

346th Knowledge Seekers Workshop; September 17, 2020

ENGLISH TRANSCRIPTION

(:10). Live in Linz with KS

The systems are loaded for flight

(:14).

The systems will be seen outside as a light. This week we had a test .. 1 system was turned on in material state ... UFO system ..

(:16).

this means we have managed to interfere with the M fields of the Earth.

The spaceship for man is on course .

flight systems one in relation to the other, one takes flight.

You have the reference inside the spaceship when you travel ..

(:18). We create the M field within the environment of the system. .. This is like the Earth and absorbs all the fields inside, brings stability ... One unit was turned on,, which effected the UFO M fields in the building, the structure of the building, part of it was interfered with.

(:20). This system was originally shown to the Belgium authorities on Nov 25, 2011, they confiscated the materials, not to be shown interfere with the central core of the Earth.

This is without any nuclear materials

we have interfered with 2 magnets in this building

Once we can interfere with the M field of the Fe, we can interfere with the G field of this planet direct. So the flight is imminent. We switched on only 1 reactor, there are ten's of reactors in this system.

The system cannot be controlled by ?? , it can only be controlled by thoughts, and there is one ?? (:22). The 2 people who can interfere with these systems, the people whose essence is embedded in the systems. One is the lady here (Ella) and one is me. We have embedded our thoughts and our emotions into the system ?? . This is what we said ..

??? Goes back to all the teaching since the beginning. ??? (can't hear muffled ..)

(:24). When you sit here as a captain, you control everything. At the moment we have trained 6 Mozhans around the world. ??? to take responsibility.

Very soon the 6 Mozhans will be called in, they were trained .

The KF space program is something like 200 years ahead of any space agency and we ?? We start showing production of materials in coming weeks. .

The whole subject in principle is to do with M fields. ..

The knowledge is in the Book of Soul. It is not with man, with the pen. (:26). All of us ?? have this in our inner being, has this knowledge, it's embedded in our genes for thousands of years. Now we need it reach it, if you understand .. the book of soul, any of us can take it into flight. Now we ?? start the process. the process of teaching ?? and the machines are the basis, ?? test basis for us to be able to understand this knowledge,

and with it use the ??? humanity. We all carry it, it's like the DNA we carry. But we never knew how to tap into this knowledge and with the new and present T coming up, any of us can take into space. We can decide, it's just teaching it. And the process of teaching, as I said, we start that by 21st March 2021 we see the first ?? flight. The building of the structures are in a very simple way. ?? one direction into space. And any of us, individually or in a group, can decide how we take into space. We use the dimensions of the oceans of the fields fo the U, or we stick to the matter state. ?? with one simple operation we have shown ??? with the matter state fields in this ?? building. Then the rest is very easy. (:28). The rest is understanding the totality of the knowledge in the essence of what is within us. And then the biggest question for most of us will be, do we choose this or this. we choose the span of the U without ?? hesitation. We need to be trained, taught how to control, how to be part of the whole knowledge of the creation , you look at this as the Sun, but in fact, this is your soul, there is no difference . ?? take the knowledge to the next step. This is one of the reasons we are here. .. hopefully this exhibition center becomes a permanent place for KF exhibition, and in that process we allow a number of KS to come in and see the ?? the flight system, producing materials. At all times controlling what materials we can produce. The capability of the matter producing system is about 1 ton a day. This commercial unit of it, I know, I have already tested it and I know how it ?? is. This will change the biggest industrial revolution, this brings power to Africa, ?? because now ?? (:30). ?? mining. In exchange we give more back to Africa to cover ??

Everything has to be correct for every citizen of this planet. We have to compensate. ??? .. We see 50 to 60 million unemployment in US. not only mining, but defense

We have a massive number of educated people unemployed and we see the same for Western Europe. Because we can fly with these systems anywhere on this planet and there is no control ...

flight time is minutes ..

(:32).

(muffled ...)

put a Corona positive person in machine, then test again ..

(:34).

