Emotion of Knowledge
DNA of Soul

Soul remembers all of its past experiences
Mr. Keshe Past experiences in Desert to prepare

Belief in religion has a fields strength

Change will come through new soul to be create March 21st
K comes from a Bahai family, Bahai religion corrupted worse than others

ENGLISH TRANSCRIPTION

(:06). .. As part of the KS, in way or another in the past few months we have taken a new course. As we release more knowledge .. in the universal level, and not on the matter level of mankind we come and we encounter and come to new ways of using our own physical body, as it was said, I made man in the image of myself. So in fact, up to now we knew about the man, the physicality of the man, and the emotion of the man, in the teaching of the past we always said, in the universal level as it is made in the image of myself, means there is more for man to know, more about his own creator, about how his creation has appeared, and what is the connection between what he has in the physical dimension and what he has add all the time in the dimension of the strength of the soul. In a way, we have one common ground with a translator, converter, or inverter that is the brain of the man. And what we start teaching is, what happens, what other knowledge's are available to the soul, without, or before it is converted or inverted, the STP of the man can translate it for the physical body of the man, to live by.

In the past time, we had the prophets in any shape or name or form. (:08). And in that process they always taught the man the process of understanding in a physical condition and what was, something in the background that was controlling it, we call it a soul, we call it a Holy Ghost, anything we want, we attach a name to it, but in fact, without confirming that it is part of us. And if we understood what is made in the image of myself, is as we said, we know 5 or 6 of the emotions, happiness, sadness, joy, whatever, now we understood, in the past few weeks there is the emotion of Presence. There is an emotion of understanding of transformation and transition in any dimension. There is a knowledge which is now, is part of us, we have to elevate to understand more about our soul, to understand the two new emotions which we have introduced which is common to us. Now we understand it, now we have to achieve it.

Emotion of Knowledge

One of the most important emotions of the man, is the emotion of knowledge. We are born, in our DNA we take shape, we get constructed according to the environment that we live in, and becomes our structure. Then the interaction of the connection of the fields of what makes us to interact with the environment we call it, with the STM. And this is what the man has been. Now we touch the soul of the creator of the STM, what was created out of, and lead to its creation.

DNA of the Soul

And in that process, as we have the DNA of the physicality, (:10). now with the new understanding, we **understand the DNA of the soul, the structure of the soul, the knowledge which sits behind its creation. The soul is not created on its own, it's a collection of the knowledge of the U in one thing, how to position itself in respect to every other thing in the U.** So it has a knowledge, and if one understands it becomes easier for mankind to reach the new level of elevation of the soul, understanding the dimension in the universal condition. .. it means within DNA, within RNA of our soul is the Knowledge of the Universe (KU).

We Do Not Need to go to School

We do not need to go to school, we do not need to go and put every cell of the man, to become the cell of the eye, to be this color, to be that color, because collective efforts of whatever answers are put together in the dimension of physicality, and the environment which we are born, we are preset, to look Chinese. We don't get born as blonde or black or white skin in China, and then we change to become Chinese looking. All is preset, all our genes, for where we are going to be born, physical dimension, and our .. intake of the knowledge gives us the ?? Chinese. Or what we understand now, is the same for the STM, but this time the soul takes the shape the form of the U, and the knowledge we carry to be physically in the shape of the Chinese or European, now is carried in the STM, which means the soul has a shape, has a dimension, and has an integral part that it remembers all the knowledge. (:12).

How we remember at a certain age we have to start moving, we have to crawl, at a certain age we start speaking, .. thinking, and communicating, and we choose the language just because we are born in a community of the same language. Now our soul is the same, I made man in the image of myself, but the image of the soul is representative and in the totality manifestation of the STM in the U Community, how they see you. You have 2 lives, 1 in the physical dimension, and 1 in the dimension of the soul. And now that ?? inherent RNA and DNA of the STM is what we start opening up, that the mankind understand the truth about himself. The truth about what capabilities he has that he didn't know.

And one of them as we said, was the emotion of the Presence. Today we talk about the emotion of knowledge, which means that when mankind elevates to the position of peace and understanding that become part of the U Community, he realizes he access to the most advanced amount of information about the U, because it has been put in there. It has always been there, but we did not know how to tap into it. And this way, with the KU mankind does not need a school, prophet, a guide, because the KU how it is, how you interact, how you know where fields are, you know where which part of the U there is a problem, and not to come, not to be, or to avoid, (:14). or to be. Therefore as within our RNA and DNA we carried the memory and information of our ancestors, we don't touch certain things, so we don't do certain things, in the memory bank of the DNA of the STM, now we get access to the KU.

Day of Judgment - Take Path of Soul - Knowledge is Within Soul

What this means, .. man is much more intelligent if he decides to take the path of the soul. This is what we call, "the Day of Judgment." This is the point where we decide to judge, that we want to change the point of the physicality, to the point of the transformation and communication of the life of the soul, detached from physicality. Where even in the dimension of the soul, you're still attached but in a bigger dimension into the U and the U Community and collectively field forces of the creation, but within your soul you know exactly where you are, exactly what you position you have, when you become dimension of the STM it's like you are member of the family, you know your room, you know your place on the table when you speak, and you understand the structure of the totality but you are part of totality. **And now this is where we take mankind to, to the KU and this knowledge is within the STM.** And no one can tell you, I can show you, I can do this for you, I am a prophet, (:16). whatever. We don't have prophets when there is no money to take to be profited by. And in this process we become all KS, we seek knowledge of the U, we seek knowledge of the creation, and once we learn instantaneously, in what we analyze, become the knowledge of the totality.

In a way, **our knowledge is transparent, .. and accessible to every created being in the Unicose. And there is so much knowledge, beauty, information that, in a way, we hardly move, because the adjustments are fine, the knowledge is so finely tuned that we continuously receive it. It's like an information bank, and in that bank sits the heart of the STM.** So many of you will ask, what will we do when we go to the dimension of the soul? At that point the soul is knowledgeable, it's omnipotent, in that point the STM and has access directly through its structure of the fields to the Creator, as itself is part of the creation, and Creator is part of him. This is why in the scriptures it says, if I tell you have beautiful the other side, you'll all commit suicide, which means you don't accept dimension of the physicality, as it is the prison and the barrier for you to reach the ultimate goal. Not that you want to run, but you want to be part of a bigger structure. (:18). You move out from the village of the Earth to the dimension of the U Community.

Knowledge of Universe Given at Inception - First Make a Sample rest Copied from

In so many ways, once you understand this, you choose your soul, where to manifest itself and where to be, and where to be connected, who and where to be part of, and what to love, and what to give and what to take. In so many ways, the **Knowledge of the U, which become the knowledge of the man, which has been hidden up to now, as he could not handle the truth, the understanding of the totality. And from now on, not only for mankind, but for all the creatures of the U, this become open and at the point of inception,** but there is one criteria to it, which needs to be done. The first as we say, **sample needs to be made, that the rest can be copied off.** Creation in 2 dimension of physicality and the soul in one, that both are aware of, and **this process will take place in coming months,** that mankind will move in the new dimension. In a way, the intellect of the U will become the intellect of the man.

In so many ways, it means **man will be given the library of the knowledge of the creation from the ?? and the time of the creation. Everything the Creator knows is accessible to man according to the strength of his understanding, and the strength of his devotion to the creation, and to the Creator, in trying to serve and give from,**

that in elevation of the soul, mankind or the STM reaches more understanding of the totality. (:20).

Need to Make Collective Adjustment - STM goes in one direction

And sometimes there is a **need to make what we call collective adjustment, and this is the time for it, that the totality of the STM moves in one direction, and in one dimension.** We think we know the knowledge because we have to think, what we have learned to add from the knowledge, when from then on when it's born, has access to all the knowledge, every information. And this way, is how it has been for many creations, and many times across the U. If one race reaches the point of maturity, the knowledge has become available to all that creatures of that point and time. It's very like now, computer, everyone according to their understanding can use it, where 20 - 30 years ago was something in the realm of fancy. Now we live through it and because of it. And it will be the same, we'll live through the soul and use the physical body of the man, or the physicality to manifest where we are, how we would like to be.

