

363 Knowledge Seekers Workshop 2021 01 14

KEY-PHRASES:

SUMMARY:

ENGLISH TRANSCRIPTION

(:07). K- we welcome you back, (:08). that nearly 7 years completed by next week, that we enter on the 8th year of teaching, nonstop, sharing of knowledge and some 3 - 4,000 hours of teaching. We try to expand the knowledge that by 21st March we start a new cycle. Many of you KS, as ii attend private teachings, have a question, "What is going to happen on 21st March?' Is it going to be a new calendar is it going to be a date that we start a new cycle? Is it going to be a massive change, that what we have been waiting for? Some people asked, is it the beginning of what was called, " the return of many things." In fact the 21st of March is the beginning of the new cycle, what we call, enlightenment for mankind. It does not mean that whole humanity will enlighten in one go and everything will change. It's the process that humanity and the U Community enter simultaneously a cycle of completion, to understand, to share the knowledge, not with words, but through understanding of the structure of interaction of the fields of the U. Even though the human kind, the voice is the ultimate way to listen, hear, talk , share or in other means what mankind has made for himself, computerize and the rest of it. In essence everything is made of M fields. Interaction of M fields, and in that process, we make one language that the whole of the U, Unicose, all humanity and those beyond will be able to interact, to understand, (:10). the interaction of the fields of their lives. What does it mean, what does it actually brings about, how would we as human race interact with these situations. How do we see ourselves and the rest to be? We see it, as 2021 the process and beginning of the new cycle for mankind, where humanity will meet, and understand the total process of life. n a way, where humanity and Unicose will become to understand each other. Where mankind can transmute between the matter state and the fields. .. as one guy was asking, is that, from now on we can hide ourselves? This is not the way to be because, you might be able to hide your physicality by extension of the fields of the source of your soul, but still you are visible to the others as a field, and the interaction fo the fields. . it's not hide and duck, but to be seen and be more transparent. .. it's not escapism but to be open and transparent that man become responsible, it does not matter in a physical D or in the D of fields of the interaction of the fields with the others.

One point which I raised last week, we have the 5 Cups, where is the 6th Cup? Which we spoke about the Cup fo U, that mankind can interact with the fields of the U, which is the MG field forces of this U. But there is a Cup 7. (:12). The Cup 7 it brings the totality of the man with its Creator. When mankind can understand, the progress and development of the structure of communication, what we call the Cup 7, which is the Creator, we open to man. the way you constructed Cup of Life, the way you did the structure of the vertical or horizontal, or solid, gas, or liquid state, you create the, what we call, the Cup of Plasma, creation of the interaction fo the fields of the U. For the first time, mankind will be able to receive to understand the knowledge of the U, simultaneously from the Creator which is man himself, part of, with the structure of his Creator. What does this mean, it means ... for the first time, as you have seen and you build the first Cup, with the One Cup, One Life, you'll be able to create fields that by the

strength of the creation of your soul, you'll be able to interact, to receive, like the Messengers of God, the knowledge of the Creator. .. there is no need for intermediaries. This might be far fetched for man at this moment through his knowledge, but those who have evolved in knowledge, understanding and T, in the Unicose, will understand immediately what they have been waiting for. To be able to be part of, and in touch with, .. to share with, knowledge across the Unicose.

The Cup of Creator, (:14). is the ultimate goal. .. you call it, the Seven Chakras, .. we call it, the Cup of Creator, .. everything has to work perfectly according to the understanding and intellect of the man, to be able to reach to that point, or any other creature. The Cup of Creator, the Cup of Life is all the same. It's understanding of ones own soul, and interaction of the fields within the structure of ones life.

There are two very important, which is what we call the Cup of U, will become the most important thing for mankind to move onto. Where he can transmute his soul, where can .. be able to interact with the other fields will take mankind thousands of years. And it can take a man a few seconds. This is dependent on the clarity, devotion and servitude, in serving, or what we call, loving. There is nothing more important in the cycle of life then loving, which is the giving. What we give that we can receive, that in the process of the cycle of receiving, we reach to the point that we recycle the fields of the U, and we pick up the best, what will elevate us. Many of you have not understood what it means by, what you give more, you receive more. In a way, what you do not need, which is within the fields of your soul, (:16). you create vacuum, you create a space to receive and in the process fo receiving, you take what allows you to elevate your soul to be able to move in different D. As I was explaining, .. mankind has the knowledge, mankind has the capability of creating anything, through his soul.

Many of you might ask how and why, as I explained yesterday in Iranian teaching, Farsi KS, I explain again. You go to understand, your soul is the creator of you, your soul is the creator of every part of you, because the interaction of your soul, and the fields of what we call planet earth, in interaction with the fields of the Unicose allows your body to create hemoglobin, allows your body to create your liver, intestine, brain, and the interaction of it, gives your shape, your body, your feature, your physical manifestation, but in essence, the interaction between your soul, and the soul of the planet, creates Fe, in your blood, creates Ca for your bone. It creates particles of gold, which the body needs at a given point in the body of the man. So in fact, we don't need to look for another system, (:18). to create the matter state manifestation fo the man, or anything man needs. If your body creates Ca at a given point within the structure of its physicality, isn't it by the wish and the will, of what you call, DNA, or RNA of the STM, with the interaction of the fields of the planet. The Fe doesn't suddenly appear in your blood. The Fe doesn't suddenly vanishes from your blood, the interaction of the fields of the soul .. (break in audio ..)

What we said, is that the hemoglobin is made of Fe. Even every cell of your body is made of materials, but these materials are made by the interaction fo the fields of your soul, with the soul of the planet. Therefore, in your RNA, and DNA, what you call the memory bank of your soul, and your physicality, mankind has the knowledge through his soul to create anything. This is why I said before, you can hold your hand out, and extend the field strength of your soul, and create gold in the palm of your hand, because your body has already made it for different parts of your body, where it needed it. (:20). You can put your hand out and create Ca, because your body has already made Ca in

interaction of its field, and the U, and the STM, and the planet. Your bone structure, your teeth. Then you understand for the first time, mankind has the ability to create what he thinks through his soul. We don't need machinery, we don't need systems, we don't need dynamic systems, if man uses the dynamism of his soul with the interaction of the dynamic soul of the planet, or the U. In so many ways, when mankind and those who are the passengers for the U understand the strength of the soul, in interaction with the fields of the Creator, shall see the soul of the Creator. As we said, as like with the electron, with the proton, as they are smaller in interaction with the light, with the fields of the Creator, mankind will manifest itself with the lights as an electron. This is how in the future mankind will interact. Mankind will understand how to manifest itself, and how to be manifested the same. Does not matter if it is in the presence of the lover, or the Creator, as the STM will carry the same field strength.

In so many ways, if you understood, and understand the past 10 minutes teaching, we have shown you the way to the Creator. We have shown you the way to yourself, that how you can create and manifest yourself in the D of the Creator. My teachings are complete. (:22). But in so many ways, the mankind has to understand and the rest of the U Community how to use the knowledge, the understanding of the new knowledge to progress his way, to become unified. We called, it One Planet, One Nation, One Race, we call it, One Universe, One race. In so many ways, by amalgamation of the races of the U and Unicose, we bring peace unity, and collective understanding of the knowledge of the Creator. . this is the way we planned to share the knowledge of the U simultaneously across the U, with the birth of every soul, and at the outset of the birth of every soul. And this is why we call it, we need one soul to trigger.

