

413th Knowledge Seekers Workshop; December 30, 2021

Note: Transcription has not been checked by KF. Please listen to original recording.
(Transcription by KF Brazil)

(End of the year sharing of KS experiences - little teaching)

KS sharing experiences of past year - short teachings this workshop

How KF interfered in 5+1 negotiations when needed, a punch of truth brought negotiations back towards peace,
3 Centers for flight systems AZ Austria and Tehran ; NASA invited to participate;

The changes to come in 2022 , colonization of the solar system ..

ENGLISH TRANSCRIPTION

(:18).

K- .. We are here to extend the knowledge and expand the what we call, understanding of the beauty of the Creator, which we are a part of. The Soul of the Man (STM) is beautiful and with it carries a beautiful knowledge, it's just knowing how to tap into it. As we are, if we are a believer in the Christ in between the Christmas and the New Year celebrations we find ourselves in a very peculiar situations. A lot of things are moving in the way we wished, and the way it is. I would like to thank the support we received from Universal Council (UC), and UC supporters and KF supporters in elevation of the soul of the .. negotiators in Vienna.

The news is good, and hopefully within the next few days, we reach some conclusions. The way we wanted to take pressure, (:20). and pain from many people, which were effected by the sanctions. It came to the point of break, but now we see it, with the support of what we wished, the STM changes and elevates itself. We thank the people within the structure of the negotiations for their resilience to be there, to make sure something can be done. A lot of good news will come out in the next few days from the negotiations.

When it mattered we interfered. When it came to the point, a lot of supporters, we created by the KF, from national governments. We thank American administration for the great support, and especially the British, in allowing the whole thing to fall in place. At the same time we would like to thank his eminence Ayatollah K of Iran, in support of appointing one of the heads of negotiators. He is one of the closest people to him, to be there, to make sure this time it's not negotiated by people, who will sell the interests of Iran, but they are there to serve Iran. Mr. ?? is extremely close to his Eminence Ayatollah K and we are aware of his position from the beginning, and that's how we

could create new influences in the background. He will bring the closure to this matter in next few weeks.

At the same time, we will see great changes. As we said in response to the support, to we received, and what we released, KF will open the Arizona (AZ) center, as a center of what we call, "transfer of intellect" from Iran to US. This process has already started thanks to John who is a solid ... supporter and Knowledge Seeker (KS), that we have moved from, if you remember, (:22). the manufacturing side in AZ, to research center. We are hoping, and we know, that NASA will join us in this endeavor. I have brought in, and in close contact and communication on a daily basis, with NASA. We will see them to be part of the AZ venture, with them they are bringing Boeing, Lockheed Martin, and other American space agencies, that we work in a rapid way.

Everybody is waiting for the .. flight Enhancement Unit (EU) to arrive in Vienna and in US. From there on it will become the job of the KF Austrian side, to fulfill the delivery of the reactors, and a new type of reactors will be introduced in a space flight in the next couple of weeks, when the whole structure comes together. The whole process has taken a long time, but it needed to bring maturity and peace, before we go into the next phase.

What will be interesting is how we'll take the next phase, how things will take shape. As the Chinese say, 8 is a lucky number and this year we have many eights coming together. The lucky day starts from the beginning of the year, the first day of the year will bring us many, many good lucks. As I lived in China and understand the whole process, of whole understanding of the need to be as part of the whole structure. We start the year 2022, 01, 01 (= 8). In March of this year, in the Iranian New Year we'll reach the same 1401, 01 ,01 (= 8), both years starts a lucky day. In that process, the double 8 (:24). will brings us a prosperous year.

Understanding it is amazing, and we still target, and we are still targeting for 6th of June 2022, for the first flight to moon. First flight, independent flight setup not by KF, but by collaboration of the organizations, international as the space agencies, Iran, China, Russia, US, and in the long run, we will see Japanese as part of the work. We hope to bring other states in, and then we'll see the next .. cycle of life.