Many of you, in coming time, **when access the soul of the knowledge of the creation, and you can determine your own features,** and manifestation, you might want to change, but you find out you go back to the origin, because this is the way you became, this is the way you become from totality to part of the totality. In a way, if you were black skinned and brown eyes, and you always wanted to blond skinned and blue eyes, (:22). that will be given to you through the knowledge of your own soul, but would you like to be the only blond and blue eyed in the family of black in the center of Africa, where you think you have a privilege, but you find out you loose the love of the others. And you return back to, but you know you have the capability. **Having the capability and understanding does not mean mankind in the level of his soul will use it, but what you'll do with it, create and enlighten himself, he can use it to elevate the others.**

The Knowledge Has to be Taught Freely - I am connected to every soul

The knowledge has to be the way I taught for years, free, as I know when I give the knowledge it's accessible by all the creatures of the U. This is why in my teachings, I always refer, I don't only teach for the man but I teach for the U. Maybe for the first time you understand why, **as a soul I am connected to every created soul in the U, and my knowledge becomes their knowledge. And you hear in the voice of the man, they feel in the M field energy of the thoughts.** Then mankind become wise to one point, why do we choose to manifest ourselves in the dimension of physicality the way we are. As I said many times, places like Earth are nursery's of the creation of the seeds of the galaxies and the stars. Now you understand why. This is the point when you reach, in that point of the strength of the soul, then the position by the soul has agreed on which table you sit at, in which part of the world you'll be, that you'll be the most effective and beneficial to totality of the creation in the Unicose. (:24). Up to now you become a doctor to be useful in the hospital on this planet. Now in the dimension of the soul, you become the soul in the position that allows the other souls to prevail and to be given to and to be enlightened, and to be in position, then you become the most effective in the condition of the creation for rest of the souls. It's not sacrificing, it's finding the position to be able to be part of the elevation of the others. Detachment. Detachment from the knowledge, detachment from financial things, detachment from

physicality, physicality in the finance and everything else which man has got himself attached to, is the doing of the man from this planet, does not exist outside. Is not part of the creation. Is what we call, local ritual. In a way, mankind has decided to play with papers, and we do this and that, and we give ourselves a title. You remember when you were children and you played games and somebody was mom, and somebody was dad, the driver and something else. This is what mankind has been doing for past years with himself. And now we have opened the door of the KU. This way, no man can be fooled, and no man can claim anything, more than to be a KS of the U. To seek knowledge, that with that knowledge he leads to the elevation of the soul of the others by loving, by giving freely in that dimension. (:26). Now you understand why we call ourselves Messengers and not prophets, we just teach you the message, and just bring you the knowledge, that with it you find a way not to elevate your own soul, but to elevate the other souls, that through it, through the correct conduct, your soul might be enlightened, that you find a position at the table of equality and peace in the Universal Community. Then you find out in this process there shall be no kings and there shall be no presidents, and no bosses, because you give according to your own strength to the best of ability of what you carry in essence of the field of U, to the others, not just one, that totality finds elevation to the dimension of understanding the process of the creation and the path to the Creator, which at end need to be part of, as I am to be of. In this process, mankind need to reach to that point, and this is the purpose of the teachings in the coming time. The emotion of the knowledge. the knowledge of the creation, the KU. Unfortunately, in the U, as we don't have no courts, no prisons, no judges, no teachers, and no school. This is why the process has been set this way, that by learning through the work of the U, by sharing through the soul, man constantly and everlastingly is ?? information he needs he can have access to. You learn mathematics, $1 + 1$, (:28). in the first years of the school, but at the end of your PhD or whatever, you still use it, because it is in somewhere you have to know how many grams of whatever you add to another, what gives you in weight. So does with the STM, the elevation of the STM, that now the mankind carries the basic knowledge and how he wants to have access to it, is how he devotes his soul to be part of, for other souls to elevate themselves. to find more that through their strength, he becomes stronger, and with it he can serve more. Detachment from physicality, detachment from bondage of what could be, that he trapped the STM. Maybe, maybe the KS will start understanding more as they understand about the knowledge of the creation. Not through a teacher, but through their own soul, through the creation of their own understanding that they always had it, but they didn't know it, and now it is time to do. The problem with mankind is, in a way, the fear to open that door in a bigger dimension. Fear of unknown, what we call the Day of Judgment, because it is us who has to judge, am I ready to go. Do I know enough within the structure of my soul that I can go through the transition, and at the same time I can have access to where I come from. The KU would allow you to do this, that the fear of the man goes away that I have to die to go. (:30). But what is going to happen to the mankind is very simple. I have access to Universal Knowledge, and I have access to the knowledge of physicality of this planet, this Earth. How can I use this knowledge from the beauties and attributes of what is with me in the physical dimension of here to add to the Soul of the Universe, to add to the KU, and this is what the mankind has to learn. You are not born to eat and to do whatever, and just at one point to die. Without you knowing and in the process of your learning in the dimension of physicality and what your brain filters that it doesn't become ?? plucked up in the soul, you add to the KU. How mankind learned to make computers has been added to the KU, without mankind knowing. How you have come to understand, how to make the most beautiful

structures, is become part of the KU. So in fact, mankind has never been alone. You were not aware that what we say in English, "you have a spy in the cap." What does this mean, it means that whatever the mankind, the peasant to a president, learn in the dimension of the soul is added to the soul, to the information, the knowledge of the U instantaneously, there is no waiting time, there no time that later on I will upload the information when it comes. .. how mankind in every lever, has been always part of the knowledge of the U, and part of the knowledge of the Unicose, but now you are told. (:32). You learn how to cook, you learn how to do things in the pan you mix, you give things with the pleasure, creates you, that pleasure and that knowledge becomes the KU. If I want to I can tap into it, I can, from now on mankind will find out that there is no need for what you call, computers hardware and software, because everything is in one. In the coming days and weeks as we said, in the research centers, we start showing you these, that you can see, that you can go through the transition to see as you call, the other side. In a way for man to be able to see the soul, .. be able to appreciate and confirm his own existence, and in that process man will always be given a chance by his own physical soul to choose the time, the place, and if he wants to change the dimension of physicality's. In times, many of you have heard about people who live hundreds of years, they are nomads of this planet, because they have found access to this, they don't need to, they know by traveling the span of this planet they can add more to the knowledge of the U, and they choose so. The knowledge they carry and gather becomes part of, not only the STM on this planet, but part of the information and knowledge of the Unicose. Then you understand, there is no time in the life of the man. Physical dimensions in ?? access to the soul can be changed, but do you want to change, do you want to the wisdom, or do you see in that process, (:34). what you will do, add to the knowledge of totality, that, you'd take that path. Then does age have any meaning, or the love giving, because the main purpose of the life in any dimension in the U. then you understand when it says, I made man in the image of myself. I am the lover and the giver, and so is the man, and the STM. We just don't take part, we take the totality from all. In so many ways, mankind has entered a new dimension, in a dimension of recognition of two cycles of life simultaneously running together as part of his own creation. It goes back to my teaching from day 1, I always said the physical body is a leech on the STM, now maybe you understand why. You have seen little animals coming from own point and taking shelter in the leftovers physicality of another animal, and they walk around as (if) they are the other animal. Doesn't man do that, takes a bear, takes a cow, takes the skin and he puts it on himself, inside the man, outside a cow, but does that clothing of the bear or the cow, makes the man to live and think what the skin he is wearing, (:36). or is it just a cover to protect him from the matters of the environment. Now mankind reaches that point, to let this skin, what we call the physicality to be taken off, but knowing it's there, he can put it back on to manifest itself. In so many ways, you become visible by the dimension of accepting the skin, that becomes the face and the body of the man. And other times you want to be the part of the U, you don't want to be shown and be part of the physicality of what you showed today, here you want to be any planet, or any position in the U, now you have to understand how to tap to that knowledge. And then if you understood it, then you understand the emotion of the Presence and the Place, the emotion of knowing how to manifest yourself in what position, understanding the position of the universal energies which is within the STM and is the outright right of every soul given at birth. Up to now every creature of the creation, except the Creator has to choose one, had to be part of one, to be in the dimension of the soul, or in dimension of the physicality, entrapped by the soul. From now on we have elevated the soul of the Totality of the U, to have

