

## **365th Knowledge Seekers Workshop**; January 28, 2021

### **KEY-PHRASES:**

### **SUMMARY:**

### **ENGLISH TRANSCRIPTION**

(First part of advertisement and Intro Video )

(:24).

K- ... As the 365th time we have gathered here, over 1,500 hours... but today I am going to bring you to a point. Today.. beginning of the 8th year of the teaching, somewhere in that region. The 8th is the point of maturity, point of completion, as is believed in Chinese symbolism. Its' a lucky number. Today many of you might be shocked how the teaching might go, but on the other hand you should have expecting such a process long time ago. We have taken you through the teaching of understanding the structure of the creation, through the Book #1, how you transmute. (:26). matters and energies from one to another. We have taken you through the creation of a plasma, U, and in that process we have taught you to make things to see the effects, the manifestation and the presence of the fields of the creation. Today we play a different game. Today as many of you have listened to this intro, let's play it again, in a way as Knowledge Seekers (KS). Many of you for years, for past 2 - 3 years have been searching for that elusive soul, that where is it, how is it, and how can I be in touch with it. By the belief of many religions, there is a Judgment Day (JD). Today is that JD, and what I call, we don't judge no one, we judge our own soul.

In so many ways, in the process of teaching we will open all the channels that everyone present can talk, can share. Anyone disturbs, we block. You have to understand the process of the teaching of today is to unify the soul of the KS around the world, those who are present, and with it we start the establishment of the soul of mankind to become one. This is not a religious teaching, this is scientific understanding of the operation of your soul, (:28). and how collectively we take charge over the soul of humanity, to guide, to elevate the totality, to be ready for the presence and the creation of the Promised One. In so many ways, today's teaching is the threshold of you trying to see, trying to understand the strength and how much you can extend. The strength of your soul, it's no time for talk, but understanding the interaction of the souls. We are not reading and going through, as it is done in the One Planet, One Nation, "I am present," and the rest. We are going through the process of physical understanding of how present can be, within the structure of the soul of the creation, and the Creator. Today is the day of Judgment. Today is where you judge yourself, no one else. Try to understand the strength of your soul. Try to understand why you have been created, and how the reason for your creation, becomes manifest to you, and in what way you see to serve the Creator, and not the mankind. In a way, as part of the evolution, of becoming part of the U Community. In U community we only serve the Creator, and no one else. In so many ways, the essence of the creation is the soul of the man (STM). In the teaching process of today, we don't teach, we try to guide and show you have to see the manifestation of your soul, (:30). You cannot see the beauty of the Sun if there is no Earth to interact with it. You cannot see the manifestation of soul, your soul, and the others unless they interact with your soul. In this teaching today, we are from all over, every corner of this planet, and so, if we can start the step to interact with the soul of each other, it does not

matter where we are, we will be aware of each others presence. And in that process we extend our souls to enlighten the others to show their beauty as a proton, does with an electron, then ourselves. In the process of the teaching today, we bring the practicality for man to be able to understand the gravity of his existence, his own soul. It's not going to be easy, and it is not going to happen overnight. Amongst us today are those who will bring mankind into U Community. Those who are present to see the development and growth of the humanity into the extent of entrance, collectively in the direction and dimension (D) of the U Community. It's not a test day. It's a benchmark for the man to understand ones inner strength. Those of you who are present will understand why you have been around for such a long time, and why you are present. And those of you who can link to the totality will understand why, you have been through all these teachings. (:32). In a way, you radiate your inner strength soul to interact with the other, does not matter which position on this planet or beyond, that it will shine. Some of you who live on the dark side of the planet and it is night time to you, if you observe the skies you shall see unimaginable lights, which this is the presence of the soul of the U Community in reaching your soul. Mankind enters a new era, and as we step by step, grow into the understanding we need to be able to get a confirmation of existence from our inner being, that the physicality becomes irrelevant. In so many ways, as KS you've been taught and trained by yourself. You've taught yourself by guidelines, and guidance of the teaching, to be able to expect the manifestation and presence of your soul. Your beauty can only be shown and be seen, if there is another soul to interact. And then how the interaction of this soul brings you the beauty of time and space, that something for you to understand. We are not going into the realm of magic and whatever. We are going through a scientific experiment and test, to see how far s KS you have managed even to connect and to be in touch with the soul of those you've been teaching and taught in the past years. (:34). Maybe this is the way you see, you don't need anyone to confirm the existence of your soul, except you reaching and learning, understanding in the realm of the time and space, the existence of another soul. Confirmation of existence of another soul, confirms to you the existence of yours. In a way, what the Creator has done, by creating the Eve, the electron, the which you give totality, but you keep within the structure of the fields of your existence. Many of you over years have established friendships. Many of you in time have established relationships and understanding the knowledge. From today we try to link, and with it, we try to create a D of existence for every one of you. .. as we used to be students, in the mornings we were taught in the universities, and in the afternoon was the lab time to test what was taught in the morning, works, and how we can put it into practice. The morning session finishes today, but we carry on teaching. The afternoon session starts today. .. we bring you to the D of reality for you to confirm the existence of your soul. Many of you have tried to understand the confirmation of your existence. The confirmation of your soul to be in existence with you. We taught you to make the Cup of Man, the cycle of life. (:36). The cycle of plants, vertical or horizontal, or everything else you could imagine, now you have to understand what to do. Many of you have been taught to be the sandbox. Not what you made to be the sandbox, but for you to become so humble that the fields created by your cycle of life units, in interaction with your humbleness, will shine, you become a shining star. I always said, if you are arrogant to be stronger your Cups, your cycle of life Cups will shine. The reason I taught you the 3 structure and then the 5 structure of the liquid, gas, solid, vertical, horizontal cycle of life, was for you in creating, developing, standing in front of them, to see which one shines, which means it shows your strength of soul in respect to the creation and the Creator. And then when taught you, and we teach you how to make the Cup of Universe, then how to make the

Cup of the Creator. How would you shine, don't forget you are never an observer of your own soul. .. when you stand in front you have a measuring tool to see which one shines. Is it the soul of the earth shines, is it the soul of your system which shines, The soul of your physicality. (:38) shines, is it of the animal or of the matter state. Then you'll find to what strength you are and how we'll bring you the time and space to evolve to manifest and elevate your own soul to the D of the strength of the soul of the U, or the Creator. In so many ways, we all shine as a soul in the presence of the life and the existence of the Creator. It depends how humble we become that even compared to His humbleness, we can still shine, then that process we have matured. In so many ways, mankind starts through practicing and understanding the truth about himself, will understand the process of the creation. In so many ways, many of you who made different Stacker units and you thought .. these Gans's if they are stronger than you, you'll interact. If these Gans's are made in connection with the human body at the strength of you they will interact. Now it's time to create new D. It's time to create a mixture of Cups that in interaction of their fields your soul can shine. For you and those around you to confirm and to be confirmed of your own existence.