Einstein in one of his papers, which he could not understand it, called it the funny thing. He said, when an electron moves polarity, another electron does the same simultaneous. This is that funny thing. This is what Einstein could not understand, now we understand, by elevation of 1 soul, the rest of the souls of the U will move to the same strength. In a way, it moves to understand, it moves to accommodate the new strength, and by accommodating all will turn in one switch. The birth of new life, the creation of new life coming on 21st of March will be the essence of what we call the "Promised One," this is what has been, (:24). and what will be carried out. You've got to realize many things, which I explained in the past few days, 2021, is the year of progress from 20 to 21, maturity of the man. At the same time collective numbers of what it comes to be 5. The same this year. The calendar of one path of the belief, going the same with Mohammad, will collectively be 1400, which is 5 again, it is the cycle of balance, a cycle of the unity.

In so many ways, everything will become one. In so many ways, mankind reaches point of maturity. He needs 1 soul to take everything over. It takes 1 soul to be made out of pure love and creation, that will change the society of the Unicose in one click. It has the power, power of the Creator to be able to switch, and with it the enlightenment of the Unicose and Universe will be established. This is not what we dream about, this is what we set out to be done, and our wish is our command.

In so many ways, mankind will be free from the shackle of the wealth, and free from the shackles of physicality. It depends on how man understands the structure and work of his soul. In next few weeks, gradually we build you up to understand the time, the promised time that the change will come. It will come through the blood of Mitra, and it

will be established on that way, (:26). on this planet. It's the merger of the U and humanity. It's the merger and completion of the cycle of the creation. Where there shall be no need for Messengers, but it will be the completion of the message from the Creator, to the created, with no intermediaries. The cycle of the prophets have been a way that the different races in the U according to the establishment of the life, and the cycle of soul has been run up to now. This way it makes it easy, as everything will be born with the basic knowledge of the Unicose from the beginning. Every race will receive the same knowledge and the same energy, that all races from the point of establishment will be able to siphon (decipher), to understand the process of creation, and in this process, no race in the U will be faster or higher than the other, as all understand and will be enlightened, by the same soul.

In a way, in the structure of the plasma physics, we call, the "Dark Matter," what we call, the "Principle," will become the same for all created souls across the U. In a way, what this means, we all start on the same basic, the same ground, the same equality, and the same balance of the knowledge, does not matter, where, which country on this planet, or where on which planet, or where and which U you are born. The light of the Creator, the knowledge of the creation, will be received simultaneously at the same time. .. with the new understanding, (:28). and the new wish of the Creator, the whole of the Unicose will be phased one level up, that the knowledge will become the basis for equality, prior to the creation and completion of any cycle of creation, anywhere in the U. .. when you go from earth to another planet, to another position in the U, you speak and you'll be understood and your knowledge will be equal to the knowledge of the rest. This goes to my promise from the beginning of the teaching and that was, we'll take the man to U Community not to be a slave, a subordinate, but equal. As the whole Unicose with what we taught you today and the past years, have been brought to be in that position, that there is no race higher than the other, and all races are equal. This has been the wish of the man. In so many ways, we have completed the cycle of creation. Now is teaching how mankind can be kind to himself, and at the same time humanity has to learn one thing, end of division of races, language, and culture. In a way, end of many other things.

We have seen in the past few days, as we said, end of kingships, and have seen end of president-ship by hand of a woman in the past week. What has happened in the US in the past 7 days has brought a lot of changes, which will have profound effect on humanity, (:30). where we'll see that there shall be no one higher than another, not even the president. In so many ways, everything is set for humanity to move in one direction. What has happened in US in past 7 days in the US, has laid the path for our wish to complete the cycle, that there shall be no leader, as all will be equal. In the coming cycle of administrations and world leaders, we will see this pattern of conduct, that will change the whole understanding of human race. This was our wish that no one is higher than the other. This is done by the man himself. If we do it, it is done because of. If you do it, it is done through, and the reason for. In so many phases, we see in 2021, the end of religions. In 2021 we'll see the end of leadership the way it has been, as leaders will lead, but on equal term and basis of the rest of citizens. We'll see the end of kingship as the palaces will be empty as there will be no king. And they will be the house for those who wish to bring the kingdom of God to their land. It is our promise, and it will be fulfilled.

In so many ways, we have seen from the first week of this year, 2021 the changes in the ethos of understanding of mankind in leadership, in how no one will leading, or to be lead, except to understand the reason what things need to be done, that will follow the same. (:32).

There is one thing for mankind that has to develop, in a way, through Corona, has reached that point. ??? no way to do. Mankind does not need to work to live. Nowhere in the U, in any culture, beings work to live. Their life, their soul is taken into slavery to be able to, just to keep the physicality. In so many ways, we never seen, and we hope we shall never see this again, that one race divides itself into a way to abuse the others. In so many ways, does the cell of your heart, does the cell of your brain, gets paid to create a condition through its operation for you to live. Does it take holidays, or does it work as a slave, or is it there through the creation fo its soul to serve the others to exist. The lie of the man, and the STM, and the operation of the STP of the man, from now on will be in that process, as it is a cell within its body. So we do not need to work to be a slave to food, and shelter, and to be abused by those who see this as way to their meager ego. If you understood how the cell of your body works, without payments, and going to factory and waking up everyday that it is the time for me to operate. (:34). and is there through the cycle of its life to operate and serve 24 hours a day. Then you understand how the true work of the U is. And with the progress and development in the understanding of the new cycle of life through the structure of the interaction of the field of the STM, no man will need to work, unless he wishes to, to serve. No man needs to create anything, but is there to create to serve. This way prove the freedom of cycle of interactions, every movement, and man will achieve much more. And the Unicose citizens will achieve much more, as the reward is servitude. In so many ways, our soul goes through its evolution to create a better working physical life to be able to stand the changes in the cycle of the changes within the soul of this planet and the solar system, and the creation in the Unicose. From now on, man will do the same. Man will become that cycle, man will come to understand it will evolve through his soul, it will create new knowledge, it will create new tools for the comfort of physical life if he decides to be in it, and with it, he shall not be a slave to nothing, as he does it for the love of the Creator, and he does it to serve the rest of the creation, this allows what we, (.. break ..) (:36). across the Unicose.

In so many ways, mankind has always been aware of this, but not open to it. The coming time and discussions we shall see how mankind will evolve to this point. We shall see from 21st as the soul takes its shape, this soul creates D to carry the soul of every existing citizen of Unicose as part of the structure, will change the course of humanity, how mankind will reach to understand, new levels of understanding beyond the imagination of the man, and with it we start a new cycle, a new era. A new progress not only for mankind but for the whole citizens of the U and Unicose. .. the whole structure is not because of what is happening on this planet, the whole change in the structure is because of the love of the Creator, to celebrate the beauty of this planet, and why it has been chosen to be the birth place of the new cycle.

Earth is a beautiful place. Earth has many beauties, and it has one fault, and that is the man has allowed his physicality to be abused and out of control of his soul. And with this knowledge, and new cycle we bring that balance back, that from now on not only the human race, due to the combination of the interaction of the fields of this planet, the whole planet will become what was promised, where the lamb and the lion, (:38). will

nest in the same place. Mankind does not need to eat, to taste the flesh, but if he needs he can imagine, with his imagination he can see whatever he needs. One shall not kill to take energy, but shall give to receive what it needs, in the love and care of the life, and the creation.