Today's teaching is very simple, it's about you. We have worked for one year together, to get to this point, we are reaching our 9th year anniversary starting soon, of ...the teaching cycles, and what we would like to hear, is from you today. How you feel, in the past years of teaching, how you feel, in the future will hold for us now, that we see man has reached peace, and we'll endeavor to carry on with this process. It needs a lot of support, raising the STM. As we have seen, we stopped the wars, and no army dares to fight again. They talk about it, because that's how they used to talk about wars, and then getting done. But now it is just a voice.

We see progress, .. massive changes, .. expansions in KF. We have set and sorted a lot of things, which were hanging on the KF for past .. 15 years. All has sorted, we have a few what I call, dots to put on "I"s" and cross "T"s" and by 2022 we are ready to go full blast.

(:26). As I said, we believe and we and we rely on KS, but the work of the KS in 2022 changes.

You have learned about the ethos of the soul, ... of the knowledge of the Foundation. Now we bring outsiders, and your job is to teach them. To enlighten them with the knowledge, that with their expertise they bring a new D to us. We bring consultancy, but part of our negotiation with the consultant group is, they have to understand the ethos of the KF, .. the knowledge of the KF. It's there, the KS come in, to teach the ethos. To teach the way we think, the fields interact, they see how things are done. And then we deliver expertise with them, and you, in D in new direction. We setup to see, and to be part of this process, then in that process, we become, in a way, teaching, and in a way, progressing, rapidly in D of understanding. Humanity has entered a new D, and now we have to be there to support it, .. to understand it, .. to be part of it, irrespective of time, place, and position.

Many of you are getting enlightened in different D and directions. How would you as KS participate in this change, is entirely up to you. We ask you to come in, to teach those who are building the sites for the expansion of the KF, to the architects, that they understand how the building has to carry the STM in it, (:28). How it has to be a place where he absorbs the energies of the U, and the rest of it.

The teaching changes from me to many of you KS. People like Jalal, Alex, and the others who are working in the background, our dearest friends in Vietnam, and other parts of the world which are working in this direction. You become the next teachers, the next cycle to show the progress, to show the .. achievements of everyone else. And we'll see what things will come in. We'll see how we progress as a, what we call, One Race, and how people around us, will bring this success home. The rely on .. the support of the KF and in that, we'll find out one thing. Mankind is ready for change. The change will come in the process of next 12 months.

Most of us will not talk about the war. Most of us in 2022, will not talk about .. viruses, and everything else, because we'll bring a knowledge to be seen and to be understood and with it, we'll find new solutions in life. Many of our industries of today, in the next year will change. Many of the ways we have used this planet will start to change. It's 7 billion of us, and it takes time to teach everyone. But the start of the process of the change, as One Nation One Planet OR will start in this coming year.

It is most probably important for many of us, (:30). to understand why and how. It is up to you to analyze, to sit back and to watch. When we talked to our fathers and grandfathers, they watched a man, who was on the back of a donkey and a camel for centuries, to become on a bicycles, and a motorcycles, and jets and fly to the moon. No one has seen more evolution in the short time of their life, than our fathers and they adapted to it. They learned from sending a letter, to handling the mobile phones, and computers, in that age, time cycle. Now our cycle will see much more bigger change. We will learn communication with the soul, .. with the strength of thoughts, we learn transportation with understanding of the emotion.

Our generation and the generation to come, will see a bigger change, change from the physical D, to D of the, what is to come, the way the U works. The mobile phone, the cars and the jet was in matter state. We have taught enough, that the man will grow to the new cycle. The change for many of us will be drastic. Moving away from eating to absorbing energy, moving away from burning and destroying the atmosphere and the environment, to moving silently, to be present.

In a way, many of us will change our behavior, our attitude, because we learned, we were afraid if somebody hears us, "close the door," that nobody can hear, and we can talk. Now we have no way to close the doors to the STM. What you think is heard by the mother-in-law, or is heard by the bride. So all thoughts has to be clean and clear. No chit chat, as the STM has no room, (:32). and has not doors and windows to close. our fear of being heard, becomes our strength to become correct. We will see this change in the coming year. In 2022 many of the Knowledge Seekers (KS) will switch from the dimension (D) of physicality to the D and work of the soul. I have seen many of you changing without you knowing, as I have seen this process before, I see many of the KS will elevate to understand the process of the creation, and in that process become the light.

