ENGLISH TRANSCRIPTION

(:06). K- ... in a progressive way reaching to a higher level understanding about our own creation and the Creator. In the past weeks we have concentrated on the process of the work of the Soul of the Man (STM), understanding the functionality of it, how we use it in interaction with the Soul of the Physicality (STP) of the man and how ?? reacts ?? of the 2 souls.

Communicating through the Soul - not with language

In the last weeks teaching we tried to open the door in how our soul interacts with the soul of others. How would we interact with those who are beyond what we call the physical dimension (D) of the, what I call the structure of the humanity. We have known these things for a long time. some people call **them horse whispers, they can communicate with horses, with animals understanding their feeling and emotion. No need for language an communicates with through the soul**, (:08). the soul of the animal, or others. Because at that level there is no language. **We translate the emotion of the soul to the emotion of the physicality, understanding and comprehension of the man, to the level of his own what we call D of physicality.**

What has become part of the whole teaching, is in fact, what's the next step for humanity. **If we can feel, .. dictate, if we can bring the condition where we can feel the other soul, and our STP in interaction with the physical D of the brain ... we convert it to the language which we understand. We all have the same dream**, the Chinese feels and understands it in Chinese, Englishman ?? to the same thing, and so does an Iranian in Farsi. What does this mean? It means the brain .. is just a translation system. We translated words by using new systems. Our brain has been translating every work of the U in the D of understanding of the man, and man understood it in his own language.

Mankind has One Common Denominator in Emotion

When we look at the moon we think, what a beautiful moon, if you are English in the English language. The same Chinaman standing next to us and looking at the moon and he thinks exactly the same, he understands it in English and in Chinese and at the same time he only decides to accept the Chinese version, because his brain is set for the translation of understanding of the emotion of it. What does this mean? **This means mankind has one common denominator in emotion. (:10). We all understand the same thing, and when it comes to the mother language which we chose, to translate it to the emotion.**

But what happens when you are born in one corner of the planet, or another position in the U, and then you take place and you take position in another D in the U, the same things, the thoughts, the way you translate the language, is it the language that you chose in the D to be. We live in England, but born in Iran, but we still nowadays dream in the English language. The Farsi is far removed from the language of understanding.

So it means the brain .. has the capability to translate within itself the languages. It has the capability to interact in that language between the STM and the STP ..

We'll Understand every Language in Universe

This is what in the coming time mankind will come to understand as the brain of the man in the D of U will have no physicality, **we will understand the language of every being in the U, as our brain simultaneously will translate from that emotion to the source, from the interaction of the fields of the U.**

Little Children Understand each other without language

This is part of the teaching of today, how do we interact with each other. .. **how do the children in the womb of the mother interact with each other.** How Chinese, little child, and a Englishman little child, and an Iranian little child, being only **a few days old and understand each other fully without knowing which language** they have to know or think about. (:12). This is the reality that **man in the coming time sitting next to a man from another D in the U has to be. How do we understand him.** How do we decide to understand the totality of the knowledge of the U.

In so many ways, **if a baby, an infant can say to another infant, this is my arm here, do you like it? Would the same thing apply in the D of U.** Where the physicality of the beings in that D have no hand, what does it mean? Does it mean that it is a tool that I can move things with. You call it a hand because you ?? haven't been here. I do it with thoughts, or with 10 arms. But I don't need to show it with physicality, I just need to transfer the knowledge of the motion of the material and the tool which makes it to move which is my arm.

Moving Objects by emotional attraction

In so many ways, do we need even to have the physicality of the arm to move? If man can understand he can **create D of the attraction in the physical D that the weaker by feeding the stronger, or by the stronger becoming more attractive, to attract an object.**

Make yourself humbler than cup to attract it

In so many ways, **in the past many of the human race have learned this,** but we never understood. Many of us have this capability once we break through this barrier, that in a way you put a cup in front of you, and what do you do? **You make yourself humbler than a cup, in feeding you, it connects to you, and then you increase the gravity that I can give you so much more, that it attracts to get more to you. What we call G, or what we call repulsion, or M field. M fields are the connection, (:14). between the 2 D of understanding of interaction of the souls.**

Travel to Moon - Tune to Strength - Fall in love

And when it comes to the space T we do the same in traveling in different D of the U. When you want to go to the moon, you **tune to the strength of the G fields of the moon, and the heartbeat of the moon. Fall in love with me, you come to me.**

Create the Dimension of Attraction

In so many ways, mankind has to learn a new D, a new understanding, a new way to be able to communicate and be able to bring a new D, in totality of understanding of the knowledge of the U. I taught this in Barletta, and I remember a couple of my students sitting in the front line, a couple from Spain, when I was trying to teach it. I thought it is too early they do not understand. **I could see the guy pushing his face, wanting to move the cup in front of him on the table, and he was doing everything. And I said, you don't need to do anything, you just got to fall in love with, or to create the D of attraction, that it gets attracted to you.**

Do Not Force your will - It's the souls which bring together

It was hard for the students at that time to understand some 6 years ago, that **you do not ever try to force your will, you attract through the D of the field forces** in understanding the totality, in **understanding the consequences, and what will be the outcome in totality which counts**, not in how and the way you try to bring it into the D of physicality. **It's the souls which brings the matters in dimensions of existence together.**

We can Listen to every corner of Universe

In so many ways, we have to realize, (:16). us in the body of the man, has the capabilities which has never considered to be possible, but it **is us who have denied us, to use these capabilities**. We do not need the headphones and ?? **we can listen to every corner of this U if we know how to tap to it.**

Hearing the Inhabitants of a Star

If you see a light as a star, if you are tuned to it, you can hear the voice of inhabitants of that planet in your ear, in the soul of your ear, not in the physical ear of the man, Then the STP in conjunction with the physicality of the brain of the man will translate it into your language, what one guy is saying to the other. We wait and we build the most advanced technology telescopes to see what might be in the far distance of the U, where **our soul has already has a connection**. We have a full vision of it, but **we have denied ourselves the access** to it.

