Enhancement Unit in Every City

(:07). ... As we announced last week **KF is launching that every city will have 1 system of EU and this will be part of our work from now on, to make sure that every citizen on this planet has the right to receive the benefit of this T.** Many of you have been trying to raise the funds to meet the minimum demand of the work of the F. In that process you are trying to find other people (:08). To make this easier for all the KS, we advise to do as we done with the others, to just go the KF website, where EU is and put what you want to put for EU for the country you want participate. As people from different part of the world, different cities of the same area, would like to participate in that, we add it up and we tell you what it is. KF will make a platform, how much is received from each country and then can put in that country ...

5 Month Phase of Deep Space Teachings

The work of the F carries on the same .. past teaching ... KF as we said from 21st, next week, we'll go into a 5 month phase as a deep space teaching. .. the teaching will change. this means the KF KS will be able to be taught and we think we have reached that level of understanding for all of us. **The way to survive in the space. (:10). It is easy to fly, and to takeoff and go somewhere,** but what is the outcome of going somewhere? What would you see, how do you survive, how do you interact with the environment, what is the purpose of this travel, what is going to happen to your body, what is going to happen to the environment (where) you arrive? **The way we care what we do on this planet, when we arrive at the destination, our presence can be a joy and adding to, or our presence, with the field we carry, with the AA strength we carry can be a poison to the citizens of the position. We do not get there to learn, we have to learn before we get there.** And this is the purpose of the teaching in the next 5 months. .. what happens to your body, your AA has a H and N combination, and

in a given destination, N is in the form of liquid, N cannot exist, the M field of the N is something which the position does not create. Does your life end, you don't enter, or you enter a position that it brings demise of your life, or other condition.

5 Cups - How the Fields Interact

This is the purpose of the teaching from now on. In preparing mankind to be able to survive in the span of the U. (:12). This is why we taught the making of the 5 Cups, for you to become aware of the interaction of the fields, and materials of the environment, the strength of your own existence, material and the fields which you are created of. Now you understand where the extension and merger of the teaching comes together. Many of it for many of you, will be theoretical teaching, because you cannot see it. But in entering the EU in traveling in system which are equipped with EU makes life, understanding of life, understanding of the living in the depth of the space, essential. You got to realize that mankind has become in the past years traveler of his own space by aircraft, by going to the Moon, and now travelers of the space by being able to go beyond the boundary with the gaining of the new knowledge. We lay down the foundation for this work, and for man to be able to travel in the depth of space, and this is **the reason we brought you the understanding of G, M fields, Inertia, the physicality of yourself, whatever energies hold your physicality together in communication with each other, which you call the STP, and the total field interaction of your physicality, what we call the STM with its environment.** (:14).

Your Soul is the Solar System of your Existence

You've got to realize, which many of you have not understood, **your soul is the solar system of your existence. Your physicality is that Earth, Moon, that Saturn** within that structure. And now that man becomes a partner in the depth of the space with the UC to explore every corner of this Unicose, man needs to know what is there for it to be ready to see, to fulfill, to protect, and to be as one with the rest of the creation of the Creator. You will see that the development of the new T, makes it essential for all those who take steps to leave this planet, to understand that they need a next step, a next structure, next development in protecting the STM and the environment which the soul can exist, in the new environment man arrives in. We don't put you in a spacesuit, you make yourselves an environment that your souls can exist, protected, but the same time being able to survive, collaborate and enjoy different conditions of the U. The development of the new deep space T, from now on, for the next 5 months will bring mankind ready to be able, not only takeoff from this planet, not only go to the Moon, Mars, to beyond other stars and galaxies, but to be able to walk on there, be able, (:16). not only be trapped in the spacesuit or spaceship, but learn how to change the characteristics, mutations of his own soul strength, that it can exist and operate to that environment. All these knowledge takes man centuries to understand, but in the teaching of today and in the coming time we'll lay the foundation for it.

Given Energies for Physicality - Trans-mutate to the Environment you Land In

As I explained ... when you go to the space, and you are fed, and **you are given the energies that you keep the dimension of your physicality, would you need a blood circulation,** the eyesight to see, .. the ear to hear, do you need the stomach, liver and kidney, when you have no blood to ?? operate it is there a need for the heart of the man,

then where does the STP goes? Those we see that travel the depths of the U, and land on the shores of this planet, have been through it. In so many ways, they adapt, **they transmute into the shape of the man**, then they land on this planet, not to change when they arrive. In so many ways, when you want to be a marathon runner you train how to do, work, (;18). what to stop, and what to take care of. **Those who travel the shores of this planet and we see them in the form of, mainly human shape, or those near to human shape, they have gone through the transmutation of their souls, prior to landing on this planet.** Mankind needs to learn that, .. needs to learn to use the strength of his soul, to the strength of the environment of the position, to conversion of the shape of the man, to the dimension of the physicality of the ?? position. Which means you'll exist in the environment, prepared for it, as you wear a spacesuit to go to space, you change the conversion of the strength of the soul to fit the environment of the Earth when you land. With that enforces by itself, 2 legs, 2 arms, an eye ?? look, but in a way you live through the eye of the soul of the presence . Mankind has not moved in the first step to understand his soul, let alone to **be able to use mutation of the strength of his soul to convert to itself to the existence of the position and the place.** These are the teaching which will come in the coming months, many of it, very radical, many of it you have never heard of, but you have to, and you have to be prepared if you see the future of the man in the deep space.

How to Use the Energy of U for his Own Existence

There is no end to the resources of the creation. In the coming time, we'll show how you can produce any elements as we have shown before. We will show how you can overcome any diseases, (:20). which is AA based, and any change in the strength of the fields as viruses. And then in this process mankind learns how to use the energy of the U for his own existence. For interaction of the fields, for confirmation of his presence of his soul.

Take STP without Physical Dimension - Fit into Any Dimension in Universe

Mankind has to learn two fundamental points, as he is aware, but he needs to understand, one is **how to create interaction in the soul of his physicality, with the soul of itself, that in interaction of the two, and the interaction of the third**, creates the condition of the existence in the presence of the dimension of the fields, which means if mankind learns to take the STP without the dimension of his physical dimension, then in interaction with his soul, and as a solar system interaction, with the soul of the environment, man will fit into any dimension in the U.

I will Introduce Physical System for Mankind to go through Transmutation

In the back end of the 5 months **I will introduce physical systems, that mankind can go through the transmutation.** In the later part of the development you'll be introduced to systems you have never seen, but will become part of the norm of the space travel.