access to have both, that there is no conflict, and there is no position for misconduct. Then with what we call, as you go for driving with the new car, you are taught how to drive. (:38). The EU and the systems like this which will come out of the KF will give you more insight, shows you, trains you, how to go through the transition, how to be able to trust that you can live in both dimensions. Many of you when you enter the EU you will see both. And then you choose. In so many ways, the new EU is where you are given the access to the knowledge of the U, even though you look at what it does with your physical dimension. It's you, by going in will understand, do I want to be, in what position, and in what essence of physicality. Many of you once you go into the EU will come out totally different person, in behavior, in understanding of the knowledge, and access to the totality, because then you find out you have exchanged the STP for the Soul of U, for the STP becomes the jewel in showing itself. How can you show something when there is no dimension of physicality, in essence of the feeling of it, then you'll show yourself as a jewel in the crown of the knowledge, does not matter what that knowledge is, no knowledge in the KU is insignificant. Everything is respected, everything is valued, and every man, every creation, every ?? creator, every soul is equal. In the coming time, as the evolution of the T for man to be able to go through this transition is getting completed. (:40). In the time to come we'll show you the path. The way that you decide, what level mankind as a person, as a man, as a living thing decides the future of itself, not in the society of the man, but in the society of the Unicose. And this is the whole purpose of all these teachings, to show the man to a way, the correct way, to find his path to salvation of his soul, to be servant of Totality. Nothing more and nothing less.

We teach free, because we are not afraid of our knowledge to be stolen. We give it to the totality, that by understanding it, they serve the others. Those who think they can steal or they have stolen, they'll find out that is exactly what they lost. As I always said, do you take money or anything from anyone at the value of let's say 1 Euro, where you know you'll have to pay 3 Euro for your misconduct. A fool does that. You cannot lie, and you cannot hide, and as I said, you ask and you are given, because in that process every arrangement has been made for the soul to receive what has been asked for, if it is there to be given, and accepted to be given. Does not matter what you do, as once it is accepted the path is set to reach that point. As you see you charge a magnet and you put it in the middle of other magnets, depending on its charge, it chooses its position, (:42). amongst the other magnets. And this is what it is, you give it a charge, you accept, now every other soul has to move to accept that position. And this is what the mankind will come to understand in a short while, that mankind is too physical and needs to be shown a path to be part of the totality, to be in essence the point of the creation, and freedom of his soul.

The only people who will object to this are those who call themselves, simply, men of religion, because they know the time and the term is over. They have done the job, they have brought the man to the point of maturity, and from now on, it's for mankind to become mature to the truth. In so many ways, mankind need to understand the position he is taking in respect to his soul and to his physicality, the maturity of time, the essences, of the totality, .. of being wise to use and to be part of the wisdom of the man, and then to be part of the wisdom of the U. Mankind is not alone, never been. (:44). It's time to mature, it's time to understand totality. In so many ways, it's time for mankind to choose. Does he want to be at home on Earth, or would he like to be part time, part of the U Community and travel the spans of the U, to see, and the way you charge your

soul is where your would will find position to be part of. You cannot parachute in, you elevate your soul that in that process of finding a new position takes you to what you want to see. Then you understand the emotion of Presence, and the emotion of knowledge. The emotion of what we call, traveling in through the span of the U, through the emotion of the knowledge, and emotion of Presence. And in that process with the knowledge you have you can manifest yourself anywhere, in any point. Do you need to work, to live, to survive in that dimension, again depends if you want to be part of that society, the way they live, or you become passengers of the U, traveling the span of U with no need to work, no need to something in time which is not pleasant to the physicality. (:46). This is why in the coming time you'll find on this planet massive unemployment, because people do not want to do anything , because they have access to everything in the U, and they want to be travelers of this planet to enjoy to become the tourists through their souls, not through airlines. Maybe the new Corona, with what has come out, is the best thing for mankind. Airlines grounded, but the man still wants to be across with the lover, with the child, across the world. With the mother or the father, and that transition can be done. But that point of transition has to be accepted for the other side for it to reach it, and at the same time, it cannot be blocked, it cannot be avoided, it cannot be resisted, as the claim of totality counts. Those who do will be punished with the de-activation of their own soul. They will not be elevated, and they will stay at the same point. Everything has to be covered in according to the essence of the correct conduct. To give, to take, to find a perfect position for everyone at the same time. In so many ways, the knowledge, the emotion of the knowledge and the Presence, becomes a gift to mankind for it travel the span of the U. Maybe now you understand, this is the 3rd emotion in the past weeks we have opened to mankind, and there is nothing more than the emotion of knowledge. It means you have to tap into it, it means you have to be able to reach it through its own understanding, and through understanding of the STP. (:48). As you come to a new dimension you have to accept, if you want, even in the dimension of the soul, what we call the emotion of Presence, the emotion of the Knowledge, at the same time, that with the knowledge my presence is not harm to others, and is the cause of elevation of the others.

Maybe mankind is ready to move, my think, another 12 months, 18 months on the man's time, will bring man to maturity. We have ended the kingship, and very soon, sooner than you think mankind will finish with leadership, as the failure in one leader, opens the eye of the totality, that there is no need for people to lead, and take mankind to the verge of destruction. Then our mission starts to accomplish itself, to give the man the freedom of knowledge, that the man moves from the dimension of physicality, to the dimension of the existence of the U. Everything has to come exactly to the same point, and all has been preset. No one can change the destiny of mankind that you, as you remember, I always said, if we force you, you go back to it, but if you choose you stick to it. We are just about to see one of the 5 known ?? of this game where the man will distance himself from any leadership. (:50). The scene is set, and in time, as was done with the kings, will be done with the leaders, and man will all be equal in dimension of understanding the KU and superiority and priority of one soul to another, will be as if you want to have, to gain more knowledge, to know more, and by being near you, I take from you as a weaker soul to elevate myself to understand more in a much faster way. Transfer of knowledge through understanding of the fields of the U, understanding the process of the transformation and transition of the souls, and the plasma, where the stronger always gives to the weaker. the one of the more knowledge on acceptance and positioning your soul, will receive more, then we seek for those who are light in the

deeper dimension than ours, and we recognize them, as to be the higher knowledge in reaching the inner soul of the creation, and we want to be part of, this is why in most of the teachings I always say, the members of the UC will be known by their light and not by their physicality. Now you understand why and how we have taken shape into this, and we taught you step by step. As I sad many times, walking on the street, you might see the body of a man, but on soul you understand it is a member of the UC as it is enlightened and it is their to give unconditionally to serve mankind. Now you understand, as they are more enlightened, (:52). You want to be there to receive from them, they become the point of transition as they themselves being of a lower to the higher, receive more to be able to give. The positions of UC appointed on this planet, chosen by the STM himself, is one of the ultimate goals, and points of entry of mankind to U Community. Because we feel our emotion and we speak our emotion through the languages of the man, so we have chosen the UC by languages not by race and color. Now you understand how correct the whole structure of the KF from its base to the top has been set a long time ago, but you have been guided step by step to go through it, for you to understand, and for the future to understand the totality. In so many ways, UC members have access, they have opened the souls to the dimension of the universal knowledge through their soul. And those who abused have left. Abusing the soul of the others as members of the UC, is the only time you loose your position through your own soul, and through your own misconduct. Members of UC have to understand they have access to something that the other members of the humanity strive to get to, and they are the point of transition and connection, and no more. And when you become too arrogant you loose the connection. In a way, the line is lost. (:54). When you see a member of the UC steps down and is not there to serve, it means they have reached that point for their souls not to receive. They might come back, but then they might be wiser to be, but it has to understood, UC members are the step stones between the STM and the soul of Universe, and the university of what I call knowledge of the creation. If mankind, or any soul does not manage to get access to understand the work of the Universal Knowledge, mankind will stay in what we call the village their own existence. Does not matter if it is the Earth or any other position in the U.

Any questions.

Q: .. last week we had interview in ?? magazine ... (:56). they want to give some interview or some text so that we can put in that show.

K- If it needs to be speak to the KF , they decide. Write to the KF ..

I have stepped down in the running of the KF, so these things have to be considered by the management of the KF.

I have gone back to research ..

