

398th Knowledge Seekers Workshop; September 16, 2021

Note: Transcription has not been checked by KF. Please listen to original recording.
(Transcription by KF Brazil)

Secret teaching - hidden knowledge of why man is the way he is (24:27)
(feeling the void at birth - loneliness pain than childhood wounds - terrifying experience of the Void - this is the root ; solution was to start thinking - distraction and living in concepts -- the key is given in these lines "No dimension of physicality.")

ENGLISH TRANSCRIPTION

(:11).

K- .. to see what we have missed and what is to come for human race. ... these teachings .. for past few weeks, might touch some of us, but sets the future destiny of man in the space for our children, .. great grandchildren. In a way, we are seeding the soul of a perfect being for our children, for them to have perfect children, that man will not commit these atrocities of past decades and centuries, and thousands of years in the space.

We are preparing man to become man of space, to become man of correct, ?? of Zoroaster, which is the ethos of the U, and mankind has missed in so many ways. Most of these teachings we have dreamt about, and now it is becoming reality. In today's teaching I will explain to you what KF is about to do and achieve and what is to come, that it could have been a Sci-fi movie to you, but it's a reality in laboratories and works of the KF around the world in research and development. We open a new dimension (D) in understanding to us, that now we teach our children to live by the ethos of U, that they teach their children, and the future generation of man we will not see anymore killing, destruction and taking it as part of the work to be.

For man to become man of peace, for man to start understanding what was done wrong, what man can change, the way we seen the behavior of his Excellency President Biden of US, withdrawing force, even will create some problems short term, but puts the nation back on the right track. We respond to the actions of President Biden in a very direct way. KF Arizona will become operational simultaneously as it will with Iran. (:14). We have come to agreement with the head of the KF in AZ, that the first eye vision systems will be delivered simultaneously, into AZ and Tehran, which means we'll respond peace by piece. We share knowledge according with the Chinese, and with that process we make sure as the Americans are making steps to withdraw their atrocities of the past time by the past presidents, to bring their nation to stand correct, we support it. We bring new T and D into the work of the KF. Our organization setup in America will be used directly in negotiations with the Americans for transfer of T, the same with the Beijing, and the Chinese government. To go to space on the 6th of June next year, it means we all get

gradually involved. In that process we make sure Iran stays the center of the knowledge and T.

We are hoping to announce in the coming days, Iran will build the first spaceship city on this planet, in the coming months. We are negotiating it, and if they are successful, one of the largest spaceship cities, where man will commit himself to spaceship development T will be setup in Iran. We hope we reach agreement, and you will see one of the largest space bases with no launch pad, but with understanding that the man will develop, the new T. In this process we invite all the governments and companies who work in the advanced space T to open a center in this city. A city of knowledge for space. As I said, we make Iran the center of knowledge for space. We thank the offices of his eminence A K of Iran, (:16). and the Iranian new administration and those who work with us in Iran to start the facility, to be operational as fast as possible. They have made every accommodation for the KF to reach this point, and we respond accordingly to bring T from its mother birth land.

In the teachings of today we come to a new D, .. we understand more about the past, and going towards the future. We have spoken for months, and years. about material, about the way we change materials to energy, the way we transfer energy as light from one to another point. But there are a lot of multitudes of other things to consider.

We transferred our soul to a platform, we moved it across the U, we moved it to the moon, which for most of us is as far as we can think. In the present time, but the knowledge of the man, with the present knowledge of the plasma (Pl) T, does not look at Mars or Jupiter, we look at other galaxies. We look at other combination of the universes, and mankind will learn this rapidly, to become part of that light, to cross borders of the galaxies and universes.

In this process we come to one point, I transfer myself to light - one step. I want to be on the moon - one step. I want to be on the star I looked at for decades and now I can be there. How am I going to be there, and what is there when I arrive? We cannot be wear spacesuits. We cannot be always thinking, (:18). that in the process of transmutation and transportation (T&T) across the U, we will end up to be in an O saturated, C life, and live the life of the man on this planet.

Our soul carries the combination of the energies of the U, and within it we have carried the soul of our physicality. Which means the brain, which we trained on this planet to manifest itself, as I made the man in the image of myself, which is the same way it works with the brain, or what we call the control system of soul of the man (STM) now has to make a decision.

The time of wearing spacesuits and hopping like a frog on the moon, like what we've seen in 1960s is over. In so many ways, we cannot carry on with the way we used to. The time of donkeys is over, as much as the spacesuit. With the present knowledge of man, we understand when we arrive at the point of destination, the soul of the physicality (STP) of the man, which is embedded within the STM, will decide how the physicality

will manifest itself in that point, then you don't need a spacesuit. Then you do not need to be worried how I am going to survive. The way we guarantee the survival of the soul embedded within the physicality of the man, now we turn the sheepskin, again back to front, or front to back, now the soul again takes the position of itself, within the STP, and physicality takes shape in the D of existence, (:20). mutual working.

In a way, understanding that which one, and how the STP, and STM will change and will transmute from one to another. We know this process, we have lived, we were born through this process, but now we have to understand how the processes come together.

You are a fish in the womb of the mother, totally encapsulated within the structure of the safety of the soul of the mother. Then we come to an air condition. But we are preset with the hand and the feet and the nose and everything else to mature to this world. Where at that time the soul of the physicality of mother and us together, made sure everything for what the physicality of the soul of the mother feels, is correct for our soul, to born into.

In a way, the work of the STM with the STP, again go into operation, we are re-born. We are re-born in D of physicality, this time with the connection of our own soul, with the connection of our own STP. In a way, we change the soul of the womb of the mother with our own soul, we cocoon in it. The way we cocoon our physicality, and our physicality cocooned it for millions of years. We are familiar with the process. We should not be frightened of what happens. We should not be having a fear of what will be ?? in the physical D, because the environment of the place will dictate what will be. This is one of the biggest fear of the man, and from now on, (:22). understanding the process of the T you do not have that worries.

In a way, you can transmute through spaceships (SS) or .. through the STM, depends on the maturity of the time and space. At this moment when we travel, we leave our life, we put the soul of the mother with the child, within the structure of the plane, or a car, and we trust that car or plane to take us from A to B. We have achieved further knowledge, .. to become more mature in understanding of work of U, now we put it in a SS, but still it's the same mother with same soul, with the soul of child within it. We use the SS as the ray of the light. We use the STM itself as the soul of the mother, and the STP of the child. In a way, depends .. every man understands from my T and knowledge according to their intelligence, according to what they can accept within the boundary of their own existence.

In this way, now we understand, we are still talking about the same process, but different methods, how we achieve the process, how we get to the position on a SS with a physical D, on a SS of the STM with different speeds, and or understanding that we can have the both.

Combination of the process of the combination of the STP, and transmutation will be shown in the new Enhancement Units (EU), which will be released by KF before Christmas this year.

Where we embed one system of the soul within the other. For the first time, (:24). the first children of the man will be born in this process. In a way, what we call, and was the reason we developed the horizontal EU, to be embedded within the Body EU, is the Body EU become the soul of the mother, and the space, what we call, horizontal system, become that soul protection for a child to be born.

HERE>>>> 24:27

For the first time we bring you T, that the children of the man will be born as a replication D of the soul and the physicality at the same time. The new EU, which is combination of the 2 will allow man not to drop the child in a, what we call, "no D of the physicality of the matter state," but in a controlled state, that the soul will leave the body of the mother, with and prior to the child, while the physical body of the child is born within the capsulation of the EU, where their life will be perfect as they want to mature to.

The first of these children's will be born prior to end of this year in this process.

That will be the Mitra, will be received through the process of understanding of the man in the true essence of creation. Mankind has to mature to the reality of the process of creation. Mankind has come to a point that he has matured enough.

