

## **360th Knowledge Seekers Workshop**; December 24, 2020

### **KEY-PHRASES:**

### **SUMMARY:**

### **ENGLISH TRANSCRIPTION**

(:07). ... Today to those of you who are believers in the path of the Christ is the Christmas Eve, (:08). to celebrate his birth tomorrow on 25th. .. we look to an end of a cycle and the beginning of a new one, as the first of January arrives. We wish you a wonderful Christmas ... the Christian calendar. Many of you have celebrated 25th during your life as it is the way you have been told, but in fact the true Christmas, the true birthday of Christ until some 200 and odd years ago was celebrated on 21st, and about 200 years ago Vatican decided to shift it to 24th due to one reason, and that was to make more separation, that Christianity is not replication of Mithraism, as they tried to separate the Church and what we call, Roman Empire, the end of, to call. 21st of December what we call in Farsi, -- which means the longest night, and is considered to be the birthday of Mitra, some 8,000 years ago. On the other hand as we said always, the STM is the light of what we see, and -- in Farsi means the light, to shine, the brightness of the light, which was the sign of Mitra. (:10). Mitra was the soul, and shined the same. As Christianity we know today was adaptation of the old Mithraism, so the birth of Christ was put on the same day as the birth of Mitra, as his son, or I should say as her son. This is what gradually over centuries, Vatican and the Churches washed away for the present Christianity to be on its own. But if you open the books, 21st of December, the longest night, the birth of Mitra was celebrated as the birth of Christ too. This is how the Roman's wanted it to be, that everyone celebrated their time, as they were Mithraism supporters.

In so many ways, when we look the truth in the background of what we call Christianity, it is the teaching of Mitra, the cycle of the beginning, and the cycle where man understood more about his soul, and called it the light. The of light. In Jewish religion we seen it a couple of weeks earlier, in the same theme, but different name, about the same time, Hanukah. This is how they all copied one way, and that was the path, believing in the Creator. In so many ways, as what we know today, used to be the Persian Empire, extended to Palestine, so now you understand how Judaism is part and in a copy of what it is, Mithraism, and the night, the times, and many things replicate within it.

In so many ways, they always carried the light, the candle, to light a candle, you make it the Star of David. (:12). And everything else has become one thing, for man to become alert and to know his soul, the light, the ultimate process of existence. In so many ways, mankind has always been told about his soul, even by Mitra, some 8 to 10,000 years ago. And if you look deep enough the Jews speak about 6,000 years, or about history, when in fact they are 2,000 years copy of what Mitra brought and they could translate it to their language. In understanding this it means those who understood the truth about the creation , even when they brought in the faith of Zoroaster, they kept the fire going, in a physical way, in temples, in Mahbah??, of what we call the house of fire, the room of fire, and that was man interpreting himself, of soul of, as a fire, a light, interpreting

physicality, in keeping the light, that it always shine. Many of you I am sure, who have been to Zoroastrian temples, the room of light, the room of fire, where fire has been kept on for thousands of years in the same room. It has a different effect when you go into the room of fire. It brings and enlightens the STM, that fire was set to enlighten the soul. In so many ways, as the last hundreds of, few thousands temples are left within Indian and Iranian border, with the believers of Zoroaster, the light, the room of fire. (:14). Mankind has come to understand we always knew about it, we were told about it, we never understood at that time, we made a symbol of it. In so many ways, the room of fire, light when you walk in it, as I have done many, many times in my young age, brings you an enlightenment, to think, if this fire has burning in this room, in this pot, for thousands of years, from one generation to another, what was the purpose of it. Maybe mankind for the first time mankind understands, we always been told, our soul is light, but we choose to ignore, we kept the fire to symbolize it. In so many ways, ... in the tradition of the .. present Persia, we never worshipped a statue, it's the only nation and culture which never took in worshipping false creation. Always believed in Mitra and through Mithraism we kept the ethos of the soul do good, be good and act good. It does not matter what you do as a good the others live by it, but at the end, the good the truth will win, succeed as it is the conduct of the soul, not the conduct of the man. In so many ways, we go back to one thing if the STM in its infancy at the point of creation in the womb of the mother, to its completion as a star in the galaxies and universes, (:16). carries the same ethos. And how does it shine, the way that it shines, in the whole cycle of its creation, from his birth to his completion. In so many ways, mankind in a very short time will come to a completion of one cycle, and the beginning of the other, where the STM will elevate to understand the totality of the knowledge through what has been given as a gift to man and his soul at the point of inception, not inception in the womb of the mother, but inception in the realm of the Creator, in the Unicose. Maybe some of the KS find the key and find answer in the totality fo what they have been asking and searching for thousands of years in the path and the way to the Creator through the work of the creation and the created STM, maybe some of the KS one day elevate their own soul to have access to the totality fo the knowledge of the Creator to understand the true meaning of the operation of the STM, to be humble.

### **Christmas is really Mitra - Vatican moved from 21st to 25th**

In so many ways, in Christianity and many religions speak about reincarnation, speak about return of Christ, and Meethi and the rest. In a way they're return is return of Mitra, it's return of totality and birth of a new cycle. And that point comes at the point of the maturity of the man to understand the totality as much as possible through his own physical understanding, (:18). and that cycle, the return of Mitra, in a way, the return of the true for the new cycle to begin, is about to happen. And this is what the humanity and the rest of the U have been waiting for. Beginning, establishment of world peace, and understanding peace comes through do good, act good, and speak good. In so many ways, mankind is about to mature to that point in totality, and in one sweep, that all the souls of the created, of the creation, will elevate to be equal and the same, that there shall be no king and no one ??? as the light of Mitra. In so many ways, we give our Happy Birthday to Mitra as the old tradition of Iran is, we set the table on 21st to celebrate her birthday, and then we celebrate the beginning of the New Year, the beginning of the cycle, which is the 12 days of Christmas, which used to fall on the first of January. And that is how many Christians started the beginning of January as a cycle of new life. Where we celebrated 12 days, and then we started a new year. And that has

come to the 25th, the 12 days of Christmas, and the rest of it, and the 3 Wiseman of Iran and Persia. In so many understanding, man should understand why 12 days was chosen, as the 12 days according to the structure of the U, (:20). creates a complete cycle. What you do in 12 months, Mitra achieves in 12 days.

