

347th Knowledge Seekers Workshop; September 24, 2020

Live Broadcast in Linz Canceled

Permanent Exhibition Accepted

Carolina Ransoms Son 40 Million Euros - Barrage of Emails Against KF

3rd Enhancement Unit to be Added - Most Advanced Technology in Universe

ENGLISH TRANSCRIPTION

Live Broadcast in Linz Canceled - Permanent Exhibition Accepted:

(:10). .. We apologize today we had to move the teaching some hours .. We were told yesterday afternoon there are examinations for medical doctors in the building, and nobody can be in the building as they are examination. So we had to change everything, as it is now, and hopefully next week we might have a live presentation from the center. As we said, we had the offer that the exhibition center in Linz become a permanent exhibition for the next 12 months, accepted by the authorities who own the building, to be a permanent feature in Linz for . Which means the T has been accepted to run, to gradually come in and see and understand. (:12). This is a privilege for us that we start showing the T in a massive way. We thank all of you who are writing so many nice emails, and communications to the center, claiming everything you can, and as the head of the center and the officials of the local government says, the T is as breakthrough and now they understand how much people are trying to stop this T to reach the population. And they do not listen to these ?? .

Carolina Ransoms Son 40 Million Euros - Barrage of Emails Against KF:

There is another point that on (Tuesday) One Nation .. we opened the hand of one of the KS who was setting up to takeover the KF as the Queen of the KF, and they did not know that we knew. And in that process we explained how it was supposed to be told, I am mentally demented for her to takeover, and then hand it over to the satanic groups she is working with. And once they realized that we knew, and they walked into their own setup, we have seen a flurry of texts which she has been sending out all over the world to everyone. We have kept this evidences and it has been handed over to the lawyers for criminal investigation, and criminal offense, possible prison sentence. The extent of the allegations are so deep, that it damages not only me, but the Foundation. And we have taken action on behalf of the F ?? . One of the reason you have to understand why she is taking this action is they realized they could not get hold of the KF, and she made a claim for 40 million Euro from the F for her private services to the number of the KF KS. We have put this into the court. And she is claiming that all of the work we have done is hers, (:14). as usual, she done before, and she is expecting 40 million Euro from KF to be paid to her, for her personal services. And this has to be, and is on the table, received by our lawyers. And now you understand why she is angry, sending all this. All the work we did as KS is hers, and she wants to be paid 40 million for. So collectively all us KS have to collect round about \$.25 to .50 cents to pay for personal services of her. That is more or less, as we said, the claim on private services is on the KS to understand. So now you understand why you start to receiving such a massive amount of things, is all lies, cheats, deception, and now a claim for 40 million from all of us that she can have. So they say, professionals, prostitutes, and priests know

exactly where to go for the money. And one covers all of it. In this essence we thank you all for sending all the communications you are receiving to us, and these are all adding to the criminal case which is building up within what we call the structure. And please understand that whatever you read is exactly what someone was planning to be the HKF after putting me, and some other members of the KF in a mental institute, to be handed over to those who were planning to shut the KF down. Now you understand the extent of how much we were infiltrated directly. In so many ways, I thank you for contacting us and sending all these lies and deceptions which have been put on the Internet. And in due course as we have started a criminal case against, (:16). to be heard in the courts. This is the way I run my life, everything on the table the way it is, and the way we understand. I share my knowledge, I share my life with the F, and the reason we have to hold back is because, the threat of 40 million is on the life of my son. My son has not been seen for 3 months, hidden, and if I don't pay the 40 million for KF, I might never see my son. And now you understand, ransom, by those who are professionals. In so many ways, with different excuses, we all pay for what we believed in and what we served. I do not go any further, but it's exactly 3 months, I don't know where my son is. I don't know if he is alive, or through her profession been passed on somewhere else. And I hope you all understand, and we keep this matter away from public till the courts in the land decide and then we let you know.

I pray for the soul of my son. .. it's not easy .. this is what the Belgium's are, the priests, the professionals, prostitutes, and the rest, and you've seen how exactly the same method as what was used by Derek, has been used ?? (:18). the same lies, the same way. And I hope my wish that as KS we stay solid, loyal to what we are doing to change the course of humanity.

