vatican lose power, technology given to free man, Harvard stole Keshe work on Ebola In Africa, Free Energy, Plasmas don't heat, what gravitational field pulls in Magnetic releases, Matter is created by the observer, not the strength of the Plasma, the gravitational magnetic field of your amino acid decides what become matter to you, The whole point of nano coating with caustic is not to melt the metal and not to free the gans from the metal, but remain free within the metal, in that state they become atomic, Scientists in East are achieving goals of Foundation much faster because of Yin/Yang understanding than in the West materialistic, Cancer treatment with Gans of Gold, doesn't work, Most of Cancer in body are of Metallic core, Heavy metals are suppliers of a higher energy and become part of the cancer cells, Get rid of metals in body and cancer goes, Cancer cells are of a higher order of MagGrav field of own, because of there high strength they attract from blood and nerve cells that's how it spreads, rapid spread when lymph's removed, The "brain" was tampered with by traitor in K Seekers, analogy between plasmas and relationship, Putin has Cancer wants help, he must ask himself,
