Training humans as Messengers of Creator

## **ENGLISH TRANSCRIPTION**

Cycle of Creation video

(:28) K-

I asked the intro about the soul to be played, because today we bring a distinct line between what is in the intro, and what is in the process of the extension of the knowledge of the man. Up to now when we spoke about the soul, the soul live in the body of the man as a light, to become another plasma (PI), to become the source of creation of another cycle of life, another seed, for another cycle. This is what the knowledge was. This is what we could teach you till then.

With the new understanding of past few weeks, there is an extension to this teaching, there is an extension to this understanding. Up to then, as you understood, you could leave the body, and that was the beginning of another cycle in the process of gathering of the energy of the field of U, (:30). within the cocoon of the brain of the man. A black hole, which when it was released became a U, it became a galaxy, it became a star. But that was beginning of a cycle, now what we have taught you in the past few weeks, is we don't go through that process.

We showed you another process, to be able to move this soul to dimensions and positions where you want, without becoming a star. You'll still be in charge, you still it's part of you. You come to be, to travel with the light, to manifest yourself in another point and destination, but this time you have a control. The soul of physicality (STP) of the man has chosen not to separate totality, in essence from his soul.

We travel from London to Tehran, we still get the same physical body when we arrive, (as) when we left. In this process we travel with the light instead of using the means of transportation of today, we use the means of ?? transmutation, which is embedded in us. When we arrive in Tehran we are still us, the same clothes, the same suit case, hairdo and the rest of it. But this time when we travel to the position of the destination in the U. Because of the different conditions and atmosphere, we have to manifest ourselves in different ways.

We move from London and sunny, and suddenly we land in Tehran, it's snow and rain. We put a jacket and raincoat on. We adapt ourselves to the new environment, that we feel

good, But when we arrive in the port of destination traveling with the soul of the man (STM), (:32). what happens then?

This is what I put in the other teaching in past few weeks, what then? What is our manifestation then, 2 arms and 2 legs, does not suffice, an eye, and lips, and mouth, and taste has no meaning, What then? How do we manifest ourselves, what then? Or do we manifest ourselves in D of physicality of the point and the place. And now we see the soul coming to us, the body is different, but the soul is the same. The body has changed to the D of the environment, but the soul is the same. The STP and STM are the same, but the physicality has changed to suit the place. What then? What do we do?

What happens when you touch one part of your body and it is a stranger to you, because this is not the body you had, 2 arms and 2 legs on earth. What then? How do we adjust ourselves to the new texture, .. feature, .. shape. Can we accept it? Can we understand it is still us? It is still within it, it is the STM, which you created the seed of it on earth. Now it hasn't come to demise, it's chosen a new place, a new D, a new environment. What then?

They speak different languages and have different understanding of communication, what then? (:34). Do we have to go to classes to go as foreigners, to go to learn the language? Or by approaching and reaching the point of physicality we carry the knowledge, we carry the essence of the creation at the point and time. As I said before, those who enter the D of the physical transmutation through the soul, the STP, going from London speaking English, and into Tehran speaking Farsi, the ?? transmute to, they know the language the way the ?? ?? a poetry, the love of the language. What then?

Would we understand the poetry of the land, where we land in the space of the U, or we are foreigners, or we have to go to night classes to learn language, to understand the culture, to be given a visa, to be able to stay. As our language and our culture is so better, than the others if you don't understand it, you are not allowed to stay.

But when land in the D of the soul, and the D of physicality you carry every attributes of the place, time, and position. You know the culture, you know the language, you know the way to communicate, and you know how to be, because your soul has been allowed to exist, so the soul of the environment and the community of where you've landed, gives you everything, like the way a mother teaches every thing to the child, but in the D of the soul. You never need to learn anything as it is part of you, as the soul has to accept it. And then what's then? Would you fall in love with the D of existence. Would your DNA change, (:36). because in that position in time you need different composition to be able to survive. What then?

How would it feel? It's like waking out of coma. In the process of being in coma, they have done different operations, they took a skin from your leg and put it on your hands, and the feeling is different. "This is not the feeling I knew, this is not the touch I knew," it's different. I feel I am there, but the physicality is not the same. I feel it's me, but the physicality, the touch, the smell is different. What then? How would man cope with this. Or would you freak out and return back to earth, because this is what I know, this is what

I want to have and stay. What then? How would your STP in the D of the STM, accepts the new condition, the new touch, .. smell, the new emotions, the new language, and you find yourself fluent in it before even you talk. What then?

Then would the man become the true man of U, and through it he has joined the U Community? Or do I become, or do we all become the expatriate as we call it, we travel with UFOs, and we gather together and when we land in a place, on the moon or in another position, we all stay together because we are humans. (:38). We carry the physicality of human and we walk around with the mask and the spacesuit, because we don't want to go through this transition. We go to night classes and learn, we try to understand new language and we open new dictionaries.

