

462nd Knowledge Seekers Workshop; December 8, 2022

(Transcription, Proofing done)

(Auto transcription by Elias)

1 CR create totality of creation; Don't need egg & sperm - life from fields; STM from lower and higher order - connected to all dimensions; our Unicoise inside larger Unicoise - our Creator created from love of 2 Souls; "Comprehensive Universal Plasma Coverage" meets all man's needs - start governing; 2 teachings on sex and love - God addicted man to sex to create more for Him and U; Planet has special fields of love - now home of Creator & Mitra; STM to spread love throughout U; Prepare of 16th test;

ENGLISH TRANSCRIPTION

(:16).

K- Yes, good morning, good day to you, as usual, wherever, whenever you listen to this series of the Keshe Foundation Spaceship Institute. As we always say, to share knowledge and learn from each other. We welcome you back to another session of knowledge sharing and understanding the Totality, in one way or the other. As it comes that we mature to receive the knowledge as a fields of the universe (U).

We used to claim, that somebody was special and could understand different dimensions of it. As I remember a talk from the United Nation offices in Brussels some years ago, when we met them, to explain to them, that they'd be responsible for management of the Keshe Foundation on my passing. The head of United Nation gave us access in the afternoon, because they had to get instructions from New York. (:18). He said, Mr. Keshe there are every few 100 years, a scientist who can understand many dimensions (D), and the last one was DaVinci.

And in a way, the way we have taught you, you all have become DaVinci's. You all now understand from the agriculture to the health, from the how the organs of the body really works, that you didn't have to steal dead bodies from god knows where to do examination. Now you do it yourself with openness of mind, and understanding of the energy transfer of transmutation. You understand the work of the Universe, you understand a lot, how to go from one place to another. And so we have made DaVinci's out of the Souls of Physicality (STP) of the man of to today. It's you who has to decide which way this knowledge. You have to decide in how we understand this knowledge, and how we apply it, and how it suits us. And how we create that accommodation for the future.

In today's teaching, we try to split the teaching in 2 or 3 parts, maybe more, but all depends how we take it and we go forward. Yesterday, we had the pleasure of having two or three members of the Universal Council in Linz with us. And it was a pleasure to see the humbleness and the servitudes in all of them. It is a pleasure to see how they are

connecting, how they understand each other, how in simple words, (:20). you see, you tick another box - yes, they have achieved that level. When you see when you see them, when you talk to them, they don't go to ask for wealth. They don't ask for anything else, but all of them ask for elevation of the man, elevation of the Soul of the Man (STM). And Universal Council members are reaching that point. They don't ask in the systems, when they are in Linz or outside, anything, that I become wealthy, or this, or that.

They are there, they connect to each other to bring that elevation of the STM. And that elevation has arrived. Mankind gradually will come to that point to understand more. Mankind gradually understands more and more in how things are done. One of the cornerstones of the knowledge to be understood, for man to become passengers of the universe. And what I call, good citizens of this planet, or any position in the universe, is to know that everything he needs is free, Cosmic Rays (CR) will supply.

In some cases, we have to set up the structure for it to become a habit. And then the structure we set up, becomes obsolete. In due course, as more and more people learn how to use it. But we have to set up these structures, we have to bring these structures that in doing so, you become part of. You become Totality of. You become in a way, members of the Universal Community (UC), without the Universal Community.

What will be interesting is to see how the man moves from this position. Man has been subordinates to governors, rulers, and everything else, except himself. Even the richest man is subject to another president. (:22). And the richest president, the most powerful president is a slave to another group who puts him there. Man has, should be free of these things. And to that effect, to teach mankind to move on, we have brought in the new conditions. Understanding a work of the Cosmic Rays sits within the structure of the understanding of the work of the STM.

Once mankind understands how cosmic rays are produced, how they're controlled, in which level, and how they are manipulated to create a condition of what is needed, mankind will find out, will tap into the Universal Community and universal energy in a direct way. But it takes time, because he ignored it. He in a way over time and never understood what was part of him. To this effect, is the job of creating One Nation, and in that nation, no rulers, no one to be the head of, but all to be in position, and the condition to achieve. These things takes time, step by step, for mankind to develop to understand.

Our scientists, the people who work around the Keshe Foundation are getting enlightened, they can see. Slowly and gradually, they understand what it means, is the cosmic rays, which facilitates what we brought you for three years, with the Soul of the Man. Without the cosmic rays without in a way, when we say cosmic rays, is "Creator rays," the emission, the enlightenment of the knowledge, through the knowledge, and the fields of the Creator. That's what to us is a cosmic ray, not what you see a new consider in the present world of physics.

Once you understand, we have the control. (:24). Once we understand the process of the release of different fields in the cosmic rays. Even the matter estate is part of that cosmic

rays, then we become independent. Then we learn how to tap into it, then we become the creatures of the universe.

In a way, we taught you about the Nano coating, Gans's, and the Soul, but the creator of these are the cosmic rays. It's the amalgamation of those who create the matter states. It's amalgamation of interaction of those, which creates the Gans's. Is amalgamation of the fields of the Gans's, as a sperm or an egg, or an energy fields of the brain, creates the Soul. Now you understand why we brought you to this point to understand the essence of CR.

In that process, man gradually will be graduated, to understand the Totality. It took us time to teach you in Nano technology, and the Gans technology (T), and Soul of the Man. And now you meet the Creator of all. The fields of the universe, from the Source, from the Creator, from subdivision and interaction of the fields of its own, and none others.

In a way, the cleverness of the creation was very simple, one single ray led to the creation of Totality. Many of you, you should have understood this. In Book 3 I clearly explained this. In Book 3, I brought everything to be understood. But is what it was, (:26). and what was not understood. Which is what I call, the exciting part of the teaching, the understanding of the Totality. We all come from one ray. We all come from the essence of the Creation of the Creator, and nothing else.

In so many ways, we have become wise to understanding of the Totality. Go back to the books. Go back to what ever I have taught over decades. Always comes from one field, the essence of the Creation, the division of the fields of the universe, and understanding of the totality of the interaction. When you look into the Book number one, when you look into the depths of the understanding of the knowledge, and technology, what do you see? All comes from one place. Again ?? from one and ends form one. And how it actually appears to be, is the essence of the Creation, and the totality of the what I call, the work of the Creator.

When you look into the rays of the Sun. When you look into the rays of the STM, when you look in the dimension of understanding of the Totality, it all comes from one ray. But in interacting with itself, in absorbing and releasing from its essence, leads to the creation of the rest. So, in fact, the Creation and the Creator is one. Look at the way I have drawn the shapes of the plasma over decades. It's one line circling around itself. No more. And interaction of circling around itself, (:28). leads to the creation of, interaction of, division of, and creation of. Depends on which level it interacts. Depends on what level it comes to ?? meet its destiny. In a way, understand its Totality.

Mankind needs to understand this, and once he understands, that it all comes from one, mankind it will see the Totality of the knowledge. In a way mankind become wise, to become, to understand his own creation. And then we come to one point. If the Soul of the Man is the creator of the man, so where did the fields of the rays of the Creation came from?

In so many ways, the interaction is at every level. And what bit, different strength, created, that lead in one point or another, to one creation or the other. So the life exists in all dimensions. The life exists out of interaction of every point. So life as an intelligence, as a man of the universe, is in every point of the Creation.

Sometimes in the field of the universe, in traveling the span of the universe, they attract, they extract, and they meet, (:30). and leads to the creation of what we call, a new life, a new understanding. Carrying both of the lower and higher order. And that point becomes a unique creation, that itself by itself, becomes a connection between all dimensions. And, in reality, part of the life of the Man, what we see as a man, sits in this point. We carry both the dimension of the matter state, and the higher order the STM, and that creates a condition of the fields of the universe to work within the physicality (P) of the man, which the man calls, the spirit. Where the essence of. Where the creation of, the center of it, is the STM.

Now, you understand how, and why we have to teach you about cosmic rays. And why the reason for it is, your Soul is connected to it, is created out of it. And it will take you, if you understand it, to every position in the universe, in how you interact, even to the Creator.

Now you understand the essence of the Creation. Many times you asked, how do we? Where is God? How was He created, and what was the essence of His Creation. In fact, you're all connected, all of us, in every shape or form, every creation in the universe, connected under one shoe string of the fields of the Creator, in every essence of Creation. (:32). Now, you understand, as I repeat again, why we taught you about Nano technology, the Gans technology, and 2 or 3 years about the Soul. Where every one condition, leads to the creation of the other, but we made you to understand the creation of your own Soul.

And then it comes to the biggest question for man to understand, do we need a physical body to create that Soul? Do we need the egg and sperm, which man has confined his knowledge to it, for past millions of years. Now, man understands, even the sperm and egg are the source, are the essence of the delivery of that field to create the sparkle. The first what I call, trigger lights, of the creation of the condition for the fields of the universe to come together, to lead to the creation of the Soul. Then do we need a man and a woman to create the condition of the creation, or by the interaction of the fields of the universe, understanding the work of the what we call, cosmic rays, creation of the original fields, we can lead to creation of life at any point, and any situation, and anywhere in the U.

I made man image but Myself, because now man is from Me, that is made of. It's me who decides to what portion I ?? divide. (:34). Then you understand what we said in the past few weeks, last week, or the week before, I mentioned, that we had a request from two ladies, that they would like both to be pregnant in Germany. They love each other, but they still want to be the Creator of. And answer was yes. In a way, we create the

condition of the plasma of the soul within the structure of the physicality of the Man. And then that physicality takes shape in that physical condition, and a dimension of a child.

Up to now men gave life, but not understanding, by putting bits of the plasma of the cosmic rays in the womb of the mother, and you called it, an egg and sperm. Now we understand how to create that cosmic fields. How to trigger that point of creation. Do we need a man and a woman? Do we need the condition of what we call, X chromosome and Y chromosomes. Now you understand why we took to tackle the knowledge with the two brothers, which we brought last week, or two weeks ago. And we had the pleasure to have them with us yesterday, as the process of the change, in the what you call, chromosomes, and we call the line of Creation has begun.

