

## **412th Knowledge Seekers Workshop**; December 23, 2021

Note: Transcription has not been checked by KF. Please listen to original recording.  
(Transcription by KF Brazil)

Birth Mitra new cycle has started ; live without brain; KF punch of truth to 5plus1; 2/22/2022 and 2222 changes ; Personal experience shared by Mr. Keshe - gathered wealth learned diplomacy; Detached from wealth; No spiritual democracy we are already free; IAEA cameras used by Israel to spy; IAEA cameras only machines; MaGrav in Iran factory - need to complete; DUST particles are flying machines ; Leftover fields around aircraft how formed when dangerous; How moons are formed ; Moons are vacuum cleaners of leftover fields of planets - unknown to scientists; Mitra sculpture in Iran deeper meaning

### **Quick index:**

We celebrate Birth of Mitra, Day of Enlightenment for humanity, Christmas replicated from Mitra; Promised Day (Second Coming of Christ) all happened on 21st Dec; New cycle has started; Purpose and understanding of Mitra explained last Tuesday One Nation, We don't interfere with Universal Council (UC), Birthday of STM end of darkest time in human history, We understood that there is a Creator, Waiting for STM to mature, In this cycle man will enter Universal Community, We always see he/her Mitra as a light, Meaning of psychosomatic life, Schizophrenic life of man soul and physicality, In new life both work together, Emotion of physicality requires a brain, Man can live without brain - emotions go directly from physicality, STP, STM; Through STM & STP man will survive as an entity, We don't see brain in-between sun and earth, Mitra is amongst us, We have abolished all religions through understanding the truth, As of 21st December mankind entered a new phase, responsibility of transition sits with UC in cooperation with Earth Council, Explains what happened in 5plus1 negotiations - KF interfered we see a big leap forward, Will not transfer T to US without lifting sanctions, KF independent made punch to IAEA - save negotiations, Flight EU to be delivered to 3 groups AZ, Tehran, Austria, Invited NASA to participate other nations to work together, Invites all space scientist to join KF, Massive punch to IAEA delivering documents, Sanctions on Iran based on falsehood, Bring "black budgets" to work white, Europeans left out because of Belgium, Chinese left out of testing, KF stays independent of Iranian space agency, KF set example to change stock market practices, Man needs a helping hand to elevate STM, KS responsible to keep KF knowledge free in future, Responsible to save life anywhere in U, Soon there will not be any religions, Atrocities committed by Moses, True wealth & culture stayed with those nations kept in poverty, Through pain they understood truth about creation and closeness to Creator, Flight system will be the push to world peace, Another completion in 200 years 2/22/2222 - to achieve point of change, February 22, 2022 next cycle of understanding, Will understand emotion of soul and emotion of physicality, As Messengers we deliver directly against all odds, We see the end of Islam, Judaism, Christianity as religions, Different paths of belief all become one, Mankind one of the slowest animals to mature, Brain too greasy and sticky - sticks to emotions, Mankind has always had the wisdom, 2022 bet year ever, Do everything to enlighten man, Truth sits with Creator reflected by STM, Return of the Messiah where

Messiah is your soul, Mira celebrated for 12 days, Abolishing the monetary system, World leaders lay down arms for peace or we will make it happen, Governments feed people freely without taxes, True history of man will be told, We sit with Iran- Russia- China - we will prevail, Truth revealed to IAEA, IAEA understood lied to by America and Israel, KF separated from many governments in past 6 weeks, NASA scientists expected to work with Iranians and Chinese, Change on our planet is already in progress, Enlightenment comes in 1 second, Mr. Keshe tells some personal history, 40 years to understand gravity - came in 1 second, Enlightenment doesn't need study it is just there, Cannot shorten, It's the soul of Creator within you which enlightens you, "Spiritual Democracy" meaningless in U - all are free, Mr. Keshe tells a little history of life - making money - being tested; becoming detached from wealth; Only 1 or 2 people in KF detached; About anger - his personal experience, Lord Bill was mentor with upper classes, Human race just vents out anger instead of finding another way, More about the 5plus1 negotiations - opening hand of Americans, They targeted Markray, IAEA cameras in Iran used to identify staff - bribe recruit as spies, Cameras should be put only at machines, No punishment - you distance yourself from Creator, biggest punishment is to distance self from Creator, 2022 big products like CO2 capture buildings: Flight systems and EC, Launch satellites for few thousand dollars, Colonization of solar system in 2022 - 23, Invite big organizations to join KF, MaGrav in Iran - KS in Iran not completing it; MaGrav Generator was already taught - not spoon feed, Go to moon in 2021; Chinese betrayed KF have to go to others now; Dust particles are flying machines - have to become aware of it, Moons are vacuum cleaners of planets - leftover fields that can become problem, Leftover fields created by planet will be same as with spaceship - have to handle them or become own demise; Iranians 100% enrichment kept secret from negotiations or it will end them, Go to your soul and you will see physicality of Mitra; teaching children - new children will be changed not to kill; Meaning of Iranian sculpture of 3 figures Mitra -King - Ahura Mazda; Power of king comes from Creator as a light - through Mitra, Changes in 2022 not a vision - the change is going to happen, I am servant to the presence of Mitra,

## ENGLISH TRANSCRIPTION

(:12).

K- ... that we enter understanding of the totality. This week we have a number of celebrations to celebrate. First on Tuesday birthday of Mitra where all the religions then changed names, and tried to work around it, but in essence, branches of the branches, but the totality stays Mitra. It's, in a way, the light of the Creator, the light of the soul of the Creator.

It's not to be arrogant, but is to understand and be respectful of the truth, and the way the things have set with us. (:14). We celebrate in the next couple of days, .. Christmas and the birthday of Christ. In a way, replication of the same with a few days difference, that it doesn't fall on the same date, that there is a confusion and replication. Once you read

about Mitra on Tuesday, and then you read about the Christ on Saturday, you see it's the same story. You see replication, you see confirmation of existence.

In a way, as I said in the One Planet OR on Tuesday, as we stay totally out of the program of the Universal council (UC), as they are independent. We do not interfere, but just to be there, to explain the purpose, or the understanding of what we call, the birthday of Mitra. It's the birthday of the Soul of the Man (STM) of the understanding. It's the end of the darkest time on the human life cycle, where man was just an animal, behaved like the others. Through understanding of the Creator, he was taken out of the long night of darkness of knowledge and understanding.

Then we went through another cycle of darkness, we understood about there is a Creator, we start worshipping in different ways and names. Now all promised, the Promised Day, when the Messiah comes, .. Methi comes, when everything else comes and this planet ?? then evolved, and will be what we call, ???

But in fact, this long term from manifestation of Mitra. (:16). to last Tuesday, which is the return of Mitra. That's why we celebrated it, that's why this year is significant, and we'll see the change in the cycle of man. The Promised One, the Promised Day, has arrived, we were waiting for it, in a way, for the STM to mature, that the thousand year waiting in darkness has come to an end. It's a beginning, it's a new cycle, understanding the STM. We understood there is a Creator. Now the man will be taught that the Creator is within him, in the STM.

Many of you expected manifestation of physicality, that has to be understood, is partially you. You are manifested in the dimension (D) in the love of the Creator. It's you who has to understand the change. In a way, what we call it the Promised Day, return ?? of Methi, or whatever, has completed its cycle. It's for man to be enlightened, it's for man to understand the change, and with it, in this cycle, man will enter the Universal Community, because it is part of the life of the U Community. Mitra came from the U, and in the D of the light. Even when we look at Mitra in the carvings and whatever, we always see her as a light, we always see him as a light. In different cultures and ways, mankind has taken different ways and confirming the existence of the higher order, stronger than man, can be protected by. (missing) ... of the light, of what it comes from the essence of the creation.