Is the responsibility of our religious leaders and world leaders to bring this understanding rapidly across the planet. There is no time to play. Mankind has played for thousands of years, now is time to move. It's time to become the true man of space. It's time for mankind to understand the process of creation.

For this reason KF, (:26). in coming weeks will release technologies and systems which has been the dream of the man, which has been the process, that will not allow mankind to fall behind. As I said, new T will be delivered very rapidly as it is getting developed. New EU in different shape or form. The vision EU which allows the man to see through the STM, and not the physicality of the eye of the man, will be deployed in AZ in a very rapid way prior to Christmas. This is the way we responded to the American move, peace by piece. We make AZ the center of space T in collaboration with the Iranian government in the coming days, and gradually we build on it, to build trust amongst the man. We'll respond the same positive to the Chinese national security approach, that we accept your offer of collaboration at the KF center in Jin and Jiang. We collaborate with you, the same as we do with the Iranians and Americans, and we welcome the Russian administration, and the new administration to come into power in Russia, to collaborate with us on the same way of peace, and as we've seen, "eye for an eye, tooth for a tooth." Americans withdraw from Afghanistan to bring peace, even we see some mayhem, now within Middle east movement, gives us the sign that the peace is on the table, and we respond accordingly.

In the coming weeks we release a number of EU, which is never seen before, but it is needed for man to be able to understand and benefit by the new process of understanding.

We will release a new EU which allows operation on the D, which never seen before. We have used knives to open the body of the man for operation. We have used laser beams to cut, (:28). Now we bring in the advancement of the PI T, where we need, we open and dilute the skin of the man, to reach inside of the man. And where the man has done his work to repair, the positions of the ?? 2 days, will learn directly how they can reach directly to the heart physically, without any cut, to change what is needed, and then we change the PI, as no operation has ever done before. This T has been in the hands of the KF since early 2000 and now we release it.

In a way, we can go within the body of the physicality of the man. Now that we understand the body .. is made of M fields of Gans's, we create a condition of, that the M fields open up, but stay at their own level, and as we create a new life in different positions in the U, when the physicians have changed the heart valve, in the position, the physician has taken the shrapnel out of the body, then the body closes with no mark.

We tested this Ghana, about 4 or 5 years ago, and we saw no scars. We understood the process of the Gans PI T, how can leave man with no scars after operation or any damage.

At the same time in the next few weeks KF will release T, that the physician can use, very much like the pressure belts when you take your blood pressure, to be put around your arm if you got a broken arm, broken bone, and heal the process of the fracture within hours.

In a way, we speed up the process because we deliver what the brain is going to deliver over weeks to the bone structure, to be repaired directly at the point. You can break a leg, and walk a leg an hour later.

At the same time we deliver new T, (:30). that allows mankind to be more versatile in any D of the work and physicality. The new series of the EU, which you will see the first 2 in Linz on the 2nd of October will be comparable to the new space T.

The first four, as I informed many of the KS, spaceship T to carry 6 passengers has already been ordered to our manufacturing units in China. These units will carry passengers, which will be fed, will be looked after, and fly at the same time. This was the wish of some Iranian scientists some months ago, and we responded accordingly. The T will allow us to travel the span of the U. It allows us to travel on the surface of this planet in a much faster, safer way, and at the same time, allows us to achieve T, which will allow, even on transportation, if there is anything wrong with us, to be healed. If we pick up a disease in Africa, by the time we arrive, 5 minutes later in New York the disease doesn't exist. T&T of the viruses, the way in the U, it is handled, now will be handled in these systems. The new spaceship systems are paralleled to be ready for the 6th of June flight as we promised. We have taken action in the KF, and accordingly we deliver.

As I said, world leaders decided to go the peaceful way, KF facilitates that peacefulness. We bring new jobs, we bring accommodating the governments who take these steps, to give opportunity to the scientists to be able to carry on with development. but this time in a peaceful manner. (:32).

In the coming days, and part of the teaching of today, we'll show you what happens when you go to the moon, for example. You leave the earth in the encapsulated system of the Vertical EU, and you land on the moon, not in a spacesuit, and not in a capsule, within an open station, but you land on a spot on the moon. Do you have to die? Or through understanding transmutation of the fields, you take the shape, that allows you to be mobile, and survive and live on the moon. We can extend the tent of the moon.

In a way, when you land on the moon what happens to you. What will be the position of your work? How will you survive the span of the work? Or you decide I would like to have a little bit of freedom, but till live through the eye of the man. We transmute you from a station in Linz, and directly on to the surface of the moon. You land, you decide there, or there. You will land on the N side or the South side. As we have different ways of living, look like Chinese, black or yellow or white. On the surface of the moon you have the same propositions, we have the same manner of work. And what happens to us?

In so many ways of understanding, what would we look on the S pole, or how would we look on the N Pole. How would you look in the center of the physical structure of the moon or any other planet? (:34). What shape would allow us? If we land on the solid base here, but here on another planet we end up on a liquid state. How would we change ourselves? How do we allow the body .. to take a new shape. Do we become a fish here, and do we become a climber and a monkey here. What do we allow, how do we trust our soul to understand the process of change.

Or do we arrive in a SS on another position on this planet and we decide we still want to keep the physicality. What do we do? We don't want to loose the SS, we don't want to go in the D of the soul, we extend the tent of the life, by hundreds of kilometers, that we survive as man in this area without wearing a spacesuit.

The process of this expansion of the field was shown in the defense T of Iran in respect to the drone. It was shown in the space T development last January, in defense of the life of one of the Iran leaders of Sepah. That no one could enter, no one could interfere, and that lead to the peace talk of today.

So what we see is the extension of the tent, that we get off the SS and we are in a tent environment, hundreds of kilometers. Then we can space and walk. We pickup viruses and diseases from the surface of this planet our soul, in conjunction with STP in the system, set within the spaceship, will clean you out. We will not, (:36). bring viruses and diseases from one planet and one environment to another. The same shall be with your soul when you travel. How do we transmute? How do we change? Do we enter as a single energy PI as a comet, or do we become another combination of the fields of the STM and the STP, and create a shape that we can move on the moon.

The legs and the arms has shown us through the American trial on the moon, they become a grasshopper. This is not the way to live. We have to be able to run and to walk and to live on the surface of the moon, as we do on earth. Do we need to create the condition of the deeper strength fields, that our G field become heavy enough, that allows us to attach ourselves to the surface of the moon. Then arms are too heavy burden to carry the weight of the man, do have to develop a system, that we become like a snail, the weight is spread, but we can travel fast. The real shape of the physicality of the man on the moon cannot be the way we are on this planet. We have to learn, that we accept the condition, because the way we manifest ourselves is the best guarantee for the survival of our physicality, the STP and the STM. In a way, we learn to become the chameleons of the space, we learn to understand the process of creation.

In so many ways, (:38). we become aware of the totality of the existence in all D of creations. This brings a lot of problems for our religious leaders, how to explain. Do we open another church or mosque on the moon, and the next one, and the next one. Or we go with the belief of Zoroaster, to be good, to do good, and to live a good life.

In so many ways, mankind has come to learn, that he has become ?? not by choice but by the decisions of the Creator, and man of the U. Now he has to rise to wishes of his teacher, to understand the teaching, and with it, teach himself and his children to become a new generation of the space.

But then again, we could have taken you through the spaceship system and let you fly like the others you see, because they have not matured to the point of maturity of understanding transmutation of the soul, and then become another nomad of the space for thousands and millions of years, and then start teaching you about the process of the soul. Then you say, why did you take me a million years to get to here, couldn't you have teach us from the beginning. Now we teach you from the beginning. Then you don't have, you don't need to go through the process of the SS and the rest of it, but you go through the full maturity of understanding.