We welcome and celebrate the birth of Mitra, and at same time her presence amongst us, as the creation of the Creator, and this has brought the change. This will bring many changes, as the mother of creation has chosen the earth, to be mothered by, and be learned more.

Many of you will walk away from diseases without you knowing why, but you understand your soul has elevated, and the D of physicality has changed with it. We'll see a lot of things change this year, as new T and understanding of the plasma (PI) and other sciences, will bring a new breakthrough for the world of science.

The biggest point and biggest change will be the opening of the 3 in Tehran, in Vienna, and in Arizona (AZ), where everybody moves, and everybody does the same thing, but target is the same. If you remember in 2014 we did such a thing, with the thoughts of two, stopped the system, while the 3 systems were running in Germany, Canada and Italy. Now the same system is ?? again. We always work on the 3 basis, and with it, (:34). this time will come the elevation of the Soul of the Man (STM), not stopping of a motor. This is the reason for it, we have chosen the 3 spots. It's not coincidental. Nothing in my work has ever been coincidental, has a reason, and with it, will bring the change.

The beauty of it is, the American government does not know how to handle the transfer of T to the US. We are seeing it, and supporting ?? us, has been one of the main ingredient to stepping down from the war, stepping down from conflict, was the biggest thing we were expecting from the American administration. We respond to his Excellency President Biden, the space T of Iran is open to US.

The way we see it, will open up to many, many of us. Many of the KS will be invited by invitation only, to join different centers for short time or long term for developments of the space T. For sure we see many, many old guards in. We see many people with a lot of knowledge in, to be in, support, and within, the reach of the knowledge, that we can transfer to educate, so many new, hundreds and thousands of scientists, that they are still in the matter state, to convert in the understanding of the Pl, and many of them will reach to the height of new understanding, and they bring us that position.

Colonization of the earth in the coming decade, as a full-time base, on Mars, and beyond, will become as normal, as what we do today, we go from one city to another. This time we produce everything at the point of demand, this time we produce everything, even elevation of the STM, at the point of demand, and then the change will come. (:36).

I thank especially the Iranian administration .. to be there to support for the KF to reach to position it is today, and with it, we'll respond positively to the changes, which are set to come to Iran. We will invest a lot of time and effort, to make sure Iran stays the center of intellect, irrespective of who will be in the position of power in Iran, as it will be carried by the nation, and not by government.

We offer you our best wishes for the New year to come, to those who are believers of Christianity. Many of our nations calendars work by the promise and belief of Christ in Christian calendars. In that process we become part of One Nation through the teaching of the Christ.

We welcome you today to share your feelings and not try to answer many questions. What do you see of the future, in what you have learned? What have you understand what will be the future for your children and your great grandchildren, and even for yourself. Where you thought you might live 60 years, now you live 150 years, you have just spent a third of your lifetime, what are you going to do with the other two thirds to come? We used to retire at 70 or 60, now we just small children, and still got another two-thirds to go. How are we going to participate in society? Are we choosing to hide in the rooms and reading magazines, and newspapers and watching TV until the time comes, or are we changing our position and becoming productive, (:38). and active part of the position of this planet, with the knowledge we carry.

When Noah lived 50 years, they thought it was a very long time, now many of us in the man's cycle will be 500 and 1000 years. Then you can see life will be very extended. Would the government decides, on our pension, and when we can pack it in? Or do we start a new cycle, after what the matter state completes and we become elevators of the soul of the others through what we do.

Let's see how we can change the tradition, by knowing, we still got another 60 or 90 years or 100 years, left to live and be in the D of physicality. Would we sit in the chair, or do we get up and bring the change. The future is very bright. The future is extremely beautiful, if you understand what sits on the other side, and there is never a deadline, or a time zone, or what we call, country or a nation. Man decided to draw the line formations,

.. that 60 is the time when we pack it in, because we want to, or we have to. When in fact, as there is no nation, there is borders, there One Nation and One Planet, there is one soul. Would we support the other souls, with our soul to elevate, and then we find out there is no time to be a pensioner. But we have to pension out, to the others to elevate from our knowledge, our feeling and emotion.

