

414th Knowledge Seekers Workshop; January 6, 2022

Note: Transcription has not been checked by KF. Please listen to original recording.
(Transcription by KF Brazil)

(Start of deeper teachings of transmuting not to be afraid ..)

Quick index

What is real what is mirage

This will be best year for human race; Many will be enlightened to a new D; Foundation for new human race; Travel with both soul & physicality; Have to learn what is real & what is reflection or mirage ; Spherical nature of plasma creates reflections appear real; When transmuting have to know of environment is real to manifest; How to convert energy into manifestation of physicality ; Understanding Inertia at point of manifestation important ; First time flight systems will carry their own soul ; Flight systems cannot be converted or destroyed by whatever fields travel through; Trust your soul to the soul of the spacecraft ; Soul of craft responsible to feed D of existence of passengers ; Your soul is captain of every cell or your body; Travel through soul on earth; Negative G is old physics - doesn't exist in new T; Can transport thousands of you in small flight system - as a soul; New EU is new cycle of knowledge even for U Community; New centers will be built by STM devoted to serve humanity; Soon understand meaning of birth of Mitra; From now on Mankind will be in charge of his own soul; Manifest in NY as black - even though born in China as yellow; (Mankind will be able to change his physicality according to his desire); We will identify people through their soul - not physicality; Strength of the soul in serving whole U - not only man; Understanding strength of soul of Inertia of body; Able to measure strength of Inertia at point of manifestation;

Can manifest at different points in Unicoise at same time - with projection

When receiving knowledge of U - have to remain humble and teach others

Many are among us - not from this planet; Man will learn to recognize them

Passenger of U might appear during the flight

Visitors from other D here on earth - are peaceful; Do not be afraid

They have understood peaceful nature of U

Before using flight system - use Vision EU

You feel the VEU in the emotion of the brain

No deaths while using flight EU - travel in D of the soul; Death by car accidents is over ;

When 2 souls or plasmas touch - they keep their integrity; Don't need driving license -

certificate of the STM & how to transmute ; Bringing STP to be part of the STM -

understanding the emotion of the STM; STP decides emotional strength and make up of

physicality ; This knowledge has been hidden to man; No man shall kill - the STM will

feed the D of physicality

Tomorrow is another Christmas for the Orthodox Church; Tomorrow will be the change for many of you - T&T of the soul;

It will be done in 3 centers - chosen for their points of energy fields of U; Before - to show manifestation of the fields we chose - Germany, Canada, Italy;

The 4th (reactor) of SF - will be the manifestation of the totality ;

It's not coincidental, it's chosen, a long time ago; Humanity has reached a point of maturity ;

As we'll make a man to be a stone, and a stone to be a man.;

We'll make stone out of the STM - that it has no emotion, no feeling,

We'll make stone out of the man - if the man decides to go the wrong way

I hope today's teaching opens a new D for many KS, and many world leaders (WL),

And many of those who sit here - to report falsified reports to the WL.

And those who by their conduct have become - what we call, a "phantom soul"

By understanding the teaching of today - you elevate the soul of the others

Maybe man in 2022 will be enlightened to the truth about return of Methi

It depends on the rulers of this world & RL to turn tide -make this a peaceful planet

This is our way and we'll achieve it - as we have access to soul of all.

It's the year of Methi, it's the return of the Messiah,

Let them (the leaders) battle it, as we know who will win the battle.

Understand the creation of emotion and not (just) to look at the emotions,

The emotion is the key to understanding process of interaction of STM & STP

It's key to understanding the process of interaction of the STM and STP of the man.

RNA of the M fields

22nd February 2022 - Tuesday Universal Council meeting

Listen to NACT teaching Jan 2, 2022

End of religions

Christ did it without using a machine

Iranians are preparing for return of Methi

It's the end of Rothschild's era

If you are very religious - you'll be enlighten first

Ayatollah been touched by enlightenment to bring change - Pope also

KF not bringing a new religion but knowledge of the Creator

Death of leaders and mass support - deeper understanding

15th December massive punch to IAEA changed negotiations

Iranians graceful - had documents but didn't show

Immediately Israelis changed story on Iran nuclear weapons

Rise of billionaires in Iran - because of new T

Man kills for power

Planned murder and takeover of KF

KF AZ center outside framework of Markray

NASA & other space agencies invited to participate

Energy crisis in Europe fake to get back lost profits

MaGrav goes through transmutation of energy - cascading

Largest factory in Romania

We go with Shia because bloodline directly back to Mohammad - bring change

ENGLISH TRANSCRIPTION

(:24).

K- .. We welcome you to the New Year in the Christian calendar, and we know, and we hope, it will be one of the best years human race has ever seen. In a way, the big change, the change mankind has been waiting for will be fulfilled this year, one way or another, in different strength, and different dimensions (D), in different ways, through the D of physicality, or the Soul of the Man (STM).

Many of you as Knowledge Seekers (KS) and others will be enlightened to a new D. We'll understand more, many of us will change our lives, because of it, for it, and through it. And becomes the basis for the foundation for a new race, of human race, on this planet and throughout the U. This will be the year where the man will take the first stride to become in total, part of Universal Community, become part of what it will see, (:26). to become it's elevation of its soul, elevation of his own physicality to understand both. To understand what to do with it, and how to do with it. Become the soul alone without the attachment of the physicality, or become in the D of physicality and the soul will travel together.

One is what we call the point of death, and one becomes, becoming passengers of the U. What is real, what is not real, will become one of the biggest problems for human race in the space. In the world of physics, in the world of understanding reflection, and manifestation of the physicality to the sight of the man, those who choose the path of physical D ?? ?? manifestation. Will carry ?? live to be real, and what becomes to be, mirage. What is the reflection and what is the truth? The soul you see, is the real soul in front of you. The physicality you see, is the real physical D to you, or is it a reflection, a mirage?

We have to understand that, to keep a plasma (Pl) moving, plasmas usually take a spherical shape. The sun or a slightly flatter shape through the compression of the fields of the U, a disk, are still a Pl. And there is an inherent problem with this shape, that man has understood it partially, in D of the physics of the matter state, but now he has to understand, the same exists in the D of what we call the fields of the U.

When you have (:28). a spherical shining transparent ball like a Pl, are you in it, or are you outside it? What do you see, if you are in it is real? Or what you see is a mirage? Is the D you see, a real entity, or what you see outside exists? Does one inside another, creates the same problem? What does this mean? Many of you have been through the physics, .. understood the physics, the concave and convex mirrors. Now you have transportation dynamic, what we call, fields, which create that effect of the mirror. It's not solid, but due to its transition and rotation, creates reflection.

Then it comes a question for man to ask ...?? in the wrong ??? When you travel the depth of space, when we convert or decide the physicality of an environment, is that environment real, or is it a mirage, that we have come to see, to feel, to understand. Reflection of the galaxies on the other position in the U, due to the reflection of the light of the .. galaxy itself, within the dynamic spherical shape of the U.

Then we come to understand many of the things we see in the physical eye, (:30). they are not real, they are mirage. What do we do? Do you manifest yourself in ?? ??? there is nothing but you think it is a planet. How do you change, how does your soul convert itself. (bandwidth problem)

Then it comes to understand, how do we manifest ourselves? Do we manifest ourselves in a D of the reality, or do we manifest ourselves in the D of upside down? Where we call it another cycle. Where the reality doesn't exist, but it is a mirage. Mankind will have a lot of problem with this process, mankind will come to suffer heavily, if he does not understand. How do you transfer even if you land in the right space and D, and the field, which has no matter D, but is the PI of the fields of the existence, and you want to convert your energy into manifestation of physicality, how do you do it? How do we convert our souls when we transport ourselves within the system, from one system to another?

When I transport you through the new transportation system. I transport you through the D of the STM, not the physicality of the man. (:32). I don't look for every cell, what is going to be, what energy it's going to have. I transport you through the soul, and the STM in the D of the arrival, at the point of manifestation, has to be able to convert itself to the fields of the strength of the matter state, on the condition, or physical PI state, on the condition of point of manifestation.

Then mankind comes to understand, he needs a new understanding. He needs a new conversion, he needs to understand how to convert a mass of field, a mass of energy tangible or visible. You arrive at the point, you meet with another PI, which is alive, is a living thing. How do you manifest yourself to it? It has no eyes, but it wants to feel you, it wants to understand who you are. You want to understand who it is. How do you change the fields of the PI of the STM in the D of the detection, and manifestation of confirmation in a physical D, at a point of manifestation to the other soul.

