

## **422nd Knowledge Seekers Workshop**; March 3, 2022

(Transcription mostly done ; Excerpts proofed , need to proof rest ; Key phrases, word, quick index ) (excerpts proofed 1st and Ukraine 1:46)

This is a workshop to ask questions;

C14 as an energy (19:30 to :36:00) teaching

Kinesiology testing is not part of PI. Created by ones own emotions which then through fields make hands move; In plasma we create conditions by intention to benefit others, as long as our action doesn't dame ourselves or others. U works to accommodate the others;

Medical teachings are on hold but are only for people in medical profession; Use Cup 1 to recover from lack of touch and affection over past 2 years; If want to stop eating need to balance all field requirements, not just Cup 1

Chinese eat lots but don't get fat, use green tea which is a Gans provides energy, rest of food have to burn up. Chinese don't drink cold water.

Food you eat can interfere with transmutation ..

Italian trying to make Gans of plant Salvia.

Left over liquid in Nano process contains spectrum of Gans may need for other things.

Pulse in PI to create electricity .. Heartbeat of plasma .. Again HB slows down different level of field conversions lower energy

Ukraine .. Pope financing in background through Americans and NATO, to take over finances of Russian Orthodox Church, failed, night before attack Pope as defeated man goes to Russian embassy, which never happens, accepts to pay for Russians expenses to take back Ukraine, code of elites. Payment goes to Russian Church than to Russian government. Russian Church ask Putin to protect them from Vatican takeover. Vatican lost in China . Has assets of England Church, Queen is his servant. like cooperate takeover.

Don't worry about Ukraine, house of God never looses. Pope will try something else.

Defining war peace..

asked about 8 and 9th Chakra look on Wikipedia.. .

K- Stop, now that we know the STM , the STP, we call the spirit is within the man, so 8th and 9th is inside. we have destroyed the Chakra business.

Posture of low self-esteem

Containing PI with infinity loop

Containing the soul in brain by the M field of blood.

C14 AA of brain

Do soul communicate instantly ..

About Brazil, want to invest heavily, hardworking intelligent people, brought down a KS who went wrong on Facebook.

Gans soap with emotion of knowledge

New spaceship without physical dimension.

I can tell you have to make C14 in 1 second. They can make space reactor in 2 weeks

(2 Excerpts absorbing fields of U Ukraine Vatican )

## **ENGLISH TRANSCRIPTION**

Proof excerpts

(:18).

K- Today's teaching .. we allow Knowledge Seekers (KS) to ask questions to clarify some points and to add to the knowledge as we share knowledge. We learn and share with each other part of the knowledge, and what is the process of the space T which will bring for us a beautiful path.

We are here if any of you have any questions to ask, otherwise we go directly into the teaching. It will be nice to be able to share more in-depth knowledge, and what we see around us, .. around the world, to becoming of the incoming knowledge and what is to be shared by us in respect to each others knowledge, and respecting each others .. intellect. Are there any question, and if not we go straight into teachings.

Q: .. H14 I am struggling .. Sorry C14 (:20). I am struggling to understand how to use and make C14, and the applications in future?

K- C14 is one of the easiest things to make, even easier than H. But it has a process, .. systematic, what we call, progressive understanding of the creation, creation of atoms, creation of plasmas. If you are looking for C14 as a matter state (S), I would like to see you, from the point the U was created.

We do not see C14 in the U as a matter state. We see C14 as an energy transfer. Behavior of the C14, but not in the matter state (S). It's a cosmic entity. We can convert it with some conditions, into its matter S, or its Gans S, but primarily from the way from the Space Pl T we look at it, we don't go out to fundamentally, physically hold C14. (:22). We look for behavior of C14, transfer of, connection of, interaction of fields.

C14 it's got peculiar characteristics, which in a way, it gives, it takes, and it keeps constant energy transfer. This is the beauty of C14, where in most of the matter S conditions we look for the nuclear decay, to transfer from C to whatever else. C14 is energy transfer condition, which never decays. It keeps its entity as a Pl field, in giving and taking and holding onto.

So it becomes line of communication, line of transfer. It can stand one C14 field conversion, connection, stability across one U. This is what we look in the space T as a

C14. We are not looking in the matter S of C14. In a way, behavior of, in a way, everlasting, diamond structure, which means nothing can destroy it, but in a structure of the fields, can receive, can give, and can maintain its existence as a PI.

So if you look to make C14, (:24). and hold onto in a matter S, sometimes you succeed, but essentially it's not needed. The future scientists will understand, that C12 is a matter S of the entity connection, fields in the dynamic life, like in the body of the man. In the space it's the PI of it, without dimension (D), does the same thing.

Why do you need a C14 in the space, is that free space line of connection. When we talk about C6, C what we call, neutrons, protons, electrons in combination of C12, we look at C7. If you bring it into a D of matter S, you have one loose electron in the outer boundary, which has to cover the whole of the inside. If you look at it, bring in the second ring as to be one PI, one neutron, or one proton, that 7th electron, with that neutron PI center, electron, or what, proton PI center, behaves like a H. Because of the stability inside, it's very, very stable. (:26). Because you have already locked all the electrons together, you have already locked all the protons and neutrons together. So in a matter S, but if you look at the PI S of the same entity, we looking at a field flow line, which that electron covers the whole of the what we call the neutron center.

Let me explain it this way (whiteboard). You have the ... when you take the whole the electrons and protons and the 6 neutrons and everything inside, now this extra electron behaves as a H, but a dynamic H, which in that state can flow anywhere, even the span of the U.

It's energetic in the D of the field flow, because in its PI S has slightly different characteristics. It extends the fields on its own, which in connection with the totality of PI of the U, allows it to extend its tentacles right across (the U). You find this combination usually connecting to everything. (:28). Carbon in a Gans S in the body of the man, in reality behaves as C14. C in a matter S, you have 12, but because C in Mr. COHN is in a Gans S, a PI S. your C here (in AA) doesn't behave this way (C12) it behaves this way (C14).

This is one of the reasons the minute I touch you on the toe your brain says, something is happening down there. Because of this property characteristics of C14, but you look at it as a .. C12, because you always considered that (as a) C12. It is a C12 if you call it that, but it behaves as a C14. This is one of the reasons when you see the AA you see the interconnection between all of them. You see that shininess. That shininess is the reflection of C14 more or less, and condition of ?? communication.

So if you are looking for actual physical C14, you might achieve it sometime, it can be done, but in a PI T, in a space T in the structure of human body, in the structure of the plants we see that C14 behavior, (:30). but C12 by name. Because we always consider C12.

