

381st Knowledge Seekers Workshop May 20, 2021

ENGLISH TRANSCRIPTION

(:09). .. We welcome you back .. we are learning new ways to elevate .. and see how we can connect, physically and emotionally in different dimensions in the realm of the Creator and the creation. Today we have some announcements. ... another step for the KF worldwide, (:10). to reach the goals not only for creating the condition for KS who know about eh knowledge, but in the long term helping in setting up the new standards and levels for humanity in different nations and conditions, that we start interacting and bringing the T to common man on the street and changing from what we call, grass-roots.

Today we are proud to announce the signing of one of the largest KF Factories up to now, .. play video. .. Yesterday KF after .. 2 years negotiations in China .. The new factory which is about 70,000 m2, is handed over to KF as of yesterday. This factory becomes the flagship of the KF worldwide from China. It's one of the most prestigious factories in ...

(:12).

(:14).

This building is where we will concentrate the first flight systems in the next 12 months in conjunction and collaboration with .. Iran and China. the headquarters will be in Tehran.

We have set out to bring the change.

.. all of us being part of the change ..

Inviting the Chinese Knowledge Seekers (KS) to join ...

(:16). We estimate we'll need a thousand plus Chinese KS. The process of employment will start in June.

(:18).

.. the Chinese come to us, for example, there is such and such a problem. (:20). they pay the KF for research and development for their problem ..

The governmental organizations will come to KF with problems .. we'll find solution .. We have already started this path with the Chinese, be it in agriculture ...

(:22).

(:24).

The Chinese have landed a craft on Mars, 7 months of travel, unmanned. As we understand the new T, with the new crafts, being able to create M field barriers, .. tune in the MG field of the Mars, understanding the heartbeat fo the Mars itself, which is what we call the love affair of U system. we create the heartbeat fo the Mars, .. the M field strength of the Mars, and we see these space travels to become in fractions. Maybe less than 1 hour to Mars, and much faster in the future. There is a lot of development to come in.

We see new research papers come in from organizations around the world who have started to understand the work and .. interaction of the fields of the plasma (Pl). We've seen new papers being published by leading universities around the world, (:26) in how the fields interact. These are the new T which the KF will collaborate with to bring our knowledge, where we can develop for these researchers to develop very fast.

In a way, we have entered and we have put the first foundations as the headquarters of what we promised you, the CIBRU to start. The basis for setting up of the CIBRU in Tehran with the help of the Tehran KF . has already started ...

Making Gans of Gans

We see you KS not just making the Gans's, but trying to take the T a step further that we start producing food, we start producing energies of foods, we start producing interaction of the fields, what we call, "Gans's of Gans's" to make. Now we have to make field of the Gans's. This T I will teach in the space centers, that it is essential to be understood. Now we have to go a step further.

Opening a Gans - Spectrum of fields

In a way, to **opening a plasma** to understand when we open a Gans, how **Gans's become a spectrum of the fields that we decide which one we take**. When in the present science we work with our systems we have a very different understanding of the totality. In the science of the space and plasma T of today, we speak about Gans's, we speak about the M field of Gans's, (:28). but we have never understood the totality and the way they work.

We'll Teach the Fields inside a Gans what each one means

When we have a Gans we look at the little white ball sitting in the place. But if we really look at **that little white ball, as a Gans, as a single molecular Gans structure, we see the fields, which comes out of it**. In so many ways, **these fields are not the same** and in coming time **we'll teach you how to take each one of these fields, and what each one means, and how you can elevate and evaluate. How to replicate.**

Each One a Heartbeat combines becomes Heartbeat of System

How each one of these inside, in itself, by **itself become a heartbeat of itself. The combination of each one of these heartbeats gives the combination of the heartbeat of the system.**

One Gans to reach the Whole Unicose

In the coming time you **need one Gans to be able to reach the whole of the U and Unicose**, when the knowledge of the man increases, you don't need to have a 100 gram or 10 ml of the Gans. Each Gans in each strength, and each strength linked itself to a position, and to a dimension (D), and this is for us to develop, to understand.

Each Gans is a key to process, to one point in the U

Each Gans is a key to process, to one point in the U. If you remember I explained to you last week about how we put the dough through different systems, and it **became like a spaghetti. How it become weaker and weaker, or stronger, or more of.** If you remember the process, (:30). you got to remember, each one of these (fields) ends up in one place or the other.

Find the Elusive Light of Creator

This is what I said, to you, one Gans has the strength to take man across anywhere in the U and Unicose. **If we find that elusive light of the Creator, the strength of His line of understanding and generosity, will find a path directly to the Creator.** It takes one Gans to take man to the whole dominion of the creation and the Creator. It's the man who has to extend his knowledge. It's the man who has to understand the process.