Space cosmic ray viruses is something man has never known, it can release so much energy into the soul, that it literally opens up like sugar in hot water. We know this we have seen this many times in the space.

(:36). You need to create a M shield to protect you form all the rays ..

Klaus will tell how he felt because the system

Klaus: The first time we started the system here, we just tested one of the reactors inside . (:38). .. and I ran one of these reactors just 3 or 4 seconds, there was an immediate reaction to one of these loud speakers here ?? it just jumped on the table.

I felt like being in an onion, I went through different phases, I could not hear my colleague at a certain distance from the reactor, and then another distance I could near him again .. I switched off the reactor again, because I was so frightened, it did not stop, it just stayed like it is for a certain time. I didn't expect this.

(:40).

K- How long did you run the tests.?

Kl: after 4 or 5 seconds.

(:42).

As I have done many times, we'll most probably pass out of this building in a plasma state, which means we'll pass through the walls, glass dome, without any touch. we travel at the strength above the matter state.

(:44).

(:48).

With these systems we can transform matter into light .. we can change light into anything as a matter. .. we can create a energy field on the left and transfer it on the right and create a light. Exactly what happens in the womb of the mother. In the womb the womb provides the energy, here the systems provide the energy. The left is a matter state, and the right is Book #3, and in between what happens in transition from one to another is Book 2. I deliberately chose the setting up of these systems primarily, because I taught the knowledge .. years ago. And the system has to be understood fully by those who decide where the knowledge of the man will go. If you put the knowledge fo the 3 books together, (:50). you mix it in a right way, you have all the knowledge to go into space. Everything is written, inside the book. It's how you interpret is the physical knowledge. .. now I show you the system.
.. use your imagination what do you think we'll see in 10 years time. Any input.

K . we travel in the depth of the space.

(:52).

I'll show you how you'll travel in the depth of space by wish ..
This is a star. in your vision you see the M field of it.. it's taking M field back from you
.

(:54). you travel on the fields of what the star sent you, and you travel on the strength of its own structure, which is zero time. You see a star, you wish to be on it, you can travel in the strength of the fields, to that position, and when you arrive the field strength of the planet ??? because you have to survive it and ??/

(:56) .

man will not be subordinate to anyone in U.

I made you a promise some weeks ago ... in the very near future, .. we'll bring a tank of water, and I bring 1 drop .. we all watch the lives it creates. Conversion of the fields of U according to the MG field of Earth ... while we watch the system will create that life.
(:58).

I elevate the STM with one drop .. this is what Christ did, that's how he raised the man, the dead, he elevated the soul, physicality responded. ..

we will demonstrate that in this room. Because the knowledge has to be taught so rapidly, that we leave no ambiguity outside.

It's time to show a solid science that changes the position of the governments to a peaceful position. . we live through science and T which can effectively change ..

(1:00). We have to lead in the front with the T, not in what we done up to now, in the back. This will be shown here. When I entered the building the first time I knew KF has found a permanent home, for the demonstration of the new T ..

An this is part of the teaching which we will extend heavily in the coming time. Open platform teaching, (1:02). and for many of us to understand, the next step in progress in T. .. at the same time it is your wish to be on this planet, but don't forget when you are star gazing, there are many stars, it is you who chose to be on this one. Zero time transportation, and at the same time transmutation of the light to life, is become the light of every soul. In so many ways, a lot of things have come, and a lot of conditions will create a new dimension in the human life. As I said, we are all Austrians ... we all know what Linz is, .. it's the home of the Second World War start, and it will be nice to see it become the birth of new knowledge, where ??? now the mankind has the knowledge ... breakfast at one planet, lunch at another ... (1:04). come home to Earth for sleep. We heard from Klaus how we interfered with the Earth's M fields within seconds ..

(1:06). Industrial version of this system will produce ..
continuous production ..

Table top version ..

I have until 21st of October to complete one phase, because the final phase starts ?/
21st of March 2021. In next few weeks we break open new T in this room .. the proof of the pudding is in eating it. (1:08). I bring the knowledge so forward that I force the nations to peace ..