In the coming time, (:18). as we start teaching in institutes and other D of .. KFSSI we'll go into the deeper. Not into theology, but to bring the reality, psychosomatic of the life together. Psycho to be the theology, somatic to be with the man in the physical D, in that he creates crafts, or whatever he decides to travel in. We take the man out of the life of the schizophrenic that he lives 2 lives, one physicality and one the soul. Where the two work together. Where we take the position of the brain out, as the interfering side, and we bring them to the point, that they can communicate directly to understand, and interact.

In totality man will realize, unless he creates continuous conditions of the planet earth anywhere in the U, he will have that D of the brain to have the emotion of the physicality.

But man will learn in the coming time, that he can live without the D of the physicality of the brain of the man, to have a direct emotion between the physicality, and the Soul of the Physicality (STP), and the STM. The brain of the man is made of C, H, and simple elements, and in the depth of space will dissolve. In the depth of space will not exist, on the planets, or position in the U, where H cannot exist, because of the strength of the fields. What happens to the amino acids (AA) of the man? Does it become the point of demise of the man, or through the STP and STM in both being together, and being synchronized and understand the totality. Man will survive as an entity.

In totality becomes very much like the sun and the earth. We don't see a brain in-between, but we see the love and the affection. The way the sun looks after its little children, which is sitting in far distance (:20). but it shines the same on all. Mankind has to understand, that the time of the maturity of the man has come. Mankind has got to understand the time of the peace, .. the honey has come, but it's the man who has to choose the time.

Mitra is amongst us, in soul, in the D of understanding, and in physicality, recognizing the existence of the D of the transformation of fields, to the strength of the time and position, to manifest itself as a matter state, or point of observation. It could be as a fields, it could be as a wave of a M field, or it could be the physical D of the stone, the man, tree, or animal or any other creature in the U. We will have a big problem with the present theologians, and present line of thinking, that has been created on the name of different religions.

We have abolished religion, by our own understanding of the truth. We abolish it within our brain, by recognizing the truth about ourselves, our existence, our lives. Mankind has entered a phase of change, as of last Tuesday. You will see massive changes, we promised, we delivered, and we'll deliver the rest of it in the coming time.

The responsibility of the transition sits on the U Council, and no one else. As the UC, in cooperation with the Universal Earth Council, will do, will bring the position of the understanding of the man together. We will see massive changes in the whole structure of the KF, and in the background, with the whole way that we teach, we deliver, and we do. We have started bringing the space as part of the collaboration of the nations. As we said in the Tuesday teaching, (:22). KF in response to the success with 5plus1 in Vienna, the way KF interfered the Monday before, to get the outcome of the Friday in the background, as we always done with the American administration, we have seen a big leap forward, and we respond to it accordingly.

We said, we will not transfer anything to US, unless we see the end of what we call, sanctions. Not just for Iran, but on the knowledge. To this respect and to this response, KF is to announce, and we carry out in the next few weeks, the first flight Enhancement Unit (EU) will be delivered directly into AZ, .. to Tehran, and directly into our facilities in Austria. The 3 groups will work together at the same time, to develop the systems, testing the flight. We have invited the head of NASA Propulsion Lab to join us in conjunction with Lockheed Martin, and Boeing International on the flight system. We

have put the hand of friendship to the Chinese government, and the invitation for them to join, will go out in the first week of January.

We invite the rest of you. If you are scientists of space, not just Nano coating and Gans's, to join this development. You choose, we decide if you are qualified to understand the process, that you can speed our process up, to join us in AZ, in Austria, or in Tehran. It is important for us to rapidly bring everything to an end, before somewhere around March, that we do enough tests, that we are ready for June to take flight. You got realize when the mankind works together, it's very successful. We do not look at the borders and nations anymore, (:24). as we have said, we see success in negotiations in Vienna. We'll respond.

On Monday of last week we delivered a massive punch to the whole structure of the Atomic Energy authorities (IAEA), with the delivery of documents, which opened the hand of nations, how what we call, "misunderstood" about Iran nuclear T, and how KF knowledge and T and equipment was used to create mayhem of nuclear bomb, weapon. This came very rapid and was shared to the Americans, and the other 5plus1, by IAEA. The head of IAEA Mr. Grossi immediately shared the document delivered, and we saw a rapid change, and change of position, because the sanctions were on the false basis.

We do the same, we've done the same, as I said, we have become 5+3, and we showed our power in delivering the truth to IAEA, and IAEA respectively sharing it with those who created the sanctions on false basis. This is thanks to many of you who work at the KF, and putting and collecting, and bringing a lot of knowledge together, that we could do, deliver such a punch. Within 5 days we got a response. Where there was no hope, and everybody returned (home) not to come back, or come back a failure. Now 5plus1 will come together around the 26th (December) to find a final position. In that time, and in the next few months KF, by delivering the whole position of the space travel, in collaboration with a number of nations space agencies, we will bring an end to all sanctions, as the man will be hungry for more knowledge and what has been discovered. KF stays independent of any nation, and we operate independently.

If you are expert, (:26). you understand the work of the G fields, and you are in a space T aircraft industry, we welcome you to join us, as we done it with NASA. As I wrote to NASA head of propulsion, the time of propulsion is over. Bring your team, work with John in AZ, bring your heads of the Lockheed Martin, and Boeing who work in the background, black budget, and we work together with a clear white budget. We finance it. And we are sure we'll get the same collaboration from other nations. Still European nations outside the state of Austria, will stay outside the framework of the KF space work. It's got to be understood, we are setting a new criteria, we are building a new nation as One Nation, and we have to be correct in every aspects of our work.

I invite you KS who are truly understand, and understood, the process of the creation of the fields from motion, life, and in a way, to be able to deliver the T in conjunction with the other scientists around the world, to join us. We have made it easy, AZ, Austria, or Tehran. We deliberately have kept China out of the testing as we produce our systems in

China, In the coming time Chinese scientists will receive their own unit. We have invited the Russian space agency to join us, .. the Iranian space agency to join us, but you got to understand, we stay independent. They need to come in, not for us to stand and wait, (:28). for someone to come.

The delivery of the T will be rapid. John has been made aware of it, and he is making Arizona (AZ) center ready to receive the first Enhancement Unit (EU) for flight, and there on, every week one unit will be added to the stock pile of the systems in AZ. Somewhere by March we hope the whole 12 systems of EU as a body, and the 2 flight systems which is setup to go to AZ, will be there to be completed, to be test. The same will be in Tehran. It's the responsibility of the Iranian government to foresee in the coming days such a transition.

We see an end of every problem, which man created for himself, through creating false borders. We create position on earth, I am from this planet, on such a place we call, Iran, but you have no borders. We live and we cross, the way we did for centuries without any borders. Who made it, to control taxes. In the system of KF .. universal work, there are no taxes. Soon man will come to understand this work, soon man will see this work.

We have already made this announcement into where KF is majority shareholder in one of the world's stock exchange markets, that we'll abolish, and we change the whole position of the what we call, stock hold market shares. Where the same as what we done with the coin, we keep the value of a life the same, it does not matter where you are, and we take the stipulation and speculation out of the whole market.

You will see this way of working soon, in where KF will appear, (:30). in the stock markets of US, London, or Frankfurt, Tehran and Beijing. In that process we will show a new way, and bring a new direction into this systems. You got to realize the elevation of the soul to understand the dimension (D) of physicality, needs a leg up, a hand to get that leg up, that he can move to the next step. That level will come in the form of the .. flight system. By being able to fly across this planet, and not to be detected, and not to be able to be controlled, the governments will lay out a new way of what we call, facilitating the ?? but being able to deliver systems, that man needs no food. Food cannot be taken at a point of ransom, that they can control government through food chain. When we can deliver the systems of EU, that when you have crisis's, as we se today, some do not need to wait for the charity from the others, that they might save some lives. It has to be universal.