Magnets on Table - Move one all adjust - Connected to each other

You understand this in a very simpler way if you go back to where we used to put magnets .. and then we see **that how one single magnet in the center, in positioning it makes the rest to move to a new position and D.** In a way, some move forwards and some move backwards, but all adjust themselves in one way or another. In a way, if you look at it, the Gans itself is radiating different strengths of the fields, and in that process makes connection. **This one connects with the strength of this,** (:32). while this one in it has the strength of this one. In so many ways, this connects to this one. But this time when they come in they adjust to the new position.

Connections of Magnets and Gans's same

In a way, if you look at it, **there is no difference between a magnet and what we showed before (Gans fields). Look at the two and you understand the same. You have seen this in the physical D in the world of the man. Now you have to learn the same thing exists in the D of the Gans.** Because **for that Gans to be in that position in the Cup it has to have the collection of the fields, not only with all the Gans's in that Cup, but in totality, every other things which is created within the structure.**

Have to Mentally Visualize - Invisible Field Forces

Now the only difference is you have to mentally envisage or mentally understand that here (magnets) you dealt with the state of the matter, here you dealt with the state of the Gans. Here (magnets) both to you are understandable because they are both can be visualized. (:34).

On Whiteboard there is nothing - ocean of invisible fields

But what happened now if I show you a white board. **On this whiteboard you see nothing, but this whiteboard in the background is an ocean of fields.** Man has got to learn and has come to, be forced to learn that what can I feel with the emotion of the fields on this whiteboard. **Do I need to see it to believe it, or I am aware of its**

existence? Even the existence of this whiteboard as you see it, is a confirmation of existence of fields. It's you who has restricted yourself to visuality.

Learning to Feel the Fields without Seeing

In the coming time, mankind in the space will face this. What is this, what is on this board? Is there a field on it? and what strength field? I don't need to see. how many of you have managed to **see the field of a magnet in your hand, but you feel the forces of it**, when you bring it close to a metal, .. to another field balance entity, could be a magnet or anything else. But you know it's a magnet, I carry it in my hand and if it comes across a metal or another magnet, suddenly out of nowhere, I just know there is something.

Man has to develop new Sense - Sense of the Fields of Creation

Now mankind has to become to trust this. Something you don't see. (:36). But we could feel the heat, .. the touch, we can smell the odor of the air, and now mankind through the strength of the soul and understanding of **it has to develop a new sense, A new sense of the fields of the creation**. Which man never sees up to now. But we have to strengthen these within the structure of the STM which is in the PI condition in a much looser state to be able to feel this. I feel the emotion of my son. I feel the need of my father who died years ago, but his soul is presence. I feel the field strength of the planet Mars, or on the other hand I want to be in planet Zeus. We cannot develop always machinery that man can carry. In the space man has no hands and arms when he travels the D of the soul. Where do you want to hide your meter, or your detector. Secondly, if the machine can detect the fields, your brain and your soul which is in a much more advanced state, how com it misses it.

Mankind will be taught how to filter field strength in understanding what is a heartbeat, what is the connection to, and what is the collaboration between different fields. What happen when this and this interact together. And in the D and things at this point, I'll see myself ?? I connect to him, to the position and condition. (:38). .. when mankind leads and understands the interaction of these will create a 3 dimensional fields, emotion, and the understanding and the strength. Then you can see your father talking to your son on planet Zeus or Mars, and you understand what their soul has decided. Baba you used to be a very naughty boy, the father says to the son, take the soul to such a place and learn from it, where you have made your mistakes. Then we say, oh, by accident I came and I found this, and I learned something from it. But it is not in the background of your thought that soul of the father, son, and the planet Mars brought you to that position, you just carried the physicality to it, or the same as what we saw here (table of magnet) you positioned according to. This is the process of the teaching, which in the coming time we allow it and we teach it to be developed that the mankind chooses the walk, donkey, jet, the UFO, or travel in the D of fields of the U, what you call the strength of the soul of the Creator and the connection to the STM.

Learning how to Tune to everything - be part of the totality

In a way, I like to go for a walk, but in my walking I want to be close to my son, and my father on planet Zeus where I allow the extension fo the soul of me, (:40). to be in connection in my walks with the whole structure, where my physicality is still walking

in the physical body of the man on Earth. I think I am closest to the Creator, but in fact, **I am rotating like a spinner at high speeds, and my soul continuously has to find out how to tune to everything. .. once we connect the lines we are part of the totality of the structure.** .. the new space PI T is about the life of the man in the U, not just the Gans in the cup. As I said, you take from this T according to your knowledge, .. understanding of the .. totality of the creation, and what is for you part of you to be in you and within you.