Mankind has reached to the point that there should be no limitation understanding that knowledge of the Creation was here understands the process of creation of cosmic rays. The rays of the Creator. Then you understand, how advanced technology has been gifted to the man. It's not a UFO, it's not the child of the Soul of the Man, (:36) it's how that soul travels on the fields of the universe of the Creator. Now, if you understood, when you come and reach to your dimension of the Soul in Linz, in the machines, then if you understood, you can choose where to go, the depths of the ocean of the universe, or as man does, in the ocean of the mermaids, in the waters and the ocean of the planet Earth.

Now, you understand why, why we have brought this position and condition. Now you understand all this, the teaching and the knowledge had a purpose. And even when you understand this process of the Creation of Cosmic Rays, there is more knowledge to come, and that knowledge comes, that knowledge will reach the man, understanding of the man reaches that point, that how, and the process, that the Soul of the Creator was created. That it's ?? emission lead to the Creation of the universe and Unicose. In a way, you ask, where did God come from? That question comes when you understand the elevation of the STM.

Many times you ask, "who am I, and why I'm here for?" Now you understand you're part of a chain, and that chain, without you, without the ?? emission of the fields of the cosmos from your brain, from your cell, from your Soul, will not, cannot exist. I cannot ?? fall apart. if it is not part of, and it is not created by of, the same fields of the Creator. (:38).

Then it comes that man will respect every creation, as that creation is part of him. The sheep, the lamb, the apple, the what you call, the aliens and the passengers of the universe. Would I like to harm myself, or part of me, which is part of the Creator, or do I elevate like a child of me, for that soul to elevate that is more understanding, possesses more maturity than me to understand the path to the Creator.

That's where the servitude comes. That's what we see within the soul of the Universal Council members. That's what we opened this door, for that understanding. The process of Creation and the control of Cosmic Rays is the key to mankind for understanding the process of, in a very, very distant way, or instantaneous way to understand and reach the

Soul of the Creator, the working of the Soul of the Creator, the working of the what led to the Creation of the Creator, that in such a massive scale its own emission has led to the Creation of His Unicose, not the Totality of the Unicose of the Creation.

Where the Soul of our Creator was created from the interaction of the Cosmic Rays of the love of two, in the condition of understanding one's love for, what we call, existence of itself. What we call, the Creator and Mitra. (:40). Understanding the generosity, I create those who will be as me. But I needed the tools to create that condition of the Creation, and I called it Mitra. That condition, that position, that field strength, that is in interaction with me, creates the children of me.

Do we need the egg and the sperm, now that we have the knowledge? Would we create children so randomly, or would we create one, which we nourish the Soul of the Universe, and not with physicality of the Earth. It will take time for man to understand this, man needs to facilitate, man needs to be taught, man needs to be brought to the condition of it, man needs to feel himself within himself.

How would it feel when you find you got cancer, when you find you have a defect in your body, and you can go like a surgeon within yourself, and feel it, and touch it, my liver is sick, you don't have the right energy, I want to nourish you. Then you become enlightened to the power of the Creation within you. I created you, so, I look after you.

Then it brings you humbleness, that so much knowledge is within me, that I ignored about my own creation. Mankind has to evolve to this knowledge very rapidly, (:42). maybe in 10 years of the man's life, maybe in 20 years. But we have to make the facilities for it to become that you learn yourself, and then the facilities we've made become obsolete, because the man will not need us to create that condition of understanding, as he has understood himself.

But that brings us to the position and the process that the man will teach the same to every creature on this planet. That then man will live, there will be no limitation, then will not be enough Soul of the Man on this planet to keep going in a physical dimension, as the beautiful Soul of the Man will become passenger of the universe, to teach the knowledge to the other citizens of the Unicose.

We just don't teach man, for man to have a better time, don't eat, and don't cook, and don't do this. We teach you to elevate to become the messengers of the Creator, as the man has been gifted with that pleasure and understanding. Your job just begins, but in the dimension of the Soul, and not in the pleasure of physicality.

Now you understand more and more, why, as I repeated many times today, we went from the Soul to the Cosmic Ray. In a way, I taught you from the beginning, I said it last week, and I said it many times, 20% of what you consume, is what you ?? take from the Earth, 80% comes from the sources of the Creator, in the Cosmic Rays, in the Cosmic fields, that it feeds your soul, and that feeds your physicality.

Now you understand you have access to that 80%. It's you who has to decide, would you do, what you did with feeding that 20% to, (:44). or you use that 80% of Cosmic Rays to eliminate that 20%. Where you know you can create it and bring it to your own condition and creation.

Now you understand the Totality of the knowledge which is about to come, how to create the Cosmic Rays, how to make it available to every citizen, and how to make it, that you values it, and it doesn't become another tool for him to abuse himself and the others. To this essence, Keshe Foundation has set things and the programs in the background, as we'll discuss later on today. And it's already set within the structure of the Keshe Foundation on the internet, to give you, to understand that the One Nation, One Planet, One Citizen, and One Man program has started.

We bring it in step by step, that man does not get too excited and destroy everything from the root. He understands himself, he understands to look after himself, he understands to feed himself, he understands how to become part of the society of the Soul of the Universe and Unicose, and not the individuality of the physicality of the man.

In so many ways, mankind will be matured to the Totality of the knowledge of the Creation in the coming months and years, through the teachings. Step by step, we'll bring and the mechanical systems, what it needs for man to gradually start learning about himself, and changing the condition of the government and governing, through the interaction of the Totality of the Soul of the Mankind, and not through the fake offices of the presidents, Ayatollahs, and Mullahs, and the Pope, and the rest. (:46).

I see the return of the stones of Vatican to Coliseum, in a handful of years. I see even the man makes that Coliseum, will make the place for celebration of the STM, and not the physicality of the man. And mankind as a whole, where the kind, is the man and the citizens of this planet, and the universe. The arena of the, what we call, the fields within what we ?? sell of the Coliseum of the universe, will sit within the heart of the man, the heart of the STM and the STM itself.

Mankind will learn a lot when he understands his position, mankind will learn a lot when mankind understands it's equal, does not matter where its citizens are, city, country, the Earth, part of the universe, or Totality or the Unicose, because if man elevates, now man becomes the man himself, which is, "I made man in the image of Myself," which is me, as a man to be the Creator. I am the beginning, I am the end. I am the Totality of understanding myself, where myself is me and whatever is within me, which is the Unicose.

We are not here to create another prophet. We are not here to change mankind. (:48). We are here to elevate the STM, that he changes himself. I hope today you have understood the purpose and why we are moving in the direction of the Cosmic Rays. As we always said, you had to learn step by step. And now I hope you see the next step.

It will take time for you, because you're too physically involved. Worried about the food, worried about everything else, worried about where the next step comes from for me to survive. Keshe Foundation today in the second part of teaching will release a new structure for humanity. We have mixed it in both ways, that the man understands. But over the next few years, this system become obsolete, but it's an intermediary to get him to that point. Man values his effort with money and, what we call, gold. We play the same game as you. But this way, we lead you to the point of understanding your own essence and your own Creation.

In a way, as I said, it's the story of the "prince and the physician," where he was thinking he is a cow, till he was fed, and said, "why have you shackled me as animal." This is what exactly is the true story of the man. Man has shackled himself to Earth with the physicality, and when he matures says, why have I bounded myself to this Earth with a chain of what we call, physicality. And the physician is us. We have to teach you to gradually to come to understand, it's you who shackled yourself to the planet Earth, in the dimension of physicality. (:50). Once you learn it, you do not need the systems we have set up, we are setting up for you and the rest to mature.

You've got to understand, there is no other way for man to elevate, for man to understand, if man does not understand the process of the Creation, interaction, and existence of the fields of what you call, the Cosmic Rays, and we call, the "Rays of the Creator." There is no Cosmic, if there is no Creation and the Creator.

Now, you understand, in so many ways, where the next steps of the work of the Keshe Foundation comes, creation of One Planet, One Nation, One Citizens. Then once you understood this, you become the passengers and the citizens of One Universe, One Race. Then man does not see others as aliens, but he sees, as part of himself. We had to do the teaching this way, that we don't need to go back and teach you again, that do not do this with the aliens, what do you call it, or the others, the animals, or the Creators in the Creation of other points and positions in the universe. We sow the seed of love, from the first rays of Cosmic Rays within the STM.

Let the children, and the hyperactive children of this planet play their game of I am the powerful, and the president, and the leader of the fake religions of the world of the man. (:52). The understanding of the man today has become equal to understanding of the Christ, Mohammad, Moses, and the Totality of all those who you call, as Messengers. As now, by understanding the Totality, you have become the messengers of the universe, to deliver peace, the love, the care, but not this time with gaining power, with becoming, what we call, the arrogance of understanding a fraction of the truth about the Creation.

When your Soul arrives in a position and destination to take the shape of the new creatures of that destination, you become just, you elevate them to understand that they do not have to go to the dilemma man for billions of years, in man's time, to mature to the point of understanding of today. You'll enlighten the Souls, that from the point of birth they understand the love of the Creator and the Creation.

Man is a good maker of children, and the universe creates many children, and they need to be educated, and we educate the soul of one as a mankind, to become the teachers of those in the, what we call, the Unicose of the Creator.

I hope you understood the teaching of today, and I hope for the first time mankind understands the purpose of the Creation, and the source of the Creation, and, what we call, the end of the, what we call, the cycle of Creation, as itself become the beginning of the next cycle of itself, by itself.

I welcome you to understanding of the Creation, (:54). but we have to set path for the others who do not understand, due to their need, to become to understand and then we go to other places. We take a short break and then we come back into the other parts of the teaching of today.

Rick, would you like to create a time for man to understand, or has it time to come to ?? ??