In so many ways, if you see the light on a CL in the soul of physicality, (:40). or in the D of physicality. It shows how much you have attached yourself to be, to be seen, and to be the creation of physical matter. In time many of you will learn in the process of practicing, how you can switch from one to another, and then this becomes the process for all of you to move from the D of the STM into the D of physicality. .. the Cup of Life, and the cycle of lives, we showed you, is your meter, your engagement in the field strength. But as I said, .. don't stick with one Cu, and 1 Zn, and some Cu Nano coating, understand the construction of the STM, and the STP, and then make a Cup, that in interaction of the fields of its existence confirms to you the process of the creation, and how you can transmute by fields from one to another. In a way, practice, not by closing your eyes and squeezing it. But by opening your heart, opening your soul, that interaction for the fields of it, makes you blind. That even with the eye of the man, as you watch the Cup of the STM, you will see the light within that Cup. Which means that you have managed to reach to communicate with another soul, Which means you have managed to create the condition with that soul. (:42). We have seen arrogance in one of the .. conferences, .. when we asked, is there one of U Community among us, and that foolish woman stood up. Where the man, or woman of the U silently confirmed his or her presence. In this process many of you will come to understand that creatures of the U will never confirm themselves in the physical D. It's for you to understand the creatures of the U, it's for your soul to elevate itself in knowledge of the creation, that confirm their existence. Man to see the true travels of the U with their own eyes is a game that has been played for man for a long time. You will see the light, the beauty of those who are amongst, as we educate ourselves to find the process of the confirmation of their existence. .. many of you will strive to reach the position of understanding of the totality of the creation from now on. In understanding the totality many of you will come to abandon attachment. And in that process you reach that point that you cannot be touched by the D of physicality in any shape or form, except if you decide, (:44). except if you try to understand the process of the creation. This is not escaping from a position, this is understanding the process of the creation, and travel within the span of the U.

In so many ways, many of you have been wishing to reach that point. In a way, when you see the Cup of the STM lights, it shows the arrogance of you, that you still think

you are higher. It means for you to lower your strength of your soul, in what you take, and what you give, that in that process the light of the STM shuts off. As long as you see no light on any of your Cups, it means you have not reached the level of humbleness. The level of the soul that it can receive. If you cannot reach that point, how are you going to feed yourself in the span of the U, to receive what you need, that confirms, that guarantees your life in the span of U. .. you are like a child who have been taught everything and left home, if you cannot feed yourself, if cannot make what is needed for you to survive and you wait for the mother to come to cook, it means you have not matured enough.

In so many ways, this is the day of the judgment which has been promised by all the prophets of the past. Today is that Judgment Day, and that JD comes in different days, (:46). and times for every one of the man created soul, to find out when is the JD, when they see their light, and when they educate themselves to understand the beauty and be able to live within it, and be the source of life for another. What children would your soul created, this the point from now on. I have taught you everything that is needed for man to elevate his soul. .. you always looked at the Cups of Life to receive from, now let's see the way you sit, now that you know the truth. Can you extend your soul that any of the CL, any Cups of U, any Cups of cycle of existence can lighten up. Then, as we say the light in the room shines. It's very much like when you have a dimmer and you turn it, what intensity will appear, and then you know where the position of the light bulb, that's where the light is, the bulb is, and that is where it's giving out to cover.

In so many ways, I have brought you to the day of your own judgment, .. to the position of understanding of your own existence. In so many ways, we complete the cycle of teaching in the matter state. (:48). By completion of the cycle of understanding the strength of our own soul, and we find out the DJ is upon us. In so many ways, when the STM leaves the physicality of the man, be it in the womb of mother or age of 200, that is the time when the body and the soul, and the totality of what we have taken from the U, balances out, that we can take position in wherever we need and we want. In so many ways, we can balance the books in 1 sec, or it can take us 100 years on this earth, or 1,000 years in another position in the U, or billions of years in the cycle of the creation. Even the Creator reaches the point of balance, manifestation and the judgment. As He judges His own conduct in what He has created, to what has lead, and to what has created itself to be, . what is in macro is in micro, and maybe that is why the time has come, of the creator, to the point in judgment of His own creation, leads to creation of new life. That the new cycle will do better. The new life will create a new D for the whole of the race of Creator amongst the cosmos, and the Unicose. In so many ways, I don't need to teach you what to do, you need, or we hope you have come to the point of maturity, (:50). to know how to reach to that point. To hear, to see, feel, confirm the existence of another soul is the point of maturity. Many of you in the first time will be disappointed, because you are just like the little child who has been crawling on 4 legs and hands and feet, and now wants to stand up. The first time he toddles and he falls, he doesn't give up, he waits, and he stands up again and he falls, and then he'll carry on the same, till maybe, one point father reaches the hand out, and gives a helping hand, for that who is mature to be able to just about to walk. To walk next to the father, or the mother, hand in hand that gradually he can stand up on his own. Our job is to be the father and to guide you.

Your job is to see how many times you can fall, till you can stand up, and at that point you reach the maturity of being able to father the new cycle. This is the truth about the existence, and the cycle never finishes. . we continuously strive to be the Creator and the creation, at the same time, but in the process we will come to mature to understand the totality of the creation.

Many of you in past 2 years cried, "how can I find my soul?" As I said, earlier (52). As I said earlier, your soul can only be found, you can only understand the existence of your soul, if reach and touch the soul, another soul which can receive your existence. What you've done wrong is a barrier. What you do wrong is the barrier. What you have taken the wrong road is the barrier, and everything else. In a way, for today on, not only you who are ?? , but those who are in the realm of the creation, will start judging themselves for every action, and for every interaction. In that process we still will live in the D of physicality of life to survive everyday. But our survival will not be depending on the illness or food, or on the clothing, shelter or the heat. Our existence will be in the D of our satisfaction of our own soul, and its existence and presence in the environment of its manifestation, be it on earth, or any other point on this planet, or in the U. Mankind matures to see the beauty of the creation, and respects that beauty.

In so many ways, today is your first tumbler standing up, and . . . we all are here to give you a hand, to see how you stand up, for yourself and nobody else. In so many ways, many of you will be disappointed in not being able to, but do not forget, you have been through disappointment. (:54). This disappointment was the first time you tried to stand up to walk. Now it's the second time .. The first time you tried in the D of physicality, now it's the time to stand up to walk in the D of the STM, and the Creator. If it took you a long time to take the first steps to be able, do not be ashamed, that this time it will take longer, because it needs practicing. It needs what we call in the world of the man, to be detached, to be able by detachment to release the fields, which allows others to confirm their manifestation.

In so many ways, it's the time to see how mature we have become in understanding the structure of our own physicality. Do we need to wait until someone reaches their hand out to us, or can we use our own strength and be strong enough to understand, and to accept, and to believe in we will walk, but we will never walk alone, because as long as we walk alone, there is no confirmation of our existence, as there is nothing to confirm that we exist. We become the Adam and we look for the Eve. The confirmation of his existence confirms us. In so many ways, mankind should understand, (:56). that within the interaction of the 2 fields there is a point of balance of physicality, where would you like that physicality to manifest itself, closer to your lover, or closer to yourself, to be physical, and manifest yourself alone. .. this is where the science meets the STM, .. if you elevate your soul, where the STM meets the soul of the Creator. .. we have taught you enough to mature you to this point. We have given you every tools available in the realm of the creation for you to become part of, but be detached of. In so many ways, mankind has reached the promised DJ, judging oneself, and no one else. Judging ones conduct and nothing else. And asking yourself, what have I done wrong, or what have I not understood that I am in this position in time and life. If you see yourself suffering, understand the reason for the suffering. If you yourself happy, understand the reason for the happiness, but who is closer to the position of the walk, the one who suffers, or the one who is happy. Either way we reach the position, but it is for us to understand the totality.