It's the responsibility to every Knowledge Seeker (KS), my knowledge, the ethos of the Creator, stays free for every man on this planet and beyond. Means it's your responsibility to teach, .. share, .. to save life in any position in the U, and not only for man. Irrespective of anything else. Mankind will soon come to understand, and it will be the biggest shock to man, he will be given gifts of life in the space, and no one will ask for dollars or euros, and no one will ask you, to give me something instead. This will bring a shock to many of the man in the space, (:32). even to the Soul of the Man (STM),

as it's learning the new ways in the D of the creation of the physicality and the Soul of Physicality (STP), being all interactive.

We celebrate the birth of Mitra, .. the return of Messiah, .. the return of Methi. What was the celebration in ?? board, the essence of the maturity of the man. In that process, man has matured. We have taught enough to be there. As we said before and we'll say again, very soon, sooner than man can remember, man will not remember a name for any religion, and will shy away from it, and will remember, that in the name of the religion they created division between the Creator and the created, and they abused the man. There shall be no religions left, except in the books, and soon one of the first ones forgotten forever, due to atrocities, and what I call, the crimes they have committed on the name of Moses.

It has to be understood, there is no punishment, but man will come to mature, not to remember, the bad parts of the life. The bad part, which he has learned, and will never go back to. As we heard ,.. world leaders (WL) are gradually becoming matured, and they need that last leg up, to understand the time has come. I thank especially John ... Yesuf, and Klaus in Austria, and by Wang Lynn and her team in China, (:34). that it has made possible to create independence and foundation for One Nation. You will soon understand, where the difference will come. Where there are no borders. Where no man will be recognized by color of a book, or a card.

Where everything will become free, especially in the nations, which are abused, we'll concentrate more. We'll endeavor to establish massive structures in Africa, S. America and Central Asia. The rich nations of the West by stealing, have become rich in the D of .. wealth, by stealing. But the true culture and wealth, has stayed with those nations, who they kept in poverty, and they made them to be closest to the Creator, as through pain they understood the truth about creation. Maybe it's time for one to mature the other, but maybe it's time for man to mature together.

I have celebrated the birth of Mitra, and as part of it, we celebrate with many of your souls knowingly, or unknowingly. A new D has started, a new life cycle for humanity has started, and every one of you are a cell in that embodiment of creation, and Creator. It's for you to decide what this cell, what role you will play, and how you'll interact. You will see changes in the structures of even your own understanding, and in a way, you evolve to another step.

Today's teaching is celebration of life of Mitra. In a way, (:36). change the name in another language and call it Christ. In a name, change the soul of it, and call it the teaching a Mohammad, or Buddha. In no way, any of the .. created path of belief, told the humanity the truth about the Creator, and enlightenment from the light. This is the completion of it, as of this week, as of the 21st of December, 2021. Brought the beginning of, what we were expecting.

There will be another resolution, and completion on a number, which in the future mankind will come to understand, which is known in the calendar of Christianity, by all

"two's." Mankind will come to understand the totality of exactly, where the man will sit. Where the totality will be, on what we know, and what we will call, "the point of change." Man has 200 years to achieve it. Man has this time to be able to complete the full cycle. This will become apparent in the time will come. We will bring it up and we'll teach about it.

On 20, 2022, or the second of the 22nd of February (Feb 22, 2022), man will be enlightened to a new knowledge. That's the next cycle of understanding. This time we don't wait for centuries and thousands of years. But in a way, we build the time to that completion, to enter another cycle. It's not a promised time, it's understanding more of. But in time we do these things. (:38). It's specifically for a specific arrangement.

We are not prophesying, we know we are there, we shall be there to deliver more. Mankind will come to understand himself, .. celebrate the birth of Mitra, return of the soul of Mitra. The beginning of understanding of the man about the truth about himself, and in that way, create a new generation and children of man, that will live in both D, and are fully aware of the two, D of the soul, and the STP, and presently will live between the two. They understand the emotion of the soul, as much as they understand the emotion of the physicality.

In all that time we'll be present to guide mankind through this change. Today is a beautiful day, where we sit on either side of both, the Christmas, and the birth of Mitra, on the balance day. At the same time, mankind will come to understand, the whole knowledge of U, is at the disposal of the man. It's man who has got to reach it out, to achieve it, to learn it, and to be part of it, and to recognize learning it is one stroke of understanding, and completion.

As we said, and will say, we wish you a happy New year, and a Merry Christmas, and we wish you one of the best birthdays ever, of the birth of Mitra, where everything started from, (:40). and all shall end with it, where that point, where the end is the maturity of understanding, not end of world, or end of anything. It's the end for the man alone and nobody else.

As I always said, you cannot pay someone to love you, .. to trust you, and you cannot pay no one to mature you, except yourself, to understand to mature, to understand the totality. My job as a Messenger, has been to deliver the truth for man to understand the message, and no more. We take our position as Universal Messengers. We deliver directly, and against all odds we'll survive, as we are from the Creator, and not from the man. We live amongst man, the way man does, but man confuses his understanding of position and time.

We see the end of Islam as a religion, but as a path of correct conduct, the true writing in Koran. We see the end of Christianity, as we have wished for, as now the truth is known about Christ, and the way it was set. We have already abolished the Judaism. And the same goes for Buddhism and the rest. Different paths of belief, now become one.

We all return back to the mother, to Mitra, the origin. To what we call the truth, the first time man realized about his Creator, where it came from the light, and through the light. I hope and my wish is, man matures faster, because he is one of the slowest animals I have every known, to learn anything. But somehow it's the function of the brain, it's too greasy, and too sticky, and sticks to too many things called, emotions. One day, mankind will become wise to understand, (:42). he has always had the wisdom, it's him who ?? blinded himself to the knowledge. He denied access to it, because it was easier to enjoy the D of physicality.

We wish you one of the best years man has ever seen, in 2022. At the same time you will understand it is the time for mankind to mature to the truth and the peace. We lay our ways, and we will bring everything possible, to create that condition, for you to be enlightened, be it with the machines, be it by conditions, being by bringing other souls within the KF understanding of the teaching, to bring the totality together. I thank you for being here today, as it is Christmas, and the birth of Mitra, return of Messiah, return of the totality, where the Messiah is your soul. Where is understanding and maturity of your soul, to save yourself in understanding, that the truth sits within the Creator and nowhere else, and that Creator is reflected through the STM. Enjoy, those of you who believe in the path of Christ, the next few days as you celebrate his birthday, and celebrate, and we return back to celebrate the birth of Mitra.

You got to realize, in olden days when man who believed, or came to believe in the path of Mitra, celebrated these days for 12 days. The most important religious festival, the most important festival for man across this planet, (:44). was 21st of December - Birth of Mitra. When in fact, was when the man was enlightened to understand about the Creator, and in time, this was changed, and man with different religions decided to, in a way, diminish the truth about Mitra. But we have resurrected Mitra, to the truth of what it is, and shall wake up. Mitra is the symbol of justice, .. light, .. of wisdom and understanding, and this is for the man to find to find all 3.

Maybe one day soon we'll all be enlightened with the truth and understanding of the light of the Creator. Mankind will find a new D, and today is that day. We have entered it. We are in the second day of, what we call, the change. We have entered the third day, and in the coming days, man will be enlightened beyond. We see no more wars. Even those who created the rhetoric for it, will try their best. We see the end of hunger, and that is the responsibility of KS to deliver the technologies, which makes food, not a necessity, but the right to be given through the fields of this U. At the same time, we'll see the end of many, many hardships for mankind, as by abolishing, the what we call, monetary system, man will come to respect his own time and position, according to his effort, he puts to serve his fellow man.

Mankind is ready for the change, and we have made it ready. We call upon the world nations and their leaders to lay down the arms and start the path of peace, (:46). or we make it, for you to happen. The way we brought it through, plasma energy packs that no one can move, everybody talks, but has no teeth to do anything. The next step is, we create a condition that the governments will feed their citizens freely, without what we

call, consolidating them with conditions of what we call, taxes. We'll see the end of this process, which was a way to create mayhem for man, where man will serve .. humanity, and .. the lives, freely as they have everything they need.