One Millionth of Intellect of U of Brain Used

In so many ways, the **brain of the man is used less than 1 millionth of its capability of the intellect of the U**. We use our brain totally for **physical understanding of the physical world** of the man, but the main part of our brain, which has the soul of the same thing is denied to show itself.

Access to All the Soul Strength of Joys in the Universe

You got to remember one word, one sentence which I always say, "even a stone has a soul." So **if one cell of your brain has a soul strength of the emotion of the joy, then he has access to all the joys in the U**, not only to the man, and your physical D.

Man's Soul already member of Universal Community - from inception

In so many ways, it is us who has denied the truth about the life of the man to himself, that he is a member of the U Community. As I said last time, you were waiting for us to take us to the UC in the D of physicality, but you never realized that **your soul has been member of the UC from the time of inception, from the time of the creation, from the time where everything was created within the STM**, is carried, the knowledge of the U.

The STP has denied access - Allow every cell of Brain to Open

Within the STM the knowledge has the connection to the physicality of the man, but the **STP has denied man the access to this. How do we raise the STP to allow the physical dimensions of the soul of every particle, every cell of the brain of the man to open up**, to give it access to knowledge of totality.

The STP has Captured the STM - but is himself a prisoner

In so many ways, **when one captures the other, the other becomes prisoner of its own capture**. In a way, when you have a prison officer looking after a prisoner he is in prison himself, that he spends all his time to make sure the prisoner stays a prisoner. **This is what has happened to the STM, to the STP of the man, and to the D of the physical man.**

Both STP and STM Coexist in total tranquility

It's **time to release the prisoner** and what I call the prison officer, that each can live in the freedom of the life. **No one shall be a prisoner of the other, but coexists to make sure that it lives in total tranquility**, that no one ever imprisons another.

STM sits within Every Cell of the Man - Capable to Translate every Emotion

This is the problem with the whole structure of the understanding of the life of the man on this planet. (:20). We always look at the D of physicality, **we never considered that the STM itself sits within every cell of the man, which has the capability to translate every emotion of the U**, not only the emotion of the man. Mankind in time will come to understand. How much and how far and for how long, **he has denied himself the truth about his own existence, his own capability to become rich** as he is totally and utterly rich **with the true knowledge of the U**.

Our Souls are already professors in every subject of the Universe

We look for universities and schools, to graduate in a minor, meager subject, where **our soul, the STP of the man, and the soul of every cell of the brain .. is already professor in every subject in the matter, in the U**. In so many ways, we have ?? target through the progressive what I call greed of physicality, to deny more and more, the D of interaction of the work of the STM.

In so many ways, how did you do that? **How can we open the access to the soul of every cell of our brain**, and through it we can have access to every emotion, every information in the U.

We Leapfrogged Man across the UFO making stage to knowledge of creation

In so many ways, we have done a frog leap. **We leapfrogged right across the whole D to go through the physicality in making UFOs, and then letting man like other creatures of the U spend billions of years in the U traveling in little boxes** and hoping to get there, and then go through a lot of accidents, (:22). and incidents **that one day we'll get to understand the truth about the creation.**

Man in UFO still a prisoner - Denies himself the truth about creation

Where not only the man, but most of the U Community have denied themselves the truth about their own existence. The man who comes out of that UFO, is as much a **prisoner of his own prison**, as the man who is hoping to be in that UFO, because now your knowledge has reached that point, but there is no knowledge for the man beyond the UFO, beyond flight, beyond understanding of the physical D of the ?? movement.

So when you look at the UFO and you think they are so advanced compared to the knowledge of the man, you have to understand they themselves are still entrapped in the body of that prison, the prisoner, and the prison guard, but in a different D.

Goal is to Bring all races to understand Soul of the Creator

In reality, **the whole teaching is to bring even the soul of that man in the UFO to the level of the soul of understanding of the man himself on this planet, and then all together to understand the operation of the soul of the Creator.**

In so many ways, mankind has reached the point of maturity. You can track it down in the D of physicality and hope you see something nice, and travel the span of the U and Unicose. **Not all these UFOs you see are the stars.**

US to release Pictures of UFO

And as we are told the United States is going to release the ?? 3 new pictures about the UFOs at the end of this month and in the coming time. But even if you have it, you are still dealing with another object. You are still dealing with another D of prisoner within the prison cell of what I call physicality.

UFO Development is Not very High - man remains the same just faster

Mankind will by flying the span of the U, (:24). has not reached much, will not reach much. Do we change when we travel with a donkey from London to Paris, or we take a flight from London to Paris, and at the end of it, it's the same entity. It will be that same, we just add another fast object to our traveling the span of U, but we never understand the true flight of what we call, fancy, which is travel in the D of the ways and the rules of the Creator.

Join those who have already passed UFOs

This is why **we taught you to jump, one further step**, that not only you join those who understand the work of the UFOs, but you **join those who have already passed that position, and they have gone to more direct way to fly** the span of the U, to feel every essence of the creation and the joy of creation and the sorrow of the losses of the accidents.