<< **BREAK** >> 462 KSW December 8, 2022 (1:00).

K- Would you like to go to the second session? ... After 406 times the mouse needed the rest of the feet.

Are there any questions

... I allow the head of the Keshe Foundation to take to come in, Lin, from China. Would you like to talk with us?

Q: Wang Lynn China (1:02) Because I see several Chinese have already booked the activity on December 16. And but they are worried they might need translation. So I told them, I can be available if they need help. So we want to know if like, it works this way, I will have the join them as a translator for all the sessions.

K- The position is with number of languages who have come to that point, that they need translation. We need a very, very little translation and discussion in the celebration of what we call, Christmas on the 16th, for Knowledge Seekers. For each language we are allowing one translator to join in, that can explain. The Chinese translation always, you've done. The Brazilian translation has come through Rafael, we have the Farsi translation which go through one of the members of the Iranian team, and the same with the Germans and the French. The languages which are requested mainly will go through, what we call, the process of the translators.

The 16th is significant, because 16th has a backup to the 19th. If you registered for the 16th, you had better register for the 19th, but choose which one you want to be part of. Now we are receiving booking on the Monday the 19th too. So the translator will move to the Monday session of translation.

It's to understand the interaction of your physicality. People come in with the expectation that will be, because it's Christmas, celebration and party. No. This is a party of the Souls, this is how we bring you to understand your own what we call, dimension of understanding. (1:04). This will carry on till next year, two years, we do this regularly as the number of the people increases, and in understanding will go further.

So we will bring translators, we know number of people in Brazil have registered with the Brazilian office. People in Iran are registering with Teheran office, and the same will go with you with the Chinese. There's a new structure that will come into operation in the coming months, that the Keshe Foundation will see operation in different way. From January of this year, new conditions will be brought in.

So, for Knowledge Seekers like the Chinese or whatever, you do not need the language anymore. We provide facilities, we provide everything else, as the structure of the One Planet, One Nation, One Race is set up and has been released yesterday on the Internet. This is a preliminary structure, and it brings the work of the Keshe Foundation in a way, that we see gradually will bring what we call, "no position control."

Comprehensive Universal Plasma Coverage - start of Man govern himself

Go back, go to the Keshe Foundation website, go to the Store, you will see the evolution which we have brought in very softly since yesterday. Look at what has been set. The structure for the health of the man, will come the structure for feeding the man, will come the structure for everything else for man to govern, by man himself. Go to the pages of the Keshe Foundation sales, Store, (1:06). because it's the only place, we thought fits, because it will show you, on the right hand side, we have put on, "Comprehensive Universal Plasma Coverage," which means we cover every need of the man without a central government. Which means whatever is brought in, is put back in for the citizens of this planet, to support each other and to put everything back in.

Then we set up the structure to govern by man himself, without taxation. The last line is the most important part. "Comprehensive Plasma effort compensation," I serve without expecting to be served. But the system as a whole will serve me to be correct.

We have set out from Monday onwards, hopefully, you can start with the beginning, we brought in, if you go back, it's a small table on the left hand side on the top, which gives you a very clear indication what is to come. Comprehensive running of a system, which in the future, all these figures will change into effort. How I serve the humanity. I don't need money anymore, because I have access to the system, which feeds me, looks after me, and maintains me.

As the progressive development comes in, (1:08). we will open these channels one by one in the next two or three years. We have opened the first channel, which is the main concern of many of you .. your health. Your condition of the wellness, your condition of the feeding your society, your loved ones and the rest.

The figures put in, is according to the European standards, but it will be changed in each area. Africans cannot pay this price, the same as those in China, or the one in America can afford more. So, we bring a balancing. But it has to be, because man has a habit that, he has no value if it's given to him free. He understands when he has, and compensates with his effort.

From beginning of 2023 we'll start this comprehensive coverage of the health, the wealth, and everything else of the man on this planet. Today, you do not feel good, you have cancer. You have tried every condition, every physiotherapy, every chemotherapy, everything else which is sitting there. And they tell you, it has metastasized, it's gone to the other part of your body. You go through the battle of the soul, what about my children? What about the loved ones I leave behind, the young ones, which I have created and they are still too weak to live?

The new understanding of science and technology, the wellness of the Man will come directly from unknown centers, which is set up by Keshe Foundation. (1:10). In a way, you do not wait till you become sick, you join for a comprehensive what I call, maintenance. Once a year, twice a year, you tune yourself by maintenance, for half an hour of your time into the central system, that it balances all the emotions, which that time has given you.

You went through a shock, you know it's going to affect you in six years, or ten years down the line as a cancer, or whatever else. Dial the number, you balance the emotion immediately, that in 10 years will not come the cancer. I don't feel good for whatever reason, you join in as the way, I need to be energized, I need to be maintained, that I do not go weak in the physical dimension, that pick up all the problems. Then you can decide, I want a program for my family, that if it happens, I'm there to be done, I'm looked after.

In a way, we have released a comprehensive maintenance of the STM, not the physicality of the man. In the coming months, we will release what we call, the feeding of the man. As I said last week, now you see the operation has been set up, by creation and maintenance of the Cosmic Rays, we will create the condition, that you access to be fed, no man will go hungry. The process will come through the understanding and what is to be set up. (1:12).

From Monday we open these channels. You can join in and in a way, find yourself a contract for life. It's not that I come and pay when I need. You pay that it will never come, that you need to pay for. Man will live into hundreds of years from now on, if you understand this.

We will provide the food, the wellness, the heating, the travel, the communication, everything else we'll done from one central point. In a way, you have already seen this structure in a very soft way in Linz. From one center we are reaching all of you, does not matter if you're in Australia, in South America, you live in North Canada, or you live in the jungles of Africa, you all received the knowledge, you all tune in. One of the reasons we put the 16th for this purpose, is to test our system.

This system will be very complicated. The reaching of the knowledge through the Soul, through every dimension on the 16th is a breakthrough, and testing, and how correctly we can set up the bigger structure of the international operation of the Keshe Foundation, which is for humanity. You are not coming in to see if, you are coming in for us to check our systems. We collect data from all of you during the 16th and the 19th in the operation of our system. (1:14). And in the follow up, in January and the rest, we'll add to this knowledge.

If you understand it, in the long run, there'll be one system, which will feed, which will look after wellness of the man, will provide everything the man needs from one center, one machine, and that will become in a way, the central position for interaction of the man with his own Soul.

In time you will learn how to do things yourself, how to maintain internally your own organs. Which means you go inside, you hold your liver, you hold the pancreas, if it has got a cancer, you understand, I need to give you the energy to bring a balance. Why did it happen? How did I create this condition?

As many of you know, the Keshe Foundation has started the first phase of the transmutation from the United States, and from other points of the countries of the world, into Linz. This is part of that program. In one of the trials very recently, we brought the Knowledge Seekers (KS) to hold his own liver, his own organs, and he tells us how he feels, he says, he is sick.

What we tell you is not a fairy tale, it's a reality as we are testing with Knowledge Seekers, when they hold the soul of their own child in their hands, and they nourish it to walk it out of sickness. These are the teachings which will come. And now it's already been tested. One of your Knowledge Seekers knows exactly how its liver worked, (1:16). and was, and what other organs were, through the transmutation time. One of you knew the taste of the mango and how it went through the organs. The taste, the emotion.

The transmutation comes for us to understand how we can move you from one place to another, and what will be the end when you come out. It takes you 18 hours to go one position to another physically. It takes you less than 18 milliseconds to go one position to another. What do we get in that gap? And would you go in with a condition that they tell you, you have few days (to live)? Or you come out on the other end as a healthy person with no condition? We have to understand this.

And Keshe Foundation for the first time today has released the One Nation governing structure. But you understand it as a sale, we have put it as "Comprehensive Universal Plasma Coverage." In a way, Keshe Foundation has started the arm of its, what we call, organization and bringing that One Nation into operation. We do not wait. But we bring it step by step in.

From Monday, you can buy a contract for 20 years with Keshe Foundation, that you pay 1,000 euro per year. You have to attend two sessions a year minimum to maintain your health. Where it's not by measuring things of you, but it's balancing the energies of the Soul and the physicality of the man. (1:18). Where you don't wait for a disease to manifest itself in six months, or a year, or two years down the line for what you did today, or what you did this year. You already do the repair, that in 6 years, 10 years, 100 years you do not have that condition.

In a way, through Naomi's development of the brain we showed we control everything, in a hidden way. It wasn't the Gans's which we developed. The Soul was, in a way, elevated to reach that point.

Now you understand the what we call, "we start the governing," and the way we govern, even the presidents who govern, need this to save themselves. You will see on the list of the people who pay for maintenance, there will be the kings, and the presidents, and the rest. As in the end they come to the Creator, in the line of understanding the Creation, for their own salvation, be the Pope or the Ayatollahs.

Now you understand how the Keshe Foundation has brought the change, how we do it. No one can stop you from receiving the knowledge. Today we use mobile phones and satellites, and very soon, in a shorter time than you think, those who registered to become Satellites, become the live position and conversion, that we do not need the mobile phones and the satellites of the mankind.

This is not the kind of things we use in the universe, but this is the way you understand. You're waiting for that headphone to be on your head, when you don't understand that we have already reached your Soul, (1:20). that's just the way you like to be physical and hold something on. But the physicality has to accept the condition of the Soul, and why I have reached to that point.

I don't think that in a couple of years time we'll need translators, to translate any language, when it comes to the time of teaching, and when you come to these systems for your coverage and your need. By starting the families with prevention, we make sure there is no way in the future, that there'll be any condition for recovery. Because the condition is never created to lead to what we call, recovery.

Now you understand why in the past we told you, there will be no hospitals, and no prisons, no courts, and no judges, to be bribed, to be fake. There'll be no abuser of children's, as we elevate the STM. We have started the governing, and what we put out this week, and what you see on the screen, is the beginning of a One Nation government.

