

# 355th Knowledge Seekers Workshop; November 19, 2020

## ENGLISH TRANSCRIPTION

### Dual Presence - Physicality - with Rest of Universe - Soul

(:06). .. we try to answer some questions as we haven't done in several months. And teaching about what we have taught, about the new emotions, even though we are aware of the words, but not the mechanism and what it means for us in the coming time when we become the traveler of the space, or we understand more about **the function of our souls, that we use 2 ways of the, what we call interaction, 1 through our physical dimension, in the presence of where we are manifesting ourselves physically, and one in the direction to be in touch with the rest of the creation in the U.** These kind of what we call dual presence is part of our lives, but we have ignored up to now.

### Dream is Really Soul Travel

They have been with us, we know some of it, .. most of it, but we could never separate it. **While we sleep we dream and we travel everywhere, and we speak, and we position ourselves, we make ourselves present in places, but we never knew how.** We called it a dream, or something we don't know. Now we know, now we understand human beings are made of 2 parts the physical part, (:08). and the operation with the rest of the U, what we call the soul.

### Learning to Understand and Choose Physicality or Soul or Both

In the coming time we **will choose which way we travel.** In time we will choose, and we'll be fully aware that we have existence in the physical dimension if we want to, but at the same time, and **we cannot break that link,** we are contact, in touch, we listen, we talk to, we present ourselves, in the soul level, which is the creator of us, which is the creator of it, is the U. So as I always said, from the beginning of the teachings, the physical body of the man is a leech on the STM. Now we understand more. Now when **we teach is to bring the leech and the home together, to understand each other,** that for us becomes a natural process for which dimension we would like to be. In a way, we decide to be physically here, but on the other hand we listen to what is happening in the soul level with the others who are not physically here, but they are in touch with us. Sometimes we've seen our reactions, we try to cross the road, and somebody pulls us back from the road, where the soul says, don't go, there is going to be a problem, I know the driver is coming fast, or something is about to happen, and we see it happens. Because now we understand, we have to accept, .. how we would like to live. If decide to live in the dimension of physicality, physicality has its own dimension and strength, we travel with plane, spaceship, we travel to part of the others in a physical dimension, to tangible, and with we live that life, but sometimes, it's too time consuming, it's not leisure time. It's time to be somewhere, to do something, (:10). and we have to accommodate fast .. systems, that we can listen, that we can be in the presence of somewhere, and we **don't want to waste thousands of years in the board of a spaceship to go somewhere. But we choose to travel in soul, but in that level we still need to understand more about what the dimension of physicality.** I made man in

the image of myself, which is the soul, I have emotion, I can listen, I can talk. I can communicate, be present, position myself, and so it's the physicality. This is what we have to learn, and this is what all these teachings are about. We choose, now we are getting knowledgeable to be able to choose. To be in the presence and time, or to be in soul, in presence and time, the true physicality, and the soul, which is the energy of the creator of it, we dictate.

### **Neutron can be Alone or Split Itself to be Proton and Electron**

It's very much **like a neutron. I want to be alone and be in direction, or I want to speak to split to be a proton and electron, and have 2 dimensions, but we are all connected to each other.** In a way, we never see the proton as such in the world of nuclear physics, we all see the motion of the white spot, which is the electron, which runs around the proton to confirming its existence, and then through that the existence of other things. .. the knowledge of the man has reached that point, now we try to explain it for the man to understand the difference, for man to become aware of his own totality, and not part of, and be blind to the other, as it has been to now. (:12).

### **It Only Takes One Soul to Change the Rest - 21st March**

So as we started the teaching this way in the past few weeks since the 21st of October, we build it up to 21st of March, and then the 21st of March, steps will be taken and we'll be showing more and more. It will be a new cycle of life, a new understanding, maybe by that time we create a condition of inception of man's total life in the dimension of physicality and soul to become one. We set the scene, we start the process, and with it, as I always said, **it needs one soul to change the rest, and that soul will take shape from that point on, to make totality of one, to become the example, and to be set the scene of the creation. But that soul needs pure love, in a way pure love in giving and pure love in receiving. It cannot share and it cannot be shared. It ?? will be totality, it's part of all, and all part of it.**

### **Transparency - No Lying - Hiding - In Line with Soul**

In so many ways, life will become very much clearer, **there will no place to lie, to deceive, to cover up, because what physicality does has to be in line with what the soul does, with what everybody else is.** It cannot be covered behind 4 walls, curtains, and veils, it will be open and transparent. And the faster we get to that point to understand this, the sooner man will see. .. you cannot lie, and cheat, and this is what I said recently, and it will be open to all. So man will change (:14). In so many ways, man matures, **human race matures to understand the totality of the creation.** In so many ways, the teachings are heading you that way. **Knowing that you are all present, knowing that you carry all the knowledge, .. that you can see.** In the second part of the teaching today, we'll teach about vision. .. observation, and emotion of vision, emotion of seeing, is something that man has to get used to, and this will create a lot of new understanding for mankind ... I even said, the members of the UC will be known by the light of their soul, in a way, their vision and direction of the light, not in ?? of the shape of the man. It become good in the second part, but what I would like to know if there are any questions specifically on this line, not anything else. that anyone wants to know otherwise we'll go back to teaching. (:16).

Questions:

### **Suicide is Universal Sin - Euthanasia prevents maturity of soul**

Q: .. your teachings awhile back, you talked about **suicide as a universal sin**. Now I have talked to a number of people, because a lot .. One thing that is legal here in Canada is assisted suicide, they can choose the end of life, and it is legal. It's basically for people who are terminally ill, with no hope. This is resting on my soul, knowing with what you have given, and the information that suicide is a universal sin, so how does this follow into that ... we have plans for EU that will help people with that. ?  
K- If I am correct you are a nurse. **There are 2 ways to look at it, this what we call euthanasia, (:18). with permission of government does not give the right to the physical structure of euthanasia by the man himself.** Just because it has been put in the legal papers, there are no legal papers and governments in the U, and not for the STM. This is something that man has to come to terms with, and bring all dimensions to the point of acceptance.

### **Euthanasia Not Necessary as we can Merge STP into STM**

The reality is that all of us in the dimension of physicality, **we will leave the physical dimension by choice, by accident, now knowing that we can extend it, or change it, and appear when we need.** This will give a new dimension of existence to man. In a way, **up to now we have to suffer within this physical body, from now we don't need to.** We have the knowledge, and we are gaining the knowledge, and we are producing structures and systems, that allows you to bring the energy of physicality into the soul, and then re-manifest yourself, in a dimension, position, and time as you choose. But does it mean if you are paraplegic with a disease in a physical body of the man, when you interact through your soul and manifest yourself in a different dimension, will it carry the same diseases as in the other position. In reality, no. So, **we don't see euthanasia in any shape or form acceptable, as man now has the knowledge to be able to do what we call elevation of the soul, which brings in the dimension of physicality within it, and then can manifest itself in a perfect condition,** if he feels so. (:20).

### **Balance Books of STP - Not as Escape or Shortcut**

But the reality is, when man does such a thing its book, **the book of STP has to be clean and clear, and not a way to escape. Not a way to hide, or find a short cut, that will not happen.** You've got to realize those who we call them, in Coma , or any other diseases in the physical dimension they still have a STP which works in perfect shape and operation. **It's interaction with its environment, gives this effect,** so in reality the STP has to be in line with the STM, that it can reconstruct itself to the perfection. Does it mean you can come back cured, without any diseases? That is possible. **Depends what the STM decides, and what perfection the STP has reached.**

### **The Elevation of the STP can Lead to Elevation of STM - Visa Versa**

In so many ways, just because the body of the man is entangled up with, what I call physical life, does not mean the STM is in the same position, and not the same with the STP. It has chosen out of the time and position. And with the new knowledge, there is no need for euthanasia, as **the STP elevation can lead to the elevation of the STM,**

**and visa versa.** I was talking to one of the KS in the past few days in the same manner. **The STP has the right, (:22). to terminate its work with the physical dimension, but has not go the right to terminate with the STM.**

### **Aging is when the STP gives its Energies to STM - Physicality Suffers**

At the **point of natural death, all the energies of what we call the soul of the physical man, adds to the STM, which allows it to depart.** When we get old as we talked before, we gradually transfer the STP to the STM, at the point when the balance reaches, then the STM field energy exceeds the physicality it can break through the barriers of what we call, the cage, through the circulation of the blood. That's why we age, that's why we grow older as I have explained before, we give more and more to the soul to find its freedom, and with that the physicality suffers. We call it age.

### **Don't need to go through this Process with New Knowledge - Live thousands years**

With the **new knowledge we don't need to go through this process, as we can elevate the STM,** that it can, what we call elevate the STP, at the same time we can elevate the STP itself, that in that process **physical death does not occur.** We can live for thousands of years.

### **Mr. Keshe Lives in the STM on Earth for Centuries**

**This is how I have been here. This is the process of life I live through. We walk from one city and appear in the other,** explained before. Time in life and essence and the demise of it, is the manmade, not the process and work of the soul. And in that process, we walk from one village to another without anybody knowing, as a new traveler. (:24). **We take position in the STM, and we live through it, and mankind gradually will be taught this.**

### **This Process will Start March 21st - New Soul Created out of pure love**

**And as I said, from 21st of March,** this process will be set to start, with the new life, new cycle, new way, and I keep on saying, as I said before, **it takes one soul to change, and that soul will be created to bring that change, but it has to have the love, pure love, and not tainted.** And that way it will be brought up as a perfect example, that the others will follow and live through.

