(:06). K- ... We welcome you back to another program sharing knowledge and becoming Knowledge Seekers (KS), irrespective of our culture, religion, faith, and every other things, that we might be separated ourselves, to be separate from the other. The thing of it is, when we all go to space we all become "man of earth," they do not know China, Iran, or America, or Iraq. We go out together in understanding, and more or less cultivating a new ways, of what we call knowledge. The beauty of it is, we have to learn as a human race, that we are as strange to them, as they are strange to us. We have our ways of doing things, .. getting to places, and they have their own. It does not mean they are more advanced, .. they are behind us. It means we are all part of the evolution of the knowledge of the creation, it's part of what we owe, different stages of that knowledge.

Some who, or being created, long before us, through taking a different path, have passed us to understand the knowledge of the creation. Some who have been ahead of us, are still behind us, because they have not managed to unravel the realities of the creation. Then there are different races of the Creator in different dimensions (D), and understanding, and knowledge, and enlightenment. So we have to learn, one of the first things is, (:08). how will we come to be, and what we have to do. In the openness of the U, to respect life. In the essence of the creation, .. understanding the totality. There is always a way, that we think we do not know, and there is always the way, that we think we know. But we think, because we have that knowledge we are inferior or superior to the others around us. This has to be understood by all of us, that once we are entering the U Community, with the open eyes of knowing we are in a new society of the U. It's no different, we are all in the same packages of the processes of the creation. For us, how we communicate, .. understand, .. interact will come out of understanding of the totality.

Many creations, and created things of the Creator have not even understood the existence of their souls. Have not understood what it means to be part of, what the teachings you have had, and at the same time they have been taught, that to be elevated to that position. It doesn't make you any different. It doesn't make you to be more enlightened, and more arrogant, or does it make you to be enlightened and be humble.

In so many ways, we have to become to understand, whatever we are, wherever we appear, whatever we are part of, we are always part of the creation. We have always to be humble to be there, to learn, and not to be arrogant to be ahead, (:10). to be, "we know." In the process of the creation, mankind has moved a lot, .. has changed a lot, .. all creatures in the U have changed a lot.

One of the KS .. sent me a video this week, which is to do with Solomon, and this brought back a lot of memories, .. a lot of things, that many of you KS gradually will come to, and then you'll understand, when we say that the knowledge of the man has come to the level of the prophets of the past. That now that you know the existence of your soul, now that you understand the existence of totality, you understand, we understood, how Christ brought life back. But when you go back to beyond it, to the time of Solomon, he used to talk to bird, .. understand the animals, .. every creature. Now we can see how much man has degraded from time of Solomon to Christ. It's the knowledge we have, the knowledge we were created with. He used his soul to communicate with the birds and the bees, to the animals, to understand them. As he was .. Messengers of the Creator. In a way, he understood the levels of creation. He went out not to harm, and not to possess, even though people gathered around him, as armies of his. He never called for an army, he had an army of peace with him, but he understood through the soul.

In a way, (:12). our teaching is taking us back now further to understand the work of Solomon. How he could communicate with birds, .. every entity, and up to now we always talked about it. In a way, the knowledge is within us, knowledge which has always been available to us, but became more and more physical to the level of grasp, that for us, was important for us to see a physical body moving. Where thousands of years before him, Solomon could speak to the birds, could understand them through the soul. He never verbally communicated, but through the interaction of his soul, he could understand. He was already a man of U. He was already a Soul of the Man (STM), and this is what the teachings of nowadays is about. We understood how Christ resurrected, now to understanding more, we try to go further back before man was contaminated with physicality and possession, to the time of Solomon. To understand interaction, .. communication through the STM, not the dimension (D) of physicality of the man.

I am sure if we would have left the mankind to carry on with what it is, in the next few thousand years, mankind would not move, will hold on to everything, and become more and more physical, and possessive. This is part of our understanding, we are not bringing a new teaching, we are taking man to the origin, when he went, he diverted to become more physical, to be more owner of physicality. To be detached. (:14). It was part of the life of him. Now we see how we have degraded ourselves to a lower and lower. We sit to understand more, how did he, how could he, what we, after thousands of years, trying to go back and reach. What was the message, that did he communicate, if he could communicate with the birds and bees, and the animals, how did he communicate with his army? How could he, when he could understand the animals and the rest, could be ignorant of the existence of the emotions and the life of his soldiers? The people who came to be with him, be part of his, what we call, "knowledge seekers" of the day, to understand more about the creation. What happened to all that knowledge, how much did

Solomon pass on? To make what I call, "creatures of the U" out of the man, and they could not understand at that time.