This is the way you understand as humans, and we play your game. If we make it free, man will not change. When the man has paid for it, he thinks and finds his way. (1:22). The what we call, the "comprehensive wellness program" has already started. Those of you who went through our systems, to our doctors in different parts of the world today, and you're going through the operation of the wellness, you will never get that Parkinson you have. You will never have the cancer you had. In your life, you will never see another cancer. It will not metastasize, because you will repair the soul, the soul of the cell within the brain of the man. You will not suffer from Parkinson's because the brain has been restructured by the Soul, and understand the failures which led to Parkinson's in the physical dimension.

In a very, very short time, the part three of the recovery will be eliminated, because there is no condition for recovery, there is no one to recover from a condition. The same will come in the section two, "Comprehensive Nourishment program," we'll teach you partially, and then you'll say, "I don't want to touch anything, I just want to live a happy life. I don't want to kill, I don't want to eat."

We become, in a way, a hotel with a pension. The building is the Earth and the pension services for feeding you, becomes the Keshe Foundation. You see somebody having an ice cream, you just connect, you have the taste, and the feel of the ice cream and the flavor you like to taste, to fit your taste. These are not anymore a dream. These are the realities.

Keshe Foundation has committed itself to this. (1:24). Make them for Monday and sign yourself to the change, for yourself, for nobody else. Then you'll understand, in the next few months when we release the Cosmic Rays, then you will see. The reason we opened the 16th and the 19th it's for you to have a taste of the reality, it's not a dream anymore, it's you who will feel it, and it's you who will understand it.

Don't forget, when I started the process of the wellness in Belgium, some 15 - 20 years ago, it was just one person. The first time I gave a talk in Ninove it was one person. Two people in the room. And in a few weeks, it could not accommodate more. And it was just one little office on top of a dentist surgery. One or two people. It came to the point within a year, that we had to allocate every 15 minutes to somebody from somewhere around the world, with two ladies handling the phones.

Now we can imagine what will come when you walk away with addictions, and then you tell the others. This week I was reading articles about the biggest drug trafficking gang in the world being captured from Northern Ireland to Dubai, and the rest of the world. ?? I witnessed one of them physically in a close quarters this week, with the armed officers, mask on, with machine guns, and everything else, to capture a drug trafficker. (1:26). I said to myself, very soon, from next Monday's, if people understand, these people has nothing to sell, these traffickers. Because you put in the perfection of the STM, that it does not become an addict, be it medicine, be it sex, be it drugs, addiction to wanting to be loved, and doing everything for it.

When it comes, you want to taste the space, you join another part of it. In a way if you look all our programs in the two consecutive days in the space gap, that it brings, then you decides. Do not expect if you are an addict to sex, or whatever, or alcohol, that by Monday session you'll be done. No, it's not. It will not be. It's for you to understand, that there is a change. I did not need it for three days. I could live without it for five days. So, there is a solution.

As I said, if it's in one goal man just say, "oh, I just got rid of it, I smoke it, I become again an addict, and then I know I dial a number." We have to change every grain of the Soul. Then you understand, there is no addiction. Because you get changed from internally through the structure of the fields of your own body.

Addiction to abuse, we call it Fibromyalgia. Addiction to be abused through the work and psychological work, we call it the CFS. (1:28) You are thinking about the drug addiction, that is nothing compared to the addiction we have in different shapes or forms in our lives. Addiction to pain, addiction to taking painkillers, addiction to whatever could be, that it has created a weakness in the operation of our lives, that with it our Soul cannot elevate.

Then you understand why we need the translators, just to translate to get you on the seat. As I call, like the air hostesses, and the rest will be done by the captain. You have a young family, go on the Keshe Foundation, sign for what I call, just to be staying healthy. We cannot stop the accidents. We cannot stop the heart surgeries from your misconduct of physicality for years. But it can be supported, that you do not get to those misconducts and the heart disease.

There is an understanding that there is a solution for every condition, even amputation. But we have to create the facilities over time to become, to be ready to do. And we had to teach our Knowledge Seekers to be able to develop these technologies, to understand it, and it just doesn't become a copycat mass production. If they don't understand, they don't see the essence of what they do. Then it becomes a robotic job. (1:30).

We look after your wellness for the whole cycle of your life, that's the responsibility of a nation. And we accept the Earth as One Nation. Then in a short time we accept to feed you and your family, and you never touch a single entity to kill to consume. Man has got to understand the evolution in the science and the technology for it to be delivered. We have reached that point, our scientists see the Creation of Cosmic Rays, the understanding of the work, and how one ray can encircle the whole of this planet to feed every condition and need, the same as the field and rays of the Creator.

If I don't understand it, how can I create it and maintain it? Our Knowledge Seekers and scientists have to understand it, that they can maintain it and develop technologies for the rest to enjoy. So, Madame Wang Lin, you can translate on Wednesday, sorry on Friday the 16th, but see if you can translate through your Soul, and not through your words, then no language will count.

Any other question?

Q: Yeah, I hope so. But I haven't learned yet how to translate from my Soul yet. (1:32).

K- You did a lot of Akashi, you went the wrong way. Now, understand and listen to your Soul. You'll find the right way.

Any other question?

Q: Afar .. Mr. Keshe I have a few question from Farsi speaking Knowledge Seekers. But before I ask those question regarding today's teaching. You know that in the future we'll not going to eat, so we lose our digestive system, the mouth, and the teeth, and everything else, because we don't need to talk. But regarding the soul coming from the creation of the children, that soul can come from the Soul, it means we're not going to have sex in the future? Because...

K- Is that missing in your life?

Q: what

K- Is that what your ?? marriage missing? (audio broken up) This is what this is, do we miss to have that physical condition?

Q: .. Because when we have sex, we're not stealing from anybody.

K- Yes, but you have to understand, man works on the "addiction to reward." The pleasure, the end product, the last seconds of elevation of, what we call, that addiction. You're given a carrot, like a dog. (1:34). Sex in the life of man is exactly like when you go to a circus, and the dog or a horse does an act, and gets that sugar, lump of sugar. We get that satisfaction, and then we are addicted to it.

God made man addict from the point of its own physical creation. Why do we reproduce? Why do we go for reproducing in the dimension of physicality, and to be able to feed its universe with the new seeds of the souls, or centers of the creation, God has made men addict to sex? With this way of creating the Soul, and then the physicality, there is no need for that addiction. This is one of the reasons in past few minutes, I referred to, addiction is not cocaine, ?? sex and the rest. Man is created addict from the second of his creation. You do, I give you a carrot, I give you a sweet. And that's what I said...

Q: Okay, Mr. Keshe, I'm going take you to a place you, last time. I don't know which teaching was it, you talked about. Okay, I'll go from here, my Soul comes out, I go to another ...

K- Your Soul doesn't come out. Your Soul envelops your physicality.

Q: Okay, envelopes my physicality, I go to another location in the cosmos, okay. When I go there my kidney, you said it's not a kidney, it's just some gaseous state. So the love

that we have here, it doesn't exist, so the love, what we consider here as love, what is going to be the shape of it? What is love mean?

K- Love it means to give, you give life, you create life. This is why Mitra fell in love with the Earth. (1:36). The physical chemical combination of this planet, creates a field, which gives pleasure to give, you call it love. .. It's just like, certain materials don't exist on this planet, and our scientists said, exotic materials, which are in the universe. Because we don't have the condition of it, to be created. Our atmosphere, our gravity does not allow creation of certain materials on this planet.

So is love. The condition and the fields of this planet creates a field, which we call it love, which means unconditional giving, which is one of the attributes of the Creator. Now you understand why Mitra fell in love with Earth, and one of the purposes of why the Creator and Mitra have taken home on this planet, is to nourish this across the universe. That every being in the universe just don't reproduce, but understand the love.

When you go somewhere, you see something you need, you take it with you to show the others the uniqueness of this beautiful thing. And Mitra saw the love. This is the only reason she ever attached herself to this planet. Because with it, she could show to the Creator what it means.

Mankind has not understood, and you say, why suddenly so much knowledge, and development, and sharing and enhancing the STM. You are lucky people as human race. In this planet, and this condition creates a specific field, which mankind calls, love, unconditional giving. When you fall in love, (1:38). you go hungry, your mind and thoughts cannot do anything, but just, not to be with your lover. That's how Mitra felt about the Creator and found the match on Earth.

Now, evolution, development of the STM is to export this across the Universe. That's why we are gifted with the knowledge. Now you turn and twist it, how you are going to be. You have the essence of the fields of this planet, does not matter where you go, this is the job of your Soul. You are messengers of love, unconditional giving.

So, be it by sex, be it by flower, be it by drugs, be it by giving a sweetie every time you make love, for the next one to create another child. In a way, creating a child with that sweetie, God didn't do it for you, He did it for Himself to create more, that He can have more dimensions of the love to be spread in the universe and Unicose.

As I told you, in the future, mankind will come to understand part of the bigger Unicose, which our Creator is part of. And the Creator of our Unicose is known as the possessor of love. And that's His functions in the Totality of the Creation of the Creators.

Q: .. One of the Knowledge Seekers was asking, he made the reactors for a star formation out of the copper. So, he wants to Nano coat inside and outside, and then he was asking, (1:40). is it wise to Nano coat the copper coil, that he made, because we said at one point if he Nano coats, the fields cannot extend out. So, if he makes a star formation...

K- It depends .. what and how you do things. Knowledge Seekers have not understood the purpose of the coils. Knowledge Seekers have not understood the effect of it. And they're still stuck in the matter state. What you do it for? The reason you do it. And this goes back, we say, go back to the first paper ever published, "The Creation of the Black Hole," where, what I call, the thief of Baghdad, Hawking said, nothing comes out of it, and then he understood how wrong he was, he changed his mind. Even in the darkness blackness of the Nano coating, there is a essence of Creation.