In next few weeks Linz will shine at night.. you will se the light of the exhibition. Once we get to that position we cannot switch it off.
translucent silver light ..

(1:10). That's why we came here with Klaus at 9 PM to see if we see the light. .. don't forget we already know this ..

(1:12).

Armand: Everyday we were wondering why when we switched off the lights they came on again ... Pl fields ..

(1:14).

Main radio station near exhibition ..

(1:16). Those who have intention of war will be paralyzed ..

Hundreds of years ahead of Russians.

Your wish to carry peace .. will be given .. (1:18).

We can even turn the system on to show you.. Klaus said no ..

Until 21 October, then we shut . transfer to Tehran .. next weeks I will traveling to China. .. that we don't give to only 1 nation .. (1:20). 2 ladies in the White House . 2 ladies in KF

I will see that we get it ..

Their choice of materials to load the reactors proven 100% correct .

Any questions? (1:22).

Q: So once the world switches to P1 will we be able to switch lights off,, because the P1 field is always their.?

K- .. we always said in future will be how to switch the light off.. use curtain ..

I have entrusted the captain of these 2 system to Ella, the 2 in China to KL.

It's the soul of the doctors will work , not the pen .. (1:24).

In the future you will never get sick ..

I never worked to live .. no one in the U works ..

You have to ask for it to be given .. you have to be accepted by the soul of another U.

(1:26).

by 21st of March by ?? new life, man will go to the new dimension ...

Next question?

Q: .. When you interact with soul of light. If you make a wish to be with the soul of light, would that take you back to a certain position?

K- It depends on what light and what position. It's very much dependent. When you reach the soul of the light, I have to explain in a very ?? deep way to the Iranian ?? ?? is that you are free to travel the span of the U, on the position that, that light has taken, not what is your wish, you become a passenger, that light is destined for somewhere.

(1:28). As we explained with the Iranians in a beautiful way, ?? pleasure to be able to teach in Farsi. I didn't know my Farsi was so good, but somehow they understand it. ...

When you have an object and wants to travel from one to the other. You chose the physical dimension or you can choose, as you said, the light, or you want to travel in the soul of it.

Light Forms and Travel through the Light Photon Particle :

In the present physics we have light in 2 forms, we have a light, as what we call a photon, without any tangibility, or we have it as a tangible matter state. We see light it effects 2 ways. It's just a field or its as a matter, we call it a particle. This is the beauty of the light. sometimes we detect it as a photon, sometimes we detect it as a, what we call matter state, and we couldn't understand why. Now we understand that a light as a photon, or light as a particle (1:30). (draws 2 lines) where the soul of it is there (between 2 lines). The rays which are created out of the interaction of the plasmas appear as light, as particles, like the G field of the Earth, or the M field of the Earth, as interact with the fields of the Sun, now they create a new plasma, so the plasma immediately behaves as particle as due to, what we call, weaker strength, it gets pulled to the MG field of the Earth as a light. But when it enters it, it converts due to Inertia to a particle, ?? .. You switch on the light and the electric vibration because it has ?? (no) a plasmatic condition it appears as a photon. but at the same time the what I call, particles due to interaction with their environment they can create what we call, photons. So you have to understand if you are working with the rays, or you are working with the plasmatic field of particles. This is part of the T, science of the light which was never understood, and for the first time we put book 2 ?? out this way. How what it is. But now we can go, extend it further.