In so many ways, ... I will explained that I will manifest the soul of the Christ, (:58). that for you if you see that soul, it means that you put yourself even higher than the Christ because you have to be the light, and not him. By him shining on you in his humbleness you will shine. Which means in that point no man will be any different than the other as we get enlightened by the light of the Creator and His son.

In so many ways, the creation of the cycle of the man in the U is nothing but the process of understanding to be able to be weak enough to be humble enough to become that dark spot, to become that principle point that it leads to the creation. Maybe some of you understand why the first paper I released was the creation of the black hole. Be humble enough to receive that by receiving, you can radiate to become the source of life. If you read the paper of what we call the creation of black hole, I explained the cycle of life in the light and beauty of the Creator. In so many ways, what is called the creation of black hole, is the creation of the STM. It's so humble that it receives even the minutest, but it is so beautiful, that the minutest will create the suns and the galaxies. In so many ways, mankind has to become to that point to be able to manifest itself, as the darkest, in receiving the weakest fields, that the Creator can shine, this is the purpose of, this is the reason of the creation. (1:00). In so many ways, if any of you manages to reach to feel, to sense the totality of the creation within them, you shall see, those who you love will shine, as the existence of you is irrelevant. These are the children's of you who you feed. You are their source, you become the feeder, that by them shining in interaction with the fields of you, you find yourself to be humble to receive the weakest from them. This is the beauty of the creation, nothingness within everything, and everything within nothingness. In a way we create everything from nothing, and the creation of nothingness, everything is created in balance as needed. In the coming minutes the KF team in the background will open all your microphones. You are all free to speak, any disruptions we block your microphone. We don't want mayhem, but even the silence itself is a line of communication. In so many ways, we try to connect you with the totality of those who are across this planet with us. In so many ways, we extend the hand of the love, care, and souls, to all of you in every corner of this planet. Never in the life of the man has this ever been done before, where every corner, land, point on this planet, (1:02). someone is connecting to another at the same time. .. this is the first time we bring the mankind to start to be that black hole, that in acceptance of his humbleness, those stars in the sky will shine. .. we try not to shine, we try to give that the other do, and this process, this is how in the U when you travel, you will confirm the existence of another soul in your presence. To be so humble that they shine. you become the receiver of their, what they do not need. You are humble to be able to receive. In so many ways, in the D of Christianity the Pope kisses the foot of peasants, and not the rich. In so many ways, we submit ourselves to be open to receive from the totality of the knowledge of the U, that we do not need any education. This is how we get educated, when we meet other souls form other points of the U, In humbleness we receive the knowledge, with the light and fields of their existence. In so many ways, is it the sun which shines, or is it the earth which receives the daylight. In so many ways, which one is creator of which, and which one is the confirmation of existence of which? If mankind understands the process, and those who are the travelers of the U with us, you have matured to enter, (1:04). in any D and strength, according to the strength of the soul, that you are there to receive, and not to give. That brings you near to the essence of the creation of the Creator.

We open the channels and I stay silent. There is no need to talk. If you feel you want to share in how and who in the group you want to reach, not necessarily by the voice, but by the soul, try to connect to each other. And try to see if we can establish one unified soul from the presence of today. And see how much you are ready to let go, that it brings you to the humbleness, to be able to reach, shine, and feel. And let see which one of you. Which Cup of Life, or cycle of lives you have built in your homes will start shining. And then you understand if it shines then you are still too arrogant, as it is weaker it shines itself. In so many ways,, your child can be that cycle of life, your lover, wife, partner, and ones that are ?? about to create a child of the U, will come to be. As when you become the passengers of the U, in the physical D, you should not be able to create as the physicality has a D of demise. Where in the D of creation of the soul, shall exist those children of the soul, that travel the span of the U. (1:06). This process in the coming years will become very clear to man, and there shall be one who teaches you, as carries the knowledge to share, both in the D of physicality and the soul of the U. In so many ways, we don't look in D of physical life of the man, we look at the D of the physicality of the U. How in totality, the men of U, see each other, feed each other, exist within each other.

Rick, Stanley, open the channels let's see the KS who have been taught so much, and how for some of them becomes the JD, the day of process of understanding the creation and their own creator. This is not a religious, or trying to find a soul. This is a cycle of man, trying to understand the physiology of his soul, that he can talk, where the pain of the soul is, that he can create and alleviate pain, that he can manifest the self, to be a shining star on the others, as he was looking for him to shine to receive confirmation of his own existence. Many of you will reach to no point, but as I said, this is the first time you try to walk. All the microphones are open, and we would like all of you through the understanding the presence, not to use, (1:08). the KS communication channel, but try to use the extension of your soul to confirm any of the 100 odd, which are present on the list, location. Maybe those of you who are on Youtube or other channels will try the same. But try to understand one point, today is the day of the maturity of the man. How mature in elevation of your soul you are is not judged by today. It's the beginning for mankind to become travelers of the U, by them to extend their souls, and not their physicality.

... we have to individually open each microphone.

I remind you, any disturbances we block your microphone. We have people from China, South and North America, Middle East and Asia. If all of you connect, (1:10). you become that MaGrav, the source that will bring the light, and which one of you will be enlightened, that the others can see, will be the level of the humbleness. Is the level of understanding yourself. .. it's JD for you and no one else. ...

You got to understand, you decided today to be the JD if you want to join, if you have no fear of detach, if you can exist within the D of the soul without physicality, would I leave my loved ones, or would I see more of them in a different D, is the question for the man. It's a question for many of you, and to see to what extent you become detached, and you become .. understand the process of the cycle of the creation. (1:12). Can you let us know when you complete. Many people have opened their microphone. ... Please silent them unless you want to speak, you can open up.

You see the beauty of today is, we have given you the choice, to be in the D of the physicality to come on the microphone and speak, or to stay in the D of the soul, and interact. This is the beauty of the new communication, you choose. In so many ways, as we look across the attendees and audience, all of us, we cover every corner of this planet, and once this 118 souls become one, would it be enough to elevate and shine in the presence of the Creator? Would we be able to enlighten the rest of the soul, be it of the plants, animals, or a stone, (1:14). to shine. This is interesting how mankind will choose. Because it's your choice. .. even those who never spoken, and always been present are speaking to your soul. Are you, and have you thought, I would like today to be my DJ. Today is the day I want to sit of the test, test of my own, and see the level of the strength of my soul. And am I prepared to be detached from it, or do I still hang on to D of physicality. ... Shall we leave it to them to switch their microphone on first, then we know who wants to talk. .. (1:16). ... See who opens up.