If you mature enough you will understand the process and the knowledge of the creation to meet your Creator. I am there to welcome you. I am there to show you the knowledge of the creation.

In so many ways, mankind has been given a leap of knowledge. In so many ways, mankind has been given a time to process, to choose the donkey, the aircraft, the SS, or the STM. You need the grass to feed the donkey to take you. (:40). Put fuel in the tank to burn to go. Use the M field positioning in the matter state to travel, or use the M field of the STM the way the Creator travels the span of the U.

It's you who have to decide. Either villager, or man of Creator. In any case, you carry the knowledge, it's you who will choose the position, the time and space. It's for mankind to understand the conversion. It's for you understand the process of interaction of the fields, .. to start playing the whole process of understanding.

One of the first toys we've given you is the Universal Enhancement Units (EU), which in next couple of months rapidly will be deployed amongst, and every position on this planet. We have setup the positions, and we start the manufacturing now, that the T has reached a milestone, that it can go through the process of the conversion in a rapid way.

Thanks to many KS who work with us, we have achieved to teach man to move to the next step. In that process will bring the knowledge of transmutation and transportation (T&T) to you. Maybe .. before sometime in November, you will see the first thousands of the T&T units in Linz. Try to pay a regular visit to Linz, that you see the latest, which KF and knowledge of the man can deliver.

Understand it, take it back and try to develop it. We heard KS are setting up a hidden MaGrav unit to unravel, (:42). the secrets of the MaGrav. But one day I will shock you, in how the MaGrav units, which were given to you, were MG units of space development, where those stacker units can fly, can reach any point, and carry your soul as a part of their operation.

We give the knowledge, how you develop it, is the process of understanding. We welcome this new group, which is getting setup by Jalal, and we support in so many ways, but do not fall in the same trap, as those who build the MaGravs. Look at the structure of the MaGrav of the KF and learn from it.

The secret, the true knowledge of it has been sitting there from day 1. The design of MaGrav has been the cornerstone of understanding the knowledge of creation, but many of you lost it, never understood it, and they got trapped as usual as the man does, with the physical D and the interaction of the physicality of the matter state of this planet.

Understand the process, understand every feature of the creation. I have created man in the image of myself. The way I travel, the way I think, the way I work, the way I feed myself without killing, and the way I transfer knowledge through the spans of the fields of the U, and not by emails, and Telegram.

Try to understand the field interaction, and not get baffled by the materials, which create that field. Once you start the kindle of the energy field transfer, throw the match away, as you do not need. The physical matter state is irrelevant, (:44). when you lit the match, and you light up the candle, you don't keep the match in your hand, it will burn you, because you get in touch with the physicality.

Then when the light of the candle comes, the field energy of it, becomes the source of the energy and light, and enlightenment.

This is what I have been telling you for a long time, move away from the physicality. The beauty of the man is that he has the physicality to trigger the essence of the creation of the fields, and understanding of the STM. This is where most of you got trapped with the right hand turn, and left hand turn, and 9 windings, and the other turn the other way.

Whatever you played we went along, because somewhere down the line, you have to learn at the end of it, it's the field, which the MaGrav creates, not the coils, which you are so entangled with. Once you lit the light on the candle, the candle stays, there is no need for the match. But the light becomes the essence, where the candle is the physical body, becomes the energy of the U.

This is what mankind and the new teams, of hidden teams of Jala are trying to develop this new illusive MaGrav system. It already exists with us, within the KF. Look at the structure of the MaGrav units and you'll find the hidden secrets.

In so many ways, that you have never thought, and still with all your teams will be hidden from you till you understand the process, .. the job. Look.. go back to when John started setting systems in AZ. You missed it, you got there, you got baffled by the physicality, (:46). of the MaGrav unit, and not by the fields of it. You lit the candle, and you let it blow out, with not understanding it.

In the new structures, .. the new ways that we teach you, we'll see in the EU, and the others, you understand, you still use the physical D, because that's how man can understand. But you will see, we trigger your emotion, we trigger your STP, we trigger your STM, and then understand how one will move to another. Till you do not match the STP and the STM in the EU, you will find the knowledge will be hidden from you.

It's not detachment, it's understanding how the attachment is between the STP, and the STM, one to become the proton, and one become the neutron, and one to become the electron, and when to be which one, at what point. When to become one, and when to split, and when to one, to manifest itself to protect the other, where the electron, become the physicality of the man to manifest itself. Where the soul sits within the proton, within the center, and the time comes, that the 2 together behave as a neutron, even in one, but working as 2 within the structure of the totality of the fields of the Pl.

Mankind has to become very mature, very fast. We don't have time. I'll put it this way, I wasted thousands of years on this planet, (:48). trying to get mankind to this point. I have a lot more to do, and time to bring everything together fast, that mankind starts moving, then we can use the STM across the U to become the teachers of the new generation lives, which progressively, forever lastingly are created across the U.

In a way, we create messengers of knowledge of soul, from the STM for those new lifestyles, which are created on a continuous basis amongst the U. When the man as a messenger appears, will take the shape of the man of the position and time. The creatures of position and time, that one of them, will teach the soul rapidly, that physicality of the life on that planet, will not go through the tortuous time the mankind has come from years and years. In a way, we appeared amongst you the same way, the man will appear amongst those, as the teachers of the future across the U. We trusted man, and within the man we created Mitra, and with it, we carried the soul of Mitra to be ?? his children of the man, across the U. Now you understand the purpose and why we have chosen the style to look like man, amongst men on this planet, as you will do in the coming time,

across where you will (be) transmuted to, be it on the surface, or the depth of the liquid oceans of the U, are no place for ?? man amongst the fins of the U.

Mankind has been given an opportunity to move across the U with the knowledge of the Creator to become messengers of the Creator. But mankind has to have tasted what it means to destroy, what it means to kill, that he stays away from it, (:50). and teaches the others to do the same across the U.

If you haven't tasted love, how can you explain love. When you haven't seen the light, how can you explain how the light looks. When you haven't smelled the rose, how can you transfer the emotion of the love, with someone who doesn't know what the smell of a rose is, that it carries the emotion of love. Mankind has been through the process and now it's time for him to become part of the structure of the U, where we tell you, the STM will take man across the universes to become the teachers of those who have been educated now, to be ready for the point of creation of life on it, to teach them not to go the pitfalls, which the man created, to live through the D of physicality.

In D and direction of the creation, mankind reaches the point of maturity. And the point of maturity is not to kill, not to destroy, and be there to accept only when you are asked and you are given. In that position, it's yours to have the right.

You asked to become a messenger. You asked to be the deliverer of the peace in the D of the soul. If that wish is given the answer of yes, and you are given, you become one, even though you might live in the D of physicality of man on this planet, but through soul you can operate across the U, to show what the killing does, and what is so shameful about it, and what destruction means, that the other have a life view, of how bad it can get, the way mankind live on this, and gives them the choice.

We open the eye of the U, to the window of the planet earth to see what killing means, and they become a test case, (:52). for the rest to walk away from it. In a way, to erase it from the operation of their soul. In a way, to become the perfect beings, to live with the ethos of Mitra and Zoroaster. Zoroaster is the Creator and Mitra is the messenger, and you'll become all, in that D and direction to understand the message of peace. Does not matter where that position, time, and space in the U and Unicose shall be.

You arrive at the position as a light, as a Pl. How do you change yourself to the D of physicality? How do you take shape in that D in the U, as you feel it, as your energy arrives. How do you take shape on the surface? Go back to the teaching, go back to understanding of, to transfer and transmute between the 2. You need to understand the field Inertia of the environment, and that field energy environment, it allows you to manifest yourself in the D of the physicality in time and space. Which means you have to learn mutation of the fields, separation of the fields to match the fields of the Inertia or matter state manifestation of this, that in interaction between the STM and the STP, and a D of the Inertia, you allow the man to manifest on this planet in the shape of the planet.