So in a way, now that you become to close, to understand the work of your soul, in communication and interaction then you come to understand you have moved up, backwards, in the race of man, to the time of Solomon, through interaction, through understanding, to comprehending the emotion of another, with not talking, but by the interaction of the souls. So we are not teaching you something new. As all of you have been entangled with these teachings for past months and years, (:16). with us, now you understand, in a way, we're taking man back to his own history, timeline reversed. It's not back to the future, it's to understand the time of the past, that it has become the future. The U hasn't stopped as man has become more physical, the work of the Creator, as the man has taken the greed to possess and own more.

As we see nowadays with our leaders, they want to possess everything, and then you see those who are behind our leaders, who want to be the possessors and controlling even the leaders. Why? What is the reason? Why do we see this evolution now, in the process of the creation? What do the Rothschild's, bend backwards, in trying to control humanity, by finance, by every means. But they have not understood, that the work of the Creator goes beyond them. The knowledge they might gain somewhere, or got somewhere to show they can, they will not be able to, because the path of it is the wrong way. They chose, what the gift was given to them, to be used in the wrong way. The greed of the physicality took over the knowledge, of the physicality of the man's achievement.

This is the part of the job, that many of you will start questioning yourselves. In the time to come, and the time, which is here, many of you have faced, are facing, with a position of, "shall I take, (:18). or shall I not take," and what would it do to me, and what would I have to do? In a way, when you accept these new, what I call, "cycle of control," you are facing one thing. You ever been on the death row, by injection? That is the position of man. In a way, the new cycle is putting you on the table with yourself. "Do I accept the injection, and take the consequences of death," sitting on what I call, "the death row."

This is what you have to understand, how fast we can move from the D of physicality and the D of the soul, that no physical injection can harm the man. How fast you can see, and read the understanding of the thoughts of the others, that you can be safe in respect to your own life. Many KS asked me in the past few months, "what shall we do?" In a way, I can not tell you what to do, as you are sitting on the death row. This is the total reality of it. It all depends when the saturation gets to the point. When your body cannot respond. And then, in that point, like many of you who have been through the motion, and emotion of the cancer, you judge your life. What have I achieved, what have I done? What is my, what I call, "legacy." Nowadays, and what we see is about to come, enforcing these, what I call, (:20). "body structure changes," will make you think.

But we have to understand what is behind. This is why we said, we took the "love of God" from Rothschild's. Everyone of them will die in the most painful way man can do. They'll become a name in the history in a very short time, as they took the wrong path.

As they went the wrong way. This was not supposed to be. The knowledge and whatever was given, was supposed to be for the benefit of mankind. Don't forget when we took the love of God from the tribe of Moses, because of what they did to Christ, they became nomads. They lost their home, and they spread around the world, and every where they became the curse of humanity.

Maybe now you understand what is about, what is to come. In a way, with this position and the time, and the time of man, we make you think. We make you to understand, do I want to be, and what will be of me? Do I want to move in the D of the soul, or do I stay in D of physicality? How many of you will elevate to that position in the coming time. How many of you will come to understand the strength of your soul, you'll come to see. (:22). We create with the love of man. We create with the creation of the love of God. In so many ways, the love of man has become part of his own demise, for loving so much, with tangibility and physicality of the man. Maybe today I opened a door for you to see what is to come, not for humanity, but for yourself. How you assess the life to be, how you assess, I want to be. I take the jab, but would I sit and wait, "nothing happens," or it will be my demise. As I said to one of the politicians .. we are all on the execution table of injection.

The way it used to be done on the death row in America. With the difference, that the leaders have exempted themselves, from to be part of it. All the rules and regulations done for you, to safeguard you, is not applicable to the world leaders. We have come to understand in the past few days, that the governors and governments, and the leaders are exempt from injection. Why? This is part of the structure of life, and if it is so, how could they survive without it, where the others have to have it. This brings you to understanding in a deeper way.

That we will face, (:24). the same dilemma in the depth of space. We will have this on our table in the coming time. We will have to make these decisions in the depth of space, shall I go out, and the packages of the energy are above my strength of my soul, or the strength of my physicality, or the strength of my Soul of Physicality (STP). How would I handle it, how do I deal with it. Am I taking that step. In understanding this, makes you conscious to understand your soul.

