

# 461st Knowledge Seekers Workshop; December 1, 2022

(Transcription Proofed)

(Auto transcription from Elias)

Christmas Gift flight package 16th December; T advancing rapidly; Key is expansion of Soul over body - fields cover all cells - into balance; Process of transmutation started - American arrived in Linz outside system by Soul -P later; Cosmic Ray systems 80% complete -needed for Transmutation; Soul has to expand and create envelop - sent over phone lines to destination; All diseases taken care of by Soul; Case study's of T; Soul elevation 1 second; Drug addictions - Parkinson's - etc offered 19th December; This is Change 2022; Creation of emotions; O create M fields and energy in body- important;

## ENGLISH TRANSCRIPTION

(:12).

K- Yes, good morning, good day to you. As usual, wherever and whenever you listen to this series of knowledge Seekers of the Keshe Foundation Spaceship Institute. As we always say in sharing knowledge, and maybe technology, and some joys. The Keshe Foundation on the technological part of it is advancing quite rapidly. We are developing, our team are understanding more, and gradually we are building condition to reach the ultimate goal of what we call, being able to sustain life in every dimension (D) in the space, Earth being included as part of that space.

Earth is not something special in the universe it's like every other, it has its own dimension, it has its own limitations, like everything else we have on this planet. (:14). To this purpose and to this reason, and for what it is. It's not a game, as we heard the Intro, man thinks he is a special. Earth is not a special thing in the universe. It's another condition, it's another interaction of the fields, which has created a condition of a specific type of life we call it human life.

How we interact with it, how we rejoice it, how we understand it, all comes in our personal understanding of our environment. Understanding of the society in our environment. As individuals what we see. I always used to say if you're man who works for a little kiosk, you only see the world through that little hole. When you have a shop you see through the door. When you have a warehouse, you see through the big gate. When things are .. when you're working internationally you see the whole world.

And the same goes with a man we understand according to what we see, and how we, as humans interact with that condition. Sometimes we can imagine, that there's a higher level than that little kiosk, to a shop, and then we try to understand it, the formation of ?? vision. Now we are doing the same man has been in that kiosk, kiosk of man on this planet. And has ?? understanding of what man does on this planet.

So now we're trying to open the man's eye to become, according to his ?? intelligence that shopkeeper to see a bigger space, or a warehouse man, or understand global interaction, or what we call with the U. These things brings, and needs to be understood. It's no use one person teaching, (:16). and nobody else understands, till the time comes to understand, ?? the guy said 100 years ago, such a thing. Now you'll see the news of it. You didn't understood that of the time. Now we're trying to make man to understand the position of that man in the international arena. The universe. You could be a shopkeeper. You could be stall man in the kiosk, or you could be running a warehouse. You still have the mentality of the man in kiosk, just because you're in a bigger ball, bigger gate, does not make that difference. Somehow you accidentally ended up there, which suited you to bring that in.

In this process, we look at how we understand things, and how our team understands and develops accordingly. And how Knowledge Seekers (KS) go through this process. We have two choices. We go back as we done, step by step, bring that ?? in. Or we open up, and let people all become to some sort of a balance of knowing what is available, that they all can be where they are, but they stand the position of the other. Past weeks of teaching and past weeks of what we call, you supporting us on trials and tests and others, has brought us to that crucial point.

Yesterday for the first time, we started the transmutation process. As you know, every success comes on step by step. It doesn't come in one jump, and that's it. If you get it in one jump, and you don't understand it, the failure, comes in the future. We're trying to understand, and we're trying to start a process. (:18).

Yesterday with the person who's part of the Keshe Foundation (KF) and is the first man to be transmuted. We started the first process of transmutation, and confirmation of transmutation. It's not easy, especially if you have to transmute across United States to Austria.

We're building it step by steps of this. We are building a position of, not only us trying to understand, but we try to ?? nation, that the passenger understands what is gong on. The understanding of "no limitation." We bring the Soul through the system. We bring the physicality (P) through the system, but then the Soul has to move across. In a way, because the person has been to Linz, he knows the environment. He knows the places. I could walk to a place, and he was there, without him knowing. And I asked him, where have you been? He says, I had such a feeling in such place. And I said, I just went there to see you. My soul told me, I am there, you'll be there.

And this process has a started. We need our people to understand. We need to perfect the art of it. But the beauty of it was, he doesn't end up in the machine. He ends up in the building, where he wants to be. Where his Soul has a connection. He is one of you, as listeners, most probably, in the background and he knows exactly what it is. (:20). And so as we said in November, December, we start transmutation. The process has started. We have to build it step by step to it. We have to bring the position, that we can

completely feel, understand the position, and then bring the transmutation of the physicality.

This will take most probably in January, February, as the systems are getting finished. I was told yesterday 80% are done. And then we go into this process of transmutation. The transportation of the physicality and the completion of it, needs what we call, Cosmic Rays (CR).

Our team has built the system, are building the system. And we feel the existence of cosmos. Once you start touching the cosmic rays, you become of a different creature, of understanding of the universe. Not, you don't get heads and tails, but creature in knowledge, creature in understanding of the truth about the Creation. A lot of detachment, but a lot of attachment to the new understanding, till you understand it.

So, as I said, we have started the transmutation process. And we will gradually in the next few weeks test expansion of it, how and what they can do, and then come to the full transmutation. For us, once we establish one, is how we can move the other 7 billion. How we can bring that knowledge across to 7 billion. That no one abuses another, and everybody has access to the same thing.

At the same time, (:22). as part of the Keshe Foundation, we are running other tests, which you were part of. We are still getting people who want to do the flight test, they want to do the Satellites, they want to be Mobile test, all those in a different shape or form are taking shape.

The what we call, what was going to happen to you, you're getting, as I said, in New York into the system, seconds later, you're in Linz. And, yes, we get you, the way you came. In the present situation, you get on the plane in Linz, you come off the plane in New York, you had a cancer here, you have a cancer there. You had a ILS (means ALS) here, you still have an ALS there. Nothing changes in your ?? physical condition. But with this technology it does. Because we expand the energy package, which is within the center of you, which has to cross your body, and than make an envelope. That our technology can pick up that envelope and transmute you on the present communication lines of what you call, mobile phones to a position destination. In the future, there is no more ?? ?? We learn to our what we call, dimension of the energy, in silence.

Then in this position, when the fields crosses, it's like when you put in a way, materials in the microwave. Nowadays, they put tomatoes through a special rays, that they don't rot anymore so fast. We put bodies through MRI, and we see, the fields shows us where the tumor is, where the damage to the brain is, where you broken the leg. (:24). We put you through CT scan in a massive amount of X rays, taken in layers from your body, we see what is the shape of you inside you.

Now instead of rays coming from outside to take these scans and pictures. Now your Soul going from inside out to create that envelop. The way you go for radiotherapy, radiation therapy. They see a tumor, they see something, and they target radiation on it. And they

say, we destroyed the cell. We radiated it and it's done. We do it in the nuclear industry quite a lot. Radiating, create conditions of ?? exposure or whatever. So we deliver energy to it and we change it, and the doctor says, you had a radiation therapy and the tumor is gone. Or we killed it, that the entire body will get rid of it.

Now, the radiation comes from your Soul going out, and the tumor is on the way. A broken leg is on the way. The broken heart is on the way. The emotion of pain is on the way, as it radiates out to create that envelope. Now, you understand how it works.

Today you go to hospital to get radiation therapy for your cancer. Now, you get the radiation therapy from your own Soul. But the emotion which created it, has, it is connected to the same center. It's not that you find, you get rid of that tumor. You solved the reason why that tumor got created by the same, same cell, by the same structure, (:26). which radiates out. Because if there is a fault in the envelope, what you put in it will fall out in transportation. It has to be protected. It has to be corrected. How many times you will receives the post with no letters in it, no items in it. The Post says, sorry it was lost somewhere and broke, cracked, or part of it we do not know.

So, when a body of the man, when the Soul of the Man (STM) expands to that position. Like the radiation therapy, crosses everything, and everything has to be balanced. It brings balance through the energies of it. And it knows what it should be, because the master on the head, which created it through emotion says, there is a misbalance here. I used to hate my love, and love was a cornerstone of the creation. So, if you create a tumor out of hate, it has no balance to sit. The envelope has to be complete.

Many of you came to Linz and we put you through it, and I could not tell you this. You have a problem. (You said,) "I cannot go anywhere. It doesn't work on me." What is wrong inside you through the emotion and the physicality. The beauty of it is, we cannot transmute a broken envelope. We cannot send, because the fields will imbalance, and they move and the create other problems. You only can travel when the Soul, the envelope is clean, packed, sealed, nothing can fall out. Nothing can fall in. (:28). It doesn't have a weak point that it can get torn, and tear apart in transportation.

It's you who makes that envelope, not us. We created a condition, that conditions it, to expansion of it. Go back to all my teachings, I always said, Solar System, or a universe can expand only to the size and the fields, that its environment allows it to expand to, because other fields control it. The other fields sit on top of it because they need their existence. Now in our systems we control that condition of containment, and once we control it, because it's a magnetic field, because it's on the line of the field of the physicality, we can shoot it down the mobile line.

I cough, you hear. I laugh, you hear, but you cannot see if I frown. You cannot see if I twinkle. In the plasma technology, the twinkle and the frown, everything is there. You go in with a cancer, you come out, if the process is completed, without a cancer. You go in with the mental condition in transmutation, you come without it.

If you have that problem, you cannot travel. If you have a conflict inside you, you cannot create that envelope. I sat, I watched people come in and went out. (They said,) "I could not do, it didn't happen to me." There is something wrong inside you. That does not allow your Soul to create that envelope. (:30). You have a different understanding, you have a, you have come in with a "mean thoughts," as I call it. "I have come here, I don't believe in it, but I want to show that it doesn't work." You deceive yourself, not the system.