(:58). Q: from the prophet, .. I am the city of knowledge, and ?? Ali is the key.

K- This refers to Mohammad, .. and Ali is his cousin, who became the head of the sect of the Shia Moslem ...

Q: How can we interpret this in what you said about the knowledge being in the RNA. How can a good Moslem use this knowledge?

K- A good man has no religion, no faith. It does not matter if you are a good Moslem or a good Christian ... In so many ways, in accepting the position and condition by the color of the name, and skin we have already limited our own acceptance of the totality. How can you be good Christians, Buddhists when you actually only have to be a good

soul. Do we like the color of blue, red, yellow or whatever which color is the best, depends on what and how we look at it, and what is our preferences, (1:00). This is how, by giving names, they have separated the STM from the others. Give it the name of the color of religion. But in fact, it has to be all, not just for Moslems, the question covers, how can, to be a good soul, not a good Moslem or a good Christian. These divisions have to be buried by man, before man will be able, to enter the dimension of U Community, where you have a division in understanding the color of your soul, how can you be part of totality, which has no color and is total. These divisions are made to control the essence of the STM to the ?? path for those who created the division of the soul itself. The prophets came to show the path, they didn't come to divide, and this is what mankind has done, divide himself into color, race, and religion. It's not done by the Creator.

Any other question.

Q: ... Mohammad sent for all creation. Allah we want unity.

K- Do we have unity in Islam? (1:02). Does Islam become unified when they understand the truth about the knowledge we have brought for all to be equal and the same. Islamic leaders, Christian leaders or any other path what we call belief, will succeed in their mission when they all confess and confirm to the unity of one. The elevation of the STM and no more.

Q: Mehrnez.

A true Moslem is an open Moslem that knows the Koran, which accepts all religions ... (1:04). there is no difference between the religions ...

When they ask you about soul. you answer them the knowledge of soul is with God. .. so prophet didn't answer he had the knowledge of soul. ..

The problem is Moslems don't understand the real message of Koran, the spirit of Koran and they go more to their culture .. (1:06).

K- What do you call the religion? What is religion to you?

Q: Religion is something relating. I look for, I know I am not just this body .. using better my life, not to waste my life ... I have tried other religions, Buddhism.

(1: 08). search for .. something to relate to. something doesn't give the answer, we look for something else ..

that's my point of view, (1:10). and everybody has their own point of view ..

K- What is interesting is how we value ourselves on the name of the religion, and how we and position ourselves, and how we are tolerant if each other if we realize we have the same goal, irrespective of religion. In the last Farsi teaching we tested this amongst the KS .. was the UC of Hebrew language, and none of the Iranian panel objected to it, and it was written clearly, UC Hebrew. As were religion didn't matter, how we shared the knowledge mattered ..

(1:12). This is the point where we

On Friday, you have a program in Brazil, the KF Brazil is inviting the KS to bring men of different faith to discuss, for them to be elevated to understand the created and the Creator, and I am wondering how this thing will go, in subsequent meetings with religious leaders on the platform of the K KS (1:14). if we have valued knowledge more than religion, then religion does not exist. In a way they have brought us to understand and to see. I sat there in one of the most prolonged teaching, ... explain the beauty the way he has worked, teaching the T, all the benefits of it and what he has

done. A live history of servitude to humanity through the KF, and we all sat and watched. .. I was waiting for objection from Tehran ..

It was there to show equality in sharing knowledge.

(1:16). This shows the courage of UC Hebrew language and the Farsi, how they came to be independent of the race religion and color. In so many ways, many KS ..

(1:18). It was a joy to see and I waited for one complaint, for someone to say, why is the Hebrew language spoken here, or to be too shy to ask the question. But in this time of troubles which created by the religious leaders for the benefit of their own, we have shown the knowledge of the Creator is bigger then the fractions of what he has taught, and those who have listened to it, they thought they had become the Creator, and the world of the Creator to be spoken of.

I said, the Creator is amongst you and you will teach in peace, and that is exactly what happened. It was a beautiful teaching, but at the same time to understand that all are the same. Those who didn't come into the Farsi teaching, they lost heavily, because they didn't get the essence of the unity of the STM. We are all the same, we love the same, we bleed the same, and we enjoy the same, and this is what the mankind has to understand. The Messengers of the mankind came to bring mankind to this point, this conjunction, and now is there a need for religion, or man has become wise enough to understand, he understands the path of the Creator without any intermediaries. (1:20). Maybe mankind has matured, or maybe mankind is on the path of maturity. For me last Monday was a joyful time to see the fruit of all the work, and suffering over thousands of years brought another stepping stone towards the peace, towards the peace of the STM, not the physicality. No one left the meeting, they added to it, and this shall be the pattern of the KF. We have opened the teachings right across the nations irrespective of religion, race, color, and last Monday was the first, what I call the bouquet of flower of peace from what I call, Hebrew language, from Tell Aviv to the Iranian nation. Those who take the first steps are the true leaders , the rest will follow. And we have seen the Hebrew and Farsi Language and the Iranian community took the first step of peace for humanity. (1:22). Soon you will understand the totality and gravity of understanding the unity of mankind in the level of the soul and not in the level of physicality. Any other question.

Q: ... the STM can be seen through brain scans. .. I am wondering about the STP in the solar plexus.

K- Yes, it has been seen many times but the doctors don't understand it. It's such an anomaly in the structure that it is just been ignored. (1:24). We don't understand it, so we ignore it.

Q: Would you mind showing us how that is seen?

K- In time, yes. As many of you may or may not know, when I was born from the moment I opened my eyes, with X-ray films, MRI's and the rest of it, this is how I was introduced to the science of the fields of the radiation. Maybe my soul was chosen to born in that family that I could understand beginning at the start of the essence of creation. When I was very young, maybe 7 or 8, I could read an X-ray, in a different way. My father a few times, brought me in to read an x-ray, he said, you read it, you look at different things. I used to say, you see Papa, this here is not correct, and he said to me, how do you see it. And I said to him, this is not correct. I remember being very

cheeky, curious man, very big curiosity, x-ray films to me was, golden message. My father used to come home sometimes with odd pictures, and I knew these pictures must be somebody important. He used to go and take X-rays of it, he was involved in it. And there was a film in an envelop next to the safe, in the cardboard, hidden, I pulled it out. My father came. (1:26). He said, what are you doing. I said, he has got cancer and he is dying, and he cannot do, because the fields are too big. He said, how do you see this? I said, this is me, I can see it. And I was looking at it back to front. He said, why are looking at it back to front, you always look at the x-rays back to front. I said, because the knowledge sits, when the film has crossed, not when it's comes in. The emotion of the soul goes through the film, you always look at the back of it, when everything has arrived, not in front of it, when it is imprinted. And in these processes I got to know a lot. In detail, in intricacies of the physical structure of the man. In so many ways, that's why I can pinpoint, this is this, this is that, I don't agree with a lot of people, of doctors read the X-rays, because it's in the book. We are not all the same, and not every structure is written in the book. When you look in an X-ray, especially the CT scans and others, and a full body image, you can pinpoint, you see the direction the fields flow. You see one of the first things you learn in the world of understanding the position of the soul, when you see a man with the prostate cancer, and you understand it when it's through emotion, or wanting to cut his leg off and his heart off, because what has been done to him, is not what has been created with his son, you see 3 things. A grey black spot on the ankle, you see on the X-rays grey spots near the heart's ribs. (1:28). What does it means, what does it have to do with a prostate cancer where you see a cancer in the body. Very simple, I have created this child and I want to cut my legs, that I will not do it again, I created this child, I want to take the heart away, that I gave my heart to him, and he destroyed everything, which I put into it. Then you see the body has a simple language. Then you have to go and serve the soul and the STP, which is on the heart for the man to find his position and peace. This is why the new EU do that, it gives for the soul to be enlightened what he has chosen. Why and what has taken the path to bring him here. When the doctors look he says, it has moved to the other places. When I look at the X-ray I see why it has moved to the other places. What is the emotional reason that the guy wants to take his own heart and cut his own legs off. Then you understand, X-rays and other things has to be read through the picture of the soul, and the understanding of the emotion, not with the black and white. Then you'll find very easily the position of the STP and the position of the STM. You don't need to be a genius if you understand this at age of 7 or 8.