My promise is very simple, I have delivered what I promised. It's for mankind to understand the next cycle, and understand the progress in its soul, and not in machinery and the others. Some of you will go to use Cups, some dynamic systems to confirm the existence of your soul, but that in fact, is nothing but a confirmation to you and to your soul only. We make transmutation and transportation of the fields in the D of the U, a free lodge. .. every man can change any energy to any elements according to the wish of his soul, if he has balanced his book. .. mankind and the rest of the races in the U can take position anywhere in the U, without use of what you like to call UFOs and the rest. We give you the D of the pleasure in the D of physicality or pleasure in the D of the STM. The option is mankind's. We fall in love, because loving in part of the progress and structure of the Creator. (:40). Mankind will see nothing, but the pleasures of existence. Mankind will see and feel the pleasure of the touch of the soul, then the touch of the physicality.

>>

In so many ways, we bring mankind and the rest of the U, to unified fields, in a way that we all take from one field, which is the field of the Creator, according to our position and to our strength, we reach and we understand the soul of the Creator, and with it we adopt it, to fit us at the point of the manifestation. As I said, I have completed my teaching. In a way, by today's teaching I can say good-bye. In a way, the book of life of the Unicoise is closed. In a way, the knowledge of the man has reached the point of maturity that mankind in the coming time will strive to find a way to achieve this. Whatever has been promised has been delivered, and now it is for the STM to strive and reach ultimate goal, not for the physicality of the man.

In this process mankind will realize one point, and that is, it's me who has to mutate. It's me who has to evolve, and it's me who has to endeavor to understand the understanding of the mutation of the fields. If I want to be at the strength of the field of the Creator to understand, (:42). I can choose so. If I want to be at the field strength of life on this planet, I can choose so. I can choose to be a tree. I can choose to live the life of a man. I can live the life of the lion to feel how it feels, to see the U and my horizon from different horizons.

In reality mankind reaches the point of maturity at the same time as the rest of the citizens of the U. In so many ways, we still carry on with teaching, to elevate you more, to find new ways to reach the level of the strength that you can interact and be able to realize the field of interaction with your Creator. In so many ways, if all of you, or some of you be able to replicate the true structure of what we call, The Cup of Life, you shall reach that point. As I said, . it's a monkey see, monkey does, and the monkey does not go far, as it copies. It's the same with the structure of the fields of the U. We have to understand how we do things, how we structure things. When you look at the CL, and the Cup of the soul, it is not made of one item, it is not just a Zn and Cu. How many elements are in the structure of the body of the man? How many elements, or what we call different M fields, (:44). create the STM. And in which dosage? And every change of a dose, every change of field strength will create different soul, and that is the process

of creation. If you have strived to make the Cup of Soul, how many elements in what ratio, which is the structure of your soul, have you put into that Cup. It's not anymore 2 metals or 3. In so many ways, where can you find all the elements to put in one Cup. This goes back to understanding the strength of the fields, where now you need to understand how you bring the fields into play in a Cup that interaction leads to creation of your soul, strength of your soul. And the interaction between your soul and the Cup you created, will light up, because it's of the same strength, and then you shall see your soul, or you shall see how your soul looks in the mirror of what you have created in the Cup. Then you understand, .. we taught you the simple steps.

Now it's for those who understand the knowledge to extend it more, and allow through new understanding of the fields, and interaction of the fields, for mankind to be able to create his soul. When we create a soul of a new life in the U, (:46). we collect from all the fields of the U, not just one. When we create a child of the U, what we call, through the soul, we collect the best from every soul in the creation, not just one field. If you look, it's the same, it's done in the creation of the man. When you create that child, the best, which your soul can provide through the STP, becomes the essence of that child, which you pass on through your egg or sperm for the next cycle. Now this has to become part of the same for humanity in creating the children of the soul. You have to collect the best which is in the U to become part of the soul of your child, of your creation, be it a star, you be it a planet, you be it in the body of entity anywhere in the U. .. you shall decide how you want to serve. Do I want to be, or due to my conduct do I place, or have I been placed to be a cell in a of an animal or tree to be slaughtered, or to be one single cell star, which shines, the size of the biggest star in the U. What you gathered it makes you that sun, that star. And what you have carried out, not only in the physical life from now on in the D of the soul, will decide the structure of your life, (:48). and what you shall be in the coming time.

Mankind has reached the point of maturity. In a way, it's the responsibility of you and you alone to mature your soul, and to receive, and to be able to give. .. we call it detachment, but detachment doesn't mean end of existence, but it means to be the best, in being able to serve, .. to give. In so many ways, we become a recycling, that we give all which we receive, to be given, and we hold on, we store the best, that we can give more in a bigger D. If you look it is the story of your physical life. you eat, consume every thing and what is the residue fields is used for your daily existence to heat your body, to be able to create motion, to be able to create energy for the thoughts of the man. But the best and the cleanest and more purified ones, what will happen to it, is added to the STM to be used to elevate the soul. In a way, you give through the operation of yourself everything back into your environment. (:50). You are an antenna of the fields, where you take and you give the best out, that you can give more out, because of your volume. In a way, if you look at it, you eat a small apple, but its fields and energy expands through your body, that covered the more area to give, more volume to give. .. mankind looks at even the feeding in a different way if you understand this process, that is, we take a small entity as an apple, we use its fields, and then we radiate out, it's what we call aura, our intellect, and everything else. .. we show the beauty of it, in what we have taken from it, and what in essence the more powerful part, which is the most minutest part will be added to serve the STM to elevate the STM. This is why we take time and what we call age to be able to store enough in the soul that it can elevate to the point where it can depart the physicality. What we teach is continuous, .. and step by step for mankind to understand the progress of his life. If the

energy of an apple, very tiny, can hold to itself, and the progress and consumption of it, by the body of the man, can now become the fields that radiate top change the direction and position of other cells to evolve, (:52). even it be the STM or the physicality, we see the purpose of that life in that apple. This is what mankind has to understand, how to evolve the soul of the solids, and gases and the liquids into the soul of himself, to add to it. To be able to create from it. To give the best out that what is left in the strength as residue can be added to his soul that he can give at the high order to create the next generation.

In so many ways, what I call, it's like the man who works and out fo the wages he takes home, he puts a little bit aside as a saving. this is what we do when we interact and consume other souls. In a way we put a part of theirs to become a part of us in our soul, that elevates our soul, when our soul creates the planet, or a solar system it has the essence and the soul of the apple you ate as a human, because it's part of your creation. In so many ways, that is why we say, do not kill, do not destroy, because now you do not need to take the apple to destroy a life, to be able to receive its beauty and its strength. It's in a way we understand the totality of the creation becomes one. I want to be, (:54). the field of that apple that you enjoyed, that in the time when you become the star and part of, and become part of the soul of the creation, what you create, as a creator of the planetary, or solar system.

When you say I love you it means, "I do," and it means I give everything I have. It means in essence I am, I have been fortunate enough to receive from all aspects and dimensions, that in totality I want to become the giver of all. In the coming time, as we said, those of you who choose to travel as a collection of souls, you will create, you'll have like what we call, you have today, a soul of totality, what we call the captain, that you trust your soul within that structure to be looked after, that, that captain, becomes the totality of one solar system, one sun, that from it, the new generation of perfection will be created.