The teaching of today are very deep and it goes and touches many ways, in the deepest space travel. I would like to thank Jalal and the group which came from London, and others who came to be in the live presentation today, and in due course hopefully we hold a session and that all the KS can be present.

3rd Enhancement Unit to be Added - Most Advanced Technology in Universe:

In so many ways, the knowledge has reached its pinnacle. In the coming days as we announced in Tuesday ... is that the KF as of this week, has placed on order for the 3rd EU to be added to the 2 you have seen. The new EU we'll most probably be able to demonstrate or show, the structure before the end of the teaching. It's the new flight system. That's what you most probably call the UFO's. This unit will be added to the collection on the platform of the EU, in the coming months, and it's being made to be a 5 passenger flight system. In a way, (:20). it has the capability to fly and position itself. It carries all the things necessary, as in other two, for feeding and creation. I will be a new transportation system. We estimate as we said, the flight from Vienna to cities like New York, and let's say Beijing in less than 10 minutes. This T will be demonstrated in public and as we added the 2 EU this unit will take its place in the center of the two. This will be an evolution in the space T and transportation. You can adapt it to be used as a taxi, bus, as transportation between different part of this planet as we become One Nation. I have asked our manufacturing team in China to deliver to us before end of today, as we did with you originally with the EU, the schematics and then we show the final versions in Linz of the new flight system.

Delivery of Technology Across Planet by March 21, 2020:

The new flight system takes us into a new dimension, to the point that mankind will be able to reach any point on this planet, irrespective of time and position and place. And at the same time we'll see that this T will be delivered in total to the whole of humanity in one go. In a way, as I said, we are getting ready for the what we call, 21st October life , that we switch over to what we call delivery of T (:22). in a rapid way across this planet. Preparing everything for the final date 21st March 2021.

In so many ways, as we have said, we have prepared everything for us, to be able to be there to deliver the T in a comprehensive way that pushes mankind to new frontiers. New frontiers of peace, love, and being there to be able to live a peaceful life, not only on this planet but across the U. In so many ways, I am fulfilling what I promised, and in the timeframe which I promised. It is the responsibility of the KS to disperse the knowledge and the T across the world. What we showed the 2 EU have create a vibrant positive move across the scientific world, because by looking at it, even when you look at the EU on its own, for the first time man sees the opportunity to be able to share the knowledge in a comprehensive way. In so many ways, we have learned how to conduct, how to be able to reach a position. In so many ways, we need to extend our knowledge to extend our work in understanding the totality. .. When you look at, it's the first time in front of us. (:24)... we see the totality of the knowledge..

(:26). that allows us to understand the fields we'll encounter in the U.

.. Material EU, in a way it materializes the work of the U, not the matter state we look for to produce something. In so many ways, in the coming days we'll show the power of the T. .. the understanding and intellect of this system, we take each organ as 1 system .. (:28). all will benefit by it, what they need ..

These system have a CE certification and can be turned on anywhere in the world. In so many ways, we have created the replication of the U and the body of the man. .. we can test it anywhere. I made a promise, in the coming days, while we test, and we come upon anything, we go live. Keep an eye on your Zoom, if you get notification it means we have moved in new territory. or we seen something that we want to share .. (:30).

6 fluorescence tubes around the reactor.. Don't forget this is the way Tesla showed us transformation of energy through plasma. Both systems have been ??

When you come to the Exhibition ...

Do not bring gifts to us, give them to others. By the nature we are in we do not accept gifts for security reasons. I saw many people bringing gifts, from dates, to MaGrav systems to others. I thank you for it. But you have to understand for security reasons we cannot accept. Bring your love, knowledge, and share your soul. (:32).

.. we demonstrate a T which is certified and used across this world in different shapes and forms by KS and KF.

Has brought peace to us ..

(:34).

In so many ways, we do not know where mankind will go with this ...

(:36).

These are the same fields as from the Sun. No side effects.

Those of you who are scaremongering, you have not understood the T. Plasma T is the way our body is built. Gans T is the way our body is made.

Problems in my liver only happened when I was given poison by Derek, not by the T.