You have to realize one simple thing, we are a cosmos. Our body, if you count how many cells are in your body, you are a galaxy. Don't look at, just because you have 2 legs and 2 arms, and you walk around, you are any different than a galaxy, which you see in the cosmos. The only difference between human body and the guy up there in the deep space, is you are compacted. Body of the man is a U, it's just a galaxy and a U on its own, but because we use it, we live with it, we don't consider it. How many cells do you have, how many cells clustered to make something else. How many cells, and what you call cell, are made of how many Gans's to give that single cell. And now put all the hearts, liver, god knows, every part of your body, human body is a working galaxy, is a working U. But because it's ours and we are born with it, we don't consider it. This U works, communicates, lives, interacts internally with itself through behavior of C14. Communication unlimited, you put your foot on a nail, immediately your brain says .. you're done. You feel the pain, because of the behavior of C14, that's part of your AA, especially neural system.

So try to understand, (:32). how you make C14 in the space T. I don't look for it. In the space T, I look for behavior of it, connection of it. I was with one of the beautiful KS a couple of days ago in London, and I was explaining this to him, and I told him do not share. And it is strange that you bring the topic up. It's how we see, how we perceive this position, how we gather this interaction of the fields. Try to understand if you are dealing with a matter S, or Pl S, or manifestation of the Pl in matter S, we call Gans.

Then it's different. Then it's completely away from what we talk about C14, and we try to make it to a C14 in the matter S, behaves like a matter of the C. You can make behavior of C12 to become C18, in a very simple way. It's what I gave you in very early teachings, but a lot of you don't see it.

C14 belongs to communication in a plasmatic, cosmos Gans S, C12 is where you see the effect of it, (:34). in the matter S. You can convert .. C12 to behave like C14, but soon itself, due to its environment, will take the characteristics of C14, or what you call, graphene. Graphene you have to understand, is a matter S of it.

When we speak about the C14, we speak about the plasmatic deep space travel, cosmic ?? deep space communication, instant communication. You can't do that with putting graphene next to each other, you get a superconductor, you are back again in resistance M field condition. As I always said, birds with birds, foxes with foxes. You got to understand the difference. The freedom to be connected is the bird, the foxes got to stay to 4 legs, locked to the ground in a matter S. You to understand what the difference is, and what you want to do with it, and how you create it.

When we create C14, our reactors from condition of health, or whatever in a plasmatic condition in enhancement centers (EC), changes into the flight system, and this is the beauty of understanding the T, and understanding the knowledge of the interaction

Any other question - I hope we explained I hope you understood. (:36).

## Proofed to here >> proofing excerpts

Q: ... I have a question about the works of David R Hawkins. First of all have you hear about him?

K- Nope.

Q: I just want to share my knowledge about his works really briefly, and it's about a method called muscle testing, which my partner and I have been using for about 3 years, and so far it has been our only compass to test whether something is true or not in this world we live in. The method is formerly known as kinesiology.

K- Yes I know that.

Q: I am wondering how you access to yourself. I am assuming you have high level of ?? at this time. Do you use any similar method, how to you as man of science approach this?

K- This what you are talking about I have heard a lot about it, I have seen people using it. Some of our KS use it and they convert it into some kind of emotion, or reaction in their body, (:38). or movement, or something within their physical structure, which is this good or bad. One of our leading Knowledge Seeker (KS) relies on this, in a state of good or bad, or if it works or doesn't work.

We don't have that in plasma (Pl) T. In Pl T we accommodate everything. If to you is not good, what benefit it creates for the others, or do we always look at ourselves. What I call the principle of me, me, me, and everything has to react that I can see I can have something in it, or react with it. I make a move, and would that move be beneficial to me, or beneficial to somebody else that's all that matters. As long as I don't make a move to damage myself or somebody else. What you think you can do , and you say ok, it's good for me. Who is going to lose in what you gain. Or you work the way the U works, you accommodate, that every body benefits by it. It cannot, it doesn't have a room in the space T of today, if I understood you correctly, and I answered you in what I think, because we had this discussion some time ago in one of the teaching. I know one of our leading KS he swears by it. I hope I answered you.

Q: I'm not sure if I understood your answer very well. Actually I'm not sure I understood it at all.

K- Okay, let's go back to the basics. (:40). (lost audio ... ) I said, can you explain your understanding of what you are trying to explain. You use, and then we try to explain the parallel, with it in the space T.

Q: .. What I personally do, I make a ring on my right hand with my thumb and index finger. Then I make similar rings on my other hands so I have 2 rings made by my fingers .. I personally connect these 2 rings one inside the other, and I try to pull them apart and break one of the rings. And I would focus on any statement, for example, I can focus on the statement I am alive more than 20 years on this planet, and I can pull a finger, my instinct, my subconscious , my plasmatic energy in my body goes weak and this ring breaks, it is an answer that it is false. The way me and my partner do it, is we prefer to do blind testing. So our personal consciousness cannot get involved to alter the answer. So she would actually imagine something and I would focus on what she is imagining, I

don't know what she is imagining, and she would say that. And I would pull a finger to tell if it is a yes or no. That's how we go about scientific way.

K- Okay, let me , I understand, Now let's put , thank you. I go back to my childhood. (:42). When I was very young, we have tradition in Iranian culture, when for example a child gets sick , we say for example, there's a bad eye on it, and we try to find out who put the bad eye on it. Traditionally I remember my aunt getting an uncooked egg and putting it in between the 2 thumbs and the 2 fingers ... and press it. You could press this egg for ages, it wouldn't crack. In that process was it the neighbor next door, the cousin, .. the donkey down the road, and you press the egg, then you say, the grandfather, and the egg cracks. Oh it was the grand father who gave, put a bad eye. So what you call this, I have seen this from childhood. It is what we perceive to be.

In the space T, in understanding the work of the emotion, in the body of the man, we don't have this. It's impossibility to have this. When you put a magnet amongst the other magnets, all the other magnets move to accommodate the new magnet. So when the new accommodation is made, everything is satisfied. Every need of every magnet is met. with all the interactions with the others this is the accommodation, this is how we. we can't say if I put a magnet in, if it sticks and jumps on that one, he is the guilty magnets and he is the one who whatever. It doesn't exist in the plasma T. You. Giving it a new name, I have seen this from the day I opened my eyes, (:44). because it's called ??? in Farsi , it's one of these things you believe in, and I have seen it used frequently in childhood. The reverse of it is, if you put a pin in the .. doll. It's the same thing, but does it transfer to be, because you are, or does it transfer that it interacts with the fields which you create unknowingly, or knowingly. You move into the subconscious of the fields interaction, then your finger opens up.