There are no dictionaries in the dimension (D) of the STM, as he understands all languages of the U, and is connected to all through his emotion. The position comes, what then? The truth is, what then? When the STM finds a new physicality to ?? ??, to be in touch with, to accept be the new D.

As I have said to you, those who have been around the KF in different teachings. The Messengers of God go through this phase, they get born in the physicality of the man at a point, time and D, the Soul of the Creator (STC) moves within. They feel strange, the physicality doesn't fit the body. In so many ways, the physicality does not connect, but it has to, because the STP has come to touch, and has come to fall in love, with the soul, which has taken a new place. It's a new touch you have to get adjusted to. It's a new feeling, a new body, it's a strange emotion, and then, what then?

All messengers of Creator go through the same, when the STC moves within their soul. Their physicality overnight, has to accept the new soul, which has got taste to another D and life, and now everything is strange to the STM and to the STP. But physicality is there and it has, and it needs to handle, (:40). the condition of the new soul within it. What then? Then the Creator speaks through the physicality of the man, as it is the only way it can be done. This is the way the Messengers of God release and inform the others, and they go through the same. They live, they create, they receive, the enlightenment through the soul, but their enlightenment is not just the message sometimes. Sometimes it is the STC within their soul, and the body is a stranger to them. It feels different. The feeling the touch is not the same, but the soul and physicality, and STP have to understand the new touch, the new way to connect and new way to interact.

Then according to the understanding of the time, space and the soul, different evolution of the cycle of the STM starts. More educated, then it connects to the other souls through them, for them to be educated. As you have been in other teachings I have explained, I have been through this 3 times to receive the final understanding. When you get up, when you wake up the body is a stranger to the soul, the touch is not there. It is not what I went to sleep with. This is not what I had, and it takes days to get used to. But you still carry on, you still try to live a normal life, but inside there is a war - "this is not me, I don't feel the same" I don't touch the same, .. speak .. understand the same. Then what happens then? (:42).

What happens to you when you land on a point, and destination and you get a new physicality. You have to adjust. To be able to survive within the environment of the time, position in the space and the strength of the fields. what then? Would you accept the new changes, or would you go through the cycle of understanding. Where on earth every 24 hours was one day, and now every 1000 hours is one day. Where am I going to find my 8 hours sleep, .. the D of the communication, or on this planet a 1000 hour day there is no sleep, because there is no need for. What then?

What and how would you feel then, miss home go back to the D of the soul, and the STP, and return back home to earth. Or accept, live, enjoy and understand the new position, and create a new life. It might last you a 1000 years one day, when you come back, those citizens of the earth are long gone in the D of physicality. And those who took the D of the soul come back, and if you see them, they are still the same, a thousand years later.

This is how we survived for thousands of years on this planet. We changed the frock of physicality to another D, to manifest ourselves in the shape of Moses, Christ, Mohammad and the rest, but in essence it's the same soul. The same D of STP, the same essence of the Creator. The knowledge, the understanding. Now you understand why we teach this way. (:44). That the man understands the new D of existence, once you decide to choose the path of the transportation and transmutation (T&T) through the STM, and not through the D of physicality of the matter state of the man. Life is different.

Then when you become the citizen of the new place, what then? Would you call mom, .. your lover, .. your child to come with me and see what a beautiful place this is. Would they come to see you, would you be able to transmute to them, the essence of the language and the knowledge of the position and the place through the soul and the connection you have, with your loved ones, to them, that they see the beauty of the new place and they join you. "Mom come to Tehran, it's so beautiful," I leave London and I get on a plane. They understand I get on my soul with the speed of the light of the U, I arrive to see what beauty my son sees. What have I missed that the new D has brought.

This is the truth that many of you will face in a short time to come. This is what many of you have to choose, this is what one of you who have ?? accepted the transportation through the soul can escape from. As I said, when you arrive at the destination, what then. What happened if you choose a civilization in knowledge and T years and years ahead of man, the knowledge man never knew. And you come back home, and you want to start a new T, (:46). to teach your others about what you have seen, and what you can teach. Then they become as advanced to do what they do.

In the recent talks in the UN we hear the .. Biden speaks about new T, new T, we need new T. The KF is that T, that the world leaders are looking for, and it will be on the table of talks. T in exchange for peace. The knowledge of U on the table for man, if the man becomes peaceful man. What then?

What is the essence of it? Why do we create all these physical interactions, to just get, to some, to bring the change that all understand. Can we reach the soul of all those created on this planet, and elevate them in one point? No - man has to learn it himself.