In so many ways, mankind enters the field of understanding the process of creation, the true essence of the creation, through his Creator, and through what we call, the possessor of love, "Mehran." This means, what it gives, it has, and it has no reason but to give, as it possesses every love in every creation, and every soul. Mankind needs to understand this process. (:56). Mankind needs to evolve, to graduate, the level of his understanding of his own soul, that in the coming time, as the whole of the human race, as one body enters the U Community, there is no soul left behind, but we take all, we elevate all to the same understanding, that in that process of creation life becomes worth living, and life becomes worth sharing. In so many ways, mankind reaches the point of maturity, by today's teaching I have given from my soul to the whole of the creation to elevate to the same level of understanding and knowledge. And in that process we shall see a new evolution in understanding of science and T, by human race, and those who are the travelers of the Unicose. In so many ways, we do not need to travel through instruments, tools, and machinery, but we travel through the D of the STM. Many of you as human race with the STM will elevate to that position very rapidly. And in that process you shall take your position not only to be as equal to others on this planet, but across the Unicose. I don't have a wish as the totality of the wish has been fulfilled. The understanding and mutation of the energies and the fields of the U is in the hand of the man to evolve and to understand. (:58). And mankind and many other races in the U need the small tools, the processes for him or for the rest to understand the totality of

what we call, evolution of the STM, to his ultimate ?? cusp, to his ultimate position, and when we complete this cycle by understanding by the STM, mankind shall see his Creator, where he is part of and he become to be as part of totality.

The teaching of the soul we started some 3 or 3 years ago was for today, for the completion of understanding of the STM. In so many ways, we have delivered the promised message, that mankind will find peace with himself, and what we call, in so many different paths of religions and faiths, the "Promised Day," the ultimate day. In that process, mankind now understands what he needs to do to achieve that ultimate goal and point.

In so many ways, when we meet on what we call 364th meeting of the KS, next Thursday, it will be the first day of the beginning of the new administration in the US, and with it will be the beginning of the 8th year of the teaching of the KF, and with it, there is no coincidence. We set our way and we announced long before, that what we expect to see, (1:00). and in that progress, science will take lead in 2 nations across this planet, 1 in US, and 1 in Iran, and in that process, a new establishments for the structure of this will be set, that mankind will evolve in a very fast way, in science, T, and religion, that all become one, that all will meet in the same place. The advanced T and advanced understanding of the creation and the Creator, shall bring everything together, that in that process tools will be made for humanity to evolve in the new direction and D to understand the operation of his soul. The evolution and what we call the totality of the, his own creation. Let's see what 2021 will bring for mankind. A new cycle of life, and with it a new soul, the change for totality for the whole creation. To love and to be loved is the right of every soul on this planet, which means to give and to be able to receive and with this we end the time of what we call punishment, as all will receive the same and all will give as they don't need, and they use, back to the cycle. .. there is no reason to hold onto what is not needed. The wealth on this planet will worth nothing and the time will be nothing but those who evolve to develop and to serve. (1:02). .. as we said, many time, this is our annual report for the cycle of creation for billions of years. where now we balance the books and we bring all the races of creation to one. It's for the scientist in the level of the human race to understand and evolve and try to show and extend the level of understanding and evolve and enlighten the soul of those who have not, to reach the point of maturity through their understanding. As I said, every man will take from this knowledge according to the intellect and understanding, where the intellect does not mean university and college and degrees, but it means to understand the structure of creation of the U and the Creator.

In so many ways, as we reach March 21st we close the book of the past, and we start a fresh book for the life of the creation, not only of this planet but beyond. In the coming time and weeks, we will make many Cups and we encourage you to make, because this is the sandbox for you to test, to see your soul, and to understand the work of U and your soul, and how you become part of the Unicoise and the Creator. As I said this before, we thank you for being passengers of the knowledge in past years with us. In so many ways, we have reached the final stop, (1:04). it is now time to gather what you gathered, what you have been traveling to see how you can evolve and elevate your souls and those who been travelers of this same plane and train. It's the final stop, and it is time to gather to understand the totality. As I said, we'll be here to guide you further more with everything possible that mankind can gradually evolve into this progressive understanding of totality. In so many ways, I will ask you one question, what is your

wish and how would you like to communicate with your Creator, not only your soul but the soul of the Creator. And in that process where do you see yourself? As a subordinate, as equal, or as part of. And how you see yourself will station you in the position of the level of your soul. Maybe some of you understood the last 2 sentences, and if you understood the meaning of, you have managed to find a way to your Creator, or at least to your soul.

Any questions? (1:06).

Q; Salameea, what is love, peace, what is the relation with the plasma? Is love G, or MaGrav, or M?

Totality is linked and interacts with time and space. ?
repeats,

K- When you talk about what is love, we always said, love means giving. Is love peace, when you give, you don't hold, you are at peace. When you have to judge what I give, what I don't give, that's not love anymore. Love has to be unconditional. In so many ways, even the part which you need, (1:08). if there is a need for another cycle to exist, it is your responsibility to give, unconditionally, irrespective of what could happen to me, or what I'll be, I'll be, because as you give more, you receive. In reality, as you give from the highest order, you receive from the lowest order that collectively you come equal in the strength to give to fulfill the gap, it's the conversion that mankind has to learn, where we give from the highest, we receive from the lowest, and in that process in trying to replace the highest, we elevate the lowest to the highest. In a way it's the way the STM works. It's the way the soul of the Creator works. As He receives from the meager STM, and as He has given so much, it elevates the strength of the lower to the higher, by amalgamation of those who have received collectively, and so when you don't have to choose what I give, but you give as you know in the process you will receive to have, to give more, you are at peace. So love and peace is the same. It's when you don't have to choose. When you have to choose you are not in love. When you give unconditionally, it's the process we are at peace. You can choose if you want, ?? who you want to love, but you will not receive you have been given. This process is the same, throughout the creation, even for the Creator. So what is M, (1:10). becomes G, and what is G becomes M. In the process of giving, or M you split the strength into subdivisions, in the process of G, you bring the subdivisions to collectively become the stronger. This is what most of you KS have not grasped the concept and understanding of it. In a way, when you give, are M, you open yourself to interact, and you create divisions, because in interactions you give some to one, or energy you divide and subdivide. In G you bring all whatever has come from the other subdivisions to become of the highest, collectively of the same strength. In a way, G leads to the division and the splitting that allows more to exist, more to receive, and G is where you collect to be able to give. As we say, the bank is never empty.

(1:18).

.. The brain of the Sun is from beyond Jupiter and Saturn, and the gap in the brain is the hollow space we see between us and the Sun. We are part of maybe its happiness. Where another planet, its joy. And another planet is where all the sadness. The structure of the U is the same in micro and macro. So shall be, we've seen, as they say in the

plasma of a neutron we have all sorts of ?? dictums and whatever they are made of. (1:20). The creation of the entity in the field of the matter state is according to the strength of the observer's field strength. We are all part of one plasma or the other, and we are all in interaction with plasmas in one way or another. The soul of the cell on our skin is in interaction with the STP. The STP is in interaction with the STM, and STM is in interaction with the soul of the solar system, and so forth. We all confirm our existence through the interaction and manifestation of our existence of our soul, and mutation of its strength.

Q; The heart and soul are connected?

