

62nd Knowledge Seekers Workshop May 21 2015

Make teaching available on a daily basis. (:12). Changes in humanity, have to learn the true meaning of the peace means. Asks governments for 1 day of peace each month. He put CO2 Gans in flower vase and last long time. June 21 is a day of Peace. (:22). If after 21st August no Peace, Keshe will dismantle all weapons on the planet. We have access to your brain. Man will only accept technology out of fear. He has Nano coated wires on Computer to shield from waves. Keshe has 35 years experience with high level governments around world. (:33). They accused him of betraying humanity by giving USB stick to all world governments, but they still failed to act. In time he will demonstrate silencing the guns. He demonstrated with Dr. Eliya to stop reactor #2 in Star Formation. One Jewish business man stopped selling knives because one man bought his knife and killed with it. He will show both sides of the technology good and bad, can make the muscles fall off of man. If by Jan 2016 governments don't act on the peace he will show destructive power of technology. (:51). Mr. Gee ? is one of the core members and make a presentation, part 2. Picture from Hubble of a Plasma in space. Difficult to follow this man. The Trinity. (2:13). Keshe starts teaching. Gee is a true passenger of space, lives on a boat, and he has no obligation and lot of time on hands to think about these things. Future will bring plenty of time to soul search. Message for Bret and his military contacts and Colonel Hanky, to stop firing bullets one day a months. Americans make the first move for peace. (2:22). Take down a satellite. GPS was a conversion of military satellite to civilian use. (2:36). John Searl from last week is ill in hospital with breathing problem. Keshe says many world scientist have an extra sack that forms just off the windpipe. He doesn't prepare notes, it's all spontaneous from the soul. The 5+1 Treaty. Discussion of Star Formation when one reactor sinks. How to control the MG fields of reactor. You can use a reactor to make the car fly, by creating a MG field strength around car. (3:07). Going over reactor, add Fe to reactor. The MG fields are locked, that is why you don't see lift. Look for physical interaction, plasma layers that slide over each other. This gives you MG fields and a vacuum, the totality of MG fields multiple to huge level of energy. Find a gaping material so they can slide over each other. It's sitting so close to you, you don't see it. The coke bottle. Understand Magnetic separations. Look how the muscles in body are separation. This replicates the structure of the cells. The earth is in the Plasma of the sun so whatever we build on earth, the size doesn't matter. Can make gold. Rick is on the right track. Housewives work with it everyday (salt?). It's Nano Materials. This is how the Gans of blood moves so fast in the heart. Get a Gans in a box, then black accumulation on bottom. (3:35). Going over separations. We have chosen you and do our job through you. Nano material with separation, I think you have to create a Gans/Nano material. Flying in 2 ways, the essence of thinking or by physicality of action. How to choose the middle layer to move in the opposite direction. (3:56) Each of the 12 core members brought a piece of the puzzle, but you didn't put it together. This is like the first Wright Brothers plane. Need to understand Deuterium. The knowledge was with Zoroaster and flying carpet. Book #2 about the light, the Gans stays separate but magnetically connected.