Your Choice - But our problem - to teach you

In so many ways, **the choice is yours**. But how do you do this, and how do you develop it in the structure of the physicality of the man. **It's not your problem, it's our problem to show you how to open to these dimensions.**

As I said, the totality of the teaching, **the pinnacle of the final phases of this will come when we reach Tehran**. In that process we will teach you the totality. The reason for it, the key to world peace for humanity is the agreement we will reach in Tehran with other nations at totality. We bring the banner of peace through knowledge and exchange for the technology of the U, and not just the UFO. Maybe you thought that would be the only option, but in fact the option is one, for us to understand the work of our own physicality (:26). in the D of the souls.

Up to now we always understood the D of physicality, we ignored the souls. Now as we have said, we create the STM first, and then its physicality. Now it's time for the physicality to be encapsulated by the beauty of the knowledge of the U, that every cell of the man connects to its appropriate line of interaction with every cell of the U.

In a way, when you see the fields from a star, part of that field carries the strength of the joy of that star. Is it in pain, is its inhabitants correct that, In a way, a star has its own life, and protects and provides fairly and correctly when it's in trouble. In a way, every ray of light carries every emotion of that star. It's for us to understand, to decipher and within the cell of the brain of the man, and within the cell of the structure of the physicality .. when we take amino acid (AA) away and we look at the brain .. as collection of Gans's in the field energy of the soul, then you understand man has already been knowledgeable to this. We ignored it.

In a way, when we taught about the Gans's, and then we explained that the structure of every soul sits within the structure of the physicality of the cell of the man. Now you understand how easy mankind has denied itself the beauty of the Creator.

We always looked into the ?? of understanding, and the conversion of the fields of physicality. I touch, it is warm, (:28). it goes to my brain, it says it can burn. Physicality emotion of the heat. But now with creating the soul of the child within the womb of the mother, we allow the reverse, where the soul of the child interacts with the soul of every cell and with it, the soul of the child interacts with the whole soul of the U, then the D of physicality decides its own D. Do I need to have 10 arms, do I need 2 legs, Do I need the eyesight where in this D the strength I carry, I see everything through.

In a way, mankind has every tool of existence within his grasp. Always been there, now he knows the way to do. The totality of the process of the conversion of the STM. The

energies of the STM sits within the acceptance of the truth, by the man himself about the existence of life in the U, and nothing else. You do not need degrees in theology, and .. in nuclear physics to understand this - the theology of life. Life is understanding the structure of life in the essence, the true essence fo the field transfers and the M field transformation and transmutation, and its strength at every point. You got to realize you might not feel cold on this side of the wall, but on the other side .. could be snow and freezing, how do you keep yourself inside, or you decide to be outside and the wall is just the fantasy, imagination fo the man in understanding that the both air, on both sides is the same. It's the man who decides in which temperature he likes to enjoy the living, (:30). and the life.

In so many ways, mankind to the D of his AA has already become, he was born into the D of U Community, but he looks at the physicality of the brain, he never looks at the soul of the brain, every cell of. Go back again, every atom has a soul, .. proton , .. electron has a soul, and if that is the case of it, according to its existence of it, to be there to exist in the D of physicality, the Gans that you produce has a soul within it, and that soul is connected to the totality of the fields of the U. In a way, for the first time when you see a single Gans, it's one single brain of your body that is connected to totality of the fields of the U. How come you can see and accept that, but you cannot accept or understand the work of a single cell within the brain of the man. In so many ways, one is green Gans, and one is blue Gans, one is laughter, and one is joy, another one is red, it's a danger to the understanding of the man. In so many ways, our field transfer interaction in the D of the Gans's in past years has been a visualization of the field strength of the emotion of the Universe.

In the world of what we call matter physics we say the entity absorbs every light, strength, frequency, or whatever, and what it does not accept, it reflects and it will be orange or blue. So is the same with the Gans transformation, (:32). what you see as a Gans of blue is that level of the joy within the cell of the brain of the man. This is the reality about what we have to understand from now on, that in totality we do not look at the physicality. Now you understand why for past year I have been pushing you to understand the interaction of the fields, now look at the structure of your brain, as individual souls collectively connected to every D in the U. Do you need a PhD or do you need a jumbo jet to be able to understand it, and to be able to travel within it, understanding that you don't need to travel, as it is instantaneous, and totality, it sits within the structure of the physicality of the man. We have denied the knowledge of the creation within us, and this has cost the man millions of years. But you have to understand, other races in the U who reached to this level of understanding, they don't have universities, nuclear bombs, or jumbo jets, or donkeys. They understood through observation of the work of the U. That's what I said, many times before, a farmer on the top of Himalaya understands more about the creation by looking into the stars and U, than a professor in the space universities, and NASA, and Iranian space agency, or the rest, because he understands the true knowledge of the creation not what has been written on a few pieces of paper, (:34). that he has entrapped himself in a few words of PhD and stupidity.

In so many ways, we have decided to become more and more narrow-minded in the D of physicality, than those who did not understand more in the D of creation. Maybe one day .. mankind becomes mature to understand this and from that point on, mankind will take the flight of fancy, and fly across the U. And then when I tell that I have been to

such and such a position, and I have seen ... , then you can give it the exact position and address by the emotion of the field strength. You want to go and see the beauties of the temple of Mitra in Iran, with the emotion, with the D it will carry your souls to the same position. You do not need to take a flight of fancy, .. into planes, and donkeys and cars to get there. With the emotion, with the strength of it, they will manifest themselves, enjoy the scenery and they come back with, "did you see that one there .. you missed it." They don't need weeks to take a flight. But they are there instantaneously, or both of you can be present with each other in both dimensions. These are not the dreams. These are ways that we are trying to teach you to mature about the truth about the world of creation.