The guy before you came in with a pure heart, with understanding of what he wants to do. And the one after you. How come you don't fit in? The problem is you, not the system. The problem is your integrity of understanding the Totality.

So we have to test, that when we put somebody with a cancer in New York, lands in Linz, does he have a cancer anymore? Or he wants to keep that cancer, because there is a condition, that he has to prove to himself psychologically. Or she has breast cancer that it has to do with psychologically. She hates someone. That she has to transfer to love. And cancer will find a solution in D of P. You end up in Linz, you still have a tumor, but it's not malignant anymore. We did not manage the tumor on the way. We exchanged the source. We elevated the Souls. The elevation of the Souls.

So, as part of this, in the development of the technology, we are testing that, elevation and dimension of interaction of the feeling, emotion and the physicality. To this effect we have had, past years, we have done many things, which doctors bring it on the medical, but it is not medical, because it's elevation of the Soul. It sits with the psychiatric psychologist part, (:32). because to me, the plasma physicist, understanding the work. I trust the psychologist to understand and work with the emotion, with the plasma of the field of the Soul of the Man, but not with the surgeon.

To me, the surgeon is like the guy who does the repair at the repair garage. Cut the leg, take a tumor out, do this, do that. But what's the reason of this? Because the engine is not fixed. Psychologists understand this, and you will see Keshe Foundation will work around the psychologists, not the medical physicians. Because we work with the boss, let the foot soldiers march on. He thinks he defends the border of a nation, but in fact, he has no authority, because the boss tells him where the border is.

So, in working with the Keshe Foundation, all the work goes with fields, and today's government has no authority on this level. We have no rules, no understanding of the work of the Soul of the Man (STM), except we left it in the hands of most imaginative, incompetent, lying, cheating, religions. Those who run in different names.

Science and technology of the life in the space is on the structure of the fields of the motions of the plasma, (:34) what you call, the Soul. << audio cut >>... the totality. We will go in understanding how we go, and how we sit, and how we can introduce things directly, and how we will understand to expand the knowledge, and how to bring you to understand.

So, we have started, what we call, the transportation and transmutation. We have started the process of understanding how we can bring different dimensions, different structures, different souls, what you call, into movement. What would it do when we do this? How would we interact with the souls? You might have Alzheimer's, you might have Parkinson, you might have every other condition. But this is not our job.

We want to see if we can expand your Soul, if we can allow you to expand your Soul to the limitation of the envelope we give you, and then see how your body reacts to this expansion. You call it, healing, you call it, curing, that's your problem. What we are interested in, is in how we expand, how we can control that expansion, and in a transition time from New York to Linz, (:36). how your energies will interact with the system, with the dimensions, and with everything else. We want to know how things will go, and we want to know how things sits.

In this process you call it, what ever you like, healing, processing, curing, that's your problem. We've create transition and transmutation of the fields of the body of the man, and we'll find out how it will be done, and how we have and we can develop this. What does, what would your body do in this transition? What will happen to you in that point of transition? What will go on in that point of transition? How things will turn up in that transition? (:38). What would we do? How people around us will find it? How when we arrive with the new condition, how would they react?

We get on board in New York and we see ourselves with a cancer. Our loved ones in Linz, knowing you have a condition, and you have to go through the process. They leave you today, they greet you today with what you are, knowing what's ??, expecting usually the worst, as man says, for his demise. Now with this technology, you get on board in New York, and then you land in Linz, and you've been correct in every dimension and direction. The family greets you, because they love you, they know you're going to be here for a long time. In the journey, you have balanced all the emotions and the fields of the body. The tumor is there, but it's not going to kill you, unless you wish it to be done. This is where the change is coming. This is where the biggest change for man comes.

In a way, man is gradually getting access to eternal life. (:40). This eternal life, this knowledge, this technology cannot stay within the Keshe Foundation. In ways, we have to make it accessible to every being on this planet. In a way, the technology has to become like the rays of the Sun, shines on all, in equal amount, and in an equal way. If you're lying on the grass in the park, the Sun doesn't decide, you're going to get more if you're black, white, yellow or orange. It doesn't decide if you're a man, a dog or the cat. This knowledge has to be the same.

In so many ways, we have to develop it, that it becomes the same, and become accessible, and become part of the accessibility, that even those who do not understand what the MRI machine is, or a X-ray machine is, when they go through it, they find the problem. At the same time, when they go through it, they don't know what the chemotherapy is, but what the MRI found out, the chemotherapy tries to solve. In this process, the MRI

and the chemotherapy is within you, and it's part of you, it's part of the structure of the ?? emotion of the STM.

All we do with our technology is to create the framework, and you create the fields. You create that chemical for chemo, in the fields of the body of you, inside. (:42). We create the frame of the MRI, you create the scanning of the emotion, what's wrong, what it needs to be done, by your own fields, by your own understanding. Like the Moon and the Earth, and the other planets move in a certain position to accommodate each other in certain time, that's become the part of the work. We are the Creator of that condition. You are the one who decides what happen inside. For this reason, we need to understand that 99.999% of those who use our technology are ignorant to the science. But then get benefited, the same as all of us, being a man, a dog, a cat, and the rest.

In time, man will change. In time, the humanity through progress of understanding will change to his own dimension and direction. In time, us, as those who understand part of the knowledge, will come to teach the others to understand the work of their own Souls, to understand the work of others. At the moment, everything has become physical, and everything has to be done in hospitals by doctors, who read a few books, and they become gods.

Now the God is within you, which is your Soul. The Creator of you, the Creator of the existence of physicality of you, is within you. (:44). You can become the doctor of yourself. We don't do anything, you find the solutions. We don't do anything your Soul fixes what is wrong inside.

This week, I'm sure the lady is on the line, or a relative who introduced her to us, she came to our doctors, highly educated, a Ph D. She cannot walk, she cannot take steps, she can do a small dragging foot. Talking to her, the doctors even have, I've never heard before, screwing her big toe to the one next, that she can keep her balance, or whatever. They literally put a pin between two toes. She had to move house to live in a one floor apartment, because she cannot do anything. She hasn't walked, or in a way, for nearly two years, collectively five years. She has to go through a pain structure to get up, to stand up, even trying to take the step. Highly educated, hands cannot bend. Fingers don't touch, it's like putting an orange in between the hand. She has been like this, for years, for past two years. (:46). Gradually she goes into condition, that she will not be able to move anything.

With the doctors, she's been put through the (KF) process, for 30 minutes. Then we asked her, can you walk? She stands up, she walks. I can't hear her voice clearly. She says, I'm walking. I don't want to stop. I haven't walked for years. I have no pain. She walks around the table, and like dancing. We said, just calm down. She said, I don't want to, I haven't walked, this is something impossible.

In 30 minutes. It's not a 30 minute, it's that millisecond the Soul desires to perfect the walk, the man to walk. Soul is the psychological and the physical just follows. That 30 minutes is where that one millisecond of elevation of the Soul will come. We Stop.

Comes on the next day. The joy, the happiness of being able to walk the day before was overwhelming. Go through the same process again, and she's walking. She doesn't want to sit. We asked her to run, she says, (:48). I cannot run. I asked her a question. (She says, "my toes have been pinned together. My ankles have been locked, because I was not supposed to walk ever again in my life." What about the hand. The fingers can touch each other, for the first time. The emotion, the process wanting to live is so strong, it has rejuvenated itself. Life is there again to live. We asked her, can you go for a run in the next couple of weeks? I can't run, my toes are pinned, my ankle is locked. But now they have to take it off.

We created the envelope. The scanning, the evolution is done by the Soul, by the energy within inside the man. Not by us. We are literally a DHL office. We are a post office. We know where to deliver that envelope. How we cannot carry a letter, you have to put in an envelope, that we can carry. You have to box it. We create that box. We are the provider of that box. We are not the curer, we are not the doctors, we are not anything. We are just a courier office, (:50). which needs everything to be an envelope. You cannot bring a bunch of oranges on the table and says, can you take this to New York. Sorry, you have to put it in the envelope.

Then we can carry the oranges. Then, whatever is there, the taste, the joy, the sweetness of the orange is for you to taste when you receive it, or who receives it from you. The work with this delivery company called, Keshe Foundation Spaceship Institute, is to deliver the Soul of the Man anywhere in the universe. It's you who does the delivery. It's you who decides where the envelope goes. We have a delivery office in every corner of the universe, in every stone, and in every heart.

We were talking with the doctors, with the mother with a child with autism. Child, four years, mentally one, one and a half. We saw her crying last night. In facing the reality that, she's having a four year old boy, as a four year old boy soon in her hand.

Three times through the system in past two weeks. (:52). For the first time he decides to go to toilet on his own. Before, we know what happens to young children. For the first time he can continuously hug the parents, mom and that, which wasn't there. For the first time he can sing songs with the TV program. For the first time, when we heard it yesterday, when the mother comes, and he is watching TV on the father's handset, says, hi mom, how are you? For the first time the family is a family, they don't need to carry a handicapped child for decades to come.

The whole process is that 30 minutes, what we do not know, which second the Soul decide to put the letter in the envelope and elevate that soul, and elevate that physicality.

In the past two weeks, for the first times, we share what I shared privately for years for people who walked away, and I could not tell them I expanded their Soul, and we got accused of medical interference, which we did not (do). We elevated the Soul. Now, that those who never understood, find their elevation in their Soul.

Now for the first time there are translators, and us, and doctors who control this process. We all hear how changes are coming. How effectively we are changing life. (:54). We hear from the people who could not sleep, and now they sleep solid, because the ghosts of their own life has found solution with itself. The pains in the stomach are not there, or many other things, which has been going on, with the elevation of the Soul.