MaGrav was Carrot to entice man to Knowledge of Creator

In so many ways, we have entered and are entering new levels of development. The process for us is not just to make gold and be happy, .. **a MaGrav and be happy, these things for us in a way, a sweetener, a catch, a point where we could bring the attention of the man, is so physical, to be attracted to the knowledge of the Creator.** ... we set out the bait and to see who bites, and how much of that bite they want to take. How much of the cake they want to eat, the cake of the knowledge is limitless. (:42). It **depends what is sweet to you. and what is the purpose of that cake you take from the knowledge of the Creator. Some are happy with the crumbs** of the knowledge and claim the totality , and some are given the cake, knowledge and totality and stand back and they share with those, and they make it even into crumbs that more people through their understanding can take different sizes of it, but everybody has a piece of it.

To stop sharing knowledge is like stealing from the souls

In a way, **that crumb is the STM, we have to decide how much of the cake we want to add but we share all the time. .. when you stop sharing, you stop learning, you stop receiving.** In so many ways, **thy shall not steal, this means not just wealth, but you cannot steal but stopping to teach the others, because then you have stolen from them to learn, to be able to become, to find a new position in the structure** of the .. their souls, in the realm of the creation and the Creator. .. we teach you more. .. we start teaching KS to trust, to understand, to feel, to be able to be part of.

In a very soft way, we have already introduced this in systems. our systems to you, which to you is something for Corona. Is something for my eye .. body, but in fact the teaching has been a process of slow feed, (:44). for man to understand and to trust the fields. You were happy with the Gans's, .. for thousands of years with the gold, and then you start understanding about the alloys, how to mix different materials together. Then we introduced you the Nano T separating them, and then we introduce you the Gans's, and now the process has gone very softly in the process of understanding the fields of the Gans's. How to trust and gradually how to feel and see their operation.

I have taught different races across Universe

In a very subtle way, .. I have been a teacher long enough to know to teach each race, and what bait to put out for what race, that allows them to become part of the U Community. I have done this many times across the U so I know how created things work. Always wanting to receive, but hardly wanting it give anything. In that process we taught you a lot.

I have hidden things inside systems to elevate your soul

I have hidden things in a position, that you could see but you do not know. One of the systems we put to you and you have gradually, because of Corona, come to see, is the AEU. AEU is one the first systems we put out. for you it is important to heal the Corona, For us it is building trust, **you breath the fields, you walk in the fields, you eat the fields from what we call the air units. and you gradually elevate to the position of the STM.** finding in this position what I feel, (:46). Now in that position I am breathing the Pl, now at the same time, the same Pl becomes part of me as it goes through me and is on the cup on the water, which is ?? in the matter state and I drink. The way I introduce the Air Enhancement Unit (AEU) has been done before, but the KS did not see. It was in a large scale in the Body EU.

Now we have brought it in a way that it is reachable by every man. In so many ways, now I have brought you a very simple system. The new AEU is a way to elevate the Soul of the Man (STM), elevate the Soul of the Physicality (STP) of the man, elevate the connection to the freedom between the two. The problem has been when we had the KS they said you need to drink, to cover the Gans with your body and to inhale. With the new AEU we do the whole 3, you don't think about it, and we create that process of the elevation. understand the change, but mankind does not and is not aware of it.

Negative Oxygen used to Elevate

When we call it a **negative Oxygen, think of it. Oxygen; "I hang on to your gravity of amino acid (AA) which is the O. With it I absorb the fields of the environment to add it to the fields of your soul that it creates the elevation of the physicality, the STM, and the STP ..** I am a master of disguise, because I know how to play the game, (:48).

AEU Elevates all 3 STM, STP and Physicality

We showed you they environmental system. None of you gathered how I played that game. But now with the .. AEU we deliver a combination fo the totality. They have been built in that way, they carry more or less, **a combination of the fields the man needs to elevate all 3, the soul , the physicality, and the STP . I have given you the knowledge of the U** that for you could be something I wanted for Corona, but you missed the knowledge that I delivered to you. You breath, goes within you, its air touches your skin, and the fields are put, where you build, you drink it. I get you in all 3 ways.

Shortcut to Elevate STM

A **shortcut to elevate the man.** In the small doses. For you to do this it **takes you 50 years, what this machine delivers to you in 50 seconds.** You look for different things, and I hide the medicine in the sweetener that you are sweet to take. I put a drop of life in a block of sugar, and like a horse you take it with pleasure, but within it is the medicine to change you. Now we can speak about the T ... because now we have brought it to you, right in house, right in the way that you elevate your soul. (:50).