### **Mitra Brought Truth about Soul of Creator**

In so many ways, .. the completion of the cycle of man comes about by understanding of totality about the truth about the creation of the man, when Mitra brought the Soul of the Creator, within the realm of the understanding of the knowledge of the created man. In so many ways, awakening the STM, and from that point on we have seen the extension of the knowledge to the soul, and the STM in a direct way. In so many ways, Mitra took the child of the man to her chest, and through the heart, ruled the Soul of the Creator, that the child, at the age of young, when the mother breast feeds the child to soul of the child, and the soul of the physicality of the child. Maybe that is why many of you for the first time understand, why we hold our children to our heart when the mother breast feeds, and why we keep them close to us, as we blow the STP and perfection STM, to their soul. We nourish both the soul and the physicality at the same time. No other creature does this, except man, except those who understand and start the elevation of growth of their soul and physicality. In so many ways, mankind feeds the 2 at the same time, we breast feed from D of physicality, and by holding the head of the child at the point of his soul, to our chest, we elevate the soul at the same time. (:22). Physicality is nourished and then the soul.

In so many ways, mankind has to learn the new ways and why we do things, and you'll find out by history of the man, by elevation, and understanding of totality, why some children are calm, or wise, and why some understand much easier. Go back and see how they were nourished, when they were fed, how the mother holds them to themselves. How she transfers and at the same time nourishes, the soul and the STP of the child at the point of the growth, at the point of establishment of life. In so many ways, mankind has always been so physical, that he has not always understood and seen the truth, and now maybe as we teach mankind, gradually mankind leads in the direction of understanding his own creation. Maybe one day .. man become truly wise to his own essence, and true direction and D of creation.

A Merry Christmas to all those who believe in the path of Mitra, in different names and by different banners over thousands of years. A change of the name did not change the ethos and the truth. In the past few weeks as we teach more about the science of the understanding of the process of the travel, and understanding of the D of the way the man will take into space. (:24). It is important for many of the KS, as they are contemplating and moving away from matter state, in the D of interaction of the fields, it is important for many of us to dig deeper in the truth, in understanding of the truth, and in being able to ?? siphon the knowledge.

In the last week a lot has been achieved in the KF research centers. In a way, we have brought the knowledge, and as we learn the knowledge we transfer this time to the soul of those who understand and will be the cause of the elevation of the man. We will not teach through what we call, the mass teaching in the media, but we'll teach to those who their soul is ready to serve humanity. Many of you without knowing, but work in the same path will receive enlightenment, will understand the T in a different way, and each

one of you become messengers of knowledge for peace. In a way, from now on we communicate through the STM, for the man to elevate his knowledge, not on screens, billboards, and blackboards. In a way, that's why we tell you what is achieved but don't show you, and we enlighten the soul of those who are there to serve to be enlightened by the knowledge. In a way, as we see in the lab, those who are sincere will get enlightened through the knowledge and direction of the STM.

In so many ways, we have seen a number of KS have been, in past few weeks, taken this path, (:26). and now they teach to others in a totally different new way, the interaction of the fields. We do not promote no one, as we have seen we promote, we create the downfall, of their ego, and then the humbleness. In the process of the teaching, many KF KS will come to be enlightened by the knowledge. The way we enlighten, as we said, as we teach, we teach the whole of U, now through the new understanding in the process, as we teach, those men who are true men of peace will receive the message, as the rest of the U, through their souls, not through the ears, and understanding through the teaching by blackboards as we call it.

In so many ways, the knowledge is been transferred to KS, the way we transfered to U Community as they are not here to listen, they don't understand the voice of the man, but they understand the knowledge as it is transferred across the U, to them to be equal to the others. This way many of you as KS will find that you understand the T, totally in a new way, and you start teaching. Make no mistake, this is our knowledge, and the more you receive through your soul to teach, become more humble, do not take it as a point of arrogance, as at the same time it will be taken away from, and it will be taken from you until you learn the way we work. As we said, the taller the tree the more it bends downwards to the earth, the more humble it becomes. And this has to be the attitude of the KS.

Many of the KS, (:28). will use these teachings as the process to understand the whole, and the totality of it, through their soul, and this process will carry on for the next 3 months. In a way, you are, as I said before, in a sandbox to listen to your soul, watch the event, do not listen to your physicality, and understand that, that event has come for you to see the connection between your physical life, and the cycle of your soul and understanding of it. No one comes to whisper it in your ear, but you will see it in black and white in front of you, and emotionally you feel it, and then you'll say, "how come, where is my soul, why didn't I know this, why do I live this way?" And you understand one simple thing, we teach through the understanding of the soul and not by term of physicality. Many of you will come to receive the message as we teach through direct understanding the work of your soul. This is why we gave you the 5 Cups, and many of you who went through to build these Cups, was the way, a path for you to connect and build this link we were looking for. This is why we encouraged many of you to build the Cups. That was a bridge, this was a sandbox for you through the process to elevate your soul, to be able to reach to understand the knowledge, but this time through the ?? of the STM. (:30). In a way, we gave you the beacon of light, and now we teach you what the light says, what the light works, how it world. And in a way, last week we showed you the Cup combination, and in way, as I said in the teaching last week, you don't need to have 4 Cups, you need to have and create the D of 4 souls that think the same way, work the same way, and through it they achieve the soul of totality.