For this reason, Keshe Foundation has decided, and we open a mass, what we call, meeting, a plasma conference, a plasma event, that we will carry on with this every month. What we want to do, we don't want to keep, unless you want to be especially sorted and done, which you cannot do it in this process of the events. We take you up, we increase your numbers, to take more, and to take to allow things to happen. But we want to give you the taste of it.

Many of people say, how do I know it works? So, we have opened this introductory, what we call, sessions. You're an addict, you have a cancer, you have Alzheimer's, you suffer from diseases that, there is no answer in the world of the medicine of the man today. You have a joint pain. You have pains which has been with you, is Fibromyalgia, or whatever. (:56) Keshe Foundation is opening for the first time sessions where we want to reach all of you at the same time. Your son is alcoholic, your daughter is a drug addict, your father has got a prostate cancer, you suffer from Fibromyalgia and everything else, and the husband is alcoholic beyond. You all, we just got conditioned that you cannot do, and they told you it's psychosomatic. They told you it's genetic, or it's immune system problem.

The love of God shines on all equal. You don't know in the park or lying down, the guy next door to you has a cancer, or is a schizophrenic, or he's got a Fibromyalgia, but the Sun shine exactly on you, who have a brain tumor, and he doesn't know.

For this reason, we open a channel, and we'll repeat this every month. For people who have doubts, or people who thinks they might be able to reach to understand, maybe they see the change to understand the technology. Their understanding of a feeling it, then they can decide, they want to go through the full process. Or they decide, I wait till next month, maybe I'll find another. We specifically gapped it for four weeks, that you'll get a chance to analyze, and don't call it accidentally. I could do this last week, but this week I can't do. (:58). I had a headache, oh it cannot be because I went to that session. So, you can still live in the life of denial. But go back on working on what you receive.

We have opened a Christmas gift to humanity. On Friday the 16<sup>th</sup>, Keshe Foundation opens a four hour session, that between 500 to 1,000 people can join in. Come in with your desires, come in to see your grandfather, come in to travel to the Moon, come in to get rid of the cancer, come in to get rid of the drug addiction. We don't ask, we rain the Sun in all of you. We bring the technology.

It's you that you might get a sunburn, or you feel, still shivering in the same Sun. Go on the Keshe Foundation website, join in, because we'll follow you up in the following weeks, what changes has brought you. Come in hungry and ask for food. See if that day,

that week you still eat the same as before you go through the system. Come in with a bag of chocolates and see if you can gift it to somebody, to your friend. You are in New York and he is in Linz. I sent you a chocolate, did you feel a taste of it?

This is part of the mass introduction of the technology worldwide. This is the first step, that we open this, irrespective of. (1:00).

We monitor everything from Linz, it's you who has to tell us. You came in as an addict and your desire reduced. It's you who come and say, I came, I couldn't walk, now I can walk. On the Monday the 19<sup>th</sup>, we open specific channels for those who want to transmute their Souls and walk away, or ?? find away from their addiction. Sessions are for one hour. The next hour we open a session for those who want to go to the Moon. For the next session, we open for those of you who suffer from Parkinson's. For another session we open a session for those of you who have a cancer. It's a symposium of all of you. We don't do anything. We just go in your home, attend the conference, attend the meeting, attend the seminar in your own Soul.

We provide that packaging from the transportation company. Sign in, and get involved to bring the change. Each session we can handle 500 people, (1:02). if it is 20 of you, still goes on, if it is 5,000 of you we have to change the numbers. You suffered, you came to us, you said we don't have the knowledge. You can test it to see if the knowledge works for you.

Maybe you get that 30 seconds of elevation, one millisecond of elevation, that it changes you. But be honest and report it back (to us). The next step after this will be Mobile transmutation, where in the same kind of sessions we move so many of you from one position to another.

I promised you I open the technology to mankind, and this is the best mankind can do for the time being, till what is done, understood and system ?? applications is started. In a way, if you look at it, the system in Linz is a connection to the Creator, that it shines equal amongst all of you.

I don't need to open a million centers, one system suffices to satisfy the need of the man across this planet. It's you who has to find a way to link to that energy and find your way out of that energy, with what you want.

We have a guy who came and says, you can't cure my sister, I want everything back. For your sister, see if she wants to live, (1:04). or is it just you pushing it? Bring your child with drug addiction, put them for 30 minutes with their own Soul. See if the addiction is a cause of the body, or a escape from an abusive mother. ?? will come to him and he'll understand.

On 16<sup>th</sup> of December we give you a Christmas gift, a Christmas party by Keshe Foundation for your Soul. You are the Santa, it's you who comes down the chimney of the plasma of your own Soul. What gift do you want to give to your physicality, or to

your emotion, or from your physicality to your Soul for elevation, that it finds peace with itself. On Monday, we open a channel for those of you who want to come in and get rid of your problems and your own addiction, we just create the conference room.

Those of you who want to go to the Moon, or Mars, or you want to go and see how the weather is in California, you're welcome. Everything else, we allocate times every day, maybe every day at nine o'clock we have a breakfast time ??, and 10 o'clock at night dinner is served through your Soul. (1:06).

You've got to understand, what we do is possible, and it has not been possible to do with the humans, purely through the technological development of science in communication. We allow one session in the coming days for the ?? recall of the world leaders. They want or they don't want, we drag them in with their own Soul, we have the technology.

On Friday the 16<sup>th</sup>, evolution in the science of man will take place if the man understands. In so many ways, once we move, once was the first step taken, the rest will follow. All you need with you, is your headsets and your mobile phone. As I said to other Knowledge Seekers, do not come with your laptops and your computers. They create a massive interference, you might end up being in Zimbabwe, where you wanted to be in Linz. Make sure nothing runs in the background on your handset. Make sure you're there till you Soul tells you, let's leave, I have had enough, I took what I want. (1:08).

Then join us on December 20<sup>th</sup> on Friday, sorry, January the 20<sup>th</sup> on Friday, for the second session. We'll repeat these sessions once a year, once a month, sorry, and we extend it to numbers that we can handle. Keshe Foundation says, they can't help me. Now Keshe Foundation says, you make a facility, you see if you can't help yourself.

Many of you asked us, can you help us with our addiction with drugs and everything else? Monday at 10 o'clock, on the 19<sup>th</sup> of December is your allocation to meet your own Soul. We open room, you are not doing anything else. It's for you to meet your Soul. 11 o'clock we take you to the Moon, the passage is open, or to anywhere in the universe you want to go. And, and, and that day. We are not doing anything else, but opening a transmutation ??.

There is no one on this planet, which creates and delivers transmutation. We have the technology, we do. You have an envelope to post with a love letter in it, post office and DHL. You have their your energy, the fields, the Soul to elevate, (1:10). and help yourself to deliver an envelope to yourself, to change yourself from all pains. Keshe Foundation Spaceship Institute transmutation service, ?? at your service.

Anything has been your dream, join in on the 19<sup>th</sup>. Anything that has been your wish, but tell us. You'll be allocated ?? soon connected to your number. Do not give it to anybody else, because it's not going to call ??. Those who are invited by registration in each section, you will be allowed in. Two reasons, we can't allow everybody in, and secondly we want to keep a tab on what the development has been. How many of you addicts have managed to expand your Soul truly, not just ?? to reach your emotion, that the

alcoholism, sex, drugs and everything else you can be addicted to is not needed to be satisfied. It's the Soul of the Man have found balance in emotion ??.

Man gradually, as I said, we open this step by step to as many people as possible, that the what I call, pharmaceutical of the Soul of the Man takes over pharmaceutical of the physicality of the man. It does not matter if you're Chinese, or living in Tehran, or in the jungles of Amazon, or in the back villages of Africa, or in the White House. (1:12). You all suffer from the diseases and you all have the same problem. Join us to understand, and join us to bring that change.

Then see what do you do to yourselves. There'll be no teas and coffees in these conferences. But plenty, plenty of fields, and Cosmic Rays, and emotion of the man. For years you asked me, why is become, why is that, why is it ?? exclusivity, why cannot be done? Now you've got the answer of the why. The why is you, not us.

We open the hall, you want to come to have a wedding in it, you want to come in and get drunk with the fields of the universe, you come in to use as an operating room to get rid of your cancer. It's all yours, we just provide the four walls and the fields.

They promised the change will come in 2022. The change has come in 2022. You come into the room, go to Vatican and bring the Pope in and say, I have to take you somewhere that you can see how much you lied. You come as Iranians, you don't go through the revolution and the street fights, but you go to the Soul of Ayatollah Khomeini in Iran, and bring him in, and change him.

So simple. (1:14). If you wish, the dimension of acceptance of the wish, it's there to be done. I gave you the biggest gift, now let's see how you use that gift, and how in the coming months we expand it. And gradually, in maybe a year, two years time, these lines are open 24 hours a day for everyone to be, to use. "I'm hungry, can I borrow your mobile phone, mine is broken, that I can feed myself through the Keshe Foundation center." I have a pain in my head, I don't want an aspirin, but can I use your mobile phone to get there, that find out, that what I have caused myself with it?

Now you understand how the change has come. The Spaceship Institute has brought the Universal Spaceship for you to enjoy. We create the ship, and the planet Earth and the citizens are its passengers. Let's play the game and see what you are going to change. You are the pioneers, and this pioneering will bring a new change. Let the game start, and see how we change.

Book yourself into these sessions. Those of you who for a long time saying, (1:16). you need a solution for addicts, and drugs, and alcoholics, book yourself on the Monday the 19<sup>th</sup>. Join us on the 16<sup>th</sup>, to develop, to understand the limitation of our systems, how much more we can add to increase the ?? part. And how many of you will end up in the places you don't want to be by mistake, because you have to still to learn your GPS of the Soul, it's not fixed properly, end up in Zimbabwe instead of in Linz. Go back to New York and we set the GPS of your Soul, your true wish. But in fact, if you are in

Zimbabwe, that's where your Soul really wanted to be. You haven't ended up there by mistake. You have to find out why your physicality ends up there. Maybe it's going home, that's where're your ancestors came from. You always said, I wanted to know where my home is, where I come from.