Q: The second question is this, because you see, if you remember, because this is a huge, huge confusion. People think, like anybody who dies, the Soul goes, and have a party with their parents, no matter what they did on this planet. But if you remember, one time I asked a question, because the Soul is innocent when it ?? lives ?? You said, the Soul is a babysitter. So, if you have a babysitter, you leave your child with it, and you come and see the house is burned. So, the babysitter is responsible. So, what's the babysitter was doing, if he wasn't watching the child?

So, if physicality on this planet do all the wrong things, and dies, and the Soul leaves and goes, and has a party with your grandparents. So what's the point of if, if there's no punishment. (1:42). So, for example, the Queen when she died, she created all this mayhem. So when she's gone, the Soul is going to be maybe conveyed to one place for millions of years until she learn the lesson. So that's what my understanding. But they said, no, when the Soul goes, Soul has credibility, because it was locked in the brain. So, he couldn't do anything. So, when he goes, he can go do whatever he wants. And I said, absolutely it's not true. So, which one is true?

K- All of this it is true. It depends which side of the fence you sit. The Soul, when he leaves the physicality, has to ?? carry the dimension of the balance of the spirit. Your physical dimension dictates your ability, and what you can do. The, what we call, the balance fields of the spirit, which is a physical dimension action, dictates how much the Soul will carry, and what will carry.

The Souls are all the same. It's the spirit, the condition of the physicality energy, which dictates what will take, and how much he has to take with it, and what is give back. Very simple. So, you don't go to there, you had a party because you're gone. It depends, did you receive enough to get to where you want to go. Are you, have you been stripped of the fields of not allowing to be in there, because you have to compensate for what you've done in the dimension of physicality.

Because the Soul of the Physicality (STP) is aware of everything which is there. It absorbs and gives. At the point of departure, it's a balance sheet. All the Souls are created equal. (1:44). It's the spirit which decides what is in depth, and who's gained something, the balance is there. It transfers energy to the Soul, and then it creates the new condition for the Soul to survive. And where and what position takes in the universe.

The world of clergy has messed this so much up, because they never understood and they lied to themselves, that now we see we are in this mess.

Q: So, Mr. Keshe, the balance sheet is between the physical soul and the Soul?

K- Of course. It's the STP what we call, the spirit, which deals with the condition of here. It's a governor on this planet, it's a governor for the physical dimension of today.

One act can elevate Soul to the level of understanding the strength of the field of the Creator. And one act can bring you so low, that nothing lower than that, has ever been created.

Q: Okay, Mr. Keshe, if I say I have, when I was born, I was given 200 points. And my Soul was given 200, we were equal, we came to this planet. Now I killed, and I stole, and I did whatever I wanted. So, I kept losing my points, I lost all my points, I lost another 100, and I lost 400, now my Soul is just minus 400.

K- Listen to one of the Intros. And now maybe you understand it. Do I become part of a dust? Or do I become the Creator? Would, if you reach and you leave, with a maximum of 200, you came in STP, and a maximum with the STM kept intact 200, (1:46). would that 400 make you to reach the understanding of the essence of the Creator? And do we have Souls, which come and get that 200, and 200, and make that 400. You understand?

Q: Can I also become like a thousand, I came with 400 and become a thousand and go back?

K- You want to become better than the Creator?

Q: No, I mean, the 400 was given to me through the Creator, because the Creator has an infinity, I only have 400...

K- "I made man in the image of Myself." I didn't make myself better than man, otherwise, I cannot be.

Q: Okay, so I was ?? viewing the whole thing. Okay, I got it.

K- Thanks God, it took you a long time, nearly 10 years.

Any other question.

Q: Adam Sweden .. My question is regarding the plasma flight on Christmas, (1:48). the 16th of December. I have made the application and my money has reached the shop, the Store, I haven't got any confirmation, will that come any email confirmation for this?

K- You will receive something around about the 17th (means 15th). When things are closing there. You have to make sure all your zoom accounts are active. Because it's by invitation only, it means you'll be invited. Nobody can give a link to somebody else, because it's a closed session. So, anybody's email we do not have, will not be allowed

into the session. And once the session starts it's absolute. If anybody makes noise or any what you call, complication, we just switch (them) off, you lose your right.

Q: Yes, with all this happen really the 16th or maybe later?

K- They were working till late hours, or earlier hours of this morning on it, I know the IT team.

Q: So, the date of 16th of December is still valid, is it?

K- The both is the same, for the 19th , for the 16th they close on the 15th.

Q: Okay, so I will get confirmation by email and then...

K- You will receive the confirmation. A couple of people, I was told, have paid with the "Transfer wise," and they cannot track them, who they are, who's paid for what. We have some guests like translators, they still have to register, and then their lines will be opened up and through the IT team. Anybody trying to do anything out of line, making noise, asking questions in between, we just disconnect you, you lost your right. (1:50). This is a public elevation of the Soul, not for people to come in trying to confirm they exist. The smallest opening...

Because, there is something very important with the session of the 16th and the 19th. All the phones stays open. All the phones will stay. If you're somewhere with the dogs barking, we just cut you off. You lost your right. You cannot come back in. You're somewhere, somebody's running around, or you're just trying to take to talk to someone, you lose your right. Because you cannot interfere. There is a lot of information transferring around, a lot of Knowledge Seekers Souls are connecting in that position.

Q: Yes. It's exactly what I was wanting also to ask. On the connection of the 16th I will take only from my smart phone or iPhone I use, and not from laptop, is that correct?

K- We prefer, because laptops creates a lot of background information, which will interfere with the work. And if you try to record, we will eliminate, (because) we'll see it through our system. It doesn't matter how.

These sessions are so complicated made, it's not what you've seen, we set up especially this way, that those of you who come to these sessions will find out exactly what happened to you on Tuesday or Wednesday, after you go into the second session on Monday. Then we'll repeat this again in December. And repeat again in, what we call, in January. Then we'll repeat it again in February and March, we do sessions of this.

And we gradually create that foundation base for the human race, what we call, Satellite Souls confirmation. (1:52). Many of the people who are registering, propose are those who already volunteered for Satellite. You don't do it, your Soul brings you to do it, because it's part of the work we set up.

It's very crucial. If you make a noise, the system stops. It has to be absolute silence. It could be half an hour, it could be an hour, it could be four hours, it could be ten hours.

It's Keshe Foundation. As Rick said, they went for nine hours yesterday and half of it was silence, because two members of the Universal Council were in the room, in the flight room, and they wanted to connect with their Souls. If you attended Rick's session yesterday, it was very funny, you sit in the quietness, because they're all sitting and see what happens.

R: Except for the open microphones, that you could hear people like gurgling and things like that. It's kind of odd. But some people wanted to keep their microphones open. For the second part, we just had Dean's microphone open only. And that worked out much better. And we felt like we could hear what was going on. But we didn't have to be speaking into it at the same time.

K- But on the 16th and on the 19th, all the microphones will stay open, because it's a communication with the central system and all the Souls. When you switch your microphone off, it means you don't hear, you don't receive. You understand?

Q: Exactly, yes. Now, very practical questions. So, when I connect 12 am on the 16th and then I wait with my headphones for transmutation. Is it transmutation that I will experience?

K- No, no, no, we don't tell you, you will tell us on Tuesday, (1:54) Wednesday what you felt. Maybe in two weeks time on the Thursday, some of you will come and tell us how you felt. We don't give any... This is part of the work of the Keshe Foundation, we don't give preconceived ideas.

During the process we'll tell you some things. Specifically it's for our system testing. Don't forget this session of the 16th and 19th you're there to find out about yourself, to familiarize yourself with it. Even some of you who have been in Linz, you'll find out it's a different experience. It's hundreds, thousands of times more powerful. But it will be at every level. When you come to Linz you're in one system. In this new development, we covered different aspects.

Because some of you are coming for addiction on Monday. We have to prepare that for Monday. Some of you come for cancer. Some of you come for elevation. Some of you want to go to the Moon. Some of you come to elevate the STM. We are not sitting with your Souls.

So, we have set up a very complex condition. Your Soul will take it, in so many ways, in communication with the others. We expect some of you to see each other. We want to see what happens. Maybe one of you Knowledge Seekers is in New York and the other one is in Sydney, you always wanted to meet each other, we create that facility, how our system responds.

Q: So, I will not be addressed individually of the 16th of December...

K- No.

Q: It will be the whole group which experiences some kind of group communication?

K- In a way, we make one Soul out of the Souls of ?? those there. (1:56). This is the testing of the mass programs. That's why earlier on you saw the "Comprehensive Coverage," is that, once you set up a system, which this is the parallel to it, is that somebody comes with a cancer, somebody comes and is hungry and wants a potato, somebody comes in wants to find somebody their loved ones, somebody wants to go to another city to see a monkey. All has to be done through one central system, and we are testing of that central system. So, in a way, you're a test pilots, but depends what you're flying.

Q: So, my wife, for example, she was very worried that I would just disappear from my...

K- Oh, you want to disappear.

Q: No, it won't happen. Good. Yeah it was real.

K- We are doing tests. I mean, Knowledge Seekers here know who they are, I don't need to (say). One day they'll reveal who they are. They're doing a lot of, I mean, Rick said, that .. Dean was there, with the members of the Universal Council in the system yesterday for a couple of sessions. But the rest of the time we test different things.

Yesterday, we brought one of the Knowledge Seekers through our system, and we asked him to go wherever he likes. I said, would you like to go outside the building and tell me what you feel? He said, oh, it's cold, I'm not going out, it's freezing. I said, yeah, we had a snow here. So, when they come they even feel the environment. It's not just coming in the machine. (1:58). You understand? They feel, we feel each others Soul. Knowledge Seekers in the background sitting, they know who they are. As I said before, we've worked with them very closely.

Then another Knowledge Seekers, we direct to feel his liver, kidney, we know how to do it. And they explained to us what they're touching, what they're holding it, and they give you the energy. And we wait and see if the, what we call it, the physicality changes with that touch. When I give energy from my Soul to my liver, which is sick, do I change it? Or would it accept that change? Or is it still part of the process of my emotion to be faced. I'm trying to fix a damaged car, but I haven't fixed up the brake in the head.