## **Purpose of Pyramids**

Maybe mankind for the first time will understand the reason for the pyramids, the creation of the pyramids, why we created the pyramids, and how we created the pyramids. The 4 corners of the soul leads one, as they elevate to the top to reach and become one. ... the reason and the purpose for creating what we called, and many of you never understood the power of pyramids. The power of understanding of the totality as you placed the 4 souls, as you were taught, and this leads to creation of 1 point, and this is the totality, and if you look within the D of the work of the pyramid of Egypt, we always said, there is one, the way and in a given direction. This is the direction to the Soul of the Creator. It's not for you to find the North Pole, and not for you to understand, (:32). where the center of the U is, but in fact, leads to the direction, to the center of the creation of the Unicose, to the Creator of the creators. Maybe mankind become mature to reach this point, in that process by focusing the energies of the STM in unisons and peace, the collective field forces of the humanity, does not matter how many billions, will come collectively to find direction to the Creator. This is what was left to humanity thousands of years ago by those who understood the work of the creation, and the man of space who came to earth to teach man. Does not matter how many points you create, once all work in the same direction, peace and equality, you'll find the new point will be created to the direction of the Creator. In a way, if you look at it, what comes from the creation and what comes from the Creator will reach to one point, and in fact, what you send is what you shall receive.

In a way, mankind will come to understand a new path between itself and its Creator, to the D and the creation of the of the work of the pyramids, this is why you have and you'll find a point, that all will be and create a balance minimum fields. (:34). The point of central energy, but in direct, direction of the line of the Creator, because at that point the communication becomes 2 ways and not one. Now you understand, .. why we gave you the 5 Stacker Cups. It was a point for you to test and find a way to your Creator, through the interaction and understanding of the STM, through the interaction and work of the STM. As you could not understand we made it simple, connection of the man to the point and the place of his birth, And connection of the man to understand the totality of one thing or the other.

In so many ways, we unravel the secrets of the creation step by step. This is why encourage you to build your own 5 Stacks that you understand, you have to bring the soul of the place of the birth, the STP, the STM, all in one harmony that in that process, you can see and reach the point and the D of the direction to knowledge of the U. In so many ways, many of you who understood, (:36). the work of these pyramids in the past would have seen one thing very clearly, the pyramids in the same way point to the center. That in fact, becomes one in totality of the creation, synchronized to understanding of the knowledge of the creation, connected to the place and point of creation, which is earth for man. One day, one day mankind understands.

### **Mitra Taught across Planet through the STM - Pyramids to reach Creator**

One day the humanity will understand that this knowledge is left with humanity thousands of years ago. Mitra brought it with her, she taught, and that's why you see the building of pyramids, more or less is the same time, as she reached the soul of humanity at that time, and they all built the same, the same as the ??? ?? today, teach through the soul that the mankind will understand, and as there was no Internet and no mobile

phones to convey the message. **Mitra taught through the soul. Mitra reached the soul of humanity, and at the same time, those who understood the knowledge, built the pyramids to find a way to the Creator. She didn't travel the span of this planet,** she reached through the knowledge of the STM, to every man on this planet. **This is why we came, to complete the cycle of Mitra. But this time mankind in totality with the rest of the U will travel the path to the Creator.** In a way, we move the temple for the man from mosques and churches, to the temple of Creator's home. (:38). Maybe many riddles in the D and direction of understanding these structures around the world, will be solved today as a gift of us to humanity, that now for the first time man understands why we built, and we taught to build, man these constructions. **If man looks deep within the structure of the U, you will see stars which set in this way, and in the combination of other stars point to one direction. The path to the Creator.** In a way, if you remember about the history of America how people made patch quilts and hung them on their banners and outside their houses to show the Blackman the way to freedom, these are the same. We built the same, we taught the man the same. These are the signs in the skies above man to show the path to the Creator. It's for man to educate himself to understand the knowledge. We lay out the knowledge, it's for the man to understand the truth. For the man to understand the knowledge. This is our gift to those who understand, for ?? Yasa and Christmas, to humanity. It's the first time we have unraveled the secrets in a very clear way. It's for you to understand where you place the 5th Cup, or where you place your soul, and with that, how you work with the Earth, (:40). and all its contents to find the path, and a solution for the STM. To find a way to his creator. In so many ways, mankind is getting ready to meet his creator through his soul, but not through the eye of physicality. The day of celebration, the day of understanding.

### **Mitra - is birth of Eve**

In a way, once the man becomes knowledgeable in understanding that **the 21st December, being the birth of Mitra. Mitra is in fact the Eve. It's the rib of the body of the Creator.** This is how man could understand, that's how in the history of man, it has been told by man this way. The day of the birth of Mitra is the day of the birth of Eve, **where the Creator created to be loved, and to love.** In a way, instead of you waiting for thousands of more years, for someone to explain to you why and how, Mitra came to be on that birthday, it's exactly, that's how, it goes back billions of years, back, as Mitra itself is a version, a copy of the life and cycle of the Eve. This time those of you with access to knowledge of the U, will understand this sooner or later. And with it come the birthday, and the life, celebration of 21st of March, which brings the birth and cycle of the beginning of life on this planet. Where in the coming time will bring the two to be one. (:42). And soon mankind will understand.