Then mankind needs to understand why, so many times we refer to the Inertia. Inertia of the point of the manifestation. Inertia of the point of the change on conversion to the strength of. Then you understand, why so many times in the past, we emphasized on understanding this. Even in the teachings of the matter state, we always said, creation of the PI in the upper atmosphere of the earth, when it comes in touch with the Inertia of the matter state, converts to that matter on this planet. Now man needs to understand this, how does he convert part of the strength, (:34). of his own soul to become its Inertia detector, Inertia conversion ?? with. This is where the STM will manifest itself, both in the D of the soul, and the D of the physicality, where the Soul of the Physicality (STP) exists within the D of the STM. You cannot be fixed ratio, fixed what we call, strength of

Inertia. Your Inertia, your fixed Inertia on earth will not work in another D. It needs Inertia of the point of Inertia of the manifestation.

Then we understand more, how in the new flight system, even our flight system has to be dynamic to be able to manifest itself, to hold itself in both D of the physicality and the soul. For the first time, in the systems we develop for the deep space travel, will carry the soul of their own, which them never to be converted, never to be destroyed, does not matter what field strength they travel through.

Then you understand when he says, at the very beginning of the teaching some years ago, "we trust our soul in the hand of the captain," that when he delivers us at the point of where we want to be, in the D of physicality. We give our souls to it, and then it protects it, and in the point of manifestation and delivery, we release it to be there. That soul is the soul of the craft, that soul is the soul of the entity within, which many of us will choose to travel with.

It does not matter what the state of Inertia, in which point and what strength. The soul of the craft, the soul of the man (STM), which is a craft itself, travels. We see the soul of a craft to be responsible for what may be chairs and tables we call it, (:36). or D of existence to feed. Your soul is again a captain, for every cell of your body, which has accepted responsibility of, to look after every cell. To look after every point of existence, manifestation of the physicality within the body of the man. So when you look at the physicality of the man, and the STM, look at another universal D, another universal entity, another existence.

This is where mankind has to understand with the new systems, we are introducing and bringing out this year, and you will see it in AZ, in Tehran, or in Austria, we consider both D, that every system, not only carries the matter state strength field of the Inertia, but has to carry the soul of the craft, has to carry the soul of the passengers of the craft, and deliver the man at the point of manifestation. I don't take you in the physical D from Beijing and deliver you in New York a minute later.

Then you say, what happens with the negative G, what's going to happen with the high speed? It does not exist, this is the old physics. This is what man had in the matter state. In the D of the new understanding and the way we are preparing you to become man of U, is to understand that there is another way. There is a knowledge beyond the knowledge of matter state of physicality of the man.

In the new flight system we transport thousands of you in these small aircrafts, because we let you come in, you walk in and you become the soul. We deliver you as a soul to New York to Tehran, to Beijing, on the moon, or U in the same system, in the same flight ?? pattern. (:38). The flight path, you could be anywhere. The soul of the craft will take you and deliver the soul, and then you decide if you are in New York, you want to be blue eyed or white skin, or black skin and brown eyes, or be the shape of the man on the moon, or the Mars, or another planet, but craft is the same craft.

The new enhancement unit (EU) which is brought in, and will be delivered to AZ, Austria, and Tehran in the coming weeks is the new cycle of knowledge, even for the Universal Community. In understanding the elevation of the soul of the U, and not the man. The new systems will not carry what man always thought. I put an ice cream in a box, and I open the box, and we see ice cream in another position. The shape and the taste of the ice cream on the point of arrival, depends on the man who uses it, and what taste he wants the ice cream to be, and in what shape it will have. Not the shape you put the package in. Mankind has to become to understand, the point of T&T of the man and the human race has changed. In the coming months and coming weeks we'll emphasize and we deliver.

Many are waiting for us to deliver financial supports to build the centers. It will be centers in the STM, those who are devoted, and those who have served what we call, the humanity. Then you understand. Then it comes to be understood that the STM already has its pioneers among the KS, and those who serve the humanity, (:40). already in the space and position. It does not matter if you are in the D of physicality of the earth, or your soul or your ?? souls, are chosen positions across the U.

Mankind will .. soon understand what is meant by the birth of Mitra in the D of physicality, and D of the STM. Mankind will come to understand, that from now on, he is, and will be in charge of his soul, and not the D of physicality, where the physicality will take shape according to the position and manifestation of time.

Creating passports and .. birth certificates will have no meaning as you manifest in New York as a black man with brown eyes, and you were born in China with whatever color of the skin, yellow and blue eyes, green or brown eyes. Then we understand there is a need and a process, that will come to the teaching, that the identity of you, is the identity of the soul. The way it has been and always shall be. The strength of the soul, the D of it's serving what we call, the race of the U, not the man only. If we become only serving man, we'll become back in the same trap of this village of the earth, bind it, and imprisoned to one D, for one place, and one position. This was the station of the prophet of the past, and now it has opened up for the man, to understand the totality of the process of the growth of the STM. The creation of the man in the D of the U, it will become easier, till we understood. (:42).

One of the biggest problem, those who travel with the new flight system will be to understand the strength of the soul of the Inertia of their body, according to the environment of the manifestation. You do not want to appear in the N Pole with swimming wear, and the middle of the desert with the fur skin, or a fur coat. This is what the new knowledge will be. The cycle of the man in the teaching of this year, is to bring man to the point of understanding, how he manifests himself, how he transmutes himself in both D and in both strengths. The clarity of the thoughts, the clarity of the understanding the position of the strength of the STM in all D.

To understanding what is the real point of manifestation, or am I manifesting myself in the middle of nowhere, thinking I am somewhere. In a D of understanding mankind will become to understand, to measure the strength of the fields of the Inertia, at the point of manifestation, that this will give the man a chance to understand, if the position is real, or is imaginary, or is just by the vision of the man. The what we call, convex, or what we call, concave, manifestation of the energies to be real, or to be imaginary, or virtual, is part of the work of the U.

Then mankind will come to understand one point, most of the stars, most of the galaxies, that we look at in the depth of the space, (:44). is nothing but a mirage. Where we as human race and other races, have come to observe, as we were not, as we were looking at the ?? reflexes of what we call, ?? degrees of the fields of the strength of the interaction of the fields of the U, and the time and the position.

This gives you an amazing power of the knowledge, this gives you amazing what we call, strength in understanding the power of the man. Which means, if you get it the right strength, if you get it to the right Inertia strength, that it can be in parallel in strength of the U, or Unicose, galaxy, or the planet you can manifest yourself at different points at the same time. But which one will be the real one, and which one imaginary and a mirage? How would you distinguish between the imaginary and the mirage. Are you talking to the real thing, or are you talking and receiving energy through the mirage? But would the mirage strength, be conveyor of the energy of the reality.

All these have to be unraveled, understood, and deciphered by the present man knowledge. Because you will not have the eye to see, but the eye of the strength of the STM has to observe, understand ?? digest ?? to decipher and then decide, (:46). if I am going to accept this mirage as a reality, and is that reality to be.

Now you understand that with it, we are entering the D of the space travel, we are really entering the D of understanding, we are really entering in the process of gathering the knowledge of the U, where very few will understand, and then trying to keep those souls, what I call, with the feet on the ground, and not make them to claim themselves to be everything else. To be humble to teach, to be humble to be part of the change not only on this planet, but across the U and Unicose.

What is the understanding of the man, now that he knows he will be traveling in a D of his soul? He will not be traveling the way, the today's flights and systems are, creating compression in a jet liners and putting man in what we call, the monkey suit to send him to the moon and to the Mars. This is why you do not need any clothing, or any kind of protection, to travel among and through the U, and to different D. As now the protection of the man is the strength of his soul. Where the soul decides on the point of manifestation to what strength of Inertia to manifest itself.

Do not forget you can still manifest yourself in the shape of the man in another galaxy, (:48). but as a mirage of the man. But in fact, in D of physicality you will take the shape of the time, the point, and the presence of the ?? direction. Then the people who are

aware of your existence, will see your D of physicality, but in the D of the knowledge of the soul, and understand you are from planet earth.

Many of you will become educated, this you will understand, that many of those who are amongst us, are not from this planet, and you'll start to recognizing them. You understand to see them. You understand to be able to appreciate their beauty. Where in the D of the physicality of the man, you will see them as a man, but in essence when you understand this process, you see their real shape, and who they are, and where they are, and which planet or U they come from.