In next few weeks and months, the process of the change will come in. As our team develop more and more advanced systems, more and more of you will come to enjoy. We are looking in the Keshe Foundation side of the technology development, our doctors for specially in success with autism. Especially with success with those who have a mental condition. Join us to bring that change, but share with us that we know what changes brought in, that we can adjust our systems. (1:18).

You came one by one to teach us how to adjust the flight system. Now on Friday we allow 500 people with all kinds of desires and wishes. And on Monday the 19<sup>th</sup> we'll bring you to the condition step by step, case by case. Because if you're an addict it's a specific position in your Soul and the physicality, which has created that craving. And we set our systems for that. Let's see how we change, how we bring the change, and how the changes will come to be. We go for a break. When we come back. We'll explain more, and we answer your questions. Would you take us to a break and come back? (1:19).

<< **BREAK** >>> 461 KSW December 1, 2022 (1:24).

K- No, there's nothing, unless it comes up and then we discuss.

Q; .. How does it look like for another person when you make a transformation and you arrive next to this person, who doesn't know about the technology .. puff you arrive and stay there, and .. what does it look like for the other person? Is like in Star Trek, you first dissolve point by point and when you arrive point by point? (1:26).

K- It happens in different shape or form. There is a part of new understanding, that you have to understand, I mean, there is no choice, sooner or later it will be understood. It's like, if you remember in nineteen eighties, we had these huge boxes, we call them telephones, and people were carrying a suitcase with the actual handset as phone, the line in their hand. They were telling you, what I call, talking to somebody somewhere else. And you said, "who is this guy talking to himself." Now we carry these little things in our ears, and you walk on the streets, as part of crazy people talking to themselves, but actually when you look at them, they've got a little headphone in their ears, and there's

nothing else. Then you say, "oh, I'm crazy, I didn't understand, they've got the advanced technology in their pocket."

It will be the same. You arrive, first of all, in New York, you have to decide, you call your brother in the mountains of Switzerland, is it sunny? Is it snowing? And you're in the sun in New York and it's snowing on top of the mountain in Switzerland, and you're trying to see him. Would you wear ski jackets, and god knows what, in the heat of New York, waiting for the transmutation? Or you have your brother getting you clothing, ready, waiting for you when you arrive with the snow suit, because you landed with more or less, a bikini from New York? (1:28).

Or do you understand that at the point of arrival, you will arrive in the dimension of the Soul? Would you manifest yourself in the middle of the football pitch with 30,000 people watching, naked? Or would you chose a room where the suitcase you carry, carries the winter clothing for mountains of Switzerland? Would you appear next to, and the way you say, "oh, I just felt I wanted to call you, and say, oh, I just felt I wanted to call you, and you called." You arrive, ?? you called the soul, I am here. Maybe you play a few tricks, as we get used to it. "oh, you arrived." So, what do we do? Should I go by bikini, or should I go and change?

These are the things man has to learn. And that limitation of clothing belongs to Earth. On Mars, and on the Moon, and in other positions of universe you arrive the way your body feels protected. In a way, as I said to a child of mine, you arrive with the leaves, on your front and your back. The Soul of the Man (STM) will create that condition of, what I call, protection and man gradually learns. The most important thing is that you make a call to the Soul. You don't manifest the physicality in that way, if you want. (1:30).

I had Mario telling me, asking me, one of the Knowledge Seekers asked a question, can two lesbian couple both get pregnant in the system? Yes, why not? Come on board, we try. Would the children be yours? Of course. You each implant the Soul within the womb of the physicality of the mother. Souls don't have X chromosomes and Y chromosomes. It's the child who decides. Maybe to one mother will be a boy, and to the other one, girl, I will be a girl. There is a lot of games still to be unraveled in this knowledge, and this possibilities, and education. We are not creating a bunch of "he-she's, and "she-he's). But it's the possibilities of elevation on ?? salvation, that both parents will go ?? there. And if the society accepts.

You don't appear, as you said, "beam me up Scotty" in shining bits, you appear in your Soul. That's how you travel. Then you decide, and the manifestation is instantaneous. (1:32). The reason they used this in those movies, was because the scientists who made them, ?? they moved every single cell of the body of the man one by one. In the knowledge of understanding the world of Creation, you travel with the fields of the energy.

Any other question?

Q: .. In the last KSW, you explained about the creation of emotions, but this is not yet clear. From what I understood, the creation of an emotion happens when the blood, or the Soul of Physicality carries its fields to the Soul of Man, and the Soul feels it, and then the 2 interact and create a kind of plasma in the brain tissue, and this area becomes an emotion. You asked us to try and create that field strength with the Soul, and then feel the emotion. How can we do that? Is that what really good actors do, is create an emotion through the Soul? Please help us understand more.

K- The creation of emotion does not come necessarily by the blood, which reaches the skull. The creation of emotion comes by the dimension of the energy motion of that point and position. We carry maybe 5 to 10% of our feeling through our neural system, 90% plus of our emotion is carried through the fields of ourselves. (1:34). That 5 - 10% which carry physical, is because of the creation of the cell by the movement of the blood, and current (?? electrical) position through the neural system, that dictates that cell to be created, and then it connects it physically, or to the body, or what we call it, through blood, to ?? its emotion. 90% of our emotion are instantaneous.

If you look at it, if you understand it physically. When your lover touches you and you feel the touch, the emotion, the softness, the, what I call, intriguing complex information, it's instantaneous. Your body doesn't wait for the blood from the arm to go to the heart, to go to the, what you call it, the process of four chambers, and then go to your brain, and then say, voilà! Thirty second later, or a minute later, "oh, the blood arrived, now it interacts with my Soul, and then I feel the emotion.

First of all, you have to understand this. The same as what we said, 80% of the energy comes from outside, we eat 20% of it. Now, man has to understand that 90 - 95% of our emotion created, is instantaneous. This is what we call, as part of the spirit, that the man has no awareness of, it's never considered.

That physical touch that you feel goes through the neural system, few seconds, few milliseconds, it's a physical touch, in the dimension of magnetic fields. (1:36). But that instantaneous emotion of love, the touch, that goes through, what we call, the true STM, in the dimension (D) of the fields. It's instantaneously carried.

The only thing that we can instantaneously carry in a, what we call, life time, is fields. The way you touch and (it) gives you the feeling of the love when the mother touches you. That fast, that instant, it's the same way as you can travel, same as you can transmute, instantaneously.

That's why when you came to the machine we tell you, you don't travel, can you go somewhere. We don't tell you to fly somewhere. Do you want to fly to the Moon? No, go to the Moon. Because the decision is instantaneous. Now you have to learn, the way you used to get your arms, and legs, to move my leg up, to kick a ball. Now you have to learn, how I can extend my Soul.

What about, when your lover touches you, and you get that feeling, it's instantaneous, touches your Soul. The Soul sends the message and goes back to the same channel, the same touch, to the Soul of the lover. I love you too. It's not one way. Try it. This is what I said, that the people who come to the system, "oh, nothing happened, I came here, nothing happened, nothing goes on, the system doesn't work." Sir, you're so wrong. (1:38). You don't even know what your Soul is, then let alone trying to ?? envelope it. You have been so much misplaced by emotion of your own existence, that you don't even know you have a Soul. Then let alone you want to control, and expand it.

In the future we can't put a system in every household, every supermarket, and every mountain, and hill, and by the every lion you want to see. It's you who has to learn how to create that envelope, what the limitations of it are, what you have to connect with it. This is like the education when went to school. At a young age you had no knowledge. You learn the alphabet, then you learned the sentences, then became doctors and professors. But this time instead of 20 - 30 years to become a professor, we have a few, very short time to become a ?? professor of the emotion of your own Soul.

Then you don't need our system, our systems are there in a way like driving ?? school, to show you what a car is, and then you can drive a car. It's you who has to provide the car, in the future, once the teaching is finished, to test drive and then go from A to B with your own car. Now your car, is your Soul.

How can you in the future extend and expand your Soul with all your children in it, "boys we're going to the sea, come with me." Then you come to a point to trust, the children trust, you take them to the sea and not to the zoo, because last time you said, we're going to the sea and we ended up in the zoo. (1:40). Then it comes, do I trust my Soul ?? to go to the sea. These are the ?? process of the Creation, this is what now we have to learn, the alphabet of the Soul, the work of the Soul.

We don't know when we are born, if you're left handed or right handed, they teach us how to put a pen in your hand. They teach us how to hold a spoon, they teach us how to paint, with just everything in our body, our hand learns. The art of living. Now man has to learn the art of plasma living, the Soul. And it's easy, "ops, I want to feel warm water up to my hip, I want to feel the sunshine on my body, and I want no sun turn on my face, because in Korea, the face has to be, the skin has to be white, otherwise it has no value for them. Can I feel warm on the skin as I've been, god knows, on the sea side, but nothing on the skin, that my skin stays white ?? as they ?? in Korea.

Now the man has that ?? opportunity, he decides the size of the boundary of the Soul. What the boundary it. Now you've got to learn the ABC, that's why we said, ??, understand it. Then when you go home, tonight I want to dream about my dad, I want to go and see my dad. Now ?? you don't have to dream, now you have learned how to open a passage that, at the strength of the father. He might not be home, but if he is home he'll be ?? . (1:42). One of the Universal Council members started it, but she got lost in it. You can decide ??, you can decide, I want to see this tonight, ?? and you're Soul will find a solution by morning, when I'm physically up.