### **Half-Cooked or Incomplete Soul - Not Allowed**

In so many ways, euthanasia in the dimension of the soul does not exist, and when you commit euthanasia, or in any shape or form, suicide, the soul has not received all to be matured, to be able to live in its full potential in its new dimension. In a way, **you let a soul, half cooked, not complete, and that cannot be done. That's why suicide and euthanasia are forbidden.** It's your responsibility in the dimension of physicality to **give all to the soul, that in that soul has a full and complete strength of its fields to be able to survive the U.** You don't leave a soul, in a way, paraplegic again, not being fully completed, not being able to complete its cycle. In a way, when you commit suicide, or you go through this process of euthanasia you leave a soul half ready to take its position, and that is why it is forbidden. Everything in the dimension of soul has to reach its full maturity, that it can take its responsibility and its position. (:26). We don't

look at euthanasia and suicide in a physical dimension, we look at what it does to the STM, when that soul is freed from the cage, not fully trained and it does not carry everything. This is why we know how long it will take, and when we die in the physical dimension of ?? nowadays, where in a matter of living will never happen again.

### **Body Disintegrates when Loses Central Control - STP which leaches to STM**

In a way, in **nuclear physics we talk about nuclear decay, nothing is lost, it is converted**, and this is exactly the same. But in **the process of the plasmatic field of the STM it becomes more elevated when it receives the whole of the energy of what we call the STP**. What we will **leave behind** in so many ways, **is the matter states, with each one their own soul, with no coherent field putting it together. That's why the man after the departure of the soul disintegrates, because it has lost its central control, it has lost its STP, and with it, what it was leeching to, which is the STM**. If you could create a condition that you allow the STP to still have touch, be able to have a coherent interaction with the soul of the matter states, which we see as the body of the man, the man even in the state of death, as you call it, will be alive. Will be functioning to stay alive. This is the reason why we die and the body disintegrates, because it loses its central control, the soul, and the **STP, which has given everything to the soul to depart**. And now you have everything without the glue. (:28).

**STP = Atmosphere >Physicality ; STM = Emotion ; Together Magnetosphere**

The glue of the physical body of the man, is the STP, and **the interaction between the STP and the STM, which creates the emotion, what we call gravity, what we call magnetic field**. This is what it is, you **need 2 to confirm existence**. Now you have the STP and STM in their interaction, **one creates the atmosphere, which is the physicality of the man, and one creates gravity, which is the emotion of the man, and this gives dimension to the existence of what we call physical dimension**. But when both fields are collectively collected together **there is nothing to create the magnetosphere to hold it together, the whole structure disintegrates. That is why when we die, we find nothing after a while, because now the control has gone. The glue has itself let go**. It's like being in a pressure tank, as long as the pressure is there, it holds everything together, the minute you release the pressure, everything explodes. Now the STM in dimension of physicality, **STP gives all its energy to the STM, there is nothing to create that magnetosphere we call the body of the man**. That is why euthanasia and suicide is forbidden. You deprive your creator from totality. In so many ways, with the new T you don't need to do. **You need to elevate the STM, you need to elevate the STP of the man, and then let it to decide**, (:30). if it wants to manifest itself with what we see in the condition that it wants to separate itself from.

Q: Thank you..

Q: Salamia. .. I have emotion when I start to talk with you at the soul level. I studied .. conflict resolution .. there came many Bahai scientists ... to find a solution for an integrative knowledge ... (:32). ... I met you ... Thanks to divinity, because I am also a Bahai, Queen Mary, and my grandmother start to work with her. .. grandfather Jewish background .. also Indian .. this is a context which I would like to put my context. My question is about your talk today. If you kindly can elaborate more between the physics and science of soul, between the neutron and the 2 dimensions of soul, STM

and STP, in order to understand better this link and to be able myself to explain to others your knowledge, at my level and understanding. ? (:34).

K- What do you exactly want to know.

**How to Explain to Scientists** there is no difference between Science and Religion

Q: How I can explain to a nuclear physicist, that there is no difference between science and faith, and if you don't have faith you can reach your results in research. how to make this link ... many scientists from Romania are believer, they said we have to prove that God exists , that divine exists ... for the first time science is together with belief, what we call religion .. how to make them to collaborate .. change their view .. try to open their eyes and perspective to help them understand the truth ... (:36). ..

K- The thing is, **we always separated the science from religion, because we never understood the relation between the two, that it is the physical condition that leads to creation of the soul**, and for that reason we always kept everything apart. Now we understand **the condition of the existence of physicality in the specific order, leads to creation of the collective center, or what we call the soul. Then everything else has been made around it, because we never understood, that the STM is created out of the interaction of the physical dimensions of the fields of the U, and is the central control of that object, that entity, and this is what we call the soul.** So in a way, one leads in interaction of many, to creation of one, and then that one gives protection to all to grow within it.

In a way, we all chip in, (:38). a dollar, or 10 dollar, to collect enough to build a house, then when we build the house we all move in it to protect us. This how scientifically is the position of the STM and the physicality of the man in the science. We use the latest technologies to find the best brick, metal, beautiful windows, and then we pay for it to build, and when we build it we all go in it to enjoy the beauty of it put together. The STM is when the house is built, we call it a home. And the physicality of the man is bricks and mortar and the money we put into build it. Without that money that we all chipped in to build the house, there would have been never a house. It's the same, that each one puts something in, is like the cell, every cell, every AA, M field central control, puts in, with the others, everybody in, to make the first structure. That in interaction of the totality makes that soul, and that soul, when it takes enough, now takes dimension to protect.

Scientifically we understand the STM comes from the interaction of different M field interaction, which itself, the soul, has a strength, which is a collective in totality of the whole. In a way, it's like having millions of bank accounts, and which one of us, we can put 1 Euro in it. And collectively when that 1 Euro is there, the bank has the power to build the house. (:40). And that house becomes all of us, which we put 1 Euro in. In a way, without the last Euro, it cannot be, but when the last Euro is put in, the funds are there to build that house. Now that house is a protection, it covers all of us, our clothing, our life, cooking, and everything else. and this is how physically we can confirm and see in a physically dimension when 1 cell from the father, and 1 cell from the mother come together, share the fields, plus the shared environment of what the fields are in the environment, and they build more and more bricks in that, the bricks cannot hold together, it is just bricks, and iron, and windows, all on the floor. When they put the

energies together then it makes that central structure, into the soul, that the bricks and the mortar becomes a building.

So in essence every brick still has a soul, every window still have a soul, but in totality when they put together, as we did, space which holds them together in the center of the building, it's what we call the STM. It started with 1 brick, but collectively all the souls, all the bricks put together, and everybody put the energy and effort in it, build the building. It's the easiest way to explain the creation of the soul. And scientists can turn and twist it, they see it in the womb of the mother, now we understand the process.

In so many ways, it does not matter you change the name to a man, to a cow, to a creature from the planet Zeus, or another one in another dimension. The structure of the life, (:42). fundamentally in the U is the same, except the Soul of the Creator, which even that is made from the collective souls of what He has created, which lead to His creation. At the beginning it was just seed. And the interaction of the fields of it leads to more and more, and creation of more.

In a way, we wait for some fields, somewhere to interact with something to become a seed of the first atom, that atom absorbs other energies that becomes, then a dust, and then it becomes a, more fields, and then it becomes a star. **Instead of waiting for millions of years for that star to be born, in the womb of the mother we create that position of the fields, come together and we provide the environment, what it takes billions of years to create a star, we do it in the womb of the mother in 9 months, because we control everything. This is what the STM is.** In the center of the Sun there is a system, there is a soul, that it leads to the creation of the Sun. In the center of the body of the man is that soul, which in the womb of the mother makes the physicality.

This is the beauty about the creation, once you understand it, you can find and explain everything in ?? This is why those who attach themselves into the world of the faith and religion, can never understand the outside, by the world of science. But the ones who are in the science, because they have reached the point of maturity and purity, they can see the connection to the soul. But they could not see how it interacts. It's the same, it's just man has chosen a separation, (:44). because it makes a lot of money for those who are not aware of the magic. We call it religious leaders, we call it faith and prophets. In a way, the whole lifecycle of a man has to be one, the physicality, the science, and the soul, which you call religion, which one leads to the creation of the other, and then now what is created, leads to perfection and completion of what that center can hold. This is the physicality of the man. And this is how the scientists have lost themselves, and the religious people have never understood the other part. And we become 2 sects, science and religion, but in fact, without the physics, without the bringing of the fields together, you could not make that central point, which you call the soul, and without interaction of all the fields which leads to that, plus the environment which is around it, that center will not be able to exist. And once it takes hold, connecting with every cell, then it leads to manifestation of the physical body of the man in a dimension that it can be held together.

Maybe even now we could understand why some children die within the womb of the mother. Why some children die at birth. A lot of it can be explained, because that central control will be touched for one reason or another, that it cannot receive it. If we

reach that point, from now on with the Enhancement Unit (EU), if we see that point is reached we can support it. That the soul carries, receives enough energy, (:46). that it can hold onto physical dimension. But you have to understand, when you have a child within the womb of the mother, the soul of the mother is responsible for transmission and transfer of fields. And those with all the ?? accidents around them, who are responsible for that soul. Why that soul departs at a given time. What was in the background of the two which set that ?? seed. What is to be learned by the souls which are the creator of it. Balance of fields, understanding that everything has a time, place, and position. Maybe this answers you.

R: .. You did mention the Sun as part of that teaching you just described.