Man has to understand that it is he, who has to go through the evolution, it is he that has to understand the language of U. It's who he wants to be in the D of existence anywhere in the U. Be the same in the soul, and the STP, doesn't matter what the frock outside changes, 2 hands, 10 arms, 15 legs. No difference.

The true man, is the man who lives a simple life, but has the wealth of the U. The true man is the one who never changes, if sits on the table of the kings, or the peasants, still is the man. It's the way we teach you, and it's the way we live.

Now mankind has to understand what is for him to come. The king is the Creator, and the man, the peasant, (:48). is the physicality of the life we choose anywhere in the U. The soul is the same, the understanding is the same, it's what we carry within us which counts. What we give and we share is what we understand, is within us. The soul of the creation, the soul of knowledge, the soul of understanding the totality. The soul of being part of, the soul of being equal. What .. This is one of the reasons we create One Nation One Planet One Race, as it's not just for the man. It's the same across the U. There is one race across the Unicose, there is one nation, and it is only one Creator. It's just we change it to the word and the time, and place, that the citizens of the place and time understand and can relate to, but in essence the truth is the same across, it's just what you understand, what you grasp to be a part of.

As I've said in the teachings of the past what then? What then, you want to be? What then we bring to the environment we become part of. What then, we bring as a love to give, promote and share with the new citizens of our soul. Mankind needs to understand the process of the change, .. of what is to come.

Then there will not be death, there'll be all, all the same, (:50). irrespective of wearing a frock of a peasant of a king. You saw it with the Christ as a king, and we saw it with Mohammad as a merchant, but in fact, the soul within them was the same soul, and within the soul of the present prophets.

In a way, you have to understand changing the frock does not change the man, when it comes to the soul of the Creator. He chooses the frock. He chooses the physicality, but he sets the path.

But when he leaves the STM due to the failures of the man, we see the manifestation of the Moses, the killing machine. The most devastating soul ever existed in the D of time and place. One minute the king, and one minute the killing machine. This is why the love of God has been taken from the tribe of Moses, as his children never learned what was taught to them ?? and they repeated the same.

We test the fire with gold (gold with fire), and we test the man to see how good the man is, when we put him in front of gold, will he change. We tested the tribe of Moses again in the past decades, and they failed again, and they became the same killing machine as their master. So we end this tribe, that this blood cannot exist, if the D of the killing could not be erased from the essence of creation. In the time, (:52). no one should know this D and the name of Moses. As it is better to be in the love of Christ and Mohammad than those who have become killing machine in their name.

Mankind has to learn the same when he becomes the passengers of the space. Never touch, never take, what is not given to you. And at the same time, when you are given to, respect it, love it, care for it, and mature it. This is the way the Creator lives. Then it comes what then?

What then if after staying in the D, the position and place for awhile, you decide, it was a nice place. I want to see the other side of the U. I want to go to another U. I want to see more of the Creators dimensions.

Now hop back into the STP, and hop back into the soul, and then take another journey to another place and D, but in essence, within the STM, stays the STP with no D of destruction. Nothing but love, nothing but the love of the Creator. Then let's say you appear in another D where man was some thousands of years ago. As you have seen a lot, .. the changes in the U, and you choose it yourself, you become knowledgeable in front of the nomads. You can teach them about the cars, .. communications, (:54). but you can teach them about transformation and transportation through the soul. Which one would you teach? Would you let them to go through the process of physicality and suffering to educate them over thousands of years. Or you teach them directly, the essence of the creation of the soul, transportation and transmutation through the STM. Then, what then?

Would you become the true teacher, .. the true KS, that in seeking the best for those you teach the knowledge, becomes the advantage for them to live, to become better beings, to become a new D in life. What then? What then if you decide after awhile, when you educated all these you go to another place. You come to a new city, a new D, a planet, or D in space that there is no physicality, except D of the fields of the U, and what then?

In essence man should stay the same, it does not matter where and how you manifest yourself. Man has to become the man of peace, .. love, and the man of Christ, and the man of Zoroaster - think good, do good, and every thing will be good. Because you may not talk, because you communicate through the D of the soul, understanding does not need talk.

In essence, how do we live, in essence how do we find the new cycle of life for us, (:56). where the demise of, and separation has not come, the way man dies in the new D, without his control, it is decided by outside. This time we decide. The D of STP decides the D of the position space and time, where the soul will manifest itself. The soul becomes the craft, and the STP within becomes the captain and decides, "hey soul, let's land on this planet." "Hey, soul let's see how it will feel if we become physical in this

space and time," where there is not planet. Would we see a new creation, would we see a new civilization, which has chosen to live without D of the planet, and physicality, but in D of the fields of the U.