As I said, a very happy New Year to you even those who are sharing it with the bears and the others, and at the same time, (:40). many of us will see a new change in 2022. And I hope .. that the time has come, that we have no more leaders, but we have collective leadership, trust in our soul, who is the leader of our lives. With it we receive the support of the UC and the Earth Council, to see the change and the transition through.

I'll leave today, the floor to you, to share, what you see from the past, what you'll see for the future. And I thank you for being KS, and be there to share so openly with the others, the knowledge of the Creator.

Rick I leave the floor to you to carry on.

R: .. Well I know for me, I could start off I suppose seeing that I was kind of there at the beginning of these teachings. These teachings were based on the , or the KS workshops were based on the first public teaching workshops that Mr. Keshe put on, and they ran for about a year before the KSW started, and before that there was the Keshe Plasma reactor Group that I started. Mr. K liked some of the work we were doing with reactors, that were roughly based on the patent that he had put out using those ideas, using gases and rotating reactors. Then one thing lead to another and here we are in the KSW. So it's been, (:42). quite a journey. In many ways some of the reactor experiment and research went to the background as other things became more prevalent, the Gans T, Nano and especially the soul based teachings in the last years. But now I hear rumors that people are actually becoming interested in working with the reactors, as more the vision of previous time produce power and lift ...

It's a very exciting time. ..

(:44).

Q: ...

(:48). Q: Salomea, ...

(:52). ... (1:02).

(1:04). (end of Salomea) ..

R: .. Mr. Keshe you have a new picture on the screen, would you like to explain about that.

K- Yes, what I am trying to do while others are sharing their thoughts, we are sharing the achievements of this year of the KF. What we see, the Exhibition Center (EC), which is now fully operational, and what we have achieved. This is the television center of the KF in the center. KFTV has got a home. We see the station in a beautiful way, that will come

into operation this year. Where everything is set to go ahead. It's one of the first times we share these pictures. This is internal, there are 3 sections to the television studio, which is now set, fully operational. This is the conference section and the new exhibition. This is where the knowledge and T will be shared. This is KF AZ where we put everything out. It says, OPONOR building peace through T.

That seat on its own in the middle has a lot of meaning. This is the seat of justice, the seat of knowledge. (1:06). It's the seat where man will share peace, and what we call, "without bullets' we'll achieve a lot. The bullet of knowledge is heavier for those who take these seats, to be just and correct. We see the EC in Austria.

These 2 pictures brought a lot of pressure on the negotiation in Vienna. The American delegation and IAEA to see the flag of Iran in US, and .. in Austria sharing T, brought a lot of understanding that we talk about peace and sharing of the knowledge. I know the meaning and influence in discussion these 2 pictures have brought to the table.

This is Iran's first factory where we have set and in the coming days start manufacturing the MaGrav systems and CO2 captures to be the first units. Today we are celebrating something else. In the next few hours, maybe before the end of this session, what I call the first marriage of KS will take place. The head of Iran KF, Yosef, in next 2 - 3 hours will be getting married to another KS in Iran. One of the successes of Iranian KF, (1:08). has been the ?? of Yosef, and correct conduct. In the way he works and lives by the ethos of the KF. Doesn't matter who he sits in front of. We congratulate him and his new wife, and we join the celebration of his marriage. He was interested, he was willing to share the ?? ceremony with us, but due to certain restrictions and .. situation which exists at the moment in Iran, we could not share, and be part of his wedding ceremony. We wish him all the best with his new life and beautiful wife. The strangest thing is that the whole family are KS. We congratulate, the first what we call, KS marriage. The way this marriage was taken place, and they got introduced together, was through the work of the KF. I am hopeful we'll see many of these marriages, and we see and wish all the best for KF Iranian team, as they are strengthening in their work. We hope we'll meet very soon with Yosef and his new bride, and as KS, that they support and have supported the KF in Iran.