K- Of course they are. (1:22). They are connected by fields and interaction of what they do. The heart gathers the field strength of the what we call, STM , physicality soul, and the STM its position just above it, but it will receive it. If you look at the soul of the animals or the STP of the animals, or the trees, what we call plants, or solid state, you always find alignment between the 2. Because one in a way, delivers its fields. When you have emotional strength the field strength of the heart cannot handle the pain of the physicality, in releasing its energy through its soul, in not having the right strength, hits your brain and gives you a brain stroke. In a way, the eruption of the fields from your heart from the what we call the interaction of the soul of physicality's, in moving, being in touch with, the .. STM in delivering different connections and energies to control the strength of the cage, which is holding the soul, in rapid process leads to damages like a volcanic eruption, to the brain cells and you find yourself, of a different physicality damage. Doesn't matter if you are standing, flat, or you are upside down. (1:24). This is why one of the reasons with brain hemorrhage, we see bleeding because the pressure value of the blood fields strength has to be released that the soul can be contained. This is the only reason why we see with brain hemorrhages bleeding, all the time, because the value which is the heart of the man in field strength, when it releases it's equal and is made of the blood, which controls and cages the soul. And this is the reason why, in so many ways, we see with bleeding. Now we can explain it. .. capability to link the processes together. It's like you open a valve on top of a pressure cooker, everything comes out in one point, whatever matter, is cooked in the pot. And if the material is of the same strength, and comes to balance with its environment, that it can bring the balance to the pressure, you get the steam and water and everything else which is in the pot. And the rest of the ?? residue. this is why some of the heart attacks lead to death, because the field strength is so much, that the pressure cannot be taken by the brain, it just goes through. Because the STM in the brain takes some ?? because it is not time for me to go. I still need to gather more, to come to the level I want to live. (1:26). But if it is over, you are done. The process of creation is very simple. It don't work as a twin, but they work as a control value, in how to keep the soul encaged, is the prisoner making sure, what I call, "cannot escape on the prison." And the heart is the watchman to make sure enough fields are delivered, that the ?? prison is kept and always is in touch. Any other question?

Q: .. your call for doctors for the EU, is this done on line or do they have to trained in Austria?

K- Online

.. we have evolved the systems into a very advanced stage, (1:28). we start to train in the coming weeks.

.. We don't see especially for doctors for them to move from one nation to another as doctors usually do. We look into train the doctors locally in the environment they are.

Q: Is your physical death the choice of your soul, that it is the proper time to transition?
K- .. the level of your soul strength in respect to its cage, is set at the point of the first interaction of the egg and the sperm. You can it by environmental changes, through the evolution of the environment slightly. (1:30). But not that much, unless you go into the level of the soul which can transmute from one to another, which does not bring no time, and no space, and you can do that.

Q: when the heart hurts is it the physical part or the soul?

K- It depends if you have a physical problems, or is it the emotional in understanding the soul, interaction of the STP. What we feel in our heart as a pain, is in interaction with the STP. The STM does not feel pain as such, understands wrong and right, and what it has to be positioned. understands pain, not in the level of the physicality, that we do in our heart through emotion. (1:32).

Q: Salameea, to clarify in my mind that soul and consciousness are the same, logical and I also feel it. ... some people said it's not the same ..

K- Let me ask you .. what do you call consciousness and what you call the soul?

Consciousness is the emotion. Soul is totality and what contains everything. If you are conscious, (1:34). you decide what is right and wrong. It's part of the structure of the operation of the STM in terms of physicality. Consciousness is an emotional feeling. It's not the soul. An emotional feeling. right or wrong comes from the interaction between the STP and the STM.

Q: There are 2 words .. you are aware of something, consciousness for me is the same like soul..

K- No, consciousness no. the way we understand it, is the evaluation of the right or wrong, or what is correct or not. (1:34). You are conscious of your conduct. So it ha an emotional relationship into understanding of it. it is part of the interaction of the soul, and the STP. It is not part of the soul, it's the interaction of. It's like mass. It's the byproduct of interaction of 2 fields. You got to realize when we speak about the STP and the STM, it's interaction of 4 field forces, giving and taking, or G and M of the STP, and G , M field of the STM, like the Sun and the Earth. And different fields interaction, according to which one, which strength creates different outcomes, of what we call emotion. And consciousness is that. We don't decide what our soul takes, we decide what is correct for our physicality, we are conscious of it.

Q: So consciousness helps soul to be moral?

K- No, consciousness .. STP to be moral, not the soul. The STM is moral because it's independent. It changes its position within the structure of the brain according to the other souls. The STM is not constant in the strength, and more or less, what I call, revolution within the structure of the physicality of the man. It maneuvers, changes position, changes its angle, its speed of rotation, (1:36). according to what other souls do. And in that process, this is what the judgment comes, then the STP has to, not only interact with the STM, but accommodates what other souls have agreed for the physicality to reach that point. It's the 2 independent, but interacting. If you killed a man, in hiding, and nobody knows. Where your STP knows and your soul knows, then the souls decide how to move you, how to maneuver the soul that the physicality follows that maneuver, that it brings for you to confess your crime. We've seen that in a very recent past. Where the soul moves to open the misconduct of the physicality. We see it in the present situation in the American administration. The soul moves. The souls move into one thing or another to bring the physicality in the position through the operation of the soul. In a way, your soul walks your STP for you to be seen, to be known, to be shown what you have done wrong. If you understand it, we use the

operation of the nations, as we all understand ?? of giving names and individuals. (1:38). But if you look the STP of a government, reflects the operation of the soul of a nation, and one responds into the other. And when one does wrong they all go with it, and they all receive the same. If you work and understand, the work of the creation, the way we do, and the way we see, it's a very strange that one of the administration who killed more than any other administration during its operation, is coming back to work, this time to correct what they have done wrong to many things, during what they had to do. Why do we look at leading nations on this planet? Because they set the scene for the rest. You will see the situations where the world leaders will become answerable personally to their conduct, as we have seen in many other nations. When leading nations, leaders always have escaped with it. What we see, in the past weeks, what happening in US, is bring the balance, as we have seen in the other nations, people go through revolution, and bringing a leaders who have been unjust, and ?? correct. Self-centered administrations always have brought disaster to their nations. And we have seen it, (1:40). with this, and the present situation. If it was a small country in Africa with what we have seen in US in past few weeks, it was something Africans do. Now one of the leading nations in the world, has set the seen for literally abolishing leadership. And the man on the street is changing position, not in administration. Every leader gradually becomes accountable on a daily basis to the people who they lead. As it is in some writings, the time will come that no one will take the crown of kingship, because it has such a heavy responsibility ..

Q:

K- Not the crisis situation, even in the best situation. In crisis situation somebody always takes the lead to pass the crisis, as we do. Mankind is in a turmoil and it needs to be let out in a very fast way, but through intellect and science. To bring the science and T to be the same. And at the same time and religion ..

(1:42).

We have seen Vatican financing weapons ...

Q; because a Vatican is a state

K-

This is where the religions will have no place

(1:44). One of the biggest problems coming out of Corona, is where mankind will lead itself to, as many weapons T industries are not used. In a very short time, new T for overcoming Corona, not by vaccinations, will be introduced by nations. As we read recently, the lockdowns have brought more damage, then actually there was no lockdown. We have seen it, economies are coming to a halt. Whose is going to pay for it? Then they bring, who do we need to cover costs. What are the major costs, we all have injected, the old pensioners, if they go the main injections of a nation will be cut. Then what is the next step. Those who are efficient and contribute to the evolution of a nation will be kept.

Q; We Bahias...

K- If you mention once more about the Bahias, I will have to ask you to be withdrawn. We do not go on every path of whatever. The principle of the knowledge counts, not where it comes from. We are not a platform for the Bahias, Christians and the rest .. The understanding of the knowledge has to be that it leads to the evolution of the soul ..

(1:46).