Be aware as we start opening the T this way, pharmaceuticals, financial organizations, mining organizations, computer . all see themselves in danger. it's not endangering anything, but it pushes you to develop new T, new understanding. (:38).

Soul Teaching - "Line of Connection" STM to STP :

In the process of the teaching of today I would love to teach you something what we call in UC as a "line of connection." For man to create that line of connection, has taken thousands of millions years, but you have not managed to reach it. What does that mean. **You need that line of connection to connect the fields of your soul to the STP. You do not know how to reach it. You need to understand the connection between the fields of the plasma, and not with the interaction of the matter of the plasma.** You have to move, as I always said, look at the fields and not the matter.

You Live Interact within these Fields - Travel the Universe:

In this process it's vital for those who follow this path to understand **that if you can interact and live within these fields, you can travel the span of U through the structure of the fields of the U.** No need for burning fuel, no need for doing anything, but taught, if you can connect the dimension of your thoughts through your soul to this reactor in the middle, and your wish is Cu, so much in this shape, It will be produced. You know this knowledge, we call it the knowledge of love. We know this, because it is one of the only ways which the STP and STM have connection. (:40). **You feel your love, you reach your love. You feel its pain, you feel its need, you feel its whatever is. and instantaneously you know.** You love your son, you think about him and he calls. You think about your lover, and the mention in the soul, brings the touch of the screen in physicality. This is where we try to connect, this is where mankind has to be.

This is MaGrav:

If you understood in so many languages, from the beginning of the teaching, we have called it MaGrav, M and G. If you understand the field strength, you give it in the direction of what you need, you will receive it in the other way back.

In so many ways, the knowledge is complete, you have to filter it. You have to understand it, that how it applies to all of you. You have to be clear about how things go to be. **You have to be able to link up with the emotion of the soul that reaches the emotion of physicality, that in a physical dimension it manifests itself, or visa versa.**

In so many ways, (:42). mankind has to learn to listen, to feel the vibrations of the fields of STM of his own. Many people say, "I have no connection with my soul, I don't see, it's just you are the only one who sees." Because by doing this I start to

acknowledge the existence of my soul. In so many ways, "I choose the material, the matter state."

The Soul Manifests in the Emotion - Mankind Needs to Strengthen his Field:

The **STM** has no tangible physicality, but manifests itself in the emotion of the man. This is where mankind needs to strengthen his field, and this is where, gradually as I have taught many, many times over years, **be able through the STM to manifest whatever he needs in the palm of the man.** STM and the STP in a wish and emotion can create what the man needs at any position, frock on the shoulder, metal in the hand, and the shoes on the foot. When you travel the depth of the space and if you have a physical dimension of the foot, and you travel and walk in the acid dimension there is no shoes to go back to on Earth to buy to bring it. **The emotion of the soul and the emotion of the physicality create that what you call shoes,** it creates that gold in your hand. **The love of giving by both, leads to creation of what it is.** Mankind has to learn in a simple way, in a very simple way, (:44). the love of a man and a woman leads to creation of a child.

The LOVE between STM and STP = Creation:

The love of the STM and STP lead to what man wants to be created. This is where the knowledge of the man is not completed. Man does not need computer and a car, in a wish of understanding of totality, he can have both, with the full support of soul and physicality. This is what in the coming time, especially with the EU I will be teaching. In so many ways, mankind has to learn to communicate between different part of his existence, that he can support life anywhere in the U, both in the dimension of physicality or energy pattern, or condition, what we call the soul.