You have to teach yourself, and then you decide how to manifest, and how to be, and where to be. How to control where ?? the man is. You don't suddenly extend the Soul 100 meter away from your physicality. You just stay few centimeters away from it, that it keeps the aura of physicality and the Soul together.

One of the things which many of you will learn very quickly, what we call, the Soul of the Physicality (STP), the spirit, and what you call, in dimension, interaction, partially is the aura of the body of the man. You will very soon learn in which level of it, you want to protect yourself, and extend the envelope. You will use the STP in interaction with the environment, as the restriction, or the boundary of your expansion of your Soul.

Then you switch, when your Soul will bring you the aura, what we call, the spirit inside, and now it takes control, and then we trust in the ?? . It's the same "sheep skin," you want to be inside or outside, it's just reverse. (1:44). As I always said, as an understanding of, when you wear a sheep skin, the sheep was wearing it the other way. It's opposite, inside out, or outside in. But in fact it's the same skin, it's the same ?? work ?? . It's just needs learning, and these systems are developed especially for that process.

These sessions of what we'll start, is part of this process, for you to learn the extent and how you can play with your Soul. In a way we let you free in the kindergarten, garden to play with the toys, and find out you ?? don't need ?? a ?? ship.

Any other question?

Q: .. A couple of questions about the fees on the on this new flight plan. Doug is asking, is the fee only per person or can life partner be included in the fee?

K- Per person, it's per person. We control it. Please do not share your system, and don't come back to us and try to tell us something happened. Each person. You've got to. Put it this way, you will run into position of the schizophrenic, if I call, the beautiful people, then you have to sort it. This is very. (1:46). You have to teach your Soul to work on its own independently.

It is not that I'll put a speaker and everybody sits in it. You'll find out you made a huge, huge, huge mistake. Our systems are not geared up for that kind of operation at the moment. To do that we need to, in the next generation which they call it, a cosmic Rays gives us that kind of facilities. Stay with it, and you ?? need to teach your Soul, and then as we go further we teach more, then we'll see what's next.

R: Okay, Doug have made a comment before you started talking about his question. He made a further comment, this question must come from the Scottish part of me.

K- Scottish, yeah it's get a bottle we all share, in a way.

Q: .. Mr. Keshe, I am sure that all the Knowledge Seekers are very happy and thrilled with the news you brought us today. About the December 16th event, I would like to

know if for Brazilians there will be the possibility to make the payment directly to the Company here in Brazil. This would make it easier for many Knowledge Seekers.

K- Yes. In Iran, you make the payment to the Iranian office. In Brazil, you make the payment to the Brazil office. But we have to allow it, if you pay, we have to know. (1:48). In China you make payment to the Chinese office. This is the beauty of flexibility we have created across the Keshe Foundation. But at the end all have to end up within the structure of the Keshe Foundation International. What we see, we see what we can do. Everything else has to come to the Keshe Foundation head office in, what you call it, in Holland.

But we have to agree how many people we put in China, we have 500 places available for that day. All the emails have to link with the, what you call it, with the information you receive. You have to log into the Zoom to join us. We will change this very soon to Telegram. We'll go into operation, because it gives us more facilities. A lot of the work of Keshe Foundation we'll move from Zoom to Telegram, because Telegram offers a much more flexible condition.

We just can't pay 100 people into Brazil account and block a fifth 50 of what we have around the world. So it has to be agreed. Or we allow a second session to be added to it in the following day, or in the following week.

But come in with all your wishes, and come in with a selection of wishes, not just one. Come in to get rid of, to understand, that you can help with your addiction. Come in to go to see your uncle in New York. (1:50). Come in to see if you feel hungry, and you can feed yourself with a banana, and come in to see how the condition is on the Moon.

Don't stay more than one hour, move out. Don't try it, because I want to be there four hours. Because this allows others to log in from different parts of the world, and allows us to control a lot of things inside, which I like to see what things happen, what pressure it puts on our system. Would we see many of you in a soul, in a light in Linz? Because you have to travel through us. It doesn't matter wherever you do, whatever you do, your link of connection is through Linz.

So, we should see a structure within our system, of how you lot are interacting. Make an arrangement with another Knowledge Seeker that, I come to you. You're in Brazil, he is in Linz, whatever, he's in London, you still come through the central position in Linz, and see if it happens, how does it feel? Do you feel each other? This is a test for, instead of doing what we're doing, step by step. It's a test for everything. If you saw your improvement in your Alzheimer's or in your, whatever, Parkinson, walk a little bit better, or something happened, you felt warmth, or whatever, then get in touch with Keshe Foundation. We worked on.

Then we can make an arrangement for you to go through the, what you call it, the (full) process with the Foundation. You cannot do it in these sessions. Because everything, the information, the next step changes to the next step. (1:52). When the brain sorts out the

nerve in the finger, now it has to go through the system to sort out the same nerve, and the same connection to the toe.

This (the monthly sessions) is for you to get the taste of what is to come, and what are the capabilities of the new technology. We told you we would bring you the Satellite, we told you we would bring you the Mobile, this is part of that structure to make sure everything is perfect when we do it.

We spoke with the doctors and the teams around the world. Some of the, what you call it, charges which we need to meet, has been changed to a standard around the world that, there is no difference, but everybody can afford it. Or we can bring, what we call, package ?? deal. That can be done.

The reason we do on the 19<sup>th</sup> the test is that, if we, for example, we were talking to a couple of people from a group in Tehran yesterday, in the Persian teaching. That there's about 300 of them Parkinson, in that group. With the tests we've done in the past years, and what we've done with the test yesterday, and last two weeks, and plus all of you coming here. We have offered to take the whole group of 300 Parkinson patients in Iran, as a package. For them to see, to receive everything from Linz, and see the effect on 300 Parkinson people.

If you're a part of the group with Alzheimer's, or whatever. If your group understands the work of the Foundation and can do it, (1:54). we take a package of you, 50 of you. And if the 50 are successful, the rest can join in later on. If you're a drug addicts and you know another 20, 30, 50 drug addicts, come together, there is a group of us. We give you a package, and we monitor that all of you get a change, to understand of the totality.

The technology has advanced that much that we can do it, because we pre-tested this, if you remember, in the 100 children in the orphanage (in Iran). Now it's time to do it. If you are a Parkinson patient, and you know another 20 Parkinson people, come to us, we charge the fields in a direction, and we set out systems, that we get all of you reached at the same time. So in one session we can do 20 Parkinson people, support, than one person. You know many people with Alzheimer, do the same.

The only people we don't touch is, what you call, "beautiful people," schizophrenic, which are totally different thing, you got to do them on their own. They're not sick. Now we have that facility and we can do that. We can put a session for all the Chinese with Parkinson. And you make all the arrangement with the payments with China. (1:56).

In Tehran, if we get some sort of a number of these people in this group, then give us a very good indication. I was talking to doctors, the fees drops quite drastically. More people can afford to be part of it. I told you, the technology is rapidly developing. Hopefully, I was told couple of days ago, the new systems are 80% done, if we get them before Christmas, then that will bring a new ballgame into it, but we have to understand all parameters of it, fix it, all the changes, and then ??.

When you come on the 16<sup>th</sup>, come with a "wish" list, because some of your wishes might not have the strength of the system, or too many people are locked into it. Go to the next one and take your time. I'm an addict, I've done so much damage to my parents, to my family, I want ?? to see the changes, can I reach them to tell that I am sorry, this is not what I wanted to do. Could they feel my emotion, it's ?? towards you. This is a reality that is upon us.

Then we do another session in January or February to complete the systems, then we go for transmutation direct. In a way, if you look at it, (1:58). from the 15<sup>th</sup> we start the "Blueprint of Soul and emotion of it." Then let us how many of your wishes are ticked, and why not ??, and what is the problem, or what is the good things you see, or what changes you've seen, in 3 or 4 weeks, then you can book for January, and February. Or you come in that you want, now you've seen the benefits, instead of waiting four or five years. I want to be part of the Parkinson, to be sorted immediately or whatever. We don't put any restrictions. Come with all the diseases you have, and tell us what happened.

Any other question?

Q: Mr. Keshe, I'm worried about something that I see in the future.

K- What? You are worried?

Q: Something that I see in the future. So this way of understanding, I think that you know what I'm talking about.

K- I don't know what you're talking about. Nope.

Q: Okay. All right. So, (2:00). in the future, there are colonies on Mars that are attacked by the people on Earth, and it's driven by still the ideology of the church. So...

K- That's something new. I didn't know that people on Moon have faith and religion. That's something new. Or are you talking about earthlings who are living on the Moon?

Q: Yeah, it's very difficult to deal with, because I can see...

K- Something which doesn't exist cannot be dealt with. (laughs)

Q: Yeah, right. But okay, I just put the point that there's going to be a problem. What I'm trying to do is to sort out the problem before it happens. So, I have to...

K- You've become a CIA. You create the problem to solve it, and ?? ???. That's why you choose such a funny Prime Ministers, huh.

Q: I know that it sounds preposterous. But really. When you talk about what happens to us, when... I'm not even going to go into it, it's just, it's just too hard. It's, it's, like... (2:02).

K- It depends on the extent of your imagination.

Q: I saw the life of my daughter's ?? child, which is in the womb. I know what she will become. And I know... It's very hard to explain. And you know, that it's hard to explain.

K- Actually, it's so easy, because once you explain it is explained itself, it can't be that hard.

Q: Yeah, well, okay. So, there's going to be people living on Mars that are going to be attacked, and it's going to be because of the church. So, I have...

K- Put it this way, the way we are going there won't be any church, so how could they attack? Look at it logically. Church exist as long as we accept, that they are the guardians of the Soul of the Creator. So, when we know the Creator is within you, why you need the church? Do you understand? It cannot exists.