(1:48).

It's them who have to bring their followers to understand that a new cycle has started. Where every man is equal

It's the same with those who call themselves Illuminati's. If you have such a position of strength, it has to be used for betterment of the peace, not the tools of war to be able to control. The peace comes through elevation of soul of individuals, not control of the collective. We see a lot of movement in past few weeks by Illuminati's trying to recruit KF leading people across the planet. In so many ways, we see this as an infringement to the structure of the teaching of the KF, where we do not allow these things to take place. As we know leaders of the Illuminati's are sleeping amongst you, and they can see every teaching we do. (1:50). And they see our work as part of the way, which they don't like to see, but if they are, and what they believe in is to bring equality and betterment of the life of the man, they have to strive to work the way we do. there is no choice. In fact, what it is, if you are in that process, if you are part of the, what I call, the Illuminati's structure, you should strive to enlighten the people who you are trying to serve to understand the process of their own life, not by you trying to create the masters and the rest of it that you can control further. It is the same with the religious leaders, we have received a number of approaches by the Illuminati's where they want to KF KS who are on the position of leading, to get in touch with Grand Master, with Whatsapp. Because they see the Foundation (F) as growing in a way to enlighten knowledgeable people that then they can control. As I said, the soul of the KF KS is not for sale. The same goes with Scientologists, they failed to overtake and take control of the KF. Because they see the KF as a structure to fulfill the promise of their leader, in a physical and scientific way. Scientologists have no science, (1:52). and they look for the KF, that's why we see so much trouble within the F in the recent past. Try to resurrect people within the F to take lead, to take position, to take the KF to Scientologist, and then destroy the F from inside. If you are a Scientologist you have to accept the knowledge is there is no room for ?? because the science is shared by the KF. It's the same with the world and religious leaders.

Q: But we have to find a common denominator ?

K- The common denominator, as I have taught today has been established, and it comes by enlightenment. And it comes by, you can now elevate the soul of a stone, to understand, teach and elevate itself to anything he wants to. If the man desires so. Every pebble has a soul, and that soul has the capability to elevate, not only the man. If a soul has created that brings collection of fields of structures, what we call atoms. That soul has the capability to be elevated, be it the beast, be it the man, be it the stone. It's the soul which has to decide its position and elevation.

Q: I understand your position

K- I have no position, .. we have no position. (1:54).

Q: Not position, I mean what you say. I understand very well, totality is totality, everything is linked. Something is elevated, everything will be elevated.

K- In a way, some people look at it that way. if you look in the past 12 months, 5 years. KF has been on the line for many organizations as they see us endangering their position. Or as they see us, they want to use the KF for them to find new position and new structure. We explained about the Rothschild's and Illuminati's, and Scientologists, and all the religious and political groups are within the structure of the KF. They have been brought in, we accepted them with the open arms, but we keep an eye on them, what they are up to. We have KGB as much as CIA officers in one of the highest positions in the KF. We accepted them knowingly, and we nourish them knowingly. We

don't say, you are their, and that's the other one. We have people for Iran's central intelligence to Sepah, to CIA to people from Vatican, to Saudi, what we call, religious groups, all within the KF structure. We've become an inclusive and we all understand that there is one purpose to unify the soul fo the creation. And that's all the purpose we have. And what we don't talk, we teach T that all can reach that point, and this is where we differ. (1:56). We allow people to elevate their own souls, and to understand the position and the time and place. At the moment there is a huge struggle how Scientologists are fighting to take over the KF, and you can read it on the Internet, how openly they are discussing it. KF is not for sale, it's a scientific organization, and nobody can take over it. The same with the Illuminati's, we seen openly sending messages to leading KF around the world, they come in operation, they watch them, and they approach them. Even governments have gone into that business. We have become very, what I call tasty fish, that everyone else wants to swallow and become part of. This is what I said, to them, open the door, we talk everything openly, as we send a message to Rothschild's, and they immediately backed off, because they thought we do deals behind backdoors. KF is an open structure for the elevation of the STM through science and T, and the extension to life. WE are not here to deliver a MaGrav Unit, or a power generator, these are things we do

Q: I have to apologize I made some remarks about my background .. (1:58).

K- No, there is no problem, we deal, we sit with every path of belief, but it has to be respected we are all here, we might see some intrusions with others. We have a huge Iranian, and Islamic community in KF which see the Bahais as an opposite pole. We are not here to irritate. the same we see with the Jews and the Moslems. We are all inclusive scientific organization ..

(2:00).

Go on BREAK >>> (2:08).

3 new products,

Cycle of Life Cups . 5 Cups . 199 Euro

One Cup One Life System. 1,500

Natural Gans drying system and Plasma water 4,500 (2:12).

R: There will be more info

K- Yes, there will be new setup with it, (2:14).

(2:16). on the back of

(2:18). which is the totality of the Iranian KS, it's a collective scientific paper, and it's more or les by the backing, the collection of knowledge of more than a couple of dozen scientists, and volunteers, universities and different institutes in Iran and outside. the ?? this paper to be published as a book, scientific document allows the KS to release T on the basis of solid reports and research, which now the data has been approved by the government scientists and officials.

Any other question.

Q: .. if the human beings are son's of mind (??) then we cannot truly demonstrate the soul until the mental body is controlled. Is there evolution of consciousness as well?

K- I don't understand what it is

R: I think he is saying, we can't fully manifest the soul until we control our thoughts, mental body. .. (2:20). .. my interpretation.

K- I don't know how to interpret to answer it.

R: .. is there an evolution of consciousness.

K- You see it depends, as we were just discussing before, what we call consciousness.

R: You mentioned how consciousness can change, and warps and twists of other around it.

K- We become conscious of things according to how we see the work of the U, and how we would like to judge it to be to our benefit. Consciousness is what we would like, and how we've been brought up to understand values of life. A thief has a consciousness that, "it mine, I can take what I like," and another man thinks stealing is not correct. Consciousness is very much environmental dependent. (2:22).

Q: In September 1976, I and many others saw UFO in the skies of Tehran, very visible. A smaller craft came out of the main craft, then they both disappeared. Do they visit to help humanity?

K- When you go to a tourist site, do you go there to help the people or are you going there for your own interests to see what is the beauty of the place? And Earth is another tourist location and destination.

R: .. when humans were out discovering the planet they would find tribes and try to help them

K- But look at it, .. now we go to the moon and moon has citizens let's say. (2:24). Do we intrude in their lives, and teach them what we know on Earth. Or we become observer as we don't understand their language and we see them as maybe inferior or maybe superior to our knowledge? We are not in, one day we go to space. We are in the space, we are going to Moon, we are going to Mars, and with the new T we go to other planets. What is the decision of mankind, the decision made by those who lead these kind of excursions in the , with the backing of the human race. What is our policy? Are we going to intrude, or are we going to be observers, it is not our job to intrude. We are in that position now. As a race we have evolved, we have managed to leave home, we have traveled a number of times to the Moon. We have vehicles on the surface of the Mars. Hopefully, by the wish of the American administration 2030, they are working on the landing in the next 10 years, of first live man on the surface of Mars. The propulsion lab in NASA is very busy with it using propulsion plasma, trying to cut the 7 months straight to shorter time. What did we do, now we become the first toddling steps. Once there is a decision of the U Council. .

Q:

I wonder what advice you could give him, (2:32). or offer as some connection with the KF, that he might take to heart?