We celebrate the birth of Mitra this week, and by the old tradition, to 12 days after, which more or less falls, just about around the first of January, second of January, which was the back end of the celebration of the birth of Mitra. This is how the birth of Christ was chosen. Beginning was Mitra, and the last day was Christ. Now you understand more and more, how it came to be, and how it came to be celebrated, and how it was positioned. Maybe one day mankind will come to understand more of. ... when the true histories and the history of man, in the memories of those who have been there, will explain more and create more. Maybe one day, mankind will read the history of the history of the man, through the STM and many ambiguities, (:48). and the lies which were told to the man, will come to light, and we shall see. We love you, and we adore you, and we worship you as a soul. It's your job to find the strength of it, D of it, and the beauty of it.

Thank you for being here today as we celebrate the return of Mitra amongst us, in all D and shapes and forms. Maybe those of you who are enlightened, will receive the light of Mitra, and be enlightened with the new way of living, and those of you who are still in the path of ignorance, wait for the day of ?? , the Day of Judgment, as you have not judged yourself, and you wait for somebody, and you don't see yourself being capable to understand the truth, soon will change. we enlighten all the same, to understand the totality.

Thank you ... and celebrate, not the Christmas and the birth of Christ, but celebrate the mother of all creation - Mitra. Her birth and the generation of the new life which has shined on man, amongst man and through man.

We go to a break. ... (:50).

>>> **BREAK** >> 412 KSW Dec 23, 2021 ... (:56).

**Proofed to here >> continue**

Questions

Q: ... Thanks .. for the promising words, however all we see are threats between Russia, China, and Iran on one side, and the 3+1, plus Israel on the other side. How can one be hopeful in such an atmosphere?

K- We sit with the nation of Iran, we sit with the nation of Russia, and China. We will prevail. The truth that was released to IAEA last Monday, that changed the course of the negotiations, and suddenly on Friday, there was a lot to be seen. Was a fundamental change in the way the truth was opened up.

It became an embarrassment to the American state. In a way, what we saw and what we delivered, was a very simple document, but very powerful, (:58). that IAEA claims to be not knowing the truth, and they carried on, and were carried away with it. The reality is, America is a collection and run through the 3+1, which is what we call America, Germany, France, and UK. They have to support, or they have to in a way, to wash their face, for the shame job what they did, and what they claim to be, and how Israel took the position of doing it. We have opened the hand of state of Israel's lies into IAEA.

They could see it clearly, how Netanyahu lied, and the present government of Israel is following the same pattern, near enough, but they are not sure when Netanyahu lied his lies. A copy of the information and direction is in the hand of the Israeli government. They know how they lied, and the situation was changed. But we don't see any problem.

We will prevail, because the knowledge will, the truth will, and we don't see much in the efforts of America, and the other states of Europe, which are actually, the America is what I call, the children, or the child of them. This is fundamental for us. The power which sits with the knowledge, and will be delivered, is powerful enough to change direction and position. We have, we are not going for governments anymore, (1:00). that we have to bow to. We go to bring the scientists from all nations, that the governments benefits by the knowledge, and they change their way.

We have and we separated the KF from many, many governments in the past 6 weeks. Some of you might have noticed, but we still work within the governments with the connections we have. In our invitation to NASA in past few, 2 -3 weeks, we are very clear in what we are going to do, and how we expect the NASA scientists to work with the Iranian scientists and Chinese, and how it will be transparent. It is not going to be easy, but it is, a job will be done. We will give access to space agencies to be live in testing. It does not matter who they are. The way we do the Zoom's for health or agriculture. We set the structure, that the NASA scientists, the Russians, and Chinese, all be on line, all the time. Sooner or later they interact, .. learn from each other.

In a way, we create a race to space through knowledge and peace. This is the only way man will succeed. So to me, and to what we understand, and what we said, what I call, "western block' is irrelevant, even though they want to make themselves relevant. One disclosure shot the whole operation of the US, in opposition with Iran, and they gave all sorts of concessions in. We have other documents, we can do worse, to bring the last punch. (1:02). So don't worry about 3+1. The 3+1 counts as zero, when it comes to the work and functionality of the KF, and what we ?? came for.

Q: ( connection problem ...)

Q: ... At what time will we see this change actually be used on our planet?

K- It already has started. There is no time. It's already in progress, and it's developing. (1:04). You missed the train, as we call it. What's next question.

Q: How has the way of thinking changed, the understanding of the people who came into contact with this knowledge 7 years ago? What is the impact on one who came to know it now 1 month?

K- The knowledge is the same, you can be enlightened in 1 second for the whole thing mankind has read for, or developed for thousands of years. Enlightenment has no time and no space. We always said that.

In the D of physicality, I worked for 40 years to understand the creation of gravity. The enlightenment came in 1 second. I could not understand how stupidly for 40 years I could not see it, and I had been playing with it. Enlightenment doesn't need studying, enlightenment is just there. When enlightenment comes in seconds. I worked, I designed, I cajoled for since the age of 8 to understand gravity, how I can manipulate, how can I understand to create it. At the age of 40 plus, it was there, in 1 second. That changed the whole course. (1:06). So you don't need to study, you just need to be enlightened. It is so simple.

R: Is there anything you could have done in those 40 years, that would have shortened the time? ... you say all in an instant, but ..

K- No, It's the soul of the Creator within you, which enlightens you. I did, I developed, I tested every possible things. It wasn't time for it. It was not time for it. I clearly remember when I understood, I just .. literally went to a corner and wept. How I could .. (emotionally ) .. the maturity wasn't there. Still when I remember that moment, it brings the same emotions. (1:08). It's the same when you are answered, you are given the responsibility to carry the message, and you don't accept it, you run away from it, because you are not mature enough. And that battle took a long time.

You'll get enlightened by the knowledge, or by any other things instantaneously, in one split of a second. You can read all the books in the U, but you never understand it, but takes 1 second to be enlightened. And you know the whole knowledge of the creation. It's, if the light of the Creator shines on you, that's what you reflect. You never possess, because it is not yours.

Any other question.

Q: Salomea ...question related to spiritual democracy. Do you think that this is a solution to accommodate theocracy, (1:10). and perhaps totalitarianism with occidental democracy, or the notion of democracy in general, which gives freedom and respect to the freedoms, of all kinds of freedoms, and liberty of human beings?

K- Freedom is a choice of the man. Not what is put by paper for some to control the others. No constitution exists in the U, and no human rights, borders, exists in the U. You have created for yourself to belong to, or to control, or to abuse. Or you have subjected yourself to be abused. So democracy is a meaningless word in the world of creation, because the freedom is yours in every D. Nobody controls no soul, except the man himself, or any other creature.

Q: .. just to thank you for all your patience .. (1:12). wise remarks ...

Q: .. Going back to your moment of enlightenment. What was the trigger for the enlightenment, being detached?

K- It's trying to sort it out. It's not. Maybe, yes. Maybe partially, yes. But, when you let go a lot of things, then you have time to work with other things, to bring a lot of other things to.

I was telling this to some friends, .. to my cousins, in the past few weeks in talking. I became a millionaire when I was 27 years old. I remember going home and I said, to my mom, (1:14). I am retiring, I have done enough, I've done what I wanted to do. I achieved the dream of being a multimillionaire. She said to me, little boy, you are only 27, and you got another 50 years ahead of you. She said to me you cannot retire at the age of 27. I said, yes I am retiring. I had enough, I achieved what I wanted, I want to go back to my research. By the time, it lasted less than 3 weeks. The lure of making a lot of money, became more powerful than research, but still research was going on in the background. I did that again in mid 30s, when I reached another position, with opening of the eastern block and everything else. Money making wasn't in 6 or 7 digits anymore. I retired again, and I went back in.

In 2000 I made myself a promise, I'll walk away, because if I don't walk away, the way financially I was creating money, was beyond imagination. For a 30 odd year old man to do this, was unbelievable.