This is why we brought in the new gift to mankind, to create the soul of the child within the womb of the mother first, that from the beginning every single cell of the soul of the brain of the man, (:36). is connected, operated, and understands the knowledge of the U. Not to be born to go to school and to be taught the knowledge of physicality of the man.

In so many ways, mankind has entered a new era. In so many ways, by the birth of Mitra we have brought the knowledge of creation through the light, through understanding that the STM in D of travel to every corner of the U, will travel with the D of the light according to his time, the position, and the speed, and the strength.

In so many ways, mankind will come to understand, that he always has been in the possession and the position to understand this and he has called it a dream. Now we don't dream anymore, we understand how the dreams are created, .. the truth about the D of the dream, that in fact, it's the reality in the D of the interaction of the fields of the STM, which it somehow gets trapped in the D of physicality of the amino acid (AA) of the man and the soul of the AA translates it to the D of reality and emotion to the D of the physicality of the man.

My knowledge is born at the time of inception. My knowledge is not given to me through the universities and degrees over the physical D of years and narrow-mindedness to understand less, but claim more. As I said many times, the greed of the man, and the ignorance of the man has become like a French dish, as you go to the French restaurants, the smaller plate, (:38). smaller food becomes more expensive to pay, but has no value and does not fulfill the man.

In so many ways, mankind has trapped himself, this narrowness of single minded understanding of the physicality, then opening the STM in the totality of the knowledge of the U. For this reason, we have created, for the first time, the STM first to lead to the creation of the physicality of the man, this is how Mitra appeared to mankind in the first time, but in the D of physical interaction the mankind, what was created out of the beauty of its life, got entangled in the D of physicality, he got entangled in understanding the totality of the creation, .. and entrapped himself within the prison of earth, with the prisoner to be the earth itself ?? trapped its own prison. No one has ever trapped man to this D, except man himself, with the D of the greed of physicality.

In so many ways, we come to understand the emotion of the man, and the dream of the man, are the graduates of the work of the U, but mankind has translated it like to the language of English or Chinese or Farsi to the D of physicality of his AA. This is why

we are connected to every other creature on this planet, because you are all made of the same, the same AA in different strength, but arranged in different ways, that one become a man, one become a plant, a fish, and one become the star.

In so many ways, (:40). in the coming time we teach you to understand the difference between the Inertia of the D of physical motion, and the D of physical static, or what we call static motion. When the soul decides to live in a static condition, you call it a stone, when you bring that stone, and you give it the soul of the AA, that stone will walk, .. talk , .. cry, and this is why sometimes, they say, "when a stone cries." Because within that stone exists the impression and the soul of the AA of this planet. One day I show man that I put every stone on the table, and I make every single one of them cry.

Because you remember what you did with the orange and the water. You created the D of the Gans, and then you created the taste and the flavor of that essence of that food, in the water. A stone has a soul, and with the transformation of the pain of the physicality of the man, which the stone become the Cup, the stone shall cry. Now you understand everything is not magic, but understanding of it is the truth about the world of existence. In time mankind will come to understand that your manifestation of life on every position and D in the U is position, strength, field, emotion dependent. Then you understand not only the soul (stone) has a soul, but the soul has a connection to the emotion of the U. (:42).

Now you understand the knowledge, .. the truth about the creation. Then it comes to one point, how would you like to manifest yourself in another D as a man who is a killer, who is a murderer, and he destroys everything through the D of his physicality. It's time for mankind to walk away from animosity and killing, and it's time for man to understand the transformation and transportation through the strength of the STP of the AA of the man. It's been, it's trapped on this planet.

This is why the UC has created such a protection against human race to stop this transformation of the fields at the strength of the animosity and killing. That has been the pitfall, that has been the downfall for man to be able to enter into the D of the UC to understand the language, the emotion, and the essence of creation.

As I said, world peace is the cornerstone of opening of the U to man. We don't open and bring UFOs for you, in finding peace and understanding that the killing has to stop, within the STM physical D and the physicality of the man, you open the U to yourself. In so many ways, mankind needs to be kind to himself first before he meets another kind of man in the U.

In so many ways, humanity has to understand and ?? within the structure of its physicality, the STP, the D of the Soul of Universe for it to be able to join the UC. In a way, as I said many times before, (:44). this planet is part of the U, it has never been out of it, man kept himself out of it, and was hoping to join in it.

In so many ways, mankind reaches to the power of understanding to the totality of the human race. I am with Mitra, I am the love of Mitra. It is untouchable.

In so many ways, mankind lives within the soul of Existence. Mankind lives with his own dilemma of transmutation between the two. As I said before, is it transmutation of

the elements, is the point of the maturity of the man. And I said, transmutation between the energies, the fields, the M fields in motion is the maturity, the point of the total maturity of the man, where man can transmute between the STM and the STP .. and the soul of the cell of the brain of the man, where the D of the physicality of the STM in the AA will become nothing but the packages of the energies which can be used, and is the energy source for transmutation between the all 3 dimensions of the STP, the STM, and the soul of the what we call the emotion of every cell of the brain of the man.