Purpose of Enhancement Unit is Enlightenment of STM;

In so many ways, if you look, this ball in the screen (sphere in the EU) is the STM, and all these balls, systems around in a specific way set, create the emotion of the creation and perfection .. through these technologies. We are not here to demonstrate flight or creation of material, (:46). we are here to enlighten the STM to know how his physical condition can collaborate to work to lead to the creation of what he needs. Does not mean that all men will understand this, does not mean that everyone who sees this T as it is, will grasp the idea of it. **But those who get enlightened will reach the new condition of living independently anywhere in the U.**

EU to Teach the Connection between STM and STP:

In so many ways, we all know there is a car and it needs a driver, and we all go to the school to learn how to drive. The **prime purpose of Body EU is to teach you how to drive. How to control and how to bring the physicality of the body of the man, through the emotion and the STM to his destination,** to the point of his pleasure and joy in living. In a way, the production of the new EU is for the man to see the connection between the soul and the STP. In so many ways, mankind has to mature to understand, to comprehend. In so many ways, mankind needs to understand. We put you in the car and we let you to drive, and in a way drive from the soul into the dimension of physicality, and gradually learn how to connect with you soul, how to be

able to make the systems within the structure of your own being that you can survive the span of U. **All these teachings are for man to be able to survive in the space.** (:48).

Will Man allow the Technology to become Part of his Existence:

KF is a space organization. We are not here to do other things, but at the same time we are right, we have the right to have some fun, by learning, teaching, by sharing knowledge the way we do. Would we in the coming time, be able to mature man to the point of understanding the connection between the STP of the man, while we live in the dimension of the man, is a different story. Is what I call, **the fire of love for the man so deep, that he will allow the T to become part of his existence.** We need to be able to do what we want to do, to share the knowledge. But at the same time we have to be flexible to accept the new understanding. Mainly is acceptance, is within the structure of man, and no one else.

The Soul to Take Over the Physicality and Protect It:

The time of change comes through the understanding of the change, to be able to live and understand how the fields interact with us, We are in the center of what we call the light of the U, the fields of the U and the knowledge is understanding how to utilize it. (:50). Be it from the STM, be it from different dimensions of understanding of the motion of the fields. What do we understand from these interaction, and what to expect from these interactions? Do we still need systems to travel or can we travel within the depth of the U, through the dimension of the fields of the body of the Man. **Do we allow the STM to be engaged within the physicality of the man, or do we allow the soul to take over the physicality and protect it.** Rick would you please show the video which we have from our friends in Brazil, which you showed on Tuesday. .. It's important for all of us to realize and to visually see what the knowledge is coming. Now step by step, gradually KS can visualize, can understand, can see. The KS are gradually trying and they are visualizing what should be. It's interesting, the KS gradually move to the dimension of understanding the totality. (:52). And it's for us to be able to see it, that we can visualize it, then we can make connection with it. .. (Video of Soul over brain)

Visualize the Soul Encaging the Physicality and Protecting It:

This is the brain of the man. Just have a look, now we know where the soul is, we have envisioned and understood. Now we understand, it's within us, it's within our existence, where we never knew. **Now with the new T that we can elevate it. The brain is still there, but now become part of the physicality and receives the protection.** This is what man has been afraid of, to loose the physicality, but in fact, it is more protected then before. No disease, no viruses, nothing can reach it. We engage it, now we are learning how to use it to protect us. Limitless time and life. **The biggest fear of the man has been, what happen if I let the soul goes, (:54). and would it lead to my demise,** because when it leaves it's the end. It's time to understand how we can create the fields within the body of the man, and through it to enhance the power of the STM that he can protect.

By Loving our Soul We Can Bring the Two Together:

We do that with loving someone, now we need to do the same by loving our soul. We share it, we understand it, and **we comprehensively need to work towards amalgamating the two.** And part of these teachings are this. Most of the teachings are this, that how we can bring the 2 to live inside each other, and depending on the position and the time, and the wish of either one, to manifest themselves as a soul, or as a physicality.

Man Becomes the Soul:

We have seen **the physicality has many weaknesses**, and in so many ways, we cannot stop, but would the presence of **the STM, will give the man that edge. That is a beautiful demonstration of what man shall see to become the light**, to become the source of life. (:56). In so many ways, once we understand this, mankind will move to a new dimension. **The fear of demise will not be there.** The fear of would I be able to create myself will not exist, mankind will become in the position of his own life and his existence. **Man becomes the soul.** And if we understand this, would it lead to a new dimension? Would we go to understanding the totality of it, and would **we take our future in our hand.** Then we decide where we manifest ourselves in the galaxies, and the stars. This is the new knowledge, for man to hold his destiny not on this planet, but in the U. But with the hand of the soul and when need be with the hand of the physicality. The teaching in depth, is to understand the future of mankind, is in the palm of his hand. (:58). We need to understand, **we need to be able to become the satellites of the U, independent of time and position. In so many ways, we become the Sun.** In so many ways, we are teaching you how to take charge and become ?? sentient lights in the U. You choose, you travel by the soul or through the dimension of the light, as UFO's ?? ??