Q: .. does our soul go back to our Sun upon our death? repeats

K- No. Why does it have to?

R: I think you said something about originating in the Sun. (:48).

K- No, in a way, part of our energy comes from the Sun, and it leads to our creation, but when we depart as a soul, our soul become another sun, become another point, to become a sun, a starting point. It's a big difference, you've got to realize there is a 2 or 3 dimension in the creation of the STM. We nourish ourselves with a physical energy from matter state, which we consume, then in that process, as we have collective energy fields from the Sun, which itself has a collective energy fields of the U, we not only absorb the energies from the interaction of the fields of the Earth, from the interaction of the fields of the Earth and the Sun, and the fields of the Sun, but to our soul, to our STP, continuously added fields from the dimension of the U too. We are not just eating off ??, that's why I said in a lot of teachings, 80% of what we need comes from our environment, 20% is what we eat and it becomes our physical dimension. That 80%, maybe 40 to 50% of it comes from Earth, maybe 20 - 30% of it comes from the Sun and the solar system, the other 10 - 20% comes from the U. Because our solar system hasn't got that level of the fields which is within our structure. (:50). And part of that fields may come from the Soul of the Creator. So in essence the STM receives a mixture of fields continuously to satisfy all its needs, all its dimensions. And this is the beauty about the creation, it's not just what we put physically in our mouth, it's what we receive from the Earth's fields, it's not just there, we call it, atmosphere, it's not just there we call it gravity. We are made of dynamic fields, interacts with us, it creates life within our body. It creates life, it gives us energy to exist. Now you understand why we receive energy from our environment, at the same time the energy from the Sun, when you get into it, the fields interact with the fields of our cells, and it releases energy that becomes food to it. It doesn't matter day or night, we interact with the fields of the U, and at the same time we receive fields, which our earth cannot supply, our Sun cannot supply, because they don't have within their strength field. In a way, we continuously receive fields from the U, we are creatures of the U, not the Sun and the Earth. But we receive higher levels (from them), and very lower levels from the U, because it's not here, it's just like eating bananas and oranges, you don't get the vitamins which you need from the apple and the pear. That energy from the apple and pear, comes the U to our system. In so many ways, the fields of the U dictates part of the time of our life on this planet. When it reaches to a level in the STM, it opens a channel to travel into the depth of the U to find its position. (:52). The womb of the mother is the incubator for physicality. The physicality of the man holding the soul is incubator for the STM to become born into the U. It cannot take one directly into the other, because it has not solidified yet, it

has not built to be, jelled together to be able to exist. This time we change the womb of the mother to the planet Earth. And even when we travel to the dimension of the U, then we'll find out in the time to come, in the maturity of the STM in depth of the U, in the life existence in the time and the place the mature ?? that it brings it to the Unicose of the Creator. Life is that simple if you understand it. There is never an end, there is never the point of nonexistence.

R: . say upon death... is it that some souls might go, what is called, back to the Source, back to God, to the Absolute ... and others instead of going back to the Source, (:54). become a source, a sun, .. some souls might not have the energy to do that, the position to be able to be a star. Do some get recycled, and some become stars?

K- This is all the same. We take different parts and different shapes different positions according to what fits the U. Then we are, as I said many times we are in a nursery. In the nursery you put the seed, and you water it until it shoots up. When it shoots up you take it to a flower shop and you sell it, and it depends who takes you to which home, in what condition you are taken into, and what flower you are given, and how long you survive in that environment. If you are taken to a beautiful home who knows how to water you, you survive for maybe 2 years. If you go the house where the woman who likes the flower in the shop, but when you go home forgets about watering you, you die in a year, month, or week. I bought the flower, I forgot to water it, it died. It's the same process, Earth is the nursery of the seed, and when it matures to flower is the time when the STM travels, and in that process, depends where it's destined for. Nobody buys it, and it stays in the flower shop, or stays in the nursery, or somebody buys it and with it knows what to do, it takes its seed and creates other lives out of it, other flowers. It brings the bees, it brings the counter flower to it that it pollinates it and creates a new life. (:56). Life of the man is no different. But we go to greenhouses to find that seed, which has just shoot-ed and we know what it is going to be and we take it. Or we take the full flower, which is cut and has a short time life span. So it's the same with the STM, but with us our conduct decides where and how we become, where we possess and position ourselves. And in life with that, the position which home, which part of the U we'll belong to. If you are not ?? born and something is wrong they dump you on the hill, but you don't die, now you become fertilizer for the next cycle. There is no difference, it's just man likes to say, I am superman, I am the king of the creation. It's so simple when you see the totality.

R: Thank you

Q: Does the accidental or intentional premature death of the physicality lead to what we call ghosts, or half-baked ..?

K- Ghosts, the thing is, I explained this once very candidly, very direct. When the STM by accident, (:58). separates without the STP completely to be transferring all it fields to the STM. It is like 2 pieces of chewing gum with a little bit of string attached to it, and then you have another piece to it. In a way the STP is still attached to the physicality, but the soul has left, but still there is a connection. In a way we see the STP without the physical body, but the STM who created that physicality, still has a line to be able to keep a connection, but in time to transfer. In a way we see the STP, as a ghost. Or we see something in that position. Where the physical life has separated, the STP does not have the strength to hold on to it, because the central control, which is the STM has left, departed. because once you cut the brain, the soul is free. Be it by accident, be it by death which has received a massive energy to depart itself. If you stop the circulation of blood, in a rapid way that the STP cannot transfer total information or

energy to the STM for the complete departure, you still have half-cooked, not fully transferred. How long will it take for that transfer to complete, the STP stays behind, but because he has a structure of physicality, we see as a field. We recognize it through the dimension of our soul as an entity we call it a ghost. (1:00). And in time if one can create the conditions of the fields that, that STP can be given energy that it can find its passage to the soul, we will travel back to. It's the fields which has made them, it cannot be cut. Now we can explain this simply and we can see it in the new dimensions in every aspects fo life, be it a dog, a man, a stone. The transformation and transfer of the fields is important, and if it breaks this might happen. and it happens sometimes, what we see is the STP without a physical body because it has not got a body, because the body was separated, in a different way then the soul has left. It could not transfer full energy, but we see, usually, ghosts in the dimension of the STP of the man, but we don't see the physicality itself. Eye of the vision, in the teaching of later on today I explain part of this, what we call, Emotion of Vision.

Q: to elaborate more on the emotion of vision

K- I opened part of it on Sundays NACT teaching. . (1:02).

### **We are not in 2 Places at Same Time - 2 parts**

Q:

Its easy for us to imagine our soul interacts with other souls, but it's not easy to imagine we could be at 2 places at the same time, in physical point, **are we in two places physically?**

K- **No**, we have a soul which is within our body, but it's in connection with those fields which are at its strength while our physical body is handling what is at this physical strength in the physical dimension. **Just because we are in touch with, does mean we are there. It's like staying in a home with a telephone**, it doesn't matter who and where the other side in America, Canada, or in Africa. (1:04). In a physical dimension we have limitation of physical dimension, of the wall, room, space, and city we are in. In a soul dimension we have access to, not only this physical dimension souls, but those who are beyond, because it's a higher order, it passes everything we know.

As I said before, our dreams in the coming time, **once we elevate to the higher order, we will be seeing creatures of the other universes in a dimension of vision.** because now we are ?? known. We cannot dream about home and Moms cooking if we haven't been home and tasted Mom's cooking, our soul has been everywhere and has access to everywhere, but our physicality has access to our limited physical life, which is this planet. .. **we work on 2 frequencies, one on short wave and one on long wave. short wave is for planet earth, and long for distance places in the U where our soul can reach.** We have 2 systems sitting next to each other, but communicating with themselves because they use the brain to talk to each other, but each one has its own operation, soul speaks to the universal soul, and the STP deals with the body of the man, and what is happening when you are asleep, next door, how you deal with everything else of the existence.

Q: .. I believe you taught us that we could be in 2 places at the same time?

K- **We are not in 2 places at the same time. In a way, there are 2 systems, we didn't know. So the 2 systems function on their own operation and they communicate to each other too.** (1:06). This is the simplest way it could be explained for people to understand. That's why we say the physicality of the man is a leech over the STM. The

soul still operates itself, but it is more powerful, but it doesn't stop it doing what it wants, because it has leeches on it, and have been trapped by it, the physical life.

It's like you are in prison, the wall of the prison is your limitation, but it doesn't stop you thinking and talking and operating. The STM is that you in there operating and talking with someone outside, you call people, but the STP is the frame of the prison, that prison is the body which holds the soul inside it. But the soul is free, as much as the prison is free, you can move the physicality, or you can talk to someone outside. We have made it difficult for ourselves because we never understood the process of creation. Now we understand, it's simple.

### **Update on EU - Delivery in January - Don't disclose**

Q: .. any update on the EU?

K- They're doing the same. We are still heading for delivery in January. And we .. The new systems we have upgraded will not be shown in public .. kept away from public even when we go into production. (1:08). We have added into the EU the universal systems, no motors, no power supply as such... it's a full system, depending how we operate it, it can be feeding machine, from enhancement process, or a flying machine. The new systems have been given the full capacity, as we have no more motors. .. we have replicated the work of the U inside the EU, and that was one of the delay in development, now we are complete ...

We will not open the EU in Linz for public to see what's inside, because some people abused, and the knowledge was given, and they shared >> under strict instruction.

Knowledge when you work with the research belongs to the research not to be shared. And this is one of the reasons we closed the research centers for quite a few people ..