K- Elon Musk already knows about the KF, and if he wasn't under pressure from Illuminati's, as scientific organization who want to keep their status quo, the situation would be different. In a very recent conversation in past few days, I have been enlightened how European community scientific group has blocked the KF since 2009. And even legal steps have been taken to stop the growth of the T, and there are documents for it. I was not surprised or shocked, but it was a confirmation, and the documents for it, have been promised to be made available to us. That the T is so revolutionary that the man cannot understand. And European groups who are responsible for interruption of new T, even start taking legal actions to stop the development of Keshe T in Europe. What we saw, in what we had, is part of that

process. Now we understand why that process was taken that way. The people who are members of this Board have broken rank, and start getting in touch with the KF to show that their amongst listeners in different channels. That now that they have seen how the T has been taught they made a decision in 2021 to open the books, (2:34). of how we have been blocked by scientific organizations, as they see what they call, their scientific knowledge challenged. In this so many ways, this will stop a lot of things, which groups, influential groups, that were planning to do things, has blocked their way. So people like Elon Musk, used your money to support whatever you like, but at the end of it, they know this T, or T which uses the process of usage of the fields of the U is the ultimate goal of any science. We have shown a way to it, and they can do whatever they like. It's not philanthropists through becoming rich, KF and the KS have been philanthropists by sharing knowledge freely from the beginning of the establishment of the KF. Usually people become philanthropists when they have and they become rich and they try to give. We went the wrong way, or the right way, to them, that we shared, we were philanthropists from the beginning, and the benefit, from the day 1 of the establishment of the KF. If you look at it the way you teach, you are one of the biggest humanitarian, philanthropist in the world, the way you are helping with Corona and the rest of it. Which organization, or followers of any company does. We have to find finances to help someone with the Corona, (2:36). or we brought your teachings freely, you are delivering your Gans's freely. You are already knowledge philanthropists, what these people try to get with publicity. In a way, you teach the knowledge, and share the wealth. The true wealth is with the KS who share the knowledge. True wealth doesn't come from philanthropists, from millions from the bank.
Any other question.

Q: What is difference between STP and STM?

K- It's in all the teachings, go back to all the teachings, it's in there somewhere.

Q; When the body dies of illness, what happens to the soul that does not come to the end of its duration of maturity? (2:38).

K- The body comes to the duration of maturity when it has been set in. It's like an emergency path opens up. It's very simple, people become wise, who said they got months or years to live, they changed their behavior, lifestyle, a lot of things, whatever, that process is is given, the lifecycle starts processing itself to be ready for that departure. It's not going to be like this is a suicide ?? Even in the time of accidents when somebody dies, the process speeds up, in that process that everything to be delivered to elevate their soul, when it was supposed to be planned to be at a given position, even it could be by the plan of the souls, will be gathered together to be delivered to the soul, it's like an emergency pack. The soul takes what is embedded within the soul of every cell for its final destination, elevation has already been predetermined. It's like I have to go, whatever is there I have to pack. This is well understood in the work, in the structure of what we call, universal work of the souls, and energies.

Q: .. how can we understand the strength of metals in using them for creating Gans's and using them in the 5 Cups? (2:40).

K- It's very easy, understand how you made the Gans's, then you understand the strength of them, and how to utilize them. It's one of the easiest things to do. Because for example of you make the Gans's, and you have the Gans of the element and you can create the matter from it, then you have understood the strength and soul of the plasma

of the matter or the material. This is how we'll run the EU for creation of matter. We create the soul of the element, and that soul has certain field strength, and as one is created it completes, it becomes, if it needs to be there, in the presence of the Inertia fields, into the matter state of that field. We don't need to keep on changing things. You've seen this in your Gans production units. You create once, the field strength of the C between the plates of the Zn and Cu, and that field created once it pulls in all the AA from the environment, which is at that strength. You don't need to keep on producing it, you create the field of it. So any AA combination which is at that strength will be absorbed to that position, will be created, manifested that position, on the surface of the water. We do the same thing, (2:42). with the creation of matters. We create the soul, the field energy strength. And then the interaction with the MG field of the earth, it manifests itself as AA, very simple. Any other question.

Q: WL, .. the soul must be very low to receive energy from soul Cup. We are confused.
K- It's very easy to confuse Chinese, because you believe in Yin and Yang, it has got to be one or the other.

Q: Is it emotion, or a strength of the soul, or a physical? (2:44).

K- It's a combination of the both. It's very simple you have, and you take what you need. This was originally discussed centuries ago, in a different way by earth's scientists, what we call, where does the MG field of the earth changes in the center of the earth. Till now we have explained that it is the same field as it goes through there is no change of S to N Pole, G to M, and the rate of the repulsion, or what we call M, comes for what G brings and collective fields which is in the structure of the earth, can give to maintain the stability of all its souls of every cell on it. When we get the M fields from the N Pole at every second, and every time released from coming out of N Pole, is collective fields from what has been received, what is needed by earth, and what the rest have to give that it can confirm its existence. .. if you look at it, in the human body, in a certain strength we eat from the ?? bowel. In the planetary system we eat from both ends, and depending on the strength from which way, the repulsion or attraction is stronger it takes prominence in showing itself, and we eat from the S Pole of the higher, lower, order strength, and by what is inside it goes through our digestive system .. and what fields we do not need, (2:46). we release into the environment, be it as an aura, be it as an excrement, as whatever. The soul of a planet uses the poles to reject what it doesn't need, from what is digested from interaction of the fields which is arrived from the South, plus what has arrived from the North of the higher order G fields, or lower order from the North's M fields repulsion. It's a living process and where does the consciousness or decision come into it. It's collectively what we do not need we repel. .. if mankind looks at the structure of the South and North Pole in a higher strength repulsion from the North, we understand the body of the man absorbs more from its environment that can continuous feed more out the N Pole, and the strongest strength. It's not just a simple process, .. when we look at the structure, then would it be evolution, or would it be understanding that within the North Pole, we always say we receive, and we could never understand that the N Pole and the X plus, and extra strength. We know this from the interaction of the temperature, (2:48). where the field interaction of the N Pole with its environment, which is slightly higher in temperature, than the South. But where does this extra continuous come (from), we continuously absorb fields from our environment in different shape or form. And what is needed to maintain the integrity of the planet is held, and the rest through the even, recycling, and residue fields, added to be taken out. Our North Pole is the human body

in reverse, upside down, if you look at it that way. But as the body of the man absorbs 80% of its energy from its environment, the earth is the same. It absorbs huge amounts of energy from its environment in every direction. As much as it gives out, and how it gives out. the inclination on the angle of the earth, creates, we see the line of the deserts. If it did not have this inclination the line of deserts should have been the totality of the planet, in so many ways. ?? its fields, but now if you look, and follow the line of the deserts, you see it has a very close alignment with the inclination of the Poles. Because it is where the fields come in, we find a balance, fields which does not allow so much creation of vegetation. It's balanced in the vertical people. (2:50). This is understanding, how we bring the science in line to understanding the theology and understanding the creation.

(2:52).

Yes, what's the other question. (2:54).

Q: Have you heard of inrupt.com, which may become the new Internet?

K- No,

R; I do know the Internet could get shaky or have a reset of some sort. There seems to be a lot going on in the next week or so.

K- We have no knowledge of this, you have to ask the IT people.

Q: Dried Gans with new extractor. What is the dried Gans used for?