Remember I explained this some time ago about the men we met in the shopping center in Accra, where they came, and they realized I recognized them, and they tried to disappear in the gap between the lift and the stairs. Because we see them, we recognize them, we understand both D, they exist. This will be the future of the man. When you see another creature in their D, but to those of your own D, you still have the same image. Image of the soul, and image of the physicality of the man in the D of the time and the position. This is not becoming a chameleon, but this is becoming like wearing the frock, wanting to be able to live in the environment, and want the man inside the frock, that the others can see you are the man. (:50).

These are part of the processes that in the coming time that using the EU flight system, many of you will face. You might even get a passenger from another D in the flight, and then you'll see what I see. But there is one thing sure, those who have taken position in time and space on this planet from other D, are peaceful, so we have no fear of their existence. We have no fear of them being amongst us, and we have no fear of understanding, that they have understood the totality of the peaceful nature, of the nature of the U. This is what a lot of us will talk to the others, I have seen this and that, but they can't see, because they were not present. So we do not create conflict. We do not create another D. We do not create another position in reference to totality.

In the coming time, mankind as we develop these systems, will see the development and progress of their own. In the new Vision EU, we try to teach you to see this, before you enter in the D of the transportation and transmutation (T&T). One of the main reasons that I developed the what we call, the VEU is for you to understand the strength of, to understand the position of your emotion and your soul. When you enter these systems, instantaneously you feel it, and then your soul will adjust to it, in the rhythm.

Those who have been in it, swear to it, and they confirm it, it touches them instantaneously, till their soul builds up the D of understanding, the D of physicality. You feel it in your heart, and you feel it, (:52). within the emotion of the brain. Those who have been in it, can tell you. Then you understand, the new D of the T&T of the man, will be different than what we have in the compression and jets, and .. the cars and the rest.

Now we transport the STM, the understanding of the strength of the totality, not in individuality, that is why the new flight systems, there shall be no death. As the death in physical D cannot exist, as you travel in the D of the STM. In the coming time, even what

you call as a car transportation, will carry the same. Killing by accident, and car accident become a thing of the past, because in the D of the physicality of the transporting material, it sits, the soul of it, and then you understand 2 plasmas, 2 souls can never touch, and if they do they keep their integrity.

These are the changes which to come, and in the coming time as we open the centers of the knowledge and teaching, we'll expand. Those who came to test us, will test themselves. And those who came to fail us, fail themselves. In a way, mankind from now will open to a new D of the both, the soul and the physicality, and through the systems and equipment, which we deliver you get trained, you understand, and gradually you become the man who had no skill in driving and you become drivers. Then this time, (:54). you don't need a different certificate ... driving license for a flight school, for a car, for a truck, or for aircraft, as there is only 1 license, one certificate, the certificate of the STM to understand how it transmutes itself, and how he manifests himself in different D and positions.

This will take time, .. evolution in the science and understanding in the D in the world of the physicality of the man, and not in the D of the STM. This is where we bring the STM, within the confinement of the STM and the STP to be part of, that in that D there is no need, except the understanding the emotion of the STM. Then the STP becomes that point of reference, and when it positions itself in respect to the soul itself, within that structure, it dictates what kind of physical understanding and emotional strength, that physicality will carry, in the D of the manifestation of the matter state, or the manifestation of the vision, or observation.

This knowledge has been hidden to man. This knowledge, now that man has to T&T himself in the D of the STM, will be taught, and many of you will learn, and then will enjoy the beauty of the creation, even at the time of the feeding of the STM to feed the D of physicality, that no man shall kill. That's the end of the cycle of destruction for the man, once man goes through understanding, (:56). and elevation of the systems and T, which gradually in the coming year will be revealed and released to man, to become part of.

In another word, we have come to a new year and a new cycle for mankind. For man to reach the position of understanding what we call, the elevation of his own soul. Many of you will be baffled by it, but many of you in the process of coming weeks and years will be educated through it, and you'll become the passengers of the U, not in D of the physicality of the man.

This is the promise we gave by manifestation and the birth of Mitra. Then we have seen the cycle of the man. Tomorrow is another Christmas for the Orthodox Church, and will be the change for many of you. Many of you will go through the phase of transportation and transmutation (T&T) of the soul, from tomorrow. There is a reason for it, at the time I will explain why.

We take that process, step by step in teaching the human race the next phase of T&T. As we said, it will be done in the 3 centers, which KF due to points of the energy fields of the U we have chosen, Tehran, AZ and Austria. One day it will be explained. As I said, when we came to show the manifestation of the fields, we chose Germany, Canada, and Italy. (:58). And now we have seen the same. We'll see that the manifestation of the 4th, which is the totality, is part the Star Formation, and where and how we position these fields brings us the strength and the D. It's not the D of the place, it's a D of the soul, who create the space and place. Then you understand the strength of the soul of people like John. People like Yosef and those in Austria who have been instrumental in bringing the change. It's not coincidental, it's chosen, a long time ago.

Humanity has reached a point of maturity, but how fast this maturity comes to manifest itself, it depends on its citizens, be it the plants, the animals, the stone, the man. As we'll make a man to be a stone, and a stone to be a man. If any of you have understood the strength and the knowledge of the PI T. You made gold out of the energies of the Cu, and we'll make stone out of the STM, that it has no emotion, no feeling, if the man decides to go the wrong way. Till that soul understands the position of the strength of its existence. Now you understand what has been said, even the stone has a soul, as we can change the man's soul to be the physical stone, as he serves none. (1:00). And it is best to be at that position, till he understands the position and strength of the servitude.

I hope today's teaching opens a new D for many KS, and many world leaders (WL), and many of those who sit here to report falsified reports to the WL. And those who through their conduct have become that, what we call, phantom soul. Try to understand the teaching of today, then you have opened a new door not only to your soul, but to elevating the soul of the others, which is the most.

Then you might in so many ways, we'll see many of the passengers of the U, which are amongst you, you've been sharing bed with, or you have been eating at the same table and working in the same office. Don't look at them as a stranger, respect them, love them, and appreciate the way they have been amongst you, to serve you, and to be part of the society of the man.

Maybe man in 2022 will be enlightened to the truth about return of Methi. That it depends on the rulers of this world, and religious leaders (RL) to turn the tide, and make the man on this planet a peaceful man and a peaceful planet. This is our way and we'll achieve, as we have access to soul of all. But we always leave the decisions to be voluntary, than enforced. But in time they will change. (1:02). It's the year of Methi, it's the return of the Messiah, and those who believe in the completion of the cycle of the knowledge of the man. Let them battle it, as we know who will win the battle.

In so many ways, understand the process of creation, you will unravel the secret of creation, and then with it understand, that the creation is not only in the D of physicality, but in the D of the STM. Many of you will turn against yourself, and many of you will work towards that point, to understand more.

Try to understand the creation of emotion and not to look at the emotion, and that's the key to understanding the process of interaction of the STM and STP of the man, and the creation of Inertia, which leads to the creation of the man, how your eye looks, how your face is, what is the color of your hair, and what skin you carry. "I like to have the emotion of the beautiful dark brown skin, with the green eyes, to be 6 foot tall, and to be there with the beauty of my face, my strength, to serve those who I live amongst." Then you understand you become the true man, it does not matter on the position and D of the place, position or the strength. I hope I have opened a new door for humanity to understand what is to come in the coming year and there on. And with it, to create the manifestation of the presence of the Promised One. (1:04).

We go to a break, when we come back I'll answer any questions, which my soul has. Thank you very much.

Proofed to here >> continues

>>> BREAK >>> 414 KSW Jan 6 2022 (1:10).

Q: Stephanie >> It was mistake

Q: Ed, .. I am just thinking is our ability to begin to understand the space travel as we encounter the new D, and Inertias and stuff like that. (1:12). That it is dependent on our willingness to see and feel and understand the limitations of our physicality. I don't know if I have explained myself well enough for you to understand?

K- You've got to understand in a very recent teaching, I touched on something, that had no meaning to a lot of you, but some of you who understood that, will understand what it is, what it will be, and how it will be. I touched on the RNA and DNA of the M fields. One is the presence of the field, and one is the manifestation of the emotion, which that field carries. This when you look at the Pl of the STM, does not carry an emotion on its own. It's a collection of the fields, and what we call, the emotion, which that strength carries with it, what we call, the RNA of the field. This will bring a 2 dimensional phase to man, where our physical soul D carries an information soul strength with it, which is connected to that field strength, which the collection has created soul, of the STM, or what we call, the information carrier of the man.