Mankind will live and come to these tribes. They are the most beautiful things you have ever seen. The most peaceful tribes, the most peaceful creation ever done by the Creator. Those of you who have the privilege to come across the, what I call, the cultures of the universal energy and fields, in the culture of entity, of community. You have in essence touched the physicality, and the D of the soul and emotion of the Creator. As they have no D of physicality, they have a peaceful life, and they will teach your soul. Not many will ever be lucky enough to come across these, across the travelers of the U and Unicoise. But when you come across them you are privileged, because you come closest to way, the Creator of the fields of the U is. They don't need to do anything, they receive as it passes them, and they give as they don't need. (:58). They don't need the D of physicality that one day they might see their demise. They live for billions of years. Some of these tribes come from the time of the first fields of the creation. They are old, they are ancient, that's why they are called ?? Their real term, time life, going back to the time of the Creator, the first fields where there was no D of physicality, had still not taken shape. The fields are so much higher, that they don't need to convert to any D, in the D of the STP. Count yourself lucky, if you manage to travel in the D of the soul, and then you ever come across the true life without D of physicality, within the spans of the U, when you come across these communities. You feel them, they love you, and you love them with it. They give you the knowledge of the U in one instance. As their fields, in the span of their fields, covers the whole of Unicoise. Then if you are lucky enough, and you have elevated to the point of understanding through them, you shall see the fields of the Creator. You become lucky to be in touch, to be able to feel the emotions of the Creator, the love which is overwhelming for every soul, which ever created, and being created. This is what that is, what then?

What is the future of the man in the space. What then? (1:00). What is the future of the man in traveling in the D of the soul, what then? Would man in the D of the soul, create the children of the Unicoise, and with it, start the new cycle. A new cycle of life, which lives in understanding the D of physicality and D of the soul, from the outset, from the beginning, the Mitra, understanding the soul of unique, complete life. In time mankind will understand the teaching of today. In time when we have shown you from A to Z. What then?

What then will be and how then, shall be controlled by the STP of the man, embedded in the STM, where the interaction of the 2 creates the emotion of the physicality, and the emotion of the light, in T&T in the U.

The question for the KS is, shall I let the soul separate from the D of physicality of the physical life, and be what we know as death, or should I allow my soul and the STP, to become the passenger of the U, that one day, when the 2 agree I'll go through the process of the STM, to become that star. Or in the process of what then, in gathering more fields of the U, in understanding that you receive as you give, then instead of a star, (1:02). you

become the fields of a U. You become the field creation of the galaxy, and then you become part of the structure of the Unicose. What then?

Go through the path of the mankind in the D of physicality, and you might become the seed of the sun, or go through the D of transportation and transmutation, understanding educating the soul, and become the soul of a U. This time the choice is man's choice. This time, the life will change in the D, that the man can not understand, but the STM is fully aware of his existence. What then?

That then, is today in front of you. That then, is what is facing you, right in your face. Do I want to go through the separation of the totality of the physicality and the soul at the point of death. Or I decide, that I collaborate, and I live within the strength of the STM with the STP of the man, and have the opportunity maybe, maybe, a grass shoot, to see the fields of the creation of the Creator, in the D of the Unicose. Then maybe my soul will separate in that D and directly become part of the soul of the Creator. Then I made man in the image of Myself, as the man has become Me, (1:04). and part. What then?

What then in the light and rays of the love of the Creator, spanning the spans of the Unicose, leads to creation of another man through the soul of the Creator. Maybe on planet earth. Then, what then? The cycle never finishes. It's the man who decides in which part of the trip to get out of the bus, and decides to live at this bus stop, and spends some time here, and the next bus for tomorrow, while I am enjoying the scenery of the new ?? ?? the new point and D. Maybe tomorrow or next month I get on the bus and move to the next city, next village, next destination to start a new life.

This is the story of the STM in the D of understanding the STP. Maybe we have brought from the A to Z of the vocabulary of the understanding of the creation to you today, if you understood. If you matured enough to understand what is to come. What the, where does the limitation stops, and where does the limitation starts. Then ask yourself why mankind has been chosen such a ?? on this planet, for hundreds of thousands of years, for a short time of a few seconds of the time of the U, to become the seed for another point, D , and life. (1:06). Maybe because the STM carries the love of the soul of the Creator within it, and that love tolerates all, till you reaches the point of totality, to become the teacher of the rest in the D of Unicose. Preparing the STM to become the teachers of the future, but this time I could teach you, understanding everything and the peace ?? religion.

As I said, in the past teachings, the new teachings are very deep, if one understands, and if one doesn't understand, it's a game, the same as the others. Just a sound, just a voice and a fairytale for those who live in the D of physicality of the man. In understanding the totality mankind has come, mankind has to come to understand the position, time, and space of the U. His position within the U, the position of his STP, and the STM, and then maybe we have time to teach you more. Maybe then we can teach you the essence of the creation and the Creator.