Systems bring faster development of the STM

With the same, with what we put out as glasses (Visual Enhancement Unit), we done the same. But in a more concentrated way. the glasses we have put out, is not so much for you eye, it's for the eye of your soul. It is there **to bring a faster development of the STM** directly in the process of understanding. When we released the glasses there was the whole purpose of direct connection, direct elevation, direct work with the STM. .. I hide the T of the U with these simple systems that we can bring that position, .. that change, .. in a position to speed up. By setting up these new factories is to be able to do this. **I cannot push the man, but I can let the man to choose.** With the new delivery of simple T I have hidden the know of the U in a very simple way, even the people who work in the research centers do not understand why and how I do these things, and the reason we do these things. because now it's time to create that, not the elite group, but the ones who are aware of.

Bring the fields of the U to the STM

You will not see your soul flying by putting the glasses on, but the soul receives in a very simple way a D of the fields of the U. You remember the way we used to put Gans's on top of the plants and water them, it absorbs the fields of the AA to the plant. Now this eye glass, the Air filter system is the same thing, but is **at a strength that brings the fields of the U, (:52). to the STM.** Now that grain of rice on top of the plant rice, was the receiver. Now the grain of the STM is in the same position. We develop T to hide the T of the U within the structure of the understanding of the mankind.

In so many ways, push not to force, for you to understand, we push to accommodate that your soul elevates and ?? understand. They are two different ways to do the same thing. You can drag a child to the water, but you can bring the water and the child, drinks it with pleasure. I changed the direction of the KF in the past few months and you will see more of systems which we deliver which will hide this T but directly goes for elevation of the STM, STP of the man and allows man ??

In so many ways, these are complicate but simple ways to bring the collection of energies, at this moment in time man can understand. In the other side, .. in the Gans T, (:54). we brought the condition of environment in the Body EU. In the Vertical EU we are doing the same, but the new V EU creates through the capsulation of the fields of the body .. to be able to elevate to the level, to be able to travel the span of the U.

Elevate the Cell of the Cancer it understands emotion

If you notice by structure the VEU is Book #2, is the ray of the light in the cylindrical, in transportation, where I want to transport the STM to a new D. Or the physicality of the STM with a cancer to a new position. **If I take the cancer cell out of your body it will grow another, but if I elevate in the same system where the cancer cell understands the emotion of the man which lead to its creation, I have resolved the problem with the cancer because I elevated the soul.** The cancer cell, and the STM that creates it, understand that the game was played the wrong way, now there is a need for balance.

Another New Enhancement Unit Coming in June - rapid development

I always explained for you, maybe for the first time you understand, always play when you use Gans's with man, use the AA. Because you connect to the STM through the application of what we call the AA. the structure fo your life, I already have given you all the field play, Many of you .. **the new EU, the Vertical and the new horizontal system which is coming up, we'll show it maybe in about 4 or 5 weeks time.** Was once our team gets their hands to fit it, (:56). June July you will see these, **will go cross our planet in a rapid way.** Now with China and Iran coming into operation, many of the EU will be manufactured in these countries. And we'll ... we'll bring the position to be able to bring the knowledge in a simple way.

In so many ways, you use the mobile phones you don't understand nothing in it, you dial down and reach there, but this time you have to understand the knowledge what's in it, how it works, and how you can manipulate it. But **this time the mobile phone is your soul.** It dials the number you want, it work in conjunction with the STP, that it puts man in the position to be. I have changed the mobile phone from you, from these little tiny things in your hand you shout down and you know whatever goes, and somebody else will listen to you. **Now I gave you the mobile phone of your soul, and the STP. It's you who has to understand how to communicate, how to be in connection with both that you are not an outsider, you're the controller, you're the decision maker, .. the one who understands that my soul, the STP would like to be on planet Zeus,** but I want to be in a position when I am near to the soul of my father, or I want to be in a position that I land, or appear in the position, that I feel the soul of the properties , (:58). or entities, or things, which connects to me, and has a connection with emotion will be.

We will not travel by GPS anymore. We travel by the field strength of the environment which matches to the desire of physicality, STP, and the STM. .. you might wish to be at a certain position, but with the strength of your STP you cannot manifest yourself in the body of a man. You will evaporate, you'll be nothing and you'll be diluted. SO the STM and the STP have understanding of the position and they know that in the shape of the man you cannot appear, it doesn't fit, the field strength are different. In so many ways, even when you look at these butterflies, we have put, it is part of the same process. You look at it as absorbing the fields, but in the coming future, as I told you, nobody can copy these butterflies. There are a number of hidden T in it that these will allow you, you are happy to put it on the back of your iPhone, ... to absorb energies, but these butterflies, in so many ways, are the radar dishes of access to universal dimensions. You cannot understand, you can do anything you like with it.