Q: John AZ, Hello. I will start things off.

K- Hello John, your beautiful soul.

Q: So I will add my energies into the collective, that it might help support others along the way, hopefully by adding my soul into the collective that it might add to the value for everybody else, that they might pickup on the energies of it. I will try to be ... (1:18). I will try to be humble and detached in my words, and actions, like everybody else I have to learn to walk, so I'll be part of the group.

K- ... How does this feel?

Q: Just saying those words, I pickup an energy of love coming back to me, from the words that I spoke. So I felt, I guess I felt reciprocated by the group. My heart is filled with love, as I was saying the words.

K- In a way, don't we say not all the fields strengthened in the North Pole, end up to become the fields of the U, but some of it comes back to feed ourselves from the South Pole. .. by part of what we give, we receive in higher strength from our own creation and D. .. that the more we do, the more the confidence that we can even use the resources within ourselves, (1:20). to strengthen our soul that with it, you can give more to the others.

In so many ways, it's a cycle of life, it's the way the Creator, created the creation, from Himself, but at the same time to be able to recycle what He did not need, and what He needs to guarantee the existence. This is why you feel that, the D of sincerity from the elevation of others, is so, that you receive part of your own soul back, to feed, to elevate you further. This is how you choose the position, the time and space, in the coming time, when you learn how much to give, and how much to feed back, that brings you to the position and the presence, and how much by the others interaction of the fields, you decide to give them the right and the position to be. In a way, it's a self controlling system. .. this is how you see the magnets, they find their position in respect to each other. They have a point of reference of their own fields and their own strength, that does not change, but it accommodates the other fields and other strengths. This is the way, the whole of U works. We don't feed off the others, we feed of our own, and we take what they don't need, that we can change it and feed it to the others in a better, and in more strength, that the others might need. .. we are recycling process of fields, that at the same time we feed ourselves, we feed the others, and we allow the others, in feeding themselves to find a position within us, within the strength of us. (1:22).

In so many ways, mankind gradually, slowly matures to become member of the U Community. .. what John said, is the very, very beginning, when you feel warmth, when you feel love, and you feel you received, which means you become humble enough to receive, not arrogant to give. This is the process that of you will go through. And in a process that some of us mature in the womb of the mother, and some of us mature at old age of thousands of millions of years, in how we share, and how much we are there to share.

Any other one.

Q: Jalal, .. I receive a lot of pressure in one area on my body, and the pressure is so much, so I send this back to the people.

K- In a essence, (do) you feel it in the body or within the soul of emotion?

Q: No I felt it in the body very hard, (1:24). on the left side of my heart.

K- Where is the pain, you cannot let go in the D of Physicality. That's for you to find out. This is the loved one, as it is on the left side, on the D, of the what we call the STM, is on the right side of the soul, it's a giving side of the soul, where the physicality of the man is on the left side.

Q: It was on the left side, and it was not a ?? although I am working and not really focusing on something, I am focusing on matter, but it let (made) me stop working, because it was very hard.

K- .. we give from the right. If you look at the D and structure of the earth, earth in line with the light, of what we call the Sun, always have half which is facing, and shines. And always have the other side, which is a cooler and dark. But in essence, life exists in all D. In the physical D of the body .. the left side, in physicality .. is controlled by the right side of the brain. In so many ways, (1:26). when you have a pain on the left side of the body of the man, it's the D of the love and devotion to give in the STM. When you find in the D of the illnesses, even to the right or to the left, we find the man by his pain, on what we call the left of the brain. Example of this when we see ones who give life as mothers, how the cancer appears in their physicality, left or right, or we see in the D of Physicality of the father, where in creation we see cancer in prostate. Where it brings a balance, because it has created with both. This is why in the cycle of the man, in creation cycle of man, we see man as center, and woman decides, boy or girl, if it is more emotional to create, it turn up to be a girl, and if it is to be a creator, it turns up to be a boy. It's not chromosomes we look for, it's understanding the emotion of the soul, which dictates, I am here to give to guarantee the evolution of the cycle of life in the D of STM and the emotion of his physicality. Maybe this explains to you, why you have a pain on the left side of your heart. The right side of the brain, or right side of STM is a giver side. It's right, because we always give with the right hand, and always receive with the left hand, (1:28). because the hand of the man is the manifestation of operation of the STM, and not the D of his physicality. Maybe this unravels a lot of truth in what you understand and what you receive.

In so many ways, mankind works in a 2 D, 2 opposite, but at the same time, but synchronized. In a way, your right brain, .. where is the giver, away from the creator of the D of your own existence confirms your generosity of soul. And then how you balance them between the 2, to create that light. In some of the teachings we explained how by holding the 2 and balancing the light of the correctness, will shine a light in the palm of your hand, or between the 2 hands. Maybe for the first time you understand. It's very complicated, because man has made it complicated for himself, but in truth, it's the same. You got to understand, the creation has 1 D, you can't have the right side of the

brain, on top shining, and the bottom dark. It has to be the same. A giver side, the side which gives, the side which the essence of the creation, and it does. The side of the brain connects with the left side, which is the emotional part, but in fact, the right hand which is a giver part, which is the essence of the soul. (1:30). The right side, the combination of the 2 is exactly the same. Depends how we turn, to one serving the Creator and the other souls, that it becomes our right side, and to what D we shine. And those who become in total as one, will shine as one, where in the darkness sits within, the weakest, to take that it can shine on the right side or totality.

In so many ways, we are creating this in the D of the new EU. In the new EU, there is no seat, as I explained in one of teachings, we have created the replication of the womb of the mother, we have created what we call, the womb of the Creator. .. that by walking into the system .. we give you the physical umbilical cord in your hands and you can walk within the system, that you take in some fields and give on some other fields, then you can see how you shine and where you go dark. Where you see the system shines with you. .. we have brought the system of the creation within the structure of the system. ... many times I have said to you some of you when you go into the system you'll see light coming out. Then it is for you to find the position of it.

We are not creating the EU, (1:32). for you to recover from illnesses, .. for you to understand the strength and existence of your soul, within the structure of the creation. The most important for all of you is, where do you shine within the system. Is it you shining, or is that part of the system which shines, have I become humble ... or is it that part of the system which shines. Am I humble, or have I humbler, or have I become humbled by my own arrogance. In so many ways, we will give you a map of your own walk in the fields, for you to understand, where and which strength you shine.

In the structure of the Universal Systems (EU) we have embedded the STM in the D of absolute total physicality, because we needed it. It shows your humbleness and the level of understanding of your own creation. How attached you are, because the soul we took is highly, physically attached, and it loves to love in the D of physicality, but doesn't understand the strength of the love in the D of the creation. It needs maturity of time, and it needs maturity of space.

In so many ways, as we said, the EU are flying machines, for those souls who can fly in the D of the Creator. In so many ways, many of you will bring many suffering in the physical D, as each one will show where you are the giver, and where you have taken unjust (unjustly). (1:34). As I said, when you ask, you are given, is your right, and anyone to interfere with what you are given, will stand their own position of the strength of their soul to correct their conduct.