In so many ways, is this ?? light ?? (1:32). that ?? you jumped in ?? on the soul ?? (regarding Q about traveling on light) You have no say because you are just ?? a passenger. It's very much as if you were standing here , and you saw a star, and traveled to it through M fields ?? to it. Because what the light sent you, is more or less a very powerful photon, but at the same time particles. Because it has created out of the interaction of the field ?? G field of ?? it, so you can become the passenger of the soul of that light returning. Zero time. And next time when you look into the depth of the U, but if you have opened your heart ?? to the gravity ? ? to learn this process of thinking , this process of understanding of the soul. But you have to ask, this is ?? same condition you have to ask , and if it is accepted it is yours. this is the rule of the U, just because I asked I don't get, and that's why you cannot commit a crime. Because if you ask and are given You ?? out of you. This is how many people in the time of ?? pain ?? travel outside the ?? they wish for their soul not to be present to see these things the suffering of the physicality (1:34). Or the pleasure is so much that they want to be part of it, and they bring the soul ?? Mankind knows these feelings very well, but the never understood. The nature of existence, at the point of what we call inception. if you put a soul in it, you reach it. This is what the 21st March ?? ?? ? combination of the physicality and the soul ?? is the process of transmutation and transportation. when you transport the soul's fields through emotion and delivery you by transmutation of elements. This is how every single wish of the Creator at the point of creation has reached this point, and beyond. The wish of it.
Any other question?

R- we missed the words ... (1:36). (1:38).

Use of Cheese, CO₂, and Zn for Cavity tooth Repair:

Q: What conditions need to be created for cavity repair, or for tooth regeneration?

K- ?? use CO₂ and Zn. There is a scientific, why cheese, cheese carries a lot of Ca, and when you take with a combination of CO₂ and Zn, it connects line with the neural system of the tooth and the Ca, and CO₂, from the cheese creates the cells of the tooth. That's all you're doing, if you understood it, we have a lot of people who have tried it. Even in Iran it's very expensive to go sometime to dentist or they can't find one, especially during the crisis, they tested it. After 2 or 3 days, there is no dentist. The business is very bad for KF with the dentist. That's all, it's not just because we say so, understand the knowledge, the T. We know, I always ?? go like the orange, when you mix cheese which is high in Ca, which has made your tooth ?? then you put a Zn in it, you connect directly to the neural system, and then if you do it the right way and get the right cheese, then you transfer the Ca atomic, plasmatic structure to where it's needed. (1:40). where there is imbalance. because the cavity and imbalance in the tooth, it just doesn't create on its own, it has to have an emotional effect from the nerve system, because the nerve allows it to happen. Now you satisfy the nerve, the emotion of the tooth, then you do the CO₂, which brings the delivery of connection to it. And in transferring from the Ca, with the cheese in your mouth, with the nerve, you transfer the energy of it, and you fill it up. The business is very bad for the dentist with the KF. But you have to try it. and if you get it right people like Dr. Azar are without jobs.
Next question?

K- U Council members have meeting tomorrow .. (1:42). We have seen a very direct attack on the UC to try to disorient the UC members, what they couldn't do with the KF. It's the same organization with a lot of lies ... now they have targeted the UC members to destroy ..

(1:44).

Q: How has been the response to the exhibition?

K- Very bad. We didn't want more than 100 people in the month .. a lot of explanation ...

5 to 10 people per day is the maximum here is to taste and experience the knowledge. they take time to explain.. knowledge is transferred first hand.

(1:46).

this is the way I wanted the knowledge to be shared ..

(1:48).

Any other question?

Q; What are the reasons we are not accepted by other stars when we ask for it. Is the U only allowed for peaceful souls. why are we not able to achieve it now. is it because we are not peaceful?

K- We try to make the human race peaceful with Zn and a lot of other things which is put in, plus new T

Now the rapid expansion we still got the cats. dogs, lions to make peaceful too. (1:50).

Q:

K- We produce Nano layers according to the need .. plasmatic N coating is different. (1:52).

How to Enter Another Star in Universe - No Visa:

Q; .. when we travel on earth we have to have a passport and visa //

K- Excuse me, on the planets we have no Foreign Office and no visa and airports.

Q: .. but somehow who can enter another star or come near ..?

K- Once you have tuned to the environment of that planet, you have accepted all the conditions so there is no problem.

Q: I have accepted the conditions of that planet

K- That you can reach, . It's the soul of the planet which accepts you. ..

Another angle, if we travel as peaceful soul, then that planet has to accept you. (1:54).