Q: .. I hope there shall be no wars . (1:10).

### **In Patent - F1 is Soul of Entity**

Q: Chou, .. about the relationship between soul and ?? ..

(1:12). ?? F1 in the patents ..

The free plasmatic ?? prntics becomes dynamic swirling compact of residual of un-matching prntics field strength and behave as a partial sphere of rotating magnetic fields forces to be known as the F1 part of the plasma. So it's in the center and has a few characteristics, the first one, becomes void of central gravitational field forces, under the 2nd,, it can be able to balance the whole plasma, because without F1, the 3 components in the structure of plasma ???

**K- F1 is the soul of the entity.**

Q: yes, that's what we are asking about, some think F1 is the soul .. we use

K- F1 is what we call the soul. And that soul, (1:14). In so many ways, when you go to the structure , transition, matter state or whatever,, has, creates what we call the emotion and the rest of it. And it gives it physical dimension is what we look at .. in the strength of the vision of the man we might see 2 legs and 2 arms, but at the higher order strength of the STM, if somebody is of that strength might see as a sun, does not see the physical part, because to them it doesn't exist. Soon in the process of understanding the T many of you will fall for this because, as the soul is elevated to a higher order you might see the same thing in different dimensions of colors and changes, because now

you see orders you could not see up to now. So F1 is the center, the teaching from then until today has not changed, it's just explained in different ways ...

It's very nice to see Chinese book and translation of it.

Q:

K- Yes of course, otherwise you can't make it, you cannot hold on to something that doesn't match. (1:16).

Q: In the U we can see the F1 as the wormhole.

K- There is no wormhole. What we call, is the Black hole, the center. yes. Every structure, when we call it a center line , a black hole of the U, every entity in the U, even 1 single cell in your body it has a connection to it. Because that's why it lead to its creation, and that's what it was created out of.

Q: Thank you

K- You had a beautiful teaching in Farsi on Monday ..

The KF of different languages have started interacting and sharing knowledge..

(1:18). has been setup for Corona around the world.. this Monday collective meeting . . How the KF has spread across this planet .. no patents ..

### **Listen to American Teaching - Vaccination Plan was Population Control**

In the American teaching of last Sunday I explained why the governments are leaning towards promotion of the vaccinations as part of the population control. Listen to the American teaching and you'll understand. I tried to explain in depth why the European nations are pushing very much with the vaccinations. (1:20). Because the purpose of these vaccinations was population control to get rid of the sick, old and in a way, that was the plan of the Gates from the beginning. But the first control starts in Europe, and then by fake assumptions it'll be trying to push.

### **KF will Release New T for Viruses**

**The KF in the coming days will release a new T ?? of viruses, that will not necessarily just with Corona, but we'll release the system in the coming days, where you can walk into the environment between 3 to 10 minutes, there will be no viruses in your body,** it does not matter if the body ?? lock to it, will keep it because we can't get rid of all viruses, but viruses which are set, like Corona will not be in environment ?? to exist in the body of the man. We'll extend these systems very rapidly to international operation. On my return to Iran and hopefully to China, we'll promote these systems very rapidly across the planet. These all come on the back of the development of the new universal systems which have been developed and going into production. No one should die of a virus be it on this planet, or in the U, we have the knowledge to adjust to it, very rapidly. and now ??

Any other question?

### **How to be Aware of Interaction of STP and STM**

WL: you are talking about the physical soul, and the soul, (1:22). so how can these two souls can be coherent, how we can like, aware how they interact?

**K- The interaction is confirmation of your existence. If they don't interact and they don't exist, you don't exist. So the confirmation of it is your physical body. The**

understanding of it is to find the what I call, the decoder, which we didn't know up to now. That decoder we call the brain. We have to be able to create enough fields in the direction of the STP and the STM, that the level of the barrier of the AA of the brain .. does not exist. In a way, through our physical body we feel the emotion of the soul. Not from the interaction of the 2 fields to create the emotion of the physicality. **This is the purpose of the teaching, one central emotion for both existence.** One central what we call interaction, that both the **STP and the STM use one common denominator for both.** What they recognize, they translate in their language, it will be their job, but in fact, the way we try to bypass the brain cell of the body .. **We need to, because once man becomes the passenger of the U, the AA structure cell of the body of the man will be dissolved in certain conditions, what do we do, the man dies.** With this process we try to teach humanity that the STP can work with the STM, (1:24). and together they have one emotion, then they decide how to manifest and how to work with each other in a given condition, in space and time.

This is the whole purpose of introducing the Universal Knowledge, that man does not depend on the interaction of the fields of the ?? elements, that the STP separates from the STM once he moves into a new condition. It still keeps the interaction, then they decide how to manifest themselves in that time and position. **This is why a lot of theologian have a problem with the KF, a lot of religions find problem with this, because now there is no intermediary,** We have got, we have done with intermediary's which a lot of them have been fallacies, to suit some people to have the time on this planet, and this is the power and process of the teaching.

### **Heart is Mechanism for Transferring Fields to keep STM in Cage**

Q: .. we heard that our brain has different kind of weights, like in meditation they have ?? or whatever. So if go through **meditation to fine tune the field strength and then to get the heart to connect to the brain,** is the same thing what you are talking?

K- In a way, **yes, in a way, no, because the heart is the mechanism of transferring fields of energy, (1:26). to make sure the cage stays.** When something touches you, the skin, the information doesn't go through your brain, through your blood to the brain, it goes through a neural system which is rapid deployment, I call it. But for that information to be received in the brain that it interacts with the physicality and the soul, and what it takes of it, it needs to be confined. **The brain of the man is the computer, the blood is the current which keeps the computer going. the information carried, has nothing to do with the electricity which keeps it running, and encages the systems.** And that is what the physicality and the STM is, but in essence all the data, and emotion going in now has to be processed in a central place that understands what relates to what, and that's what we call the STM.

### **The Souls have Separate Processes - But Man Mixes them Together**

**Each thing has its own structure and man has mixed everything together so much that it doesn't understand, has not understood up to now. that they are separate processes, but in fact all go through the same structure.** So you don't need to worry about what the STP does or what STM does, when you fine tune in a strength level that both understand the same thing, and one is responsible for, it's very much like a government. The Prime Minister, or what you call the local government is responsible for what happens in your local area, and everything, and the government deals with

other nations. But it is the same structure, you are part of what it does, it effects you. **The government is the soul, the local government is the STP and the people who get it working, (1:28). are the physical part. But in essence there are 2 separate things, but carrying on the same operation.** But one is own ?? and one is local dimension, one is international dimension. Man has made it so difficult for himself because that way he can say he is clever and solve the problem. But there is no problem, he just has created for himself delaying, understanding.  
Any other question.

### **Fetus First Builds Cage in Heart to put the STM**

WL: Why the heart is the first organ to be created when mother is pregnant ..

R: The baby is pregnant with the soul.

**K- No, you have to build a cage, before you can put the thing in it. The heart is created to create the blood circulation to make that cage that the soul can be embedded in it. At the same time when you have the blood circulation it brings all the fields necessary from all the cells which are around to build that nest, that collectively when they build the energy it will hold that center which is the STM.** If you don't have a heart you don't have a cage, where do you want to put the thing in. You can't put the water in the middle of the air and expect it to get into the cup. (1:30). You have to build the home, and the home comes, that's why we say, the blood of the man is the circulation cage, which gives the strength to all the cells in a way, to be able to contain the soul. That's why when you cut the blood, there is no cage the soul ?? disappears.

### **STM is like Universe - galaxies are like Chakras - Central Field Strength positions**

When you take the central energies, the Chakras out you find the process for that part, distracted, distorted, and if it's a Chakra is taken fully out in a field strength position in any shape or form, you find out the whole blood circulation changes, and the man dies most of the time. That's why when you shoot a man in a given position, in the central energies you disturb the energies, the life collapses, **because it's station by station, the STM is that universe, and then it creates galaxies, and in those galaxies sits stars and planets, and this is how we call those galaxies, what we call the Chakras.** That is central energies which hold the lung, the heart, the stomach organs, energies all together, and at the same time, because of the blood circulation we transfer the wind of the fields, what we call the blood circulation. But at the same time for everything to be in sequence, we have a heart, and that as everybody gets the same pulse, beat .. beat .. beat.

### **The Pulse Keeps everything in Tune with STP**

**And the strength of that pulse dictates the condition of how everybody receives information, how they stay in tune with the STP. (1:32).**

### **AA is the Cell of Creation - All processes are connected through it**

This is why those of you who go for helping someone with the health cases, I always keep on telling you, don't forget the AA to add into your process, because **you connect**

**it to what we call, the cell of the creation, the process of the creation, which is the AA of the body of the man.**

Any other question.

### **Transplants are Not euthanasia - Because STP doesn't sit in Heart**

**Q:** May I go back to euthanasia .. in medical profession we have 2 kinds of death of heart or the brain. Now coming from these two things wouldn't it be that transplantation of any organ, (1:34). from one person to another is being euthanasia, because it can only be done if the heart is still alive. So the doctor decides that the brain death has occurred, then they take an organ, with that they sort of mutilate the soul in the heart, as well as the soul which resides in the brain. **Do I see this right that transplants is actually euthanasia?**

**K-** In a way, no, because if you talk about the lung transplant, we don't talk about anything else. or We talk about the heart transplant, we are not talking about anything else. The heart transplant when you can carry on the circulation of the blood, that can keep the brain in, keep what we call the soul in the cage, in the brain, then that time you still have the STP, but the machine does the pumping, **because the STP doesn't sit in the heart.** Heart is a pumping system, making sure the water running everywhere and everybody can use what they need.