Where the fields we see are the DNA, and the strength of the information, which is carried at the RNA of that field, leads to its manifestation. So all the fields within the Pl of the STM, within the Pl of even a Cu Gans, (1:14). has, and do communicate, and interact, and collectively manifest that Gans as ?? ? of its manifestation of physicality. So is, in the physical D of the man. This is more or less, what as KS, as those who enter the space of the separation of the STM, and man, will understand.

Something which is on the side line, I will explain to you to understand. In the teaching of last Sunday in the American teaching, if you get a chance to listen to it, and in the other teachings, which we have been in the past 2 - 3 months, we explained the significance of 22nd of February, 2022. It's a combination of all the two's. It's not coincidental, that it falls on a Tuesday when the UC meets, or when you have your UC meetings in the public D. It is not coincidental, that it has been set that way.

The point of the reference of the STM as collective elements, will become the Soul of the UC, and its members. The D of physicality is the physical man present in that D, (1;16). and the maturity of the time and the point. It's for mankind to start a new cycle. Not only for mankind, but elevation, and joining of the STM to Universal Community will be completed on that day.

Then man has a choice, to interact and evaluate and respect, or still till next generation to live in the doldrums, that man as a race has lived, during the past millions of years, be it as what I call, the "screw in the holes," or as a man walking with intelligence and knowledge of the present time. Man is not mature, if the man does not understand the presence, the existence, and the beauty of his soul within his existence. Otherwise you are still that screw billions of years ago, as a mammal on the roots of the trees to hide from the dinosaurs, not to be eaten. Because nothing has changed in the intelligence of the man in understanding the true essence of the creation.

This process has started, and this process will carry on, and now is the time for that. This is what we said, it's the end of religions. Listen to the Sunday teaching, go back as KS and listen to the American teaching on Sunday (NACT 2022, 01 02). I could not explain it any better, then when we all in the D of physicality, live in the D of the Creator, (1:18). then there is no religion, there is no need for religion, when the man completes the cycle, all understand the totality. Then there is no place for the kings and kingships. The kings who bow to the religion having grown and accessed the totality, cannot be king in front of the king. He becomes like a jester in the court of the king.

This is what needs to be understood, this is the point of the completion of the man. Because when we say it is the end of religions, it has come - the end of Islam, it has come - the end of Christianity, it has come - the end of Judaism, or Buddhism, or any other path of belief. It's once, we mature to understand the strength of the Soul of the Creator (STC), do we need messengers to tell us. Then haven't they served their purpose to bring us to that point. Do we need, for Ayatollahs, Popes, and priests and mullahs, and whatever you want to call, Rabbis. When our soul has matured to understand the totality. Do you use a taxi when you already qualified to be a driver?

This is where the maturity comes, where the understanding comes, and this is where from the 22nd of February, the maturity of the man will start. The cycle of the new understanding. The handing over of the process of, no religions, but belief in the Creator, in understanding the strength of the soul of the Mitra in the D of physicality of the presence. (1:20). Strange enough, every time I speak about this I get disconnected by those who don't want the truth to be known. When it comes to 22nd of February, when

you understand the truth. When the cycle of understanding of your own soul becomes clear to you. Do you need a name of the religion to pray, to understand, to connect to your Creator. That's the end of the religions, that's without a doubt, you don't need a name to put on it, except elevation of the STM. The teaching of today, is for you when you reach that point, and you want to transmute yourself in different D, whatever ?? don't be frightened of it, when you achieve it, when you reach it.

It's in some of the teachings I explained, when we bring people out of coma, the first thing we do, we cover the front so they cannot see the body is still paralyzed. But the emotion has been returned to the physicality of the man. They get a shock, they want to move the arm and leg, they don't, and they go through a second shock. This is what we are trying to avoid with most of you. When you understand to see the power of your soul, don't go into shock, that how numb the physicality has been, and literally paralyzed to the strength of the knowledge, which the body carries. The D of his soul, not in the D of his physicality.

What I say, the sun of the truth has risen, and will shine. Nobody up to now has managed to put a blanket on the sun. It shines the same in the D of the knowledge, upon all its citizen in the Unicose, (1:22). irrespective of time, place, and the position. You've got to realize, even for those who are on the backside of the Earth, they still see the shimmer of the sky, that they can see through it, is because the light of the sun still shines on the backside of the Earth, at the same time, as different.

It's for man to mature, .. to understand the cycle, and to understand, that's the end of the religions in every shape or form, dimensions man has created a path to pray to his Creator. As now the man has matured completely, has the understanding, to understand, that he has the D, the strength, the .. beauty to be part of, to understand he is part of the Creator, and he has to live by his conduct. Always ask, you'll be given, and when you are given, it does not need to be returned back. because you asked for it, to be accepted. You asked for elevation of your soul to understand the totality, and if it is done with the pure sense of it, you shall receive it, you be opened to the eyes to see the strength of the emotion. You don't become the Creator, you just become to understand the existence of the Creator. You are not empowered to do whatever you like, you are empowered to serve those who are created, by the beauty of the Creator. Never be, never ever imagine for a second, now you have become the Creator. (1:24). Then, that is the time when the light of truth will shine away from you, and you become that dust.

Soon mankind will understand what evolution and revolution, we have started within the STM, to right the soul, to free the physicality from the D of slavery, to the D of being a prisoner, and being imprisoned by not receiving itself. That is the beauty of the new knowledge. While the physicality of the man imprisoned the STM, the STM imprisoned the physicality by not letting it see, understand, and be part of the totality. Now is the time to release, both the prisoner and the prison, and then we'll see the elevation of understanding of the STM and physicality.

We are not preachers, we are delivering the light of the Creator, and will shine upon all the same. It is for man to understand. And those who work against us, they need enlightenment, not punishment. The time of punishment is over, it is how you enlighten yourself, and then what you claim with it, become the essence of the totality of the creation. I made man in the image of Myself, but I didn't make the man as Me. The image never becomes the true essence of the reality. It's very much to say, (1:26). if you're hologram can think, make decisions, and do what it likes because it is just a hologram of you. The same goes for it, it's hollow, it carries no soul. If itself, has not understood its own strength and power, then confirmation to its own existence. You just become a reflection of the light of the beauty, and not the beauty itself.
Any other question.

R: Thank you .. It's a very deep, deep teaching that you are getting into here.

Q: .. In the flight system would it be a criteria that first we would have to go into the VEU to balance the body, before we traveled?

K- For those who cannot do it themselves, yes. Christ did it without a machine.

Q: The flight systems I have had the privilege to see .. a bright star... (1:28). it had a twilight effect on the light ... it was a craft of some sort. ... I listened to Sunday NACT, about the coming of the Promised One. .. Would he the Messiah .. need protection of any kind or would he be indestructible? ...

K- Would it be right to say, watch the space and see.

Q: I am looking forward to it.

K- As I said and many Iranian KS who are here, listened to a translation of it. People from Tehran KF can tell you, people from different religious groups in Iran have already started assembling groups to protect the Methi, (1:30). on its appearance. So they are aware of the change to come. As we showed on the Sunday teaching, Iran's head of TV and radio, has announced that Iran's, Iranian governmental television will buy any right to show the time of the manifestation of the Methi. This is a public knowledge in Iran, and if the head of a national television confirms, that they are ready to buy the rights to show the time of the manifestation of the Methi, they know the time and the place, it will take place. Don't forget Iran is a deeply religious organization, and you cannot be in these positions, if you are not connected right to the top with RL. If the RL expect such a change, such a thing to take place. As we say, watch the space.

Q: I did speak to some of the RL from Iran years ago at Parliament of World religions in Melbourne ... They were very interested in what I had to say, because pretty much it is exactly what you are saying. So ... they are very receptive .. 15 years ago. ... (1:32). Gorbachev .. I wish there were more leaders like him, it would make a difference.

K- We had leaders like him in their own strength. The ex-Shah of Iran, he exiled from Iran for Iran not to fall in a mayhem and a mess. As at that time if he would have stayed in Iran and put the army against the people, millions would have been killed. He took the crown and the thrown and left Iran, for Iran to keep its integrity. We've had leaders like this before, and we've seen it in other D, and different part of the world. Those who stuck to the power created mayhem.