Then the question come, does the man in understanding this, does he need the physical entity of the arm, a leg, or a heart. Then this comes to one point has your soul in created by interaction of physicality has decided to keep the body .. in the physical prison of the earth. (:46). When it reaches the point of maturity of the strength, it takes the flight into another D and it becomes the soul of another star. In a way, the STM has used the D of the physicality, and the soul of .. emotion of the man to feed itself in the background to the point of maturity. That when it matures to that point we call it the point of death. the end of physical D as the STM has no more need for the essence of the fields to bring it to that point to become that star. To become that shining light, to become the seed of a star in another D in the U.

Understanding the theology is understanding the truth about the created and the Creator but in the D of the STM, not with the books of the man, which have been falsely claimed to be the theology of the U, of understanding of the creation and the Creator.

In so many ways, man has opened himself, by himself to the abuse of his emotional soul. In so many ways, mankind in the coming time will understand, how he has chosen to be a prisoner on this planet, by himself. Not only a prisoner on this planet, but is imprisoned in the body of the physicality .. Where in the process of understanding the world of creation, mankind has become to be mature to understand the totality about his own creation.

The point of birth is not the point, (:48). you manifest yourself from the womb of the mother. The point of birth is the time when the STM is created first in the womb of the mother. Smaller environment for it to mature, that when it comes out it has a decision to make, to which D to live. In the physical D or in the D of the soul of totality, where the brain and the cell of the brain of the child in the womb of the mother, is the line of communication to every emotion of the U.

Mankind waits for the physical manifestation of the birth, but the birth of the STM is completed within the womb of the mother. And this once understood will give a different D to giving birth to a child in a D of physicality, of not only this planet, but every corner of the U. You can get pregnant on earth and give birth to the child, you have the D and physicality of another dominion and D in the U.

In a way, you can be born in England if you are from English mother and father, but you can be conceived as a STM in England, from English mother and father, but when you are born in China you look like a Chinaman. This is the beauty of the creation that you fit into the society according to the balance of the soul. Then there will be no racism, .. D of the animosity to the color, to the race, or to the language.

In a way, when you move out of China and you come to England you will look white, but the soul is the same. (:50). The soul of understanding is the same, then there is no word called foreigner. There are no aliens amongst us, because we are part of the totality and we cannot alienate ourselves from the totality, unless we decide.

Unless we decide to look as an Englishman within the Chinese society. And then we have to ask why? Are we looking for attention, or are we looking for to call ourselves different, then that is a totally different point of view, this is a totally different structure of understanding of the operation and need of the STM.

Don't forget a woman who is so beautiful is the one who is in more need of attention and emotion. Because by beauty attracts more attention, takes energy from the others. So is the same with the child who is born in any convention different than us, whatever you may call it. Because that soul needs that attention, that direct one to one attention.

Where a beautiful woman is the direction of the D of the totality of the emotion of the public. In so many ways, we have to ask ourselves why and the reason we are created. In which shape or form we are created and what has been the need and the demand by our soul, that he has lead to the physical manifestation of us in that color, race and in that shape of the eye, in that height and the rest. Otherwise all the souls are the same. They don't have a different height and eye color, and legs and arms.

In so many ways, today's is to understand, (:52). what I call essence of the creation, what you call in the man's language the ethics, the theology of the creation and the created, and how mankind himself has created this trap, for himself to be trapped in the D of physicality .. in the D of the prison of earth, in the D of trying to ignore itself the truth.

It takes only 1 second for you to understand the teaching of today and you'll be mature to travel the span of the U, and still be in the D of physicality of the man. Then the knowledge of the U shall be opened up to you and you do not need any languages, .. any physical D of manifestation, but you only understand the totality of the creation in 1 second.

Then you understand the purpose of the creation not only on this planet, but in the U, and the Unicose, and within the Soul of the Creator, as if you understood what was taught today, you understand that your physical, total physical existence itself is another cell in the D of the emotion of the Creator.

In so many ways, it feels through you the D that you have chosen to manifest or befriend yourself with it. you are part of it and it is part of you. You are the STP in the D of the STM, and He is the Soul of the Creation and the interaction between Him and you leads to the STP .. which manifests itself in the D of physicality of the man. (:54).

I hope and my wish is that at least one of you will understand the gravity of the knowledge and with it we will add this through to the other souls of the humanity that mankind as a totality all matures in one go.

But as I said, mankind has to walk away from the killing and the destruction, be it a tree, .. ant, .. another man, be it the race or whatever. You will not travel outside the

prison physical part of the body, and out of the prison of this planet, unless you understand the truth about the essence of the creation and Creator in the D of the soul of existence and not matter of the physicality of existence.

You have denied yourself the knowledge through the greed of physicality, and that's what I always said, I am detached, because attachment brings that shortness, that shortfall, that short understanding of the totality. Nothing matters, but in totality, if you are detached in the D of physicality, you work through the D of the STM, and then in that D you work through the soul of the cell of the brain.. which carries and confirms the emotion between the STP and the STM. I have made the man in the image of myself.

In fact, mankind cannot be any different than me, and it is mankind who has chosen the path of the D of manifesting itself in the physical D and with it all the abuses that he has used to abuse the others. (:56).

In so many ways, I hope gradually, I'll bring you to understand the strength of your soul. I hope I bring you to the point to understand that you do not need the UFOs, as even them, they are still searching for the soul and knowledge of the creation as you have been for millions of years.