The way I look at it, is that, the position, that more or less all of us are facing today, is the time to bring collectively, humanity to a new level of understanding. To bring man collectively to decide, and to assess what is the future of our race. What is, and how are we going to do, to what extent? What will be the outcome of all this mayhem we see? Or are we going through a cycle, that we are embedded with the D of the knowledge, that they will decide when to switch on, and when to switch off. We have one way to think, and that way, is for all of us as a human race, to start to understand the D of the soul, the interaction of the soul, how we achieve that level, and how to interact and trigger, (:26). the phase of understanding of the ?? motion of the souls of the man. Don't forget in the teachings of the past we have talked about this very clearly. Where you take the STP within the STM, and when the danger is over you can release it back to, become part of the new situation and the place.

What happens if you are about to fall off a cliff, and then you change your D, to D of the soul, and then that light, then will land on the same cliff, then what happens, you reverse the time? Would you be any different, than the body, which was free falling off the cliff. In a way, when you jumped you had brown eyes and black hair, and when come back would it still be the same, or would it be the wishes, that you wanted always to have blues eyes and be blond. Which one will take over, which D will appear in front of you? Would your loves ones, which watched you to go down, seeing you going down as a black hair, and brown eyes, appear in blond hair and blue eyes. But you still speak the memories of what you had. Would they recognize you? Would they accept you? Then it will come to the point to understand, mankind is on the verge of understanding the totality of the creation, .. to understand about his own creation. (:28). This is part of the teaching, trying to understand part of it.

Go back and listen to the American teaching with Alex, unknowingly, he has touched very soft, but to something fundamental, which we have been trying to teach you, but you do not hear. Go back and understand what you have missed in past teachings, that you have not managed up to now to achieve, to interact with your soul. Go back to the teachings of the past 2 years and understand more, in what you have missed to understand the totality of the knowledge. Sentimentality does not pay nowadays, you have to be realistic, you have to understand in totality, if I can do, if I can convert, if I can go within my soul to become the D, can I teach it to my child, .. lover, .. my father and brother. Where the brother is the totality of the human race. In a way, we are going back, we are teaching you to go back to the time of Solomon. Don't talk, listen and understand. Is not your job to change the others, you're there available, if they need to take that change.

As I said, execution by lethal injection has been the tradition, which we have seen in the US, and in some of the states today, I believe it's still carried out. (:30). Have we all become the criminals. Or our crime has been, that we have not understood the essence of the creation of our soul, and this is the payback time. Where we have to mature, and we missed it. Where have to understand, that no injection can touch us, where we can convert from the STP to the STM and appear again, then whatever rumors, that it does this and it does that, and it kills this way, and that kills that way, that's how the guy dies on the injection table by the execution in a prison. We don't need to analyze it, because even the man there, if he understands and elevates his soul, the injections of the poisons given to him to execute him, by enlightening his soul will have no effect on him. Because he is enlightened, because he has understood the ways of his misconduct, and will walk off that table as a new man.

Would this be the response of the humanity after the mayhem we are going through. Would it be the time that man will elevate himself to understand more. Would it be that we needed this to create a new cycle of people, who understand the totality of the creation. When you are on that bed everything goes through the head, even the STM. The reality with many of you, in the physical D is, that the life has become more physical, and more physical, (:32). as you see on the screen, we are developing more and more T for you to see that blue light, to see that light of life, through the what I call, "these systems."

To enlighten your soul, to bring a new D. To understand the reality about the creation that the physicality will have no meaning, unless you give it the meaning. The touch of love, the touch of loving a partner, the touch of understanding the smell and beauty of a flower, or an animal. The new systems are there to bring that emotion, that understanding, that what I call, the "end," the light, the way most of us see ourselves at the position of death. Do we need to die. Do we need to be afraid of what this and that, does to us, or do we go through a new process of creation? I have taught you many systems, now I talk to enlighten, for you to find a system, in your own structure of creation, a collection, maybe what we call interface or adaptor between the STP and the STM, then you become not afraid of any packages of energy, or anything that might enter your body at the time.