Now can you imagine why all the murders and everything appear on this planet. What's the soul of this planet accepts? Why do we create life which is wrongdoing, is it the soul of this planet, which is totally wrong setup. So in a way it says, all of you come here, this is a good place if you want to do the wrong. criminal planet.

Q: Free will planet.

K- It's not free. it has wills but they are not free.

Any other question.

Q: .. Are you the Creator of this U?

K- I am a human being in this body.

Next question.

Q: flying car

(1:58).

(2:00).

We don't have to die to go in both dimensions .

(2:02).

Any other question.

Q: So these flight systems are controlled by our soul , thoughts ?

K- More or less .

I'll step down and the 2 heads will do it.

(2:04).

(2:12).

Portals don't exist

(2:22). (2:24).

(Break ... (3:05).

Second Soul Teaching of Workshop:

K- Welcome back, and what is to understand about the T is its simplicity.

We have made the T so simple anyone can understand it ..

(3:06) Anyone can understand the knowledge .. because the STM at the end doesn't know any universities . .. The knowledge of the soul, the knowledge of understanding of the creation, is within the structure of the body of the man.

In recent past we have tried to explain the totality of the knowledge in a very simple way, where ??? within the ?? brain we have embedded the STM, and ?? now we have embedded STP. If we understand this position, then, in so many ways, when mankind becomes aware of his totality, mankind will find out why the soul always dominates the physicality, because it's the Mother, it's the Principle. In so many ways, what we see it dictates the blood circulation, as the two ?? motions, stay trapped within one, but in interaction with each other. The knowledge it becomes very important in the coming time, (3:08). for those who educate in this knowledge, that in due time, as I explained before, you don't breath, you don't need anything to breath because ?? The STM and STP, ??? because we don't need to. We don't have the lung and heart operation, we become in the strength that both work together, This is what is to come in the very near future, then man in the physical dimension can manifest itself in any physical condition anywhere in the U.

The process which we teach in the coming time is literally this (). Where the STM and the physicality of the man operate more or less from the same source, depending on the environment which one decides to be, ?? the soul or you want the physicality to be.

When you change position, you take the shape of the position. ?? on earth 2 legs ?? be

it on another planet 4 legs whatever. (3:10). but the dimension of the soul, always stays the same if and when they come to work together. This is what we tell you on earth. This year, this is where the teaching will come. You want to be in the dimension of physicality or you want to operate in the dimension of the soul. Which literally, if you look at it, the soul takes, the STP. This is what we called in the paper called "inter-atomic fusion." In a way, bringing the smaller one, which is the physical heart ?? (its) and soul, which is the smaller one, into the STM. It is where most of the teaching in the coming months will concentrate on. Where the knowledge needs to be gained very rapidly by man, to be able to become the passenger of the U, and survive ?? To be in a physical world, or to be in the world of the soul, but having access to both at the same time. Then the STM will never die anywhere in the U, because the choice of physicality is his choice.

Wherever in the U Community we have seen the STP has taken charge, (3:12). we have seen demise, we see death ?? . For the first time we show this, cannot be, and we try to bring understanding that in reality these two live together. Immortal life, because you decide the point and time of the departure, but you depart from one and you go inside the other, and you travel the span of U, and you reverse. It's like a reversible jacket, but this time all the time the soul has equal balance saying, as does the STP.

Many people in the past have managed to reach this, but they never understood, they could not teach this, and now we start the process of understanding of the life in both dimensions. Understanding that in the physical dimension we travel at a much lower speed, in different style, we are dependent on source. Where with traveling with the soul we carry with he master, and we don't need any because it absorbs energy from the spectrum of the life. The future teaching will lead and be part of teaching how the STM is created. (3:14). The creation of the soul is part of the teaching, ?? which mainly will go on after March 21, 2021. because it is time. it will take time for a lot of people to understand, and then gradually, the understanding how the soul operates becomes, in a way, how we know the physical body of the man ?? of it.