This is our KF images from Jin and Jiang. (1:10). With Wang Lin, if she wants to share the latest pictures. . . . We have built the most prestigious offices and what we call, sections of the KF China. This is the production side .. producing Gans's. These are the very first MaGravs, which you will see many of, will be exported around the KF. . . . oil ??

We saw harvest increase in the fields of North of Iran, which lead to the first signing of the contract and understanding with a major university in Iran. This harvest showed the government of Iran that the T is and will effect the farming, and now ?? has signed the biggest what we call, universities in Iran and you will see a lot of agricultural reports coming out.

This picture has a lot of meaning for us. It's the first time Iranian government officially confirms use the KF T since 2008. This is where, (1:12). the major breakthrough was brought in for the KF.

The officials especially the Americans and British, by seeing this report and being part of the negotiations, understood KF is part of the integral part of the Iran defense ministry force. They have suffered with it, they could not expand their expansion programs, because of this picture. Many of you will soon understand what these 2 pictures have to do with each other. Where through this picture, which many of you seen with the lying Prime Minister of Israel, and the confirmation of the other picture, which we saw, which lead to the whole structure, brought many changes. We understand that this picture in the future, will become to be one of the cornerstone changes, and acceptance of the KF T, in the world. Because in our process, in our work we managed to confirm and deliver, confirmation from a national government.

It is a huge achievement, and this would not have been done, if we did not deliver the T the correct way. ... in 2008, when I went to Iran, I signed a written guarantee contract with the Iranian government, that my T, (1:14). can be used for defense of the nation, but not for military advantages and war. We saw with this disclosure, this Iran never crossed this border. But with it defended the nation. This was breakthrough we were waiting for. In the coming time, in the process of our understanding more and more of it, we came to understand, that our T was used and abused by other nations.

In so many ways, the breakthrough in 5plus1 came when, we put the pictures and the understanding together, for the governments to understand how a space T was abused to misrepresent, and this is where the peace talks changed course. That it wasn't hidden, that one light, but the beauty with us, one T brought the condition of what we see, progressive peace.

In the coming time, we will push further, we will not stop by, in a way, the progress of the KF. We will see many pictures to come from achievements of the KF KS, and we will see a massive developments under, other side of the work for many of us. We are like what I call, a pack of cards, a strengthening by each card, (1:16). being added to it, by knowledge, what I call resilience, by understanding and ... adding new T. The breakthrough for many of us will come this year with the latest space T, which we'll release. As we endeavor to bring the change through T, and through understanding better advancements in T. Space T which we are ready with that, ... which we know will bring the change. The changes it will bring will be massive for many of us. Maybe .. we'll see more. This is one of the first KF ?? factory for farming in Austria. This will bring new changes for many of us. We'll explain this, the structures which are to be built around the world using this T.

This picture (Brain EU) will bring change again to many of us. I am sure a large percentage of the us, and our children ... family, will come to use this system very rapidly, stroke, ??? (audio lost ..) The stroke and elevation of the STM, (1:18). all will be controlled, all will be done through this system. ?? it controls the STM. It has the

power to elevate the STM. This is one of the most powerful system ever been built, made, or built for the human race. This the cornerstone of the man changing, understanding and observing the elevation of his soul, through understanding of his own.

A number of these will be sent to AZ in the coming weeks. In the coming weeks, we'll see, we put the soldiers of war, of America, coming back damaged, walking out of these as a normal human being. We'll concentrate on veterans to start with, in US, using these systems. Those who received mental damages, those who received physical, structural damage to their brain, to be rebuilt using this, and with it we'll see the change in physicality. I have said before. .. You looked at these systems for physicality, I gave you this system for elevation of the STM, and you will understand, many of you will wish to have a few minutes within this structure (brain helmet).