Many will Not understand the Coming Teachings - for Later

The teaching in the coming weeks, (:22). will be so advanced that many of you will not be able to follow, and it will take many of you months, years, and centuries of

understanding through your development, the consciousness of the existence of your soul, and your children and your offspring's. **The teaching for coming months is not for instantaneous absorption and understanding, but is the guideline and message for the travelers of the future, on Earth and beyond.**

We Are Messengers of the Universe

As I said, to the Iranian KS, we are the messengers of the U, not the Methi or Messiah. If that what you see, we taught, it's the shortcoming of your own understanding, as we are, as we said from the beginning, **we are the messengers of the U, we carry the knowledge of the creation from the beginning to the end. We manifest ourselves in the physicality of the man and speak the language of the man, but in essence we are not. We are the soul from the Soul of the Creator,** and we teach ?? the knowledge of the space time, is the language of the place, messiahs, be it Christ, Mohammad, Moses or whatever you call it. But in essence we are the messengers of the U, which means **we teach for the races how to learn to exist within the span of the U.** Each planet, each solar system is like a little village with their own tradition, and their own ways. As messengers of the U, (:24). we bring all to understand one common language, and to speak and behave in that dimension. **My work, to complete the work of the past messengers is completed, and now my true essence and the reason we came, will be taught in the coming months.** How to take man and humanity from the village of the Earth and to teach it how to become a citizen of the U. Up to now we completed, what Moses, Mohammad, Christ and other scientists on this planet did not complete, that we bring you to the platform, zero platform of the knowledge of the U. **Teaching from next week on will be very much in the depth of the understanding of the motion of the oceans of the fields of the U. How would you like to come out, as a mermaid, as a fish, or as a man?** You choose, from own on, if you learn that dimension, living on this planet will become easier, because your understanding of the higher order, becomes the norm. You played with Gans's, with everything else, but ask yourself why did we teach these? Why did we bring you this way?

Why have we introduced the EU, why have we introduced new understanding of the new physics, chemistry, biology as a collective one size. (:26). It's mankind who has pigeonholed his level of understanding, single interactions - I become the physicist, double interactions - I become chemist, triple interactions I become biologists. But in essence they're all one. As I said .. you keep your Methi and Messiahs, that's your job, but understand what is to come, and evolve that you can survive the span of the U ?? as your soul, or interaction of the STP and the STM, as one being across the span of the U.

Mankind has not managed to overcome what we call zero gravity, a few kilometers away from itself, in what they call the Spacelab. Mankind has not managed to walk on the surface of the Moon without equipment. Mankind has not managed even to reach Moon in the instantaneous existence of both the dimension of the Earth and the Moon. And he still needs days and days to travel to reach even to the closest object to this planet. Now teaching the man to be able to travel the span of the U, in a snap of a finger, is very far fetching. But in time to come, those who elevate in the knowledge of the U, will show the others the true job of now taking mankind to the UC starts in the coming weeks. As we promised, and the knowledge will be very sweet, very short, but in depth, (:28). that it needs the true understanding in unraveling, the what we call the essence of the creation in the dimension of the interaction of the fields of the U. And

those who elevate to understand this order ?? meets their Creator in essence of the their soul. Now in the coming weeks, months, we make you to understand, and comprehend. **We teach you, and guide you to be able to go through the transmutations of the energies of the U.** We'll show you through enhancement centers how you'll interact, how you will come in touch with the men of the U, with the creatures of the Creator.

Some of the EU in the specific collaboration of the governments will be made as a point of interaction between the governments and the systems of the U. . . **we'll bring the world leaders to negotiate the path through the full interaction, and interface between humanity and the UC in the coming months.** .. the interim course, and interim people who we trust, who will see these transactions through will be the members of the UC, EC, and the Mozhans, who have been elevated to that level. **The true work of the, what we call, "very few," (:30).** becomes apparent in the coming time. **We will manifest in some of the EU, the presence of those who you call aliens, that we can see them, we trust them, and in the process, within the structure of the EU we create the condition that the STM meets with the soul of the presence of the "men of space," within these systems,** we make the EU a point of interaction, where we create the condition for existence of both lives, of the man, and men of U, in the true essence of their creation to negotiate, to understand and make the path easy for the rest of the humanity to go through the process of, what we call, unification of the STM with the rest of the U. We'll appoint a number of world leaders we trust to head these negotiations through the UC members. As I said, many world leaders will go into these Units and become the negotiators between the man and the UC. If you understand, we announce the 5 Seat systems, that's not for the flight of the man to positions on this planet, but it's there as a point for the leaders of this planet to meet with the leaders of the UC, appointed delegations to negotiate the path, to teach the man the way to change the behavior of the animals on this planet, to change the condition that the Earth becomes a peaceful planet without the need for abuse. (:32). A planet without the leadership, a planet where every man leads their own lives. The EU which you place in different parts of this planet is the way that we elevate the soul of this planet that the man and the totality can come in the interface with the reality of his own existence and the UC. **If the world leaders decide to put (aside) all divisions and make One Nation of this planet, they will be taught the knowledge that brings prosperity and peace, and wealth of the wisdom of the knowledge to every citizen of this planet.** Not only man, but those who live here amongst us, as different names we have chosen for them, as the lion ?? and the lamb.

The teachings and the demonstration of the use of the EU for point of meeting by the world leaders and the UC, will be extended to the point that most of the citizens of this planet will become part of, because their soul creates part of the soul of the creation of this planet. In so many ways, as I said, in other teachings, **mankind will move in totally different direction in the coming weeks and months. (:34). Where financial structure man has created will have no meaning, and the cities you have built will become a place of history, where the man lives where his soul is happy. Where the man is in love with giving and taking from the creation and the Creator.** In so many ways, we'll turn on the speed up, as we find ?? to teach mankind the first alphabet of the life in the U, needs a lot of understanding, devotion to peace, devotion to unity, and devotion to be able to accept what comes from the beauty of the joining such a vast ocean of knowledge, which has been kept away from man, by the man's misconduct himself. What would be the outcome of all these works, depends primarily on KS who

have been ?? in the format, those who have taken steps to make sure the knowledge, not only through the term of physicality, but through the STM has ?? respect in equal earnest and justice.

What we have taught you is in fact the structure of your own existence in the U. (:36). Do not forget, **"I made the Man in the image of Myself," and this image has to live both in the dimension of physicality and the soul. And mankind will be taught how to be able to use his physical dimension for existence of his soul in many dimensions. Loving becomes part of the life, living is to love, and this means giving unconditionally not only for the human race, but beyond.** As I have said many times, I have no fear of leaving the physical dimension the body of the man, but the responsibility is there to teach, to complete the mission that one can leave in peace, and in the coming weeks and months we'll teach that way. We will shake the cornerstones of the creation of the life on this planet, the structure you have set as citizens. Your banking system, your social structures, your health, where no man will get sick anymore, as on the primary energy transfers will bring the balance to the soul and the physicality. This is what man has never learned, ?? in the fear of his existence. He has made temples and statues and worshipped different lights, to safeguard from it. But he never understood he could use his own soul as the light of the existence to overcome. (:38). We have taught you many things in a very simple way, that as many people could learn. We have shown you many things. From now on, those who are there for you to complete to understand your own structure, your own working, now you learn ?? the working of ?? Where the ?? lines of existence, what you call the STM is the cornerstone of every ?? peace in every dimension. Mankind will learn to exist in different dimensions.

.. (Rick can you allow) (:40).

In so many ways, mankind has to understand the next step in the evolution, in evolution of the STM and with it to understand the position of the STM, and in that process mankind has to become evolved in knowledge, in the new knowledge, in new T which is unknown. But in that process we try to teach both. In so many ways, the STM becomes ?? which is of the physicality of the man but not the physical ?? ..