It is important if you ?? travel the depth of the U, because it says, I made man in the image of Myself. So if physicality has a hard time understanding ?? motion, so the soul ?? operating. If it is made ?? of the man the same. The teaching after March is the teaching understanding of the ?? structure ?? of the soul. And that on its own creates a new cycle of teachings we did years ago. That part of the teaching which comes the operation of the soul, has been gifted to the new life. It will be taught by the 2 ladies of the KF in time when it comes. I'll bring you to that point, and the new cycle starts from that point on. Then you understand life in the span of the U. The true life, the way mankind will exist, without any dimension of physicality. Transmutation ?? between the soul and the physical dimension, at any point, (3:16). choice of the physical life. Understanding of the total structure of the existence.

When this teaching starts it will be a time that man will be gifted with the knowledge of the Creator. Where you can, in a way, live in both dimensions. It's a different style of teaching, a different style of knowledge, it's a knowledge man has never known, because at the other end of it there is a gift. There is a meaning for it, which is on the other end, there is a closeness to the Creator. The understanding of the total knowledge of the creation of the U and the Unicose.

So until man understands, ?? the energy from this (STP) has to interact with the energy from this (STM), and become a twin, where they can feed from each other, but within each other, and outside each other, and inside each other, then the process ?? speeds. Many of you know this position. This process is not unknown to man. You know this process very well, but you never understood. (3:18). how these two literally work with each other, and when they cannot accept each others changes. If you look at it in a simple way, you have a hard time, you cannot accept the conditions of physical life. What do you do? You release a lot of emotional energy into the soul, the soul not accepting it, releases the energy, in a way, in a bouncing bag, into the brain, you call it a brain hemorrhage, you call it a stroke. Not accepting, not being able to accept the energy with the emotions of physical life, on the physical soul of the man wants to accept. Physicality doesn't accept. because it says, it gives it to the one which is bigger than itself. And when this (STM) does not accept, because it already agreed, the problems with the physical life, the physical soul, and then the energy released, because it's a physical energy from the physical dimension of the physical soul, it is of the strength of fields of the body, destroys many cells, you end up with a stroke. In a way, you shoot yourself in the foot, because what do we do when we can't carry the emotion in the heart in the physical dimension with the STP, it all releases, to the one which is already in contact and is established before, as we saw ?? before. And this is how you literally get your brain hemorrhages, your strokes.

Now we see the STM, (3:20). and the STP always been in ?? always have operated together, but we never understood the process. Now we try in the coming time to teach how the physical ?? motion circulation in respect to the STP can be balanced in a way that by weakening or strengthening the other, you manage to bring the 2 to be one. There is a technique in moving the STP into the STM. This is what to come, the new life after March, that will be taught ?? differently. It's the knowledge I have gifted to that new birth. It's the knowledge which must come from a woman, that we can show the equality of both, where the life becomes one. Where is no separation of the 2, in your blood there is a structure which allows the soul to move, and allows the STP to move to become ?? one.

You never need to die. You are born with it. In so many ways, when you are born there is a little dot hole in the wall of your heart, by closing it, it stops this process. (3:22). In the world of medicine, the first breath you take, they say the cry of the pain of the child, is the closing of that gate, in the joint of the two ?? halves. But now this process is to be shown, we teach in the coming time, that how you can bring as much this pressure ?? as this releases, you can bring the two together. This is how you travel instantaneously, by the ?? wish of physicality, to the dimension of the speed of light of the U. The knowledge is unknown, as I said, before, we bring a knowledge to the man, that you never knew existed, and this is part of it. This is what's to come. And if mankind reaches to understanding this level, because we have already seen the stroke, brain hemorrhages, it knows how to work with this, you literally and instantaneously you can embed the STP inside the STM. "I protect you, I give you from me to be structured, to be protected." But this itself, needs a special knowledge, there is a specific way, which the STM and the STP. (3:24). Where the STM and STP are both, in a way, if you look at it, are one half of it, that they, in a way make a very specific structure of themselves. then you decide I want to change. We have seen this with the animals, they change the color instantaneously. It has to become that way. You instantaneous change from one to the other and this knowledge has always been hidden from the man. Because mankind

will use it in a reverse way, then ?? what we ?? Conversion from one to another. We chose the weaker one, which is the physical death, because from the time when we captured the STM, we were not just and correct with it. If we were the two would have worked in a very harmonious way, together in the structure of the both the physicality and the soul. Now you understand what is to come, because when you create this, when you understand this, you have to understand a lot about the creation of the U, the creation of the life of the U, and the creation of the Creator. (3:26).