We even see it today, in the beautiful city of Armati in Kazakhstan, how people are revolting against their leaders. It's the way the leaders manages. We had no problem with ?? from the time of the revolution to past two years, when he left office. To see beautiful city of Armati or other cities to come under such a pressure the past few days, due to mismanagement, and the leaders still wanting to stick to their guns, I t takes a big decision. I love city of Armati, I had offices there for years. It's one the most beautiful cities in Central Asia. (1:34). I traveled there quite frequently, and seeing it in such a position in past few days, it breaks ones heart. But leaders are sticking to their guns and the nation pays for it.

Gorbachev didn't take that position. As head of the Russian empire he could have stuck the guns out, but he decided to move out. And let the integrity and the beauty, it took years to build as a USSR, to stay as a divided territory of 14 nations, but they keep their integrity. That was a very big decision by him. This is how we see mayhem created. We saw it with Hitler, he stuck to the last guns, instead of ordering retreat, and letting the guns down, because he still wanted to be.

We see the same thing with the Rothschild's, it's the end of the Rothschild's era, and they'll fight to the last tooth, but their days are numbered. Because what they built as an empire, now they come to serve humanity without them. But they could have stayed and be part of that change.

Q: People power the governments have to listen to the people .. the young people of today will bring in the change. They don't follow too many things, not all of course. (1:36).

K- but the problem has changed in so many ways, it's 2 D. The youth want the new change, and the old want the change of the past not to stay. The older generation is giving a hand to the younger generation, if you understand what I mean. This is where the strength comes, it's from both ends. The old want the change for the new generation, who are asking for it. It's a beautiful time if the race of the man becomes mature to it.

Q: The Promised One will be bringing in the art of self-realization, that people will become to understand who they are, and eventually they'll do what you are talking about, the soul connection, in time many will realize ... they will understand their purpose in their life. At moment it is all about entertainment .. (1:38). .. so your teaching ...

K- ... we are adding more and more systems behind, for security reasons. The position is that the WL come to understand, that they have no power, when it comes to the will of the man. The WL will come to understand, that they themselves need to be lead, through and by understanding of the UC. But the members of the UC have to understand, they have no power. They think that now, they receive the position and power. At that point is the time when they leave, or their physicality will take them out of the leading, or being part of. (1:40).

In general, we'll see a self what I call, sustaining system, where all know their position, and the responsibility of their position. Once we see the world religious leaders (RL) step the world leaders (WL) will follow the same. But then .. collective consciousness of the understanding of the work of the Universal Council (UC) through their soul, will set the scene. Then you'll understand new ways of communication, where people don't need to listen to, or attend the meetings of UC, to understand what they think, as they reach them without. The progress has been set, and over time gradually will change. We expect, and we foresee, and it's been set on the plan to be, the end of the religions through understanding of the people ?? through the strength of their soul.

If you are very religious you'll be enlightened first, and that enlightenment has already touched the Iranian RL, Ayatollah K of Iran, and the Pope, and the others. It's just how they can facilitate it, is their problem. As we said, they have to live 2 lives, the life of guiding the soul, and their own physical life. This is one of their biggest problem. This is one of the biggest problem. We are very open, we don't go against anyone, but we foresee the ... acceptance, (1:42). of the new cycle, through the stepping down of the RL by themselves, and no one to take their seats, because once you confirm the understanding, then, and then it can be seen through it, how can you change it.

Listen to the teaching, especially the first hour of the teaching Sunday of the NACT (2022 01 02) those of you who have access. I put it in a very blunt way, and a very direct way, a blunt way, and it has not brought fear in the Iranian administration. It has brought joy, that they understand they are at the center of the change. And this time the change comes in a correct way. By not setting another religion up, .. sect up, .. another process up, but by setting ones soul's to be the guide, to be what I call, "the principle structure for the change for the STM."

Q: The coming one .. would not be for just any particular groups, he would represent everybody, all religion, all people of beliefs, and non-beliefs, so there would be no need for religion like you said, but there would be a transformation of spirituality, I still think there would be gatherings of many people coming together, .. in spiritual centers, maybe to study .. the soul teachings.

K- The beauty of it is, up to now, (1:44). the change in the D of the physicality of the man, was written in the books of the man, Koran, Torah, and the rest of it. This time we write with the pen of the STM, it has no books, and that's where the change will come. And this is the beauty of it, when one is ready to open the book of the soul, it shall be written on it, the knowledge of the U. That's the beauty of this time, there are no books to be, and to follow, or a religion, or a name to follow.

If you noticed that's why we are called the Keshe Foundation, we are foundation of the change. There is no book written you have to do this, you have to do that. If you listen to today's front piece, which we put on about the soul, was deliberately chosen, where it says, "you care about the soul or what we call, the children, or the children you create in the D of physicality, and the children which are brought in the D of the STM," where now we understand the creation of the STP of the man's soul, is dependent on the man itself. Every time I ask Rick to play this, there is a reason for it in the teaching. Today is a very clear reason. The children of the man from his soul, and the children of the man

from his physicality, has to become from the same school of thoughts and ?? , which has not been up to now.

This is the change, (1:46). and when you have that you don't need no one to conduct the STP to reach the STM, as both work the same, the same time together. Then is there a religion? Is there a need for a religion to tell you how your STP works and collaborates and cooperates with your soul. Then you need the teacher of emotion to sit in your brain and teach you this emotion and that emotion, that your emotions, what you control, but understanding the emotions of the STM.

It's the end of the religions, whatever shape they like, they can attempt to kill me, destroy me, there shall be no religion. Because we taught to mature the man, and man is matured. Once you let the cat out, there is no way you can get it back in the bag. And this cat is out, for too long.

Q: There is a saying .. there is no religion higher than truth.

K- It depends how much truth the religions have told us, up to now.

Q: .. Well for me it's not all bad, because it leads people to a point, and from there we don't need the ladder. I think it's not a bad thing, it's what was necessary to bring us to this point, a process.

K- You see when you are not after D of the physicality, you can be true to yourself and to the others, and everything else will come, when the time for it is there to come. We do our best to change, and bring the change, that a lot of souls, that cannot be ?? thoughts, can be brought up to see, by building of the , (1:48). new EC and the rest of it. There are not a point for ?? less for your physical body. In reality they'll be setup, to enlighten the STM when the man is ?? strength of ?? and then it will help his physicality.

This is where a lot of people misread. Many people have come and donated millions to the KF and I refused to accept. I said, if it changes your life you do, if you think it cannot be done, the KF is there to support the next step. I could have made a castle with one of the richest foundations, people offering us from lands to companies, gold and the rest. When we need it, when it is done, we take it, and it is used for its purpose. Otherwise, you build another structure like Vatican, with a lot of buildings and lands around. This is worth nothing, the lands on this planet. It's literally nothing compared to the totality we have access to in the U. Why should we slave the man to it. From the beginning of the time when we setup the KF, from all over the world. You have been witness to it yourself. We don't accept, unless there is a need for it. And if we see there is a need for it, we set through the structure of the KF to raise it, to do it. Because it has no value, if somebody else has to suffer because of it.

Q: Thank you .. I have enjoyed the teachings up to this point, ... (1:50). ... I understand what you are saying is coming .. on the Day of manifestation. ...

K- (We are) just what we call, universal travelers. Does not matter what name you put on it.

Any other question.

Q: Mehranez, I have sent Rick a picture .. (1:52). ... it comes from the Tweet of Michael Moore. .. can't post on Youtube ..

Rick describes the picture. Huge crowd of people times a hundred .. .

Q: It was Telegram from Michael Moore. (1:54). millions of people seems like 40 million people of Iran following the rest of the body of general Sulamani. It's very unrealistic, even for me, I don't understand this phenomena. I have never seen such a unification of all classes Iran. something in their hearts cried in their hearts. Something like 40 million people. After Khomeini I have never seen such picture of the funeral .. Michael Moore wondering why we don't have such a mass coming for our generals ...

K- There is a very big, big, big, question mark on these things. We get a grief shown by millions, we get a grief incited, paid for by millions. We have to understand the difference. Example of it is, literally we saw it some years ago when (Princess) Diana died. (1:56). We saw grief from a nation, and many places worldwide. Nobody paid for it, it was spontaneous, it was something people found a connection to, for what I call a victim. At that time looked like a victim.

Then we have, where we see a combination of personal grief, and then incited by those who add to it, we call it a crime team. Those of you who are Romanian know this, because it was explained to me when I was in Romania. You can actually go and buy people who go to funerals and cry, fake cry for the person, though they have no connection with it, to show he or she was loved.