One of our KS, he decides the condition of everything he does through PI system he uses, this way. So we have created a condition of emotion, feeling, if it is right or wrong, it's the same. If I feel that in my heart it means I go, if I don't feel it, I don't go. I don't use the system that way, or whatever. How do you transfer the knowledge into an egg, or a ring of 2 fingers or the heartbeat, or the emotion in the back of the throat, is where we perceive, we trust, that we'll see a physical manifestation of what we want to be.

It does not work in the world of the PI, in the work of the interaction of the fields. But we are going through a process as we have seen with our KS, they try to complete the two, You use a ring of 2 fingers, (:46). other people use all sorts of things and say if it does, it means it's good, if it doesn't go it's bad. we have a belief that if you sneeze, you don't go. In Iran it's sacrosanct with many people, if you are leaving the house, for example to go somewhere, and you sneeze, you say stop, wait something is going to happen, or something is wrong. People come back in sit down, have a cup of tea, then they go. Is the sneezing the same as .. the 2 fingers. It's us, who creates that condition for us to convert the emotions to physicality (P) then we believe it. Maybe you have a very strong emotion which is the sense of fields, and converts that into your finger, don't do that . And you believe it, and you live by it. So you convert the emotion which is the plasmatic field into the P of the fingers.

It's been going on for thousands of years, you don't need somebody to write ... about it, but it's a phenomenon of fundamental fields in your finger is blocked due to fields interaction, information from your brain. If you see it that way, so be it. If it gives you the comfort to be, yes, but in PI T such things don't exist. (:48). You rely on what you do, is correct for everything and everything thing which is within.

Q: How do you personally decide on what tests to make or where would you say is the origin of your current advanced PI knowledge. How you decide what is true, and what's not true yourself?

K- I don't work by true or not true. I work in what I do, what benefit it gives, or what condition it creates. ?? for the others, in what the structure you want to see it. I don't,. In so many ways, when you work with the soul, when you understand the interaction of the emotion, you just interact with the others, you don't need to create that condition that, what it will be, or would it work if I do, or not work if I do . It's understanding that even your thoughts are part of the interaction of the fields, then if the other person feels my and what it needs to be done, the way I work. we'll create that condition to be done??

If you been around the way I even live , people around me, they pull their hair, you take too much time, you don't do things, you know we are on the verge of blah, blah... and the last day, last minute. I say, it wasn't time for it. Everything has to fit in. If it doesn't happen now today, it means it is not time for it. All the magnets have to move, (:50). that they are all comfortable. Not what I want counts, what is beneficial to all counts. So I don't' have the dilemma which you have. But what you explained, I've seen from very first days I could understand left and right hand. We used to stand on the eggs, we used to get the other cousins to push it and press it, it wouldn't break, before hand pressing it, the egg doesn't break. We speak about the grandfather , and it (breaks).

Understanding the emotions in your hands for even you fingers to open up, is interaction of the fields of your emotion. And us our emotions, have connection with what you want to do, personally want to be in touch with or whatever, that's what you have to understand, and you see the answer.

I don't look at the finger movement, I look at what created that condition to get the finger moved, what fields was created. So we go one step behind we look at the principal interaction, not the physical manifestation, interaction of the fields, and you rely on it. I have seen many times KS .. why do you take so long, why do you have so much patience. Because it is not time for it. It's not ready for it. When the time comes, you'll see, you'll understand. (:52). Because we see what needs to be done for that time to be.

But you want to shortcut it with the finger , it's to do it but you have to look what was behind, that made my finger move. You can't move your finger if ?? which is the field interaction, does not create that change in strength that one finger goes, or makes the egg break. You can stand an elephant on an egg, if you get the right position . ... who put a bad eye on you. But the principle hasn't changed over centuries, it's just that now people find different ways of explaining it. To ... then they start believing in it. Believe in

yourself and what you do is there for the progressive development, whatever it is, is done, you don't need the fingers.

Any other question. (:54).

Q: Azar ... Mr. Keshe do you mind if I say something here to Nikola?

K- Yes, we are all here to learn.

Q: . I am familiar with David Hawkins and what he did ... He was touched by the Creator Himself ...

>>>

.. Some of them didn't want to be here because the beauty of the Creator was immense.  
(1:02). Thank you Mr. Keshe (end of Azar)

Q; .. I wish to contribute to the knowledge of the health can I participate in the health webinars?

K- I don't understand what you are trying to tell us?

Q: As far as I know the health webinars are just for medical students or people from the medical field, right?

K- Are you a medical man

Q: No I am not.

K- It is not open to you. We deliberately done this, at moment the medical teaching is on hold. The doctor who is responsible for it is busy with other things ..

We'll bring the teaching of health ..

(1:04).

I teach a number of doctors

(1:06).

If you are in Romanian ... KF is set to open one of the largest production ..

(1:08).

We will not allow the health application to go outside the doctors ..

(1:10).

Q: I understand and I am excited about it .. What if I would like to contribute to the knowledge sooner than that

K- We are weeks away ..

Q: Last week you alluded to skin and how it can age quickly ...

Touching the skin with love improves this process .. How can we counter the last 2 years when during the Corona we were deprived hugely of skin contact. Could there be a product from KF to help emotionally balance this?

K- If you use the Cup 1, (1:12). primarily should satisfy the lack of that emotion. But you have to use Cup 1 with its amino acid (AA). You take the AA from top of Cup, away, keep it, and then when you wash the Gans's add to it. Do not consume the AA on its own, because it has to create the balance within the structure of the body of the man.

Any other question.

Q: Brazil with the constant use of Cup 1 we loose our hunger and have no desire to eat. 1st Q; if we stop eating our body becomes deficient in vitamins what do we do in this case if we don't feel like eating?

K- Your body never should never go with any deficiencies, because if you use a combination of Gans's, energies you will receive all of it directly as a combination. If you use mono-energetic, just Cup 1, mono, all the time and no other Gans water, or whatever, you become like the Eskimos. You have 1 diet, or nations which, (1:14). have 1 food diets, where always meat, there are no vegetables. The body converts it. Body knows how to convert it. So it's not a problem in principle. You have to realize when you go into the system of using Gans's you have to preferably create a combination of energies, that you do not encourage the growth of one, what we call, energy level in the body.

There are many people who eat the same food all the time, no difference, day in and day out. But they're very healthy and they function perfectly. What's his name, Bill Gates, what I call guru, the old man, not Cyrus, he's .. the second richest man behind B Gates for some years. He eats the same burned steak for decades, nothing else, and the steak has to be burnt .. he eats the same food day in and day out. But we see him to be one of the ...

R: Was that Warren Buffet.

K- Yes, it's Buffet .. for years and years. (1:16). I knew a guy who lived on Chips nd Fish and Coke

Any other questions. The body converts, that's why you got the glands, Thymus, and Thalamus are there to create that condition. one does with the physical body, and one does with the energy of the soul. When they match they work.