Our soul becomes another star in the totality of the creation, but in essence it might keep the image of its origin, where man stays, in total transparency of the fields, without the dimension of physical existence. (:42).

Physical Structure of Man is Like Galaxy of Stars

If we look in the depths of the oceans of the life, and the physicality of the man, every organ of the man has a center point, which creates the condition for itself. And in that process it creates to be like a star. If we take the physical structure of the man, the way we see it, and keep these points, center points, the stars, the soul of the kidney, the liver, the heart, and the rest. **What we'll see, we see nothing but a galaxy, galaxy of stars, different strength, but in fact in totality, very much the shape of a man.** (:44). In essence, humanity or mankind will see themselves his physicality as another galaxy, a collection of ?? the stars. And by feeding from soul to each cell, to each star can change the condition, then mankind will find that the life becomes indefinite, life becomes ?? more, but man to live that life he needs to understand the work of the fields of the U.

Interesting time ahead for man and mankind to open new universities, new institutes to learn about energy fields of his life and his existence in the U. And spend time and

contemplate on how these energies can be used, not only for the burden of mankind, but the citizens of the U. In the coming time **many of you, in my lifetime, will embrace many of those who you call, aliens, with love and care, the way we do with your lovers**, children, and your parents, as you realize you are all made of the same and you all participate in one dimension and the other. (:46). **for everlasting confirmation of the existence of the Creator. Nothing else.**

Mankind's Beauty - Industrialization in the Universe

In the coming weeks we will show new materials, .. materials which belong to the deep space, and never seen on this planet, for man to learn new ways. To bring the beauty of the man, what you call industrialization. **The application of the new knowledge for the benefit of the others. This is one of the beauties of the mankind, that he can convert the knowledge to an existing formation of the things that he can enjoy, that can be used by the others to enjoy. Small tools to the most advanced systems in the U.** In a way, mankind beauty and ability to be able to change and convert the knowledge of the U, into systems and equipments that others can be enjoyed, is the cornerstone and beauty of this race, not only loving, but being able to translate, and conform and confirm different ways of enjoying the beauty of what has been created. Industrial revolution in the level of the U will create so much joy, (:48). and bring so many to this planet, that the Earth will become the cornerstones of what we call, "Industrialization of the Universe," for them to see and confirm the beauty of the existence of the Creator and nothing else. Mankind does not only have the ability to love, but the ability to convert the knowledge into physical things, as you call it the car and the others. But in the U this is a rarity. It's a very rare thing to find races who do these things. The majority of the races use the energy fields to translate. Mankind has the beauty of translating and transferring materials into physical tangible beauty. This is why many travelers of the U come to this planet. To love and learn what you call, "industrialization," what we call the conversion of the ?? and fields of the Creator into beautiful objects that can be enjoyed across the U. where it can be shown. Interpretation of the change of the fields to physical dimension of anything is one of the beauties of the man's race. And one way or another, this race is ?? growing much faster in that direction in the dimension of understanding of the conversion and creation than any other race in the U. Maybe this race is blessed for the presence of the Creator, in the ?? past ?? (:50). Mankind will show his beauty not only in loving, but in the new dimension we teach. Everything is not bad on this planet, even though it looks that way to its citizens. We have come to bring peace and prosperity to the race of the man, in that process we have seen many ?? wrongs, but forgive, but not forget.

Every Material in U will be Available to Man

We teach you **how to use the positions in the U to tap into the energies and materials and the beauties of that point without ever traveling to that point. In a way, you don't deplete, but you make the replication of that position at the point of the presence of the STM, which means every material in the dimension of the creation will be available to man**, every field will be available to man at the point of the need. The way you tap into and get your Cu from Africa into Europe to make your Cups, now you do the same, but through the transmutation of the fields from far distance stars. You don't mine, but you transfer energies to create that condition. (:52). We use the position as the reference and create conditions within the structure of your

own ?? to replicate that fields, that on Earth will show itself in a new condition. We will teach you how the materials you see in the other parts of the U to be manufactured and to be used on this planet by creating in a field dimension transparent, that you can manipulate the material ?? they still ?? exist within their own environments but within the environment of the presence of this planet. What does this mean, it's literally being able to produce the material in the spacesuit where you can put your hand in it , but both exist, the environment ?? of the material for its dimension to confirm, and for you to be able to manipulate to show its beauty. In the **past few weeks the number of KS who have been enlightened, have tested and confirmed ?? with the support of the KF to reaching these mutation points of energy.**

It's for You to Tap into Knowledge through your Soul

Many of you will be lost in the maze of the knowledge to come, (:54). but **if you listen to this knowledge through the soul of your existence you will receive the knowledge and translate it into the dimension of the STP.** In a way we'll ?? leave it, according to the knowledge and the teaching within your souls. And it is for you to be able to tap on to it.

Become Aware of Soul through Devotion and Detachment

As a KS said, **I don't even know where is my soul,** let alone trying to work with it. **You become aware of your soul when you mature to the point of understanding of devotion and detachment. We will introduce technologies that allows you to coexist with your soul and physicality in the dimension of the fields and not in the dimension of matter state, that you gradually come to understand and operate within the two, and convert as needed.** Initially we'll show these in the EU, and then as you learn how to do it, as I said before, it's like going to driving lessons, learning how to drive a car, we will teach you in these EU under specific construction of them, to be able to see, to embrace your soul. I made a promise to one KS, you should be able to embrace the soul of your loved ones, (:56). to find peace, to find a new dimension of existence. Many of you have been waiting to see the soul of your son, wife, parents ??? ... in the coming time we are setting up in the EU, this becomes possible. One of the KS in the purity of heart has already achieved it. **Many other KS have touched it, the strength of it has frightened them.** Now this become a known, as you understand the life is not in the dimension of physicality, but is in the dimension of the soul of the existence in any position in the U. As I said, we start laying out what is to come, before 21st March 2021 ??? (:58).

Are there any question?

Q; If you can use the EU to interact with the UC, can you also use it to find people who have been kidnapped and find the perpetrator?

K- Yes, this is part of the beauty of this T. Many world leaders and criminal organizations around the world will fight for these systems not to be shown. As their conduct will be opened up. This is what we said, we bring in the justice by true operation of the soul. These sharing of the knowledge and T will be done. (1:00). We'll bring it into the court of justice that no man can lie. .. I cannot lie you see my soul.

R- What would happen if a bad guy wanted to use the EU to find someone to kidnap?

K- That's impossible.. you'll understand the wrong intentions will not be possible, because working through the soul ..

.. very soon courts, prisons, hospitals, will be left in the doldrums of the history of the mankind. (1:02).

Q: The soul is central to the teaching, can you tell us the levels of soul awareness that one can attain?

K- All of it, it depends on your acknowledgement of ?? existence, it's you who puts limitation. We choose the level of peacefulness, love and care, how much knowledge we want to have.

Q: application of EU from KF, (1:04).