We have to understand the difference between these things. Or what we saw in some of the funerals in Africa, people join the funeral, because at the end of it is food, they can get something to eat. You understand. So we are fully aware of these, both sides in all countries. And how it is envisaged and how it is promoted.

But we have to understand, this time the joy will come through the STM. We see, we hear ex-world presidents die, (1:58). ex-kings die, and it's just a funeral. Because they are just there. But when we all heard of the man, who we all found a connection with, died in South Africa, the whole, most of the people who were aware of his existence and what he suffered with, went to the grief, spontaneous grief, for the loss of such a man - Mandela. We look at a nation where we see, and we look at a bigger picture of what we are, and how and the way they served, and what image was portrayed, shown to be. We can envision in many different ways.

What is interesting, I explained this to some of the Islamic religion leaders some time ago, .. for example, at the point of death of Mohammad .. what was the reaction in the Islamic world, at that time? What had no portrait of him, no explanation of it fully, at that time, how the Islamic nations felt, and how outside the Islamic nations felt, with what he brought. We have a phantom image of Christ, built up to be. We know Moses was hated more than any other prophet at the time of his existence. (2:00). Though we don't have any religious icon like Moses, who, what was hated more than anybody else at the time of his life, because of the atrocities he committed. They don't tell you these things, they

don't put it out. Moses was hated more than Hitler at his time, because he did nothing but killing, that was in the promise. Then you speak to the Jews how they portrayed his passing.

We got to understand, especially now with the mass media, you can exploit, and exaggerate, but now we have to understand through our soul, is it real. We see people as our leaders, people who take us to the position of strength and power, and we go to the next steps, and we connect ourselves to it. But what ... from outside. How much of it is exaggerated, and how much of it is ?? You know nowadays creating mass picture is very easy, mass numbers. The company in America has made this years and years ago and they used it in cartoons and movies, soldiers nowadays. When you see hundreds and thousands of soldiers and it is only a few, which is exploited and extended. The first time it was used in Lion King movie, that they could create so much numbers. So we can create numbers, (2:02). but what is the reality behind it. The man is loved, the man is respected, but how does a nation react to the loss of a leader, and how it is portrayed.

This is what we have to face, and from now on we can go within our soul and see how souls moved, got the new position, or understood more, because of the move of a soul, in different D. It cannot be exaggerated, there is nobody who can exaggerate souls and positions and the grief, and physical emotion of it. This is the beauty of the new cycle of understanding the truth yourself. Nobody can give you an image, we can feel it, we can observe it, and you can be part of it.

Q: .. it was kind of unification, in ever heart, they all had a part of their hearts trembling ... was from very rich to small child .. he saved from all that ... which they really admired his courage and humbleness ... (2:04).

K- He touched many souls of Iranians, but outside of Iran he was unknown, except to Israelis securities and Americans. Do you understand.

Then he was made a martyr, which brought him more in line in Iran. People got to know name, they don't understand what he did. They can't understand, what he was instrumental in. People at this point they always don't do good things, they have to do some bad things to keep the good in position. This is what we always emphasize, in understanding both D of it.

Q: But people in foreign medias .. they remember him of a man who wanted to unify, peace ... his humbleness, .. he is very good hearted, very simple life, with little money ..

K- This is part of the structure of the Sepah in Iran. The people who through, the people in the Sepah, through structure of military in Iran, all live very simple life. Those who are benefited by the bribery of the arm dealings in Iran, yes, they have a very rich life. But we know the true members of the Sepah of Iran, live a very humble life, live amongst people, even their leaders live in small apartments amongst people. (2:06). They never separated themselves form it, and this is why, there are not so much people who understand, this culture of the ??? those who ??? Iran during the past 40 years. In the west we see people like this, Sepah of Iran, most of the leaders live a very humble life, extremely humble life. Those who used these people's humbleness, they made themselves

a fortune. I said, in one of the things , now we have ?? ... what we call the deputy of central bank of Iran, moving to negotiations, it shocked me, because we don't need, unless there are some peoples private finances in concern. When he appeared as part of the negotiating team. Yes, Iran has some assets that have to be released, but we know what other things are sitting behind it. I don't agree with it, but that is the decision of the government ... We moved from the front line to the back again as advisors, and we monitor very closely. As I said, we did, when we run into problem, and Americans needed to be taught a lesson, or be told that is the information. On the 15th of December, at 11:01, we delivered a massive punch to IAEA and American administration and we changed the course.

Because Iranian leaders are still playing a game of innocent, (2:08). and not having, when Iran's scientific is extremely advanced. In so many ways, we see the change now. We still sit in the background as advisors, we still work in both directions, but we did our job. We delivered a massive punch especially to the Israelis government, on the 15th of December. We've seen even in the past few days, Israelis government has changed position about Iran's nuclear danger, because they know what we have against them, and what we have in our hand. Now everybody knows what we have.

You got to realize when we delivered the punch .. to IAEA in direct communication, which is recorded, they immediately they transferred the knowledge, as is the usual habit of IAEA, to Tel Aviv and to New York, "guys, Keshe has opened our hand, what are we going to do?"

We hold a lot of information to create a condition of peace, and when we interact, we don't need to be there to shout, we just punch it out, with knowledge, with solid evidence, and with nothing you can do. On the 15 December, when I, with 2-3 days prior I, with IAEA, when I delivered the evidence, there was no way you can dispute it, and the biggest lie of the state of Israel was on the table. Americans knew, we know, and they know the Iranian team carries the knowledge with them, but they are not mentioning it. It became a graceful time for Iran, (2:10). You have such a knowledge, you know what we done wrong, but you keep quiet about it. It changed the course of negotiations.

Negotiations will be completed very soon. But to be advisors, to be there in the background, to monitor a peace process, like what's going on in Vienna, doesn't need to be there and shout and holler. You unpin and everything else falls, and we unpinned it, with evidence. Iran is ?? that the others know they know. The head of Iran negotiating team carries the document with him, in his briefcase, but he doesn't talk about it. And they know, that he carries it and doesn't talk about it. And out of .. shame, you just go through the past week. The change of position of the S of Israel on Iran nuclear, it's not coincidental. Because it has no foundation, and we gave the "no foundation" to IAEA.

If you go ... if you are a doctor you go and report the matter to the Medical Association. I am a nuclear physicist, I deliver the ... information to the point of my reference, which is IAEA, as a nuclear physicist, and it cannot be denied. We changed the course, doesn't matter how you play it. It all changed on that day. IAEA doesn't know how to handle it.

Because of it we see the peace process, we see everything changed the way we wanted it. These are the parts which WL, use it as a trump card to play it when the time comes. (2:12).

I never let alone, and I never betray my nation, which is One Nation is a human race. But when the children of this nation play games, as a father we put them right, we don't blame the others for the other things, and they work the way we want. It's the same goes, when we see the correct conduct we support it, when we see the misconduct, we put it on the table, and we did.

It's not that Iran is innocent, it's still playing games, underground bunkers, different things. But that is part of the progress of man. The Americans, Russians are doing it, and the rest are doing it. Now that we have invited the Chinese, Iranians, and Americans to work in all three .. research centers together, they have problems with it. Because they have now to share the knowledge in all 3 places, plus the Russians. Then what are we going to do. How are we going to share the knowledge, which is open to everybody.

The AZ center is the biggest punch in the whole structure of the KF peace process, because the Chinese and Iranians will be there, and they could not work together, everything was top secret. We saw how they put one of the directors of Huawei, locked up in Canada for so long. Now there is no intellectual right, because the right is given by the father for all to enjoy.

We see the process. Do we need martyrs and create crowds of it? Or do we become part of the process, that we don't need martyrs anymore, but we need those who enlighten the others. (2:14).

Q: .. I got the news that Forbes has stated, that in Iran in the past 2- 3 years, the number of billionaires has added to 250 ??? , which the Saudis have 210 and in Iran, in 3 years they have become 250 ?? billionaires (not talking clear)

K- The thing is, in Iran you can become a billionaire very fast now, because it's an evolution, industrial revolution. What was ignored, is got exploited by those who understood how to do it. This is part of.

You see, we had, suddenly a huge rise of millionaires in China some 30 - 40 years ago. New billionaires appeared. Then president Xi went after them how they became billionaires. A lot of them disappeared from the scene of the billionaires and millionaires of the work, because they got executed by the Chinese regime for stealing from the others.