In so many ways, I cover the whole dominion with one simple system like this. Cannot be replicated. People can do whatever they like with the AEU, (1:00). we will not release the knowledge and T. .. with the VEU... the decision of the use will come through the STM. I explained this in a very simple system. .. I have given you the tools of elevation. .. I keep to the pattern of the work. This is the body .. I put the AEU to be able to do the field elevation. Some fo it goes in your body, through your mouth, and some of it you drink. The cup of water in the room because the fields which has already deposited, in the water.

(1:02).

(1:24).

.. where do I want my soul to be in respect to the strength of the fields of the Creator. The less I possess and the more I give the closer I become. As the weaker holding on to, allows me to trust him to be the holder of my soul. Detachment. In so many ways, mankind has to understand not only the life exists in the D of physicality, but exists in the fields fo the D of the Creator and the created. In so many ways, you become that Mitra. In so many ways, if you expand enough that there is no field to hold onto but you are just a process of what I call, (1:26). to share, you become the soul of the Creator. One has to understand the strength of and the delicacy of handling the two. As mankind and the rest fo the created have been so physical the Creator, created Mitra, which is fields between the two will cover the whole cycle of the creation and the Creator. In so many ways, the love and the lover and the sharing of the love with the lover, in as much as the Creator is in love with Mitra, Mitra is in love with the Creator. Both give unconditionally, but in the process of taking and giving the D of the creation and U ?? the beauty of it what is the measure of totality.

Where does the fields of the existence of the Creator comes that leads to for Him to be the Creator. Where are the origins of the creation or what we call, the M fields. Where did the first rays come from and what is the essence of the creation that in the lower field strength becomes the chair, the table, spoon and everything else that man has connected himself to. (1:28). What happens after the cloth disappears, after the wood of the chair becomes the energy of the U, and the food you ate becomes another part of the cycle of the creation. Where does it go. and why in such a strength we see it in the D of physicality. The biggest question for man is not the Creator. The biggest question for the U Community is to understand what created the Creator. You cannot have the chair where the fields of it, did it come from the soul of the Creator billions of years in the time of the man, in another dominion, but how was the Creator created? You cannot have a chair until you bring billions of the cells together. You cannot have the body of the man to have the man, if you bring trillions of energy fields, in the name of the cell of the heart, the brain, in the emotion and the rest of it. And all came from the energies and the fields and interaction of them on this planet, and this point in the U. but how was the Creator created, that He become that field? Is the Creator a ray of light, or is the Creator a collection of the fields? Maybe, maybe you find if you read a specific passage in Book #2, you have found your creator. The origin of the creation, (1:30). and the Creator of the Creator. I have hidden it in 1 sentence in Book #2, when I wrote it I wondered when man will become wise to understand this word, this sentence. And application, implication of how man will reach to understand the beauty of his Creator and how his Creator was Created. Because He comes from the light, He manifests Himself from the D of interaction of Itself, by Itself, to become the light. The light of knowledge,, the light of what we call, understanding of totality.

If I open this door, the theologians will kill themselves, and those who have created the false paths of belief in different names will move forever, to move their souls from this planet, as they know how they have abused the man.

The understanding of the totality of the knowledge of the creation, is not to be able to fly. Is to be able to understand the strength of the knowledge of the fields of the Creator,

as it lead to my creation, where has it come from. that field that light. And what lead to creation of that light? And what was the origin? This is not theology, this is understanding the physical process of the creation, (1:32). but without imagination. understanding the science which means understanding how things interacted that lead to. In a way, we call it chemistry. but In a way, we talk about the chemistry of the fields, which lead to the creation of the Creator. But one point is, where did that field come from, that it lead to the creation of Him, that the interaction of the field of Him lead to the creation of us. Or are we all passengers of the motion of the fields in different strengths and D's within the same brain, in the same cylindrical motion. But there is one fact, where does or where did this ray come from, and where is it going to. That at this moment of time it is moving in the span of the its own creation of environment, we are passengers of the physicality in one spot of. within that structure of the motion from one point to another.

In a way, I hid this in the teachings in the books, where I say very simple. The scientists of today they tell us that the U is expanding. It cannot expand if there was not something for it to expand into, and something to expand into to confirm its own existence. In a way, you cannot blow a balloon if there is no room for it to blow into. You have to create a room that it can blow that air into, that it confirms existence of its volume. So our U is . Our U is the same, (1:34) we are travelers of the D of the motion of the fields of the U, that came from and is going somewhere, that it's interacting with another ray that the existence of the two creates the light of the Creator. That light of the Creator becomes us to created of.

Mankind has to open his eyes and spend more time in understanding the process fo his creation and how he can have everything without destroying, without killing, without .. disintegrating what has been integrated for life to exist. Writing of the promised one, even a soul has an existence, and it can be in any dominion. You found it in a stone, in the lion and the physicality of the man, and in existence in all other dominions in the U, be it from planet Zeus ..