In so many ways, thy shall not steal, but if it is given, anyone else touches, has stolen and has to stand his own punishment. By word, by deed, by action, with the punishment is becoming further from the loved ones. And this is where everything works in the U. You got to understand the totality of the creation sits with the totality of the fields forces of the U. ... you are a father, you kill a man in the US, and your son in Middle East gets killed. What have the souls got to do with each other? But the souls balance everything with each other. You do good in Africa, and your son's in China will receive pleasure of the existence. Then you understand, it's not the D of where you live, it's how the souls interact, and how the souls understand each other. There is no hidden doors, and there

are no walls in the D of the souls of the man, as they all serve each other. Then, the same is the man of U, and the creatures of the U. The point of many of you will mature, is in what I do, (1:36). will it hurt my child or my son, from now on it is what I do, what effect the others, and in most important thing is, how will it touch the feeling of the Creator. How do I touch with my wrong doing, the emotion of Him, that with it, He has to compromise for my wrong doing. In this process men matures, and in this process the maturity brings love and care. And then with it the abundance of the beauty of the creation. The more you mature, the more you see, the more you can walk in the path of the Creator. As I said, we are not in the religious teaching, we are in the position where science meets the STM, and with it, tries to understand the operation of the faith of the man. Where does our conduct in the path of ?? faith, take us to the D and direction of our Creator. .. we become the creator of the faith, and we become the creator of the faith of our own soul and from now on we judge through our soul and not the D of physicality. it does not matter what we believe to be truth in our own D. We love and we love dearly.

We have Dr. .. one of the heads of the KF of Iran ... (1:38) . . . .

Q: (speaks Farsi )

K- One of the heads of the KF in Iran..

translates -- Dr. P has devoted his life to the Corona ..

I felt the same pain on the left-hand side of my heart, which shows the devotion to serve. Dr... more or less loss everything to help the Iranian Corona victims in serving and making sure that the KF stays correct within the structure of the Iranian government, and they received the biggest gift yesterday, from the Iranian leadership and Sepah, which we'll explain in the coming time. And it's serve, Yosef, and Ali, in Tehran, nonstop. they served the Iranian nation, (1:40). not only with health, Corona victims, but establishing KF, one of the cornerstones of the work of the Iran,

Any other comments. (1:42).

(the two girls talk over each other)

K- Excuse me, can you please stop. Ask the question please. Who has the question.

Q: Azar, what I felt, nothing, but I was connected to the people here .. I felt like a feather, and my chest was completely empty, like a hollow, but energy was coming form forehead, and going up .. I felt like I can even feel the Creator. my body was so light.

K- What is important is how long do these feelings last? And to what extent these feelings will effect our decision making of tomorrow, or the next second. .. try to understand the totality. In so many ways, (1:44). we are not here to explain what happened to us physically, it's what happened, we feel within the soul. Mankind for millions of years has explained his physicality, and it has been again detached from the soul. The process from today, from now on, is how do we see, (1:18). feel through our soul.

Q: The way I feel I can give ... if I want to give then I feel arrogant. I want to feel equal, so I don't want to give if I am arrogant, I want to become humble, so if I see myself as everyone else.

K- Maybe it is the process of becoming humble .. Can I ask a question from all of you. ... This you will see the reasons of it in the coming time. Has any of you, if you go purposely in the beginning of the talks, I asked, and I indicated that you were from all corners of this planet, and there are some of the UC souls with us, which one of you, or any of you, or maybe none of you, felt to be in the presence of the other KS since we

started. (1:46); Not in the D of your physicality, but in the D of the soul. Did any of you receive the love and presence of particular one. Someone in S America, or China. Did any of you got that feeling, for example, you're in a state, but you are in the presence of another KS in China or Australia, or even nest state in US, or in Iran to be in different parts. Did any of you went to that cycle of extension of departure of the soul. This is where we are striving to go. Physicality and pains, how you feel in the D of physicality, is, we all know, we have been there for millions of years. Have any of you reached to the other soul, .. managed to get the transportation, transmutation of your soul, in another D, not necessarily this planet, maybe somewhere else.

Q: Steven, ..Mr. Keshe, in a way, you woke me up. I was asleep, and you woke me up. Now I feel I am in physicality, where before I was not content, but it was different. (1:48). So can you put me back to sleep please.

K- How did I wake you up?

Q: As soon as you said, "the microphone," I woke up. It's hard to explain, there was a point, and I woke up. You said, everyone must .. I guess it's hard to say, when you keep wanting to give in physicality, there is something that holds back. you're holding back with something, whereas when you are asleep, I felt I could get without the need to feel like feedback. It's hard to describe.

K- where are you, which state?

Q: California,

K- So early hours of the morning. Was it a call of the soul which woke you up, or is it consciousness of presence?

Q: How do you answer that question?

K- You got to be close to your soul, if you got woken up, so you are one of the 2.

Q: But that seems like this whole defining, quantifying, confirming, that feels like is holding me back. (1:50). in physicality and I can't seem to transition that threshold to when I am, not asleep. but in the dream state, that I can let it just flow.

K- What is your deepest wish from the soul, not from the man?

Q: To give , I have someone that I specifically to give to in physicality, and that's always been my focus. Perhaps it would be to give to myself, but I feel I can't do it.

K- What is stopping you doing it? Is your biggest problem in trying to give to yourself to be able to elevate? Is that the fear that you might be better than the others and you won't find your place? Or is it that if I give and I become better I'll loose the one which I am trying to give to.

Q: It's perhaps give, and leave the one that I want to help the most, behind, without being able to bring that person along with me.

K- It's the fear of the love of the Creator, or the love of physicality. Which one comes more, or is there accommodation for both?

Q: When it's a child, how do you, that's the, (1:52). ..

K- Do you want me to give you a gift?

Q: You always give me gifts, that's the thing ...

K- So your wish is granted. What you wish you'll receive. Maybe that's why you open up. Your soul is aware that it is about to receive what has been sent you.

Q: As the others sleeps, that's kind of where I go, to where the one that I seek to help the most, when we both sleep, is to communicate, because otherwise, in physicality we can't communicate. it's that, to be able to communicate instantaneously without the physical boundaries. ...

K- What's your physical nearness to the person?

Q: How do you want me to answer that?