K- KF is prepared to participate up to 95% in special cases. we will not meet all

(1:06).

Any other question

(1:08).

Living correct conduct and the others need it more than me

Leaving it to the UC

Do they trust the soul of the UC what is best for humanity.

this is the purpose of the KF, detachment from the physicality. Have the KS matured to that point .

(1:10).

We are not creating another Vatican ...

Any other question. (1:12).

Details about Carolina Attacks on KF and Her Behavior

Q; Why is it being said the 5 Cups alter our DNA, those people talking to disassemble the Cups, are they afraid of being exposed?

K- Let him speak. I made a promise I would ?? speak ?? but I speak the correct way ??

Q: (1:14). more about the 5 Cups .. are these people afraid of the T coming forth. can you speak more about this.

K- Yes, I have been told to be correct as we usually are. The only person who has brought this and is using scaremongering, is my ex-wife. She's been pushing this through to create a secondary foundation to break it up. This is to the KF is so vast. This lady has become part of a satanic group, (1:16). and they are using ?? to frighten people, for development of the T that they can use it to damage the F. She has no knowledge, she has only sold her body and her life. And now she is trying to use STM to frighten him. This comes from a person with no knowledge, and now in the structure of the development of the T, out of the range of the knowledge, have picked on this on, because of seeing how they can break up the KF.

The fields of 5 Cups, if it dangerous for you, you have 7 Cups you call 7 Chakras.

(1:18). Does you 7 Chakras change your DNA. You have 2 additional Chakras which is always creator of your Chakras, which is your G and M field, and Inertia of this planet.

In essence when people are ignorant of knowledge you can frighten them. This lady has no education, has never been to school, and now being, using the education structure of the KF with her ex-lover, who infiltrated the education part of the KF, want to bring this in, to bring man to literal illiteracy that they can abuse, We try to keep away from this in the F, as you bring this up, do not be afraid. If you are afraid of anything, walk away

from the F, that's what they want you to do, that way they can keep on abusing you. (1:20). We advise you if you received anything like this send it to us. We said it in One Nation send it to the KF any communication you receive, these are going through the process of damaging the F. It is done by one lady we deliberately allowed to come in to find out what is the position to damage the F. She infiltrated with her lover and group, from Dubai Conference, and we have all evidence, they want to see the humanity to be paralyzed that they can keep on abusing. The KF management for over 3 years, since Dubai Conference, 4 years has been monitoring the behavior of this lady, the adulterous life, and how she has become, using stone and lights to control people. It's all in black and white, we are not making accusations. So now that they see the F developing to the next phase they try to stop. That's why she was immediately put out of the KF as we saw the final move. She was missing for 2 days and it is in the court, with another man, she has confirmed it herself, with the same lover. (1:22). We open for you to understand that you are dealing with an indecent behavior person, and she has done this all her life. You have to understand how they used the position of the KF to now fight a new, to cover their misconducts ?? F ??

They even used the earring as a wedding gift, the stones of it to change things. We will open these things, you have to understand she is involved in satanic work, by using stones and other things they use, this is all part of the court, we are not talking out of line. And her confirmation that these stones are used. She is a manipulator with a group she has gotten involved with, and we are very open about it, because if we don't do, when it comes out, you'll find out, how they infiltrated, (1:24). the F. And it's our own confirmation that, she is involved in these things, not us, and it is in black and white, before she deleted these things, it's all been scanned, screen (shots), and it's in the hands of the courts. This is not my private marriage, this is the way they used my marriage to harm one of the largest F in the ??

We will show how hard the KF management has worked in the past 4 or 5 years to protect us from her conduct. (1:26). And we always believed in betterment of man, man will change, will improve. But we did not do anything until they started attacking private teachings, then we knew we had to take action.

There is much more she has written, we have seen, and there is much more she has put on the Internet will in the court. And we have asked for a custodial sentence for her, because the damage is beyond the marriage, it's to other aspects of the life as well. It has been my private marriage but I lived a very open life, in so many ways, we all are part of this family. Now they try to take the F for ransom, the ?? is the first, the sister is another, then other things, adultery become a known, and our children become open to abuse, we monitored this, we protected for a long time, but we made sure no one in the F will be harmed. We did not bring this to public, when it was brought to public, we reacted immediately. (1:28). If you go missing 1 hour in your marriage, it is questionable. If you go missing for 2 days the marriage is over. This is exactly where the ?? has been for the past 3 years. Planning how to destroy the F, and this is the last time I would like this to be discussed, as it is in the court. And she called it a kangaroo court. It's no kangaroo court. Evidence is direct, we have brought the case to the courts for adultery and prostitution with the full evidence. We have got her own writing in satanic work, (1:30). and believing the stone will appear with the beauty of it will be shown. This is not a normal human behavior, unless you believe in certain ways. In so many ways, this matter has to come to rest and I ask you please, if ?? delete ?? anything from this woman, unless you believe in adulterous life, prostitution, unless you believe these kind of things keep the lines open, but send us a link, because she is deleting

everything, everywhere because she knows she has actually put herself in a worse condition than before, by writing so much. She is deleting everywhere. If you ?/ let us know. It's part of the structure, they try to destroy, ?? exploit it, and divide the F. And then come up as KS in kangaroo court. There is no kangaroo court, we should have done this to her 3 years ago, where she went missing for 2 days after the Rome conference with another man. As she was found with a sister and the man in the hotel, in Rome. We go into details, this was not made up and members of the management of the Italian police force was fully aware of this. WE tried to keep calm and protect the F, now that she put so much on the Internet, we are responding to you, because you are the ones receiving it. (1:32).

If you receive something from a scientist of the KF, Jalal, Arman, Dr. Guatua, Rick, to advise you to do these things, we listen. But this is all started as scare mongering, dividing the F. She has divided my family, I have not seen my son for 5 months. (1:34). ?? in the hands of a bunch of pedophiles. What do I believe my child, or following the F. We have been very patient in protecting the F ..

My marriage was over 3 years ago when she came in and said, can we start fresh. I said, what have you done that you need to start 25 years fresh? You decide as a man, would you keep a woman like this, you have a husband or a wife? (1:36). who does this? Then you believe the woman what she says to you. While I was in Amman meeting members, officials of the government, she drove 100 kilometers to see the lover thinking she cannot be found. Meeting the EC, member of UC, the Italian police to find, she was hiding in a hotel with the lover. Now you understand how much, what kind of man I am. My marriage was over from the Italian conference. And now you can understand, if you can lie to the husband, you can lie to the rest of the KF to destroy the F. (1:38). I did not bring this in public, she forced it, she published hundreds of messages to thousands of the KF KS using our channels. Now you have to know the truth. And this is not the first time she is an adulterous in our marriage, ?? weakness of the man ?? And these people are prepared to come to the court to give evidence. So you decide what is given to you as a most important piece of knowledge. My marriage was over 3 years ago when she went out openly with another man. I would like to stop this because the F is part of my life, it's all of my life. As she has put it in public now you understand the reason why. (1:40). I went to China for 2 years because I couldn't handle it. I would like to close this subject, and if you decide this is the way you would like to live, with the stones and the adultery and prostitution, take her side. If you want to live the life I live, and you live ?? this is a scientific development organization stay with us. At the time the whole KF Italy, the security apparatus of the KF went to override to find her, and she was hiding in a hotel with a lover. So it is not made up, in that week there were over 10 members of the KF securities looking for her while she was hiding. (1:42). And we found her through the husband of the sister of the lover. He told us where they were hiding. I would like to close this case and I leave it to the KF KS to do the same.