This is part of the technology development, this what we put out today for, what you call, balancing and everything. The more of you, you join this structure. It's very much like a insurance policy. I get, I go for a checkup every once a year, now instead of going and checking the physicality, afraid of something might happen, if something I can ?? have there. Now we give that checkup to the Soul. Look into the contract, it says, "maintenance." Maintenance means, I fix the damage in the engine and the brake, than trying to fix the damage of the physicality in 10 years down the line, which are, in the end, they say they can't do anything with it. (2:00). This is what is part of the bigger structure, but we have to bring it step by step.

Q: Okay. So again, back to the 16th of December when I connect with Zoom, and I take part in the group, maybe 100 people ??, do I stay individual, can make a try to meet my son in Portland, Oregon in the US?

K- That's your problem. We don't allow any communication internally, and do not try to text each other, or message during the process. You will see a mayhem, and we take you out immediately. Don't send each other private messages, because you interfere with the system. You understand? It's very clear, we are taking Knowledge Seekers which we. Those of you who we trust, and now I looked at the list of people who have registered. These are the people which are. If we see something funny, we just don't allow in.

Q: But if I prepare in advance, to contact my son today, and explain for him, that 3am in the morning, or in the night...

K- As he wants to accept. Maybe 3am he wants to be with his girlfriend, doesn't want you in...

Q: So, it could be possible for me, without disturbing anybody else, but try to use this time to make this meeting?

K- Yes, you have to. This is what we want you to tell us on Tuesday, Wednesday following up. How much do you achieved, what you achieved? This is not...

Q: Great, it's great, and I will not disappear from my room here in Stockholm?

K- Oh, it depends how much your wife ties you up to the chair.

Q: Okay, okay. Good. How much time it will, the whole experience or event, how many hours it will go on? (2:02).

K- This is Keshe Foundation. We start with 10 minutes, we end up with 10 hours. Or, we start wanting to do 10 hours, and in 10 minutes we stop, because there is something wrong. We are very carefully looking at the people who are registering, and we want to keep and who we not allow in. We know that there are people who are there to do all sorts of funny things, so. But we handle it in a different way. Do not worry if you came to do something wrong, that you will see the consequence of your own conduct, by your own Soul. You are dealing not with, I said, in our life there are no judges, and there are no courts and no prison. It's you who imprison yourself for your misconduct.

Q: Absolutely I understand, yes. Okay, maybe I should add that time, I'm Polish originally, but I've been living in Sweden for more than 40 years. I'm now retired. But I used to be safety manager for development of products with highest integrity, safety, integrity, level, controlling, for example, rail traffic, trains, but it can be used to anything. Now the firm when I retired, was involved by the Japanese, they will use it to nuclear reactors control. So, it's a very useful product.

K- Let's see where we go to. The whole concept of this technology is to make it possible that we all benefit by it.

Q: Absolutely, I think it's great, great situation for all of us. And I'm very much in favor of the whole thing. But my environment, people I know mostly don't understand it. (2:04). And mostly they're afraid of what can come with it. So, I try to make it easier for everybody to understand and not to be frightened by it.

K- If we get into what I call, media, what I call, televisions, or whatever, then it becomes a hot potato. And we are not ready for it. We cannot do this thing with hundreds of thousands of people. And we are in a very good position. In a way, as I always say, the Belgium did the best favor to the Keshe Foundation, allowing us to develop completely. And when it comes out, it's done and it's in a perfect condition.

Now we see a lot of governments are wanting to getting to, understand the technology in the totality. Somewhere in the next few days, Keshe Foundation will come, will offer the comprehensive what we call, wellness system to governments. What this means that, let's say, the government of Germany spends millions, billions and billions on cancer. And with all these hospitals and all the expenses. We offer, we deliver, we cover all the cancer cases through our Wellness Center in Germany, through a fixed agreement, that then people do not get involved with it. In a way, up to now there is no response for cancer.

Now, Keshe Foundation accepts One Nation's cancer cases, we can do, we're not talking that we might do. We start negotiating with governments in the coming weeks, that we become another wellness process. (2:06). But we show by example. You give us a thousand cancer cases, our doctors will take it up through our technology, in six weeks time, see how many percentage have no more cancer.

R: Excuse me, Mr. Keshe, there's some background noise going on. There's people are making comments about.

K- Yes, there's a huge drilling is going on here.

R: They thought it was someone snoring.

Attack on KF Austria - trying to get the systems - they survived

K- We had a massive security intrusion. I told you, in past few days with international squad, whatever it is. They smashed a lot of things up, trying to get hold of these people. And now they're trying to fix it. They smashed the doors, the windows, and the building, trying to get in. Now the builders are trying to fix it. We can't do anything with it. Because the property is not secure. And the building is brick, and concrete. Sorry about that one.

R: Thanks for clarifying.

K- Yeah, I told you, we had a close quarter experience. You see it in the movies. And we had to go through all of it .. with a mask and some submachine guns, and police forces, and security forces all going on top of these people. Now they're fixing the damages trying to get the doors up, and fix the damages. Sorry about that, we cannot do anything with it. You see it in the movies. We've watched it in meters, centimeters away from us.

The whole process is that the Keshe Foundation, in the coming days, and weeks and months, start offering, the government's are literally bending over these cancer cases and hospitals. (2:08). And there is no end to it. We go case by case, we go country by country, and this is the way it's set up.

We will do most of these things in conjunction with Markray in an open market system. That's why we took over Markray. We will bring this through that, we offer case by case. We have to, first of all be able to develop the machinery for it that we can, when we offer it's correct. We have to train doctors to be able to handle the machinery. And a lot of doctors, we're getting a lot of requests from doctors around the world who want to work with the process of the Keshe Foundation. At the moment we have doctors who work with us, they understand it. Then this process will go.

The next phase for us, I see sometime maybe middle of next year, end of next year, is mass feeding. We go to Africa, there is a drought, and governments and nations cry for feeding this people. We deliver a system that people by being around it they are fed, nobody will go hungry. We go to the position of the next step.

Then next, communication. Communication through these systems doesn't need any more headset. You think, you communicate. The way you think you go to a place. These are all to come. Our technicians, our scientists have to understand to develop it, and I don't push it till they understand it. Otherwise it's a knowledge missing. (2:10).

And what you see on the list of what was in front of you a few minutes ago, with everything to be covered, we start governing. We support, we help, those who you call your leaders, they still die of cancer, they still get Parkinson, this still have to handle children who are sick in their home. It's not that five second you see them on camera. We saw what happened to the German Chancellor. She had to leave office, because of the depth of Parkinson. Doesn't matter what they are, they are still touched by it.

There is an alternative for everything and we start handling governments, in next 12 months Keshe Foundation will not be the structure is today. We start, in a way you go to a company who offers you insurance policy, we give policy covering, universal packages to governments for their citizens. There is no bribery, because the Foundation feeds back to itself. The Foundation works to itself. If you're paying 100 billion a year for what you call it, for cancer treatment, and you still have to deal with the nurses and all the caboodle which goes with it. You pay 10 billion to Keshe Foundation, all your citizens every year, for half an hour, maybe, because they have a mass day for cancer, or elevation of the Soul. Everybody puts a headphone and sits for half an hour, and then we solve the problems for cancers, or whatever, depressions in that half an hour.

We used to sit half an hour listening to the Queen telling us a lot of rubbish on the Christmas Day. Now we listen to our own Soul, and elevation of the. These things are a reality now, it's not a dream to come, the machinery exists, and we can repeat the machine. We can remake it, multiply it, and the rest of it. (2:12).

They'll come, we have received, hopefully we had a big setback, as many of you know, but it seems that the banks have decided to change that to, as a setback to a success. We have to see what they do in next few weeks. And then it will come back to you.

Q: Yes. Mr. Keshe, I miss the words to express how grateful I am. This is so great. It's like a dream come true. And I want to thank you, and God bless you, and much love for all Knowledge Seekers and for the whole planet. Thank you very much.

K- You're welcome. We all work in the same dimension, but it just depends who wants to benefit personally from it.

Any other question?

Q: .. How do we convince our loved ones who suffer from disease and addiction to tap into this system when they don't understand it?

K- Easy. Give them the headphones and say, sit there quiet for half an hour, and then we talk. We had this, we don't mention it. We had this with our Knowledge Seekers, I'm sure they're on the line. They know who I'm talking about. And our medical team are in the background, they know who we're talking about. We had a case till yesterday. The first time the lady accused of us everything on this planet, when the husband was trying to help. (2:14). We didn't give up, because we kept on elevating the Soul in the background. And at the end, after a couple of weeks, she consent to us put the headphones and sit there. And we listened while she was sitting and getting the system knowledge. And afterwards, I received a message from a team of doctors that it says, the husband was writing how she was changed during the process. We've watched, we heard what she was doing during the process, and they see the change. The loved one see the change, and it just changes the time.

We're doing a lot of work in the background with our different teams around the world. We don't mention, we don't let nowadays, one team to know the other team, that's for sure. Because we saw how they abused it, and they come in as Knowledge Seekers, but they're actually are terrorist, I call it.

There is something very important, and we can maybe depart with this knowledge. Some of you, and many of you who went around with the person we kicked out of the Keshe Foundation two or three years ago. We warn you very direct. This person is extremely connected with the pedophile groups of the world, and has a conviction for pedophilia. And the whole family has a conviction for one of the oldest pedophile families in Western Europe. Be careful, you allow them, you interview them, you close them to you,

(2:16). but underneath they're telling, and selling information out. This is why we found out, and took us a long time to kick them out of the Keshe Foundation. It's your responsibility for your own loved ones.