Q: If 80% of our feeding comes from the environment, why do we feel hungry?

K- Because of that 20%. .. If you were supposed to get 100% from the food we eat, you can imagine the size of the plate. .. it's very strange in China.. when you go for breakfast Chinese eat they eat 4 times what I do .. but they don't put any weight on. Because when you eat so much the body has to work to get rid of ... the food, and the secret with Chinese being slim most of them just watch, (1:18). how much green tea they drink. They carry it .. everywhere ...

If you understand the structure of green tea, you see they are taking Gans energy day and night. So what ever has gone in as extra food, the body has to work to get rid of it, because the energy they need has already gone in with the green tea, whatever it needs to be converted. Because the difference between the green tea, .. and the black tea, is that the green tea, the day it's harvested, it's roasted on literally Nano coating, the top layers of the leave. So you have Gans's, you N coat, you have Gans's. When you make the tea, it's

like you have these Cu plates , how it goes in the energy with the water, releases energy you get Gans's and energy in the water, and that gives you what you need. You want to loose ... most of the green teas, are not as slimming ...

If you have breakfast in the morning try to drink green tea, and you'll see how you feel during the day, and try to bring the green tea with you. I lived In China (1;20). I have seen how they process it, and can drink it.

They never drink cold water, they always drink warm, which means the energy transfer is lower in the body to ?? done, the body doesn't need to work on it, and the body doesn't loose energy on it. When you sit around the table with Chinese, with me, they pull their hair out, I love ice cold water, and they go crazy. They drink body temperature, luke warm, green tea. The transfer of energy is there, so the body is already balanced, whatever you put in it the body has to burn to use it to get rid of the energy it has taken , so it still ??

Q: .. How can we educate ourselves about feeding in the future, by removing some foods?

K- The feeding with the new T comes through understanding in the future of interaction of the fields. How these fields are going to interact and what they deliver. Look at if you go back to the Chinese space reactors which we built in South China Sea .. we noticed that, (1:22). we always explained many times, the balls at the bottom lost their colors, all the CH3 colors, H colors, everything was gone to energy being transferred. You can do the same, life existence is understanding the energy transfer of the fields and their strength from one point to another. If you go a step further you can do a lot of things with Gans's in respect to feeling and then you can see the changes of it. what it brings to you.

Now we are going into the full R&D in the KF and production. We'll introduce these products into the market very rapidly. You go to realize we went through teaching, .. research, .. developing and now the R&D and mass production manufacturing . All the ideas you have, how do you feed the man in disaster zone. Very soon we'll show you. There are developments, our scientists will show you in nanotechnology, and using and understanding of cosmic rays and the rest of it, which can provide food and sustenance for life for every one of us. (1:24).

The time for a major breakthrough in PI T has arrived and we are there to greet and share it. We are keeping it very close, tight to our chest and not going out until the time is right, and I think the time is right for it to be opened up in the next few weeks.

Any other question.

Q: ... can our feeding, the type of food interfere in transmutation and levitation?

K- Yes, you have to choose the right plasmas for the right application and the right purpose or how you divide.

R: So before we go to space, certain last meals would be appropriate would it?

K- You become Christ, the last supper. The last time you eat till you come back to earth, you put something in your mouth, you could be for thousands of years traveling the depth of the U and not eating anything.

R; ..

K- In a way, I presume yes, I was in the KF factory this afternoon (1:26). It's just how we going to bring this into public domain for people to understand and be there. You can receive the energy from the soul level and feed the P and walk away for days and weeks without eating. Depends how we load it, the systems coming out, we'll show you the mass production of it's just coming up, it's getting there.

We feed the soul, and the soul feeds the P and this what we said for a long time. Now we are creating the systems for it, maybe changes the emotions, brings other dimensions (D) to play.

Any other question.

Q: .. Italian .. (1:28). I did an experiment with ?? it seems to me the characteristic of Gans is there.

S: He said if you understand what he said?

K- No.

Q: He tried to experiment how to measure the energy of the Gans. He tried to measure .. (1:30). that he obtained from Nano coating

K- What material has been N coated?

Q: He N coated the Salvia, the leaf. He thinks the energy of the Gans is there, but the property of the Salvia is gone, he thinks (1:30). He saw a correlation between the 5ht essence of the alchemist and the fields of the Pl. There is a connection there.. In one test in the Persian history, the Persian alchemist. If you can manage to have this 5ht essence you can manage to have the essence of everything you are connected with. ... (1:32). If you mix the plants with the Gans, can you make, obtain the characteristic of the plants?

K- Yes, it's been done by many KS, depends what Gans you use and how you use it. In the lab we use the same material producing Gans's in 2 -3 different ways from it.

Q: . 2 -3 Gans's ?

K- from the same material yes. Usually depends what you want to use it for, and what is the content of that leaf. You have to understand a deeper way than the field strength of the leaf. If you don't follow what is in the leaf, and you just try to make the Gans of it, whatever shape, you'll find out you missed part of it and you don't see the effect of it. You have not understood the science, so you don't follow it the way it should be, and then parts missing, and you say it doesn't work or doesn't have the energy. It has the energy. (1:34). How have you create that condition to embrace all the properties the leaf has. If you missed one of the energy properties of it, so then you don't see the effect of it, and the you blame, you say it doesn't work. It works, you haven't understood how to interact, or how to bring all the properties out. When you have let's say, a leaf .. like mint, what are the contents of it? How have you made a connection to all those contents and materials? If you miss one part of it, mint will not have that effect you are looking for.

You say it doesn't work .. because you missed part of the connection, it has to be the full content of the (1:36).

Q: .. he thought that you can use the Gans like when you charge a phone. To announce the power of a plant or medicine?

K- You have to, Yeah, this is what I see with a lot of KS. You have to understand, and in principle. Just because you put Gans's, or leaves in a Gans, or N coated, does .. you N coat a pot, when you N coat a leaf. When you put a caustic on a leaf, you have to understand what are the interaction of these, what energies can stay within the Gans. Many of you make Gans's, or sorry, make N coating and then you throw, or get rid of the caustic. Have a look, is the bottom of the bucket clear, or is some bits floating. What is floating usually in your N coating at the bottom of your caustic, are the Gans's that you will not have the effect, of the property of, when you want to use the Gans's which are left, you want to wash, or you think you can put them in to create the conditions to produce Gans's from them. When you N coat a Cu plate, watch what is at the bottom of it. (1:38). Those are Gans's and the properties of the isotopes that you'll not have when you produce the Gans of the Cu. I have seen many KS do this. It's caustic, just get rid of it. But what is at the bottom, is a spectrum of the Gans's, which you loose. It's the same when you N coat or .. produce Gans's or put caustic on leaves. KS have to become more precise, then could be what you are throwing away, is what is needed in the Gans itself, which you are going to use to have the effect you are expecting.