Then you'll understand how progressive we have become. You will see massive change to come, in the knowledge this year. A hundred of these units are set, (1:20). to be exported out of Austria this year, to different location around the world. To show the effect directly on the changing of the man. We'll see these in prisons where people who are under no control, they see elevation of their soul and we get and receive a new man. Not through psychological change, but through elevation of the soul. And we'll see changes. This small unit is prelude to big changes for human race. This is one of the achievements of 2021. We will see more and more advanced systems than this to come. Conjunction of the different T of the KF to deliver a massive punch, where nations will rely on T, which we ?? expect of the .. nation and the place where the T is built. ?? in Iran.

The first MaGrav systems. You will see these MaGrav systems right across the world, export from Iran, and with it we'll see big change. We'll start teaching you how to use the MaGravs, not as an energy system in the electric current, but as a power house for many changes in your lives. You will see, in what we deliver with MaGravs, you will move away from eating. These MaGrav units, you looked at it as a power generators, they are, but they are power generators for what we call, the D of STM and the physicality .. You plug it to the wall, (1:22). we plug it to your physicality, and then you'll understand. You were looking for a generator, it's been sitting right in front of you. We'll tell you how to correct it, and how to use it. Then you'll see the change. Understanding the T, doesn't sit in the box or in the unit, understanding the T sits in totality of understanding what we call, the elevation of the STM.

Rick is there anybody else would like to share.

Q: Marie UC, I want to speak on behalf of the UC .. what we have done this year. We We have been working on the unification of souls of humanity .. (1:24).

The way we are working together as KS. elevation of the peace process in Vienna with the 5plus1 negotiators ..

(1:26). .. (1:28).

(1:30)

Q: Numbers K put up in Persian $8 + 8 = 16$; and $1 + 6 = 7$; which is the 7th step or stage of Mitra in Mithraism. ..

Q: Dean ...

(1:32). .. (1:36) ... (1:40). Thank you (1:42).

Q: ...

(1:44).

Q: Jalal, ... (1:50). we don't stop no matter what .. teaching going on all the time ..

K- Thank you Jalal. I am sure what we see, you'll be a massive part of it, you do not know yet. I asked Chinese team to share past year successes .. that's all I received from them. .. This is the KF China headquarters impressive. . .

(1:52). some months ago it was nothing be a shell. .. advanced T with advanced space ... this is your place ..

This is where we spent our finances, .. strength

(1:54). We will show very soon the headquarters of the KF in Austria. .. We are becoming independent. The beauty of it is all this invest is done without a single cent barrowed from any bank. Nor has a single cent been asked from any organization to support. It's done on the strength of the KF, .. what we do and what we believe in, and what we are committing ourselves to. And it adds up to a huge amounts of progress, .. a lot of trust in what we do. Don't forget all this will be left to our grandchildren and great grandchildren .. because nothing will be taken by us. We develop it, we build it and we leave it for the time of the history to tell. We set out to create peace through knowledge and T, and very soon this name in different languages ... and flags will be across this planet. Knowledge without borders, .. expectation, and sharing knowledge for peace. I thank WL and KF team in China. For very hard, they sacrificed everything. From now on we'll see the fruit of their work. WL is on the line .. Are you there WL (1:56).

Would you like to share anymore images from your headquarters ..

WL : ... I am going to shipping some things for the spaceship units.

K- Okay ... The first 3 set of spaceship units, one goes to AZ, to Austria, and to Iran, is about to take shape in the next few days. We'll see on the arrival, they are made in the full shape, not to assemble. We will see the approach of the units we are ready to deliver the T in a vast way. 3 units a weeks . I know exactly what you are doing and where you are. She is busy with something else. (1:58).

The new flight EU will be sent around the world when the units are that they all receive the knowledge at the same time in 3 countries, and there will be more than 20 nationalities getting involved, by around about mid February the latest. Then we'll see where we take.

We have made request to American government for admission, for accepting the flight EU in US. This will be a major breakthrough for, not only for KF, but for all of us in sharing knowledge. We request from a number of KS, to move in these positions in coming weeks, to be ready to teach, the scientists who come in from these organizations,

to be ready to accept, and understand, and collaborate, that by mid-March we'll have the flight system, to be ready to test. Then we'll move on. You got to understand, the most important part of the flight system has not been disclosed in understanding of the totality. This will be done in the coming weeks, and months with the international scientists collaboration.