Any other question.

Q; He saying that's it you clarify a lot.

K- .. **We know she infiltrated KF Brazil to break it up.** .. and the Iranian KF to break it up. And this was becoming intolerable. Everyday we received hundreds of messages of what she is doing. And we decided to go open with it, the copy of what I tell you is part of the court, and we go in with full evidence in her own writing of adulterous behavior. (1:44).

Any other question.

Q: the so called the miracle phenomenon around the world in preparation of the New Age will change mankind's development?

K- When we come as the messengers of the Universal Messengers, we come in different shapes and forms, and we come in the structure of enlightening the STM. Some souls become aware of our presence long before the others, and they inform.

In a way, we come to take mankind to a new level of understanding. (1:46). We come to the point where collectively we transfer knowledge not only to the STM but to the universal Community. In so many ways, one by one, the souls, after they get enlightened they inform people around them. Like you KS, you learned about the Gans, you see the beauty of and you teach it to your neighbors ... and some of the KS of the soul which have been with us as the students of man, long before we came into the public domain, they do their work. You got to realize, as I said to the Iranian officials, when I wrote the first papers, first patents about Nano batteries, materials the Iranian scientists and took it and ran with it, and the Iran became one of the leading Nano technologists in the world. Initially through that paper alone. The same process goes, and some people hear the voice, and they know of our presence. You got to realize ... we are born in the physicality of the man, we are trained to understand the work of the man. (1:48). at a given point, the soul of the Creator opens up, which lead to the creation of the physicality to start. I cannot teach about energy in others if I did not have a degree in nuclear, and in that respect you could trust a scientist, not somebody who just talks. This time we came to what man believes at the edge of the knowledge and T, where in essence we carry 2 souls, the essence of the soul of the Creator, and the essence of the STM, and two exist as one. This is my life, and you have to understand, the teaching is done by 2 dimensions of the Creator, the knowledge is everlasting and is in both dimensions. We have to understand the culture of the man, .. the pitfall of the existence of the man, and with it we bring the knowledge of the Creator, that man will evolve. And this is the process. As I said, this cycle and the prophet of the soul, and the science come together in one, that they can both be explained at the same time. I wrote this years before I opened the T, this way with the soul. It is not something new. The knowledge is the knowledge of creation. (1:50). I ?? have put any topics in about 20 years from agriculture, medicine, .. anything you have put. As you have not seen some you don't understand, some don't make sense to you because you don't have the knowledge. We introduced you the MaGrav, but how many of you have succeeded. **But the MaGrav is one of the most advanced T in the U. It's access to universal energy if you understand what to do with it, and most of you because of lack of knowledge of the cosmic rays, understanding the physical matter of electronic, you're all lost in it.** And as my tradition, I do not do, I show it, it is for you to achieve it. The same, the most powerful system given to you is the 5 Cups. Because you have to understand, it's like an alphabet ..

(1:52). .

(1:54). You relied on burning we showed you the way the U works on the M field interaction. That's all. you weren't aware of the facts. You couldn't see how the big works, we gave you the Gans. You wanted to see how connected ?? we gave you the ball, the ?? MaGravs in the fields of open space, we gave you the 5 Cups. There is so much knowledge, but as I said, .. you keep on looking the cup, the Gans's in there, but you don't look at what the Gans's the field make in that cup, and what conditions it

creates. .. in our essence is enlighten the STM and with it to bring peace. So you see like the way you teach .. those who have received the message of the higher order they announce of the peace to come for man and the rest of it. But in essence the life comes from the same origin, depends which souls are enlightened. They are enlightened to the knowledge of the Gans, .. to the knowledge of peace. (1:56). You got to realize... with the knowledge we have and attachment of man to financial dimensions we could have created palaces and lived like the ?? leaders of this planet and become like others you have seen who by wealth trying to control man by vaccines and the rest. I never took that path, because the true god is the knowledge of the soul of the Creator ?? and I live a simple life as a man. It's much harder to live my life, then choose the palaces and temples and go the path mankind has gone in the past. I live amongst you, and I teach amongst you. When you know you can have more, and you choose less, you understand how we are, and how we live. I can make tons of gold, and live luxury life, and do magic's, and make places like none you have seen. ... but we don't choose. this time we live amongst the people to elevate the man ?? I have made my home in your ?? souls, that's where you ??

Any other question. (1:58).

(very long question by Azar ...)

Q: .. from a past teaching ... the STP in heart, and then you have the STM in the brain. You said the connecting of them and the opening of the STM, the man has always been doing it. you made an example of .. high emotions

you send that emotion to the soul .. you get a stroke .. trying to connect the 2. how to create the energy field of STP to STM so we can open the STM ...

(2:00).

children is connected by umbilical cord ...

if we want to get the field from the heart to open the soul, .. are we able to open this .. can we go back to it or no.

K- The reality is .. in the womb of the mother you are connected to the mother through the umbilical cord. you have a reserve tank of parallel soul as the center. But in fact, you live in the world of liquid. In one instance, (2:02). you are born in an environment free energy balance of the liquid you call air, and you automatically change your filter form water to air. This is what I put to the KS as we start opening the discussion of man in the space in the past few weeks. Maybe we can bring ?? form next week to this week that we can start deeper next week. The biggest fear of the man is if we let you in the space without a spacesuit you die. But if you have managed to change from a water world to a less open M field we call it a gaseous world here. If I take you into space between the Earth and the Moon, the way the Russians do, give birth in a water tank. If now that your soul is aware, that you can exist anywhere in the U. and the mother you give birth to a child, not in the atmospheric condition of the man, but the atmospheric condition of the U between the E and M, would that child survive? Or because there is no air would that child die? My teaching, my understanding, my life in the depth of the space, it says the child will survive. Because within the structure of the STM and STP (2:04). will elevate to the position of the environment. But man needs that time of evolution that he can get to that point, that he can give birth in any position in the U, not just from a water to a gas, because they are all different density of M field strength. The man will evolve according to the space and time. No man who understands the work of his soul will ever die anywhere in the U from the lack of O, because there is no O. O as

we say, energy mixture of the gases of this planet, has come to be absorbed the lung for the conversion of his existence. Now in the space we convert to the new standard to the new strength. So if you can go one way, you should be able to go back, or do we put the mother in the space on the gas mask, and leave the body outside in the space .. like the Russians, the mother is outside breathing air, the child is born in the warm liquid ...

Q: ...

(2:06). If I give birth at that planet, my child is going to get adapted to planet Zeus?