In so many ways, we are mixing too many things, without separating too many things. We are creating too many conditions, (:34). without actually understanding the condition, which we have created for ourselves. We are becoming more physical, then what we are asking for, literally, is to go back to the time of Solomon, to go back before him, go back to the time of Mitra and Zoroaster. Go back to the time of the Creator and understanding of the totality. The word, "I made man in the image of Myself," is not only in D of the ?? life, but is in D enlightenment too. It's us who has to find that, in the D of physicality, and in the D of understanding the light. We are not part of something which has no meaning, and we are not there just to be there. We are part of the process, we are the hinges of connecting one part to the other. At the same time we are one and the other. As we interact, we interconnect, and we become part of the structure. Maybe in the coming time, maybe in understanding the totality, with the introduction of the new knowledge, new ways, new tools, we can show you, to become better drivers of your soul, better interactor between the STP and the STM.

They asked the Creator a question, "Are you perfect." He said, "how can I be perfect when I cannot, and I see, and I create imperfection in my creatures, and created." (:36). In so many paths taken to create always the perfection, has become even a pain to the Creator. What can you do if you understand, even your creator understand the limitation of dimensions of existence. Mankind slowly will come to understand, the answer to the question, "are you perfect." And even what is perfect, one created, but by Him has to be perfect, to be continuous, to be the cycle of creation in totality. We have never spoken in the voice and language of the Creator, but soon you all hear that, as you have heard in the past times. It's for you to understand the totality, .. the totality of the creation in the D of man's soul, as itself is part of cycle of regeneration and interaction of the fields of the U. It's not that our soul will stay, just because we died. Our soul has a life span, and in that life span, has to decide where it wants to be part of, and what it wants to be part of. Mankind has reached a point of decision making, and in a way, (:38). before it was them, now it's all. With what we see, and what is on, and what is to come. How much more humanity will go the path of physicality.

We took the love of God from Rothschild's, because of their misconduct. We took the love of God from Jews, and out of them came the misconduct of Rothschild's. For this we abolish both at the same time. What this means, it means mankind has been put to a test, not to fail, but to more understand the cycle of the generation of the soul and the

interaction of the STP, by totality, put together in one D. The purpose of the cycle and the pains you go through, in this part of the life of this planet, is to unify the STM as one. As you all, at the same time have come to suffer through the hand of the man. When it was an earthquake, it was somewhere there, when it was a hurricane it was somewhere there, it had nothing to do with me. It was just a piece of news, now the hurricane is sitting on all of us. This hurricane is not, who is going to come out of it well, and who does not.

In fact, it is for the man to unite collectively, in that hurricane, to hold hands, to become one, to be able to stand till this hurricane is over. Mankind will not do it in the D of the physicality, but mankind can do it through the D of, (:40). the interaction of what we call, "hold on to" through the souls. This is what we call upon the KS, to understand and to start acting upon. We ask you to water every Sunday. Many of you, you watered on a Sunday, at lunch time and dinner time. Now we give you a new path. Maybe you'll understand. Instead of watering as a whole, as you all do, and you shall (continue to) do. Now we try to unite each others soul.

Try to make the soul of the humanity through the KS, to the level that no one can touch the physicality of the embodiment of the human race. Even though they come in different names, and different shapes, and colors, and whatever. What I call upon the KS is very simple. We are facing a demise, and collective, collection, and interaction of the STM, with other creatures, which we love and carry at home, or outside, in whatever shape or form, be the plant or whatever. Try to find a time, try to find a place, try to be on regular basis to unite on D of the soul, that mankind elevates the soul of the totality, and we can weather this animosity, and this what I call, horrendous time, which is imposed by those who thought, have the power of the finance, and the power to do so.

Choose a time, go back to the time where all of you are at a point of what I call, (:42). "collective calmness." This time don't spread the water of Gans's, spread your soul. Interact and unite, that in totality we make a new race out of the STM. This is part of the purposes of the KF teaching, unification of the souls, that in space and beyond, we are interacted, we are all one, and we all manifest as one.

This is the only way that all of you, and many of you will survive this hurricane, which is now blowing across the winds, and the planet, and beyond. We are suffering, with what we see is happening to mankind, but we understand the solidarity, and unification of the STM is the key, then once you unite, you will not harm each other as you use part of it, to be harmed. Then we go back to the point of One Planet ONOR, in a way, One Soul. This is the only way the human race will weather this situation, what we see at the moment on this planet. And this is the only way, that we see the demise of those who financed such a painful cycle for so many. But we have to understand, when a nation works together, the leaders have no power. Even though they protected themselves beyond the castles, and the walls and everything else. (:44).

In so many ways, mankind has to come to the point of understanding the test of what is come now, is not in a way, individual, it's to unite the human race. This is the opportunity for KS, to extend the position and the possession of the work of the soul, to become one.