In a way, (:54). you can exist. Now you understand why we taught you the Inertia, why in the last teaching I explained to you, how you create a position and a space to travel to. Now you create that space and position of the Inertia of the place where you would manifest yourself, and your soul will take the shape, and then you'll see how you will manifest yourself.

Go back to the teaching of the past year, I explained to you, you create a condition of the landing in the fish tank, that you will see how you will look when you arrive in the new position and destination. In a way, we create the EU, the body EU as that environment. Then the soul of the child born from the woman in the horizontal EU, will create the condition of the shape of the child at the point of the birth, where the mothers do not need to go, if they choose through the D of physical birth, all the defects which comes with it. You create a perfect soul within the EU. You decide the strength of the Inertia of this planet, for the perfect behavior, perfect thoughts, and that will create the child, which is born in the EU as a perfect child. No animosities, love only, and no understanding of the killing to achieve.

We do the same in the space, we create the Inertia of the, any time and the space by ourselves, within the structure of the STP and STM as a PI, and in that process we take a shape. On planet earth the fields of the earth and the sun, in interacting, creates only the PI, and then the Inertia of the earth, and approach of it, it changes it, depending on the Inertia, position and time, the H to gold, to silver. (:56). or whatever. Is the gold shall be the body of the man when it transmutes itself, to a new D and position. So you have to learn to be fully knowledgeable in understanding of how measurements of the fields of the Inertia, of the time and position, allows you to manifest yourself in the matter state of the position and time.

Mankind needs to move very rapidly, mankind needs to be at the edge of what we call, wisdom, to be wise, to decide, which way he would like to travel the spans of the U. You have to learn, you have no choice, but to understand the totality.

You have to understand when Mitra is with you, Mitra is within you. Not something that is not, and cannot be tangible to you. Mitra is the knowledge of the U, and mankind is its manifestation. In that process we try to teach you.

We try to slowly spoon feed you, partially with thoughts, partially with talks, and partially with systems, that you gradually build up to understand the totality. From now on, we all, if we understand, have become the passengers of the U. Make sure your next generation becomes a peaceful generation, Make sure your next generation understands the meaning of to be correct, to deliver correct, and only take when you ask, and when you ask and are given, it's your right. You ask, "I want to land on this position on your planet, is my soul allowed to be part of its beauty," (:58). and not part of the, what we call life of it. Then when you are given the time to be, that is yours to take, respect the time and position and the gift of life, which you are given at the time and position. Don't become arrogant to the understanding of, here I do what I like. Respect those who allow

you, and respect to understand, it's your job to be correct at all time, in that time and space and position;.

My thought has been transferred into the knowledge of the soul, and those who hear and understand they carry the same. Try to go back into the teachings from the beginning and understand the conversion of the matter to fields, and the fields to light, and light to manifestation of physicality, or D of the Pl. You live the same life if you are on ?? or you are a tiger, lion or a man. You still needs the fields of the environment, you still need to manifest yourself to enjoy the D of physicality if you want, or you interact in the D of the STM.

Then we come to understand what it the next step, what is the purpose of living, and in the teaching of today I have explained to you in depth why man was born, and what is the purpose of his life.

In so many ways, we select the best, to become the best , to become the teachers of the U, not by talks, but by the delivery of the totality of the knowledge of the creation. Otherwise you become the same as your forefathers, and the animals in the jungle of the man.

I hope you understood the teaching of today. I hope you understand the depth of the teaching of today, because I could not be so open and teach so deeply, (1:00). if you have not understood the totality of the teaching of today. How you manifest yourself and the process of manifestation in that point in space and time. In so many teachings, we gone so many ways into the depth of the teaching, that the scientists and the ?? knowledgers of this planet, will take them centuries to decipher every teaching. This teaching of today will take man, the life of U to understand fully, but in a way we taught it, and it is written in the soul of the U, that those who are the KS of the U, will understand now what they have to do, to even find a new way to the Creator. Will arise many, many turmoil's and exciting times, but the knowledge is of the U, which are listening to these teachings.

As the knowledge of the Creator how to reach him is unraveled in a very secret way in the teaching of today. Those who can understand it, will find the path, those who do not understand it, it is another wind on the typhoon of knowledge, which they never manage to understand how it has hit them.

But in totality those of you who seek knowledge on this planet and in the U, have been given the key knowledge how to find the path to the Creator. Maybe you heard the voice of the Creator within you, and through your physical D, that how to reach Him has been your wish for millions of years. The voice of the man is a tool, the soul of the STM is the sender. How can you send this to, across to the other D is for man to unravel and decipher in the coming time. (1:02).

I hope you understood the transmutation, the transportation, and conversion to physicality. The way we unravel them to you, how to make a matter into Gans and

energy. Today's teaching, I taught you a very direct way, how to transfer your energy to matter state. This is how you create from Fe to gold, from dust to silver, and from the fields of the U, another life in a fish tank of the man.

The secret of existence from A to Z in the teaching of today, has been completed, but it is for you to understand it, to unravel it, to comprehend it, and use systems to get to it, or use your soul to achieve it. Or try to frog leap it and say, "oh, another teaching, a lot of talks. As I said, you take from what you understand, and if you listen and you have read the Book 1, 2, 3 the totality of the knowledge has been ?? moved together in the teaching of today. Let's see what we can unravel for you next time. Thank you for being a listener, not through your ear but through your soul.

Rick go for a break (1:04)

Proofed to here >>>

K- ..

KF store has launched 3 - 4 new products ..

We are running 2 new clinical trials

Fungus trial

Why we launched this.

A fungus is very much the same as a virus. The success we saw with Corona, and trials we ran with Cup 1, Cup 2, Corona takes the energy from the environment of the body, but in interaction, it manifests itself in shape what we seen. (1:12). A fungus is the same process. it has already manifested itself using the energy of the environment. This is why it is different than microbes. In a way, has an amino acid (AA) base to start with, but it doesn't root itself, it takes energy from environment exactly what the virus does. This is why we run this trial, .. on a plasma T and not on any other basis. In a way, to see if we can stop a fungus to take energy from its environment, exactly the way we done with the virus, then we have achieved a new breakthrough in S&T.

This has been tested. You have to understand it's not something digestible, it's a liquid of the Gans to come in touch with the, what we call the water of the Gans, with any surface it could be. We have .. tests, trials done in China in laboratories, on what we call animals to confirm that it is safe for skin touch. We have received a 100% okay. Now we are putting in it a test trial with all of you. to test it.

In a way, the difference between a virus and a fungus, is that a fungus is manifested energy in connection with a protein. Where the virus is an energy, which attaches itself to life, which has already taken shape in an environment of whatever it could be. This fungus could be on anywhere, on any surface. It could become part of any structure.

Because now you use it, you void it of receiving energy. This is what we want to find out.

When you use this fungus mixture, (1:14). you always have to add a salt mixture to it. It needs 5 to 10% salt, if you have the salt from the Gans's you made (Cup of Life) add to it. You'll find it becomes much more effective. Then at the same time you can create a condition that in a way, you starve the fungus from growing. It can be there, but we can control it. and then you'll see the change.

With this process we have launched the second product which is for cleaning. In a way, for the first time we release a specific materials, that when you use the Gans's in the bathroom, on cleaning the table, you'll find there is not much dust, as there used to be before. There is not much dirty spaces as there used to be before, because now the energy fields repels. You'll find once you clean the surfaces stay effected for a long time.