Today's teaching is very deep if you understand it, and today's teaching is much closer to understand the Creator and the travel in the depth of the U. Do not listen to the words understand the essence and you'll be enlightened.

Thank you Rick if you like to go for a break (1:08).

K- (1:18).

to understand what is to, and understand how life on this planet will change

Shows video of new center in Linz (1:21).

K- new home for KF if you noticed above the building is structure of UFO. On this building there are 2 UFO structures. We have brought you to the door but we have not taken you in. We open the doors on 2nd Oct 9 o'clock.

(1:22).

In so many ways, we have reached a permanent understanding of the T. Maybe in the very near future man will take off from this position into space. The units what you have been dreaming for are within this center ... (1:24).

Otherwise it is a bottle, tube and ball.

Please inform us before you come in, as we control everything. .. the nation of Austria is under Corona protection alert. You need to have vaccination, and alert, what they call the 3 Gs otherwise you'll not be allowed in. You have to have a certificate of, what government of Austria has asked us to have, and an entrance you have to show your test.. then you'll be allowed in exhibition.

Self-testing on the spot.

This is 2 days of workshop ..

(1:26). What we call UFO has landed, about the doors you will see it. The beauty of it is, the knowledge of Creator has landed for humanity. It's for us to understand it. Once you walk through this door the matter state of the man finishes and the new cycle of life .. has started .

This exhibition is open 5 days a week.

Some of the richest men in world have already booked to be here .

As world dignitaries come don't want to be seen we lock down.  
you have to wait some hours till they leave .

The world has moved on and we move with it. In a way, the time of man becoming  
travelers of U has started, and many of us will be educated, (1:28). within the womb of  
this center in the coming months to come.

We will not broadcast live.

You got to understand KF has many enemies who are working, paid by governments to  
discredit KF, and to do all sorts of things, so we are very careful we already been  
attacked by couple of pedophiles in Linz and Germany, who found out where the center  
is, (1:30). before we announced it, and they tried to effect, but actually gave us better  
understanding to the people, that how the situation is. Even people in Linz didn't know  
this, are part of pedophile groups. It was amazing to see how things have changed ..

You will see for first time Vertical and Horizontal EU.

I now you are waiting for Friday, for a good news, maybe you'll be part of a space  
program.

R: Yes, I put out a poster (1:32). Create the future design contest . Spaceship Unit is  
second. Now judges are doing have final say who actually wins.  
Announce all winners Friday 24th. ..

K- would you like to put on screen

R: ... (1:34).

K- Where are we to be if NASA accepts KF T to be.

R: They will either accept it or totally reject it. (1:36) .

.. even their own people are saying plasma and plasma ..

K- Yeah, but NASA has a plasma program for space. They are trying to create a PI  
propulsion.

R: Trying .. this where they need a booster ..

K- Yeah but NASA is headed by the most frequent astronaut as pilot is from S. America  
.. I have spoken with him and his family. (1:38). He is a great advocate of PI T but most  
of the astronauts when they come off the line of duty, they are given other position to be  
steady more with NASA. They made him in charge of propulsion ..

Any other news .. How are you going to share the prize.

We'll see many KS in the exhibition ..

R: Greek conference

K- (1:40).

R: 2nd Beyond Books Publication registration (1:42).

## QUESTIONS:

Q: .. (1:44). Spanish .. (1:46). ..

.. about everything you have mentioned about the soul and everything. That in which we have advanced in the KF. how the soul can leave, you spoke a lot about physicality today. (1:48). all that which the KF is bringing for us. How can we tell others about this. K- Educate them . .If you go to people and just say, they laugh at you. The way we educated you .. educate them.

Q: I understand about education (1:50).

She is concerned because her mother .. experimental Covid shot ..

K- We do not interfere. We try not to discuss

### **Taught how to make light in palm of hand**

K- Let me explain for some of you. Go back to some of the teachings in Barletta, in Italy some 3 - 4 years ago ..

In the teaching, we explained about a position, where you can hold your hand and create light in the palm of your hand. For the training purposes, (1:52). for man to understand to go through the next phase of evolution of expansion of the STM. Go back to the teaching of the ?? hand, where we explained, that you can look in palm of hand and create gold, where you look in the palm of the hand and you'll see light.

This light can be the boundary of your soul. In a way, you extend your soul's boundary to palm of hand. If you hold your hand out, if you hold your hand above your hand and understand to create this condition of light, you will extend the fields of your soul beyond the physical boundary.

This is why we always see the prophet of God holding their hands to the Creator, it's the time when they can extend their souls beyond their physical boundary, and then the knowledge is received is the knowledge of the Creator, through the STM. This is why we do this, .. if you see man always looks at the physicality. If you can hold your hand out, it is the furthest and the longest position in your body, that can create that dome across, around your body.