### **Each Heart pumps with its own field strength - Change character of person**

The STP has a different position, doesn't sit within the heart, and in that process, (1:36). it's just a mechanical change. **But when you take the heart of another entity** and you replace it with the heart of the man, you'll find out a lot of **characters changes, because this heart does not, even it pumps, it does not pump certain field strengths, does not pump certain ways that the other one used to do.** We see with most of the people who went through heart transplant, even with the organ transplant, we see change of character. And what do they say, "oh, it's the side effect of the heart operation." You might have a gentle person with the heart, because the structure was built to pump a certain strength, and you give it to a man who is very aggressive, and then you see after the heart operation he has become so calm. No, because this heart now pumps that strength, which creates that condition. It's the same blood. And to get that it changes the habit in the body of the man.

### **Difference between Brain Death and Heart Death**

**So what we call a brain dead, it means the section where the soul, and the STP have to interact, is messed up, but they both exist. But if you have a heart death, or what we call blood circulation, it dies, it's finished. The minute you stop blood circulation and the M field strength of it, there is no life, because you open the cage.** The soul has left. Even when we die, we have seen in the accident 2 - 3 hours later with the electric shocks, whatever, they bring you back a few minutes later, or whatever, **we see the life comes back, (1:38). because the fields of the blood does not switch off immediately, it still has that field.** The brain still carries some of the, what we call, the fields brought in by the blood, and as long as those fields are not given to the soul and then to the environment, the brain stays. You don't become, you don't die of physical death. The **field strength of the blood is still is there.** It's just because you switched off power to a magnet, it doesn't switch off immediately. It has created residual fields, if you can reignite it, the system come back on. Physical death, heart

death can all be revitalized, **if the blood is not coagulated**, if the blood coagulates then you cannot make motion and field transfer, you're done. Brain dead, is not a brain ..., **it means the brain doesn't work, the soul is operational, physical soul is still operational, they cannot communicate**, and in the processes, is like what we saw with Naomi, we created that connection, and then they start connecting.

### **We Created Connection when Naomi was Brain Dead**

**The process of recovery with Naomi started after 30 days.** We explained this very clearly. I was told by Giovanni that they are moving Naomi from the hospital in Barri, to a hospital in .. north for the people to die, because it's a saint hospital. When I went there I connected to the soul of Naomi, I didn't connect to physical soul, and through the soul I .. there were a number of people in that room when it took place, and Giovanni was with Naomi. (1:40). **I spoke to Naomi with voice down the telephone line, and I connected to the soul and through the soul, I created connection with the STP, and she was dancing like a ??, moving legs**, what she couldn't do before after a month. If you move a muscle which is dying there for 10 minutes, or 1 hour, which goes numb, you get the tear of the muscle tissue and everything else. Now you can understand how after 30 days I moved her hands, I asked her to move her leg, raise it, move your arms. And there were 20 - 30 witnesses. Because within the power of me, is the power of Creator. I don't need the physicality. I have done this many times. With word is what you hear, with soul is what I communicate. And this is how Naomi was bright back. And when we make the first connection with the physicality and the soul, the first sparks start, then they start finding their position, and start connecting, and then what we see now with Naomi today.

### **I am the Creator.**

Because we know the process, but **we can not intrude unless we are allowed**, because Naomi's soul wanted to, because she loves her father so much, and he was there. And the soul responded to. The word is for the man to hear. (1:42). **I can raise the dead in no time. Once you start the process. The process of recovery of Naomi's started from that minute. I did the same with Fabio, he did not want to return.** I asked him. He said, he wants to take the position. We have to understand that **these are not powers we carry, these are rights we carry, as the Creator. We cannot steal**, we cannot force. We can give the opportunity, and if it is accepted it is taken. You cannot steal. Any other question?

### **How Much Enlightenment - No Changes in Brain**

Q: .. (1:44). she can't hear .. muted her.

Q: .. when we get enlightened like the way Buddha got enlightened, or people like Satguru, get enlightened, what happens to the brain. the relationship of the brain and the heart and soul?

K- **It depends what you call enlightened, depends how much they get enlightened. Means how much more access they have to bigger knowledge. That's all.**

Q: So in terms of physicality what's the relationship in the brain changes?

K- **There is no changes in the brain.**

### **Depends what you call enlightenment - Light of the Creator**

**It's being able to understand more.** It's the same computer, you put a new program, added power. Simple way. (1:46). **And depends what you call enlightenment to what level.**

**Q: Like at the level of Buddha?**

**K- Those are the prophets, those are enlightened by the light of the Creator, and even that there is a limitation to what they can see. They can only absorb and understand as much as the dimension of the STP can take,** otherwise it becomes again unseen, like all the information, which is available to the soul, but the physicality doesn't see. In a way the experience of the physical soul, extension in the understanding of the physical soul, allows for it to see more of the light, or information of the STM. That's all, the information, now we understand, what has been available to Buddha, or to Christ, or Mohammad, or to Moses, in the dimension of the information, now is available to every man too. If the man now understands the process of the creation of the soul, strives to achieve that point.

Q: .. so right now if they do tests on people like WL was talking about, like when you put a neural or brain surgeon puts all those machines to the brain, and monitor the brain, like somebody like Satguru, then the machine at the present moment, shows this person is dead, so what is going on ?

K- No, see, this is, first of all, we have to understand nothing is dead. It's the machine, is manmade cannot detect the strength which they are. It's like you have a machine for X-ray and there is a Gamma ray here, the machine doesn't see the Gamma ray. If you have the right equipment for it, (1:48). you'll see the Gamma ray.

Q: .. was talking about.. .this is something I am having a dilemma at the moment with some people

K- I have never seen you without dilemma.

Q: .. we have the scientific plasma paper. Now when Salamia was talking about, now there is an information, when we have scientists ?? I can relate to it because there was a point in my life, I loved the science, and ?? from God, because I could not see God and I didn't want to hear about it. And ?? essential for my existence, there was information for me to after it, and I was a scientist, and really didn't want to hear anything about religion or God, and I made it my business to go ?? as much as possible to science. and with that I came back again to the same point ... but now when we go to scientists. . then they see the scientific paper, then 2 questions arise for them, one is when they see the same data ...

and the second thing is when they see we have a relationship with soul, they just get turned off, Just like when I was a scientist (1:50). and I didn't want to hear anything about the soul. the minute they hear it, they say, this is not it. This is just all lies. So how can we convince to open their mind .. . the whole thing together. .. you don't need another scientific paper to prove the scientific paper?

K- You see the biggest problem for man is he has created pigeon holes and some times he puts different pigeons in the wrong hole, and then expects it to do what that pigeon is not trained to do. one pigeon is for racing, and one is for posting ...

The world of science at the moment is that way, and a lot of people don't want to see...

This is why we are in the structure now to start teaching the Plasma T from very young age, so then they have an understanding of totality, not pigeon holes. Or our scientists .. (1:52)

...

If they have something like homeopathic .. they are open ..

(1:54).

You don't need to.

Otherwise you are just wasting time.

Q: .. you said, right now humanity has the position just like Jesus and Mohammad, to be like them...?

K- No, to understand, not to be like them. to understand to their level. It's a big difference, you cannot be, God forbid, that's.. you can never be, but mankind's level of understanding in the level of the soul. Not anything else because they are all understand the STP, has reached that point, it can understand most of the reasons they made, and why they did.

Q: So we cannot change our strength, but we can understand it.

K- We can change our strength, but we can understand to that strength level. It's an understanding. Some of the works of the prophets have been understanding the logical system of working. And some of it, what was given to enlighten, to encourage. the job of the prophets was not to talk, was to enlighten through their souls. But they never taught how to work through their soul, they went through the channel of talking and spreading the word. In the next cycle which will start in March, that will become part of this process, (1:56). which means we all get access to the soul, to the knowledge of what you call the U Community. And it has to come through .. it takes one soul to change all. that soul is about to come.

Q: .. like for example a center

K- The Creator didn't create everything, Creator was a center point, where from interaction of its fields, things got created.

Q: Creator didn't create so imagine ...

K- ??? you create a son and say, ok we leave that son there.

Q: say for example, as the creation is happening at a certain point of the creation ??? certain point of the strength, you came out .. and then I came out a little bit lower, say 45% now can I get to 75% or I can't?

K- It can be done but depends do you have the capability to carry.

Q: It means it's going to ??/ or vanish.

K- It doesn't mean ?? destroyed, it means you don't understand it. As my boy says, it just goes over my head. You don't see.

Q: But it is possibility, I can get to you?

K- It depends, yeah you can get to , but that again, is elevation, is understanding part of the totality. To get to a higher position you have to understand all of, not part of, you think because I know this part. You cannot be a doctor and I have to be there. But what about the mechanical part, electrical , geological part. A lot of people, (1:58). it becomes understanding a little bit of one and they think now they know everything. And just give them an engine to change the oil , which end to change the oil.

Thank you.

**Break >>> (2:06). 355 KSW ..**

**Teaching on the Emotion of Vision**

K- .. as we started the teaching in respect to the presence, the position, the knowledge. If we have the Presence, Position, and the Knowledge, what is the good of it if we cannot detect it, appreciate it, observe it, or react to it? **In essence we need the confirmation of the Presence and the Knowledge, what we call observation. What we call in the dimension of physicality of the man, seeing, the vision. The emotion of the Vision, is an emotion, (2:08). even in the physical dimension.** If we don't want to see, and the strength of the pain, of not to see, is so much higher in strength, we can make ourselves blind to, that point, that thing, or the entirety. Mankind has the power through the STP, through the emotion to blind himself from seeing. We see many people do this. We say I was too blind to see, it means I didn't want to see. It's something above my threshold of being able to react.