We reckon over 75% of microbes, bacteria's can be eliminated from this process for a longer time. You don't need the frequency, and the same time the more you use the energy of it, becomes part of the energy of the room, and it will change a lot of things around you.

The cleaning material, when for example you use it in the bathroom to wash the sink or the taps, you'll see and feel the difference, at the same time you are always in the environment of it. When you wash the walls of the bath with it, you walk into the environment, which is already purified, for a long time.

Then we want to learn from you. we want you to report back to us, what you see on these cases, on both of them. Then, (1:16). we build up the bigger processes. We are not looking for miracles, we are looking for a, proof of the knowledge to you, not to us.

At the same time KF has released a radical T today, which is for water disinfectant. Many of you, we call it a pure water. This new product is a pouch, you can carry anywhere with you. You travel to a country, you are not sure if the water is safe to drink. You go to camping and picnic, you can't take bottles of water with you, you carry the, what we call, the new powder.

You just mix it in the water and let it settle, and one third of the top, becomes good enough, what I call, "be pure enough," to clean up 75% of the most of the bacteria's and whatever it could be.

Make sure every time you use the liquid, after use, when you finish traveling whatever, wash it once or twice to get anything, which might have come into it, out. Then you can dry it for the next time.

It can stay in a liquid, but we prefer you to keep it as it is, in its box, dry, and use it even if you live at home. Mix it, if you got a problem with the Ca in the water, see how much of the Ca can be extracted.

Use it on a continuous basis and educate us. You have an email, respond back with it, and then you'll see what the new conditions are. These are how we bringing the T in the hand of everyday use.

We are not looking at the prices, the research and development costs a lot. But at the same time, in the coming time, (1:18). when the factories go into operation you'll see the extension and expansion of .. the knowledge. Try to use this ,.. explain to us. If you come into touch with the Gans's you know the procedure, do not inhale them, do not drink them .. use them on the appropriate way of the teachings for past times we have taught.

As you seen today...

Markray in American Stock market - New CEO

KF has entered, as I said, growing into another D, and it takes time. There is one thing which we have to announce, but in a way has been part of the structure of the KF, and many of you have been around it. We especially mention it, but we don't go into it any further. Many of you went through the process of Markray 3 years ago. Markray was blocked, (1:24). and stopped by instruction of the White House and the rest of it. Markray as of yesterday has been released in the American stock market. I have resigned as a CEO, and we have appointed ourselves to be as majority controlling shareholders. The new CEO of the KF, what we call, headquarters in Holland has become totally independent of the Markray. We do not interfere with work.

Now you will see through agreements, as was stated in the biography of the stock market. We have given intellectual rights for Markray and Mexico to produce what we call, products and the KF T in US in America, and the .. American continent.

We welcome the new CEO and we thank him for everything he has done for the KF. But he is independent, and he is part of heading Markray into new territories, and as the provider of the T we support the T to be developed, by setting factories financed by the KF according to the agreements which we have reached and signed and we welcome Markray in American stock market.

New Product for Arthritis

On the other hand in coming couple of weeks, we'll launch new products, which is for arthritis. This products will use the latest T, will be marketed around about between 3 to 5,000 Euro. It is not sold, it is given to you and it has to be returned back to us, it's a loan back agreement. (1:26). You use it, you report it, it's a clinical trial, objective internationally, and when you use, when you see the eradication of the .. arthritis, you return the system back to us. It has to be returned to us.

Then we collect the data, how it performed .. then we can improve the system. If many of you suffer from a very bad arthritis, this new system, could help you. Could help to teach us, it's a clinical, you still sign documents, that you understand you enter a clinical phase, and the data will be open ...
In coming weeks .. we release more and more.

We see a lot with the first clinical trial with the glasses. We thank you .. we need more people to participate in it gradually on the back of it we understand the process of the soul.

Join us on the 2nd October in Linz.

(1:28).

(1:30).

CIA orders murder of 3 KS

We have received a sadden news by, and through one of the old Knowledge Seekers (KS) of the KF. This news will stay in the background till national securities and governmental securities find an answer to why and how, (1:32). 3 murders have happened around the KF.

We keep this very silent and then in due course we bring what has happened in past 4 years, ending with the murder of 3 people very close to KS of the KF, a specifically incited by 2 national securities of 2 nations. This is at the moment under investigation by KF national and international securities, is under investigation by 2 other national securities, and then we'll release the knowledge. It will shock many of you, it'll shock you beyond understanding of, even going back to the murder of Fabio.

We are keeping very silent, but it might leak into press. We are keeping it away from it till we have our own data, .. intelligence, and the national securities of 2 nations confirm the process.

One of the reasons has been directly to discredit KF, paid by CIA, and now we have the proof. And we have a recording of it by proof. This will bring a heavy burden on our negotiations with the American government and the opening of the AZ.

When the intelligence organizations are involved in murder, especially for the scientific organizations, it has to be answered to internationally. We will release a full detail in due course, but we inform the KS to understand. 3 of those who have been close to the KF have been murdered by the instructions of the intelligence organizations, and we have the recording and proof of it. Now it has to become, that the American government, (1:34). has to respond, why it is involved in the murdering people close to a T.

All details will be released, and it has sadden me for past 2 weeks, this information, till we could bring it in, and once we have our full package from KF international securities, than we'll release it in public. It will be a very big problem for the American government to say, how deliberately it has forced on the media to discredit KF, by giving green cards to those who do. We thank you for all your support. It shows green card has a bigger stain in it than you could ever imagine.

Going back to the teaching we will start. Go back in understanding this, T in a deeper way, and in understanding the T, in how you understand, to try to help you to understand more of it.

What I would like to do is to ask you all to take a minute of silence for the 3 people who have been effected, with their souls, by the action of the American Intelligence and another nation. I give from my soul for their elevation. (silent memorial ..) (1:36). .. Thank you very much Rick. If you have any questions.

Q: Mr. Keshe keeps saying move away from physicality. So does that mean we need to make MaGrav systems with thoughts and emotions, if not, how do we move away from physicality.

K- You've got to realize this is a catch-22, especially if you listen to the teaching of today. We tell you to move away from physicality, not in a way, not to get rid of it. But on the other we tell you, today's teaching, when you reach the position of your pleasure, how you manifest yourself in D of physicality.

The teaching of "to move away from physicality," it means try to understand more about the energies within your structure. The plasma (Pl) of life, the plasma of life, of what this physicality creates, called the STP or the STM.

The soul and the spirit. The spirit is the STP, the soul is within us. Listen to the Bible, (1:38). it says, "the Holy Spirit," it means the STP. When we transfer the energies into the D of physicality. Then you understand the total structure.

Move away from the physicality to understand the energies. Then if you understand the energies of plasma of life, how you can move it as a light into another D, and then again manifest yourself in the D of physicality in the time, space, and position.

It's not that we say move away from physicality, move away from depending on it for everything. Go more towards understanding the fields, which interact with it. Understand

the life, understand how you can transmute between the two, and then use it to move, to position if you want to move, to become the light. And then in the position you become the light, where are you going to go. What's the use of becoming the light? You can't see anything you are just going as fast as you can across the U, shss. Then in that position you came, now you have to, according to the teachings of today, to convert into Inertia to manifest yourself in the matter state, if you want in the other place. We tell in one place to move away from physicality, and in the other if you want to become physical do it this way. It's to understand the balance, it's to understand the need, .. the position.

You are sleeping in bed and the house is on fire. Up to now you died in the bed, you burned in the house. If you learn it, you transmute through the soul outside and watch the house burning. (1:40). You don't die in it. The planet earth gets hit by a meteorite on its way, you don't need to sit here, the whole thing finished. You move to moon instantaneously. You transmute between the two. Your son is on planet Zeus, you want to go and see, a hundred years on the way. No, instantaneous, manifest yourself to your son there. "I am here my love, I am here to love you."