We call it a soul, creation of a heartbeat that confirms it exists and is operating to attract, every heartbeat is interaction of the gravity and the M field, and when you give it a rhythm it's a pump which absorbs the fields of the U according to the strength of the soul. Soul of the stone, soul of an atom, electron, the Creator, be it the STM. The knowledge of the new space T is to understand the measure, the strength of the heartbeat, (1:36). and what is beating, what has created that beat, what is coming in to create that beat, and what is given off to keep that beat at a constant rate to be there. So in the new space T coming up in China we are not looking for to create fuels, we search to understand the heartbeat, and what that heartbeat brings and what it gives that it becomes planet Mars, it becomes STM or the physicality of man in the soul of his creation. The knowledge of the U is very simple, it's man not understanding it has made it so complicated, and then has put values on different measures of the strength. The gold, the love, the food, and most of all teh Creator. And how we have become to compartment it. this compartment is for this, and that one for that ...

I made man in the image of Myself. In a way, you can appear in any shape of form, but at the end you are only conditioned to the manifestation, position of the environmental field strength, and nothing else, (1:38). even the Creator Himself. .. is the Creator another general in the army of generals of the creation, and even these and their interaction does it lead to confirmation of the true essence of creator. Are we in totality

of all the universes and Unicose we see, a cell on the skin of the toe of the Creator, or are we sitting in the center of the soul of the Creator as a field strength, center and dominion?

As I have hidden so many T in a simple way that mankind can move into, we'll develop T that mankind can gradually over time understand this process. And the same this process. Ask your self a simple question, I have put this before to scientists. Does it mean that the less surface you have the less you can radiate to become the giver. (1:40). And then if that is true then what is the size of the Creator, if the man sees himself generous and he calls himself philanthropists by giving a few pieces of his plastic paper for someone to have a food and he thinks he is very generous. Or is the reality in a simple way, the smaller you become you become so much, that you become such a giver. not to hold on to but to give out to.

K- Can I put it the Chinese way, Which day was the contract signed..
was it the Birthday of Buddha.

(1:58).

Feng Shui

(2:00). I have a question. because you say you create Mitra, because Mitra is love of God, Mitra create the world

K- There is one word you have to change, the rest could mean, what you said. Is not the humanity, it's the Unicose ..

(2:02).

(2:04).

K- Would you like to tell us about your new company the future of it?

Q:

(2:06).

(2:08).

K- .. we didn't know where ?? was. the center of where pottery started .. they chose this place.

(2:10).

(2:12).

(2:16). for the first space center ..

Any other question.

Q: Salomeea... (2:18). ... what is the link between energy and light, but not in the way ? (2:20).

K- In the new PI T we explain energy in a simple way, as M fields in motion, and if you understand this and the totality of the creation. As the fields of the Creator moves in the span of U .. its interaction and motion it releases energies and fields. That in certain environments leads to creation of matter or other lives across the U. In a way, we are created from the motion of the light of the Creator and this is the essence of the creation. If you explain energy as a fields in motion, then that energy, it's our body, we are an energy pack, we move. So In a way, the motions of the fields of the Creator, leading and being the essence of creation of energy, we are part of it. So we manifest according to the time position and place, in different shape or form, in different creatures we create. Any other question. (2:22).

Famous People Using KF Products

Q: Is there any product in KF used by famous people, so we can be sure that the products are working?

K- Next question please. We don't have monkey's and we don't have people to prove anything. If you listened over the years, we sometimes. when people used our T, we have referred to it, be it masters, kings or what we call the Papa in Vatican. We still think he is still using it, because he is still walking. ??? So the famous people who are using it, one day will come out, but they couldn't say.

R: they'll come out when it's popular. .. millions of people not well known are using it around the planet ..

K- They are more important than the kings and people of the world. If they are in pain and you help them, they are the king of their own lives.

... I tried to for years make a link with one of these .. world famous people, and coincidentally, ... (2:24). I received a private invitation. I thought, and I told Rick, now they start noticing. This is the step we take. Most probably under different names and covers they already ordered the Pen and they have seen the benefit of it, but there are different ... we enter not to bring names,

One thing we have seen especially now is many people are coming to the KF, people we didn't know before, I have come across a few in past few days, weeks, is that they have seen problems with the new series of injections and they have come to the KF for a solution. The solution sits in understanding the transfer of the energy form the body .. What you call the side effects, .. other things of it. Is that we do not know, each organization of it uses a different chemical, each nation has taken a different approach but at the end of it, we know the component, the body of the man. If we can facilitate that the energy fo the body .. stays in balance, it does not matter what they give you. If you are in the space, (2:26). here they give us an injection with 40 - 50 different mixture of materials. In space we are dealing with billions of it. Maybe it's a good .. to learn how to handle .. new things in our body, when we'll travel the space we'll come across these things and we have to handle it. How do you handle massive injection, small amount of foreign objects into your body that some of it might be good and some bad, how your body will interact with it that it stays in balance with itself.