When we raise our hand, and you can create the transfer, the extension of the STM to the D of the physicality, then you can cover the total physicality, and then you become the light. You become the soul overtaking the physical body of the man.

There is a reason hidden in the structure of the palm of the hand of the man, which man is not aware of it yet. (1:54). It's the center point of the energy of the STP, if it needs to be transferred, and you can bring it in interaction with the STM, and you create that light. You become invisible within the boundary of that light.

If you hold your fingers towards yourself when you are creating that light, your fingers become the boundary, and the light will cover and you become in new D. The beauty of it is, that you become that ray, like that arrow, where the STM sits within the center of its life, and you can use it for T&T, as the STP dictates the position and the place where the soul has to go. Operation through the emotion and the mind of the man, and the STM.

So in the coming time we'll teach you to go back to those teachings, to extend your soul to the palm of your hand, and with it, will cover the whole of your physicality. Or become like the prophet, raise your hand, and then you become a sharper ray, you can travel faster within, you can receive more of higher order, what I call, knowledge.

This is why, I repeat again, the prophets always raised their hand, because they extended the soul to the D of the STP, in the D of physicality of the man. So if you are practicing to be able to extend your soul, learn how to transmute that energy through the D of STP, which is the blood.

If you look at it, when you hold your hand and it's folded right in half, the right way, (1:56). you are holding a Pl, .. a sphere of Pl.

That can be the D, that we said, where the Inertia meets the STM, in that position you can create to extend the STM to cover the physicality. Mankind still is not aware of a lot of potentials with his own physical D. In time we learn, that we can convert these energies to anything we like. If we like food, because we always feed ourselves with our hands. Get the energy of the U within the palm of your hand. Create a ?? field within it, with interaction of the STP and STM, that it absorbs what you need, because through the circulation of the blood, the body knows what it needs, what fields, and feed yourself.

Mankind does not need to kill with his hand to feed the man. Mankind needs to understand the power, which is hidden within the hand of the man, to absorb the fields of the U, to feed the man through the cycle of the STM, and this is the beauty of it.

Hold your hand out, create the right condition and you'll see the extension of your souls, and for the first time you'll have the pleasure to become the light. We tried to teach it 4 or 5 years ago, but you were not ready for it.

Now some of you are ready to go through that transition, to become that light. But you have to understand, (1:58). don't do it because you want, and don't do it with a wish. You have to do it with total, what I call integrity of understanding the purpose of becoming the light.

Any other question

Q: ... about Mohammad question if you can cast your mind back to that time. Does Mr. Keshe know about Mohammad's night journey "shab eb miraja" , in which the Angel Gabriel ascended the 7th sky, is with the Prophet, but refused to go any further because

his body would not allow. How was Mohammad allowed to go further than the Angel Gabriel in the human form, and what are the 7 skies?

K- When you become the light, the fields of energy of the Creator you pass even the, anybody you call the guidelines, the guidance, those who are to guide you, because you know the way, more than they do. You know the path.

This guidance is the path to be able to meet with the Creator, and no other purpose, to see how pure is the light of the Creator, that it will become part of it.

You separate from your body, when you reach that point. In a way, you, the physicality is no matter, you see you leave the physicality behind, and anything which is connected to D of physicality, (2:00). and you become the light, and in interaction of the STM, with the soul of the ?? Creator, what created that, what we call, "the light of knowledge" the what you call, it has been explained as a fire in the different shapes and forms, in the different understandings. When you've been given the status of prophet of what we call, STM in the D of the totality, you become aware of a knowledge beyond the knowledge of the physical life of the man, and then you have, and you enter a totally different D. Mohammad was in essence pure in the soul, and he could go to reach the level of being part of the Creator.

The only Messenger in the human race we know, who has not made that final connection to the soul of Creator, in D of his time, was Moses, because of the crimes he committed. Moses has no station, manifestation of the Creator as a prophet. He lost it when he chose the path of ?? Mohammad went to an extent that way, but Mohammad went into extension of converting people to become the believer in the Creator, which was different than Moses, (2:02). which was revenge and total destruction.

Any other question

Q: Ed .. to what extent of understanding the ethos of the Creator of U effect the implementation of the P I T in the physical realm?

K- All of it. If you understand the knowledge of Creator, it's the knowledge of what you call plasma T. It's a way, a path to reach that point. It's a T which leads you to that point, but this T is not hammer and nails and aircrafts. It's a knowledge and T in the work of the U in the D of the fields of the U. We have unfortunately, no transformers and no screw drivers.

Q: So if one does not carry the ethos of the U, there will just be a limitation on their ability to implement the T in the D of ... ? (2:04).