You Become A Star in Sky - Option with Physicality:

In so many ways, **we have made everything possible for you to grasp, to understand you are one of these lights in the U. You can decide the position of it by termination of the physicality, or you can decide to elevate your soul to have the physicality within you**, to manifest in any other position in the U. As I said, when you look into the depth of the U it's nothing but covered with shining lights, which is from the soul of the creation of the planet, or the soul of those who have become the seeds of the new cycle. The understanding of the T, (1:00). has to be in totality, and to understand the effect of rays.

You become the Messengers of Peace and Friendship:

In so many ways, to be part of it, to understand the interaction of it, and with it to be the, what we call, one thing, wherever you are in the U, **you become the messengers of peace and friendship.** Be it in the dimension of the physicality, or be it in the dimension of the soul. The bird is the physicality and the light is the soul, both carry the same message, and until mankind does not reach that level, mankind will not leave this planet.

The Knowledge has to be Shared Freely:

In so many ways, we have to learn one thing, how to share the knowledge and the rest will come by itself, the rest will appear in the new dimensions and the new ways. In so many ways, would we become part of it by choice, ?? thus another path. What we share is understanding, (1:02). that the **knowledge has to be shared freely**.

We Teach You to Tap into Universal Knowledge:

Now that we have built the new systems and we can show you , you can follow, you can understand, you can enhance your knowledge though the knowledge of the U. In the coming months **as we reach to our goal of 21st of March 21, we'll start teaching you how to tap into the universal knowledge using your soul, using your understanding and understanding that in the presence of time mankind needs to be evolving in one direction and that becomes free from, detaching itself, from attachment to many things. Even in detachment we get attached**, and this is where most of the problem with humanity has set, and that's where the abuse has been. In so many ways, when you look at different lights and rays, that should give you the full indication of how we understand the totality.

(SILENCE .. >> (1:04). (1:06). (1:08). (1:10).

K- thank you very much. As a family we stand a lot, but as a family we take a lot. Unfortunately we see what I call, those who were among us pretending to be who really are, and how we see them and it's okay. Sooner or later we'll achieve what we are targeting for, we'll be. Rick would you like to take a commercial break >> (1:12).

Take a **commercial break** .. Cycle of creation Video .. (1:37).

Continue Soul Teaching:

K- What we do in the process of teaching, is what we share knowledge and understanding. In so many ways, we share knowledge freely to be able to evolve man to a new understanding, new dimension , new process of elevating the STM and at the same time the physicality of the man. One of the biggest problems in the coming time is when the STM has to protect the physicality. In that process would the physicality be able to stand what it has done to the STM. In so many ways, the transition between the 2 will bring a new dimensions (1:38). between the both. What will happen in the coming time as we go through this process, is that as the soul transfers and expands beyond the physicality, in a way, it feeds the physicality, it gives it all it needs, in all dimensions. And would this be a way to feed the man directly. In a way by retraction and expansion of the soul, on a regular basis, maybe every day, every time that it is needed, man will repair himself, man will clear what has been exposed to, which is not good for him, or what is needed to be done. One of the next steps in development of the T is this, this is what we are about to teach. In a way, in the space we can't carry much, no medicine, no food, no material, we cannot keep on carrying machineries that can provide or systems that can provide such a things.

(1:40). man has to learn how to tap into universal fields

(1:42).

... In the coming time we'll teach how to become a ball of light in the depth of the U. To become intangible, but to be seen to be tangible. In time mankind will take the steps and we'll teach you through the EU, (1:44). how humanity needs to understand the work of the soul. We take new steps and with it we reach new dimensions.
How we can heal the sick body of the man. ..

Rays Particle Photons :

(1:46).

.. We take the STM within the light. In so many ways, when this system adopted in the shape

where a man can be carried within the soul of the light.