Any other part ..

Q: Stephanie .. (2:00). ... (2:04).

R: There is something I can add to the experiences I have had a bear come to visit over Christmas (2:14).

Q: Kay. ... may the soul of Jesus be with all of you we are 100% sure this is going to be a special year to come. (2:16). I was them a lot of luck ..

.. nuclear scientists who got assassinated ...

First thing I came across about Mr. Keshe ... I was already connected to what he was talking about .. it sank into me .. I felt it .. (2:18). ... I knew this knowledge was a game changer ... (2:20). (2:22).

I am grateful for the condition K has provided for .. we shall have a beautiful 2022 to celebrate...

Q: (2:24). ...

Q: .. How has Mitra lost the memory and .. now in the process of changing?

Q: .. After bringing the peace to this planet what is going to happen , live and kicking in another D?

Q: Mosveq ... (2:26). this teaching process is inspiration to all of us ..

.. I got involved in the health side of it (2:28). (2:32).

Thanks everyone ..

(2:34).

Q: .. gave me more inner harmony , strength, trust ...

Q: ...

Q: ... it's as if the light came on .. love of humanity shines through ... (2:36).

K- No, just listening. It's nice to be part of a bigger change we all have been waiting for. for generations. I put this picture on, and every time I look at this picture it brings me back a lot of what I call, understanding. If you look at the top of the picture you see the thrusters of the rocket propulsion, we have 6 of them in the building. It looks like you are sitting under the rockets, in the basement looking up into the .. exhaust of the rocket it's to blast in to space.

And underneath like a mole, with these systems, we look at, we know more, that you don't know up there. If you are familiar with ?? ?? there are people living in the center of the earth, in different cultures. We become that culture in the EC. Above us we see the rocket propulsion, underneath we see the space T, that it can even go through the

concrete, and the building and takeoff. It's a beautiful feeling, knowing that you know more and you can share it freely. It's beautiful .. approach, putting the whole T together.

The new T is not just about the flight, it's about every aspects of our need, to be the passengers of this planet, to the need of physical elevation, to elevation of the soul. (2:38). Sometime in the future mankind will understand, that he can enlightened during the flight by elevation of his soul, and decide he does not want to be in the parameters of this structure, which I am flying with, and we'll see many of us, many of the human race in the time of transportation and transmutation (T&T) will elevate to new levels as they are touched by knowledge of the Creator.

Many of us will wish to be in that position and place, during the T&T, as the system feeds our physical life, STP and STM. Many of us will enlightened to the Knowledge of the Creator (KOC), and choose not to be in the D of physicality. During the process of the flight, you might see one or two seats empty of D of physicality, where the soul has taken a new position and D.

We've seen this before and I am sure it will happen to the race of the man. Where as now, we are spraying the CO2, and everything else around to elevate The soul of the ?? of the earth and its citizens. Don't forget now in these systems you are in an intensive zone of massive elevation of the fields. These fields are not created by the system inside, but in that process of very much like, adrenals you call it, going through the system we absorb fields from the outside, fields from the radiation of the system, and lead to better understanding, to more elevation. It's very interesting ... to see how this process will take shape. (2:40).

As I said, we don't need to wait much, 2022 is the year where everything is on the move. As you heard WL from China, she is delivering a most important part of the EU to be added, before its final assembly, and shipment to the 3 destinations. As we said, we ship one unit per week to AZ, 1 unit per week to Austria, and we carry on with this process, till we complete the understanding by all the scientists in Iran, in Austria, and in US, of the new evolution.

No nation will be able to hide, and all nations will work together. This is the beauty of this T. If you look on top of the picture, it's the edge of T in matter state, and below you see the edge of understanding about PI T, and a new cycle of motion and transportation.