I never showed my wealth, (1:16). or anything else. I lived a very normal life, the way I do today. I live extremely a normal life, even closest people to me did not know, were not aware of the wealth. Because it wasn't mine. I always considered it as a game, you go to casino you gamble, I gamble into the business world.

Some how it paid off, it wasn't all the time successful. I always said, I failed 95% of the time, but the other 5% was so successful, that it literally matched the other 95, which were just mediocre, or just some failures, a lot of failures. Because I learned from the failures.

In 2000, I made a decision, that's it, if I don't walk away money will eat me. I got involved with governments at a very high level, I worked with presidents and Prime Ministers and got involved with all sorts of things. At that level you don't talk about a thousand euros, you talk about tens of millions. Controlling confiscated goods of the British government at the highest level for millions of euros, pounds a year, tens of hundreds of millions, it was just a game, it was another game. The same with oil industry, the same with diamond business and everything else. But I had to walk away.

But meanwhile I had to keep my head very strong. I am not going back to. I lived through a very rough time, when I was betrayed by the Belgium's, in lying for me to go to Belgium. They literally brought us to our knees. But I promised myself that I don't go

back to the world of finance, to money. And I kept to it. I said if the wealth is going to be made, it will be made through the KF, (1:18). and it stays with the KF when I go. It worked that way.

I am an extremely ruthless business man, those who've been around me - I am fair. I tell you what I do, and I do what I say. I pay, I don't play games, not paying your bills, this is right, this is wrong, something is short. Everybody knew, I did my deal on the table. They always said, never deal with Keshe, because he sticks to the word on the table. That was it.

Money became detachment. I detached myself from the world of finance, but within it, I still have to live. I didn't go back to what I call, "I established in the past" I just left it. Overnight I didn't attend any of my offices, worldwide. In the running of the KF you see different countries, to me is a natural process, because I established such a worldwide organization in the 1980s, 90s. So for me international work, hands off, and letting people to make their mistakes in businesses, is normal. But I didn't go back to it, detachment. I detached myself totally from financial world, the way I did, that I could put the finances in the back of the KF. Then it would have become, not what it is today.

But now we do the same thing. But we bring through the financing, the peace work, not to live with. I live a comfortable life. I always lived a comfortable life, except the 2 years the Belgium's cheated us. That's their manner of life. From 2005 to 2007, 2008 we really suffered, because they betrayed, lied, and cheated, worst than Chinese. (1:20). Stole and cajoled, as we seen 30 years they done that. They had their top agents sitting in the house. And she has gone back home to the Belgium's, where everybody thought, it would not be. We have been betrayed, the boss called back. You will understand how we've been betrayed, from the beginning, but I never went back. I stayed detached from financial world. I could have had extremely luxurious life. Not I could have had, I have.

But it was to be detached. It's very hard, when you know you have the wealth, but you have to stay away from it, because you made a promise to your soul, to bring that change. And we did, and achieved, and it came.

It came totally through sincerity of many, many KS. They gave the promise of their life to serve and I gave them the promise of to protect. And we did, and we (were) betrayed.

In so many ways, it's very hard to be detached, when you know you have a lot of attachments, and you can live with it, you can accept it. Because when the harsh times come, and you get tested, and say, okay, I'll go back. Once you go back you can't get out of it. For me, there are those around who can tell you. I used to pick up a half a million dollar check for just 2 handshakes. Just as a profit. Thirty years ago, half a million, a million was a lot, and that was just a breakfast job. To see what you had Rolls Royce's, private jets, and everything else, (1:22). and you walk away from it. To choose, not to be a hermit, but to know, that the knowledge ,and what you have promised to your Creator, is more important than a few bricks and metals.

Those who were around me, and some still know .. round about 15th of December, till first week of January, I spent all my time in most luxurious hotels around the world, because to me, it was normality. I worked a few weeks a year, the rest was just the pleasure, being able to research without anybody knowing. I spent a lot of time in air, just testing, watching the horizon, the clouds, the sky. Up there nobody touches you. And you are on your own. You try very hard to understand.

But being detached from physical world. It's not very hard, once you understand, ... the target, the outcome is much bigger, than a few bricks and mortar. We had enough training in different worlds of .. negotiations, diplomacy, and politics, so when I deal with officials it's not, not knowing, it's knowing because I lived amongst them. I was taught by them.

I had a beautiful mentor who took me as a son at a young age, called .. Lord Bill Crimlyn. The lords of the House of Common, the House of Lords of England. He taught me a lot. (1:24). Bill was a point for me to understand diplomacy and the world of banking, as the family owned the Bank of Scotland. My eyes was opened up to how things can be done. Bless his soul. With him we realized a lot. He was one of the royal aristocratic lines, for a long time. He showed me how simple it is to live amongst these people. This is become part of it.

Detachment is the easiest part. But not going back to it is the hardest part, because points come when you actually look for a food on the table, and you know you have so much, but if I go, it breaks what I promised myself, what I promised to my Creator. You go through the harsh time. Those harsh times are the test time, for you to be tested. Are you resolute, or you walk away, or you go back to. It's not easy.

Many of you will have problems with this, to be detached. There are one or two people in the KF who have done that. We see Alex in Nigeria, and others around us, to walking away, and to becoming detached, to be able to add to the knowledge, and with to understand more of. It's not easy. But when the good times come we share, (1:26). and we let it be, the knowledge, or whatever.  
Any other question.

Q: regarding the peace process. What impact do the emotions, frustration and anger have in that situation. How does that .. You said earlier, that we have to get rid of the emotions, that the human emotions are what's kind of interfering and so on. How do you, how do we deal with in that situation, the anger and frustrations .. emotions?

K- Human race the same. We just vent it out. I was telling ... he said, you are angry. I said, you haven't heard me, when I get angry the whole U hears me. It's accepting as a cycle and just going with it, and trying to do it. We get angry with a lot of things, with the process, especially in the peace talks. I always say stop, think, there must be another way. Then you walk away from it, and there is another way.

I gave the Iranians a chance to open the hands of the Americans in negotiations. (1:28). The Iranians were more interested in their private financial lockups of what Iranian

leaders, to get those out of the sanctions, then the nation. I pushed the Iranians, cajoled with them in every way, but the target was not the nation, it was their private bank accounts. It's the first time we ever seen the deputy head of the bank of a nation going into nuclear negotiations, unless there was some banking to be done. This brought a big warning to me.

So I separated the KF immediately, and went directly through IAEA and the American structure. We saw the result, within a week, what was impasse for months, become passable within days. Meeting directly with Mr. Barberry, in the conference was a shock to him. He tried to deny everything. But you don't get angry, you just find a solution, best for everyone. From Monday to Friday we got what we wanted, and they think they negotiated. The same, I have been influential from all the negotiations from 5plus1. The 17th of November, was the anniversary of nine years, of the beginning of the 5plus1 negotiations. Slowly, slowly we stood the wrath of it.

We saw the way they targeted. When we took Markray, we tried to bring a new T into the market through American, influence the nuclear and the space T. We change position, nobody can touch us, what we want. You don't get angry, you just get frustrated and you find another solution somewhere else. Better solution.

It means, when something doesn't go right, (1:30). it means there is something, which is not good for you or your soul. When things go smooth, it means that, that's the way it should be. It doesn't matter what it is. I cajoled with the Iranians for nearly a year and half, to go my way, to get the peace sorted. And private bank accounts of the Iranian leaders was more important than the nation. So KF announced, we became 5+3, and the 3 did the punch, and we got what we wanted.