It's like, they have a rule in Iran, which is actually laughable, it's in the constitution of Islamic Republic of Iran, you do crime against God, and the Mullahs decide who the God is, and it's their, it's them, and they are the guardians of the God, and you can be executed for it. You understand? Now, even God has got a guardian who is the Ayatollah Khomeini of Iran, and he can decide as that representative of God, you've got to be executed.

So, when people become knowledgeable, and they laugh at this ridiculous creation of one man deciding to be, then we find out there is no religion. So how can they attack the Mars? (2:04). You understand. .. We know how to deal with this. We deal with what I call, idiots, that's our problem.

We've got to find a way for man to understand, the only intermediary between him and his Creator is himself. This is why there is always a problem when I say, I'm the Messiah, and they say, oh, ?? he can't be the Messiah, blah, blah. I am the Messiah of my own Soul, my physicality, I'm in charge of it. Now I know what it's got to do. And it's the same, what you call it, with all of us.

When we leave our life in the hands of a bunch of idiots, they do whatever they like with it. When you take control of it, then it takes different shape and pattern. We gradually have to understand, that there is no one above us, which is the Soul of us. There's no king, there is no hierarchy, even the God doesn't come here and says, I'm the God, you have to do what I ?? say. How in the heck do these leaders think they do? How can you do crime against God, and I decide, and I kill you for it, because now I have become God? We allow this abuse, (2:06). because they pushed us to accept the abuse.

Q: It doesn't make sense.

K- Oh, it does make sense, because we allowed them to do it. Yesterday somebody sent me a link, I get a lot of links from, what do you call it, in Egypt. She's a bank of information for all the Knowledge Seekers around the world, she bombards us with

everything, everyday, . . . I call her the CNN of the Keshe Foundation. Sometimes we get things, and just with a blink, you look at it, and then you may read the article with it.

How many priests this week, or last week, convicted of child abuse in the church. Ask yourself one thing, if you're really believing in church, and I ask you one question. Does God rape His own children? Nothing else. Does God, who's the Creator of us, comes and rapes, rapes his own children, this including man and the rest of the citizens of the universe. How these people in the name of God rape children? So, now you can add, there is no, nothing called faith and religion. Unless you want to abuse. Then you make everybody else to believe it's the right thing to do. (2:08). Because it's part of your life. It's part of how you've been brought up, and everybody else gets accused when they stand in front of it. You ?? gang up when you do it.

In God's name, how can you execute someone as a protector of the name of God? And then how can you name of God as a priest, rape children? There is no religion. When it comes, when you look at it, ?? except you come and you ?? argue about it. We built these churches, we built these mosques, we built these, what I call, monsters.

Q: Not me.

K- Your father did. Did he pay a cent in the church? You know what's the strangest thing if you, I've said that many times before. When you live on the coastline of Italy, in the smallest villages, you see two or three churches, in small villages. We lived on the south coast. Every village has one or two churches 2 to 300 people, two churches, three churches. Where the heck for. They fear, they put people into the sea. They are all fishermen. They pay half, a third of their taking when he goes to the church, because the priest said, in the fear of coming alive. While he's away, the wife is playing outside, she paid a third as a penitence to the church, to the priests, most probably priest is one of them. Then the guy comes and pay a third of it, out of his own pocket, to the church. So, he works for one third job, two third church takes, that's why there are so many churches. Our forefathers encouraged out of fear to do this. (2:10).

When a soldier has to rape a girl of 10 - 12 years old before put a bullet in her head, because you cannot execute a virgin, now you can understand, religion don't exist. And this is a rule in Iran today. They get people as demonstrating, they rape them, and then they shoot them, and in whose, in God's name. What made the ?? religion. How many of them has been done by Ayatollahs themselves? Because the girl was too beautiful to miss. So, religion doesn't exist.

Don't ever worry about church attacking the Moon, it does not exist, because there is no one, if anybody that goes to the Moon realizes churches are nothing but jokes, and mosques, and the rest of it. You believe in a prophet, in the message, yes, the rest of it is manmade for abuse of man.

Any other question?

Q: .. You talked about the willingness of the patient, to the person who has addiction or sickness to be cured of his situation. As a psychotherapy practitioner, (2:12). I met people that, they are not aware of their will to hold on to their own disease, because they gain whatever it is, in their own soul structure. They are not aware of their holding to the disease. So, how it can work with the technology that you talk about?

K- You see, you look at it from outside in, we look at it from inside out. The lady we talked about could walk in the first ten minutes, five minutes, more or less, of listening them talking to the doctors. It was obvious the condition was self-inflicted from inside. With a couple of questions asked, it came on the table, why. Then they realize it's self-inflicted. You understand? We have to, I said, as doctors view from outside in, why they behave like this, psychologists, why did they do this? But, if you go inside and see what emotion was created and let the Soul balance that emotion, your patient walks away with no condition.

This is what you don't have. This is what you don't have as a present doctors. If you put the systems we have in your surgeries, as psychologist, you become god, you'll have a queue as worse than the MacDonald's queue in Moscow. (2:14). Thousands of people queuing up to go in. This is the beauty with this technology. Now we allow the process, to understand, to come from inside to outside, and the physicality walks.

There's something I was explaining to one of our doctors yesterday or this week. You are a doctor, you've seen people who are crippled in bed for years. Even if you help them you need to give them physiotherapy for months for their leg, which hasn't move. You know, when you lock it, it cannot move.

But how come people which go through this process walk instantly? Without any physiotherapy? What happens? Yesterday the lady was telling me, it's like I'm walking in the cloud. I don't feel my body. I'm walking and walking, but I feel I have no weight. I said, my darling, you're walking in the envelope of your Soul, that's why you walk, the body is not in a normal condition. These people don't understand this yet. When your Soul expands, and you want to carry on with that, process that you can walk, and then you tell us that your body is so light, it's like that, you know, you're in the space. That answers to us, that there is an interaction of the envelope, the Soul of the person with the Earth. The walking they do, it's like walking on the Moon, you carry one fifth of the weight. You understand? The Soul is doing the job.

When I tell you that the lady walks and she can't stop walking, yes. But we observe the, we've seen it many times. There is a change in the layer of the light where they walk, when they walk like this. (2:16). You see that they're walking within the Soul, within the field. And when this happens, the Soul picks up, the brain picks up the condition, that, that is how it should be, and then they walk easily when the Soul interacts. This is a new tool in the world of science of knowledge, it's amazing.

Many times, people even go into the system, they come out and say, this part of my body up, I feel I'm in a envelope. Yes, because this is the part when there is a dynamic system

of your intestine and everything else. And you don't have that tool. Now the tool is there, you can do. You get one of your patients who you have a problem with in that direction, connect him to us, while you're on the line as a doctor, we go through the process and you'll see how they change.

In the Keshe Foundation, we are not looking for physicians, we are looking for psychologists. If you are good in your job, we can bring all the patients to you and you can monitor, through it, the way we do with the other doctors. You understand? You are given a new tool, you become god, because when somebody comes to you, cannot do something, and then they understand what they've done wrong to themselves by themselves, and they go out with no problem. How many people they'll bring back to you? You understand? It's a different understanding.

Q: Let me see if I if I can understand what you talk about, the process. So, a person comes and he says that he wants to get relieved of his, let's say, addiction. And in a few questions we understand together if this will have his is a real one of his soul? (2:18).

K- It doesn't matter. It's irrelevant. You just say, no problem. Because you see, they have lied to themselves so much, or the condition of emotion has brought so many lies. They don't differ between the lie and the truth in different part of the emotion.

Q: Exactly. That's where I see a gap. They don't understand if what they feel about themselves, it's a truth or a lie.

K- With this system, you don't have that worry, because the Soul goes and balances everything. You understand? So, there is no lying done to the different parts of the emotion to satisfy different part of it. I take drugs because I have pain, and I can't get rid of the pain. I take drugs because my parents hurt me. I can't stand my father this way, so I take. How many excuses we heard people taking drugs? Different drugs.

But with this, there is no excuses, you can't lie to lie behind it, to lie. What happen when the father dies? He used to torture me, now I still have to smoke cocaine. You understand? So, it is from outside, creating the emotion inside. Now with the new technology, we create an emotion, which comes from inside to balance whatever clouds has been in the emotion, and then outside physicality, see no needs for it.

We did this in Belgium, I've said that before, a few years ago. We had a Pakistani guy living somewhere around Birmingham. He had a stroke in the upper spine, just under the main brain, when he was 19, (2:20). and the father suddenly died of an accident. The shock gave him a stroke, and he was paralyzed from neck down. He came to me when he was about 43, I think, he came with a few people. I said, who are these? He said, oh, these are my children, and these are my grandchildren. They came in a minibus from Manchester, or from Birmingham. He was paralyzed. He took weed and cocaine to suppress the pains of physicality he had with it.

I said, with a stroke you had you can't have it. You're taking these to satisfy the emotion of death of the Father, you can't accept. He said, maybe, but I take it because it's too... I

said, let's do something, we gave him a structure the way it is now, but in a different form, and a couple of days, when they went back, when they had a system to use. He said, I can't touch anything. I can't even touch a cigarette, it tastes of manure. I said, because now your Soul has sorted out your problem. Your problem was you couldn't say goodbye to your dad, and you loved him so much. And he said, that's the answer. He walked. He flew in next time through Brussels Airport, to see us with his children. When they brought him the first time with a wheelchair in the back. We have videos of him walking in.

It's what we accept and what we lie to it, because the actual thing, he didn't want to walk, and the stroke, because he could not say goodbye to the dad. Without the father he was nothing at the age of nineteen. When you do the healing from the inside out, nobody can lie to know one. When from outside in, they lie to each other a lot. (2:22).

Join us, if you want to speak to us, and it'd be beautiful to have you on board as a psychologist.

Q: Yeah.

K- Where do you live?

Q: I'm in Israel.

K- Shalom.