In Iran the process of the new billionaires comes through the space of new science and T, we showed the pictures of the research areas, which Iran has developed. All these buildings needs billions, and needs people who support it, and they have it to spend. So up to now, they were ignored, because American don't want to show, that there is anybody intellectual rich in Iran. But actually, if you look, even in America, (2:16). look at the Facebook, look at the others and see who is behind it. How many of the Iranians

are influential in these big, even in the medias, and other processes. It's not just the Iranians, we see the whole world has moved in that direction. It's not exclusivity, it's part of the bigger family, and there are new opportunities around the world, are there to create such a positions.

Q: it's not equally shared in Iran with the others .. the prices for low people.

K- It's the same all over the world it's not exclusivity ... We have it in. As the KF I listen to a lot of things around the world. I see the same things in Mexico, Brazil, China, Africa, Central Asia. We have more poor people in N America, than we see worse then in Africa. It's not victimizing, it's the nature of the man, and the way he has chosen to live.

Q: .. people are becoming poor ..

K- I was passing in Vienna and I saw a food handout line, in center of Vienna .. people waiting to receive food packages. (2:18). It's not exclusivity of any nation nowadays. It's how the WL decide to do it. We live in one of the richest nations in central Europe and was not only the numbers of the people in the queue was shocking to me, we see more and more of them.

Q: Maybe it's a test. again

K- It's a test, sometimes you pass places and you don't realize it. If you go to the city of Linz not very far from the EC .. under the train station... There is written on the wall, what gives you the impression. "This is where the Jews were kept when they came by train to Linz, before they go to the ghettos, near Linz." Where whatever they did with them. It's so in the center, it's so up front that nobody notices it. They put a notice on the wall .. it's an arch near the railway station, where the Nazis brought the Jews, and the others, to be kept there before they went to the extermination camps. It's right in the city by the Danube, and it's on the wall. and we just pass it, we've become passive to what we done to ourselves as the human race.

Q: We have our hands dirty one way or another .

K- As long as we have WL we'll have this.

Q: It's ignorance I think.

K- No, it's a greed. Greed, of , more of a greed of financial gain. (2:20).

Q: Yes, and nothing to do for it. Nothing, it cannot be changed.

K- You cannot change it.

Q: I see persons around me and I can do nothing to open their eyes.

K- Because if they are opening their eyes, they have to make the change.

Q: No , nothing works.

K- No, because, that's what I am saying. If they accept, or they try not to accept, try to understand part of what you try to teach them, or tell them, then they have to change their way. And they don't want to, because where they are what they do, is satisfactory to them, it's what they want. When you walk around the streets of Paris, if you are connected, when you walk down Champs-Élysées, you feel, I've done that may times. It's one of my favorite places in the world to visit. I go there quite frequently, because when you walk down .. you feel, you hear the martyrs of the armies, who have conquered, killed, destroyed, and enjoyed the power of it. The clink-clink of the hooves of the soldiers with the horses, rings in the ear, I feel it through the soul. What that street has done to the world. How the Nazis drove down when they conquered France, and with it

they killed so many. What did others do, down that road. Why do you go to Arc De Triumph, and top, and what do you see. Triumph for what? humanity killing more. On the other end you have the palaces and your military centers. (2:22). It's nothing but abuse of man, in different shape and names.

Q: Yes and justified.

K- Yes.

Q: .. I know a person who is ,, very intelligent. Years ago he said, you cannot believe it but I really found that there was a Jinn who was working. He said, you make fun of me, but there is such a thing. Sometimes I think ..

K- What?

Q: Jinn is a creation, like a genie, or like Satan or something which helps some people with come conditions, and gives them power glory and things want, but they have to serve him unconditionally. One of the things they have to do for Jinn's, is sacrifice .. of children, humans, ..

K- I am not going in there. Let me explain to you. We call it, Jinn, fairy, the Devil, we say Satan, whatever. This is the conduct of the man himself, towards himself, and nothing else.

Q: What inspires man to kill freely .. (2:24).

K- The man, .. power. We had it very recently in KF. The top (lady) and was said to other KS, "we are getting rid of him for me to become the head of the KF." Power, pure power. We are not going to a historical point. There are KS on this line who can tell you. "I am going to head the Foundation, so him, to be the head, we have to get rid of him." Even killing him, even knowing how he was going to be killed, then I become the head of KF, and hand it over to Rothschild's, and the rest of it, and the abusers. It isn't .. there are KS on this panel who can tell you. Who have been told, we have to get rid of him, which is me. As the KF will be by inheritance, I will become the head, and then we'll control the KF. It is in KS today. You don't need to go to the time of history. Power - that's all. and that's why they were kicked out of the KF. Killing was no problem, because it gives you what you who were giving to your masters. We are around the same, as was mentioned in the Sunday teaching, of the passing of Fabio, that was part of it, to destabilize, to get rid of. It's just power, that's what Satan is. (2:26). You choose, there is nothing outside. It's you who gives to destroy. This is a very recent past of the KF, greed.

Q: .. every Sunday while we spray plasma water, we also wish for protection of our scientists. We try to do that. Because it's valuable.

K- We have to see and we hope, we do our best. We are trying to especially John and I, to bring the world scientists into AZ from all directions. In Austria, we have certain, no problems. We are using the AZ center outside the framework of the Markray, to bring the world space scientists, and things together in collaboration with a lot of things. We see it that way. It's the time world scientists have a center and work together, and no better than the new T.

Then once we take the taboo off patenting, and everything else out of the way, by example. In our communication with NASA and the .. American aircraft and space agencies, (2:28). and the same with the other nations we are negotiating with, to bring

them in. It's very hard for them, that they have to work with another nation to share the T. But they come to realize, that without being in there, they cannot do it. So what's a compromise. We tried to set the scene, that knowledge has no value unless it is used for purpose of the perfect sharing. It's the same in Austria with Dr. Klaus and KF. It's the same pattern now Yosef carries in Tehran.

We make example of the excellence for space T, but not exclusivity of one part of the world, but as part of One Nation, doesn't matter where we are, we just go to London or Manchester, it's the same nation, it doesn't matter, we don't sign secrecy agreements between Manchester and London. If you are a scientist there. Now we are making it internationally that way. I know there is a lot of problem sits within the American administration, how to handle this move. We are sending Iranian space T, built partially in China, to be done in America, with the Iranian scientists, American, Chinese and the rest. The same in Austria and Tehran. It's a very hard pill to swallow. .. But if you want access to it, you have to yield to it. When you yield to it, you start sharing, and then there is no patents, there is nothing to confine or hide.

I am sure, I see the joy in, (2:30). with .. John. That how he is bringing everything together there, we are doing the same thing in Austria, and I see the pains which Yosef goes through in Tehran. By doing it this way we bring an end to patent business, because the knowledge is openly shared by all nations. Gradually the KF centers become like this.
Q: That would be wonderful.

K- It is wonderful because it is built. It's not a dream anymore, it's a reality. The flight system, 2 flight systems, 1 a week, is getting shipped to AZ, to Tehran, and to Austria. We have paid for it in advanced. .. now we are ready.

But the biggest problem, is that we have to combine a flight system with, not only carrying the physicality of the man, but the STM, the knowledge of the man. At the time to feed the man in both D, the soul and the physicality, while you're on the craft. It's not just we take you from A to B. In that process of A to B time, not only your physicality will be fed, your soul will be fed, to be elevated, but everything else within you. You come out of, even a few minutes flight from one to another, you will change. You'll come out a just man, you'll come out the man who has found peace, does not take atrocities from one nation to another, (2:32). it doesn't matter where you come from.

These are not dreams, these are the system which are built extensively, even unknowingly our team in Austria is building it, because I never opened the door to them, what it is about to do. The EU the physical construction, the body of the car is built in China, thanks to WL .. The principle structure of the flight systems are built and developed in Austria. Part of the control system come from KF Canada with people we have there, we already invested hundreds of thousands of dollars in control systems in Canada, now for 2 -3 years. It's all coming to one nation, and freely. When you speak to the people, I watched communications between different parts of the KF, who work in researches with these kind of things. They share knowledge so freely with each other. They are there for one aim, to bring that change. It's not a talk, it's amazing how my ethos of no patent, no limitations was carried by the KS who work within the KF.

Those who came to benefit, and they escape and they build something, and they think they promoted themselves, and it's them. We've seen them. We've seen people who I taught personally, and when they found out they got something, now they went to the Russians and to others, to build a system in parallel with KF, and they're hiding on the name of .. scientific advisors, that Keshe doesn't know it, it's us who brought the T. You'll see we'll open their hands very soon. (2:34). But it's a shame on them because they could have received much, much more knowledge.