Q: the vaccines especially the Chips that come with them, last week you talked about using .. patches .. (1:30). a ratio of 2:1 ..

What is the ratio of the one on the top?

K- There are 2 different things, I think you are mixing it. One we confirmed the position of where you can put patch on front and back, or the one which 3 rings with different ratio, there are 2 or 3 different ways of handling this. If you put a patch directly on the point of injection, this is where they give you a physical Chip, or you use the 3 rings system, or the 2 ring system, for if it is chemical injection, that returns to back, to control, through the emotion, you change it, you disable it. If you are given injection, for example, always go and take a fair amount of CO₂ and Zn into it. Just normal drinking, 100 - 200 ml a day. That you do not allow the interaction of these systems or chemicals, wherever they are to supersede your emotion. And then with the rings you do. There are different ways. If you receive a physical Chip, or you are given a chemical Chip. There is something which we understand in the background, (1:32). that there is a

possibility in the coming future, different companies like let's say, "so and so," they will develop the Chip, but for them to market the Chip, they are forced to add an item into it, which is that chemical Chip, because not only one direction will go, many directions will go, with different manufacturers, but organizations who will implement it, they pay them to add this additional chemical into it. That is the biological Chip. It doesn't matter who produces it, if they want to market it, they have to add this to it, which is a control. And it doesn't matter what, you can go for both.

In a way, you have to be prepared to short-circuit the system by their own way. And you have to understand how you, when they give you the injection, you have to ask for the number. If you want to give me an injection, I want the number, because in that number is your telecommunication code. And is coded. In a way it is your telephone number to your physicality. If you are given any injection with a microchip number on it, I want that data, that's mine, I want to keep it. It's literally .. you remember how the Hitler tattooed the number on the arm of the Jews, in the prisons of the camp. This is that tattoo. But this tattoo has a line of communication, uses the natural frequencies, (1:34). mainly of G5 and G6. One of the reasons G5 was introduced in such a rapid way, was for deployment of the vaccine. G5 is part of the control structure and nothing else. And there is a way around it, you can block it. You can create structure within your body between two different points that continuously creates a barrier, but it has other positions for it too. In so many ways, just move up, 20 km up, no one can reach you. It's the best time to teach the soul teaching. Best time for them to know they have no control.

Q; .. about what you were saying, I think man on this planet is funny creatures, (1:36). because every religion and any prophet came, they fought the prophet at the time the prophet came, and after he was dead and they killed him, they worshiped him. And then .. all the religions talk about the promised man .. someone I looked up to, I said, I think Mr. Keshe is the promised man. And I got this funny look, and I just .. And I was thinking, why is it for people to accept, when .. do you think the one promised is he going to have a tail ... why is it so difficult for man to accept it.
.. look at prisoners who have been prisoners for 20 years .. they're scared (1:38).
for most people, especially the religious ones, they are going to fight us,.. it's the end of their rule ...

Are you going to wait until K dies and then you are going to worship him. (1:40). .. why can't enjoy a man while he is alive ..
when the children are born, I was born in a very religious family, when I look back my grandmother, not my parents .. my father was .. effected by American culture, he never pressured anything to me. My grandparents were always pushing me to pray, waking me up at 4 or 5 in morning to pray, .. why do I have to pray .. they
(1:40). but what for. Because you want to thank God he created you. I said, I never asked God to create me, take me back. I didn't ask for it. They never had a logical answer for it. Even now they don't have a logical answer for it .. this is a problem. But even if you read Koran it tells you where you come from .. doesn't make you fanatical . . it all boils down to man is afraid to loose the prison he got comfortable with. That's all. Thank you.

K- .. Can I ask you, how was your feeling in the teaching last week, when you were with the Hebrew of the UC and you had all these Iranians coming up to ask questions, and they can see it, once they become the panelists, . . .

Q: I was completely comfortable. (1:42). I was watching for reaction .. There was no objection. I was happy.

I was surprised that nobody had any objections.

K- Like me, We have been brainwashed so much to hate each other that we couldn't see the beauty of how knowledge can bring when you shared it.

Q: Nobody cared who was there. ..

..

(1:44). ..

K- The question is would our religious and political leaders come to that point? It's exactly what we see in the culture of the humanity. We follow to be part of, we don't follow because of, and this is where the problem is. We follow blindly to be part of, but at the same time we would like to be an important person in that equation. This is part of what the human race is made of. We are an animal pack, to be part of the pack we wear any clothes... (1:46).

Q: .. another thing is ..

it's scary for people to face themselves ..

(1:48).

Belief in a religion has a Field Strength

K- I am going to tell you something very strange, .. even belief in a religion, accepting a religion, has a field strength, has an emotional strength, then would we with the knowledge we carry in the EU, be able to raise the level of the STM in the emotion of religion to all be equal? Then we get rid of all these prejudices, would they all walk out of the systems as believer in the Creator, and the path of no religion, but totality of religions. When I explained how fundamental enhancement T is, now you understand. I can even reach the soul, the strength of your fields of your emotion of religion. Path of belief, path of life. Then maybe .. how fundamental the new systems are. They are groundbreaking T, and we are reaching to the point of being able as we make you happy, (1:50). we can elevate for you to understand the strength of your emotion at the level of belief. The reality and the truth is simple. In finding out you go in as a Christian, you become a believer of every other path to be equal. Wouldn't that put a fright among the religious leaders as everyone is equal. And then the Churches and Mosques have to open up just to teach the path of the Creator. No rules, and no Crosses over the buildings, the true house of God. ...

(1:52).

(1:54).

Any other question. (1:56).

Q: .. (1:58).

K- The beauty with this cycle of understanding is that we not only understand the strength of the fields and what it is made of but as man is physical we have developed T that the man can follow and see, and believe in and understand. This is the beauty of this process. We don't ask you to follow it blindly, we ask you to be part of it because it is part of you. And this is the beauty with the new cycle, you are part of it.

(2:00). .. we become a believer in ourselves.

(2:02).

R ... (2:04). **Break** .. (2:11) .

(2:12).

Q: Salamea .. we need a science model based on knowledge, How would it look like and if we can produce in this society model, the art to work with the soul, (2:14). STP and STM. What will be the role of the KF in putting together the art and the knowledge and the spirituality besides religion and politics. This school of mysteries which we had before religions.

K- The truth or part of the reality will dawn on mankind that through the knowledge whatever you might call it, will be answered. In a way, we don't find an answer for religion, but becoming knowledgeable we find religion becoming part of, what we have been looking for , or part of what we have been told in different names, shapes or forms. .. religion is a science itself in the conduct of the man, and nothing else.

Q: Okay, but we know the religious leaders divided the mankind like the political leaders did, and does, how we can change this situation with help of KF? (2:16).

K- **We are not answer to all. We are a path to understanding knowledge, it's the mankind who has to decide**, to what it fits, the way it fits him to suit him to make his life better in all dimensions. If we make the work and knowledge we dispense to be the answer to everything, we claim it, then we have put a limitation on the strength of the growth of the STM and the U. We teach, for man to evaluate his own soul and the others. When the man goes for the knowledge of the KF to elevate his own soul, that man has already lost the knowledge. When we gain the knowledge is to share to elevate the others, and when we learn this, it doesn't matter in what field of the science, .. then we have become the true KS. So when you asked what is the role of the KF .. for man to understand the true knowledge and with it become servant to his own Creator. We are not making a bunch of religious people, we are making a bunch of souls that understand the path to elevation to itself, which is by servitude, and then do you need politics or do you need religion, No. because you live the true path of religion, the true path of a correct conduct of the soul. That is if you want to call it, the function of the KF, (2:18). for man to understand the true knowledge become a true KS. then you have no one to confirm to be a prophet or priest or politician.

Q: Your idea is very similar to Bahaula, other Messengers from Iran. And I know that many Bahai's are persecuted in Iran, and maybe KS could also be persecuted by religious leaders or political leaders in the future because of our belief in truth and unity in mankind, because they want power only by dividing us ...

Maybe we can have spiritual schools working ..