We can disclose this, because this now has been disclosed to police and the framework of the securities. Someone we kicked out, you know very well, has a long criminal history with biggest pedophile organizations since nineteen seventies, in Europe. The whole family has had prison sentences for arrests, of abuse of children's life. Be very careful. You think you have a friend, but you have to see how much of your IP's are sold.

The Keshe Foundation came under fire, for years you couldn't get rid of pedophiles and all their activities around the Keshe Foundation, because somebody inside was literally selling information, giving information on the coverage of not knowing it. But be very careful, we see things going around the Internet. And as we protect you in every other way, now we can disclose it, because it's the disclosed to courts in the police. There is a long track. Even today, the brothers and sisters are in the same game as ?? themselves. We've been asked to release the disclosures, but we are holding back due to some cases till it's fully, what you call it, completed. Then you will understand.

It's my responsibility to inform you, you know exactly who I'm talking about, most of you. (2:18). We didn't know how Keshe Foundation was going from one dilemma to another, and how we were going through this. This family, has a whole family, has the biggest pedophile family in Western Europe since nineteen seventies. And Keshe Foundation was infiltrated deep right from the top. You just need to get in touch with the right police station, they give you the full file. The mother, the father, brothers and sisters, and uncles, the whole lot. Vatican is a joke to who and how they operate. Just be careful with your families and loved ones, you think you're very safe.

Any other questions?

Q: .. There's a question about you mentioned that all the microphones should be open during the session. Question, what if somebody has to sneeze, or cough or something? Should they mute their microphone during, when they feel like coming on, or?

K- Yes. Please do. Because you can imagine 100 people trying to cough once in the whole session, with the whole session ???. We are very careful. Because we know like, you know, when you have Stefania, there is always a problem. If you understand that. A good example of how things can go wrong while she's on the line, "oh, I made a mistake." These things we don't allow, we just disconnect. You hear a lot of time, Mosfeq sits in the background and there is a beep and a noise, we cut these out immediately.

R: So, can someone like that still attend, but keep the microphone off? (2:20).

K- ?? They can find a place for those few hours. Your microphone cannot be switched off, as much as our microphone cannot be switched off. It's a one way. You don't receive the information, cannot convey the change. You understand?

R: So, it's not just through the headphones, it's the microphone, it's a two way connection.

K- Yes, yes, yes, yes.

Q: Mr. Keshe but there is a problem, because for example, if you live in New York City it's always going on, something is moving or making noise. So, I have to go to the toilet then.

K- I don't know.

R: The toilet is the only place in New York City that's quiet?

K- Or become a rat and go in the basement.

Q: Because the only place you know apartment is no noises is the toilet, other places there's the ambulance is moving, I mean, New York City 24 hours is noise.

K- Put it this way, we monitor, because it cannot just be you interfering with the others. There are people from all over the world involved.

R: Also, you can turn down the volume on your microphone, and not make it so sensitive.

K- We don't need the noise on your microphone to be at a maximum, or whatever. We are dealing with different kinds of fields. Soul does not have a frequency level and the loudness level. Otherwise we would have shouted in your brain, stop doing this. But you keep on doing it.

So it needs for the line of connection. And so many ways we just need that first spark of connection to link up, and then the rest is ?? very rapidly we might ask you during the process to do certain things. Because while we ask you we set our system we adjust our system inside. Yeah, we might ask your if you've been to Linz you know exactly what happens. We leave you to yourself and then we'll interfere, because you're there for you to find out about technology and we are there to find the improvement in what we call it in all our process

Q; Does the Keshe Butterfly have to be removed from the phone?

K- Yes, remove everything.

Q: What happens if we have an open microphone and somebody rings the doorbell and that sound goes into the microphone? Are we excluded from the experience?

K- We try to be on top of things .. . It's something you cannot control, it happens in my teaching quite a lot.

R: If it's consistent, then they might have to be excluded, I suppose. But if it's some minor issue, it probably would be acceptable.

K- Yeah. We have to see.

R: Is it okay to use a Bluetooth earphone as a headset?

K- No, do not use Bluetooth.

R: Do not use the wireless type earphones?

K- Do not use wireless. We are very specific, you remember the conditions we go in.. Please, do not use these things.

Anything else? (2:24).

Q: .. Observing attitudes of a mentally disabled boy, is it possible for two entities to be, and act at the same time in the human body? (K: yes) One with human actions and the other with the actions of an animal. So, for example, a man and a monkey. How to find the balance between these two entities inhabiting this physicality?

K- It is us who doesn't understand this. And we have to understand this.

R: I think you once said, it's us who are the mentally disabled, not the boy in question.

K- Yeah. Because it's not a monkey, it's behaving like a monkey to get the attention, "I exist." What you call it, we call it, the "beautiful people," you call it, schizophrenic. One behaves like a dog, one behaves violent, one behaves like a lover, but it all depends how we allow them to manifest themselves in time, and place, and position with us. It's a lack of understanding of us, not them.

Q: .. I would like to introduce some kind of generator in my animal breeding, (2:26). because it happens that some puppies are born badly formed and, or born dead (still born). Could a plasma generator unit help me?

K- To do what?

R: To I think prevent, in animal breeding, prevent puppies, that are badly formed or born dead?

K- Stop abusing the animals. They're not a production machine.

R: Okay, I think that's a sufficient answer.

K- You know, I've said this to someone years and years ago. I said, would you like if they put you on the table and made you give birth, to make you're pregnant with the next one? You're just a production machine? Why do we do this with animals, because we have the right to engage them physically?

What happens if you create a condition of love and care, and not the mass production, and let the puppies (be) born, or created out of the love, not for you, just because you see something out of them. This is part which I really don't understand. (2:28). And then you lead to (deformities) and all sorts. Do we need to do that? Maybe somebody will say, yes, because my income comes from it. But can you find a more human way to do it? Or to you it's a dysfunction, or dead because, "oh, I lost money because of it, there is a problem." The problem is in the system, what we do. It's our own understanding.

Any other question?

Q: .. Mr. Keshe, I have another question about sex. So, when we have sex, at the end, when it gets to the ultimate threshold of it, or the orgasm, so why do you see light in the room? Because I thought always, I thought it's the light of the Creator. Maybe the Creator likes people have sex?

K- I don't know, ask the people who see the light. It's what we see on it as a, what I call, as a feedback, as what convinces us there is a reason for it.

But if it was not there, man would not have done it. This is as simple as that.

In the future, the human race as I said a few times, will not feel the, what I call, the physical interaction, as it does today, when it comes to Creation of offspring. (2:30). In one of the teachings with Dr. Eliya Kostova, I touched on this in a very, in the Medical Teaching, in a very, very soft way.

But sometime in the future we'll explain it in a full, exactly how you can create the children of the future, through the energies of the interaction to create the soul. And you feel it, you go through the essence of its creation.

The physical pleasure of being with someone does not mean the, what we call, the end pleasure to create. There is a lot of dilemmas when you speak to what we call, moral organizations of where there is a life, where there is a soul, where the fetus can be terminated. All these things come up.

Where, when you create children of any race through the dimension of the field of the universe, without what we call, gradual creation, which what happens in the womb of the mother, then you have the Totality, instead of going through that process. When you go Totality it's a commitment by everything. And it's a perfect field. You create a perfect plasma, that the interaction of it, creates a perfect child.

When you have a perfect star, a Solar System, then you create a perfect planet. (2:32). This is part of gradual understand. Gradually in. You know, nowadays, we go to clinics to have all sorts of conditions to create a child. In the near future through the whole system, we'll learn how to transfer energy without allowing defects in the process. When you create the perfect Sun, it creates a perfect physicality of the Solar System, or physicality. And not every Sun can exist in the same position. That's why we have different stars, or suns in different positions of the universe.

Would your child will be, or child of your Soul, which you lead to the creation of the interaction of the fields, decides to live in this universe, where its fields matches another universe, and you go to another universe to visit, or to make contact with, or be in touch with. We have a lot to learn yet.

I can spend the time from, since the Creation of this planet till now, to teach from now on to the same time laps, and it's still just scratch in the knowledge of the Creation, and not even get to the first step.

Any other questions? .. (2:34). ..

It's just that, please finish registration for the 19th and the 16th. As I said to many people, if you come on the 16th register for the 19th. But now more specifically, that's why we let you to have a taste on the 16th, and then on the 19th, which one you want to join? Because on the 19th is hourly sessions, with each. We will develop for bring in the technology or a structure that you cannot see all the participants. That does not allow a lot of things, which we don't desire to be there.

As I said, go to the Store. I hope by Monday it'll be, and join the scheme we set up, there's a reason for it. Then we'll tell you. Go for prevention, and if you have a problem that can lead to something else go for the enhancement, or just take a structure with it, because then we tell you, what's the reason for this when you go to the next steps.

In a way, we're hoping to buy next maybe, two years, to cover 80% of the world's population through this technology of wellness, feeding, and what you call, energy requirements, and communication. We are moving to negotiate with government, in a way, that we govern through governments you. It's set up in from the inside. (2:36).

But the biggest problem is, what we're going to do with so many unemployed people, from pharmaceutical, to medical doctors, to the train drivers, to the sailors, as one by one we hit. You'll see it there as prevention. But when I prevent today, nothing happens, the hospital surgeries, and doctor surgeries goes empty, because there's nobody going there to be sick. When you create the transportation, the airports doesn't mean anything. The ships have no meaning, the car industry is obsolete. What are you going to do with the next one, next cycle? We create new cycle of systems we need. But what are we going to do with millions of doctors with no job, because nobody's coming in to be sick.

Governments are breaking down through the burden of the pensions and covering sick people. The best solution is, you pay once and you don't have any sick people, we are the key. We know exactly where we're going to hit. Then it comes, you become the travelers of the Universe. This is where we are targeting it. Not by death, but by option.

There's a bigger plan for human race than you could ever imagine. As I said, you shouldn't have had ever understood the strength of what love is. Then Earth would never have been in this position of, becoming the center of, what I call, delivery of the ...