If Plasma Covid Solution why not used by any country

Q: Why is the Covid solution not used by any country if it is working?

K- Would you like me to pay billions to the world leaders to use it. At the moment in the bank account .. application. Who pays what. We taught the knowledge to the people that they put the money in their own bank, to save their lives. But some of the leaders decided to go a different way. We are expecting certification for two application in next few days, weeks maybe from governments. You have to realize it is not our say so, they have to test it. Now we are in a test phase in two aspects, maybe 3. (2:28). But we have been told the whole thing is in motion

Rohanni Blocked Plasma T in Iran

We delivered the T into Iran in 2020 and we saw a lot of success with it. And then we saw the man who said, he is the top man appointed by the minister, the Defense University of Iran, going to the health ministry meeting when it was getting approved, for the KF, all the data. He lied from instruction from the .. we can say from the present President of Iran, to disrupt that this T doesn't get approved in a full committee fo the Iran ministry. of the health committee and university in Iran because they are responsible for it. This man deliberately went on instruction from the Iran President Rohanni, to make sure that the ethics committee in the last 10 minutes will not approve. We had the approval, we have all the documents we can prove it. And then to disrupt with a 62 page accusation and all sorts of slanders about me and the KF, to Iran national securities. It took over 3 months for Iran national security to go through these 60 pages of accusations. Being an agent of Israel, being this and that. ... and then after 3 - 4 months all as allegations, deliberately setup by the President . We are not talking, there is a 62 page report, (2:30). written by these people against me and against KF, all your it took them 3 months the president is lying to the nation, because his bank account is full. You have to remember the brother of the president is in prison for the things he has done for his brother. The situation is black and white. ?? in the Vatican .. We got 30 more days of this corrupted structure in Iran to be able to ?? When we did so much in Iran National D University proved the T is correct ..

We found out in the past few weeks this guy is a retired man who was there putting their delivery, working in National D University and he went and he lied and he changed the course. Now we are re-tracking everything to bring it back in. Otherwise it would have been approved last years, as a solution for corona. Now the Iranian officials, (2:32). have taken a different approach. It will come as an environmental, then as an environmental, we are happy, because when we change the environment they allow us to spray the cities and .. we change, there is no Corona to go to the body, we don't need to use injections. Because they have been tested in Mexico, in Brazil, 0 death and no Corona. Now with this new certification we start spraying the cities ...

New factories

(2:36).

The famous people only go where they can show the people they are famous. In this establishment we are all famous because we ?? develop the new T for the next step. And we are there.

China stood behind Iran - Betrayed by Rohanni

You have to understand the political situation between China and Iran. China stood behind Iran, (2:38). to bring the "5 plus 1" home. To mean the establishment of the 5 plus 1, to the ethos the position. China did a lot fo work in teh background to pressurize the 5 plus 1. ...

But when P Rohanni came into power he turned his back on Chinese and this brought a huge shame on to Iran and what happened to Iran after that .. People are not aware of it.

The behavior of Rohnani is shameful ..

They stood behind Iran to release the sanctions, and Rohanni sold out to the Americans to have the passport, under his turban there is an American passport as we say, that it brought a lot of harm to Iran. Now that he is going it will bring a lot of changes to Iran. ...

Next question.

New Pain Pen - Secret liquid

Q: Can you explain more about the new Enhanced Pain Pens, can you explain more about them?

K- Yes, they are blue.. (2:42).

R; I think you were asked this before but preferred not to answer it.

K- We can't answer it (R: secret science). you remember for nearly 10 years everybody was asking about the Keshe liquid in the Coke Cola bottle. This is the same.

R:

K-

The thing is now, if for example the AEU, you should receive a loose piece, we ask you to position this loose item on opposite wall. this creates dynamic ..

In Negative Oxygen, over 10,000 is something beneficial ..
buy 2 units facing each other. (2:44).

I don't like to go over 20,000 because it's a shock absorber position, and we tested it. It's not a secret we have developed T on the back fo these T

WL- people were smoking in that room .. cleared the air ..
didn't feel cold .

K-
(2:46).

(2:48). So the Pen material isn't secret, it's just development of technologies that we could show. We try to make it better each time.

Interaction of Fields No Preplan - Man Created Accidentally

Q: ... in mortality is ?? as in mutuality, is in mutuality, ..
please tell me what is immutable in the Divine plan since before creation?