Americans knew they were cheated, .. lied to, and Americans knew they took an action with a false information. But they didn't want to admit that they had been fooled by the ?? So the easiest was, lets find to bring the sanctions to an end as fast as possible. The way it was put on, and all the allegations and the rest of it. I get stressed, I get angry, but my anger goes to find a new solution, a new way to do it. If you listening to one of the teachings in past few weeks I announced 5plus1, the 3, the 3 became KF, and we did our punch. A very strong one, and we'll see, negotiations will go mostly by greed, and Americans pressure not to loose. We'll see the outcome, because Americans have lost their face, heavily in negotiations, in 5+1. The French are with them, but not, they are next to them, but with them, if I put it that way. Because the French, Germans, British, were cheated beyond imaginations in the first round of negotiations in the 5+1, (1:32). when the first time was coming into action.

Americans forced, and they announced, anybody does anything in negotiations, anything, signs any agreement with Iran, will be put a sanction on. While the American companies, agents, were negotiating, but not signing, more or less, random understanding but no contract. When the French and British, and Europeans went to Tehran to get contracts, they said, oh we signed already with Americans. The French found out how the

Americans literally turned them over. This time they are not doing. They are there in negotiations, but very aware of the situation.

We saw that with the president of France going to Middle East signing a 14 billion arm deal with UAE. You can cross the country in 5 minutes, why do you need 14 what do you call it, latest weapons, which is no use to no one. We get angry, but we find a solution. There is no shouting and hollering. I went in to change the position, and we went in with IAEA, and we got what we wanted. As I said to the Atomic Energy Authorities in Vienna, if you are a doctor you are loyal to the structure of the medicine in your country, and you sign to it. I stayed with the nations, and tried to cajole with them to understand, and I went to where I sit as a nuclear physicist, IAEA, and I punched it. It was a big punch. Very simple, but so effective, that IAEA was literally baffled by the truth, how the Americans had lied to them. The evidence is in black and white and on the table. (1:34). That was it. It didn't get angry, I sat on the ?? side and found a way to do it. But if you want to see when I get angry, make sure you find another U, there is not enough room in this U. You'll find a solution, you'll find that there is a reason, why it's here.

With the stroke I had in early 40s, I go through a position of stress, but I walk away from it. I learned to walk away from it. My mother used to say, the whole world can go to smithereens you never get angry. I wonder what makes you angry. I said, I don't mom, it's just there, I take it the way it comes. She always said, you and your grandfather were cut from the same ?? it doesn't matter. I can never get you angry with anything, you talk your piece, but you never get angry with it.

We win with good wisdom, and I never had so much ?? than last week. All the rhetoric of big nations became, just let's find something to agree with, that we brought no ?? one is fooled, one fooled the other one. It's actually put beautifully in the report to IAEA and let me show you .. (1:36). Reading from the report I read you part of it. It says in a very simple way, it says, "now who has fooled who. Iran advanced nuclear space plasma T has become weapon T by invitation and misrepresentation and deception by the state of Israel." Now IAEA knows how all these cameras, and everything else, is there. As I said to the Iranian head of securities, and national offices, and they came out with a different thing, that the cameras in the nuclear centers are used by the state of Israel to create damage. No, the cameras used by the state of Israel, is to see who is working where, and catching them outside, and making them their spies. That's the biggest asset to the state of Israel, which the Iranians allowed it.

Cameras should be targeted on the machines, and the office going to repair, or whatever should be shut down. Nobody should know who is touching it. It's the same as what stupid Ahmed ?? did, giving the name and home address of the scientists to the Israelis to kill them. Iranian officials have not understood how the cameras are used, International Atomic Agency cameras are used, they are targeting to see who is working where and target them outside. And they bribe them, threaten them, and they work for them. IAEA has to accept, the cameras has to be at the machine. And when a machine goes to repair, or service, has to be shutdown. (1:38). So nobody sees who is working, who is walking. The Iranians have not understood this. It is amazing. It gets you angry with it, but you

say, ok, that's their decision. Look at the communication in the past 2 weeks. Iran making a complaint, that the cameras are used by the Israelis to create ... No they are not after the machines, they are after personnel, and Iran never understood.

We are nuclear physicists, we know what's what, where it sits, what. But these are part of the people who just look at their bank, ?? central bank, direct where the bribes go, and which accounts should be opened.

Any other question.

Q: .. The application of plasma T ahs always been and will always be for peace, but was mishandled and misrepresented by some WL. What happens to the soul of those who betrayed humanity?

K- Go back, it's in the teaching, very first teachings we explained. The biggest punishment is to be away. When you lose, you are distanced. The whole essence of what you call, punishment, or the end of the days, or whatever, (1:40). Is finding yourself in what position you are, in respect to your Creator. That's all.

The biggest punishment is when you are positioned furthest. That's the. It doesn't mean the light of the Creator doesn't shine on you, but look at the structure of the creation, and you understand. When you are close, you are made, you become a multifaceted, multi-joy structure. Look at the structure of the solar system. Look at the biggest stars in the further distance, and look at the solitary planet, and look at the planets closer to the sun. It's just the process of maturity, you add to. Beginning you are a mono, you are nothing, a H or a He. As you come closer and more fields of the higher strength ?? then you create other materials, to the point that you become part of. Earth wasn't created out of what we see today. Was far distance, where Pluto and the rest are. As it become closer to the light, it gathered more facets, more multi-structure, more materials of the different strength to show the beauty of the Creator, what he has created. Not a single He, or whatever, ?? planets in the far distance. That's all it is. (1:42). There is no punishment, it's a positioning of the closest to the Creator. And that's by choice, not by accident.

Any other question.

Q: What product development and new applications of the T can we expect for 2022?

K- A lot, a lot. But we are going through an evolution in the next few weeks. It comes in different D and directions.

The problem is I am a majority shareholder, by far, of Markray in the American stock market. We will create a condition, that the knowledge and products of KF will become on the international arena. We are working on it, if you have been to Markray, you've seen I have resigned as a CEO. But if you read the latest report, which was released on the 30th of September, annual report. Markray never reported for years. Now we are up to date. You will see the end reporting for 2 - 3 weeks time for 2021. (1:44). You will see the change, and that change, we will bring a new D to whole structure of the work, with introduction of new structure, new work, and the same will come with our Chinese operation. We are restructuring our Chinese operation, because it was out of control. Now we see in the next week, 10 days how we restructure it, in a way, it is not what I wanted

it. The same goes with Iran. The same goes with Austria, it's expanding in a very rapid way. We will explain in due course as we don't tell people anything anymore. We have a bunch of ... pedophiles in Austria who lost their livelihood with trafficking children, and the ones who are in Belgium with them. So we keep very tight but you will see new structure production.

We are targeted the biggest product we'll do, is the .. CO2 centers around the world. Because it's good for the KF, and it's good for the work we do. ... you will see these structures very soon, where in major cities. These structure will become part of, starting in Tehran. These are where we will capture the CO2 in a massive way, we'll reduce the atmospheric condition, this is on a .. planning, and then it will be delivered. We'll see about 10 centers like this in Tehran. We need 20 to 25 centers in Beijing, and possibly New York and Los Angeles. (1:46). and the same in other points. This is the bigger program than the small products. Each structure will cost millions. It will be done through different options open through KF.

These are the large scale products, the Enhancement Centers (EC), the opening of the first spaceship centers like in Tehran. As I said, you'll see, if you are in the US, you can go to AZ and see the first flight systems. It's very different than what you expected, but it's the practicality we deliver, and we want to deliver. Then expansion into Brazil for a different way for us.

Mexico has come up with new products, which is very much fits into the Mexican operation. They will be brought in through the back of the Markray, as Mexico is owned by Markray, but it is still under contractual basis of intellectual rights to KF. We target big products, big changes, health centers with new equipments. You got to realize we got to sell a thousand or ten thousands small products to do one EC, or as we have the first flight systems have been signed and sold for 10 million. So we try to support both sides, but 2022 is not to go on the shelf with the Pain Pens other new products like this, a few will come up.

But it is to push with the bigger picture of the KF worldwide, with EC, with Wellness centers, (1:48). which KF has as part of its work, we never disclose, and then the same with .. the big items, the flight systems.