Place the 4 Cups which we taught you last week and build them in a specific way, you'll see that your cups will create a light above, in a way, it shines. In a way that's why in Christianity you put a star on top of the tree. If you understand it, the center of the tree and the position of its leaves, creates the position of the starship. We always taught you the same, but as man could not understand, they looked for the physicality. Ask yourself why we put an angel on top of the tree. the birth of that angel will bring man to the Creator. That's why we called it an angel. It sits on top, and it's a direction and a D to the love of the Creator, as He loves His creation, as He shines on it, and gets shined back on. Remember the principle of plasma, where the strongest gives to the weakest to

rise it to be equal, as **the Creator shines on the angel for it to grow to become a star, equal to the Creator, where the life of the creation shall become twin in one, (:44). and brings the stability for the future of the Unicose.**

Now you may understand why and how, so many riddles in the knowledge of past thousands of years, as man was not mature enough to understand this. In so many ways, when you put and construct Christmas trees as Christians, or you make a pyramid, remember one thing, at the end of it is, to create a shining star of Energy, that through its strength which is the totality of the strength of the man, will create a weaker point, that the light of the Creator, that's a stronger, will shine on it, and elevate it to be the same, and create a new life. And this is the understanding that we have tried for thousands of years to convey to man, and now we think man has matured, and the rest of the Unicose to understand.

### **Corona links to Cell - Gans diverts and elevates soul**

As we said, in Corona, **Corona has to find a strength equal, and a link to the physical cell of the man that he can take and connect to. And then you create the Gans's which is much weaker, to attract that energy, that you allow the cell to live, and you divert and elevate the soul.**

### **Plasma was Engineered by Creator to be this way - to reach all created**

**This has been our way from the beginning of time. This is the way plasma was created, to be able to operate this way. It was not the same from the beginning of time, it's engineered and designed to be this way by the Creator, (:46).** that it can reach all the time, as you stay the strongest, that you can feed the smallest and the weakest to reach to His level.

### **Every Created Being can access Knowledge of Creator**

Therefore, you do not need to be a genius, or a man of whatever, to reach, to get access to the line of the knowledge of the Creator. **Every created can do, as all came from Him and all shall return to Him, as they come equal to create a balanced field transfer between them and their Creator, and there is no limit in numbers and positions.** As the numbers increases, the strength and stability of the message becomes stronger, and direct to the source and to the Creator. As I said, maybe for the first time man understands why we even brought candles and lights on the trees in the cycle of the ??Narus with the Iranians and the Persians and the culture of Zoroastrians, and this is why the Roman Empire was so memorized by the beauty of the knowledge, knowing that they are equal to their soldiers and they are equal to the other kings, and the rulers.

### **Which Source do you want to go back to - Earth or Creator**

Maybe for the first time mankind becomes wise to one knowledge, that it all comes from the same source, and all goes back to the same source. **We came from it and shall return to it, depends that it, is it the earth of is it the Creator, depending on the strength of the energy, which the life created it, depends on communicate and operates through and with it. (:48).**

## **Many KS have received a Message and will start teaching**

In coming time, **humanity will mature in a rapid way, to find a way, and to find the understanding of the way to the Creator.** Now that we lay the path. **Many of you KS within past hours have received a message through your soul, the true message. In the coming time you will teach the path of the Creator,** you will teach the correct conduct of the man. And all shall wait for the birth of the time, of the new of the new cycle, that starts on 21st of March to bring all to one point, to bring the earth and the soul of the U together in physicality and soul, to become one, and across it, to become as part of the totality.

## **Earth Chosen because farthest point - covers totality**

The Unicose has many on the edge, **and the U of the man,** ... if you would have looked at many of my work in the past years, (draws a spiral) **sits on the edge.** In a way, **why the Earth was chosen to be, is that by going to the furthest, you can cover the totality.** In a way, Earth is the reference point, not for its beauty, but its position, that in the fields, in the D of the Unicose, it's all the totality of the Universe, all fall within the span, between the Creator and the created, which covers all.

## **Mankind Gifted with Presence of Creator**

Maybe (:50). one day mankind will understand, **why it has been gifted with the presence of the Creator.** In a way, **the point of reference and the love of Mitra has brought the two to the same point, that all shall be equal from now on right across the U.**

## **Anything Created from Now On will carry knowledge of universe**

**Anything created from that point on will carry the totality of the knowledge of the creation,** as has been the wish of the Creator, and the dispensation of the new cycle for Unicose as all shall be equal.

## **How to Connect 5 Stacker**

In so many ways, build your Cups, understand what you (have) built, and I tell you one thing, many of you last week asked me, "how you connect it." I have seen many of you asking how you connect the boxes, where does it sit, how do you stack it? The answer to you should have been simple. .. is not the SF as you thought. The answer to all of you is one thing, **stand between it tall, and let the light of the Creator shine upon you, and you'll find the path to the Creator.** In a way, the position of your soul, the true soul of the creation, will become the tip of pyramid, and through it, you shall be enlightened to the knowledge of U, in the direction of the creation of the Unicose. (:52). **No man will reach this point unless he comes in with a pure heart, and understanding of the totality.**

## **Access to Knowledge is According to your Own Conduct**

In a way, the position of your soul, **your own soul when you have built your system will dictate the access and the process to the knowledge, according to your own conduct**, during the life of man on this planet and in the Unicose. And how much you are prepared to give to become one, to stand the totality. This elevation is your conduct. How you conducted your life, and how you will conduct the process of the creation of your soul to the point of its destination. Many of you, .. had to understand that you make the Cup of Life, the way we told you, and the way you make your 5 Stacker, that from it, in a given position you place it, depending which Stacker you have used in the process. Where is the soul? That you bring the totality of the strength and .. the D of the rotation, it rotates to the point of your soul, and there finds access to its Creator.