K- Of course, that is what it should be, because you got to realize, each environment has a given strength MG field. There is a need for our physical existence to adjust to that point. If you remember, this is something which a lot of you have a problem with, ... (draws a plasma spiral) and this is why a lot of you have got stuck with this. This is always shown by the M field of the plasma. So you have life at this level ?? earth, so your cells have adapted this level, but you are part of the total spring, but at this level you still can live and exist, because you use the same strength. This is the imagination of the man that he will die. No. Man will never die in any dimension in the U, it just depends which strength you take. And at that point you can manifest yourself out of the strength of the fields of your body. And it depends if you tune into it. (2:08). Or you still stay independent of it, but create a connection and relation, you absorb the energy of the environment, and according to that energy you react, your soul to manifests itself in that level. Here is 1G, on planet Zeus is 10G so your plasmatic field at the strength of 10G will manifest itself, to keep the integrity of the existence of the soul. And then in that point it will manifest itself in physical dimension of what that position ?? gives ??

STP and STM have Different Agendas - Came to Enjoy

Q: .. soul came here to experience things on this planet . . I didn't understand was it the STP or the STM wants to experience?

K- Both, want to experience.

Q: So they both have different agendas,

K- **Yes, otherwise they have different agendas, but they both in one brain ??** so I have come here to enjoy, ?? I make the table for you, and ??? , **The soul comes and the physicality is the servant to taste**, to give it the taste of what it is. (2:10) .

STM Decision Maker for Universe - STP for Earth

Q: So which one is the decision maker, the STM or STP?

K- The STM is the decision maker for the interaction with the U. The STP is responsible for what the physicality does on this Earth. And the two interaction manifest themselves as the emotion of the physicality of the man, both in the soul and the physical dimension.

STP Falls in Love with Married Woman - Level only of Physicality not Soul

Q: ..

Example, Jalal just got married and 2 kids, he suddenly falls in love with another woman. .. was that the STM or STP?

K- **The STP, you fall in love. because mankind has not learned to fall in love with the soul yet.** We have taught one or two, but mankind has not learned to fall in love with the STP and STM together. And if you fall in love in that level which is normal in the U. The condition doesn't come you fall in love with the next door neighbor or with a dog or whatever. (2:12). **It's acceptance of the totality to accommodate the love.**

Q: .. when Jalal saw that woman it wasn't his intention to fall in love, so how could it ?? be from physicality.?

K- You see **physical love comes from interaction from physical matter state of the body of the man.** This I have explained in many, many teachings.

R: Isn't that why they call it "falling" in love

K- Yes, you fall with your head on your .. and you break your leg.

One of the things mankind will soon learn in the span of the U, it's not that .. you are **becoming part of the UC, is you find matching M field strength on certain points with other creatures of the U.** As we come ?? the man's ?? And in that process you find out, your physical body's AA, and his or her physical body is got no, cannot or you will destroy or you will feel the strength will change the soul or the physicality of what you have fallen in love with, then you keep the love in the dimension of the soul, because physicality is impossibility. Her blood is an acid to your DNA composition. I have explained this in many private teachings.

Q: When this happens you are kind of being tested for your strength and conduct? (2:14).

K- It doesn't need a strength. It needs understanding.

Q: understanding of your conduct

K- ?? understanding of the position.

Q: So when you understand it you can overcome it.

K- Why do you need to overcome?

There is a big, big problem in speaking the ?? world. Do you stop loving your child because the second one is born. Or do you love and respect and you know the position of each child.

Q: Does it mean Jalal can love his wife and the other woman at the same time?

K- **No, it's understanding the love exists, but is, if the other position the love exists, then it can be respected.**

Q: So you just respect it,

K- **You have to respect it. The creation .. And then you find out the souls will find an accommodation for it, and they'll accommodate it, if it is done the correct way.**

We are loved by mother and father, brothers and sisters, and by friends. And we respect each one accordingly. It's respecting that love and accommodating for it to nourish.

(2:16). And if it is there to nourish it doesn't mean that you have to do this or that. It's accommodating ?? for it to nourish to its full maturity.

Q: The way talk about it is so beautiful ..

K- It is beautiful, it's nothing more than to give love, stays, and nourishes, it does not matter within, or with others.

Q: .. when I see compare the behavior, the way we understand everything is the field. ?? the human in matter state. we always look at things in black and white ..

K- **Let me explain what I teach is what is there. You have to understand allowing a love to nourish, if you can be part of it, or accommodate it, is part of the responsibility of the existence. But it doesn't mean that you can ?? kill it, because then you stand as we call it a punishment of it.** If we accommodate creation of love. You see, the problem is especially with the Islamic nation that you come from, where in Iran .. one woman is changed with the other one, new version, as long as you can have 4 cars in garage -- you understand what I am talking about? You'll find out in a traditional Iranian ethos, we respected as a woman, as a sacrosanct entity, the mother, the creator.

(2:18). When you change it to the numbers of, you can have 4 of them, and you can change it with the latest model, as long as you kept 4 garages, you can't keep one garage outside. then you come to this problem, where you sit. We have to understand, what does, what is best for the evolution of the soul, it doesn't matter how, and who, and where we are. And that's the key, and that is what mankind has not understood. We don't sacrifice, we give to elevate with the pleasure of existence. We give our daughters to other men for them to love and be loved. Does that mix with our loving for them, or is it with that love we see the elevation of their love, their soul in the new dimension. And if you understand this in essence, you have no problem understanding in the process of life, does not matter where, and which planet. This is why in the discussion we had a few minutes ago, I allowed, because if there is elevation of soul let it be, but when it becomes abuse of the soul it has to ?? stop. We cannot imprison the physicality because we think we own it. (2:20). We have to allow the elevation of the soul. And that's the true method.

Q: .. that was very good.

K- It's not very good. It's the truth, the way it is.

Q: Iranian KS came to Linz .. Mr. Keshe god bless you.

K- Bless you ..

Q: It's always a pleasure hearing you, your teaching. ... Why does the soul get punished for things physicality does.

K- Stop. The soul does not get punished. Soul gets positioned. Punishment is the characteristic of physicality. Positioning is characteristic of the STM. (2:22).

Q: .. when you mentioned people who do all these bad things, killing .. so the soul somehow gets broken down and becomes as small as a virus. So why would these souls become viruses ..

K- You see the soul find a position that they do not receive. It's the structure of the STM in elevation, is how close you can be, you can exchange higher strength, and receive higher strength. And this is what is the final destination of any soul. How much can you ?? receive that the higher strength you become the creator of. ... in cosmology. when I see it or hear the scientists speak about it, it makes me laugh. You have this explosion of huge stars, that they explode and they create many new stars. And there is a regeneration of new life. In the physical life, we give life to a child, when it reaches point of maturity you become an adult, you can have a child. In the cosmology, star formation, and galaxies, when the energy within becomes so much, it's become mature that it can spread. (2:24). and create new life from one, and with it new galaxies and new conditions, it's like having new children. And cosmologists don't understand this. In that process it's the same as your soul. Now one big soul, with whatever is done, and it explodes into smaller structures, but in essence the all carry the attributes of the big one. And those who are weaker might take its distance further, or they take a distance closer depending on what they receive or what they give. **When we have such a position with what we call Hitler and the others, they find, that soul finds its position in a way that no one gives, in a way, no one receives, and so it becomes remote. It's like a star it explodes and the one which is part of it, ?? ?? characteristic ?? It's not a punishment, but it's what I call separation by strength of the field.**

Q: In a sense they get rejected more or less, isolated

K- they don't get rejected, they distance themselves that they cannot hold.