There is a confusion in our teaching, it's a confusion by you, not by us. We set our course from the Book 1, 2, 3 from the beginning of the teaching. Now we explain to you what is in Book 1, 2, 3. Understand how you change matter to energy, .. gather that energy as a Pl, .. transfer that energy, and than how you manifest it in another point and D of physicality.

We are not an ostrich. as they tell you, you are not a camel, As you know the Arabs call it a camel bird. What do you do, they say, why don't you fly, I am a camel. No, you have to understand when to be the camel, and when to be the bird, and how he fits, and where he fits. As they say, where he fits, he sits.

Understand the process, understand the reason of the knowledge, up to now it was a bit blurred, now especially from today's teaching, and especially the past 2 - 3 it's very clear. You want to see your child in Tehran, and he is in NY, what you do, you walk? (1:42). You get your package, you get on a donkey to go, it will take you about a year, or you get a package, you get a planet and you are there in 10 hours Or you have learned to travel with a spaceship 5 minutes. This is what I told Americans in 2012 negotiations in Brussels. I said, we cross your country many times, but you don't have the tools to detect, so we don't exist. When we want to show you how we do, we destroyed your base in Iraq in no time, you just watched it. Because now you can travel with the speeds without detection. And then you want to go to planet Zeus, do you want to spend 200 years to go in this what you call, to put you in sleep and wake you up. My god, you have a long sleep, more chemicals to put you to sleep then worth the whole body to carry you.

Now you have a knowledge to go, you choose. It's the illusion of how you want to allude yourself. To go with a donkey, to get to the sun, aircraft, SS, or with the soul.

Now you have a 4th option, and this is the knowledge. The knowledge you were not aware of. Now you have seen it. If I would have told you these things 4 or 20 years ago,

you would have shot me, the guy is bla, bla. Now you've done it, you see how you came to energy over the corner. Now you see to the new products, how to handle funguses. Now you understand the difference, .. how to create energies, .. you go on the understanding of the nations and the governments, and the people go.

Iranian Factory MaGrav system - only 30 to 40% electricity savings

The first MaGrav systems factory, (1:44). is getting setup in Iran this week. We provide the T. They want 30 to 40 % saving, so we do.

In AZ we want to reach the position of changing the vision of the man, if you are blind you can see. You have a problem with your eyesight, use VEU change. the knowledge is the same, the thing we know how to manipulate it. You are just learning about it. Then when you manipulate it, most probably you'll see more beauties. More knowledge.

... the agriculture group in China could not believe, they tested the materials ...

This is the transfers of T to create more trust ..
(1:46). matter to energy, transmuted energy to matter.
Any other question.

Q: .

K- No do not use

Q; What Gans combination are brain friendly.

K- I prefer not to get into ..

R:

Q: Brazil (1:48). .. about we are going to other places to teach other beings. .. how can we teach those beings and what will we teach to those beings.?

K- You will know when you arrive and the time and position and destination. In a way, you teach the correct ethos of Zoroaster and Mitra. (1:50). In a way, you ingrain in their souls, not through the voice, through the ears. The teaching of the man in the space will be through the knowledge of the soul which is gained through the .. travels ?? of the time and place. This is the process that we will learn. all of us .. will be the same in the new destination and time. We will learn to teach through our soul, not through the word and physicality. The man of planet Zeus do not know English or German, .. only understand the communication of the knowledge through the emotion of the soul. So don't worry about it, your soul knows what to teach and how they will take the structure and the way to work.

Difficult for people of this planet to learn

Q: ... (1:52). He is worried about the situation, most part of the people here on this planet that have a lot of difficulty to learn, even simple things. .. do we need to first elevate ourselves first here on this planet to try to start to learn something to others and how will be this process of elevation on this planet?

Recovering handicapped children in orphanages

K- It is very interesting. We were looking at the .. you have not seen this recording. It was taken in the orphanage (bed ridden handicap children) in Tehran .. about 3 weeks ago .. You look at the video today. We look at that video compared to a year and a half ago, when KS went to the orphanage. I explained that to some of our doctors who are analyzing everything. When we look at the videos from 1.5 years ago, (1:54). we see every bed is full with children. When we look .. 2 weeks ago, we see a number of the beds are empty, but you see the children are running around and playing. The head of the organization in a short interview, he tells you that the use of the pampers .. and a lot of things in the center has changed. We haven't done anything in the center. We introduced the T in a very rapid free way that not only protected the children and the staff, in other centers run by the same organizations, the other orphanages they have had up to 80% Corona and deaths in their orphanages.

This orphanage from the beginning of Corona has had no infection, not only the children, but not even the staff. .. but the beauty of it is, we transferred energy to the soul of the children, and they become alert and .. wise. They do not want to be wearing pampers anymore. they have matured both in soul and physicality. We grew the brain, and we grew the soul, and they become respectful for themselves. You have to understand a child may not talk to you, because he is handicapped, but he feels the shame of getting wet, when he is there and he has no control. Now he has his dignity back, he understands it. The next phase, thanks to the KS of Iran and thanks to our researchers, we have delivered 2 new units, (1:56). which now we transfer the energy directly to the children with the supervision of the doctors and everybody in the hospital, in the orphanage. We want to see how these children will change. we are monitoring .

.. how much they grow in their soul, that it reflects in the maturity of their physicality. Would they become through the introduction of this new T, much more elevated than most of the KS who have been around the KF for years. 100% they will. The beauty of it is, because these children have been through the process, and it is part of their memory, when they recover fully, they become the ambassadors of the new knowledge, because they recovered through it, they understand it, and we'll teach them to go to the other orphanages around the world to teach from Iran to the others. You will see a shrinkage of the number of children kept in orphanages as handicaps. because we done it in Iran .. there are 100 children. WE are monitoring how many of them respond to getting educated, instead of being in .. bed cages for the rest of their lives.

.. this video will be released .. In due course we'll release it. Not many children should have autism and families to suffer with it. Not many children should suffer all the brain damages through the birth, (1:58). that the parents leave them in front of the churches and orphanages, as we have seen for centuries.

(2:00).

Q: Azar..

(2:04).

K-

The implication is a person walking out of institution and living on his own ..

(2:06).

(2:08).

I hope I answered your question, but soon we'll have the video.

.. 10 of the 100 (not respond) the rest will change their lives. they'll become man in the society, and then we have to teach them the ways of living .. They have no fathers, mothers we take them in the KF factories to become part of the society, where we change the soul, and we nourish the soul with the new structure of the KF, (2:10). in organizations we set up, in the coming time .

It's good times ahead. Whenever I look at the atrocities of the past 2 -3 weeks, I come across to know, I look at this video, and I say there is still a hope for the man. There is still hope to change the murder leaders of our nations in the state, and other states to become the true man of peace. It's very sad to see these things but it is joyful to see that we can for the first time make the change. Not by injections, not by nothing else but by elevation of the soul.

Thank you .. I am sure the Iran KS are dying to get this video shown, but it is not the time for it yet, a few more weeks when we'll see more changes that we understand how it touches the soul, and it changes the physicality.

Q:

K- it's all of us we are doing it collectively

(2:12)

Any other question

Every G field has M field with it

Q: When polarity changes of a PI does the M field become G, and G to M?

K- The thing is every G field has a M field with it.

When M switches to G - means only same field has changed directions

The switching comes as a same field, but a changed direction. Part of the change of polarity of the PI, is not that the fields totally rotate to the other position, it's the switching between the M and G field of the same thing.

If you go back to the ... the KS teaching in the past where we show, that every M field has a G field, if you look at the Fe dust around the magnet, you see the space gap. Those space gaps are G fields, which are coming in to add to, to become stronger from the lower to attract more.