Q: Shalom. I'm very new to your Foundation, and your work, and it's really fascinating. So, I'm studying to get to know and see what resonates with me, and how can I be of use to what you do.

K- Go to my private email, I'll speak with you. We are doing a lot of work in Israel. We are doing a lot of work to negotiate between Iran and Israel. And we lost our Universal Council member about two weeks ago in a car accident in Tel Aviv. He was a key person for our work. Rick, can you send her, the lady, privately my private email?

R: She will have to connect with me, or send it to me.

Q: If I send you on the chat?

K- Send it to me directly, you see me on chat.

Okay, can you check your email? I sent you my private email on your chat on this one. (2:24). Just one second. And I'll put you in touch with the other psychologists and doctors who work with us. Can you tell me you got it in the chat on the Zoom in the private? Don't read it, please. Just check it if you can read it.

Q: Yes, I got it.

K- Okay. We can do a lot. I have a lot of cousins and relatives in Israel. So, we can do a lot of things. Thank you very much.

Any other questions?

Q: ... (2:26). .. He says, dear Mr. Keshe, earlier you said that sex addiction could not be addressed, because it is connected to survival of the species. What has changed to also balance this condition now?

K- Nothing has changed. We have set our systems and we've tested it. It can be done now with this system. But as I said, we fiddle with our things in the system. This is a

psychosomatic addiction, and now the process is there. It can be done. Our technicians have made a beautiful switch in this new system.

Any other question?

Q: .. What about gambling, it's one of the worst and most devastating addictions? Thank you, Mr. Keshe, for shedding light on this.

K- It's one of the easiest addictions to overcome. It's one of the easiest addictions. If you're a gambler, come in on the 15<sup>th</sup>, see if it brings a small change, then get in touch with, what I call it, the [health@spaceshipinstitute.org](mailto:health@spaceshipinstitute.org), (2:28) with a few sessions you can walk away from it. Our doctors have all the knowledge to do it.

R: That will be on the 19<sup>th</sup>, correct?

K- It will be on the 19<sup>th</sup>, yeah.

R: Is there a link for that?

K- The 19<sup>th</sup> session is not put up, we'll put up in next couple of days. But the one for the 16<sup>th</sup> is put up. Whenever you came for whatever you wish, can you do this, ?? can come in and see if you can do it for yourself.

Any other questions?

Q: .. I heard about Mr. Keshe's magnets for wood and plastic, and she wants more information about that. And she has apparently created her own energy device and has observed electromagnetic fields on the wooden table, on which the device is placed. She says, using an electricians stylists, I'm assuming a meter, and has a few questions.

K- We have to see the system. We've got to see it, we've got to have the picture of the system. What is that system, then we talk about the table. Table on its own gathers energy, but how do you drain it? But we've got to see the system. (2:30).

R: I've seen that around the Gans box, just a simple Gans reactor. The table itself will give off fields, so that it's measurable by a meter. I don't normally think of a table as having a charge necessarily, but...

K- You see. There is a difference if you get a voltage, and there is a difference if you get a current, that is a power system. Then if you can make it usable in any shape or form. A lot of people see voltages, but when you ask them to measure the current, there is no current. It means you have the difference of the height, you've got a waterfall, you have a waterfall, big height, used to be, now it's dried up, there is no water dropping. You understand? You have to have a waterfall, and you have to have a water running that you create, that waterfall is the current, and the water dropping off is the current, and the waterfall is the voltage. The height from this space to that is there. If you don't have no water, it's no use to have a fall.

R: Yeah, great potential, so to speak, but not actualized. No water.

K- In the world of plasma technology there's a technique, that I'm trying hard to teach our team here in Linz, that you can change the height, the potential difference, to a current. (2:32). There is a way. You can't do it in the matter state, in matter state it's impossibility.

But in matter state we see it, but we don't understand it. You call it alkaline and acidity. If you go to the extreme point of acidity you become alkaline. In the world of plasma if you go to a point of extreme, the voltage becomes current. You produce current out of voltage, but you have to understand the knowledge.

In a way you will close the loop, that there is no height, and whatever is there, it becomes moving, which is the field. This is something, I see a lot of Knowledge Seekers do this, "oh, I have 20 volts, I get 15 volts. What was the current in that? You have a beautiful waterfall. but nothing falling of it. Only when the waterfalls you can put a generator at the button to create energy and electricity, otherwise your dam is dry.

R: We get that with so called static electricity in a way. The potential is there and it doesn't really do anything unless there's a sudden spark, that occurs which might...

K- It's the energy of the environment. It takes the energy. That spark actually comes from the energy around the environment trying to get in, but there is no energy. That's how you get that spark. It's like blowing a balloon, if you look at it. (2:34). You know you get that spark, static energy is created. You created a vacuum inside and when you're trying to get the energy outside holding the vacuum, you get that spark, it's like a balloon blowing (popping).

R: Anything special about the wooden and plastic magnets, which you've shown before actually, I think it was in the Kids Knowledge Seekers Workshop.

K- I did that 15 years ago. I wanted to show that they can convert energy. That you can move plastic, or you can use plastic to move metals. Yeah. It comes from understanding more or less, of maybe in a simple way, of making a stainless steel. When you confuse the atoms, you dictate it. It's just like, you know, when you put a head of sheep's down the line and confuse them, you can get them to where you want. If you leave them, they're on everywhere. This is how stainless steel is made. Stainless steel is the same iron. The way they extrude it and they fold it, they confuse the atoms and so they are not metal anymore, but they are metal. In a way, they are not magnetic anymore. It's the same way.

If you look at it, I use magnets in a very specific way, they're extremely strong magnets, what I use, and there is a motion to it, that it makes the plastic move. (2:36). You've got to look at the plastic construction, has... and you cannot move all the plastics like this. You use plastics which have the nearest chemical combination to iron, collectively. If you look at like COHN, you have a Carbon of 12, a Hydrogen of 1, the other one 13, and then you have a 16, 12 and 16, Oxygen 16, and 12 is 28 - 29. Then you have the, what

you call it, the Carbon near about 42 – 43, roughly isotope wise. So, from 42, round to get to 58 or 56, you only need an additional Carbon Oxygenated and the other one.

This is how magnetic field is created in our body. You have the amino acid, and then you have that element of Oxygen, which is about 40 - 41, depending on isotopes, with the Oxygen from the air becomes near to about 56, interacts with the magnetic field of the Earth and creates that plasma condition for holding in the Soul.

The dynamic, that Oxygen we take in, it's not just... that Oxygen dictates what strength iron level we create in our body, (2:38). near to 56, that it can, can interact with the, what I call, magnetic field of the Earth, and becomes a generator of energy. That's how we create most of our energy. The flow of our blood. That's why when we get older the blood flow Oxygen intake changes, it changes our physical characteristics.

The Oxygen is needed in interaction with the amino acid (AA) to create near enough to iron, that in the angle of motion with the iron, which is again attached to hemoglobin, creates the dynamism to create energy, and field and motion in the blood. That in turn, has the strength to interact with the Soul, that the blood outside and the Soul inside, dictates what we call, the Tokamak system, to contain the Soul with the blood flow in the skull. But we hold the Soul attached to the body, because most of the magnetic field created by the blood is underneath it, in our organs, in our heart.

And as we get older, this gap between the Soul and the heart, we bends forward, we tend to bend, and that changes, that gives more energy to the Soul, it becomes the point of death. If you can keep upright, and keep the distance, and take enough oxygen, that's why I say, when you do a sports, you need to do a sport, it's to keep that oxygen, that conversion, creation with amino acid, creates that iron level, that in interaction with the circulation and the Earth's magnetic fields dictates the, what we call, energy, that we call it, emotion and everything else which comes with the ?? blood of man. (2:40).

Then body uses that energy again in the brain, to create the current in the neural system. In a way, our body, the field flow in the blood by the oxygen, in interaction with itself and the specific condition of the cells of the brain creates, generates the electricity, which we call, to go to our arms and our neural system ?? works. It's a one self system, what do you call, technology. And it's all because of that oxygenation of the air we take in, as an energy plasma, which interacts with the Gans plasma of the amino acid, which is part of ourselves. Then it leads to, what do you call, creation of the current, which our neural system uses. And then our neural system with the interaction field flow of the blood again, leads to the creation of the Calcium, which is needed for every cell to work on.

Because Calcium again has that factor of, if you look at the Calcium in the, what you call it, the Periodic Table, the Potassium, Calcium and the Sodium in that bracket, allows you to create that 56 inner connection, which allows the solidification, that's why our bones are solid. It's a well set up system.

Oxygen, which we breath, dictates the generation of the magnetic field with the, what you call it, with the iron and with the amino acid, which the difference between the two create the circulation, the motion of the blood, and not the heart, (2:42). the heart is collector of the energies, and when it releases it, we see it, but in fact, the whole motion comes from interaction of the hemoglobin, and what you call it, the amino acid, with oxygen and iron content of the blood, it's a repetitive condition. Iron becomes like when you get a water in the body, in the generator, and the hemoglobin or, what we call, the amino acid and the oxygen become that magnetic fields with the iron as a plasma. Then this creates energy which crosses the brain and crosses the, what you call it, neural system from the energy of the neural system. Then the two interact lead the creation of the cells according to the position, and strength, and the dimension of the blood vessels on neural system.

That's why we see bigger arteries in the main body trunk, because they create a huge magnetic field, they can create stronger fields like organs, and then when they diminish, we see the fingers, the blood vessels in the fingers, and the neural system is of the same structure. One leads to creation and life of the other, and then the interaction between the two of them leads to creation of cells of according to the salinity and what, how much Calcium is allowed to be in each cell. The world of creation on this planet is amazing, if you understand the process of it.

Any other question?