K- Eventually man will find, will understand and implement it. Could be this century, could be next, could be tomorrow. It's understanding that some of the world leaders are reaching that point. So the world leaders are extensively ?? reaching that point, that man leads to the next cycle of knowledge and T. We have reached our limitations.

As I said, when you listen to the speech of .. Biden in opening of UN, he refers to the new T, that the new T can handle viruses. The White House is fully aware of the T which is on the table in the KF. It's just how to turn it. How to facilitate the new knowledge and

technology (K & T). The new administration is very bent backwards to bring new T, that it leads to peace. It's leads to new ?? and understanding not the physical D, but other D of work of the man. We don't need to work to live, but we can all learn new T and evolve in different ways and directions.

As he said in his speech, it's the first time in the administration of a US president, that US is not involved in any war across this planet. First time, since WWII. He has brought his nation under control, and he has withdrawn from all the points where there was wars, and he is withdrawing the totality. After 76 years, (2:06). it's the first time we see no wars where US has been or being involved in, and are withdrawing from all conditions.

Because they are aware a T is about to come, and we have made as I informed the Iranian leadership, we have made the facilities in past weeks, for full transfer of T to US and China. We have transferred by agreement, that the KF know-how and T will be transferred to Markray in signed agreements. And through it, we are ready to negotiate for transfer of T in exchange for permanent peace.

The same sits with the office of The President Xi of China and same in Moscow. European Community is the only community, which will not be involved in any of the space T, till the situation in Europe in respect to killing the scientists, is resolved in Brussels, sponsored by the state of Belgium. This is something the Germans, Italians, and French have to sort out, on the table of these negotiation. Normally, the only reason will be, if we give the knowledge these people will create war out of it. European Community will be kept out of any negotiations with space T, unless the situation with the state of Belgium, in killing scientists and stealing technologies, and all the things which goes with that nation. Brussels cannot be the center of a community with promotes and provokes, (2:08). killing of scientists, and wars, and other things which you know were announced by UN being the center of.

We will achieve transfer of knowledge and T. ... in past 48 hours KF has signed an agreement with Markray. We are ready to transfer T into KF Arizona according to the instruction and approval of .. Ayatollah K of Iran. That means we will discuss ?? and mankind will go into new D of K&T. It's the same with us, with the Chinese ...

.. same way with Brazil and Africa

(2:10).

We will see in the next few weeks, big changes. We will see the beginning of the development of the sharing of the T and everything else.

But as I said, European Community, even though we are in Linz will be totally isolated from this process in the what I call, ?? CIRIBRU organization, till the killing of scientists, (2:12). by this community has come to stop, because in the head of the European space agency sits one of the biggest murderer of scientist under the banner of the Belgium director. This has to be sorted out, they will not be allowed on any negotiation table till

this is sorted by Germany, Italy, and France. I told you they went to far, to create false court cases and everything and now it has come to bite them. There will be no state of Belgium as a Monarchy once we finish with them. As a democratic elected nation, will exist, but not as a monarchy. They have brought nothing but pain, suffering, killing and the rest of it. Now you understand exactly how mankind will move.

Q: ... as the leaders of the earth agree to peace, you will release the T to them, it is your decision. What I am wondering, is a man's elevation into the ethos of the Creator. Does that facilitate his ability to implement knowledge the Pl. (K- yes) . Is it simply a decision of the overseers of the U, to not allow man in ?

K- This is the decision of the world leaders on this planet. You have 2 decision, (2:14). I explained the same thing to the present Iranian leadership. We can choose to go through vaccination and enforce it, the way we see. Or we can go on the television and teach people how to make Cup 1 & 2, and in emergency cases other combinations of the thing, to walk away from this mayhem we see today.

Very simple. You put it on the television, right across how to make, how to help themselves, and see how many Corona cases there are reported, or is an evolution of. Or we go through the present mayhem. This is the decisions of our leaders to decide. Once they decide the correct way, the way that it helps people, then we'll see the next step.

The only difference with vaccination and no vaccination in a free environment society as we used to have it 2 years ago, is putting 5 to 10 minutes program on all the channels of the TV's around the world to our teach people how to make Cup 1 & 2, as many have used it.

Why are we choosing ... According to Biden 4.2 million people have died in the past year from Corona. We all die, but why another 3 billion are locked down. Or we put on the restriction everywhere. When we put only a 10 minute program on television to teach people, and then clean up the environment the same way. This is vaccination versus knowledge. That every one can use. (2:16). When I am in the middle of Amazon and I get another virus infection, where am I going to go. To who, or I have the knowledge, the way we see with the Brazilians, teach the people form Amazon and the help themselves. When any virus comes they can handle it.