This we'll explain in the future, because it's a very complicated, but very simple and I have taught it before. Then we teach it into the process of T&T. This is a part of the knowledge, which we would like to open up, but mankind is not ready for this, mankind's knowledge has been trapped in this process of T&T, (2:14). of movement of the field. And it's for us to in so many ways, explain it, but it is very hard due to the false, and lack of understanding of the past to bring it to light.

You have the M field forces (FF), you have G FF, as we said, it's the same fields in circles. But if you go back to the Fe dust, there is space gap here, between your Fe dust fields as I call it, if you remember, you've seen it, and it is the same with your other end, where you have M fields coming out too, in between. Go back to the law of physics of the plasma, if you are coming in here, it means you carry stronger fields, and the Pl field of the earth's center is weaker, so you add to it. But you have a flow of the fields which what I call, are going in, and again, another stronger field feeding the weaker. We feed one visual G, what you call S Pole, we feed one G from the space gap (of the N Pole) too. (2:16). So the center continuously receives fields from both directions. Not the assumption of what we thought. It's M, all going the same direction. So when these fields reaches saturation point of the field strength according to its environment of what I call, balanced fields, all it does, is it switches over. And that switch over, its become M, but with the same strength fields.

It's the same as what I said, you can make a CO₂ with Cu and Zn, with the difference of the C or you can make CO₂ with 2 different metals, if you achieve the same Gans CO₂ M field balance. In a way, your CO₂ are the same, but different field strength according to what material or what salt you use. The same is here, different strengths coming, and it links up, and it becomes M, the same with the G on the other end.

Then you understand, the switching over, saturation point, is something I have spoken before, now maybe for the first time you understand, how it happens. The totality mixes, and it come out more powerful. It's the same process, because you are continuously feeding 2 systems and then you are mixing it.

If you look at it, you have a Pl which is getting fed all the time, and in that process, it creates new stronger, that it goes out, but if you look at it, in a way, it's 2 way traffic, the ones that are going this way, and the ones which are coming this way. In the process of the dynamic Pl of the center of the earth, they, like the light we see on the interaction of the fields of the earth, (2:18). the Inertia of the Pl of the center of the planet creates new lights, which some of it, in this center are the strength field of the other fields, so they come back stronger as we see.

And depends in the direction of the flow of it. This direction of flow is very important, but in the present what we call world of science they have only thought of this (shows the first picture) that's where the confusion is.

Because again we are materialistic, when we look at the magnet and the magnetic dust we always looked at the shape of the line of the dust, we never considered what's in between,

separation of them, which is the field which goes in, that's why it creates ?? Once the scientists understand this then you can know and understand how field changes. Doesn't actually change, it's a residue change, if you go into the center of the earth, it's as shiny bright as what we have on the planet earth, on the surface, because it's where the fields get mixed up.

The magma is part of that process of slowing down the fields, that when they get to the center they come of the right order for the G field strength of this planet, in this position in time in the U. What is more stronger is reflected out and we see as the field of G and M, the same process. The knowledge is very deep, understanding it is a little bit hard. Any other question (2:20).

Q: .. If 2 things have the same color, does that mean they have the same strength?

K- ... Not necessarily, but partially yes.

R: How do you mean partially yes.

K- You see we create a light, it's exactly to what I was just explaining. You create the light, that red color through the G fields, or do you create it on the M field? ... It could be the red, both, but as we say in a physical physics term, on what shift? .. The red in the G is very different than the red in M. This is a process of the understanding of the knowledge of the physics.

R: is that like the idea of reflected light versus emitted light?

K- It's not reflective, it's a true light. It's a true light, but G red is different than the M red.

When you come to see the transmutation system, once it gets done in the lab, we have fixed 2 lights, I think it's blue and green, (2:22). or blue and white .. sorry red and blue. When the transmutation system is sending an object from one to another, one side the blue light is on, which means they are transmitting, they are sending their field energy. The other unit is on the red, which means it is receiving G fields. The same system is switched through a specific combination, that then .. you receive a package, and then you want to take something out of it, and send the package back empty, or something else in it. Now the system, which was red, becomes blue, and the system which was blue becomes red. Becomes a transmitter and a receiver. Now you understand how deeply we have developed this T, we can even tell you the colors which is on ?? balls of the transmutation. .. the T is very deep. .. you will see it in Linz ... that you will know which unit is transmitting and which unit is receiving. There is no wire connection. We understand the process, they say, how come the light changes from blue to red, or red to blue?

The new transmutation technologies works on understanding this light. Irrespective of what could be the containment. A dollar note is a dollar note, if you roll it, put it in a box, (2:24). flatten it and put it in an envelop, or put it in a box of water and sending it through. What is received at the end is s dollar. So it is the same. The box you don't look at it.

The process of transitional field strength in a given strength you look at. In one of the researches in past few days we have seen through the EU direct evolution between the

soul, energy of the soul and the STP, and the reaction of the STP accepting the emotion of the soul. It's very interesting, observing these kind of developments and researches, then you see which way, what is moving, in which direction, and then would the physicality accept that change. Is the biggest dilemma. That's the Inertia which has to change, has to change, if you want it. It's the same with the cancer, if the STP and the STM reach agreement, but Inertia of the field decides no, I want to create my own way, you get the conflict, and you get the cancer.

But can we elevate it, .. change it, can we bring it, again this has to be acceptable by both in the terms of the situation. It's like if you give me the ice cream I stay. If I don't get the ice cream, I don't feel happy, I go.

Any other question. (2:26).

Q: how do we understand to match with the Inertia strength of a distant planet if we have not been there before?

repeats..

K- Your soul decides. You will understand, now you have to understand the emotion of the soul, not the language of the soul. Does the soul feel happy? You want to go, but it says I don't have the energy to manifest in this place, choose somewhere else. You know, there is no space in this car park go to another level, as we call it. Because it doesn't match or he feels the energy he receives from the soul of the planet is not to be either, even though I like to be there, but the soul doesn't allow you. It's just like a mother not letting the child touch the fire.

But in essence the knowledge is carried by the D of the soul of totality. This is why mankind is joining the U Community, not the earth community. (2:28).

This is the Community that has all the knowledge. Nowadays you go on the computer , you Google it and see the knowledge what others have achieved. I want to go to this restaurant, you tap it in. How many stars does it got, what services it has, ... But that knowledge in the soul is universal knowledge, you don't need to tap on, it's freely available. Then you decide. You got to learn a lot. Mankind has a huge transformation to go through, from the D of physicality, to accept the soul, then in, that soul has already graduated from every university in the U.

Any other question

Q: Salomea ... may I give them our solution for heating and electricity bill reduction?

K- You can do what you like, if they listen, it's a different matter.

Any other question

... (2:30).

This is the first production from the KF studios in Linz. It's a good trial. ..

Would you like to share it. KFTV .. completely operational hopefully next week or 2.

Jazz orchestra.

Plays video. .. (2:32).

Proofed to here >>>

KF restructured - KF Sales - new logo

K- .. You will see a new logo, a new name appears on KF. (2:34). KF has separated its arm of sales, and promotion, away from the KF Austria, and internationally we work under the registered company of KF Sales. Which again allows us to internationally market the KF in a totally different way, as an independent company, as we restructured the whole KF worldwide. KF Sales carries its own logo . and it's copyrighted.. Please do not copy it, because we start taking legal action we promote new sales structure worldwide ..

R; I wanted to get your comment, (2:36). on the use of this machine. How do you use it ...

K- When you put 2 different mixtures in the room you'll feel it. It's a dynamic system. When you place it as it is, instead of the center unit, it's your soul. We used to ... this has a different system it creates a field deviation .. there is a motor in it, which behaves like the Inertia system.