Choose a time, that all of you the way you do on Sundays, is the time of uniting the STM. Then you understand. Don't go there for a second till the water of the can is finished, stay there, that all the cans, can stay full all the time. Never be of those who say, "I give." Be there to be taken and allow, and give the permit to be taken from you, if there is a need. No one shall die from no foreign body entry, on what we call, "the table of execution by injection." As it is, the tradition of the states, in US. This way you enhance, this way the soul of the mankind will become strong enough to protect the STP of those who want to be there. No man will, no physicality shall be demised, if the KS understand the whole purpose of this work. Try to understand, try to organize yourself, to become, to be as a soul, and then, (:46). instead of the same time once a week, extend it to all time, the whole year around. Because many of you soon will travel into the depth of the U, and you cannot wait until the Sunday at 6 o'clock comes, and I am in trouble and today is Sunday, 9 o'clock. I have to wait a week in the depth of the space, that the STM might be there to help.

The planet earth shall shine like a star, where the soul of its citizens will shine to all those who are created within the structure of the STP. You will see, and you will understand soon. There is no time, better than, when mankind sits, and he has no time to do, with the religion and time, what we call, different path. We advise Wednesday 6 o'clock CET, in the evening and the morning, where all the nations around the world will come together in the soul. Where it has nothing to do with no religion, and nothing to do with a path of thinking. In so many paths mankind has created to be separate and to be better. Six o'clock Wednesday, CET is time when man is equal and the same. Unite your souls and you understand, extend the souls. Do not sit there, "I don't feel," because you are not in touch with it. You just make the physicality available for the time of change. You understand, that totality sits within the strength of the STM, (:48). as one race, not man as one individual.

Let them throw what they like at us, as we are much stronger, then it feels like a pin thrown at a giant. The giant is the unification of the STM, together, to become one. To unite for the betterment of humanity, and while you are in that position, elevate the STM in totality. Become those individual MaGravs, which they link to each other, to change the totality. We call it a cluster MaGrav, if you remember to go back that far, put 1, 2 or 3, that collectively you reduce, and you contribute to the what I call, "the wealth of the house." Now those MaGravs is your soul, and with it comes the control of it, which is the STP. Maybe after a few days, choose a Tuesday to do the same, and then a Monday, and then, everything else, which goes with it. Then extend it to all times, all the time. When I am not, somebody else is there. It's not a clockwork, it's understanding the clock never stops, and never works without understanding the totality.

We come to this point to be here, not just by accident. But as I said, when you don't do it, we force you. And when we force you, you kick. (:50). But when you do it, you act it. We didn't create the condition of, what is today, but we have the opportunity by the misconduct of the others, for you to be understanding the totality, and in a way, we make the best out of their mistakes. We see this behavior. I come from blood of Moses, through my mother. But I am ashamed to carry that blood, when I see the same thing happens

again and again. We saw what Moses did, to those who gave him food and water, and grow him up. We saw what happened with the state of Israel, by giving land and everything, they became the same as the, what I call, the bloodline. And we've seen the same with Rothschild's, where the wealth was given, instead of bringing peace and betterment of man, they chose to go the wrong way. Now they receive their term - the end. This has been the same, in the same blood, and that shall end.

But with it we don't suffer to say we done the wrong to, we've been done wrong to, and bla, bla. But we use it as an opportunity to bring mankind to understand, to unify the STM, to create, that One Nation OR, and with the STM, and the soul of the planet, to be one. Where one race is the same as, one planet's soul. Then this planet will shine beyond the D, and become the center of the U, (:52). and the possession and the position of the Creator. Then the whole of the U shall see for the first time the presence of the Creator. Maybe it is too far for you to understand, but it is like a light, and a sun, for us, as we know what is about to come. Soon you will understand. It's not being there just to abuse, it had to be there, to help to support.

One of the turning points for me, was when I saw the picture of Rothschild's walking with Mao Zedong in a garden in the hills in China. Then I realized, even what we see today as an empire, of what we call, the power of China, still sits in the hand of Rothschild's, and how they have abused everything beyond. We take the love of God from every soul of that bloodline. Soon you shall see. Instead of uniting, they create a condition, that they can create wars, create conflict, and then with it, try to create a condition of power.

They created war, the U Council became more powerful, and they ?? stuck with us. Now it's the responsibility of the U Council, the same, to stand, to bring all this mayhem to an end. Gradually, step by step we are opening the responsibility of the souls of the members of the U Council, and it's within your power to bring the change. You've been given that power, when you physically brought your soul, which was chosen to support the changes, was made available. (:54).