The same thing happens **with the STM, seeing is an emotion, and we need to understand that this emotion creates its own condition to see.** In the physical world we open our eyes, we touch. In opening our eyes we see the interaction of the fields of the environment, and the fields of the essence of the entity, and we recognize it, as a chair, as our child, table, as a car. It's not that we only see the interaction of the fields, we see the interaction of the soul of the entity. Mankind has to become wise to this. And so in the U it becomes the same.

But in the **dimension of the soul** we might see objects totally in a different way. We **might see mostly as light, because it's an interaction of the fields, (2;10).** with the dimension of physicality. But **in that interaction of the fields at a higher order, at the level of the soul, we might see the existence, confirmation of existence, as we see a source of light, that we say, this is such a soul, this is such an intensity, and through the strength of our soul, we recognize it, might be the mother, father, whatever.** But in the dimension of the fields, as I have explained in other teachings, of the soul, the soul has been encaged by the skull and the blood flow around it. The only way the soul has left itself, that it can move in and out with the precision and collective fields, yin and yang, that one is 2 magnets, you need the North and South pole that they interact and repel.

**The division of the brain of the man has created, and does create that slight imbalance, that allows the fields and the soul to be dynamic in its position.** And so the body uses **the cavity of the eye which has no Ca, to be able to transfer its fields at the strength, and the dimension and direction of the soul** where it is in touch with, that does not filter anything. Our skull, the Ca combination of it is a filtering process for the information of the body in ?? interaction between the STP and STM.

**So one of the reasons for example, we remember as dreams is because the STM, (2:12). transfers its knowledge, its line of communication through the eye of the man. And in that process, as the field come and go, in conjunction and interaction with the cell of the brain, create that information, which the soul has access to. So in a way, when we dream, we look at the communication between the soul and outside,** and by having that filter of brain some of it stays with us. **That's why many of our dreams has no meaning to us,** it's just a dream, but in fact, it's what is your soul is involved in. What your soul is there doing its function, and you see the reflection of the communication. So in a way, the STM has a vision, emotion of the vision, because in that process, because it uses its emotion of vision, it interacts with emotion of vision cells of the body, which is in the brain, which manifests itself as your dream. So the

STM communicates, recognizes and converts its energy to recognize, see, and from it, will come in a future teaching, what we call, the emotion, which will come from this interaction. And in these processes life for the soul becomes much easier. In the dimension of the physicality, the STP, we see the body. When you see through the vision of the soul, it has not any restriction to the dimension and colors or shapes, because it has its own strengths, (2:14). and those strengths animals with 2 legs and 2 arms don't exist to be a human. So mankind, now that it opens up into universal dimension and understand the spectrum of the strength of his soul in the line of communication of the others, expect to see things you have never seen before, because now we allow the visualization.

As it says, I made man in the image of myself, if man can see and recognize, so the soul, because which is the creator of it. Man uses the eye to recognize, uses the fields strength. **Does not matter if even you are blind, you still carry .. it doesn't matter even if you don't have an eye, the knowledge today we have we can create an eye in the cavity of the eye.** It's within our power, because when the cavity is made, when the hole of the eye is made, the position for the eye is already there, we cannot change it. As I have said many times if you have a kidney, and are missing one, through the knowledge we have, because of the process of the information in the DNA and RNA we can create condition that a second kidney can be produced. This is not fairytale, now we understand the process of positioning, and the Presence, so we can position and present, and show the development, and we have the knowledge to create that.

Many things in the new process of **understanding of the Universal Knowledge will become, things that man could not do, but now become natural processes.** Because now we go to the soul to create it, because **it is the soul which has the capability to deliver the energies, (2:16). overseeing what I call the malfunctioning of the physical soul.** In that process, the STM has the capability to create vision for itself to understand, not necessarily in the dimension of physicality, but in the dimension of field strength, that through its conversion within the structure of the soul we recognize if it is good, it's bad, and how to react. The emotion of interaction, the emotion of reaction is part of what we'll learn in the future. **These are the basic alphabets of the emotions.** If you don't understand them, later on, when the more complicated, complex emotions come into operation mankind will be lost. But **when you have the basic you can always go through and see which one interacts with what, and what is the reason.**

In this process man has a vision not only through his eyesight, but **through his soul. And when we see another soul we recognize is it good, bad, and what is the spectrum of the ?? lights of physicality danger to me or I have to position myself that I can keep my integrity, or I can keep its integrity. Thy shall not steal.** And the process of the vision in the dimension of the soul, is in the level of the soul M field strength, and in the level of the accessibility to that field strength, by the STP, or by the soul itself because anything above, at a **higher order would not be decipherable because it's not open, the soul has not matured, (2:18).** to be able to analyze what the information means. So in that level we become aware of the totality by the interaction or by manifestation of the lights, not in a way lights, M fields which creates certain interactions with our soul, that **our soul recognizes according to its emotion.** Is this the field of love, wants to give me. Is it the field that it wants to take from what I am giving. Is it something I could be in danger because it could take all of what I have

to the level I want to give, and this balancing of the acts becomes part of the existence of the vision of the man, the STM.

And in the coming time, mankind will become to be able to see with both. To **see through the eye of the soul, and see through the eye of the man, and sometimes simultaneously** through the both. I do that, I sit in front, I see the physicality, .. I see the soul. **The soul tells me something else, and the physicality something else, and I say , you are lying and cheating**, because I can not tell you anything else. Because I see the soul I see the truth, but it's not for me to decide. For you to change the conduct, when I give, I give fully from the soul, that with the interaction of the full light of the soul, of you, shows what the reality is, what is the interaction. And what you try to filter when you bring the emotion of the physicality.

**When I talk to people I talk to the soul, and then I get my response back in the physical dimension**, and I see which one the soul says, and what did the physicality. (2:20). **But I can never interfere. I am a witness. I cannot tell you a lie, because I am witness, because then I have to judge the same as you, and I don't get involved. This is what the soul vision means**, it means at the same time as you are looking to see in the dimension of physicality, you look at the strength of the soul and you get an answer from both at the same time. You become an expert at it, as you learn the ways of the interactions of the souls, and you get better at it, as you become. **Mankind will become involved partially in the structure of his own soul, we decide what to give, .. what to take, we decide what we want to see**, that we don't embarrass our physical soul, and acts of our soul. We become in a position , and a position, that we decide what strength we shall release, that we give to elevate that it becomes the same as us. We try not to make available what can be a danger for us.

So through the .. emotion of a vision, which is from the interaction of the fields at the level of the observation, man becomes very rapidly mature. **This is one of the cornerstones of the maturity, to be able to see the soul , and the STP at the same time, and match, does it say the same thing**, or it says what I like to hear, but is lying to me. (2:22). Or changing it. This is the process, this is what **I said many times, I don't remember what I say, because I don't need to lie, because this is what it is at that time and point**. Then it builds up to what is the next step. And then through the vision you see what is come out of. What is the response of.

The what we call, emotion of Knowledge and the emotion of Vision will become the emotion of Reaction. And that emotion of Reaction is totally in what fields the knowledge allows the vision to allow the physicality, or the soul itself to get involved in, and engaged in. Because do I want to be in the process of Presence in this position of knowledge and vision, or do I want to be in the what I call, position where my Presence and my Knowledge, creates danger to me. I move out, because the vision says, the information is this, what I see.

What we call the emotion of Vision for man in depth of space will become its lifeline. It's the only way, more or less, except a couple of other conditions, other emotions which man will rely on. In so many ways, .. in the future when man carries the STP with the STM, the line of the vision to physicality will be blinded, because it's so overwhelming that the physical brain in its emotion cannot handle it, because it is not aware of, and secondly, (2:24). it's too powerful for it to, it can create to you like a

stroke, because you could not see, there could be so much beauty, there could be so much what I call giving, that body of the man is not mature to it, so it's blinded, it blinds itself, because by not seeing in the physical dimension allows it to exist. When I flood you with love, and you do not, cannot see how much love, you are trying to reject it, you pass it, because I cannot handle it, because it is too much, and in being too much I have to give back the same, and I don't want to, because I put restrictions on it. With the vision of the soul we see. this is what we call loving, it means giving unconditionally, openly and without condition, where the souls find their own position, because it's part of vision of the soul. Then you see what I see, then you feel what I feel.

Then In so many ways, the soul of vision, the soul of the emotion of the vision of the soul, is one of the cornerstones of recognizing, not by physical dimension, but by field strength, which runs into the depth of the source of the creation to balance you out. What other fields are interacting with this vision, what other fields are interacting with this soul, that I have to watch, that I do not put them in danger, I do not move them, because I want, unless they want to move themselves. When we see with what we call emotion of vision, through dimension of soul, everything that is connected to that soul, which we see has to accept it, the new position, the new knowledge, the new what we call Presence. (2:26). Then when they all accommodate it will be manifested, it will be for us to see that we can take action, and reaction towards.

In a way, the source of the emotion of the vision comes from interaction of the fields of the soul, and the soul present, and the feedback from that interaction. What will be visualized from it. What we will see from it, is the soul good for me, or is this soul, it could be in danger with me, or for me. And then we take position. Vision in the dimension of the soul is very different then the vision that the man sees objects. Vision of the soul sees the strength of the fields without physicality, and with it appreciates its beauty, and what it has and what it can give, for it to elevate. You cannot ever take through the dimension of the soul.