Q: .. **You say a third of our population of mankind are visitors.** Why would they .. come here .. as a soul they already know what this planet has to offer, why would they

put themselves.. their soul could become sinful through their physicality (2:26). and maybe jeopardize their beautiful soul as an alien. .. and now they got themselves positioned where their soul would be marred and tarnished?

K- Most of the ones, now that we open the knowledge we'll be able to understand the separation, they are here in the existence of the soul. Which means they exist through the soul but they take physicality dimension to live. And many of them are here for hundreds and thousands of years. they haven't gone, there are people that .. move from one relation to another. that move from one city to another every time, then they start a new life. an old man or whatever. Because there is nothing else to do in the U. It's just to be occupied, I live on Earth just to do something. So you are here not to suffer or part of it looks to, but you are here as the passengers of the U. If you don't come to Earth, where are you going to go. How many satellites and stars have you traveled and seen. Part of coming and becoming part of the population of the planets like Earth, is literally killing time, as we call it. What is to you a thousand years is one second to them in the life of the space and the dimension they come from. There are some places on this planet, not only here that have a physical dimension like this, that you know you go to a camp for 2 weeks or month. (2:28). They come to Earth for that camping experience. We'll become part of these in the coming time. Now that the knowledge is developed to be spread, we become part of this.

Q: .. God Bless you..

K- God bless you and your family. We learn as a human race that we travel to go see Niagara Falls and to see Rome. In the coming time we'll travel the space of the U to see what happens in such a planet and such a U. To many KS who are after the wealth of the F, I said the biggest money will come in the tourism of this T. Now you see planeloads ..

In the coming time the tourist agencies will take your soul to the most beautiful place in the U to visit ..

What we call Aliens among us, now with the teachings and understanding of the transmutations, and transportations of the energies. (2:30). mankind becomes aliens to many others in the coming time. What we have seen, now we become of.

..

Shall we take a break ... >>> (2:32). (2:38)

Q; so even a terrorist in the act of harming can be frozen in his position anywhere on this planet? R I think that was in reference to the EU uses of it ..

K- What does that mean? The beauty of mankind in the future, is that this word will not exist. What you call terrorist. What it means, to bring other souls to have a fear of. Like all the emails you received with the 5 Cups and the rest. It is the soul will get to a point that it will be satisfied. At a point, that it will never reach this point to terrorize or to bring fear to another being. (2:40). The word terrorist and what we see the present bombing and what we are used to, the very first one was done by the British in Jerusalem in the ?? mother history. the first bomb, we know in the present cycle and the word of the present terrorist, was developed by the British, when was about the building of the state of Israel.

The other word is revolution, we don't need to revolt if we get the other souls to understand, or

the needs of your soul. These are the things we'll see wiped out of the vocabulary of the mankind. It will become taboo no own will even talk about it ..

It's like cancer, (2:42). when you receive enough fields and understand the working of the systems, even with your own soul, put balance on a regular basis.

You'll give the same energy all the time to the same cells that you'll not need to get old to rejuvenate.

If you want to be seen as an old man or young man it will be that way ..

Once man learns the working of his own soul ..

(2:44).

Any other question

Q: If I go into EU and ask to understand all languages ..

K- Do you remember the cup and the orange, now you become the cup ..

(2:46). You go and read the alphabet to learn a language

But first man has to find himself.

Satan and Satanic

Q: Is satanic or Satan a kind of plasmatic field energy or an entity?

K- They come in both ship. And they both strength , ?? not shape. What we call satanic are those who take energy from us, and they us that energy which we give for misconduct. And that's as simple as that. Misconduct at the level of the STP, they never reach the STM, it's a much higher order.

R: does it matter if that taking of energy is voluntary or involuntary in a way.

K- If you take voluntary you position yourself, (2:48). if you are given, it's no problem, but if you take from someone, it's the same as putting your hand in someone's pocket and taking his money or wallet. If they allow you to do it's different, and then you find the position and use of the energy in the right way.

Q: .. (unclear)

K- You add to it .you don't loose .. (2:50).

Q: So when people drown is it that their mind cannot accept the transformation to live in the liquid environment?

K- We have already gone through the transformation, we can't reverse. Unless you teach it. It's like if you

The cycle of understanding the work of the soul, is understanding how your soul interacts with other fields and energy sources in the U and within the vicinity this is the notch mankind has to learn. You can sell anything you like in respect to it, but if doesn't work, if it is not of the strength of you, it does not work. and this is what all of us have to understand. (2:52).

Q: When we listen to your teachings, do we receive it fully in our soul, even though our physical understanding is not coherent?

K- Yes, yes of course you do. this what we say, we teach the soul of the man of space, you're part of that solar structure.

R: So if we have to hear it several times, it is for the physicality to catch on?

K- The soul has already been taught. This is the beauty of teaching this way, . for understanding the knowledge this way, we touch the physicality and the soul at the same time.

Q: Is Earth a matrix for us to learn and play .. that way we can change what we want ? Or is it predestined like talks of end time prophecies? (2:54).

K- It depends, this wishful thinking mom, what games she plays with the children and the console , isn't it.

R; it seems we have the choice of perceiving either way.

K- Some of the mom's nowadays ?? the children are playing games. Because they played the first series when they came out, they didn't know how to use the console, use the joystick, they learned on the children. A bit rusty, but some mom's are ?? better that way.

Q: Will there be a Keshe app on the phone

K- Yes, what do you want to apply for
beam me up Scotty, app.

(2:56). The point is in the U there are no schools and universities, the knowledge is transferred to the dimension of the strength of the soul according to the position, time and desire. And this is where the university of the U sits. The name of it goes with the sound of it, university, where the U is, a collection of knowledge whatever exists in the U, and the STM is a university on its own and it has access to all knowledge of the creation. It's just that according to the time, space, manifestation given knowledge is present, unless you can tap into it. You always can tap to a higher order knowledge if the physicality is happy with the present ?? position.

Q: So the UC is the same as the STM and EC is the same as the physicality in our Earthly existence.?

K- Collectively yes. Now maybe you start to understand a little bit more. (2:58).

How to Calculate Inertia

Q: Inertia... you said to find out the Inertia do I take earth beneath me to make Gans to know the specific intensity of that place? How do I differentiate the Cup of Inertia from where I am with the Inertia in Tehran. Is mass the difference between G and M plasma mass or mass of matter, ?? 75 kilos ?