A question was asked, "are you the Creator?" Yes, but in the body of the man, and that knowledge will be shared ?? to what's to come, and the totality. Then life in the space has no dimension, it ?? all depends to gain knowledge to go from one U to another. You can travel the span of the Unicose and appear, manifest at the point of the destination as you want, as you will. This is the knowledge which we have never seen appropriate to be shared, but by extending the knowledge, now we teach. You have to see, you have to get into these systems and see how you change. The way you change, the way you come to understand the totality of the creation. It is part of the coming T to be taught, and it is part of the reality of the T to be taught.

Mass and Weight : Soul and Physicality:

In a way, I set the structure for the teaching that in the coming time when we teach, man understands the totality of the work of the soul, that doesn't need to understand the work of physicality, (3:28). because it's like mass and weight. The mass is the soul, and in interaction with the physical dimension becomes the weight. In a very simple way. The mass never changes, the totality of the reality of the knowledge never changes, but when it interacts with its environment, we call it the weight. Then we show the interaction between the two. Now you understand the change, the reality about what you call the physical term and the dimension of the existence. The truth is, it doesn't matter where you take the substance, it always has that mass, now when you interact it with the physical dimension of the Earth, the ??? :?? ?? if you go to another planet and you carry it and the dimension is the ?? condition, it most probably won't need anything. ?? it can be a ??

These are the teaching which are missing and in time will be taught. Up to now I brought you, tried to bring you, just nursery school, then we'll start teaching the real understanding of the work of the U, and in time, in essence being the same, we teach the rest of it. It's very hard for a lot of people to understand, but they will be educated enough to understand all of it, in the time to come. The life of physicality becomes immortal, the life of the soul is connected to the soul of the Creator, and in reality once created, never dies, (3:30). because it compromises all the time, it takes and gives, in a physical life, you cannot compromise. When you put a magnet next to each other, they find a position, but they both still stays the magnet. It's the same as with the STM. You compromise with the soul, find position, then you choose the destination. This is how we'll travel the depth of the U. This is how we'll travel the Unicose. And those who get enlightened, to the full value of it, they become part of the totality of the creation and the Creator. In so many ways, from now on, we each in the dimension of oneness, while understanding within that oneness, it stays, the soul, physicality, STM where ?? moment, the STM is ?? operation of the STP through the chain of ?? what we call ?? blood.

If mankind did not have a blood circulation the position of the soul and STP would have been totally different. The body on this planet has chosen the blood as a way of controlling the soul. This is what I always said, the physicality is a leech on the STM. And I said, why I started the teaching this way today is very simple, you can go back.. (3:32). The STP has had the support of the massive energy of this planet, to engage the STM. Now that we manage with the new T to able to feed any cell in the body of the man, directly from the system, is there a need for the blood? Is there a need for a heart? Or would the physicality of the man change it, because we carry the emotion, we have now a system which carry both the emotion and physicality energy, then we have a system which can literally feed the soul of the cell too. And do we need anything as a soul of physicality. Because with these systems we feed both the physicality and the soul. And we know the soul is always done it. So now that we have the knowledge and the time from we ?? gained, We feed the soul of the cell, not the cell, then do we need existence for anything but ones soul to do, for ?? the physicality, manifestation of interaction. Mass and weight.

Now you are coming to my expertise, what I enjoy to teach. (3:34). For past 10 years I wasted my time, not wasted ??, take time to teach about the physicality and connection to the soul. From now on I teach you where is my beauty, where I understand and where I take mankind to. It does ?? not ?? any dimension you exist. Up to now it was physicality and energy of the ?? soul, from now on we teach, about the Creator, interaction of the soul, the existence, the essence of the creation, because at this point, the other part we ?? become literally , the soul of the Creator. If you can educate yourself in that way, then you'll understand where you came, and why you are here, and why you need the dimension of the physicality.