If you could fully understand what is explained .. we bring the latest technologies available to man, to travel with a shape like this (sphere or triangle), takes a lot of energy. To travel with a shape like this (cigar) as you have your EU, is a massive development in the space T. Where the new system can travel with the speed of light, but be a particle of the light. This is what I explained in the teachings, now in the Book 1, we understood the structure, in Book 2 is the structure of the light, is the way the man will travel from now on. (1:48). Even this (triangle & sphere) in the history of the science of the space T is obsolete. In a way, when a man travels in this dimension he becomes the light, and he becomes the soul of the light. In so many ways, the new EU for space T, will carry the STM within its structure, within its parameters, and then man can travel in the speed of light according to the understanding of the soul. The soul of what we call the captain. In so many ways, we will see new structures, if you look what we have as EU is a flying object, which the man who sits in it becomes the soul of it, becomes the particle light, instead of a photon light. This is what I explained, we go from book 2 to book 3. And now the systems to be delivered, and even system, the EU, the body EU has been set for that purpose to become the particle of light, but this time the light, the speed of light, it depends on the strength of the soul of the captain. He or she decides. What it sees on the horizon of the light of its soul, (1:50). .. we look into space to see the sun, to see the rays, and In so many ways, when you are the Sun yourself, you sit within and you become as is, not as part of. In so many ways, today's teaching as when I started, is understanding that in the center, is the particle, the system, the way we will travel in the U, as I mentioned in the teaching of the past, **we bring the T that not even existed in the U, and is a new breakthrough for the Universal Community**. In so many ways, the new EU as a flight system is a massive breakthrough in the world of the science of space. If you look at the structure, it's very much like the structure of before, but it developed in the structure that, if you look, that the old what we call, the UFOs you'll see the bracket of the light, and the balance of the controls. In the new EU this has been converted totally in a way that suppresses it into 2 lines internally. When I designed the .. EU as a spaceship, the whole thing was taken in, instead of being out. This is a massive development, (1:52). in the space T, beyond imagination. But if man understands its power, in a way we have turned this, into this, internally. We don't look outwards, we look inwards and this gives us a massive strength and at the same time in connection with the Soul of the operator it becomes the motion and notion of what he or she wants to do.

The new EU flight system will breakthrough new T. We bring you in the totality of the understanding of all aspects of the creation, even to the level of the soul of the Creator. As the Creator travels in both dimensions, both as a photon, and as a particle. The new

EU which has been developed, and you have one on the table in the arena of exhibition , is one of the most advance flight system ever known in the U. We always worked with the interaction of the fields of other position in the U. Now for the first time we work within the structure of the soul of the units. In a way, we took the ship and turned it inside out. (1:54). and it is much more efficient. It's much more reliable, and it can reach across different universes, much better, safer, and in totality. When we designed the EU was a way to cover the eye of the man from his total creation, until he could be unraveled, and revealed, and today we have shown you. And if there were no examines in Linz today, you would have witnessed one of the most advanced flight systems in the U. The 2 units are ready for, not only demonstration, but delivery of the T and the change for the course of humanity. It's the time when we take position of the peace. This is the time when we take, to force mankind to peace. Maybe tomorrow, and maybe Monday we'll open the Zoom if the system allows and we demonstrate live. Nothing has stopped me to show T even if it fails. .. but gradually the way we did before in the Inzano when you used to be with us. KF is so confident in its T it We'll turn on both systems tomorrow morning and come with us, (1:56). celebrate with us, a new breakthrough. We try and we keep the control system out of sight, but we let you see what the effects might be. But in true the Body EU, is one of the most advanced flight systems ever known in the U. The UFOs you've seen are obsolete by thousands of years. The system not only elevates the STM but uses that elevation to control the destiny. In so many ways, it's a creation of new cycle of technologies which unknown. But at the same time it's new to the whole of creation. Unknown but effective to bring any change in the U. As we test we all share see that we all shall learn. At the same time we wait for the return of the HKF to be able to operate in full, as she carries the soul of the system within. .. we develop New T and release.. In so many ways, we are ready to take man into space. (1:58). But the biggest question is, is man ready to become part of the space? The change in T with the simple structure of the new system will bring change in every aspect.