K- The Inertia is collective energy of the matter state, including magma. The thickness of magma has a direct effect on the Inertia and then the matter state of it. (3:00). In so many planetary systems the Inertia is calculated on the liquid for mass, not the matter state mass, as a solid. This is how you land in the liquid planetary system, how you correct it. Then you find out that the thickness of magma, the speed of rotation, the elevation in respect to MG field will create that condition. So when you want Tehran, partially not only you calculate the Inertia, but you calculate the field strength of the magma mass underneath, the low rate of flow, because more or less, partially the field comes from the flow of the magma in that point and position. And all the magmas don't have the same thickness and strength of the flow across this planet. They move into channels and the friction by the other magmas direction of ?? flow give them the different field strength or what we call Inertia. So Inertia of Tehran, more or less can be calculated, we have technologies, we know exactly what it is, even which position in Tehran, we can go to that ?? length. It's the same in the U. You measure the strength of

the field on the point of manifestation, they call it Inertia. Sometimes you create the Inertia for yourself to manifest yourself. (3:02).

Next question.

Q: Who is the one who manifests himself and talks when I remember my dreams of flying, it's my wish or a message of my soul?

K- The existence of the soul in strength brings dimension of the emotion in the reality of the existence. In a way, when we feel, we have an emotion in our brain, or we manifest it in our physicality, **it's the interaction of the fields of the physicality, which gives the information which is coming through the soul. The continuously receives information or energy from all dimensions of U. Like man it filters what is applicable to it at this moment of time here.** It's no use for me to know what is happening in Europe when I am living in London, because rain, shine whatever there, (3:04). has nothing to do with what I am living here in Europe. So it is the same with the soul, we choose the time, place, and manifestation of it. And to what purpose is this going to be used, and to what it is going to bring, and in that process the fields energies of the strengths dictates what we will see, chase, follow, what we will allow to be part of us. And which part of it you want to take, what suits us.

Q: What happens to those who don't go in the EU, if the majority evolve, what becomes of those who remain unchanged?

K- We have done a rough calculation, (3:06). the EU, if you make 1 million of them and 50 to 100 people a year can go in it, that 100 million. Now you try to get 7 billion in it. Or you try to make it efficient that let's say 10,000 people a year can go in, and then you have 1 million, you have 10 million. So in essence, mankind has to learn to operate within the soul, then operating in the EU, overall in the long run. As we show and as we teach, use these systems, gradually more and more will come to understand how to elevate their own soul. How to elevate their own structure, and then we go into the next steps. Then the position of the elevation of the soul becomes part of the structure. You don't need to go into the EU once you learn, and maybe some people learn and they teach the others. (3:08).

Q: So in other words the most evolved community on Earth would be the right place to have the first public EU? repeat ..

K- Not really, this is what we discussed before, it has to be elevation of both. When we put the system in Africa, we put one in Europe. Don't forget you put the supposition that the European's are very clever, are very rich. Even the Europe we put these in the most crowded areas, where they are lower than the most backward parts of Africa. Not having physical value, what call it, things does not mean you are not intelligent people. Or South Americans, and you find out some of the Europeans are more backwards then the backwards Africans. So it doesn't go that way. (3:10). But we try to bring that elevation of the soul through the EU become the totality of the whole human race, and not exclusive one race or the other.

Q: What does it mean when we begin to experience more and more events in our physical life that are exactly how they happen in our dream?

K- Don't we call these back to future movie, Rick? .. Some times our dream are to foretold what is to come in our physical life. And when it happens we call it a dejavou, and souls are aware of the changes to come and they inform the physicality. And we see it, and observe it. (3:12).

Q: Med-bed, when the US government talks about Med-beds is it using the same T as yours?

K- No, no, Med-beds is medical beds and these are all to do with. .. First of all we don't have a beds, we have a chair. And secondly, it's an EU for elevation of the soul and physicality and understanding of the processes in the U. I had this Med-bed. This is an EU ... the world of science hasn't got a word for this, that's why we call it EU, universally enhances all the cells of the body of the man and then in the processes to come, it enhances the knowledge of the man at the level of the U, that you can transmute the energies of yourself to understand the existences in other dimensions. The name of it is ?? with, enhances you to the universal level if you wish to receive that.

R: I watched a 2 hour video on Med-Bed ... (3:14).

..

K- Part of this T is what we understand and we develop. In so many ways, we create ourselves. But even when go into the EU there are equipments to support, auxiliary for specific conditions, not it's all the same. And even these EU we'll tune for cancers, mental diseases, enhancement of that can be specialized for given condition enhancement, Which will reach the maximum performance.

R: No laser and scalpel .

K- We don't have laser in plasma T, yes. (3:16). maybe in the future but not for this job.

Q: .. Is the same Gans from the winter and summer period how different are these in structure?

K- Not much. the dimension of the position of the Earth does not really make much difference. ?? mental condition, very little effect. You are still in the same position, so you are impacted by the MG field and Inertia of the same position. There is very little changes in temperature.

Q: The strange thing as you speak your words are like my words, instantaneous thoughts, as you speak it is coming from my soul, instant recognition. How can my soul know what you are about to say, and if this is so then the dark forces would be aware of any new developments, (3:18). or any new thought, and if this is so, then silence may be the only way to defeat those who wish to hold us back?

K- the process is as I explained before. **The voice comes from the information which is ?? from the STM, and if you are of the same understanding and strength in certain condition, as there is no time, zero-time and position, you hear the voice, and your soul translates it into the knowledge for the voice box.** The voice has to go through the conversion of physicality, but the soul receives it and understands it in the dimension of the fields of the plasma fields, and that's what I said many times. We speaks in the words of the man, but our knowledge is spread across the U to the soul of the ?? speak. We teach the UC. And maybe some humans gradually reach to that point. Any other question or shall we cal it a day. (3:20).

R: Night at the Roundtable . K will be a guest ...

Thursday the 29th teaching is at 2PM CET and not 9AM ..

K- Those of you who are contemplating or donating to the different structures of the KF, please find out which country you are in, and how you can help with the donation or support with the EU or whatever. As we see the structure coming up .. Iranian, Brazilian KF a bank account their. (3:22). Same with Chinese.

Any other question.

K- Next week we start teaching you how to live in the dimension beyond the solar system. How you interact and how you have to change your position and everything else in that respect.

I do apologize, but part of my private life has become, without us wanting, part of the KF life as it has been, as we have seen before, and now we see the same people ?? doing the same thing. And somehow we try not to go back to this, and keep away from this, but keep your life safe, and there is more to this movement by this lady, (3:24). then catches the eye. keep your children, wives and husbands, safe, under whatever names they come to you. Even they use the names of KS, we have seen in some communications. KS are those who seek the knowledge of the KF and not those who destroy the KF, and learn more as now we are a lot more be done in the background, and we go through the process of the teaching of the deep space travel, introduction of mankind to UC, and the new knowledge and science that will bring new changes to all of us. This is a universal revolution, not an industrial revolution, or scientific revolution, we are bringing the universal knowledge to mankind, and with it will bring many changes which are unknown to man. the Universal Revolution is the fundamental change in every culture when we get directly involved. We raise the level of the soul to what we call the highest level, as we see the race deserves to be elevated. And we see the human race in that position. to elevate the soul of the man, and the inhabitants of this planet together.

Thank you very much.

R: 350 KSW (3:26).