We enter into ticket sales for space travel, which is part of our license. KF space was signed into a company this week, last Monday. The same with KF Spaceship Institute, is now a legal entity of a company, not just on the Internet as KFSSI. We have taken a lot of steps in these direction to make sure major new products, but in a larger scale come into operation. The water treatment centers are huge investments, will come into operation. Where we make the difference, but in our EC or in CO2 centers, where people will come and go, will create jobs to sell small products, or to show what the T can be like.

2022 is the time of change, and it won't come through the Pain Pen and Pain pad it will come through structures like this, visible, powerful and creating the change. We'll get involved in launching satellites, delivering satellites for less than a few thousand dollars

to any nation. We have the T, we can do. All these launching and deliveries to orbit, will become a history. This is where we'll bring the change.

In 2022 - 2023 we envisage, the way we see it, colonization of the solar system starting. (1:50). This is why we invite big organizations into our work. We won't open banks on the moon or the Mars, but we'll create conditions, that it will become easy, the way you travel to different part of this planet, to go, and it will come after the 6th of June, you'll see the collaboration started.

The biggest problem for us was the 5plus1 was holding the T back. Now T is in US, in Tehran, and in Europe, in Austria. Soon there is no problem for us to bring the big people to play these games. Don't look for the small products, KF has these leaves each costs millions to sell.

Any other question.

Q: ... The price of electricity is going through the sky in EU. In January half the nuclear power plants in Germany will be shut down and it will get worse. Why can't the KF launch its stand alone generator?

K- You can do it yourself. It's in the teaching.

We use partially this in the new EC. But I don't see why we have to teach it, because we have already taught it, even for our centers, I don't see. We are building a factory in Iran to just produce MaGrav systems, and I gave them a few hints, in how to create a new reactors. They built it and they put it in the houses, (1:52). but they don't follow it up. They don't get it through.

So this is one of my biggest problems, I don't give the spoon to eat. I show the way, it's for them to test it. Otherwise it's just copy and do. It's not going to work with me, that way. You all have seen it. The center in Iran, have seen it, it's ready to go, it's already been setup. But KS in Iran have to decide how they are going to change it. Are they going to stay with the MaGravs proposition, or go for the generator. The knowledge is there.

Don't ask, I can show you how to do it in no time. Go back into the blueprint day of the MaGrav. It's in one of the pieces, it's about 3 minutes. I showed the generator, how to be done. It will work. Nobody understood. Seven years, 8 years. Look how energy is generated in the U. And look how you make ?? light ?? If you don't understand it, you can still push it with Nano layers and the Gans's. Look at the light, if you are somewhere, in the daylight today, and look how it's created. And nobody uses it. (1:54).

I don't give anything free to no one, just because they are there, and they are called KS. I didn't do that with my children. I never do. Because it means you haven't understood, what's the use of giving, because you never respect it. You never comprehend what it is. You make a ?? stacker. One person more or less has been, more and more, into break, with the MaGrav system, than anybody else in the KF, and that's Alex in Nigeria. But he still doesn't see it. He gets it, but he misses it.

Even with our research center in Europe. I don't give them, I just suggest, why, and let's see what they understand. If you just carbon copy what I say every time. I am the researcher, not you, you are just a printing machine, copying. The generator has been there from the day 1. We first created energy, before we created lift, we first created energy before we created the MaGrav. Even when we worked months in the background, before introduction of the MaGravs, without ?? ?? So many days I woke up early in the morning, done testing and making coiling, Nano coating and fire coating, and the rest of it. But in 2 or 3 points we reached, and they dismissed it.

The problem with me is, (1:56). I am not here to give. I am here to guide. When you give there is no respect. When you guide, then you understand, you do it yourself, and you respect the knowledge you received.  
Any other question.

Q: Dean .. are we still planning to go to the moon in 2022. ?? open up to man. the whole situation ?? the planet. ?

K- We are not going to carry 7 billion in this year. We are going to show the way. Then we have to see how things go, and how governments and how people operate. By operating in 3 different nations at same time, we don't allow the silencing of the T.

One of the reasons I do not do the tests in China, because I believe they steal T. They have done that, with this respect. Wang L and I attended, we were invited to a meeting, to meet with the Chinese space people. At the last minute .. when we were supposed to meet, somebody came and said, oh, you don't need to come, we go from the National Security, and we come back and tell you. So what was the purpose of we were supposed to meet? We go and see them, and they come back. They come back and they said, they have made your system, but they don't have the fuel combination, (1:58). can you give it to them. I said, to them, you know where to go.

And then it would become a Chinese, and then a piece in the war between America, so they still, they don't deserve. They have to stay in the queue, now they go to America to them. Chinese betrayed the KF in the stealing of T, and I responded back heavily with it. When the Chinese government declared their position, of what they stole from the KF. What they said, was very interesting, they see it as their right, because I have given it to my KS. So if it is their right, it's your right to go and find out yourself.

It will not happen with China, but it will happen in Tehran, in AZ, and in Austria and then we show it. But the Space belongs to everyone. And then, let's see what we do. The peace treaty will come very fast once we show the flight system. But in different countries. No one can silence it.

Let me explain to you something. You know when you are in the room you don't see any dust particles. Unless you sit still. Till you shine a beam of light, and you see how much dust particles are floating in the room. The human race is in that position in the next few months. (2:00). We are about to show you how to create that light through the T, and ?? they are standing there, flight system. When you reach that point of understanding and

development, you become the creator of that light. Then you will see how many other flight systems are within your environment, but you never have been aware of.

The space around earth is literally covered with flying systems beyond man's imagination. Once you reach that point, you become that beam in the dark, where you will see dust particles. You'll see them. Then you'll say, "oh my god." We are about that point to reach. But we have to uproot killing out of this race. Superiority has to come by respect for knowledge, not by gun policy. And even then you have to become humble enough to share it.

You will see, once we reach the flight system, the new understanding of the flight, then you will see how many others around, you never knew. Because now you have a way to show it. It's always been there, in the dust around the house all the time. Then you walk on the carpet you create more of it. Now you become part of the U Community, and understand (how) the rest of the U travels, (2:02). now you see the things, you've never seen before. I wonder if the American president is going to put sanctions on everyone, every single dust.

Q: .. The interaction of the fields. On a planetary scale, would it be important if the earth or the moon came first into the creation. Would that have an effect?

K- It's irrelevant.

Moons are created by the interaction of the fields between the sun and the earth, or any object, as the residue of field effects creates a condition, that it leads to creation of the secondary position absorption. It doesn't come by a stroke. There are fields which, in interaction, they do not match, but they are similar. So they create their own dimension, and with that they create their own gravity, then they find their own positioning, because they came from the interaction of the field of the earth with the sun, not themselves.

Q: So when that light is shown on the ?? is it the same process?

K- What do you mean? You see let me explain .. something which I explained to cosmologists, and people in astronomy. The dust we see on the moon, the ?? every addition, (2:04). of the dust we see on the moon. Is a very, very small, partially due to GM field of the moon itself. But primarily is the leftover of the interactions of the fields of the earth, with the sun. The sun does not have the gravitational pull for these materials, they get attracted to the moon, or that becomes a vacuum system (?? cleaner), otherwise the earth will be covered with it. They have ring and ring of different materials.

So moons are collection point of, even they look the same, but are slightly different isotopes, which earth does not possess the G field. But the interaction of the fields of the earth and the sun, creates that. Once they are created they have to be absorbed somewhere, otherwise they cover up the whole atmosphere of the earth. That's what the job of the moon is. That's why we see moons, the dust covering, and step by step, layer by layer over the moon.

This is what a lot of scientists, or cosmologists, or astronomers don't understand that. We have Fe, or Zn, or Cu on the moon. But not G field strength of the earth. Otherwise it would be absorbed and become part of the earth's layers. This is why we see big planets with many moons, because the field interaction creates the atmosphere, of the condition of the life on the planet, but in that interaction creates other materials, which the planet does not have the G pull for. So they are created, but they can't stay in the atmosphere, and they come and interact with each other, and they create the moons. (2:06).