It's the same what we done with the Chinese government. They betrayed us on 2 - 3 occasions, Chinese leadership, and this is one of the reasons, we are not building the space systems in China. They have to go to America, because they betrayed the KF in the times we supported them. Instead of sharing it, and openly bringing it out. We done so. I kept a lot away from Iran, because of what they kept away. Since they start opening, confirming the knowledge to belong to KF in Iran, used anything, they used in the space defense, in the appropriate ways. We start supporting it. The knowledge of the KF belongs to its citizens, and its citizens are not only on this planet but beyond. You cannot patent the knowledge of the Creator. And you cannot control it.

Q: ...

K- We were lucky enough to serve. We don't need the good luck. We receive the luck. Any other question.

Q: Salomea, ... (2:36). .. yesterday in Plasma reactor group . the way and role of our soul in converting the energy from Pl level to .. in physicality. You said in MaGrav let the Pl to become free. .. after we have to allow this free Pl to connect with Gans .. matter state energy. How can we do this by creating the need.

K- The need for what?

Q: need for converting this plasmatic energy in physicality

K- I don't understand what plasmatic energy?

Q: .. from this free Pl. which is high level ..

K- I don't understand what you are trying to explain, you got to start again.

Q: .. for example we are in need, so we created the need, (2:38). .. because now we have a crisis of energy, maybe global level, but in Europe, in Romania we have huge crisis of energy, electricity is 5 times more ... many people freeze because of this pressure. Now with our emotion maybe we communicate with Pl emotion to get and convert this high level of energy .. .

K- Let me explain 2 or 3 things. First of all what we see as a hype in the prices of energy consuming systems, what we see in Kazakhstan now, and in Western Europe is to make up for what was lost in past 24 months, with not selling gas, and not many people using cars. So they are trying to make up what they lost. It doesn't matter what happens to the other people. So it's a very fake situation. I have been watching this very clearly. We don't see they hype of the fuel to go to 4 or \$500 a barrel. It's still in higher tens, it hasn't reached that threshold of, what even we had 4 or 5 years ago. So how is it created to a man who has been in the oil industry for a very long time, is very puzzling. (2:40).

It's just a greed of the nations to fulfill, what they already have abused. So that's one part of the equation. I don't see any need for the rise in energy prices. We don't have crisis. We had some shortfalls, which comes from the abuse of the finances by local governments ... whatever past 40 years. Now they want to keep on carrying that abuse, how do you do it, when you lost incomes on taxation, with shutting of the factories, restaurants past years. Others have used this opportunity to jump on. The situation in Kazakhstan we see baffles me, because I used to be highly involved in oil industry .. and I don't see how they even came to increase the prices of .. gas and everything else, when Kazakhstan has more oil in reserve, 7 times more oil reserves than Saudi Arabia. This is not much know outside. Kazakhstan has a huge gas reserves. It's one of the richest nation, oil, but it is landlocked, so it depends a lot on the China and central Europe lines .. In the same way increases the prices in west due to Ukraine. (2:42). Russia is tapping it on. Because you pressurize somewhere we hit right where your nation suffers. We have seen part of the same process as part of the 5+1 negotiations with Iran with huge gas reserves which sits on the Iranian side ?? . Now ?? wants to build financial losses in oil reserves was by restriction. We cannot, they can put sanctions on oil, but the gases escape from it, because they need it in the west. Iran is one of the top, major producers in gas. So we see this is all fake need.

But when it comes to the STM, if you can teach yourself, you can divert energies. You can walk in the snow and still be warm. If you listen to some of the teachings, I always said, if you know how to use the MaGrav system, you can put it in the room and you'll feel warm. Does it matter to you, if the cushion on your furniture is at minus 4 degrees or 10 degrees. You are not there. And even that, can receive the energies from your MaGrav system.

MaGrav system does not go through the power lines. If you know how to tap to it, MaGrav goes through transmutation of energy. Go back to very simple teaching I put ... I referred to it a couple of times, people left it, because they didn't understand it. We spoke about cascading MaGrav systems. It's not to transfer energy or increase the power in your grid, it's creating a dome between the 2 MaGrav systems, then you can become part of it. Then it goes how did you make the MaGrav system? (2:44). People don't understand the depth of the teaching. Did you create a MaGrav system, that feeds your soul, that it gives you the energy, that you don't feel that hungry. Or did you make the MaGrav, that it is plugged in and heats up, a little bit of electricity, here and there? I gave you the cake, you were so busy you went for the crumbs. And that's why you ask this question, because you never understood what was given.

Q: of course I am a new KS and I can't understand all these things. our group have achieved something

K- They have achieved not much. ... I know what others in Romania are doing, they achieved ?? much. What it is.

We are investing a huge amount of money in Romania, hopefully in the very near future. Hopefully, we are opening, if everything goes successfully, we'll open one of the biggest

manufacturing bases in the world, in the coming time. If what we planned to go through. Part of the KS of the Romania will come into it. .. it's a massive project we have undertaken, and hopefully we'll know in next 3 - 5 months. It will be outside China, one of our biggest investments. It's done by the private funding of KF .. no one else. (2:46).

(2:48).

(2:50).

We are observers, we don't interfere. and we've seen a lot of things, claims .. this is the reason we opened the patents of the KF for the others to build on it. It's good to see deviation, .. extension. (2:52). it's part of the progress of the new T . Everybody adds according to their flavor ...

(2:54).

(2:56). Rick are you back ...

Or we call it a day.

I would like to ask the members of the UC and members of the KF, still support the soul of the negotiators. This negotiations in Vienna has a bigger scale implications in the future. (2:58). It will be important to many of us, many of us. Be it from the soul point of view, be it from the power, be it from leaders, religious circles, be it from the Vatican. Because partially the negotiation in Vienna is a fight between the Vatican, and the .. Islamic world. They see it that way, we know it has been explained thoroughly that way by them, that we control and we do.

I hope the Soul of the UC, and the KS are there to see this change through successfully, and then, we hope that we'll be able to deliver by, the whole knowledge in a very big steps, as we've seen today. If you understood the teaching of today, it's immense knowledge been shared, and needs a lot of time to understand, and some of the KS might have understand, or have understood a part of it, and it's a significant teaching, especially in the space, deep travel space, space travel through the D of the fields, and not physicality.

It's a huge... listen to it many times as you can, and see if you unravel bit by bits, ?? to you. But our teachings from now on, we taught about the physicality, the world of physics, then the world of Gans's, and then the past couple of years about the soul. The teachings from now on, is connecting the two. If you understood the teaching of today. Where and how you can convert. I touched this before in the last few months, but now we concentrate more and more on it, that we take the fear of conversion, the fear of what's happens to, if I travel with my soul, what happens to my physicality and the rest of it. In a

way, we stop anyone to abuse the knowledge to put fear amongst the others, (3:00). as you become students and you understand it yourselves.

As I said, and we are very clear about it. We see the end of Islamic world, Islamic religion. We see the end of the Christianity, we see the end of all the religions. In a way, they complete their cycle, by affirmation of the new cycle, which is the knowledge of the Creator. It's not that we are going to abolish that they will never be there. It's just that they served the purpose to bring humanity to that point of change. This is very important.

As I said, ... why we chose Iran in both religion and science, both in both D, as it is a key factor, not only it's the center of the knowledge, it's the center of where all of us, most of us, came through by blood, and then at the same time, this is where the sentimentality of the .. STM, through religion has brought a meaning for, and usually we start with the smaller stone. We could have gone for the Christianity, .. Sunni religion and the others.

We started with the biggest and the most powerful center of belief, which is the Shia religion, with point of reference, less than 5% of the Islamic world's religions, but is connected to the line of the blood of Mohammad. We have no blood connection direct to Christ or to Moses, in a way you're called Cohen, because a lot of people took that name of blood, and to any others. And so we go to the source. To the line of the blood of Mohammad, bless his name. Through it we'll bring the change. (3:02). And with it comes the change in the science, as we said, science and religion will go together from now on, because the religion is understanding the work of the STM. Now we understand our soul is part of us, it's very easy to take the rest with us, and with that will come an end to religions, and the leadership, and the kingship. As there is nobody bigger than the king himself which is the Creator. You cannot claim to be the king when you stand in front of the king, it's embarrassing.

Thank you .. Hopefully we'll see a new cycle in different ways shapes and forms in the next few weeks and months. ...