It was asked what do we do with all the pollution.

How do we build a new society that uses the new T and not the old, the new ethos and not the old ..

My wish is my command. The new EU will carry man into space..

(2:00).

man will live everlasting life, as he lives through the dimension of the light, but there is still a pleasure in the dimension of physicality, wherever he decides. The

There will be some shaking and shuttling but at the end, man will takeoff. All systems produce fields at the level of the creation ..

The new photon, and particle system..

(2:02). .. we have built the systems now we are gong to test the systems. As a KS writes we are not such a bad race we can love and care for everyone in the Unicose ... if the totality of the human race accepts the new conditions .

(2:04).

Are there any questions?

R- Comments. Thank you for bearing your soul during these difficult times and sharing your burdens with us, I feel many feel your pain and sorrow like I do, we lift up your soul for protection and safe return my you find comfort with the love all of us are giving

Q;

K- thank you very much. (2:06). Are there any questions.

Q: How is the FAA going to react to the Keshe flying unit?

K- What they cannot see they don't have any certification for. In a way, we become a way to set the new standard.

does not stop the progress of man. The beauty of the T is that it can be done by the simplest man in the world. ..

(2:08).

Never be afraid of what is behind the wall. Always look

(2:10).

Any other question

(2:12).

(2:16).

(2:18).

(2:28).

In so many ways, from outside look inside, it's what did they do that they deserve this elevation, and such a knowledge. So I prefer to be with the humans then the ET's because now the humans are more advanced then the ET's. And that was my wish with the beauty I was given, (2:34). I delivered.

Any other question?

Q: In the past you have described our using the M fields in the U, like a sailboat uses the wind to ride to its destination. Today you described the EU as being internally focused rather than outward. Is this a change in the way we will interact with the fields of the U.

K- When you structure like this, you pull from all fields of the U. Where before you had to send that you will receive. You become the center, and who wants to be in that position in respect to the center? It's a different structure, it's a different ballgame, and in the same way you produce fields that makes it easier for you to be where you want to be, not that you look, to be ending up where you want to be. It's a big difference. With the T you can travel beyond speeds man could ever imagine, or Universe could imagine. You reach very near to the speed of the soul of the Creator. (2:36).

And as I said, we gifted that soul to one, and you shall see, a new generation, a new cycle will start with the same knowledge as we give the soul. Time, we just need time, a few more months. And in the course of coming time we'll teach more. Today's teaching

again is an evolution in the science of the U. I have to complete this in the next 20 odd days of human race. I have a boat to catch.
Any other question.

Q: .. in the balance between the STM and STP can we somehow see the rule of 3, 6, 9, and in that position 9 as being access to the U to a new cycle, a new creation? Is the knowledge of numbers important for the construction of the totality, also for the different parts of the totality. Or is it only through love, comprehension, and healing of the fields? (2:38). Are numbers in a way only an illusion about the reality of the matter state?

K- Numbers are a collective of what we see of how many. It depends what we attach to it and how we expect it. and then we set our mind to be what we expect, what we said ?? Even in the health centers we measure in different ways, but it doesn't go by numbers. but it goes by the strength. If you go to one of the patents. In so many ways, the structure of this spacecraft was explained. Actually the full detail of this craft has been explained in the patent. But as I said, you have to read it to unravel it. You have to understand it to unravel it, you have to feel the essence of the knowledge, not by what is written. Numbers don't count. What interaction of the fields create by interaction of the numbers count. (2:40). What you expect to get from it.
Any other question.

Q; Have you been successful in contacting Sharon Stone?

K- No, she is illusive. She was somebody I would have loved to see her when I was young, but now would love to be able to help her, if she hasn't lost her ??

Q: Some people would like to help locate your son, they want to know his name and birth date ?