Any other question

Q: .. We know that the electric current is C12, .. (1:40). the plasma converter is they convert the PI in electric energy. We know the MaGrav is generating PI, not generating electricity. We know that it needs a beat. My question ,, which type of beat am I looking for. The beat has to be a function of what, and how it has to be this beat. For example, I put a small LED connected to a bigger LED to load ?? these two charge load (1:42). How they have to alternate each other. Do you understand.

K- No. Let me explain. I think I understand what he is trying to say. ... look at the heartbeat (HB) of the man, and look at all the components which are in the structure of the body of the man, and the HB of the man , connects to all of them to function to give a energy release, and absorb energy. So when you look at the HB of the man, it's the combination balance of all the elements in the structure, in the HB of the man if it is not there, they are not working, they are not there. This is why your HB changes your functionality of your skin, liver, kidney, and everything else changes, because it has to adjust with the HB. A young heart at a certain age, when it's born to a certain age, absorbs and increasing, and then the HB changes around about 30 to 35 and the whole metabolism of the body .. because that HB changed. If we can .. keep the HB at the same rate as when we were born we stay young, because the cells life with that HB creates youth, creates creation of cells. They tell you to do a sport. (1:44). go back increase the HB that increase created by it, create a condition that the cells of that beat exist in the

body. The HB has to be a natural HB, not put on the electronic system. And creating a pulse. It has to convert in a plasmatic pulse.

Q: ..

Thank you

Any other question. We always have this communication with Italians, we don't have it with nobody else, (1:46). except Italian Stephanie.

Any other question

## **Ukraine**

Q: .. question about the Russian and Ukraine crisis and the idea of peace. How can we elevate the souls of both the Russian and Ukraine representatives, that are in meeting right now to reach a truce?

K- I am going to show you something. The picture you see. (Pope leaving Russian embassy slumped down). The carte blanche of the war in Ukraine was given to Putin with this picture. When the Pope on 23rd went to the Russian embassy in Rome. In the history of the catholic Church more or less, ever happened, seldom happened, never happened, that the Pope has gone to an embassy, open (in public). The way, what we've seen in this picture.

The Americans and western nations, knew that Russians are going in, they knew they could not touch the Russian army. (1:48). They tried to arm from outside. But this picture, when I saw it, go back to what I said, 3 - 4 weeks ago, I think it was in the American teaching, and a couple of other teachings, is the war between the Russian Church and the Catholic Church.

The war you see today, is back to the war between different divisions of Christianity. This picture by Pope going .. by Vatican going to the Russian Church (embassy) is accepting the defeat by the Vatican. Vatican had underwritten all the damages, every bullet Russia will use in Ukraine.

It was the Catholic Church, which went to dominate the Russian Church, and the Russian Church, went to its military, which is the Russian army, to defend the Church of the Orthodox Church of Russia. They knew, everybody knew, the Americans knew, the Chinese knew, the Europeans knew, they were poked by the Catholic Church to start problems in the Ukraine, that we force the Russia to hand, the Russian C to become one of our, becomes under our control. The Russian C would not accept it, and asked Putin to wipe out, to go and get the nation back, which is Ukraine.

Pope on 23rd knew, that he has to accept, (1:50). and underwrite the losses. This walk here to the .. Russian Embassy in Rome, is a defeated man, accepting the defeat, "I am prepared to pay all the penalties." Now the Russians have a carte blanche, every bomb they drop, and bullet they use in Ukraine is paid for by the Vatican. So they have no limitation what they put it. The more they put in, the more profit they make.

This is the situation with the Second World War, where the Americans sent soldiers to Europe, American GIs, has a chewing gum, .. had a breakfast, in 1946, 1942 you present people, of some of the European nations are still paying for that chewing gum, because the Americans invoiced you. Because they won the war, and you used them.

Now is the same situation. If you go back, weeks ago, I explained 99% Russia will go into Ukraine, because it is trying to get the Motherland back in, Americans were poking to put all sorts of things in. The Vatican was poking them, because Vatican poked them everywhere, and they did their job. The Americans know they cannot face the Russians, there will be a third world war, imminent. So everybody is standing outside barking like a dog. The people are literally wiping out the house, cleaning out. But this cleaning out is 2 ways. First of all not allowing, (1:52). nuclear weapons to enter into, ?? from outside enter into what used to be the USSR, which Ukraine is part of it. You see what we see today.

Russians will be there, they'll wipe out, they'll use as many, as many tanks, this is not a war. This is the claiming back the Russian territory church, back in order, that the Catholic C will never put foot into the what we call, Orthodox C of Russia. We could see this one 3 years ago. We knew this was coming up 5 years ago.

Vatican financed the war, the split of the China. Chinese put them into Hong Kong and battered them, and Vatican paid for it heavily. Vatican paid for all the things you saw, because they (the Chinese) brought it under control. Because Vatican wanted to do what they did in Russia, bring Christians in, diamonds flew in from Africa through the priests who came, people who came into China, and these diamonds were sold, to finance violence and everything else, and the Chinese were waiting for it. This is the other way of doing it. They tried to get rid of the Communism to make a lot of Chinese Christians. If you make 1 billion Chinese Christian, Vatican becomes triple billionaire, but it wouldn't happen, because the structure was there and they knew. They looked after it, they found out, and the took everybody out that ?? was relevant.

This walk of the Pope, is defeat. For the first time Catholic Church had to be stopped. They warred with England for 300 years, (1:54). they won the Church of England, the Queen is a servant of the Vatican at the moment, she has no more power. Even though you call it, ?? It's just like you take over a company, you let it run as it is, we don't interfere. You want to call it whatever else, we own it, the property is ours.

This financing of this, which Russia is developing to get the whole thing back under control, and the Vatican is paying for it. Is exactly the repetition of, if go back a few years ago when the economy in Greece collapsed, .. Spain, .. Ireland, and Portugal the economy collapsed. And suddenly, miraculously, everything came back to normal. They all came out of their problem. Because Vatican did not want the .. Christian structure of the EU to fail.

So Vatican paid for all the debts, and then we saw immediately, what I call, not the Rothschild's family behind it, when it came balanced, they took the money they invested

from Vatican, they appointed a German chancellor, they took all the money out of Vatican to pay for the money they lent to Spain, Greece and others to come out of financial collapse. It's the same process.