K- **Once we go back to spiritual schools we create another religion. We create another division.** If man understands the knowledge he will have the path to what he wants to know at a time when he needs the knowledge. (2:20). Knowing where to go, what to do, and what are the consequences of the knowledge he gains. It's a simplicity in understanding the totality, and not being prejudice about it. This is the biggest conflict for mankind. We see it now in the position of the world leader. Have we seen it before, if I am not elected I start everything else to be wrong because people don't like me and I can't be rejected. ...

Both don't have a clean sheet no matter what they claim.

(2:22).

(2:24). We are sitting on the verge of a time bomb in different directions, and maybe this is one of the signs of the maturity of man, for him to make a decisions. Do we call and work on the call of the religious leaders to start wars and separations, or do we go with the instruction of the world leaders to star wars and everything else. Or do we say enough is enough, we had both, now we make science and T, and knowledge the leaders of mankind?

Any other question.

K- Next Monday Farsi .. Chinese speaker .. everyone welcome .. (2:26). In so many ways, we should be able to see something beautiful how the Chinese share knowledge ..

Q: .. (2:28).

K- What were you doing there the other day?

Q: Taking pictures .

K- We could see your pictures through security cameras. it was interesting..

You had some other people with you ..

Q: religion ,, what field strength unifies and carries forth for mankind.

Soul remembers all of its Experiences - K remembers time in desert

When the bird is freed from the cage, what field strength can man take with him? as an emotion.

K- All of it, is the fingerprint of your existence. When we appear in a dimension and time we remember all of it. ... (2:30). I remember, I was explaining, I spent many years in the desert under one palm tree and a water well. I spent a long, long, tens of years there in solitude, not to move until the time was right. It's the essence of, and the reasons for that is that time there was a lot of concentration and elevation to understand how to teach the man. This stay in the desert was one of the most joyful times. As I said we carry all of it, it depends on what we choose to remember, and what we choose to be part of, and what we choose to lead to be creation of. I can explain very clearly to details, and tell people where to find to confirm my correctness. Be it under a stone, or be in the depth of the rivers, find where I left things, at the time when I was there, in thousands of years, spent time here. You do not know, if you did not do. It's.. what we do stays with us, and what we carry is the memory of existence of time. And as I said many times, I was witness, I felt every stroke of the hammer on the nail, (2:32). and I felt the bullet through the body. It is the time for mankind to understand that nothing will be lost, it's a recording like the camera, when you were in the center, that it records everything that you are not aware of, but it is recorded on the disk of the memory of the STM, as the physicality is dispensable.

Q: ..

K- In a way yes, .. as Alex was teaching the books, we never hid anything, we were so straight forward, right under your nose that you decided to deny. You decided not to be part of. When you look at the first book, what did we say, U Council ...

I never hid that what I cam here to do, (2:34). to take man to U Community, in the first book, tells you on the top, the universal order of creation, how everything

is created in U, not the creation of matter, or the matter state of the man. I wrote the position of the prophet of the past and the scientist is the same. But **we are not prophets, we are Messengers, and our message was very clear from day 1,** the universal order, we never hide, you were blind to it, .. we did what we said from the beginning. You could not understand, and no message has changed it is all the same. I didn't put the creation of matter, the universal, this is how the U works, in order of matter state or energy, because the book 2 is based on book 1, so it is still universal order of creation of life, light, the Creator, the totality. And then you have the origin of the U which is based on the first 2 books which again is the universal order.

Q: thank you .. we all feel that message as humanity .. (2:36).

K- The message is very loud and clear the time for man to be in the village of earth is over, but to go out, there are rules and regulations you have to learn. **First of all to find your soul, that is your tour guide. That's the one who carries the knowledge,** If you understand that, and understand belief in understanding the totality, then what are you worried about. You don't need a prophet you carry it within you. It's your soul, you have to find the strength of it that it can listen to ?? words and its message.

Q: the soul leads us around by the nose ...

(2:38).

You Have to Value Your own Soul and Want to Elevate

K- The truth is what do we value ourselves at, and then trying to achieve that value, it doesn't matter at what level of creation. And what we value ourselves is what we get to, and what we strive to understand. And this is one of the ways that we always live, what do we value and what we do to get to that value, we believe we are worth, we are, we need to. In the physical world we value ourselves as a doctor, so much thousands a month, but in the soul level we don't, because we don't understand it, it is left to somebody else to tell us, what it is. **We have never valued our soul. How much and to what level I want to understand, that through that creation of the path I reach there, that's all it is, this is how you elevate,** how you access further knowledge, but it has to be through pure sincerity and understanding.

Q: .. In all the religions there are pure intentions within the religion .. then it gets muddled (2:40). ... surely it's time for the religions to understand to release our soul

K- It depends what we want to know, and what we do with it, to what extent. If we see it as our right to damage with what we received, you will get damaged by it. The damage in the soul is not getting elevated, and you see everything to go backwards with it in the physical life. And this is part of what many people don't understand.

Q; Why would people abuse this knowledge, knowing that at some point you have to balance the books. ..

K- I am going to come right in before you go to far. Because there is enigma put into it, Day of Judgment. (2:42). I can delay until that time. I go to the last day of paying the bill before they disconnect me. Do you understand? That is where the man has fallen in this trap, with the name, title of Day of Judgment. If the prophets would have explained that everyday is a judgment day it would have been a different world. and this is what we tell you, everyday, every conduct has got to be answered, not to anybody else but yourself. This is what a lot of people don't understand. You take a love from man of

everything, you are and you sit with it. It's the acceptance of asking and being given, you loose your title, you loose your right to understand the to totality. And this is part of the structure of creation. ... grandfather clock .. tik toks.

It's every second is one second to go further. This is part of what we call, the understanding of totality. (2:44). We are not a religious organization, but understanding the science brings us to question, what the religions .. this is what the dilemma is with the religious groups, now we become the priests, we become the rabbis, we become those who have the knowledge, but in a scientific way, and this is what they don't like. the Iranian religious organizations have a big problem with me, the same with the rabbis, and the Pope. But in essence they know it's true, and they do not dare to do, because they are not there to decide, they are there to confirm. And they know they don't confirm, they cannot delay to the grandchild, or to the others. They have to handle and pay for it by themselves. We see huge movement in the religious and diplomatic world about my movement, about what I do. Governments now they are deciding in how and who, and where and when I can talk. The world leaders are deciding and their governments on how me as an individual should do, be, or say. (2:46). And now we get it in writing, it's not talk anymore.

Q: ...

K- .. The reality is I came to serve, but I had to go through the process of understanding man's life, that I could see how humanity lives, and what humanity does. It's the same with understanding the world of politics and religions, I can dismantle them from inside, by themselves, not form outside by us. And this is one of the beauties of the new process and understanding, I don't need to do much, I just need to teach much.

Q: .. (2:48).

K- The thing is we never made hierarchy or priests. We always stayed KS, and that has been the key, that even when I teach, and if you have been to some of the teachings I go. they say, Mr. Keshe is here. I say, I am here as a KS. When we divide ourselves, and we put ourselves on a pedestal is the time when it is finished. .. I have moved from running the day to day basis of the KF, to a KS back in research. I enjoy my time in research lab. I go for a few hours and share knowledge and see the results in next days ... sharing a knowledge is a privilege, keeping a knowledge is an end. And it is no use keeping a knowledge, once you share it, it expands, it shows its beauty, attributes, it shows its grandeur. .. (2:50). and you can teach as long as you are there to teach.

Q:

K- The mankind doesn't have a table yet, that's the problem, to put it on. This is the biggest problem we have. It is part of the structure, You see, we see it in teachings over years. A lot of people come around the F they take from it what they want, and if they don't get it then there is everything wrong with it, and they start everything to show what is wrong with it. But in reality the bring the beauties of it on the table. We have seen a number of attacks on KF, massive attacks in huge scale, at least ?? in another scale, but what has come, is people have come to judge, "I am here for the knowledge and not the personality," and people who bring it to that position have nothing to do with the knowledge and knowledge seeking. people became very wise. I thing the last big test for the KF was more less been in the last few months. Many KS, (2:52). had to judge, are they here for the knowledge, or are they here for personality. And the one who shares the knowledge is always in command. And the ones who try to disturb and abuse, just the position, they can't much, except rhetoric, you will see they are further away. And this is how it is going to be, as I said many times, we'll even erase their

names from the books. Because it's so chosen by the soul, that it cannot be that the next generation get that what we call, poison from the name itself, in the upcoming books you'll see some names will be erased from the book, because they have shown the misconduct and the poison they have created, within the structure of the STM. When you put the name of Mozhan, it means the essence of love and giving, and creature who has the love to share unconditionally. Because it has the essence of the love and the care. and when you see the book #4, the number of names which put in, which brings the essence of the joy and the care, and with it even the name carries the wisdom of the soul. In so many ways, (2:54). A KS has to be open to seek the knowledge, the true knowledge, and share it truly, not just because I learn, and it is mine, it stays with me.