K- A lot of applications. One of the reasons we dry the Gans's is because liquid Gans is hard to transport across borders. So whether we use in the dry form it is the same for us. You can always back add it to the water state, it's own structure, it won't become like a Gans as you see it, but it still releases the same energy. It's used in many different ways. We deliberately use it for different applications. It's one of best ways of storing Gans's, more or less without converting into different energy and colors. You'll have very little of it, but if noticed when you have a liquid Gans, you have it green today, in a few weeks time it go red or whatever, (2:56). in the process of drying we try to solid state it in that form. And it has huge applications. Gans water you extract with this method it's not by boiling. It's by dehumidifying, which means the Gans water you can use is pure. Because in most of the Gans waters you drink you still have particles of Gans flowing in it. And this is a very effective way to do it, and it allows us. This is very effective for production of Gans's of what I call, vegetables and herbs, because it recreates Gans's of it, and then we take it out, it's very, it's one of the most effective ways to do it. It has lot of application in KF work. In next couple weeks we'll introduce an environmental systems where you can a system in a greenhouse, and increase the growth of tomatoes. It's specifically designed systems we'll insert, and increase vegetation growth and the rest of it. This unit will be announced and shown, most probably by next week. At the same time you can use it like a humidifier, but changing very much as we done in researching Iran, in offices and hospitals and the rest. (2:58).

Q: who do you think are these beings, souls that we are interacting with the work of your reactors while testing that you could observe in the small windows in the reactors?

K- We create most of them. If you look into the window and you see the operation of the reactors, we see, we create continuous, homogenous turbulences, which bring given field strengths together, which in their interaction they colonize a certain point or area within the reactor, and then we see their effect, and operation, we are the creator of it. This is what I say all the time, even in the lab, every time we set a system pray for it, because you create a line of connection, you are the creator of it. It's important to understand this.

R; Turbulences , was a key word in there

K- Yeah, because we create mini- macro - micro turbulences in respect to the D of the reactor. The Iranian reactor has one of the best windows because I have seen a lot of things in it. In one of the first reactors we produced, is like a blue dome, has a specific window, (3:00). and it creates a, it's a nuclear based reactor, and it's a space development, and with it, because of the rapid delivery of the radioactive material, we see huge mutations in elements in energies. We see existences, we see field balances. Any other question.

Q: If the UFO in Tehran was seen by the inhabitants of earth, is that not in itself an intrusion into the humanity?

K- Not really, travelers do not intrude, they are passers by. But don't forget earth is a position of transit, but sometimes these transit positions, might be stay for centuries, as centuries to man of U is nothing. If you, 1 years on your planet, is million years of earthly years. So if you are here, (3:02). for 100 years, or a thousand years is nothing. It's a fraction of your life time in your place, in your place you live 1 or 200 years, it's like a 100 million years. So it's a short visit or a stay. Mankind will come to understand this very quickly, now that we have opened this door, and this window of knowledge.

Q: .. is the nervous system the connecting link between the soul and the physicality?

K- A physical connection, yes, but soul has a field dimension too. The nerve system is for a physical soul of a cell, or environment of cells. Where the soul has its own direct contact for interaction of the fields with every cell in the body. Neural system and the blood circulation are the 2 fields, that the interaction between them, field interaction between them leads to creation of the cell, due to the field Inertia of the environment they create. The way the fields of the Sun, interaction with the M field of the earth, create the matters around the earth. You need the earth and the sun fields to create it, so does the nerve and the blood system. this is the most fundamental knowledge, (3:04). which the most of medicine have not understood. (They) have failed to understand this, and this is the cornerstone fo most of the problems in the science of medicine on this planet. Nerve system carries a certain strength fields, and so does the blood. And the interaction of these two, if you look at the structure of the nerve system and the blood circulation, you see a lot of similarities. Where one comes from the brain and the other one comes from the heart pumping area, the headquarters. As we said, earlier in the teaching of today, the heart and the soul interact, and this is why we have emotional illnesses so prevalent in the life of the man. Because the emotional fields which come from the brain will interact with what comes from the physical, which is the blood and they produce the cell in the body of the man. It's not just that you have a nerve system and blood system. If you can show the parallel system together you understand how your bodies are created, how the cells in your body are created. The two run parallel with each other, because their distance, their position, their interaction, and the field they carry within them, it dictates the cell which is created within that position and the cell. This is why if you go back to the original teaching, we said, the body, the blood of

the body of the man is "taxi destination" cell system, which means, (3:06). a cell in the blood is responsible for a cell in the body of the man, or combination of cells which carry the same strength for a given position and place. And the neural system just bring the fields which converts it from the fields through the lymph into the matter state. You need the two, blood and the neural system fields, that in interaction with the lymph converts into energy needed, or the matter state which is needed in a given position. Lymph is the Inertia field forces which carry the material for construction. And the field interaction between the blood and the nerve decides what is going to be constructed because the shape of the nerve at a given position, and the blood circulation dictates the fields in there to be created. This is one of the reasons you have the phantom pain when you lose your arm or leg or you get amputation.

Any other question

Q: Why is H important to be more alkaline?

K- H is more acidic. It gives more energy. In a way, (3:08). by being so acidic it becomes alkaline. H is the source of energy. In so many ways, as it is trying to absorb more fields to itself to become Deuterium, it brings fields and energies to its area, which are not needed by it, but are essential to the other cycle of life in the area, environment.

R: Perhaps an example of that is when we eat lemon, even though it's a citric acid it tends to turn alkaline in the body, or creates an alkaline reaction to the body?

K- It depends how you want to describe it.

R: you said the acidic becomes so acidic it turns alkaline.

K- It is the increase in alkaline-ness, extreme brings to acidic, (3:10). and extreme acidic brings to alkaline. It's just change of the fields, instead of giving suddenly it becomes absorber.

R: So can that happen with souls, in particular I am thinking of world leaders, can they turn from a lifetime of being acidic to suddenly being alkaline, or even vice versa?

K- Yes, it has happened many times. It's change of emotion.

R: and that would be part of the elevation or is that a different

K- What do you mean?

R: Part of the elevation of the soul?

K- It could be elevation or un-elevation, it depends which way you look at it. What is to get, and what is to be attained?

Q: regarding consciousness. Consciousness of the living man is the combination of the emotion, intellect, and will, it is inspired by the 5th intuition, in living man it is created by interaction of the STM and the STP. (3:12). Mr. Keshe calls the seat of the consciousness the soul of totality.

R: I am not sure if you agree with all that ?

K- Not really but that is his interpretation.

Q: Is the version of the 358 KSW Cups good for healing and feeding?

K- For what purpose?

R: So healing and feeding is not a purpose in itself,

K- Yeah, it depends what you want to use the fields you create.

Thanks very much. (3:14).

K- I think we are reaching a point that a lot of KS are stuck between the 2 world of physicality and the soul and the operation of the soul of it and how they can see or confirm what they do, and this is where what I call, thinking, brings maturity. And sooner or later KS will start developing T which fits the teaching, and start seeing it. As I said, many KS are afraid of testing new environment, testing new things that it be

different, or it might be wrong. Till you don't make these tests you don't know, and you don't know what you are going to get. And this is where we see a big difference in the work of certain KS. Anyway, we have to understand the teaching of today in a very deep way, and gradually open up ourselves to be able to receive, and elevate our selves to the ultimate goal of our soul.

Thank you for today and we see you next week the last session of 7 years of KF, and from there on we start a new cycle, the 8th year of teaching, solid without failure for 8 years across the Internet and the rest. Thank you Rick

Good-bye.

363 KSW

END