Now the Vatican guarantees the Americans you poke in, you do whatever. NATO pokes in, we want to bring NATO in, Russia said, no. They put their forces there, and Vatican took a guarantee in this embassy meeting, (1:56). that do not cross Ukraine border, do not come in our territory, keep the Russian Orthodox Church in USSR, we pay for all the penalties, we were a naughty boy. The defeated man always goes to see the man who defeated him. This is a defeated man walking out of Russian embassy. He has underwritten all the damages.

You will see in the next few years American, European churches will pay for this, to the Vatican. Vatican has always cashed in their losses. This visit by Pope to the Russian embassy was to get assurances, that Russia will not cross the border. You will see skirmishes, but this is a war of religions, not war of nations. This is not a war, it's a correction, and .. bringing Ukraine back under fold.

What you start. It's in a way, if you look at it, you have a brother, he is on his own, the other boys bully and attack, till the big brother comes, then all run. But when the big brother comes, he puts the hand in the pocket of the ones who are bullying, "you have to pay what you damaged, by bullying my brother." This is now the Vatican pays. Don't worry, we were seeing this, we were expecting this 4 years ago. The delay in it has reasons, and Putin knew about this and was requested, by the leaders of the Orthodox Church in Russia, (1:58). to protect the motherland's Church. He was waiting for that and he responded. He had a reason to show his power. He had a reason to protect the motherland's Church, that's all it is. It will not become a war, because this man has guaranteed it by the payments. We'll see a number of people.

In a way, if you look at it, is punishing those who went to bed with this man (Pope) in Ukraine. It will take time. I was looking at it, it's possible we'll see a small repetition of Afghanistan by kamikaze, wars and things, Europeans trying to show we are doing something, over the Ukraine. As we saw for years, Russians stayed 15 years in Afghanistan, and then they pulled out, because they couldn't control it. But it under control, in about 3 to 6 months. Makes sure nobody ever talks about NATO. People can go on the streets and do whatever they like, but changing the people on the top, inside, that the Vatican has no say in the running of Ukraine, and the others, Because once Ukraine goes, Belarus goes, the other parts of the Christian side of the corridor, .. into Moscow opened, and it had to be closed. This what we see is the walk of the man of defeat. He Catholic Church risked that they going to bring the Russian Orthodox church, and one of the richest churches in the world, under control. The only thing they didn't count was that the Church will go to Putin, and Putin wanted to confirm, (2:00). that he is there, and they watched it. We watched this mass work. When I spoke in other teachings, when we saw the Russian naval forces going through the Bosphorus up, we knew the war is on, or what I call, the cleansing the Vatican out of USSR has started.

Proofed to here

You have to understand Church business is a financial business, has nothing to do with religion. It has to make profit. When you create a war, it is a long term investment. I explained this before, the son dies, the mother dies, the father dies in the western world. This is the investment, which the Church or what we call, the Vatican put for that bullet to kill the father. They paid \$10 for the bullet, the father dies, mother dies, the child dies, the man goes a lifetime to church to pray for his son, or the father, and the mother, and puts a dollar every time in. I invested \$10 in the bullet, I get a \$100 (return) on investment over ?? 40 years in my pocket. Church business, God business is a money business and nothing else.

That's why we said there in no (more religion), once you understand the power of the STM. Do you need this mayhem, the robe and white frock. You see the shoulders are folded, you see the head down (Pope in picture). Just open this picture, and you look. The chin folded, the shoulders are side down. This is a walk of a strong man defeated. (2:02). Thinking strong man defeated. Don't forget the Pope, the Vatican has never sat down quiet. We have to see what they plan in the next 20 years, in other parts of Russia and the west. We'll see more mayhem between the 2 Churches, unless we bring the light, that God's word is within the STM.

Don't worry about this Ukraine business, Vatican has already paid for it. And they receive the bill everyday, how many bullets used, how many shoes the solders used, the food they used to fight their war. Vatican has underwritten it.

When the head of the Ukraine state, says that Russians will pay for everything they do, all the damages, yes. No problem, Vatican has already paid us, we'll make profit in the losses. We'll do it for you, it brings a lot of jobs to the Russian industry. This is the dirty business of religion, and we are watching many people suffering because of it, and to them (leaders) it is irrelevant.

This is the second time in past decade, that Vatican has lost. Once the British took back what they gave in Libya, and now the second time. The British Monarchy took revenge on loosing the Church of England to Vatican, by taking 140 billion dollars of gold from the vaults of Libya, (2:04). into the British monarchy, and ?? now to the British government and nation. All flew directly into the Bank of Scotland. I was explaining this last week when I was in London to somebody.

All the wealth, which is collected in a program financed by Vatican, to get into Libya, to get the gold and share between Italian, French, British, Germans and Vatican was taken by the British into Bank of Scotland, which is the royal bank, and not in the ?? , the royal bank of Scotland, which is the national bank, assets of the nation. They wouldn't give it (share it with the other countries), and that's why they got kicked out of the EU (through Brexit). You don't pay, we kick you out. What you have, the Brexit is the consequences. Now we have to see what exit comes out of this. Will American pay for these damages, or who and how Vatican will bill what we wanted to do. You didn't go, we pay for it.

House of God, never loses in the world of religion, because it is a house of money, not God.

Don't worry about Ukraine, you'll hear a lot of hullabaloo, for next maybe 6 weeks. They'll change the government and they get paid, and the Vatican transfers the gold, from the reserves into the Church of Russia, because they have to pay the Church of Russia, and they pay the army's expenses. They'll can make maybe 10 - 20 billion out of it in Moscow.

You got to realize KF has very close advisors within the Vatican, very close advisors. (2:06). We hear, we know, we are informed continuously of what is, and what is about to happen. A Pope has never come to an embassy, to ask to stop a war, Vatican always created a war. And they accepted to pay for it. But the Russians were not prepared to pull back. They said, we are here, and we are going to show, and we're staying, and you pay. You have to see what check book on the Diets (Russian Parliament) clothes, that Vatican has written for the war, and the penalty.

Don't worry about Ukraine, it won't go beyond the boundaries of Ukraine to Romania and the other places. The Church made a move, to put pressure on Ukraine, to get the Church of Russia to bend, and they said Ukraine is in bed with a supper power, both in religion and military forces. You will not see the Americans or the Europeans interfering, they cannot do, because they already accepted defeat, and they listen to Vatican. The deed is done.

Now the boys play, and some of the old ?? machinery of the Russian army gets used. And Vatican pays, ever tank you see on the streets, every fuels, every smoke in the back of the tank. Vatican has already underwritten, as a defeated man. It will not go beyond the Ukrainian border. The only problem is a lot of people will suffer with it, and this what churches are there, to create suffering, not there to bring healing.

(Ukraine - proofed )

Any other question (2:08).