Q: .. We know that the energy of the Soul is huge. (2:44). Can a man sacrifice his Soul and spirit, and never exist in any dimension, and give that energy to all Earth people to elevate the Soul and spirit of humanity, like a star explosion?

K- Presumably you can. But you've got to understand, is the strength of the Soul you trying to donate or sacrifice, matches to the rest of the humanity's Souls in the strength? This is one of the biggest problem. I always say, you go into the stadium, you don't see no .. you see 100,000 people, you have no emotion. You walk outside, you see out of the same stadium, you're walking on streets and you fall in love. Because the field strength you've created in your heart matches his. That's, the 2 match. That's how you fall in love. And after a few years, we eat different foods, the fields strength changes, and you fall out of love. Simple as that.

So, you have to find if your Soul matches with the rest of the energy, even though it's a plasma, and it's a collective of all fields. We say, you can take a horse to the water, but you cannot make it drink. You can give everything to it, but if there's no receiver, sorry, your Soul, the fields of your Soul will travel to another dimension, another position, till it matches somebody, it could be in another galaxy. You had a good wish, but it was not consumed on this planet.

Any other question?

Q: ... John Wells from Argentina. (2:46). And he's wondering if they can arrange the payments through Brazil, as they are having many problems with the transfer of money?

K- Yes, yes, yes, yes. We have said that. This has already been structured by Rafael from the office in Sao Paulo.

Very soon, in the next, most probably few months, Keshe Foundation will have a headquarters in Uruguay, in conjunction with another organization. A lot of Argentines go to Uruguay, one of the centers will move to Uruguay. We're told it's a very beautiful group there. Then, what you call it, you can have a possibility to work with Uruguay or Brazil, either way. If you are in Mexico, you cannot go to the Mexico office in Tijuana. Mexico operation of the Keshe Foundation is under the Markray, which is part of the American Stock Exchange. But you can go to Brazil if you want to make anything in Southern hemisphere of the United States, what you call it, US continent, the American continent down there, you can work at the moment with Brazil, then very soon Uruguay.

Any other question?

Q: .. How do you define human thoughts?

K- It's all interaction of fields. To me everything is, (2:48). very much, understanding of how things interact with each other. That's all.

Any other question?

Q: .. So, when the soul elevates and the cells open up, does the physical body start to become transparent in that process? And is it the same when you wake up in your sleep, wide awake, flying in a beautiful light, still aware you are physically asleep on your bed? Does it create the condensation you said, because the friction fields of the Soul and spirit similar to the Sun and Earth?

K- Yes, we always have it. If you, if you do, what they call, the aura of the head, it's very different than the aura of the body. Usually if you can detect it, if you can observe it, if you can set it out, you can clearly explain the psychological pattern of the person.

Russians have done a lot of work like this. Russian scientists have done a lot of work on this. When you read some of the papers, but they got lost, they got, what you call it, detracted, or sidetracked, instead of going directly into it. (2:50). In the West we did not do that much research. In the communist time of the USSR they did a lot of research on these kinds of things, trying to control the man through psychology. Whoever they couldn't control they put them in psychiatric hospitals, it doesn't matter if you are a professor, or a general, or whatever. You didn't fit, you became psychotic.

Any other question?

Q: .. The Nano plates (means Nano coated mirrors) from the KF store are unbelievable. They're so powerful. I normally feel no energy flow. But with these plates my whole hand is crible, crabble. Wow, wonderful!

K- We will use this for the people who bought it, what you call it, in the very near future. As the lady told me yesterday, I got your cheap plates. I said, what? I was just joking, she said. Yeah, at a 1,000 Euro a pair, they are very expensive and hard to make. Everything was sold in the first few days. I don't know if they're taking orders on it. But when it comes to transmutation these become very, very handy.

Any other question?

Q: Is there a relation between the Bahai faith and the teachings of the Unicose and plasma fields? (2:52).

K- Not really. The Bahai faith is very, what I call, has lost its track, the present way they are going. They became more materialistic, faster than the Christians, and the Jews, and ?? faith. The hypocrisy of taking their own dimension, and the real teaching of Bahá'u'lláh, bless his name, it's not there, it doesn't come. They tried to understand it, but they never understood it.

Q: .. There was a gentleman named Marco Roden, who has put out the knowledge of vortex based mathematics and he uses very similar methods of relating to the Creator, he use utilizes specific ratios of mathematics like 3, 6 and 9 to achieve huge amounts of usable energy through copper coils shaped like Toroid. Though this is still matters state the fields that are produced when running a load through these toroidal shaped coils put out a huge field, when hertz frequencies or pulse through it. Are these fields that can be utilized for healing and energy use, similar to plasma fields, even though he is utilizing no Nano coating in his processes?

K- I don't know what you're talking about. I have no knowledge, so I cannot make a comment.

R: Okay. Yeah, that was popular a few years ago, (2:54). Marco Roden, and he had these special coils, that he creates and so on. He is also into the Bahai, that was part of the whole thing that he was putting forward about this technology, but we hadn't heard too much about it in the last few years.

Q: What happens if I fall asleep during the booked session on December 16<sup>th</sup>?

K- Have a good nap. You physically fall asleep, but the Soul is active. Many, many people in the Flight system fall asleep, but they tell you, I fall asleep, but if you dig into it, they've been somewhere, they've done something. The sleep is the job of physicality, Soul doesn't sleep. If the Soul sleeps, you are dead. Put it this way, the engine doesn't work, you don't expect the car to run, do you?

Any other question?

Q: .. Today is a national day of Romania. So we celebrate my villages in the first December, I mean my locality. I am living in the heart and in the soul of Romania, (2:56). and today my question to you is related to the soul of plants, and if our technology could help a vertical farming.

K- What?

Q: Vertical farming.

K- Yeah.

Q: Making farming on the vertical, not on the horizontal. Create the seeds, maybe growing seeds, utilizing this when the weather is not so friendly.

K- I don't understand what you're asking.

Q: Yeah, if we can utilize plasma for vertical farming, I mean.

K- It's been done by many, many people.

Q: I don't know, that's why I am asking you.

K- The Italians brought the system out years ago when we went to South of Italy, seven, eight years ago. It doesn't make any difference how you do it. Yes, it's been done and a lot of people use it.

Q: Last time you said that utilizing the plasma we can reverse the weed, and create the original non modified...

K- There is a special way to do it, it is a process, you have to understand the process.

Q: Would you teach us?

K- No.

Q: No... Because I'm buying this, and I'd like to do it myself...

K- Why do you want the wheat grass, now you don't want the wheat anymore? No.

Q: No, I don't eat meat, I am vegetarian and... (2:58).

R: He said wheat, not meat.

Q: Because it's a complete, I want to make a juice, green juice from this plant. And usually I don't eat bread, but I eat seeds of the wheat, when they start to germinate. When I was student I was very poor, I use to eat only this and with honey. I give also to many friends, because I use these grains and I put to germinate in water, and just eat it with honey, and I never was sick, never.

K- Thank you very much. ....

Q: .. How do you connect with the Universal Community? Do you use a technology

K- For me, don't. (3:00). I know how to do. For you, I don't know how you do it. It's one of the simplest things to do. You have to be aware of time and space. But you've got to understand, there is no time and there is no the space, then you dictate.

A river doesn't exist till the drops of water collected make that river, and then that river has energy, and it's got a time, and a place, and a space. It's that, how you bring the drops together to create that time and space, and that's the Ethos of life in the Universe.

A star doesn't exist, till they bring enough elements of the fields and energy, that the interaction leads to creation of a star, and then the life exists. It's the same with the life in the womb of the mother. You've got to learn how to bring the fields together in a given configuration, and then at that moment you create a space and time for it. As I said, that time, there is zero time and zero space. Then you can be anywhere in the universe.

This is part of what we do in the Enhancement Units which are set for the space travel. Then that's why we always use two units, not one. (3:02). When you have two units in transition between the one to the other, you create the space, and in that time and point you create the time, and then you can position one of these to be on the Moon, and that's where you literally divert, in transition from one system to another. You're diverted to the third position. That's how you're brought back.

But that the third position is connected to you, dimension of your Soul, and your wishes, and the understanding of the Soul of the Moon. It's a very, very simple thing, but then you create that Moon, you create that energy.

Some of you who went into the system and you explained you could touch, we had the guy who was touching the sand, picking up the stones on the Moon. In fact, it was the Soul, but trying to create the dimension of physicality. In that ?? dimension, we gave him even the thing to put it in, I told him to put on the side of the system.

If you create the soul of the Moon in our system, you will get the stones. You need to create two things, one is the Inertia, which is what we call, the spirit, and then you need the gravity, which is interaction of the fields, or what is ?? actually the Soul of a planet.

We understand this knowledge fully, that's why we manipulate it. If on, like on the Thursday teaching, I block part of the system, none of you can imagine physical, you'll all be dangling in the emotional feeling. (3:04).

Any other question?

R: I think you've pretty much covered it here, actually, Mr. Keshe.

K- Thank you very much.

Please, join us in the, what you call, the 16<sup>th</sup>. If you are other condition, you want to join on the 19<sup>th</sup>, and we have made accommodation for a lot of things. We extend it, if it needs be.

But this is what you have asked us to do, this is what, what you call it, in a way, technologically we are responding to what is now possible to do. As I said, come with a wish list, and see how fast you can cover it, if you can't do it, don't go too fast, do it the next time. Once you get the taste of it, if you see it can be done, if you see you're there, then come back to us. In a way, we are simply putting a taster out for you, for you to be able to complete the other part of it, and if you need our help we complete it ourselves. (3:06). You still can get in touch with [health@spaceshipinstitute.org](mailto:health@spaceshipinstitute.org), for large number of

questions, or requests you send us for our doctors, for the, what you call it, the processing, and they will respond to you.  
Thank you very much, and see you next week.