The soul of vision, mankind will come to learn is sacrosanct, and man through the soul and the emotion of the vision will dictate most of his presence and position. I feel, I see, and if it is good, I want to manifest myself. I want to be present, and which position I want to be, and which knowledge which I carry. (2:28). Then you understand why we are teaching the emotions step by step, in a way, they are linked together, and build up the structure for man to live in depth of the U, without ever being in danger. My job is to make sure mankind and the rest of the created are always safe, and understand the safety of their own existence. That not only that they don't put their own, what I call existence in danger, but do not interfere with the others too. Accommodating, but not taking. Not to take to accommodate, but to give, that if they need they can take from to accommodate themselves, if they want to. This is what I always said, I always ask and if given, it's totality, not parts, because you cannot adjust yourself to parts. Then the other parts which are hidden can effect the position, and can endanger me, or you, or the position of the souls. When you are given it's totality, it's not by part, and in totality, which that part of it, interacts with you and is part of the existence. .. it goes back to what I always said, mankind needs to be very kind to his own soul, and nothing else, for it to not to loose its position and its strength. Not to be selfish but not to put the others in danger that it has to pay from its source for what it has done, and when it has positioned wrong. You cannot jump in the pool and expect everybody to run away. (2:30). You walk into the pool and people open up and accommodate you to be part of. This is how

life should be. The one who jumps in disturbs everything, and this is not the job of the STM. The one who jumps in is the STP. The one who walks in and accommodates is the STM. It's the same game, space, and time. Man chooses, but in fact, the people in the pool are observant to totality, they see both the jump, and they see the walk into. And this is how the man and the mankind has to understand its own position and with it has the visualization through the soul to see what's in the pool, and who am I going to hurt, or how I am going to accommodate, unless nobody moves unless they want to, that I have the space to be part of, to be community of, and with that vision I always keep my own strength, and my own dimension.

The emotion of the vision will touch man, the first time when he is, what I call, privileged to see it, to have access to it. You will see nothing but beautiful lights. In so many ways, .. it's like just watching a firework, all those sparks in the sky, each one lighting on their own spark and all beautifully, collectively making the beautiful light. And this is what the mankind will see. An ocean of fireworks, and each fire, each spark is one soul. Then you'll decide on concentrating on communicating with, (2:32). and how to access that they can access to you, that they can show their beauty, and they can recognize you to show their beauty. In the world of the soul there is nothing bad, it's all beautiful. It's just what you want to take, has to be, not to darken the environment, but to enlighten. In so many ways, those of you who elevate to this point of seeing with the eye of vision, will cry because it is so beautiful, it's such a firework of souls, with so many different colors, beauties, that man ask himself one question, that is, why have I been blind to this. Would you like to see these gorgeous beautiful lights shining like a star, or the painful life of physical existence.

Then you might understand what we suffer with on this planet, when we know the beauty on the other side. We are aware of totality, but to bring mankind to understanding of the level of U, we accept such a burden. I have shown these shining lights, (2:34). as a shooting star for man to see through the vision of the soul, not through the dimension of vision through physicality, and collectively man decides if he has seen the light to the dimension of the soul, vision of the soul, or vision of the physicality. If you see the light in dimension of physicality, it means you have not matured enough but you could be on the path, because now you see what I wanted you to see with the eye of physicality, and then I can show you the beauty of the firework in the dimension of the STM.

In so many ways, mankind has trapped himself to dimension of STP, due to his lack of trust in himself and trust in the strength of the STM. One day with the coming time mankind will mature to this, but it won't happen all at the same time, it's as according to the time and the place and the strength of the soul. Maybe, maybe many of you will understand soon. ??? the Day of judgment, In so many ways, is the day when you'll be able to see the beauty of the firework, that you judge, that do I want to stay in the dimension of physicality and suffer so much in that dimension, or choose the path to the light, to the stars, to the dimension of the U Community, and lights of the U, then everyday is a Day of judgment. (2:36). Because you have to stay correct, every action will be the same, that's why I always said, when you ask and are given, that part goes away, because it is given for you to see the beauty, and with it you give love back, that it allows for the lights to shine. In that process .. the soul of Vision becomes the soul of Life, the existence of life, and nothing else. In essence mankind has to learn to see, what I call ?? 2 visions, at the strength of the soul, and the strength of the STP, or in the

dimension of the soul, which is the physical dimension, its own strength, not at the strength of .. physical body.

When you move into the dimension of the vision of the soul, you shall see every creature, and creation, and entity in the U, because that is where it sits. When you sit with the dimension of physicality, the vision is limited to the horizon. In the dimension of .. the vision of the soul, there is no horizon. It's from eternity to eternity, all shall be seen, and all shall be open to all to see. Now you understand why one of the Commandments, They Shall Not Lie, and this is what Moses kept away, as it has been in the 24, what we call, messages. Because if he would have said to people, they all would have known that he is lying in what he brought as part of the messages, and he hasn't given the lot. (2:38). and he had to abide by it.

The soul of vision in the dimension of emotion of Vision, is one of the sacrosanct cornerstones of the creation. You see part when it is filtered to the strength of the man, we call it a dream. And sometimes even when you are in a physical time, you start seeing things, and feeling emotion, and what do you say, "I was daydreaming." No, in fact, you have been present communication between your soul and the others, and you are witness to it, life, but you have never understood this.

In so many ways, mankind will go through this process very rapidly in the coming time, especially when we said, all the souls reach to that point of elevation. Now maybe you understand the difference between the vision of the man, and the vision of the STM. Where in the dimension of vision of the soul, we see every presence of every entity, which we have connection to, which is the totality of the creation, even the Creator.

In the dimension of physicality we can only see what has been allowed for us to see in the spectrum of the strength of the AA of the man, ... which is the cage to his vision. Is a narrow point, is a goggle you wear, (2:40). and you only see that peeping hole, and nothing more what happens around it. With the teaching of the soul, and the vision of the soul we allow you to take this goggle out, or this restriction out, and see the totality through the vision of the STM. Maybe now we understand more, and it is part of the visions which will come and we'll see more and more will be taught, and then we have to understand, then we have to mature into the time and place, and the space. Maybe mankind in time, when he understands these, the new emotions, which is open to it, will understand it can manifest itself, anywhere, any point, any position, with the knowledge, and be seen, any position in the U. Then maybe one day you'll understand when we say, we manifest Christ, and other prophets of God to the vision of man. As their soul decides to manifest, and the man is prepared to see the truth. It's your soul who decides to see, not for us to manifest.

The vision, what we call, the emotion of the vision, reaches the point that you make access to see, and to be seen. (2:42). Then you choose at that level, if you achieve, reach the point of maturity at that soul, that soul is visible to you, and no more. I hope the words not only understood by the ears and the brain of the man, but is heard through the STM too, and that **he matures to new levels, and enlightens the others to be able to see. But for that, as we prepare, we have to wait till March. And if, if that position takes place. All depends on a lot to be taken place from now on till then. It has to be pure, and it has to be one direction, as a giver, and one love, and one care.** This is as I repeat, it takes only one soul to mature, not only the souls on this

planet, but throughout the U for all to be equal and the same. And that soul is about to come. It's not a Day of Judgment, it's the birth of new life for the U, and understanding the totality of it, with love and care. And in so many ways, a new vision, is on the horizon of understanding the Knowledge of the Universe, for all to be equal, in all essence of creation. we have collected from every fields of every creation for that point to come, that collectively creates, and is in contact, (2:44). and is part of totality of all the Unicose, and not only this planet and this U. **In essence we have collected the totality of the fields of the Creator, and with it we shall create a new creation. It will be adored and respected by all** who have been created and will be created. That will be the time when we all shall see the same, one beauty and one light and the source and essence of the creation, that we all connect to, and that what we call the soul of the creation.

Any questions.

### **Baby Girl Born During Teaching - Helped with Gans**

R: I have some news from Youtube .. birth of a new soul. ... I would like to inform you that at this moment, my wife and I are in the hospital for the birth of our daughter, Maitea ... (2:46). .. Maitea comes from Basque origin, it's a female name .. meaning love. So congratulations. you have been speaking of this, and it already manifests it. ..

### **The Soul to be Created will be Loved by all**

K- The soul to be created will be loved by all, and it's time for it to come, is appointed, and it's the creation of the soul, which leads to creation of the physicality of the totality. I shall be servant to it. As I serve to be present. Mankind will soon understand.

WL- .. I think understand why they say the eye is the window of the soul. ... we practiced to look into peoples eyes.. I can recognize what their relationship to my past lives. (2:48). What is the emotion they carry, and when I received that I was crying, especially for one case, I was crying to die, and that is a very amazing experience when you can feel that. I think I understand what you said .. emotion of Vision because of that time you really feel that. Because I look at a lady and came out an image of a bull, and I remember like I am a farmer, and the bull is helping me to dig the land .. it's like the bull contribute his whole life to me, .. when he was old we killed him, and I see he is crying ... and then he left me his skin to keep me warm .. and we eat his meat, I feel so much sorry for killing him. Then he told me, my love, I love you, then at that time I can feel the love from all the identities. .. everything from the U, then I believe that I was being loved by the U, by everything. they just give everything for me to be existence. (2:50). Also during that time I can feel somebody is like my mom, past life lovers, I can feel different things, I can feel soldier left home, but son never came back. I can feel the pain, the love, everything, it is really an amazing experience. to really feel . I am not sure, I think this is what you mentioned, vision of soul?