K- It's in the hands of the police. The police authorities are fully aware of it, and she has lied to the police, so believe it. We know a lot, but we try to keep it out, but you have to understand you are dealing with professionals. These people work on a ?? treatment, and show to ?? We have every knowledge to know, (2:42). but on the other hand it's 40 million Euro ransom for a child is ?? But when the mother does it, shows crime, what we call inclination and destination and what they want to do. Don't forget she is working with a pedophile. That's my biggest fear. The man she has got involved in, is well known, That's my biggest fear. We'll sort it out, sooner or later we'll sort it out. But that is the destiny we have to see. What we are there to learn from it. The only thing we can do is pray for her soul, that's all. This is one thing the pros never learned, they can take part of physicality of the man, but they cannot take the STM. We can elevate it.
Any other question. (2:44).

Q: .. I am ?? I helped a man in Turkey, .. he was feeling better .. 5 hours before he sent me a negative test.

K- We had many of our. we had one of our well known KS tested positive a few weeks ago, and the KS helped him and it became negative. And we have seen this to be done, and it is something that happens. We deplete the energy of the virus. And it's nice to see. We make the difference. (2:46).

R: Seems to be more reports of people being able to transfer that emotional energy .. through Zoom , without giving someone the actual substances, but transferring that emotional energy for a healing condition ...

Jalal was showing us live in the actual exhibition hall ... (2:48).

R: he was not supposed to take pictures..

Jalal put his hand on screen, I put my hand on my computer screen, it overlapped .. as if our hands were connected. I could feel the connection, he was feeling the fields of the Gans, the ideal was for me to feel the Gans through his hand.

K- Is that a beam me up Scotty job.

R: yes, actually one of the phrases we were discussing at the time. Very interesting how the transfer occurs...

.. when I feel his essence .. (2:50).

K- We should be able to do that with our soul, that's the new ?? ability we have. We have to learn it, and we can do it. Once we start using these EU and we gain more and more trust, we come to understand about ourselves, our capabilities, our new friend within us. And that's what is important.

Any other question?

Q: ... when jalal was holding his hands over the Gans I tried to visualize the exhibition .. it really touched my head. .. this was the transfer from jalal.

K- In so many ways, we shall let Jalal in any more, we got to stop him, but he is there. He is such a pure soul, it's understanding the knowledge when it touches your soul, then you don't need to go through electric, or whatever, communication line. You just need a point of reference for you to physically confirm that you received it.

Q: It was a beautiful feeling....

K- We left 2 children playing in the exhibition center ..

we need to develop more trust to ourselves, that you don't need a screen, but if you ask it will be there to take you.

Q: tells his dream ... (2:54). .

K- .. Next time we have to keep Jalal away from these things. I didn't know they were in the lab, and I heard it, some whispers, but I didn't know. You see we have opened some space that any KS can come and learn, that's the beauty of it. We have a very big problem at the moment. .. we can't get our stuff back into the lab to carry on with the further research. (2:56). They are enjoying him so much on the floor that we can't get him back. .. on the other hand to get the stuff back in is very hard. because its .. the beauty of sharing knowledge, it becomes so powerful when you are on that floor. The compulsion to share knowledge is so fresh ...

(2:58).

(3:00). Jalal .. I am sharing my dream with all of you..

K- We are open tomorrow. We have a large number of people. Collectively they raised money to buy a EU, a bus load ..

(3:02).

We have a full 100% press lockdown. This is how the T has to come out, through the people.

Tomorrow we start loading and testing

These units have Certification and can be tested .

(3:04).

Any other question or call it a day?

Q: How do we create our own honey Gans?

K- Honey Gans is very difficult. We got many Gans's that are not in public, and will never come in public. It's part of research .. We strive to make Gans's that are vital to life, and honey is one of them.

Q: for me the honey Gans had a lot of special fields (3:06).

The experience of being in the exhibition ..

Q: .. a long time ago it was mentioned. A personal flying belt. going to be released?

K- ... time

(3:08). .. now that we have built the system and we can collectively enjoy it. .. hands on .. you never know what might happen in testing and developing. But there is one thing for sure, man has entered a new dimension ...

It's a surprise when it's switched on. ..

This time the systems are made in a specific way ..

(3:10). the system which is the body EU is ready to fly ..

does not mean necessarily flying in the physical dimension

It's a very interesting time.

R: 347 KSW (3:12).