Q: ..

K- I listen to a lot of the teachings after the teachings, to understand a lot of the teaching, and it is amazing how much knowledge is given so freely, so with love and care and a lot of understanding. When the souls understand it, the souls come to appreciate it.

Q: ... (2:56).

Don't Create Elite Clique of Knowledge Seekers - Downfall of Knowledge

K- As long as we don't become a cult, .. a sect, as long as we stay a knowledge based organization, we will win the heart and soul of the man, and the Universe. When we separate ourselves to be unique and elite, that is the time the whole downfall of the knowledge comes, and this is what I always said, be a KS, but don't become arrogant when by seeking knowledge you understand something new. And this is part of what we see, and part of what we understand. If the people who come to get something from the F and they don't get it, and then they become the enemies of it. Ask yourself one question, by not knowing how you have served, through the what we call, your ego, your arrogance, you served more, because souls bring you to serve, nothing else. Your own soul makes you servant. When you send so many negative emails to so many world leaders, to so many places to block, even those who haven't heard, now they want to know more. And then they hear about for example, Corona, what do they do? this guy has given the solution, they go for it. In a way, by your arrogance you have opened new doors for us. (2:58). By the damage you tried to do, you damage nothing, you add to, and we seen it. And some people who come and go, by what they do .. they serve. serving doesn't come be making a cup of tea, or giving a conference. If I make you to think, if the work of the KF is correct or not, and then you have to judge it, and then 2 things, you stay, and because of it you judged it, through your own soul, you become stronger , and you become more attached to understanding more of it. Then you have served your purpose. Those who are always weak, they will fall by the side. That has been a pattern of the creation, when we used to have, what I call a chicken farm ..

.. it's learning how to handle it, that the others who think it is a weakness in you , it becomes a strength. This is part of the structure of understanding, .. of the soul. It doesn't matter what they try to do, how they translate the knowledge, knowledge is a truth and you are the witness to it, nobody else. We have gathered a strength in so many nations, through the work of the KS in Iran. (3:00). And you saw how it has built up. In every essence in every nation we have a problem, a Corona ...

how many lives you have saved. ..

(3:02).

You go in the confession box to confess what you done wrong, most probably you'll never see the truth of it, that lead you to the cancer and the rest of it. I put you in the box called, EU to elevate your soul that you see how you cannot get to the same point. Was it your problem, or what you created, or was created. And you solve the problem for good. .. yes, we have an EU, it's you and your soul in the box. Now see who has to pay for what, and there are no boxes to put monetary in it, because you are already in it, to accept it for the change. It's beautiful if you see the other side of the coin the way we see it. Why there is so much resistance to a knowledge, have you ever asked yourself. Why is there so much resistance against KF sharing knowledge. Isn't sharing knowledge a pleasure, or are we in fact, using the knowledge to stop the man to reach his soul, because now we have the systems, we have the T, we have a way to show. We have understanding of, (3:04). not only the soul but how to reach it through a T, through understanding of the science of its creation, and this is what they don't like. World leaders can rise against me, have no fear. Because it is very simple, they don't have knowledge and understanding, when you can reach the soul. I was reading a message, .. this gives you an insight into a lot of things if you understand it. .. this is the message from the White House, he writes, .. it says, in .. talks with the WH Chief of Staff, I had a very unpleasant conversation with a lot of yelling, the guy was shouting, the head of Chief of Staff that president Trump does not want to deal with Keshe, his biggest nightmare. (3:06). Why a simple man has to become a man's nightmare, because he shares peace, he shares knowledge. Why we get the same thing from other world leaders, not to move, put you in danger, you're in danger. Who, why, how do you know I am in danger, if you haven't created danger for me. Then we understand, sharing a knowledge at this moment in time, has become a big crime, and there are those who play into the wind of it, because it pays them to be. A lot of people are using the KF and the structure we setup to do clandestine activities and things to benefit them for the future of to serve their masters, but they don't understand, that these masters sooner or later become slaves to their own conduct. .. I am a friend and I am here to help you, it is you who has to decide.

Q: the open box of the U.

K- You have seen it. (3:08).

Q: Your words touch my soul and everything I believe ...

Q: Can you teach us a way to lift the souls of our opponents a portable system that we can easily conceal on us .

K- He wants a magic box .. a soul box ..

Once man understanding the strength of the soul is achieved or completed by the man himself, then you can reach any soul, because you get rid of the ... physical frock of the STM, and this is very difficult to understand .. to comprehend beyond this ... for people to be part of the change when themselves come to understand. (3:10). That the change is within them, then we move on.

The Change will come from One Soul - to be Born Out of Love Universe

We don't need to learn much, but it is a progress, which will happen in the coming months, and the elevation of the STM will come through, what we call, unified field forces of one soul, and that soul is to be born, out of the love of the totality of the whole U, and not the mankind only. We give life to totality according to our understanding, the time, position, and the destiny, and nothing can change. For a tree to be in a forest in given time and position has taken thousands of years for it, and

accommodated by the rest of the trees in the forest. When you look at the structure of the forest it's like the human race, every tree in every position is well accommodated by the others, to be equal and the same height in the forest, so it, will be the destiny of the man, all man will stand tall, because from now on it is the knowledge of the U, and the humbleness to know that you have access to all of it, (3:12). will become the criterion of the living, not by hiding and ducting, and claiming, a seat, temple, or a WH. As I told you before we had a KS from Switzerland who joined us, a first bunch of KS in Trany with us, and he said, I am Swiss. I explained to him the color on your passport, what's on it, is the true color, so red, if you understand it, or what you have done. He understood and he left the teaching.

In so many ways, we bring the message of peace, but for the STM and not for the man, and this is the ethos of the KF. And a lot of people try to touch it to the physicality, but if you look at everything I have taught from the beginning has a soul, and a heartbeat of the soul. Nothing else. It's you who have chosen the wrong way, or it's you who have decided to go the way that you think might be the best for you, but one thing is for sure, we all end up on the same table, of accommodating and accepting equality. And I always stand true to my own way, because I am still a KS, because by seeking knowledge, understand what I have created, does, that I can learn to be part of, not to be arrogant to be, that I know. (3:14).

Ask yourself one single question, with all these fields, which travel across the U, what fields and what position today, this second, has become a seed of a star, or has become a seed of a planet that will seed into life the way we have on this Earth in this position? Then that needs learning, it means a position has been created which is unknown, and understanding the creation of it, become the knowledge of the Creator. And as we understood today, the knowledge becomes the knowledge of the created, instantaneously.

Then you understand the present computers are finished. As I said, we will show new T that all these will have a meaning, because mankind is so physical he has to have something and then you all start copying, and in that process of trying to copy you'll reach my station, because this time we are not teaching you physicality, .. I teach you the fields. That's what I kept on telling you, don't look at the Gans look at the fields it creates. You didn't listen, now I found a different way to teach. I am a very good teacher and I listen good.

This is part of the structure we set, that with this dispensation the knowledge and science and the faith become one, this is the beauty of it, and through it you learn, (3:16). ... and amongst it you flourish. And this is the part of the life we have chosen, not you. I can strive and change everything with 1 stoke, it's within my power, this is something I know well enough. But what does it do, take you to a scene, you become back again, man, because it wasn't done by choice, it was done for you by understanding of nothing, as a free gift, and this is what we are trying to avoid this time.