As I always said, we come to Earth to enjoy the pleasures of the physicality, as it has a different understanding for working totally with the dimension of the soul. In the world of soul we talk about loving, in the creation of man, we live to love. It's totally different. And in this process I teach you how literally to live a life, ?? only through the life of the soul, but where you understand that if you like you can allow the STP, (3:36). sometimes to show itself. You choose the time and the place. Man understanding this will never die. Not only man, any creature reaches to the understanding of the operation of the soul and totality of ?? the part, of the creation, he never, ever dies. Death is a condition of physicality. Now ?? you can choose, you can go with a donkey, you can go with at jumbo jet, with UFO, or travel with the soul, or come to understand the knowledge of the creation, travel in the ocean of love and the fields of the Creator which have no dimension, then you become ?? and total as itself, as the Creator. In fact, you see nothing, but you carry everything within. There is no tangibility, there is no dimension, but what you think becomes what you desire, what you want and this clearly, this process was set in the operation of the EU. But wish what you have, no tangibility, but you have the strength of the field, that it delivers what you wish. What was the desire. And the STM is so powerful, that we only work with the shimmers of it, not with itself. (3:38).

I think I opened a very big Pandora's Box for you today. but if you understand it you become wise to the world of the creation. if you don't understand it, it's just a noise and a voice. ... it's according to the level of understanding and the intelligence of the man . understanding how the system works that you can become part of it. You don't need to have a PhD , you don't need to be a street cleaner, if your soul is enlightened, there are

no sweeper in the U and no doctors. It's simple , the level of the STM has no dimension. and no limitations. Now I dug you a very big hole try to get out of this one.
Any questions .

I am talking about the soul and somebody asks, how do you make Gans's. (3:40).

K- Ask the question louder, let them hear.

Ella: I think they heard.

R: No we couldn't hear.

E: I understand the theory, but the question is, how? Yes we understand the theory, but how do you do it?

K- You have got to elevate the STP to become humble enough to have access to the STM. So now you have to understand how.

E: Again the theory is understood.

K- We brought these machines for this purpose, to show the way, how to be done. It's just that when , it's like writing, when you write, when you learn a language you know how to do it. It's like when you learn the way from here to Vienna, you can always go. With this T, with these systems partially the work is to show man how to access his soul, and then you practice.

E: And when the machines are not accessible?

K- You should be able to make that yourself.

E: How?

K- Exactly what I said, you have to bring the level of the STP to such a level that it become in touch with the STM.

E: But you said something in particular, there is a technique.

K- Yes, the technique will be shown in the coming time. Mankind is not ready yet. After 21st March next year, the new soul will teach.

Any other question. (3:42).

Q: Azar:

(3:44). .. If I want to travel can I take other people with me?

K-

Which one of you is humble enough to become the weakest.

(3:46).

(3:48).

Any other question. (3:50).

These 3 people tried very hard to be here in Austria, but embassy is closed in Iran.

Q: Maraninad .. (confusion ...)

(3:52). open channels and go to paradise ..

K- I don't understand what you are talking about. Q:

(3:54). .. it's in the Farsi language.. be careful we are not doctors ..

(3:56). it should be cleaned up before it creates problems .

K- This is not the place to talk about it, that has nothing to do with the structure outside which is to do with one or two chat rooms ..

Q; azar chat rooms I am the creator I can make anything ..

K- No I think you are mixing a lot of things together. This is a situation which was created deliberately by those who infiltrated the KF Persian originally. All this talks not understanding, or deliberately bringing. This is some of the problems we have with the authorities in Iran, how these people have put so much rubbish in the market. ..

Any other question.

Thank you for today .. (3:58).

I hope today we opened a new dimension .. it's a breakthrough from what we have been taught.

you want to see and make something ...

END