K- I'll put it to you this way. We have a position where people who serve the F with absolute devotion, life and soul. (1:54). and in a way, I made a wish and a talk last week, and this week I got the response, that how to give that pleasure for the soul to interact. One of the ways, .. in the teachings where we .. if you come to Linz, to the exhibition center, the design center, you see we have setup the triangle of the 3 cycles of life, and you can go in-between it and feel how you feel. .. in your home, in your bed, in your bedroom, sitting room, you can create the same condition. In that process, the souls will meet. .. you make that fish tank in your home. As you have made the Gans's and the amino acid (AA), the birth of life in that house, if he or she is present in that house, is within the AA created within the Gans's. And yours is the same, so is the plant, dog, cat, because they all feel the pains of all, and joys of all. And we create different AA and Gans's which are the ... spray your room, your space with it, and give the time to grow, the time to find balance and peace. In that process you will find the manifestation of totality of what your wish has been, where the souls will bring the physicality's into, (1:56). obedience and into care. In so many ways, you spray your cities and you spray your towns, but many of you forgot to spray your homes. Spray the D of the totality, when you spray in the towns and cities and town, don't forget you need to link to the STM. You spray the water of the Gans, in your waters has to be the AA, which the whole humanity and all creatures of this planet, for centuries have ?? breed and put their emotion and their feeling in it, which you capture in the AA. Then you'll find out the evolution of the cycle fo the STM with the physicality becomes much more rapid, where you can touch the physicality through the D of the soul. This is what I said, many of you listen to my teachings, but you never understood, the essence of it. I was explaining ... as we are developing the Enhancement Unites (EU) for the cycle of the life of the man, that if you look at the creation of the child in the womb of the mother, why does the child keep on moving within the womb, and why does the child in the last stage stays head down, and the furthest possible from the soul of the mother? This is the way the mother matures the soul to the point she has for the D to be ready for passage through to the cycle of the physical life. (1:58). This is how we have to be, how we have to make our own homes, souls, physicality, the home of love, to give, and with it the souls will find balance. With it we become the mother with the one we love to be the infant, that it receives on the 2 poles what we need. in the process of the creation of the physical life, we start teaching you how to create a new cycle of children on this planet. In the coming months I will teach you how to create a life with a soul, where the soul is established before the cycle of the life starts within the womb of the mother. Where when it comes, the STM to be created in the womb in the first cycle, the perfect soul is already, ready to take its place. In a way we create a soul of the U within the physicality of the man, where the man will take the D of the soul and the physicality at the same time. The soul, is the soul of the U, and the body is the body of the man. This is how we convert humanity to become a peaceful man, and that's why we said, in the new cycle of generation of life mankind will carry the soul of the U with him. I will teach, the way it is done in the U. .. we create the soul in a perfect condition with love and care and acceptance that at the point of the soul being created for the child in the womb of the mother, the soul which is already, ready made from the love of the two, (2:00). will become the soul of the child to be born. There is a need for a cycle, a need for understanding. The way we make love to create a child, now we make love through the soul and the D of the soul, and that soul of that child, and that child shall not be touched, and it will become perfect, and become the symbol of the creation in the U. .. a child of the U cannot be made out of rape and abuse. the way you prepare your body to receive a child, we prepare the STM to receive the soul of the child, and this shall be the

process and the mankind will be separated from all the other creatures on this planet, where you share the soul before the creation of the physicality. Where you nourish and perfect the soul that when the physicality is there to take shape, to take shape in eh soul D, the perfect soul is available for it to take its position. .. it takes time, it takes time to mature the physicality, and the soul to be ready to receive that soul. Mankind will give a different type of birth to the children of the U from now on, as we teach and as the process started. In so many ways, this is the only way, where man is aware of his physicality, and his soul at the same time, and he can take different D and positions anywhere in the U, depending if the soul, (2:02). would like to take the D of the travel, and the STP will travel with him, .. we make a twin of the two in a perfect harmony that there is no need for the cycle of the passage through the birth tunnel for a child to be born. In that process, the child will know no pain, from the day at the point of manifestation. .. if you are traveling the span of U, and try to manifest yourself ?? birth in the physical D, in one position in the U, do you have to go through the process of the birth, and the pain do it. No more. This is what we try to teach, this is what the process of the EU is set for. ...

(1:30).

.. as we are developing the EU for cycle of the life of the man,

(1:32).

We start to teach you how to create new children on this planet..

(1:34).

A child in the U cannot be made out of rape ..

(1:36).

(1:40).

Q: Azar, I can't let go. the more

K- It's the fear of physicality.

Q: How can I let go

K- You have to learn. you can't let go because you want to possess. It's very simple. Many of you, you want to know the extent of your physicality, how you're physically attached to this planet. You don't need to go very far. Just stand back, relax .. very naturally open your hands, and see does your hands go straight or are your fingers bent in.

(2:02). what will happen with Mitra. ?

K- In time mankind will confirm the presence of Mitra. It's not for us to give the position, place and the soul. In time mankind will mature to recognize Mitra by her presence. (It's) not for us to tell who it is. ... members of the UC will be seen by the light of their souls and servitude, and not by the D of their physicality. This is the attribute of Mitra. Those are presence, and understand her existence, and presence, will appreciate, and will to come to serve her wish, that is to generate a new cycle of life, that is peaceful and that it shares equally amongst the whole, across the Unicose. Mitra

is a symbolic structure of creation and created by the Creator, as Creator, created Mitra to have one to love, Mitra created children for the ?? creation and the Creator Himself, to become the citizen of the Unicose. In a way, Mitra is part of the structure of the change, which has been set by the Creator to change the totality to bring in balance the citizens of the Unicose, (2:04).

(2:06). BREAK >>> (2:17).

K- We carry on the same, KS had the time to reflect and we extend these kind of what I call, sharing, (2:18). into the future teachings. .. we used to put answer and questions, now we put that you answer your own questions. How the man evolves is a process of elevation, self-search, into understanding. We have given you the U System, Cup of Life, for you to test and to see, and to understand. This week 24th of January was the anniversary of the One Cup One Life. ..

We gifted the OC OL to the nation of China. As it traveled to Iran .. every corner of this planet .. (2:20). This is the extent that through it we elevate the STM. Cup of Life is a Cup of the soul, if you know how to use it, you can use in different combination and ways for the conditions of the souls of the others. If you expect everything you do to benefit you, you still have not reached the maturity of creation. We don't cook to serve ourselves, we cook for the others as not to stay hungry, as we know how to feed ourselves. In so many ways, we have entered, all of us now, across this planet, with lockdowns, staying home, disruptions in one way or another to our cycle of life, because of this virus, which all of us will experiment, and experience in the U. Even the STM is not immune to packs of energies. So you have to understand in span of u, you still have to watch that you do not receive something, which you do not, or you would not like to receive that it becomes a virus even to your soul. This comes again with .. understanding the structure of the creation of the STM, in the D of the creation. Don't forget, the way we can be enlightened by the souls of the Creator, and the fields of His beauty, the same fields, (2:22). in different strengths and D can become a virus to us, or energies which we do not need, that in the presence of, we become part of. It's interesting how one very weak pack of energy has become, to bring the whole humanity, more or less to a standstill. Or the thinking of one single energy pack has brought man to this. .. what would the man do when he becomes a full-time traveler of space through D of physicality and the soul. How would we handle it, except to understand the truth about the existence and the systematic established use of T and knowledge how to handle it. don't forget, In so many ways, we have taught you the true essence of the space T, it's you who has to decipher it, to reach maturity. When you have a virus in the space, how do you extract it from your body. Think in a very simple way, the creation of Eve, and the existence of Adam. That if you understand it, will give you the key how to exist and live in the depth of the U, in any D, and not to be worried about the D of existence. And don't forget what I just said to the gentlemen, (2:24). what you want to give, and how you want to give, you can create a D of the, what I call smaller D, or what we call, the Eve, or electron. That allows you to live in the span of the U, and no virus, be it of the soul, or of the physicality will ever touch the man. We have lost millions in the past year through the creation and manifestation of what we call, a normal infection. And god help humanity if it does not know how to protect itself in the depth of the space from these viruses which are much more stronger than this common denominator energy field, with the soul cell of the man. You got to realize in the D of the viruses of the soul that energy will change the D of the physicality too. it's

double whammy as we call it. If you feed the man through the STM, when these viruses attach themselves to the STM, there physicality has to change itself too. And this is one of the biggest fear of the man in what we call the change in RNA and DNA. In space you should be knowledgeable enough not to allow this to exist, or to take shape anywhere. (2:26).