Try to understand today's knowledge. This answers a lot of your questions over decades and centuries. If you understood it, otherwise, it's just a noise.

Q: .. I've just looked into the Store and says, we have to register before the 10th, in two days time. I'm trying to get through to with Rafael for payment through Brazil.

K- Brazil situation is sorted, apparently yesterday.

Q: But we here in Argentina, we have a very big problem. We can't send money out of the country. I had that problem when I went over to Brasilia, so I paid over there in cash when I went to register.

K- We have specific cases, we have to look into.

Q: I'll put the details up in registration.

K- We cannot do that, because a lot of people abuse it. But individual cases, if you communicate through the same channels we're keeping, all the backlogs have been cleared in past two weeks, as I know. We try to find. You're the odd one out.

The Brazilian situation is, as I know with Rafael, is sorted out yesterday. So, if you live in Brazil, you register with the Keshe Foundation Brazil, you make payments through the office in Brazil, you get an invoice from them. (2:40). It's the same. If you live in Iran it's the same, you register.

Q: I mean Argentina, we are having problems.

K- Yeah, I know. ..You are one off. You understand? So, we have to find a solution around that position with you. But in Iran is sorted, in China is the same, a lot of Chinese sending the things through the PayPal. Or they can make the payments to the Keshe Foundation in GoJo or YinJang, and they put it up. The same goes with our, what you call, wellness conditions.

People in Brazil want to use their facilities of the doctors for whatever condition they have, they pay now directly to the offices in, what you call it, in Brazil. And the same goes with Tehran, the same goes with China and other places, we have enough spread of companies around the world to be able to accommodate this. And in odd cases, we have to look and see what we can, I'm aware of your condition, you're one off, or two off, in another way, we have to find a solution.

Try to link in with the, what we call, the "Enhancement full Universal Coverage," because we want to deal with the government's, and the more people we have under our, what we call, Universal Enhancement Coverage policies, gives us a much stronger negotiating position. (2:42). This is one of the main things we want to do.

There is a need for a change. But the change has to come by understanding, not by enforcement. I don't see why we need to harvest animals, as pigs, and cows, and sheep and whatever. Where now we can reach the essence of that condition that will satisfy our Soul. Would we ever crave for the steak, or god knows what.

It's one thing which I forgot, that I have to mention. Keshe Foundation is a service provider. We don't get involved in medical practices, we provide services for the, what we call, the medical teams around the world, for doctors and they use our technology. This week, we have come to understand a lot with again, processes which is going on and what exchange and development is. Some of you supported us with the two boys, we have started the process with them as of yesterday, and we will see what comes up and how they will change.

We still need the support for that, for the Foundation's underwriting all those expenses. We need, some of you helped us. We need much more help. We have seen beautiful changes in some others who are going through the same process.

Our doctors and our medical team in the background are reporting a huge success with cancer. (2:44). For this reason, today, we are launching for them, in the announcement as we know now, to contact Keshe Foundation through the channels which is put, that we put you in touch with the medical teams. We are looking for about 50, maybe 200 cancer cases. They want to test any condition. Up to this week our medical teams and others, we did not have enough data to support the, what we call, "mass cancer research."

And, what we call, we try, and today we have come to an understanding that, do not expect to be accepted by the doctors in one go. But understand that the most extreme cases of the cancer will be considered by our doctors around the world, as of this week. We forward your, what we call, your request to them, they decide, and then in what understanding comes in.

It has to be said, please do not get in touch and put your condition through the burden on our doctors in the Keshe Foundation team, that I have no money, but I have cancer. These has to be covered, we have brought every possibility for the Foundation to support this. But there is a minimum charge that if it's not met, the case will not be accepted. Because we have enough enquires around for other things, because a lot of people come in, we can do, and I've been there, and then they say, "oh, now I can do 20 Euro a month." (2:46). Sorry. We have a certain allocation for, what I call, support of cases which the Foundation will covered the cost. We cannot do for everyone, maybe one day it will come to that point. But at this moment, the doctors have put a valuation of and it has to cover the cost of all the things which takes. And if that's not met, the case will be reconsidered. Maybe in the future, but not at the moment.

The interest is to get to the more diverse cancer conditions. The request from the Keshe Foundation medical team, which we support is, 100 cases, 50 to 100 cases of the cancer will be considered as of today by medical groups around the Keshe Foundation for process. Because, in a way, it's the knowledge gained, and how we can help them to achieve what we call, their understanding and development of the next cycle of the systems. So, if you suffer or somebody you know from any condition of the cancer, the, what we call, the medical groups which work with us are ready to look into to accept, and the cost has to be covered from the outset. Not that I'll pay next week, next month or whatever.

There's a reason for this, and it has to be done very rapidly. So, if you came to the Foundation before with your loved ones or yourself, go through the same channel, the, what we call, we always gave the address. And then, (2:48). I think Rick has it, he can put it on the screen, contact the health section of the Keshe Foundation, they'll forward it to the doctors, and they come back and the process can start, as earlier as next week, because there's a part of the technology which we will like to know how they succeed that helps us with the setting of the next phase. So, if you contacted to the Keshe Foundation before for cancer, then our teams of doctors around the world are ready to consider now. As I said, even we said in the, what we put out as ads, it becomes available, you open channel by channel.

Go on the Keshe Foundation Store for registration of the, these are the 20 year contracts for wellness, comprehensive covering of the wellness. And then somewhere in the future a package will be offered per family, which means, we most probably, with the way we see it is, at the moment it looks too expensive. But in the future, we will look around about 15% of the family income to go for the wellness, the food, the energy, and everything else. We change it according to the National Statistics area by area.

If in China, or in Africa, a family has 1,000 Euro income a year. We cannot ask for 1,000 euro a month. But in America where a family earns 100,000 a year, 15,000 to cover, that it covers for the other part of the Keshe Foundation. It'll be something that we all help each other to come across. (2:50). This part of the development, which we see to go extended and beyond.

R: Is that email health@spaceshipinstitute.org? Is that what you're looking for?

K- Yeah. For these we adjust the mailbox, we forward these to the doctors and to each section. And it comes through them. I know they're looking for, they don't give any guarantees that we will, what you call it, bring you to wellness 100%, whatever, but we are there to support them to understand more, that we build systems for them in the future that they can be more efficient and more effective. But what I've seen it's amazing, what this new technology does with the conditions which there's no answer in the world of medicine. And it's remote, there's no medication, there's nothing, you just listen to the sound of the "music," as I call it.

R: Well, we certainly have lots and lots of testimonials of the Plasma Technology. Speaking in which, we do have the Testimonials meeting coming up on Monday, December 12. It starts at 8pm, Central European Time. And I'm sure we'll have dozens and dozens of testimonials there. In fact, we already have them lined up from the Brazilian community alone. So, people are invited to come to the Testimonials and give your testimonial as well. (2:52). It's a great way to pay back for receiving the knowledge, and you can share it with others. That's it's a great experience to do that.

K- Let's see what comes up and how things take shape. Most probably the 16th and 19th will teach us a lot. We ?? learn more. One of our data's we're looking at, especially

addiction. Friday and Monday it's then putting these through our doctors in a specific way, and deliver data to the governments, and to officials and the people who work in that line of addiction.

In a way, if you are, if you committed a crime and to satisfy your addiction, it doesn't matter what it is, we give you guarantees to the court that you will never commit such a crime again, because you'll never be addicted. This is how it'll be done. We give through the technology guarantees to governments and to nations, that man will not commit a crime through addiction. And we'll have a look.

As I said to somebody who was a doctor with us this Sunday in Linz, instead it comes to the point, that you doctors become the point of what I call, delivery, in a beautiful way. (2:54). There's something which a lot of doctors will understand, and it comes to the way you buy, like for example, now you go on the line buying food from the store. You go to the same store and you buy contracts with Keshe Foundation for delivery of the food. You don't receive it, but you get the contract through, for going online and getting what you need through your Soul.

We will put out early next year a franchise, that doctors become franchised through the Keshe Foundation. When the patients go to them, they put through the condition to the Foundation and through the same process, that we structure it that way. These are all getting set up in the background. That, you are a doctor, as I said to one of the doctors on Sunday, you sit in your office, somebody comes with the Fibromyalgia. Yes, it can be done, you just give them a headphone, you don't need nothing in your surgery, you make an arrangement with the Keshe Foundation team in the, what we call, the system banks. And this is the data of the person with the Fibromyalgia, or with the cancer, or whatever, the people here set up the system up, few sessions, and it's gone.

Seeing all sorts of MRIs and all sorts of gadgets in the doctor's room, it'll be removed. Because now, health will become centralized. And this is on the card 100% within the next five to ten years. You go to a doctor, you won't see anything but a chair and a headphone. Even diagnosis, we don't believe the diagnosis, because they make mistakes. (2:56). We have developed, we diagnose exact condition with us, before we deliver what we needed for recovery of the patient by the doctor. This is not anyone digital, it's a Plasma Technology, now it's in our hand, part of the 16th and 19th is part of this program, and this will carry on the same.

Energy delivered in mass down the telephone lines

Then it comes delivery of energy, whatever energy you need, you don't need with what we see now with our system, to go down the cables and highways down the road from power stations. The same way energy can be delivered as in mass, down the telephone lines. The Russians cannot boycott you anymore with no gases.

The communication will be the same, and the transportation will be the same. It's the beginning, now we have received the backing for it slowly, slowly. We'll see the change.

But we have to do all the tests, that when we go out we've done enough ground base covered by our scientists to understand. Thank you very much for today.

Those of you who have a cancer condition, or you know, and you can cover the cost to the doctors, to the teams, get in touch and I'm sure they'll be glad to see if they can bring that change to you. Thank you very much Rick, thank you for today.

I think today is one of the pivotal point teachings of the whole Keshe Foundation in past 20 years, if you understood, why we did all the work for past 20 years to bring you to today's teaching. (2:58).

Thank you very much.