In a way, as I said, when I teach, I teach the word of the man, but through the knowledge of the STM, my knowledge is transferred to every created things in the U. I am the Messenger and that message is one word. Created through the interaction of the fields of the soul of the U and not through the D of physicality of the U.

And one day not only the message will be heard by the man and the STM, but by those in the U who hope to reach the position that mankind is now. They are nothing, in any different position than you, then understanding, trying to understand how to reach the soul of the Creator. We taught the man and the rest of the created things in the U ?? ?? that in that process there shall be no difference amongst the children of the Creator across the U.

In so many ways, mankind has to come to understand, he has been given an opportunity to jump one step, that he becomes equal to those whose was his wish to see in the D of the traveling in the physical D of the U, and then the mankind has another chance to jump even one further, to those who have even, (:58). super passed those who thought building UFOs was the ultimate knowledge of the seeing the U.

In so many ways, you have frog leaped. In so many ways, and through that, we have managed not only to teach the mankind, but many races who are in this gap to come all to be the same, that when you all meet you don't look as how stupid you were, you look and you reach that you are all the same now together, and this brings a new D to the world of the Creator. That mankind will understand the practice of his education in the coming time in the D of field transfers his own energy.

It's taken time, but it's been a pleasurable time to see how the U has developed itself and will develop itself. In so many ways, we wish to understand. We strive to understand the totality of the knowledge of the Creator, but even what we teach today still has more to be taught. Mankind has to understand there are further dimensions even in the travel

and understand of the work of the D of the STM, the soul of the emotion of the man, and the STP of the man.

In so many ways, the soul of emotion is that light. The STP of the man is the creation of matter, and the STM is the origin of the U, origin of the creation. Mankind up to now has worked from outside in, and from now on we have taught you to work from inside out.

Up to now you brought the physicality of the sperm and egg to create physical child, from now on man has the option to create, (1:00). in D of the soul first and within the womb of the mother the physicality will take shape. The children of the man will be peaceful children. The children of man will know nothing about killing any more. The children of the man will learn how to travel the D of the U without UFOs, without flying objects, but through the strength of their soul.

This is a gift for those who understand the process and those who do not understand will still carry on creating children, which will be unfair killing machines, and the process of destruction as we have seen today.

In so many ways, the race of the man will start splitting in two ways, those who mature enough to create the children through the strength of the soul at the point of inception in the womb of the mother, and those who create children in the D of physicality, and then they still have to strive, one day to become mature to the D of the first.

In so many ways, the knowledge of the man, now is in the hand of the man. It's the parents, the creator of the children, which will decide the steps, and then we want to see how many of you will decide to go for the physical D of creation, or to the soul D, that the children of you will become the best in the U. As I said, in the teachings in the introduction (video) (1:02). we said, "man cares about what the child wears and what education he takes."

Now the parents have to decide if they want that education to be the universal education, or the burden of physical life on this planet. Now we understand that the responsibility of the creating the initial soul of the child lies on the parents to create, collect, and bring the best fields of the U, that when the soul at the point of inception created within the womb of the mother is a perfect soul. It's a perfect collection of the fields of the U, that by its interaction it creates that perfect child.

Mankind is Key to Creation of new phase in Universe

And **this is all the essence and the love of Mitra**. One day mankind will understand this. **Within the womb of Mitra's is life, we create the essence of the creation and that is the Creator love as can be about to create a new phase in the life of the U, and mankind is the key to that change. It's the key to the elevation of the Soul of the U**. By, as we said, earth is the nursery of life, nursery of the seeds of that mutual flower which is sown in the U to create new cycle.

In so many ways, mankind will come to understand we are here for a purpose, and that purpose is to allow man to move from D of creation of life in the D of physicality, to D of the soul from the beginning that our work in the U, in running the affairs of

interaction of the fields is perfect from the inception of every star, (1:04). and the condition created will never create stones of anger or killing, or stones of not understanding, which has become part of the habit of the souls, which have left this planet immature, uneducated, attached to the D of physicality. This is why the essence of the creation changes to ?? (increation) increase the soul of the child first, than the physicality of the man first.

Very soon many of you will understand. **We open the doors of heaven to mankind in Tehran. In time that time will come that the man will be enlightened with the knowledge of the U and the whole structure of the creation shall change.**

In so many ways, we open the door of the knowledge through the strength of the STM and not through the D of physicality of man, and some ?? words man has chosen to put under his name. As we said, when we finish there shall be no king but the true king which is the Creator, the rest are servants on His path. No man will wear the frock of kingship or leadership, except understanding the true connection between the true leader of the creation, which is the Creator himself.

In a way, we do not take knowledge from the others, as we do not take orders from the others, but will live in harmony with the strength of the knowledge of the Creator. Many of you will understand this very soon. And many of you are still being in what I call sleep time of humanity because the ignorance is the bet solution for those, (1:06) who try to ignore the reality about their own existence.

I hope that today's teaching I opened a new D in the school of thought in the man, and not in the school of the education of the books of the man. Hence from now on mankind will take into D of the understanding the truth about the soul of himself, about the soul of his emotion , about the soul of his physicality, then in the D of the physicality he will have no ?? as it's only the interaction of the 3 fields together, and interaction of the Inertia of the environment which will lead to the D of the physical condition.

We go for a break, we come back, I hope some of you are mature in that path of understanding, and by putting points across, by questioning the truth will allow the others and the totality of us, to mature one step further in the D and direction .. interaction of the STM, in understanding the position of the man in the U, and where the mankind shall go. Can we go for a break please .

BREAK >>>>

Part 2 video >>>>

Where is the origin of our thoughts, .. our voice.