Any comments.

Q: Dean, in the non-dimension of the soul, how does a virus attach to the soul. How does it actually ?

K- Soul has no D and no physical D, but he has a field D. It's the essence, so in that essence and it still has a strength, and that strength is measurable field strength of the M field spectrum of the creation. So it's like everything else. This is what .. even from the intro of this teaching the STM in the body of the man you cannot see, but when he finds a time and position in the Unicose, manifests itself as a star. It depends in what media you allow it to manifest itself.

Q: So would the virus attract itself to the actual transition when it actually in transition ?? to re-manifest?

K- At any point. depends if you find a matching strength. (2:28).

Q: Are all viruses giving or receiving, do they have MG

K- .. while you are virus, you can be virus to something else too. It depends what we establish on the strength field soul. As you are attached, attacked, or connected to, let's say, a flu virus, that attacking, or connecting to you, you can become a virus to somebody else's strength in another D, because by receiving the strength field of that virus, now your position has changed and now you become a virus to something else, or if you are not a virus, by loosing energy you become of the strength of somebody else. You have seen this clearly in your work when you make Gans's, you leave the Gans on the shelf and you see how they change color, because they continuously interact. Then go back to the original color, because at points they were the givers, and at points they become the receiver. When you make your Gans's have a look at them, see how they change color over time ... (2:30).

(2:36). You got to realize the EU have gone through a total revamp. .. we brought them up maybe 50 years ...

(2:42).

Every one betrayed the Foundation.

(2:44). Q; I wish the new groups become light to the soul and give humanity the knowledge that was given to them. ..

K- We hope so, that is our wish. The biggest problem with the KS is the KS themselves in sharing the knowledge and in a way, betraying the F, but we always share, but we want to choose the time and place, and these people break the acceptance of the knowledge, and they think they are very clever ...

Q: Surely that soul will realize you are giving to humanity ..

K- It's ego .. (2:46).

Many KS will notice from this week on, KF has moved in the international arena in a very different way. We will bring the KF as a scientific and commercial organization in the public domain as of this week.

We'll push it to be

(2:48).

Q: ...

K- .. You got to realize in the recent past I have found peace and happiness and a lot of understanding, and that .. conveys to and translates to the teaching. In the process of past few, recent months as I have found peace and happiness, I share it with the rest of the KS, maybe that's why the teaching is going so fast, to be part of the cycle of the process. ... (2:50). in finding peace we share easier ...

.. we have developed vast amounts fo T, we have to catch up to bring it out. The HKF, ladies are trying to reorganize the F. We will not operate from the KF website, internationally.

Q: .. (2:52). I felt contentment and peace.

K- It's finding happiness within the structure of the physicality and the soul. And after years I have found peace and happiness. This allows me to do a lot of things. ...

Now we bring it for the nations to enjoy and the animals. ..

I avoided this for years, because we had to strengthen the base. Now that I pulled away from the running the day to day KF affairs ... Allows them to bring the KF out in the international arena in a big way.

I promised to support them with .. my old assets, to make it easier for them to expand. Do not be surprised if you see KF logos with Microsoft and the rest in the coming months. (2:54). Because the process has started. Most of the brands are one sided, computer, energy of whatever. KF multifaceted. When we takeover we cover everything.

As the leading nations take that time, as they see us as possible solution. We have interaction with 3 governments in the last week. .. the new administration in US, you'll see a lot of interactions with the US and KF .. and the Iranian and Chinese administration.

Q: (2:56).

K- .. the creation of this and present situation with the lockdowns, is pushing the KF to deliver and bring the governments to do environmental cleanup. But now you got remember 1 factor. In trying to cover the cities .. to control different aspects to the viruses, as you know what Cup 1 and 2 is, we are delivering field energies to the animals, plants. This process in elevation and

(2:58). it goes into the inner sanctum of this planet.

Increases the energy what is needed to change the soul of this planet. We came through the back door to go to the front to let everybody in. We came through the science and then through it we opened the front door to the STM.

Q: .. (3:00).

Any other sharing of the knowledge.

Q: Canada, I wanted to share how I felt. It was very emotional. I felt sadness and happiness all at the same time that it brought me to tears. .. I had to suppress myself. .. this is something I able ..

I can't hide how I feel anymore .. this is my soul saying, look this isn't right. (3:02). .. we get sick when we don't listen to our soul .. (cries .. ) it will be a year this coming March. There was a hash tag said, "One Cup One Life," something said I had to investigate that. If I didn't investigate that all these months of what I experienced wouldn't have happened. And I can't imagine my life without it. I just wanted to say thank you from the bottom of my heart, for all that you guys are doing, you Mr. Keshe have a lot fo work to do, I just wanted to say, thank you. And I am so happy you have found peace in happiness in your heart and soul, as I have too, thank you.

K- Thank you very much.

Any other comment. (3:04).

Q: WL, some people say they find Gans in their Soul Cup, others don't, what does that mean? .. The Earth Cup G Cup, started to make Gans very fast ..

K- What do you mean by that? (3:06).

Q: The Soul Cup should not make Gans's ..

K- What do you mean by that?

Q: My physical soul needed to create more Gans

K- I don't understand what you are trying to say.

Q: (3:08).

K- The black Cu coat comes from the Nano structure, and nothing else. It's the absorption of the energies.

Q:

K- Yes it does, it changes, everything changes. (3:10). according to how you interact, these are field strength positions, and they absorb the field of the people and the environment.

Q: My Cup is in office so have a lot fo Gans products around it.

K- Yeah, but you have a lot of people coming and going.

Q: Not much.

K- Anybody but you interacts with it. even the post man who comes to deliver, his fields are there, by the strength and field of.

Q: Jefferson, I am trying to prove to hospital directors that Gans water is effective in disinfecting (3:12). what guidance would you give me so I am successful in this endeavor.

K- I have nothing to tell you, it's just that you have to follow the process, and then you see how the environment is taking shape. And how you see your interaction and fields of interaction of people around you.

Q: .. I think to use the PCR text, take a blood sample and put plasma water Cup 1 and 2 and then

Q: yes, and then.

K- This is something we don't claim anything, this has to be done by the authorities.

This is what you have tested, (3:14).

Q; ..