Q; what is the definition of war, .. peace, and .. of correction?

K- War we all know is destroying. Peace is understanding and tolerating. Correction is when something goes slightly out of way towards war, conflict, you bring it back into peace and understanding. It's very simple. accommodating as I said many ... when we launched the signing of world peace treaty, we always said, there will be skirmishes ... till gradually nobody plays games anymore, and then we'll find a solution. We see those skirmishes in 2 - 3 places around but we don't get the wars we used to hear. ??? wars are all finished. It's stopping .. the back hand of a person, who wanted to be a bit too greedy. We .. should not see wars, we are going the path of new T where wars have no room. We cannot, we don't need, we fought for what, food, water. In the very near future we show you another side to the whole of the structure. Nations have to invest, (2:10). in T which brings comfort, new adventures, and joys and pleasures to their citizens , and

this is not war. This is the job of the WL not to create war, or separation. This comes with new T when create conditions that people can help themselves, feed themselves and create new conditions that does not create war in a way trying to get what I don't have. Accepting the condition and cooperating and living with each other, understanding. I said, the KF stands for peace ...

Any other question (2:12).

Q: I wonder if we may know more about the conditions of existence of the 8th Chakra and how it is exactly connected to the 9th Chakra.

K- You have to explain the 8th and 9th Chakra. I think we have Azar, will come in very quickly to explain very quickly.

A: I don't know anything about 8 and 9 ( I know about 7 and 144 other .. )

R: .. complete guide to 7 Chakras . ... (2:14).

K- Okay what are the 8th and 9th.

R: 8th karmic residue. ...

9 10 11 galactic chakra ..

K- Stop, now that we know the STM , the STP, we call the spirit is within the man, so 8th and 9th is inside. So what we going to do with it, the numbers fallen down by 2 each. (2:16).

R: The idea is you can leave through your soul chakra.

K- With the KF knowledge we have destroyed the Chakra business, or we have to correct it, now we know the STM we don't need to go out 2 Chakras, or 8

R: we go in for 8 12 is the divine or source Chakra

K- Which is the center of the soul

R: That totally makes sense.

K- .. interesting I never knew. We have solved that problem with the soul and spirit, now we know where we are.

A: .. the function of ?? in the body has to do with DNA .. I have to teach about this tomorrow. You talk about Gans of Sulphur. has to do if you add a little Gans of Sulphur to your Cup ..

(2:18).

K- This is part of the medical teachings ..

Q: not old teachings agriculture. .. blueprint week ..

K- The application of the S and Phosphor .. always can be controlled. The way you put a patch in the body you can a patch on the Cup and change conversion of the fields. If you look at it. .. the Cups which Cups which KF sells, we put the 2 containers around eh Cup .and then you see the effect of, (2:20). and we produce different Gans's for P1 conversion or attraction.

Q: .. when you see peoples body structure, the way they are holding their posture ...

K- What you mean exactly?

Q: I mean the posture, say a person is very, say they have lack of self-confidence, and the way they are standing, and the way when you give them this, you see in time they change, the way they stand and hold themselves changes. Am I correct.

K- You see when you change the fields, the energies of the body, of the soul, you change the P. When you see people with ILS MS, Fibromyalgia .. they all have a back, bent backwards. Submission and when you strengthen their soul, something there, you change the atmosphere in the body of an energy field, you see them upright, they stand up straight, but when they change they create different fields. When you are bending in, you create fields of submission, when you stand out, .. create being able to handle. We talked about this .. long time ago. (2:22). I used to take picture of the people before and after, you see totally different posture. Why people go in repetitive because they have that posture, which creates that condition, which people put them in there. You're a dog you stay in kennel ... and our posture dictates I am a dog cat lion ... and you can make a man change again his self confidence. Because the emotion changes.

Shall we go for a break ...

**>>> BREAK <<<** 421 KSW Mar 3, 2022 (2:29).

Q: .. Brazil .. Rafael .. As the fields of energy we create the Gans, they have a huge flow, can we contain these fields like creating an Infinity Loop to use this energy?

K- Energy of what, the Gans's?

Q: yes

K- You can contain any energy with the stars to it. We do it in the solar system (SS), .. the cell of a man. You have to find out what field energy you have to create, to create that condition of containment. (2:32). .. when we explained about the black box condition, where you can create a black box and you can put anything in it ...

Containment of PI is one of the easiest things you can do.

Any other question

Q: .. (2:34). he was listening to a teaching in 2016 you were saying about using the IL to contain fields. but in one point in the teaching your audio was cutting he was not able to understand

Q: repeats ..

K- What happened, I understand. If you look at the structure of a loop, it's containing or locking up 2 fields inside which still have interface ..

(2:36).

You do this in MaGrav

(2:38).

Any other question

Q: .. (2:40). 134 KSW connecting with 6th health teaching conversion of the CO2 in the lungs to O2, what happened there. .. in the same teaching you speak about a flow that happens in the brain to contain and lockdown the soul in the center of the brain, So you also spoke about concentrating this flow with 2 coils. could you explain more about this flow containing the soul in the c of brain.

K- The containment of the soul is due to the flow of the M field, in the case of the human race, (2:42). the blood flow, which creates that containment. The STM is earth MG field strength, what we call balanced. So we are created out of the fields of this planet which at the level of the .. 4 Carbons, in the cosmic or as we talked about C14, which connects the STM to the U Community , to the outside the physical D of the body.. The containment of it is impossible, but limiting the containment for the transfer of the fields comes through the combination of the different shape and form of bending of the fields of .. M field of the soul, by putting across C14's in different strengths, in the structure of the AA of the brain. You cannot contain something, if you don't create the fields of that it can be above but connected to. In the world of matter S if you don't have the containment good enough you cannot hold for example He in a balloon it will seep through. If you can add, (2:44). another layer to, that is finer than the atoms of He, can't go through, you can contain the He in a balloon. It's the same in the body .. in the brain you have to have a containment that's got a connection to the field strength of the soul and the STP in D of the Pl of the brain cell. These when you look at the cutting of the brain you can see different layers, this is because of creating different field strength to be able to stop, or .. interact that, in that interaction you create different fields and emotions and all sorts. The knowledge of creation is the same, it's just to be able to decipher how we get to that point. It's a chess game, and there are different ways to play the game, if you conquer the understanding of the method you can follow, you can checkmate, or create the condition of the win or It's very simple.

Any other question

Q: Dean ... on a soul level when the souls communicate, (2:46). and speak with each other. So if we want to give some energy to a soul and P leave this transfer you give that

thought process to give this energy to this person .. do they receive instantly .. or is this a transfer that happens over some moments?