I said many times I never show things, because otherwise we become like the magician of the past, raising of the dead, moving the seas, and all the fantasies that goes with it.

We make you to understand that you can do, understand why, what was in the sea, but the tide allowed Moses to cross, or in fact, Christ transferred his soul to the STM, that the soul rose and the physicality followed. This way if you understand there is no magician in the U, especially now the man matures to the level of the understanding the work of the Soul of the U.

Go for a step back, try to analyze, if I made a physical system that I can put on my toe, you receive the same field strength from the emotion of the .. brain, my toe will speak, and I can make it ?? AA and physicality. This is the truth about the ?? but man has always moved around with the physicality of it, because it is easier to explain, but the voice box was the only D of the transfer of knowledge and emotion, then how do the deaf and the dumb use their arms and legs and transfer the same information to all of us. I was observing deaf and dumb person sitting an area and communicating perfectly on a mobile phone to somebody else on the other line. All he was saying was, he's in the bar there, he is getting a haircut. I could understand it because I knew why he was there, and I could understand the impression of it, I didn't need a voice box. So what are you going to do on the planet Zeus when you have no ears and no arms and no tongues ... still alive, you still want to communicate with the guy on planet Zeus. So you go to the strength of the soul because that is what he understands, because then you transfer to what he understands, according to what the strength of the joy is the same .. depends which part of the U you want to live.

Any other question

Q: What is that hinders us from developing our emotion ?

K- The ignorance of ourselves, physicality is easier than trying to understand us, because we have become lazy to it, become habitual to it, but once we understand the other side we tell ourselves, "what a stupid thing we have done," why have we ?? put food in the mouth. ?? on the head.

Q: Is it our attachment to the physicality?

K- I think that is the only way.

Q: I do to, But when you want something still from the physical life, how do you, do you just count them as. You go within and say, " It's not worth it?" to keep myself from the D of the soul because I still want something's?

K- It depends. You choose at the point of manifestation, huh. You choose how we do.

R: There are a lot of flavors in the ice cream store. but we don't want to eat them all at once.

K- But we want all of it (laughs)

R: That's a tough question because it goes down to the root of virtually everything that we interact with in our physicality world. As humans we tend to be identified with our ice cream, as a perfect example. The whole process of selecting the perfect ice cream ... maybe you forgot to look inside in that process and were just thinking about physical aspects of it all and missed that you are an actual soul interacting with all these physical things that are going on.

K- Yeah, but you got to understand that we choose. The same as we choose our friends, we choose to be in the D of physicality. We have chosen this way, but . it's comfortable, it's the way we can talk to our mom and dad, and our friends from our childhood. It's very strange how we see life dictated by new life, and how the new life will change us, because we accept the new D. If we accept the new D then life is peaceful because we accepted and we can live with it, it's the way we feel peaceful in a violent family,

because it's the environment and everybody is the same so it's all the same. When you stay in a loving family then everybody loves and it is peaceful. We choose to what strength we want to adjust and want to live with it. I watched this very carefully in the past few months, and it is amazing .. how I see new life, bring changes. No matter how fast you want to go, I am peaceful I am calm, and I want to be in my limit. You cannot change me, unless you want to change to me.

It's a pleasure to see, and in a way you have the time to analyze, sit outside and see within the framework. I choose when I speak, .. whenever, and it is my condition, you cannot change, and I want to be peaceful, and you cannot change me.

One of the most important and what part of today's teaching is about, and Dean brought it up and we can put it in a very direct way, is where does your thoughts come from, that leads to an action? And what is the consequence of that thoughts, why does your brain create such emotions to interaction with the ?? to show such a reaction. When you say a sentence, start a sentence, think of something ... where does that

very much like the light you see in the sky from the interaction between the earth and the sun, the fields,

You've been here for nearly 2 hours ..
but do you know where your soul has been. but where has it been .
(:36).

There are no coincidences in the work of the STM. My wish is my command. Then how the soul interact talk to meet in Pizza hut ..

(:50).

I never come with a script, my soul feels what the soul of the totality of KS needs to know, or whatever, the need of one, to complete, to reach to another level and the teaching goes on those basis. We never preplan unless we know what a question is through the soul. The people who have been around the studios ..

the reference is the work of your soul. Each one carries a different reference book because we can connect to it in one way or another. This is the essence of creation, ..of wanting to be part of the creation and connect ourselves to that part. We decide which club we want to be a member of and where we want to be to see friends. So it is the same with our souls. We decide in what strength and why, the rest is done by .. interaction of the fields.

Any other question.

Q: How is the PI flying car and the PI communication device coming along, are they going to be in eh K store soon?

K- can you repeat ... We will demonstrate these and the T in full in Iran in the coming time. We have been asked by the authorities to delay our trip into Tehran until the new president takes office on the 2nd of August, as if we return to Iran now, the same regime, the same structure. We abide by the wishes of the Iranian leadership, that when we go back we'll see a new structure, and the system will be introduced, the pl system, the flying system, the PI energy. the basis for the PI generator, 100% supply is already ?? KS who work in the field, and we work on those We'll show massive new T within the first few weeks of our return to Tehran, in conjunction with

Q: Jefferson .. about St Peters and Mithraism.
the gap in the history to control us .

K- I don't understand what you are trying to explain.

Q: The gap in history

K- I understand you are trying to explain the gap. There has never been a gap. The reality is we have never looked into it. Let me explain for those who are not aware was discussed in the background. ...