K- The position is of your government and the health authorities how to handle. and how to establish the necessary D in essence is your responsibility to inform your governments availability and presence of the T, and it is for them to assess and develop and extend the knowledge to be shared. We are closely in touch with Brazilian government officials .. in your Churches and broadcasted on your national TV. Your

government is aware. Your job is to spread the knowledge and delivery of the T that the nation picks. (3:16). I said openly .. when you have one Stacker unit in city with the intention that it was built, all those in the city, have change to , because this is a plasma field, and you will see the change. We have seen many people who have made the Gans's in block apartments, they have seen the change in all the neighbors. how they change and the families change. The Gans's are the invisible touch of the soul with the other souls. But as I said, many of you in the recent teaching in the past teaching have created a massive energy fields which is reaching beyond your rooms, libraries, your laboratories, or your kitchen. You reach the kitchen. You walk with it, you take the Gans to another point, you spread it. If you made the Gans at home and you traveled 20 km and you spread the Gans in the new position, the Gans has the link directly to your home. So when you spray the Gans's in that area and you have a connection, while you are making new Gans's with the same material to spray in another part, you are connecting the city together. This is,.. once you establish electromagnetic fields through the plasmatic fields, you can never cut it. In a way, (3:18). one person in one city, becomes the point, you spray this week, next week the other place, you put in your bag when you go to hospital, or go shopping you spray it on your hand, you start establishing the links. This is what we have to see in the larger scale. We have to understand in the larger scale, that in reality we do not go for these things, we establish it unknowingly. .. I have used the sincerity of the KS to spread the sincerity fo the souls across the planet. if you remember some 4 or 5 years ago, Chinese every Sunday spread the waters in buckets in the rivers and cities. People in all parts of the world, every Sunday they do, these are points of establishments. If you could send Gans's from one country to another, sprayed, you create that dome, because the link is established, you cannot break it. If you are Gans producing in Brazil, send your Gans's to China, to different part of US, or wherever. You establish the links. This is the way we spread. This is partially what the KF manufacturing in China is doing. (3:20). All the products you buy carry Gans's which are made with the love of Chargin. If you knew the man , you would give your life to have him next to you, and he produces, he is the head of KF manufacturing in China, with so much love and care. In a way we are spreading and connecting all to China, to one man. Nothing you receive, ?? nobody had except him. At the end, when the factory produces he is the man who sees everything. He is involved in all of it, and he has such a gorgeous soul. You hear his voice you ?? hear his soul. This is how we spread it. When you see the KS, the team in Austria, or the team in US, it is done with so much love and care, and this is how we spread, we send and receive goods from China, and with it comes the KF ... is the way we are establishing to cover this continent and this nation, .. planet together. You got to realize you are doing your part, as a whole as KF manufacturing .. I know exactly what we are doing ..

(3:22). If you take a magnet to one point of the world, U, and it is strong enough, there is strength of connection with another magnet, as Einstein said, the funny things is, when you turn one, the other one turns. When the soul of the creator of the Gans is so peaceful, and so committed to peace and equality of the man, when you walk into environment of the factories, you feel it ...

Q: Mehrnez, .. (3:24). .. making the Star Formation .. and you were talking about that this morning .. I felt nothing is there. I saw my body differently ... my message, in my little spot of being, (3:26). I extend my love to all ...

Q: Stephanie, voice to KS, (3:28). (translates ..) Thank you for today, I had a vision, all this beautiful information were arriving to all the universities, of the world . engineering, medicine, all the plant received this knowledge. (3:30). Q: when we have this vision suddenly, in that moment the souls receives that info or has to create or it co-creates with this vision or a path,

K- It's both. It's the only way you understand what you receive. Because at the moment to the D of physicality, you want to see, to feel the essence of. That's it. (3:32).

Q: .. will the new knowledge take over the theology's knowledge.

K- What do you mean?

Q: The religion will fall down, because they impose this rule? (3:34). Because you give name to the Creator, it's like if you give a name to the Creator?

K- The truth will come to mankind as they evolve in understanding the structure of their soul, the operation of their soul. It's not this happens to normal people, the religious people themselves become evolved, elevated, understand. You'll find out collectively mankind will walk this path together. Does not matter what clothes you wear.

Q: So there will be no separation of different type of knowledge in the future?

K- No, it depends that we all, (3:36). have access to all knowledge. .. the way we communicate on Internet, we share knowledge very rapidly, mankind will share knowledge the same way, but this time we receive the knowledge, the enlightenment through our soul.

Q; There is not going to be schools, just fields of unconditional love?

K- It's not a matter of schools, you need to receive the knowledge, we go to school to be knowledgeable. Now with access to the D of the STP, the way, for example, we received the knowledge of what not to eat, what to eat, and how we should walk, through our genes, through our RNA. We now have the possibility to receive that knowledge, the Knowledge of the U through our soul, and pass it on to the D of physicality. The time of elevation of mankind, the true elevation of knowledge has started. (3:38). Now we receive the knowledge from the U, we'll produce systems and machines, that we'll enjoy using it, but not ?? needing it, it will be a pleasure to be in the physical D, to enjoy them, will come to flourish Whatever mankind has created up to now, look at all the advancement in past 200 years, in the coming years, it will be nothing compared to what we have. It will be so advanced, so diverse, because not only we educate man, but we bring the KU that man can convert it into tools, machines, and things that it brings more pleasure to being, not necessarily to sell or commercialize, but for the others to enjoy.

(translates ) (3:40).

K- Can you retranslate what she asked? if it was correct.

The answer to her question is simple, the theology walks the path of mysticism and lack of knowledge.

Where with the KF we speak about the Creator and creation through the knowledge of the science and we can lead one to the other with certainty.

Q: The theology make you believe without understanding, The KF make you give you the knowledge to understand, (3:42). to experience and know the truth.

K- In the theology you follow another man's dream. You call it a Christ. In KF you follow your own soul, and the work of your own soul. This is why in theology and religion they could make up anything as you were not aware of the existence and operation of your own soul, people accepted it, now you're given a soul, you're given the tools to be able to confirm what you see, what you want and there is no

intermediary. (3:44). You see there is a big different between the KF, theology and the religions. In theology and religion, they promise you that you have a soul, it is somewhere, but now .. With that they create a fear in the life of the man, to control the man. With the science and development of the new T you know where your soul is, and the only thing you have to be afraid of is the conduct of your physicality in respect to your soul.

Q: You said, this morning is the moment of judgment.

K- Yes, every day is a moment of judgment, every act you do has got to be the moment of judgment. This is the difference between religion and science. In religion you work with a theory of a dream. In science you work with facts on the table. (3:46). In religion you live with a promise of the future. with the KF T you live with the facts of today in your hand, which you are the creator of. This is the difference.

Q; This is beautiful and very clear.

Q: .. (3:48). She had experience of doing regression. she saw life in the future and the past. even in other planets and other shapes. She saw even the future. How can I comprehend this with your science the K science?

K- You don't need to compare. .. Each one lives within the other. Some of us have elevated, or some of us have found the strength, found the field strength to be able to travel beyond our physical D, and some of us have not. It's not that everyone will mature at the same time. Many humans do this trick. But the only thing you see about the future when you actually arrive, when you see that what you actually saw is there and is taking shape at the time you think you dreamt about it, or you think you have been there. Otherwise it is just a dream. (3:50).

(4:06). 365 KSW