You gift yourself, not a free gift from us. You gift yourself the knowledge, the understanding, and ask, you are a human, very simple, You make your systems, because you make your systems, you believe in it and you live by it. It's very simple, we see your joys we see your weaknesses, we encourage both of them to become the strength. So simple. I don't teach religion, I show you how to make systems, and all of you know

if you have found the right way, to be your own prophet, because now you can produce what you need. And you can test what conditions you can create, be it emotions, be it T, this is the secret, we can create the soul, the structure of the soul, (3;18). and it's done by you, that you are in charge, no one has charge over it, the freedom to travel this planet, the U, and those who are afraid they frighten of you, will make you to fear, that this is wrong with the KF, that's wrong with this , this is what it is, because they know the slavery of the man is over, science and T, by you understanding the science of it, and creating the T for it.

.. the U is a beautiful place. It just needs a desire to be part of it. It's just like a love affair, you desire to live with your loved one, you find a way to get there. And when you find a way to get there you can tell your love, your lover. And this is the same, you find a way, you have to strive a way to reach, to understand your creator through the structure of the STM , which is you who made it, now you have to understand it, and then the past is clear. And in-between, we have shown you ways. Any other question. (3:20).

(Long confusion with Stephanie (8 minutes)

Q; Stephanie. what I found out was this, that in the interview .. KS form all over the world, we came to this beauty .. we all just wanted to share knowledge with one another, we all felt this was the right way .. our own understanding, interpretation ..went on and on. .. (3:22). 5 hours .. we all were so happy .. >> I wanted to listen to Italian teaching ... it was the same they stayed 4 hours, it was very beautiful .. all KS were so happy to share knowledge ... (3:24). they were going through similar feelings with people from Brazil .. we are all connected ... stayed very late .. >> (3:26). by being connected we share this energy between us ... we wish same things .. this energy becomes like one big huge energy ... just from love and care, very simple.

Q: I am confused now, you said, when you think to dedication to your soul you are lost, and I am confused now, . because yesterday I shared with KS .. because you cannot steal it from yourself, need to learn to love yourself how can you love others. (3:28). I need to learn how to love myself...

But today you said, if you think to dedication to yourself you are lost so now I am confused?

K- If you are there to gain for yourself, what you do, you are lost. So you are back in the materialistic world. Q: can you repeat.

K- I said if you are there to serve that you gain something out of it, you are already lost.

Q: Oh, clear now, understood. So if I think for myself, my own benefit, then I am lost. If I think elevation of myself, then everyone gets benefited. that is different?

K- It depends how you look at it, because you are still looking at it from your pocket.

Q: .. How do I look at it from my own pocket?

K- Because you said, if I get elevated because I elevate the others. ..

Q: No, no, that's not .. to me it is like I elevate the others, no, no, no... to me it's more like get to know my soul , self automatically I understand somehow (3:30).

>>> If I am angry because I didn't take time to look after my own self ...

K- Yeah but the thing is, it is not stealing from yourself or the others, it's understanding what you do brings elevation to the others. This is the difference,.. then you assess and judge the rest of it.

Q: .. my direct experience is this .. every time I share what I know ... someone asks me something I share what I understood ... I say come on Stephanie it's not just for you (3:32). ... he wants to buy me a cup of tea ...

I put on the side my personal needs ...

K- I think I am going to stop you there.

Q: But ... I feel stronger when I do .. but you want to stop me?

K- No it's just that you keep on going but we don't understand where you are going. But that is usual with you ..

Something which is going on, private teaching .. starting from the basics .. (3:34).
.. private teaching on Wednesday . lot of KS learn the basics in the background.

(3:36). Mr. Keshe reads Q: .. "also we taste, and taste of the death." Koran. So we all going to taste and taste this death, even the angles of death, peace be upon him. You came here to teach the knowledge, with respect, Mr. Keshe, are you meant to be buried in Medina?

K- We have never been buried. We live in the dimension of the soul, and physical body is in essence of the man. And in totality, we are travelers of time, and in reality we choose the time, the place and physicality, which we decide to manifest ourselves within. So is it buried in Medina, is it still unknown where it is, or is it buried we don't know where it is? In either state, it is the state of the knowledge of the man, and understanding of the truth. If I am correct, what the gentlemen is referring to or the lady, is, are you the soul of Mohammad, Bless His Name. In physicality the physical body is always left behind. It's the soul of the Creator which moves from dimension to dimension. And in so many times, (3:38). if the Creator has spent so much time on this planet, there has been a reason. Not only for this, but for the totality of the creation. Maybe I have answered you. Souls never die, and in souls we live, we teach, and we manifest.

R: Beautiful answer Mr. Keshe perfect, thank you

Q: .. how can we connect with our freedom from physicality, how can we achieve this condition right now?

K- It's all a state of mind, it's all a state of mind, in how we decide to operate within that state of mind. In essence, we live the life through the soul, (3:40). but we can choose to live the life in the dimension of the physicality when we choose. This is the beauty of the new cycle, the beauty of the new essence of living, being part of, and then the choice is yours.

K was Brought up in Bahai family - Bahai Greatest Misconduct

It's very much if you look, the lady in the beginning, and part of the session today, referred to part of our teaching is like the Bahai teaching. **I was brought up in a Bahai family, but I never agreed with the ethos, the way it was changed by those follow.** In a way, as I was in it, created it, how could I understand the misconduct. And **I do not agree with none of what the Bahai faith stands for today.** In what shape or form, as they have broken the agreement with the Creator, to the benefit of them. In the essence this path was to guide man to freedom, (3:42). and **it got abused by those who thought they have reached the pinnacle of doing whatever they were doing. Never served and what is was set, in what I set it up to be. The same greed, the same**

misconduct, the same arrangement as before. Gather wealth and power and abuse it, when the man needs to use it. And this is the same. None of the religions have ever stood for what I set them up for. And the Bahai's are worse then the others in a shorter time. In a shorter time. My agreement was peace and for all, not greed to gather and stash away like the others. Building buildings, for temples, from the sweat of the others was the job of the past, it was not the way we set it to be. And that has become the main, building more temples to believe in nothing. My path does not go, and that's been the way for years, as it is not the way we set it to be. But in ethos, the teaching is the same with all the religions, as we wrote all of them the same way, according to the understanding and intelligence of man at the time and the place. Man should be strong enough to know when he is wrong, and the way it is done, the wrong way. (3:44). The word has lost their meanings in bricks and mortar, with the same as the others. The belief was to bring equality of the all, the belief has become the biggest misconduct of the all, the only difference is, is again backing Jews. Any other question
When you see a misconduct, when you see something wrong, you have to be strong enough to stand it and walk away from it. And this is what happened with me and the Bahai faith, I walked away, as the misconduct is beyond imagination, in the name and cover of religion. The same as the others. (3:46).

Q: .. has the good sir heard of ??

K- Never heard of him. As I said I am very illiterate when it comes to these. I just have the with a few prophets, the others who claim to things I have no time with it.

Q: Is the event ... caused by the solar lightening.

K- What you want to blame it on, blame it on, a solar flare , somebody sneezed .. what is your excuse to believe in it.

Q; Trumps Chief of Staff tested positive Covid-19 (3:48).

K- Yes, but they didn't tell anyone apparently, and those who ?? and everybody is in problem, as they didn't have enough problem in the WH.

R: if you close your eyes don't the problems just go away (laughs).

K- Apparently it does, because don't for get these people have access to the latest technologies and medicine to be helped with.

Have we finished for today.

I hope these teachings which has started in understanding the emotion and the position and the Presence, will start taking shape and a meaning for you in the coming weeks, as you gradually start seeing the totality of the picture. You think you know everything about the physical life, now understanding the work of the soul, is much simpler, but in a way, I made myself in the image of whatever - man, or whatever. In that process, is man to understand the truth about his own creation, and we are in that process, not only we start teaching you, we start showing you T which brings that to a meaningful end and to a full understanding. We are not here to elevate, we are here to make it easier for you to understand, for you to elevate yourself. (3:50). Elevating the KU and a knowledge that will change you for the better, to be a better human being, and a better soul in serving the others. And many people would not like the path, as they have to give up a lot of bad habits of the past, but at the end, we have always won, and will win. Thank you for today, and hopefully we see each other next and the week after, until we take man into the U Community which is understanding the soul of himself.

R: 354 KSW

(3:52).
END