If you remember, I said, the **best will be a family of 4, father, mother, 2 children of boy and girl, where it brings the totality of the balance, and .. it's the soul of the family, which be enlightened, and all will reach that point.** (:54). In time mankind will understand. And in time mankind will find the direct path to the Creator, where as we said, there shall be no prophets and no magician. This is how we established the KF from the beginning. We will not show the magic, as you will create it, you'll understand that the magic of the KF is the knowledge, to understand the knowledge of the creation and the Creator. And that is all. This is our gift to humanity, this is our gift to the Unicose and what has been created by the Creator.

#### **Mitra will Return in Short Time - already present**

I hope, and **my sincere wish is, the STM will accept this time, the gift of Mitra, and with it elevates the soul of the rest**, for the time, the position and the place. Mitra shall return in a short time, **as she is amongst us and already present**, and in so many ways, **will serve her return in a very short time.** Now you understand the purpose of the teaching, and **in building it up over years, and over centuries in different ways, that man becomes wise to understand, and once understood, chooses one path, the path to the Creator through the soul, and the conduct of the soul of the U and Unicose, and the collective STM, as one, in conjunction with those souls that have lead to its creation, the planet, the land, and the soul which created it, the Earth.** (:56). And understanding it man will come to understand more about the process of creation in all D and all directions.

#### **Mystery of Pyramids Solved - Path to Creator**

**Today, we solved**, or in a way, we explained what has been magic to man in **respect cycle of pyramid**, but go back to the teaching, and **we showed you the path to the Creator. And now you understand why pyramids were built and given numbers and different positions, and as the creation of their energies** above them, leads to direction of one little one out of line, which in conjunction with the other 2 will give you the line and the passage to the Creator. Now as I said, understand why last week I did not give you any connections, except the ?? essence and the totality where it has to be corrected, and connected. My wish is simple, I hope , mankind in the time of the celebration of the birth of Mitra will come to celebrate the new cycle of life, which is a life of peace, tranquility and equality for all created across the Unicose.

Thank you very much for today, and I hope many of you have found the way and the key to your Creator. And I hope you heard the voice through your souls and not through your ear and the voices of the man. (:58).

Any Questions ..

Q: The Sun is a soul, in our brain is a soul, so why when we die do we not shine like the Sun as it leaves our body ?

K- It does shine, but the man doesn't have the eye to see. It leaves in a volcanic eruption of lights, it leaves a tail of meteorites to tell you which direction it is flying, but the man does not have the eye to see, and the knowledge to understand.

R: I think that is described in some of the ancient teaching

K- Many of us see the light during the time of our existence, but we ignore it. We see the light traces of it, with the knowledge left behind. We see the light by the conduct of what we left behind .. It's the souls which ?? after we leave, (1:00). which shows the traces which way our soul has gone to. And what it does without us actually seeing the light. What shines after and behind shows ...

(1:02).

Any other questions

Q: John Bliven, ...

K- ...

Q: ... (1:04). When you talk about the bird leaving the cage. we typically think of that as coming out of the top of the head through the Crown chakra, can it also come through the Heart,

K- You got to realize that the heart or the source of the fields extension always moves up to feed the weaker part of the soul, for them to reach the level of strength of all fields within the soul, and that's the time and place when the separation comes. When all the energies of the physicality are transferred to the STM to start its journey. Where the prophet was asked to sacrifice his son, and he choose to do so. The son is the STP, where the soul is asked to sacrifice for it to be free and elevated to the D and direction where it has to be. But it was translated and transferred to different stories that it lost its meaning. (1:06). Is the STP which sacrifices the physical life for the soul to be free, to be able to elevate to the D and direction of the freedom, but then it was translated to a prophet, to his son, and to animals to sacrifice. I hope I answered you, and it could be understood in totality.

Q; So the cycle for elevating the soul is through the Chakra system coming from the earth up? to the Crown..

K- Would you like, I always told you a secret but kept the secret, not kept the secret, but you were not ready for it. But in a way, mankind might understand it in the future. I was told, never say, you don't understand, you will understand, you think we don't understand. We tease the word, "you don't understand," to a new understanding. But in fact, it's very simple. If you go back to the teaching of today, and the previous days, and the understanding of the work of the soul, and 5 Stackers, you understood this very well, and I told you there are more souls with it, there are more structures. (1:08).

Where does this ?? go to? The STM. you created it in general, but now you create it in a specific uniqueness to elevate your soul to find the D and direction to the Soul of the Creator, your soul becomes the angel (on top of tree), your soul becomes that beacon. And there is more, and as man matures we teach more. Now how many of you would

like that you made your Stackers against the chimney all the way to the ceiling? Are you going to hang yourself to be on the ceiling to be on the top, or are you going to bring your Stackers to a point that you can stand on top, with your soul to find elevation? But this is not complete yet in the coming months we'll teach you the rest.

Q: John, so once you reach that point of enlightenment, do you stay at that state or do you have to practice, day after day.

K- There is no end to the knowledge of the Creator. Even the Creator gets enlightened, (1:10). and by the knowledge which is created comes to Him from His creation. There is no end to elevation of the STM, even when you reach to understand the creation of the Soul for the Creator. That shouldn't be your worry, because the more you elevate, the more you understand, and the more you can elevate others.

If you reach this point in your soul, and you understand you are on a progressive

So once you become a soul to become a star, you become a point of reference to shine, as you give, you shall receive more. And now may you understand why we encourage you to love, to give, because you can give to the lowest for them to be elevated, and in that process you create a cycle that in that cycle you have only to receive more from the Creator, (1:12).

K- While John is here I would like to explain to you what is about to happen with EU which is in a process of being completed and being shown for the first time in AZ and other parts of the world. The KF research team has broken through another D where we will see new innovation in T and material that we have nothing built inside accept transfer of the fields which the STM can accept for his physicality, and ?? physicality. The extent of the knowledge (1:14). and health. It's a beautiful layout ...

Q: .. Bulgaria, ??? I am confused .