We usually see a lot of moons, with a very big planetary system with mono of very few atomic structure, within the structure of the physicality. The Inertia does not have the pull to convert the plasma into matter state. So as they are created, they are in the atmosphere, they interact with each other, and they ball up, into a new plasma, a new moon.

Moons are the vacuum system of the energies, plasmatic energies, which the planet itself does not have the field of, but it creates out of the by-products. This has not been understood by the world of the astronomy and cosmology. Once they understand this, then we'll see, where we bring materials from the moon, we'll see, yes there is aluminum, but which isotopes of the M field, G pull. You'll never find, very hardly any, the same on moon and earth, the same aluminum, impossibility. Or they are created in a very far, far distance from earth, that earth has no pull on them, and they cannot get attracted, but they continuously produce it, by the interaction of the fields.

This was never understood by the world of space and scientists, and this is part of the work within the what we call, "material enhancement." This is what I declared to the IAEA we can reach 100% enrichment. They don't want, no one knows that Iranian scientists can produce 100%. That will be a mayhem in negotiations. Bullet right in the heart of the negotiations. (2:08).

You got to realize, especially those of you who join us in space programs in the 3 central points. That once we start creating the flight systems and we take flight, we have the same problem too. The interaction of the fields of the system will create, in interaction with the fields of the environment, a fields, as a plasma energy, just the way you have seen it, when you put an iron against a stone, and all the flashes you get, that some of these are not useable by the system. Because we can use most of its energy as energy sources for our flight system, and they gather as little packages of energy, that if it is not controlled, they become like missiles to the craft itself.

You will see it, you'll understand it very soon. In the present time, in the space, with the rubbish we throw out of the space lab, or in satellites, become the rubbish dangerous to other satellites or space labs. But in the plasma T flight system, MaGrav system, we create these things ourselves in the process of flight. We need to be able to control, that continuously we get rid of this layer of fields, which are created around the system. You know nothing about the flight, till we get to it and we start to ??? You become the missile maker of your own demise, if you don't understand the T. There is no difference between the flight system made by us, and the creation of planetary system. Any other question. (2:10).

Q: Joel, thank you here in France all your T prevails ...

K- I presume this is Joel who is doing a lot of research in agriculture. .. you've given me one of the most beautiful videos to watch and to see how things can change and could be ...

Q: ... I recognize my smallest before the greatness and truth of the Creator. I had several dreams in answers to my questions. My heart and soul felt the birth of Mitra, but forgive my smallness. My soul felt it but my physical eyes wanted to see something on the 21st.

K- Go to your soul and you will see the physicality of Mitra. That has been made possible. Now you have to find the strength in your STP to be able to match your soul, and you shall see Mitra. (2:12).

Q: . from all the learning you have brought .. my greatest desire today is to teach children about your Pl T, the children are the future, and my only concern for today is to teach the children ...

K- Thank you ..

The new soul of Mitra comes through the soul of the children, children to be born from now on. You will see a difference between the upcoming race, and the race to come, or has been. Mankind has changed and will change. No choice.

You know in Orthodox Catholic Church you believe in Saint Nicholas, the gift bringer for children ... comes on the 6th of December, and the children wait and ... children get 2 presents, one on Saint Nicholas .. and one Christmas Day. .. children wake up in the morning and look in the shoe, if they see a sweet they have been a good children, ?? and if they see a straw in the shoe they have been a bad children, in the year before. To see how they change.

I hope all of you have received the sweets in your shoes of the knowledge. The children of the man have changed, and will change from now on. They will understand, (2:14). more about the work of the soul, and live through it, than the D of physicality. Because we bring them through the, what I call, the cycle of, .. "no need to kill," no need to destroy, no need to be better than the others, because we are all the same. The new school of teaching for those KS who are there, is to teach, how you can live through example of not killing, and of not being there to do. If you knew what has happened to mankind, you will weep, but mankind is not wise to it. I am sure many of you will see Mitra in your physical eyes in the time to come, and you still will not recognize it.

Q: .. about the picture of Mitra. ... We see in the picture the 3 figures. (2:16). On left would be Mitra, on right I assume the creator or God Absolute. Q: the 3 figures are they like the 3 M fields (Rick 3 matter fields) to make tangible matter?

K- I think Mehranez has explained this in a very good detail on Tuesday. If you go in the theology side of it, it is the presence of the Creator, and its light on man, and how man considers himself to be the king, as the light of the Creator shines on him. There are a few details in this picture, you don't take notice of, you only see the big one. There is a very funny way one of the pictures are, Mehranez explained. ... she explained this .. in to the

details of this on Tuesday. But there are striking features that people don't see. Is she around she could explain it. ... (2:18).

Q: The Persian lady

K- The whole thing is not about the 3 man standing next to each other, or with 3 features. It's the thing, which they are standing on, but even what they are standing on has a totally different approach to it. Would you like to explain this, with what they are standing on counts, not the feature of the man. This carving is not about Ahura Mazda on the right, or Mitra on the left, or the king of Persia in the center. It's about the emotional feeling, the respect and understanding with what they stand on. Would you like to explain this.

Q: Yes .. this place is the dome of ?? garden and there is a lake on this mountain near ?? It's very big, maybe 20 meters. The story is that at the left is Mitra, and he is giving benediction to ?? king in the middle, his foot on body on Emperor of Rome which he has conquered. (2:20). and at the right is Ahura Mazda .. which gives him the alliance .. that his power comes from the benediction of Mitra. That's why he is the king. Mitra is on flower of Lotus. So the king knows that he should be humble his power is given by benediction of Mitra and Ahura Mazda, otherwise he doesn't have this power to conquer other places.

K- In a way, he conquers his own .. emotion. Conquering his own ego. That in time of power, it's still to be humble, to rely on Creator, and to receive the enlightenment. More or less after this position, what we see historically, is the time when many leaders in Central Asia, and .. Eastern Europe, self-submitting gave their kingdom to the Emperor of Persia, because he was just. Just being just, this picture, what we see has a lot of historical meaning what happened to the Iranian, how the Iranian .. Persian Empire was created. (2:22). Where .. knowing that there is even at the time of the power, there is a, something you need to be part of, and to receive from.

But what is interesting, is that the way this is carved. The face looks up, but the foot looks down. This has a lot of meaning, in the future we explain in more detail. But in a way, being on top of the world, as a leader, as an emperor, or as king of Persia, he is still submissive, he still accepts that he still needs the light of the Creator. He knows he receives it through a light, not through the Creator Himself.

Q: Yes when I was in Persepolis, There is a human rights - cylinder (they found) .. Cyrus .. the cylinder shows the wisdom of this king, in 4 languages .. it says, to the kings, you should be just, (2:24). and keep the people happy with your justice, otherwise people go against you. ... Cyrus was giving liberty of religion practicing every country religion, and liberating the Jews and all that ..

K- Thank you .. Any other question shall we call it a day, (2:26). to go faster to get ready for Christmas.

.. We celebrate the birth of Mitra. .. the return of Mitra amongst us, and understanding the totality of the structure of the creation. If you celebrate in the path of Christ, Mitra in

another name, shape, or form created for others to understand how the Creator works. We wish you a beautiful time in celebrating ... in that process

I hope, not hope, but I know for a fact, 2022 will be the beginning of a new race, for human race, a beginning of a new school of thoughts. Not a vision, but a must. Not a vision of what will happen, but what is going to happen. In 2023, and 2024, most of us will not even want to remember 2021, and before, as there is so much hope, so much joy in this, so much to be added, that the hardship of the past for us and our forefathers have gone through, as we paving the roads for better human race, not only here but in the space. Wish you a ... (2:28). As I always say, I am servant to the presence of Mitra.