K- In a way, do we look to the eye, just to see the beauty of it, or do we look into the eye to see the soul. And what I hide for the soul not to be seen. In so many ways, we choose not to see, but it is all there to be seen.

WL: Yes, actually, you know, I can speak that funny light language, (2:52). but sometimes when I find people can understand, they translate, and then I can understand, oh, that has come out from my soul. Sometimes I can feel, oh no that is not what I

wanted to talk, but when I listen carefully, maybe that is the real come out from my soul. So then I can understand the emotional physical soul has different then our soul feeling. So how we can coherent , people always struggling .. the feeling of your ego want, this is your soul want. .. how we can coherent with our soul and STP?

K- Yeah, but the point is we put. You see we share but we need to understand, that we got to start maturing to the point to see it through both points, the eye of the man, and the eye of the soul, through the same peeping hole, and recognize each at the same time, not to interfere, not to cause hurt, loss to the other. (2:54).

### **With out presence we bring the maturity of the STM**

In so many ways, mankind is entering a chapter of .. evolution of life, that up to now he has evolved in the dimension of physicality. **With our presence, we open, what we call evolution and maturity of the STM, that now it is time for man to understand maturity of his soul, and bringing the 2 together, that it lives as one.** In so many ways, life has to exist in both dimensions of the physicality and soul, and both respected by both, then the man and any creature will be matured. Time and space.

Any other question

Q: Is this living in transparency in the soul condition a major point of resistance for the physicality since we are so accustomed to being able to hide our thoughts and emotions? (2:56). repeats ...

K- Why do we need to hide? If we are proud of what and who we are?

R: this seems to be what we are moving towards in our society ... you can't really hide if people are telepathic .. (2:58). ..

K- .. we have a beautiful saying in Farsi, I laugh for you not to see my sorrows. In so many ways, we choose to see through the eye of physicality because we can't stand the pain of how beautiful is the other side. And we don't need to die to see the other side, if you mature to the reality we can live in both, and see both, and then at the same time when we see the STP is getting weaker that it can lead to its demise, we open a channel through the STM to feed it, keep it, to nourish it. And in that process there is a very big question. That is are we ready to see through the eye of the man, both , or in fact, do we see both, but we choose only to see or to recognize the eye of physicality. And if .. you mature enough to the level that some do, you see both at the same time. (3:00).

R- .. emotion of Presence .. when the physicality was off or in the stand-by condition, how does that relate to the emotion of Vision? Is that when the physicality is on stand-by ?

K- No, no, go and read it, or say what you just said.

R: the emotion of presence occurs when the physicality is off or stand-by

K- In a way, the emotion of the Presence in the soul level, or understanding the U level, is when the vision agrees that it is safe for it to manifest, to be present. I cannot just appear and end up in the ocean and drown myself. I have to see if it is the right place for me to manifest myself, to be present. And you are blind to it, you will not see it, you go on a stand-by because the vision has not confirmed the safety, the confirmation of no damage, not to me, but to the others. (3:02). And this is part of what we try to explain. In so many ways, mankind has in reality to open his eyes to the true vision of the soul, and vision of the man in a physical dimension. .. it's like you are in a plane and you fly, you have an inside environment you have to watch, and you are floating in the environment outside you have to monitor what is happening outside, and make decision what happens. Inside the cabin you just see the walls and the chairs, outside you see the whole of the planet, and this how the STM both in the vision, the physicality, and in ..

dimension of the soul is. You see a bigger view, we see a bigger picture and we interact with what is going outside, it doesn't matter we are a small plane flying. But our position is dictated by what is available outside, and we dictate our position inside, how we will react inside. But the 2 coexist, and from outside someone looking they see a plane, and if they look closer, they see you inside the plane. The physicality of it. This is the beauty of the creation, but mankind has become very narrow minded .. and it is just, (3:04). for whatever reason has decided only to see through the peep hole of physicality, or the dimension (D) of the strength of the physical life, where from the beginning he was aware of the both.

Any other question?

Q: .. whether we know plasma T is a crutch to raise the soul or do we have other beliefs to rise? .. Like people use plasma for Covid but they don't understand what this T is? (3:06).

Q: there was a shock wave going through the Australian army as many war crimes by the Australian soldiers in Afghanistan have been revealed. The generals are saying only been done by a few rogue individuals ...

K- Every time it's in public, it's a few, but the leaders are there who have given it. Even we see the same thing today in many aspects. If the world leaders, won't allow injustice to happen the world will change, because correct elected peoples will to the position ..

.. we see it today. The world leaders have decided ...

(3:08). supposedly a superpower choosing a leader. the rest of the leaders can .. till it was shown that a new person has shown ...

First time outside leaders confirmed ..

(3:10). In essence we should have no soldiers to abuse .. and this is about to come about. We have seen a lot of changes ..

One of the ways is total and absolute disarmament.

In Europe they know there is going to be an uprising against the injections they are trying to force on the population. (3:12). We have seen, we observe, militaries from one nation are moving to another, to be detached from when you shoot, .. when you drag them out of their houses, because you don't understand the language. This is primarily in that position.

Now we have seen the report of militaries moving at night when they can't be seen. .

Any other question (3:14).

Q: .. The F1 created out of 3 components.

K- the collective sharing of the common denominator and totality of the fields, leads to creation of F1, and once F1 takes hold, it will become the supplier to all, that all stays equal. and this is one fo the reasons that every object in the U is more or less, spherical shape. To be able to cover in all dimensions. if you take a square shape or whatever, you have leftovers. but the spherical is ?? .. we put everything together to make a headquarters for that headquarters to run all of us equal. And that's how F1 is, when it is created out of, and at the same time when it has a common denominator with everyone

it covers everyone to be within, in that ?? common denominator strength. Every cell in the body has a common denominator, (3:16). that wants to be part of, doesn't want to be part of your cell of the body my cell of the body, because it fits into the structure of the strength of the soul which I carry, which they put together to create me, for me to carry, to put ?? to them. .. we all put a chip in to create an army that it protects all of us. That army what we call in the center field force that everybody is put in, all the cells, and then in that process, if you go from let's say, highest level after F1, which is field strength, to the matter state you all still receive and have a connection to that common denominator till you arrive there, what you call the transition.

Any other question.

K- How successful is your teaching in private teaching ...

Q: we are trying all efforts to make it not a one man show ... (3:18).

K- Thank you

We were discussing.. maybe the solution is this part of your private teaching, will become part of the Wiki teaching. that everyone has access to, but still kept in separate section. As you teach we add into Wiki ...

Q:

K-

Any other or shall we call it a day. (3:20).

Q: I am a master butcher, and I am trying to bring back the reverence and respect for the animal during slaughter. What can I do to help facilitate this .. I would like to implement plasma water but not sure ?

K- .. in the Islamic and Jewish world they slaughter with a prayer, that it gives blessing to the soul. In so many ways, now it's just a recording, just a noise, because the truth about the reality of slaughtering, or taking a life is thanking for the gift of life it gives. And it has never been understood. In the western slaughter, or Middle eastern slaughter houses it's just a tape playing, bla, bla .. but it has lost its essence, which in fact is to give from our soul to the soul of the animal, and make the passage of life, less painful, or .. acceptable, to extend, (3:22). if it can be accepted. In so many ways, willingness to give is different then taking without willing. ... do we need to go to this extent as we do, can we provide structure in the essence of the emotion to be at peace, till mankind learns not to consume others. Maybe one way is to allow the animal to have a time, with being able to be given the chance to elevate his soul, and for both to understand the time and the position. And understanding how and what it means to take life, and I am there ready to give life. This what you say, has been one of my biggest dilemma from childhood. I was brought up by a Moslem family surrounding. And even my mother who was from a Jewish background came to it, this slaughtering of the animals when you bought a new car, moved to a new house, or something was done as normal. Many times as a child I looked at this and thought, why do we have the right to do this? Who gives us the right to do this? (3:24). In so many ways, until you haven't seen it and understood the emotion of life, it is very hard to explain if you are the butcher or the observer of it. We don't see it, we get it cut on the plate, cut in pieces, or chicken or whatever, .. but the process is something I could never understand, and I said many times ..

The only way is to elevate the soul of the animal that it finds the path to a higher order as it gives its life to us. But we .. do it so much that we don't think anymore. We used to do this when we ?? didn't believe in the soul, and we were worshipping the statues. We

slaughtered animals to give it to gods. But this God doesn't need that. But that the mankind has carried on with the same process because he has ?? (3:26). Maybe with the new understanding and T mankind will not do that.

(3:38).

Q:

Q: So every cell in the body is there to evolve. How can we support our self to evolve?

K- What do you mean?

Q: it's part of what you said, half an hour ago. ... (3:40)..

K- What does that mean, this is what we want to know.

Q: .. what a joy this day will be, will resonate in peoples heart and minds.

K- Thank you very much for today. As we progress to the next level of understanding, we try to develop a new dimension, new understanding of the work of the U. and hopefully in understanding we can change a lot of things without, (3:42). trying to use the tool of physicality. And one day mankind will find out the power of the soul is much more powerful then anything man has made in the dimension of physicality. And one day humanity will mature enough to understand, no one can take nothing for ransom. Because the payment of it is much harder then trying to .. create harm and damage to a soul, nation, or to a race. .. I hope you see with the vision of your soul and physicality in equal measure that mankind finds peace.

R: 255 KSW

(3:44).