K- Different interaction create different conditions and different terms, but yes, everything is the same.

Q: I understand but

K- Which part of it has become a riddle for you?

Q: Center, Creator, Soul , human soul the planet. (1:16). It's a little bit not in order.

K- So it means you lack in understanding. So where is the gap in your knowledge?

Q: Which part is created out of which .. we are created out of the earth . (repeat) . Soul of the Sun, which soul are we created out of ..

How the soul is going to go back to the source. ...

K- Which part of it would you like to explain what you don't understand. Because when you try to explain what you don't understand sometimes it becomes clear what you missed. (1:18) .

Q: when the rays comes together

How will the fields which were part of the original plasma, got separated, are going to join it again.

K- Now explain again the last one.

Q: the earth and sun should not be coming together. .

K- See now explain the last part (1:20).

Q: When the fields separate how are they going to get back together again ..

K- How do you plan to go back.

Q: No, you said the earth is going to go back to the sun?

K- Why does it do that?

Q:

K- .. in essence there is still a link in the strength between the two. Your son goes away from you to another city, another country, he doesn't finish because he's left the house, there is a trail of love. You call him in Beijing or wherever. We leave, we always have within us the trace of what we call the love, the connection. It never dies.

Q: Okay this I understand. How this thing that is going to happen on 21st of March is going to work scientifically.

K- You are questioning the Creator. .. no question, .. this is what has been set, and what has been planned. It will not change, because then the time, the whole humanity the whole Unicose will understand. All those connections will be made from then on. It will take a very short time to complete the cycle. Because the knowledge has been given, and the enlightenment will come with it. (1:22). I have seen a number of KS have start understanding this, and are trying to explain it. As I said, we don't encourage or release names, as what was before. Some people become big headed ..

Q:

K- Look into them they are new teachers, they have understood and will explain the process.

Now we have new teachers who understand the work of the soul, these are the ones what will guide you to the next step in their teaching, now the soul of masters, work through the soul of teachers. Many of you will see and understand. The one who could teach class one and two are still there ..

(1:24). Q: So who is that?

K- It's your job to understand. Go through your soul and understand. We don't put people on the line of fire ..

Q: I am asking the question and you are not answering me you are just pointing .

K- I answered you, you are deaf to my words, you don't listen. I answered you very directly. You don't want to hear, because you want somebody to chew it, and you just swallow it. Now you have to make it yourself to do.

(1:26).

(1:28). of your own STP, forget about teaching somebody else. This is what you have to come to understand, and if you understand, in 1 second you get enlightened to the knowledge to the point that you can understand. What happens on 21st, I can tell you exactly what happens we set it out. A new cycle of creation, a new cycle that the STM and the STP become one, when they start to become equal, that there is no need for the brain of the man that the emotion of physicality come in and does, and commit wrong. And it's the same right across the U, that the Soul of the Creator, and the STM become equal that there will be no wrong doing and the knowledge will be equal. 21st is not just what's going to happen, 21st is beginning of a layout, new D and direction for the soul of the whole of the Unicose, a new life to be created that it brings that equality. Many KS .. not only on this planet, we have KS across the U, that all the creation and created are in a seekers in the fields of the Creator, so we are all KS in D of physicality and the soul. As we try to reach the level of the understanding of the knowledge of the Creator. This is the ultimate goal, it's not to make a MaGrav or try to fly. (1:30). This is what you were promised, the day of the end, judgment, yeah the day when man understands

how to reach the understanding of the soul of his creator. That's your .. the end, when you understand the creation and the created. That's all. It's not going to be the whole thing will explode and disappear and the rest of it. Try to look into the fields, not into the cups. Try to understand the fields of the Cups.

Q: It always seems that the G is stronger than the M is it possible that the balance achieved in that way?

K- Yes, we achieve it, in knowledge, in U Community, of course it is. When it is balanced it becomes one. Have you ever understood the theory of "Unified Field Theory," when there is no gravity and no M, it's all one, and as you give you take, you give in balance, and you receive in balance. Then in the interaction there is no physicality, because physicality comes when one is stronger, trying to pass the other. That's how the surface of this planet is created. The boundary of this planet is created. The field of balance gives the ?? of this planet. (1:32). When you are at source equal, you become the source. then you become so low that you receive, but at the same time you become so powerful that you give. Why do we keep on telling you to become humble. How do you expect to become humble, by becoming a king? No, by becoming the weakest source to be accessed by all that they can feed you. That's why when we said that there shall be no kingship, because nobody wants to stop receiving. They all want to be low enough that they can receive that they can elevate. When we say that there shall be no king, there shall be no leaders, because it doesn't need to lead you anyway, you lead yourself and you understand when you are king you are supposed to have anything, and when you have everything you cannot receive more. SO you become the weakest, the most humble that you give everything out, that in that process you receive. The language of the creation is very simple. Man through his greed make it complicated, because somewhere in-between he wants to benefit by it. He doesn't see he has been given the benefit from day 1. The benefit of ignorance and greed.

Q: I got the point

K- reach, reach, reach to understand the truth about the creation. That's all.

Q: When you speak about the theory of the Unicose .. (1:34).

K- In a way, it'll shine in a very, not to promote itself, it shines that I am here, if you need a guide, if you understand what I mean. Life enough to be a guideline, not shine to become a star. but to be a path to a leader.

Thank you. We try to finish early today.

Mankind locked himself down through his soul. Now they have abused it to lock down his physicality too, because he allowed it. He allowed abuse when he abused his own soul.

Any other question. (1:36).

Q: .. How we can block a plasma field with another

K- You don't break it, you can bend it, but you can't break it, you can divert it, but you cannot bend it.

Q: ... CO2 CH# he will block the field?