We asked a simple question, why is Vatican built where it is built, and why is it in the middle of the country as a state of its own, and the way it is built. .. what is missing from historical background or in public domain, is that when the soldiers of Rome ?? stretched out and reached to the borders of Persian empire at the time of the Romans, they did not go all the time hand in hand. Sometimes there was conflicts and sometimes they reached a peaceful position, many of the soldiers noticed that in Iran there was no temples with statues, where the Romans had the statues. What we call the Zoroastrians at that time, the Mithraism at that time the powers of Mitra, explained to them that you don't need the statues to go with you, you can carry that ?? of statue within you, which is God. This was very important thing for soldiers because they had to carry with them something to keep their belief. Now they could believe that it is within them without carrying anything. And that was a revolution. But then we had the soldiers of Rome which went to Palestine, and then were involved in the crucifixion of Christ. They came back, they could put a man to it. Now they had a figure. what they did, they brought this into the understanding of the soldiers from the Persian empire, and those who were in Palestine at that time, and they created what we see as a cross, what we see as a sign of Rome. The power of Rome, we can put you on the cross and that's it, we dictate your life. And then they had the public, wanted an understanding of, we want what the Romans from Persians have, and then they built up this structure of the present Christianity we see. Where the Roman was the ultimate power with the cross and putting a man on it. But they all came from different D and directions. The ones from the Persian empire, when they brought these beliefs of God without a temple, they made a group of themselves. These groups were always small groups, and then when they grew to bigger groups they split up to the next one. The Romans who came through the Persian empire side, they made these temples they were what we call, stronger, more prestigious people were part fo these temples, and one of these main temples of Mitra was in the center of Rome. When the Roman empire did not want to split, and because of the belief of the 2 sides coming together, they decided they would build a compromise position, call it the state of Vatican, over the temple of Mitra, which was in the center of Rome. St. Peters Basilica is actually a temple of Mitra. It's built on the

temple fo Mitra because that was the wishes of the Romans empire, that they could show their power, they had their belief of what they brought from Iran, and what was coming from the public, which was the Christ Christianity we know it. and everything was modified to suit the man of the power, but to be still bearing power, we give you the Christ you want but our rules, 12 days of Christmas, 12 days of Mitra, the light. Then one of the things Mithraism believed in and lived on, and the people of that structure, they used to drink a sap from a tree, which gave them a lot of energy, in another way of giving confidence, and the Romans had nothing to match. But Rome was full of wine, red wine, and it looked like the color. So they brought the wine to be that sap, because it give energy, and then they built from it this is my body, my blood and the rest of it you know in the Catholic. It never existed, Christ never touched such a thing. Now we see the process of Catholicism as we see it, and its breaking of the bread, and the wine, which actually came from the source, Iranian through Mithraism, ??? which was merged into it, by drinking this water you get energy, and then what you see ... whatever you call it today ...

But the process fo building the Vatican, the animal behavior and they took the stones of Coliseum to build the Vatican from it, because nobody was prepared to pay anymore to build to bring the stones in. So it was free there, they took the stones in, converted it. ???

So there is nothing mystery, it's us who are locked in the time of mystery of creation.

Q: If we look at it with scientific way planet created with mixture of H and other materials ... is the seed, the Eve or Mitra that came and started this process ????

K- What we have, is very much as we say the light of Mitra. in interaction with .. center of the Creator, and in interaction with the soul of the Earth, which is interaction from the fields of it, has created that physical D, that ... reaching of the hand to get the water, but in essence that .. initial emotion to reach out, or to feel thirsty came from the interaction of the fields of the soul, the STP, soul of emotion, and the reached the physical motion of speaking I am thirsty or whatever. That speaking origin of the hand, is the creation of man. Where the soul of the Creator is the sun, the soul of the earth is Mitra, and then the STP of the cell of the emotion is the D of the interaction which, with the Inertia of the physicality leads to creation of We are created out of the love of the Creator, not by accident of time and place, and D. .. when this light of the creation and the Creator matches with the Inertia fields of the emotion leads to D of creation of physicality, and in time and space man will understand this. This is how you will decide how to manifest yourself in a given time and position, because the STP .. which carries with the man, and the soul of the emotion when it comes in interaction with new environment, then it decides what shape and manifest itself, then at that point you become the structure which the environment allows you to be. Mankind has got a lot to see, that beauties of this planet is much more beautiful when you work through the Creator interaction of your own soul. We just open the door, it's for you to consider and see ??? we have to understand the totality ?? and accept the totality of the conditions.

Q: ...

Thank you very much.

Q: Are negative emotions such as anger linked to the STP and positive emotions like joy or love linked to the STM? Do we have to give the total control of our life to the

soul, and let her detach us from the negative emotions, or is it the job of the physicality to get rid of any negative thinking? ..

K- The emotion of, any emotion within the structure of the body of the man, in a way is controlled by the D of the physicality of the man. Because at the end of it, it is the physicality which benefits from that behavior. We see, I have been witness to many of these feelings, where you sit in a room and 2 or 3 people sit, and the same person speaks with love and affection to one, and turns around with the same time with anger and disgust with the other, and then with gentleness and care to the other. Many time .. this is what the man is, we choose, it's the same soul, the same body , same voice, it's just in interaction with another physicality you decide to change. It's us who is the creator of that change within us. in what we get out of our physical behavior in respect to emotion which we create. This is has been one fo the ?? trigger points for me for many years. I always said, how can this be the same person ..

Can organize conferences in KF ..