The beauty of it is, you see the chairs. That chair can be occupied by any scientist or man on this planet, to be educated with the knowledge freely without charge. This brings back a lot of understanding. Every man expects, and we expect nothing, we just share, and somehow it works. These few last pictures you've last seen is coming directly continuously from WL the EC, because she literally lives in the EC. (2:42). It's amazing how things are seen and done, and how the whole structure of the KF sits within it, sits within the structure, sits within the understanding, and sits within the process, that all of us .. have no choice, but to fall in with it.

Now you'll see another picture added, the 2 EU next to each other and 1 from that matter state, and 1 from the physical and soul state. Very soon there will be a third unit in the center of these, which is the flight system. We hopefully see in next 3 - 4 weeks, once it arrives in Austria. Then we'll see.

I asked a military force of a nation, to ship the 3 units directly to each nation. We are waiting for a response. That way once the units are completed, all 3 nations will receive the same system at the same time. It will be interesting if the military leaders will accept such a move. We'll see how things take shape, It's the age of change, and we are part of that change, and bringing that change. It is interesting to see what, our future generation will look at when they look at these systems.

Thank you very much Rick, it's been a beautiful year, (2:44). we taught a lot, learned a lot, and we shared a lot. hopefully in time some of it will be understood, and in time some of it will be acted upon.

... we call it a day. ... we wish you one of the best years for the human race.

There is one promise, 2022 is end of religions. I assure you, and with the will, of what we have, we shall see. The end of belief in different paths of belief, will come to an end in 2022, be it Christianity, Judaism, Islam, Buddhism and the rest. They all will believe in one thing, and that's in the presence of the Creator amongst men, and in the STM not in D of physicality. That's one thing for sure, and that we'll see, the end of belief in Creator in different names and religions. We will see the end of religions. There shall be no separation, they all become one. This is one of the most beautiful things we'll see starting in 2022.

Thank you

Q: .. Can you give examples of matter, with the big "M" matter?

R: And we were looking at the books and kind of trying to figure that out. Didn't get a good solid answer.

K- Stones, metals, (2:46). human body is not in a big matter state. Human body is a transition between the matter and plasma.

R: So big "M" matter is like the solid stuff, matter

K- Very solid, it's completion, singularity. Life of the man is a intermediary, not intermediary. Is living in 2 D, of the matter state and plasma state. Our body, (each) cell of our body is in the Pl state, but our bones are in the matter state. We still use the matter state to hang a plasma to it. We create the structure of the man.

The total matter state, is a matter of salt, with singularity of the existence, not composition of existence of different strengths. It's like Fe, Cu. If you think of even alloys, alloys there are still in a state of matter, but it's a composition of states, not singularity of states. The wood is between the two states, because it carries an AA in its structure.

Matter state is what we have as the solid part of the structure of any existence, and material like a. We consider gases as part of that matter state, but in different field

strength. We consider water as the same. Matter as big "M", (2:48). is what you hold in your hand, in the singularity of the state of atom.

Q: Alex Canada, .. I just want to say a few words because we brought up some memories. Thank the 3 musketeers ... my customers helped me out. buying plasma water ...

Don spent most of his life in wheel chair ... (2:50).
One of my wishes was to get rid of the wheelchair. ..

(2:52). ... (2:54).

The 3 gentlemen helped me tremendously ..

Don could walk again, Mark re-grow his organs .. Mark could wash away memories of war .. they all passed away in 2019. I just want to make a wish. They enlightened the movement of US and British ..

(2:56).

... the 3 musketeers would have been proud to serve thank you.

R: it would be my wish to become 5plus4 actually ... (2:58). ...
Are we done for now.

K- No, thank you .. we wish you a Happy New Year. I am sure when we meet next week, there will be much bigger news start floating. We'll see the beginning of changes. We hope that we'll be able to conclude a lot of things in next coming year, especially our hope and wish is the completion of flight on 6th of June. The KF space company GM??GH has already been signed into, established, is under permission of Austrian government to become a space agency organization above 80 kilometers, which is above aerospace, (3:00). and it's first time Austria becomes a deep space company, and establishes ground for it. We hope we can serve the nation of man with peace as One Nation.