K- No you absorb the energy in it. There is no end in the cycle of energetic M field. There is no end.

Q: But how we can separate, (1:38). which is stronger and weaker ..

K- What you mean.

Q:

K- You cannot break, you can absorb, because it means you haven't understood the totality of when you put a Nano coating matters, are absorbers of all the fields, in a way you put mini plasmas, millions of them and you trap the fields in-between. And then you use them for something else.

Q:

K- .. there is a misconception , (1:40). especially in the world of physics regarding the, they say, if you can bend the light. I can bend the light 360 degrees, 180 degrees, because you have to understand what is the strength of the light and what strength

(1:42).

This is how we move the meteorite from hitting earth.

There are forces in the U like the UN, their job to protect . .

(1:44).

K- You can push it or pull. This week in the lab we had this ...

(1:46).

(1:48).

Q:

K- What are you asking for?

Q; A meeting

K- Organize it ..

(1:50) Arrange a Bulgaria group Keshe Bulgarian Corona team ..

(1:52).

Q: .. My sister has cancer.

K- We do not respond to medical questions in teachings.

(1:54). This is part of what they do, and they spare as much time as possible to help. What we call the KF team can do, a lot of people expect too much from the KF doctors..

When the centers are built ..

(1:56).

Thank you very much.

Any other questions

(1:58).

Q; Salameea, .. during the planetary meditation on 21st December, my hair was gold .. a portal of light open I fly to .. I had the vision of pyramid . (2:00). What is the link between the Pineal gland and the STM, if any link?

K- can you explain what she is asking

R- the pineal gland in the center of gland ... third eye.

Q: Is like a pine cone . Pope has this sign in septre.

(2:02). When I meditate ..

Can we see with the STM., have images, sounds, smells.

It's not imagination, it just appears . Answer my question.

K- Yeah, I am trying to answer your question in a very scientific way. sometimes when you dream your dream is so real to you, because you want that dream, it is your desire to get to that point. So everything becomes real. People ?? the third eye, or everything else we have seen by the KS and many people around the world go through this, because they want to, and they establish a line within themselves, within the energy circulation of the body of themselves. It can convert or be heard, or be as the voices or images they want to. (2:04). We have that capability to create, .. we have the ability to absorb and create. In so many ways, it's one of the beauties of human race's power of attracting, interacting with the fields, within the structure of his brain. I can teach you in the coming time we will teach how you can take energy from the soul and transfer and how you can change it to a visual and emotion, and understanding.

Q: This is our ability to see what we want?

K- It's not ability it's just .... how come you have the ability to imagine a milkshake and you go and have a milkshake and physically consume it. Man has the ability to create that vision of the sense of the smell, material, emotion. It's like that orange and the cup, now the cup is your soul the STP to convert into what you want. If you want to extend that to smell matter material in your hand you can do the same. This is part of the process of the teaching .. (2:06).

The biggest job for humanity will be to try to be different because we'll all become the same. A cat or dog, or lion do not change clothes. Why does man create clothes to hide behind it. In the space we don't have factories to manufacture. ... man is naked in physical D .. (2:08).

Why do you hear voices, because you want, and you have the ability to hear, to see. I had that instance very recently, where the body is not active, it's more or less dead, the body works, but the physicality doesn't respond. and then you see the soul is absent. (2:10). When you say I wished I was dead, you carry that wish, it is the worse thing you ever wished for. You'll say, I elevate my soul to learn, to love more, to become better lover, not to wish to be dead. it's understanding the power fo the STM, you can decide I want

You can share the soul that both see the same dream, feel the same emotion. It wakes you up from the fear. Many of you how come you go to cinema together or play squash together? Two souls sharing the same story, same scene, it will become normal to human race once they understand more. (2:12).

You cannot lie to me and many KS who get enlightened, lying becomes absolutely an impossibility.

But you pay for it, you pay for your dishonesty.

the Third Eye is the interaction between the STM and the STP, what you want to see in the smell, the physicality brings it for you , and the soul provides it. And those other souls who want to be part of it, because that was your wish. No one has managed to lie and walk away with it.

(2:14).

(2:26). It's you who pay for it through your Third Eye, through the separation from the soul. And what you wanted to be close to, you'll be pulled away from, because you did the wrong. Then you say, they did. You don't say, what I did, and my soul pulled me

out. Third Eye is the presence of your own, between the interaction of the STP in conjunction and D of what you desire to be. And have a look way they call it, Third Eye, where is your soul and where are your eyes, and which way does the STM move in and out. Interaction between the body and the soul. Isn't it where the interaction of the STM and the light of the day. Is when you want a gold you create 2 fields, and then you put a gold there and then the field, Inertia, of the third gold brings you the physicality of the gold. Isn't the Pineal gland where the field is there of the soul, the STP in the vision of the sight of the eye of the man, when there is no Ca to hold it, creates that daylight information. You should be wise, KS, we explained this many times in many teachings. Who are you fooling except yourselves. The Third Eye understanding of what I wish, (2:28).

(2:29:30).

**BREAK >>>** (2:36:30) .

K- .. Can we have the last question.

### **Mithraism - Persian Empire - Pyramids**

Q: Guatua, About Mithraism and their celebration which was moved from 21st to 25th December in Christianity, and the pyramids ..

K- You got to ask that from the Vatican.

Q: I don't want to know about dates, .. but knowing the connections between Mithraism, Persian Empire, and ancient Egyptians civilization?