It will come to front very soon. The knowledge has to win, not the bank accounts. We see in the past week for the first time the Iranian new president, president Raisi, has directly attacked the A Rohanni, the ex-president of Iran, in mishandling and stealing from Iran for vaccination. That as a president he has taken the money from the West, to get the nation to suffer from. . . Our world leaders are making the suffering, and our present world leaders are those of the new generation, which are part, are bringing the change. We've seen it with Biden, .. Raisi, .. the new Russian president to come into office. He'll be, of the person will be very strong, but committed to peace.

This is part of the whole structure of understanding. It's the same with the nuclear industry, it has to be understood in how it is handled. We hear about the sanctions on

Iran, but we don't hear Iran is building 2 further more power stations, or contemplating on it. Because then they become energy .. they just go for one side or the other.

World leaders have to come to understand to work for the totality, (2:18). as one, not as individuals and groups, and .. ganging up on each other. The knowledge is there. Our leaders have chosen the bank account instead of the T, until then we all suffer.

If you know, that most of the people involved at different levels, something like 30% of each injection given to you, goes into private accounts of somebody, somewhere. If your nation is paying \$100 per injection, 30 Euro is in the pocket of your leaders. that's why they are so mesmerized that everybody gets injections. You are the head of a nation, 100 million injection, you made yourself 300 million dollars, the first cycle, the second cycle, and the rest of it. Jackpot every time one cycle comes in.

Any other question.

Q: .. Is it possible to use the new fungus Gans, (2:20). in agriculture in trees infected with fungus?

K- Yes, we have already used this and it works effectively. The .. to understand the process, there is a special mixture for the funguses. Thank you .. for bringing this up. We .. The KF put these Gans funguses at the prices which had to be put. We have reduced the prices that it becomes affordable, the volume of it. In essence yes. We have tested it in many places. It's understanding the process of the fungus, as I explained before.

A new T will be released by KF where you don't even need Gans's. In that process, we'll teach you much. We have put our people in testing new technologies, we can do a lot of things, much easier than can be done up to now, much, much easier. The fungus and disinfecting system ?? have taken us a long time to get it exactly right, the way it should be at the moment. You already have the Gans of viruses, which have as Cup 1 & 2, you carry in your pocket, you can use it. Now these are the ones .. (2:22).

### **Mending of Bones**

.. something very interesting, I love this thing, the way it will come in the structure of the KF. We show you what is to come, you will see it in Linz, .. This is a version of what I call, "of the fusing of bones," if you break a bone nowadays it takes you weeks. This new T, which the KF will release in a very short time, it will be something very much like this. (shows new system on screen)

This new system where the loop is, where you put your hand through it, on the line of fracture, will create the process of rapid development, and you can walk away from the fracture within minutes, within hours, you don't need to be in plaster for months and everything else. We are working on this and will be released in a short while. Literally put your hand through the ring at the point of the fracture, and the process of the, (2:24). healing will start through the D of the soul and physicality. You will see rapid processes.

Nowadays, you go to for the fracture, and it takes you hour or 2 to find, to x-ray you, you have to sit for plastering .. (with this system) the time it takes you to sit, you will heal and go home. This knowledge plus other systems will be released. You'll se them in the exhibition center. It will be in every hospital, more or less. Even the complex breakages and fractures, the bones can be created and whatever as a shrapnel part of it, broken pieces, they can be removed from the tissues, you restructure the bone immediately as it is. The same way, with the same holes, that you don't get problems in the future, in using some of the ?? created by the ??

We see this in a bigger D, especially for hip and knee replacements. Where at the present, when they cut the femur, they create other complications for the body. We restructure with this new T, the whole of the hip directly as part of the bone structure, as it was before.

You will see new developments, new systems as it comes. As we said, as it becomes part of what we have signed with Markray, and transfer of T for peace. The first 48 Vision units will leave for (2:26). AZ, upon agreements of the nations ins accepting the T and peace. Which we hope will be very soon.

**Proofed to here >>**

Q: Dean (long ... )

K- Nobody will be allowed in any of the systems ..

Q: (2:28).

K- We see the new cycle of KS .. as students .. when they come through the door they understand how their future has changed without them knowing it.

In a way, when you look at all the delays we had over the past years, the mayhems and good thing, we needed that time for everyone to accept ..

(2:30).

We will respond to American president, in negotiations taking place in Washington as we speak. (2:32). We needed to go through this. Mankind is ready to go through the peace process, .. to take that step but he needs to build trust that it can be done.

Any other question.

Q:

K- we are waiting for news from KF Tehran (2:34). that Tehran will sign into the first factory in Tehran. This is a milestone for our KS if producing Gans ..

(2:36).

Q: .. are we ready to be space passengers ..

K- we already are. (2:38).

If you understood today's teaching it's another milestone in understanding difference between different ways of living and traveling.

(2:40).

Thank you Rick