K- Now can you ask him to explain what he means? ... You see **interaction of the fields does not have any pre-plan. Creator never planned to create mankind. Mankind is created out of interaction of accidental interaction of the fields.** The same, you can see the example of it. You put an egg and millions of sperms and one accidentally manages to penetrate, and that accidentally to creation of a new life. What the color of the eyes going to be, what the shape of the lips going to be, hair going to be.
(2:50). The coincidence of the interaction of the fields between those two when they came together. There is something very interesting. ..

Children of the Soul will have features of Creator

The children of the soul will have the feature of the Creator. in essence of that physical D but in the presence of the soul. Because they don't take the D of the physicality, but they take the D of the best fields of the U. What is to be collected. So you are not connected only to the fields of the man in the DNA, but you are connected to the field of the U because the soul is made that way. I said that very recently and I emphasize on it, because those who don't understand, will come to understand even by the position of the souls.

Somebody asked me, it's just that you don't explain completely. Adultery become impossible, because the fields you have chosen to create that soul have already positioned themselves to the satisfaction of the soul of both parents. That the life of that child becomes so important and so sacrosanct that no man or woman will make a mistake to endanger that position, because the soul will not allow it. The children of the STC, is not just the STM , they never make mistakes. (2:52). Even in the D of physicality it might look like mistake, but when the soul accepts to create that soul of the child, it means everything to do with its existence, is already been structure, it's that

magnet which has been put in and everything has taken shape and position that it can lead to creation.

In so many ways, the D of the physicality
Man will not make love the way you do.

(2:54).

Every Plasma linked to Source Plasma -

Q: .. (2;58). Is each M ray emitting from one Plasma of a different strength, ... why I am asking, the entire U can be reached from one small plasma, and does this mean it is within itself a combination of everything?

K- More or less yes, because it is connected to a source which has all of it. And itself in that spectrum, ?? by the position is always in balance with the source. It just depends what strength of the gravity, and what strength fo the M field it has in respect to the source, but in total the balance is always the same.

Translation of the Secrets in Books - Soul still understands

Q: ... you hid certain secrets in the books. How has this been kept in translation in other languages?

K- I always said, you have to understand what I said, what I am saying. First of all English is not my first language. And Secondly if you really want to understand the true essence of what I wrote, read edition book #1. Book edition number 2 is adjusted for, (3:00). English people to understand ?? ?? The pure original is edition one in all 3 books, before being touched by the editors. But always said, even it's translated the wrong way, and even it is written in the wrong way in the English language, because it's not my mother language, even I lived in England for so many years. The knowledge you receive and what you gather from it, and what you use it, is that knowledge which is put for the soul of you to be able to understand it. As I said, even if you were told somehow to make the Nano coating the wrong way, the ??? through that you achieve what you want. There is never a wrong thing in the world of the creation. It's just what you expect from it and what you want to achieve. And even you achieve it, you don't see it, you say it is wrong way, you got the right idea. the soul has reached its maturity of understanding that point. SO it doesn't matter, if it is translated into Spanish and it ends up instead of saying right, it says left, because in Spanish, left right is left, or the right, but when you read it your soul understands the knowledge, It's a knowledge of the creation not a book written as .. a transfer of .. some words.

Any other question . (3:02).

Q: Mehraneth,

(3:04). The question I have .. wherever we are in each position we can get in touch with that place we want to be or to contact, and .. did you mean by our emotional force fields, or soul fields, both of them ... small difference. how can I contact another planet, my father, ... is it by my emotion or by my soul?

K- Now you are an old hand in the KF, how does the emotion, how is the emotion created? Emotions are created from the interaction of the fields of the STM with the STP. So you answered yourself. (3:06). It's very interesting some times now, and some 30 to 40 years ago, when we were walking the street we used to see people who were talking to themselves. .. they used to laugh, shoot somehow, and we used to call them crazy, they are talking to themselves. But .. with this new T of mobile phones you all become crazy. You all have this hidden earphones in your pocket in your ear, and you answer and say ... you laugh to yourself, they say the guy is crazy, he is talking to himself, and then you look oh. It's become normal for all of us to be crazy. Because now we carry the soul of the phone in our ears.

(3:08).

(3:10).

Q: .. there is a gap between detachment and the fear going on afterwards ?

K- Why do you have a fear with detachment?

Q: Because they think they have to give it all away like Jesus said.

(3:12). Q: .. another question... the earth which is suffering on the surface, earth is a plasma .. if the people on the surface have bad emotions ... the Earth's emotions have to be effected by that .. sun or moon... would the emotion of the earth erupt with the dissatisfaction of and hunger of, (3:14). of its emotion ... that's when we say catastrophe or Judgment Day, whatever.

K- Maybe I can answer you in a different way. We don't see earth moving and jumping .. and changing direction, going slower or faster. Doesn't matter you had the WWII and millions of people were dying, or we had the peaceful time of the ?? depression .. The collective average sense of the emotion of life on this planet is always in balance.