K- Ancient Egyptians civilization is about 6,000 years old, Mithraism goes over, just under 10,000. The Persian Empire, you have to understand Egypt, Middle East, (2:38). and Iran, Iraq, and going into India, they are not the way we see, as separate countries or whatever. It was just pieces of land, people moved from one to another and if they happened to be in a country or an area, where they had a ruler, they had to pay the taxes for that ruler. We didn't have nationhood. We had tribalism, and which tribe ruled where. And how then it became divided and was brought up. And merchants, and people who traveled, they knew there was another village and another place they could buy and sell and man has always been in commerce, in that business. They brought not only goods, they brought their thoughts, their education with them too. They didn't bring, what you call, salt on the back of the camel, they brought the culture with it too. We see it on the Silk Road, with the Chinese, how we are so well brought up into taking a lot of knowledge, a lot of western knowledge, education, our work, comes from the interaction of the Chinese merchants, with the Asians, Europeans, and the rest. They didn't just bring things to each other, they sat and ate with each other, they told the stories and now the stories were nice, they said to the other one, they turned it from the Chinese man to a Greek man, and to the others. And so the culture, the Mithraism bringing in one god, understanding the totality was done this way. And people brought the knowledge, they built, because Mitra taught about their prison. Mitra in the knowledge of this, and the Egyptian, they tried it, and Mitra at the same time, at that time, (2:40). taught everyone through the soul. Mithraism is not the entity. Mithraism is a school of thought, it's a culture of U. What name do you want me to put in it. Mithraism is a way of living through the STM. It's not the religion. They made the religion when they put the name of Christ, Zoroaster, Mohammad and the rest to it. It's a path of belief. It's the way the U works. it's the message fo the Creator.

Q: So the message of Mitra comes first and then religions are built later.

K- You see. Of course. Mitra, in Iran we go in a history called literature, or whatever you call it, past 8,000 years with Mithraism. Egyptian pyramids have less than 6,000, and then if you go back to Judaism they say they are 5000 and something. It's just that if you could add and benefit by it, they created it. People built it, people changed it, not the message. How they could convert it, and how to be benefited by it, and in different names and shapes. All the religions without fail, is a deviation, or interpretation of Mithraism message, nothing else. And they all know. This is why I keep on telling you, we are not prophets, but messengers, we bring a message, but in totality so this time there is no color to it. (2:42). We haven't started a new religion, or sect, we have brought a knowledge, for knowledge of U to be understood. And this is one of the reasons I always referred to Mithraism, because it's a message of U. It's the working of U in the language of the man. And it's an ethos in physicality of the one who brought it, the origin.

Q: .. that's very interesting ..

K- It's fact, it's not interesting.

Q: I mean from my own understanding it's very important.

### **Body Creates Odors as Protection - not satisfied with life**

Now a question about last week. About the C crystal ?? liquid plasma, grapheme, when it interacts from crystal that comes from smell, and then the smell disappears, in terms of the stronger plasma giving to the weaker plasma to create a balance, what happens is that crystal from the smell depleted, or does it absorb from the C crystal to become a C. What really happens?

K- It is depending on, and extending on. It depends in the environment. That's why odor disappears, because it expands into and it loses its strength. Your body creates a smell continuously, creates gases continuously, but depends on the emotion and fields of the emotion, (2:44). and the food you eat gives it a different smell. Our body .. we know many people, ?? a lot of people, not just many, that for years, the smells, certain smells they don't like, and they change partner and the smell goes. Nothing. They change the environment. It's not just the food because even the food bring different emotion. they change, they take a new fruit, or food and that gives them an emotion, that the emotion satisfies why the odor is not created. We see this especially in women, that by getting married or change of partner, the odor that bothered them for years just disappears, because the emotion does not allow the crystallization of the odor. We see this many (times). In men we see that too. they say, "oh I used to smell." Why? Because you changed the emotion, it's not by food. It's by how you are. Ten, 20 years, or all your life you have all sorts of smells, and ?? because that new condition has satisfied what you were missing. You don't want to keep away anymore, you want to attract. Why do we create foul smell, to stay away from me. Why suddenly changes, because you have reached to what you want, even the body responds. I don't create that to create a separation, my odor changes. Our odor is the physical barrier we create. (2:46). Have you been to the supermarket, or you've been to the streets and you've seen some people stink so bad. You just can't even stand around, Why? How come the wife or child doesn't smell. Because they are not happy with that wife, they want to create separation. They are not happy with the man, they create the most obnoxious smell, and they cover it with all sorts of the smells, odors and new ?? When a person is stable, does not create. If I teach you about the psychology of the man and the way we act, you'll see. We create odors as a part of protection. I am not happy, doesn't matter whatever you give me. This is how I create that barrier, that is how I want to tell you, you don't satisfy me at home.

People change off, and the odor changes, because they were not happy in the place, or they go to ?? ?? and they are used to ?? stink, because the environment ?? around them. Many relationship break up because of odor, or some people tell them. But when you move into a new situation, and psychologically you create a new D ?? And this how we work, how our body works. When you don't smell, or you loose an odor which was obnoxious it means you were not satisfied. At that point when you got to ?? I want to, I want to be near to. I want to absorb, I want to be near to the people around me. I change out, it is not just a job. I said this to many people who are obnoxious in the smell. I say, are you happy, (2:48). with what you are doing. --- I say, change out. Your body says, you are not happy, you bring a barrier for others to suffer because you are not happy. You see it in relationships. When you don't have an odor which puts other people away, or you create it, it means you receive what you wanted. You achieved what you wanted. You work where you wanted and you feel good in your soul, and your physicality tells you. The way it creates cancer, it creates odor. And a lot of people don't understand it.

Thank you very much for today, who are in a way, not all followers of Mitra. Happy birthday Mitra, ??? Merry Christmas. And as we have celebrated this is the seventh year we celebrate Christmas and New year, everything else under different names, to celebrate the birth of one person, one path of belief, and to be correct, do good, be good, and live a good life with it.

Thank you

Q:

K- We don't teach, we share the knowledge of Creator.