(2:38).

(2:40).

We have to start trusting in what our soul brings us.

(2:42).

Try to learn use the KF products in conjunction with each other, not separate, and see what changes can create.

Any other question (2:44).

Q: (shows picture) I have on the surface like mold

I collected AA of CL 2 ..

Who decided on creating the soul in AA of CL2 AA of my hair. ..

Who decided the manifestation of ..

K- If you are the creator of it. You are the creator of it if you set it up, with intention to set it up. You become the participant in it, but interaction of the other fields of the water or other environment which the cup is. decide the rest of it. You are the sperm the rest is the egg.

When you have the child born, a soul created, You bring an egg and a sperm. When you create these systems (2:46). partially is your soul interaction, it's your baby, and the rest of it is the, what I call the egg of the U, or the environment there, what you put together to be there, and plus what is there without you having any say in it.

If the cat licked the cup before you filled it up, but you didn't see it, and you get a different Gans when you put it, that saliva of the cat on the cup has an effect on the soul you have created.

R: in the case of fungus we have invisible microbes around us, or energy packages .. if they are accidentally ..

K- this is not a fungus (in picture of cup) This is another Pl creation, very much like a cloud. Creating fungus on Gans materials, unless it is a very specific condition, which you create an AA base of it, which is on the surface of these containers, usually is very difficult. It becomes .. fungus which are beyond, usually. it depends what you call a fungus. A fungus is physical matter energy existence. Then if you define it that way, you will see how you give it shape of the physicality. (2:48).

If you look at the structure of the funguses it gives you a lot of knowledge information about the life of that structure and the energy around it. When you see for example funguses on the nail for example, you see strips getting cut, or waves created, how the wave energy will go on the nail.

Mushrooms energy

If you see funguses as a mushroom, why do they have that umbrella effect, like what I call a nuclear bomb. If you look at the mushrooms around the world, the shape of the mushroom gives you a lot of knowledge about the environment field forces, which are available for production of it. ... why do we get small tiny mushrooms, the day after the rain, in the fields?

If you understand what I call the Hiroshima bomb, if you look at the structure of it, the mushroom, why does it have a shape of mushroom ??, energy field transfer, because it is mainly is a field dynamic interaction. When I look at a mushroom, I look at it from a nuclear interaction ?? field energies, and they are mysterious fields with the D of the strength of the same, and it's amazing how this planet can replicate this, from billions and billions of mushrooms everyday. (2:50). And how it changes, how we get specific mushrooms in a specific time condition, and in the same area. What does it create that it absorbs the energy field, and only that way, it manifests itself.

You call it the dust of the mushrooms spreading and they grow in other places, but you have to create the field difference interaction. And why do the mushrooms have this shape?

Any other question

Q: Fungus Gans Is it important to have the AA of Cu ..

K-
It's not CuO it's a very specific mixture
(2:52).

Before we used to give the knowledge very freely, now we spread the knowledge. ..

black fungus

(2:54).

Anywhere you see creation of the fungus this material

(2:56).

what we put out allows us to understand more to put in the EU

Burn Unit

.. we'll bring what I call a burn unit, most probably after Christmas, we're too busy with other things. If you have somebody with burns from a fire, we just put them in this machine and we expect within 2 - 3 days, doesn't matter what degree of burn, to walk away with no scars. We have done it before, it's not something we hope to, now we demonstrate it into the machine system, that it can be replicated anywhere. When you go to a hospital maybe next year or 2, they have a KF burn unit.

. we just put you in there you won't feel any pain, the healing will be very rapid, and you walk out with no scars.

(2:58).

Q: Does the vision EU improve the optic nerve?

K- We work with the soul. What improves depends on the physicality. What you don't want to see. .. it is now marketed at 250,000 .. it's not on website.

48 of these allocated for AZ. (3:00).

Q: Salomea .. free energy

K- Read 2 or 3 chapters in Book 3 should be understanding it. .. conversion of energy to manifestation of matter state. If you read the last

(3:02). Q:

K- When you get to 3rd book you might understand.

Any other question

R; EU in competition ..

K- We are in the process to do with NASA KF in different KF has negotiated with NASA scientists to meet at AZ center in the coming weeks. We'll meet

Release T through Markray

(3:04). If you read the disclosures at Markray, in the sections, that we have already preset this arrangement to transfer T according to Markray, and this is one of the purposes of it to share with American space agencies and American government, in a pre-agreement

intellectual rights, this brings us a totally different D with working with NASA and American organizations and all teachings and beyond will be shared in AZ.
carry on

R: Create the future contest ..
top 2 position

(3:06).

K- Yes but we had a lot of KS who could not vote .. a lot of votes of the Iranian not allowed (3:08).
we don't know what the true figure is
We are used to the American fraud voting system from the presidential to NASA, so

R: The popular vote is the first time

K- You got to understand if the judges are told do not take KF design, or a number of them you can never do, We seen this with the Nobel Prize, They were told an Iranian scientist cannot receive a Nobel Prize.
professors resigned their position

R:

(3:10).

K- I think 2 of the professors who resigned their position will one day come and speak, because we have their communication. One

Like 9/11, now they opened the book this week from FBI, we know exactly who was behind it, how it was setup, and who knew what. Then the Americans for years brought it to be the Iranians, and billions of dollars of damages. We seen the same thing in Belgium

they'll open the book

How they took Markray when we opened 3 years ago, that the White house had to interfere. .. we'll see it ..

Don't forget NASA is anti KF, totally. As you know

(3:12).

NASA scientists have a huge problem to try and copy KF T and bring it into it. They can't do anything with it, because they can't claim anything with it, even they are getting the results. are successful using ?? but they say the T has come from another source. It's very interesting how KS in different parts of the world will bring the T out. They have brought out .. It's the first time in recent past that one of the leading nations of world has come to the KF and asked the KF that this KS is bringing this T to us, can you please ratify that it is yours and he has to come through you. I was very surprised to see this, from one of the leading nations on this planet in past few weeks. One of the KS went to promote his T and openly saying it was KF T. And government officials came to us ..

.. how things are changing. We respect the honesty of the government. (3:14). Because they tried everything and now KS who go to say they have something .. .

I love this EU The new EU have lost their front end ..

reduced by 1 meter in length

(3:16).

2nd Beyond Books Publication Athens Greece.

K- We gave a talk to this group, this conference .. Philippines a few months ago .

We try to collaborate with as many KS with different applications (3:18).

Q: .. I have one of the EU on order. I have talked to our city about EU.

K- You have to speak to John, he is responsible for all US for EU

Any other question

Q: (3:20). What then is the best way to overcome the daily struggle

poisons or 5G are the butterflies .. to eventually

K- These are part of the tools we show you to find the way Many KS are developing new T to do it

(3:22).

(3:26).

(3:28).

We deliver 48 VEU directly into America simultaneously with Tehran. We couldn't do more than this. Transferring T piece by piece. But you have to understand it, and .. if you go into new publications KF has signed itself into American companies to transfer T and we are getting paid for it, it is not done by pleasure. This way when you pay for it, you respect it. When it is given you have no respect for it. We'll see more. We see UC wishes for to achieve peace will become fundamental for peace .. us in the KF wishes of UC ... We have informed our leaders the same it's a handshake of peace. (3:30). the new vision T in the hand, the premises of the KF AZ we transfer to US, the same time to the Chinese.

We start talking peace and transferring T ..

This is the wisdom wishes of all you KS we are just the tools to deliver your wishes.

Completed the circle

thank you for today.

Maybe for the first time some of you see the light

Thank you Rick for your relentless support and being there all the time.

R: (3:32).

K-

See you next week

R:

398 KSW Sept 16, 2021

END