K- You can give if it's not on the right or different strength it cannot be received, it cannot interact, or maybe .. it will take time if you give at a higher order it has to interact with other things when it matches the lower order where you want it to go, yes it will do. .. you can take the horse to the water but you can't make him drink. You can give but if the other side is not receivable, cannot receive it.

One day when it lowers down to the level of his understanding. How many times if you have children, you tell them things, you show them love and everything. they don't understand till they have children then .. they see what you did with them. Then they tell you, I am doing what you did with me. You showed me love, and this is the way I showed love to my child. Doesn't mean, he didn't understand, he received the love maybe 40 years before. (2:48).

Q: is it given in the fields strength of the matter strength of this planet, as you said, 30 years ago ... (2:50).

K- It wasn't in the matter state, it was emotional state, it wasn't materialistic, it was the pure love of a father for his child.

Q;

K- You see in the Church you call it the Father every Sunday ..

(2:54).

They make a beggar out of man, emotional, what is given by the Creator freely. Now you have a soul, you look at it, is free, then you look it a different way.

Q: I have noticed when I speak to theologians. .. they say this God is outside of themselves, and we of the UC and the teachings say the soul is within, inside yourself, you are part of it, I think that connection has a big thing position to play.

K- Yes, that's what all the teaching of the KF have been, man to be the .. the point of connection with his own creator, without an intermediary. When you understand the work of your energy, and you understand the work of your soul, when you understand you are free in essence of the creation, do you need an intermediary to lock up your P, and this time pay patents, penances and the rest of it. They have imprisoned the P of the man, (2:56). in the name of what they never understood, but they brought them to the ??? slavery of the P. ..

Q: Has this been in position for many thousands of years?

K- We allowed it, yes, we allowed. We allowed them, yes. Look at the present situation in the west. In England or Austria, the people went enough on the streets when they went, wanted to force them to have injections, that they are talking the minister who pushed this, now is about to resign because people understood what was for them, in a different way then those who were trying to control them. The Austrians ..

(2:58).

It was not like in the past you were told and you follow ..

The old guard is loosing battle ..

(3:00).

The biggest problem for us at the moment in the KF is not the T. It's bringing peace with the use of T. In bringing T to US, Iran, China Europe at the same time and using each other scientists to do so. This is what is the challenge. In the next few weeks we'll overcome it. We don't usually announce what we are doing.

It takes them less than 2 weeks to fly if we show them. It takes them less than a week to manufacture the systems in perfect conditions and tested. but we have to unite them first before we test, otherwise we'll like the situation in Ukraine, and the rest of it. The Vatican will try to dominate the others, and then try to escape, and then one nation becomes the "other" (scapegoat - like Russia), and the rest of it.

We don't have a problem with the T. Our problem maybe in the next month or so, (3:02). to establish the KF SSI in Tehran, Austria, in AZ and in Beijing, and most probably I would love to see in Brazil, and in Lagos, Nigeria.

Q: I am sure the Brazilian KS will be very happy about this.

K- We will invest heavily into Brazil in the coming time. It's not (just) the KS, it's a big nation with 200 million population, extremely well educated people in many levels, and very hard working people, and knowledgeable. We have seen it, they decide. One of the KS who went wrong, thinking he was above everybody else, writing what he wants, was brought down on the Facebook this week by KS. He thought he was untouchable, because he supports the Belgium's, and they brought his Facebook down by the KS, because they know what is the path. KS start controlling what you call "balancing" that other KS don't go wrong with their own work. We saw this guy, going through his head, he thinks, " I have the Belgium's behind me, " I can do. He lost his Facebook.

We didn't need to do anything, the Brazilians they did it themselves.

Q: .. Seems to be what I am witnessing is this knowledge is definitely spreading and becoming a bigger PI and effecting. The field strength is definitely gathering momentum around the planet. (3:04). I noticed that many people .. are becoming aware of the KF and our ethos and the fact that we are messenger of the peace. We come here to bring peace to humanity and we are present in every moment, bringing through this T that can enhance and help in many applications.

K- In the coming time I'll explain to the KS worldwide how what you say has changed towards the KF. Institutions governments have started supporting KF the way it should have been done some 10 years ago. The way we should have shared the knowledge and we all would have been benefited by it, and how now they have realized how they have been lied to, cheated by, and abused by, in a way, by again a certain nation we all know. But it will be interesting to see what the WL start doing when we start showing the flight

system, what would be the reaction of this. These are getting built, it's beautiful, when I was in the factory this afternoon, it's amazing how Klaus, thanks to his has brought a beautiful production into operation, that it cannot be stopped, it's a continuous production, we have become a structure that we continuously produce reactors for space, and everything else. We've gone into mass production, (3:06). but we say we learned how to walk, now we can (run). It's a pleasure ... We don't have KS, we have only 1 KS, I saw in the factory. The rest are common people not KS. and they are doing a beautiful job.

Q: Are they effected by the fields ?

K- I presume so, that building is flooded with fields.

Any other question .

Q: Did I hear you say a soap could be developed if we were clever enough to absorb the knowledge of the fields of the U or from the soul of the fields of knowledge. It seems much simpler than whiteboards and Telegram. You mentioned this in passing, it appears beyond our belief and understanding how this can be possible or in our future application, would this apply to other products as well?

K- The whole plan of the KF is to walk away from matter S. In the coming time creating fields, which control fields, creating conditions of the field which is needed. Once to reach that point . we reach the maturity of understanding, (3:08). a living entity. We are building aircraft and EU, we are still doing what our body does, we are using more or less semi-physicality like the brain .. to contain the STM which is free within it, to travel in.

When in a very near future .. 12 months or more. 2 years, creating EU which have no D of P. When you see a UFO it has a P, so it means these people have not jumped into the border of understanding a PI, in a deeper way. When we taught the human race different, I see once the space T gathers momentum and the W scientists get to it, having systems which can fly you without physical shell, by creating fields which creates that condition of holding or transportation, we will see this coming up, .. to be part of the human race, no more what you call It will be very hard to create rulers and religious leaders in the next 5 or 10 years. Because the man will... one of the reasons they stopped the KF is that we are bringing such a T that frees the man from the abuse and force what we call, imprisonment, T that we could control. Now it cannot be done.

You all can do. I can tell you in 1 second how you can create C14, (3:10). and .. space development motion, you 90% of you who work in labs in your kitchen will make it in no time. Put it this way you all have made it but you missed it. You all have made it. Any of you who have produced Gans's in past years have already made it. You just don't know how to collect it, you don't see the connect of it.

Hopefully this is the last time we change the time of the teachings ...

Tonight I will be signing documents for one of the largest KF manufacturing in Romania

...

(3:12).

Hopefully we see each other next Thursday.

422 KSW March 3, 2022