The true members of the U Council have within their power to bring an end to this mayhem, but in a way, it's the key to uniting the mankind, to bring the soul of the planet, which is the man's life, with the soul of his physicality, which is the planet itself. One race, one planet, one soul, this is the fundamental act for the manifestation of the Creator. Maybe many of you will understand soon, why earth has been chosen. The old Chinese proverb says, suffering makes the man think, thinking makes the man wise, and the wisdom makes the man rich, and the mankind is going through that process. Become wise and become rich to be the harvest, the home, and the base of the Creator. Where He'll manifest itself in both D. This is, was the promise, and shall be kept.

We are not prophets, we are enlightened, that knows the path of the Creator, to its destination. We are those who carried the torch, that the path is full, in understanding of the knowledge, for the Creator to find, to be, and to find peace across the U. (:56). We are torches of enlightenment, not Messengers. We are universal, as we see the whole path for

the Creator, to understand, for those who have created the position, and the position of Him, as to be part of the same.

Maybe today you understand the purpose of the KF, on the name or whatever, you have come to a new ?? , you have come to those who understand, will come to be. We still work in the D of physicality, but we have a D, that today for the first time we unraveled and revealed. Maybe today many of you will come to understand the purpose of our work. Do not listen to the word, but understand the intellect, and the purpose behind it, and then you'll be enlightened.

I end the teaching now, because if you understood what was said, you have understood what is to come, and what gift has been given to man, through the power of U Council, and to understand their responsibility to be correct. Now you understand why those who were misconducted have left the Council, and the core of those who are there to serve, stays, and will grow. It's your responsibility to elevate your soul, and not wait for a handout. It's your responsibility to come to understand the work of the creation and the Creator. (:58). Then it is your responsibility to understand, the whole structure will move from this planet to beyond, for the whole of the Unicose.

This is why we said, the new generation will have the whole soul, and the STP together, that they'll be learned, by the rest of the, what it call, "created" things across the U. The soul of the Creator, and the soul of Mitra in the D of physicality will come together, and mankind will move into a new D, as One Nation OPOR, as the nation of the man, is the nation of the Creator. Soon you'll understand, and with that, you'll elevate your souls to the point that nothing can touch you, as you are part of, what I call, "understanding and enlightened to the facts, and the realities of the creation." Thank you for today. In so many ways, today's teaching is a what I call, watershed, for separation of the man, to a good man, and not just for a few, but for all. Thank you for being here, and I hope you will understand, or understood. Rick can we break ... (1:00).

QUESTIONS:

Q: ... Could you please advise if we make a Gans of a poisonous element, how shall we use it to receive the antidote effect, how not to harm the body with such Gans, is there some recommendations on using it? Shall we make 2 patches of it, then it will move the

fields through the body? Still if these are fields of some toxic element, how can we be sure it won't harm our body. Could you please advise, if we make a Gans of a mushroom, which attacks the body, could such Gans help our body to become clean of the mushroom?

K- There are different ways of approaching this, and the KF has looked at this many times. (1:08). There is an essence of the understanding what a poison is. In a way, when you take a poison from a living thing like a snake, or .. from what I call, a parasite, like a mushroom, it's 2 different ways. It's understanding how the energy is absorbed, and what energy they absorb. It's not an antidote, it's the knowledge of the fields which they deliver. When we receive a bite from a snake which can kill, why does it travel through the body so fast? What does it effect, how can you stop, how can you reverse. How can you be there to bring a change. We have tested and many times we have shown, that it cannot be treated as you do with viruses because it has the element of amino acid (AA) ?? Your essential structure is to over come the poison, by a process of what we call, "attachment - but detachment," from the AA. Many of you (1:10). work with understanding of the connection, with the poisons, with everything else. When you use a poison, as what I call, interaction with another poison, you never us the CO2, except in some special cases. You make sure there is no connection with AA, because you try to separate the AA connection with the body, which is traveling fast. You try to disconnect from the connection. In these cases you have to understand what a poison does. A poison in the body which creates cramp, or paralyses or whatever, it changes salt content of the body. You've seen it, when you change the salt, you get different structure of Gans's, you get different energy transfer. When you are facing the poisons on these levels, you use whatever you think is the basis of the poison and salt, but you make sure you do not use the AA, except in the condition of understanding how the AA was created in the conjunction with the process of the creation of that tissue muscle.
